Alwyn H. Gentry

1945-1993

Alwyn Gentry, the world's leading expert on the flora of Latin America, died August 3, 1993, in a plane crash in coastal Ecuador while conducting an aerial survey of the Ecuadorian lowland forest as part of Conservation International's Rapid Assessment Program. Also killed in the crash were ornithologist Ted Parker and two Ecuadorians.

A long-time student of the Peruvian flora, Al was one of the pioneers in the area of blending traditional botanical field techniques with ecology and the latest technology to survey an area's ecosystem and recommend conservation measures. He was well aware of the hazards of the work he did. By his own admission, he accepted the risks and allowed no time for fear; there was always the lure of another undiscovered plant or pristine forest to draw him onward. During his career he made more than 80,000 collections, many from areas never before visited by scientists.

Al was born in Clay Center, Kansas, on January 6, 1945. He received his undergraduate degree from Kansas State University in 1967. Although he began his college career with the intention of studying physics, he switched to botany and went on to obtain an M.S. from the University of Wisconsin at Madison in 1969. He spent his entire professional career at the Missouri Botanical Garden, joining its staff immediately after receiving his Ph.D. from Washington University in 1972. Al's knowledge of woody tropical plants is legendary. Some of that knowledge remains in the form of his numerous publications, but much of it died with him. Perhaps his greatest legacy is the graduate students he left behind--a new generation of tropical biologists.

Al will be remembered as an adventurer, a scientist, a teacher, and a friend whose zest for life was unsurpassed. He died doing what he loved best--exploring the unknown.

Alwyn H. Gentry, gran experto mundial de la flora latinoamericana, falleció el 3 de agosto de 1993 en un accidente de avioneta en el Ecuador mientras llevaba a cabo una inspección aérea de los bosques ecuatorianos de la costa, como parte del Programa de Avaluación Rápida de Conservation International. También fallecieron en el accidente el ornitólogo Ted Parker y dos ecuatorianos.

Gentry, quien estudió por mucho años la flora peruana, fue uno de los pioneros en el arte de relacionar los métodos tradicionales de botánica de campo con la ecología y la tecnología más avanzada para las inspecciones del ecosistema de un área, y recomendar medidas de conservación. Estuvo conciente de los peligros del trabajo que realizaba. Por su propia admisión, aceptó los riesgos y no tenía tiempo para pensar en el peligro; siempre había la tentación de otra planta no descubierta o de bosques prístinos que lo llevaban adelante. Durante su carrera hizo más de 80.000 colecciones, muchas de ellas en áreas nunca antes exploradas por científicos.

Gentry nació en Clay Center, Kansas, el 6 de enero de 1945. Egresó de la Kansas State University en 1967. Aunque empezó su carrera universitaria con la intensión de estudiar física, se decidió por la botánica y siguió hasta obtener su Maestría en Ciencias de la University of Wisconsin at Madison en 1969. Desarrolló toda su carrera profesional en el Missouri Botanical Garden, uniéndose a la institución inmediatamente después de recibir su Ph.D. de Washington University en 1972. Los conocimientos de Gentry sobre las plantas tropicales son legendarios. Parte de su conocimiento quedó en forma de numerosas publicaciones, pero gran parte murió con él. Tal vez su mayor legado son los estudiantes graduados que dejó atrás--una nueva generación de biólogos tropicales.

Gentry será recordado como explorador, científico, profesor y amigo con un tremendo afán por la vida. Murió haciendo lo que más le gustaba--explorar lo desconocido.

Foreword

Electronic data processing, through its ability to handle large amounts of information rapidly and dependably, greatly expedites the work of systematic biology. At the Missouri Botanical Garden, we have, over the years, developed a large-scale relational database, TROPICOS, which is able to handle such information effectively. Descriptions in taxonomic papers can be generated directly from the information stored electronically, updated as new information becomes available, and searched for particular characteristics. Lists of organisms for particular regions, or in particular groups, can be produced, integrated with other lists, and generated on demand for particular purposes.

The present checklist of the flowering plants and gymnosperms of Peru, which includes 17,143 species, is the first comprehensive, edited listing of the plants of that biologically remarkable nation. It reveals that Peru is home to roughly as many vascular plant species as the United States, an area over seven times that of Peru. Most importantly, the catalogue will be updated as new information becomes available and is integrated with additional information on these plants in the database at the Garden. As an outline of the entire flora of Peru, this list effectively updates the treatments that have been published earlier, providing a comprehensive, contemporary account of the plants of the country. This information will be maintained, kept up-to-date, and made available on-line, becoming a resource of fundamental importance for understanding, properly managing, and conserving the plants of Peru. It is the third computerized checklist of the plants of an area in Latin America to be published based on the Missouri Botanical Garden's computer database, following the *Flora of Panama: Checklist and Index*, two parts, by W. G. D'Arcy (Monogr. Syst. Bot. Missouri Bot. Gard. 17 and 18. 1987) and *Lista anotada de las Plantas del Departamento del Chocó, Colombia* by Enrique Forero & Alwyn H. Gentry (Bibliot. José Jeronimo Triana 10. 1989).

With the rapid destruction of natural communities around the world, it has become urgent to have a better basis for dealing with the biodiversity that occurs in various regions. In Peru, where there is an especially rich diversity of plants and other organisms and relatively little knowledge about them, electronic data storage and retrieval provides a ready means for dealing with what is learned as rapidly as it accumulates. Checklists, therefore, not only provide the best available digest of available information, but they provide at any given time the most complete answers about what is known.

El procesamiento electrónico de datos, con su capacidad de analizar grandes volúmenes de información en forma rápida y eficaz, facilita enormemente el trabajo de la botánica sistemática. A lo largo de varios años el Missouri Botanical Garden ha venido desarrollando TROPICOS, una base de datos computarizada a gran escala que es capaz de manejar ese tipo de información. Utilizando este programa, se pueden generar descripciones para trabajos taxonómicos directamente a partir de la información acumulada electrónicamente, rastrear características particulares, y actualizar la base de datos con información más reciente. Se pueden producir listas de organismos de regiones o grupos en particular, integrar estas listas a otras, y generarlas para usos específicos. El actual catálogo de las angiospermas y gimnospermas del Perú incluye 17.143 especies y es la primera lista exhaustiva y editada de plantas de este país tan diverso biológicamente. El catálogo revela que el Perú alberga una cantidad similar de especies de plantas a la de los Estados Unidos, que tiene un área siete veces más grande. De especial importancia es el hecho que el catálogo será puesto al día continuamente con la nueva información disponible que se integre a TROPICOS. Con su cobertura total sobre la flora del Perú, el catálogo actualiza todos los tratamientos publicados con anterioridad y ofrece un documento contemporáneo e integrado sobre las plantas del país.

La información botánica será mantenida, actualizada y puesta a disposición continua de usuarios e interesados, constituyendo un recurso de importancia fundamental para entender, conservar y manejar apropiadamente las plantas peruanas. Se trata de la tercera lista computarizada de plantas latinoamericanas que se produzca con la base de datos del Missouri Botanical Garden, después de la *Flora of Panama: Checklist and Index*, preparada por W. G. D'Arcy (Monogr. Syst. Bot. Missouri Bot. Gard. 17 y 18. 1987) y la *Lista anotada de plantas del departamento de Chocó, Colombia* preparada por E. Forero y A. Gentry (Bibl. José Jerónimo Triana 10. 1989).

Con la rápida destrucción de comunidades vegetales naturales a nivel mundial, se hace urgente disponer de unos mejores criterios para interpretar la biodiversidad presente en diferentes regiones del planeta. El caso del Perú es representativo de un país con gran riqueza biológica pero poco estudiado; el manejo electrónico de información y su incorporación inmediata permite utilizar conocimientos sobre el tema sin demora. Los catálogos, por ende, representan no sólo una fuente de información de fácil acceso, sino que proveen de respuestas completas sobre lo que conocemos en un momento dado.

Human beings are consuming, wasting, or diverting an estimated 40 percent of net terrestrial photosynthetic output at present, our population having grown from 2.5 billion in 1950 to 5.5 billion today. The combination of overconsumption in industrialized countries and rapid population growth throughout the world is likely to lead to even more severe environmental problems in the future than those we are experiencing now. Half of all tropical forests have been cut since the end of World War II, and few will remain by the middle of the next century, by which time the human population may have doubled in size. It is ironic that this destruction is taking place just as we are starting to learn more about the principles by which organisms can be used much more efficiently to meet our collective needs. In the face of this destruction, we need more efficient means of learning about and dealing with plant resources, and this checklist provides a good example of what is possible.

By including distribution and status (endemic, native, introduced), it is possible to generate lists of number of species or number of endemics for each subdivision of a given country; thus, one can readily determine, on the basis of available knowledge, which areas of the country are rich or poor in endemics or species in general, and estimate the degree of available knowledge. For these reasons, this database will serve as a powerful tool for planning future research and for managing the plant resources of Peru for human benefit, including addressing problems of their conservation.

Information of the kind included in this catalogue, on an on-line basis, is equally useful for many other areas. For these reasons, Missouri Botanical Garden staff members are currently working on, or collaborating in the preparation of, comparable databases for China, the former Soviet Union, Ecuador, Madagascar, all of Africa, Mesoamerica, and tropical Asia, with emphasis on the *Flora Malesiana* area.

The production of databases or checklists would not be possible without the collaboration of numerous specialists. To enable these scientists to interact with and improve these databases on an ongoing basis, they will all be available on-line. Partly as a result of this strategy, we hope that we are leaving behind the time when specialists worked in isolation, each with his or her own files of information, and moving into a period that will result in the production of a worldwide database on all plants, that will be freely accessible to all who have need for the information.

Peter H. Raven
Director
Missouri Botanical Garden

Hoy en día, los seres humanos estamos consumiendo y desperdiciando aproximadamente el 40% del producto fotosintético terrestre, con una población en aumento de 2.5 mil millones en 1950 a 5.5 mil millones actualmente. Con el sobreconsumo de los países industrializados y el crecimiento acelerado de la población a nivel mundial, es muy posible que conduzca en el futuro a problemas ambientales más graves de los que experimentamos actualmente. La mitad de todos los bosques tropicales del mundo han sido talados desde el final de la segunda guerra mundial, y pocos van a mantenerse hasta mediados del próximo siglo, en un momento en que la población humana se habrá duplicado. Es irónico que esta destrucción esté tomando lugar justamente cuando estamos comenzando a aprender más sobre los principios por los cuales los organismos pueden ser usados más eficientemente para satisfacer nuestras necesidades colectivas. Frente a esta destrucción, necesitamos medios más efectivos para conocer y manejar los recursos vegetales, y este catálogo provee un buen ejemplo de lo que se puede hacer.

Con la información en catálogos sobre la distribución y status de las plantas (endémicas, nativas, introducidas), se pueden generar listas de los números de especies endémicas para cada subdivisión del área en cuestión; de este modo se pueden detectar rapidamente cuáles son las áreas ricas en endemismos, y estimar los niveles de conocimiento existentes sobre ellas. Por ello esta base de datos servirá sin duda como una herramienta poderosa para planificar la investigación futura y para manejar los recursos del Perú para beneficio humano, incluyendo la gestión de problemas de conservación.

Información como la que se incluye en este catálogo, integrada a un sistema computarizado de acceso continuo, servirá para muchas otras disciplinas. Por estas razones, los investigadores del Missouri Botanical Garden se encuentran trabajando en la preparación de bases de datos comparables para la China, las anteriores repúblicas soviéticas, Ecuador, Madagascar, Africa, Mesoamérica, y Asia tropical, particularmente el área de la Flora Malesiana.

Este catálogo se hizo con la colaboración de numerosos especialistas. Para permitir que ellos sigan utilizando y mejorando la base de datos, ésta será de acceso abierto. Así, esperamos dejar atrás épocas en las que los especialistas trabajaban aisladamente, cada uno con sus propios archivos de información, y avanzar hacia una etapa que resultará en la producción de una base de datos mundial, accesible libremente a todos aquellos que precisen la información.

Introduction

This catalogue provides an annotated listing of the 17,143 species of flowering plants and gymnosperms in 2,458 genera and 224 families known to occur in Peru. The four largest families (Orchidaceae, Asteraceae, Fabaceae, and Piperaceae) contain 28% of the species, and the largest twelve families make up half of the species here recorded. The six largest genera (*Piper, Peperomia, Miconia, Solanum, Epidendrum,* and *Senecio*) contain 10.2% of the Peruvian species and the top 20 genera include 19% of the reported flora. Other statistical data on the flora are presented in Tables 1 to 5. Ferns and fern allies are not included here, because four of five volumes of a complete revision of the pteridophytes of Peru have recently been published (Tryon & Stolze 1989a, b, 1991, 1992), and the final volume is in preparation.

The catalogue accounts for all plants reported in the published volumes of the *Flora of Peru,* as well as specimen-based records gathered from the collections of the Missouri Botanical Garden (MO), the Field Museum of Natural History in Chicago (F), the Universidad Nacional Mayor de San Marcos (USM), and other herbaria as noted. Nearly 2,800 literature references were consulted and are cited in this work.

Plant families are presented alphabetically first within the gymnosperms then within the angiosperms. Except where noted, genera are placed within families following *The Plant-Book* by Mabberly (1989) . Each species entry includes the appropriate author citations, synonyms relevant to Peru, bibliographic citations for the *Flora of Peru* volumes, citations to modern references, plant habits, distribution by departments, and indication of whether the species is cultivated, endemic, or introduced to Peru. Voucher collections are cited, and special notes are sometimes provided to clarify nomenclatural status or for additional information. New combinations and new names for Peruvian plants are validated in Appendix 1.

Table 1 summarizes information about each family including the number of genera and species, endemics, species per genus, and percent endemic species. Families with twenty or more species reported from Peru are listed in Table 2, which is arranged in descending order by number of species per family and includes the same summary information found in Table 1. Genera with forty or more species in Peru are listed in Table 3 with an account of number of species, endemic species and percent endemics. Table 4 lists the number of genera with forty or fewer species represented in Peru. An index to family treatments in the Flora of Peru is presented in Table 5.

This publication is part of an effort by the Missouri Botanical Garden to establish and maintain an on-line, continually improving database of information on the

Este catálogo presenta una lista anotada de las gimnospermas y angiospermas conocidas hasta ahora en el Perú, que suman 17.143 especies en 2.458 géneros y 224 familias. Las cuatro familias más grandes (Orchidaceae, Asteraceae, Fabaceae y Piperaceae) contienen el 28% del total de especies, y las 12 familias más grandes contienen más de la mitad del total de las especies conocidas. Los seis géneros más grandes (*Piper, Peperomia, Miconia, Solanum, Epidendrum* y *Senecio*) contienen el 10.2% del total de las especies peruanas, y los 20 géneros más grandes contienen el 19% del total de las especies reportadas. Otras estadísticas de la flora peruana se presentan en las Tablas 1 a 5. Los helechos y plantas afines no se incluyen en este catálogo, puesto que cuatro de cinco volúmenes de la revisión completa de pteridófitos peruanos han sido recientemente publicados (Tyron & Stolze 1989a, b, 1991, 1992), y el quinto volumen está en preparación.

El presente catálogo pormenoriza todas las plantas reportadas en los volúmenes publicados de la *Flora of Peru*, así como registros adicionales basados en especímenes de los herbarios del Missouri Botanical Garden (MO), Field Museum of Natural History, Chicago (F), Universidad Nacional Mayor de San Marcos (USM) y otros debidamente consignados. Cerca de 2.800 referencias bibliográficas fueron consultadas y se hallan citadas en el trabajo. Las familias botánicas se presentan en orden alfabético, primero las gimnospermas y luego las angiospermas. Con pocas excepciones, los géneros se han ordenado en cada familia de acuerdo a *The Plant-Book* (Mabberly, 1989). Para cada especie se cita su autor o autores, los sinónimos relevantes para el Perú, la cita bibliográfica para los volúmenes de la *Flora of Peru*, citas de fuentes bibliográficas más recientes, el hábito de la planta en cuestión, su distribución por departamentos, y una indicación de si se trata de una especie cultivada, endémica o introducida en el Perú. Se citan asimismo especímenes representativos, y en algunos casos se añaden notas para aclarar la nomenclatura y otra información. Combinaciones taxonómicas nuevas y nombres nuevos de especies peruanas se publican válidamente en el Apéndice 1; el Apéndice 2 provee un índice de las familias y géneros, con el número de especies y especies endémicas. El Apéndice 3 incluye una lista alfabética de géneros con su familia correspondiente.

En la Tabla 1 se resume información sobre cada familia que incluye número de géneros y especies, especies endémicas, especies por género y porcentaje de especies endémicas. Las familias con veinte o más especies reportadas en el Perú se presentan en la Tabla 2, en orden decreciente acorde al número de especies; los géneros con cuarenta o más especies aparecen en la

plants of Peru. It was produced using the TROPICOS database and is part of the Garden's program of botanical information management.

Acknowledgements

The catalogue is the result of a collaborative research effort by the staff of the Missouri Botanical Garden, botanists at Peruvian institutions, and plant specialists around the world. The production of this catalogue was made possible by the Andrew W. Mellon Foundation. The activities in Peru which generated much of the new information have been supported by the John D. and Catherine T. MacArthur Foundation, the Andrew W. Mellon Foundation, the U.S. National Science Foundation, and the National Geographic Society. Kay L. Tomlinson assisted in preparing and editing treatments and in coordinating the activities of collaborators and data entry personnel. The project could not have been completed without the assistance of Amada Pedroni-González, who entered data for the majority of the published volumes of the *Flora of Peru* and assisted with all aspects of the project. Amy Pool, Myra Guzmán-Teare, Anne Keats Smith, Diane Cutaia, Cirri Moran, and Margaret Hartung also made significant contributions to the completion of the work. Carlos Reynel kindly translated the introductory material into Spanish.

Individual contributors are acknowledged at the end of the introduction. We thank the herbarium staff of the Field Museum of Natural History in Chicago (F), the Universidad Nacional Mayor de San Marcos (USM), The New York Botanical Garden (NY), the Smithsonian Institution (US), and the University of California at Berkeley (UC) for their logistic assistance, with special thanks to Michael O. Dillon, Nancy Hensold, Robin B. Foster, Christine Niezgoda, Magda Chanco, Oscar Tovar, Andrew Henderson, Jacqueline Kallunki, Dieter C. Wasshausen, and Pedro Acevedo. Additional thanks are extended to the Royal Botanic Gardens, Kew (K), for providing a copy of the relevant data subset from *Index Kewensis*.

Paul E. Berry, Peter M. Jørgensen, Blanca León, Robert E. Magill, Carlos Reynel, David N. Smith, Carmen Ulloa, and Ken Young all provided valuable input during the development of the catalogue.

Tabla 3, con indicación del número de especies por género, número de especies endémicas por género y sus porcentajes. La Tabla 4 muestra los números de géneros con cuarenta o menos especies presentes en el Perú. Un índice a los tratamientos de cada familia en la *Flora of Peru* se presenta en la Tabla 5.

Esta publicación es un esfuerzo del Missouri Botanical Garden para establecer y mantener una base de datos actualizada de información sobre las plantas peruanas. La información se procesó en el programa TROPICOS, base de datos especialmente diseñada por el Jardín para el manejo de información botánica.

Agradecimientos

Este trabajo es el resultado del esfuerzo cooperativo de profesionales del Missouri Botanical Garden, profesionales de instituciones peruanas y botánicos especialistas de todo el mundo. El catálogo se produjo gracias al apoyo financiero de la Andrew W. Mellon Foundation. Las actividades en el Perú que generaron mucha de la información nueva presentada en el catálogo fueron financiadas por la John D. and Catherine T. MacArthur Foundation, la Andrew W. Mellon Foundation, la U.S. National Science Foundation, y la National Geographic Society. Kay L. Tomlinson asistió en la preparación y edición de las tratamientos; también coordinó la contribución de diferentes botánicos y las personas que ingresaron la información en la base de datos. El proyecto contó con la valiosa asistencia de Amada Pedroni-González, quien ingresó a la base de datos la información de gran parte de los volúmenes de la *Flora of Peru* y ayudó en otros aspectos del trabajo. Amy Pool, Myra Guzmán-Teare, Anne Keats Smith, Diane Cutaia, Cirri Moran y Margaret Hartung aportaron también su valioso apoyo para la culminación del trabajo. Carlos Reynel se encargó de la traducción de la introducción al español.

Las contribuciones individuales se agradecen al final de la introducción. Se debe mencionar asimismo el apoyo del personal del Field Museum of Natural History, Chicago (F), la Universidad Nacional Mayor de San Marcos (USM), el New York Botanical Garden (NY), el Smithsonian Institution (US) y la University of California, Berkely (UC) por su apoyo logístico, con agradecimiento especial a Michael O. Dillon, Nancy Hensold, Robin B. Foster, Christine Niezgoda, Magda Chanco, Oscar Tovar, Andrew Henderson, Jacqueline Kallunki, Dieter C. Wasshausen y Pedro Acevedo. Se consigna un agradecimiento adicional al Royal Botanical Garden, Kew (K), que facilitó una copia de la información relevante del *Index Kewensis*.

Paul E. Berry, Peter M. Jøgensen, Blanca León, Robert Magill, Carlos Reynel, David N. Smith, Carmen Ulloa Ulloa y Ken Young aportaron su valiosa contribución durante el desarrollo del catálogo.

Format for the Catalogue/Formato Modelo para el Catálogo

(See following pages for further details)

1)	Accepted name and authors	**Bulbostylis capillaris** (L.) C. B. Clarke	1) Nombre aceptado y autores
2)	Synonyms	Syn. *Isolepis ciliata* J. S Presl & C. Presl, *Scirpus capillaris* L., *Stenophyllus capillaris* (L.) Britton, *Stenophyllus eucapillaris* fo. *ciliata* (J. S. Presl & C. Presl) H. Pfeiffer	2) Sinónimos
3)	References	Ref. FP 13(1/1) 1936: 283; Kral, 1971: 98.	3) Referencias
4)	Habit. Region: ecology. Elevational range.	Herb. Andean I: disturbed areas, rocky slopes. 500-1500 m.	4) Hábito. Región: ecología. Rango altitudinal.
5)	Voucher	Voucher: Killip & Smith 22609 (NY!)	5) Ejemplar representativo
6)	Departments	Depts.: AM, AY, CU, HU, JU, PU	6) Departamentos
7)	Synonym cross-referenced to accepted name	*Bulbostylis capillaris* var. *coarctata* (Elliott) J. F. Macbride = Bulbostylis ciliatifolia var. coarctata (Elliott) Kral Ref. FP 13(1/1) 1936: 284; Kral, 1971: 96. **Bulbostylis ciliatifolia** (Elliott) Fernald var. **coarctata** (Elliott) Kral Syn. *Bulbostylis capillaris* var. *coarctata* (Elliott) J. F. Macbride, ... Ref. Kral, 1971: 96.	7) Sinónimo con referencia al nombre aceptado
8)	Notes	Note: Not reconfirmed. No Peruvian specimens are cited by Kral (1971).	8) Notas
9)	Names incorrectly included in the Flora of Peru.	[*Scirpus* pauciflorus Lightfoot = Eleocharis pauciflorus (Lightfoot) Link] Ref. FP 13(1/1) 1936: 293. Note: Not known from Peru. *Eleocharis pauciflorus* is a North American taxon, therefore the Flora of Peru citation is probably based on a misidentification.	9) Nombres erróneos usados en la Flora of Peru.

Details of the Format

1) Accepted names appear in **bold** face type. They have been confirmed in the literature cited in item 3 or by herbarium specimens cited on the voucher line (item 5). An attempt was made to locate all relevant literature, and F, MO, NY, USM, and US were consulted for specimen records. Author names follow the Draft Index of Author Abbreviations (Kew, 1980), but the last name is spelled in full, and with some abbreviations of common authors such as "L." for Linnaeus and "R. & P." for Ruíz López & Pavón.

2) Synonyms appear in italics following the accepted name and also as individual entries cross-referenced to the accepted names (item 7). All basionyms and synonyms listed in the Flora of Peru are accounted for along with select relevant synonyms.

3) The Flora of Peru reference is indicated by "FP" followed by the volume number (the part/subpart in parentheses), year of publication and page number. Other references used in evaluating the taxa are listed by author, year of publication, and page number. These general references are included to provide access to more complete information about the taxon and the basis for its inclusion in the checklist. Full bibliographic entries appear in a separate bibliographic section.

4) Data on status, habit, ecology and elevation were gathered from literature reports, label data and from personal communication with taxonomic specialists. In some cases this information may be incomplete or lacking as explained in the note field. The terms used to refer to the origin of the plant include: endemic, introduced and cultivated. This work does not include a complete list of cultivated taxa, only cultivated taxa reported in the literature or encountered as herbarium specimens are included. If a status term is not listed, it is assumed the plant is native to Peru. The types of habit include: herb (aquatic, epiphytic, hemiepiphytic, parasitic, saprophytic), liana, shrub, subshrub, tree, or vine. Some specialized terms are used in families where necessary. The ecological

Detalles de Modelo

1) Los nombres aceptados aparecen en **negrita**. Estos nombres han sido confirmados en la literatura citada en la línea 3, o mediante ejemplares de herbario citados en la línea 5. Se hizo un intento de encontrar toda la literatura pertinente, y se consultaron los herbarios F, MO, NY, USM, y US en busca de ejemplares. Los nombres de los autores están de acuerdo con el "Draft Index of Author Abbreviations" (Kew, 1980), pero los apellidos no han sido abreviados y se abreviaron ciertos autores comunes como por ejemplo "L." para Linneo y R.& P. para Ruiz López y Pavón.

2) Los sinónimos aparecen en letra itálica a continuación del nombre aceptado. También aparecen individualmente indicando su nombre aceptado (la línea 7). Todos los basónimos y sinónimos que aparecen en la Flora of Perú también aparecen en esta lista; adicionalmente otros sinónimos de importancia: nombres basados en el material tipo de Perú, basónimos y nombres usados comúnmente.

3) "FP" es la abreviación para "Flora of Peru", seguida por el número del volumen y la parte/subparte en paréntesis, año de la publicación y el número de la página. Las otras referencias citadas están listadas por autor, año de publicación y el número de la página. Estas referencias fueron incluidas para proveer una información más completa acerca del taxon y el porqué se ha incluido en esta lista. La referencia completa de la bibliografía aparecerá en una sección bibliográfica.

4) Los datos sobre el origen, hábito de crecimiento, ecología y elevación fueron adquiridos de la literatura, etiquetas de ejemplares y por comunicación personal de los taxónomos especialistas. En algunas circumstancias, esta información está incompleta o no existe del todo, en cuyo caso aparece una nota en la línea 10. Los términos usados para referir el origen de las plantas son los siguientes: endémicas, cultivadas e introducidas. En este trabajo no se pretende incluir una lista completa de los taxa cultivados, por lo tanto, solamente aquellos taxa cultivados indicados en la literatura o en ejemplares de herbario son incluidos. Si el origen de una planta no está indicado, ello significa que la planta es nativa del Perú. Los tipos de hábito considerados son:

information for each taxon is listed first by broad regional terms, then by general habitat categories. The information does not represent a particular ecological scheme, but rather is a pragmatic compilation of terms used in the literature and on specimen labels. For map indicating elevations, see endpapers. The categories are as follows:

Regions:

Amazonian = "Selva," the eastern lowlands, elevation ca. 100-500 m.

Andean = "Sierra," the central Andean region with three elevational units:

I = 500-1500 m - low montane areas
II = 1500-3500 m - montane areas
III = above 3500 m - high montane areas

Coastal = "Costa," western Peru, elevation 0-1000 m

Habitat data has been gathered from published reports and from herbarium labels. The following categories are used as defined below:

Deserts - arid areas restricted to coastal Peru.

Disturbed areas - areas where vegetation has been markedly altered, such as cultivated fields, roadsides, and urban areas.

Forests - areas dominated by trees. Subcategories may include cloud forests, dry forests, elfin forests, seasonally inundated forests, and terre firme forests.

Grasslands - areas dominated by grasses.

Lomas - coastal fog zone areas.

Rocky slopes - areas with cliffs, rock outcrops, rock formations, or scree slopes.

Shrublands - areas dominated by shrubs; scrub.

Open wet areas such as bogs, swamps, and riversides.

hierba (acuática, epífita, hemiepífita, parásita, saprofítica), liana, arbusto, subarbusto, árbol o enredadera. La información ecológica para cada taxon está listada primero en términos amplios regionales, y segundo en categorías generales de habitat. La forma como esta información se ha organizado obedece a la finalidad práctica de este documento y no pretende constituir un esquema particular de clasificación ecológica. Vea los mapas altitudinales en las cubiertas interiores. Las categorías son:

Regiones:

Amazónica = "Selva," región de las tierras bajas del este, con elevaciones de ca. 100-500 m

Andina = "Sierra," la región central Andina con tres unidades de elevación:

I = 500-1500 m: áreas de montañas bajas
II = 1500-3500 m: áreas de montañas
III = Arriba de 3500 m = áreas de montañas altas

Costa = Región oeste del Perú, con elevaciones de 0-1000 m

La información sobre el habitat ha sido adquirida de la bibliografía y etiquetas de ejemplares de herbario. Se usan las siguientes categorías:

Desiertos - Zonas áridas restringidas a la costa del Perú.

Zonas Alteradas - Zonas donde la vegetación natural ha sido muy modificada, tales como campos cultivados, orillas de caminos, y zonas urbanas.

Bosques - Areas dominadas por árboles. Algunas subcategorías son: bosque de neblina, bosque seco, bosque enano, bosque inundado estacionalmente, y bosque de tierra firme.

Pastizales - Zonas donde predominan los pastos.

Lomas - Zonas de la costa, con vegetación de neblina.

Pendientes rocosas - Zonas de pendiente, con afloramientos rocosos.

Matorral - Zonas dominadas por arbustos; matorrales.

Zonas acuáticas abiertas - pantanos, orillas de ríos, arroyos, o lagos.

Elevational ranges have been compiled into 500 m units,with only upper and lower limits indicated.

5) Only one representative voucher specimen is listed for each name, except for cases where the type material of the accepted name was collected from Peru, when both the type collection (marked with an asterisk) and one additional collection are listed. The voucher lists the collector's name and collection number, followed by the herbarium acronym, with an exclamation mark indicating collections seen by the preparer of the treatment or by collaborators. Only one U.S. and/or one Peruvian herbarium is listed for each vouchers. Herbarium acronyms follow Index Herbariorum ed 8. When no Peruvian collections of a taxon were located, the basis for inclusion of the taxon is given as a note.

6) Distribution within Peruvian departments is compiled from literature and herbarium reports. See endpapers for departmental locations. The following abbreviations are used:

AM = Amazonas
AN = Ancash
AP = Apurímac
AR = Arequipa
AY = Ayacucho
CA = Cajamarca
CU = Cuzco
HU = Huánuco
HV = Huancavelica
IC = Ica
JU = Junín
LA = Lambayeque

7) Synonym entries are discussed under item 2.

8) A note is included for information when necessary. For cases where a taxon is reported in the literature to occur in Peru, but no herbarium specimens have been examined by the authors or collaborators, the note "Not reconfirmed" is used.

9) Names used in the Flora of Peru that are judged to be based on misidentifications, misinterpretation of the name, or locality errors are indicated inside square brackets along with the page reference and a note. They are not treated as accepted names in the catalogue.

Los rangos de elevación ha sido dividido en unidades de 500 m, indicándose solamente los límites inferior y superior.

5) Para cada nombre científico se lista un ejemplar representativo, a menos que el tipo haya sido colectado en el Perú. Si es así, se citan dos ejemplares, el tipo con un asterisco y otro ejemplar representativo de la colección general. El ejemplar representativo indica el nombre del colector, y el número seguido por la sigla del herbario con un signo de exclamación indicando que el ejemplar fue examinado durante la preparación del presente documento. Las siglas de herbarios siguen el formato del "Index Herbariorum". Cuando no se pudo localizar un ejemplar peruano de un taxon dado, se explica en la línea 10 (notas) porqué se incluyó el taxon en cuestión.

6) La distribución de las plantas (taxa) dentro de los departamentos en el Perú fue obtenida de la literatura y de reportes de herbario. Vea las cubiertas interiores para la ubicación de los departamentos. Se han empleado las siguientas abreviaturas para los departamentos:

LI = Lima
LL = La Libertad
LO = Loreto
MD = Madre de Dios
MO = Moquegua
PA = Pasco
PI = Piura
PU = Puno
SM = San Martín
TA = Tacna
TU = Tumbes
UC = Ucayali

7) Los sinónimos están explicados en la línea 2.

8) Se incluye una nota cuando alguna información adicional es necesaria. Cuando el taxon ha sido reportado en el Perú pero los autores o colaboradores no han examinado los ejemplares de herbario, se consigna "No reconfirmado."

9) Los nombres usados en la Flora of Peru basados en identificaciones incorrectas, mala interpretación de nombres científicos, o errores en las localidades, son indicados usando corchetes anotándose la página de referencia y consignando una nota. Estos nombres no son tratados como válidos en este catálogo.

Other abbreviations

The following botanical latin abbreviations are used after species names for clarification of taxonomic or nomenclatural status:

ex = from - used in the author citations of names to link the name of an author who has not validly published a name with that of the author who validated the same name

incert. sed. = incertae sedis - of uncertain affinities.

nom. cons. [prop.] = nomen conservandum [propositum] - a name conserved [or proposed for conservation] in the International Code of Botanical Nomenclature.

nom. illeg. = nomen illegitimum - an illegitimate name.

nom. nud. = nomen nudum - a name unaccompanied by a description or reference to a published description.

nom. prov. = nomen provisorium - a provisional name.

nom. rejic. = nomen rejiciendum - a name to be rejected.

nom. superfl. = nomen superfluum - a name superfluous when published.

p.p. = pro parte - in part.

pro sp. = pro species - published as a species.

pro syn. = pro synonym - published as a synonym.

Otras abreviaturas

Las siguientes abreviaturas de latín botánico son usadas luego de los nombres de especies para clarificar su situación taxonómica o nomenclatural:

ex = de - usado en la cita del autor de un nombre para hacer referencia al autor que ha publicado inválidamente un nombre, y el autor que publicó el mismo nombre válidamente.

incert. sed. = incertae sedis - con posición incierta.

nom. cons. [prop.] = nomen conservandum [propositum] - nombre conservado [o propuesto para ser conservado] en el código Internacional de Nomenclatura Botánica.

nom. illeg. = nomen illegitimum - nombre ilegítimo.

nom. nud. = nomen nudum - nombre no acompañado por una descripción válida.

nom. prov. = nomen provisorium - nombre provisional.

nom. rejic. = nomen rejiciendum - nombre a ser rechazado.

nom. superfl. = nomen superfluum - publicado como nombre superfluo.

p.p. = pro parte - en parte.

pro sp. = pro species - publicado como especie.

pro syn. = pro synonym - publicado como sinónimo.

TABLE 1. Summary of Plant Families Recorded for Peru, with Numbers of Genera and Species Including Endemics, Species per Genus, and Percent Endemic Species.

	Genera	End. Genera*	Species	End. Species	Species/ Genus	% Endemic
Gymnosperms:						
Araucariaceae	1	0	1	0	1.0	0
Cupressaceae	1	0	2	0	2.0	0
Cycadaceae	2	0	4	0	2.0	0
Ephedraceae	1	0	3	0	3.0	0
Ginkgoaceae	1	0	1	0	1.0	0
Gnetaceae	1	0	2	0	2.0	0
Pinaceae	1	0	1	0	1.0	0
Podocarpaceae	3	0	10	1	3.3	10
Gymnosperm subtotal	11	0	24	1	2.2	4.2
Angiosperms:						
Acanthaceae	39	5	262	57	6.7	21.8
Achatocarpaceae	1	0	2	0	2.0	0
Actinidiaceae	1	0	11	6	11.0	54.5
Aizoaceae	6	0	12	0	2.0	0
Alismataceae	2	0	13	0	6.5	0
Alzateaceae	1	0	1	0	1.0	0
Amaranthaceae	12	0	70	10	5.8	14.3
Amaryllidaceae	25	3	135	54	5.4	40.0
Anacardiaceae	12	0	32	6	2.7	18.8
Anisophylleaceae	1	0	1	0	1.0	0
Annonaceae	23	0	193	41	8.4	21.2
Apiaceae	29	1	88	26	3.0	29.5
Apocynaceae	37	0	154	18	4.2	11.7
Aquifoliaceae	1	0	29	21	29.0	72.4
Araceae	26	1	218	40	8.4	18.3
Araliaceae	6	0	76	40	12.7	52.6
Arecaceae	33	0	145	19	4.4	13.1
Aristolochiaceae	1	0	40	16	40.0	40.0
Asclepiadaceae	27	0	106	44	3.9	41.5
Asteraceae	222	14	1432	729	6.5	50.9
Balanophoraceae	6	0	10	0	1.7	0
Balsaminaceae	1	0	2	0	2.0	0
Basellaceae	3	0	8	0	2.7	0
Bataceae	1	0	1	0	1.0	0
Begoniaceae	1	0	76	38	76.0	50.0
Berberidaceae	1	0	32	18	32.0	56.2
Betulaceae	1	0	1	0	1.0	0
Bignoniaceae	47	0	166	13	3.5	7.8
Bixaceae	3	0	8	0	2.7	0
Bombacaceae	14	0	47	9	3.4	19.1
Boraginaceae	16	0	131	36	8.2	27.5
Brassicaceae	27	2	104	28	3.9	26.9
Bromeliaceae	17	0	420	239	24.7	56.9
Brunelliaceae	1	0	12	9	12.0	75.0
Burmanniaceae	8	0	16	1	2.0	6.2
Burseraceae	6	0	45	4	7.5	8.9
Buxaceae	1	0	2	1	2.0	50.0
Cabombaceae	1	0	2	0	2.0	0
Cactaceae	40	11	247	186	6.2	75.3
Callitrichaceae	1	0	3	0	3.0	0
Calyceraceae	3	0	3	0	1.0	0
Campanulaceae	11	0	163	28	14.8	17.2
Cannabaceae	1	0	1	0	1.0	0
Cannaceae	1	0	8	1	8.0	12.5
Capparaceae	6	0	45	6	7.5	13.3
Caprifoliaceae	3	0	16	4	5.3	25.0
Caricaceae	2	0	14	4	7.0	28.6
Caryocaraceae	2	0	8	2	4.0	25.0
Caryophyllaceae	19	0	126	41	6.6	32.5
Cecropiaceae	3	0	49	10	16.3	20.4
Celastraceae	8	0	27	6	3.4	22.2
Ceratophyllaceae	1	0	2	0	2.0	0
Chenopodiaceae	4	0	20	1	5.0	5.0
Chloranthaceae	1	0	14	3	14.0	21.4

Table 5. Family Treatments in the Flora of Peru with Authorship Indicated if not by J. F. Macbride. Families have generally been standardized according to Mabberley (1989) in *The Plant-Book*.

Actinidiaceae ....13(3A/2): 677-686. 1956.
Aizoaceae ....13(2/2): 558-562. 1937.
Alismataceae....13(1/1): 91-94. 1936.
Amaranthaceae (P. C. Standley)....13(2/2): 478-518. 1937.
Amaryllidaceae....13(1/3): 631-690. 1936.
Anacardiaceae....13(3A/1): 238-258. 1951.
Annonaceae (R. E. Fries)....13(2/3): 700-766. 1938.
Apocynaceae ....13(5/1): 363-455. 1959.
Aquifoliaceae....13(3A/1): 270-287. 1951.
Apiaceae
(M. E. Mathias & L. Constance)13(5A/1): 3-97. 1962.
Araceae....13(1/3): 428-486. 1936.
Araliaceae....13(5/1): 8-44. 1959.
Arecaceae 13(1/2) 321-418. 1960.
Aristolochiaceae ....13(2/2): 431-443. 1937.
Asteraceae (Compositae)
Vernonieae (S. B. Jones)....n.s. 5: 22-73. 1980.
Anthemideae (M. O. Dillon). ....n.s. 7: 1-21. 1981.
Cardueae (M. O. Dillon)....n.s. 10: 1-8. 1982.
Eupatorieae–*Mikania*
(W. C. Holmes & S. McDaniel) n.s. 9: 1-56. 1982.
Vernonieae [Additions] (M. O. Dillon) n.s. 11: 1-7. 1982.
Inuleae (M. O. Dillon & A. Sagástegui) n.s. 26: 1-70. 1991.
Balanophoraceae....13(2/2): 427-431. 1937.
Basellaceae....13(2/2): 573-578. 1937.
Bataceae ....13(2/2): 546. 1937.
Begoniaceae
(L. B. Smith & B. G. Schubert) 13(4/1): 181-202. 1941.
Berberidaceae ....13(2/3): 665-680. 1938.
Betulaceae....13(2/2): 267-268. 1937.
Bignoniaceae ....13(5C/1): 3-101. 1961.
Bombacaceae ....13(3A/2): 593-622. 1956.
Boraginaceae ....13(5/2): 539-609. 1960.
Brassicaceae ....13(2/3): 937-983. 1938.
Bromeliaceae (L. B. Smith) ....13(1/3): 495-592. 1936.
Burmanniaceae....13(1/3): 767-768. 1936.
Burseraceae....13(3/2): 703-717. 1949.
Butomaceae....13(1/1): 94-95. 1936.
Buxaceae ....13(3A/1): 220-221. 1951.
Callitrichaceae (N. C. Fassett)....13(3A/1): 235-237. 1951.
Calyceraceae ....13(6/2): 489-491. 1937.
Campanulaceae (F. E. Wimmer) ....13(6/2): 383-489. 1937.
Cannaceae....13(1/3): 738-741. 1936.
Capparaceae ....13(2/3): 984-1006. 1938.
Caprifoliaceae (E. P. Killip)....13(6/2): 281-287. 1937.
Caricaceae ....13(4/1): 132-143. 1941.
Caryocaraceae....13(3A/2): 697-703. 1956.
Caryophyllaceae ....13(2/2): 578-638. 1937.
Celastraceae ....13(3A/1): 259-270. 1951.
Chenopodiaceae (P. C. Standley)....13(2/2): 469-478. 1937.
Chloranthaceae....13(2/2): 257-260. 1937.
Clethraceae ....13(5/1): 45-50. 1959.
Columelliaceae....13(5C/1): 101-103. 1961.
Combretaceae ....13(4/1): 221-229. 1941.
Commelinaceae ....13(1/3): 592-608. 1936.
Connaraceae (J. A. Steyermark) ....13(2/3): 1119-1125. 1938.
Convolvulaceae ....13(5/1): 455-536. 1959.
Coriariaceae ....13(3A/1): 237-238. 1951.
Cornaceae....13(5/1): 44-45. 1959.
Crassulaceae....13(2/3): 1007-1015. 1938.
Cucurbitaceae ....13(6/2): 321-383. 1937.
Cunoniaceae ....13(2/3): 1038-1063. 1938.
Cycadaceae ....13(1/1): 81-82. 1936.
Cyclanthaceae (P. C. Standley) ....13(1/3): 421-428. 1936.
Cyperaceae....13(1/1): 261-320. 1936.
Cyrillaceae ....13(3A/1): 287-288. 1951.
Dichapetalaceae....13(3/3): 954-964. 1950.
Dilleniaceae....13(3A/2): 667-677. 1956.
Dioscoreaceae....13(1/3): 690-707. 1936.
Ebenaceae....13(5/1): 205-214. 1959.
Elatinaceae....13(4/1): 3-4. 1941.
Ephedraceae ....13(1/1): 84-86. 1936.
Ericaceae ....13(5/1): 50-149. 1959.
Eriocaulaceae....13(1/3): 489-494. 1936.
Erythroxylaceae....13(3/2): 632-647. 1949.
Euphorbiaceae....13(3A/1): 3-200. 1951.
Fabaceae....13(3/1): 1-506. 1943.
Flacourtiaceae....13(4/1): 5-52. 1941.
Frankeniaceae ....13(4/1): 4-5. 1941.
Fumariaceae (J. A. Steyermark)....13(2/3): 936-937. 1938.
Gentianaceae....13(5/1): 270-363. 1959.
Geraniaceae....13(3/2): 511-544. 1949.
Gnetaceae ....13(1/1): 86. 1936.
Haemodoraceae....13(1/3: 630-631. 1936.
Haloragaceae ....13(5/1): 3-8. 1959.
Hernandiaceae....13(2/3): 931-933. 1938.
Hippocrateaceae ....13(3A/1): 200-220. 1951.
Hydrocharitaceae....13(1/1): 95-96. 1936.
Hydrophyllaceae (D. N. Gibson)....13(5A/2): 101-112. 1967.
Icacinaceae....13(3A/1): 221-233. 1951.
Iridaceae....13(1/3): 707-717. 1936.
Juglandaceae....13(2/2): 263-266. 1937.

Overview of the Peruvian Flora

Alwyn H. Gentry[1]

This overview provides a brief account of the history of botanical study of the Peruvian Flora and discussion of some characteristics of the vegetational regions used in this catalogue.

Peru has a long and distinguished botanical history, beginning with the 18th-century explorations of Hipólito Ruiz López and José Pavón, partly in association with Joseph Dombey and Juan J. Tafalla (Steele, 1982). Pioneer naturalists who made important early collections of Peruvian plants during the first part of the 19th century included Alexander von Humboldt and Aimé Bonpland in 1802 (Sandwith, 1968), Eduard Poeppig, who crossed Peru in 1829, Richard Spruce in the area of Tarapoto and Moyobamba from 1855 to 1857, Hugh Weddell in the southern Andes, and Andrew Mathews in the northern Andes, among many others (Herrera, 1938; Ferreyra, 1986). The Italian-Peruvian naturalist Antonio Raimondi traveled widely in the country in the latter half of the 19th century and made some of the earliest plant collections in many parts of the Peruvian Andes.

In 1922, J. Francis Macbride was hired by the Field Museum of Natural History, Chicago, specifically to work on the *Flora of Peru* (Dahlgren, 1936). During the 1920s, the Field Museum sponsored collecting trips in the Peruvian Andes by Macbride and the German botanist and phytogeographer August Weberbauer, of the Escuela Nacional de Agricultura (later the Universidad Nacional Agraria-La Molina) in Lima, as well as a year-long collecting trip in Amazonian Peru by Llewelyn Williams. Other important Peruvian collections during the late 1920s were made in the Selva Central region by Ellsworth Killip and Albert C. Smith of the Smithsonian Institution, Washington, DC, in southern Peru by Francis Pennell of the Philadelphia Academy of Natural Sciences, in Amazonian Peru by Guillermo Klug, and in the area of Cuzco by the Peruvian botanist Fortunato Herrera.

In the 1940s and 1950s, Peruvian botanists became the most active collectors of Peruvian plants. The most prolific collectors were Ramón Ferreyra of the Universidad Nacional Mayor de San Marcos in Lima and César Vargas of the Universidad Nacional San Antonio Abad in Cuzco. In recent years they have been joined by Abundio Sagástegui and colleagues at the Universidad Nacional de Trujillo, Isidoro Sánchez of the Universidad de Cajamarca, Franklin Ayala of the Universidad de la

[1] This is the final version of the manuscript as prepared by Dr. Gentry before his untimely death.

Esta reseña presenta una breve historia de los estudios botánicos en el Perú y una discusión de algunas características de las unidades de vegetación utilizadas en el catálogo. Perú tiene una larga y notable historia botánica, que se remonta a las expediciones botánicas del siglo dieciocho lideradas por Hipólito Ruiz López y José Pavón, quienes fueron acompañados en sus recorridos por Joseph Dombey y Juan J. Tafalla (Steele, 1982). Otros naturalistas pioneros que efectuaron importantes colecciones botánicas de plantas peruanas incluyen, durante la primera mitad del siglo diecinueve a Alexander von Humboldt y Aimé Bonpland en 1802 (Sandwith, 1968), Eduard Poeppig, quien exploró el Perú en 1829, Richard Spruce, quien se estableció en las áreas de Tarapoto y Moyobamba entre 1855 y 1857, Hugh Weddell, quien exploró la zona andina sur del país, y Andrew Mathews en los Andes del norte, entre varios otros (Herrera, 1938; Ferreyra, 1986). El naturalista ítalo-peruano Antonio Raimondi recorrió ampliamente el Perú durante la segunda mitad del siglo diecinueve y efectuó colecciones botánicas en varios lugares inexplorados de los Andes peruanos.

En 1922, J. Francis Macbride fue contratado por el Field Museum of Natural History, Chicago, para elaborar la *Flora of Peru* (Dahlgren, 1936). Durante la década de 1920, el Field Museum apoyó expediciones en los Andes peruanos en las cuales participaron Macbride y el botánico y fitogeógrafo alemán Augusto Weberbauer, en aquel entonces establecido en la Escuela Nacional de Agricultura en Lima (luego Universidad Nacional Agraria-La Molina); también patrocinó un viaje de exploración y colección que efectuó Llewelyn Williams durante un año. Otras importantes colecciones peruanas a fines de la década de 1920 fueron realizadas en la región de la Selva Central por Ellsworth Killip y Albert C. Smith del Smithsonian Institution, Washington, DC, y en la zona sur del país por Francis Pennell de la Philadelphia Academy of Sciences, así como en la Amazonia por Guillermo Klug y el área de Cusco por Fortunato Herrera.

Durante las décadas de 1940 y 1950, los botánicos peruanos cobraron significativa actividad en el trabajo de colección de las plantas del país. Los colectores más prolíficos fueron entonces Ramón Ferreyra, de la Universidad Nacional Mayor de San Marcos de Lima y César Vargas de la Universidad San Antonio de Abad en Cusco. En los últimos años Abundio Sagástegui y sus colegas en la Universidad de Trujillo, Isidoro Sánchez en la Universidad de Cajamarca, Franklin Ayala en la Universidad de la Amazonía peruana, y equipos de colectores de otras universidades nacionales lideran los trabajos de herborización en el país.

[1] Esta es la última versión del manuscrito como escribió el Dr. Gentry antes de su repentino fallecimiento.

Amazonía Peruana, and teams of colleagues at other national universities as premier Peruvian plant collectors.

Currently there are active collecting programs at a number of national Peruvian universities, including the Universidad Nacional Mayor de San Marcos, Universidad Nacional Trujillo, the Universidad Nacional San Antonio Abad, Cuzco, the Universidad Nacional de la Amazonía Peruana, Iquitos, the Universidad Nacional Agraria-La Molina, Lima, and the Universidad de Cajamarca. These programs have led to the creation of several local herbaria (León, 1991). Foreign botanists and institutions have also continued to play an active role in Peruvian plant collecting, with botanists associated with the Missouri Botanical Garden, the Field Museum of Natural History, and the Smithsonian Institution among the most active (see Dahlgren, 1936 and Gentry, 1980, 1989a).

The *Flora of Peru*, which attempted to compile the results of this collecting activity, was published by the Field Museum of Natural History as a multivolume series from 1936 until 1971, when the project ceased active publication. Although not yet complete (about 15 families remain to be treated, and treatment of the Asteraceae is incomplete), the flora is a monumental work, which probably ranks as the most complete flora of any South American country. An index to the *Flora of Peru* family treatments is given in Table 5.

In 1975 the *Flora of Peru* was reactivated as a joint project of the Missouri Botanical Garden and the Field Museum of Natural History in collaboration with the Universidad Nacional Mayor de San Marcos, the Universidad Nacional de la Amazonía Peruana, and other Peruvian institutions. At that time it was anticipated that the *Flora of Peru* would be completed in less than a decade. Several new treatments have been published, but completion of a full-scale flora is a slow process, and it will be several years before treatments for the *Flora* are complete. This catalogue provides a current report on the status of the *Flora of Peru* project and a preview of the unfinished families.

The *Flora of Peru* project has evolved from its original focus on general collecting and flora-writing to include making botanical inventories of selected, small areas ranging in scale from local florulas to 1-hectare or 0.1-hectare plot studies. Peruvian data have formed much of the basis for many papers on the diversity and floristic composition of tropical plant communities. Recent botanical inventory work in Peru has been complemented by studies of the ethnobotanical uses and potential economic value of the Peruvian flora (e.g., Gentry & Cook, 1984; Gentry & Wettach, 1986; Peters *et al.*, 1989; Reynel *et al.*, 1991; Vásquez, 1989, 1991; Vásquez & Gentry, 1989). The taxonomic database provided by the floristic studies and summarized in this catalogue provides strong support for such studies.

Actualmente existen programas activos de colección en varias universidades peruanas, como los de la Universidad Nacional Mayor de San Marcos de Lima, la Universidad Nacional de Trujillo, la Universidad Nacional San Antonio de Abad del Cusco, la Universidad Nacional de la Amazonía Peruana de Iquitos, la Universidad Nacional Agraria-La Molina de Lima y la Universidad Nacional de Cajamarca (León, 1991). Botánicos e instituciones extranjeras permanecen activos en la colección botánica en territorio peruano, donde la participación más relevante es la de personal asociado al Missouri Botanical Garden, Field Museum of Natural History, Chicago, y Smithsonian Institution, Washington, DC (Dahlgren, 1936; Gentry, 1980, 1989a).

La *Flora of Peru*, fue un esfuerzo para compilar los resultados de estas actividades de exploración botánica. Publicada por el Field Museum of Natural History, Chicago, salió como una serie de volúmenes desde 1936 a 1971, momento en el cual el proyecto cesó sus publicaciones. Pese a que los tratamientos de esta *Flora* no se han completado (unas 15 familias botánicas aún no han sido publicadas, y Asteraceae está incompleta), la *Flora of Peru* constituye un trabajo monumental, calificable como una de las floras más completas entre los países sudamericanos. Un índice a los tratamientos de cada familia botánica tratada en la *Flora of Peru* se muestra en la Tabla 5.

En 1975 la *Flora of Peru* fue reactivada como un proyecto conjunto del Missouri Botanical Garden y el Museo Field de Historia Natural en colaboración con la Universidad Nacional Mayor de San Marcos de Lima y la Universidad Nacional de la Amazonía Peruana de Iquitos, y la participación de otras instituciones peruanas. Por aquel entonces se calculaba que la *Flora of Peru* se completaría en menos de una década. Varios nuevos tratamientos han sido publicados, pero la finalización a escala total de una flora es un proceso lento, y se piensa pasarán varios años antes que los tratamientos de la *Flora* lleguen a culminar. Este catálogo provee un reporte actualizado de la situación del proyecto *Flora of Peru* e información sobre las familias botánicas que aún no han sido tratadas en el contexto de este proyecto.

El proyecto *Flora of Peru* ha evolucionado a partir de su enfoque original, centrado en colecciones generales y el desarrollo del texto descriptivo de la flora; incluye en la actualidad un componente de inventarios florísticos de áreas seleccionadas, basados en el establecimiento de parcelas de muestreo que varían en extensión de 0.1 a 1 hectárea e inventarios florísticos a escala local, los cuales deben culminar con la redacción de flórulas para las áreas correspondientes. Datos provenientes de estos inventarios florísticos han sido la base de numerosas publicaciones sobre aspectos de diversidad y composición florística de comunidades de plantas tropicales. El trabajo de inventario florístico ha sido también complementado con estudios etnobotánicos y del potencial económico de la flora peruana (ej.: Gentry & Cook, 1984; Gentry & Wettach, 1986; Peters *et al*, 1989; Reynel *et al*, 1991; Vásquez, 1989, 1991; Vásquez & Gentry, 1989). La base de datos de información

Given the size, ecological complexity, and exceptional biological diversity of Peru, even a catalogue of the Peruvian flora is an ambitious undertaking. The catalogue provides a perspective of what is known about the Peruvian flora and provides a working list of Peruvian plants, an extensive modern bibliography, and an associated database for botanists, ecologists, conservationists, horticulturists, and other students of Peruvian and neotropical natural history.

Peru and its Habitats

Peru is the third largest South American country, covering almost 1.3 million square kilometers, extending from the equator to 17° 20' south latitude, and from the westernmost tip of the South American continent at Punta Pariñas east to 70° west longitude in its Amazonian region. Altitude ranges from sea level to the snow-covered summit of Huascarán, which at 6,746 m, is the tallest mountain in the tropics. Rainfall in Peru ranges from the extremely dry northern fringe of the Atacama desert neighboring Chile to perhumid cloud forests with over 8,000 mm of rain per year.

There have been many attempts to subdivide the country using floristic, climatological, and ecological characters, notably Weberbauer (1945), ONERN (1976), Malleux (1975), and Brack (1986). The country is often divided into three zones that are used throughout this catalogue: the eastern Amazonian region; the mountainous Andean region; and the coastal region, a narrow, mostly desert strip along the Pacific Ocean (see inside back cover). Peru is politically divided into 24 departments (see inside front cover), including the newest, Ucayali, which constitutes the southern part of what used to be the larger department of Loreto. Although there has been a recent attempt to combine departments into larger administrative regions, this realignment has yet to be firmly established and departments are used in the catalogue.

Amazonian Region

The Amazonian forests of Peru are perhaps the most species-rich ecosystems on Earth, with various Peruvian sites holding the world record for numbers of species of birds (554 species at Tambopata, Madre de Dios - Parker, 1991), mammals (122+ at Balta, Ucayali - Patton *et al.*, 1982), reptiles (141 at Iquitos, Loreto - Dixon & Soini, 1975, 1976), butterflies (1209 at Tambopata - Lamas *et al.*, 1991), and for woody plants (300 species > 10 cm DBH in one hectare at Yanamono, Loreto - Gentry, 1988a, b; 312 species in a similar sample just across the border at Cuyabeno, Ecuador - Valencia *et al.*, 1993).

An Amazonian forest site such as the Tambopata Reserve in Madre de Dios typically has well over 1,000

taxonómica, resultado en gran parte de estos estudios y resumida en este catálogo, constituye un apoyo significativo a estas líneas de investigación.

Dados el tamaño, complejidad ecológica y excepcional diversidad biológica del Perú, aún un catálogo de la flora peruana es un proyecto ambicioso. El presente documento sintetiza lo que se conoce sobre la flora peruana en una lista de las especies, una extensa y moderna bibliografía, y una base de datos asociada de gran utilidad para botánicos, ecólogos, conservacionistas, horticultores y otros estudiosos de la historia natural de áreas neotropicales.

Perú y sus hábitats

Perú es el tercer país en extensión en Sudamérica, con casi 1.3 millones de kilómetros cuadrados, extendiéndose desde el ecuador hasta los 17°20' de latitud sur, y desde el extremo oeste del continente, en Punta Pariñas, hasta los 70° de longitud este en la región amazónica. Sus altitudes van desde el nivel del mar hasta los 6746 msnm en las cumbres nevadas del Huascarán, la montaña tropical más alta del mundo. La precipitación pluvial en el Perú varía desde paisajes extremadamente secos, al norte del desierto de Atacama en la frontera con Chile, hasta forestas perhúmedas con más de 8000 mm de precipitación anual.

Existen varios intentos de subdivisión de los paisajes del Perú basados en criterios florísticos, climatológicos y ecológicos; entre los más notables están los de Weberbauer (1945), Malleux (1975), ONERN (1976) y Brack (1986). El país es tradicionalmente dividido en tres regiones, caracterización que se emplea en el presente catálogo: la región Amazónica o Selva Baja al este; la región montañosa Andina o Sierra; y la estrecha franja de la Costa, que constituye un desierto a lo largo del Océano Pacífico (véase la cubierta interna posterior). El Perú está políticamente dividido en 24 departamentos, incluyendo el más reciente, Ucayali, que abarca la porción sur de lo que era el departamento de Loreto (véase la cubierta interna anterior). Aunque se han realizado recientes esfuerzos para integrar los departamentos en regiones administrativas más grandes, este proceso está aún en avance, y el esquema de 24 departamentos es el empleado en el catálogo.

Región Amazónica

Los bosques de la Amazonía peruana son posiblemente los ecosistemas más ricos en especies en todo el planeta; varias localidades allí ostentan los récords mundiales en número de especies, por ejemplo de aves (554 especies en Tambopata, Madre de Dios - Parker, 1991), mamíferos (122+ en Balta, Ucayali - Patton *et al*, 1982), reptiles (141 en Iquitos, Loreto - Dixon & Soini, 1975, 1976), mariposas (1209 en Tambopata - Lamas *et al*, 1991) y plantas leñosas (300 especies con más de 10 cm de DAP en una hectárea en Yanamono, Loreto - Gentry, 1988a, b; 312 especies en una muestra similar en Cuyabeno, en la Amazonía ecuatoriana cerca de la frontera con Perú - Valencia *et al*, 1993).

Localidades amazónicas como la Reserva Tambopata en Madre de Dios tienen más de 1000 especies de plantas, mucho

plant species, far more than in even the most diverse Andean or coastal sites. Fabaceae, Rubiaceae, and Moraceae are the most speciose families. Other species-rich families include Annonaceae, Lauraceae, Melastomataceae, and Euphorbiaceae (Gentry & Ortiz, 1993). Orchidaceae and Acanthaceae are also among the largest families in southern Amazonian Peru (Foster, 1990). Plot studies show that lowland Amazonian forests are almost invariably dominated by woody Fabaceae. On rich soils, the Moraceae are the next most diverse woody plant family, while on poor soils Lauraceae, Sapotaceae, Burseraceae, and Euphorbiaceae follow Fabaceae in species richness (Gentry, 1988b). The most important Amazonian liana family, as elsewhere in the lowland Neotropics, is Bignoniaceae, followed by Fabaceae, with Hippocrateaceae, Menispermaceae, Sapindaceae, and Malpighiaceae (Gentry, 1991b).

One of the most interesting floristic features of Amazonian Peru is the very different set of species that occurs in forests on different substrates. For example, near Iquitos there are floristically different types of forests on lateritic soil, on relatively rich alluvial soil, and on very poor white-sand soil, as well as in seasonally inundated forests ("tahuampa" or "varzea"). Forests inundated by the white-water Río Amazonas or Río Napo have a completely different set of species than do those inundated by black-water rivers like the Río Nanay. There are also forests and other vegetation types in permanent swamps, as well as various kinds of successional vegetation types. Elsewhere in Amazonian Peru there are seasonally dry forests such as those around Tarapoto. Because ecological differences are so critical in Amazonia, an attempt has been made to differentiate the major lowland forest types in this catalogue. For most Amazonian species the habitats are indicated as: terra firme forests, seasonally inundated forests, swamps, dry forests, or disturbed areas (including secondary forests).

Approximately 43% of the Peruvian plant species included in this catalogue are from lowland Amazonia.

Andean Region

For purposes of this catalogue the Andean region has been divided into three altitudinal zones that generally correspond with broad vegetation types. Between 500 and 1,500 m (designated as "Andean I" in the catalogue), Andean forests share many floristic elements with lowland Amazonia. From about 1,500 m to near timberline at ca. 3,500 m (Andean II), forests have a very consistent and characteristic floristic composition with Lauraceae, Rubiaceae, Melastomataceae, and epiphytes such as Orchidaceae and Araceae as predominant elements. At and above timberline, the high-montane flora (Andean III) is composed mostly of a very different set of herbaceous and shrubby taxa, although scattered patches of *Polylepis*

más que en los lugares más diversas de la Costa o región Andina. Fabaceae, Rubiaceae y Moraceae son las familias con mayor número de especies. Otras familias ricas en especies en la región Amazónica incluyen Annonaceae, Lauraceae, Melastomataceae y Euphorbiaceae (Gentry & Ortiz, 1993). Orchidaceae y Acanthaceae se encuentran también entre las familias más grandes en la Amazonia sur del Perú (Foster, 1990). Parcelas de muestreo revelan que las zonas de baja altitud de la Amazonía están dominadas casi invariablemente por Fabaceae. En suelos ricos, Moraceae es la siguiente familia más grande, en tanto que en suelos pobres las Fabaceae son seguidas por Lauraceae, Sapotaceae, Burseraceae y Euphorbiaceae (Gentry, 1988b). La familia de lianas más importante en la Amazonía peruana, al igual que en toda América tropical, es Bignoniaceae, seguida por Fabaceae, Hippocrateaceae, Menispermaceae, Sapindaceae y Malpighiaceae (Gentry, 1991b).

Una de las características más interesantes de la Amazonia peruana es la diferencia en la composición de especies en diferentes substratos. Por ejemplo, cerca de Iquitos hay tipos de bosque diferentes si se trata de suelos lateríticos, suelos aluviales relativamente ricos o suelos muy pobres de arena blanca, así como en suelos estacionalmente inundados ("tahuampa" o "várzea"). Los bosques inundados por las aguas blancas del río Amazonas o río Napo tienen una composición de especies completamente diferente a aquellos inundados por las aguas negras del río Nanay. Existen también otros tipos de vegetación en zonas permanentemente inundadas, así como numerosos tipos de vegetación en diferentes estadíos sucesionales. En varias localidades de la Amazonia se encuentran bosques estacionalmente secos como aquellos en los alrededores de Tarapoto. Dado que las diferencias ecológicas son tan críticas en la Amazonia, se ha hecho un esfuerzo en el catálogo para diferenciar los tipos principales de bosques en las zonas de Selva Baja. Para la mayor parte de las especies amazónicas se han consignado los siguientes hábitats característicos: bosques de tierra firme, bosques estacionalmente inundados, pantanos, bosques secos y áreas perturbadas (incluyendo bosques secundarios).

Aproximadamente el 43% de las especies de plantas peruanas incluidas en este catálogo son amazónicas.

Región Andina

Para los propósitos de este catálogo la región andina ha sido dividida en tres zonas altitudinales que en general corresponden a grandes tipos de vegetación. Entre los 500 y 1500 m ("Andean I" o Estrato Andino I), el bosque andino comparte muchas especies con la Selva Baja. Desde los 1500 m hasta cerca del límite de la vegetación arbórea a 3500 m ("Andean II" o Estrato Andino II), los bosques adquieren una composición florística característica y consistente, donde las familias predominantes son Lauraceae, Rubiaceae, Melastomataceae, y epífitas como Araceae y Orchidaceae. Por encima del límite de la vegetación leñosa, la flora de las alturas andinas ("Andean III" o Estrato Andino III) está compuesta mayormente por diferentes agrupamientos de plantas herbáceas y arbustivas, con bosques

(Rosaceae) forest (the highest-occurring trees in the world) can occur well above 4,000 m (Galeano, 1990; Wardle, 1971).

Andean I (500-1,500 m elevation)

Up to 1,500 m, lower montane forests are similar in diversity and floristic composition to lowland Amazonian forests. There may actually be a slight increase in familial diversity between 1,000 and 1,500 m, where lowland tropical Gondwanan families mix with the largely Laurasian montane families (Gentry, 1982b). There is a distinct change around 1,500 m (Gentry, 1992b), with montane forests above 1,500 m markedly and progressively decreasing in diversity with altitude.

Fabaceae followed by Moraceae are the most speciose woody families of the lower Andean region. Other important tree families in this region are Lauraceae, Rubiaceae, Euphorbiaceae, Annonaceae, Myrtaceae, Nyctaginaceae, Melastomataceae, Meliaceae, Burseraceae, and Arecaceae, all similarly well represented in lowland Amazonian forests. The predominant liana families are Sapindaceae and Bignoniaceae, just as in lowland forests, although their order of importance is reversed. Among other noteworthy floristic elements of lower Andean forests is the unusual prevalence of Clusiaceae, especially hemiepiphytic *Clusia*, as well as hemiepiphytic climbing Araceae.

Lower Andean forests between 500 and 1,500 m (and associated second-growth and drier shrublands) contain approximately 34% of the Peruvian flora as documented in this catalogue.

Andean II (1,500-3,500 m elevation)

Above 1,500 m elevation, moist Andean forests are characterized by the predominance of Lauraceae as the most speciose woody family, replacing Fabaceae in that role. Also important in the Andean woody flora are Melastomataceae and Rubiaceae, with species of both families especially well represented in the understory. Other characteristic and speciose woody families of Peruvian montane forests are Myrsinaceae, Myrtaceae, Araliaceae, and Solanaceae, which are joined by a small number of very characteristic Andean genera, each belonging to a different family - *Saurauia, Ilex, Alnus, Brunellia, Viburnum, Hedyosmum, Clethra, Weinmannia, Morus, Ceroxylon, Podocarpus, Prunus, Rhamnus, Meliosma, Styrax, Symplocos*, and *Gordonia*. As in many lowland tropical forests, herbaceous taxa, including many monocots, are actually more species rich than woody taxa in mid-elevation forests (León *et al.*, 1992). Orchids and other epiphytes are also more prevalent and apparently more diverse in mid-elevation Andean forests than elsewhere (Gentry & Dodson, 1987) and contribute

aislados de *Polylepis* (Rosaceae), que son los árboles que alcanzan el más alto límite altitudinal en el mundo, y pueden encontrarse a más de 4000 msnm (Galeano, 1990; Wardle, 1971).

Andean I (500-1500 msnm) (Estrato Andino I)

Hasta los 1500 msnm, los bosques montanos de baja altitud son similares en diversidad y composición florística a aquellos de la Selva Baja. En realidad, puede producirse un leve aumento en la diversidad de familias entre los 1000 y 1500 msnm, zona en la cual las familias tropicales con origen gondwánico se encuentran con familias propias del bosque montano, de origen laurásico (Gentry, 1982b). Se produce luego un cambio marcado a los 1500 msnm, límite a partir del cual la diversidad disminuye progresivamente con la altitud.

Fabaceae y Moraceae son las familias de plantas leñosas con mayor número de especies en el estrato Andino I. Otras familias de plantas leñosas importantes son Lauraceae, Rubiaceae, Euphorbiaceae, Annonaceae, Myrtaceae, Nyctaginaceae, Melastomataceae, Meliaceae, Burseraceae y Arecaceae, todas bien representadas en la Selva Baja. Las familias de lianas predominantes son Sapindaceae y Bignoniaceae, tal como en la Selva Baja, aunque su orden de importancia está invertido. Dentro de otros elementos florísticos del Estrato Andino I, es notable la abundancia de Clusiaceae, en particular especies hemiepífitas de *Clusia*, así como hemiepífitas trepadoras de la familia Araceae.

El estrato Andino I con sus componentes de vegetación secundaria y de matorral asociados, contiene aproximadamente el 34% de la flora peruana, tal como se documenta en este catálogo.

Andean II (1500-3500 msnm) (Estrato Andino II)

Por encima de los 1500 msnm el bosque húmedo andino se caracteriza por la predominancia de Lauraceae como la familia de plantas leñosas más rica en especies, reemplazando a las Fabaceae en su predominio. Igualmente importantes en la flora leñosa Andina son las Melastomataceae y Rubiaceae, con especies de ambas familias especialmente bien representadas en el sotobosque. Otras familias de plantas leñosas de importancia en los bosques montanos de Perú son Myrsinaceae, Myrtaceae, Araliaceae y Solanaceae, acompañadas por varios géneros andinos pequeños característicos pertenecientes a varias familias: *Saurauia, Ilex, Alnus, Brunellia, Viburnum, Hedyosmum, Clethra, Weinmannia, Morus, Ceroxylon, Podocarpus, Prunus, Rhamnus, Meliosma, Styrax, Symplocos* y *Gordonia*. Tal como ocurre en los bosques de la Selva Baja, grupos herbáceos, incluyendo muchas monocotiledóneas, son más ricos en especies que los grupos de plantas leñosas en estas zonas de bosques de altitud intermedia (León *et al.*, 1992). Las orchídeas y otras epífitas son también más comunes y aparentemente son más diversas en los bosques andinos de elevaciones medias que en otros sitios (Gentry & Dodson, 1987) y contribuyen en gran parte a la riqueza florística de estos bosques, especialmente en los bosques andinos peruanos (León *et al.*, 1992).

greatly to the floristic richness and distinctness of these forests, especially in the Peruvian Andean forests (León *et al.*, 1992).

Most Andean forested areas occur in the "ceja de la montaña" region on the Amazonia-facing slopes, but there are also disjunct patches on the western side of the Peruvian Andes as far south as Lima (Valencia, 1992; Cano & Valencia, 1992). One of these, at Monteseco in the valley of the Río Zaña, has been recently studied (Sagástegui & Dillon, 1991). This flora of 326 vascular plant species is three times as large as that of any of the lomas formations on the Pacific coast, but far smaller than that of similar sites in lowland tropical forest and also much smaller than the florulas of Huascarán (Smith, 1988) or Yanacocha (Galeano, 1990). Not surprisingly, Asteraceae is the most speciose family at Monteseco, as it is in most of the drier parts of the Andes. The fact that Solanaceae is the second most speciose family may reflect a prevalence of this family in northern Peruvian cloud forests (Gentry, 1992b).

Although not especially diverse individually, Andean cloud forests tend to have unusually high levels of endemism and are of exceptional conservational importance. Montane areas between 1,500 and 3,500 m contain approximately 57% of the Peruvian flora as documented by this catalogue.

Andean III (3,500 to above 4,500 m elevation)

The flora of the high Peruvian Andes is taxonomically distinct from that of lowland Amazonia. Many of its taxa are of Laurasian rather than Gondwanan affinities (Gentry, 1982). Asteraceae and Poaceae, poorly represented in the tropical lowlands, are the dominant as well as the most speciose families above timberline, typically with about twice as many species of Asteraceae as Poaceae at a given site. About 20% of the species of a high-Andean local flora are usually Asteraceae, with grasses constituting 7-14% of the species and no other family more than 4% (Smith, 1988; Galeano, 1990). Other speciose high-Andean families are Scrophulariaceae, Orchidaceae, Fabaceae, Solanaceae, Caryophyllaceae, Rosaceae, Cyperaceae, and Brassicaceae. Over half of the species of a given high-Andean site usually will belong to the ten most speciose families.

Similarly, a small group of genera tend to be the most speciose at different high-Andean sites. In two Peruvian high-Andean studies (Smith, 1988; Galeano, 1990), *Senecio* is by far the most speciose genus, and two other genera of Asteraceae, *Werneria* and *Baccharis*, are also among the eight most speciose genera. Likewise, *Solanum*, *Calceolaria*, and *Valeriana* are among the eight most speciose genera in both studies (and probably at most high-Andean sites).

La mayor parte de los bosques montanos andinos están distribuidos en la región de la "Ceja de Montaña" en las laderas andinas orientales, adyacentes a la cuenca amazónica, pero existen algunos parches disyuntos de este tipo de vegetación el la vertiente occidental de los Andes peruanos, en zonas tan sureñas como las cercanías de Lima (Valencia, 1992; Cano & Valencia, 1992). Uno de estos parches de vegetación, en la localidad de Monteseco en el río Zaña, ha sido recientemente estudiado (Sagástegui & Dillon, 1991). La flora allí encontrada, con 326 especies de plantas vasculares, es tres veces más abundante que la de las formaciones de lomas costeras, pero mucho menor que la de localidades similares en la Selva Baja y también mucho menor que la de las zonas del Huascarán (Smith, 1988) o Yanacocha (Galeano, 1990). No es sorprendente que Asteraceae sea la familia más rica en especies en Monteseco, al igual que en la mayor parte de las zonas secas andinas. El hecho que Solanaceae constituya la segunda familia más rica en especies se refleja en el predominio de esta familia en los bosques nublados del norte de Perú.

Pese a que no son especialmente diversos individualmente, los bosques nublados andinos suelen mostrar niveles de endemismo inusualmente altos y son de excepcional importancia para la conservación. Areas montanas entre 1500 y 3500 msnm contienen aproximadamente el 57% de la flora peruana, tal como se documenta en el presente catálogo.

Andean III (3500 a 4500 msnm) (Estrato Andino III)

La flora altoandina del Perú es taxonómicamente diferente a la de la Selva Baja. Muchas de las especies en este estrato tienen afinidades laurásicas más que gondwánicas (Gentry, 1982). Las Asteraceae y Poaceae, pobremente representadas en la Selva Baja, son las familias más dominantes y ricas en especies por encima del límite del bosque, típicamente con casi el doble de especies en relación a estratos de elevación más bajos. Aproximadamente el 20% de las especies de dos localidades altoandinas estudiadas pertenecen a Asteraceae, con 7-14% de Poaceae, y especies de otras familias en porcentajes no mayores al 4% (Smith, 1988; Galeano, 1990). Otras familias altoandinas ricas en especies son Scrophulariaceae, Orchidaceae, Fabaceae, Solanaceae, Caryophyllaceae, Rosaceae, Cyperaceae y Brassicaceae. Usualmente, más de la mitad de las especies en localidades altoandinas estudiadas pertenecen a las 10 familias más ricas en especies.

De modo similar, un reducido grupo de géneros tiende a ser el más rico en especies en varias localidades altoandinas estudiadas. En dos estudios realizados en este tipo de vegetación (Smith, 1988; Galeano, 1990), *Senecio* es conspicuamente el género más rico en especies, y otros dos géneros de Asteraceae, *Werneria* y *Baccharis*, se cuentan entre los ocho géneros más ricos en especies en ambos caso. Asimismo, *Solanum*, *Calceolaria* y *Valeriana* se cuentan entre los ocho géneros más ricos en especies en ambos estudios (y probablemente en la mayoría de las localidades altoandinas).

Si bien las comunidades de plantas altoandinas no son especialmente diversas individualmente, la diversidad

While individual high-Andean plant communities are not especially diverse, the cumulative diversity of many different communities occurring in close proximity in broken montane terrain can be impressive. For example, at Yanacocha Galeano (1990) recognized five major habitats, each containing only 74-191 species, most of which are restricted to a single vegetation type. Taken individually, each habitat type has a rather depauperate flora, but taken together the floristic richness of 510 species at Yanacocha approaches that of some lowland florula sites. At Huascarán National Park, Smith (1988) found an even more diverse floristic assemblage of 799 species of vascular plants, similarly apportioned among different habitats. This is as many species as occur at other tropical lowland seasonal-forest sites (Dodson *et al.*, 1985; Gentry & Dodson, 1987), although much less diverse than wetter lowland sites like La Selva, Costa Rica (Hammel, 1990), or the Cocha Cashu area of Manú National Park (Foster, 1990).

The high-Andean region above 3,500 m contains approximately 14% of the Peruvian flora, as documented in this catalogue.

Coastal Region

Most of Peru's human population is concentrated in the coastal desert, especially in the capital, Lima, which has over a third of the country's estimated population of 22 million. The coastal flora, although highly endemic, is very depauperate and the vegetation is sparse except in the lomas.

The lomas are a curious formation of mostly ephemeral herbs that grow in the condensation zone where winter fogs are intercepted by steep hills adjacent to the coast (Rundel *et al.*, 1991). The total number of vascular plant species represented in the Peruvian lomas formation is 557, but any individual lomas usually has fewer than 100 species (with the exception of Atiquipa, by far the richest lomas area, with 120 species). The northernmost lomas are at Cerro Campana and Cerro Cabezón near Trujillo, while the southernmost are in northern Chile; generally the southern lomas are richer in endemism than the northern lomas. The northern lomas generally show more affinities to the Andean flora than do the southern lomas.

Perhaps the most characteristic group of plants of the lomas formations are the species of *Nolana*, sometimes considered to constitute a distinct family, that occur almost exclusively in the coastal lomas of Peru and the adjacent coastal region of Chile. Other especially well-represented lomas plant groups include Asteraceae, Malvaceae, Boraginaceae, Begoniaceae, and other Solanaceae.

There are at least four endemic lomas genera - *Islaya* (Cactaceae), *Weberbauerella* (Fabaceae), and *Mathewsia* and *Dictyophragmus* (Brassicaceae), but genera such as

acumulativa de diferentes comunidades ubicadas cercanamente en topografías quebradas puede ser impresionante. Por ejemplo en Yanacocha, Galeano (1990) reconoció cinco hábitats principales, cada uno conteniendo 74-91 especies, la mayor parte de las cuales se hallan restringidas a un sólo tipo de vegetación. Individualmente, cada uno de esos hábitats posee una flora depauperada, pero en conjunto la riqueza florística de 510 especies en Yanacocha se aproxima a aquella de algunas localidades de altitudes bajas. En el Parque Nacional del Huascarán, Smith (1988) encontró un ensamblaje florístico aun más diverso, con 799 especies de plantas vasculares repartidas de modo equivalente entre los diferentes hábitats del área. Ello significa un número de especies similar al existente en lugares de bosque caducifolio tropical (Dodson *et al.*, 1985; Gentry & Dodson, 1987), aunque menos diverso en relación a áreas de bosque húmedo tropical de baja elevación como La Selva, Costa Rica (Hammel, 1990) o el área de Cocha Cashu en el Parque Nacional del Manú (Foster, 1990).

La región altoandina peruana, por encima de los 3500 msnm, alberga aproximadamente el 14% de las especies del país, tal como se documenta en este catálogo.

Coastal Region (Región de la Costa)

La mayoría de la población peruana está concentrada en el desierto costero, especialmente en la capital del país, Lima, que alberga más de un tercio de la población total del país, estimada en 22 millones de habitantes. La vegetación costera, aunque altamente endémica, es muy dispersa con excepción de las Lomas.

Las Lomas constituyen una curiosa formación vegetal compuesta mayormente por hierbas efímeras, las cuales crecen en la zona donde las nieblas invernales son interceptadas por las laderas de la vertiente occidental Andina adyacentes a la Costa (Rundel *et al.*, 1991). El número total de especies de plantas presentes en la formación de Lomas es 557, pero cada Loma individual suele tener menos de 100 especies (con la excepción de Atiquipa, conspicuamente la zona de Lomas más rica, con 120 especies). Las áreas de Lomas más al norte son las de Cerro Campana y Cerro Cabezón cerca a Trujillo, y las más sureñas se encuentran en el norte de Chile; en general las Lomas del sur son más ricas en especies endémicas que las del norte.

Tal vez el grupo de plantas más característico de la formación de Lomas son las especies de *Nolana*, consideradas por algunos como una familia aparte, restringida exclusivamente a este tipo de formación en las costas de Perú y Chile. Otras familias bien representadas en las Lomas son Asteraceae, Malvaceae, Boraginaceae, Begoniaceae y Solanaceae.

Existen por lo menos cuatro géneros endémicos de las Lomas: *Islaya* (Cactaceae), *Weberbauerella* (Fabaceae), *Mathewsia* y *Dictyophragmus* (Brassicaceae), pero géneros como *Astragalus* (Fabaceae), *Nolana* (Solanaceae), *Calceolaria* (Scrophulariaceae) y *Palaua* (Malvaceae) tienen numerosas especies endémicas (Rundell *et al.*, 1991). A lo largo de los límites inferiores de las Lomas es conspicua la variedad de

Astragalus (Fabaceae), *Nolana* (Solanaceae), *Calceolaria* (Scrophulariaceae), and *Palaua* (Malvaceae) have numerous endemic species (Rundel *et al.*, 1991). Along the lower limits of the lomas a variety of endemic terrestrial species of *Tillandsia* are prominent, and toward their drier upper limits, Cactaceae are frequent, again with many endemics.

There are also interesting dry area taxa, typically dominated by cacti such as *Neoraimondia*, on the lower slopes of the western Andes above the influence of the coastal fogs. In the northwestern corner of Peru, the coastal plain is broader than in the south and the coastal desert extends east from the coast as the Sechura Desert. Some of this desert consists of shifting sand and lacks vegetation, but in some areas the sand dunes are stabilized by *Capparis* (Capparaceae) or *Tiquilia* (Boraginaceae), and much of the region has a sparse vegetation of scattered shrubs. Less arid areas often have open woodlands dominated by *Prosopis* (Fabaceae) or *Loxopterygium* (Anacardiaceae), which give way in less extreme situations to dry open forests with columnar cacti, *Eriotheca*, and *Ceiba trichistandra* (Bombacaceae) as prominent elements. This vegetation, mostly highly disturbed, is phytogeographically an extension of the coastal Ecuadorian dry forest and has been described by Ferreyra (1957). In all of these forests, Fabaceae is the most speciose family and the dominant family of trees, with Bignoniaceae the dominant liana family. Besides Fabaceae, the most speciose families are generally Euphorbiaceae, Poaceae, Asteraceae, and Convolvulaceae (Gentry, 1992c). Bombacaceae, though less speciose, are represented by five different genera of large trees and are probably more dominant here than anywhere else on Earth.

As documented in this catalogue, only about 7% of the Peruvian flora occurs in the coastal region below 1,000 m.

State of Knowledge of the Flora of Peru

Although Peruvian Amazonia is exceptionally rich in species, it is still very poorly known, with many plant species new to the country and new to science continuing to be discovered. A few examples from recent fieldwork in Peruvian Amazonia will suffice to give an idea of how incomplete our floristic knowledge remains. *Memora pseudopatula* (Bignoniaceae), discovered in 1976, is the most common climbing species in the seasonally inundated forests near supposedly well-collected Iquitos (Gentry, 1981a). *Styloceras brokawii* (Buxaceae), the first lowland species of this Andean genus (Gentry & Foster, 1981), is locally so common in parts of Manú Park that it was already infamous among local primatologists for impeding their progress through the forest long before it was named by taxonomists. At the same locality, *Caryodaphnopsis fosteri* is the most common species of Lauraceae (and one

especies terrestres endémicas de *Tillandsia*, y hacia sus límites secos abundan las Cactaceae, también con numerosas endémicas.

Hay también especies de mucho interés en las zonas secas costeras, típicamente dominadas por cactos tales como *Neoraimondia*, en las laderas occidentales por encima de la influencia de las nieblas costeras. Hacia el extremo noroeste del país, la planicie costera es más ancha que hacia el sur; allí se extiende el desierto del Sechura, en gran parte constituido por dunas movedizas carentes de vegetación, aunque en algunas áreas su movimiento es estabilizado por plantas de *Capparis* (Capparaceae) o *Tiquilia* (Boraginaceae), y gran parte del paisaje tiene vegetación rala de arbustos esparcidos. Areas menos áridas suelen albergar vegetación leñosa abierta dominada por *Prosopis* (Fabaceae) o *Loxopterigium* (Anacardiaceae), que dan paso a bosques con preponderancia de cactos columnares, y *Eriotheca* y *Ceiba trichistandra* (Bombacaeae) en situaciones menos extremas. Este tipo de vegetación, en su mayor parte fuertemente alterada, es fitogeográficamente una extensión del desierto costero ecuatoriano y ha sido descrito por Ferreyra (1957). En todas estas formaciones de bosque, Fabaceae es la familia dominante tanto en especies como en individuos arbóreos, mientras que Bignoniaceae es la familia más importante de lianas. Además de Fabaceae, las familias ricas en especies son generalmente Euphorbiaceae, Poaceae, Asteraceae y Convolvulaceae (Gentry, 1992c). Bombacaceae, aunque menos rica en especies, está representada por cinco géneros de árboles que son posiblemente más dominantes en esta zona que en ningún otro lugar del planeta.

Tal como se documenta en este catálogo, sólo un 7% de la flora peruana se distribuye en la región Costera por debajo de los 1000 msnm.

Estado de conocimiento de la Flora del Perú

Aunque la Amazonia peruana es excepcionalmente rica en especies, es aún muy poco conocida, y numerosas especies de plantas nuevas para la región y para la ciencia se siguen descubriendo. Unos pocos ejemplos relacionados a estudios recientes en la zona pueden dar una idea adecuada de cuán insuficiente es nuestro conocimiento florístico del ámbito. *Memora pseudopatula* (Bignoniaceae), descubierta en 1976, es la planta trepadora más común en los bosques estacionalmente inundados de los alrededores de Iquitos, supuestamente bien colectados (Gentry, 1981a). *Styloceras brokawii* (Buxaceae), la primera especie de este género andino descubierta en la Selva Baja (Gentry & Foster, 1981), es localmente tan abundante en partes del Parque Nacional de Manú que ya tenía mala fama entre los primatólogos que allí trabajan por impedir el progreso de sus estudios de campo, mucho antes de ser descrita para la ciencia por los botánicos. En la misma localidad, *Cariodaphnopsis fosteri* es la especie más común de Lauraceae, y también una de las especies de árboles más comunes. Esta especie fue recién descubierta y descrita en 1985, y pertenece a un género asiático del cual recientemente se han descubierto especies en el hemisferio occidental (van der Werff & Richter, 1985), lo cual es revelador pues la planta es común en la

of the most common tree species). This species was described in 1985, and belongs to an Asian genus only recently reported for the Western Hemisphere (van der Werff & Richter, 1985), yet it is widespread elsewhere in Amazonian Peru as are several undescribed congeners. *Caryodaphnopsis* is now known to include nine neotropical species, at least one of which is an important timber tree. The most important timber species used in construction around Iquitos is "aceite caspi," only recently described as *Caraipa utilis* (Clusiaceae) (Vásquez, 1991). The main construction timber at Jenaro Herrera, on the Río Ucayali, is also an undescribed species, belonging to *Haploclathra* (Clusiaceae), a genus new to Peru.

The Andean slopes are even more poorly explored biologically. Birds, generally the best-known group of organisms, provide a good example. Peru has produced almost half (25 of ca. 55) of the new species of birds discovered in the entire world during the past 25 years (T. Parker, pers. comm.). If even birds are poorly known, it should come as no surprise that many Peruvian plants have yet to be named or even discovered. For example, not a single species of Sabiaceae was known from Peru when Macbride (1956) treated related families in the *Flora of Peru*, but 18 species are listed in the catalogue. The Peruvian *Meliosma* (Sabiaceae) collections represent at least 15 described species, and at least six more remain to be described (Gentry, 1992c). Considering how much remains to be discovered about Peru's plant species, it should be obvious that this catalogue is more of a progress report than a definitive listing of Peru's plant species.

Endemism

From a global perspective Peru and its neighboring countries have special significance for the conservation of biodiversity. Not only is the Peruvian flora very rich in species, but many of them are endemic. Endemism in Amazonia is often associated with adaptation to specialized substrates or "habitat islands" (Gentry, 1986). Due to the inadequate floristic knowledge of Amazonia, it is not yet clear to what degree local endemism characterizes the lowland Amazonian flora. For every new and potentially locally endemic species discovered, another that was previously thought endemic is encountered halfway across Amazonia. However, at least in the case of the plants of such habitat islands as the white-sand areas around Iquitos, it is likely that significant local endemism exists in Amazonian Peru.

The coastal lomas also have a high level of endemism (Dillon, 1985; Ferreyra, 1983; Rundel *et al.*, 1991), with 42% of the Peruvian lomas flora (62% in the southern lomas) reported to be endemic (Müller, 1985). The coastal dry forest, which forms a single phytogeographical unit with the adjacent part of Ecuador, has been estimated to have about 20% specific endemism (Dodson & Gentry, 1991).

Amazonia peruana, al igual que varias especies congenéricas aun no descritas. Se sabe que *Caryodaphnopsis* incluye al menos nueve especies neotropicales, de las cuales al menos una es de importancia maderable. La madera de construcción más importante en los alrededores de Iquitos es "Aceite Caspi", recientemente descrita como *Caraipa utilis* (Clusiaceae) (Vásquez, 1991). La madera de construcción más importante en Jenaro Herrera, en el río Ucayali, es una especie, aún no descrita perteneciente al género *Haploclathra* (Clusiaceae).

Las laderas andinas están aún menos exploradas biológicamente. Las aves, que constituyen un grupo de organismos generalmente bien referenciado, dan un buen ejemplo. El Perú ha producido casi la mitad (25 de casi 55) de las especies de aves nuevas para la ciencia descubiertas en los últimos 25 años (T. Parker, com. pers.). Si las aves aún se hallan tan lejos de ser completamente estudiadas, no es sorprendente que una gran cantidad de plantas peruanas no hayan sido descubiertas ni descritas. Por ejemplo, ni una sola especie de la familia Sabiaceae era conocida para el Perú cuando Macbride (1956) escribió los tratamientos de grupos afines en la *Flora of Peru*, no obstante hay 18 especies documentadas en este catálogo. Las especies peruanas de *Meliosma* (Sabiaceae) representan por lo menos 15 especies ya descritas, y al menos 6 más permanecen no descritas (Gentry, 1992c). Considerando lo mucho que falta por descubrir sobre las especies de plantas del Perú, debe entenderse obviamente que el presente catálogo es más un reporte de avance que una lista definitiva de las especies de plantas peruanas.

Endemismo

Considerados en una perspectiva global, el Perú y las naciones vecinas tienen un significado especial para la conservación de la biodiversidad. No sólo la flora peruana es muy rica en especies, sino que muchas de sus especies son endémicas. El fenómeno de endemismo en la Amazonia ha sido a menudo asociado con la especialización de los substratos o "islas-hábitat" (Gentry, 1986). Dado el poco conocimiento florístico de la Amazonia, no es aun claro cuál es el nivel de endemismo en la Selva Baja. Por cada especie nueva descubierta y potencialmente endémica, se descubre otra que se pensaba era endémica y ya se había registrado en algún lugar lejano de la misma región amazónica. En todo caso, para lugares de "islas-hábitat" como aquellos constituidos por áreas de arena blanca en los alrededores de Iquitos, es muy posible que exista una proporción significativa de endemismos locales.

Las Lomas de la Costa poseen también un alto nivel de endemismo (Dillon, 1985; Ferreyra, 1983; Rundel *et al.*, 1991), alcanzando el 42% en la flora de las Lomas peruanas (62% en las Lomas sureñas) (Muller, 1985). Los bosques secos de la Costa, que forman una unidad fitogeográfica con áreas adyacentes de Ecuador, se estima poseen alrededor del 20% de especies endémicas (Dodson & Gentry, 1991).

La topografía quebrada andina ha dado lugar a altos niveles de endemismo local (Gentry, 1992a). Por ejemplo, Berry (1982)

The extremely dissected terrain of the Andes has given rise to even higher levels of local endemism (Gentry, 1992a). For example, Berry (1982) found 14 endemic species of *Fuchsia* (Onagraceae) in the Peruvian Cordillera Central and six in the Cordillera Oriental, compared to only one or two in the six phytogeographical regions he recognized elsewhere in the Andes. Similarly, Molau (1988) emphasized that the Peruvian Andes have both exceptional species richness and local endemism in *Calceolaria* (Scrophulariaceae), with 121 species in the central Andean region; endemism in *Calceolaria* reaches an epicenter in a 200-km^2 area of the departments of Amazonas and Cajamarca where the 63 known species include 21 local endemics with distributional areas less than 50 km across. In *Tecoma* (Bignoniaceae), 10 of the 14 species are local endemics concentrated in the Central Andes (Gentry, 1992a). As a result of such patterns, no fewer than 31% of Peru's plant species are endemic to the country, as documented in this catalogue.

In summary, this catalogue of vascular plants and gymnosperms of Peru and its associated on-line database provide a valuable tool for analysis of the Peruvian flora and should serve as a model for computerization of plant information.

ha encontrado 14 especies endémicas de *Fuchsia* (Onagraceae) en la Cordillera Central del Perú y seis en la Cordillera Oriental, comparadas con sólo una o dos en las otras seis regiones fitogeográficas existentes en los Andes en su totalidad. De modo similar, Molau (1988) ha enfatizado que los Andes peruanos tienen una riqueza excepcional en número de especies y endemismos de *Calceolaria* (Scrophulariaceae), con 121 especies en la región Central Andina; el centro de endemismos en este grupo es un área de 200 km^2 en los departamentos de Amazonas y Cajamarca, donde de las 63 especies existentes 21 son endémicas, con rangos de distribución menores a 50 km de diámetro. En *Tecoma* (Bignoniaceae), 10 de 14 especies son endémicas concentradas en los Andes centrales (Gentry, 1992a). Como resultado de los patrones de distribución y endemismo expuestos, alrededor de 31% de las especies de plantas peruanas son endémicas al país.

Se espera que el presente catálogo de las plantas vasculares y gimnospermas del Perú, y su base de datos de alimentación continua, sean una valiosa herramienta de análisis de la flora peruana y sirvan como modelo para la computarización de información de plantas.

Gymnospermae

Araucariaceae

1 genus and 1 species in Peru.

Prepared by J. L. Zarucchi; reviewed by D. W. Stevenson (NY) and B. T. Styles (FHO).

Araucaria excelsa R. Brown
Ref. FP 13(1/1): 82.
Cultivated and introduced tree. Coastal: disturbed areas. 0-500 m.
Note: Mentioned incidentally in the Flora of Peru under Taxaceae. No voucher seen.
Depts.: LI

Cupressaceae

1 genus and 2 species in Peru.

Prepared by L. Brako; reviewed by B. T. Styles (FHO).

Cupressus lusitanica Miller
Ref. Silba, 1981: 396.
Cultivated tree. Andean II: disturbed areas. 3000-3500 m.
Voucher: Dillon 2846 (MO!)
Depts.: AN, LI, LL

Cupressus sempervirens L.
Ref. Silba, 1981: 398.
Cultivated tree. Coastal: disturbed areas. 0-500 m.
Voucher: Cerrate 2928 (USM!)
Depts.: LI

Cycadaceae

2 genera and 4 species in Peru.

Prepared by L. Brako; reviewed by D. W. Stevenson (NY).

Cycas circinalis L.
Ref. Eckenwalder, 1980: 720.
Cultivated shrub. Coastal: disturbed areas. 0-500 m.
Voucher: Albán & Fernández 338 (USM!)
Depts.: LI

Cycas revoluta Thunberg
Ref. Eckenwalder, 1980: 721.
Cultivated shrub. Coastal: disturbed areas. 0-500 m.
Voucher: Daza & Albán 368 (USM!)
Depts.: LI

Zamia lindenii Regel ex André =Zamia poeppigiana C. Martius & Eichler
Ref. FP 13(1/1) 1936: 81; Sabato, 1990: 179.

Zamia poeppigiana C. Martius & Eichler
Syn. *Zamia lindenii* Regel ex André
Ref. FP 13(1/1) 1936: 82; Sabato, 1990: 179; Stevenson *et al.*, 1990: 206.
Shrub. Andean I: forests. 500-1000 m.
Voucher: Poeppig s.n.* (F), Williams 5373 (US)
Depts.: AM, HU, JU, LO, SM, TU

Zamia ulei Dammer
Ref. FP 13(1/1) 1936: 82; Stevenson *et al.*, 1990: 206.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Plowman *et al.* s.n. (USM!)
Depts.: LO

Ephedraceae

1 genus and 3 species in Peru.

Prepared by L. Brako.

Ephedra americana Humboldt & Bonpland ex Willdenow
Syn. *Ephedra americana* var. *humboldtii* Stapf pro parte
Ref. FP 13(1/1) 1936: 85; Franquemont *et al.*, 1990: 40.
Shrub. Andean I-III: grasslands, lomas, rocky slopes, shrublands. 500-4500 m.
Voucher: Humboldt s.n.* (B photo F!), Smith 3001 (MO!)
Depts.: AM, AN, AP, AR, AY, CA, CU, HU, HV, JU, LI, LL, MO, PU, TA

Ephedra americana var. *humboldtii* Stapf pro parte =Ephedra americana Humboldt & Bonpland ex Willdenow
Ref. FP 13(1/1) 1936: 85; J. H. Hunziker, 1949: 169.

Ephedra americana var. *humboldtii* Stapf pro parte =Ephedra breana Philippi
Ref. FP 13(1/1) 1936: 85; J. H. Hunziker, 1949: 166.

Ephedra americana var. *rupestris* (Bentham) Stapf =Ephedra rupestris Bentham
Ref. FP 13(1/1) 1936: 85; J. H. Hunziker, 1949: 161.

[Ephedra andina Poeppig]
Ref. FP 13(1/1) 1936: 85; J. H. Hunziker, 1949: 154.
Note: Not known from Peru.

Ephedra andina var. *humilis* Parlatore =Ephedra rupestris Bentham
Ref. FP 13(1/1) 1936: 85; J. H. Hunziker, 1949: 161.

Ephedra breana Philippi
Syn. *Ephedra americana* var. *humboldtii* Stapf pro parte
Ref. J. H. Hunziker, 1949: 166.
Herb. Andean II. 3000-3500 m.
Voucher: Weberbauer 1399 (MOL!)
Depts.: AR

Ephedra humilis Weddell =Ephedra rupestris Bentham
Ref. FP 13(1/1) 1936: 85; J. H. Hunziker, 1949: 161.

Ephedra rupestris Bentham
Ref. J. H. Hunziker, 1949: 161.
Syn. *Ephedra americana* var. *rupestris* (Bentham) Stapf, *Ephedra andina* var. *humilis* Parlatore, *Ephedra humilis* Weddell
Herb or shrub. Andean II-III: rocky slopes. 2500-4500 m.
Voucher: Dillon *et al.* 3340 (MO!)
Depts.: AN, CU, JU, LL, MO, PU

Ginkgoaceae

1 genus and 1 species in Peru.

Prepared by J. L. Zarucchi; reviewed by B. T. Styles (FHO).

Ginkgo biloba L.
Ref. Vásquez, pers. comm.
Cultivated and introduced tree. Coastal: disturbed areas. 0-500 m.
Note: No voucher seen.
Depts.: LI

Gnetaceae

1 genus and 2 species in Peru.

Prepared by L. Brako and J. L. Zarucchi; reviewed by B. T. Styles (FHO).

Gnetum leyboldii Tulasne
Ref. FP 13(1/1) 1936: 86; Cavalcante, 1978: 211.
Liana. Amazonian: forests on white sand, riversides. 0-500 m.
Voucher: Foster 8844 (MO!)
Depts.: HU, LO

Gnetum nodiflorum Brongniart
Ref. FP 13(1/1) 1936: 86; Cavalcante, 1978: 205.
Liana. Amazonian: riversides. 0-500 m.
Voucher: Díaz *et al.* 469 (MO!)
Depts.: LO, MD

Pinaceae

1 genus and 1 species in Peru.

Prepared by J. L. Zarucchi; reviewed by B. T. Styles (FHO).

Pinus caribaea Morelet
Cultivated and introduced tree. Amazonian: disturbed areas. 0-500 m.
Voucher: Ayala 120 (MO!)
Depts.: LO

Podocarpaceae

3 genera and 10 species in Peru.

Endemic species: 1.

Prepared by L. Brako; reviewed by D. J. de Laubenfels (Syracuse University), B. León (USM) and B. T. Styles (FHO).

Decussocarpus rospigliosii (Pilger) Laubenfels =Nageia rospigliosii (Pilger) Laubenfels
Ref. Laubenfels, 1969: 347; Laubenfels, 1991: 60.

Nageia rospigliosii (Pilger) Laubenfels
Syn. *Decussocarpus rospigliosii* (Pilger) Laubenfels, *Podocarpus rospigliosii* Pilger
Ref. Laubenfels, 1969: 347; Laubenfels, 1991: 60.
Tree. Andean II: disturbed areas, forests. 1500-2000 m.
Note: Often cultivated.
Voucher: Esposto s.n.* (B), Smith & Brack 7634 (MO!)
Depts.: CA, PA

Podocarpus celatus Laubenfels
Ref. Laubenfels, 1985: 263; Laubenfels, 1991: 58.
Tree. Amazonian, Andean I: forests. 0-1500 m.
Voucher: van der Werff *et al.* 10249 (MO!)
Depts.: JU, LO

Podocarpus glomeratus D. Don
Ref. FP 13(1/1) 1936: 83; Laubenfels, 1985: 258; Laubenfels, 1991: 59.
Shrub or tree. Andean II-III: forests. 2000-4000 m.
Voucher: Ruiz & Pavón s.n.*, Vargas 9466 (MO!)
Depts.: AP, CU, HU, JU

Podocarpus harmsianus Pilger =Prumnopitys harmsiana (Pilger) Laubenfels
Ref. FP 13(1/1) 1936: 83; Laubenfels, 1978: 190.

Podocarpus ingensis Laubenfels
Ref. Laubenfels, 1991: 58.
Endemic tree. Andean II: forests. 1500-3000 m.
Note: This taxon may not be distinct from *Podocarpus oleifolius* (León, pers. comm.).
Voucher: Stein & Todzia 2200* (MO!), Smith 5399 (MO!)
Depts.: CU, HU, PA, SM

Podocarpus macrostachys Parlatore
Syn. *Podocarpus oleifolius* var. *macrostachys* (Parlatore) Buchholz & N. Gray
Ref. Laubenfels, 1991: 58.
Tree. Andean II-III: cloud forests. 2000-4000 m.
Voucher: López 8310 (USM)
Depts.: CA

Podocarpus magnifolius Standley
Ref. Laubenfels, 1985: 263; Laubenfels, 1991: 58.
Tree. Andean I-II: forests. 1500-2000 m.
Voucher: Smith 5176 (MO!)
Depts.: HU, PA

Podocarpus montanus (Willdenow) Loddiges =Prumnopitys montana (Willdenow) Laubenfels
Ref. FP 13(1/1) 1936: 83.

Podocarpus oleifolius D. Don
Ref. FP 13(1/1) 1936: 84; Laubenfels, 1985: 260; Laubenfels, 1991: 58.
Tree. Andean II: cloud forests. 2000-3500 m.
Voucher: Pavón s.n.* (BM), Smith 6124 (MO!)
Depts.: AM, CA, CU, HU, PA, PU, SM

Podocarpus oleifolius var. *macrostachys* (Parlatore) Buchholz & N. Gray =Podocarpus macrostachys
Ref. Laubenfels, 1991: 58

Podocarpus rospigliosii Pilger =Nageia rospigliosii (Pilger) Laubenfels
Ref. FP 13(1/1) 1936: 84; Laubenfels, 1969: 347; Laubenfels, 1991: 60.

Podocarpus sprucei Parlatore
Ref. Laubenfels, 1985: 259; Laubenfels, 1991: 59.
Shrub or tree. Andean II-III: forests or shrublands. 2500-4000 m.
Voucher: Sagástegui & Cabanillas 8637 (MO!)
Depts.: PI

Podocarpus utilior Pilger =Prumnopitys harmsiana (Pilger) Laubenfels
Ref. FP 13(1/1) 1936: 84; Laubenfels, 1978: 190; Laubenfels, 1991: 60.

Prumnopitys harmsiana (Pilger) Laubenfels
Syn. *Podocarpus harmsianus* Pilger, *Podocarpus utilior Pilger*
Ref. Laubenfels, 1978: 190; Laubenfels, 1991: 60.
Tree. Andean I-II: disturbed areas, forests. 1000-3000 m.
Voucher: Smith 3208 (MO!)
Depts.: AY, CA, CU, JU, PA

Prumnopitys montana (Willdenow) Laubenfels
Syn. *Podocarpus montanus* (Willdenow) Loddiges, *Taxus montana* Willdenow (Taxaceae)
Ref. Laubenfels, 1978: 189; Laubenfels, 1991: 60.
Tree. Andean II-III: cloud forests. 1500-4000 m.
Voucher: Díaz 2003 (MO!)
Depts.: CA, JU, PA, SM

[Taxaceae]

Note: This family is not known to occur in Peru.

Taxus montana Willdenow =Prumnopitys montana (Willdenow) Laubenfels (Podocarpaceae)
Ref. Laubenfels, 1978: 189.

Angiospermae

Acanthaceae

39 genera and 262 species in Peru.

Endemic genera (5): *Aphelandrella, Cephalacanthus, Cylindrosolenium, Orophochilus, Trichosanchezia.*
Endemic species: 57.

Note: Not treated in the Flora of Peru.

Prepared by L. Brako; reviewed by D. C. Wasshausen (US).

Adelaster albivenis Lindley ex Veitch =Fittonia albivenis (Lindley ex Veitch) Brummitt

Adhatoda pilosa Nees =Justicia pilosa (Nees) Lindau

Amphiscopia inficiens (M. Vahl) Nees =Justicia inficiens M. Vahl

Amphiscopia lancifolia Nees =Justicia lancifolia (Nees) Badillo
Ref. Badillo, 1947: 419.

Ancylogyne capitata Nees =Sanchezia capitata (Nees) Lindau
Ref. Leonard, 1932: 132.

Ancylogyne peruviana Nees =Sanchezia peruviana (Nees) Rusby
Ref. Leonard & Smith, 1964: 323.

Aphelandra acanthifolia Hooker
Ref. Wasshausen, 1975: 21.
Shrub or tree. Andean II: disturbed areas, riversides, rocky slopes. 1500-3000 m.
Voucher: Mathews s.n.* (K), Díaz & Baldeón 2435 (MO!)
Depts.: AM, CA, LL, PI, SM

Aphelandra acanthus Nees
Ref. Wasshausen, 1975: 18.
Shrub or tree. Andean II: forests. 1500-2000 m.
Voucher: Soukup 2403 (US!)
Depts.: JU

Aphelandra acrensis Lindau
Ref. Wasshausen, 1975: 111.
Herb. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Voucher: Maas *et al.* 5963 (US!, USM!)
Depts.: HU, SM

Aphelandra acutifolia Nees =Aphelandra aurantiaca var. aurantiaca

Aphelandra aurantiaca (Schiedweiler) Lindley var. **aurantiaca**
Syn. *Aphelandra acutifolia* Nees, *Hemisandra aurantiaca* Schiedweiler
Ref. Wasshausen, 1975: 56.
Herb or shrub. Amazonian, Andean I-II: forests, seasonally inundated areas. 0-2000 m.
Voucher: Smith & Palacios 2654 (MO!)

Depts.: AM, AY, CU, HU, JU, LO, MD, PA, PU, SM

Aphelandra aurantiaca var. **nitens** (Hooker) Wasshausen
Syn. *Aphelandra nitens* Hooker
Ref. Wasshausen, 1975: 58.
Herb. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Schunke 1130 (US!)
Depts.: HU, JU, LO, MD, SM

Aphelandra aurantiaca var. **stenophylla** Standley
Ref. Wasshausen, 1975: 58.
Shrub. Amazonian, Andean I: forests, seasonally inundated areas. 0-1000 m.
Voucher: Schunke 8142 (US!)
Depts.: AY, HU, JU, SM

Aphelandra cajatambensis Lindau =Aphelandra lyrata Nees
Ref. Wasshausen, 1975: 37.

Aphelandra campii Wasshausen
Ref. Wasshausen, 1975: 111.
Shrub. Andean I-II: cloud forests. 500-2000 m.
Voucher: Gentry *et al.* 22912 (MO!)
Depts.: AM, HU

Aphelandra castanaefolia Britton ex Rusby
Ref. Wasshausen, 1975: 36.
Shrub. Andean I: disturbed areas. 1000-1500 m.
Voucher: Wasshausen & Encarnación 757 (USM!)
Depts.: CU

Aphelandra chartacea T. Anderson =Ruellia chartacea (T. Anderson) Wasshausen
Ref. Wasshausen, 1987: 265.

Aphelandra cirsioides Lindau
Ref. Wasshausen, 1975: 30.
Shrub. Andean II: forests. 2000-3500 m.
Voucher: Weberbauer 3901* (B), Sagástegui *et al.* 8858 (MO!)
Depts.: CA, HU, JU, PI

Aphelandra cuscoensis Wasshausen
Ref. Wasshausen, 1975: 38.
Endemic shrub. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Vargas 15415* (US)
Depts.: CU

Aphelandra dasyantha Wasshausen
Ref. Wasshausen, 1975: 27.
Shrub. Andean I: disturbed areas. 1000-1500 m.
Voucher: Sénège s.n.* (P), Gentry *et al.* 23092 (MO!, USM!)
Depts.: AM

Aphelandra diffusa Wasshausen
Ref. Wasshausen, 1975: 123.
Herb. Andean I-II: disturbed areas. 1000-2500 m.
Voucher: Sagástegui & Cabanillas 8659 (MO!)
Depts.: CA, PI

Aphelandra eurystoma Mildbraed
Ref. Wasshausen, 1975: 19.
Endemic herb. Andean I-II: disturbed areas. 1000-3000 m.
Voucher: Weberbauer 7876* (US), Metcalf 30549 (MO!)
Depts.: CA, CU, LL, PU

Aphelandra ferreyrae Wasshausen
Ref. Wasshausen, 1975: 67.
Endemic herb or shrub. Andean I: forests, riversides. 500-1000 m.
Voucher: Ferreyra 4333* (US!), Schunke 8091 (MO!, USM!)
Depts.: HU, PA, SM

Aphelandra formosa (Humboldt & Bonpland) Nees
Syn. *Ruellia formosa* Humboldt & Bonpland
Ref. Wasshausen, 1975: 30.
Shrub or tree. Andean II: rocky slopes. 2000-3000 m.
Voucher: Humboldt & Bonpland s.n.* (P), Hutchison & Wright 5039 (US!)
Depts.: CA, HU

Aphelandra glabrata Willdenow ex Nees
Ref. McDade, 1988: 235.
Shrub. Andean I, Coastal: forests, riversides. 0-1500 m.
Voucher: Klug 3890 (MO!)
Depts.: AM, CA, HU, JU, SM, TU

Aphelandra goodspeedii Standley & F. Barkley
Ref. Wasshausen, 1975: 64.
Endemic herb. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Stork & Horton 9597* (UC), Foster & Wachter 7269 (MO!, USM!)
Depts.: CU, HU, LO, MD, SM, UC

Aphelandra hapala Wasshausen
Ref. Wasshausen, 1975: 114.
Endemic herb. Andean II. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Ferreyra 1670* (US)
Depts.: UC

Aphelandra hylaea Leonard
Ref. Wasshausen, 1975: 47.
Herb or shrub. Amazonian: disturbed areas. 0-500 m.
Voucher: Encarnación 1132 (US!)
Depts.: MD

Aphelandra jacobinioides Lindau
Ref. Wasshausen, 1975: 120.
Endemic herb or shrub. Amazonian, Andean I-II: forests. 0-2500 m.
Voucher: Weberbauer 4663* (MOL!), Smith 3699 (MO!)
Depts.: AM, HU, LO, PA, SM

Aphelandra juninensis Wasshausen
Ref. Wasshausen, 1975: 28.
Endemic shrub. Andean II: rocky slopes. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6537* (F)
Depts.: JU

Aphelandra latibracteata Wasshausen
Ref. Wasshausen, 1975: 118.
Endemic herb. Amazonian, Andean I: disturbed areas, forests, riversides. 0-1500 m.
Voucher: Ferreyra 1908* (US!), Foster 8805 (MO!)
Depts.: HU, SM, UC

Aphelandra limbatifolia Lindau
Ref. Wasshausen, 1975: 116.
Shrub. Andean I: forests. 1000-1500 m.
Voucher: Weberbauer 1200* (B photo F!), Vargas 17577 (US!)
Depts.: MD, PU

Aphelandra luyensis Lindau
Ref. Wasshausen, 1975: 32.
Endemic shrub. Andean II: riversides. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 7163* (B photo F!)
Depts.: AM

Aphelandra lyrata Nees
Syn. *Aphelandra cajatambensis* Lindau
Ref. Wasshausen, 1975: 37.
Endemic herb. Andean II. 2000-3000 m.
Voucher: Mathews 782* (K frag. US), Sagástegui 2985 (US!)
Depts.: AM, AN, CA, LI, LL

Aphelandra macrosiphon Lindau
Ref. Wasshausen, 1975: 38.
Shrub. Andean I. 1000-1500 m.
Voucher: Rauh & Hirsch P-1304 (F)
Depts.: CU, MD

Aphelandra maculata (Tafalla ex Nees) Voss
Syn. *Lagochilium maculatum* Tafalla ex Nees
Ref. Wasshausen, 1975: 65.
Herb. Amazonian, Andean I: forests, riversides. 0-1000 m.
Voucher: Killip & Smith 23088 (US!)
Depts.: AY, LO, PA, SM

Aphelandra montis-scalaris Lindau ex Pilger
Ref. Wasshausen, 1975: 118.
Herb. Andean I: forests. 500-1500 m.
Voucher: Ule 6558* (K), Klug 3615 (MO!)
Depts.: SM

Aphelandra mucronata (R. & P.) Nees
Syn. *Justicia mucronata* R. & P.
Ref. Wasshausen, 1975: 34.
Shrub. Andean I: disturbed areas, forests, rocky slopes. 500-1000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Wasshausen & Encarnación 973 (US!)
Depts.: HU, SM, UC

Aphelandra nervosa T. Anderson =Justicia scansilis (Rizzini) V. Graham
Ref. Wasshausen, pers. comm.

Aphelandra nitens Hooker =Aphelandra aurantiaca var. nitens (Hooker) Wasshausen
Ref. Wasshausen, 1975: 58.

Aphelandra ochrolarynx Leonard
Ref. Wasshausen, 1975: 70.
Herb. Andean I: forests. 500-1000 m.
Voucher: Foster 9210 (MO!, USM!)
Depts.: HU

Aphelandra pepe-parodii Wasshausen
Ref. Wasshausen, 1976a: 179.
Endemic shrub. Amazonian, Andean I: forests, riversides, seasonally inundated areas. 0-1000 m.
Voucher: Wasshausen & Encarnación 506* (MO!), Gentry 43330 (MO!)
Depts.: AY, MD

Aphelandra peruviana Wasshausen
Ref. Wasshausen, 1975: 35.
Endemic shrub. Andean I: forests. 500-1000 m.
Voucher: Weberbauer 6952* (F), Foster & Wachter 7238 (MO!, USM!)
Depts.: CU, LL, MD

Aphelandra pulcherrima (Jacquin) H.B.K.
Syn. *Justicia pulcherrima* Jacquin
Ref. Wasshausen, 1975: 88.
Shrub. Amazonian, Andean I: forests, riversides. 0-1500 m.
Voucher: Schunke 2386 (US!)
Depts.: AM, CA, HU, HV, JU, SM, TU

Aphelandra rubra Wasshausen
Ref. Wasshausen, 1975: 27.
Herb. Andean I. 500-1000 m.
Voucher: Pearce s.n. (K)
Depts.: LI

Aphelandra superba Lindau
Ref. Wasshausen, 1975: 28.
Shrub. Andean II: forests. 2500-3000 m.
Note: The type is probably mislabeled Peru.
Voucher: Lobb s.n.* (B photo F), Valencia 2076 (US!)
Depts.: PI

Aphelandra tessmannii Mildbraed
Ref. Wasshausen, 1975: 67.
Endemic herb. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Tessmann 4778* (B photo F)
Depts.: LO

Aphelandra tillettii Wasshausen
Ref. Wasshausen, 1975: 23.
Shrub. Andean II: disturbed areas, riversides. 1500-2000 m.
Voucher: Tillett 673-291* (US), Young *et al.* 397 (MO!)
Depts.: AM, PA

Aphelandra viscosa Mildbraed
Ref. Wasshausen, 1975: 36.
Endemic herb. Andean II: forests. 2000-3000 m.
Voucher: Raimondi 7133* (B photo F), Sagástegui & López 10674 (MO!)
Depts.: CA

Aphelandra weberbaueri Mildbraed
Ref. Wasshausen, 1975: 33.
Endemic shrub. Andean I-II: forests, riversides. 500-2000 m.
Voucher: Weberbauer 6657* (B photo F), Woytkowski 5944 (US!, USM!)
Depts.: HU, JU

Aphelandra wurdackii Wasshausen
Ref. Wasshausen, 1975: 32.
Herb. Andean II: forests, riversides. 2000-2500 m.
Voucher: Wurdack 1487* (US), Barbour 3991 (MO!)
Depts.: AM

Aphelandrella modesta Mildbraed
Ref. Mildbraed, 1926: 986.
Endemic herb. Amazonian: forests, riversides. 0-500 m.
Voucher: Tessmann 4288* (B)
Depts.: LO

Arrhostoxylum haenkeanum Nees =Ruellia haenkeana (Nees) Wasshausen
Ref. Wasshausen, 1988: 423.

Arrhostoxylum pedunculosum Nees =Ruellia pedunculosa (Nees) B. D. Jackson & Hooker f.
Ref. Wasshausen, pers. comm.

Barleria cristata L.
Ref. Leonard, 1951: 110.
Cultivated herb. Andean I: disturbed areas. 500-1000 m.
Voucher: Vargas & Fernández 91 (US!)
Depts.: JU

Barleria pyramidata Lamarck =Blechum pyramidatum (Lamarck) Urban
Ref. Durkee, 1986: 32.

Beloperone appendiculata (R. & P.) Nees =Justicia appendiculata (R. & P.) M. Vahl

Beloperone baenitzii H. Winkler =Justicia baenitzii (H. Winkler) C. Ezcurra
Ref. Ezcurra, 1988: 348.

Beloperone calycina Nees =Justicia calycina (Nees) V. Graham
Ref. Graham, 1988: 610; Wasshausen, pers. comm.

Beloperone ciliata Nees, nom. illeg. =Justicia radicans M. Vahl
Ref. Graham, 1988: 604; Wasshausen, pers. comm.

Beloperone monopleurantha Lindau =Justicia monopleurantha (Lindau) Wasshausen
Ref. Lindau, 1904: 415; Wasshausen, pers. comm.

Beloperone pubinervia Lindau =Justicia appendiculata (R. & P.) M. Vahl

Beloperone pyrrhostachya Lindau =Justicia pyrrhostachya (Lindau) Wasshausen
Ref. Lindau, 1904: 417; Wasshausen, pers. comm.

Beloperone scansilis Rizzini =Justicia scansilis (Rizzini) V. Graham
Ref. Graham, 1988: 617.

Beloperone sessilifolia Lindau =Justicia sessilifolia (Lindau) Wasshausen
Ref. Lindau, 1922b: 247; Wasshausen, pers. comm.

Beloperone soukupii Standley & F. Barkley =Justicia soukupii (Standley & F. Barkley) V. Graham
Ref. Graham, 1988: 604.

Beloperone weberbaueri Lindau =Justicia weberbaueri (Lindau) Wasshausen
Ref. Lindau, 1922b: 247; Wasshausen, pers. comm.

Blechum brownei A. L. Jussieu, nom. illeg. =Blechum pyramidatum (Lamarck) Urban
Ref. Gibson, 1974: 342; Wasshausen, pers. comm.

Blechum brownei fo. *brownei* =Blechum pyramidatum (Lamarck) Urban
Ref. Gibson, 1974: 342; Wasshausen, pers. comm.

Blechum brownei fo. *puberulum* Leonard =Blechum pyramidatum (Lamarck) Urban
Ref. Leonard, 1951: 60; Wasshausen, pers. comm.

Blechum pyramidatum (Lamarck) Urban
Syn. *Barleria pyramidata* Lamarck, *Blechum brownei* A. L. Jussieu, nom. illeg. *Blechum brownei* fo. *brownei*, *Blechum brownei* fo. *puberulum* Leonard
Ref. Durkee, 1986: 32; Wasshausen, pers. comm.
Herb. Amazonian, Andean I: disturbed areas, forests on white sand, seasonally inundated areas. 0-1000 m.
Voucher: Hutchison 1434 (US!, USM)
Depts.: CA, LA, LO, SM, TU, UC

Calophanes ciliatus Nees =Dyschoriste ciliata (Nees) Kuntze
Ref. Kobuski, 1928: 48.

Calophanes repens Nees =Dyschoriste repens (Nees) Kuntze
Ref. Kobuski, 1928: 52.

Cephalacanthus maculatus Lindau
Ref. Lindau, 1905: 158.
Endemic shrub. Andean I. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 4647* (MOL!)
Depts.: SM

Chaetochlamys rusbyi Lindau =Justicia rusbyi (Lindau) V. Graham
Ref. Graham, 1988: 605.

Cylindrosolenium sprucei Lindau
Endemic shrub. Andean I-II: forests, riversides. 500-2000 m.
Voucher: Spruce 4371* (K), Wasshausen & Encarnación 958 (US!, USM!)
Depts.: HU, JU, SM

Dianthera acuminata R. & P. =Dicliptera acuminata (R. & P.) A. L. Jussieu

Dianthera appendiculata R. & P. =Justicia appendiculata (R. & P.) M. Vahl

Dianthera ciliata R. & P. =Justicia radicans M. Vahl

Dianthera comata L. =Justicia comata (L.) Lamarck
Ref. Leonard, 1958: 615.

Dianthera hookeriana (Nees) Bentham & Hooker f. =Justicia chachapoyasensis Wasshausen
Ref. Wasshausen, pers. comm.

Dianthera mucronata Mathews ex Nees, pro syn. =Dicliptera hookeriana Nees

Dianthera mucronata R. & P. =Dicliptera peruviana (Lamarck) Jussieu

Dianthera repens R. & P. =Dicliptera ruiziana Wasshausen
Ref. Wasshausen, pers. comm.

Dianthera secondiflora R. & P. =Justicia secundiflora (R. & P.) M. Vahl

Dicliptera acuminata (R. & P.) A. L. Jussieu
Syn. *Dianthera acuminata* R. & P.
Herb or shrub. Andean I-II: disturbed areas. 1000-3500 m.
Voucher: Ferreyra 13232 (US!, USM!)
Depts.: AN, AP, CA, LI, LL

[Dicliptera congesta H.B.K.]
Ref. Wasshausen, pers. comm.
Note: Not known from Peru; a Mexican species erroneously attributed to Peru.

Dicliptera hookeriana Nees
Syn. *Dianthera mucronata* Mathews ex Nees, pro syn., *Ecbolium hookerianum* (Nees) Kuntze, *Rhytiglossa hookeriana* Nees
Herb. Andean II. 1000-3000 m.
Voucher: Mathews 465* (K), Hutchison 1374 (MO!, USM)
Depts.: CA, LA, LI, LL

Dicliptera montana Lindau
Ref. Lindau, 1905: 157.
Herb or shrub. Amazonian, Andean I-II: disturbed areas, forests, riversides, rocky slopes. 0-3000 m.
Voucher: Weberbauer 4140* (B, presumed destroyed), Schunke 9535 (US!)
Depts.: HV, LA, LI, LL, SM

Dicliptera peruviana (Lamarck) Jussieu
Syn. *Dianthera mucronata* R. & P., *Justicia peruviana* Lamarck
Herb. Andean I-II, Coastal: disturbed areas, forests, lomas, rocky slopes. 0-3000 m.
Voucher: Ruiz 280* (BM), Sagástegui 10938 (US!)
Depts.: AM, AN, AP, CA, HU, JU, LA, LI, LL, PI, TU

Dicliptera porphyrea Lindau
Ref. Lindau, 1904c: 368.
Endemic herb. Andean II: disturbed areas. 1500-3500 m.
Voucher: Weberbauer 2676* (MOL!), Wasshausen & Encarnación 473 (US!, USM!)
Depts.: AN, AY, HV

Dicliptera procumbens Humboldt ex Link
Herb. Andean II: disturbed areas, grasslands. 3000-3500 m.
Voucher: Humboldt 3639* (B photo US), Gentry *et al.* 37334 (MO!, USM!)
Depts.: AN

Dicliptera rauhii Wasshausen
Ref. Wasshausen, 1988: 425.
Endemic herb. Andean II. 1500-3000 m.
Voucher: Rauh & Hirsch P804* (HEID), Ferreyra 9941 (US!)
Depts.: CU

Dicliptera ruiziana Wasshausen
Syn. *Dianthera repens* R. & P., *Dicliptera tomentosa* (M. Vahl) Nees, *Justicia tomentosa* M. Vahl
Ref. Wasshausen, pers. comm.
Shrub. Andean I-II, Coastal: lomas, rocky slopes. 0-3000 m.
Note: New name validated in Appendix 1.
Voucher: Ruiz & Pavón s.n.* (MA), Sullivan *et al.* 932 (MO!)
Depts.: AR, HU, LI, MO

Dicliptera scabra Nees
Herb. Andean II: riversides. 1500-2000 m.
Voucher: Saunders 1242 (US!)
Depts.: LI

Dicliptera scutellata Grisebach
Herb. Andean II: disturbed areas, forests, riversides. 2000-3000 m.
Voucher: Sagástegui & López 10668 (MO!)
Depts.: CA

Dicliptera tomentosa (M. Vahl) Nees =Dicliptera ruiziana Wasshausen
Ref. Wasshausen, pers. comm.

Dipteracanthus floribundus (Hooker) Nees =Ruellia floribunda Hooker

Dipteracanthus grandiflorus Nees =Ruellia neoneesiana Wasshausen
Ref. Wasshausen, pers. comm.

Dipteracanthus grandiflorus var. *clandestinus* Nees =Ruellia neoneesiana Wasshausen
Ref. Wasshausen, pers. comm.

Dipteracanthus menthoides Nees =Ruellia menthoides (Nees) Hiern

Dipteracanthus spectabilis Hooker =Ruellia spectabilis (Hooker) Nicholson

Dyschoriste ciliata (Nees) Kuntze
Syn. *Calophanes ciliatus* Nees, *Ruellia ciliata* Ruiz ex Nees, pro syn.
Ref. Kobuski, 1928: 48.
Herb. Amazonian: forests. 0-500 m.
Voucher: Ruiz 1787* (B photo F), Ferreyra *et al.* 10656 (US!, USM!)
Depts.: HU, TU

Dyschoriste quitensis (H.B.K.) Kuntze
Syn. *Ruellia quitensis* H.B.K.
Ref. Kobuski, 1928: 50.
Herb. Andean I-II, Coastal: disturbed areas. 500-2000 m.
Voucher: Gentry *et al.* 22615 (MO!)
Depts.: CA, PI, TU

Dyschoriste repens (Nees) Kuntze
Syn. *Calophanes repens* Nees, *Ruellia repens* Ruiz ex Nees, pro syn.
Ref. Kobuski, 1928: 52.
Herb. Coastal: lomas, rocky slopes. 0-500 m.
Voucher: Ruiz s.n.* (B photo F), Ferreyra 1549 (US!, USM)
Depts.: AR, LI, TU

Ecbolium hookerianum (Nees) Kuntze =Justicia chachapoyasensis Wasshausen
Ref. Wasshausen, pers. comm.

Ecbolium inficiens (M. Vahl) Kuntze =Justicia inficiens M. Vahl

Ecbolium lancifolium (Nees) Kuntze =Justicia lancifolia (Nees) Badillo
Ref. Badillo, 1947: 419.

Ecbolium lineolatum (R. & P.) Kuntze =Justicia lineolata R. & P.

Ecbolium poeppigianum (Nees) Kuntze =Justicia poeppigiana (Nees) Lindau

Ecbolium racemosum (R. & P.) Kuntze =Justicia racemosa R. & P.
Ref. Graham, 1988: 611.

Ecbolium tenuiflorum (R. & P.) Kuntze =Justicia tenuiflora R. & P.

Elytraria imbricata (M. Vahl) Persoon
Syn. *Justicia imbricata* M. Vahl
Ref. Leonard, 1951: 7.
Herb. Amazonian, Andean I, Coastal: forests. 0-1000 m.
Voucher: Schunke 3033 (US!)
Depts.: CU, PI, TU

Encephalosphaera lasiandra Mildbraed
Ref. Mildbraed, 1930: 68.
Shrub. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Schunke 10265 (MO!)
Depts.: AY, CU, MD, SM

Engelia tovarensis Klotzsch & Karsten ex Nees =Mendoncia tovarensis (Klotzsch & Karsten ex Nees) Leonard
Ref. Leonard, 1953a: 563.

Eranthemum cordatum Nees
=Pseuderanthemum cordatum (Nees) Radlkofer
Ref. Durkee, 1978: 249.

Fittonia albivenis (Lindley ex Veitch) Brummitt
Syn. *Adelaster albivenis* Lindley ex Veitch, *Fittonia argyoneura* E. Coemans
Ref. Brummitt, 1979: 165, 167.
Herb. Amazonian, Andean I: forests, riversides. 0-1500 m.
Voucher: Núñez 5437 (MO!)
Depts.: AM, AY, HU, LO, MD, PU, SM, UC

Fittonia argyoneura E. Coemans =Fittonia albivenis (Lindley ex Veitch) Brummitt
Ref. Brummitt, 1979: 167.

Fittonia gigantea Linden ex André
Ref. Brummitt, 1979: 168.
Herb. Andean I: forests. 500-1000 m.
Voucher: Schunke 12209 (US!)
Depts.: HU, SM

Goldfussia isophylla Nees =Strobilanthes isophyllus (Nees) T. Anderson

Habracanthus macrolobus Lindau
Ref. Lindau, 1922a: 143.
Shrub. Andean II: disturbed areas, forests, riversides. 2500-3000 m.
Voucher: Weberbauer 6580* (US!), Hutchison & Wright 5945 (US!)
Depts.: HU

Hansteinia crenulata Britton ex Rusby
Herb or shrub. Amazonian, Andean I-II: disturbed areas, forests, riversides. 0-2000 m.
Voucher: Wachter 85 (US!, USM!)
Depts.: CU, JU, MD, PA, PU, SM

Hemisandra aurantiaca Schiedweiler =Aphelandra aurantiaca var. aurantiaca
Ref. Wasshausen, 1975: 55.

Hygrophila guianensis Nees
Ref. Leonard, 1951: 58.
Herb or shrub. Amazonian, Andean I: disturbed areas, riversides, seasonally inundated areas. 0-1500 m.
Voucher: Foster & D'Achille 12076 (US!)
Depts.: AM, HU, JU, LO, MD, SM, UC

Jacobinia aphelandroides Mildbraed =Justicia aphelandroides (Mildbraed) Wasshausen
Ref. Mildbraed, 1926: 989; Wasshausen, pers. comm.

Jacobinia elegantissima Lindau =Justicia elegantissima (Lindau) Wasshausen
Ref. Wasshausen, pers. comm.

Jacobinia glabribracteata Lindau =Justicia glabribracteata (Lindau) V. Graham
Ref. Graham, 1988: 617.

Jacobinia mendax Lindau =Justicia mendax (Lindau) Wasshausen
Ref. Lindau, 1904b: 418; Wasshausen, pers. comm.

Jacobinia pubescens Nees =Justicia sericea R. & P.
Ref. Wasshausen, pers. comm.

Jacobinia sericea (R. & P.) Nees =Justicia sericea R. & P.

Jacobinia weberbaueri Lindau =Justicia pozuzoensis Wasshausen
Ref. Lindau, 1922: 246; Wasshausen, pers. comm.

Juruasia rotundata Lindau
Ref. Lindau, 1904b: 403.
Herb, shrub or vine. Amazonian: forests, riversides, seasonally inundated areas. 0-500 m.
Voucher: Foster & Wachter 7412 (USM!)
Depts.: LO, MD, PA, PU

Justicia
Note: Graham (1988) does not treat all Peruvian species.

Justicia acuminata (Nees) Lindau =Justicia comata (L.) Lamarck
Ref. Graham, 1988: 618.

Justicia acuminatissima (Miquel) Bremekamp =Justicia calycina (Nees) V. Graham

Justicia alpina Lindau
Ref. Lindau, 1905b: 159; Graham, 1988: 600.
Endemic herb. Andean II-III: forests. 2000-4000 m.
Voucher: Weberbauer 3817* (MOL!), Mexia 8081 (MO!)
Depts.: CA, CU

Justicia aphelandroides (Mildbraed) Wasshausen
Syn. *Jacobinia aphelandroides* Mildbraed
Ref. Wasshausen, pers. comm.
Herb. Amazonian. 0-500 m.
Note: New combination made in Appendix 1.
Voucher: Tessmann 4222* (B, presumed destroyed, photo F!), Wurdack 2245 (US!)
Depts.: AM

Justicia appendiculata (R. & P.) M. Vahl
Syn. *Beloperone appendiculata* (R. & P.) Nees, *Beloperone pubinervia* Lindau, *Dianthera appendiculata* R. & P.
Herb or shrub. Amazonian, Andean I: disturbed areas, forests, seasonally inundated areas. 0-1500 m.
Voucher: Pavón s.n.* (B photo F!), Young & Sullivan 690 (US!)
Depts.: AY, CU, HU, JU, LO, MD, PA, SM, UC

Justicia aurea Schlechtendal
Ref. Durkee, 1986: 50; Graham, 1988: 616.
Cultivated and introduced shrub. Andean I. 500-1000 m.
Voucher: Vargas & Fernández 93 (US!)
Depts.: JU

Justicia baenitzii (H. Winkler) C. Ezcurra
Syn. *Beloperone baenitzii* H. Winkler
Ref. Ezcurra, 1988: 348.
Herb. Andean I: forests. 500-1000 m.
Voucher: Ferreyra 10233 (USM!)
Depts.: HU

Justicia boliviana Rusby
Ref. Graham, 1988: 600.
Herb. Amazonian, Andean I-II: forests. 0-3000 m.
Voucher: Vargas 18665 (US!)
Depts.: CU, PU

Justicia calycina (Nees) V. Graham
Syn. *Beloperone calycina* Nees, *Justicia acuminatissima* (Miquel) Bremekamp, *Rhytiglossa acuminatissima* Miquel
Ref. Graham, 1988: 200; Wasshausen, pers. comm.
Aquatic herb or vine. Amazonian: disturbed areas, forests, seasonally inundated areas. 0-500 m.
Voucher: Gentry & Ayala 15544 (MO!)
Depts.: LO

Justicia carthaginensis Jacquin
Ref. Leonard, 1958: 547; Graham, 1988: 200.
Herb. Andean I, Coastal: forests, lomas. 0-1500 m.
Voucher: Dillon *et al.* 2723 (US!)
Depts.: LL, PI, TU

Justicia chachapoyasensis Wasshausen
Syn. *Dianthera hookeriana* (Nees) Bentham & Hooker f., *Ecbolium hookerianum* (Nees) Kuntze, *Rhytiglossa hookeriana* Nees
Ref. Wasshausen, pers. comm.
Herb or vine. Andean I-II: forests, rocky slopes. 1500-2000 m.
Note: New name validated in Appendix 1.
Voucher: Mathews 3152 bis* (K), Wasshausen & Encarnación 980 (US!, USM)
Depts.: AM, CA, LA, LL

Justicia chloanantha Leonard
Ref. Leonard, 1951: 608; Graham, 1988: 614.
Herb or shrub. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Berlin 1601 (MO!, USM!)
Depts.: AM, LO

Justicia ciliata (R. & P.) Persoon, nom. illeg. =Justicia radicans M. Vahl

Justicia coccinea Aublet =Pachystachys coccinea (Aublet) Nees
Ref. Wasshausen, 1986: 183.

Justicia comata (L.) Lamarck
Syn. *Dianthera comata* L., *Justicia acuminata* (Nees) Lindau, *Rhytiglossa acuminata* Nees
Ref. Graham, 1988: 618.
Herb. Amazonian, Andean I: disturbed areas, riversides, seasonally inundated areas. 0-1000 m.

Voucher: Wasshausen & Encarnación 976 (US!)
Depts.: AM, HU, JU, LO, MD, SM, TU, UC

Justicia concavibracteata Lindau
Ref. Lindau, 1904b: 407.
Herb. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Voucher: Encarnación 1131 (US!)
Depts.: AY, MD

Justicia cuspidulata (Nees) Wasshausen
Syn. *Rhytidoglossa cuspidulata* Nees, nom. rejic.
Ref. Wasshausen, pers. comm.
Note: New combination made in Appendix 1. Known from Peru only from the type locality.
Voucher: Mathews 3152 bis* (K)
Depts.: AM

Justicia cuzcoensis Lindau
Ref. Lindau, 1904b: 409.
Herb. Andean I-III: forests. 1000-4000 m.
Voucher: Weberbauer 5060* (B), Boeke & Boeke 3266 (US!)
Depts.: CU, MD

Justicia elegantissima (Lindau) Wasshausen
Syn. *Jacobinia elegantissima* Lindau
Ref. Lindau, 1904b: 417; Wasshausen, pers. comm.
Endemic shrub. Andean I. 1000-1500 m.
Note: New combination made in Appendix 1.
Voucher: Ule 6289* (B, presumed destroyed), Weberbauer 4623 (MOL!)
Depts.: SM, UC

Justicia filibracteolata Lindau var. **pubescens** Lindau
Ref. Leonard, 1958: 580.
Herb. Andean I: forests. 1000-1500 m.
Voucher: Santisteban & Guevara 58 (US!)
Depts.: CA

Justicia flavidiflora Lindau
Ref. Lindau, 1904b: 409.
Herb or shrub. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Wasshausen & Encarnación 516 (US!)
Depts.: AY, CU, HU, JU, MD, SM

Justicia glabribracteata (Lindau) V. Graham
Syn. *Jacobinia glabribracteata* Lindau
Ref. Graham, 1988: 617.
Voucher: Foster 10103 (MO!)
Depts.: HU, MD

Justicia hylophila Lindau
Ref. Lindau, 1904b: 408.
Shrub or vine. Amazonian: forests. 0-500 m.
Voucher: Hutchison & Wright 3716 (USM!)
Depts.: AM

Justicia imbricata M. Vahl =Elytraria imbricata (M. Vahl) Persoon
Ref. Leonard, 1951: 7.

Justicia inficiens M. Vahl
Syn. *Amphiscopia inficiens* (M. Vahl) Nees, *Ecbolium inficiens* (M. Vahl) Kuntze
Herb. Amazonian, Andean I: disturbed areas. 500-1500 m.
Voucher: Tessmann 3261* (NY), Allard 20509 (US!)
Depts.: LO, SM

Justicia iochila Mildbraed
Ref. Mildbraed, 1926: 988.
Herb. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Tessmann 4055* (US!), Killip & Smith 29822 (US!)
Depts.: AM, HU, JU, LO, SM

Justicia laevilinguis (Nees) Lindau
Syn. *Rhytiglossa laevilinguis* Nees
Ref. Leonard, 1958: 621; Graham, 1988: 599.
Aquatic or terrestrial herb. Amazonian: disturbed areas, floating, seasonally inundated areas. 0-500 m.
Voucher: Vásquez & Jaramillo 920 (US!, USM!)
Depts.: LO

Justicia lancifolia (Nees) Badillo
Syn. *Amphiscopia lancifolia* Nees, *Ecbolium lancifolium* (Nees) Kuntze
Ref. Badillo, 1947: 419.
Herb. Amazonian, Andean I: forests, riversides. 0-1500 m.
Voucher: Ruiz 8839* (B, presumed destroyed), Foster & D'Achille 10083 (US!, USM)
Depts.: HU, JU, LO, PA, SM

Justicia lineolata R. & P.
Syn. *Ecbolium lineolatum* (R. & P.) Kuntze, *Rhytiglossa lineolata* (R. & P.) Nees
Herb. Amazonian: forests. 0-500 m.
Voucher: Ruiz & Pavón B-42* (MA), Schunke 3987 (US!)
Depts.: HU, MD, SM

Justicia longistamina R. & P. =Stenostephanus longistaminus (R. & P.) V. M. Baum
Ref. Baum, 1982: 433.

Justicia loretensis Lindau
Ref. Lindau, 1904b: 410.
Endemic herb. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Ule 1876* (B, presumed destroyed), Schunke 8651 (MO!)
Depts.: LO, SM

Justicia lutea R. & P. ex Nees =Pachystachys lutea Nees

Justicia lutea R. & P. ex Schultes, nom. nud. =Pachystachys lutea Nees
Ref. Wasshausen, 1986: 162.

Justicia mendax (Lindau) Wasshausen
Syn. *Jacobinia mendax* Lindau
Ref. Wasshausen, pers. comm.
Herb. Andean II: forests. 1500-2500 m.
Note: New combination made in Appendix 1.
Voucher: Weberbauer 1296* (B, presumed destroyed, photo F!), Metcalf 30641 (MO!)
Depts.: PA, PU

Justicia monopleurantha (Lindau) Wasshausen
Syn. *Beloperone monopleurantha* Lindau
Ref. Wasshausen, pers. comm.
Shrub. Andean I: forests. 1000-1500 m.
Note: New combination made in Appendix 1.
Voucher: Weberbauer 1202* (B, presumed destroyed, US!), Wasshausen & Salas 1225 (MO!)
Depts.: PU

Justicia mucronata R. & P. =Aphelandra mucronata (R. & P.) Nees
Ref. Wasshausen, 1975: 34.

Justicia nematocalyx Lindau
Ref. Lindau, 1906: 642.
Shrub. Andean I-II: forests. 1000-2000 m.
Voucher: Weberbauer 1115* (G-DEL), Wasshausen & Salas 1227 (MO!)
Depts.: CU, PU

Justicia pectoralis Jacquin
Ref. Graham, 1988: 614.
Cultivated herb. Amazonian, Andean I: disturbed areas, forests, riversides. 0-2000 m.
Voucher: Smith 5236 (MO!)
Depts.: AY, JU, LO, PA, SM

Justicia peruviana Lamarck =Dicliptera peruviana (Lamarck) Jussieu

Justicia pilosa (Nees) Lindau
Syn. *Adhatoda pilosa* Nees
Herb. Andean I: forests. 500-1500 m.
Voucher: Ruiz s.n.* (B, presumed destroyed), Ferreyra 13166 (US!, USM!)
Depts.: HU, SM, UC

Justicia poeppigiana (Nees) Lindau
Syn. *Ecbolium poeppigianum* (Nees) Kuntze, *Leptostachya poeppigiana* Nees
Shrub. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Poeppig 2485* (US!), Foster 9278 (MO!, USM!)
Depts.: AM, HU, JU, LO, MD, SM

Justicia polygonoides H.B.K.
Ref. Graham, 1988: 601.
Herb. Amazonian, Andean I-II: disturbed areas. 500-2000 m.
Voucher: Woytkowski 6047 (US!)
Depts.: CU, LO, MD, SM

Justicia pozuzoensis Wasshausen
Syn. *Jacobinia weberbaueri* Lindau
Ref. Wasshausen, pers. comm.

Shrub. Andean I: forests, seasonally inundated areas. 500-1000 m.
Note: New name validated in Appendix 1.
Voucher: Weberbauer 6749* (B presumed destroyed, F!), Hutchison *et al.* 5945 (MO!)
Depts.: HU, PA

Justicia pubescens Ruiz ex Nees pro syn. =Justicia sericea R. & P.
Ref. Wasshausen, pers. comm.

Justicia pulcherrima Jacquin =Aphelandra pulcherrima (Jacquin) H.B.K.
Ref. Wasshausen, 1975: 88.

Justicia pyrrhostachya (Lindau) Wasshausen
Syn. *Beloperone pyrrhostachya* Lindau
Ref. Wasshausen, pers. comm.
Endemic liana or vine. Andean I: forests. 500-1000 m.
Note: New combination made in Appendix 1.
Voucher: Ule 6214* (K), Huashikat 415 (MO!)
Depts.: AM, LO

Justicia racemosa R. & P.
Syn. *Ecbolium racemosum* (R. & P.) Kuntze
Ref. Graham, 1988: 611.
Herb. Andean I-II: disturbed areas, forests, grasslands, riversides. 1000-2000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Dillon *et al.* 4318 (US!)
Depts.: CA, HU, PA, PI

Justicia radicans M. Vahl
Syn. *Beloperone ciliata* Nees, nom. illeg., *Dianthera ciliata* R. & P., *Justicia ciliata* (R. & P.) Persoon, nom. illeg.
Ref. Graham, 1988: 604.
Herb. Andean I-II: forests. 500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Ruiz & Pavón s.n.* (B)
Depts.: JU, MD

Justicia rauhii Wasshausen
Ref. Wasshausen, 1988: 428.
Endemic herb or shrub. Andean I: forests. 500-1000 m.
Voucher: Wasshausen & Encarnación 579* (US!), Wasshausen & Encarnación 609 (US!)
Depts.: CU, MD

Justicia ruiziana (Nees) Lindau
Syn. *Rhytiglossa ruiziana* Nees
Shrub. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Ruiz s.n.* (MA), Schunke 11982 (US!)
Depts.: HU, JU, MD, SM

Justicia rusbyi (Lindau) V. Graham
Syn. *Chaetochlamys rusbyi* Lindau
Ref. Graham, 1988: 605.
Shrub. Amazonian, Andean I: forests, riversides. 0-1500 m.
Voucher: Knapp & Alcorn 7325 (MO!)
Depts.: CU, SM

Justicia scansilis (Rizzini) V. Graham
Syn. *Aphelandra nervosa* T. Anderson, *Beloperone scansilis* Rizzini
Ref. Graham, 1988: 617.
Vine. Amazonian: forests. 0-500 m.
Voucher: Fosberg 29148 (US!)
Depts.: LO

Justicia secundiflora (R. & P.) M. Vahl
Syn. *Dianthera secondiflora* R. & P., *Leptostachya secundiflora* (R. & P.) Nees
Shrub. Amazonian: forests, riversides. 0-500 m.
Voucher: Ruiz s.n.* (MA), Foster 8585 (US!)
Depts.: AM, HU, JU, MD, PA, SM

Justicia sericea R. & P.
Syn. *Jacobinia pubescens* Nees, *Jacobinia sericea* (R. & P.) Nees, *Justicia pubescens* Ruiz ex Nees, pro syn.
Shrub. Andean II: shrublands. 2500-3500 m.
Voucher: Mathews 796* (OXF), Smith *et al.* 9386 (MO!)
Depts.: AN, AY, HU, HV, JU, LI, LL, PA

Justicia sessilifolia (Lindau) Wasshausen
Syn. *Beloperone sessilifolia* Lindau
Ref. Wasshausen, pers. comm.
Herb. Andean II: disturbed areas, forests, riversides. 1500-3000 m.
Note: New combination made in Appendix 1.
Voucher: Weberbauer 7105* (B), Sánchez 1456 (US!)
Depts.: CA, LA, LL

Justicia soukupii (Standley & F. Barkley) V. Graham
Syn. *Beloperone soukupii* Standley & F. Barkley
Ref. Graham, 1988: 604.
Shrub. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Stork & Horton 9532* (K), Schunke 12446 (US!)
Depts.: HU, SM

Justicia spicata R. & P. =Pachystachys spicata (R. & P.) Wasshausen
Ref. Wasshausen, 1986: 175.

Justicia stuebelii Lindau
Herb. Amazonian, Andean I: forests, riversides. 0-1500 m.
Voucher: Stuebel 70C* (B), Smith & Salik 8378 (US!)
Depts.: AM, CU, HU, JU, LO, PA, PU, SM, UC

Justicia tarapotensis Lindau
Ref. Lindau, 1904b: 410.
Herb. Andean I: forests. 500-1000 m.
Voucher: Spruce 4938* (K), McDaniel 13814 (US!)
Depts.: SM

Justicia tenuiflora R. & P.
Syn. *Ecbolium tenuiflorum* (R. & P.) Kuntze, *Rhytiglossa tenuiflora* (R. & P.) Nees
Herb. Amazonian, Andean I: forests, seasonally inundated areas. 0-1000 m.
Voucher: Poeppig 1040* (W frag. US), Foster 9936 (MO!)
Depts.: HU, LO, MD, SM

Justicia tomentosa M. Vahl =Dicliptera ruiziana Wasshausen
Ref. Wasshausen, pers. comm.

Justicia tremulifolia Lindau
Ref. Lindau, 1904b: 407.
Herb. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Ule 6402* (B photo F!)
Depts.: LO

Justicia ulei Lindau
Ref. Lindau, 1914: 199.
Herb. Andean I: forests. 500-1000 m.
Voucher: Woytkowski 5791 (US!)
Depts.: CU, HU, JU, MD

Justicia weberbaueri (Lindau) Wasshausen
Syn. *Beloperone weberbaueri* Lindau
Ref. Wasshausen, pers. comm.
Endemic shrub. Andean III: forests.
Note: New combination made in Appendix 1. Known from Peru only from the type locality.
Voucher: Weberbauer 6557* (B, presumed destroyed, US!)
Depts.: JU

Justicia yurimaguensis Lindau
Ref. Lindau, 1904b: 411.
Herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Ule 6877* (B), Schunke 10075 (MO!)
Depts.: HU, LO, MD, SM, UC

Kalbreyeriella gigas Leonard
Ref. Leonard, 1958: 412.
Shrub. Andean I: forests. 1000-1500 m.
Voucher: Gentry *et al.* 18816 (MO!)
Depts.: HU

Kalbreyeriella rostellata Lindau
Herb or shrub. Andean I: forests. 500-1500 m.
Voucher: Woytkowski s.n. (US!)
Depts.: MD, SM

Lagochilium maculatum Tafalla ex Nees =Aphelandra maculata (Tafalla ex Nees) Voss
Ref. Wasshausen, 1975: 65.

Leptostachya poeppigiana Nees =Justicia poeppigiana (Nees) Lindau

Leptostachya secundiflora (R. & P.) Nees =Justicia secundiflora (R. & P.) M. Vahl

Lophostachys conferta Rusby
Herb. Andean I: forests. 1000-1500 m.
Voucher: Wasshausen & Salas 1217 (MO!)
Depts.: MD, PU

Macrostegia ruiziana Nees =Vitex triflora var. triflora (Verbenaceae)
Ref. FP 13(5/2) 1960: 697; Moldenke, 1958a: 156.

Mendoncia aspera (R. & P.) Ness var. **aspera**
Syn. *Mendozia aspera* R. & P.
Ref. Leonard, 1931: 147.
Liana or vine. Amazonian, Andean I: disturbed areas, forests, riversides. 0-1000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Schunke 4707 (USM!)
Depts.: AM, HU, JU, LO, MD, PA, SM, UC

Mendoncia aspera var. **rotundifolia** (Poeppig) Nees
Syn. *Mendozia rotundifolia* Poeppig
Ref. Turrill, 1919: 417.
Vine. Amazonian: forests. 0-500 m.
Voucher: Woytkowski 34369 (US!)
Depts.: LO

Mendoncia aurea Leonard
Ref. Leonard, 1931: 147.
Vine. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Klug 673* (US!), Gentry *et al.* 15745 (MO!)
Depts.: LO, SM

Mendoncia bivalvis (L. f.) Merrill
Syn. *Besleria bivalvis* L. f. (Gesneriaceae)
Ref. Merrill, 1948: 213.
Herb. Amazonian: forests. 0-500 m.
Voucher: Revilla 3733 (MO!)
Depts.: LO

Mendoncia gigas Lindau
Ref. Lindau, 1914: 192.
Vine. Amazonian: forests, seasonally inundated areas. 0-500 m.
Voucher: Ule 9800* (B), Klug 2009 (US!)
Depts.: LO, MD

Mendoncia glabra (Poeppig) Nees
Syn. *Mendozia glabra* Poeppig
Ref. Leonard, 1931: 150.
Liana. Amazonian, Andean I: forests, riversides. 0-1500 m.
Voucher: Poeppig s.n.* (W), Vásquez 4409 (MO!)
Depts.: AM, CU, HU, LO, MD, PA, SM, UC

Mendoncia glomerata Leonard
Ref. Leonard, 1951: 27.
Vine. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 9764 (MO!)
Depts.: LO

Mendoncia hirsuta (Poeppig) Nees
Syn. *Mendozia hirsuta* Poeppig
Ref. Leonard, 1931: 148.
Vine. Amazonian: disturbed areas, forests, riversides, seasonally inundated areas. 0-500 m.
Voucher: Poeppig 2252* (B photo F!), Schunke 3207 (US!, USM!)
Depts.: LO, MD, SM, UC

Mendoncia hoffmannseggiana Nees
Syn. *Mendoncia schomburgkiana* Nees
Ref. Wasshausen, pers. comm.
Vine. Amazonian, Andean I: disturbed areas, forests, seasonally inundated areas. 0-1000 m.
Voucher: Foster 9404 (USM!)
Depts.: CU, HU, MD, PA, SM

Mendoncia killipii Leonard
Ref. Leonard, 1931: 149.
Vine. Amazonian, Andean I-II: disturbed areas, forests. 0-2000 m.
Voucher: Killip & Smith 24622* (US), Smith *et al.* 5443 (MO!)
Depts.: HU, JU, LO, PA

Mendoncia klugii Leonard
Ref. Leonard, 1931: 145.
Vine. Amazonian: forests. 0-500 m.
Voucher: Klug 1115* (US), Vásquez & Jaramillo 8660 (MO!)
Depts.: LO

Mendoncia lindavii Rusby
Ref. Leonard, 1931: 149.
Vine. Amazonian, Andean I-II: cloud forests, disturbed areas. 0-2000 m.
Voucher: Schunke 9936 (US!, USM!)
Depts.: AM, AY, CU, HU, LO, MD, UC

Mendoncia meyeniana Nees
Liana. Amazonian: forests. 0-500 m.
Voucher: Foster 5440 (US!)
Depts.: MD

Mendoncia pedunculata Leonard
Ref. Leonard, 1931: 150.
Vine. Amazonian: forests. 0-500 m.
Voucher: Klug 659* (US!), Vásquez & Jaramillo 206 (USM!)
Depts.: AM, LO

Mendoncia peruviana Leonard
Ref. Leonard, 1931: 148.
Endemic vine. Amazonian: riversides. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Killip & Smith 26357* (US)
Depts.: JU

[Mendoncia puberula (C. Martius) Nees]
Syn. *Mendozia puberula* C. Martius
Ref. Leonard, 1951: 22; Wasshausen, pers. comm.
Note: Not known from Peru. The type, *Poeppig s.n.*, is from northern Brazil.

Mendoncia robusta Rusby
Ref. Rusby, 1927: 361.
Vine. Amazonian, Andean I: forests, shrublands. 0-1000 m.
Voucher: Foster & Terborgh 6132 (US!)
Depts.: CU, HU, MD

Mendoncia schomburgkiana Nees =Mendoncia hoffmannseggiana Nees
Ref. Leonard, 1931: 146; Wasshausen, pers. comm.

Mendoncia sericea Leonard
Liana. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 9946 (US!)
Depts.: AM, LO

Mendoncia smithii Leonard
Ref. Leonard, 1931: 145.
Aquatic or terrestrial herb or vine. Amazonian: forests on white sand. 0-500 m.
Voucher: Killip & Smith 26953* (US!), Vásquez *et al.* 259 (MO!, USM!)
Depts.: AM, LO, SM

Mendoncia speciosa Nees
Ref. Leonard, 1951: 19.
Vine.
Note: Known from Peru only from the type locality.
Voucher: Unknown s.n.* (K)
Depts.: Without full locality data.

Mendoncia sprucei Lindau
Ref. Leonard, 1951: 23.
Vine. Amazonian, Andean I-II: forests, riversides. 0-2000 m.
Voucher: Foster *et al.* 7731 (US!, USM!)
Depts.: AM, CA, CU, JU, LO, MD, PA, PU, SM, UC

Mendoncia tarapotana Lindau
Ref. Leonard, 1931: 150.
Endemic vine. Amazonian: forests. 0-500 m.
Voucher: Spruce 4620* (K), Davidson 5226 (MO!)
Depts.: LO

Mendoncia tessmannii Mildbraed
Ref. Leonard, 1931: 151.
Herb. Amazonian: riversides. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Tessmann 3505* (B)
Depts.: LO

Mendoncia tovarensis (Klotzsch & Karsten ex Nees) Leonard
Syn. *Engelia tovarensis* Klotzsch & Karsten ex Nees
Ref. Leonard, 1953a: 563.
Herb or liana. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Klug 4209 (USM!)
Depts.: SM

Mendoncia trichota Leonard
Ref. Leonard, 1958: 674.
Liana or vine. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 9715 (US!)
Depts.: AM, LO

Mendoncia velloziana (C. Martius) Nees
Syn. *Mendozia velloziana* C. Martius
Ref. Leonard, 1951: 29.
Vine. Amazonian: disturbed areas, forests, riversides, seasonally inundated areas. 0-500 m.
Voucher: Schunke 12274 (USM!)
Depts.: JU, MD, SM

Mendozia aspera R. & P. =Mendoncia aspera var. aspera
Ref. Leonard, 1931: 147.

Mendozia glabra Poeppig =Mendoncia glabra (Poeppig) Nees
Ref. Leonard, 1931: 150.

Mendozia hirsuta Poeppig =Mendoncia hirsuta (Poeppig) Nees
Ref. Leonard, 1951: 21.

[*Mendozia puberula* C. Martius =Mendoncia puberula (C. Martius) Nees]
Note: Not known from Peru.

Mendozia rotundifolia Poeppig =Mendoncia aspera var. rotundifolia (Poeppig) Nees
Ref. Turrill, 1919: 417.

Mendozia velloziana C. Martius =Mendoncia velloziana (C. Martius) Nees

Odontonema adenostachyum Lindau =Pulchranthus adenostachyus (Lindau) V. M. Baum, Reveal & Nowicke
Ref. Baum *et al.*, 1983: 215.

Odontonema cuspidatum (Nees) Kuntze
Syn. *Thyrsacanthus cuspidatus* Nees
Cultivated herb. Coastal: disturbed areas. 0-500 m.
Voucher: Ferreyra 8594 (US!)
Depts.: LI

Odontonema dubiosum Lindau =Streblacanthus dubiosus (Lindau) V. M. Baum
Ref. Baum, 1982: 433.

Odontonema hookerianum (Nees) Kuntze
Syn. *Thyrsacanthus hookerianus* Nees
Shrub. Andean I: forests. 500-1000 m.
Voucher: Ferreyra 19040 (MO!, USM!)
Depts.: HU, LO, SM, UC

Oplonia grandiflora (Lindau) Stearn
Syn. *Psilanthele grandiflora* Lindau
Ref. Stearn, 1971: 299.
Endemic shrub. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Ule 6493* (HBG)
Depts.: SM

Oplonia hutchisonii Wasshausen
Ref. Wasshausen, 1976b: 444.
Endemic shrub. Amazonian: forests. 0-500 m.
Voucher: Hutchison 1559A* (US!)
Depts.: AM

Orophochilus stipulaceus Lindau
Endemic shrub. Andean I: forests. 1000-1500 m.
Voucher: Spruce 4324* (K), Williams 7703 (US!)
Depts.: SM

Pachystachys asperula Nees =Pachystachys spicata (R. & P.) Wasshausen
Ref. Wasshausen, 1986: 175.

Pachystachys badiospica Wasshausen
Ref. Wasshausen, 1986: 168.
Endemic shrub. Amazonian: forests, riversides. 0-500 m.
Voucher: Ridoutt s.n.* (US!), Foster *et al.* 11602 (US!, USM!)
Depts.: JU, LO, MD, UC

Pachystachys coccinea (Aublet) Nees
Syn. *Justicia coccinea* Aublet
Ref. Wasshausen, 1986: 183.
Shrub. Andean I: forests. 500-1000 m.
Voucher: Ferreyra 17333 (USM!)
Depts.: MD, SM

Pachystachys fosteri Wasshausen
Ref. Wasshausen, 1986: 168.
Endemic shrub. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Foster 8686* (US)
Depts.: HU

Pachystachys incarnata Wasshausen
Ref. Wasshausen, 1986: 171.
Endemic shrub. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Killip & Smith 28926* (US)
Depts.: LO

Pachystachys killipii Wasshausen
Ref. Wasshausen, 1986: 179.
Endemic shrub. Amazonian: riversides. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Killip & Smith 26621* (US)
Depts.: JU

Pachystachys latior Nees =Pachystachys spicata (R. & P.) Wasshausen
Ref. Wasshausen, 1986: 175.

Pachystachys longibracteata Wasshausen
Ref. Wasshausen, 1986: 163.
Endemic shrub. Amazonian: forests. 0-500 m.
Voucher: Killip & Smith 27866* (US), Ferreyra 10159 (US!, USM)
Depts.: LO

Pachystachys lutea Nees
Syn. *Justicia lutea* R. & P. ex Nees, *Justicia lutea* R. & P. ex Schultes, nom nud.
Ref. Wasshausen, 1986: 162.
Shrub. Amazonian, Andean I: cloud forests, riversides, rocky slopes. 0-1500 m.
Voucher: Mathews 1538* (K), Schunke 7436 (USM!)
Depts.: CU, HU, JU, LI, LO, SM

Pachystachys ossolae Wasshausen
Ref. Wasshausen, 1986: 180.
Endemic shrub. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Wasshausen & Encarnación 729* (US, USM!), Wasshausen & Salas 1246 (US)
Depts.: CU, MD, PU

Pachystachys puberula Wasshausen
Ref. Wasshausen, 1986: 173.
Endemic shrub or vine. Amazonian: forests. 0-500 m.
Voucher: Wasshausen & Encarnación 1023* (US!), Schunke 9815 (MO!)
Depts.: SM

Pachystachys riedeliana Nees =Pachystachys spicata (R. & P.) Wasshausen
Ref. Wasshausen, 1986: 175.

Pachystachys rosea Wasshausen
Ref. Wasshausen, 1986: 178.
Shrub or tree. Amazonian, Andean I: disturbed areas, forests, riversides, seasonally inundated areas. 0-1000 m.
Voucher: Foster 2398 (US!)
Depts.: CU, MD

Pachystachys schunkei Wasshausen
Ref. Wasshausen, 1986: 166.
Endemic shrub. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Schunke 7597* (US)
Depts.: SM

Pachystachys spicata (R. & P.) Wasshausen
Syn. *Justicia spicata* R. & P., *Pachystachys asperula* Nees, *Pachystachys latior* Nees, *Pachystachys riedeliana* Nees
Ref. Wasshausen, 1986: 175.
Shrub or tree. Amazonian, Andean I: forests, riversides. 0-1000 m.
Voucher: Ruiz & Pavón s.n.*, Plowman 7565 (US!)
Depts.: AM, AY, CU, HU, JU, LO, MD, SM

Pseuderanthemum cordatum (Nees) Radlkofer
Syn. *Eranthemum cordatum* Nees
Ref. Durkee, 1978: 249.
Herb or shrub. Amazonian: forests. 0-500 m.
Voucher: Foster 8787 (F!, USM!)
Depts.: HU

Pseuderanthemum lanceolatum (R. & P.) Wasshausen
Syn. *Jasminum lanceolatum* R. & P. (Oleaceae)
Ref. Green, 1969: 273.
Herb or shrub. Amazonian, Andean I: forests, riversides. 0-1000 m.
Voucher: Ruiz & Pavón 911* (MA), Wasshausen & Encarnación 604 (US!)
Depts.: AY, HU, JU, LO, MD, PA, SM

Pseuderanthemum leptorhachis Lindau
Shrub. Andean I: forests. 1000-1500 m.

Voucher: Ferreyra 7987 (US!)
Depts.: LO, PI, SM

Pseuderanthemum weberbaueri Mildbraed
Ref. Mildbraed, 1930: 68.
Shrub. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Weberbauer 6654* (B), Schunke 9483 (MO!, USM!)
Depts.: HU, JU, SM, UC

Psilanthele grandiflora Lindau =Oplonia grandiflora (Lindau) Stearn
Ref. Stearn, 1971: 299.

Pulchranthus adenostachyus (Lindau) V. M. Baum, Reveal & Nowicke
Syn. *Odontonema adenostachyum* Lindau
Ref. Baum *et al.*, 1983: 215.
Shrub. Amazonian: disturbed areas, forests, riversides, swamps. 0-500 m.
Voucher: Ule 6287* (G), Killip & Smith 1488 (US!)
Depts.: CU, HU, JU, LO, MD, PA, UC

Razisea spicata Oersted
Ref. Leonard, 1958: 400.
Herb or shrub. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Wurdack 2128 (US!)
Depts.: AM, LO

Rhytiglossa acuminata Nees =Justicia comata (L.) Lamarck
Ref. Graham, 1988: 618.

Rhytiglossa acuminatissima Miquel =Justicia calycina (Nees) V. Graham

Rhytiglossa cuspidulata Nees, nom. rejic. =Justicia cuspidulate (Nees) Wasshausen
Ref. Wasshausen, pers. comm.

Rhytiglossa hookeriana Nees =Justicia chachapoyasensis Wasshausen
Ref. Wasshausen, pers. comm.

Rhytiglossa lineolata (R. & P.) Nees =Justicia lineolata R. & P.

Rhytiglossa ruiziana Nees =Justicia ruiziana (Nees) Lindau

Rhytiglossa tenuiflora (R. & P.) Nees =Justicia tenuiflora R. & P.

Ruellia brevifolia (Pohl) Ezcurra
Syn. *Ruellia graecizans* Baker, *Stephanophysum brevifolium* Pohl
Ref. Ezcurra, 1989: 278.
Shrub. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Klug 4132 (MO!)
Depts.: AM, AY, CU, HU, JU, LI, LO, MD, PA, PU, SM, TU

Ruellia chartacea (T. Anderson) Wasshausen
Syn. *Aphelandra chartacea* T. Anderson, *Ruellia colorata* Baillon
Ref. Wasshausen, 1987: 265.
Herb, shrub or tree. Amazonian: disturbed areas, forests, riversides. 0-500 m.
Voucher: Spruce 3957* (K), Knapp & Alcorn 7362 (MO!)
Depts.: AM, LO, SM, UC

Ruellia ciliata Ruiz ex Nees, pro syn. =Dyschoriste ciliata (Nees) Kuntze
Ref. Kobuski, 1928: 48.

Ruellia ciliatiflora Hooker
Syn. *Ruellia lorentziana* Grisebach
Ref. Lillo, 1937: 29.
Herb. Amazonian: disturbed areas, forests, seasonally inundated areas. 0-500 m.
Voucher: Wasshausen & Encarnación 926 (US!, USM!)
Depts.: AM, CA, PU, SM

Ruellia colorata Baillon =Ruellia chartacea (T. Anderson) Wasshausen)
Ref. Leonard, 1951: 97; Wasshausen pers. comm.

Ruellia consocialis Lindau
Ref. Lindau, 1904a: 319.
Herb. Amazonian: forests. 0-500 m.
Voucher: Williams 582 (F!)
Depts.: LO

Ruellia dulcis Cavanilles =Stenandrium dulce (Cavanilles) Nees
Ref. Leonard, 1953b: 125.

Ruellia euantha Lindau
Herb. Andean I: forests. 500-1000 m.
Voucher: Tovar 4112 (US!)
Depts.: HV

Ruellia floribunda Hooker
Syn. *Dipteracanthus floribundus* (Hooker) Nees
Herb or shrub. Andean I-II, Coastal: desert, disturbed areas, forests, rocky slopes. 0-2500 m.
Voucher: Hutchison & Wright 3507 (MO!, USM!)
Depts.: AN, AP, CA, CU, LA, LI, LL, PI, TU

Ref. Wasshausen, 1975: 30.

Ruellia geminiflora H.B.K.
Herb. Andean I-II: forests. 500-2500 m.
Voucher: Hutchison & Wright 3509 (US!, USM)
Depts.: AM, AY, CA, CU

Ruellia gigantea Humboldt & Bonpland =Trichanthera gigantea (Humboldt & Bonpland) Nees
Ref. Leonard, 1951: 48.

Ruellia glischrocalyx Lindau
Syn. *Ruellia quadrifaria* (Nees) Lindau, nom. illeg., *Stephanophysum quadrifarium* Nees,
Ref. Wasshausen, pers. comm.
Herb or shrub. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Ule 6817* (B, presumed destroyed), Foster 11461 (F!, USM!)
Depts.: HU, JU, LO, MD, PA, SM, UC

Ruellia graecizans Baker =Ruellia brevifolia (Pohl) C. Ezcurra
Ref. Ezcurra, 1989: 278.

Ruellia grandiflora (Nees) Lindau, nom. illeg. =Ruellia neoneesiana Wasshausen
Ref. Wasshausen, pers. comm.

Ruellia haenkeana (Nees) Wasshausen
Syn. *Arrhostoxylum haenkeanum* Nees
Ref. Wasshausen, 1988: 423.
Endemic subshrub or vine. Andean I-II: forests. 500-2500 m.
Voucher: Schunke 9492 (MO!, USM!)
Depts.: CU, HU, JU, MD, PU

Ruellia inflata Richard
Herb, shrub or vine. Amazonian, Andean I: forests, seasonally inundated areas, swamps. 0-1500 m.
Voucher: Barbour 5468 (US!)
Depts.: CU, LO, MD, PU

Ruellia lasiostachya Leonard
Ref. Leonard, 1951: 105.
Herb. Amazonian. 0-500 m.
Voucher: Killip & Smith 28667 (US!)
Depts.: LO

Ruellia lechleri Britton
Ref. Rusby, 1900: 75.
Herb. Andean I-II: disturbed areas, forests. 1000-2000 m.
Voucher: Wasshausen & Salas 1198 (US!)
Depts.: CU, PA, PU

Ruellia lorentziana Grisebach =Ruellia ciliatiflora Hooker
Ref. Leonard, 1951: 94, Wasshausen, pers. comm.

Ruellia malacosperma Greenman
Ref. Leonard, 1951: 73.
Cultivated herb. Amazonian, Coastal: disturbed areas. 0-500 m.
Voucher: Fernández 87 (US!, USM!)
Depts.: AN, LA, LI, LO, SM, TU

Ruellia menthoides (Nees) Hiern
Syn. *Dipteracanthus menthoides* Nees
Shrub. Amazonian: riversides. 0-500 m.
Voucher: Foster 11366 (F!)
Depts.: MD

Ruellia mollis (Nees) Lindau
Syn. *Stephanophysum molle* Nees
Herb. Amazonian, Andean I-II: forests. 1000-2000 m.
Voucher: Ruiz s.n.* (B photo F), Killip & Smith 25593 (US)
Depts.: JU

Ruellia neoneesiana Wasshausen
Syn. *Dipteracanthus grandiflorus* Nees, *Dipteracanthus grandiflorus* var. *clandestinus* Nees, *Ruellia grandiflora* (Nees) Lindau, nom. illeg.

Ref. Wasshausen, pers. comm.
Herb. Andean I: forests. 500-1000 m.
Note: New name validated in Appendix 1.
Voucher: Ruiz & Pavón s.n.* (MA), Ferreyra 4233 (US!)
Depts.: HU, JU, LA, LI, TU

Ruellia pacifica Svenson
Ref. Svenson, 1946: 486.
Herb. Andean I: rocky slopes. 1000-1500 m.
Voucher: Ferreyra 7061 (USM!)
Depts.: CA, PI

Ruellia pedunculosa (Nees) B. D. Jackson & Hooker f.
Syn. *Arrhostoxylum pedunculosum* Nees
Herb. Amazonian, Andean I-II: forests, riversides. 0-2000 m.
Voucher: Wasshausen & Encarnación 967 (US!)
Depts.: HU, JU, SM, UC

Ruellia phyllocalyx Lindau
Ref. Lindau, 1904a: 320.
Herb. Amazonian: forests, seasonally inundated areas. 0-500 m.
Voucher: Ule 6398* (HBG), Vásquez *et al.* 4698 (AMAZ!, US!)
Depts.: LO, SM, UC

Ruellia proxima Lindau
Herb or shrub. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Vargas 16357 (US!)
Depts.: CU, LO, MD, SM

Ruellia puri Nees
Herb or vine. Amazonian, Andean I-II: disturbed areas, forests, riversides. 0-2000 m.
Voucher: Wasshausen & Tovar 1273 (US!)
Depts.: AY, CA, CU, JU, LO, MD, PA, PU, SM, UC

Ruellia quadrifaria (Nees) Lindau, nom. illeg. =Ruellia glischrocalyx Lindau

Ruellia quitensis H.B.K. =Dyschoriste quitensis (H.B.K.) Kuntze

Ruellia rauhii Wasshausen
Ref. Wasshausen, 1988: 421.
Endemic herb. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Wasshausen & Encarnación 581* (MO!)
Depts.: CU

Ruellia repens Ruiz ex Nees, pro syn. =Dyschoriste repens (Nees) Kuntze
Ref. Kobuski, 1928: 52.

Ruellia ruiziana (Nees) Lindau
Syn. *Stephanophysum ruizianum* Nees
Herb or shrub. Andean I: forests, riversides. 500-1500 m.
Voucher: Ruiz s.n.*, Foster 8502 (MO!, USM!)
Depts.: AY, CA, HU, JU, PA

Ruellia schlechtendaliana Hemsley
Herb. Coastal: disturbed areas. 0-1500 m.
Voucher: Gentry *et al.* 22558 (US!)
Depts.: CA, LA, LL, PI

Ruellia spectabilis (Hooker) Nicholson
Syn. *Dipteracanthus spectabilis* Hooker
Herb. Andean I: grasslands, shrublands. 500-1500 m.
Voucher: Sagástegui 11398 (MO!)
Depts.: CA

Ruellia tarapotana Lindau
Ref. Lindau, 1904a: 318.
Herb or shrub. Amazonian, Andean I: disturbed areas, forests, seasonally inundated areas. 0-1500 m.
Voucher: Ule 6490* (K frag. US), Plowman *et al.* 11404 (US!)
Depts.: AY, CU, HU, JU, LO, MD, SM, UC

Ruellia tessmannii Mildbraed
Ref. Mildbraed, 1925: 267.
Herb. Amazonian: forests. 0-500 m.
Voucher: Ferreyra 1149 (US!)
Depts.: LO, UC

Ruellia thyrsostachya Lindau
Ref. Lindau, 1904a: 320.
Shrub. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Weberbauer 1173* (US!), Wasshausen & Tovar 1267 (US!)
Depts.: AY, CU, HU, LO, MD, PA, PU, UC

Ruellia tuberosa L.
Ref. Leonard, 1951: 78.
Herb. Amazonian, Coastal: grasslands. 0-500 m.
Voucher: Hudson 987 (MO!)
Depts.: LA, SM

Ruellia yurimaguensis Lindau
Ref. Lindau, 1904a: 317.
Herb or shrub. Amazonian, Andean I-II: forests, riversides. 0-2000 m.
Voucher: Ule 6282* (B photo F), Barbour 5800 (US!, USM!)
Depts.: AY, HU, JU, LO, MD, SM, UC

Rhytiglossa ruiziana Nees =Justicia ruiziana (Nees) Lindau

Sanchezia arborea Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 338.
Shrub or tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Klug 2612* (US!), Woytkowski 5614 (US!)
Depts.: AM, LO, SM

Sanchezia aurantiaca Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 331.
Herb. Amazonian: forests, riversides. 0-500 m.
Voucher: Ferreyra 4559* (US), Ferreyra 4544 (US!, USM!)
Depts.: SM

Sanchezia aurea Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 329.
Herb. Andean I: forests. 500-1000 m.
Voucher: Ferreyra 887* (US!), Ferreyra 16991 (USM!)
Depts.: HU

Sanchezia bicolor Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 320.
Endemic herb. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Allard 21711* (US!)
Depts.: SM

Sanchezia capitata (Nees) Lindau
Syn. *Ancylogyne capitata* Nees
Ref. Leonard, 1932: 132.
Endemic shrub. Andean I:forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Mathews 1230* (K), Killip & Smith 26092 (US)
Depts.: JU, PA

Sanchezia coccinea Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 332.
Shrub. Andean II: forests. 1500-2000 m.
Voucher: Allard s.n.* (US!), Schunke 11387 (US!, USM!)
Depts.: HU, SM

Sanchezia conferta Leonard
Ref. Leonard, 1932: 131.
Shrub. Andean I: forests. 500-1000 m.
Voucher: Killip & Smith 25479* (US!), Vargas & Fernández 92 (US!)
Depts.: JU, PA

Sanchezia cyathibractea Mildbraed
Ref. Leonard, 1932: 132.
Endemic shrub. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Tessmann 3134* (B)
Depts.: LO

Sanchezia dasia Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 320.
Shrub. Andean I: forests. 500-1000 m.
Voucher: Ferreyra 4391* (US), Schunke 9873 (US!)
Depts.: HU, JU, SM

Sanchezia decora Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 338.
Shrub. Amazonian: forests, seasonally inundated areas. 0-500 m.
Voucher: Klug 2616* (US!), Schunke 2130 (US!)
Depts.: HU, LO, SM, UC

Sanchezia ferreyrae Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 337.

Shrub. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Ferreyra 4392* (MO!), Woytkowski 8351 (US!, USM!)
Depts.: HU, SM

Sanchezia filamentosa Lindau
Ref. Leonard, 1932: 127.
Endemic shrub. Amazonian: forests. 0-500 m.
Voucher: Ule 6401* (HBG), Asplund 12084 (S)
Depts.: HU, LO, SM

Sanchezia flava Leonard
Ref. Leonard & Smith, 1964: 324.
Shrub. Andean I: forests, disturbed areas. 1000-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Killip & Smith 24640* (US!)
Depts.: JU

Sanchezia habra Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 327.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Klug 2671* (US), Schunke 6540 (MO!, USM!)
Depts.: SM, UC

Sanchezia killipii Leonard
Ref. Leonard, 1932: 137.
Shrub. Amazonian: disturbed areas. 0-500 m.
Voucher: Killip & Smith 28967* (US), Gentry *et al.* 52117 (MO!)
Depts.: LO, SM

Sanchezia klugii Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 332.
Tree. Amazonian: forests. 0-500 m.
Voucher: Klug 2617* (US!), Klug 4117 (MO!)
Depts.: LO, SM, UC

Sanchezia lasia Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 336.
Shrub. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Ferreyra 4467* (US), Schunke 7297 (MO!, USM!)
Depts.: HU, SM

Sanchezia leucerythra Leonard & Lyman B. Smith =Suessenguthia leucerythra (Leonard & Lyman B. Smith) Wasshausen
Ref. Leonard & Smith, 1964: 318.

Sanchezia lispa Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 338.
Shrub. Amazonian: riversides. 0-500 m.
Voucher: Schunke 3992 (MO!)
Depts.: SM

Sanchezia loranthifolia Lindau
Ref. Leonard, 1932: 130.
Shrub. Amazonian, Andean I: disturbed areas, forests. 0-1500 m.
Voucher: Ule 6820* (B), Schunke 6378 (MO!, USM!)
Depts.: LO, MD, SM

Sanchezia macbridei Leonard =Sanchezia peruviana (Nees) Rusby
Ref. Leonard & Smith, 1964: 323.

Sanchezia megalia Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 322.
Shrub. Amazonian, Andean I: disturbed areas, forests. 0-1500 m.
Voucher: Killip & Smith 24080* (F), Huashikat 91 (MO!)
Depts.: AM, JU

Sanchezia oblonga R. & P.
Ref. Leonard & Smith, 1964: 323.
Shrub. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Ruiz & Pavón s.n.* (BM)
Depts.: MD, HU

Sanchezia ovata R. & P.
Ref. Leonard & Smith, 1964: 320.
Shrub. Amazonian, Andean I: forests, seasonally inundated areas. 0-1000 m.
Voucher: Ruiz & Pavón s.n.* (BM), Gentry & Smith 36031 (MO!, USM!)
Depts.: CU, HU, MD, PA, SM

Sanchezia oxysepala Mildbraed
Ref. Leonard, 1932: 128.
Shrub. Amazonian, Andean I-II: disturbed areas. 0-2000 m.
Voucher: Tessmann 3874a* (US!), Wasshausen & Encarnación 888 (US, USM!)
Depts.: AM, HU, LO, SM, UC

Sanchezia pedicellata Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 336.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Woytkowski 34427* (F), Ridoutt s.n. (US!, USM!)
Depts.: LO, UC

Sanchezia pennellii Leonard
Ref. Leonard, 1932: 133.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Schunke 4004 (US!)
Depts.: LO, SM

Sanchezia peruviana (Nees) Rusby
Syn. *Ancylogyne peruviana* Nees, *Sanchezia macbridei* Leonard
Ref. Leonard & Smith, 1964: 323.
Herb or shrub. Amazonian, Andean I-II: forests, rocky slopes. 0-2500 m.
Voucher: Mathews 2013* (K), Killip & Smith 29549 (US!)
Depts.: AM, AY, CU, HU, JU, LI, LO, MD, PA, PU, SM, UC

Sanchezia pulchra Leonard
Ref. Leonard & Smith, 1964: 325.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Killip & Smith 27842* (US!), Schunke 1783 (US!)
Depts.: HU, JU, LO

Sanchezia punicea Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 333.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Asplund 13248* (S photo US), Wasshausen & Tovar 1271 (MO!)
Depts.: HU, UC

Sanchezia rhodochroa Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 331.
Shrub. Amazonian, Andean I: forests, riversides. 0-1000 m.
Voucher: Klug 4083* (US!), Schunke 8024 (USM!)
Depts.: SM

Sanchezia rosea Leonard
Ref. Leonard, 1932: 129.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Killip & Smith 28040* (US), Ferreyra 4976 (US, USM!)
Depts.: LO

Sanchezia rubriflora Leonard
Ref. Leonard, 1932: 135.
Herb. Amazonian: forests. 0-500 m.
Voucher: Killip & Smith 26768* (US!), Williams 2880 (US!)
Depts.: HU, JU, LO, PA

Sanchezia sanmartinensis Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 328.
Endemic shrub. Amazonian: disturbed areas, forests, riversides. 0-500 m.
Voucher: Williams 6018* (US), Knapp & Mallet 7202 (MO!)
Depts.: SM

Sanchezia scandens (Lindau) Leonard & Lyman B. Smith
Syn. *Steirosanchezia scandens* Lindau
Ref. Leonard & Smith, 1964: 337.
Shrub or tree. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Voucher: Foster & Augspurger 3508 (US!)
Depts.: AM, HU, LO, MD, SM

Sanchezia skutchii Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 341.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Wasshausen & Encarnación 886 (US!, USM!)
Depts.: AM

Sanchezia sprucei Lindau
Ref. Leonard, 1932: 128.
Herb. Amazonian: forests, riversides. 0-500 m.
Voucher: Spruce 4325* (US!), Gentry *et al.* 27150 (MO!)
Depts.: MD, SM

Sanchezia stenantha Leonard
Ref. Leonard, 1932: 136.
Shrub. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Macbride 4634* (US!), Killip & Smith 26207 (US!)
Depts.: CU, HU, JU, LI, LO, MD, PA, SM, UC

Sanchezia stenomacra Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 329.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Klug 3020* (US!), Maas *et al.* 6022 (US!)
Depts.: HU, SM

Sanchezia sylvestris Leonard
Ref. Leonard, 1932: 128.
Shrub. Amazonian: forests. 0-1000 m.
Voucher: Killip & Smith 28093* (US!), Klug 4380 (MO!, USM!)
Depts.: LO, SM

Sanchezia tarapotensis Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 341.
Endemic herb. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Ferreyra 7883* (US!)
Depts.: SM

Sanchezia tigrina Leonard
Ref. Leonard, 1932: 130.
Tree. Amazonian: forests. 0-500 m.
Voucher: Williams 3622* (US!), Tunqui 497 (US!)
Depts.: AM, LO

Sanchezia villosa Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 328.
Endemic shrub. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Ferreyra 7969* (US!)
Depts.: SM

Sanchezia williamsii Leonard
Ref. Leonard, 1932: 127.
Endemic herb. Andean I: forests. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Williams 7701* (US!), Williams 7215 (US)
Depts.: SM

Sanchezia woytkowskii Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 333.
Shrub. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Woytkowski 34359* (US), Plowman 5905 (F)
Depts.: HU, LO

Sanchezia xantha Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 327.
Herb or shrub. Amazonian, Andean I: forests, seasonally inundated areas. 0-1500 m.
Voucher: Ferreyra 4275* (US!)
Depts.: HU, LO, PA, UC

Siphonoglossa peruviana Lindau =Tetramerium peruvianum (Lindau) T. F. Daniel
Ref. Daniel, 1986: 119.

Steirosanchezia scandens Lindau =Sanchezia scandens (Lindau) Leonard & Lyman B. Smith
Ref. Leonard & Smith, 1964: 337.

Stenandrium dulce (Cavanilles) Nees
Syn. *Ruellia dulcis* Cavanilles
Ref. Leonard, 1953b: 125.
Herb. Andean II-III: disturbed areas, forests. 2000-4000 m.
Voucher: Dillon *et al.* 2737 (US!)
Depts.: AY, CA, CU, JU, LL, PU

Stenostephanus lasiostachys Nees
Shrub. Andean I-II: forests. 1000-2000 m.
Voucher: Hutchison & Bismarck 6335 (MO!, USM!)
Depts.: CA, PI

Stenostephanus longistaminus (R. & P.) V. M. Baum
Syn. *Justicia longistamina* R. & P., *Stenostephanus thyrsoides* Lindau
Ref. Baum, 1982: 433; Wasshausen, pers. comm.
Shrub. Andean I: forests. 500-1500 m.
Voucher: Ruiz s.n.* (MA photo F), Gentry *et al.* 23648 (MO!)
Depts.: HU, MD, PA

Stenostephanus thyrsoides Lindau =Stenostephanus longistaminus (R. & P.) V. M. Baum
Ref. Lindau, 1914: 198; Wasshausen, pers. comm.

Stephanophysum brevifolium Pohl =Ruellia brevifolia (Pohl) Ezcurra
Ref. Ezcurra, 1989: 278.

Stephanophysum molle Nees =Ruellia mollis (Nees) Lindau

Stephanophysum quadrifarium Nees =Ruellia glischrocalyx Lindau
Ref. Wasshausen, pers. comm.

Stephanophysum ruizianum Nees =Ruellia ruiziana (Nees) Lindau

Streblacanthus boliviensis Lindau =Streblacanthus dubiosus (Lindau) V. M. Baum
Ref. Wasshausen, pers. comm.

Streblacanthus dubiosus (Lindau) V. M. Baum
Syn. *Odontonema dubiosum* Lindau, *Streblacanthus boliviensis* Lindau
Ref. Baum, 1982: 433, Wasshausen, pers. comm.
Herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Foster 8787 (MO!)
Depts.: CU, HU, LO, MD

Strobilanthes isophyllus (Nees) T. Anderson
Syn. *Goldfussia isophylla* Nees
Cultivated shrub. Amazonian, Andean I: disturbed areas. 0-1000 m.
Voucher: Seibert 2099 (US!)
Depts.: LI

Suessenguthia cuscoensis Wasshausen
Ref. Wasshausen, 1970: 122.
Endemic shrub. Amazonian, Andean I: forests. 0-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Vargas 11288* (CUZ!, US!)
Depts.: CU

Suessenguthia leucerythra (Leonard & Lyman B. Smith) Wasshausen
Syn. *Sanchezia leucerythra* Leonard & Lyman B. Smith
Ref. Wasshausen, 1970: 122.
Shrub. Andean I: forests. 500-1000 m.
Voucher: Killip & Smith 25271* (US!), Wasshausen & Encarnación 520 (MO!)
Depts.: AY, CU, JU

Suessenguthia trichilophila Merxmueller
Ref. Wasshausen, 1970: 124.
Shrub. Andean I: forests. 1000-1500 m.
Voucher: Wasshausen & Salas 1213 (MO!)
Depts.: PU

Suessenguthia vargasii Wasshausen
Ref. Wasshausen, 1970: 124.
Endemic shrub. Amazonian, Andean I: forests, riversides. 0-1000 m.
Voucher: Wasshausen & Encarnación 585* (US!), Foster 3024 (US!)
Depts.: CU, MD, PU

Teliostachya lanceolata Nees var. **crispa** Nees
Ref. Leonard, 1951: 114.
Herb. Amazonian: forests. 0-500 m.
Voucher: Poeppig 2240* (W photo US), Klug 355 US
Depts.: LO

Teliostachya lanceolata var. **lanceolata**
Ref. Leonard, 1951: 113.
Herb. Amazonian, Andean I: forests on white sand. 0-1000 m.
Voucher: Schunke 4973 (US!)
Depts.: AM, HU, JU, LO, PA

Tessmanniacanthus chlamydocardioides Mildbraed
Ref. Mildbraed, 1926: 987.
Herb or shrub. Amazonian: disturbed areas, forests, riversides. 0-500 m.
Voucher: Tessmann 4788* (B), Wasshausen & Encarnación 904 (US!)
Depts.: AM, LO

Tetramerium denudatum T. F. Daniel
Ref. Daniel, 1986: 42.
Endemic herb. Andean I: forests. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: López & Sagástegui 8272* (US!)
Depts.: LL

Tetramerium nervosum Nees
Ref. Daniel, 1986: 46.
Herb or shrub. Amazonian, Andean I-II: disturbed areas, forests. 0-2000 m.
Voucher: Sagástegui *et al.* 8760 (MO!)
Depts.: AM, CA, LL, LA, PI, TU

Tetramerium peruvianum (Lindau) T. F. Daniel
Syn. *Siphonoglossa peruviana* Lindau
Ref. Daniel, 1986: 119.
Endemic herb or shrub. Andean I-II: forests, rocky slopes. 500-2000 m.
Voucher: Weberbauer 4269* (USM!), Plowman *et al.* 14250 (US!)
Depts.: AM, CA, PI

Tetramerium sagasteguianum T. F. Daniel
Ref. Daniel, 1986: 110.
Endemic herb or shrub. Andean I-II: disturbed areas, forests. 1000-2000 m.
Voucher: Daniel & Butterwick 4319* (MO!), López & Sagástegui 8007 (MO!)
Depts.: CA, LL, PI

Tetramerium surcubambense T. F. Daniel
Ref. Daniel, 1986: 44.
Endemic herb. Andean I: forests. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6483* (F)
Depts.: HV

Tetramerium wasshausenii T. F. Daniel
Ref. Daniel, 1986: 71.
Herb or shrub. Andean I, Coastal: disturbed areas, forests. 500-1500 m.
Voucher: Ferreyra 8390* (US), Sagástegui *et al.* 8931 (HUT, MO!)
Depts.: CA, LA, PI

Tetramerium zeta T. F. Daniel
Ref. Daniel, 1986: 66.
Endemic herb. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Voucher: Wasshausen & Encarnación 927* (US!), Edwin & Schunke 3728 (US!)
Depts.: AM, CA

Thunbergia alata Bojer ex Sims
Ref. Leonard, 1951: 41.
Introduced herb. Amazonian, Andean I: disturbed areas, grasslands. 0-1500 m.
Voucher: Wasshausen & Encarnación 1079 (US)
Depts.: CA, CU, HU, JU, LO, PA, SM

Thunbergia fragrans Roxburgh
Ref. Leonard, 1951: 42.
Introduced vine. Amazonian, Andean I: disturbed areas. 0-1000 m.
Voucher: Killip & Smith 29025 (US!)
Depts.: JU, LO

Thunbergia laurifolia Lindley
Cultivated and introduced liana. Coastal: disturbed areas. 0-500 m.
Voucher: Miranda La Rosa 5432 (US!)
Depts.: LI

Thyrsacanthus cuspidatus Nees
=Odontonema cuspidatum (Nees) Kuntze

Thyrsacanthus hookerianus Nees
=Odontonema hookerianum (Nees) Kuntze

Trichanthera gigantea (Humboldt & Bonpland) Nees
Syn. *Ruellia gigantea* Humboldt & Bonpland
Ref. Leonard, 1951: 48.
Shrub or tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Williams 4894 (US!)
Depts.: LO, SM, TU

Trichosanchezia chrysothrix Mildbraed
Ref. Mildbraed, 1926: 984.
Endemic herb. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Tessmann 4011* (US)
Depts.: AM

Achatocarpaceae

1 genus and 2 species in Peru.

Treated under Phytolaccaceae in the Flora of Peru.

Prepared by J. L. Zarucchi; reviewed by J. W. Nowicke (US).

Achatocarpus mollis H. Walter
=Achatocarpus pubescens C. H. Wright
Ref. FP 13(2/1) 1936: 547.

Achatocarpus praecox Grisebach
Ref. FP 13(2/1) 1936: 548.
Shrub or tree. Andean I-II: riversides, rocky slopes. 1000-2000 m.
Voucher: Woytkowski 7039 (MO!)
Depts.: CA

Achatocarpus pubescens C. H. Wright
Syn. *Achatocarpus mollis* H. Walter
Ref. FP 13(2/1) 1936: 547.
Shrub or tree. Coastal: riversides, rocky slopes. 0-500 m.
Voucher: Díaz & Baldeón 2324 (MO!)
Depts.: TU

Actinidiaceae

1 genus and 11 species in Peru.

Endemic species: 6.

Prepared by L. Brako; reviewed by D. D. Soejarto (F).

Apatelia biserrata (R. & P.) DC.
=Saurauia biserrata (R. & P.) Sprengel
Ref. FP 13(3A/2) 1956: 679; Soejarto, 1980: 91.

Apatelia lanceolata (R. & P.) DC.
=Saurauia biserrata (R. & P.) Sprengel
Ref. FP 13(3A/2) 1956: 679; Soejarto, 1980: 91.

Apatelia lanceolata var. *peduncularis* DC.
=Saurauia biserrata (R. & P.) Sprengel
Ref. FP 13(3A/2) 1956: 679; Soejarto, 1980: 91.

Palaua biserrata R. & P. =Saurauia biserrata (R. & P.) Sprengel
Ref. FP 13(3A/2) 1956: 679; Soejarto, 1980: 90.

Palaua glabra R. & P. =Saurauia glabra (R. & P.) Soejarto
Ref. FP 13(3A/2) 1956: 681; Soejarto, 1980: 32.

Palaua lanceolata R. & P. =Saurauia biserrata (R. & P.) Sprengel
Ref. FP 13(3A/2) 1956: 679; Soejarto, 1980: 90.

Saurauia biserrata (R. & P.) Sprengel
Syn. *Apatelia biserrata* (R. & P.) DC., *Apatelia lanceolata* (R. & P.) DC., *Apatelia lanceolata* var. *peduncularis* DC., *Palaua biserrata* R. & P., *Palaua lanceolata* R. & P., *Saurauia ruiziana* Steudel, *Saurauia ruiziana* var. *peduncularis* (DC.) Choisy, *Saurauia ruiziana* var. *weberbaueri* Buscalioni, *Saurauia scabra* var. *prainiana* Buscalioni
Ref. FP 13(3A/2) 1956: 679; Soejarto, 1980: 90.
Endemic shrub. Andean I-II: cloud forests, riversides, shrublands. 500-2500 m.
Voucher: Ruiz & Pavón s.n.* (MO!), Killip & Smith 22768 (F)
Depts.: AM, AY, HU, JU, PA, SM

Saurauia briquetii Buscalioni
Ref. FP 13(3A/2) 1956: 680; Soejarto, 1980: 29.
Endemic shrub. Andean II. 1500-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 2177* (B photo F!), Velarde-Núñez 749 (US)
Depts.: JU

Saurauia bullosa Wawra
Syn. *Saurauia roseotincta* R. Schultes
Ref. Soejarto, 1980: 95.
Tree. Andean II-III: cloud forests, shrublands. 1500-4000 m.
Voucher: Macbride 3652 (F)
Depts.: HU, LA

Saurauia floribunda var. *peruviana* Buscalioni =Saurauia peruviana Buscalioni
Ref. FP 13(3A/2) 1956: 683; Soejarto, 1980: 43.

Saurauia formosa Sleumer
Ref. FP 13(3A/2) 1956: 680; Soejarto, 1980: 70.
Endemic shrub or tree. Andean II: forests. 2000-3000 m.
Voucher: Weberbauer 6637* (F, MOL!), Gentry & Smith 35934 (MO!)
Depts.: HU, JU, PA, SM

Saurauia glabra (R. & P.) Soejarto
Syn. *Palaua glabra* R. & P., *Saurauia glabrata* Choisy
Ref. Soejarto, 1980: 32.
Endemic shrub or tree. Andean II. 2000-3000 m.
Voucher: Pavón s.n.* (G photo F!),

López 670 (MO!)
Depts.: HU, LL, PA

Saurauia glabrata Choisy =Saurauia glabra (R. & P.) Soejarto
Ref. FP 13(3A/2) 1956: 681; Soejarto, 1980: 32.

Saurauia isoxanthotricha Buscalioni
Ref. FP 13(3A/2) 1956: 681; Soejarto, 1980: 85.
Shrub. Andean II: cloud forests, riversides. 2000-3500 m.
Voucher: Wurdack 2052 (US)
Depts.: AM

Saurauia loeseneriana Buscalioni
Ref. FP 13(3A/2) 1956: 682; Soejarto, 1980: 27.
Endemic shrub. Andean II: shrublands. 2500-3000 m.
Voucher: Jelski 259* (B photo F!), Stork & Horton 10161 (F)
Depts.: CA, PI, SM

Saurauia natalicia Sleumer
Ref. FP 13(3A/2) 1956: 682; Soejarto, 1980: 50.
Shrub. Andean II: shrublands. 1500-2500 m.
Voucher: Weberbauer 7867* (F), Vargas 11099 (US)
Depts.: AY, CU

Saurauia peruviana Buscalioni
Syn. *Saurauia floribunda* var. *peruviana* Buscalioni, *Saurauia pseudoscabra* Buscalioni, *Saurauia scabra* Poeppig ex Choisy, *Saurauia scabriuscula* J. F. Macbride, *Saurauia weberbaueri* Buscalioni
Ref. FP 13(3A/2) 1956: 683; Soejarto, 1980: 43.
Shrub. Andean I-II: forests. 500-3000 m.
Voucher: Haenke s.n.* (COL), Smith & Canne 5853 (MO!)
Depts.: AM, CA, HU, PA, SM

Saurauia prainiana Buscalioni var. **prainiana**
Ref. FP 13(3A/2) 1956: 683; Soejarto, 1982: 46.
Shrub. Amazonian, Andean I-II: forests. 0-2500 m.
Voucher: Ule 6530* (B photo F!), Díaz 2016 (MO!)
Depts.: CA, LO, SM, UC

Saurauia pseudoscabra Buscalioni =Saurauia peruviana Buscalioni
Ref. FP 13(3A/2) 1956: 683; Soejarto, 1980: 43.

[Saurauia raimondiana Sleumer var. raimondiana]
Ref. FP 13(3A/2) 1956: 684; Soejarto, 1980: 100.
Note: Listed in Soejarto (1980) as an imperfectly known taxon.

[Saurauia raimondiana var. caxamarcensis Sleumer]
Ref. FP 13(3A/2) 1956: 684; Soejarto, 1980: 100.
Note: Listed in Soejarto (1980) as an imperfectly known taxon.

Saurauia roseotincta R. Schultes =Saurauia bullosa Wawra
Ref. FP 13(3A/2) 1956: 684; Soejarto, 1980: 96.

Saurauia ruiziana Steudel =Saurauia biserrata (R. & P.) Sprengel
Ref. FP 13(3A/2) 1956: 679; Soejarto, 1980: 91.

Saurauia ruiziana var. *peduncularis* (DC.) Choisy =Saurauia biserrata (R. & P.) Sprengel
Ref. FP 13(3A/2) 1956: 680.

Saurauia ruiziana var. *weberbaueri* Buscalioni =Saurauia biserrata (R. & P.) Sprengel
Ref. FP 13(3A/2) 1956: 680; Soejarto, 1980: 91.

Saurauia scabra Poeppig ex Choisy =Saurauia peruviana Buscalioni
Ref. FP 13(3A/2) 1956: 685; Soejarto, 1980: 43.

Saurauia scabra var. *prainiana* Buscalioni =Saurauia biserrata (R. & P.) Sprengel
Ref. FP 13(3A/2) 1956: 679; Soejarto, 1980: 91.

Saurauia scabriuscula J. F. Macbride =Saurauia peruviana Buscalioni
Ref. FP 13(3A/2) 1956: 685; Soejarto, 1980: 43.

Saurauia solitaria Sleumer
Ref. FP 13(3A/2) 1956: 685; Soejarto, 1980: 48.
Endemic shrub. Andean II: forests, riversides. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 7067* (F, MOL!)
Depts.: LL

Saurauia weberbaueri Buscalioni =Saurauia peruviana Buscalioni
Ref. FP 13(3A/2) 1956: 686; Soejarto, 1980: 43.

Aizoaceae

6 genera and 12 species in Peru.

Prepared by L. Brako.

Aptenia cordifolia (L. f.) N. E. Brown
Syn. *Mesembryanthemum cordifolium* L. f.
Ref. Gutte *et al.*, 1986: 189.
Voucher: Gutte 4206 (LZ, USM)
Depts.: HU

Demidovia tetragonoides Pallas =Tetragonia expansa Murray
Ref. FP 13(2/2) 1937: 560.

Lampranthus multiradiatus N. E. Brown
Introduced herb. Coastal. 0-500 m.
Voucher: Caycho 4 (USM!)
Depts.: LI

Mesembryanthemum cordifolium L. f. =Aptenia cordifolia (L. f.) N. E. Brown
Ref. Brown, 1928: 139.

Mesembryanthemum crystallinum L.
Introduced herb. Andean II: disturbed areas. 2500-3000 m.
Voucher: Solomon 2827 (MO!)
Depts.: AR

Sesuvium portulacastrum (L.) L.
Syn. *Portulaca portulacastrum* L. (Portulacaceae)
Ref. FP 13(2/2) 1937: 559.
Herb. Coastal: beach, lomas. 0-1000 m.
Voucher: Hutchison 1219 (F!)
Depts.: AR, IC, LI, LL, PI, TA, TU

Tetragonia crystallina L'Héritier
Ref. FP 13(2/2) 1937: 560.
Herb. Coastal: lomas, rocky slopes. 0-500 m.
Voucher: Ferreyra 6290 (MOL!)
Depts.: AN, AR, LI, LL, TA

Tetragonia expansa Murray
Syn. *Demidovia tetragonoides* Pallas, *Tetragonia tetragonioides* (Pallas) Kuntze
Ref. FP 13(2/2) 1937: 560.
Cultivated herb.
Voucher: Guenther & Buchtien 317 (F)
Depts.: AR

Tetragonia macrocarpa Philippi
Ref. FP 13(2/2) 1937: 560.
Herb. Andean I, Coastal: cloud forests, lomas. 0-1500 m.
Voucher: Ferreyra 12520 (USM!)
Depts.: AR, TA

Tetragonia maritima Barnéoud
Ref. FP 13(2/2) 1937: 561.
Note: Not reconfirmed.

Tetragonia ovata Philippi
Ref. FP 13(2/2) 1937: 561.
Herb. Andean I-II, Coastal: grasslands, lomas. 500-2000 m.
Voucher: Weberbauer 7422 (F!)
Depts.: MO, TA

Tetragonia pedunculata Philippi
Ref. FP 13(2/2) 1937: 561.
Herb. Coastal: lomas, rocky slopes. 0-500 m.
Voucher: Ferreyra 6495 (MOL!)
Depts.: AR, MO, TA

Tetragonia tetragonioides (Pallas) Kuntze =Tetragonia expansa Murray
Ref. FP 13(2/2) 1937: 560.

Tetragonia vestita I. M. Johnston
Ref. FP 13(2/2) 1937: 561.
Herb. Andean I-II, Coastal: lomas, rocky slopes. 0-2500 m.
Voucher: Ferreyra 11958 (USM!)
Depts.: AR, IC, MO

Trianthema monanthogyna L. =Trianthema portulacastrum L.
Ref. FP 13(2/2) 1937: 562.

Trianthema portulacastrum L.
Syn. *Trianthema monanthogyna* L.
Ref. FP 13(2/2) 1937: 562.
Herb. Coastal: lomas. 0-500 m.
Voucher: Beetle 26194 (MO!)
Depts.: PI

Alismataceae

2 genera and 13 species in Peru.

Treated as "Alismaceae" in the Flora of Peru.

Prepared by L. Brako; reviewed by R. R. Haynes (UNA) and L. B. Holm-Nielsen (AAU).

Alisma berteroi Sprengel =Echinodorus berteroi (Sprengel) Fassett
Ref. Holm-Nielsen & Haynes, 1986: 13.

Alisma boliviana Rusby =Echinodorus bolivianus (Rusby) Holm-Nielsen
Ref. Holm-Nielsen & Haynes, 1986: 6.

[*Alisma ellipticum* C. Martius =Echinodorus palaefolius (Nees & C. Martius) J. F. Macbride]
Ref. FP 13(1/1) 1936: 92.
Note: Not known from Peru.

Alisma flava L. =Limnocharis flava (L.) Buchenau (Limnocharitaceae)
Ref. FP 13(1/1) 1936: 94; Haynes & Holm-Nielsen, 1992: 8.

Alisma grandiflorum Chamisso & Schlechtendal =Echinodorus grandiflorus (Chamisso & Schlechtendal) M. Micheli
Ref. FP 13(1/1) 1936: 92; Holm-Nielsen & Haynes, 1986: 15.

[*Alisma intermedium* C. Martius =Echinodorus intermedius (C. Martius) Grisebach]
Ref. FP 13(1/1) 1936: 92.
Note: Not known from Peru.

Alisma macrophyllum Kunth =Echinodorus macrophyllus (Kunth) M. Micheli
Ref. FP 13(1/1) 1936: 92.

[*Alisma subalatum* C. Martius =Echinodorus subalatus (C. Martius) Grisebach]
Ref. FP 13(1/1) 1936: 93.
Note: Not known from Peru.

Alisma tenellum C. Martius =Echinodorus tenellus (C. Martius) Buchenau
Ref. FP 13(1/1) 1936: 93; Holm-Nielsen & Haynes, 1986: 6.

Echinodorus austroamericanus Rataj =Echinodorus bolivianus (Rusby) Holm-Nielsen
Ref. Holm-Nielsen & Haynes, 1986: 6; Rataj, 1978: 10.

Echinodorus berteroi (Sprengel) Fassett
Syn. *Alisma berteroi* Sprengel
Ref. Holm-Nielsen & Haynes, 1986: 13.
Aquatic herb. Amazonian: emergent or submerged. 0-500 m.
Voucher: Llatas 491 (F!)
Depts.: LA

Echinodorus bolivianus (Rusby) Holm-Nielsen
Syn. *Alisma boliviana* Rusby, *Echinodorus austroamericanus* Rataj, *Echinodorus quadricostatus* Fassett
Ref. Holm-Nielsen & Haynes, 1986: 6.
Aquatic herb. Amazonian: emergent or submerged. 0-500 m.
Voucher: Williams 4698 (F!)
Depts.: LO

[*Echinodorus ellipticus* M. Micheli =Echinodorus palaefolius (Nees & C. Martius) J. F. Macbride]
Ref. FP 13(1/1) 1936: 92.
Note: Not known from Peru.

Echinodorus grandiflorus (Chamisso & Schlechtendal) M. Micheli subsp. **aureus** (Fassett) R. Haynes & Holm-Nielsen
Syn. *Alisma grandiflorum* Chamisso & Schlechtendal, *Echinodorus grandiflorus* var. *aureus* Fassett
Ref. FP 13(1/1) 1936: 92; Haynes & Holm-Nielsen, 1986f: 330; Holm-Nielsen & Haynes, 1986: 15.
Aquatic herb. Amazonian, Andean I: submerged. 0-1000 m.
Voucher: Barbour 5561 (MO!, USM!)
Depts.: JU, MD

Echinodorus grandiflorus var. *aureus* Fassett =Echinodorus grandiflorus subsp. aureus (Fassett) R. Haynes & Holm-Nielsen
Ref. Haynes & Holm-Nielsen, 1986f: 330.

Echinodorus grisebachii Small
Syn. *Echinodorus parviflorus* Rataj
Ref. Holm-Nielsen & Haynes, 1986: 8.
Aquatic herb. Amazonian: submerged. 0-500 m.
Voucher: Killip & Smith 28041 (F!)
Depts.: LO, MD

Echinodorus horizontalis Rataj
Ref. Holm-Nielsen & Haynes, 1986: 12.
Aquatic herb. Amazonian: emergent or submerged. 0-500 m.
Voucher: Schunke 279* (F!), Ayala 1751 (MO!, USM!)
Depts.: LO, MD, UC

[Echinodorus intermedius (C. Martius) Grisebach]
Syn. *Alisma intermedium* C. Martius
Ref. FP 13(1/1) 1936: 92.
Note: Not known from Peru.

Echinodorus macrophyllus (Kunth) M. Micheli
Syn. *Alisma macrophyllum* Kunth
Ref. FP 13(1/1) 1936: 92.
Aquatic herb. Amazonian: submerged. 0-500 m.
Note: Cited voucher questionably determined (Haynes, pers. comm.).
Voucher: Foster 2620 (USM!)
Depts.: Without full locality data.

[Echinodorus palaefolius (Nees & C. Martius) J. F. Macbride]
Syn. *Alisma ellipticum* C. Martius, *Echinodorus ellipticus* M. Micheli, *Sagittaria palaefolia* Nees & C. Martius
Ref. FP 13(1/1) 1936: 92.
Note: Not known from Peru.

Echinodorus paniculatus M. Micheli
Ref. FP 13(1/1) 1936: 93; Holm-Nielsen & Haynes, 1986: 7.
Aquatic herb. Amazonian: submerged. 0-500 m.
Voucher: Williams 5815 (F!)
Depts.: LO, SM

Echinodorus parviflorus Rataj =Echinodorus grisebachii Small
Ref. Rataj, 1978: 16; Haynes, pers. comm.

Echinodorus quadricostatus Fassett =Echinodorus bolivianus (Rusby) Holm-Nielsen
Ref. Haynes, pers. comm.

[Echinodorus subalatus (C. Martius) Grisebach]
Syn. *Alisma subalatum* C. Martius
Ref. FP 13(1/1) 1936: 93.
Note: Not known from Peru.

Echinodorus tenellus (C. Martius) Buchenau
Syn. *Alisma tenellum* C. Martius, *Helianthium tenellum* (C. Martius) Britton
Ref. FP 13(1/1) 1936: 93; Holm-Nielsen & Haynes, 1986: 6.
Aquatic herb.
Note: Not reconfirmed.

Echinodorus tunicatus Small
Ref. FP 13(1/1) 1936: 93; Holm-Nielsen & Haynes, 1986: 9.
Aquatic herb. Amazonian: emergent or submerged. 0-500 m.
Voucher: Foster & Augspurger 3196 (F!, USM!)
Depts.: LO, MD

Helianthium tenellum (C. Martius) Britton =Echinodorus tenellus (C. Martius) Buchenau
Ref. Holm-Nielsen & Haynes, 1986: 6.

Lophotocarpus guyanensis (H.B.K.) J. G. Smith =Sagittaria guyanensis H.B.K.
Ref. FP 13(1/1) 1936: 93.

Sagittaria guyanensis H.B.K.
Syn. *Lophotocarpus guyanensis* (H.B.K.) J. G. Smith
Ref. FP 13(1/1) 1936: 93; Holm-Nielsen & Haynes, 1986: 20.

Aquatic herb. Amazonian: floating or submerged. 0-500 m.
Voucher: Woytkowski 6088 (MO!)
Depts.: LO

Sagittaria montevidensis Chamisso & Schlechtendal subsp. **montevidensis**
Ref. FP 13(1/1) 1936: 94; Haynes, pers. comm.
Aquatic herb. Amazonian, Coastal: emergent or submerged.
Voucher: Ferreyra 2952 (USM!)
Depts.: LI, LO, PI, SM

[*Sagittaria palaefolia* Nees & C. Martius =Echinodorus palaefolius (Nees & C. Martius) J. F. Macbride]
Ref. FP 13(1/1) 1936: 92.
Note: Not known from Peru.

Sagittaria rhombifolia Chamisso
Ref. Holm-Nielsen & Haynes, pers. comm.
Aquatic herb. Amazonian: emergent. 0-500 m.
Voucher: Rabelo 629 (NY!)
Depts.: LO

Sagittaria sprucei M. Micheli
Ref. Holm-Nielsen & Haynes, 1986: 24.
Aquatic herb. Amazonian: emergent. 0-500 m.
Voucher: Vásquez 3223 (MO!)
Depts.: LO

Alzateaceae

1 genus and 1 species in Peru.

Treated under Rhamnaceae in the Flora of Peru.

Prepared by J. L. Zarucchi; reviewed by S. A. Graham (KE) and A. Lourteig (P).

Alzatea verticillata R. & P. subsp. **verticillata**
Ref. FP 13(3A/2): 393; Lourteig, 1965: 376; Graham 1984: 776.
Tree. Andean I-II: disturbed areas, forests. 1000-2500 m.
Note: Treated under *Rhamnaceae* in the Flora of Peru and under *Lythraceae* by Lourteig (1965); currently placed in its own family by Graham (1984).
Voucher: Ruiz & Pavón s.n.* (MA photo F!), Smith 1811 (MO!)
Depts.: AM, HU, PA, SM

Amaranthaceae

12 genera and 70 species in Peru.

Endemic species: 10.

Prepared by T. Borsch (FR and MO).

Achyranthes altissima Jacquin =Chamissoa altissima var. altissima
Ref. FP 13(2/2) 1937: 481; Sohmer, 1977: 115; Eliasson, 1987: 15.

Achyranthes aspera L.
Ref. Gutte *et al.*, 1986: 191.
Syn. *Achyranthes indica* (L.) Miller
Herb. Amazonian, Andean I. 0-1000 m.
Voucher: Hutchison 5416 (MO!)
Depts.: AM, CA, SM

Achyranthes atra R. & P. ex Moquin =Alternanthera porrigens var. porrigens
Ref. FP 13(2/2) 1937: 498.

Achyranthes baccata R. & P. ex Moquin =Chamissoa altissima var. altissima
Ref. FP 13(2/2) 1937: 481.

Achyranthes bangii Standley =Alternanthera porrigens var. porrigens
Ref. FP 13(2/2) 1937: 504.

Achyranthes capituliflora Bertero =Alternanthera flavescens H.B.K.
Ref. FP 13(2/2) 1937: 495; Pedersen, 1976: 270.

Achyranthes conferta R. & P. ex Moquin =Guilleminea densa (Willdenow) Moquin
Ref. FP 13(2/2) 1937: 489.

Achyranthes corymbosa L. =Polycarpaea corymbosa (L.) Lamarck (Caryophyllaceae).
Ref. FP 13(2/2) 1937: 628; Duke, 1961a: 105.

Achyranthes ficoidea (L.) Lamarck =Alternanthera paronychioides St. Hilaire
Ref. FP 13(2/2) 1937: 498; Mears, 1977: 7.

Achyranthes geniculata R. & P. ex Moquin =Alternanthera brasiliana var. brasiliana
Ref. FP 13(2/2) 1937: 495.

Achyranthes halimifolia Lamarck =Alternanthera halimifolia (Lamarck) Standley ex Pittier
Ref. FP 13(2/2) 1937: 499.

Achyranthes incana Moquin =Alternanthera halimifolia (Lamarck) Standley ex Pittier
Ref. FP 13(2/2) 1937: 499.

Achyranthes indica (L.) Miller =Achyranthes aspera L.
Ref. Eliasson, 1987: 42.

Achyranthes jacquini (Schrader) Standley =Alternanthera brasiliana var. brasiliana
Ref. FP 13(2/2) 1937: 496; Mears, 1977: 13.

Achyranthes lactea Moquin =Alternanthera macbridei Standley
Ref. FP 13(2/2) 1937: 502.

Achyranthes lehmannii (Hieronymus) Standley =Alternanthera mexicana (Schlechtendal) Hieronymus
Ref. FP 13(2/2) 1937: 501.

Achyranthes lupulina (H.B.K.) Willdenow ex Moquin =Alternanthera lupulina H.B.K.
Ref. FP 13(2/2) 1937: 502.

Achyranthes parviflora R. & P. ex Moquin =Alternanthera lupulina H.B.K.
Ref. FP 13(2/2) 1937: 502.

Achyranthes philoxeroides (C. Martius) Standley =Alternanthera philoxeroides (C. Martius) Grisebach
Ref. FP 13(2/2) 1937: 505; Mears, 1977: 15.

Achyranthes picta Passerini =Alternanthera bettzickiana (Regel) Standley
Ref. FP 13(2/2) 1937: 494.

Achyranthes porrigens Jacquin =Alternanthera porrigens var. porrigens
Ref. FP 13(2/2) 1937: 505; Eliasson, 1987: 84.

Achyranthes prostrata L. =Cyathula prostrata (L.) Blume
Ref. Eliasson, 1987: 40.

Achyranthes purpurea R. & P. ex Moquin =Alternanthera porrigens var. porrigens
Ref. FP 13(2/2) 1937: 506.

Achyranthes repens L. =Alternanthera pungens H.B.K.
Ref. FP 13(2/2) 1937: 508; Eliasson, 1987: 64.

Achyranthes verschaffeltii Lemaire =Iresine herbstii Lindley
Ref. FP 13(2/2) 1937: 516; Eliasson, 1987: 127.

Achyranthes williamsii Standley =Alternanthera pubiflora (Bentham) Kuntze

Alternanthera achyrantha (L.) R. Brown =Alternanthera pungens H.B.K.
Ref. FP 13(2/2) 1937: 508; Mears, 1977: 9.

Alternanthera achyrantha var. *leiantha* Seubert =Alternanthera pungens H.B.K.
Ref. FP 13(2/2) 1937: 508; Mears, 1977: 9.

Alternanthera achyrantha var. *parvifolia* Moquin =Alternanthera caracasana H.B.K.
Ref. FP 13(2/2) 1937: 508; Mears, 1977: 10.

Alternanthera albosquarrosa Suessenguth
Ref. FP 13(2/2) 1938: 1132; Eliasson, 1987: 100.
Endemic subshrub. Andean I-II, Coastal: lomas. 0-2000 m.
Voucher: Weberbauer 5759* (GH photo M!), Hutchinson 1039 (M!)
Depts.: AR, IC, LI

Alternanthera albotomentosa Suessenguth var. **albotomentosa**

Ref. FP 13(2/3) 1938: 1132; Eliasson, 1987: 68.
Endemic herb. Andean II: rocky slopes. 1500-2500 m.
Voucher: Pennell 14456* (S), Gentry *et al.* 23261 (MO!)
Depts.: AR, AY, LI

Alternanthera arequipensis Suessenguth
Ref. FP 13(2/3) 1938: 1132.
Endemic herb or shrub. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Pennell 13131* (F)
Depts.: AR

Alternanthera asterophora Standley
=Alternanthera flavida Suessenguth
Ref. FP 13(2/2) 1937: 499.

Alternanthera bettzickiana (Regel) Standley
Syn. *Achyranthes picta* Passerini, *Alternanthera spathulata* Lemaire, *Telanthera bettzickiana* Regel, *Telanthera picta* (Passerini) C. Koch
Ref. FP 13(2/2) 1937: 494; Mears, 1977: 16; Eliasson, 1987: 79.
Cultivated herb. Amazonian: disturbed areas, forests, grasslands. 0-1000 m.
Voucher: Schunke 8205 (MO!)
Depts.: HU, LI, LO, SM

Alternanthera brasiliana (L.) Kuntze var. **brasiliana**
Syn. *Achyranthes geniculata* R. & P. ex Moquin, *Achyranthes jacquini* (Schrader) Standley, *Alternanthera brasiliana* var. *jacquinii* Kuntze, *Alternanthera dentata* (Moench) Scheygrond, *Gomphrena brasiliana* L., *Gomphrena brasiliensis* (L.) Lamarck, *Gomphrena brasiliensis* Jacquin, *Gomphrena dentata* Moench, *Mogiphanes brasiliensis* (Jacquin) C. Martius, *Mogiphanes jacquini* Schrader, *Mogiphanes straminea* C. Martius, *Telanthera brasiliana* (L.) Moquin, *Telanthera dentata* (Moench) Moquin
Ref. FP 13(2/2) 1937: 495; Mears, 1977: 11.
Herb or shrub. Amazonian: riversides. 0-500 m.
Voucher: Williams 3916 (F!)
Depts.: CU, HU, JU, LO, PI, SM, TU

Alternanthera brasiliana var. *jacquinii* Kuntze =Alternanthera brasiliana var. brasiliana
Ref. FP 13(2/2) 1937: 496.

Alternanthera brasiliana var. **villosa** (Moquin) Kuntze
Syn. *Mogiphanes ramosissima* C. Martius, *Telanthera brasiliana* var. *villosa* Moquin, *Telanthera ramosissima* (C. Martius) Moquin
Ref. Mears, 1977: 13; Eliasson, 1987: 13.
Shrub. Coastal. 0-500 m.
Voucher: Weberbauer 7696 (MO!)
Depts.: LA, TU

Alternanthera calcicola Standley
Ref. FP 13(2/2) 1937: 496.
Endemic herb. Andean II-III: rocky slopes. 2500-4000 m.
Voucher: Macbride & Featherstone 944* (F!), Macbride 3110 (F!)
Depts.: JU

Alternanthera caracasana H.B.K.
Syn. *Alternanthera achyrantha* var. *parvifolia* Moquin, *Alternanthera parvifolia* (Moquin) Fawcett & Rendle, *Celosia humifusa* H.B.K. ex Roemer & Schultes, *Telanthera caracasana* (H.B.K.) Moquin
Ref. FP 13(2/2) 1937: 508; Mears, 1977: 10; Eliasson, 1987: 66.
Herb. Andean I-II, Coastal: lomas, grasslands. 500-3000 m.
Voucher: Sagástegui 9718 (MO!)
Depts.: AR, CA

Alternanthera dentata (Moench) Scheygrond =Alternanthera brasiliana var. brasiliana
Ref. Mears, 1977: 11.

Alternanthera dominii Schinz
Syn. *Alternanthera raimondii* Suessenguth, *Telanthera nana* Moquin
Ref. FP 13(2/2) 1937: 497.
Herb. Andean II: grasslands. 2000-2500 m.
Voucher: Sagástegui 6356 (MO!)
Depts.: CA, LI

Alternanthera echinata Smith =Alternanthera pungens H.B.K.
Ref. FP 13(2/2) 1937: 507; Mears, 1977: 9.

Alternanthera elongata (Willdenow ex Roemer & Schultes) Schinz var. **elongata**
Syn. *Brandesia elongata* (Willdenow ex Roemer & Schultes) C. Martius, *Gomphrena elongata* Willdenow ex Roemer & Schultes, *Telanthera elongata* (Willdenow ex Roemer & Schultes) Moquin
Ref. FP 13(2/2) 1937: 497.
Herb or subshrub. Andean II. 2500-3000 m.
Note: Not reconfirmed. Taxonomic status uncertain.
Depts.: AM, HU

Alternanthera elongata var. *nigriceps* (Hooker) Suessenguth =Alternanthera porrigens var. porrigens
Ref. FP 13(2/2) 1937: 498.

Alternanthera fasciculata Suessenguth =Alternanthera mexicana (Schlechtendal) Hieronymus
Ref. FP 13(2/3) 1938: 1132.

Alternanthera fastigiata Suessenguth =Alternanthera porrigens var. porrigens
Ref. FP 13(2/3) 1938: 1133.

Alternanthera ficoidea (L.) R. Brown =Alternanthera paronychioides St. Hilaire
Ref. FP 13(2/2) 1937: 498; Mears, 1977: 7; Eliasson, 1987: 75.

Alternanthera ficoidea var. *halimifolia* Kuntze =Alternanthera halimifolia (Lamarck) Standley ex Pittier
Ref. FP 13(2/2) 1937: 499.

Alternanthera flavescens H.B.K.
Syn. *Achyranthes capituliflora* Bertero, *Telanthera capituliflora* Moquin
Ref. Pedersen, 1976: 270; Eliasson, 1987: 105.
Herb or subshrub. Andean I: cloud forests, disturbed areas, rocky slopes, shrublands. 500-1000 m.
Voucher: Gentry & Galiano 44139 (MO!)
Depts.: CU, HU, SM

Alternanthera flavida Suessenguth
Syn. *Alternanthera asterophora* Standley
Ref. FP 13(2/2) 1937: 499.
Endemic shrub. Andean II. 1500-2000 m.
Voucher: Weberbauer 6464* (B)
Depts.: HV

Alternanthera gomphrenoides H.B.K. =Alternanthera porrigens var. porrigens
Ref. FP 13(2/2) 1937: 506; Eliasson, 1987: 84.

Alternanthera halimifolia (Lamarck) Standley ex Pittier
Syn. *Achyranthes halimifolia* Lamarck, *Achyranthes incana* Moquin, *Alternanthera ficoidea* var. *halimifolia* Kuntze, *Alternanthera polygonoides* var. *elongata* Suessenguth, *Celosia peruviana* Van Spand. ex Moquin, *Illecebrum alsinaefolium* Scopoli, *Illecebrum frutescens* L'Héritier, *Illecebrum limense* Dumont de Courset, *Telanthera densiflora* Moquin, *Telanthera frutescens* Moquin, *Telanthera frutescens* var. *acutifolia* Moquin, *Telanthera halimifolia* (Lamarck) A. Stewart
Ref. FP 13(2/2) 1937: 499; Eliasson, 1987: 73.
Herb. Amazonian, Andean I-II: disturbed areas, lomas, riversides, rocky slopes. 0-2500 m.
Voucher: Croat 58373 (MO!)
Depts.: AM, AN, CA, HU, LI, LL, PI

Alternanthera iresinoides H.B.K. =Pfaffia iresinoides (H.B.K.) Sprengel
Ref. Eliasson, 1987: 55.

Alternanthera lanceolata (Bentham) Schinz =Alternanthera mexicana (Schlechtendal) Hieronymus
Ref. FP 13(2/2) 1937: 500; Eliasson, 1987: 91.

Alternanthera lehmannii Hieronymus =Alternanthera mexicana (Schlechtendal) Hieronymus
Ref. FP 13(2/2) 1937: 501; Eliasson, 1987: 91.

Alternanthera lupulina H.B.K.
Syn. *Achyranthes lupulina* (H.B.K.) Willdenow ex Moquin, *Achyranthes*

parviflora R. & P. ex Moquin, *Bucholzia lupulina* (H.B.K.) C. Martius, *Illecebrum lupulinum* (H.B.K.) Sprengel, *Telanthera andicola* Moquin
Ref. FP 13(2/2) 1937: 501.
Herb. Andean II-III: grasslands, rocky slopes. 3000-4500 m.
Voucher: Humboldt & Bonpland s.n.* (P-H&B), Hutchison & Wright 5904 (F!)
Depts.: AN, CA, JU, LI, PA, PU

Alternanthera macbridei Standley
Syn. *Achyranthes lactea* Moquin, *Telanthera lupulina* (H.B.K.) Moquin
Ref. FP 13(2/2) 1937: 502.
Herb. Andean II-III: disturbed areas, grasslands, riversides, rocky slopes, shrublands. 2500-4000 m.
Voucher: Macbride & Featherstone 967* (F), Weberbauer 2444 (MOL!)
Depts.: AM, AN, CA, CU, HU, HV, JU, LI, LL, PU

Alternanthera mexicana (Schlechtendal) Hieronymus
Syn. *Achyranthes lehmannii* (Hieronymus) Standley, *Alternanthera fasciculata* Suessenguth, *Alternanthera lanceolata* (Bentham) Schinz, *Alternanthera lehmannii* Hieronymus, *Alternanthera mexicana* var. *gracilis* Suessenguth, *Alternanthera microcephala* (Moquin) Schinz, *Brandesia lanceolata* Bentham, *Brandesia mexicana* Schlechtendal, *Mogiphanes soratensis* Rusby, *Telanthera lanceolata* (Bentham) Moquin, *Telanthera mexicana* Moquin, *Telanthera microcephala* Moquin
Ref. FP 13(2/2) 1937: 503; Eliasson, 1987: 91.
Herb. Andean I-III: disturbed areas, forests, riversides. 500-3000 m.
Voucher: Peyton 1367 (MO!)
Depts.: AM, AY, CA, CU, HU, JU, LI, LL, LO, SM

Alternanthera mexicana var. *gracilis* Suessenguth =Alternanthera mexicana (Schlechtendal) Hieronymus
Ref. FP 13(2/2) 1937: 500.

Alternanthera microcephala (Moquin) Schinz =Alternanthera mexicana (Schlechtendal) Hieronymus
Ref. FP 13(2/2) 1937: 503; Eliasson, 1987: 91.

Alternanthera mollendoana Suessenguth =Alternanthera pubiflora (Bentham) Kuntze
Ref. FP 13(2/3) 1938: 1134.

Alternanthera nigriceps Hooker =Alternanthera porrigens var. porrigens
Ref. FP 13(2/2) 1937: 498.

Alternanthera nigripes (Hooker) Steudel =Alternanthera porrigens var. porrigens
Ref. FP 13(2/2) 1937: 498.

Alternanthera paniculata H.B.K. =Alternanthera porrigens var. porrigens
Ref. FP 13(2/2) 1937: 503.

Alternanthera paronychioides St. Hilaire
Syn. *Achyranthes ficoidea* (L.) Lamarck, *Alternanthera ficoidea* (L.) R. Brown, *Bucholzia ficoidea* (L.) C. Martius, *Gomphrena ficoidea* L., *Telanthera ficoidea* (L.) Moquin
Ref. Mears, 1977: 6; Eliasson, 1987: 76.
Herb. Amazonian, Coastal: grasslands. 0-500 m.
Voucher: Gentry 16499 (MO!)
Depts.: LI, LO, PI

Alternanthera parvifolia (Moquin) Fawcett & Rendle =Alternanthera caracasana H.B.K.
Ref. FP 13(2/2) 1937: 508.

Alternanthera peruviana (Moquin) Suessenguth
Syn. *Alternanthera peruviana* fo. *globifera* Suessenguth, *Telanthera peruviana* Moquin
Ref. FP 13(2/2) 1937: 504; Eliasson, 1987: 73.
Endemic herb. Coastal: desert. 0-500 m.
Voucher: Cuming 971* (P), Gentry 22520 (MO!)
Depts.: LL, PI, TU

Alternanthera peruviana fo. *globifera* Suessenguth =Alternanthera peruviana (Moquin) Suessenguth
Ref. FP 13(2/2) 1937: 504.

Alternanthera philoxeroides (C. Martius) Grisebach
Syn. *Achyranthes philoxeroides* (C. Martius) Standley, *Bucholzia philoxeroides* C. Martius, *Telanthera philoxeroides* (C. Martius) Moquin
Ref. FP 13(2/2) 1937: 505; Mears, 1977: 14.
Herb. Amazonian: riversides. 0-500 m.
Voucher: Killip & Smith 29403 (F!)
Depts.: HU, LO

Alternanthera piurensis Standley =Alternanthera porrigens var. piurensis (Standley) Eliasson
Ref. FP 13(2/2) 1937: 505; Eliasson, 1987: 87.

Alternanthera polygonoides var. *elongata* Suessenguth =Alternanthera halimifolia (Lamarck) Standley ex Pittier
Ref. FP 13(2/3) 1938: 1134.

Alternanthera porrigens (Jacquin) Kuntze var. **piurensis** (Standley) Eliasson
Syn. *Alternanthera piurensis* Standley
Ref. Eliasson, 1987: 87.
Subshrub. Andean II. 1500-3000 m.
Voucher: Weberbauer 6358* (M!), López *et al.* 9013 (MO!)
Depts.: CA, PI

Alternanthera porrigens var. **porrigens**
Syn. *Achyranthes atra* R. & P. ex Moquin, *Achyranthes bangii* Standley, *Achyranthes porrigens* Jacquin, *Achyranthes purpurea* R. & P. ex Moquin, *Alternanthera elongata* var. *nigriceps* (Hooker) Suessenguth, *Alternanthera fastigiata* Suessenguth, *Alternanthera gomphrenoides* H.B.K., *Alternanthera nigriceps* Hooker, *Alternanthera nigripes* (Hooker) Steudel, *Alternanthera paniculata* H.B.K., *Alternanthera sericea* H.B.K., *Brandesia porrigens* (Jacquin) C. Martius, *Celosia elongata* Sprengel, *Celosia peruviana* Zuccarini, *Gomphrena sericea* Moquin, *Illecebrum gomphronoides* Willdenow ex Roemer & Schultes, *Illecebrum paniculatum* (H.B.K.) Sprengel, *Illecebrum sericeum* Sprengel, *Mogiphanes paniculata* Rusby, *Telanthera bangii* Rusby, *Telanthera elongata* var. *nigriceps* (Hooker) Moquin, *Telanthera gomphrenoides* Moquin, *Telanthera gomphrenoides* var. *ovata* Moquin, *Telanthera luzuloides* Moquin, *Telanthera meyeriana* Regel & Koernicke, *Telanthera paniculata* (H.B.K.) Moquin, *Telanthera porrigens* (Jacquin) Moquin, *Telanthera riveti* Danguy & Chermezon
Ref. FP 13(2/2) 1937: 505; Eliasson, 1987: 84.
Shrub. Amazonian, Andean I-II, Coastal: disturbed areas, grasslands, lomas, rocky slopes, shrublands. 0-3500 m.
Voucher: Gentry 19253 (MO!)
Depts.: AM, AN, AR, CA, HU, JU, LA, LI, LL, PI

Alternanthera pubiflora (Bentham) Kuntze
Syn. *Achyranthes williamsii* Standley, *Alternanthera mollendoana* Suessenguth, *Alternanthera williamsii* (Standley) Standley, *Brandesia pubiflora* Bentham, *Telanthera glomerata* Moquin, *Telanthera pubiflora* (Bentham) Moquin, *Telanthera pubiflora* var. *glomerata* Moquin
Ref. FP 13(2/2) 1937: 506.
Herb or subshrub. Amazonian, Andean I-II: disturbed areas, lomas, riversides, rocky slopes, shrublands. 0-3500 m.
Voucher: Metcalf 30338 (MO!)
Depts.: AP, AR, AY, CA, CU, JU, LA, LI, LO, PI, SM, TU

Alternanthera pulverulenta (C. Martius) Moquin =Pfaffia densipellita Borsch
Ref. FP 13(2/2) 1937: 507.

Alternanthera pungens H.B.K.
Syn. *Achyranthes repens* L., *Alternanthera achyrantha* (L.) R. Brown, *Alternanthera achyrantha* var. *leiantha* Seubert, *Alternanthera echinata* Smith, *Alternanthera repens* (L.) Kuntze, *Celosia echinata* Willdenow ex Roemer & Schultes, *Illecebrum achyrantha* L., *Telanthera pungens* (H.B.K.) Moquin
Ref. FP 13(2/2) 1937: 507; Mears, 1977: 8.
Herb. Amazonian, Andean I-II: disturbed areas. 0-2500 m.
Voucher: Sagástegui 7678 (MO!)
Depts.: CA, HU, LA, LI, LL

Alternanthera raimondii Suessenguth
=Alternanthera dominii Schinz
Ref. FP 13(2/3) 1938: 1134.

Alternanthera repens (L.) Kuntze
=Alternanthera pungens H.B.K.
Ref. FP 13(2/2) 1937: 508; Eliasson, 1987: 64.

Alternanthera sericea H.B.K.
=Alternanthera porrigens var. porrigens
Ref. FP 13(2/2) 1937: 506; Eliasson, 1987: 84.

Alternanthera sessilis (L.) R. Brown
Syn. *Gomphrena sessilis* L.
Ref. Eliasson, 1987: 75.
Herb. Amazonian: disturbed areas, shrublands. 0-500 m.
Voucher: Gentry 19773 (MO!)
Depts.: LO, MD, SM

Alternanthera spathulata Lemaire
=Alternanthera bettzickiana (Regel) Standley
Ref. FP 13(2/2) 1937: 494; Mears, 1977: 16.

Alternanthera tomentosa (Moquin) Schinz
=Alternanthera villosa H.B.K.
Ref. FP 13(2/2) 1937: 509.

Alternanthera truxillensis H.B.K.
Syn. *Telanthera frutescens* var. *manillensis* (Walpers) Moquin, *Telanthera truxillensis* (H.B.K.) Moquin
Ref. FP 13(2/2) 1937: 499; Mears, 1977: 20; Eliasson, 1987: 20.
Herb. Andean I: riversides. 1000-1500 m.
Voucher: Woytkowski 5698 (MO!)
Depts.: CA

Alternanthera tubulosa Suessenguth
Ref. FP 13(2/3) 1938: 1135.
Subshrub. Andean II. 1500-2000 m.
Note: A doubtful species.
Voucher: Raimondi 12569*
Depts.: HV, LI

Alternanthera villosa H.B.K.
Syn. *Alternanthera tomentosa* (Moquin) Schinz, *Illecebrum villosum* (H.B.K.) Willdenow, *Telanthera tomentosa* Moquin, *Telanthera villosa* (H.B.K.) Moquin
Ref. FP 13(2/2) 1937: 509.
Herb. Andean I-II: disturbed areas, rocky slopes, shrublands. 1000-3000 m.
Voucher: Humboldt & Bonpland s.n.* (B photo F!), Sagástegui *et al.* 10618 (MO!)
Depts.: AP, CA, HU, JU, LL, PI, TU

Alternanthera williamsii (Standley) Standley
=Alternanthera pubiflora (Bentham) Kuntze

Amaranthus blitum L. var. **blitum**
Herb. Amazonian: disturbed areas, grasslands. 0-500 m.
Voucher: Croat 19977 (MO!)
Depts.: LO

Amaranthus caracasanus H.B.K.
=Amaranthus spinosus L.
Ref. FP 13(2/2) 1937: 487.

Amaranthus caudatus L.
Ref. FP 13(2/2) 1937: 484; Eliasson, 1987: 33.
Cultivated herb. Andean I-II, Coastal: disturbed areas. 0-3500 m.
Voucher: Sauer 1283 (MO!)
Depts.: HU, JU, LI, PI

Amaranthus celosioides H.B.K.
Ref. FP 13(2/2) 1937: 484.
Note: Not reconfirmed.

Amaranthus chlorostachys Willdenow
=Amaranthus hybridus var. hybridus
Ref. FP 13(2/2) 1937: 486.

Amaranthus cruentus L.
Syn. *Amaranthus paniculatus* L.
Ref. FP 13(2/2) 1937: 485; Eliasson, 1987: 32.
Cultivated herb. Amazonian: disturbed areas. 0-500 m.
Voucher: Llatas 2337 (F!)
Depts.: LA, LO

Amaranthus deflexus L.
Syn. *Euxolus deflexus* Raf.
Ref. FP 13(2/2) 1937: 485.
Herb. Amazonian. 0-500 m.
Voucher: Cook & Gilbert 43 (F!)
Depts.: AR, PA

Amaranthus dubius C. Martius ex Thellung
Syn. *Amaranthus tristis* Willdenow
Ref. FP 13(2/2) 1937: 485; Eliasson, 1987: 24.
Cultivated herb. Amazonian, Andean I: grasslands, riversides. 0-1000 m.
Voucher: McDaniel 14034 (MO!)
Depts.: AY, CA, JU, LL, LO, PI, UC

Amaranthus gracilis Desfontaines
=Amaranthus viridis L.
Ref. FP 13(2/2) 1937: 486; Eliasson, 1987: 23.

Amaranthus haughtii Standley
=Amaranthus urceolatus Bentham
Ref. FP 13(2/2) 1937: 486; Eliasson, 1987: 35.

Amaranthus hybridus L. var. **hybridus**
Syn. *Amaranthus chlorostachys* Willdenow, *Amaranthus hypochondriacus* L.
Ref. FP 13(2/2) 1937: 486; Eliasson, 1987: 30.
Herb. Amazonian, Andean I-II: disturbed areas, shrublands. 0-3500 m.
Voucher: Croat 58375 (MO!)
Depts.: CA, CU, HU, LA, LI, PI

Amaranthus hypochondriacus L.
=Amaranthus hybridus var. hybridus
Ref. FP 13(2/2) 1937: 486.

Amaranthus lividus L. var. **polygonioides** (Zollinger) Thellung
Syn. *Amaranthus polygonoides* Zollinger
Ref. Gutte *et al.*, 1986: 191.
Voucher: Gutte 1672 (LZ, USM)
Depts.: LI

Amaranthus paniculatus L. =Amaranthus cruentus L.
Ref. FP 13(2/2) 1937: 485.

Amaranthus peruvianus (Schauer) Standley
Syn. *Mengea peruviana* Schauer
Ref. FP 13(2/2) 1937: 487.
Herb. Andean III. 3500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Meyer s.n.* (B)
Depts.: PU

Amaranthus polygonoides Zollinger
=Amaranthus lividus var. polygonoides (Zollinger) Thellung
Ref. Ascherson & Graebner, 1919: 320.

Amaranthus spinosus L.
Syn. *Amaranthus caracasanus* H.B.K.
Ref. FP 13(2/2) 1937: 487; Eliasson, 1987: 26.
Herb. Amazonian, Andean I-II: disturbed areas, grasslands, riversides. 0-2500 m.
Voucher: Díaz 1020 (MO!)
Depts.: AM, AY, CU, HU, JU, LA, LO, MD, PI, SM, UC

Amaranthus tristis Willdenow
=Amaranthus dubius C. Martius ex Thellung
Ref. FP 13(2/2) 1937: 485.

Amaranthus urceolatus Bentham
Syn. *Amaranthus haughtii* Standley
Ref. Eliasson, 1987: 35.
Herb. Coastal. 0-500 m.
Voucher: Goodspeed 33030 (MO!)
Depts.: LI, PI

Amaranthus viridis L.
Syn. *Amaranthus gracilis* Desfontaines, *Chenopodium caudatum* Jacquin (Chenopodiaceae), *Euxolus caudatus* Moquin
Ref. Eliasson, 1987: 23.
Herb. Amazonian, Coastal: disturbed areas, grasslands. 0-500 m.
Voucher: Lewis 9886 (MO!)
Depts.: HU, IC, LI, LL, LO, PI

Brandesia elongata (Willdenow ex Roemer & Schultes) C. Martius =Alternanthera elongata var. elongata
Ref. FP 13(2/2) 1937: 497.

Brandesia lanceolata Bentham
=Alternanthera mexicana (Schlechtendal) Hieronymus
Ref. FP 13(2/2) 1937: 500; Eliasson, 1987: 91.

Brandesia mexicana Schlechtendal
=Alternanthera mexicana (Schlechtendal) Hieronymus
Ref. FP 13(2/2) 1937: 503; Eliasson, 1987: 91.

Brandesia porrigens (Jacquin) C. Martius =Alternanthera porrigens var. porrigens
Ref. FP 13(2/2) 1937: 506.

Brandesia pubiflora Bentham =Alternanthera pubiflora (Bentham) Kuntze
Ref. FP 13(2/2) 1937: 506; Eliasson, 1987: 95.

Brayulinea densa (Willdenow) Small =Guilleminea densa (Willdenow) Moquin
Ref. FP 13(2/2) 1937: 489.

Bucholzia ficoidea (L.) C. Martius =Alternanthera paronychioides St. Hilaire
Ref. FP 13(2/2) 1937: 498; Mears, 1977: 7.

Bucholzia lupulina (H.B.K.) C. Martius =Alternanthera lupulina H.B.K.
Ref. FP 13(2/2) 1937: 501.

Bucholzia philoxeroides C. Martius =Alternanthera philoxeroides (C. Martius) Grisebach
Ref. FP 13(2/2) 1937: 505; Mears, 1977: 14.

Celosia argentea L. var. **argentea**
Ref. FP 13(2/2) 1937: 480; Eliasson, 1987: 10.
Herb. Amazonian, Andean I: disturbed areas. 0-1000 m.
Voucher: Williams 1832 (F)
Depts.: LO, SM

Celosia argentea var. **cristata** (L.) Kuntze
Syn. *Celosia cristata* L.
Ref. FP 13(2/2) 1937: 480; Eliasson, 1987: 10.
Cultivated herb.
Note: No voucher cited by Eliasson (1987).

Celosia cristata L. =Celosia argentea var. cristata (L.) Kuntze
Ref. FP 13(2/2) 1937: 480.

Celosia echinata Willdenow ex Roemer & Schultes =Alternanthera pungens H.B.K.
Ref. FP 13(2/2) 1937: 507; Mears, 1977: 9.

Celosia elongata Sprengel =Alternanthera porrigens var. porrigens
Ref. FP 13(2/2) 1937: 505; Eliasson, 1987: 84.

Celosia grandifolia Moquin
Ref. Eliasson, 1987: 12.
Herb. Andean I: forests. 500-1000 m.
Note: No voucher cited by Eliasson.
Depts.: HU, SM

Celosia humifusa H.B.K. ex Roemer & Schultes =Alternanthera caracasana H.B.K.
Ref. FP 13(2/2) 1937: 508; Mears, 1977: 10.

Celosia paniculata L. =Chamissoa altissima var. altissima
Ref. FP 13(2/2) 1937: 481; Sohmer, 1977: 115.

Celosia paniculata L. =Iresine diffusa var. diffusa
Ref. FP 13(2/2) 1937: 515; Eliasson, 1987: 15, 122.

Celosia persicaria Schinz
Ref. FP 13(2/2) 1937: 481; Eliasson, 1987: 14.
Endemic herb. Amazonian. 0-500 m.
Voucher: Spruce 4929* (K), Killip & Smith 22996 (F!)
Depts.: AY, SM

Celosia peruviana Van Spand. ex Moquin =Alternanthera halimifolia (Lamarck) Standley ex Pittier
Ref. FP 13(2/2) 1937: 499.

Celosia peruviana Zuccarini =Alternanthera porrigens var. porrigens
Ref. FP 13(2/2) 1937: 505.

Celosia pleiogyna Kuntze =Pleuropetalum pleiogynum (Kuntze) Standley
Ref. Eliasson, 1987: 6.

Celosia tomentosa Willdenow ex Roemer & Schultes =Chamissoa altissima var. altissima
Ref. FP 13(2/2) 1937: 482; Sohmer, 1977: 116.

Celosia virgata Jacquin
Syn. *Celosia virgata* var. *paniculata* Suessenguth
Ref. FP 13(2/2) 1937: 481; Eliasson, 1987: 10.
Herb or subshrub.
Note: No voucher cited by Eliasson (1987).
Depts.: CA

Celosia virgata var. *paniculata* Suessenguth =Celosia virgata Jacquin
Ref. FP 13(2/2) 1937: 481.

Chamissoa acuminata C. Martius var. **maximilianii** (C. Martius ex Moquin) Sohmer
Syn. *Chamissoa maximilianii* C. Martius ex Moquin
Ref. Sohmer, 1977: 122.
Herb or subshrub. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Woytkowski 7363 (MO!)
Depts.: JU, MD, PA, SM

Chamissoa acuminata var. **swansonii** Sohmer
Ref. Sohmer, 1977: 124; Eliasson, 1987: 19.
Herb. Amazonian: forests, shrublands. 0-500 m.
Note: No voucher cited by Eliasson (1987).
Depts.: AM, HU, LO, PA, SM

Chamissoa altissima (Jacquin) H.B.K. var. **altissima**
Syn. *Achyranthes altissima* Jacquin, *Achyranthes baccata* R. & P. ex Moquin, *Celosia paniculata* L., *Celosia tomentosa* Willdenow ex Roemer & Schultes, *Chamissoa macrocarpa* H.B.K., *Kokera paniculata* (L.) Kuntze
Ref. FP 13(2/2) 1937: 481; Sohmer, 1977: 116.
Herb, shrub or vine. Amazonian, Andean I-II: disturbed areas, riversides. 0-2000 m.
Voucher: Gentry *et al.* 25683 (F!), Weberbauer 6964 (MOL!)
Depts.: AM, CU, HU, JU, LO, MD, PA, SM, TU

Chamissoa altissima var. **rubella** Suessenguth
Ref. Sohmer, 1977: 119.
Herb or shrub. Amazonian, Andean I-II: forests. 0-2500 m.
Voucher: Belshaw s.n. (GH)
Depts.: CU, HU, JU, LO, MD, SM

Chamissoa macrocarpa H.B.K. =Chamissoa altissima var. altissima
Ref. FP 13(2/2) 1937: 482; Sohmer, 1977: 116.

Chamissoa maximilianii C. Martius ex Moquin =Chamissoa acuminata var. maximilianii (C. Martius ex Moquin) Sohmer
Ref. FP 13(2/2) 1937: 482; Sohmer, 1977: 122.

Cyathula achyranthoides (H.B.K.) Moquin
Syn. *Desmochaeta achyranthoides* H.B.K.
Ref. FP 13(2/2) 1937: 488; Eliasson, 1987: 37.
Introduced herb. Amazonian, Andean I-II: disturbed areas, forests, riversides, seasonally inundated areas. 0-2000 m.
Voucher: Schunke 1579 (F!)
Depts.: AM, AY, HU, JU, LO, MD, PA, SM, UC

Cyathula prostrata (L.) Blume
Syn. *Achyranthes prostrata* L.
Ref. Eliasson, 1987: 40.
Introduced herb. Amazonian: forests, seasonally inundated areas. 0-500 m.
Note: No voucher cited by Eliasson (1987).
Depts.: LO, MD

Desmochaeta achyranthoides H.B.K. =Cyathula achyranthoides (H.B.K.) Moquin
Ref. FP 13(2/2) 1937: 488; Eliasson, 1987: 37.

Euxolus caudatus Moquin =Amaranthus viridis L.
Ref. FP 13(2/2) 1937: 486.

Euxolus deflexus Raf. =Amaranthus deflexus L.
Ref. FP 13(2/2) 1937: 485.

Froelichia interrupta (L.) Moquin
Syn. *Froelichia lanata* Moench,

Froelichia tomentosa (C. Martius) Moquin, *Gomphrena interrupta* L., *Oplotheca tomentosa* C. Martius
Ref. FP 13(2/2) 1937: 489; Eliasson, 1987: 50.
Herb. Amazonian. 0-500 m.
Voucher: Simpson & Schunke 609 (F!)
Depts.: AR, CA, PI, TU

Froelichia lanata Moench =Froelichia interrupta (L.) Moquin
Ref. FP 13(2/2) 1937: 489.

Froelichia tomentosa (C. Martius) Moquin =Froelichia interrupta (L.) Moquin
Ref. FP 13(2/2) 1937: 489; Eliasson, 1987: 50.

[*Gomphrena acaulis* Remy =Gomphrena meyeniana var. acaulis (Remy) Suessenguth]
Ref. FP 13(2/2) 1937: 512; Holzhammer, 1956: 228.
Note: Not known from Peru.

Gomphrena bicolor C. Martius
Ref. FP 13(2/2) 1937: 510; Holzhammer, 1956: 194.
Herb.
Voucher: Haenke s.n.*
Depts.: Without full locality data.

Gomphrena brasiliana L. =Alternanthera brasiliana var. brasiliana
Ref. FP 13(2/2) 1937: 495; Mears, 1977: 12.

Gomphrena brasiliensis (L.) Lamarck =Alternanthera brasiliana var. brasiliana
Ref. FP 13(2/2) 1937: 495; Mears, 1977: 12.

Gomphrena brasiliensis Jacquin =Alternanthera brasiliana var. brasiliana
Ref. FP 13(2/2) 1937: 496; Mears, 1977: 12.

Gomphrena conwayi Rusby =Gomphrena meyeniana var. conwayi (Rusby) Suessenguth
Ref. FP 13(2/2) 1937: 512; Holzhammer, 1956: 230.

[*Gomphrena decumbens* Jacquin =Gomphrena serrata L.]
Ref. FP 13(2/2) 1937: 510; Eliasson, 1987: 108.
Note: Not known from Peru.

Gomphrena dentata Moench =Alternanthera brasiliana var. brasiliana
Ref. FP 13(2/2) 1937: 496; Mears, 1977: 12.

Gomphrena elegans C. Martius var. **brunnea** Suessenguth
Ref. FP 13(2/2) 1937: 511; Holzhammer, 1956: 21.
Endemic herb or shrub.
Note: Taxonomic status uncertain.
Depts.: AY

Gomphrena elegans var. **elegans**
Ref. FP 13(2/2) 1937: 511; Holzhammer, 1956: 221.
Herb or shrub. Andean II-III: dry valleys, rocky slopes. 2000-4500 m.
Voucher: Solomon 3053 (F!, MO!)
Depts.: AY, CU, HV, JU, AP

Gomphrena elegans var. **mandonioides** Suessenguth
Ref. FP 13(2/2) 1937: 511; Holzhammer, 1956: 221.
Herb or subshrub.
Note: Taxonomic status uncertain. No voucher cited by Holzhammer (1956).
Depts.: HU

Gomphrena elongata Willdenow ex Roemer & Schultes =Alternanthera elongata var. elongata
Ref. FP 13(2/2) 1937: 497.

Gomphrena ficoidea L. =Alternanthera paronychioides St. Hilaire
Ref. FP 13(2/2) 1937: 498; Mears, 1977: 6.

Gomphrena glauca (C. Martius) Moquin =Pfaffia stenophylla (Sprengel) Stuchlik
Ref. FP 13(2/2) 1937: 492; Holzhammer, 1956: 246.

Gomphrena globosa L.
Ref. FP 13(2/2) 1937: 512; Eliasson, 1987: 107.
Cultivated herb. Amazonian, Andean I. 0-1000 m.
Voucher: Williams 6750 (F!)
Depts.: LO, HU, SM

Gomphrena haenkeana C. Martius
Syn. *Gomphrena pulchella* var. *haenkeana* (C. Martius) Suessenguth, *Gomphrena pulchella* var. *rosea* Stuchlik, *Xeraea haenkeana* (C. Martius) Kuntze
Ref. FP 13(2/2) 1937: 513; Pedersen, 1976: 301.
Herb.
Voucher: Haenke s.n.*
Depts.: Without full locality data.

Gomphrena holosericea (C. Martius) Moquin
Syn. *Hebanthe holosericea* (Moquin) C. Martius, *Pfaffia holosericea* (Moquin) Standley
Ref. FP 13(2/2) 1937: 491; Holzhammer, 1956: 219.
Shrub. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Reynel & Meneses 5172 (MO!)
Depts.: HU, JU, LO, MD, SM, TU

Gomphrena interrupta L. =Froelichia interrupta (L.) Moquin
Ref. FP 13(2/2) 1937: 489; Eliasson, 1987: 50.

[*Gomphrena ixiamensis* Rusby =Gomphrena serrata L.]
Ref. FP 13(2/2) 1937: 510.
Note: Not known from Peru.

Gomphrena mandonii R. E. Fries
Syn. *Gomphrena perennis* fo. *villosa* (C. Martius) Stuchlik, *Gomphrena perennis* subfo. *boliviana* Stuchlik
Ref. FP 13(2/2) 1937: 512; Holzhammer, 1956: 220.
Herb or subshrub.
Note: Taxonomic status uncertain. No voucher cited by Holzhammer (1956).
Depts.: JU

Gomphrena martiana Gillies ex Moquin var. **martiana**
Ref. Holzhammer, 1956: 233.
Note: Taxonomic status uncertain. No voucher cited by Holzhammer (1956).
Depts.: HV, IC

[Gomphrena meyeniana Walpers var. acaulis (Remy) Suessenguth]
Syn. *Gomphrena acaulis* Remy
Ref. FP 13(2/2) 1937: 512; Holzhammer 1956: 228.
Note: Not known from Peru.

Gomphrena meyeniana var. **conwayi** (Rusby) Suessenguth
Syn. *Gomphrena conwayi* Rusby
Ref. Holzhammer, 1956: 230.
Herb or shrub. Andean III. 4000-4500 m.
Note: Possibly not a distinct variety.
Voucher: Weberbauer 6886 (MOL!)
Depts.: AR, PU

Gomphrena meyeniana var. **meyeniana**
Ref. FP 13(2/2) 1937: 512; Holzhammer, 1956: 227.
Herb. Andean III. 3500-4000 m.
Voucher: Vargas 11011 (F!)
Depts.: CU, PU

Gomphrena oroyana Standley
Ref. FP 13(2/2) 1937: 513; Holzhammer, 1956: 227.
Endemic herb. Andean II-III. 3000-4000 m.
Voucher: Kalenborn 89* (US), Killip & Smith 21845 (F!)
Depts.: HV, JU, LI

Gomphrena paniculata (C. Martius) Moquin =Pfaffia paniculata (C. Martius) Kuntze
Ref. FP 13(2/2) 1937: 491; Eliasson, 1987: 56.

Gomphrena perennis fo. *villosa* (C. Martius) Stuchlik =Gomphrena mandonii R. E. Fries
Ref. FP 13(2/2) 1937: 511; Holzhammer, 1956: 20.

Gomphrena perennis subfo. *boliviana* Stuchlik =Gomphrena mandonii R. E. Fries
Ref. FP 13(2/2) 1937: 511; Holzhammer, 1956: 220.

[Gomphrena pulchella C. Martius]
Ref. FP 13(2/2) 1937: 513; Holzhammer, 1956: 181.
Note: Not known from Peru. Confused with *Gomphrena haenkeana* C. Martius in the Flora of Peru (Pederson, 1976).

Gomphrena pulchella var. *haenkeana* (C. Martius) Suessenguth =Gomphrena haenkeana C. Martius
Ref. FP 13(2/2) 1937: 513; Holzhammer, 1956: 182.

Gomphrena pulchella var. *rosea* Stuchlik =Gomphrena haenkeana C. Martius
Ref. FP 13(2/2) 1937: 513; Pedersen, 1976: 301.

Gomphrena pumila Gillies ex Moquin
Ref. Holzhammer, 1956: 231.
Herb. Andean II. 3000-3500 m.
Note: Not reconfirmed. No Peruvian specimens cited by Holzhammer (1956).
Depts.: JU

Gomphrena sericea Moquin =Alternanthera porrigens var. porrigens
Ref. FP 13(2/2) 1937: 506.

[Gomphrena serrata L.]
Syn. *Gomphrena decumbens* Jacquin, *Gomphrena ixiamensis* Rusby, *Xeraea decumbens* (Jacquin) Kuntze
Ref. Eliasson, 1987: 107.
Note: Not known from Peru. Confused with *Gomphrena bicolor* in the Flora of Peru.

Gomphrena sessilis L. =Alternanthera sessilis (L.) DC.
Ref. Eliasson, 1987: 75.

Gomphrena stenophylla Sprengel =Pfaffia stenophylla (Sprengel) Stuchlik
Ref. FP 13(2/2) 1937: 492; Holzhammer, 1956: 248.

Gomphrena umbellata Remy
Syn. *Xeraea umbellata* (Remy) Kuntze
Ref. FP 13(2/2) 1937: 513; Holzhammer, 1956: 239.
Herb. Andean III. 3500-4000 m.
Voucher: Weberbauer 6908 (F!, MOL!)
Depts.: AR

Gossypianthus decipiens (Hooker f.) Kuntze =Pfaffia grandiflora (Hooker) R. E. Fries
Ref. FP 13(2/2) 1937: 490; Eliasson, 1987: 60.

Guilleminea densa (Willdenow) Moquin
Syn. *Achyranthes conferta* R. & P. ex Moquin, *Brayulinea densa* (Willdenow) Small, *Guilleminea illecebroides* H.B.K., *Illecebrum densum* Willdenow
Ref. FP 13(2/2) 1937: 489; Eliasson, 1987: 46.
Herb. Andean I-III: disturbed areas, riversides, rocky slopes. 1000-4000 m.
Voucher: Weberbauer 2374 (MOL!), Solomon 3051 (F!)
Depts.: AN, AR, CA, CU, HU, JU, LI, PU

Guilleminea illecebroides H.B.K. =Guilleminea densa (Willdenow) Moquin
Ref. FP 13(2/2) 1937: 489.

Hebanthe decipiens Hooker f. =Pfaffia grandiflora (Hooker) R. E. Fries
Ref. FP 13(2/2) 1937: 490; Eliasson, 1987: 60.

Hebanthe holosericea (Moquin) C. Martius =Gomphrena holosericea (C. Martius) Moquin
Ref. FP 13(2/2) 1937: 491; Holzhammer, 1956: 219.

Hebanthe paniculata C. Martius =Pfaffia paniculata (C. Martius) Kuntze
Ref. FP 13(2/2) 1937: 491; Eliasson, 1987: 56.

Illecebrum achyrantha L. =Alternanthera pungens H.B.K.
Ref. FP 13(2/2) 1937: 508; Mears, 1977: 8.

Illecebrum alsinaefolium Scopoli =Alternanthera halimifolia (Lamarck) Standley ex Pittier
Ref. FP 13(2/2) 1937: 499.

Illecebrum densum Willdenow =Guilleminea densa (Willdenow) Moquin
Ref. FP 13(2/2) 1937: 489.

Illecebrum frutescens L'Héritier =Alternanthera halimifolia (Lamarck) Standley ex Pittier
Ref. FP 13(2/2) 1937: 499.

Illecebrum gomphrenoides Willdenow ex Roemer & Schultes =Alternanthera porrigens var. porrigens
Ref. FP 13(2/2) 1937: 506.

Illecebrum limense Dumont de Courset =Alternanthera halimifolia (Lamarck) Standley ex Pittier
Ref. FP 13(2/2) 1937: 499.

Illecebrum lupulinum (H.B.K.) Sprengel =Alternanthera lupulina H.B.K.
Ref. FP 13(2/2) 1937: 502.

Illecebrum paniculatum (H.B.K.) Sprengel =Alternanthera porrigens var. porrigens
Ref. FP 13(2/2) 1937: 503.

Illecebrum pulverulentum (C. Martius) Sprengel =Pfaffia densipellita Borsch
Ref. FP 13(2/2) 1937: 507.

Illecebrum sericeum Sprengel =Alternanthera porrigens var. porrigens
Ref. FP 13(2/2) 1937: 506.

Illecebrum villosum (H.B.K.) Willdenow =Alternanthera villosa H.B.K.
Ref. FP 13(2/2) 1937: 509.

Iresine acicularis Standley =Iresine diffusa var. spiculigera (Seubert) Eliasson
Ref. FP 13(2/2) 1937: 516; Eliasson, 1987: 124.

Iresine angustifolia Euphrasen
Ref. Eliasson, 1987: 113.
Herb or shrub. Amazonian, Andean I-II: dry valleys. 0-2000 m.
Voucher: Fosbey 27801 (MO!)
Depts.: CA, LA, PI

Iresine celosia L. =Iresine diffusa var. diffusa
Ref. FP 13(2/2) 1937: 515; Eliasson, 1987: 122.

Iresine celosioides L. =Iresine diffusa var. diffusa
Ref. FP 13(2/2) 1937: 515; Eliasson, 1987: 122.

Iresine diffusa H.B.K. ex Willdenow var. **diffusa**
Syn. *Celosia paniculata* L., *Iresine celosia* L., *Iresine celosioides* L., *Iresine paniculata* (L.) Kuntze, *Iresine polymorpha* C. Martius
Ref. Eliasson, 1987: 122.
Herb or shrub. Amazonian, Andean I-III: disturbed areas, forests, grasslands, riversides. 0-3500 m.
Voucher: Schunke 7921 (MO!)
Depts.: AM, AP, AR, AY, CA, CU, HU, JU, LA, LL, LO, PA, PI, SM

Iresine diffusa var. **spiculigera** (Seubert) Eliasson
Syn. *Iresine acicularis* Standley, *Iresine spiculigera* Seubert, *Iresine spiculigera* var. *pauciglandulosa* Herzog
Ref. Eliasson, 1987: 122.
Herb or shrub. Amazonian, Andean I-II: forests. 0-2000 m.
Note: No voucher cited by Eliasson (1987).
Depts.: CU, JU, LO, SM

Iresine grandiflora Hooker =Pfaffia grandiflora (Hooker) R. E. Fries
Ref. FP 13(2/2) 1937: 490; Eliasson, 1987: 60.

Iresine hassleriana Chodat
Syn. *Iresine hassleriana* var. *guaranoides* Suessenguth
Ref. FP 13(2/2) 1937: 515.
Liana. Amazonian: riversides, seasonally inundated areas, forests. 0-1000 m.
Voucher: Gentry 43323 (MO!)
Depts.: HU, LO, MD

Iresine hassleriana var. *guaranoides* Suessenguth =Iresine hassleriana Chodat
Ref. FP 13(2/2) 1937: 515.

Iresine herbstii Lindley
Syn. *Achyranthes verschaffeltii* Lemaire, *Iresine verschaffeltii* Lemaire
Ref. FP 13(2/2) 1937: 516; Eliasson, 1987: 127.
Cultivated herb. Amazonian. 0-500 m.
Voucher: Klug 121 (F!)
Depts.: LO, SM

Iresine latifolia D. Dietrich =Pfaffia densipellita Borsch
Ref. FP 13(2/2) 1937: 507l.
Note: Name incorrectly cited in the Flora of Peru.

Iresine macbridei Standley
Ref. FP 13(2/2) 1937: 516.
Endemic herb. Andean II: forests. 1500-2500 m.
Voucher: Killip & Smith 24207* (F!)
Depts.: JU

Iresine paniculata (C. Martius) Sprengel =Pfaffia paniculata (C. Martius) Kuntze
Ref. FP 13(2/2) 1937: 491; Eliasson, 1987: 56.

Iresine paniculata (L.) Kuntze =Iresine diffusa var. diffusa
Ref. FP 13(2/2) 1937: 515; Eliasson, 1987: 122.

Iresine polymorpha C. Martius =Iresine diffusa var. diffusa
Ref. FP 13(2/2) 1937: 515.

Iresine spiculigera Seubert =Iresine diffusa var. spiculigera (Seubert) Eliasson
Ref. FP 13(2/2) 1937: 516; Eliasson, 1987: 124.

Iresine spiculigera var. *pauciglandulosa* Herzog =Iresine diffusa var. spiculigera (Seubert) Eliasson
Ref. FP 13(2/2) 1937: 516.

Iresine tenuis Suessenguth =Pfaffia paniculata (C. Martius) Kuntze
Ref. FP 13(2/2) 1937: 517; Eliasson, 1987: 56.

Iresine tenuis var. *discolor* Suessenguth =Pfaffia paniculata (C. Martius) Kuntze
Ref. FP 13(2/2) 1937: 517.

Iresine verschaffeltii Lemaire =Iresine herbstii Lindley
Ref. FP 13(2/2) 1937: 516; Eliasson, 1987: 127.

Iresine weberbaueri Suessenguth
Ref. FP 13(2/2) 1937: 517.
Endemic shrub. Andean I-II: riversides. 1000-2500 m.
Voucher: Weberbauer 7022* (MOL!), Hutchison *et al.* 6236 (MO!)
Depts.: AM, HU, LL

Kokera paniculata (L.) Kuntze =Chamissoa altissima var. altissima
Ref. FP 13(2/2) 1937: 481; Sohmer, 1977: 115; Eliasson, 1987: 15.

Melanocarpum sprucei Hooker f. =Pleuropetalum sprucei (Hooker f.) Standley
Ref. FP 13(2/2) 1937: 479; Eliasson, 1987: 7.

Mengea peruviana Schauer =Amaranthus peruvianus (Schauer) Standley
Ref. FP 13(2/2) 1937: 487.

Mogiphanes brasiliensis (Jacquin) C. Martius =Alternanthera brasiliana var. brasiliana
Ref. FP 13(2/2) 1937: 496.

Mogiphanes jacquini Schrader =Alternanthera brasiliana var. brasiliana
Ref. FP 13(2/2) 1937: 496; Mears, 1977: 12.

Mogiphanes paniculata Rusby =Alternanthera porrigens var. porrigens
Ref. FP 13(2/2) 1937: 503.

Mogiphanes ramosissima C. Martius =Alternanthera brasiliana var. villosa (Moquin) Kuntze
Ref. FP 13(2/2) 1937: 495; Mears, 1977: 13.

Mogiphanes soratensis Rusby =Alternanthera mexicana (Schlechtendal) Hieronymus
Ref. FP 13(2/2) 1937: 500.

Mogiphanes straminea C. Martius =Alternanthera brasiliana var. brasiliana
Ref. FP 13(2/2) 1937: 495; Mears, 1977: 12.

Oplotheca tomentosa C. Martius =Froelichia interrupta (L.) Moquin
Ref. FP 13(2/2) 1937: 489; Eliasson, 1987: 50.

Pfaffia densipellita Borsch
Syn. *Alternanthera pulverulenta* (C. Martius) Moquin, *Illecebrum pulverulentum* (C. Martius) Sprengel, *Iresine latifolia* D. Dietrich, *Trommsdorffia pulverulenta* C. Martius
Ref. FP 13(2/2) 1937: 507.
Endemic shrub.
Note: New name validated in Appendix 1.
Voucher: Haenke s.n. (M!)
Depts.: Without full locality data.

Pfaffia glauca Sprengel =Pfaffia stenophylla (Sprengel) Stuchlik
Ref. FP 13(2/2) 1937: 492.

Pfaffia grandiflora (Hooker) R. E. Fries
Syn. *Gossypianthus decipiens* (Hooker f.) Kuntze, *Hebanthe decipiens* Hooker f., *Iresine grandiflora* Hooker
Ref. FP 13(2/2) 1937: 490; Eliasson, 1987: 60.
Shrub. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Uling 4392 (MO!)
Depts.: AY, CU, JU, LO, PU, SM

Pfaffia holosericea (Moquin) Standley =Gomphrena holosericea (C. Martius) Moquin
Ref. FP 13(2/2) 1937: 491; Holzhammer, 1956: 219.

Pfaffia iresinoides (H.B.K.) Sprengel
Syn. *Alternanthera iresinoides* H.B.K.
Ref. Eliasson, 1987: 55.
Herb.
Note: No Peruvian specimens are cited by Eliasson (1987).

Pfaffia paniculata (C. Martius) Kuntze
Syn. *Gomphrena paniculata* (C. Martius) Moquin, *Hebanthe paniculata* C. Martius, *Iresine paniculata* (C. Martius) Sprengel, *Iresine tenuis* Suessenguth, *Iresine tenuis* var. *discolor* Suessenguth
Ref. FP 13(2/2) 1937: 491; Eliasson, 1987: 56.
Liana, shrub or subshrub. Amazonian, Andean I: disturbed areas, forests, riversides, seasonally inundated areas. 0-1500 m.
Voucher: Dillon *et al.* 7466* (F!), Schunke 9227 (MO!)
Depts.: AM, HU, LO, MD, PU, SM

Pfaffia stenophylla (Sprengel) Stuchlik
Syn. *Gomphrena glauca* (C. Martius) Moquin, *Gomphrena stenophylla* Sprengel, *Pfaffia glauca* Sprengel, *Sertuernera glauca* C. Martius
Ref. FP 13(2/2) 1937: 492; Holzhammer, 1956: 246, 248.
Herb. Amazonian. 0-500 m.
Voucher: Klug 1237 (F!)
Depts.: LO, SM

Pleuropetalum pleiogynum (Kuntze) Standley
Syn. *Celosia pleiogyna* Kuntze
Ref. Eliasson, 1987: 7.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Killip & Smith 23002 (F)
Depts.: AY

Pleuropetalum sprucei (Hooker f.) Standley
Syn. *Melanocarpum sprucei* Hooker f.
Ref. FP 13(2/2) 1937: 479; Eliasson, 1987: 8.
Shrub. Amazonian: forests. 0-500 m.
Note: No Peruvian specimens are cited by Eliasson (1987); *Killip & Smith 23002* cited by the Flora of Peru is redetermined as *P. pleiogynum* (Eliasson, 1987).
Depts.: AY, TU

Sertuernera glauca C. Martius =Pfaffia stenophylla (Sprengel) Stuchlik
Ref. FP 13(2/2) 1937: 492.

Telanthera andicola Moquin =Alternanthera lupulina H.B.K.
Ref. FP 13(2/2) 1937: 502.

Telanthera bangii Rusby =Alternanthera porrigens var. porrigens
Ref. FP 13(2/2) 1937: 503.

[*Xeraea decumbens* (Jacquin) Kuntze
=Gomphrena serrata L.]
Ref. FP 13(2/2) 1937: 510; Holzhammer, 1956: 201.
Note: Not known from Peru.

Xeraea haenkeana (C. Martius) Kuntze
=Gomphrena haenkeana C. Martius
Ref. FP 13(2/2) 1937: 513.

Xeraea umbellata (Remy) Kuntze
=Gomphrena umbellata Remy
Ref. FP 13(2/2) 1937: 513.

Amaryllidaceae

25 genera and 135 species in Peru.

Endemic genera (3): *Paramongaia, Pucara, Rauhia.*
Endemic species: 54.

Prepared by L. Brako; reviewed by R. E. Gereau (MO) & A. W. Meerow (FLAS).

Amaryllis amaru Vargas
Ref. Vargas, 1960: 6.
Note: Not reconfirmed. This species probably belongs in the genus *Hippeastrum*, but neither the species nor its type specimen is mentioned in Vargas, 1984 (Meerow, pers. comm.).

Amaryllis argentina (Pax) Ravenna
=Hippeastrum argentinum (Pax) Hunzikier
Ref. Vargas, 1984: 118; Gereau, pers. comm.

Amaryllis arvensis F. G. Dietrich
=Pyrolirion aureum Herbert
Ref. Traub & Moldenke, 1949: 150.

Amaryllis atamasco Blanco =Hippeastrum miniatum (R. & P.) Herbert
Ref. Vargas, 1984: 122.

Amaryllis aurea R. & P. =Pyrolirion aureum (R. & P.) Herbert
Ref. FP 13(1/3) 1936: 668.

Amaryllis belladonna L. =Hippeastrum puniceum (Lamarck) Kuntze
Ref. Vargas, 1984: 125; Meerow, 1990: 6.

Amaryllis bukasovii Vargas =Hippeastrum bukasovii Gereau & Brako
Ref. Gereau *et al.*, 1993: 28; Vargas, 1984: 127.

Amaryllis candida (Stapf) Traub & Uphof =Hippeastrum argentinum (Pax) Hunziker
Ref. Vargas, 1984: 118.

Amaryllis condemaita Vargas & F. Pérez
Ref. Vargas, 1984: 118.
Endemic herb. Andean II: grasslands. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Pérez 23474* (CUZ)
Depts.: CU

Amaryllis cuzcoensis Vargas =Hippeastrum cuzcoense (Vargas) Gereau & Brako
Ref. Gereau *et al.*, 1993: 28; Vargas, 1984: 132.

Amaryllis equestris Aiton =Hippeastrum puniceum (Lamarck) Kuntze
Ref. FP 13(1/3) 1936: 685; Meerow, 1990: 6.

Amaryllis ferreyrae Traub =Hippeastrum ferreyrae (Traub) Gereau & Brako
Ref. Gereau *et al.*, 1993: 28; Traub, 1950: 62; Vargas, 1984: 125.

Amaryllis flammea R. & P. =Zephyranthes tubiflora var. flammea (R. & P.) J. F. Macbride
Ref. FP 13(1/3) 1936: 668.

Amaryllis forgetii (Worsley) Traub & Uphof =Hippeastrum forgetii Worsley
Ref. Vargas, 1984: 128; Gereau, pers. comm.

Amaryllis fusca (Kraenzlin) Traub & Uphof =Hippeastrum fuscum Kraenzlin
Ref. Vargas, 1984: 129; Gereau, pers. comm.

Amaryllis hugoi Vargas =Hippeastrum hugoi (Vargas) Gereau & Brako
Ref. Gereau *et al.*, 1993: 28; Vargas, 1984: 126.

Amaryllis inmaculata Traub & Moldenke =Hippeastrum argentinum (Pax) Hunziker
Ref. Vargas, 1984: 118.

Amaryllis intiflora Vargas =Hippeastrum intiflorum (Vargas) Gereau & Brako
Ref. Gereau *et al.*, 1993: 28; Vargas, 1984: 128.

Amaryllis jagus Thompson =Crinum jagus (Thompson) Dandy

Amaryllis leonardii Vargas =Hippeastrum leonardii (Vargas) Gereau & Brako
Ref. Gereau *et al.*, 1993: 29; Vargas, 1984: 131.

Amaryllis leopoldii T. Moore =Hippeastrum leopoldii (T. Moore) Dombrain
Ref. FP 13(1/3) 1936: 684; Vargas, 1984: 130; Gereau, pers. comm.

Amaryllis macbridei Vargas =Hippeastrum macbridei (Vargas) Gereau & Brako
Ref. Gereau *et al.*, 1993: 29; Vargas, 1984: 130.

Amaryllis machupijchensis Vargas =Hippeastrum machupijchense (Vargas) D. Hunt
Ref. Vargas, 1984: 131.

Amaryllis miniata R. & P. =Hippeastrum miniatum (R. & P.) Herbert
Ref. FP 13(1/3) 1936: 685; Vargas, 1984: 122; Gereau, pers. comm.

Amaryllis oconequensis Traub =Hippeastrum oconequense (Traub) H. Moore
Ref. Vargas, 1984: 129; Gereau, pers. comm.

Amaryllis pardina Hooker f. =Hippeastrum pardinum (Hooker f.) Dombrain
Ref. FP 13(1/3) 1936: 685.

Amaryllis peruviana Ker Gawler =Zephyranthes tubiflora var. tubiflora
Ref. FP 13(1/3) 1936: 668.

Amaryllis punicea Lamarck =Hippeastrum puniceum (Lamarck) Kuntze
Ref. FP 13(1/3) 1936: 685; Vargas, 1984: 125; Meerow, 1990: 6.

Amaryllis reginae L. =Hippeastrum reginae (L.) Herbert
Ref. FP 13(1/3) 1936: 685; Vargas, 1984: 123; Gereau, pers. comm.

Amaryllis spectabilis Loddiges =Hippeastrum reginae (L.) Herbert
Ref. Vargas, 1984: 123.

Amaryllis traubii Moldenke fo. **doraniana** Moldenke
Ref. Moldenke, 1973: 29.
Endemic herb.
Note: Known from Peru only from the type locality.
Voucher: Doran s.n.* (TRA)
Depts.: SM

Amaryllis traubii fo. **traubii**
Syn. *Hippeastrum traubii* (Moldenke) H. Moore
Ref. Vargas, 1984: 126.
Endemic herb. Amazonian: disturbed areas. 0-500 m.
Voucher: Traub 205 (MO!)
Depts.: SM

Amaryllis tubiflora L'Héritier =Zephyranthes tubiflora var. tubiflora
Ref. FP 13(1/3) 1936: 668.

Amaryllis variegata Vargas =Hippeastrum variegatum (Vargas) Gereau & Brako
Ref. Gereau *et al.*, 1993: 29; Vargas, 1984: 133.

Amaryllis vittata L'Héritier =Hippeastrum vittatum (L'Héritier) Herbert
Ref. FP 13(1/3) 1936: 686.

Amaryllis vittata var. *tweediana* (Herbert) Traub =Hippeastrum ambiguum var. tweedianum Herbert
Ref. Vargas, 1984: 122; Gereau, pers. comm.

Caliphruria castelnaeana Baillon =Eucharis castelnaeana (Baillon) J. F. Macbride
Ref. FP 13(1/3) 1936: 674; Meerow, 1989: 201.

Caliphruria korsakoffii (Traub) Meerow
Syn. *Eucharis korsakoffii* Traub
Ref. Meerow, 1989: 217.
Endemic herb. Andean I: forests. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Traub 1060* (MO!)
Depts.: SM

Callipsyche eucrosioides Herbert =Eucrosia eucrosioides (Herbert) Pax
Ref. FP 13(1/3) 1936: 689; Meerow, 1987a: 485.

Callipsyche mexicana M. Roemer =Eucrosia eucrosioides (Herbert) Pax
Ref. FP 13(1/3) 1936: 689.

Coburgia trichroma (La Llave & Lexarza) Herbert =Stenomesson incarnatum (H.B.K.) Baker
Ref. FP 13(1/3) 1936: 682; Meerow, 1990: 28.

Coburgia variegata (R. & P.) Herbert =Stenomesson variegatum (R. & P.) J. F. Macbride
Ref. FP 13(1/3) 1936: 682.

Coburgia venusta Herbert =Stenomesson coccineum (R. & P.) Herbert
Ref. FP 13(1/3) 1936: 679.

Coburgia versicolor Herbert =Stenomesson incarnatum (H.B.K.) Baker
Ref. Meerow, pers. comm.

Cooperia albicans (Herbert) Sprague =Zephyranthes albicans (Herbert) Baker
Ref. FP 13(1/3) 1936: 669; Meerow, 1990: 5.

Crinum argentinum Pax =Hippeastrum argentinum (Pax) Hunziker
Ref. Vargas, 1984: 118.

Crinum erubescens Aiton
Herb. Amazonian, Coastal: riversides. 0-500 m.
Voucher: Soukup 1467 (F!)
Depts.: LI, LO, MD

Crinum forgetii C. H. Wright
Ref. Wright, 1925.
Endemic herb.
Voucher: Forget s.n.* (K)
Depts.: Without full locality data.

Crinum jagus (Thompson) Dandy
Syn. *Amaryllis jagus* Thompson
Cultivated herb. Amazonian: disturbed areas. 0-500 m.
Voucher: Croat 18775 (MO!)
Depts.: LO

Crinum scabrum Herbert
Introduced herb. Andean I. 1000-1500 m.
Voucher: Williams 7716A (F!)
Depts.: Without full locality data.

Crinum undulatum Hooker
Ref. FP 13(1/3) 1936: 670.
Herb. Amazonian: riversides. 0-500 m.
Voucher: Gentry *et al.* 29365 (MO!)
Depts.: LO

Crinum urceolatum R. & P. =Urceolina urceolata (R. & P.) Ascherson & Graebner
Ref. FP 13(1/3) 1936: 687.

Crocopsis fulgens Pax
Ref. FP 13(1/3) 1936: 669; Ravenna, 1971: 84.
Herb. Andean II-III: grasslands. 3000-4500 m.
Voucher: Herrera 3040 (F!)
Depts.: CU, PU

Distrepta vaginata Miers
Syn. *Tecophilaea violiflora* Bertero ex Colla
Ref. FP 13(1/3) 1936: 665.
Herb. Coastal: cloud forests, lomas. 0-500 m.
Voucher: Ferreyra 9586 (USM!), Esposto s.n. (MOL!)
Depts.: LI

Elisena longipetala Lindley =Ismene (Lindley) Meerow
Ref. FP 13(1/3) 1936: 673; Meerow, 1990: 26.

Elisena ringens (R. & P.) Herbert =Ismene ringens (R. & P.) Gereau & Meerow
Ref. FP 13(1/3) 1936: 673; Gereau *et al.*, 1993: 29.

Elisena sublimis Herbert =Ismene sublimis (Herbert) Gereau & Meerow
Ref. FP 13(1/3) 1936: 673; Gereau *et al.*, 1993: 29.

Eucharis amazonica Linden ex Planchon
Ref. FP 13(1/3) 1936: 674; Meerow, 1989: 211.
Endemic herb. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Schunke 14057 (F!)
Depts.: HU, SM

Eucharis bakeriana N. E. Brown
Ref. FP 13(1/3) 1936: 674; Meerow, 1989: 179.
Herb. Andean I: riversides. 500-1000 m.
Note: The type is cultivated material reportedly from Colombia, but all field reports are from Peru.
Voucher: Gentry *et al.* 37852 (MO!)
Depts.: LO, SM

Eucharis candida Planchon & Linden
Ref. Meerow, 1989: 172; Meerow, 1990: 16.
Herb. Amazonian: forests. 0-500 m.
Voucher: Huashikat 164 (MO!)
Depts.: AM, LO

Eucharis castelnaeana (Baillon) J. F. Macbride
Syn. *Caliphruria castelnaeana* Baillon, *Eucharis narcissiflora* Huber, *Urceolina castelnaeana* (Baillon) Traub
Ref. FP 13(1/3) 1936: 674; Meerow, 1989: 201.
Herb. Amazonian: forests, riversides. 0-500 m.
Voucher: Castelnau s.n.* (P), Schunke 14156 (MO!)
Depts.: AM, LO

Eucharis corynandra (Ravenna) Ravenna
Syn. *Urceolina corynandra* Ravenna
Ref. Meerow, 1989: 196.
Endemic herb. Amazonian: forests.
Note: Known from Peru only from the type locality.
Voucher: Ravenna 2090* (MO!)
Depts.: CA

Eucharis cyaneosperma Meerow
Ref. Meerow, 1987c: 39.
Herb. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Meerow *et al.* 1032* (FLAS), Woytkowski 5830 (MO!)
Depts.: CU, JU, LO, MD, SM, UC

Eucharis formosa Meerow
Ref. Meerow, 1987c: 42; Meerow, 1990: 19.
Herb or shrub. Amazonian, Andean I: riversides, shrublands. 0-1000 m.
Voucher: Kayap 597 (MO!)
Depts.: AM, LO, SM

[Eucharis galanthoides Planchon & Linden]
Ref. FP 13(1/3) 1936: 674; Meerow, 1989: 212.
Note: Not known from Peru. Meerow (1989) considers this a doubtful name, wrongly assumed to be based on *Mathieua galanthoides* Klotzch.

[Eucharis grandiflora Planchon & Linden]
Ref. FP 13(1/3) 1936: 674; Meerow, 1989: 204; Meerow, 1990: 12.
Note: Not known from Peru. In the Flora of Peru this species is confused with *E. amazonica*.

Eucharis grandiflora var. *moorei* Baker =Eucharis moorei (Baker) Meerow
Ref. Meerow, 1989: 209; Meerow, 1990: 13.

Eucharis ipariensis (Ravenna) Ravenna =Eucharis ulei Kraenzlin
Ref. Meerow, 1989: 192.

Eucharis korsakoffii Traub =Caliphruria korsakoffii (Traub) Meerow
Ref. Meerow, 1989: 217.

Eucharis moorei (Baker) Meerow
Syn. *Eucharis grandiflora* var. *moorei* Baker
Ref. Meerow, 1989: 209; Meerow, 1990: 13.
Herb. Amazonian, Andean I-II: forests. 0-2500 m.
Voucher: Weberbauer 6251 (US)
Depts.: CA

Eucharis narcissiflora Huber =Eucharis castelnaeana (Baillon) J. F. Macbride
Ref. FP 13(1/3) 1936: 675; Meerow, 1989: 201.

Eucharis oxyandra (Ravenna) Ravenna
Syn. *Urceolina oxyandra* Ravenna
Ref. Ravenna, 1985: 95.
Cultivated herb. Andean II: disturbed areas. 1500-2000 m.
Voucher: Hutchison *et al.* 5983* (USM), Hutchison *et al.* 5984 (MO!)
Depts.: HU

Eucharis plicata Meerow subsp. **brevidentata** Meerow
Ref. Meerow, 1989: 200.
Herb. Amazonian: forests. 0-500 m.
Voucher: Ancuash 1024 (MO!)
Depts.: AM

Eucharis plicata subsp. **plicata**
Ref. Meerow, 1989: 199.
Endemic herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Plowman *et al.* 11394* (F!), Schunke 8046 (MO!)
Depts.: SM

Eucharis ulei Kraenzlin
Syn. *Eucharis ipariensis* (Ravenna) Ravenna, *Urceolina ipariensis* Ravenna
Ref. FP 13(1/3) 1936: 675; Meerow, 1989: 192.
Herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Croat 20521 (MO!)
Depts.: AM, LO, SM, UC

Eucrosia bicolor Ker Gawler var. **plowmanii** Meerow
Ref. Meerow, 1987a: 481.
Endemic herb. Coastal: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Plowman 5412* (F!)
Depts.: TU

Eucrosia eucrosioides (Herbert) Pax
Syn. *Callipsyche eucrosioides* Herbert, *Callipsyche mexicana* M. Roemer
Ref. FP 13(1/3) 1936: 689; Meerow, 1987a: 485; Meerow, 1990: 47.
Cultivated herb. Andean I, Coastal: riversides. 0-1000 m.
Voucher: Hutchison & Wright 6667 (MO!)
Depts.: CA, LA, PI, TU

Eucrosia mirabilis (Baker) Pax
Syn. *Callipsyche mirabilis* Baker
Ref. Meerow, 1987a: 484.
Cultivated herb.
Note: Described from cultivated material collected in Peru without locality data and never since recollected in the wild from Peru.
Voucher: ex hort Sander s.n.* (K)
Depts.: Without full locality data.

Eucrosia peruviana Ravenna =Stenomesson campanulatum Meerow
Ref. Meerow, 1987b: 305.

Eucrosia tubiflora Meerow
Ref. Meerow, 1987a: 490.
Endemic herb. Andean I: shrublands. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Hutchison & Wright 6738* (MO!)
Depts.: CA

Eustephia armifera J. F. Macbride
Ref. FP 13(1/3) 1936: 689; Vargas, 1976: 401.
Endemic herb. Andean II: grasslands. 3000-3500 m.
Voucher: Weberbauer 7806* (CUZ), Vargas 6861 (CUZ)
Depts.: CU, PU

Eustephia coccinea Cavanilles
Syn. *Eustephia coccinea* var. *multiflora* Vargas, *Eustephia macleanica* Herbert
Ref. FP 13(1/3) 1936: 690; Vargas, 1976: 400.
Cultivated herb. Andean II-III: grasslands, rocky slopes. 2000-4000 m.
Voucher: Schunke & Edwin 3901 (F!)
Depts.: AP, CU, HU, JU, PA, PU

Eustephia coccinea var. *multiflora* Vargas =Eustephia coccinea Cavanilles
Ref. Vargas, 1944: 215.

Eustephia darwinii Vargas
Ref. Vargas, 1976: 403.
Endemic herb.
Note: Known from Peru only from the type locality.
Voucher: Vargas 22386* (CUZ)
Depts.: CU

Eustephia hugoei Vargas
Ref. Vargas, 1976: 405.
Endemic herb.
Voucher: Vargas 22650* (CUZ)
Depts.: AP, JU, PA

Eustephia kawidei Vargas
Ref. Vargas, 1975: 28; Meerow, pers. comm.
Herb. Andean III. 3500-4000 m.
Voucher: Vargas 22386* (CUZ)
Depts.: CU

Eustephia longibracteata Vargas
Ref. Vargas, 1954: 152.
Herb. Andean II. 3000-3500 m.
Voucher: Macbride 1177 (F!)
Depts.: HU

Eustephia macleanica Herbert =Eustephia coccinea Cavanilles
Ref. FP 13(1/3) 1936: 690.

Furcraea
Note: Spelled *Fourcroya* in the Flora of Peru.

Furcraea andina Trelease
Syn. *Furcraea deledevantii* Rivière
Ref. FP 13(1/3) 1936: 666.
Endemic herb. Andean II: grasslands. 1500-3500 m.
Voucher: Furlong s.n.*, Núñez 7401 (MO!)
Depts.: AN, CU, HU, JU, LI, LL

Furcraea deledevantii Rivière =Furcraea andina Trelease
Ref. FP 13(1/3) 1936: 666.

Furcraea occidentalis Trelease
Ref. FP 13(1/3) 1936: 666.
Endemic herb. Andean I-II: rocky slopes. 500-2500 m.
Voucher: Weberbauer 1687*, Ferreyra 6911 (USM!)
Depts.: AN, HU, LI, LO

Hippeastrum ambiguum Hooker var. **tweedianum** Herbert
Syn. *Amaryllis vittata* var. *tweediana* (Herbert) Traub
Ref. Gereau, pers. comm.
Cultivated herb. Andean II: disturbed areas. 2500-3000 m.
Voucher: Doran s.n. (CUZ)
Depts.: AM

Hippeastrum argentinum (Pax) Hunziker
Syn. *Amaryllis argentina* (Pax) Ravenna, *Amaryllis candida* (Stapf) Traub & Uphof, *Amaryllis immaculata* Traub & Moldenke, *Crinum argentinum* Pax, *Hippeastrum tucumanum* Holmberg
Ref. Gereau, pers. comm.
Herb. Andean I. 1000-1500 m.
Voucher: Vargas 4802 (CUZ)
Depts.: JU

Hippeastrum bukasovii (Vargas) Gereau & Brako
Syn. *Amaryllis bukasovii* Vargas
Ref. Gereau *et al.*, 1993: 28; Vargas, 1984: 127.
Herb. Andean I-II. 1000-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Vargas 21882* (CUZ)
Depts.: PU

Hippeastrum cuzcoense (Vargas) Gereau & Brako
Ref. Gereau *et al.*, 1993: 28; Vargas, 1984: 132.
Endemic herb. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Vargas 22395* (USM!)
Depts.: CU

Hippeastrum equestre (Aiton) Herbert =Hippeastrum puniceum (Lamarck) Kuntze
Ref. FP 13(1/3) 1936: 685; Vargas, 1984: 125; Meerow, 1990: 6.

Hippeastrum ferreyrae (Traub) Gereau & Brako
Syn *Amaryllis ferreyrae* Traub
Ref. Gereau *et al.*, 1993: 28; Traub, 1950: 62; Vargas, 1984: 125.
Endemic herb. Amazonian: terra firme forests. 0-500 m.
Voucher: Ferreyra 4997* (MO!, USM!), Traub s.n. (MO!)
Depts.: LO, SM

Hippeastrum forgetii Worsley
Syn. *Amaryllis forgetii* (Worsley) Traub & Uphof
Ref. FP 13(1/3) 1936: 684; Vargas, 1984: 128; Gereau, pers. comm.
Endemic herb.
Voucher: Forget s.n.*, Vargas 1245 (CUZ)
Depts.: AP, CU

Hippeastrum fuscum Kraenzlin
Syn. *Amaryllis fusca* (Kraenzlin) Traub & Uphof
Ref. FP 13(1/3) 1936: 684; Gereau, pers. comm.
Endemic herb. Andean II: disturbed areas, grasslands. 2000-2500 m.
Voucher: Weberbauer 1056A* (B photo F!), Vargas 17512 (USM!)
Depts.: PU

Hippeastrum hugoi (Vargas) Gereau & Brako
Syn. *Amaryllis hugoi* Vargas
Ref. Gereau *et al.*, 1993: 28; Vargas, 1984: 126.
Endemic herb. Andean II: disturbed areas. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Vargas 22651* (CUZ)
Depts.: LL

Hippeastrum intiflorum (Vargas) Gereau & Brako
Syn. *Amaryllis intiflora* Vargas
Ref. Gereau *et al.*, 1993: 28; Vargas, 1984: 128.
Cultivated herb.
Note: Known from Peru only from the type locality.
Voucher: Vargas 12985* (CUZ)
Depts.: CU

Hippeastrum leonardii (Vargas) Gereau & Brako
Syn. *Amaryllis leonardii* Vargas
Ref. Gereau *et al.*, 1993: 29; Vargas, 1984: 131.
Endemic herb.
Note: Known from Peru only from the type locality.
Voucher: Vargas 21654* (CUZ)
Depts.: PU

Hippeastrum leopoldii (T. Moore) Dombrain
Syn. *Amaryllis leopoldii* T. Moore
Ref. FP 13(1/3) 1936: 684; Vargas, 1984: 130; Gereau, pers. comm.
Herb. Andean II: forests. 1500-2000 m.
Voucher: Vargas 22401 (CUZ)
Depts.: PU

Hippeastrum macbridei (Vargas) Gereau & Brako
Syn. *Amaryllis macbridei* Vargas
Ref. Gereau *et al.*, 1993: 29; Vargas, 1984: 130.
Endemic herb. Andean II. 2500-3000 m.
Voucher: Vargas 16422* (USM!)
Depts.: CU, PU

Hippeastrum machupijchense (Vargas) D. Hunt
Syn. *Amaryllis machupijchensis* Vargas
Ref. Vargas, 1984: 131.
Endemic herb. Andean I-II: disturbed areas, forests. 1000-2500 m.
Voucher: Vargas 17652* (USM!), Vargas 22272 (CUZ)
Depts.: CU

Hippeastrum miniatum (R. & P.) Herbert
Syn. *Amaryllis atamasco* Blanco, *Amaryllis miniata* R. & P.
Ref. FP 13(1/3) 1936: 685; Vargas, 1984: 122; Gereau, pers. comm.
Cultivated herb. Andean I-III: grasslands. 1000-4000 m.
Voucher: Vargas 2981 (CUZ), Hutchison & Wright 3835 (USM!)
Depts.: AM, AP, CU, PU

Hippeastrum oconequense (Traub) H. Moore
Syn. *Amaryllis oconequensis* Traub
Ref. Gereau, pers. comm.
Note: Not reconfirmed. Only known from illustrations published by Traub.

Hippeastrum pardinum (Hooker f.) Dombrain
Syn. *Amaryllis pardina* Hooker f.
Ref. FP 13(1/3) 1936: 685.
Note: Not reconfirmed.

Hippeastrum puniceum (Lamarck) Kuntze
Syn. *Amaryllis belladonna* L., *Amaryllis equestris* Aiton, *Amaryllis punicea* Lamarck, *Hippeastrum equestre* (Aiton) Herbert
Ref. FP 13(1/3) 1936: 685; Vargas, 1984: 125; Meerow, 1990: 6.
Herb.
Voucher: Ferreyra s.n. (USM!), Vargas 2167 (CUZ)
Depts.: CU, HU, JU, LO, MD, PU

Hippeastrum reginae (L.) Herbert
Syn. *Amaryllis reginae* L., *Amaryllis spectabilis* Loddiges, *Hippeastrum stenopetalum* A. Dietrich ex Koch
Ref. FP 13(1/3) 1936: 685; Gereau, pers. comm.
Herb. Andean II: disturbed areas. 1000-3000 m.
Voucher: Vargas 22797 (CUZ)
Depts.: CU, JU, PU

Hippeastrum solandriflorum Herbert
Ref. FP 13(1/3) 1936: 686.
Note: Not reconfirmed.

Hippeastrum stenopetalum A. Dietrich ex Koch =Hippeastrum reginae (L.) Herbert
Ref. FP 13(1/3) 1936: 685.

Hippeastrum traubii (Moldenke) H. Moore =Amaryllis traubii fo. traubii

Hippeastrum tucumanum Holmberg =Hippeastrum argentinum (Pax) Hunziker
Ref. Vargas, 1984: 118.

Hippeastrum variegatum (Vargas) Gereau & Brako
Syn. *Amaryllis variegata* Vargas
Ref. Gereau *et al.*, 1993: 29; Vargas, 1984: 133.
Endemic herb. Andean II: disturbed areas. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Vargas 16423* (CUZ)
Depts.: PU

Hippeastrum vittatum (L'Héritier) Herbert
Syn. *Amaryllis vittata* L'Héritier
Ref. FP 13(1/3) 1936: 686.
Cultivated herb. Coastal. 0-500 m.
Voucher: Gutiérrez 35 (USM!)
Depts.: LI

Hymenocallis amancaes (R. & P.) Nicholson =Ismene amancaes (R. & P.) Herbert
Ref. FP 13(1/3) 1936: 671; Meerow, 1990: 24.

Hymenocallis andreana (Baker) Nicholson =Leptochiton quitoensis (Herbert) Sealy
Ref. Meerow, 1990: 23.

Hymenocallis calathina (Herbert) Nicholson =Ismene narcissiflora (Jacquin) M. Roemer
Ref. FP 13(1/3) 1936: 672; Gereau, pers. comm.

Hymenocallis deflexa (Herbert) Baker =Ismene deflexa Herbert
Ref. FP 13(1/3) 1936: 671; Gereau, pers. comm.

Hymenocallis hawkesii Vargas =Ismene hawkesii (Vargas) Gereau & Meerow
Ref. Gereau *et al.*, 1993: 29; Vargas, 1975: 28.

Hymenocallis heliantha Ravenna =Leptochiton helianthus (Ravenna) Gereau & Meerow
Ref. Gereau *et al.*, 1993: 29; Ravenna, 1980: 97.

Hymenocallis incaica Ravenna
Ref. Ravenna, 1986: 463.
Endemic herb. Andean I: forests, shrublands. 500-1500 m.
Voucher: Ravenna 2880* (Hb. Ravenna, USM)
Depts.: CU, HV

Hymenocallis limaensis Traub
Ref. Traub, 1967: 66.
Endemic herb. Coastal. 0-500 m.
Voucher: Rose & Rose 18634* (US)
Depts.: LI

Hymenocallis littoralis (Jacquin) Salisbury
Ref. FP 13(1/3) 1936: 670.
Syn. *Pancratium littorale* Jacquin
Herb. Amazonian: grasslands. 0-500 m.
Voucher: Williams 4090 (F!)
Depts.: LO, SM

Hymenocallis longipetala (Lindley) J. F. Macbride =Ismene longipetala (Lindley) Meerow
Ref. FP 13(1/3) 1936: 671; Meerow, 1990: 26.

Hymenocallis macleana (Herbert) Nicholson =Ismene pedunculata Herbert
Ref. FP 13(1/3) 1936: 672.

Hymenocallis morrisonii (Vargas) Traub =Ismene morrisonii (Vargas) Gereau & Meerow
Ref. Gereau *et al.*, 1993: 29.

Hymenocallis narcissiflora (Jacquin) J. F. Macbride =Ismene narcissiflora (Jacquin) M. Roemer
Ref. FP 13(1/3) 1936: 672; Gereau, pers. comm.

Hymenocallis nutans (Herbert) Baker =Ismene nutans Herbert
Ref. FP 13(1/3) 1936: 672; Gereau, pers. comm.

Hymenocallis pedalis Herbert
Herb. Riversides. 0-500 m.
Voucher: Dodson & Torres 2964 (MO!)
Depts.: Without full locality data.

Hymenocallis pedunculata (Herbert) J. F. Macbride =Ismene pedunculata Herbert
Ref. FP 13(1/3) 1936: 672; Gereau, pers. comm.

Hymenocallis quitoensis Herbert =Leptochiton quitoensis (Herbert) Sealy
Ref. FP 13(1/3) 1936: 672; Meerow, 1990: 23.

Hymenocallis ringens (R. & P.) J. F. Macbride =Ismene ringens (R. & P.) Gereau & Meerow
Ref. FP 13(1/3) 1936: 673; Gereau *et al.*, 1993: 29.

Hymenocallis sublimis (Herbert) J. F. Macbride =Ismene sublimis (Herbert) Gereau & Meerow
Ref. FP 13(1/3) 1936: 673; Gereau *et al.*, 1993: 29.

Hymenocallis tenuifolia (Baker) Nicholson =Leptochiton quitoensis (Herbert) Sealy
Ref. Meerow, 1990: 23.

Hymenocallis velardei Traub =Ismene longipetala (Lindley) Meerow
Ref. Meerow, 1990: 26; Traub, 1963: 49.

Hymenocallis venezuelensis Traub
Cultivated herb.
Voucher: Winters & Clark 1332 (US)
Depts.: TU

Ismene amancaes (R. & P.) Herbert
Syn. *Hymenocallis amancaes* (R. & P.) Nicholson, *Narcissus amancaes* R. & P., *Pancratium amancaes* (R. & P.) Ker Gawler
Ref. FP 13(1/3) 1936: 671; Meerow, 1990: 24.
Endemic herb. Andean I-II, Coastal: disturbed areas, grasslands, lomas. 0-3000 m.
Voucher: Hutchison & Wright 5879 (MO!)
Depts.: AP, CA, LI

Ismene andreana Baker =Leptochiton quitoensis (Herbert) Sealy
Ref. Meerow, 1990: 23.

Ismene calathina Herbert =Ismene narcissiflora (Jacquin) M. Roemer
Ref. FP 13(1/3) 1936: 672.
Note: Herbert based his combination on the illegitimate later homonym *Pancratium calathinum* Ker Gawler (1817 non 1813); *I. calathina* is therefore treated here as a nomen novum ascribed solely to Herbert (Gereau, pers. comm.).

Ismene deflexa Herbert
Syn. *Hymenocallis deflexa* (Herbert) Baker
Ref. FP 13(1/3) 1936: 671; Gereau, pers. comm.
Note: A hybrid cross between *H. narcissiflora* and *H. longipetala*.

Ismene hawkesii (Vargas) Gereau & Meerow
Syn. *Hymenocallis hawkesii* Vargas
Ref. Gereau *et al.*, 1993: 29; Vargas, 1975: 28.
Endemic herb. Andean II: disturbed areas. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Vargas 16995* (CUZ)
Depts.: CU

Ismene longipetala (Lindley) Meerow
Syn. *Elisena longipetala* Lindley, *Hymenocallis longipetala* (Lindley) J. F. Macbride
Ref. Meerow, 1990: 26.
Cultivated herb. Andean II: grasslands. 2000-3500 m.
Voucher: Dillon & Turner 1550 (MO!)
Depts.: CA, CU, LI, LL

Ismene macleana Herbert =Ismene pedunculata Herbert
Ref. FP 13(1/3) 1936: 672.

Ismene morrisonii (Vargas) Gereau & Meerow
Syn. *Hymenocallis morrisonii* (Vargas) Traub, *Stenomesson morrisonii* Vargas
Ref. Gereau *et al.*, 1993: 29; Vargas, 1943b: 132.
Endemic herb. Andean II. 2000-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Vargas 2291* (CUZ, MO!)
Depts.: AP

Ismene narcissiflora (Jacquin) M. Roemer
Syn. *Hymenocallis calathina* (Herbert) Nicholson, *Hymenocallis narcissiflora* (Jacquin) J. F. Macbride, *Ismene calathina* Herbert, *Pancratium calathiforme* Redoute, *Pancratium calathinum* Ker Gawler, nom. illeg., *Pancratium narcissiflorum* Jacquin
Ref. Gereau, pers. comm.
Herb. Andean II. 2500-3000 m.
Voucher: Gentry *et al.* 44103 (MO!)
Depts.: AP, CU

Ismene nutans Herbert
Syn. *Hymenocallis nutans* (Herbert) Baker, *Pancratium calathinum* Ker Gawler
Ref. FP 13(1/3) 1936: 672; Gereau, pers. comm.
Herb. Andean II: grasslands. 2500-3000 m.
Voucher: Herrera 3384 (F!)
Depts.: CU

Ismene pedunculata Herbert
Syn. *Hymenocallis macleana* (Herbert) Nicholson, *Hymenocallis pedunculata* (Herbert) J. F. Macbride, *Ismene macleana* Herbert, *Ismene virescens* Lindley
Ref. FP 13(1/3) 1936: 672; Gereau, pers. comm.
Note: Not reconfirmed.

Ismene ringens (R. & P.) Gereau & Meerow
Syn. *Elisena ringens* (R. & P.) Herbert, *Hymenocallis ringens* (R. & P.) J. F. Macbride, *Liriope ringens* (R. & P.) Herbert, *Pancratium ringens* R. & P.
Ref. FP 13(1/3) 1936: 673; Gereau *et al.*, 1993: 29.
Note: Not reconfirmed.

Ismene sublimis (Herbert) Gereau & Meerow
Syn. *Elisena sublimis* Herbert, *Hymenocallis sublimis* (Herbert) J. F. Macbride
Ref. FP 13(1/3) 1936: 673; Gereau *et al.*, 1993: 29.
Voucher: Maclean s.n.* (K)
Depts.: LL

Ismene tenuifolia Baker =Leptochiton quitoensis (Herbert) Sealy
Ref. FP 13(1/3) 1936: 672; Meerow, 1990: 23.

Ismene vargasii (Velarde) Gereau & Meerow
Syn. *Pseudostenomesson vargasii* Velarde
Note: New combination made in Appendix 1.

Ismene virescens Lindley =Ismene pedunculata Herbert
Ref. FP 13(1/3) 1936: 672.

Leperiza latifolia (R. & P.) Herbert =Urceolina valida Ravenna
Ref. Ravenna, 1985: 96.

Leptochiton helianthus (Ravenna) Gereau & Meerow
Syn. *Hymenocallis heliantha* Ravenna
Ref. Gereau *et al.*, 1993: 29; Ravenna, 1980: 97.
Endemic herb. Grasslands.
Note: Known from Peru only from the type locality.
Voucher: Sánchez s.n.* (Hb. Ravenna)
Depts.: CA

Leptochiton quitoensis (Herbert) Sealy
Syn. *Hymenocallis andreana* (Baker) Nicholson, *Hymenocallis quitoensis* Herbert, *Hymenocallis tenuifolia* (Baker) Nicholson, *Ismene andreana* Baker, *Ismene tenuifolia* Baker, *Pamianthe quitoensis* (Herbert) Stapf
Ref. Meerow, 1990: 23.
Herb. Coastal: grasslands. 0-500 m.
Note: Listed in Meerow (1990) as *"Lepidochiton."*
Voucher: Plowman 5411 (F)
Depts.: TU

Liriope ringens (R. & P.) Herbert =Ismene ringens (R. & P.) Gereau & Meerow
Ref. FP 13(1/3) 1936: 673; Gereau *et al.*, 1993: 29.

Mathieua galanthoides Klotzsch
Ref. FP 13(1/3) 1936: 674; Meerow, 1989: 212.
Note: Not reconfirmed.

Narcissus amancaes R. & P. =Ismene amancaes (R. & P.) Herbert
Ref. FP 13(1/3) 1936: 671; Meerow, 1990: 24.

Pamianthe peruviana Stapf
Ref. Stapf, 1933: 106.
Herb or epiphytic herb. Andean II. 1500-2000 m.
Note: Not reconfirmed. Described from material collected in Peru by Major Pam.
Depts.: Without full locality data.

Pamianthe quitoensis (Herbert) Stapf =Leptochiton quitoensis (Herbert) Sealy
Ref. FP 13(1/3) 1936: 672; Meerow, 1990: 23.

Pancratium amancaes (R. & P.) Ker Gawler =Ismene amancaes (R. & P.) Herbert
Ref. FP 13(1/3) 1936: 671; Meerow, 1990: 24.

Pancratium aurantiacum H.B.K. =Stenomesson aurantiacum (H.B.K.) Herbert
Ref. FP 13(1/3) 1936: 678; Ravenna, 1971: 83; Meerow, 1990: 30.

Pancratium calathiforme Redoute =Ismene narcissiflora (Jacquin) M. Roemer
Ref. FP 13(1/3) 1936: 672; Gereau, pers. comm.

Pancratium calathinum Ker Gawler =Ismene nutans Herbert
Ref. FP 13(1/3) 1936: 672.

Pancratium calathinum Ker Gawler, nom. illeg. =Ismene narcissiflora (Jacquin) M. Roemer
Ref. FP 13(1/3) 1936: 672; Gereau, pers. comm.
Note: All later combinations were based on this illegitimate homonym.

Pancratium coccineum R. & P. =Stenomesson coccineum (R. & P.) Herbert
Ref. FP 13(1/3) 1936: 679.

Pancratium croceum Savigny =Stenomesson croceum (Savigny) Herbert
Ref. FP 13(1/3) 1936: 679.

Pancratium flavum R. & P. =Stenomesson flavum (R. & P.) Herbert
Ref. FP 13(1/3) 1936: 679; Ravenna, 1971: 81.

Pancratium incarnatum H.B.K. =Stenomesson incarnatum (H.B.K.) Baker
Ref. FP 13(1/3) 1936: 682; Meerow, 1990: 28.

Pancratium latifolium R. & P. nom. illeg., non Miller =Urceolina valida Ravenna
Ref. FP 13(1/3) 1936: 687; Ravenna, 1985: 96.

Pancratium littorale Jacquin =Hymenocallis littoralis (Jacquin) Salisbury

Pancratium narcissiflorum Jacquin =Ismene narcissiflora (Jacquin) M. Roemer
Ref. FP 13(1/3) 1936: 672; Gereau, pers. comm.

Pancratium recurvatum R. & P. =Stenomesson recurvatum (R. & P.) Baker
Ref. FP 13(1/3) 1936: 682.

Pancratium ringens R. & P. =Ismene ringens (R. & P.) Gereau & Meerow
Ref. FP 13(1/3) 1936: 673; Gereau *et al.*, 1993: 29.

Pancratium trichromum Llave & Lexarza =Stenomesson incarnatum (H.B.K.) Baker
Ref. Meerow, 1990: 28.

Pancratium variegatum R. & P. =Stenomesson variegatum (R. & P.) J. F. Macbride
Ref. FP 13(1/3) 1936: 682.

Pancratium viridiflorum R. & P. =Stenomesson viridiflorum (R. & P.) Bentham & Hooker f.
Ref. FP 13(1/3) 1936: 683.

Paramongaia weberbaueri Velarde
Ref. Velarde, 1949: 491.
Endemic herb. Coastal: lomas. 0-500 m.
Voucher: Velarde 500* (Hb. Velarde)
Depts.: AN

Pentlandia miniata Herbert =Stenomesson miniatum (Herbert) Ravenna
Ref. FP 13(1/3) 1936: 687; Ravenna, 1978: 69.

Pentlandia miniata var. *lacunosa* Herbert =Stenomesson miniatum (Herbert) Ravenna
Ref. FP 13(1/3) 1936: 687; Ravenna, 1978: 69.

Pentlandia miniata var. *sulivanica* Herbert =Stenomesson miniatum (Herbert) Ravenna
Ref. FP 13(1/3) 1936: 687; Ravenna, 1978: 69.

Phaedranassa carmiolii Baker
Ref. FP 13(1/3) 1936: 688.
Note: Not reconfirmed.

Phaedranassa megistophylla Kraenzlin =Rauhia multiflora (Kunth) Ravenna
Ref. FP 13(1/3) 1936: 688; Ravenna, 1969a: 61.

Phaedranassa multiflora Kunth =Rauhia multiflora (Kunth) Ravenna
Ref. Ravenna, 1969a: 61.

Phaedranassa viridiflora Baker
Ref. FP 13(1/3) 1936: 689.
Note: Not reconfirmed.

Phaedranassa vitellina Roezl ex Wallace =Stenomesson aurantiacum H.B.K.
Ref. Meerow, pers. comm.

Polianthes tuberosa L.
Herb. Amazonian, Andean I-II: forests. 0-3000 m.
Voucher: Vargas 9755 (F!)
Depts.: CU, LO, SM

Pseudostenomesson vargasii Velarde =Ismene vargasii (Velarde) Gereau & Meerow

Pseudourceolina robledoana Vargas =Urceolina robledoana (Vargas) Traub
Ref. Vargas, 1960: 7.

Pucara leucantha Ravenna
Ref. Ravenna, 1972: 86.
Endemic herb. Andean I-II: rocky slopes. 500-2000 m.
Voucher: Sagástegui 5850 (HUT)
Depts.: AM, CA

Pyrolirion albicans Herbert =Zephyranthes albicans (Herbert) Baker
Ref. FP 13(1/3) 1936: 669; Meerow, 1990: 5.

Pyrolirion aureum (R. & P.) Herbert
Syn. *Amaryllis aurea* R. & P., *Zephyranthes aurea* (R. & P.) Baker
Ref. FP 13(1/3) 1936: 668; Meerow, pers. comm.
Note: Not reconfirmed.

Pyrolirion flammeum Herbert
Ref. Meerow, pers. comm.
Note: Not reconfirmed. Possibly synonymous with *Zephyranthes tubiflora* var. *tubiflora*.

Pyrolirion flavum Herbert =Zephyranthes flava (Herbert) Baker
Ref. FP 13(1/3) 1936: 667.

Rauhia decora Ravenna
Ref. Ravenna, 1981: 77.
Endemic herb. Andean I. 500-1000 m.
Voucher: Ravenna 3060* (K)
Depts.: AM

Rauhia megistophylla (Kraenzlin) Traub =Rauhia multiflora (Kunth) Ravenna
Ref. Ravenna, 1969a: 61.

Rauhia multiflora (Kunth) Ravenna
Syn. *Callithauma spathulatum* Herbert, *Phaedranassa megistophylla* Kraenzlin, *Phaedranassa multiflora* Kunth, *Rauhia megistophylla* (Kraenzlin) Traub, *Rauhia peruviana* Traub
Ref. Ravenna, 1969a: 61.
Endemic herb. Andean I: rocky slopes. 500-1500 m.
Voucher: Rauh 535A (MO!)
Depts.: CA

Rauhia peruviana Traub =Rauhia multiflora (Kunth) Ravenna
Ref. Ravenna, 1969a: 61.

Rauhia straminosa Ravenna
Ref. Ravenna, 1978: 78.
Endemic herb. Amazonian. 0-500 m.
Voucher: Ravenna 2091* (Hb. Ravenna), Barbour 4234 (USM!)
Depts.: AM

Sphaerotele coccinea Link *et al.* =Stenomesson miniatum (Herbert) Ravenna
Ref. FP 13(1/3) 1936: 687; Ravenna, 1978: 69.

Sphaerotele peruviana C. Presl =Stenomesson miniatum (Herbert) Ravenna
Ref. FP 13(1/3) 1936: 687; Ravenna, 1978: 69.

Stenomesson acaule Kraenzlin =Stenomesson humile (Herbert) Baker
Ref. FP 13(1/3) 1936: 680.

Stenomesson aurantiacum (H.B.K.) Herbert
Syn. *Pancratium aurantiacum* H.B.K., *Phaedranassa vitellina* Roezl ex Wallace, *Stenomesson hartwegii* Lindley, *Stenomesson suspensum* Baker
Ref. FP 13(1/3) 1936: 678; Ravenna, 1971: 83; Meerow, 1990: 30.
Herb. Andean II-III: disturbed areas. 2000-4000 m.
Voucher: Hutchison & Wright 6582 (F!, USM!)
Depts.: AN, CA, CU, JU, LI, LL, PI

Stenomesson breviflorum Herbert
Syn. *Stenomesson peruvianum* Traub
Ref. Ravenna, 1971: 79.
Cultivated herb. Andean II: rocky slopes. 3000-3500 m.
Voucher: Maclean s.n.* (K), Ferreyra 3777 (USM!)
Depts.: JU, LI

Stenomesson callacallense Ravenna
Ref. Ravenna, 1974: 76.
Endemic herb. Andean II: grasslands, rocky slopes. 2500-3000 m.
Voucher: Sagástegui s.n. (HUT)
Depts.: AM

Stenomesson campanulatum Meerow
Syn. *Eucrosia peruviana* Ravenna
Ref. Meerow, 1987b: 307.
Endemic herb. Andean II. 2000-2500 m.
Voucher: Ravenna 3070* (Hb. Ravenna), López & Sagástegui 6247 (MO!)
Depts.: CA, LL

Stenomesson campodense Ravenna
Ref. Ravenna, 1971: 75.
Endemic herb. Andean II. 1500-2000 m.
Voucher: Ravenna 103* (Hb. Ravenna), López 1514 (HUT)
Depts.: CA, LL

Stenomesson caracense Ravenna
Ref. Ravenna, 1974: 76.
Herb. Andean II. 2500-3000 m.
Voucher: Colaris 1340* (U)
Depts.: AN

Stenomesson coccineum (R. & P.) Herbert
Syn. *Coburgia coccinea* (R. & P.) Herbert, *Coburgia praecipitata* Herbert, *Coburgia venusta* Herbert, *Pancratium coccineum* R. & P., *Stenomesson rubrum* Herbert
Ref. FP 13(1/3) 1936: 679; Ravenna, 1971: 79.
Endemic herb. Andean I-II, Coastal: forests, lomas, rocky slopes. 0-3000 m.
Voucher: Macbride & Featherstone 1227 (F!)
Depts.: AN, CA, CU, HU, JU, LI

Stenomesson croceum (Savigny) Herbert
Syn. *Pancratium croceum* Savigny, *Stenomesson ruizianum* Kunth
Ref. FP 13(1/3) 1936: 679.
Note: Not reconfirmed.

Stenomesson curvidentatum Herbert =Stenomesson pauciflorum var. curvidentatum (Herbert) J. F. Macbride
Ref. FP 13(1/3) 1936: 681.

Stenomesson elwesii (Baker) J. F. Macbride
Syn. *Callithauma viridiflorum* var. *elwesii* Baker, *Stenomesson viridiflorum* var. *elwesii* (Baker) Baker
Ref. FP 13(1/3) 1936: 679.
Note: Not reconfirmed. Known only from cultivation, based on material obtained from Peru.

Stenomesson ferreyrae Traub =Stenomesson recurvatum (R. & P.) Baker
Ref. Ravenna, 1978: 75; Traub, 1950: 95.

Stenomesson flammidum Ravenna
Ref. Ravenna, 1971: 76.
Endemic herb. Andean II: grasslands. 2500-3000 m.
Voucher: Ravenna 902* (Hb. Ravenna), López & Sagástegui s.n. (HUT)
Depts.: CA, LL

Stenomesson flavum (R. & P.) Herbert
Syn. *Chrysiphiala flava* (R. & P.) Ker Gawler, *Pancratium flavum* R. & P., *Stenomesson latifolium* Herbert
Ref. FP 13(1/3) 1936: 679, 680; Ravenna, 1971: 81.
Endemic herb. Coastal: lomas, rocky slopes. 0-500 m.
Voucher: Soukup 1437* (SI), Ferreyra 14039 (USM!)
Depts.: LI

Stenomesson fulvum (Herbert) Ravenna
Syn. *Coburgia fulva* Herbert
Ref. Ravenna, 1971: 79.
Herb.
Voucher: Soukup s.n.* (BA)
Depts.: PU

Stenomesson gasteroides Ravenna
Endemic herb. Andean II. 3000-3500 m.
Voucher: Sánchez 1197* (NY), Llatas 1315 (Hb. Ravenna)
Depts.: AM, CA, LA

Stenomesson glareosum Ravenna
Ref. Ravenna, 1971: 73.
Endemic herb.
Note: Known from Peru only from the type locality.
Voucher: Ravenna 288* (Hb. Ravenna)
Depts.: LI

Stenomesson hartwegii Lindley
=Stenomesson aurantiacum (H.B.K.) Herbert
Ref. FP 13(1/3) 1936: 678; Ravenna, 1971: 83.

Stenomesson humile (Herbert) Baker
Syn. *Clitanthes humilis* Herbert, *Coburgia humilis* (Herbert) Herbert, *Stenomesson acaule* Kraenzlin
Ref. FP 13(1/3) 1936: 680; Ravenna, 1971: 84.
Herb. Andean II-III: grasslands, rocky slopes. 2500-4500 m.
Voucher: Stafford 1127 (F!)
Depts.: AN, CU, HV, JU, LI, PU

Stenomesson imasumacc Vargas
Ref. Vargas, 1969: 38.
Endemic herb. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Vargas 14075* (CUZ)
Depts.: CU

Stenomesson incarnatum (H.B.K.) Baker
Syn. *Coburgia splendens* Herbert, *Coburgia trichroma* (Llave & Lexarza) Herbert, *Coburgia versicolor* Herbert, *Pancratium incarnatum* H.B.K., *Pancratium trichromum* Llave & Lexarza, *Stenomesson splendens* (Herbert) Ravenna
Ref. FP 13(1/3) 1936: 682; Meerow, 1990: 28.
Herb. Andean II: cloud forests. 2000-2500 m.
Voucher: Gentry *et al.* 61537 (MO!)
Depts.: CU

Stenomesson incarum Kraenzlin
Syn. *Coburgia minita* Lindley
Ref. FP 13(1/3) 1936: 680.
Herb. Andean I-II: grasslands. 500-2000 m.
Voucher: Herrera 197 (F!)
Depts.: AR, CA, CU

Stenomesson latifolium Herbert
=Stenomesson flavum (R. & P.) Herbert
Ref. FP 13(1/3) 1936: 680; Ravenna, 1971: 81.

Stenomesson longifolium Kraenzlin
=Stenomesson recurvatum (R. & P.) Baker
Ref. FP 13(1/3) 1936: 681; Ravenna, 1978: 75.

Stenomesson luteum (Herbert) Baker
Syn. *Clinanthus luteus* Herbert, *Clitanthes lutea* (Herbert) Herbert, *Coburgia lutea* (Herbert) Herbert
Ref. FP 13(1/3) 1936: 681.
Endemic herb.
Note: Known from Peru only from the type locality.
Voucher: Ruiz s.n.*
Depts.: Without full locality data.

Stenomesson macleanicum (Herbert) J. F. Macbride
Syn. *Clitanthes macleanica* Herbert, *Coburgia macleanica* (Herbert) Herbert
Ref. FP 13(1/3) 1936: 681.
Endemic herb. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Maclean s.n.*
Depts.: LI

Stenomesson microstephium Ravenna
Ref. Ravenna, 1978: 76.
Endemic herb. Andean II: rocky slopes. 2000-3000 m.
Voucher: Ravenna 2096* (Hb. Ravenna), Hutchison & Krahn 4972 (USM!)
Depts.: CA

Stenomesson miniatum (Herbert) Ravenna
Syn. *Pentlandia miniata* Herbert, *Pentlandia miniata* var. *lacunosa* Herbert, *Pentlandia miniata* var. *sulivanica* Herbert, *Sphaerotele coccinea* Link *et al.*, *Sphaerotele peruviana* C. Presl, *Urceolina miniata* (Herbert) Bentham & Hooker f., *Urceolina peruviana* (C. Presl) J. F. Macbride
Ref. Ravenna, 1978: 69.
Endemic herb. Andean II: rocky slopes. 2500-3500 m.
Voucher: Díaz 2038 (MO!)
Depts.: AP, CA, CU, JU, LI, PA

Stenomesson mirabilis Ravenna
Ref. Ravenna, 1971: 78.
Endemic herb. Andean II: rocky slopes. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Sagástegui s.n.* (HUT)
Depts.: CA

Stenomesson moldenkei Traub
Herb. Andean II: rocky slopes. 2500-3000 m.
Voucher: Ferreyra 6922* (TRA)
Depts.: LI

Stenomesson morrisonii Vargas =Ismene morrisonii (Vargas) Gereau & Meerow
Ref. Gereau *et al.*, 1993: 29; Vargas, 1943b: 132.

Stenomesson parvulum Ravenna
Endemic herb.
Voucher: Ravenna 2901* (Hb. Ravenna)
Depts.: CA

Stenomesson pauciflorum (Lindley ex Hooker) Herbert var. **curvidentatum** (Herbert) J. F. Macbride
Syn. *Stenomesson curvidentatum* Herbert
Ref. FP 13(1/3) 1936: 681.
Herb. Andean II: rocky slopes. 1500-2000 m.
Voucher: Ferreyra 6239 (USM!)
Depts.: LI

Stenomesson pauciflorum var. **pauciflorum**
Syn. *Chrysiphiala pauciflora* Lindley ex Hooker
Ref. FP 13(1/3) 1936: 681.
Note: Not reconfirmed. Introduced into cultivation from material collected originally in Peru by Cowan in 1824, and apparently not recollected.

Stenomesson pearcei Baker
Ref. FP 13(1/3) 1936: 682.
Herb. Amazonian, Andean I-II: rocky slopes. 0-3000 m.
Voucher: Macbride & Featherstone 1227 (F!)
Depts.: CU, HU, JU, PU

Stenomesson peruvianum Traub
=Stenomesson breviflorum Herbert
Ref. Ravenna, 1978: 74.

Stenomesson recurvatum (R. & P.) Baker
Syn. *Carpodetes recurvata* (R. & P.) Herbert, *Coburgia angusta* Herbert, *Coburgia laeta* Herbert, *Coburgia langensis* Herbert, *Coburgia obragillensis* Herbert, *Coburgia recurvata* (R. & P.) Herbert, *Pancratium recurvatum* R. & P., *Stenomesson ferreyrae* Traub, *Stenomesson longifolium* Kraenzlin
Ref. FP 13(1/3) 1936: 682; Ravenna, 1978: 75.
Herb. Andean II-III: grasslands. 2500-4000 m.
Voucher: King *et al.* 113 (F!)
Depts.: AR, CU, LI

Stenomesson rubrum Herbert
=Stenomesson coccineum (R. & P.) Herbert
Ref. FP 13(1/3) 1936: 679.

Stenomesson ruizianum Kunth
=Stenomesson croceum (Savigny) Herbert
Ref. FP 13(1/3) 1936: 679; Ravenna, 1971: 81.

Stenomesson splendens (Herbert) Ravenna
=Stenomesson incarnatum (H.B.K.) Baker
Ref. Ravenna, 1978: 71; Meerow, 1990: 30.

Stenomesson sunchubambae Ravenna
Endemic herb.
Voucher: Ravenna 2094* (Hb. Ravenna)
Depts.: CA

Stenomesson suspensum Baker
=Stenomesson aurantiacum (H.B.K.) Herbert
Ref. FP 13(1/3) 1936: 682; Ravenna, 1971: 83; Meerow, 1990: 31.

Stenomesson variegatum (R. & P.) J. F. Macbride
Syn. *Coburgua chachapoyensis* Herbert, *Coburgia variegata* (R. & P.) Herbert, *Pancratium variegatum* R. & P.
Ref. FP 13(1/3) 1936: 682; Meerow, 1990: 30.
Endemic herb. Andean II-III: grasslands, rocky slopes. 2500-4000 m.
Voucher: Stein & Todzia 2044 (MO!)
Depts.: AM, CA, CU, LA, PU

Stenomesson viridiflorum (R. & P.) Bentham & Hooker f.
Syn. *Callithauma angustifolium* Herbert, *Callithauma viridiflorum* (R. & P.) Herbert, *Pancratium viridiflorum* R. & P., *Stenomesson viridiflorum* var. *angustifolium* (Herbert) J. F. Macbride
Ref. FP 13(1/3) 1936: 683.
Note: Not reconfirmed.

Stenomesson viridiflorum var. *angustifolium* (Herbert) J. F. Macbride =Stenomesson viridiflorum (R. & P.) Bentham & Hooker f.
Ref. FP 13(1/3) 1936: 683.

Stenomesson viridiflorum var. *elwesii* (Baker) Baker =Stenomesson elwesii (Baker) J. F. Macbride
Ref. FP 13(1/3) 1936: 679.

Stenomesson vitellinum Lindley
Ref. FP 13(1/3) 1936: 683.
Note: Not reconfirmed.

Tecophilaea violiflora Bertero ex Colla
=Distrepta vaginata Miers
Ref. FP 13(1/3) 1936: 665.

Urceolina ayacucensis Ravenna
Ref. Ravenna, 1983b: 251.
Endemic herb. Andean I. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6652* (F!)
Depts.: AY

Urceolina castelnaeana (Baillon) Traub
=Eucharis castelnaeana (Baillon) J. F. Macbride
Ref. Meerow, 1989: 201.

Urceolina corynandra Ravenna =Eucharis corynandra (Ravenna) Ravenna
Ref. Meerow, 1989: 196.

Urceolina cuzcoensis Vargas
Ref. Vargas, 1974: 38.
Endemic herb. Andean II. 1000-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Vargas 22099* (CUZ)
Depts.: CU

Urceolina fulva Herbert
Syn. *Urceolina pendula* var. *fulva* (Herbert) Baker
Ref. FP 13(1/3) 1936: 686.
Note: Not reconfirmed.

Urceolina ipariensis Ravenna =Eucharis ulei Kraenzlin
Ref. Meerow, 1989: 192.

Urceolina latifolia (R. & P.) Bentham & Hooker f., nom. illeg. =Urceolina valida Ravenna
Ref. FP 13(1/3) 1936: 687; Ravenna, 1985: 96.

Urceolina microcrater Kraenzlin
Ref. FP 13(1/3) 1936: 687; Ravenna, 1983b: 253.
Herb. Andean I: grasslands. 500-1500 m.
Voucher: Soukup 581 (F!)
Depts.: CU, HU

Urceolina miniata (Herbert) Bentham & Hooker f. =Stenomesson miniatum (Herbert) Ravenna
Ref. FP 13(1/3) 1936: 687; Ravenna, 1978: 69.

Urceolina oxyandra Ravenna =Eucharis oxyandra (Ravenna) Ravenna
Ref. Ravenna, 1985: 95.

Urceolina pendula Herbert =Urceolina urceolata (R. & P.) Ascherson & Graebner
Ref. FP 13(1/3) 1936: 688.

Urceolina pendula var. *fulva* (Herbert) Baker =Urceolina fulva Herbert
Ref. FP 13(1/3) 1936: 686.

Urceolina peruviana (C. Presl) J. F. Macbride =Stenomesson miniatum (Herbert) Ravenna
Ref. FP 13(1/3) 1936: 687; Ravenna, 1978: 69.

Urceolina robledoana (Vargas) Traub
Syn. *Pseudourceolina robledoana* Vargas
Ref. Vargas, 1960: 8.
Endemic herb. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Vargas 12306*
Depts.: CU

Urceolina urceolata (R. & P.) Ascherson & Graebner
Syn. *Crinum urceolatum* R. & P., *Urceolina pendula* Herbert
Ref. FP 13(1/3) 1936: 687; Ravenna, 1983b: 253.
Herb. Andean I: forests. 500-1000 m.
Voucher: Weberbauer 6741 (MOL!)
Depts.: CU

Urceolina valida Ravenna
Syn. *Leperiza latifolia* (R. & P.) Herbert, *Pancratium latifolium* R. & P. nom. illeg., non Miller, *Urceolina latifolia* (R. & P.) Bentham & Hooker f., nom. illeg.
Ref. Ravenna, 1985: 96.
Herb.
Voucher: Ruiz & Pavón s.n. (MA)
Depts.: JU

Urceolina weberbaueri Vargas
Ref. Vargas, 1974: 36.
Endemic herb. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Vargas 22029* (CUZ)
Depts.: CA

Zephyranthes albicans (Herbert) Baker
Syn. *Cooperia albicans* (Herbert) Sprague, *Pyrolirion albicans* Herbert
Ref. FP 13(1/3) 1936: 669; Meerow, 1990: 5.
Herb. Coastal: lomas. 0-500 m.
Voucher: Vargas 8578 (MO!)
Depts.: AR, MO

Zephyranthes aurea (R. & P.) Baker
=Pyrolirion aureum (R. & P.) Herbert
Ref. FP 13(1/3) 1936: 668.

Zephyranthes beustii Schinz
=Zephyranthes flava (Herbert) Baker
Ref. FP 13(1/3) 1936: 667.

Zephyranthes briquetii J. F. Macbride
Ref. FP 13(1/3) 1936: 667.
Endemic herb. Grasslands.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 7322* (F!)
Depts.: MO

Zephyranthes flammea (R. & P.) Baker
=Zephyranthes tubiflora var. flammea (R. & P.) J. F. Macbride
Ref. FP 13(1/3) 1936: 668.

Zephyranthes flava (Herbert) Baker
Syn. *Pyrolirion flavum* Herbert, *Zephyranthes beustii* Schinz
Ref. FP 13(1/3) 1936: 667.
Herb. Andean I-II, Coastal: forests on white sand. 0-3500 m.
Voucher: Hutchison & Wright 7114 (F!, USM!)
Depts.: IC, JU, LI

Zephyranthes gracilis Herbert
Ref. FP 13(1/3) 1936: 668.
Note: Not reconfirmed.

Zephyranthes grandiflora Lindley
Herb. Amazonian, Andean I-II: forests, rocky slopes. 0-2000 m.
Voucher: Williams 4074 (F!)
Depts.: JU, LI, LO

Zephyranthes parvula Killip
Ref. FP 13(1/3) 1936: 668.
Herb. Andean II-III: grasslands. 3000-4000 m.
Voucher: West 7168 (MO!)
Depts.: CU, JU, LI, PU

Zephyranthes pseudocolchicum Kraenzlin
Syn. *Fortunatia herrerae* J. F. Macbride (Liliaceae)
Herb. Andean III. 3500-4000 m.
Voucher: Kalenborn 12 (US)
Depts.: JU

Zephyranthes rosea Lindley
Herb. Amazonian: forests. 0-500 m.
Voucher: Williams 7816 (F!)
Depts.: LO

Zephyranthes tubiflora (L'Héritier) Schinz var. **flammea** (R. & P.) J. F. Macbride
Syn. *Amaryllis flammea* R. & P., *Zephyranthes flammea* (R. & P.) Baker
Ref. FP 13(1/3) 1936: 668.
Note: Not reconfirmed.

Zephyranthes tubiflora var. **tubiflora**
Syn. *Amaryllis peruviana* Ker Gawler, *Amaryllis tubiflora* L'Héritier
Ref. FP 13(1/3) 1936: 668.
Cultivated herb. Andean I, Coastal: grasslands, rocky slopes. 0-1500 m.
Voucher: Horton 10211 (F!)
Depts.: AR, LI

Anacardiaceae

12 genera and 32 species in Peru.

Endemic species: 6.

Prepared by L. Brako; reviewed by J. D. Mitchell (NY).

Anacardium giganteum Hancock ex Engler
Ref. Mitchell & Mori, 1987: 54.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez *et al.* 6205 (AMAZ!)
Depts.: LO

Anacardium occidentale L.
Ref. FP 13(3A/1) 1951: 240; Mitchell & Mori, 1987: 38.
Cultivated tree. Amazonian, Andean I: disturbed areas. 0-1000 m.
Voucher: Belshaw 3344 (MO!)
Depts.: CU, HU, JU, LO, PA, SM, UC

Anacardium parvifolium Ducke
Ref. Mitchell & Mori, 1987: 53.
Tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Hartshorn *et al.* 2977 (MO!)
Depts.: LO, PA

Astronium fraxinifolium Schott
Ref. Barfod, 1987: 17.
Tree. Andean II: 1500-2000 m.
Voucher: Davis *et al.* 1271 (NY)
Dept.: CU

Astronium graveolens Jacquin
Ref. Barfod, 1987: 17.
Shrub or tree. Amazonian, Andean I: riversides. 0-1000 m.
Voucher: Gentry *et al.* 40112 (MO!)
Depts.: JU, SM

Astronium lecointei Ducke
Ref. Mattick, 1934: 1006.
Tree. Amazonian: forests. 0-500 m.
Voucher: Gentry & Jaramillo 57579 (MO!)
Depts.: MD

Haplorhus peruviana Engler
Ref. FP 13(3A/1) 1951: 258.
Tree. Andean I-II: rocky slopes. 1500-3000 m.
Voucher: Gay s.n.*, Ferreyra 2814 (MO!, USM!)
Depts.: HV, PU, SM

Loxopterygium huasango Spruce ex Engler
Ref. FP 13(3A/1) 1951: 257; Barfod, 1987: 21.
Tree. Amazonian, Andean I: rocky slopes. 0-1000 m.
Voucher: Ferreyra 12295 (MO!)
Depts.: CA, LA, PI, TU

Mangifera indica L.
Ref. FP 13(3A/1) 1951: 241; Barfod, 1987: 23.
Introduced and cultivated tree.
Voucher: Killip & Smith 26471 (F)
Depts.: AN, CU, JU, LO

Mauria aurantiodora Ruiz López ex Engler =Mauria suaveolens Poeppig
Ref. FP 13(3A/1) 1951: 246; Barfod, 1987: 29.

Mauria biringo Tulasne =Mauria suaveolens Poeppig
Ref. FP 13(3A/1) 1951: 246; Barfod, 1987: 29.

Mauria biringo var. *weberbaueri* Loesener =Mauria suaveolens Poeppig
Ref. FP 13(3A/1) 1951: 247; Barfod, 1987: 29.

Mauria biringo var. *ruizii* Engler =Mauria suaveolens Poeppig
Ref. FP 13(3A/1) 1951: 247; Barfod, 1987: 29.

Mauria denticulata J. F. Macbride
Ref. FP 13(3A/1) 1951: 247.
Endemic shrub. Andean II: forests. 2000-3000 m.
Voucher: Weberbauer 7546* (B), Chávez 3454 (MO!)
Depts.: AY, CU

Mauria ferruginea Tulasne
Tree. Andean II: forests. 2000-3000 m.
Voucher: Núñez & Arque 8461 (MO!)
Depts.: CU, HU

Mauria heterophylla H.B.K.
Syn. *Mauria heterophylla* var. *contracta* Loesener, *Mauria heterophylla* var. *puberula* (Tulasne) Engler, *Mauria puberula* Tulasne
Ref. FP 13(3A/1) 1951: 247; Barfod, 1987: 27.
Tree. Andean I-III: shrublands. 500-4000 m.
Voucher: Gentry & Smith 35909 (MO!)
Depts.: AM, CA, HU, JU, LL, PA, PI, PU, SM, TU

Mauria heterophylla var. *contracta* Loesener =Mauria heterophylla H.B.K.
Ref. FP 13(3A/1) 1951: 247; Barfod, 1987: 27.

Mauria heterophylla var. *puberula* (Tulasne) Engler =Mauria heterophylla H.B.K.
Ref. FP 13(3A/1) 1951: 248; Barfod, 1987: 27.

Mauria killipii F. Barkley
Ref. FP 13(3A/1) 1951: 248; Barkley, 1947: 77.
Endemic tree. Andean II: forests. 1500-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Killip & Smith 24182* (F)
Depts.: JU

Mauria peruviana Cuatrecasas
Ref. Cuatrecasas, 1955: 12.
Shrub. Andean II: forests, riversides. 2500-3500 m.
Voucher: Weberbauer 6692* (F), Weberbauer 6687 (F)
Depts.: HU

Mauria puberula Tulasne =Mauria heterophylla H.B.K.
Ref. Barfod, 1987: 27.

Mauria sericea Loesener
Ref. FP 13(3A/1) 1951: 248.
Endemic tree. Andean II: shrublands. 1500-2500 m.
Voucher: Weberbauer 1981* (B photo F!, MOL!), Macbride & Featherstone 3937 (F)
Depts.: HU, JU

Mauria simplicifolia H.B.K.
Ref. FP 13(3A/1) 1951: 249; Barfod, 1987: 25.
Shrub. Andean II: forests, riversides. 1500-3000 m.
Voucher: López & Sagástegui 8825 (MO!)
Depts.: CA, HU, PI, SM

Mauria suaveolens Poeppig
Syn. *Mauria aurantiodora* Ruiz López ex Engler, *Mauria biringo* Tulasne, *Mauria biringo* var. *weberbaueri* Loesener, *Mauria biringo* var. *ruizii* Engler, *Sorindeia aurantiodora* Ruiz López ex Engler, *Sorindeia puberula* var. *venulosa* Marchand
Ref. FP 13(3A/1) 1951: 249; Barfod, 1987: 29.
Tree. Andean I-II: disturbed areas. 500-2500 m.
Voucher: Poeppig 1390* (P photo NY), Klug 4016 (MO!)
Depts.: CA, HU, JU, SM

Mauria subserrata Loesener
Ref. FP 13(3A/1) 1951: 250.
Tree. Andean II: forests. 2000-2500 m.
Voucher: Weberbauer 5070* (B photo F!), Peyton & Peyton 1145 (MO!)
Depts.: CU

Mauria trichothyrsa Loesener
Ref. FP 13(3A/1) 1951: 251.
Endemic tree. Andean II: shrublands. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 4218* (B photo F!)
Depts.: CA

[Ochoterenaea columbiana F. Barkley]
Syn. *Rhus samo* Tulasne
Ref. Barkley, 1942: 442; Mitchell, pers. comm.
Note: Not known from Peru.

Rhus juglandifolia Willdenow =Toxicodendron striatum (R. & P.) Kuntze
Ref. FP 13(3A/1) 1951: 155; Barfod, 1987: 45.

[*Rhus samo* Tulasne =Ochoterenaea columbiana F. Barkley]
Ref. FP 13(3A/1) 1951: 255; Mitchell, pers. comm.
Note: Not known from Peru.

Rhus striata R. & P. =Toxicodendron striatum (R. & P.) Kuntze
Ref. FP 13(3A/1) 1951: 255; Barfod, 1987: 45.

Schinopsis peruviana Engler
Ref. FP 13(3A/1) 1951: 258.
Endemic tree. Amazonian: disturbed areas. 0-500 m.
Voucher: Spruce 4549* (K), Gentry *et al.* 37652 (MO!)
Depts.: SM

Schinus andinus (Engler) I. M. Johnston =Schinus microphyllus I. M. Johnston
Ref. FP 13(3A/1) 1951: 252.

Schinus dependens Ortega =Schinus polygamus (Cavanilles) Cabrera
Ref. FP 13(3A/1) 1951: 254.

Schinus dependens var. *andinus* Engler =Schinus microphyllus I. M. Johnston
Ref. FP 13(3A/1) 1951: 252.

Schinus fagara L. =Zanthoxylum fagara (L.) Sargent (Rutaceae)
Ref. FP 13(3/2) 1949: 665.

Schinus microphyllus I. M. Johnston
Syn. *Schinus andinus* (Engler) I. M. Johnston, *Schinus dependens* var. *andinus* Engler, *Schinus microphyllus* var. *andinus* (Engler) J. F. Macbride
Ref. FP 13(3A/1) 1951: 252.
Tree. Andean II: forests. 3000-3500 m.
Voucher: Vargas 957 (MO!)
Depts.: AP, AY, CU

Schinus microphyllus var. *andinus* (Engler) J. F. Macbride =Schinus microphyllus I. M. Johnston
Ref. FP 13(3A/1) 1951: 252.

Schinus molle L.
Ref. FP 13(3A/1) 1951: 252; Barfod, 1987: 34.
Tree. Amazonian, Andean I-II, Coastal: rocky slopes. 0-3500 m.
Voucher: Hutchison & Wright 7162 (MO!, USM!)
Depts.: AN, AR, AY, CA, CU, HU, IC, JU, LI, LL, MO, PA, TA

Schinus pearcei Engler
Ref. FP 13(3A/1) 1951: 254.
Shrub or tree. Andean II-III: rocky slopes. 2500-4000 m.
Voucher: Núñez 7305 (MO!)
Depts.: AP, CU, PU

Schinus polygamus (Cavanilles) Cabrera
Syn. *Amyris polygama* Cavanilles (Rutaceae), *Schinus dependens* Ortega
Ref. FP 13(3A/1) 1951: 254.
Note: Not reconfirmed. The Flora of Peru notes that the Peruvian material is fragmentary and is probably mislabeled as to origin or collectors or both.

Sorindeia aurantiodora Ruiz López ex Engler =Mauria suaveolens Poeppig
Ref. FP 13(3A/1) 1951: 246; Barfod, 1987: 29.

Sorindeia puberula var. *venulosa* Marchand =Mauria suaveolens Poeppig
Ref. Barfod, 1987: 29.

Spondias cytherea Sonnerat =Spondias dulcis Parkinson
Ref. A. C. Smith, 1985: 452.

Spondias dulcis Parkinson
Ref. A. S. Smith, 1985: 452.
Syn.: *Spondias cytherea* Sonnerat
Cultivated and introduced tree.
Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 25676 (MO!)
Depts.: AM, LO, SM

Spondias lutea L. =Spondias mombin L.
Ref. FP 13(3A/1) 1951: 212; Barfod, 1987: 36.

Spondias mombin L.
Syn. *Spondias lutea* L.
Ref. FP 13(3A/1) 1951: 242; Barfod, 1987: 36.
Cultivated and introduced tree.
Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 778 (MO!)
Depts.: AM, HU, JU, LI, LO, MD, PA, SM, UC

Spondias purpurea L.
Ref. FP 13(3A/1) 1951: 243; Barfod, 1987: 38.
Cultivated and introduced tree.
Amazonian: semi-deciduous forests. 0-500 m.
Voucher: Núñez 6541 (MO!)
Depts.: AM, CU, HU, LI, LO, SM

Tapirira guianensis Aublet
Syn. *Tapirira myriantha* Triana & Planchon
Ref. FP 13(3A/1) 1951: 244; Barfod, 1987: 41.
Tree. Amazonian, Andean I-II: forests, riversides. 0-2000 m.
Voucher: Hartshorn 2437 (MO!)
Depts.: AM, CA, CU, HU, JU, LO, MD, PA, SM

Tapirira marchandii Engler =Tapirira peckoltiana Engler
Ref. Barfod, 1987: 43.

Tapirira myriantha Triana & Planchon =Tapirira guianensis Aublet
Ref. FP 13(3A/1) 1951: 244; Barfod, 1987: 41.

Tapirira peckoltiana Engler
Syn. *Tapirira marchandii* Engler
Ref. Barfod, 1987: 43.
Tree. Amazonian: forests on white sand. 0-500 m.
Voucher: van der Werff *et al.* 9838 (MO!)
Depts.: LO, MD

Tapirira retusa Ducke
Ref. Ducke, 1933: 64.
Tree. Amazonian, Andean I-II: forests. 0-2500 m.
Voucher: Vásquez & Jaramillo 6154 (AMAZ!, MO!)
Depts.: LO, SM

Thyrsodium herrerense Encarnación
Ref. Spichiger *et al.*, 1990: 169.
Endemic tree. Amazonian: forests. 0-500 m.
Voucher: Spichiger 1301* (MO!), Vásquez & Jaramillo 6312 (MO!)
Depts.: LO

[Thyrsodium spruceanum Bentham]
Note: Not known from Peru. Peruvian material identified as *T. spruceanum* is not true *T. herrerense*, but is allied to it (Mitchell, pers. comm.).

Toxicodendron striatum (R. & P.) Kuntze
Syn. *Rhus juglandifolia* Willdenow, *Rhus striata* R. & P.
Ref. FP 13(3A/1) 1951: 255; Barfod, 1987: 45.
Tree. Andean I-II: forests, cloud forests. 500-2000 m.

Voucher: Ruiz & Pavón s.n.* (MA), Gentry *et al.* 40155 (MO!)
Depts.: AM, CA, CU, HU, JU, PA, SM

Anisophylleaceae

1 genus and 1 species in Peru.

Prepared by J. L. Zarucchi; reviewed by G. T. Prance (K).

Anisophyllea guianensis Sandwith
Ref. Sandwith, 1952: 305.
Tree. Amazonian: swamps. 0-500 m.
Voucher: Gentry *et al.* 56355 (MO!)
Depts.: LO

Annonaceae

23 genera and 193 species in Peru.

Endemic species: 41.

Note: The treatment of this family follows Maas *et al.*, 1987.

Prepared by L. Brako; reviewed by D. Johnson (OWU), P. J. M. Maas (U), N. A. Murray (OWU), and G. E. Schatz (MO).

Aberemoa guianensis Aublet =Guatteria guianensis (Aublet) R. E. Fries
Ref. Maas *et al.*, 1987: 64.

Aberemoa hadrantha Diels =Duguetia hadrantha (Diels) R. E. Fries
Ref. FP 13(2/3) 1938: 733.

Aberemoa longifolia (Aublet) Baillon =Fusaea longifolia (Aublet) Safford
Ref. FP 13(2/3) 1938: 729.

Aberemoa odorata Diels =Duguetia odorata (Diels) J. F. Macbride
Ref. FP 13(2/3) 1938: 732.

Aberemoa pedunculata Diels =Cremastosperma pedunculatum (Diels) R. E. Fries
Ref. FP 13(2/3) 1938: 724.

Aberemoa peruviana R. E. Fries =Duguetia peruviana (R. E. Fries) J. F. Macbride
Ref. FP 13(2/3) 1938: 733.

Aberemoa quitarensis (Bentham) R. E. Fries =Duguetia quitarensis Bentham
Ref. FP 13(2/3) 1938: 732.

Aberemoa spixiana (C. Martius) R. E. Fries =Duguetia spixiana C. Martius
Ref. FP 13(2/3) 1938: 734.

Anaxagorea brachycarpa R. E. Fries
Ref. Spichiger *et al.*, 1989: 109.
Shrub or tree. Amazonian: forests on white sand, terra firme forests. 0-500 m.
Voucher: Vásquez *et al.* 999 (MO!)
Depts.: LO, SM

Anaxagorea brevipes Bentham
Syn. *Anaxagorea minor* Diels ex R. E. Fries
Ref. Maas & Westra, 1984a: 128.
Shrub or tree. Amazonian, Andean I: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 9966 (MO!)
Depts.: LO, MD, PA

Anaxagorea crassipetala Hemsley
Ref. Maas & Westra, 1984a: 131.
Shrub or tree. Amazonian: forests. 0-500 m.
Voucher: Berlin 1612 (MO!)
Depts.: AM, SM

Anaxagorea dolichocarpa Sprague & Sandwith
Syn. *Anaxagorea megalophylla* R. E. Fries
Ref. Maas & Westra 1984b: 145.
Shrub or tree. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Berlin 951 (MO!)
Depts.: AM, HU, LO, MD, UC

Anaxagorea floribunda Timmerman
Ref. Maas & Westra 1984b: 152.
Endemic shrub. Amazonian: forests. 0-500 m.
Voucher: Klug 33* (NY), Gentry *et al.* 27626 (MO!)
Depts.: LO

Anaxagorea megalophylla R. E. Fries =Anaxagorea dolichocarpa Sprague & Sandwith
Ref. FP 13(2/3) 1938: 749; Maas & Westra 1984b: 145.

Anaxagorea minor Diels ex R. E. Fries =Anaxagorea brevipes Bentham
Ref. FP 13(2/3) 1938: 748; Maas & Westra, 1984a: 128.

Anaxagorea pachypetala (Diels) R. E. Fries
Syn. *Anaxagorea pallida* Diels, *Guatteria pachypetala* (Diels) J. F. Macbride, *Oxandra pachypetala* Diels
Ref. FP 13(2/3) 1938: 748; Maas & Westra 1984b: 162.
Endemic tree. Amazonian: forests. 0-500 m.
Voucher: Tessmann 4893* (B photo MO!), Schunke 6281 (MO!)
Depts.: LO, SM

Anaxagorea pallida Diels =Anaxagorea pachypetala (Diels) R. E. Fries
Ref. FP 13(2/3) 1938: 750; Maas & Westra 1984b: 162.

Anaxagorea phaeocarpa C. Martius
Ref. FP 13(2/3) 1938: 749; Maas & Westra 1984b: 167.
Liana, shrub or tree. Amazonian: forests. 0-500 m.
Voucher: Schunke 4672 (MO!, MOL!)
Depts.: LO, SM

Anaxagorea rufa Timmerman
Ref. Maas & Westra 1984b: 172.
Shrub or tree. Amazonian: forests. 0-500 m.
Voucher: Gentry & Revilla 20424 (MO!)
Depts.: LO

Annona ambotay Aublet
Ref. FP 13(2/3) 1938: 758.
Tree. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Schunke 832 (MOL!)
Depts.: HU, MD, PA, SM

Annona asplundiana R. E. Fries
Ref. Fries, 1947a: 15.
Note: Known from Peru only from the type locality.
Endemic tree. Amazonian: forests. 0-500 m.
Voucher: Asplund 14813* (S)
Depts.: LO

Annona axillaris Ruiz, nom. nud. =Annona neglecta R. E. Fries
Ref. FP 13(2/3) 1938: 757.

Annona biflora R. & P. ex G. Don, nom. nud. =Rollinia mucosa (Jacquin) Baillon
Ref. FP 13(2/3) 1938: 760.

Annona bonplandiana H.B.K. =Annona muricata L.
Ref. FP 13(2/3) 1938: 752.

Annona cearensis Barbosa Rodrigues =Annona muricata L.
Ref. FP 13(2/3) 1938: 752.

Annona cherimola Miller
Syn. *Annona pubescens* Salisbury, *Annona tripetala* Aiton
Ref. FP 13(2/3) 1938: 756; Fries, 1947a: 17.
Tree.
Note: Cited in the Flora of Peru as "*A. cherimolia.*"
Voucher: Asplund 13484 (S)
Depts.: AM, HU, LI

[*Annona cinerea* Dunal =Annona squamosa L.]
Ref. FP 13(2/3) 1938: 756.
Note: Not known from Peru.

Annona conifera Ruiz ex R. E. Fries, nom. nud. =Duguetia peruviana (R. E. Fries) J. F. Macbride
Ref. FP 13(2/3) 1938: 733.

Annona cordifolia (Szyszylowicz) R. E. Fries
Syn. *Annona cordifolia* Poeppig ex Szyszylowicz, nom. nud., *Rollinia cordifolia* Szyszylowicz
Ref. Maas, Westra, *et al.*, 1992: 162.

Annona cordifolia Poeppig ex Szyszylowicz, nom. nud. =Annona cordifolia (Szyszylowicz) R. E. Fries
Ref. FP 13(2/3) 1938: 754; Maas, Westra, *et al.*, 1992: 162.

Annona deminuta R. E. Fries
Ref. FP 13(2/3) 1938: 753.

Endemic tree.
Note: Known from Peru only from the type locality.
Voucher: Williams 5579* (F)
Depts.: SM

Annona dolichophylla R. E. Fries
Ref. Fries, 1947a: 14.
Endemic tree. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Asplund 14452* (S)
Depts.: LO

Annona duckei Diels
Ref. FP 13(2/3) 1938: 757; Fries, 1947a: 17.
Tree. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Ducke MG 7609* (MG)
Depts.: LO

Annona excellens R. E. Fries
Ref. FP 13(2/3) 1938: 753; Spichiger *et al.*, 1989: 111.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Ule 9374* (B), Schunke 2493 (MOL!)
Depts.: LO

Annona excelsa H.B.K. =Annona reticulata L.
Ref. FP 13(2/3) 1938: 756.

Annona humboldtii Dunal =Annona reticulata L.
Ref. FP 13(2/3) 1938: 756.

Annona hypoglauca C. Martius
Syn. *Annona tessmannii* Diels
Ref. Fries, 1947a: 16.
Shrub or tree. Amazonian: riversides, seasonally inundated areas. 0-500 m.
Voucher: Vásquez & Jaramillo 10329 (MO!)
Depts.: LO, MD

Annona insignis R. E. Fries
Ref. Vásquez, pers. comm.
Depts.: MD

Annona iquitensis R. E. Fries
Ref. FP 13(2/3) 1938: 755.
Endemic tree. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Killip & Smith 29848* (US)
Depts.: LO

Annona laevis H.B.K. =Annona reticulata L.
Ref. FP 13(2/3) 1938: 756.

Annona longifolia Aublet =Fusaea longifolia (Aublet) Safford
Ref. FP 13(2/3) 1938: 729.

Annona longifolia Sessé & Moçiño, nom. illeg. =Annona reticulata L.
Ref. FP 13(2/3) 1938: 756.

Annona macrocalyx R. E. Fries
Ref. FP 13(2/3) 1938: 755.
Tree. Amazonian: forests. 0-500 m.
Voucher: Killip & Smith 26860* (US), Schunke 909 (MOL!)
Depts.: LO

Annona macrocarpa Wercklé =Annona muricata L.
Ref. FP 13(2/3) 1938: 752.

Annona marcgravii C. Martius =Annona montana Macfadyen
Ref. FP 13(2/3) 1938: 753.

Annona microcarpa R. & P. ex G. Don =Rollinia ulei Diels
Ref. FP 13(2/3) 1938: 765; Maas, pers. comm.

Annona montana Macfadyen
Syn. *Annona marcgravii* C. Martius, *Annona muricata* Vell. Conc., *Annona pisonis* C. Martius, *Annona sphaerocarpa* Splitgerber
Ref. FP 13(2/3) 1938: 753; Fries, 1947a: 14.
Tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Revilla *et al.* 2567 (MO!)
Depts.: LO, SM, UC

Annona mucosa Jacquin =Rollinia mucosa (Jacquin) Baillon
Ref. FP 13(2/3) 1938: 760.

Annona muricata L.
Syn. *Annona bonplandiana* H.B.K., *Annona cearensis* Barbosa Rodrigues, *Annona macrocarpa* Wercklé, *Annona muricata* var. *borinquensis* Morales, *Guanabanus muricatus* (L.) Gómez
Ref. FP 13(2/3) 1938: 752.
Cultivated tree. Amazonian: disturbed areas. 0-500 m.
Voucher: Gentry *et al.* 22198 (MO!)
Depts.: LO

Annona muricata var. *borinquensis* Morales =Annona muricata L.
Ref. FP 13(2/3) 1938: 752.

Annona muricata Vell. Conc. =Annona montana Macfadyen
Ref. FP 13(2/3) 1938: 753.

Annona neglecta R. E. Fries
Syn. *Annona axillaris* Ruiz, nom. nud.
Ref. FP 13(2/3) 1938: 757.
Tree.
Note: Known from Peru only from the type locality.
Voucher: Ruiz s.n.* (B)
Depts.: Without full locality data.

Annona nitida C. Martius
Ref. Fries, 1947a: 14.
Tree. Amazonian. 0-500 m.
Voucher: Asplund 14270 (S)
Depts.: LO

Annona obtusiflora Tussac =Rollinia mucosa (Jacquin) Baillon
Ref. FP 13(2/3) 1938: 760.

Annona parviflora R. & P. ex López
Syn. *Rollinia micrantha* G. Don
Ref. Maas, pers. comm.

Bocageopsis mattogrossensis (R. E. Fries) R. E. Fries
Syn. *Bocagea mattogrossensis* R. E. Fries
Ref. Maas *et al.*, 1987: 35.
Treelet. Amazonian: forests. 0-500 m.
Voucher: Maas *et al.* 6242 (MO!, MOL!)
Depts.: LO

Bocageopsis multiflora (C. Martius) R. E. Fries
Syn. *Bocagea multiflora* C. Martius
Tree. Amazonian: forests on white sand, terra firme forests. 0-500 m.
Voucher: Gentry & Aronson 25226 (MO!)
Depts.: LO, PA

Cremastosperma cauliflorum R. E. Fries
Ref. FP 13(2/3) 1938: 726.
Tree. Amazonian: forests. 0-500 m.
Voucher: Klug 902* (B), Maas *et al.* 6281 (MO!, MOL!)
Depts.: LO

Cremastosperma gracilipes R. E. Fries
Ref. FP 13(2/3) 1938: 724.
Shrub or tree. Amazonian: forests. 0-500 m.
Voucher: Tessmann 4748* (B), Gentry *et al.* 21928 (MO!)
Depts.: LO, MD

Cremastosperma killipii R. E. Fries
Endemic tree. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Killip & Smith 29020* (US)
Depts.: LO

Cremastosperma leiophyllum R. E. Fries
Ref. Maas *et al.*, 1987: 38.
Tree. Amazonian: forests. 0-500 m.
Voucher: Foster 2512 (MO!)
Depts.: LO, MD

Cremastosperma longicuspe R. E. Fries
Ref. FP 13(2/3) 1938: 725.
Endemic tree.
Note: Known from Peru only from the type locality.
Voucher: Poeppig s.n.* (W)
Depts.: LO

Cremastosperma megalophyllum R. E. Fries
Ref. FP 13(2/3) 1938: 725.
Endemic tree.
Note: Known from Peru only from the type locality.
Voucher: Ducke RB 19620* (S)
Depts.: LO

Cremastosperma microcarpum R. E. Fries
Ref. Maas *et al.*, 1987: 38.
Tree. Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 32153 (MO!)
Depts.: LO

Crematosperma oblongum R. E. Fries
Endemic shrub. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Killip & Smith 23622* (US)
Depts. JU

Cremastosperma pedunculatum (Diels) R. E. Fries
Syn. *Aberemoa pedunculata* Diels, *Duguetia pedunculata* (Diels) J. F. Macbride, *Guatteria socialis* J. F. Macbride
Ref. FP 13(2/3) 1938: 724.
Tree. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Weberbauer 4558* (MOL), Croat 19991 (MO!)
Depts.: HU, LO, SM

Cremastosperma pendulum (R. & P.) R. E. Fries
Syn. *Guatteria pendula* R. & P.
Ref. FP 13(2/3) 1938: 724.
Shrub. Andean I: forests. 500-1000 m.
Voucher: Ruiz & Pavón s.n.* (G), Schunke 7251 (MO!)
Depts.: SM

Cremastosperma peruvianum R. E. Fries
Ref. FP 13(2/3) 1938: 726.
Endemic tree.
Note: Known from Peru only from the type locality.
Voucher: Tessmann 4176* (B)
Depts.: LO

Cremastosperma polyphlebum (Diels) R. E. Fries =Pseudoxandra polyphleba (Diels) R. E. Fries
Ref. FP 13(2/3) 1938: 723.

Cremastosperma williamsii R. E. Fries =Pseudoxandra williamsii (R. E. Fries) R. E. Fries
Ref. FP 13(2/3) 1938: 722.

Cymbopetalum brasiliense (Vell. Conc.) Bentham ex Baillon
Syn. *Uvaria brasiliensis* Vell. Conc.
Tree. Amazonian: forests. 0-500 m.
Voucher: Young 174 (MO!)
Depts.: MD

Cymbopetalum dielsianum Safford, nom. nud. =Malmea dielsiana Safford ex R. E. Fries
Ref. FP 13(2/3) 1938: 728.

Cymbopetalum longipes Bentham ex Diels
Syn. *Cymbopetalum longipes* var. *minor* R. E. Fries
Ref. FP 13(2/3) 1938: 736; Fries, 1947a: 11.
Tree. Amazonian, Andean I: dry valleys, terra firme forests. 0-1000 m.
Voucher: Spruce 4097* (F photo MO!), Woytkowski 6179 (MO!)
Depts.: AM, HU, LO, MD, SM

Cymbopetalum longipes var. *minor* R. E. Fries =Cymbopetalum longipes Bentham ex Diels
Ref. FP 13(2/3) 1938: 737.

Cymbopetalum tessmannii R. E. Fries
Ref. FP 13(2/3) 1938: 737.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Tessmann 5242* (B), McDaniel 16135 (MO!)
Depts.: LO, MD

Diclinanona calycina (Diels) R. E. Fries
Syn. *Xylopia calycina* Diels
Ref. FP 13(2/3) 1938: 743; Fries, 1947a: 9.
Tree. Amazonian: forests. 0-500 m.
Voucher: Tessmann 4369* (B), Vásquez & Jaramillo 8719 (MO!)
Depts.: LO

Diclinanona tessmannii Diels
Ref. FP 13(2/3) 1938: 742; Spichiger *et al.*, 1989: 111.
Tree. Amazonian: forests, riversides, seasonally inundated areas, swamps. 0-500 m.
Voucher: Tessmann 5387* (B, destroyed), Vásquez & Jaramillo 9498 (MO!)
Depts.: LO

Duguetia flagellaris Huber
Shrub. Amazonian: forests. 0-500 m.

Voucher: Schunke 3840 (MOL!)
Depts.: HU, MD, SM

Duguetia hadrantha (Diels) R. E. Fries
Syn. *Aberemoa hadrantha* Diels
Ref. FP 13(2/3) 1938: 733.
Shrub. Amazonian, Andean I: riversides. 0-1000 m.
Voucher: Schunke 6042 (MO!)
Depts.: JU, LO, SM

Duguetia ibonensis Rusby =Duguetia quitarensis Bentham
Ref. FP 13(2/3) 1938: 732.

Duguetia latifolia R. E. Fries
Ref. FP 13(2/3) 1938: 734
Tree. Amazonian: disturbed areas, forests on white sand. 0-500 m.
Voucher: Killip & Smith 28340* (F), Knapp 8241 (MO!)
Depts.: AM, LO, SM

Duguetia longifolia (Aublet) Baillon =Fusaea longifolia (Aublet) Safford
Ref. FP 13(2/3) 1938: 729.

Duguetia macrophylla R. E. Fries
Ref. FP 13(2/3) 1938: 733.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Killip & Smith 27291* (US), Vásquez *et al.* 5123 (MO!)
Depts.: HU, LO

Duguetia odorata (Diels) J. F. Macbride
Syn. *Aberemoa odorata* Diels
Ref. FP 13(2/3) 1938: 732.
Tree. Amazonian: forests. 0-500 m.
Voucher: Tessmann 3745* (B), Vásquez & Jaramillo 8099 (MO!)
Depts.: AM, LO, MD

Duguetia pedunculata (Diels) J. F. Macbride =Cremastosperma pedunculatum (Diels) R. E. Fries
Ref. FP 13(2/3) 1938: 724.

Duguetia peruviana (R. E. Fries) J. F. Macbride
Syn. *Aberemoa peruviana* R. E. Fries, *Annona conifera* Ruiz ex R. E. Fries, nom. nud.
Ref. FP 13(2/3) 1938: 733.
Endemic tree.
Note: Known from Peru only from the type locality.
Voucher: Ruiz & Pavón s.n.* (F)
Depts.: Without full locality data.

Duguetia quitarensis Bentham
Syn. *Aberemoa quitarensis* (Bentham) R. E. Fries, *Duguetia ibonensis* Rusby
Ref. FP 13(2/3) 1938: 732.
Tree. Amazonian: forests. 0-500 m.
Voucher: Maas *et al.* 6298 (MOL!)
Depts.: AM, HU, LO, MD, SM, UC

Duguetia spixiana C. Martius
Syn. *Aberemoa spixiana* (C. Martius) R. E. Fries
Ref. FP 13(2/3) 1938: 734.
Tree. Amazonian: forests. 0-500 m.
Voucher: Foster 9593 (MO!)
Depts.: JU, LO, MD, UC

Duguetia stenantha R. E. Fries
Ref. Spichiger *et al.*, 1989: 114.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Vásquez & Jaramillo 10354 (MO!)
Depts.: LO

Duguetia surinamensis R. E. Fries
Ref. Maas *et al.*, 1987: 51.
Tree. Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 65722 (MO!)
Depts.: LO

Duguetia tessmannii R. E. Fries
Ref. FP 13(2/3) 1938: 732; Spichiger *et al.*, 1989: 116.
Endemic tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Tessmann 4373* (NY), Lao s.n. (MOL!)
Depts.: AM, HU, LO, PA

Ephedranthus amazonicus R. E. Fries
Tree. Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 42687 (MO!)
Depts.: LO

Ephedranthus guianensis R. E. Fries
Tree. Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 29075 (MO!)
Depts.: LO

Froesiodendron amazonicum R. E. Fries
Ref. Maas *et al.*, 1987: 52.
Tree. Amazonian: forests. 0-500 m.
Voucher: Croat 18373 (MO!)
Depts.: LO

Fusaea decurrens R. E. Fries
Ref. FP 13(2/3) 1938: 730; Spichiger *et al.*, 1989: 116.
Endemic shrub. Amazonian: forests. 0-500 m.
Note: Probably conspecific with *F. longifolia* (Maas, pers. comm.).
Voucher: Pariona & Ruiz 197 (MOL!)
Depts.: LO, MD, PA, UC

Fusaea longifolia (Aublet) Safford
Syn. *Aberemoa longifolia* (Aublet) Baillon, *Annona longifolia* Aublet, *Annona rhombipetala* R. & P. ex G. Don, *Duguetia longifolia* (Aublet) Baillon, *Fusaea rhombipetala* (R. & P. ex G. Don) J. F. Macbride, *Uvaria spectabilis* DC. ex Dunal
Ref. FP 13(2/3) 1938: 729.
Tree. Amazonian: disturbed areas. 0-500 m.
Voucher: Gentry *et al.* 26032 (MO!)
Depts.: AM, HU, LO, PA, UC

Fusaea peruviana R. E. Fries
Ref. FP 13(2/3) 1938: 730.
Tree. Amazonian: forests. 0-500 m.
Voucher: Kuhlmann RB 24362* (S), Vásquez & Jaramillo 11378 (MO!)
Depts.: AM, LO, UC

Fusaea rhombipetala (R. & P. ex G. Don) J. F. Macbride =Fusaea longifolia (Aublet) Safford
Ref. FP 13(2/3) 1938: 729.

Guanabanus muricatus (L.) Gómez =Annona muricata L.
Ref. FP 13(2/3) 1938: 752.

[*Guanabanus squamosus* (L.) Gómez =Annona squamosa L.]
Ref. FP 13(2/3) 1938: 756.
Note: Not known from Peru.

Guatteria acutissima R. E. Fries
Ref. FP 13(2/3) 1938: 712.
Tree. Amazonian: forests. 0-500 m.
Voucher: Klug 1268* (F), Croat 19234 (MO!)
Depts.: LO

Guatteria alutacea Diels
Ref. FP 13(2/3) 1938: 710.
Tree. Amazonian: forests. 0-500 m.
Note: Material not determined to variety.
Voucher: Ule 6427* (F photo MO!), Schunke 9799 (MO!)
Depts.: LO, SM

Guatteria alutacea var. **angustifolia** R. E. Fries
Ref. FP 13(2/3) 1938: 710.
Endemic tree.
Note: Known from Peru only from the type locality.
Voucher: Spruce 4270A* (F)
Depts.: SM

Guatteria amazonica R. E. Fries
Ref. FP 13(2/3) 1938: 720.
Tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Kuhlmann RB 24260* (F), Schunke 3237 (MOL!)
Depts.: CU, JU, LO, SM

Guatteria augusti Diels
Ref. FP 13(2/3) 1938: 709.
Endemic tree. Andean I: shrublands. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 7062* (F)
Depts.: LL

Guatteria boliviana Winkler
Ref. Maas *et al.*, 1987: 56.
Tree. Amazonian, Andean I: disturbed areas, forests. 0-1500 m.
Voucher: Smith 5193 (MO!)
Depts.: AM, MD, PA

Guatteria brevicuspis R. E. Fries
Ref. Maas *et al.*, 1987: 56.
Shrub. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Schunke 10555 (MO!)
Depts.: HU, MD, SM

Guatteria calliantha R. E. Fries
Ref. FP 13(2/3) 1938: 715.
Endemic tree.
Note: Known from Peru only from the type locality.
Voucher: Tessmann 5164* (B)
Depts.: LO

Guatteria calophylla R. E. Fries
Ref. Maas *et al.*, 1987: 57.

Tree. Amazonian: forests. 0-500 m.
Voucher: Tunqui 420 (MO!)
Depts.: AM, LO

Guatteria chlorantha Diels
Ref. FP 13(2/3) 1938: 714.
Tree. Amazonian: disturbed areas, forests. 0-500 m.
Voucher: Tessmann 3423* (B photo MO!), Chávez 44 (MO!)
Depts.: HU, LO, UC

Guatteria chrysophylla P. Maas & van Setten
Ref. Maas *et al.*, 1988: 252.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 5667 (U)
Depts.: LO

[Guatteria cinnamomea D. Simpson, nom. illeg.]
Ref. Simpson, 1975: 305.
Endemic tree. Amazonian: disturbed areas. 0-500 m.
Note: A new name is needed for this taxon.
Voucher: Jenssen 133* (F), Jenssen 10 (F)
Depts.: HU

Guatteria citriodora Ducke
Ref. Spichiger *et al.*, 1989: 119.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Ceijas LCB 60 (MOL!)
Depts.: LO

Guatteria coeloneura Diels
Ref. FP 13(2/3) 1938: 715.
Shrub or tree. Andean I-II: forests. 500-2000 m.
Voucher: Weberbauer 3548* (B photo MO!), Schunke 6583 (MO!)
Depts.: HU

Guatteria decandra R. & P.
Ref. Fries, 1939: 536.
Tree.
Voucher: Ruiz & Pavón s.n.
Depts.: Without full locality data.

Guatteria decurrens R. E. Fries
Ref. FP 13(2/3) 1938: 720.
Tree. Amazonian: forests. 0-500 m.
Voucher: Killip & Smith 29585* (US), Schunke 6329 (MO!)
Depts.: LO, SM, UC

Guatteria dielsiana R. E. Fries
Syn. *Guatteria ucayaliana* Diels, nom. illeg.
Ref. FP 13(2/3) 1938: 719.
Tree. Amazonian: seasonally inundated areas, terra firme forests. 0-500 m.
Voucher: Tessmann 3212* (B), Maas *et al.* 6206 (MO!, MOL!)
Depts.: LO, UC

Guatteria elata R. E. Fries
Ref. FP 13(2/3) 1938: 712; Spichiger *et al.*, 1989: 121.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Vásquez & Jaramillo 2734 (MO!)
Depts.: LO

Guatteria eriopoda DC. ex Dunal
Ref. FP 13(2/3) 1938: 721.
Endemic tree.
Note: Known from Peru only from the type locality.
Voucher: Dombey s.n.* (P!)
Depts.: HU

Guatteria eugeniifolia A. DC. ex R. E. Fries
Syn. *Guatteria ovalis* C. Martius
Ref. FP 13(2/3) 1938: 714.
Tree. Amazonian, Andean I-II. 0-2500 m.
Voucher: Poeppig 1859* (photo MO!), Young 4079 (MO)
Depts.: LO, SM

Guatteria excellens R. E. Fries
Ref. FP 13(2/3) 1938: 721.
Tree. Amazonian, Andean I: forests on white sand, seasonally inundated areas, 0-1500 m.
Voucher: Klug 1273* (F), Gentry *et al.* 20959 (MO!)
Depts.: AM, LO, SM

Guatteria excelsa Poeppig ex C. Martius
Ref. FP 13(2/3) 1938: 711.
Endemic tree.
Note: Known from Peru only from the type locality.
Voucher: Poeppig 139 [1467]* (W)
Depts.: HU

Guatteria geminiflora R. E. Fries
Ref. Fries, 1939: 421.
Endemic tree. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Tessmann 4314* (B)
Depts.: AM

Guatteria glauca R. & P.
Ref. FP 13(2/3) 1938: 716.
Endemic tree.
Note: Known from Peru only from the type locality.
Voucher: Ruiz & Pavón s.n.* (B photo MO!)
Depts.: HU

Guatteria guentheri Diels
Ref. FP 13(2/3) 1938: 717.
Endemic tree.
Note: Known from Peru only from the type locality.
Voucher: Tessmann 4387* (B)
Depts.: LO

Guatteria guianensis (Aublet) R. E. Fries
Syn. *Aberemoa guianensis* Aublet
Tree. Amazonian: forests. 0-500 m.
Voucher: Huashikat 665 (MO!)
Depts.: AM

Guatteria hirsuta R. & P.
Ref. FP 13(2/3) 1938: 711.
Tree.
Voucher: Ruiz & Pavón s.n.* (MO!)
Depts.: HU, MD

Guatteria hyposericea Diels
Ref. FP 13(2/3) 1938: 718; Spichiger *et al.*, 1989: 121.
Tree. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Williams 4129* (F), Maas *et al.* 6191 (MO!)
Depts.: LO, SM, UC

Guatteria inundata C. Martius
Tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Vásquez & Jaramillo 7629 (MO!)
Depts.: LO

Guatteria juninensis R. E. Fries
Ref. FP 13(2/3) 1938: 716.
Endemic shrub or tree.
Note: Known from Peru only from the type locality.
Voucher: Schunke 267* (F)
Depts.: JU

Guatteria juruensis Diels
Ref. FP 13(2/3) 1938: 711; Fries, 1947a: 3.
Tree. Amazonian: forests. 0-500 m.
Voucher: Williams 3157 (F)
Depts.: LO

Guatteria klugii R. E. Fries
Ref. FP 13(2/3) 1938: 710.
Endemic shrub. Andean I: forests. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Klug 3299* (MO!)
Depts.: SM

Guatteria lucida C. Presl
Ref. Fries, 1939: 536.
Note: Not reconfirmed.

Guatteria macrocarpa R. E. Fries
Ref. FP 13(2/3) 1938: 719.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Killip & Smith 28965* (F), Schunke 3597 (MO!)
Depts.: LO, SM

Guatteria megalophylla Diels
Syn. *Guatteria melosma* Diels
Ref. FP 13(2/3) 1938: 718.
Tree. Amazonian: forests on white sand. 0-500 m.
Voucher: Smith 8438 (MO!)
Depts.: AM, HU, LO, PA, SM, UC

Guatteria melinii R. E. Fries
Ref. Fries, 1939: 364.
Endemic shrub. Andean I. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Melin 122* (S)
Depts.: SM

Guatteria meliodora R. E. Fries
Ref. Spichiger *et al.*, 1989: 124.
Tree. Amazonian: forests. 0-500 m.

Voucher: Vásquez 10436 (MO!)
Depts.: LO

Guatteria melosma Diels =Guatteria megalophylla Diels
Ref. FP 13(2/3) 1938: 719; Maas, pers. comm..

Guatteria modesta Diels
Ref. FP 13(2/3) 1938: 713.
Endemic tree.
Note: Known from Peru only from the type locality.
Voucher: Tessmann 3476* (B photo MO!)
Depts.: LO

Guatteria multivenia Diels
Ref. FP 13(2/3) 1938: 721.
Tree. Amazonian: forests. 0-500 m.
Voucher: Tessmann 5192* (B photo MO!), Vásquez 2865 (MO!)
Depts.: LO, PA

Guatteria olivacea R. E. Fries
Ref. Fries, 1947a: 3.
Tree. Amazonian: forests. 0-500 m.
Voucher: Asplund 12929 (S)
Depts.: HU, MD

Guatteria ovalis C. Martius =Guatteria eugeniifolia A. DC. ex R. E. Fries
Ref. FP 13(2/3) 1938: 714.

Guatteria ovalis R. & P. =Ruizodendron ovale (R. & P.) R. E. Fries
Ref. FP 13(2/3) 1938: 727.

Guatteria pachypetala (Diels) J. F. Macbride =Anaxagorea pachypetala (Diels) R. E. Fries
Ref. FP 13(2/3) 1938: 748; Maas & Westra, 1984b: 162.

Guatteria pavonii G. Don
Ref. Fries, 1939: 536.
Tree.
Voucher: Ruiz & Pavón s.n.
Depts.: Without full locality data.

Guatteria pendula R. & P. =Cremastosperma pendulum (R. & P.) R. E. Fries
Ref. FP 13(2/3) 1938: 724.

Guatteria peruviana R. E. Fries
Ref. FP 13(2/3) 1938: 720.
Endemic tree. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Killip & Smith 27522* (US)
Depts.: LO

Guatteria phanerocampta Diels
Ref. FP 13(2/3) 1938: 714.
Tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Williams 3436* (F), Revilla 213 (MO!)
Depts.: LO

Guatteria pleiocarpa Diels
Ref. FP 13(2/3) 1938: 715.
Endemic shrub. Andean I: shrublands. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 4530* (B)
Depts.: SM

Guatteria ponderosa Rusby =Porcelia ponderosa (Rusby) Rusby
Ref. FP 13(2/3) 1938: 735.

Guatteria puncticulata R. E. Fries
Ref. Maas *et al.*, 1987: 78.
Tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Vásquez & Jaramillo 4823 (MO!)
Depts.: LO

Guatteria raimondii Diels =Malmea raimondii (Diels) R. E. Fries
Ref. FP 13(2/3) 1938: 728.

Guatteria recurvisepala R. E. Fries
Ref. Maas *et al.*, 1987: 78.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 10852 (MO!)
Depts.: LO

Guatteria scalarinervia D. Simpson
Ref. Simpson, 1975: 306.
Endemic tree. Amazonian: forests. 0-500 m.
Voucher: Rodríguez NRR40* (F, MOL!)
Depts.: LO

Guatteria schomburgkiana C. Martius
Syn. *Annona hostmannii* Steudel, *Guatteria vestita* Klotzsch ex R. M. Schomburgk, nom. nud.
Ref. FP 13(2/3) 1938: 709.
Tree. Amazonian, Andean I: riversides, terra firme forests. 0-1000 m.
Note: Material not determined to variety.
Voucher: Hartshorn 2430 (MO!)
Depts.: LO, MD, PA

Guatteria schomburgkiana var. **holosericea** R. E. Fries
Ref. FP 13(2/3) 1938: 709.
Tree. Amazonian: forests. 0-500 m.
Voucher: Klug 2259* (MO!)
Depts.: LO

Guatteria schunkevigoi D. Simpson
Ref. Simpson, 1975: 307.
Endemic tree. Amazonian: disturbed areas, forests. 0-500 m.
Voucher: Schunke 3551* (MO!)
Depts.: SM

Guatteria scytophylla Diels
Ref.: Maas *et al.*, 1987: 81.
Tree. Amazonian: forests. 0-500 m.
Note: This is probably a synonym of *G. hyposericea* (Maas, pers. comm.).
Voucher: Gentry & Jaramillo 57617 (MO!)
Depts.: LO, MD

Guatteria sessiliflora (Bentham) Safford =Guatteriopsis sessiliflora (Bentham) R. E. Fries
Ref. FP 13(2/3) 1938: 750.

Guatteria socialis J. F. Macbride =Cremastosperma pedunculatum (Diels) R. E. Fries
Ref. FP 13(2/3) 1938: 724.

Guatteria spectabilis Diels
Ref. FP 13(2/3) 1938: 717.
Tree. Amazonian. 0-500 m.
Voucher: Tessmann 4638* (B photo MO!)
Depts.: AM, LO

Guatteria terminalis R. E. Fries
Ref. FP 13(2/3) 1938: 709.
Endemic tree.
Voucher: Lechler 2648* (UPS), Ríos JRT94 (MOL!)
Depts.: Without full locality data.

Guatteria tessmannii R. E. Fries
Ref. FP 13(2/3) 1938: 713.
Endemic tree. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Tessmann 4651* (B)
Depts.: LO

Guatteria tomentosa Rusby
Ref. Maas *et al.*, 1987: 83.
Tree. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Maas *et al.* 6226 (MO!, USM!)
Depts.: CU, LO, MD

Guatteria trichoclonia Diels
Ref. FP 13(2/3) 1938: 712.
Shrub or tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez *et al.* 9363 (MO!)
Depts.: LO, SM

Guatteria ucayaliana Diels, nom. illeg. =Guatteria dielsiana R. E. Fries
Ref. FP 13(2/3) 1938: 719.

Guatteria ucayalina Huber
Ref. FP 13(2/3) 1938: 717; Fries, 1947a: 4.
Tree. Amazonian: forests. 0-500 m.
Voucher: Huber MG1431* (MG), Asplund 12930 (S)
Depts.: HU

Guatteria venificiorum C. Martius =Unonopsis veneficiorum (C. Martius) R. E. Fries
Ref. FP 13(2/3) 1938: 741.

Guatteria vestita Klotzsch ex R. M. Schomburgk, nom. nud. =Guatteria schomburgkiana C. Martius
Ref. FP 13(2/3) 1938: 709.

Guatteria viridiflora R. & P. ex G. Don
Syn. *Uvaria viridiflora* R. & P.
Ref. Fries, 1939: 537.
Tree.
Voucher: Ruiz & Pavón s.n.* (OXF)
Depts.: Without full locality data.

Guatteria xanthochlora Diels =Malmea xanthochlora (Diels) R. E. Fries
Ref. FP 13(2/3) 1938: 728.

Guatteriopsis ramiflora D. Simpson
Ref. Simpson, 1982: 305.
Endemic tree. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Schunke 3924* (MO!)
Depts.: SM

Guatteriopsis sessiliflora (Bentham) R. E. Fries
Syn. *Annona sessiliflora* Bentham, *Guatteria sessiliflora* (Bentham) Safford
Ref. FP 13(2/3) 1938: 750.
Tree. Amazonian: forests. 0-500 m.
Voucher: Rimachi 1300 (MO!)
Depts.: LO

Hornschuchia duckei R. E. Fries =Trigynaea duckei (R. E. Fries) R. E. Fries

Malmea cuspidata Diels
Ref. FP 13(2/3) 1938: 729.
Endemic tree.
Note: Known from Peru only from the type locality.
Voucher: Williams 113* (F)
Depts.: LO

Malmea diclina R. E. Fries
Ref. Maas *et al.*, 1987: 88.
Tree. Amazonian: riversides. 0-500 m.
Voucher: Gentry 43579 (MO!)
Depts.: MD

Malmea dielsiana Safford ex R. E. Fries
Syn. *Cymbopetalum dielsianum* Safford, nom. nud.
Ref. FP 13(2/3) 1938: 728.
Shrub or tree. Amazonian: riversides. 0-500 m.
Voucher: Ule 10P* (B), Schunke 8920 (MO!)
Depts.: LO, MD, SM, UC

Malmea lucida Diels
Ref. Maas *et al.*, 1987: 88.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 1137 (MO!)
Depts.: LO

Malmea pachiteae D. Simpson
Ref. Simpson, 1982: 307.
Endemic tree. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Schunke 1294* (MO!)
Depts.: HU

Malmea peruviana R. E. Fries
Ref. Fries, 1947a: 10.
Endemic tree. Andean I. 1000-1500 m.
Voucher: Asplund 12576* (W)
Depts.: HU

Malmea raimondii (Diels) R. E. Fries
Syn. *Guatteria raimondii* Diels
Ref. FP 13(2/3) 1938: 728.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Raimondi 1974* (B photo MO!), Schunke 1303 (MO!)
Depts.: HU, SM

Malmea xanthochlora (Diels) R. E. Fries
Syn. *Guatteria xanthochlora* Diels
Ref. FP 13(2/3) 1938: 728.
Tree. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Tessmann 4553* (B)
Depts.: LO

Onychopetalum krukoffii R. E. Fries
Ref. Maas *et al.*, 1987: 89.
Tree. Amazonian: forests. 0-500 m.
Voucher: Smith & Shuhler 168 (NY!)
Depts.: MD

Oxandra acuminata Diels
Ref. FP 13(2/3) 1938: 704.
Tree. Amazonian: disturbed areas, forests, seasonally inundated areas. 0-500 m.
Voucher: Weberbauer 1897* (B), Croat 19729 (MO!)
Depts.: JU, LO, MD

Oxandra aromatica Triana & Planchon =Oxandra espintana (Spruce ex Bentham) Baillon
Ref. FP 13(2/3) 1938: 703.

Oxandra espintana (Spruce ex Bentham) Baillon
Syn. *Bocagea aromatica* (Triana & Planchon) Britton, *Bocagea espintana* Spruce ex Bentham, *Oxandra aromatica* Triana & Planchon, *Oxandra ovata* Rusby
Ref. FP 13(2/3) 1938: 703.
Tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Spruce 4920* (K), Maas *et al.* 5955 (MO!)
Depts.: MD, SM

Oxandra euneura Diels
Ref. FP 13(2/3) 1938: 704.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Tessmann 5320* (B), Vásquez *et al.* 6009 (MO!)
Depts.: LO

Oxandra macrophylla R. E. Fries
Ref. FP 13(2/3) 1938: 704.

Rollinia cuspidata C. Martius
Syn. *Rollinia pachyptera* Diels, *Rollinia sphaerantha* R. E. Fries, *Rollinia uniflora* R. E. Fries
Ref. Maas *et al.*, 1987: 99.
Tree. Amazonian, Andean I: forests, seasonally inundated areas. 0-1000 m.
Voucher: Tessmann 4704 (B photo MO!), Núñez *et al.* 10123 (MO!)
Depts.: CU, LO, PA

Rollinia edulis Triana & Planchon
Ref. Maas *et al.*, 1987: 100.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 8271 (MO!)
Depts.: AM, CA, HU, LO, MD

Rollinia emarginata Schlechtendal
Syn. *Rollinia occidentalis* R. E. Fries
Ref. Maas *et al.*, 1987: 100.
Shrub or tree.
Voucher: Pearce s.n. (K)
Depts.: Without full locality data.

Rollinia fosteri P. Maas & Westra
Ref. Maas & Westra, 1989: 302.
Shrub or tree. Amazonian: forests. 0-500 m.
Voucher: Foster 9657B* (MO!), Foster 9604 (MO!)
Depts.: AM, MD

Rollinia glomerulifera P. Maas & Westra
Ref. Maas & Westra, 1989: 303.
Shrub or tree. Amazonian, Andean I: seasonally inundated areas. 0-1000 m.
Voucher: Vásquez & Jaramillo 790* (MO!), Huashikat 534 (MO!)
Depts.: AM, LO

Rollinia herzogii R. E. Fries
Ref. Maas *et al.*, 1987: 102.
Tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Young & Stratton 156 (MO!)
Depts.: MD

Rollinia hispida P. Maas & Westra
Ref. Maas & Westra, 1989: 307.
Shrub or tree. Amazonian: forests. 0-500 m.
Voucher: Schunke 2657* (F), Schunke 2165 (F)
Depts.: HU, LO

Rollinia insignis R. E. Fries
Ref. FP 13(2/3) 1938: 762.
Endemic shrub or tree.
Note: Known from Peru only from the type locality.
Voucher: Williams 2685* (F)
Depts.: LO

Rollinia jucunda Diels =Rollinia peruviana Diels
Ref. FP 13(2/3) 1938: 762.

Rollinia mammifera P. Maas & Westra
Ref. Maas & Westra, 1989: 308.
Liana, shrub or tree. Amazonian: forests. 0-500 m.
Voucher: Maas *et al.* 6025* (MO!, USM), Williams 6538 (F)
Depts.: SM

Rollinia micrantha G. Don =Annona parviflora R. & P. ex López
Ref. Maas, Westra, *et al.*, 1992: 162.

Rollinia microcarpa (R. & P. ex G. Don) R. E. Fries =Rollinia ulei Diels
Ref. FP 13(2/3) 1938: 765; Maas, Westra, *et al.* 1992: 153.

Rollinia mucosa (Jacquin) Baillon
Syn. *Annona biflora* R. & P. ex G. Don, nom. nud., *Annona mucosa* Jacquin, *Annona obtusiflora* Tussac, *Annona pterocarpa* R. & P. ex G. Don, nom. nud., *Annona pteropetala* R. & P. ex R. E. Fries, *Annona reticulata* Sieber ex A. DC., *Annona reticulata* var. *mucosa* (Jacquin) Willdenow, *Rollinia biflora* R. & P. ex G. Don, *Rollinia curvipetala* R. E. Fries, *Rollinia mucosa* var. *aequatorialis* R. E. Fries, *Rollinia mucosa* var. *neglecta* (R. E. Fries) R. E. Fries, *Rollinia neglecta* R. E. Fries, *Rollinia pterocarpa* G. Don, *Rollinia sieberi* A. DC.
Ref. FP 13(2/3) 1938: 760; Fries, 1947a: 17.
Tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Gentry *et al.* 15900 (MO!)
Depts.: AM, CU, HU, LO, SM, PA, PU, UC

Rollinia mucosa var. *aequatorialis* R. E. Fries =Rollinia mucosa (Jacquin) Baillon
Ref. FP 13(2/3) 1938: 761.

Rollinia mucosa var. *neglecta* (R. E. Fries) R. E. Fries =Rollinia mucosa (Jacquin) Baillon
Ref. FP 13(2/3) 1938: 760.

Rollinia neglecta R. E. Fries =Rollinia mucosa (Jacquin) Baillon
Ref. FP 13(2/3) 1938: 760.

Rollinia occidentalis R. E. Fries =Rollinia emarginata Schlechtendal
Ref. FP 13(2/3) 1938: 763.

Rollinia pachyptera Diels =Rollinia cuspidata C. Martius
Ref. FP 13(2/3) 1938: 764.

Rollinia papilionella Diels =Rollinia pittieri Safford
Ref. FP 13(2/3) 1938: 762.

Rollinia peruviana Diels
Syn. *Rollinia jucunda* Diels, *Rollinia rigidiflora* R. E. Fries
Ref. FP 13(2/3) 1938: 761; Maas & Westra, 1993 [in press].
Shrub or tree. Amazonian: disturbed areas, forests. 0-500 m.
Voucher: Ule 6426* (B)
Dept.: HU, LO, MD, SM, UC

Rollinia pittieri Safford
Syn. *Rollinia papilionella* Diels
Tree. Amazonian, Andean I: riversides. 0-1000 m.
Voucher: Núñez *et al.* 11379 (MO!)
Depts.: AM, HU, JU, LO, MD

Rollinia pterocarpa G. Don =Rollinia mucosa (Jacquin) Baillon
Ref. FP 13(2/3) 1938: 765.

Rollinia rigidiflora R. E. Fries =Rollinia peruviana Diels
Ref. FP 13(2/3) 1938: 761.

Rollinia schunkei P. Maas & Westra
Ref. Maas & Westra, 1989: 311.
Shrub or tree. Amazonian, Andean I. 0-1000 m.
Voucher: Schunke 14117* (MO!, USM), Gentry *et al.* 31206 (MO)
Depts.: HU, LO, SM, UC

Rollinia sieberi A. DC. =Rollinia mucosa (Jacquin) Baillon
Ref. FP 13(2/3) 1938: 760.

Rollinia sphaerantha R. E. Fries =Rollinia cuspidata C. Martius
Ref. FP 13(2/3) 1938: 765.

Rollinia ulei Diels
Syn. *Annona microcarpa* R. & P. ex G. Don, *Rollinia microcarpa* (R. & P. ex G. Don) R. E. Fries
Ref. FP 13(2/3) 1938: 763; Maas, pers. comm.
Tree. Amazonian, Andean I-II: forests. 0-2500 m.
Voucher: Ule 6425* (B photo MO!), Maas *et al.* 5965 (MOL!)
Depts.: CU, HU, JU, MD, PA, SM

Rollinia uniflora R. E. Fries =Rollinia cuspidata C. Martius
Ref. FP 13(2/3) 1938: 765.

Ruizodendron ovale (R. & P.) R. E. Fries
Syn. *Guatteria ovalis* R. & P.
Ref. FP 13(2/3) 1938: 727.
Tree. Amazonian: forests. 0-500 m.
Voucher: Ruiz & Pavón s.n.* (B), Klug 3798 (MO!)
Depts.: HU, JU, LO, MD, PA, SM, UC

Tetrameranthus laomae D. Simpson
Ref. Simpson, 1975: 309; Westra, 1985: 475.
Tree. Amazonian: forests. 0-500 m.
Voucher: Soria 64* (F, MOL), Díaz *et al.* 571 (MO!)
Depts.: LO, PA

Tetrameranthus pachycarpus Westra
Ref. Westra, 1985: 477.
Endemic tree. Amazonian: forests. 0-500 m.
Voucher: Klug 1216* (NY), Vásquez & Jaramillo 4619 (MO!)
Depts.: LO

Tetrameranthus umbellatus Westra
Ref. Westra, 1985: 479.
Endemic tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Tunqui 62* (MO!), Huashikat 613 (MO!)
Depts.: AM, HU

Trigynaea duckei (R. E. Fries) R. E. Fries
Syn. *Hornschuchia duckei* R. E. Fries
Ref.: Maas *et al.*, 1987: 113.
Cultivated shrub or tree. Amazonian, Andean I: disturbed areas, forests. 0-500 m.
Voucher: Barbour 5048 (MO!)
Depts.: MD

Trigynaea grandis Bentham =Unonopsis grandis (Bentham) R. E. Fries
Ref. FP 13(2/3) 1938: 739.

Trigynaea mathewsii Bentham =Unonopsis mathewsii (Bentham) R. E. Fries
Ref. FP 13(2/3) 1938: 739.

Unonopsis elegantissima R. E. Fries
Ref. Maas *et al.*, 1987: 117.
Tree. Amazonian: forests on white sand. 0-500 m.
Voucher: Klug 2524* (S), Maas *et al.* 6262 (MO!, MOL!)
Depts.: LO

Unonopsis floribunda Diels
Ref. FP 13(2/3) 1938: 741; Spichiger *et al.*, 1989: 129.
Tree. Amazonian, Andean I: seasonally inundated areas. 0-1000 m.
Voucher: Tessmann 3262* (B photo MO!), Gentry *et al.* 65778 (MO!)
Depts.: AM, LO, MD, SM

Unonopsis gracilis R. E. Fries
Ref. FP 13(2/3) 1938: 740.
Tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Williams 3645* (F), Croat 18608 (MO!)
Depts.: LO, SM

Unonopsis grandis (Bentham) R. E. Fries
Syn. *Trigynaea grandis* Bentham
Ref. FP 13(2/3) 1938: 739.
Tree. Andean I: forests. 500-1000 m.
Voucher: Spruce 3163*, Schunke 4058 (MOL!)
Depts.: LO, SM

Unonopsis guatterioides (A. DC.) R. E. Fries
Syn. *Uvaria guatterioides* A. DC.
Ref. Maas *et al.*, 1987: 118.
Shrub or tree. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Davidson & Revilla 5408 (MO!)
Depts.: HU, LO, SM

Unonopsis mathewsii (Bentham) R. E. Fries
Syn. *Trigynaea mathewsii* Bentham
Ref. FP 13(2/3) 1938: 739.
Tree. Amazonian: forests. 0-500 m.
Voucher: Mathews 1421* (P photo MO!), Maas *et al.* 6184 (MO!)
Depts.: HU, LO, MD, SM, UC

Unonopsis obovata R. E. Fries
Ref. FP 13(2/3) 1938: 740.
Tree. Amazonian: forests. 0-500 m.
Voucher: Killip & Smith 27985* (US)
Depts.: LO, SM

Unonopsis peruviana R. E. Fries
Ref. FP 13(2/3) 1938: 739.
Shrub or tree. Amazonian: forests. 0-500 m.
Voucher: Williams 1184* (F), Vásquez & Jaramillo 7784 (MO!)
Depts.: LO, MD

Unonopsis polyphleba Diels =Pseudoxandra polyphleba (Diels) R. E. Fries
Ref. FP 13(2/3) 1938: 722.

Unonopsis spectabilis Diels
Ref. Spichiger *et al.*, 1989: 129.
Tree. Amazonian: forests. 0-500 m.
Voucher: Maas *et al.* 6229 (MO!)
Depts.: AM, LO, UC

Unonopsis stipitata Diels
Ref. FP 13(2/3) 1938: 742; Spichiger *et al.*, 1989: 132.
Shrub or tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Ule 6191* (G), Davidson 5294A (MO!)
Depts.: LO

Unonopsis veneficiorum (C. Martius) R. E. Fries
Syn. *Guatteria venificiorum* C. Martius
Ref. FP 13(2/3) 1938: 741; Fries, 1947a: 7.
Shrub or tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez *et al.* 7831 (MO!)
Depts.: LO, MD, PA, SM

Unonopsis williamsii R. E. Fries
Ref. FP 13(2/3) 1938: 738.
Shrub or tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Williams 3449* (F), Maas *et al.* 6293 (MO!)
Depts.: HU, LO

Uvaria aromatica Lamarck =Xylopia aromatica (Lamarck) C. Martius
Ref. Maas *et al.*, 1987: 121.

Uvaria brasiliensis Vell. Conc. =Cymbopetalum brasiliense (Vell. Conc.) Bentham ex Baillon

Uvaria ferruginea Poeppig ex J. F. Macbride =Xylopia cuspidata Diels
Ref. FP 13(2/3) 1938: 747.

Uvaria guatterioides A. DC. =Unonopsis guatterioides (A. DC.) R. E. Fries
Ref. Maas *et al.*, 1987: 122.

Uvaria spectabilis A. DC. ex Dunal =Fusaea longifolia (Aublet) Safford
Ref. FP 13(2/3) 1938: 729.

Uvaria viridiflora R. & P. =Guatteria viridiflora R. & P. ex G. Don
Ref. Fries, 1939: 537.

Xylopia amoena R. E. Fries
Ref. Fries, 1947a: 7.
Endemic tree. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Asplund 14164* (S)
Depts.: LO

Xylopia aromatica (Lamarck) C. Martius
Syn. *Uvaria aromatica* Lamarck
Ref. FP 13(2/3) 1938: 745.
Tree. Amazonian: disturbed areas. 0-500 m.
Voucher: Gentry & Smith 45548 (MO!)
Depts.: LO, SM

Xylopia barbata Martius
Ref. Maas *et al.*, 1987: 126.
Tree. Amazonian: forest. 0-500 m.
Voucher: Vásquez *et al.* 4048
Depts.: LO

Xylopia benthamii R. E. Fries
Syn. *Xylopia benthamii* var. *dolichopetala* R. E. Fries, *Xylopia benthamii* var.

subnuda R. E. Fries, *Xylopia ulei* Diels
Ref. Spichiger *et al.*, 1989: 134.
Tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Núñez *et al.* 11349 (MO!)
Depts.: AM, LO, MD

Xylopia benthamii var. *dolichopetala* R. E. Fries =Xylopia benthamii R. E. Fries
Ref. Fries, 1947a: 8.

Xylopia benthamii var. *subnuda* R. E. Fries =Xylopia benthamii R. E. Fries
Ref. FP 13(2/3) 1938: 746; Spichiger *et al.*, 1989: 134.

Xylopia calophylla R. E. Fries
Ref. Maas *et al.*, 1987: 127.
Tree. Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 51497 (MO!)
Depts.: MD

Xylopia calycina Diels =Diclinanona calycina (Diels) R. E. Fries
Ref. FP 13(2/3) 1938: 743.

Xylopia conjungens R. E. Fries
Ref. FP 13(2/3) 1938: 745.
Tree. Amazonian: forests. 0-500 m.
Voucher: Klug 970* (B), Vásquez *et al.* 4048 (MO!)
Depts.: HU, LO, PA

Xylopia cuspidata Diels
Syn: *Uvaria ferruginea* Poeppig ex J. F. Macbride, *Xylopia poeppigii* R. E. Fries
Ref. FP 13(2/3) 1938: 747; Fries, 1947a: 9; Maas & Westra, 1993 [in press].
Shrub or tree. Amazonian: forests. 0-500 m.
Voucher: Tessmann 5323* (B photo MO!), Vásquez & Jaramillo 4811 (MO!)
Depts.: AM, HU, LO, MD, PA, SM

Xylopia densiflora R. E. Fries
Ref. FP 13(2/3) 1938: 744.
Tree. Amazonian: forests. 0-500 m.
Voucher: Klug 3923* (MO!), Reynel 55 (MOL!)
Depts.: HU, LO, PA

Xylopia excellens R. E. Fries
Ref. Maas *et al.*, 1988: 267.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez *et al.* 2791 (MO!)
Depts.: LO

Xylopia frutescens Aublet
Ref. Maas *et al.*, 1987: 128.
Tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Vásquez *et al.* 7389 (MO!)
Depts.: LO, MD

[*Xylopia frutescens* Sieber ex C. Presl =Annona squamosa L.]
Ref. FP 13(2/3) 1938: 756.
Note: Not known from Peru.

Xylopia ligustrifolia Humboldt & Bonpland ex Dunal
Syn. *Xylopia ruscifolia* Humboldt & Bonpland ex Dunal, nom. nud., *Xylopia usitata* Diels, *Xylopicrum ligustrifolium* (Humboldt & Bonpland ex Dunal) Kuntze
Ref. FP 13(2/3) 1938: 745.
Tree. Amazonian: forests, swamps. 0-500 m.
Voucher: Tessmann 3217* (B photo MO!), Croat 19620 (MO!)
Depts.: LO, MD, SM

Xylopia micans R. E. Fries
Ref. FP 13(2/3) 1938: 744; Spichiger *et al.*, 1989: 134.
Endemic shrub or tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Klug 3034* (MO!), Vásquez *et al.* 1001 (MO!)
Depts.: LO

Xylopia multiflora R. E. Fries
Tree. Amazonian: forests on white sand. 0-500 m.
Voucher: Werff *et al.* 10238 (MO!)
Depts.: LO

Xylopia neglecta (Kuntze) R. E. Fries, nom. illeg. =Xylopia parviflora Spruce
Ref. Maas *et al.*, 1986: 277.

Xylopia parviflora Spruce
Syn. *Xylopia neglecta* (Kuntze) R. E. Fries, nom. illeg., *Xylopicrum neglectum* Kuntze
Ref. Spichiger *et al.*, 1989: 138.
Shrub or tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Vásquez & Jaramillo 7736 (MO!)
Depts.: LO

Xylopia peruviana R. E. Fries
Ref. FP 13(2/3) 1938: 746.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Spruce 4166* (W), Maas *et al.* 6013 (MO!)
Depts.: SM

Xylopia poeppigii R. E. Fries =Xylopia cuspidata Diels
Ref. FP 13(2/3) 1938: 747; Maas & Westra, 1993 [in press].

Xylopia ruscifolia Humboldt & Bonpland ex Dunal, nom. nud. =Xylopia ligustrifolia Humboldt & Bonpland ex Dunal
Ref. FP 13(2/3) 1938: 745.

Xylopia sericea A. St. Hilaire
Ref. Maas *et al.*, 1987: 132.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez *et al.* 6582 (MO!)
Depts.: HU, LO, UC

Xylopia ulei Diels =Xylopia benthamii R. E. Fries
Ref. Maas *et al.*, 1986: 277.

Xylopia usitata Diels =Xylopia ligustrifolia Humboldt & Bonpland ex Dunal
Ref. FP 13(2/3) 1938: 745.

Xylopicrum ligustrifolium (Humboldt & Bonpland ex Dunal) Kuntze =Xylopia ligustrifolia Humboldt & Bonpland ex Dunal
Ref. FP 13(2/3) 1938: 745.

Xylopicrum neglectum Kuntze =Xylopia parviflora Spruce
Ref. Maas *et al.*, 1986: 277.

Apiaceae

29 genera and 88 species in Peru.

Endemic genus: *Paraselinum*.
Endemic species: 26.

Prepared by J. L. Zarucchi; reviewed by L. Constance (UC).

Aethusa leptophylla (Persoon) Sprengel =Ciclospermum leptophyllum var. leptophyllum
Ref. FP 13(5A/1) 1962: 11; Constance, 1990: 277.

Ammi visnaga (L.) Lamarck
Syn. *Apium visnaga* Crantz, *Carum visnaga* Koso-Poljansky, *Daucus visnaga* L., *Selinum visnaga* Krause
Ref. FP 13(5A/1) 1962: 8.
Introduced herb. Andean I-II, Coastal: disturbed areas, lomas. 0-3000 m.
Voucher: West 8205 (MO!)
Depts.: AR, CA, LI, LL, MO

Anethum foeniculum L. =Foeniculum vulgare P. Miller
Ref. FP 13(5A/1) 1962: 61; Mathias & Constance, 1976b: 62.

Anethum graveolens L.
Syn. *Peucedanum anethum* Baillon, nom. illeg.
Ref. Mathias & Constance, 1976b: 63.
Introduced herb. Disturbed areas.
Note: No voucher seen at MO.

Anethum pastinaca Wibel =Pastinaca sativa L.
Ref. FP 13(5A/1) 1962: 90.

Anethum segetum L. =Ridolfia segetum (L.) Moris
Ref. FP 13(5A/1) 1962: 92.

Anthriscus nodiflora Koso-Poljansky =Torilis nodosa (L.) Gaertner
Ref. FP 13(5A/1) 1962: 97.

Apium ammi Urban =Ciclospermum leptophyllum var. leptophyllum
Ref. FP 13(5A/1) 1962: 11; Constance, 1990: 277.

Apium ammi var. *genuinum* H. Wolff =Ciclospermum leptophyllum var. leptophyllum
Ref. FP 13(5A/1) 1962: 11; Constance, 1990: 277.

Apium ammi var. *leptophyllum* (Persoon) Kuntze =Ciclospermum leptophyllum var. leptophyllum

Ref. FP 13(5A/1) 1962: 11; Constance, 1990: 277.

Apium biternatum (Philippi) Reiche =Ciclospermum laciniatum (DC.) Constance
Ref. FP 13(5A/1) 1962: 10; Constance, 1990: 278.

Apium crispum P. Miller =Petroselinum crispum (Miller) Nyman ex A. W. Hill
Ref. FP 13(5A/1) 1962: 91.

Apium depressum M. E. Jones =Ciclospermum leptophyllum var. leptophyllum
Ref. FP 13(5A/1) 1962: 11; Constance, 1990: 277.

Apium dissectum (Bentham) Drude =Niphogeton dissecta (Bentham) J. F. Macbride
Ref. FP 13(5A/1) 1962: 81; Mathias & Constance, 1951a: 415; Mathias & Constance, 1976b: 54.

Apium graveolens L.
Syn. *Apium vulgare* Bubani, *Carum graveolens* (L.) Koso-Poljansky, *Celeri graveolens* (L.) Britton, *Selinum graveolens* (L.) Krause, *Seseli graveolens* Scopoli, *Sium apium* Roth, *Sium graveolens* (L.) Vest
Ref. FP 13(5A/1) 1962: 9; Mathias & Constance, 1976b: 59.
Introduced herb. Andean I-II, Coastal: disturbed areas, riversides. 0-2500 m.
Voucher: Knapp 8295 (MO!)
Depts.: AR, CU, LI

Apium laciniatum (DC.) Urban =Ciclospermum laciniatum (DC.) Constance
Ref. FP 13(5A/1) 1962: 10; Constance, 1990: 277.

Apium laciniatum fo. *deserticolum* (Philippi) H. Wolff =Ciclospermum laciniatum (DC.) Constance
Ref. FP 13(5A/1) 1962: 10; Constance, 1990: 278.

Apium laciniatum fo. *elatius* (Hooker & Arnott) H. Wolff =Ciclospermum leptophyllum var. leptophyllum
Ref. FP 13(5A/1) 1962: 10; Constance, 1990: 277.

Apium laciniatum var. *gracile* (D. Clos ex Gay) Reiche =Ciclospermum laciniatum (DC.) Constance
Ref. FP 13(5A/1) 1962: 10; Constance, 1990: 278.

Apium laciniatum var. *hispidulum* H. Wolff =Ciclospermum laciniatum (DC.) Constance
Ref. FP 13(5A/1) 1962: 10; Constance, 1990: 278.

Apium leptophyllum (Persoon) F. Mueller =Ciclospermum leptophyllum var. leptophyllum
Ref. FP 13(5A/1) 1962: 11; Constance, 1990: 277.

Apium leptophyllum Maza =Ciclospermum leptophyllum var. leptophyllum
Ref. FP 13(5A/1) 1962: 11.
Note: Not included in the list of synonyms under *Ciclospermum leptophyllum* var. *leptophyllum* by Constance (1990: 277).

Apium petroselinum L. =Petroselinum crispum (Miller) Neyman ex A. W. Hill
Ref. FP 13(5A/1) 1962: 91.

Apium scabrum H. Wolff =Niphogeton scabra (H. Wolff) J. F. Macbride
Ref. FP 13(5A/1) 1962: 83; Mathias & Constance, 1951a: 417.

Apium visnaga (L.) Crantz =Ammi visnaga (L.) Lamarck
Ref. FP 13(5A/1) 1962: 8.

Apium vulgare Bubani =Apium graveolens L.
Ref. FP 13(5A/1) 1962: 9.

Apium weberbaueri H. Wolff =Niphogeton dissecta (Bentham) J. F. Macbride
Ref. FP 13(5A/1) 1962: 81; Mathias & Constance, 1951a: 415; Mathias & Constance, 1976b: 54.

Arracacia acuminata Bentham =Neonelsonia acuminata (Bentham) J. M. Coulter & Rose
Ref. FP 13(5A/1) 1962: 78.

Arracacia andina Britton
Ref. FP 13(5A/1) 1962: 14; Mathias & Constance, 1976b: 46.
Herb. Andean II: rocky slopes, shrublands. 2000-2500 m.
Note: Possibly a synonym of *A. xanthorrhiza* Bancroft (Constance, pers. comm.).
Voucher: Sagástegui & Mostacero 9124 (MO!)
Depts.: CA

Arracacia elata H. Wolff
Ref. FP 13(5A/1) 1962: 15; Mathias & Constance, 1976b: 43.
Endemic herb or shrub. Andean II-III: disturbed areas, riversides, rocky slopes. 2000-4000 m.
Voucher: Weberbauer 4423* (F), Díaz *et al.* 2648 (MO!)
Depts.: AM, AY, CA, CU, HU, LL, PI, PU, SM

Arracacia equatorialis Constance
Ref. FP 13(5A/1) 1962: 16; Mathias & Constance, 1976b: 46.
Herb. Andean II-III: shrublands. 2000-3500 m.
Voucher: Vargas 8795 (F)
Depts.: AP, CA, CU, JU

Arracacia esculenta DC. =Arracacia xanthorrhiza Bancroft
Ref. FP 13(5A/1) 1962: 18; Mathias & Constance, 1976b: 45.

Arracacia incisa H. Wolff
Ref. FP 13(5A/1) 1962: 16.
Endemic shrub. Andean II-III: disturbed areas, rocky slopes. 2000-4000 m.
Voucher: Weberbauer 165* (B), Hutchison & Tovar 4234 (MO!)
Depts.: AN, CU, HU, LI, PA

Arracacia peruviana (H. Wolff) Constance
Syn. *Velaea peruviana* H. Wolff
Ref. FP 13(5A/1) 1962: 18.
Endemic herb or shrub. Andean II: rocky slopes, shrublands. 2500-3500 m.
Voucher: Weberbauer 2748* (F), Sagástegui 11447 (MO!)
Depts.: AN, AY, CA, LI, MO

Arracacia xanthorrhiza Bancroft
Syn. *Arracacha esculenta* DC., *Bancroftia xanthorrhiza* (Bancroft) Billberg, *Conium arracacha* Hooker
Ref. FP 13(5A/1) 1962: 18; Mathias & Constance, 1976b: 45.
Herb. Andean II-III: disturbed areas. 3000-4000 m.
Voucher: Brunel 545 (MO!)
Depts.: CA, CU, LI

Asteriscium amplexicaulis H. Wolff =Domeykoa amplexicaulis (H. Wolff) Mathias & Constance
Ref. FP 13(5A/1) 1962: 45; Mathias & Constance, 1962b: 175.

Asteriscium longirameum H. Wolff =Eremocharis longiramea (H. Wolff) I. M. Johnston
Ref. FP 13(5A/1) 1962: 51; Mathias & Constance, 1962b: 167.

Asteriscium tripartitum H. Wolff =Eremocharis tripartita (H. Wolff) Mathias & Constance
Ref. FP 13(5A/1) 1962: 52; Mathias & Constance, 1962b: 169.

Asteriscium triradiatum H. Wolff =Eremocharis triradiata (H. Wolff) I. M. Johnston
Ref. FP 13(5A/1) 1962: 53; Mathias & Constance, 1962b: 157.

Azorella biloba (Schlechtendal) Weddell
Syn. *Azorella biloba* fo. *subglabra* Kuntze, *Azorella biloba* var. *strigosa* Weddell, *Azorella lehmannii* Hieronymus, *Fragosa biloba* Schlechtendal
Ref. FP 13(5A/1) 1962: 20; Martínez, 1989: 154; Mathias & Constance, 1976b: 11.
Herb or subshrub. Andean II-III: disturbed areas, shrublands. 3000- > 4500 m.
Voucher: Lechler s.n.* (B), Hawkes *et al.* 4119 (MO!)
Depts.: CA, CU, JU, PU

Azorella biloba fo. *subglabra* Kuntze =Azorella biloba (Schlechtendal) Weddell
Ref. FP 13(5A/1) 1962: 20; Mathias & Constance, 1976b: 11.

Azorella biloba var. *strigosa* Weddell =Azorella biloba (Schlechtendal) Weddell
Ref. FP 13(5A/1) 1962: 20; Mathias & Constance, 1976b: 11.

Azorella cladorrhiza (R. & P.) Persoon =Azorella crenata (R. & P.) Persoon
Ref. FP 13(5A/1) 1962: 23; Mathias & Constance, 1976b: 12.

Azorella columnaris H. Wolff =Azorella compacta Philippi
Ref. FP 13(5A/1) 1962: 21.

Azorella compacta Philippi
Syn. *Azorella columnaris* H. Wolff, *Azorella prismatoclada* Domin, *Azorella yareta* Hauman, *Laretia compacta* (Philippi) Reiche
Ref. FP 13(5A/1) 1962: 21; Martínez, 1989: 155.
Herb or subshrub. Andean III: grasslands, shrublands. 4000- > 4500 m.
Voucher: Vargas 13113 (F)
Depts.: AR, HU, MO, PU

Azorella corymbosa (R. & P.) Persoon
Syn. *Fragosa corymbosa* R. & P.
Ref. FP 13(5A/1) 1962: 22; Mathias & Constance, 1976b: 15.
Herb or subshrub. Andean III: grasslands. 4000-4500 m.
Voucher: Ruiz & Pavón s.n.* (MA), Macbride 4899 (F)
Depts.: AN, HU

Azorella crenata (R. & P.) Persoon
Syn. *Azorella cladorrhiza* (R. & P.) Persoon, *Azorella crenata* var. *compacta* (Philippi) Weddell, *Azorella crenata* var. *mutisiana* Hieronymus, *Azorella mutisiana* Hieronymus ex H. Wolff, *Bolax cladorrhizus* (R. & P.) Sprengel, *Bolax crenatus* (R. & P.) Sprengel, *Fragosa cladorrhiza* R. & P., *Fragosa crenata* R. & P., *Fragosa glabra* Lagasca
Ref. FP 13(5A/1) 1962: 23; Mathias & Constance, 1976b: 12.
Herb or subshrub. Andean II-III: grasslands, rocky slopes. 3000-4500 m.
Voucher: Mostacero *et al.* 1505 (MO!)
Depts.: AN, CU, HU, HV, JU, LI, PA, PI, PU, SM

Azorella crenata var. *compacta* (Philippi) Weddell =Azorella crenata (R. & P.) Persoon
Ref. FP 13(5A/1) 1962: 23; Mathias & Constance, 1976b: 12.

Azorella crenata var. *mutisiana* Hieronymus =Azorella crenata (R. & P.) Persoon
Ref. FP 13(5A/1) 1962: 23; Mathias & Constance, 1976b: 12.

Azorella diapensioides A. Gray
Syn. *Azorella diapensioides* var. *denticulata* Weddell, *Azorella diapensioides* var. *glabra* Weddell, *Azorella glabra* Weddell
Ref. FP 13(5A/1) 1962: 24; Mathias & Constance, 1976b: 7.
Herb or subshrub. Andean III: grasslands. 3500- > 4500 m.
Voucher: Duncan *et al.* 2649 (MO!)
Depts.: AP, AR, AY, CU, HV, JU, LI, PA, PU, TA

Azorella diapensioides var. *denticulata* Weddell =Azorella diapensioides A. Gray
Ref. FP 13(5A/1) 1962: 24; Mathias & Constance, 1976b: 7.

Azorella diapensioides var. *glabra* Weddell =Azorella diapensioides A. Gray
Ref. FP 13(5A/1) 1962: 24; Mathias & Constance, 1976b: 7.

Azorella glabra Weddell =Azorella diapensioides A. Gray
Ref. FP 13(5A/1) 1962: 24; Mathias & Constance, 1976b: 7.

Azorella laxa H. Wolff =Azorella multifida (R. & P.) Persoon
Ref. FP 13(5A/1) 1962: 25; Mathias & Constance, 1976b: 10.

Azorella lehmannii Hieronymus =Azorella biloba (Schlechtendal) Weddell
Ref. FP 13(5A/1) 1962: 24; Mathias & Constance, 1976b: 11.
Note: Treated as a synonym of *A. diapensioides* A. Gray in the Flora of Peru.

Azorella multifida (R. & P.) Persoon
Syn. *Azorella laxa* H. Wolff, *Azorella weberbaueri* H. Wolff, *Bolax multifidus* (R. & P.) Sprengel ex Roemer & Schultes, *Fragosa multifida* R. & P.
Ref. FP 13(5A/1) 1962: 25; Mathias & Constance, 1976b: 10.
Herb or subshrub. Andean II-III: grasslands, shrublands. 3000- > 4500 m.
Voucher: Dombey s.n.* (MA), Hutchison 1625 (MO!)
Depts.: AM, AN, AP, AY, CA, CU, HU, HV, JU, LI, LL, PA, PI, PU

Azorella mutisiana Hieronymus ex H. Wolff =Azorella crenata (R. & P.) Persoon
Ref. FP 13(5A/1) 1962: 23; Mathias & Constance, 1976b: 12.

Azorella prismatoclada Domin =Azorella compacta Philippi
Ref. FP 13(5A/1) 1962: 21.

Azorella pulvinata Weddell
Ref. FP 13(5A/1) 1962: 27; Mathias & Constance, 1957: 189; Mathias & Constance, 1976b: 16.
Herb or subshrub. Andean III: grasslands, rocky slopes. 4000- > 4500 m.
Voucher: Rauh & Hirsch P1887 (F)
Depts.: AN, CU, HU

Azorella reniformis (R. & P.) Persoon
Syn. *Fragosa reniformis* R. & P.
Ref. FP 13(5A/1) 1962: 23.
Ref. Constance, pers. comm.
Endemic herb.
Note: Known from Peru only from the type locality.
Voucher: Dombey s.n.* (P!)
Depts.: Without full locality data.

Azorella weberbaueri H. Wolff =Azorella multifida (R. & P.) Persoon
Ref. FP 13(5A/1) 1962: 25; Mathias & Constance, 1976b: 10.

Azorella yareta Hauman =Azorella compacta Philippi
Ref. FP 13(5A/1) 1962: 21.

Bancroftia xanthorrhiza Billberg =Arracacia xanthorrhiza Bancroft
Ref. FP 13(5A/1) 1962: 18; Mathias & Constance, 1976b: 45.

Bolax cladorrhizus (R. & P.) Sprengel =Azorella crenata (R. & P.) Persoon
Ref. FP 13(5A/1) 1962: 23; Mathias & Constance, 1976b: 12.

Bolax crenatus (R. & P.) Sprengel =Azorella crenata (R. & P.) Persoon
Ref. FP 13(5A/1) 1962: 23; Mathias & Constance, 1976b: 12.

Bolax multifidus (R. & P.) Sprengel ex Roemer & Schultes =Azorella multifida (R. & P.) Persoon
Ref. FP 13(5A/1) 1962: 25; Mathias & Constance, 1976b: 10.

Bowlesia acutangula Bentham =Bowlesia lobata R. & P.
Ref. FP 13(5A/1) 1962: 30; Mathias & Constance, 1965: 20; Mathias & Constance, 1976b: 17.

Bowlesia acutiloba H. Wolff =Bowlesia lobata R. & P.
Ref. FP 13(5A/1) 1962: 30; Mathias & Constance, 1965: 20; Mathias & Constance, 1976b: 17.

Bowlesia argenticaulis Mathias & Constance
Ref. Mathias & Constance, 1971: 99.
Endemic herb. Andean III: disturbed areas, grasslands, shrublands. 3500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Hutchison *et al.* 6261* (MO!)
Depts.: LL

[*Bowlesia asiatica* Nasir =Bowlesia incana R. & P.]
Ref. FP 13(5A/1) 1962: 30; Mathias & Constance, 1965: 33.
Note: Not known from Peru.

[*Bowlesia brevipes* Philippi ex Reiche =Bowlesia incana R. & P.]
Ref. FP 13(5A/1) 1962: 30.
Note: Not known from Peru.

Bowlesia cirrosa Philippi =Bowlesia tropaeolifolia Gillies & Hooker
Ref. FP 13(5A/1) 1962: 36; Mathias & Constance, 1965: 15.

Bowlesia diversifolia Meyen =Bowlesia tropaeolifolia Gillies & Hooker
Ref. FP 13(5A/1) 1962: 30; Mathias & Constance, 1965: 15.
Note: Questionably placed in synonymy under *B. lobata* in the Flora of Peru.

Bowlesia flabilis J. F. Macbride
Syn. *Bowlesia palmata* var. *acutangula* Kuntze, *Drusa acutangula* (Bentham) Drude
Ref. FP 13(5A/1) 1962: 29; Mathias & Constance, 1965: 36.
Herb, shrub or vine. Andean II: rocky slopes. 2000-3500 m.
Voucher: Macbride & Featherstone 1718* (F)
Depts.: CU, HU, HV, JU, PU

Bowlesia flexilis Meyen =Bowlesia tropaeolifolia Gillies & Hooker
Ref. FP 13(5A/1) 1962: 36; Mathias & Constance, 1965: 15.

[*Bowlesia geraniifolia* Chamisso & Schlechtendal =Bowlesia incana R. & P.]
Ref. FP 13(5A/1) 1962: 30; Mathias & Constance, 1965: 31.
Note: Not known from Peru.

[Bowlesia incana R. & P.]
Syn. *Bowlesia asiatica* Nasir, *Bowlesia brevipes* Philippi ex Reiche, *Bowlesia geraniifolia* Chamisso & Schlechtendal, *Bowlesia incana* fo. *crassifolia* Urban, *Bowlesia incana* fo. *tenera* (Sprengel) Urban, *Bowlesia nodiflora* Presl ex DC., *Bowlesia rotundifolia* Philippi, *Bowlesia rubra* Larrañaga, *Bowlesia septentrionalis* J. M. Coulter & Rose, *Bowlesia tenera* Sprengel
Ref. FP 13(5A/1) 1962: 30; Mathias & Constance, 1965: 31.
Note: Not known from Peru. Although claimed as Peruvian in origin, the type material is from "Concepción de Chile" (Mathias & Constance, 1965).

[*Bowlesia incana* fo. *crassifolia* Urban =Bowlesia incana R. & P.]
Ref. FP 13(5A/1) 1962: 30; Mathias & Constance, 1965: 31.
Note: Not known from Peru.

[*Bowlesia incana* fo. *tenera* (Sprengel) Urban =Bowlesia incana R. & P.]
Ref. FP 13(5A/1) 1962: 30; Mathias & Constance, 1965: 31.
Note: Not known from Peru.

Bowlesia lobata R. & P.
Syn. *Bowlesia acutangula* Bentham, *Bowlesia acutiloba* H. Wolff
Ref. FP 13(5A/1) 1962: 30; Mathias & Constance, 1965: 20; Mathias & Constance, 1976b: 17.
Herb or vine. Andean II-III. 2500- > 4500 m.
Voucher: Ruiz s.n.* (B photo F), Killip & Smith 21605 (MO!)
Depts.: AN, CU, LI, PA, PU

Bowlesia lobata var. *chiclensis* Ball =Bowlesia setigera H. Wolff
Ref. FP 13(5A/1) 1962: 33; Mathias & Constance, 1965: 50; Mathias & Constance, 1976b: 19.

Bowlesia lobata var. *humifusa* Ball =Bowlesia tenella Meyen
Ref. FP 13(5A/1) 1962: 35; Mathias & Constance, 1965: 47.

Bowlesia mandonii Rusby =Bowlesia tenella Meyen
Ref. FP 13(5A/1) 1962: 35; Mathias & Constance, 1965: 47.

[*Bowlesia nodiflora* Presl ex DC. =Bowlesia incana R. & P.]
Ref. FP 13(5A/1) 1962: 30; Mathias & Constance, 1965: 31.
Note: Not known from Peru.

Bowlesia palmata R. & P.
Syn. *Bowlesia palmata* var. *lacerata* Kuntze
Ref. FP 13(5A/1) 1962: 32; Mathias & Constance, 1965: 52; Mathias & Constance, 1976b: 19.
Herb or vine. Andean I-II, Coastal: disturbed areas, lomas, rocky slopes. 0-3000 m.
Voucher: Dombey s.n.* (P), Hutchison 1308 (UC)
Depts.: AN, AR, CA, LI, LL

Bowlesia palmata var. *acutangula* Kuntze =Bowlesia flabilis J. F. Macbride
Ref. FP 13(5A/1) 1962: 29, 30; Mathias & Constance, 1965: 36; Mathias & Constance, 1976b: 18.

Bowlesia palmata var. *lacerata* Kuntze =Bowlesia palmata R. & P.
Ref. FP 13(5A/1) 1962: 32; Mathias & Constance, 1965: 32; Mathias & Constance, 1976b: 19.

Bowlesia pulchella Weddell =Bowlesia tropaeolifolia Gillies & Hooker
Ref. FP 13(5A/1) 1962: 36; Mathias & Constance, 1965: 15.

[*Bowlesia rotundifolia* Philippi =Bowlesia incana R. & P.]
Ref. FP 13(5A/1) 1962: 30; Mathias & Constance, 1965: 33.
Note: Not known from Peru.

[*Bowlesia rubra* Larrañaga =Bowlesia incana R. & P.]
Ref. FP 13(5A/1) 1962: 30; Mathias & Constance, 1965: 33.
Note: Not known from Peru.

Bowlesia rupestris H. Wolff =Bowlesia tropaeolifolia Gillies & Hooker
Ref. FP 13(5A/1) 1962: 37; Mathias & Constance, 1965: 15.

Bowlesia septentrionalis J. M. Coulter & Rose =Bowlesia incana R. & P.
Ref. FP 13(5A/1) 1962: 30; Mathias & Constance, 1965: 33.

Bowlesia setigera H. Wolff
Syn. *Bowlesia lobata* var. *chiclensis* Ball
Ref. FP 13(5A/1) 1962: 33; Mathias & Constance, 1965: 50; Mathias & Constance, 1976b: 19.
Herb. Andean II-III: grasslands. 1500-4000 m.
Voucher: Weberbauer 2659* (B photo F), Killip & Smith 21641 (MO!)
Depts.: AN, LI

Bowlesia sodiroana H. Wolff
Ref. FP 13(5A/1) 1962: 34; Mathias & Constance, 1965: 43; Mathias & Constance, 1976b: 18.
Herb or vine. Andean I-III, Coastal: grasslands, lomas. 0-4000 m.
Voucher: Worth & Morrison 15714 (MO!)
Depts.: AN, AR, AY, CA, CU, LI

Bowlesia tenella Meyen
Syn. *Bowlesia lobata* var. *humifusa* Ball, *Bowlesia mandonii* Rusby
Ref. FP 13(5A/1) 1962: 35; Mathias & Constance, 1965: 47.
Herb. Andean III: rocky slopes. 3500-4500 m.
Voucher: Meyen s.n.* (B photo F), Smith *et al.* 9677 (MO!)
Depts.: AN, CU, JU, LI, PU, TA

[*Bowlesia tenera* Sprengel =Bowlesia incana R. & P.]
Ref. FP 13(5A/1) 1962: 30; Mathias & Constance, 1965: 31.
Note: Not known from Peru.

Bowlesia tropaeolifolia Gillies & Hooker
Syn. *Bowlesia cirrosa* Philippi, *Bowlesia diversifolia* Meyen, *Bowlesia flexilis* Meyen, *Bowlesia pulchella* Weddell, *Bowlesia rupestris* H. Wolff, *Bowlesia tropaeolifolia* var. *cirrosa* Reiche, *Bowlesia tropaeolifolia* var. *gayana* Domin, *Bowlesia tropaeolifolia* var. *heterophylla* Spegazzini, *Bowlesia tropaeolifolia* var. *patagonica* Spegazzini
Ref. FP 13(5A/1) 1962: 36; Mathias & Constance, 1965: 15.
Herb or subshrub. Andean II-III: grasslands, rocky slopes, shrublands. 3000- > 4500 m.
Voucher: Weberbauer 7349 (MO!)
Depts.: AN, AR, CU, HV, JU, LI, MO, PA, PU, TA

Bowlesia tropaeolifolia var. *cirrosa* Reiche =Bowlesia tropaeolifolia Gillies & Hooker
Ref. FP 13(5A/1) 1962: 36; Mathias & Constance, 1965: 15.

Bowlesia tropaeolifolia var. *gayana* Domin =Bowlesia tropaeolifolia Gillies & Hooker
Ref. FP 13(5A/1) 1962: 37; Mathias & Constance, 1965: 15.

Bowlesia tropaeolifolia var. *heterophylla* Spegazzini =Bowlesia tropaeolifolia Gillies & Hooker

Ref. FP 13(5A/1) 1962: 37; Mathias & Constance, 1965: 15.

Bowlesia tropaeolifolia var. *patagonica* Spegazzini =Bowlesia tropaeolifolia Gillies & Hooker
Ref. FP 13(5A/1) 1962: 37; Mathias & Constance, 1965: 15.

Caldasia andicola Lagasca ex DC. =Oreomyrrhis andicola (H.B.K.) Hooker f.
Ref. FP 13(5A/1) 1962: 85; Mathias & Constance, 1953: 365; Mathias & Constance, 1976b: 57.

Caldasia chaerophyllaea DC. =Oreomyrrhis andicola (H.B.K.) Hooker f.
Ref. FP 13(5A/1) 1962: 85; Mathias & Constance, 1953: 365; Mathias & Constance, 1976b: 57.

Caldasia chaerophyllaea var. *glabriuscula* DC. =Oreomyrrhis andicola (H.B.K.) Hooker f.
Ref. FP 13(5A/1) 1962: 85; Mathias & Constance, 1953: 365; Mathias & Constance, 1976b: 57.

Caldasia chaerophyllaea var. *hirsuta* DC. =Oreomyrrhis andicola (H.B.K.) Hooker f.
Ref. FP 13(5A/1) 1962: 85; Mathias & Constance, 1953: 365; Mathias & Constance, 1976b: 57.

Caldasia chaerophylloides Lagasca =Oreomyrrhis andicola (H.B.K.) Hooker f.
Ref. FP 13(5A/1) 1962: 85; Mathias & Constance, 1953: 365; Mathias & Constance, 1976b: 57.

Caldasia lasiopetala Lagasca ex DC. =Oreomyrrhis andicola (H.B.K.) Hooker f.
Ref. FP 13(5A/1) 1962: 85; Mathias & Constance, 1953: 365; Mathias & Constance, 1976b: 57.

Carota sativa Ruprecht =Daucus carota L.
Ref. FP 13(5A/1) 1962: 41.

Carum carvi L.
Introduced herb. Andean II: disturbed areas. 1500-3500 m.
Voucher: Sullivan *et al.* 994 (MO!)
Depts.: JU, LI

Carum graveolens (L.) Koso-Poljansky =Apium graveolens L.
Ref. FP 13(5A/1) 1962: 9.

Carum petroselinum Bentham & Hooker f. =Petroselinum crispum (Miller) Mansfeld
Ref. FP 13(5A/1) 1962: 91.

Carum visnaga (L.) Koso-Poljansky =Ammi visnaga (L.) Lamarck
Ref. FP 13(5A/1) 1962: 8.

Caucalis carota (L.) Crantz =Daucus carota L.
Ref. FP 13(5A/1) 1962: 41.

Caucalis daucus Crantz =Daucus carota L.
Ref. FP 13(5A/1) 1962: 41.

Caucalis nodiflora Lamarck =Torilis nodosa (L.) Gaertner
Ref. FP 13(5A/1) 1962: 97.

Caucalis nodosa Scopoli =Torilis nodosa (L.) Gaertner
Ref. FP 13(5A/1) 1962: 97.

Celeri graveolens Britton =Apium graveolens L.
Ref. FP 13(5A/1) 1962: 9.

[Centella asiatica (L.) Urban]
Syn. *Hydrocotyle asiatica* L.
Ref. Mathias & Constance, 1976b: 34.
Note: Not known from Peru. Only one specimen, *Dombey 591* (G), has been reported, and the exact locality of this collection is unknown. Unless it is a chance introduction, the plant would probably not be *C. asiatica* (the Asian diploid); all New World members of the *C. asiatica* complex are polyploid so far as known (Constance, pers. comm.).

Ciclospermum ammi Lagasca =Ciclospermum leptophyllum var. leptophyllum
Ref. FP 13(5A/1) 1962: 11; Constance, 1990: 277.

Ciclospermum laciniatum (DC.) Constance
Syn. *Apium biternatum* (Philippi) Reiche, *Apium laciniatum* (DC.) Urban, *Apium laciniatum* fo. *deserticolum* (Philippi) H. Wolff, *Apium laciniatum* var. *gracile* (D. Clos ex Gay) Reiche, *Apium laciniatum* var. *hispidulum* H. Wolff, *Helosciadium biternatum* Philippi, *Helosciadium deserticolum* Philippi, *Helosciadium gracile* D. Clos ex Gay, *Helosciadium laciniatum* DC., *Helosciadium laciniatum* var. *humile* Hooker & Arnott, *Sison laciniatum* L'Héritier ex DC.
Ref. Constance, 1990: 277.
Herb. Coastal: lomas, rocky slopes. 0-1000 m.
Voucher: Ferreyra 8673 (F)
Depts.: AN, AR, LI, LL, MO, TA

Ciclospermum leptophyllum (Persoon) Eichler var. **leptophyllum**
Syn. *Aethusa leptophylla* (Persoon) Sprengel, *Apium ammi* Urban, *Apium ammi* var. *genuinum* H. Wolff, *Apium ammi* var. *leptophyllum* (Persoon) Kuntze, *Apium depressum* M. E. Jones, *Apium laciniatum* fo. *elatius* (Hooker & Arnott) H. Wolff, *Apium leptophyllum* (Persoon) F. Mueller, *Apium leptophyllum* Maza, *Ciclospermum ammi* Lagasca, *Cyclospermum leptophyllum* (Persoon) Sprague, nom. illeg., *Helosciadium ammi* Britton, *Helosciadium laciniatum* var. *elatius* Hooker & Arnott, *Helosciadium leptophyllum* DC., *Pimpinella domingensis* Willdenow ex Roemer & Schultes, *Pimpinella leptophylla* Persoon, *Selinum leptophyllum* (Persoon) Krause, *Seseli ammi* Savi, *Sison ammi* L., *Sium nodiflorum* Walter
Ref. Constance, 1990: 277.
Herb. Andean I-III, Coastal: disturbed areas. 0-4000 m.
Voucher: Vargas 4083 (F)
Depts.: AM, AN, AY, CA, CU, HU, HV, JU, LI, LL, PU

Cicuta major Lamarck =Conium maculatum L.
Ref. FP 13(5A/1) 1962: 38.

Cicuta officinalis Crantz =Conium maculatum L.
Ref. FP 13(5A/1) 1962: 38.

Conium arracacha Hooker =Arracacia xanthorrhiza Bancroft
Ref. FP 13(5A/1) 1962: 18; Mathias & Constance, 1976b: 45.

Conium cicuta Necker =Conium maculatum L.
Ref. FP 13(5A/1) 1962: 38.

Conium maculatum L.
Syn. *Cicuta major* Lamarck, *Cicuta officinalis* Crantz, *Conium cicuta* Necker, *Conium maculosum* Pallas, *Coriandrum cicuta* Crantz, *Coriandrum maculatum* Roth, *Selinum conium* Krause, *Sium conium* Vest
Ref. FP 13(5A/1) 1962: 38; Mathias & Constance, 1976b: 61.
Introduced aquatic or terrestrial herb. Andean II-III: disturbed areas, emergent, floating. 2000-4000 m.
Voucher: Herrera 308 (MO!)
Depts.: AM, AN, AR, CU, HU, HV, JU, LI, PU

Conium maculosum Pallas =Conium maculatum L.
Ref. FP 13(5A/1) 1962: 38.

Coriandrum cicuta Crantz =Conium maculatum L.
Ref. FP 13(5A/1) 1962: 38.

Coriandrum maculatum Roth =Conium maculatum L.
Ref. FP 13(5A/1) 1962: 38.

Coriandrum sativum L.
Syn. *Selinum coriandrum* Krause
Ref. FP 13(5A/1) 1962: 40; Mathias & Constance, 1976b: 63.
Amazonian, Andean I-II, Coastal: disturbed areas. 0-3500 m.
Voucher: Hudson 1051 (MO!)
Depts.: CA, IC, JU, LI, LL, LO, SM

Crantzia lineata Nuttall sensu Gay =Lilaeopsis macloviana (Gandoger) A. W. Hill
Ref. FP 13(5A/1) 1962: 77; Affolter, 1985: 89.

Crantzia lineata var. *subulata* Weddell =Lilaeopsis macloviana (Gandoger) A. W. Hill
Ref. FP 13(5A/1) 1962: 77; Affolter, 1985: 89.

Crantzia macloviana Gandoger =Lilaeopsis macloviana (Gandoger) A. W. Hill
Ref. Affolter, 1985: 89.

Cryptotaenia canadensis (L.) DC.
Syn. *Cryptotaenia japonica* Hasskarl, *Sison canadense* L.
Ref. Constance, pers. comm.
Introduced aquatic or terrestrial herb. Andean II: disturbed areas, forests. 1500-2000 m.
Voucher: Schunke 10181 (MO!)
Depts.: HU

Cryptotaenia japonica Hasskarl =Cryptotaenia canadense (L.) DC.
Ref. Constance, pers. comm.

Cyclospermum leptophyllum (Persoon) Sprague, comb. illeg. =Ciclospermum leptophyllum var. leptophyllum
Ref. FP 13(5A/1) 1962: 11; Constance, 1990: 277.

Daucus australis Poeppig =Daucus montanus Humboldt & Bonpland ex Sprengel
Ref. FP 13(5A/1) 1962: 42; Mathias & Constance, 1976b: 65.

Daucus carota L.
Syn. *Carota sativa* Ruprecht, *Caucalis carota* (L.) Crantz, *Caucalis daucus* Crantz
Ref. FP 13(5A/1) 1962: 41.
Introduced herb. Coastal: disturbed areas. 0-500 m.
Depts.: LI

Daucus montanus Humboldt & Bonpland ex Sprengel
Syn. *Daucus australis* Poeppig, *Daucus toriloides* DC., *Torilis peruviana* C. Presl
Ref. FP 13(5A/1) 1962: 42; Mathias & Constance, 1976b: 65.
Herb. Andean II-III, Coastal: disturbed areas, lomas, rocky slopes. 0-4500 m.
Voucher: Jones & Davidson 9104 (MO!)
Depts.: AN, AP, AR, CA, CU, HU, HV, JU, LA, LI, LL, PA, PI, SM

Daucus toriloides DC. =Daucus montanus Humboldt & Bonpland ex Sprengel
Ref. FP 13(5A/1) 1962: 42; Mathias & Constance, 1976b: 65.

Daucus visnaga L. =Ammi visnaga (L.) Lamarck
Ref. FP 13(5A/1) 1962: 8.

Domeykoa amplexicaulis (H. Wolff) Mathias & Constance
Syn. *Asteriscium amplexicaulis* H. Wolff
Ref. FP 13(5A/1) 1962: 45; Mathias & Constance, 1962b: 175.
Endemic herb. Coastal: lomas. 0-1000 m.
Voucher: Weberbauer 1560* (GH), Hutchison 1869 (MO!)
Depts.: AR

Domeykoa saniculifolia Mathias & Constance
Ref. FP 13(5A/1) 1962: 46; Mathias & Constance, 1962b: 179.
Endemic herb. Coastal: lomas. 0-1000 m.
Voucher: Ferreyra 12544* (UC), Ferreyra 13395 (UC, USM)
Depts.: AR, IC, MO, TA

Drusa acutangula (Bentham) Drude =Bowlesia flabilis J. F. Macbride
Ref. FP 13(5A/1) 1962: 29, 30; Mathias & Constance, 1965: 36; Mathias & Constance, 1976b: 18.

Eremocharis confinis I. M. Johnston
Ref. FP 13(5A/1) 1962: 48; Mathias & Constance, 1962b: 158.
Endemic herb. Andean II: shrublands. 1500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 7369* (F), Hutchison 1834 (UC)
Depts.: TA

Eremocharis dissecta (Bentham) I. M. Johnston =Eremocharis longiramea (H. Wolff) I. M. Johnston
Ref. FP 13(5A/1) 1962: 51; Mathias & Constance, 1962b: 167.

Eremocharis ferreyrae Mathias & Constance
Ref. FP 13(5A/1) 1962: 49; Mathias & Constance, 1962b: 163.
Endemic herb. Coastal: lomas. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Ferreyra 6463* (UC), Angulo 2574 (UC)
Depts.: AR

Eremocharis hutchisonii Mathias & Constance
Ref. FP 13(5A/1) 1962: 49; Mathias & Constance, 1962b: 161.
Endemic shrub or subshrub. Andean II: shrublands. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Hutchison 1277* (MO!)
Depts.: AR

Eremocharis integrifolia Mathias & Constance
Ref. FP 13(5A/1) 1962: 50; Mathias & Constance, 1962b: 171.
Endemic shrub or subshrub. Andean II: shrublands. 2000-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Asplund 10950* (UC), Macbride & Featherstone 555 (F)
Depts.: LI

Eremocharis longiramea (H. Wolff) I. M. Johnston
Syn. *Asteriscium longirameum* H. Wolff, *Eremocharis dissecta* I. M. Johnston
Ref. FP 13(5A/1) 1962: 51; Mathias & Constance, 1962b: 167.
Endemic herb or subshrub. Andean I-II, Coastal: lomas, rocky slopes, shrublands. 0-3000 m.
Voucher: Weberbauer 2993* (B photo F, USM), Sagástegui *et al.* 9798 (MO!)
Depts.: AN, CA, LA, LI, LL, PI

Eremocharis piscoensis Mathias & Constance
Ref. FP 13(5A/1) 1962: 52; Mathias & Constance, 1962b: 161.
Endemic shrub. Andean I-II, Coastal: lomas. 500-2000 m.
Voucher: Rauh & Hirsch P400* (UC), Weberbauer 5406 (F)
Depts.: AR, HV, IC

Eremocharis tripartita (H. Wolff) Mathias & Constance
Syn. *Asteriscium tripartitum* H. Wolff
Ref. FP 13(5A/1) 1962: 52; Mathias & Constance, 1962b: 169.
Endemic herb or subshrub. Andean II: rocky slopes, shrublands. 2000-3500 m.
Voucher: Weberbauer 3909* (B photo F, USM), Hutchison *et al.* 6214 (MO!)
Depts.: CA

Eremocharis triradiata (H. Wolff) I. M. Johnston
Syn. *Asteriscium triradiatum* H. Wolff
Ref. FP 13(5A/1) 1962: 53; Mathias & Constance, 1962b: 157.
Endemic herb or subshrub. Andean II: rocky slopes. 1500-3500 m.
Voucher: Weberbauer 4934* (B, destroyed), West 8074 (MO!)
Depts.: CU

Eryngium antihystericum Rottboell =Eryngium foetidum L.
Ref. FP 13(5A/1) 1962: 55.

Eryngium foetidum L.
Syn. *Eryngium antihystericum* Rottboell, *Eryngium foetidum* fo. *comosum* Urban, *Eryngium foetidum* fo. *nudum* H. Wolff
Ref. FP 13(5A/1) 1962: 55; Mathias & Constance, 1976b: 37.
Herb. Amazonian, Andean I: disturbed areas, seasonally inundated areas. 0-1500 m.
Voucher: Revilla 19 (MO!)
Depts.: AY, CU, HU, IC, JU, LO, SM, UC

Eryngium foetidum fo. *comosum* Urban =Eryngium foetidum L.
Ref. FP 13(5A/1) 1962: 55.

Eryngium foetidum fo. *nudum* H. Wolff =Eryngium foetidum L.
Ref. FP 13(5A/1) 1962: 55.

Eryngium humile Cavanilles
Syn. *Eryngium humile* subvar. *acaulis* Weddell, *Eryngium humile* var. *brevibracteatum* Hieronymus, *Eryngium humile* var. *caulescens* Kunth, *Eryngium humile* var. *caulescens* Jameson ex Hooker, *Eryngium humile* var. *gigantophyllum* H. Wolff, *Eryngium humile* var. *latipes* Jameson ex Hooker,

Eryngium humile var. *multiradiatum* Hieronymus, *Eryngium humile* var. *pulchellum* Weddell, *Eryngium humile* var. *radiciflorum* (Trattinnick) Hieronymus ex H. Wolff, *Eryngium humile* var. *stellatum* (Mutis) Hieronymus, *Eryngium humile* var. *subacaule* Kunth, *Eryngium humile* var. *typicum* H. Wolff, *Eryngium pulchellum* Weddell, *Eryngium radiciflorum* Trattinnick, *Eryngium stellatum* Mutis ex Delaroche f., *Eryngium subacaule* Cavanilles
Ref. FP 13(5A/1) 1962: 56; Mathias & Constance, 1976b: 38.
Herb. Andean II-III: grasslands, rocky slopes. 2500-4500 m.
Voucher: Sagástegui *et al.* 9681 (MO!)
Depts.: AM, AN, AP, AY, CA, CU, HU, HV, JU, LI, LL, PA, PI, SM

Eryngium humile subvar. *acaulis* Weddell =Eryngium humile Cavanilles
Ref. FP 13(5A/1) 1962: 57; Mathias & Constance, 1976b: 38.

Eryngium humile var. *brevibracteatum* Hieronymus ex Engler =Eryngium humile Cavanilles
Ref. FP 13(5A/1) 1962: 57; Mathias & Constance, 1976b: 38.

Eryngium humile var. *caulescens* Jameson ex Hooker =Eryngium humile Cavanilles
Ref. FP 13(5A/1) 1962: 57; Mathias & Constance, 1976b: 38.

Eryngium humile var. *caulescens* Kunth =Eryngium humile Cavanilles
Ref. FP 13(5A/1) 1962: 57; Mathias & Constance, 1976b: 38.

Eryngium humile var. *gigantophyllum* H. Wolff =Eryngium humile Cavanilles
Ref. FP 13(5A/1) 1962: 57; Mathias & Constance, 1976b: 38.

Eryngium humile var. *latipes* Jameson ex Hooker =Eryngium humile Cavanilles
Ref. FP 13(5A/1) 1962: 57; Mathias & Constance, 1976b: 38.

Eryngium humile var. *multiradiatum* Hieronymus =Eryngium humile Cavanilles
Ref. FP 13(5A/1) 1962: 57.

Eryngium humile var. *pulchellum* Weddell =Eryngium humile Cavanilles
Ref. FP 13(5A/1) 1962: 57; Mathias & Constance, 1976b: 38.

Eryngium humile var. *radiciflorum* (Trattinnick) Hieronymus ex H. Wolff =Eryngium humile Cavanilles
Ref. FP 13(5A/1) 1962: 57; Mathias & Constance, 1976b: 38.

Eryngium humile var. *stellatum* (Mutis) Hieronymus ex H. Wolff =Eryngium humile Cavanilles
Ref. FP 13(5A/1) 1962: 57; Mathias & Constance, 1976b: 38.

[*Eryngium humile* var. *subacaule* H. Wolff =Eryngium subacaule Cavanilles]
Ref. FP 13(5A/1) 1962: 57; Constance, pers. comm.

Eryngium humile var. *subacaule* Kunth =Eryngium humile Cavanilles
Ref. FP 13(5A/1) 1962: 56; Mathias & Constance, 1976b: 38.

Eryngium humile var. *typicum* H. Wolff =Eryngium humile Cavanilles
Ref. FP 13(5A/1) 1962: 57.

Eryngium nudicaule Urban
Syn. *Eryngium nudicaule* var. *peruvianum* Urban
Ref. Constance, pers. comm.
Herb. Andean III: disturbed areas, grasslands. 3500-4000 m.
Voucher: Vargas 9825 (F)
Depts.: CU, HU

Eryngium nudicaule var. *peruvianum* Urban =Eryngium nudicaule Urban
Ref. FP 13(5A/1) 1962: 58; Constance, pers. comm.

Eryngium pulchellum Weddell =Eryngium humile Cavanilles
Ref. FP 13(5A/1) 1962: 57; Mathias & Constance, 1976b: 38.

Eryngium radiciflorum Trattinnick =Eryngium humile Cavanilles
Ref. FP 13(5A/1) 1962: 57; Mathias & Constance, 1976b: 38.

Eryngium rauhianum Mathias & Constance
Ref. FP 13(5A/1) 1962: 59; Mathias & Constance, 1957: 192.
Herb. Andean II: grasslands, shrublands. 2000-3500 m.
Voucher: Rauh & Hirsch 1279* (F), Boeke & Boeke 3192 (MO!)
Depts.: CU, PU

Eryngium stellatum Mutis ex Delaroche f. =Eryngium humile Cavanilles
Ref. FP 13(5A/1) 1962: 56; Mathias & Constance, 1976b: 38.

[Eryngium subacaule Cavanilles]
Syn. *Eryngium humile* var. *subacaule* H. Wolff
Ref. FP 13(5A/1) 1962: 56; Mathias & Constance, 1976b: 38.
Note: Not known from Peru. The Flora of Peru erroneously lists this taxon as a synonym of *E. humile* (Constance, pers. comm.).

Eryngium weberbaueri H. Wolff
Ref. FP 13(5A/1) 1962: 60.
Herb. Andean II-III: grasslands, rocky slopes. 2500-4000 m.
Voucher: Weberbauer 2438* (B), Peyton & Peyton 140 (MO!)
Depts.: AY, CU, JU, PU

Foeniculum foeniculum Kartsen =Foeniculum vulgare P. Miller
Ref. FP 13(5A/1) 1962: 61.

Foeniculum officinale Allioni =Foeniculum vulgare P. Miller
Ref. FP 13(5A/1) 1962: 61.

Foeniculum segetum (L.) C. Presl =Ridolfia segetum (L.) Moris
Ref. FP 13(5A/1) 1962: 92.

Foeniculum vulgare P. Miller
Syn. *Anethum foeniculum* L., *Foeniculum foeniculum* Kartsen, *Foeniculum officinale* Allioni, *Ligusticum foeniculum* (L.) Crantz
Ref. FP 13(5A/1) 1962: 61; Mathias & Constance, 1976b: 62.
Introduced herb. Andean I-II, Coastal: disturbed areas, lomas, rocky slopes. 0-2000 m.
Voucher: Brunel 778 (MO!)
Depts.: AP, AR, CU, LI, SM

Fragosa biloba Schlechtendal =Azorella biloba (Schlechtendal) Weddell
Ref. FP 13(5A/1) 1962: 20; Mathias & Constance, 1976b: 11.

Fragosa cladorrhiza R. & P. =Azorella crenata (R. & P.) Persoon
Ref. FP 13(5A/1) 1962: 24; Mathias & Constance, 1976b: 12.

Fragosa corymbosa R. & P. =Azorella corymbosa (R. & P.) Persoon
Ref. FP 13(5A/1) 1962: 22; Mathias & Constance, 1976b: 15.

Fragosa crenata R. & P. =Azorella crenata (R. & P.) Persoon
Ref. FP 13(5A/1) 1962: 24; Mathias & Constance, 1976b: 12.

Fragosa glabra Lagasca =Azorella crenata (R. & P.) Persoon
Ref. FP 13(5A/1) 1962: 23; Mathias & Constance, 1976b: 12.

Fragosa multifida R. & P. =Azorella multifida (R. & P.) Persoon
Ref. FP 13(5A/1) 1962: 25; Mathias & Constance, 1976b: 10.

Fragosa reniformis R. & P. =Azorella reniformis (R. & P.) Persoon
Ref. FP 13(5A/1) 1962: 24; Constance, pers. comm.

Helosciadium ammi Britton =Ciclospermum leptophyllum var. leptophyllum
Ref. FP 13(5A/1) 1962: 11; Constance, 1990: 277.

Helosciadium biternatum Philippi =Ciclospermum laciniatum (DC.) Constance
Ref. FP 13(5A/1) 1962: 10; Constance, 1990: 278.

Helosciadium deserticolum Philippi =Ciclospermum laciniatum (DC.) Constance
Ref. FP 13(5A/1) 1962: 10; Constance, 1990: 278.

Helosciadium gracile D. Clos ex Gay =Ciclospermum laciniatum (DC.) Constance
Ref. FP 13(5A/1) 1962: 10; Constance, 1990: 278.

Helosciadium laciniatum DC. =Ciclospermum laciniatum (DC.) Constance
Ref. FP 13(5A/1) 1962: 10; Constance, 1990: 277.

Helosciadium laciniatum var. *elatius* Hooker & Arnott =Ciclospermum leptophyllum var. leptophyllum
Ref. FP 13(5A/1) 1962: 10; Constance, 1990: 277.

Helosciadium laciniatum var. *humile* Hooker & Arnott =Ciclospermum laciniatum (DC.) Constance
Ref. FP 13(5A/1) 1962: 10; Constance, 1990: 277.

Helosciadium leptophyllum DC. =Ciclospermum leptophyllum var. leptophyllum
Ref. FP 13(5A/1) 1962: 11; Constance, 1990: 277.

Huanaca spananthe Vela =Spananthe paniculata var. paniculata
Ref. FP 13(5A/1) 1962: 95; Mathias & Constance, 1976b: 36.

Hydrocotyle acuminata Urban var. **acuminata**
Syn. *Hydrocotyle eccentrica* Britton
Ref. FP 13(5A/1) 1962: 64; Mathias, 1936: 210; Mathias & Constance, 1951b: 300.
Herb or vine. Andean I-II: riversides, shrublands. 500-3000 m.
Voucher: Stork & Horton 10390 (MO!)
Depts.: CU, HV

Hydrocotyle acutifolia R. & P.
Syn. *Hydrocotyle cardiophylla* H. Wolff, *Spananthe sinuata* Sprengel
Ref. FP 13(5A/1) 1962: 64; Mathias, 1936: 222; Mathias & Constance, 1976b: 22.
Herb or vine. Andean I-II: grasslands, riversides, shrublands. 500-3500 m.
Voucher: Ruiz & Pavón s.n.* (MA photo F), Smith 3215 (MO!)
Depts.: AY, CU, HU, HV, JU, PA

Hydrocotyle alchemilloides A. Richard
Syn. *Hydrocotyle chamaemorus* var. *citriodora* Reiche, *Hydrocotyle citriodora* R. & P., *Hydrocotyle geranioides* A. Richard
Ref. FP 13(5A/1) 1962: 65; Mathias, 1936: 231; Mathias & Constance, 1976b: 25.
Herb. Andean II. 2000-3500 m.
Voucher: Jussieu s.n.* (P), Woytkowski 6695 (MO!)
Depts.: AM, CU, HU, JU, PA

[*Hydrocotyle asiatica* L. =Centella asiatica (L.) Urban]
Ref. Mathias & Constance, 1976b: 34.
Note: Not known from Peru.

Hydrocotyle batrachioides DC. =Hydrocotyle ranunculoides L. f.
Ref. FP 13(5A/1) 1962: 74; Mathias, 1936: 220; Mathias & Constance, 1976b: 22.

Hydrocotyle bonariensis Commerson ex Lamarck
Syn. *Hydrocotyle bonariensis* var. *multiflora* G. Don, *Hydrocotyle bonariensis* var. *tribotrys* DC., *Hydrocotyle multiflora* R. & P., *Hydrocotyle tribotrys* R. & P., *Hydrocotyle umbellata* var. *bonariensis* G. Don
Ref. FP 13(5A/1) 1962: 66; Mathias, 1936: 205.
Andean I-II, Coastal: disturbed areas, riversides. 0-3500 m.
Voucher: Gentry & Prance 16454 (MO!)
Depts.: AN, AP, AR, CU, HU, HV, IC, JU, LA, LI, LL, MO, PI, TA

Hydrocotyle bonariensis var. *multiflora* G. Don =Hydrocotyle bonariensis Commerson ex Lamarck
Ref. FP 13(5A/1) 1962: 66; Mathias, 1936: 205.

Hydrocotyle bonariensis var. *tribotrys* DC. =Hydrocotyle bonariensis Commerson ex Lamarck
Ref. FP 13(5A/1) 1962: 66; Mathias, 1936: 204.

Hydrocotyle bonplandii A. Richard var. **bonplandii**
Ref. Mathias, 1936: 231; Mathias & Constance, 1976b: 27.
Herb or vine. Andean II. 3000-3500 m.
Voucher: Hutchison & Wright 5746 (MO!)
Depts.: AM, AN, CA, CU, LL

Hydrocotyle bonplandii var. **glabra** Mathias
Ref. Mathias, 1936: 233.
Herb. Andean II: grasslands, riversides. 3000-3500 m.
Voucher: Barbour 3441 (MO!)
Depts.: AM

Hydrocotyle bonplandii var. **hirtipes** Mathias
Ref. FP 13(5A/1) 1962: 67; Mathias, 1936: 233.
Endemic herb. Andean I: grasslands. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Macbride 4236* (US)
Depts.: HU

Hydrocotyle cardiophylla H. Wolff =Hydrocotyle acutifolia R. & P.
Ref. FP 13(5A/1) 1962: 64; Mathias, 1936: 222; Mathias & Constance, 1976b: 22.

Hydrocotyle chamaemorus var. *citriodora* Reiche =Hydrocotyle alchemilloides A. Richard
Ref. FP 13(5A/1) 1962: 65; Mathias, 1936: 233.
Note: Treated by Mathias (1936) under *H. leucocephala*.

Hydrocotyle citriodora R. & P. =Hydrocotyle alchemilloides A. Richard
Ref. FP 13(5A/1) 1962: 65.

Hydrocotyle dahlgrenii Rose & J. F. Macbride
Ref. FP 13(5A/1) 1962: 68; Mathias, 1936: 221.
Endemic herb. Andean I: riversides. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Macbride 4776* (US)
Depts.: HU

Hydrocotyle eccentrica Britton =Hydrocotyle acuminata var. acuminata
Ref. FP 13(5A/1) 1962: 64; Mathias, 1936: 210.

[Hydrocotyle filipes Mathias]
Ref. FP 13(5A/1) 1962: 68; Mathias, 1936: 230; Mathias & Constance, 1975: 251.
Note: Not known from Peru, according to the re-assessment by Mathias & Constance (1975). Specimens cited under this name in the Flora of Peru are redetermined as *H. urbaniana*.

Hydrocotyle geranioides A. Richard =Hydrocotyle alchemilloides A. Richard
Ref. FP 13(5A/1) 1962: 65; Mathias, 1936: 228; Mathias & Constance, 1976b: 25.

Hydrocotyle globifera R. & P. ex Urban =Hydrocotyle globiflora R. & P.
Ref. FP 13(5A/1) 1962: 69.

Hydrocotyle globiflora R. & P.
Syn. *Hydrocotyle globifera* R. & P. ex Urban
Ref. FP 13(5A/1) 1962: 69; Mathias, 1936: 221.
Endemic herb. Andean I-II: riversides. 1000-2500 m.
Voucher: Ruiz & Pavón s.n.* (MA photo F), Gentry *et al.* 40046 (MO!)
Depts.: CA, HU, PA

Hydrocotyle gracilis R. & P.
Ref. FP 13(5A/1) 1962: 70; Mathias, 1936: 215.
Endemic herb. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Ruiz & Pavón s.n.* (MA)
Depts.: HU

Hydrocotyle humboldtii A. Richard
Syn. *Hydrocotyle humboldtii* var. *macrophylla* Mathias
Ref. FP 13(5A/1) 1962: 70; Mathias, 1936: 215; Mathias & Constance, 1976b: 32.

Herb or vine. Andean II: grasslands, riversides. 1500-3500 m.
Voucher: Sagástegui *et al.* 12142 (MO!)
Depts.: AM, AP, CA, CU, LL, PI

Hydrocotyle humboldtii var. *macrophylla* Mathias =Hydrocotyle humboldtii A. Richard
Ref. FP 13(5A/1) 1962: 70; Mathias, 1936: 216; Mathias & Constance, 1976b: 32.

Hydrocotyle incrassata R. & P.
Ref. FP 13(5A/1) 1962: 70; Mathias, 1936: 229.
Herb. Andean II: grasslands, riversides. 2000-3500 m.
Voucher: Ruiz & Pavón s.n.* (MA), Woytkowski 7801 (MO!)
Depts.: AM, AN, JU, LL, PU

[Hydrocotyle leucocephala Chamisso & Schlechtendal]
Ref. FP 13(5A/1) 1962: 71; Mathias & Constance, 1976b: 26.
Note: Not known from Peru, but expected.

Hydrocotyle longipes Mathias & Killip
Ref. FP 13(5A/1) 1962: 71; Mathias, 1936: 209.
Endemic herb. Andean I: forests. 500-1000 m.
Voucher: Killip & Smith 22544* (MO!), Madison 10004-70 (NA!)
Depts.: AY, CU

Hydrocotyle macbridei Mathias & Constance =Hydrocotyle palmata Mathias
Ref. FP 13(5A/1) 1962: 71; Mathias & Constance, 1957: 191; Mathias & Constance, 1976: 28.

Hydrocotyle multifida A. Richard
Ref. Mathias, 1936: 219.
Herb or vine. Andean III: cloud forests. 3500-4000 m.
Voucher: Peyton & Peyton 778B (MO!)
Depts.: CU

Hydrocotyle multiflora R. & P. =Hydrocotyle bonariensis Commerson ex Lamarck
Ref. FP 13(5A/1) 1962: 66; Mathias, 1936: 205.

Hydrocotyle palmata Mathias
Syn. *Hydrocotyle macbridei* Mathias & Constance
Ref. FP 13(5A/1) 1962: 72; Mathias, 1936: 219; Mathias & Constance, 1976b: 28.
Endemic herb. Andean II-III: cloud forests, disturbed areas, riversides. 2500-4000 m.
Voucher: Mathews 1637* (US), Sagástegui *et al.* 9509 (MO!)
Depts.: AM, CA

Hydrocotyle peruviana H. Wolff
Ref. FP 13(5A/1) 1962: 72; Mathias, 1936: 212.
Herb or vine. Andean II: riversides. 2500-3000 m.
Voucher: Weberbauer 731* (B destroyed), Vargas 1905 (F)
Depts.: CU, PU

Hydrocotyle pusilla A. Richard
Ref. FP 13(5A/1) 1962: 73; Mathias, 1936: 206; Mathias & Constance, 1976b: 29.
Herb. Andean I-II: disturbed areas, riversides. 1000-2000 m.
Voucher: Woytkowski 6580 (MO!)
Depts.: CU, HU, JU, LA, SM

Hydrocotyle quinqueloba R. & P.
Syn. *Hydrocotyle quinqueloba* var. *stella* Urban
Ref. FP 13(5A/1) 1962: 73; Mathias, 1936: 211.
Herb. Andean II: cloud forests, elfin forests. 2000-3000 m.
Voucher: Ruiz & Pavón s.n.* (MA photo F), Barbour 3580 (MO!)
Depts.: AM, CA, HU, PI

Hydrocotyle quinqueloba var. *stella* Urban =Hydrocotyle quinqueloba R. & P.
Ref. FP 13(5A/1) 1962: 73; Mathias, 1936: 211.

Hydrocotyle ranunculoides L. f.
Syn. *Hydrocotyle batrachioides* DC.
Ref. FP 13(5A/1) 1962: 74; Mathias, 1936: 219; Mathias & Constance, 1976b: 22.
Aquatic or terrestrial herb. Amazonian, Andean I-III, Coastal: floating, riversides. 0-4500 m.
Voucher: Woytkowski 5689 (MO!)
Depts.: AN, CA, CU, JU, LI, LO, MD, PU, UC

Hydrocotyle sagasteguii Constance & Dillon
Ref. Constance & Dillon, 1990: 257.
Endemic herb. Andean II: forests, riversides. 1500-3000 m.
Voucher: Dillon *et al.* 4431* (MO!), Cano 2093 (MO!)
Depts.: CA, LL

Hydrocotyle spananthe Willdenow =Spananthe paniculata var. paniculata
Ref. FP 13(5A/1) 1962: 95; Mathias & Constance, 1976b: 36.

Hydrocotyle steyermarkii Mathias & Constance
Ref. FP 13(5A/1) 1962: 74; Mathias & Constance, 1951b: 306; Mathias & Constance, 1976b: 23.
Aquatic or terrestrial herb. Andean II: riversides. 2000-3000 m.
Voucher: Mathias & Taylor 4026 (MO!)
Depts.: AM, HU

Hydrocotyle tribotrys R. & P. =Hydrocotyle bonariensis Commerson ex Lamarck
Ref. FP 13(5A/1) 1962: 66; Mathias, 1936: 204.

Hydrocotyle umbellata L.
Syn. *Hydrocotyle umbellulata* Michaux
Ref. FP 13(5A/1) 1962: 75; Mathias, 1936: 207; Mathias & Constance, 1976b: 29.
Herb. Andean I-II, Coastal: disturbed areas, riversides. 0-3000 m.
Voucher: Woytkowski 6322 (MO!)
Depts.: CA, LI, LO, UC

Hydrocotyle umbellata var. *bonariensis* G. Don =Hydrocotyle bonariensis Commerson ex Lamarck
Ref. FP 13(5A/1) 1962: 66; Mathias, 1936: 205.

Hydrocotyle umbellulata Michaux =Hydrocotyle umbellata L.
Ref. FP 13(5A/1) 1962: 75; Mathias, 1936: 207; Mathias & Constance, 1976b: 29.

Hydrocotyle urbaniana H. Wolff
Ref. FP 13(5A/1) 1962: 75; Mathias, 1936: 225; Mathias & Constance, 1951b: 307; Mathias & Constance, 1975: 250.
Endemic herb or vine. Andean II: riversides. 1500-3500 m.
Voucher: Weberbauer 3941* (USM), Peyton & Peyton 353 (MO!)
Depts.: AM, CA, CU, HV, PA, PI

Hydrocotyle verticillata Thunberg
Ref. Constance, pers. comm.
Aquatic herb. Andean II: bogs, riversides, swamps. 2000-2500 m.
Voucher: Woytkowski 6788 (UC!)
Depts.: LA

Hydrocotyle vestita Mathias & Killip
Ref. FP 13(5A/1) 1962: 76; Mathias, 1936: 222.
Endemic herb or vine. Andean I: forests, riversides. 500-1500 m.
Voucher: Killip & Smith 22759* (MO!), Wasshausen & Encarnación 661 (MO!)
Depts.: AY, CU

Laretia compacta (Philippi) Reiche =Azorella compacta Philippi
Ref. FP 13(5A/1) 1962: 21.

Ligusticum foeniculum Crantz =Foeniculum vulgare P. Miller
Ref. FP 13(5A/1) 1962: 61.

Ligusticum peucedanoides var. *longifolium* C. Presl ex DC. =Niphogeton scabra (H. Wolff) J. F. Macbride
Ref. FP 13(5A/1) 1962: 83; Mathias & Constance, 1951a: 417.

Lilaeopsis andina A. W. Hill =Lilaeopsis macloviana (Gandoger) A. W. Hill
Ref. FP 13(5A/1) 1962: 77; Affolter, 1985: 89.

Lilaeopsis andina fo. *subulata* (Weddell) Pérez-Moreau =Lilaeopsis macloviana (Gandoger) A. W. Hill
Ref. FP 13(5A/1) 1962: 77; Affolter, 1985: 89.

Lilaeopsis andina var. *inundata* A. W. Hill =Lilaeopsis macloviana (Gandoger)

A. W. Hill
Ref. FP 13(5A/1) 1962: 77; Affolter, 1985: 89.

[Lilaeopsis attenuata (Hooker & Arnott) Fernald]
Ref. FP 13(5A/1) 1962: 77; Affolter, 1985: 90.
Note: Not known from Peru.

Lilaeopsis macloviana (Gandoger) A. W. Hill
Syn. *Crantzia lineata* Nuttall sensu Gay, *Crantzia lineata* var. *subulata* Weddell, *Crantzia macloviana* Gandoger, *Lilaeopsis andina* A. W. Hill, *Lilaeopsis andina* fo. *subulata* (Weddell) Pérez-Moreau, *Lilaeopsis andina* var. *inundata* A. W. Hill
Ref. Affolter, 1985: 89.
Herb. Andean I-III, Coastal: seasonally inundated areas, submerged, terra firme forests. 0-4000 m.
Voucher: Affolter 119 (MICH)
Depts.: CA, CU, LI, PU

Myrrhis andicola H.B.K. =Oreomyrrhis andicola (H.B.K.) Hooker f.
Ref. FP 13(5A/1) 1962: 85; Mathias & Constance, 1953: 365; Mathias & Constance, 1976b: 57.

Neonelsonia acuminata (Bentham) J. M. Coulter & Rose
Syn. *Arracacia acuminata* Bentham
Ref. FP 13(5A/1) 1962: 78; Mathias & Constance, 1976b: 48.
Herb. Andean II: disturbed areas, forests. 2000-3500 m.
Note: Treated under *Arracacia* by Williams (1966: 27).
Voucher: Núñez 7515 (MO!)
Depts.: CU

Niphogeton andicola Schlechtendal =Niphogeton dissecta (Bentham) J. F. Macbride
Ref. FP 13(5A/1) 1962: 81; Mathias & Constance, 1951a: 415; Mathias & Constance, 1976b: 54.

Niphogeton azorelloides Mathias & Constance
Ref. FP 13(5A/1) 1962: 80; Mathias & Constance, 1962a: 150; Mathias & Constance, 1976b: 56.
Herb. Andean III: grasslands, shrublands. 3500-4000 m.
Voucher: Friedberg 6146 (UC)
Depts.: PI

Niphogeton dissecta (Bentham) J. F. Macbride
Syn. *Apium dissectum* (Bentham) Drude, *Apium weberbaueri* H. Wolff, *Niphogeton andicola* Schlechtendal, *Niphogeton dissecta* var. *aspera* J. F. Macbride, *Niphogeton weberbaueri* J. F. Macbride, *Oreosciadium dissectum* var. *asperum* Weddell, *Oreosciadium dissectum* (Bentham) Weddell, *Petroselinum dissectum* Bentham
Ref. FP 13(5A/1) 1962: 81; Mathias & Constance, 1951a: 415; Mathias & Constance, 1976b: 54.
Herb. Andean III: rocky slopes. 4000- > 4500 m.
Note: The Flora of Ecuador (Mathias & Constance, 1976) does not recognize varieties under this species.
Depts.: AY, CU, JU

Niphogeton dissecta var. *aspera* J. F. Macbride =Niphogeton dissecta (Bentham) J. F. Macbride
Ref. FP 13(5A/1) 1962: 81.

Niphogeton magna J. F. Macbride
Ref. FP 13(5A/1) 1962: 82; Mathias & Constance, 1951a: 419; Mathias & Constance, 1976: 320.
Endemic herb. Andean III: rocky slopes. 3500-4000 m.
Voucher: Macbride & Featherstone 968* (F), Tutin 1085 (BM)
Depts.: JU, PU

Niphogeton scabra (H. Wolff) J. F. Macbride
Syn. *Apium scabrum* H. Wolff, *Ligusticum peucedanoides* var. *longifolium* C. Presl ex DC., *Oreosciadium scabrum* H. Wolff
Ref. FP 13(5A/1) 1962: 83; Mathias & Constance, 1951a: 417; Mathias & Constance, 1976a: 322.
Herb. Andean III: grasslands, rocky slopes. 4000- > 4500 m.
Voucher: Weberbauer 350* (US), Smith *et al.* 11740 (MO!)
Depts.: AN, CU, HU, HV, JU, LI, PA

Niphogeton stricta (H. Wolff) Mathias & Constance
Syn. *Urbanosciadium strictum* H. Wolff
Ref. FP 13(5A/1) 1962: 84; Mathias & Constance, 1951a: 419; Mathias & Constance, 1976a: 322.
Endemic herb. Andean II-III: grasslands. 2500-4000 m.
Voucher: Weberbauer 3153* (US), Cerrate & Tovar 1907 (UC)
Depts.: AN, LI

Niphogeton weberbaueri J. F. Macbride =Niphogeton dissecta (Bentham) J. F. Macbride
Ref. FP 13(5A/1) 1962: 81; Mathias & Constance, 1951a: 415; Mathias & Constance, 1976b: 54.

Oreomyrrhis andicola (H.B.K.) Hooker f.
Syn. *Caldasia andicola* Lagasca ex DC., *Caldasia chaerophyllaea* DC., *Caldasia chaerophyllaea* var. *glabriuscula* DC., *Caldasia chaerophyllaea* var. *hirsuta* DC., *Caldasia chaerophylloides* Lagasca, *Caldasia lasiopetala* Lagasca ex DC., *Myrrhis andicola* H.B.K., *Oreomyrrhis andicola* var. *tomentosa* Weddell, *Oreomyrrhis daucoides* Urban, *Oreomyrrhis lasiopetala* A. Gray
Ref. FP 13(5A/1) 1962: 85; Mathias & Constance, 1953: 365; Mathias & Constance, 1976b: 57.
Herb. Andean II-III: grasslands, rocky slopes, shrublands. 2500- > 4500 m.
Voucher: Smith *et al.* 9654 (MO!)
Depts.: AN, AP, AY, CA, CU, HU, HV, JU, LI, LL, PA, PU

Oreomyrrhis andicola var. *tomentosa* Weddell =Oreomyrrhis andicola (H.B.K.) Hooker f.
Ref. FP 13(5A/1) 1962: 86; Mathias & Constance, 1953: 365; Mathias & Constance, 1976b: 57.

Oreomyrrhis daucoides Urban =Oreomyrrhis andicola (H.B.K.) Hooker f.
Ref. FP 13(5A/1) 1962: 86; Mathias & Constance, 1953: 365; Mathias & Constance, 1976b: 57.

Oreomyrrhis lasiopetala A. Gray =Oreomyrrhis andicola (H.B.K.) Hooker f.
Ref. FP 13(5A/1) 1962: 85; Mathias & Constance, 1953: 365; Mathias & Constance, 1976b: 57.

Oreosciadium dissectum (Bentham) Weddell =Niphogeton dissecta (Bentham) J. F. Macbride
Ref. FP 13(5A/1) 1962: 81; Mathias & Constance, 1951a: 415; Mathias & Constance, 1976b: 54.

Oreosciadium dissectum var. *asperum* Weddell =Niphogeton dissecta (Bentham) J. F. Macbride
Ref. FP 13(5A/1) 1962: 81; Mathias & Constance, 1951a: 415; Mathias & Constance, 1976b: 54.

Oreosciadium scabrum H. Wolff =Niphogeton scabra (H. Wolff) J. F. Macbride
Ref. FP 13(5A/1) 1962: 83; Mathias & Constance, 1951a: 417.

Osmorhiza brevistylis Weddell =Osmorhiza mexicana subsp. mexicana
Ref. FP 13(5A/1) 1962: 88.

Osmorhiza mexicana Grisebach subsp. **mexicana**
Syn. *Osmorhiza brevistylis* Weddell, *Washingtonia mexicana* (Grisebach) Rose
Ref. FP 13(5A/1) 1962: 88; Lowry & Jones, 1984: 1158.
Herb. Andean II: disturbed areas, grasslands, riversides. 2500-3500 m.
Voucher: Vargas 9697 (MO!)
Depts.: CU

Paraselinum weberbaueri H. Wolff
Ref. FP 13(5A/1) 1962: 89; Mathias & Constance, 1957: 197.
Endemic herb. Andean III: cloud forests. 3500-4500 m.
Note: Monotypic genus known only from Peru.
Voucher: Weberbauer 5471* (B destroyed), Rauh & Hirsch P1832 (UC!)
Depts.: AY, PA

Pastinaca sativa L.
Syn. *Anethum pastinaca* Wibel, *Peucedanum pastinaca* Baillon

Ref. FP 13(5A/1) 1962: 90; Mathias & Constance, 1976b: 65.
Herb. Andean II: disturbed areas. 3000-3500 m.
Voucher: Vargas 410 (F)
Depts.: CU

Petroselinum crispum (Miller) A. W. Hill
Syn. *Apium crispum* P. Miller, *Apium petroselinum* L., *Carum petroselinum* Bentham & Hooker f., *Petroselinum hortense* Hoffmann, nom. nud., *Petroselinum petroselinum* Kartsen, *Petroselinum sativum* Hoffmann, nom. nud., *Petroselinum vulgare* Lagasca, *Wydleria portoricensis* DC.
Ref. FP 13(5A/1) 1962: 91.
Introduced herb. Andean II: disturbed areas. 3000-3500 m.
Voucher: Hutchison 1048 (MO!)
Depts.: JU

Petroselinum dissectum Bentham =Niphogeton dissecta (Bentham) J. F. Macbride
Ref. FP 13(5A/1) 1962: 81; Mathias & Constance, 1951a: 415; Mathias & Constance, 1976b: 54.

Petroselinum hortense Hoffmann, nom. nud. =Petroselinum crispum (Miller) A. W. Hill
Ref. FP 13(5A/1) 1962: 91.

Petroselinum petroselinum Kartsen =Petroselinum crispum (Miller) A. W. Hill
Ref. FP 13(5A/1) 1962: 91.

Petroselinum sativum Hoffmann, nom. nud. =Petroselinum crispum (Miller) A. W. Hill
Ref. FP 13(5A/1) 1962: 91.

Petroselinum vulgare Lagasca =Petroselinum crispum (Miller) A. W. Hill
Ref. FP 13(5A/1) 1962: 91.

Peucedanum anethum Baillon, nom. illeg. =Anethum graveolens L.
Ref. Mathias & Constance, 1976b: 63.

Peucedanum pastinaca Baillon =Pastinaca sativa L.
Ref. FP 13(5A/1) 1962: 90.

Pimpinella domingensis Willdenow ex Roemer & Schultes =Ciclospermum leptophyllum var. leptophyllum
Ref. FP 13(5A/1) 1962: 11.
Note: Not included in the list of synonyms under *Ciclospermum leptophyllum* var. *leptophyllum* by Constance (1990: 277).

Pimpinella leptophylla Persoon =Ciclospermum leptophyllum var. leptophyllum
Ref. FP 13(5A/1) 1962: 11; Constance, 1990: 277.

Ridolfia segetum (L.) Moris
Syn. *Anethum segetum* L., *Foeniculum segetum* (L.) C. Presl
Ref. FP 13(5A/1) 1962: 92.
Introduced herb. Andean I-II: disturbed areas. 500-2000 m.
Voucher: Asplund 13466 (F)
Depts.: HU

Sanicula liberta Chamisso & Schlechtendal
Syn. *Sanicula mexicana* DC.
Ref. FP 13(5A/1) 1962: 94; Shan & Constance, 1951: 51; Mathias & Constance, 1976b: 41.
Herb. Andean I-II: disturbed areas, forests. 1000-2500 m.
Voucher: Smith 3672 (MO!)
Depts.: AM, HU, JU, LL, PA, SM

Sanicula mexicana DC. =Sanicula liberta Chamisso & Schlechtendal
Ref. FP 13(5A/1) 1962: 94; Mathias & Constance, 1976b: 41.

Selinum conium Krause =Conium maculatum L.
Ref. FP 13(5A/1) 1962: 38.

Selinum coriandrum Krause =Coriandrum sativum L.
Ref. FP 13(5A/1) 1962: 40.

Selinum graveolens (L.) Krause =Apium graveolens L.
Ref. FP 13(5A/1) 1962: 9.

Selinum leptophyllum (Persoon) Krause =Ciclospermum leptophyllum var. leptophyllum
Ref. FP 13(5A/1) 1962: 11; Constance, 1990: 277.

Selinum visnaga (L.) Krause =Ammi visnaga (L.) Lamarck
Ref. FP 13(5A/1) 1962: 8.

Seseli ammi Savi =Ciclospermum leptophyllum var. leptophyllum
Ref. FP 13(5A/1) 1962: 11; Constance, 1990: 277.

Seseli graveolens Scopoli =Apium graveolens L.
Ref. FP 13(5A/1) 1962: 9.

Sison ammi L. =Ciclospermum leptophyllum var. leptophyllum
Ref. FP 13(5A/1) 1962: 11.

Sison canadensis L. =Cryptotaenia canadensis (L.) DC.
Ref. Constance, pers. comm.

Sison laciniatum L'Héritier ex DC. =Ciclospermum laciniatum (DC.) Constance
Ref. FP 13(5A/1) 1962: 10; Constance, 1990: 277.

Sium apium Roth =Apium graveolens L.
Ref. FP 13(5A/1) 1962: 9.

Sium conium Vest =Conium maculatum L.
Ref. FP 13(5A/1) 1962: 38.

Sium graveolens (L.) Vest =Apium graveolens L.
Ref. FP 13(5A/1) 1962: 9.

Sium nodiflorum Walter =Ciclospermum leptophyllum var. leptophyllum
Ref. FP 13(5A/1) 1962: 11.
Note: Not included in the list of synonyms under *Ciclospermum leptophyllum* var. *leptophyllum* by Constance (1990: 277).

Spananthe angulosa Turczaninow =Spananthe paniculata var. paniculata
Ref. FP 13(5A/1) 1962: 95; Mathias & Constance, 1976b: 36.

Spananthe paniculata Jacquin var. **paniculata**
Syn. *Huanaca spananthe* Vela, *Hydrocotyle spananthe* Willdenow, *Spananthe angulosa* Turczaninow, *Spananthe setosa* Moench
Ref. FP 13(5A/1) 1962: 95; Mathias & Constance, 1976b: 36.
Herb. Andean I-II, Coastal: disturbed areas, forests. 500-3000 m.
Voucher: Barbour 4265 (MO!)
Depts.: AM, AY, CA, CU, HU, LA, LL

Spananthe paniculata var. **peruviana** H. Wolff
Ref. FP 13(5A/1) 1962: 96.
Endemic herb. Andean I-II, Coastal: lomas, rocky slopes. 0-2500 m.
Voucher: Weberbauer 1589* & 3851* (B destroyed), Mexia 4049 (MO!)
Depts.: AR, IC, LI

Spananthe setosa Moench =Spananthe paniculata var. paniculata
Ref. FP 13(5A/1) 1962: 95; Mathias & Constance, 1976b: 36.

Spananthe sinuata Sprengel =Hydrocotyle acutifolia R. & P.
Ref. FP 13(5A/1) 1962: 64; Mathias, 1936: 222; Mathias & Constance, 1976b: 22.

Tordylium nodosum L. =Torilis nodosa (L.) Gaertner
Ref. FP 13(5A/1) 1962: 97.

Torilis nodosa (L.) Gaertner
Syn. *Anthriscus nodiflora* Koso-Poljansky, *Caucalis nodiflora* Lamarck, *Caucalis nodosa* Scopoli, *Tordylium nodosum* L.
Ref. FP 13(5A/1) 1962: 97.
Introduced herb. Coastal: disturbed areas, lomas. 0-1000 m.
Voucher: Asplund 13740 (F)
Depts.: LI

Torilis peruviana C. Presl =Daucus montanus Humboldt & Bonpland ex Sprengel
Ref. FP 13(5A/1) 1962: 42; Mathias & Constance, 1976b: 65.

Urbanosciadium strictum H. Wolff =Niphogeton stricta (H. Wolff) Mathias & Constance

Ref. FP 13(5A/1) 1962: 84; Mathias & Constance, 1951a: 419.

Velaea peruviana H. Wolff =Arracacia peruviana (H. Wolff) Constance
Ref. FP 13(5A/1) 1962: 18.

Washingtonia mexicana (Grisebach) Rose =Osmorhiza mexicana subsp. mexicana
Ref. FP 13(5A/1) 1962: 88; Lowry & Jones, 1984: 1158.

Wydleria portoricensis DC. =Petroselinum crispum (Miller) A. W. Hill
Ref. FP 13(5A/1) 1962: 91.

Apocynaceae

37 genera and 154 species in Peru.

Endemic species: 18.

Prepared by J. L. Zarucchi; reviewed by M. E. Endress (Z) and A. J. M. Leeuwenberg (WAG).

Allamanda cathartica L.
Ref. FP 13(5/1) 1959: 392; Sakane & Shepherd, 1986: 130.
Cultivated shrub. Amazonian: disturbed areas. 0-500 m.
Voucher: Mexia 6493 (MO!)
Depts.: HU, LO, UC

Allamanda weberbaueri Markgraf
Ref. FP 13(5/1) 1959: 392; Gentry, 1984: 1081; Sakane & Shepherd, 1986: 137.
Endemic shrub or tree. Andean II: dry valleys, forests, shrublands. 1500-2000 m.
Voucher: Weberbauer 7142* (F), Smith & Cabanillas 7079 (MO!)
Depts.: AM

Allomarkgrafia ovalis (R. & P. ex Markgraf) Woodson
Syn. *Echites ovalis* R. & P. ex Markgraf
Ref. FP 13(5/1) 1959: 413.
Liana. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Tafalla s.n.* (B destroyed), Klug 5157 (MO!)
Depts.: HU, LO, SM

Allomarkgrafia tubiflora Woodson ex Dwyer
Ref. Dwyer, 1966: 104.
Endemic liana. Andean I: terra firme forests. 500-1000 m.
Voucher: Woytkowski 7648* (MO!)
Depts.: HU

Ambelania duckei Markgraf
Ref. Zarucchi, 1987: 33.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Foster 7986 (MO!)
Depts.: LO, PA

Ambelania markgrafiana Monachino =Mucoa duckei (Markgraf) Zarucchi
Ref. FP 13(5/1) 1959: 373; Zarucchi, 1987: 42.

Ambelania occidentalis Zarucchi
Ref. Zarucchi, 1987: 36.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Klug 613* (US!), Vásquez & Soto 11862 (MO!)
Depts.: LO

Ambelania quadrangularis Muell. Arg. =Rhigospira quadrangularis (Muell. Arg.) Miers
Ref. FP 13(5/1) 1959: 374; Spichiger *et al.*, 1990: 426; Zarucchi, 1987: 81.

Amblyanthera antennacea (A. DC.) Muell. Arg. =Mandevilla antennacea (A. DC.) Schumann
Ref. FP 13(5/1) 1959: 418.

Amblyanthera brachyloba Muell. Arg. =Mandevilla brachyloba (Muell. Arg.) Schumann
Ref. FP 13(5/1) 1959: 420.

Amblyanthera bridgesii Muell. Arg. =Mandevilla bridgesii (Muell. Arg.) Woodson
Ref. Woodson, 1933: 693.

Amblyanthera pavonii (A. DC.) Muell. Arg. =Mandevilla pavonii (A. DC.) Woodson
Ref. FP 13(5/1) 1959: 424.

Amblyanthera versicolor var. *olivacea* Muell. Arg. =Mandevilla scabra (Hoffmannsegg ex Roemer & Schultes) Schumann
Ref. FP 13(5/1) 1959: 426.

Anacampta albescens (Rusby) Markgraf =Tabernaemontana undulata M. Vahl
Ref. FP 13(5/1) 1959: 400; Leeuwenberg, pers. comm.

[*Anacampta coriacea* (Link ex Roemer & Schultes) Markgraf =Tabernaemontana coriacea Link ex Roemer & Schultes]
Ref. FP 13(5/1) 1959: 403.
Note: Not known from Peru.

Anacampta hirtula (C. Martius ex Muell. Arg.) Miers =Tabernaemontana siphilitica (L. f.) Leeuwenberg
Ref. FP 13(5/1) 1959: 405; Leeuwenberg, pers. comm.

Anacampta macrocalyx (Muell. Arg.) Markgraf =Tabernaemontana macrocalyx Muell. Arg.
Ref. Leeuwenberg, pers. comm.

[*Anacampta maxima* (Markgraf) Markgraf =Tabernaemontana maxima Markgraf]
Note: Not known from Peru.

Anartia cuspidata (Rusby) L. Allorge =Tabernaemontana cuspidata Rusby

Anartia flavicans (Willdenow ex Roemer & Schultes) Miers =Tabernaemontana flavicans Willdenow ex Roemer & Schultes
Ref. FP 13(5/1) 1959: 403.

Anartia olivacea (Muell. Arg.) Markgraf =Tabernaemontana flavicans Willdenow ex Roemer & Schultes
Ref. FP 13(5/1) 1959: 408; Leeuwenberg, 1988: 10.

[Anechites nerium (Aublet) Urban]
Syn. *Apocynum nerium* Aublet
Ref. Fallen, 1983a: 228.
Note: Not known from Peru. Fallen (1983) incorrectly cited *Espinoza 1187* as originating from Peru; it is actually from southern Ecuador.

Angadenia cognata (Stadelmeyer) Miers =Odontadenia cognata (Stadelmeyer) Woodson
Ref. Woodson, 1935: 273.

Angadenia nitida (M. Vahl) Miers =Odontadenia nitida (M. Vahl) Muell. Arg.
Ref. Woodson, 1935: 300.

Anisolobus anomalus Van Heurck & Muell. Arg. =Odontadenia anomala (Van Heurck & Muell. Arg.) J. F. Macbride
Ref. FP 13(5/1) 1959: 439.

Anisolobus cognatus (Stadelmeyer) Muell. Arg. =Odontadenia cognata (Stadelmeyer) Woodson
Ref. Woodson, 1935: 273.

Apocynum acouci Aublet =Forsteronia acouci (Aublet) A. DC.
Ref. Hansen, 1985: 212.

[*Apocynum nerium* Aublet =Anechites nerium (Aublet) Urban]
Ref. Fallen, 1983a: 228.
Note: Not known from Peru.

[*Aspidosperma acanthocarpum* Markgraf =Aspidosperma inundatum Ducke]
Ref. FP 13(5/1) 1959: 384.
Note: Not known from Peru.

Aspidosperma araracanga Marcondes-Ferreira
Ref. Marcondes-Ferreira, 1991: 127.
Tree. Amazonian: forests. 0-500 m.
Voucher: Castillo 17 (MO!)
Depts.: LO, UC

Aspidosperma capitatum L. O. Williams
Ref. Williams, 1967: 249.
Endemic tree. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Gutiérrez 95* (F, MOL), Gentry 42069 (MO)
Depts.: HU, PA

Aspidosperma carapanauba Pichon
Syn. *Geissospermum excelsum* Kuhlmann
Ref. Woodson, 1951: 169.
Tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Gentry 43676 (MO)
Depts.: MD

[Aspidosperma cruentum Woodson]
Ref. Gentry, 1984: 1076.

Note: Not known from Peru. The specimen cited in Gentry (1984), *Revilla 2367*, has been determined as an unpublished species of *Aspidosperma* by W. Marcondes-Ferreira (UEC).

[Aspidosperma cuspa (H.B.K.) S. F. Blake ex Pittier]
Syn. *Conoria cuspa* H.B.K. (Violaceae)
Ref. FP 13(5/1) 1959: 384.
Note: Not known from Peru. Presumed to occur in Peru by the Flora of Peru; no Peruvian specimens have been seen.

Aspidosperma cylindrocarpon Muell. Arg.
Ref. Gentry, 1984: 1076.
Tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Gentry 40109 (MO)
Depts.: HU, JU, LO

Aspidosperma excelsum Bentham
Ref. Gentry, 1984: 1076.
Tree. Amazonian: forests on white sand, terra firme forests. 0-500 m.
Voucher: Gentry & Aronson 25313 (MO!)
Depts.: LO, SM

[Aspidosperma inundatum Ducke]
Syn. *Aspidosperma acanthocarpum* Markgraf
Ref. FP 13(5/1) 1959: 384.
Note: Not known from Peru.

Aspidosperma macrocarpon C. Martius
Ref. FP 13(5/1) 1959: 385; Gentry, 1984: 1076.
Tree. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Schunke 8673 (MO!)
Depts.: HU, JU, SM, UC

Aspidosperma marcgravianum Woodson
Ref. FP 13(5/1) 1959: 386; Gentry, 1984: 1076.
Tree. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Foster 9274 (MO!)
Depts.: JU, MD, SM, UC

Aspidosperma megaphyllum Woodson
Ref. Gentry, 1984: 1076.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Foster 5688 (MO!)
Depts.: MD

Aspidosperma myristicifolium (Markgraf) Woodson
Syn. *Geissospermum myristicifolium* Markgraf
Ref. Woodson, 1951: 169.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 26949 (MO!)
Depts.: MD

[Aspidosperma nitidum Bentham ex Muell. Arg.]
Ref. Gentry, 1984: 1076.
Note: Not known from Peru. Specimens cited in Gentry (1984) have been placed under *A. excelsum* by W. Marcondes-Ferreira (UEC).

Aspidosperma parvifolium A. DC.
Syn. *Aspidosperma tambopatense* A. Gentry, *Aspidosperma vargasii* A. DC.
Ref. Woodson, 1951: 150.
Tree. Amazonian: terra firme forests. 0-1000 m.
Voucher: Hartshorn 2421 (MO!)
Depts.: CA, HU, LO, MD, PA, SM, UC

Aspidosperma polyneuron Muell. Arg.
Ref. FP 13(5/1) 1959: 386.
Tree. Amazonian: terra firme forests. 500-1000 m.
Voucher: Woytkowski 5665 (MO!)
Depts.: CA

Aspidosperma rigidum Rusby
Ref. FP 13(5/1) 1959: 387.
Tree. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Schunke 6185 (MO!)
Depts.: HU, LO, MD, PA

Aspidosperma schultesii Woodson
Ref. Gentry, 1984: 1076.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 26169 (MO!)
Depts.: LO

Aspidosperma spruceanum Bentham ex Muell. Arg.
Syn. *Aspidosperma steinbachii* Markgraf
Ref. Woodson, 1951: 186.
Tree. Amazonian: terra firme forests. 0-1000 m.
Voucher: Williams 5816 (MO!)
Depts.: LO, SM

Aspidosperma steinbachii Markgraf
=Aspidosperma spruceanum Bentham ex Muell. Arg.
Ref. FP 13(5/1) 1959: 388.
Note: According to annotations by W. Marcondes-Ferreira (UEC), this is a synonym of *A. spruceanum*.

Aspidosperma tambopatense A. Gentry
=Aspidosperma parvifolium A. DC.
Ref. Gentry, 1984: 1075.
Note: According to annotations by W. Marcondes-Ferreira (UEC), this is a synonym of *A. parvifolium*.

Aspidosperma vargasii A. DC.
=Aspidosperma parvifolium A. DC.
Ref. FP 13(5/1) 1959: 388.
Note: According to annotations by W. Marcondes-Ferreira (UEC), this is a synonym of *A. parvifolium*.

Bonafousia brachyantha Boiteau & L. Allorge =Tabernaemontana luciliae Leeuwenberg
Ref. Leeuwenberg, 1988: 14.

Bonafousia columbiensis L. Allorge =Tabernaemontana columbiensis (L. Allorge) Leeuwenberg
Ref. Leeuwenberg, 1988: 5.

[*Bonafousia coriacea* (Link ex Roemer & Schultes) Boiteau & L. Allorge =Tabernaemontana coriacea Link ex Roemer & Schultes]
Ref. Leeuwenberg, pers. comm.
Note: Not known from Peru.

Bonafousia hirtula (C. Martius ex Muell. Arg.) Markgraf =Tabernaemontana siphilitica (L. f.) Leeuwenberg
Ref. FP 13(5/1) 1959: 405.

Bonafousia juruana Markgraf =Tabernaemontana siphilitica (L. f.) Leeuwenberg
Ref. FP 13(5/1) 1959: 405; Leeuwenberg, pers. comm.

Bonafousia killipii (Woodson) Markgraf =Tabernaemontana siphilitica (L. f.) Leeuwenberg
Ref. FP 13(5/1) 1959: 406; Leeuwenberg, pers. comm.

Bonafousia latiflora Miers =Tabernaemontana flavicans Willdenow ex Roemer & Schultes
Ref. FP 13(5/1) 1959: 404.

Bonafousia longituba Markgraf =Tabernaemontana markgrafiana J. F. Macbride
Ref. FP 13(5/1) 1959: 406.

Bonafousia macrocalyx (Muell. Arg.) Boiteau & L. Allorge =Tabernaemontana macrocalyx Muell. Arg.
Ref. Leeuwenberg, pers. comm.

[*Bonafousia maxima* (Markgraf) Boiteau & L. Allorge =Tabernaemontana maxima Markgraf]
Ref. Leeuwenberg, pers. comm.
Note: Not known from Peru.

Bonafousia muelleriana (C. Martius ex Muell. Arg.) Boiteau & L. Allorge =Tabernaemontana macrocalyx Muell. Arg.
Ref. Leeuwenberg, pers. comm.

Bonafousia obliqua Miers =Tabernaemontana undulata M. Vahl
Ref. Leeuwenberg, pers. comm.

Bonafousia olivacea (Muell. Arg.) Miers =Tabernaemontana flavicans Willdenow ex Roemer & Schultes
Ref. FP 13(5/1) 1959: 408; Leeuwenberg, pers. comm.

Bonafousia sananho (R. & P.) Markgraf =Tabernaemontana sananho R. & P.
Ref. FP 13(5/1) 1959: 409; van Beek *et al.*, 1984: 17.

Bonafousia siphilitica (L. f.) L. Allorge =Tabernaemontana siphilitica (L. f.) Leeuwenberg
Ref. Leeuwenberg, pers. comm.

Bonafousia tessmannii Markgraf =Tabernaemontana siphilitica (L. f.)

Leeuwenberg
Ref. FP 13(5/1) 1959: 410.

Bonafousia tetrastachya (H.B.K.) Markgraf =Tabernaemontana siphilitica (L. f.) Leeuwenberg
Ref. FP 13(5/1) 1959: 411; van Beek *et al.*, 1984: 17.

Bonafousia undulata (M. Vahl) A. DC. =Tabernaemontana undulata M. Vahl
Ref. FP 13(5/1) 1959: 411.

Cameraria tamaquarina Aublet =Malouetia tamaquarina var. tamaquarina
Ref. Woodson, 1935: 252.

Cascabela peruviana (Persoon) Raf. =Thevetia peruviana (Persoon) Schumann

Catharanthus roseus (L.) G. Don
Syn. *Lochnera rosea* (L.) Reichenbach, *Vinca rosea* L.
Ref. Stearn, 1975: 31.
Cultivated herb. Amazonian, Andean I: disturbed areas. 0-1000 m.
Voucher: Núñez 6547 (MO!)
Depts.: CU, LI, SM

Cerbera peruviana Persoon =Thevetia peruviana (Persoon) Schumann
Ref. Nowicke, 1970: 91.

Cerbera thevetia L. =Thevetia peruviana (Persoon) Schumann
Ref. FP 13(5/1) 1959: 390.

Codonechites laxiflora (Rusby) Pichon =Odontadenia laxiflora (Rusby) Woodson
Ref. Woodson, 1935: 305.

Codonechites paniculata Markgraf =Odontadenia laxiflora (Rusby) Woodson
Ref. FP 13(5/1) 1959: 443.

Codonemma macrocalyx (Muell. Arg.) Miers =Tabernaemontana macrocalyx Muell. Arg.
Ref. Leeuwenberg, pers. comm.

Condylocarpon pubiflorum Muell. Arg.
Ref. FP 13(5/1) 1959: 380; Fallen, 1983b: 165.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Revilla 321 (MO)
Depts.: LO

Couma macrocarpa Barbosa Rodrigues
Ref. FP 13(5/1) 1959: 375; Spichiger *et al.*, 1990: 413.
Tree. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Balick *et al.* 996 (MO!)
Depts.: AM, HU, LO, PA

Dipladenia albo-viridis Rusby =Mandevilla albo-viridis (Rusby) Woodson
Ref. Woodson, 1933: 690.

[*Dipladenia boliviensis* Hooker f. =Mandevilla boliviensis (Hooker f.) Woodson]
Ref. FP 13(5/1) 1959: 419.
Note: Not known from Peru.

Dipladenia calycina Huber ex Ducke =Galactophora calycina (Huber ex Ducke) Woodson
Ref. Woodson, 1936: 177.

Dipladenia cuspidata Rusby =Mandevilla cuspidata (Rusby) Woodson
Ref. FP 13(5/1) 1959: 421.

Echites acuminata R. & P. =Mesechites acuminata (R. & P.) Muell. Arg.
Ref. FP 13(5/1) 1959: 414.

Echites antennacea A. DC. =Mandevilla antennacea (A. DC.) Schumann
Ref. FP 13(5/1) 1959: 418.

Echites brachyloba (Muell. Arg.) Miers =Mandevilla brachyloba (Muell. Arg.) Schumann
Ref. Woodson, 1933: 670.

Echites cognata Stadelmeyer =Odontadenia cognata (Stadelmeyer) Woodson
Ref. FP 13(5/1) 1959: 440.

Echites dichotoma H.B.K. =Mesechites trifida (Jacquin) Muell. Arg.
Ref. FP 13(5/1) 1959: 414.

Echites geminata Hoffmannsegg ex Roemer & Schultes =Odontadenia geminata (Hoffmannsegg ex Roemer & Schultes) Muell. Arg.
Ref. FP 13(5/1) 1959: 441.

Echites glandulosa R. & P. =Mandevilla glandulosa (R. & P.) Woodson
Ref. FP 13(5/1) 1959: 422.

Echites grandiflora G. Meyer =Odontadenia macrantha (Roemer & Schultes) Markgraf
Ref. FP 13(5/1) 1959: 444.

Echites hirsuta R. & P. =Mandevilla pavonii (A. DC.) Woodson
Ref. FP 13(5/1) 1959: 424.

Echites hirsuta Richard =Mandevilla hirsuta (Richard) Schumann
Ref. Woodson, 1933: 763.

Echites hirtiflora A. DC. =Mandevilla subsagittata (R. & P.) Woodson
Ref. FP 13(5/1) 1959: 427.

Echites hoffmannseggiana Steudel =Odontadenia macrantha (Roemer & Schultes) Markgraf
Ref. FP 13(5/1) 1959: 444.

Echites japurensis Stadelmeyer =Mesechites trifida (Jacquin) Muell. Arg.
Ref. FP 13(5/1) 1959: 414.

Echites laxa R. & P. =Mandevilla laxa (R. & P.) Woodson
Ref. FP 13(5/1) 1959: 423.

Echites lutea Vell. Conc. =Odontadenia lutea (Vell. Conc.) Markgraf
Ref. Woodson, 1935: 283.

Echites macrantha Roemer & Schultes =Odontadenia macrantha (Roemer & Schultes) Markgraf
Ref. FP 13(5/1) 1959: 444.

[*Echites macrophylla* Zahlbruckner, nom. illeg. =Mandevilla subpaniculata Woodson]
Ref. FP 13(5/1) 1959: 427.
Note: Not known from Peru.

Echites macrostoma Bentham =Rhabdadenia macrostoma (Bentham) Muell. Arg.
Ref. FP 13(5/1) 1959: 446.

Echites montana H.B.K. =Mandevilla montana (H.B.K.) Markgraf
Ref. Woodson, 1933: 664.

Echites nitida M. Vahl =Odontadenia nitida (M. Vahl) Muell. Arg.
Ref. Woodson, 1935: 300.

Echites ovalis R. & P. ex Markgraf =Allomarkgrafia ovalis (R. & P. ex Markgraf) Woodson
Ref. FP 13(5/1) 1959: 413.

Echites verrucosa Willdenow ex Roemer & Schultes =Odontadenia verrucosa (Willdenow ex Roemer & Schultes) Schumann ex Markgraf
Ref. Woodson, 1933: 278.

Eriadenia obovata Miers =Mandevilla vanheurckii (Muell. Arg.) Markgraf
Ref. FP 13(5/1) 1959: 429.

Ervatamia coronaria (Jacquin) Stapf =Tabernaemontana divaricata (L.) R. Brown ex Roemer & Schultes
Ref. FP 13(5/1) 1959: 403; Leeuwenberg, 1991: 153.

Ervatamia divaricata (L.) Burkill =Tabernaemontana divaricata (L.) R. Brown ex Roemer & Schultes
Ref. Leeuwenberg, 1991: 153.

Forsteronia acouci (Aublet) A. DC.
Syn. *Apocynum acouci* Aublet, *Forsteronia benthamiana* Muell. Arg., *Thyrsanthus benthamianus* (Muell. Arg.) Miers
Ref. Hansen, 1985: 212.
Liana or vine. Amazonian: forests, riversides, seasonally inundated areas. 0-500 m.
Voucher: Vásquez & Jaramillo 8390 (MO!)
Depts.: LO

Forsteronia affinis Muell. Arg.
Ref. FP 13(5/1) 1959: 435; Hansen, 1985: 226.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Vásquez & Jaramillo 7861 (MO!)
Depts.: LO

Forsteronia amblybasis S. F. Blake
Syn. *Forsteronia decipiens* Woodson
Ref. Hansen, 1985: 236.
Liana. Amazonian: terra firme forests. 0-500 m.
Note: Peru material treated as an unpublished subspecies based on *F. decipiens* by Hansen (1985).
Voucher: Gentry *et al.* 51429 (MO!)
Depts.: MD

Forsteronia benthamiana Muell. Arg. =Forsteronia acouci (Aublet) A. DC.
Ref. FP 13(5/1) 1959: 433; Hansen, 1985: 212.

Forsteronia brevifolia Markgraf
Ref. FP 13(5/1) 1959: 434; Hansen, 1985: 189.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Klug 640 (F)
Depts.: LO

Forsteronia decipiens Woodson =Forsteronia amblybasis S. F. Blake
Ref. FP 13(5/1) 1959: 434; Hansen, 1985: 236.
Note: Treated as an unpublished subspecies of *F. amblybasis* by Hansen (1985).

Forsteronia galbina Woodson =Forsteronia myriantha J. D. Smith
Ref. FP 13(5/1) 1959: 434; Hansen, 1985: 160.
Note: Treated as an unpublished subspecies of *F. myriantha* by Hansen (1985).

Forsteronia graciloides Woodson
Ref. FP 13(5/1) 1959: 435; Hansen, 1985: 289.
Liana. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Williams 4547* (MO), Knapp *et al.* 7275 (MO!)
Depts.: AM, HU, JU, LO, PA, SM

Forsteronia myriantha J. D. Smith
Syn. *Forsteronia galbina* Woodson
Ref. Hansen, 1985: 160.
Liana. Amazonian: terra firme forests. 0-1000 m.
Note: Peru material treated as an unpublished subspecies based on *F. galbina* by Hansen (1985).
Voucher: Foster 9917 (MO!)
Depts.: AM, LO, MD, SM

Forsteronia pubescens A. DC.
Syn. *Thyrsanthus placidus* Miers
Ref. FP 13(5/1) 1959: 435; Hansen, 1985: 94.
Liana. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Núñez & Walsh 6357 (MO!)
Depts.: CU, JU, SM

Forsteronia subcordata Schumann ex Woodson
Ref. Hansen, 1985: 108.
Liana. Andean II: disturbed areas, forests. 1500-2000 m.
Voucher: Gentry *et al.* 61182 (MO!)
Depts.: CA

Forsteronia tarapotensis Schumann ex Woodson
Ref. FP 13(5/1) 1959: 436; Hansen, 1985: 81.
Liana. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Voucher: Ule 6561* (MO), Williams 5611 (MO)
Depts.: LO, SM

Galactophora calycina (Huber ex Ducke) Woodson
Syn. *Dipladenia calycina* Huber ex Ducke
Ref. Woodson, 1936: 177.
Shrub. Amazonian: savannas, shrublands. 0-500 m.
Voucher: Alban & Foster 6910 (F!)
Depts.: MD

Geissospermum excelsum Kuhlmann =Aspidosperma carapanauba Pichon
Note: Not *Aspidosperma excelsum* Bentham.

Geissospermum myristicifolium Markgraf =Aspidosperma myristicifolium (Markgraf) Woodson
Ref. Woodson, 1951: 169.

Geissospermum reticulatum A. Gentry
Ref. Gentry, 1984: 1078.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Schunke 1446* (MO!), Gentry *et al.* 46008 (MO!)
Depts.: HU, MD

Haemadictyon acutifolium Bentham ex Muell. Arg. =Prestonia acutifolia (Bentham ex Muell. Arg.) Schumann
Ref. FP 13(5/1) 1959: 448.

Haemadictyon caliginosum Miers =Prestonia acutifolia (Bentham ex Muell. Arg.) Schumann
Ref. FP 13(5/1) 1959: 448.

Haemadictyon glandulosum (R. & P.) A. DC. =Mandevilla glandulosa (R. & P.) Woodson
Ref. FP 13(5/1) 1959: 422.

Haemadictyon macroneuron Muell. Arg. =Prestonia macroneura (Muell. Arg.) Woodson
Ref. Woodson, 1936: 321.

Haemadictyon pallidum A. DC. =Prestonia mollis H.B.K.
Ref. FP 13(5/1) 1959: 450.

Haemadictyon riedelii Muell. Arg. =Prestonia riedelii (Muell. Arg.) Markgraf
Ref. FP 13(5/1) 1959: 451.

Haemadictyon trifidum Poeppig =Prestonia trifida (Poeppig) Woodson ex Gleason & A. C. Smith
Ref. FP 13(5/1) 1959: 453.

Hancornia floribunda Poeppig =Lacmellea floribunda (Poeppig) Bentham
Ref. FP 13(5/1) 1959: 370; Spichiger *et al.*, 1990: 418.

Hancornia speciosa Gomes
Ref. FP 13(5/1) 1959: 368; Monachino, 1945: 31.

Shrub or tree. Amazonian: savannas, shrublands. 0-500 m.
Note: May eventually be cultivated for edible fruit in Peru and elsewhere.
Voucher: Albán & Foster 6963 (F!)
Depts.: MD

Heterothrix vanheurckii Muell. Arg. =Mandevilla vanheurckii (Muell. Arg.) Markgraf
Ref. FP 13(5/1) 1959: 429.

[Himatanthus articulatus (M. Vahl) Woodson]
Syn. *Plumeria articulata* M. Vahl
Ref. FP 13(5/1) 1959: 393.
Note: Not known from Peru.

Himatanthus bracteatus (A. DC.) Woodson var. **bracteatus**
Syn. *Plumeria bracteata* A. DC.
Ref. Plumel, 1991: 75.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Ellenburg 2787 (U)
Depts.: LO

[Himatanthus lancifolius (Muell. Arg.) Woodson]
Syn: *Plumeria floribunda* Muell. Arg., *Plumeria lancifolia* Muell. Arg.
Ref. Plumel, 1991: 60
Note: Not known from Peru.

Himatanthus sucuuba (Spruce ex Muell. Arg.) Woodson
Syn. *Plumeria sucuuba* Spruce ex Muell. Arg.
Ref. FP 13(5/1) 1959: 393; Spichiger *et al.*, 1990: 415; Plumel, 1991: 41.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Wurdack 2048 (NY)
Depts.: AM

Himatanthus tarapotensis (Schumann ex Markgraf) Plumel
Syn. *Plumeria tarapotensis* Schumann ex Markgraf
Ref. Plumel, 1991: 50.
Tree. Amazonian: forests. 0-500 m.
Voucher: Tessmann 3205* (NY), Gentry *et al.* 19112 (MO!)
Depts.: HU. LO, MD, SM, UC

[Lacmellea arborescens (Muell. Arg.) Markgraf]
Syn. *Zschokkea arborescens* Muell. Arg.
Ref. FP 13(5/1) 1959: 369.
Note: Not known from Peru. Collections cited in the Flora of Peru are treated here under *L. peruviana*.

Lacmellea arborescens var. *peruviana* (Van Heurck & Muell. Arg.) Monachino =Lacmellea peruviana (Van Heurck & Muell. Arg.) Markgraf
Ref. Markgraf, 1941: 627.

Lacmellea floribunda (Poeppig) Bentham
Syn. *Hancornia floribunda* Poeppig, *Zschokkea floribunda* (Poeppig) Muell. Arg.
Ref. FP 13(5/1) 1959: 370; Spichiger *et al.*, 1990: 418.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Williams 3739 (MO!)
Depts.: LO, SM

[Lacmellea foxii (Stapf) Markgraf]
Syn. *Zschokkea foxii* Stapf
Ref. FP 13(5/1) 1959: 371.
Note: Not known from Peru. The Flora of Peru incorrectly cites "Monachino" as the combining author.

Lacmellea grandiflora Monachino =Lacmellea oblongata Markgraf
Ref. Markgraf, 1941: 622; Monachino, 1944: 289.

Lacmellea klugii Monachino
Ref. FP 13(5/1) 1959: 371.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Klug 840* (NY!), Jones 9661 (MO!)
Depts.: LO

Lacmellea lactescens (Kuhlmann) Markgraf
Syn. *Zschokkea lactescens* Kuhlmann
Ref. FP 13(5/1) 1959: 372.
Tree. Amazonian: terra firme forests. 0-500 m.
Note: The Flora of Peru incorrectly cites "Monachino" as the combining author.
Voucher: Croat 18869 (MO!)
Depts.: LO

Lacmellea oblongata Markgraf
Syn. *Lacmellea grandiflora* Monachino
Ref. Markgraf, 1941: 622; Monachino, 1944: 289.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Klug 3014* (MO!), Vásquez *et al.* 11968 (MO!)
Depts.: AM, LO

Lacmellea peruviana (Van Heurck & Muell. Arg.) Markgraf
Syn. *Lacmellea arborescens* var. *peruviana* (Van Heurck & Muell. Arg.) Monachino, *Zschokkea peruviana* Van Heurck & Muell. Arg.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Spruce 4934* (AWH!), Rimachi 2183 (MO!)
Depts.: HU, LO, PA, SM, UC

[Lacmellea ramosissima (Muell. Arg.) Markgraf]
Syn. *Zschokkea ramosissima* Muell. Arg.
Ref. FP 13(5/1) 1959: 372.
Note: Not known from Peru. The Flora of Peru incorrectly cites "Monachino" as the combining author.

Landolphia boliviensis Markgraf =Pacouria boliviensis (Markgraf) A. Chevalier
Ref. Gentry, 1984: 1076.

Laseguea antennacea (A. DC.) Miers =Mandevilla antennacea (A. DC.) Schumann
Ref. FP 13(5/1) 1959: 419.

Laseguea pentlandiana A. DC. =Mandevilla pentlandiana (A. DC.) Woodson
Ref. Woodson, 1933: 671.

Laubertia boissieri A. DC.
Ref. FP 13(5/1) 1959: 454.
Liana or vine. Andean I: forests, riversides. 1000-1500 m.
Voucher: Woytkowski 6353 (MO!)
Depts.: CA, HU, JU

Laubertia laxiflora Rusby =Odontadenia laxiflora (Rusby) Woodson
Ref. FP 13(5/1) 1959: 443.

Laxoplumeria tessmannii Markgraf
Ref. FP 13(5/1) 1959: 389.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Tessmann 4423* (F), Gentry *et al.* 29849 (MO!)
Depts.: LO

Lochnera rosea (L.) Reichenbach =Catharanthus roseus (L.) G. Don
Ref. FP 13(5/1) 1959: 391; Stearn, 1975: 31.

Macoubea guianensis Aublet
Syn. *Macoubea witotorum* R. Schultes
Ref. FP 13(5/1) 1959: 396; Spichiger *et al.*, 1990: 420.
Tree. Amazonian: terra firme forests. 0-500 m.
Note: Peruvian material is treated under var. *pubiflora* Monachino by Allorge (1985: 174).
Voucher: Williams 938 (MO!)
Depts.: LO, MD

Macoubea sprucei (Muell. Arg.) Markgraf
Syn. *Tabernaemontana sprucei* Muell. Arg.
Ref. FP 13(5/1) 1959: 397.
Tree. Amazonian: forests. 0-500 m.
Voucher: Revilla 3747 (MO!)
Depts.: LO

Macoubea witotorum R. Schultes =Macoubea guianensis Aublet
Ref. Allorge, 1985: 174.

Macropharynx fistulosa Rusby =Macropharynx spectabilis (Stadelmeyer) Woodson
Ref. FP 13(5/1) 1959: 446.

Macropharynx spectabilis (Stadelmeyer) Woodson
Syn. *Echites spectabilis* Stadelmeyer, *Macropharynx fistulosa* Rusby
Ref. FP 13(5/1) 1959: 446.
Liana. Amazonian, Andean I: forests. 0-1000 m.

Voucher: Schunke 9272 (MO!)
Depts.: AM, HU, JU, LO, SM, UC

Malouetia amplexicaulis Spruce ex Muell. Arg.
Ref. Woodson, 1935: 261.
Tree. Amazonian: forests, seasonally inundated areas. 0-500 m.
Voucher: Williams 928 (MO!)
Depts.: LO

Malouetia flavescens (Willdenow ex Roemer & Schultes) Muell. Arg.
Syn. *Tabernaemontana flavescens* Willdenow ex Roemer & Schultes
Ref. Woodson, 1935: 242.
Shrub. Amazonian: forests, riversides, seasonally inundated areas. 0-500 m.
Voucher: Vásquez 4990 (MO!)
Depts.: LO, UC

Malouetia furfuracea Spruce ex Muell. Arg. =Malouetia tamaquarina var. tamaquarina
Ref. Woodson, 1935: 254; Endress, pers. comm.

Malouetia killipii Woodson
Ref. FP 13(5/1) 1959: 430.
Tree. Amazonian: forests, riversides, seasonally inundated areas. 0-500 m.
Voucher: Killip & Smith 29860* (MO!), Solomon 3429 (MO!)
Depts.: LO

Malouetia naias M. E. Endress
Ref. Endress, 1989: 1143.
Shrub or tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Vásquez & Jaramillo 3280 (MO!)
Depts.: LO

Malouetia peruviana Woodson =Malouetia tamaquarina var. tamaquarina
Ref. FP 13(5/1) 1959: 431; Woodson, 1935: 259; Endress, pers. comm.
Note: Treated by Endress (pers. comm.) as an unpublished variety of *M. tamaquarina*.

Malouetia quadricasarum Woodson
Ref. Woodson, 1948b: 234.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 61738 (MO!)
Depts.: LO

Malouetia tamaquarina (Aublet) A. DC. var. **lancifolia** Muell. Arg.
Ref. M. E. Endress, pers. comm.
Tree. Amazonian: forests, riversides, seasonally inundated areas. 0-500 m.
Note: Treated as a synonym of the species by Woodson (1935).
Voucher: Revilla 1009 (MO!)
Depts.: LO

Malouetia tamaquarina var. **tamaquarina**
Syn. *Cameraria tamaquarina* Aublet, *Malouetia furfuracea* Spruce ex Muell. Arg., *Malouetia peruviana* Woodson
Ref. Woodson, 1935: 252.
Shrub or tree. Amazonian: forests, riversides, seasonally inundated areas. 0-500 m.
Voucher: van der Werff 10075 (MO!)
Depts.: LO, SM

Malouetia tetrastachya (H.B.K.) Miers =Tabernaemontana siphilitica (L. f.) Leeuwenberg
Ref. FP 13(5/1) 1959: 411; van Beek *et al.*, 1984: 17.

Mandevilla albo-viridis (Rusby) Woodson
Syn. *Dipladenia albo-viridis* Rusby
Ref. Woodson, 1933: 690.
Vine. Andean II: disturbed areas. 1500-2000 m.
Voucher: Sagástegui 11287 (Z)
Depts.: CA

Mandevilla antennacea (A. DC.) Schumann
Syn. *Amblyanthera antennacea* (A. DC.) Muell. Arg., *Echites antennacea* A. DC., *Laseguea antennacea* (A. DC.) Miers
Ref. FP 13(5/1) 1959: 418.
Vine. Amazonian, Andean I: disturbed areas, terra firme forests. 0-1500 m.
Voucher: Woytkowski 529 (MO!)
Depts.: CU, JU, LO, SM, UC

Mandevilla arcuata A. Gentry
Ref. Gentry, 1984: 1079.
Endemic vine. Amazonian: terra firme forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Tunqui 674* (MO!)
Depts.: AM

[Mandevilla boliviensis (Hooker f.) Woodson]
Syn. *Dipladenia boliviensis* Hooker f.
Ref. FP 13(5/1) 1959: 419; Woodson, 1933: 716.
Note: Not known from Peru.

Mandevilla brachyloba (Muell. Arg.) Schumann
Syn. *Amblyanthera brachyloba* Muell. Arg., *Echites brachyloba* (Muell. Arg.) Miers
Ref. FP 13(5/1) 1959: 420.
Liana or vine. Andean I-II: forests. 1000-3000 m.
Voucher: Mathews 820* (K!), Weberbauer 6498 (MO!)
Depts.: AP, CU, HV, JU, PU

Mandevilla bridgesii (Muell. Arg.) Woodson
Syn. *Amblyanthera bridgesii* Muell. Arg.
Ref. Woodson, 1933: 693.
Liana or vine. Andean II. 2500-3000 m.
Voucher: Herrera 3344 (MO!)
Depts.: CU

Mandevilla callacatensis Markgraf
Ref. FP 13(5/1) 1959: 420.
Liana or vine. Coastal. 1000-1500 m.
Voucher: Weberbauer 7128* (F), Jelski 375 (W photo F!)
Depts.: CA

Mandevilla callista Woodson
Ref. Woodson, 1933: 700.
Liana. Andean I: forests. 500-1000 m.
Voucher: Woytkowski 7314 (MO!)
Depts.: SM

Mandevilla cercophylla Woodson
Ref. FP 13(5/1) 1959: 421.
Liana or vine. Andean I-II: forests. 500-2000 m.
Voucher: Mathews 1978* (K!), Woytkowski 5677 (MO!)
Depts.: CA, HU, PA

Mandevilla cuspidata (Rusby) Woodson
Syn. *Dipladenia cuspidata* Rusby
Ref. FP 13(5/1) 1959: 421.
Vine. Andean II: rocky slopes. 2000-2500 m.
Voucher: Vargas 11359 (MO!)
Depts.: CU

Mandevilla glabra N. E. Brown =Mandevilla vanheurckii (Muell. Arg.) Markgraf
Ref. FP 13(5/1) 1959: 429.

Mandevilla glandulosa (R. & P.) Woodson
Syn. *Echites glandulosa* R. & P., *Haemadictyon glandulosum* (R. & P.) A. DC., *Odontadenia glandulosa* (R. & P.) Schumann, *Prestonia peruviana* Sprengel
Ref. FP 13(5/1) 1959: 422.
Liana or vine. Andean I. 1500-2000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Macbride 3730 (F!)
Depts.: HU, SM

Mandevilla hirsuta (Richard) Schumann
Syn. *Echites hirsuta* Richard
Ref. Woodson, 1933: 763.
Vine. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Woytkowski 8264 (MO!)
Depts.: AM, CU, MD

Mandevilla laxa (R. & P.) Woodson
Syn. *Echites laxa* R. & P., *Mandevilla suaveolens* Lindley
Ref. FP 13(5/1) 1959: 423.
Liana or vine. Andean I. 1500-2000 m.
Voucher: Ruiz & Pavón s.n.* (MA photo F!), Stafford 1043 (F)
Depts.: CU, HU

Mandevilla lobbii Woodson
Ref. FP 13(5/1) 1959: 423.
Note: Questionably from Peru; known only from the type collection.
Voucher: Lobb s.n.* (W)
Depts.: Without full locality data.

Mandevilla montana (H.B.K.) Markgraf
Syn. *Echites montana* H.B.K.
Ref. Woodson, 1933: 664.
Vine. Andean II: rocky slopes. 2000-3000 m.
Voucher: Sagástegui *et al.* 10156 (MO!)
Depts.: CA

Mandevilla montana var. *peruviana* Markgraf =Mandevilla riparia (H.B.K.) Woodson
Ref. FP 13(5/1) 1959: 425.

Mandevilla pavonii (A. DC.) Woodson
Syn. *Amblyanthera pavonii* (A. DC.) Muell. Arg., *Echites hirsuta* R. & P., *Echites pavonii* A. DC.
Ref. FP 13(5/1) 1959: 424.
Liana or vine. Amazonian, Andean I: disturbed areas, forests, riversides. 0-1000 m.
Voucher: Ruiz & Pavón s.n.* (B photo F!), Stein & Kallunki 3937 (MO!)
Depts.: HU, LO, SM

Mandevilla pentlandiana (A. DC.) Woodson
Syn. *Laseguea pentlandiana* A. DC.
Ref. Woodson, 1933: 671.
Liana. Andean I: forests. 1000-1500 m.
Voucher: Woytkowski 6326b (MO!)
Depts.: JU

Mandevilla polyantha Schumann ex Woodson
Ref. FP 13(5/1) 1959: 424.
Liana or vine. Amazonian, Andean I: disturbed areas, terra firme forests. 0-1000 m.
Voucher: Ule 6271* (B photo F!), Schunke 9919 (MO!)
Depts.: HU, LO

Mandevilla riparia (H.B.K.) Woodson
Syn. *Echites riparia* H.B.K., *Mandevilla montana* var. *peruviana* Markgraf
Ref. FP 13(5/1) 1959: 425.
Vine. Andean II: disturbed areas, shrublands. 2500-3000 m.
Voucher: Stork & Horton 10151 (K!)
Depts.: CA

Mandevilla rutila Woodson
Ref. Woodson, 1933: 757.
Liana. Amazonian: forests. 0-500 m.
Voucher: Ferreyra 1192 (MO!)
Depts.: LO

Mandevilla sandemanii Woodson
Ref. Woodson, 1960: 78.
Endemic liana or shrub. Andean II: terra firme forests. 1500-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Sandeman 5154* (K!)
Depts.: HU

Mandevilla scabra (Hoffmannsegg ex Roemer & Schultes) Schumann
Syn. *Amblyanthera versicolor* var. *olivacea* Muell. Arg., *Echites scabra* Hoffmannsegg ex Roemer & Schultes
Ref. FP 13(5/1) 1959: 426.
Liana or vine. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Woytkowski 35294 (MO!)
Depts.: LO, SM

Mandevilla scutifolia Woodson
Ref. FP 13(5/1) 1959: 426.
Vine. Andean II: disturbed areas, forests. 1500-2000 m.
Note: The type is questionably from Peru. The cited modern collection was questionably determined by Leeuwenberg (WAG) in 1989.
Voucher: Lobb s.n.* (K!), Gentry *et al.* 61095 (MO!)
Depts.: CA

Mandevilla suaveolens Lindley =Mandevilla laxa (R. & P.) Woodson
Ref. FP 13(5/1) 1959: 423.

[Mandevilla subpaniculata Woodson]
Syn. *Echites macrophylla* Zahlbruckner, nom. illeg.
Ref. FP 13(5/1) 1959: 427.
Note: Not known from Peru.

Mandevilla subsagittata (R. & P.) Woodson
Syn. *Echites hirtiflora* A. DC., *Echites subsagittata* R. & P.
Ref. FP 13(5/1) 1959: 427.
Liana or vine. Amazonian, Andean I: forests, riversides. 0-1000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Díaz 364 (MO!)
Depts.: CA, HU, JU, SM

Mandevilla subsessilis (A. DC.) Woodson
Syn. *Echites subsessilis* A. DC.
Ref. FP 13(5/1) 1959: 428.
Liana.
Note: Known from Peru only from the type locality.
Voucher: Ruiz & Pavón s.n.* (G)
Depts.: Without full locality data.

Mandevilla trianae Woodson
Ref. FP 13(5/1) 1959: 428.
Liana or vine. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Wurdack 1847 (MO!)
Depts.: HU, JU, LO, PA, SM

Mandevilla vanheurckii (Muell. Arg.) Markgraf
Syn. *Eriadenia obovata* Miers, *Heterothrix vanheurckii* Muell. Arg., *Mandevilla glabra* N. E. Brown
Ref. FP 13(5/1) 1959: 429.
Liana. Andean I: forests. 500-1500 m.
Voucher: Spruce 4303* (K!), Klug 3639 (MO!)
Depts.: SM

Mandevilla versicolor Woodson
Ref. Woodson, 1964: 346.
Liana or vine. Andean II: forests. 2000-2500 m.
Voucher: Foster *et al.* 7804 (MO!)
Depts.: PA

Merizadenia arcuata (R. & P.) Miers =Tabernaemontana cymosa Jacquin
Ref. FP 13(5/1) 1959: 401; Leeuwenberg, pers. comm.
Note: Treated under *Tabernaemontana arcuata* in the Flora of Peru.

Merizadenia sananho (R. & P.) Miers =Tabernaemontana sananho R. & P.
Ref. FP 13(5/1) 1959: 409; van Beek *et al.*, 1984: 17.

Mesechites acuminata (R. & P.) Muell. Arg.
Syn. *Echites acuminata* R. & P., *Echites trifida* fo. *puberula* Markgraf
Ref. FP 13(5/1) 1959: 414.
Liana or vine. Andean I-II: disturbed areas, forests. 500-2500 m.
Voucher: Ruiz & Pavón s.n.* (MA), Croat 58121 (MO!)
Depts.: AY, CA, CU, HU, JU, LO, SM

Mesechites dichotoma (H.B.K.) Miers =Mesechites trifida (Jacquin) Muell. Arg.
Ref. FP 13(5/1) 1959: 414.

Mesechites japurensis (Stadelmeyer) Muell. Arg. =Mesechites trifida (Jacquin) Muell. Arg.
Ref. FP 13(5/1) 1959: 414.

Mesechites pilosissima Woodson
Ref. Woodson, 1966: 260.
Endemic vine. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Woytkowski 5604* (MO!)
Depts.: CA

Mesechites sanctae-crucis (S. Moore) Woodson
Syn. *Echites sanctae-crucis* S. Moore
Ref. Woodson, 1933: 634.
Vine. Andean I: disturbed areas, forests, riversides. 500-1000 m.
Voucher: Schunke 8448 (MO!)
Depts.: SM

Mesechites trifida (Jacquin) Muell. Arg.
Syn. *Echites dichotoma* H.B.K., *Echites japurensis* Stadelmeyer, *Echites trifida* Jacquin, *Mesechites dichotoma* (H.B.K.) Miers, *Mesechites japurensis* (Stadelmeyer) Muell. Arg.
Ref. FP 13(5/1) 1959: 414.
Liana or vine. Amazonian, Andean I: disturbed areas, forests, riversides. 0-1000 m.
Voucher: Wasshausen & Encarnación 754 (MO!)
Depts.: AY, CA, CU, HU, JU, LO, MD, PA, SM, UC

Mucoa duckei (Markgraf) Zarucchi
Syn. *Ambelania markgrafiana* Monachino, *Neocouma duckei* Markgraf
Ref. Spichiger *et al.*, 1990: 420; Zarucchi, 1987: 42.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Vásquez & Soto 11863 (MO!)
Depts.: LO

Neocouma duckei Markgraf =Mucoa duckei (Markgraf) Zarucchi
Ref. FP 13(5/1) 1959: 373; Spichiger *et al.*, 1990: 420; Zarucchi, 1987: 42.

Nerium coronarium Jacquin =Tabernaemontana divaricata (L.) R. Brown ex Roemer & Schultes
Ref. FP 13(5/1) 1959: 403; Leeuwenberg, 1991: 153.

Nerium divaricatum L. =Tabernaemontana divaricata (L.) R. Brown ex Roemer & Schultes
Ref. FP 13(5/1) 1959: 403; Leeuwenberg, 1991: 153.

Nerium oleander L.
Ref. FP 13(5/1) 1959: 430; Leeuwenberg, 1984: 57.
Cultivated and introduced shrub. Amazonian, Andean I, Coastal: disturbed areas. 0-1500 m.
Voucher: Williams 5447 (MO!)
Depts.: HU, LA, LI, SM

Odontadenia affinis Woodson
Ref. FP 13(5/1) 1959: 440.
Endemic liana or vine. Amazonian: terra firme forests. 0-500 m.
Voucher: Killip & Smith 28609* (US), Vásquez & Jaramillo 3247 (MO!)
Depts.: LO

Odontadenia anomala (Van Heurck & Muell. Arg.) J. F. Macbride
Syn. *Anisolobus anomalus* Van Heurck & Muell. Arg., *Pericteneia anomala* (Van Heurck & Muell. Arg.) Pichon, *Pericteneia stipellaris* Miers
Ref. FP 13(5/1) 1959: 439.
Endemic liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Spruce 4900* (K), Kayap 1221 (MO!)
Depts.: AM, LO, SM

Odontadenia augusta Woodson =Odontadenia cognata (Stadelmeyer) Woodson
Ref. FP 13(5/1) 1959: 440.

Odontadenia cognata (Stadelmeyer) Woodson
Syn. *Angadenia cognata* (Stadelmeyer) Miers, *Anisolobus cognatus* (Stadelmeyer) Muell. Arg., *Echites cognata* Stadelmeyer, *Odontadenia augusta* Woodson
Ref. FP 13(5/1) 1959: 440.
Liana or vine. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Seibert 2008 (MO!)
Depts.: HU, LO, MD, PA, SM

Odontadenia cordigera Woodson
Ref. FP 13(5/1) 1959: 441.
Endemic liana or vine. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Killip & Smith 29916* (MO!)
Depts.: LO

Odontadenia funigera Woodson
Ref. Woodson, 1935: 274.
Liana or vine. Amazonian: forests, riversides. 0-500 m.
Voucher: Revilla 1729 (MO!)
Depts.: LO

Odontadenia geminata (Hoffmannsegg ex Roemer & Schultes) Muell. Arg.
Syn. *Echites geminata* Hoffmannsegg ex Roemer & Schultes
Ref. FP 13(5/1) 1959: 441.
Liana or vine. Amazonian: riversides, terra firme forests. 0-500 m.
Voucher: Croat 19953 (MO!)
Depts.: LO, SM

Odontadenia glandulosa (R. & P.) Schumann =Mandevilla glandulosa (R. & P.) Woodson
Ref. FP 13(5/1) 1959: 422.

Odontadenia glauca Woodson
Ref. Woodson, 1935: 304.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Woytkowski 6180 (MO!)
Depts.: SM

Odontadenia grandiflora Miquel =Odontadenia macrantha (Roemer & Schultes) Markgraf
Ref. FP 13(5/1) 1959: 444.

Odontadenia hoffmannseggiana (Steudel) Woodson =Odontadenia macrantha (Roemer & Schultes) Markgraf
Ref. FP 13(5/1) 1959: 444.

Odontadenia killipii Woodson
Ref. FP 13(5/1) 1959: 442.
Liana or vine. Amazonian: forests on white sand, terra firme forests. 0-500 m.
Voucher: Killip & Smith 29847* (MO!), Croat 19092 (MO!)
Depts.: LO

Odontadenia lauretiana Woodson & Steyermark
Ref. FP 13(5/1) 1959: 442.
Vine. Amazonian: riversides, terra firme forests. 0-500 m.
Voucher: Williams 4385* (F), Revilla 1678 (MO!)
Depts.: AM, HU, LO

Odontadenia laxiflora (Rusby) Woodson
Syn. *Codonechites laxiflora* (Rusby) Pichon, *Codonechites paniculata* Markgraf, *Laubertia laxiflora* Rusby
Ref. FP 13(5/1) 1959: 443.
Vine. Amazonian: terra firme forests. 0-500 m.
Voucher: Seibert 2042 (MO!)
Depts.: MD

Odontadenia lutea (Vell. Conc.) Markgraf
Syn. *Echites lutea* Vell. Conc.
Ref. Woodson, 1935: 283.
Shrub or liana. Amazonian: savannas, shrublands. 0-500 m.
Voucher: Gentry & Núñez 69477 (MO!)
Depts.: MD

Odontadenia macrantha (Roemer & Schultes) Markgraf
Syn. *Echites grandiflora* G. Meyer, *Echites hoffmannseggiana* Steudel, *Echites macrantha* Roemer & Schultes, *Odontadenia grandiflora* Miquel, *Odontadenia hoffmannseggiana* (Steudel) Woodson
Ref. FP 13(5/1) 1959: 444.
Liana or vine. Amazonian: forests, seasonally inundated areas. 0-500 m.
Voucher: Croat 20225 (MO!)
Depts.: LO, SM

Odontadenia macrostoma A. Gentry
Ref. Gentry, 1984: 1080.
Endemic liana. Amazonian: terra firme forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Tunqui 602* (MO!)
Depts.: AM

Odontadenia nitida (M. Vahl) Muell. Arg.
Syn. *Angadenia nitida* (M. Vahl) Miers, *Echites nitida* M. Vahl
Ref. Woodson, 1935: 300.
Liana or vine. Amazonian: forests, seasonally inundated areas. 0-500 m.
Voucher: Vásquez & Jaramillo 5269 (MO!)
Depts.: LO

Odontadenia puncticulosa (Richard) Pulle
Syn. *Echites puncticulosa* Richard
Ref. Woodson, 1935: 285.
Liana or vine. Amazonian: terra firme forests. 0-500 m.
Voucher: Wurdack 2123 (MO!)
Depts.: LO, PA

Odontadenia stemmadeniifolia Woodson
Ref. FP 13(5/1) 1959: 445.
Liana or vine. Amazonian: forests, riversides. 0-500 m.
Voucher: Klug 782* (US), Berlin 850 (MO!)
Depts.: AM, LO

Odontadenia sylvestris (A. DC.) Muell. Arg.
Syn. *Echites sylvestris* A. DC.
Vine. Amazonian: terra firme forests. 0-500 m.
Note: In Woodson's 1936 monograph of the genus, he placed this species as a synonym of *O. hoffmannseggiana*.
Voucher: Klug 2046 (MO!)
Depts.: LO

Odontadenia verrucosa (Willdenow ex Roemer & Schultes) Schumann ex Markgraf
Syn. *Echites verrucosa* Willdenow ex Roemer & Schultes
Ref. Woodson, 1935: 278.
Liana or vine. Amazonian: disturbed areas, terra firme forests. 0-500 m.
Voucher: Croat 18172 (MO!)
Depts.: AM, LO

Pacouria boliviensis (Markgraf) A. Chevalier
Syn. *Landolphia boliviensis* Markgraf
Ref. Gentry, 1984: 1076.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Foster 9646 (MO!)
Depts.: AM, MD

Parahancornia peruviana Monachino
Ref. FP 13(5/1) 1959: 367; Spichiger *et al.*, 1990: 424; Zarucchi, 1991: 43.
Endemic tree. Amazonian: forests on white sand, terra firme forests. 0-500 m.

Voucher: Klug 2979* (F), Díaz *et al.* 1084 (MO!)
Depts.: LO, SM

Peltastes ampliflorus Woodson
Ref. Woodson, 1960: 77.
Endemic liana. Andean I: forests. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Klug 3754* (MO!)
Depts.: SM

[Peltastes peltatus (Vell. Conc.) Woodson]
Syn. *Echites peltata* Vell. Conc., *Stipecoma peltata* (Vell. Conc.) Miers
Ref. FP 13(5/1) 1959: 445.
Note: Not known from Peru. Specimens cited in the Flora of Peru are redetermined by Woodson (1960) as *P. ampliflorus* and *P. peruvianus*.

Peltastes peruvianus Woodson
Ref. Woodson, 1960: 77.
Endemic liana. Andean I-II: forests. 1000-3000 m.
Voucher: Woytkowski 34492* (MO), Smith 1581 (MO!)
Depts.: AM, CA, HU, PA, UC

Perictenia anomala (Van Heurck & Muell. Arg.) Pichon =Odontadenia anomala (Van Heurck & Muell. Arg.) J. F. Macbride

Perictenia stipellaris Miers =Odontadenia anomala (Van Heurck & Muell. Arg.) J. F. Macbride
Ref. FP 13(5/1) 1959: 439.

Peschiera arcuata (R. & P.) Markgraf =Tabernaemontana cymosa Jacquin
Ref. FP 13(5/1) 1959: 400; Leeuwenberg, pers. comm.

[*Peschiera benthamiana* (Muell. Arg.) Markgraf =Tabernaemontana linkii A. DC.]
Ref. FP 13(5/1) 1959: 401; Leeuwenberg, pers. comm.
Note: Not known from Peru.

Peschiera blanda Miers =Tabernaemontana vanheurckii Muell. Arg.
Ref. FP 13(5/1) 1959: 412.

Peschiera concinna Miers =Tabernaemontana cymosa Jacquin
Ref. FP 13(5/1) 1959: 402; Leeuwenberg, pers. comm.

Peschiera cymosa (Jacquin) Dugand =Tabernaemontana cymosa Jacquin
Ref. Leeuwenberg, pers. comm.

Peschiera heterophylla (M. Vahl) Miers =Tabernaemontana heterophylla M. Vahl
Ref. FP 13(5/1) 1959: 404.

Peschiera lingulata Miers =Tabernaemontana vanheurckii Muell. Arg.
Ref. FP 13(5/1) 1959: 410; Leeuwenberg, pers. comm.

[*Peschiera linkii* (A. DC.) Miers =Tabernaemontana linkii A. DC.]
Ref. Leeuwenberg, pers. comm.
Note: Not known from Peru.

Peschiera puberiflora Miers =Tabernaemontana cymosa Jacquin
Ref. FP 13(5/1) 1959: 404; Leeuwenberg, pers. comm.

Peschiera stenoloba (Muell. Arg.) Miers =Tabernaemontana stenoloba Muell. Arg.
Ref. FP 13(5/1) 1959: 410.

Peschiera tenuiflora Poeppig =Tabernaemontana heterophylla M. Vahl
Ref. FP 13(5/1) 1959: 404.

Plumeria acutifolia Poiret =Plumeria rubra L.
Ref. FP 13(5/1) 1959: 395.

[*Plumeria articulata* M. Vahl =Himatanthus articulatus (M. Vahl) Woodson]
Ref. FP 13(5/1) 1959: 393; Plumel, 1991: 60.
Note: Not known from Peru.

Plumeria bicolor R. & P. =Plumeria rubra L.
Ref. FP 13(5/1) 1959: 395.

Plumeria bracteata A. DC. =Himatanthus bracteatus var. bracteatus
Ref. Plumel, 1991: 75.

Plumeria carinata R. & P. =Plumeria rubra L.
Ref. FP 13(5/1) 1959: 395.

[*Plumeria floribunda* Muell. Arg. =Himatanthus lancifolius (Muell. Arg.) Woodson]
Ref. FP 13(5/1) 1959: 393; Plumel, 1991: 60.
Note: Not known from Peru.

Plumeria incarnata Miller =Plumeria rubra L.
Ref. FP 13(5/1) 1959: 395.

[*Plumeria lancifolia* Muell. Arg. =Himatanthus lancifolius (Muell. Arg.) Woodson]
Ref. Plumel, 1991: 60.
Note: Not known from Peru.

Plumeria lutea R. & P. =Plumeria rubra L.
Ref. FP 13(5/1) 1959: 395.

Plumeria purpurea R. & P. =Plumeria rubra L.
Ref. FP 13(5/1) 1959: 395.

Plumeria rubra L.
Syn. *Plumeria acutifolia* Poiret, *Plumeria bicolor* R. & P., *Plumeria carinata* R. & P., *Plumeria incarnata* Miller, *Plumeria lutea* R. & P., *Plumeria purpurea* R. & P., *Plumeria tricolor* R. & P.
Ref. FP 13(5/1) 1959: 395.
Cultivated tree. Amazonian, Andean I: disturbed areas. 0-1000 m.
Voucher: Killip & Smith 27710 (US)
Depts.: HU, JU, LI, LO

Plumeria sucuuba Spruce ex Muell. Arg. =Himatanthus sucuuba (Spruce ex Muell. Arg.) Woodson
Ref. FP 13(5/1) 1959: 393; Spichiger *et al.*, 1990: 415.

Plumeria tarapotensis Schumann ex Markgraf =Himatanthus tarapotensis (Schumann ex Markgraf) Plumel
Ref. FP 13(5/1) 1959: 393; Plumel, 1991: 50.
Note: Treated as a synonym of *H. sucuuba* in the Flora of Peru.

Plumeria tricolor R. & P. =Plumeria rubra L.
Ref. FP 13(5/1) 1959: 395.

Prestonia acutifolia (Bentham ex Muell. Arg.) Schumann
Syn. *Haemadictyon acutifolium* Bentham ex Muell. Arg., *Haemadictyon caliginosum* Miers
Ref. FP 13(5/1) 1959: 448.
Vine. Amazonian, Andean I: forests, riversides,seasonally inundated areas. 0-1000 m.
Voucher: Schunke 8443 (MO!)
Depts.: HU, JU, LO, SM

Prestonia cordifolia Woodson
Ref. FP 13(5/1) 1959: 449.
Endemic vine. Andean II: forests. 1500-2000 m.
Voucher: Raimondi 8228* (B), Angulo 2138 (F!)
Depts.: CA

Prestonia evansii S. Moore =Prestonia trifida (Poeppig) Woodson ex Gleason & A. C. Smith
Ref. FP 13(5/1) 1959: 453.

Prestonia glabrata H.B.K. =Prestonia mollis H.B.K.
Ref. FP 13(5/1) 1959: 450.

Prestonia lacerata Woodson
Ref. FP 13(5/1) 1959: 449.
Endemic vine. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Tessmann 5106* (B)
Depts.: LO

Prestonia macroneura (Muell. Arg.) Woodson
Syn. *Haemadictyon macroneuron* Muell. Arg.
Ref. Woodson, 1936: 321.
Liana or vine. Amazonian: forests. 0-500 m.

Voucher: Wallnöfer 11-41188 (Z)
Depts.: HU

Prestonia mollis H.B.K.
Syn. *Haemadictyon pallidum* A. DC., *Prestonia glabrata* H.B.K., *Prestonia weberbaueri* Markgraf
Ref. FP 13(5/1) 1959: 450.
Liana or vine. Andean I-II, Coastal: disturbed areas, forests. 500-2500 m.
Voucher: Humboldt & Bonpland s.n.* (P-H&B), Woytkowski 6766 (MO!)
Depts.: AM, CA, CU, LA, PI

Prestonia peruviana Sprengel =Mandevilla glandulosa (R. & P.) Woodson
Ref. FP 13(5/1) 1959: 422.

Prestonia phenax Woodson
Ref. FP 13(5/1) 1959: 450.
Liana or vine. Amazonian: riversides, terra firme forests. 0-500 m.
Voucher: Tessmann 3046* (B), Huashikat 113 (MO!)
Depts.: AM, LO

Prestonia plumierifolia Markgraf
Ref. Woodson, 1936: 325.
Liana or vine. Amazonian: disturbed areas, forests. 0-500 m.
Voucher: Schunke 12402 (Z)
Depts.: SM

Prestonia riedelii (Muell. Arg.) Markgraf
Syn. *Haemadictyon riedelii* Muell. Arg.
Ref. FP 13(5/1) 1959: 451.
Vine. Andean I: forests. 500-1000 m.
Voucher: Killip & Smith 22708 (US)
Depts.: AY

Prestonia robusta Rusby
Ref. FP 13(5/1) 1959: 452.
Vine. Amazonian: forests. 0-500 m.
Voucher: Woytkowski 34418 (F)
Depts.: LO

Prestonia tomentosa R. Brown
Ref. FP 13(5/1) 1959: 452.
Liana or vine. Amazonian: forests, seasonally inundated areas. 0-500 m.
Voucher: Ayala *et al.* 2908 (MO!)
Depts.: LO, MD, SM

Prestonia trifida (Poeppig) Woodson ex Gleason & A. C. Smith
Syn. *Haemadictyon trifidum* Poeppig, *Prestonia evansii* S. Moore
Ref. FP 13(5/1) 1959: 453.
Liana or vine. Amazonian, Andean I: forests, seasonally inundated areas. 0-1000 m.
Voucher: Vásquez & Jaramillo 4378 (MO!)
Depts.: LO, SM

Prestonia vana Woodson
Ref. FP 13(5/1) 1959: 454.
Vine. Amazonian: disturbed areas, forests, seasonally inundated areas. 0-500 m.
Voucher: Klug 3066* (K!), Gentry *et al.* 19102 (MO!)
Depts.: LO, MD

Prestonia weberbaueri Markgraf =Prestonia mollis H.B.K.
Ref. FP 13(5/1) 1959: 450.

Rauvolfia amazonica Markgraf =Rauvolfia macrantha Schumann ex Markgraf
Ref. Rao, 1956: 310.

Rauvolfia andina Markgraf
Ref. FP 13(5/1) 1959: 377.
Endemic shrub. Andean I-II: rocky slopes. 1000-2000 m.
Voucher: Weberbauer 7112* (MO!), Ferreyra 7086 (MO!)
Depts.: CA

Rauvolfia canescens L. =Rauvolfia tetraphylla L.
Ref. FP 13(5/1) 1959: 379.

Rauvolfia duckei Markgraf =Rauvolfia pentaphylla Huber ex Ducke
Ref. FP 13(5/1) 1959: 379.

Rauvolfia flexuosa R. & P. =Citharexylum flexuosum (R. & P.) D. Don (Verbenaceae)
Ref. FP 13(5/2) 1960: 674; Moldenke, 1959: 342.

Rauvolfia glabra Cavanilles =Vallesia glabra (Cavanilles) Link
Ref. FP 13(5/1) 1959: 381.

Rauvolfia hirsuta Jacquin =Rauvolfia tetraphylla L.
Ref. FP 13(5/1) 1959: 379.

Rauvolfia laurentiana Woodson =Rauvolfia sprucei Muell. Arg.
Ref. FP 13(5/1) 1959: 378.

Rauvolfia macrantha Schumann ex Markgraf
Syn. *Rauvolfia amazonica* Markgraf
Ref. Rao, 1956: 312.
Shrub. Amazonian: terra firme forests. 0-500 m.
Voucher: Rimachi 2522 (MO!)
Depts.: LO

Rauvolfia macrophylla R. & P. =Citharexylum flexuosum (R. & P.) D. Don (Verbenaceae)
Ref. FP 13(5/2) 1960: 674; Moldenke, 1959: 342.

Rauvolfia paraensis Ducke
Ref. Rao, 1956: 310.
Shrub or tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Croat 18523 (MO!)
Depts.: LO

Rauvolfia pentaphylla Huber ex Ducke
Syn. *Rauvolfia duckei* Markgraf
Ref. FP 13(5/1) 1959: 379.
Shrub or tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Díaz & Jaramillo 1552 (MO!)
Depts.: LO, SM

Rauvolfia praecox Schumann ex Markgraf
Ref. FP 13(5/1) 1959: 377.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Ule 6256* (L), Foster 9911 (MO!)
Depts.: CA, JU, LO, MD, SM

Rauvolfia sanctorum Woodson
Ref. FP 13(5/1) 1959: 378.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Killip & Smith 29928 (US)
Depts.: LO

Rauvolfia sprucei Muell. Arg.
Syn. *Rauvolfia laurentiana* Woodson
Ref. FP 13(5/1) 1959: 378.
Shrub or tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Croat 20620 (MO!)
Depts.: HU, LO, MD, SM

Rauvolfia tetraphylla L.
Syn. *Rauvolfia canescens* L., *Rauvolfia hirsuta* Jacquin
Ref. FP 13(5/1) 1959: 379.
Shrub. Amazonian, Coastal: disturbed areas, forests, shrublands. 0-1000 m.
Voucher: Belshaw 3137 (MO!)
Depts.: AM, CA, LA, LL, LO, PI, SM

Rhabdadenia macrostoma (Bentham) Muell. Arg.
Syn. *Echites macrostoma* Bentham
Ref. FP 13(5/1) 1959: 446.
Vine. Amazonian: riversides, swamps. 0-500 m.
Voucher: Killip & Smith 26911 (MO!)
Depts.: LO

Rhigospira quadrangularis (Muell. Arg.) Miers
Syn. *Ambelania quadrangularis* Muell. Arg.
Ref. FP 13(5/1) 1959: 374; Spichiger *et al.*, 1990: 426; Zarucchi, 1987: 81.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Huashikat 942 (MO!)
Depts.: AM, LO

Secondatia peruviana Poeppig
Ref. FP 13(5/1) 1959: 437.
Liana. Amazonian, Andean I: forests, riversides. 0-1000 m.
Voucher: Poeppig 1582* (W), Woytkowski 7572 (MO!)
Depts.: HU, JU, LO

Stemmadenia obovata (Hooker & Arnott) Schumann
Syn. *Bignonia obovata* Hooker & Arnott (Bignoniaceae), *Stemmadenia pubescens* Bentham
Ref. Allorge, 1985: 42.
Shrub. Coastal: shrublands. 0-1000 m.
Voucher: Díaz & Vásquez 3052 (MO!)
Depts.: TU

Stemmadenia pubescens Bentham =Stemmadenia obovata (Hooker & Arnott) Schumann
Ref. Allorge, 1985: 42.

Stenosolen heterophyllus (M. Vahl) Markgraf =Tabernaemontana heterophylla M. Vahl
Ref. FP 13(5/1) 1959: 404; Leeuwenberg, 1988: 27.

Stenosolen stenolobus (Muell. Arg.) Markgraf =Tabernaemontana stenoloba Muell. Arg.
Ref. FP 13(5/1) 1959: 410.

Stenosolen vanheurckii (Muell. Arg.) Markgraf =Tabernaemontana vanheurckii Muell. Arg.
Ref. FP 13(5/1) 1959: 412.

[*Stipecoma peltata* (Vell. Conc.) Miers =Peltastes peltatus (Vell. Conc.) Woodson]
Ref. FP 13(5/1) 1959: 445.
Note: Not known from Peru.

Taberna cymosa (Jacquin) Miers =Tabernaemontana cymosa Jacquin
Ref. Leeuwenberg, pers. comm.

Taberna disparifolia Miers =Tabernaemontana flavicans Willdenow ex Roemer & Schultes
Ref. FP 13(5/1) 1959: 404.

Taberna poeppigii (Muell. Arg.) Miers =Tabernaemontana sananho R. & P.
Ref. FP 13(5/1) 1959: 409; van Beek *et al.*, 1984: 17.

Tabernaemontana albescens Rusby =Tabernaemontana undulata M. Vahl
Ref. FP 13(5/1) 1959: 400; Leeuwenberg, pers. comm.

Tabernaemontana amygdalifolia Jacquin
Syn. *Tabernaemontana occidentalis* Miers
Ref. Nowicke, 1970: 68.
Shrub or treelet.
Note: The cited collection is the only one known from Peru (Leeuwenberg, pers. comm.).
Voucher: Maclean s.n. (BM)
Depts.: Without full locality data.

Tabernaemontana arcuata R. & P. =Tabernaemontana cymosa Jacquin
Ref. FP 13(5/1) 1959: 400; Leeuwenberg, pers. comm.

[*Tabernaemontana benthamiana* Muell. Arg. =Tabernaemontana linkii A. DC.]
Ref. FP 13(5/1) 1959: 401; Leeuwenberg, pers. comm.
Note: Not known from Peru. The name was published in Fl. Bras. 6(1): 80 (not 70), 1860.

Tabernaemontana benthamiana Muell. Arg., nom. illeg. =Tabernaemontana macrocalyx Muell. Arg.
Ref. FP 13(5/1) 1959: 407.
Note: The name was published in Fl. Bras. 6(1): 70 (not 80), 1860.

Tabernaemontana brachyantha Woodson, nom. illeg. =Tabernaemontana luciliae Leeuwenberg
Ref. Leeuwenberg, 1988: 14.

Tabernaemontana columbiensis (L. Allorge) Leeuwenberg
Syn. *Bonafousia columbiensis* L. Allorge
Ref. Leeuwenberg, 1988: 5.
Shrub. Amazonian: forests on white sand. 0-500 m.
Note: The epithet was incorrectly spelled "*colombiensis*" by Leeuwenberg (1987); treated by Allorge (1985: 111) under *Bonafousia columbiensis*.
Voucher: Knapp & Mallet 6996 (MO!)
Depts.: HU, SM

Tabernaemontana concinna (Miers) J. F. Macbride =Tabernaemontana cymosa Jacquin
Ref. FP 13(5/1) 1959: 402; Leeuwenberg, pers. comm.
Note: Treated by Allorge (1985: 126) as a synonym of *Peschiera arcuata* [=*T. arcuata*].

[Tabernaemontana coriacea Link ex Roemer & Schultes]
Syn. *Anacampta coriacea* (Link ex Roemer & Schultes) Markgraf, *Bonafousia coriacea* (Link ex Roemer & Schultes) Boiteau & L. Allorge, *Tabernaemontana rubrostriolata* C. Martius ex Muell. Arg.
Ref. FP 13(5/1) 1959: 403; Leeuwenberg, 1988: 28; Leeuwenberg, pers. comm.
Note: Not known from Peru. Treated by Allorge (1985: 83) under *Bonafousia coriacea*.

Tabernaemontana coronaria (Jacquin) Willdenow =Tabernaemontana divaricata (L.) R. Brown ex Roemer & Schultes
Ref. FP 13(5/1) 1959: 403; Leeuwenberg, 1991: 153.

Tabernaemontana cuspidata Rusby
Syn. *Anartia cuspidata* (Rusby) L. Allorge, *Woytkowski spermatochorda* Woodson
Ref. Allorge, 1985: 62; Leeuwenberg, pers. comm.
Shrub or treelet. Amazonian: terra firme forests. 0-500 m.
Note: Treated by Allorge (1985) under *Anartia cuspidata*.
Voucher: Woytkowski 5338 (MO!)
Depts.: LO, UC

Tabernaemontana cymosa Jacquin
Syn. *Merizadenia arcuata* (R. & P.) Miers, *Peschiera arcuata* (R. & P.) Markgraf, *Peschiera concinna* Miers, *Peschiera cymosa* (Jacquin) Dugand, *Peschiera puberiflora* Miers, *Taberna cymosa* (Jacquin) Miers, *Tabernaemontana arcuata* R. & P., *Tabernaemontana concinna* (Miers) J. F. Macbride
Ref. van Beek *et al.*, 1984: 22; Leeuwenberg, pers. comm.
Shrub or treelet. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Spruce 4534 (K!)
Depts.: LO, SM

Tabernaemontana divaricata (L.) R. Brown ex Roemer & Schultes
Syn. *Ervatamia coronaria* (Jacquin) Stapf, *Ervatamia divaricata* (L.) Burkill, *Nerium coronarium* Jacquin, *Nerium divaricatum* L., *Tabernaemontana coronaria* (Jacquin) Willdenow
Ref. Leeuwenberg, 1991: 153.
Introduced shrub. Amazonian: disturbed areas, forests. 0-2500 m.
Voucher: Woytkowski 5577 (MO!)
Depts.: JU, LO, SM

Tabernaemontana flavescens Willdenow ex Roemer & Schultes =Malouetia flavescens (Willdenow ex Roemer & Schultes) Muell. Arg.
Ref. Woodson, 1935: 242.

Tabernaemontana flavicans Willdenow ex Roemer & Schultes
Syn. *Anartia flavicans* (Willdenow ex Roemer & Schultes) Miers, *Anartia olivacea* (Muell. Arg.) Markgraf, *Bonafousia latiflora* Miers, *Bonafousia olivacea* (Muell. Arg.) Miers, *Taberna disparifolia* Miers, *Tabernaemontana olivacea* Muell. Arg.
Ref. FP 13(5/1) 1959: 403; Leeuwenberg, 1988: 29; Spichiger *et al.*, 1990: 426.
Shrub or tree. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Woytkowski 1523 (MO!)
Depts.: HU, LO, MD, SM

Tabernaemontana heterophylla M. Vahl
Syn. *Peschiera heterophylla* (M. Vahl) Miers, *Peschiera tenuiflora* Poeppig, *Stenosolen heterophyllus* (M. Vahl) Markgraf, *Tabernaemontana tenuiflora* (Poeppig) Muell. Arg.
Ref. FP 13(5/1) 1959: 404; Leeuwenberg, 1988: 29.
Shrub. Amazonian: terra firme forests. 0-1500 m.
Note: Treated by Allorge (1985: 160) under *Stenosolen heterophyllus*.
Voucher: Vásquez & Jaramillo 10421 (MO!)
Depts.: LO, MD, SM

Tabernaemontana hirtula C. Martius ex Muell. Arg. =Tabernaemontana siphilitica (L. f.) Leeuwenberg
Ref. Leeuwenberg, pers. comm.

Tabernaemontana hirtula var. **maynensis** Huber
Ref. FP 13(5/1) 1959: 405.
Endemic shrub. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality. The cited collection has not been seen by Leeuwenberg (pers. comm.); its placement is uncertain.
Voucher: Huber MG 1394* (MG)
Depts.: LO

Tabernaemontana juruana (Markgraf) Schumann ex J. F. Macbride

=Tabernaemontana siphilitica (L. f.) Leeuwenberg
Ref. FP 13(5/1) 1959: 405; van Beek *et al.*, 1984: 17; Leeuwenberg, pers. comm.

Tabernaemontana killipii Woodson
=Tabernaemontana siphilitica (L. f.) Leeuwenberg
Ref. FP 13(5/1) 1959: 406; Leeuwenberg, 1988: 30.

[Tabernaemontana linkii DC.]
Syn. *Peschiera benthamiana* (Muell. Arg.) Markgraf, *Peschiera linkii* (A. DC.) Miers, *Tabernaemontana benthamiana* Muell. Arg., nom. illeg., *Tabernaemontana multiflora* Link ex Roemer & Schultes, nom. illeg.
Ref. Leeuwenberg, pers. comm.
Note: Not known from Peru.

Tabernaemontana longifolia Bentham
=Tabernaemontana siphilitica (L. f.) Leeuwenberg
Ref. FP 13(5/1) 1959: 411; van Beek *et al.*, 1984: 17.

Tabernaemontana luciliae Leeuwenberg
Syn. *Bonafousia brachyantha* Boiteau & L. Allorge, *Tabernaemontana brachyantha* Woodson, nom. illeg.
Ref. Leeuwenberg, 1988: 14.
Endemic shrub. Amazonian, Andean I: terra firme forests. 0-1000 m.
Note: Treated by Allorge (1985: 81) under *Bonafousia brachyantha*, that name based on *Tabernaemontana brachyantha* Woodson [nom. illeg.], non Stapf.
Voucher: Woytkowski 5345* (MO)
Depts.: HU, LO, SM

Tabernaemontana macrocalyx Muell. Arg.
Syn. *Anacampta macrocalyx* (Muell. Arg.) Markgraf, *Bonafousia macrocalyx* (Muell. Arg.) Boiteau & L. Allorge, *Bonafousia muelleriana* (C. Martius ex Muell. Arg.) Boiteau & L. Allorge, *Codonemma macrocalyx* (Muell. Arg.) Miers, *Tabernaemontana benthamiana* Muell. Arg., nom. illeg., *Tabernaemontana muelleriana* C. Martius ex Muell. Arg.
Ref. Leeuwenberg, 1988: 30; Leeuwenberg, pers. comm.
Shrub. Amazonian: forests. 0-500 m.
Note: Treated by Allorge (1985: 97) under *Bonafousia macrocalyx*.
Voucher: Vásquez 2246 (MO!)
Depts.: AM, LO

Tabernaemontana markgrafiana J. F. Macbride
Syn. *Bonafousia longituba* Markgraf
Ref. FP 13(5/1) 1959: 406; Leeuwenberg, 1988: 30.
Shrub or tree. Amazonian, Andean I: forests, seasonally inundated areas. 0-1500 m.
Note: Treated by Allorge (1985: 93) under *Bonafousia longituba* Markgraf [not *T. longituba* Pichon].
Voucher: Huashikat 922 (MO!)
Depts.: AM, LO, UC

[Tabernaemontana maxima Markgraf]
Syn. *Anacampta maxima* (Markgraf) Markgraf, *Bonafousia maxima* (Markgraf) Boiteau & L. Allorge
Ref. FP 13(5/1) 1959: 406; Leeuwenberg, pers. comm.
Note: Not known from Peru.

Tabernaemontana muelleriana C. Martius ex Muell. Arg. =Tabernaemontana macrocalyx Muell. Arg.
Ref. FP 13(5/1) 1959: 407; Leeuwenberg, pers. comm.
Note: Treated by Allorge (1985: 83) under *Bonafousia muelleriana*.

[*Tabernaemontana multiflora* Link ex Roemer & Schultes, nom. illeg. =Tabernaemontana linkii A. DC.]
Ref. Leeuwenberg, pers. comm.
Note: Not known from Peru.

Tabernaemontana obliqua (Miers) Leeuwenberg =Tabernaemontana undulata M. Vahl
Ref. Leeuwenberg, pers. comm.

Tabernaemontana occidentalis Miers =Tabernaemontana amygdalifolia Jacquin
Ref. FP 13(5/1) 1959: 408; Leeuwenberg, pers. comm.

Tabernaemontana olivacea Muell. Arg. =Tabernaemontana flavicans Willdenow ex Roemer & Schultes
Ref. FP 13(5/1) 1959: 408; Leeuwenberg, pers. comm.

Tabernaemontana poeppigii Muell. Arg. =Tabernaemontana sananho R. & P.
Ref. FP 13(5/1) 1959: 409; van Beek *et al.*, 1984: 17.

[*Tabernaemontana rubrostriolata* C. Martius ex Muell. Arg. =Tabernaemontana coriacea Link ex Roemer & Schultes]
Ref. FP 13(5/1) 1959: 403; Leeuwenberg, 1988: 31.
Note: Not known from Peru.

Tabernaemontana sananho R. & P.
Syn. *Bonafousia sananho* (R. & P.) Markgraf, *Merizadenia sananho* (R. & P.) Miers, *Taberna poeppigii* (Muell. Arg.) Miers, *Tabernaemontana poeppigii* Muell. Arg.
Ref. FP 13(5/1) 1959: 409; van Beek *et al.*, 1984: 17.
Shrub or tree. Amazonian, Andean I: terra firme forests. 0-1500 m.
Note: Treated by Allorge (1985: 108) under *Bonafousia sananho*.
Voucher: Ruiz & Pavón s.n.* (MA), Vásquez & Jaramillo 7247 (MO!)
Depts.: AM, AY, HU, JU, LO, MD, PA, SM, UC

Tabernaemontana siphilitica (L. f.) Leeuwenberg
Syn. *Anacampta hirtula* (C. Martius ex Muell. Arg.) Miers, *Bonafousia hirtula* (C. Martius ex Muell. Arg.) Markgraf, *Bonafousia juruana* Markgraf, *Bonafousia killipii* (Woodson) Markgraf, *Bonafousia siphilitica* (L. f.) L. Allorge, *Bonafousia tessmannii* Markgraf, *Bonafousia tetrastachya* (H.B.K.) Markgraf, *Echites siphilitica* L. f., *Malouetia tetrastachya* (H.B.K.) Miers, *Tabernaemontana hirtula* C. Martius ex Muell. Arg., *Tabernaemontana juruana* (Markgraf) Schumann ex J. F. Macbride, *Tabernaemontana killipii* Woodson, *Tabernaemontana longifolia* Bentham, *Tabernaemontana tetrastachya* H.B.K.
Ref. van Beek *et al.*, 1984: 17.
Shrub or tree. Amazonian: forests, terra firme forests. 0-500 m.
Note: Treated by Allorge (1985: 114) under *Bonafousia siphilitica*.
Voucher: Revilla 427 (MO!)
Depts.: AM, HU, LO, MD, SM

Tabernaemontana sprucei Muell. Arg. =Macoubea sprucei (Muell. Arg.) Markgraf
Ref. FP 13(5/1) 1959: 397; Allorge, 1985: 175.

Tabernaemontana stenoloba Muell. Arg.
Syn. *Peschiera stenoloba* (Muell. Arg.) Miers, *Stenosolen stenolobus* (Muell. Arg.) Markgraf
Ref. FP 13(5/1) 1959: 410; Allorge, 1985: 163.
Shrub or tree. Amazonian, Andean I-II: forests. 0-2000 m.
Note: Treated by Allorge (1985) under *Stenosolen stenolobus*.
Voucher: Poeppig s.n.* (F photo), Timaná & Jaramillo 3226 (MO!)
Depts.: LO, MD, SM

Tabernaemontana tenuiflora (Poeppig) Muell. Arg. =Tabernaemontana heterophylla M. Vahl
Ref. FP 13(5/1) 1959: 404; Allorge, 1985: 169.
Note: Treated by Allorge (1985) as *Peschiera tenuiflora*.

Tabernaemontana tessmannii (Markgraf) J. F. Macbride
Ref. FP 13(5/1) 1959: 410.
Tree. Amazonian: terra firme forests. 0-500 m.
Note: Treated by Allorge (1985) as a synonym of *Bonafousia siphilitica*.
Voucher: Tessmann 3022*, Schunke 6349 (MO!)
Depts.: LO, SM

Tabernaemontana tetrastachya H.B.K. =Tabernaemontana siphilitica (L. f.) Leeuwenberg
Ref. FP 13(5/1) 1959: 411; van Beek *et al.*, 1984: 17.

Tabernaemontana undulata M. Vahl
Syn. *Anacampta albescens* (Rusby) Markgraf, *Bonafousia obliqua* Miers, *Bonafousia undulata* (M. Vahl) A. DC.,

Tabernaemontana albescens Rusby, *Tabernaemontana obliqua* (Miers) Leeuwenberg
Ref. FP 13(5/1) 1959: 411; Leeuwenberg, 1988: 32.
Shrub or tree. Amazonian: terra firme forests. 0-500 m.
Note: Treated by Allorge (1985: 72) under *Bonafousia undulata*.
Voucher: Knapp & Alcorn 7604 (MO!)
Depts.: AM, HU, JU, LO, PA, SM, UC

Tabernaemontana vanheurckii Muell. Arg.
Syn. *Peschiera blanda* Miers, *Peschiera lingulata* Miers, *Stenosolen vanheurckii* (Muell. Arg.) Markgraf
Ref. FP 13(5/1) 1959: 412; Allorge, 1985: 154.
Shrub or tree. Amazonian, Andean I: terra firme forests. 0-1000 m.
Note: Treated by Allorge (1985: 154) under *Peschiera vanheurckii*.
Voucher: Spruce 4209* (AWH), Vásquez 5029 (MO!)
Depts.: CU, HU, LO, MD, PA, SM, UC

Thevetia peruviana (Persoon) Schumann
Syn. *Cascabela peruviana* (Persoon) Raf., *Cerbera peruviana* Persoon, *Cerbera thevetia* L.
Ref. FP 13(5/1) 1959: 390.
Shrub. Amazonian, Andean I-II: disturbed areas. 0-2500 m.
Voucher: Macbride & Featherstone 2445 (MO!)
Depts.: AP, CA, HU, LI, SM

Thyrsanthus benthamianus (Muell. Arg.) Miers =Forsteronia acouci (Aublet) A. DC.
Ref. FP 13(5/1) 1959: 433; Hansen, 1985: 213.

Thyrsanthus placidus Miers =Forsteronia pubescens A. DC.
Ref. FP 13(5/1) 1959: 435; Hansen, 1985: 94.

Vallesia chiococcoides H.B.K. =Vallesia glabra (Cavanilles) Link
Ref. FP 13(5/1) 1959: 381.

Vallesia dichotoma R. & P. =Vallesia glabra (Cavanilles) Link
Ref. FP 13(5/1) 1959: 381.

Vallesia glabra (Cavanilles) Link
Syn. *Rauvolfia glabra* Cavanilles, *Vallesia chiococcoides* H.B.K., *Vallesia dichotoma* R. & P.
Ref. FP 13(5/1) 1959: 381.
Shrub or tree. Coastal: shrublands. 0-1000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Hutchison & Wright 3354 (MO!)
Depts.: AM, AP, CA, IC, LA, LL

Vinca major L.
Cultivated and introduced herb. Andean II: disturbed areas. 2500-3500 m.
Voucher: Núñez & Bengoa 8643 (MO!)
Depts.: CU

Vinca rosea L. =Catharanthus roseus (L.) G. Don
Ref. FP 13(5/1) 1959: 391; Stearn, 1975: 31.

Woytkowskia spermatochorda Woodson =Tabernaemonata cuspidata Rusby

[*Zschokkea arborescens* Muell. Arg. =Lacmellea arborescens (Muell. Arg.) Markgraf]
Ref. FP 13(5/1) 1959: 369.
Note: Not known from Peru.

Zschokkea floribunda (Poeppig) Muell. Arg. =Lacmellea floribunda (Poeppig) Bentham
Ref. FP 13(5/1) 1959: 370.

[*Zschokkea foxii* Stapf =Lacmellea foxii (Stapf) Markgraf]
Ref. FP 13(5/1) 1959: 371.
Note: Not known from Peru.

Zschokkea lactescens Kuhlmann =Lacmellea lactescens (Kuhlmann) Markgraf
Ref. FP 13(5/1) 1959: 372.

Zschokkea peruviana Van Heurck & Muell. Arg. =Lacmellea peruviana (Van Heurck & Muell. Arg.) Markgraf
Ref. FP 13(5/1) 1959: 369.

[*Zschokkea ramosissima* Muell. Arg. =Lacmellea ramosissima (Muell. Arg.) Markgraf]
Ref. FP 13(5/1) 1959: 372.
Note: Not known from Peru.

Aquifoliaceae

1 genus and 29 species in Peru.

Endemic species: 21.

Prepared by L. Brako.

Ilex aggregata (R. & P.) Loesener
Syn. *Izquierdia aggregata* R. & P., *Izquierdia amygdalifolia* Rusby
Ref. FP 13(3A/1) 1951: 273.
Tree. Andean II. 2500-3000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Woytkowski 34059 (MO!)
Depts.: HU, JU

Ilex amygdalina Reisseck ex Loesener
Ref. FP 13(3A/1) 1951: 273.
Endemic tree.
Voucher: Haenke s.n.* (M photo MO!)
Depts.: Without full locality data.

Ilex andarensis Loesener fo. **andarensis**
Ref. FP 13(3A/1) 1951: 274; Edwin, 1965a: 149.
Tree. Amazonian, Andean I. 0-1500 m.
Voucher: Ule 6718* (B photo F!), Klug 3287 (USM!)
Depts.: LO, SM

Ilex andarensis fo. **psila** Loesener
Ref. FP 13(3A/1) 1951: 274.
Note: Not reconfirmed. Incidentally mentioned in the Flora of Peru.

Ilex andicola Loesener
Ref. FP 13(3A/1) 1951: 274.
Tree. Andean II. 3000-3500 m.
Voucher: Ferreyra 2800 (MO!)
Depts.: AP, CU, PU

Ilex anonoides Loesener
Ref. FP 13(3A/1) 1951: 275.
Endemic tree.
Note: Known from Peru only from the type locality.
Voucher: Lechler 2624* (B)
Depts.: PU

Ilex bumelioides H.B.K. =Ilex quitensis (Willdenow) Loesener
Ref. FP 13(3A/1) 1951: 283.

Ilex caniensis J. F. Macbride
Ref. FP 13(3A/1) 1951: 275.
Endemic tree.
Note: Known from Peru only from the type locality.
Voucher: Macbride & Featherstone 3455* (F)
Depts.: HU

Ilex crassifolia Hooker
Ref. FP 13(3A/1) 1951: 276.
Endemic tree. Andean II. 2000-3000 m.
Voucher: Mathews s.n.* (E), Díaz & Torres 2635 (MO!)
Depts.: AM

Ilex crassifolioides Loesener
Ref. FP 13(3A/1) 1951: 276.
Endemic tree. Andean II. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Spruce 4461*
Depts.: SM

Ilex cuzcoana Loesener
Ref. FP 13(3A/1) 1951: 277.
Endemic tree. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 5067* (B)
Depts.: CU

Ilex elliptica H.B.K.
Ref. FP 13(3A/1) 1951: 277.
Endemic tree. Andean II. 2500-3000 m.
Voucher: Bonpland s.n.*, Stork & Horton 10380 (F!)
Depts.: CA, HV

Ilex ericoides Loesener
Ref. FP 13(3A/1) 1951: 278.
Endemic tree.
Note: Known from Peru only from the type locality.
Voucher: Lechler 2591* (B)
Depts.: PU

Ilex guayusa Loesener
Shrub. Andean I. 1000-1500 m.
Voucher: Díaz 2032 (MO!)
Depts.: CA

Ilex hippocrateoides H.B.K.
Ref. FP 13(3A/1) 1951: 278.
Endemic tree. Andean II. 3000-3500 m.
Voucher: Ferreyra 9460 (MO!)
Depts.: HU

Ilex inundata Poeppig ex Reisseck
Ref. FP 13(3A/1) 1951: 278; Edwin, 1965a: 147.
Shrub or tree. Amazonian: riversides, seasonally inundated areas. 0-500 m.
Voucher: Rimachi 625 (MO!)
Depts.: AM, LO

Ilex jelskii Zahlbruckner
Ref. FP 13(3A/1) 1951: 279.
Endemic tree.
Note: Known from Peru only from the type locality.
Voucher: Jelski 37* (B)
Depts.: CA

Ilex lechleri Loesener
Ref. FP 13(3A/1) 1951: 279.
Endemic tree.
Note: Known from Peru only from the type locality.
Voucher: Lechler 2607* (B)
Depts.: PU

Ilex longifolia Nees =Pachystroma longifolium (Nees) I. M. Johnston (Euphorbiaceae)
Ref. Johnston, 1923: 90.

Ilex loretoica Loesener
Ref. FP 13(3A/1) 1951: 280.
Endemic tree. Andean I. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 4749* (B)
Depts.: SM

Ilex lucumifolia Reissick ex Maximowicz =Pouteria lucumifolia (Reissick ex Maximowicz) Pennington (Sapotaceae)
Ref. Pennington, 1990: 282.

Ilex macbridiana Edwin
Ref. Edwin, 1965b: 284.
Endemic shrub. Andean II: shrublands. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 1365* (US)
Depts.: AM

Ilex mathewsii Loesener
Ref. FP 13(3A/1) 1951: 280.
Endemic tree.
Note: Known from Peru only from the type locality.
Voucher: Mathews s.n.* (B)
Depts.: AM

Ilex microphylla Hooker =Ilex minutifolia J. F. Macbride
Ref. FP 13(3A/1) 1951: 281.

Ilex microsticta Loesener
Ref. FP 13(3A/1) 1951: 281.
Endemic tree. Andean II. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 3532* (MOL!)
Depts.: HU

Ilex minutifolia J. F. Macbride
Syn. *Ilex microphylla* Hooker
Ref. FP 13(3A/1) 1951: 281.
Endemic tree.
Voucher: Mathews 1636* (E)
Depts.: AM, AY

Ilex ovalis (R. & P.) Loesener
Syn. *Ilex paltoria* H.B.K., *Paltoria ovalis* R. & P.
Ref. FP 13(3A/1) 1951: 282.
Endemic tree.
Voucher: Ruiz & Pavón s.n.*, Isern 2300 (F)
Depts.: HU, JU

Ilex paltoria H.B.K. =Ilex ovalis (R. & P.) Loesener
Ref. FP 13(3A/1) 1951: 282.

Ilex quitensis (Willdenow ex Schultes) Loesener
Syn. *Ilex bumelioides* H.B.K., *Rhamnus quitensis* Willdenow ex Schultes (Rhamnaceae)
Ref. FP 13(3A/1) 1951: 283.
Tree. Andean II. 1500-2000 m.
Voucher: Weberbauer 4329 (MOL!)
Depts.: AM

Ilex scandens Cuatrecasas =Celastrus colombianus Cuatrecasas (Celastraceae)
Ref. Cuatrecasas, 1951b: 81.

Ilex sessiliflora Triana
Ref. FP 13(3A/1) 1951: 283.
Tree.
Voucher: Lechler 2588
Depts.: PU, SM

Ilex tarapotina Loesener
Ref. FP 13(3A/1) 1951: 284.
Endemic tree. Andean I: forests. 500-1000 m.
Voucher: Spruce 4399* (K), Killip & Smith 25685
Depts.: PA, SM

Ilex teratopis Loesener
Ref. FP 13(3A/1) 1951: 285.
Shrub or tree. Amazonian, Andean I-II: cloud forests. 0-3500 m.
Voucher: Barbour 3191 (MO!)
Depts.: AM, HU, PA, PU

Ilex trachyphylla Loesener
Ref. FP 13(3A/1) 1951: 285.
Endemic tree.
Note: Known from Peru only from the type locality.
Voucher: Jelski 1176* (B)
Depts.: CA

Ilex villosula Loesener
Ref. FP 13(3A/1) 1951: 286.
Endemic tree. Andean II. 1500-2500 m.
Voucher: Mathews 1565*, Weberbauer 7043
Depts.: HU, LL, PU

Ilex weberbaueri Loesener
Ref. FP 13(3A/1) 1951: 286.
Endemic tree. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 2091* (MOL!)
Depts.: JU

Izquierdia aggregata R. & P. =Ilex aggregata (R. & P.) Loesener
Ref. FP 13(3A/1) 1951: 273.

Izquierdia amygdalifolia Rusby =Ilex aggregata (R. & P.) Loesener
Ref. FP 13(3A/1) 1951: 273.

Paltoria ovalis R. & P. =Ilex ovalis (R. & P.) Loesener
Ref. FP 13(3A/1) 1951: 282.

Araceae

26 genera and 218 species in Peru.

Endemic genus: *Filarum*.
Endemic species: 40.

Prepared by L. Brako and T. B. Croat (MO); reviewed by J. Bogner (M), M. H. Grayum (MO) and S. Mayo (K).

Alocasia indica Schott var. *metallica* Schott =Alocasia plumbea van Houtte
Ref. Bailey & Bailey, 1976: 57.

Alocasia macrorrhizos (L.) G. Don
Syn. *Arum macrorrhizon* L.
Ref. Engler & Krause, 1920: 84; Bunting, 1979: 147.
Introduced herb. Amazonian. 0-500 m.
Voucher: De Jong 67 (MO!)
Depts.: LO

Alocasia plumbea van Houtte
Syn. *Alocasia indica* var. *metallica* Schott
Ref. Bailey & Bailey, 1976: 57.
Introduced herb. Amazonian: forests. 0-500 m.
Voucher: Williams 4070 (F!)
Depts.: LO

Anthurium alienatum Schott =Anthurium rubrinervium (Link) G. Don
Ref. FP 13(1/3) 1936: 447.

Anthurium amoenum Kunth & Bouché var. **humile** (Schott) Engler
Syn. *Anthurium humile* Schott
Ref. FP 13(1/3) 1936: 447; Croat & Lambert, 1986: 7.
Voucher: Klug 316
Depts.: AM, HU, PU

Anthurium apaporanum R. Schultes
Ref. Schultes, 1958b: 115; Croat & Lambert, 1986: 7.
Epiphytic or terrestrial herb. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Croat 20891 (MO!)
Depts.: AM, HU, LO, PA, UC

Anthurium atropurpureum R. Schultes & Maguire var. **arenicola** Croat

Ref. Croat, 1991: 604.
Epiphytic or terrestrial herb. Amazonian: forests. 0-500 m.
Voucher: Croat 18560 (MO!)
Depts.: AM, LO, MD

Anthurium atropurpureum var. **atropurpureum**
Ref. Croat, 1991: 602.
Epiphytic herb. Amazonian: forests on white sand. 0-500 m.
Voucher: Croat 51180 (MO!)
Depts.: LO

Anthurium barclayanum Engler
Ref. Croat, 1991: 607.
Epiphytic or terrestrial herb. Andean I: forests. 500-1000 m.
Voucher: Simpson & Schunke 394 (F!)
Depts.: TU

Anthurium basirotundum Croat
Ref. Croat, 1991: 609.
Cultivated herb. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Plowman 5980A* (MO!)
Depts.: SM

Anthurium brevipedunculatum Madison
Ref. Madison, 1978: 275.
Epiphytic herb or hemiepiphyte. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Klug 514* (US), Vásquez & Jaramillo 8281 (MO!)
Depts.: AM, HU, JU, LO, MD, SM

Anthurium breviscapum Poeppig
Syn. *Anthurium huamaliesense* Engler, *Anthurium indecorum* Schott
Ref. FP 13(1/3) 1936: 447.
Epiphytic herb or vine. Amazonian, Andean I-II: forests. 0-2500 m.
Voucher: Poeppig 1283* (W), Smith 6709 (MO!)
Depts.: AM, CA, CU, HU, JU, LO, MD, PA, PU, SM

Anthurium burchellianum (Engler) J. F. Macbride =Anthurium clavigerum Poeppig
Ref. FP 13(1/3) 1936: 448; Croat, 1983: 277.

Anthurium cainarachense Engler
Ref. FP 13(1/3) 1936: 448.
Endemic herb. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Ule 6326* (B)
Depts.: LO

Anthurium caramantae Engler
Ref. Engler, 1905: 266.
Herb.
Voucher: Soukup 1943 (F!)
Depts.: JU

Anthurium carneospadix Engler
Ref. FP 13(1/3) 1936: 448.
Herb. Andean II. 1500-3000 m.
Voucher: Weberbauer 11887* (B), Hutchison 1198 (F!)
Depts.: CA, JU

Anthurium clavigerum Poeppig
Syn. *Anthurium burchellianum* (Engler) J. F. Macbride, *Anthurium panduratum* C. Martius ex Schott, *Anthurium panduratum* var. *burchellianum* Engler
Ref. FP 13(1/3) 1936: 448; Croat, 1983: 276.
Epiphytic herb. Amazonian, Andean I. 0-1000 m.
Voucher: Poeppig 1423* (W), Vásquez & Jaramillo 8364 (MO!)
Depts.: AM, HU, LO, MD, PA, SM

Anthurium consimile Schott
Ref. FP 13(1/3) 1936: 449.
Herb.
Note: Known from Peru only from the type locality.
Voucher: Poeppig 1083* (F photo MO!)
Depts.: Without full locality data.

Anthurium corallinum Poeppig
Ref. FP 13(1/3) 1936: 449.
Herb. Amazonian, Andean I-II: forests. 0-3000 m.
Voucher: Poeppig 1723*, Plowman *et al.* 11258 (F!)
Depts.: CU, HU

Anthurium coripatense N. E. Brown ex Engler
Ref. Engler, 1905: 255.
Herb. Andean II: forests. 1500-3500 m.
Voucher: Smith & Vásquez 4690 (MO!)
Depts.: AM, CA, CU, JU, PA, SM

Anthurium croatii Madison
Ref. Madison, 1978: 268.
Herb. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Croat 20866* (MO!), Sullivan & Young 1166 (MO!)
Depts.: AM, HU, JU, LO, MD, PA, SM, UC

[*Anthurium cuspidifolium* Schott =Anthurium oerstedianum Schott]
Ref. FP 13(1/3) 1936: 449; Croat, 1983: 336.
Note: Not known from Peru. Croat (1983: 336), states that the specimens cited by the Flora of Peru are referable to *A. flavescens*.

Anthurium decurrens Poeppig
Ref. FP 13(1/3) 1936: 449.
Epiphytic herb or vine. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Poeppig 2293* (G), Foster 11943 (F!)
Depts.: AM, LO, MD, UC

Anthurium dombeyanum Brongniart ex Schott
Syn. *Anthurium rigidissimum* Engler, *Anthurium rigidissimum* var. *mutatum* Engler
Ref. FP 13(1/3) 1936: 449; Croat, 1991: 640.
Epiphytic or terrestrial herb. Amazonian, Andean I-II: forests. 0-3500 m.
Voucher: Dombey s.n.* (P), Croat 50969 (MO!)
Depts.: AM, CA, CU, HU, JU, PA, SM

Anthurium eminens Schott
Syn. *Anthurium wittianum* Engler, nom. nud.
Ref. FP 13(1/3) 1936: 450; Madison, 1978: 272.
Epiphytic herb or vine. Amazonian, Andean I-II: disturbed areas. 0-2000 m.
Voucher: Poeppig 1558* (W photo F), Vásquez & Jaramillo 9738 (MO!)
Depts.: AM, CU, HU, LO, MD, PA, SM

Anthurium ernestii Engler
Ref. FP 13(1/3) 1936: 450; Croat, 1991: 642.
Epiphytic herb. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Ule 6325* (B!), Ancuash 1260 (MO!)
Depts.: AM, HU, LO, MD, PA, SM, UC

Anthurium flavescens Poeppig
Ref. FP 13(1/3) 1936: 450.
Epiphytic herb. Andean I: forests. 500-1000 m.
Voucher: Poeppig 1721* (W!), Woytkowski 5007 (F!)
Depts.: HU, JU, SM

Anthurium formosum Schott
Ref. Croat & Lambert, 1986: 30.
Herb. Andean I: disturbed areas. 1000-1500 m.
Voucher: Schunke 9206 (MO!)
Depts.: HU, LO, UC

Anthurium galactospadix Croat
Ref. Croat, 1991: 654.
Epiphytic herb. Amazonian. 0-500 m.
Voucher: Díaz *et al.* 753 (MO!)
Depts.: LO, UC

Anthurium gracile (Rudge) Schott
Syn. *Anthurium scolopendrinum* (Hamilton) Kunth, *Pothos gracilis* Rudge, *Pothos scolopendrinus* Hamilton
Ref. FP 13(1/3) 1936: 450; Bunting, 1979: 165.
Epiphytic herb. Amazonian, Andean I: disturbed areas, forests. 0-1500 m.
Voucher: Revilla 3759 (MO!)
Depts.: HU, JU, LO, MD, SM, UC

Anthurium gracilipedunculatum K. Krause
Ref. FP 13(1/3) 1936: 451.
Endemic herb. Andean II: forests. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Macbride 3734* (F!)
Depts.: HU

[Anthurium gracillimum Engler]
Ref. FP 13(1/3) 1936: 451.
Note: Not known from Peru.

Anthurium harlingianum Croat
Ref. Croat, 1991: 659.
Epiphytic herb. Andean I-II: forests. 500-2000 m.

Voucher: Croat 58162 (MO!)
Depts.: HU, JU, PA, SM

Anthurium huallagense Engler
Ref. FP 13(1/3) 1936: 451.
Endemic epiphytic herb. Andean I. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 3660* (B)
Depts.: HU

Anthurium huamaliesense Engler =Anthurium breviscapum Poeppig
Ref. FP 13(1/3) 1936: 451.

Anthurium huanucense Engler
Ref. FP 13(1/3) 1936: 452.
Endemic epiphytic herb. Andean I. 500-1000 m.
Voucher: Weberbauer 3449* (B)
Depts.: HU

Anthurium humile Schott =Anthurium amoenum var. humile (Schott) Engler
Ref. Croat & Lambert, 1986: 7.

Anthurium idmense K. Krause
Ref. FP 13(1/3) 1936: 452.
Endemic epiphytic herb. Andean II. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 5036* (B)
Depts.: CU

Anthurium indecorum Schott =Anthurium breviscapum Poeppig
Ref. FP 13(1/3) 1936: 452.

Anthurium interruptum Sodiro
Ref. Croat, 1983: 117.
Endemic epiphytic herb. Amazonian, Andean I. 0-1000 m.
Voucher: Timaná 1074 (MO!)
Depts.: MD, UC

Anthurium knappiae Croat
Ref. Croat, 1991: 665.
Endemic epiphytic herb. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Knapp *et al.* 8544* (MO!)
Depts.: SM

Anthurium kunthii Poeppig
Ref. FP 13(1/3) 1936: 452; Croat, 1983: 307.
Epiphytic herb. Amazonian. 0-500 m.
Voucher: Poeppig s.n.* (W), Vásquez & Jaramillo 3572 (MO!)
Depts.: AM, CU, HU, LO, MD, PA, PU, SM

Anthurium latissimum Engler
Ref. FP 13(1/3) 1936: 453; Croat, 1991: 668.
Epiphytic herb. Andean I-II. 1000-2000 m.
Voucher: Weberbauer 1939* (MO!), Killip & Smith 24612 (US photo MO!)
Depts.: AY, HU, JU, SM

Anthurium lechlerianum Schott
Syn. *Anthurium peruvianum* Engler
Ref. FP 13(1/3) 1936: 453; Croat, pers. comm.
Herb. Andean II: forests. 1500-2000 m.
Voucher: Weberbauer 3513* (B!), Bang 2582 (NY!)
Depts.: CU, HU, JU, LA, MD, PU

[Anthurium linearifolium Engler]
Ref. FP 13(1/3) 1936: 453.
Note: Not known from Peru.

Anthurium llewelynii Croat
Ref. Croat, 1991: 694.
Epiphytic or terrestrial herb. Amazonian, Andean I. 0-1000 m.
Voucher: Croat 51092* (MO!), Gentry & Smith 45014 (MO!)
Depts.: HU, SM

Anthurium loretense Croat
Ref. Croat, 1991: 675.
Epiphytic herb. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Croat 51266* (MO!), Vásquez & Jaramillo 1128 (MO!)
Depts.: AM, LO, PA, SM

Anthurium lutescens Engler
Ref. FP 13(1/3) 1936: 453.
Herb.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 1838* (B)
Depts.: HU, JU

Anthurium macbridei K. Krause
Ref. FP 13(1/3) 1936: 454.
Endemic herb. Andean I. 1000-1500 m.
Voucher: Macbride & Featherstone 4110* (F!), Díaz *et al.* 3372 (MO!)
Depts.: JU, PI

Anthurium macleanii Schott
Ref. FP 13(1/3) 1936: 454.
Endemic herb.
Voucher: Maclean s.n.* (K), Weberbauer 4439
Depts.: AM, HU

Anthurium manuanum Croat
Ref. Croat, 1991: 680.
Endemic epiphytic herb. Amazonian, Andean I. 0-1000 m.
Voucher: Vargas 17747* (CUZ!), Núñez 5769 (MO!)
Depts.: MD

[*Anthurium martinii* Schott =Anthurium sinuatum Bentham ex Schott]
Ref. FP 13(1/3) 1936: 454.
Note: Not known from Peru.

Anthurium microspadix Schott
Ref. Croat, 1983: 140.
Herb. Andean I-II: rocky slopes. 1000-2500 m.
Voucher: Foster 9124A (MO!)
Depts.: PA, UC

Anthurium monzonense Engler
Ref. FP 13(1/3) 1936: 454.
Endemic herb. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 3562* (B)
Depts.: HU

Anthurium nervosum K. Krause
Ref. FP 13(1/3) 1936: 454.
Herb. Andean I. 1000-1500 m.
Note: According to Croat (pers. comm.) this taxon is possibly not distinct from *A. weberbaueri*.
Voucher: Weberbauer 4648*
Depts.: AM

Anthurium oblongo-cordatum Engler
Ref. FP 13(1/3) 1936: 455.
Note: Not reconfirmed. According to Croat (pers. comm.) this taxon is unlikely to be found in Peru.

[Anthurium oerstedianum Schott]
Syn. *Anthurium cuspidifolium* Schott
Ref. Croat, 1983: 336.
Note: Not known from Peru.

Anthurium ottonis K. Krause
Ref. Croat, 1991: 688.
Epiphytic herb. Amazonian, Andean I-II: forests. 0-3000 m.
Voucher: Gentry & Díaz 58638 (MO!)
Depts.: CU, PA, PU

Anthurium ovatifolium Engler
Ref. Engler, 1905: 186.
Herb. Andean I-II: cloud forests. 1000-2500 m.
Voucher: Barbour 2540 (MO!)
Depts.: AM, LO

Anthurium oxycarpum Poeppig
Syn. *Anthurium strictum* N. E. Brown ex Engler
Ref. FP 13(1/3) 1936: 455; Croat, 1991: 689.
Epiphytic herb. Amazonian, Andean I: riversides, seasonally inundated areas. 0-1000 m.
Voucher: Poeppig s.n.* (G), Foster 9902 (MO!)
Depts.: AM, AY, HU, JU, LO, MD, PA, SM, UC

Anthurium pachylaminum Croat
Ref. Croat, 1991: 693.
Endemic epiphytic or terrestrial herb. Andean I: forests, riversides. 500-1000 m.
Voucher: Croat 58161* (MO!), Gentry *et al.* 41949 (MO!)
Depts.: LO, PA, SM

Anthurium panduratum C. Martius ex Schott =Anthurium clavigerum Poeppig
Ref. FP 13(1/3) 1936: 448; Croat, 1983: 276.

Anthurium panduratum var. *burchellianum* Engler =Anthurium clavigerum Poeppig
Ref. FP 13(1/3) 1936: 448; Croat, 1983: 277.

Anthurium paraguayense Engler var. **coroicoanum** Croat
Ref. Croat, 1991: 600.

Endemic epiphytic herb. Andean I. 500-1000 m.
Voucher: Wachter *et al.* 141* (MO!)
Depts.: CU

Anthurium peltatum Poeppig
Ref. FP 13(1/3) 1936: 479.
Epiphytic herb. Andean I. 1000-1500 m.
Voucher: Plowman 5911 (GH)
Depts.: HU

Anthurium pendulifolium N. E. Brown
Ref. Croat, 1991: 699.
Epiphytic herb. Amazonian: riversides. 0-500 m.
Voucher: Knapp 8262 (MO!)
Depts.: AM, LO, SM

Anthurium penningtonii Croat
Ref. Croat, 1991: 701.
Epiphytic or terrestrial herb. Andean II: forests. 1500-2500 m.
Voucher: Gentry *et al.* 45504 (MO!)
Depts.: AM, CA, SM

Anthurium pentaphyllum (Aublet) G. Don var. **pentaphyllum**
Syn. *Anthurium undatum* Schott, *Dracontium pentaphyllum* Aublet
Ref. Croat & Lambert, 1986: 49; Madison, 1978: 276.
Epiphytic herb. Amazonian: forests on white sand. 0-500 m.
Voucher: Croat 58001 (MO!)
Depts.: JU, LO, MD, SM

Anthurium peruvianum Engler =Anthurium lechlerianum Schott
Ref. FP 13(1/3) 1936: 455.

Anthurium pittieri Engler
Ref. Croat, 1983: 157.
Epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: Ancuash 1230 (F!)
Depts.: AM, LO, MD

Anthurium plowmanii Croat
Ref. Croat, 1991: 702.
Epiphytic or terrestrial herb. Amazonian: riversides. 0-500 m.
Voucher: Gentry *et al.* 37733 (MO!)
Depts.: SM

Anthurium pohlianum Engler
Ref. FP 13(1/3) 1936: 455.
Epiphytic or terrestrial herb. Andean I: forests. 500-1500 m.
Voucher: Schunke 2405 (F!)
Depts.: TU

Anthurium polydactylum Madison
Ref. Madison, 1978: 275.
Epiphytic herb. Andean II: forests. 1500-2000 m.
Voucher: Klug 514 (US)
Depts.: HU, JU

Anthurium polyschistum R. Schultes & Idrobo
Ref. Madison, 1978: 274.
Herb or vine. Amazonian. 0-500 m.
Voucher: Killip & Smith 29744 (MO!)
Depts.: LO

Anthurium reflexinervium Croat
Ref. Croat, 1991: 713.
Endemic herb. Andean I: rocky slopes. 500-1000 m.
Voucher: Plowman & Ramírez 7585* (MO!), Croat 57949 (MO!)
Depts.: HU

Anthurium regale Linden
Ref. Engler, 1905: 191.
Endemic herb. Andean I: disturbed areas. 500-1000 m.
Voucher: Wallis s.n.* (K), Croat 58059 (MO!)
Depts.: SM

Anthurium remotigeniculatum Croat
Ref. Croat, 1991: 714.
Herb. Andean I: rocky slopes. 500-1500 m.
Voucher: Croat 58114* (MO!), Croat 58360 (MO!)
Depts.: AM, SM

Anthurium rigidissimum Engler =Anthurium dombeyanum Brongniart ex Schott
Ref. FP 13(1/3) 1936: 456; Croat, 1991: 640.

Anthurium rigidissimum var. *mutatum* Engler =Anthurium dombeyanum Brongniart ex Schott
Ref. Croat, 1991: 640.

Anthurium rubrinervium (Link) G. Don
Syn. *Anthurium alienatum* Schott, *Anthurium sororium* Schott, *Anthurium terrestre* Engler, *Pothos rubrinervius* Link
Ref. Croat, pers. comm.
Herb. Amazonian, Andean I: forest. 0-1500 m.
Voucher: Vásquez & Jaramillo 8446 (MO!)
Depts.: AM, CU, HU, LO, PU, SM

Anthurium scandens (Aublet) Engler subsp. **scandens**
Syn. *Dracontium scandens* Aublet
Ref. FP 13(1/3) 1936: 456; Sheffer *et al.*, 1980: 89.
Epiphytic herb or vine. Andean I-II: cloud forests, rocky slopes. 500-2500 m.
Voucher: Schunke 13663 (MO!)
Depts.: AM, CU, HU, JU, LO, MD, PA, PU, SM, UC

Anthurium schunkei K. Krause
Ref. FP 13(1/3) 1936: 456.
Endemic herb. Andean I. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Schunke 293* (F!)
Depts.: JU

Anthurium scolopendrinum (Hamilton) Kunth =Anthurium gracile (Rudge) Schott
Ref. FP 13(1/3) 1936: 457.

Anthurium siccisilvarum K. Krause
Ref. FP 13(1/3) 1936: 457.
Epiphytic herb. Andean I-II. 500-2500 m.
Voucher: Macbride 4048* (G), Díaz & Campos 3603 (MO!)
Depts.: HU, PA

Anthurium simpsonii Croat
Ref. Croat, 1991: 728.
Endemic epiphytic herb. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Simpson & Schunke 392* (MO!)
Depts.: TU

[Anthurium sinuatum Bentham ex Schott]
Syn. *Anthurium martinii* Schott
Ref. Madison, 1978: 269.
Note: Not known from Peru.

Anthurium sororium Schott =Anthurium rubrinervium (Link) G. Don
Ref. FP 13(1/3) 1936: 457.

Anthurium soukupii Croat
Ref. Croat, 1991: 730.
Endemic epiphytic herb. Andean I-II: forests. 500-2500 m.
Voucher: Peyton & Peyton 1486* (MO!), Dillon *et al.* 4385A (MO!)
Depts.: AM, CA, CU, HU, JU, PA

Anthurium strictum N. E. Brown ex Engler =Anthurium oxycarpum Poeppig
Ref. FP 13(1/3) 1936: 458.

Anthurium superbum Madison subsp. **brentberlinii** Croat
Ref. Croat, 1991: 737.
Endemic epiphytic herb. Amazonian. 0-500 m.
Voucher: Berlin 513* (MO!), Kayap 2007 (MO!)
Depts.: AM

Anthurium surinamensis Miquel =Philodendron surinamense (Miquel ex Schott) Engler
Ref. Engler, 1905: 295.

Anthurium tarapotense Engler
Ref. FP 13(1/3) 1936: 458; Croat, 1991: 737.
Endemic epiphytic or terrestrial herb. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Voucher: Ule 5P* (B photo F!), Knapp 8349 (MO!)
Depts.: SM

Anthurium tenuispadix Engler =Anthurium uleanum var. uleanum
Ref. FP 13(1/3) 1936: 458.

Anthurium terrestre Engler =Anthurium rubrinervium (Link) G. Don
Ref. FP 13(1/3) 1936: 458; Croat, pers. comm.

Anthurium tessmannii K. Krause =Anthurium uleanum var. uleanum
Ref. FP 13(1/3) 1936: 458.

Anthurium trinerve Miquel
Ref. Croat, 1983: 191.

Epiphytic herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Vásquez & Jaramillo 9472 (MO!)
Depts.: AM, HU, LO, MD, PA, SM

Anthurium triphyllum Brongniart ex Schott
Ref. FP 13(1/3) 1936: 459; Madison, 1978: 257; Croat & Lambert, 1986: 59.
Epiphytic herb. Andean I-II: forests. 1000-2000 m.
Voucher: Weberbauer 1212* (B), Smith 4345 (MO!)
Depts.: AM, MD, PA, SM

Anthurium truncicolum Engler
Ref. Madison, 1978: 258.
Epiphytic or terrestrial herb. Amazonian. 0-500 m.
Voucher: Vásquez 3118 (MO!)
Depts.: AM, HU, LO

Anthurium uleanum Engler var. **nanayense** Croat
Ref. Croat, 1991: 742.
Endemic epiphytic or terrestrial herb. Amazonian: forests on white sand. 0-500 m.
Voucher: Solomon 3562* (MO!), Croat 51207 (MO!)
Depts.: LO

Anthurium uleanum var. **uleanum**
Syn. *Anthurium tenuispadix* Engler, *Anthurium tessmannii* K. Krause
Ref. FP 13(1/3) 1936: 459; Croat, 1991: 739.
Epiphytic herb. Amazonian: forests. 0-500 m.
Note: Voucher not determined to variety.
Voucher: Lewis *et al.* 11044 (MO!)
Depts.: HU, LO, MD, UC

Anthurium undatum Schott =Anthurium pentaphyllum var. pentaphyllum
Ref. FP 13(1/3) 1936: 459; Madison, 1978: 277.

Anthurium variegatum Sodiro
Ref. Engler, 1905: 237.
Herb. Andean II: cloud forests. 2000-2500 m.
Voucher: Barbour 2736 (MO!)
Depts.: AM

Anthurium vaupesianum Croat
Ref. Croat, 1991: 746.
Epiphytic herb. Amazonian. 0-500 m.
Voucher: Gentry *et al.* 42695 (MO!)
Depts.: LO

Anthurium vittariifolium Engler
Ref. FP 13(1/3) 1936: 459.
Epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: McDaniel & Rimachi 29486 (MO!)
Depts.: LO

Anthurium weberbaueri Engler
Ref. FP 13(1/3) 1936: 459.
Endemic herb. Andean I-II. 500-2500 m.
Voucher: Weberbauer 543* (B), Smith 5377 (MO!)
Depts.: HU, PA, PU

Anthurium willifordii Croat
Ref. Croat, 1991: 752.
Endemic epiphytic herb. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Croat 61087* (MO!)
Depts.: LO

Anthurium wittianum Engler, nom. nud. =Anthurium eminens Schott
Ref. FP 13(1/3) 1936: 460.

Anthurium yurimaguense Engler
Ref. FP 13(1/3) 1936: 460.
Endemic herb. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Ule 6307*
Depts.: LO

Arum arborescens L. =Montrichardia arborescens (L.) Schott
Ref. Engler, 1920: 93.

Arum bicolor Aiton =Caladium bicolor (Aiton) Ventenat
Ref. FP 13(1/3) 1936: 483; Madison, 1981: 370.

[*Arum cordatum* Vell. Conc. =Philodendron cordatum (Vell. Conc.) Kunth]
Ref. FP 13(1/3) 1936: 470; Mayo, pers. comm.
Note: Not known from Peru.

Arum esculentum L. =Colocasia esculenta (L.) Schott
Ref. Engler, 1920: 95.

Arum helleborifolium Jacquin =Xanthosoma helleborifolium (Jacquin) Schott
Ref. FP 13(1/3) 1936: 481.

Arum liniferum Arruda da Camara =Montrichardia linifera (Arruda da Camara) Schott
Ref. Engler, 1920: 96.

Arum macrorrhizon L. =Alocasia macrorrhiza (L.) Schott
Ref. Engler & Krause, 1920: 84.

Arum sagittifolium L. =Xanthosoma sagittifolium (L.) Schott
Ref. Bunting, 1979: 281.

[*Arum tripartitum* Jacquin =Philodendron tripartitum (Jacquin) Schott]
Ref. FP 13(1/3) 1936: 478.
Note: Not known from Peru.

Asterostigma pavonii Schott
Ref. FP 13(1/3) 1936: 484.
Herb. Andean II: disturbed areas. 1500-3500 m.
Voucher: Croat 50968 (MO!)
Depts.: AP, CU, HU, HV, PU

Asterostigma vermitoxicum Grisebach =Synandrospadix vermitoxicus (Grisebach) Engler

Caladium bicolor (Aiton) Ventenat
Syn. *Arum bicolor* Aiton
Ref. FP 13(1/3) 1936: 483; Madison, 1981: 370; Croat & Lambert, 1986: 59.
Cultivated herb. Amazonian: forests. 0-500 m.
Voucher: Núñez 6212 (MO!)
Depts.: AM, CU, HU, JU, LO, MD, PA

Caladium fragrantissimum Hooker =Philodendron fragrantissimum (Hooker) G. Don

[Caladium humboldtii Schott]
Ref. FP 13(1/3) 1936: 483; Croat & Lambert, 1986: 62.
Note: Not known from Peru.

Caladium picturatum K. Koch & Bouché
Ref. FP 13(1/3) 1936: 483; Bunting, 1979: 192; Croat & Lambert, 1986: 62.
Herb. Amazonian: forests. 0-500 m.
Voucher: Poeppig 2286 (W)
Depts.: LO

Caladium pubescens N. E. Brown =Xanthosoma pubescens Poeppig
Ref. FP 13(1/3) 1936: 484; Madison, 1981: 361.

Colocasia esculenta (L.) Schott
Syn. *Arum esculentum* L.
Ref. Madison, 1981: 361; Croat & Lambert, 1986: 194.
Cultivated herb. Amazonian, Andean I. 0-1500 m.
Voucher: Núñez & Walsh 6378 (MO!)
Depts.: CU, LI, LO

[Dieffenbachia cannifolia Engler]
Ref. FP 13(1/3) 1936: 461.
Note: Not known from Peru.

Dieffenbachia cordata Engler
Ref. FP 13(1/3) 1936: 461.
Endemic herb. Andean I. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 1807* (B photo F!)
Depts.: JU

Dieffenbachia costata Karsten ex Schott
Ref. FP 13(1/3) 1936: 462.
Herb. Amazonian, Andean I: forests, rocky slopes, swamps. 0-1500 m.
Voucher: Croat 58180 (MO!)
Depts.: AM, HU, JU, SM

Dieffenbachia gracilis Huber
Ref. FP 13(1/3) 1936: 462.
Note: Not reconfirmed.

Dieffenbachia humilis Poeppig
Ref. FP 13(1/3) 1936: 462.
Herb. Amazonian: riversides. 0-500 m.
Voucher: Foster 2748 (MO!)
Depts.: CU, LO

Dieffenbachia imperialis Linden & André
Ref. FP 13(1/3) 1936: 462.

Herb.
Note: Known from Peru only from the type locality.
Voucher: Barraquin Illustration
Depts.: Without full locality data.

Dieffenbachia macrophylla Poeppig
Ref. FP 13(1/3) 1936: 463.
Herb. Andean I. 500-1000 m.
Voucher: Poeppig 1559* (W!), Macbride & Featherstone 4662 (F!)
Depts.: HU, PA

Dieffenbachia obliqua Poeppig
Ref. FP 13(1/3) 1936: 463.
Herb. Amazonian. 0-500 m.
Voucher: Poeppig s.n.* (B!), Croat 19817 (F!)
Depts.: LO

Dieffenbachia olbia L. Linden & Rodigas
Ref. FP 13(1/3) 1936: 463.
Cultivated herb. Amazonian: disturbed areas. 0-500 m.
Voucher: Williams 2238 (F!)
Depts.: LO

Dieffenbachia weberbaueri Engler
Ref. FP 13(1/3) 1936: 463.
Endemic herb.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 3634* (B)
Depts.: HU

[Dieffenbachia weirii Berkeley]
Ref. FP 13(1/3) 1936: 463.
Note: Not known from Peru.

Dracontium asperum K. Koch
Ref. Bunting, 1979: 199.
Herb. Amazonian: forests. 0-500 m.
Voucher: Davidson & Jones 9605 (MO!)
Depts.: LO

Dracontium bissectum Vell. Conc.
=Thoracocarpus bissectus (Vell. Conc.) Harling (Cyclanthaceae)
Ref. Harling, 1958: 255.

Dracontium loretense K. Krause
Ref. FP 13(1/3) 1936: 440.
Herb. Amazonian, Andean I. 0-1000 m.
Voucher: Williams 5144* (F!), Vásquez *et al.* 3005 (MO!)
Depts.: AM, HU, LO, MD, SM

Dracontium pentaphyllum Aublet
=Anthurium pentaphyllum (Aublet) G. Don
Ref. FP 13(1/3) 1936: 455; Madison, 1978: 276.

[*Dracontium pertusum* L. =Monstera adansonii var. adansonii]
Ref. FP 13(1/3) 1936: 437; Madison, 1977: 36.
Note: Not known from Peru.

Dracontium scandens Aublet =Anthurium scandens var. scandens
Ref. FP 13(1/3) 1936: 456; Sheffer *et al.*, 1980: 89.

[Dracontium ulei K. Krause]
Ref. FP 13(1/3) 1936: 440.
Note: Not known from Peru.

Filarum manserichense Nicolson
Ref. Nicolson, 1966: 349.
Endemic herb. Amazonian: riversides. 0-500 m.
Voucher: Wurdack 2402* (US!, USM!), Mexia 6353 (F!)
Depts.: LO

Gorgonidium vargasii Bogner & Nicolson
Ref. Bogner & Nicolson, 1988: 543.
Endemic herb. Andean II: grasslands, savannas, semi-deciduous forests. 2500-3000 m.
Voucher: Vargas 9820* (MO!)
Depts.: AP, CU

[Heteropsis jenmanii Oliver]
Ref. FP 13(1/3) 1936: 431.
Note: Not known from Peru.

Heteropsis linearis A. C. Smith
Ref. Smith, 1939a: 289.
Epiphytic or terrestrial herb, hemiepiphyte or vine. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Vásquez *et al.* 2843 (MO!)
Depts.: LO

Heteropsis oblongifolia Kunth
Ref. Engler, 1905: 51.
Epiphytic herb or vine. Amazonian, Andean I: forests on white sand. 0-1000 m.
Voucher: Vásquez & Jaramillo 10829 (MO!)
Depts.: AM, LO, MD, PA, SM

Heteropsis peruviana K. Krause
Ref. FP 13(1/3) 1936: 431.
Epiphytic herb or vine. Amazonian, Andean I-III: forests. 0-4000 m.
Voucher: Weberbauer 1819* (B), Vásquez *et al.* 7080 (MO!)
Depts.: CU, JU, LO, MD

Heteropsis spruceana Schott var. **robusta** Bunting
Ref. Bunting, 1986: 303.
Epiphytic herb or vine. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Schunke 13653 (MO!)
Depts.: SM

Homalomena crinipes Engler
Ref. FP 13(1/3) 1936: 480.
Herb. Amazonian: terra firme forests. 0-500 m.
Voucher: Rimachi 7451 (MO!)
Depts.: LO, MD

Homalomena peltata Masters
Ref. FP 13(1/3) 1936: 479.
Endemic herb. Amazonian, Andean I. 0-1000 m.
Note: The Flora of Peru uses the incorrect author citation "(Poeppig) Masters" and incorrectly gives *Anthurium peltatum* Poeppig as a synonym.
Voucher: Croat 57991 (MO!)
Depts.: HU, SM

Homalomena picturata (Linden & André) Regel
Ref. FP 13(1/3) 1936: 480.
Herb. Amazonian: terra firme forests. 0-500 m.
Voucher: Vásquez *et al.* 11276 (MO!)
Depts.: LO

Monstera acreana K. Krause =Monstera dubia (H.B.K.) Engler & K. Krause
Ref. FP 13(1/3) 1936: 435; Madison, 1977: 77.

[Monstera acuminata K. Koch]
Ref. FP 13(1/3) 1936: 436; Madison, 1977: 74.
Note: Not known from Peru. According to Madison (1977) collections cited as *M. acuminata* in the Flora of Peru, refer to juveniles of *M. dubia*.

[Monstera adansonii Schott var. adansonii Schott]
Syn. *Dracontium pertusum* L., *Monstera pertusa* (L.) deVriese nom. illeg., *Monstera poeppigii* Schott
Ref. Madison, 1977: 36.
Note: Not known from Peru. According to Madison (1977) this taxon is known only from the Lesser Antilles.

Monstera adansonii var. **klotzschiana** (Schott) Madison
Syn. *Monstera klotzschiana* Schott
Ref. Madison, 1977: 40; Croat & Lambert, 1986: 71.
Herb. Amazonian: forests. 0-500 m.
Voucher: Croat 20486 (MO!)
Depts.: LO, MD

Monstera adansonii var. **laniata** (Schott) Madison
Syn. *Tornelia laniata* Schott
Ref. Madison, 1977: 38; Croat & Lambert, 1986: 71.
Herb. Amazonian. 0-500 m.
Voucher: Williams 3044 (F)
Depts.: LO

Monstera amomifolium Poeppig =Stenospermation amomifolium (Poeppig) Schott
Ref. FP 13(1/3) 1936: 432.

Monstera dilacerata (K. Koch & Sellow) K. Koch
Syn. *Monstera peruviana* Engler, *Scindapsus dilaceratus* K. Koch & Sellow
Ref. FP 13(1/3) 1936: 436; Madison, 1977: 57.
Epiphytic herb or hemiepiphyte. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Schunke 2464 (F)
Depts.: HU, JU, LO, MD, SM, UC

Monstera dubia (H.B.K.) Engler & K. Krause
Syn. *Marcgravia dubia* H.B.K. (Marcgraviaceae), *Monstera acreana* K. Krause
Ref. Madison, 1977: 77.
Epiphytic terrestrial herb or

hemiepiphyte. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Madison 952 (GH)
Depts.: CU, HU, JU, MD, PA, SM

Monstera falcifolia Engler =Monstera obliqua Miquel
Ref. FP 13(1/3) 1936: 436; Madison, 1977: 67.

Monstera falcifolia var. *latifolia* K. Krause =Monstera obliqua Miquel
Ref. FP 13(1/3) 1936: 436; Madison, 1977: 68.

Monstera killipii K. Krause =Monstera obliqua Miquel
Ref. FP 13(1/3) 1936: 436; Madison, 1977: 67.

Monstera klotzschiana Schott =Monstera adansonii var. klotzschiana (Schott) Madison
Ref. Madison, 1977: 40.

Monstera latiloba K. Krause =Monstera subpinnata (Schott) Engler
Ref. FP 13(1/3) 1936: 436; Madison, 1977: 60.

Monstera lechleriana Schott
Syn. *Monstera maxima* Engler & K. Krause
Ref. Madison, 1977: 45; Croat & Lambert, 1986: 73.
Epiphytic herb, hemiepiphyte or vine. Amazonian, Andean I: disturbed areas, dry valleys, forests on white sand. 0-1500 m.
Voucher: Croat 57997 (MO!)
Depts.: AM, CU, HU, LO, MD, PA, PU, SM

Monstera maxima Engler & K. Krause =Monstera lechleriana Schott
Ref. FP 13(1/3) 1936: 437; Madison, 1977: 45.

Monstera obliqua Miquel
Syn. *Monstera falcifolia* Engler, *Monstera falcifolia* var. *latifolia* K. Krause, *Monstera killipii* K. Krause
Ref. FP 13(1/3) 1936: 437; Madison, 1977: 67.
Epiphytic herb or vine. Amazonian, Andean I. 0-1500 m.
Voucher: Killip & Smith 28258 (NY!)
Depts.: AM, CU, HU, JU, LO, MD, PA, PU, SM, UC

[*Monstera pertusa* (L.) deVriese nom. illeg. =Monstera adansonii var. adansonii]
Ref. FP 13(1/3) 1936: 437; Madison, 1977: 36.
Note: Not known from Peru.

Monstera peruviana Engler =Monstera dilacerata (K. Koch & Sellow) K. Koch
Ref. FP 13(1/3) 1936: 437; Madison, 1977: 57.

Monstera poeppigii Schott =Monstera adansonii var. adansonii
Ref. Madison, 1977: 42.
Note: Madison (1977: 42) lists this taxon as a synonym of *M. adansonii* Schott of uncertain varietal affinity.

Monstera spruceana (Schott) Engler
Syn. *Tornelia spruceana* Schott
Ref. FP 13(1/3) 1936: 438; Madison, 1977: 83; Croat & Lambert, 1986: 73.
Epiphytic herb or vine. Amazonian: forests on white sand. 0-500 m.
Voucher: Williams 3316 (F)
Depts.: AM, LO, MD, PA, SM

Monstera subpinnata (Schott) Engler
Syn. *Monstera latiloba* K. Krause, *Monstera uleana* Engler, *Tornelia subpinnata* Schott
Ref. FP 13(1/3) 1936: 438; Madison, 1977: 60.
Epiphytic herb or vine. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Poeppig 1557* (P), Killip & Smith 23639 (NY)
Depts.: AM, AY, HU, JU, LO, MD, PA, SM

Monstera uleana Engler =Monstera subpinnata (Schott) Engler
Ref. FP 13(1/3) 1936: 438; Madison, 1977: 60.

Montrichardia arborescens (L.) Schott
Syn. *Arum arborescens* L.
Ref. Croat & Lambert, 1986: 75.
Herb. Amazonian: riversides, seasonally inundated areas. 0-500 m.
Voucher: Ayala *et al.* 3265 (MO!)
Depts.: LO

Montrichardia linifera (Arruda da Camara) Schott
Syn. *Arum liniferum* Arruda da Camara
Ref. Croat & Lambert, 1986: 75.
Herb. Amazonian: riversides, seasonally inundated areas. 0-500 m.
Voucher: Gentry 26285 (MO!)
Depts.: LO

Philodendron acreanum K. Krause
Ref. FP 13(1/3) 1936: 468.
Epiphytic herb or vine. Amazonian: forests, riversides. 0-500 m.
Voucher: Foster 8580 (MO!)
Depts.: HU, JU, LO, MD, PA, SM

Philodendron acutatum Schott
Ref. Croat & Lambert, 1986: 75.
Note: Not reconfirmed. Croat & Lambert (1986) state that this taxon may occur in Loreto, Peru.

Philodendron acutifolium K. Krause
Ref. FP 13(1/3) 1936: 468.
Endemic epiphytic herb. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Killip & Smith 26578 (US!)
Depts.: JU

Philodendron alatum Poeppig
Ref. FP 13(1/3) 1936: 469.
Endemic epiphytic herb. Amazonian, Andean I. 0-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Poeppig 1298* (W), McDaniel & Marcos 11192 (F)
Depts.: HU

Philodendron angustialatum Engler
Ref. FP 13(1/3) 1936: 469.
Epiphytic herb. Amazonian, Andean I. 0-1000 m.
Voucher: Weberbauer 3589* (B), Foster 9395 (MO!)
Depts.: HU

Philodendron applanatum G. Barroso
Ref. Barroso, 1957 (1959): 94.
Epiphytic herb or vine. Amazonian. 0-500 m.
Voucher: Gentry & Jaramillo 65799 (MO!)
Depts.: LO

Philodendron barrosoanum Bunting
Ref. Croat & Lambert, 1986: 80.
Epiphytic herb or vine. Amazonian: disturbed areas, forests. 0-500 m.
Voucher: Croat 57719 (MO!)
Depts.: HU, JU, LO, SM

Philodendron basivaginatum K. Krause
Ref. FP 13(1/3) 1936: 469.
Endemic herb. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Killip & Smith 27424* (B)
Depts.: LO

[Philodendron bertae K. Krause]
Ref. FP 13(1/3) 1936: 469.
Note: Not known from Peru.

Philodendron brevispathum Schott subsp. **holmquistii** (Bunting) Bunting
Syn. *Philodendron holmquistii* Bunting
Ref. Bunting, 1988: 466.
Hemiepiphyte or herb. Amazonian: riversides. 0-500 m.
Voucher: Ayala 1757 (MO!)
Depts.: LO, MD

Philodendron camposportoanum G. Barroso
Ref. Barroso, 1956 (1958): 269.
Hemiepiphyte. Amazonian: riversides. 0-500 m.
Voucher: Núñez *et al.* 9942 (MO!)
Depts.: MD

Philodendron cataniapoense Bunting
Ref. Bunting, 1986: 314.
Hemiepiphyte. Amazonian: forests on white sand. 0-500 m.
Voucher: Rimachi 7629 (MO!)
Depts.: LO

Philodendron chanchamayense Engler
Ref. FP 13(1/3) 1936: 470.
Epiphytic herb. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Weberbauer 1864* (B), Vásquez 8322 (MO!)
Depts.: HU, JU, LO, MD, PA

[Philodendron cordatum (Vell. Conc.) Kunth]
Syn. *Arum cordatum* Vell. Conc.
Ref. FP 13(1/3) 1936: 470; Mayo, pers. comm..
Note: Not known from Peru.

Philodendron cruentum Poeppig
Ref. FP 13(1/3) 1936: 470.
Herb.
Voucher: Poeppig 1561 (B)
Depts.: HU, JU, PA

Philodendron deflexum Poeppig ex Schott
Ref. FP 13(1/3) 1936: 470.
Epiphytic herb or vine. Amazonian, Andean I. 0-1500 m.
Note: Specimens cited in the Flora of Peru are based on misidentifications according to Croat (pers. comm.)
Voucher: Poeppig 1281 (B)
Depts.: Without full locality data.

Philodendron deltoideum Poeppig
Ref. FP 13(1/3) 1936: 471.
Epiphytic herb or vine. Amazonian, Andean I. 0-1000 m.
Voucher: Poeppig 2029* (W), Schunke 10452 (MO!)
Depts.: HU, JU, PA, SM

Philodendron densivenium Engler
Ref. FP 13(1/3) 1936: 471.
Hemiepiphyte. Andean II. 1500-2500 m.
Voucher: Weberbauer 3425* (B syntype), Weberbauer 1308* (F syntype)
Depts.: CU, HU

Philodendron devansayeanum Linden
Ref. FP 13(1/3) 1936: 471.
Cultivated.
Note: Known from Peru only from the type locality.
Voucher: Boom s.n.* (L)
Depts.: Without full locality data.

Philodendron discolor K. Krause
=Philodendron verrucosum Mathieu ex Schott
Ref. FP 13(1/3) 1936: 471.

Philodendron distantilobum K. Krause
Ref. FP 13(1/3) 1936: 472.
Epiphytic herb. Amazonian. 0-500 m.
Voucher: Gentry & Núñez 69753 (MO!)
Depts.: LO

Philodendron divaricatum K. Krause
Ref. FP 13(1/3) 1936: 472.
Herb, hemiepiphyte or vine. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Williams 5136* (F! syntype), Killip & Smith 24007* (F! syntype)
Depts.: HU, JU, LO

Philodendron elaphoglossoides Schott
Syn. *Philodendron heterophyllum* var. *elaphoglossoides* (Schott) Engler
Ref. FP 13(1/3) 1936: 472.
Epiphytic herb or vine. Amazonian. 0-500 m.
Voucher: Foster 5940 (MO!)
Depts.: LO, MD

Philodendron ernestii Engler
Ref. FP 13(1/3) 1936: 471.
Epiphytic or terrestrial herb or hemiepiphyte. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Croat 57912 (MO!)
Depts.: AM, HU, LO, MD, PA, PU, SM, UC

Philodendron exile Bunting
Ref. Bunting, 1986: 319.
Epiphytic herb. Amazonian, Andean I. 0-1000 m.
Voucher: McDaniel & Rimachi 18482 (IBE!)
Depts.: AM, CU, HU, JU, LO, MD, PA, SM

Philodendron fibrillosum Poeppig
Ref. FP 13(1/3) 1936: 473.
Epiphytic herb or vine. Amazonian, Andean I: riversides. 0-1000 m.
Voucher: Poeppig s.n.* (B), Croat 21250 (MO!)
Depts.: HU, JU, PA, SM

Philodendron fragrantissimum (Hooker) G. Don
Syn. *Caladium fragrantissimum* Hooker, *Philodendron poeppigii* Schott
Ref. Croat & Lambert, 1986: 104.
Hemiepiphyte. Amazonian: forests on white sand. 0-500 m.
Voucher: Gentry & Young 32029 (MO!)
Depts.: AM, LO, MD, PA, SM, UC

Philodendron goeldii G. Barroso
Ref. Mayo, 1991: 649.
Epiphytic herb. Amazonian: disturbed areas. 0-500 m.
Voucher: Rimachi 7440 (MO!)
Depts.: LO

Philodendron grazielae Bunting
Ref. Bunting, 1963: 27.
Hemiepiphyte or vine. Amazonian: forests on white sand. 0-500 m.
Voucher: McDaniel 27613 (MO!)
Depts.: LO

Philodendron guttiferum Kunth
Syn. *Philodendron tessmannii* K. Krause
Ref. FP 13(1/3) 1936: 473.
Hemiepiphyte. Amazonian, Andean I: seasonally inundated areas. 0-500 m.
Voucher: Poeppig 2292* (W), Huashikat 2134 (MO!)
Depts.: AM, HU, LO, MD, SM

Philodendron heterophyllum Poeppig
Ref. FP 13(1/3) 1936: 473.
Epiphytic herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Poeppig s.n.* (W), Smith *et al.* 586 (US!)
Depts.: HU, LO, MD, SM

Philodendron heterophyllum var. *elaphoglossoides* (Schott) Engler
=Philodendron elaphoglossoides Schott
Ref. FP 13(1/3) 1936: 472.

Philodendron heteropleurum K. Krause
Ref. FP 13(1/3) 1936: 473.
Endemic hemiepiphyte or herb. Amazonian. 0-500 m.
Voucher: Killip & Smith 28034* (B)
Depts.: LO

Philodendron holmquistii Bunting
=Philodendron brevispathum subsp. holmquistii (Bunting) Bunting
Ref. Bunting, 1988: 466.

Philodendron huanucense Engler
Ref. FP 13(1/3) 1936: 474.
Endemic hemiepiphyte or herb. Andean I. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 3647* (B)
Depts.: HU

Philodendron hylaeae Bunting
Ref. Croat & Lambert, 1986: 113.
Epiphytic herb. Amazonian. 0-500 m.
Voucher: Croat 17565 (MO!)
Depts.: LO, MD, SM

Philodendron insigne Schott
Ref. Croat & Lambert, 1986: 118.
Epiphytic herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Vásquez 2753 (MO!)
Depts.: AM, LO, PA

Philodendron juninense Engler
Ref. FP 13(1/3) 1936: 474.
Endemic hemiepiphyte or herb.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 1823* (B)
Depts.: JU

Philodendron killipii K. Krause
Ref. FP 13(1/3) 1936: 474.
Herb. Andean I. 1000-1500 m.
Voucher: Killip & Smith 24602 (B)
Depts.: JU

Philodendron latilobum Schott
=Philodendron panduriforme var. panduriforme
Ref. FP 13(1/3) 1936: 474; Croat & Lambert, 1986: 135.

Philodendron lechlerianum Schott
Ref. FP 13(1/3) 1936: 475.
Epiphytic herb or vine. Amazonian, Andean I: disturbed areas. 0-1000 m.
Voucher: Lechler 1103* (K), Smith 6386 (MO!)
Depts.: AM, HU, LO, MD, PU, SM

Philodendron leucanthum K. Krause
Ref. FP 13(1/3) 1936: 475.
Epiphytic herb or vine. Amazonian. 0-500 m.
Voucher: McDaniel & Rimachi 25814 (MO!)
Depts.: LO

Philodendron linnaei Kunth
Ref. Croat & Lambert, 1986: 123.
Hemiepiphyte or herb. Amazonian. 0-500 m.
Voucher: Croat 17556 (MO!)
Depts.: LO, PA

Philodendron longistilum K. Krause
Ref. FP 13(1/3) 1936: 475.
Note: Not reconfirmed.

Philodendron maculatum K. Krause
Ref. FP 13(1/3) 1936: 475.
Note: Not reconfirmed.

Philodendron mathewsii Schott
Ref. FP 13(1/3) 1936: 476.
Endemic hemiepiphyte or herb.
Note: Known from Peru only from the type locality.
Voucher: Mathews s.n.* (K)
Depts.: HU

[Philodendron maximum K. Krause]
Ref. FP 13(1/3) 1936: 476.
Note: Not known from Peru.

Philodendron megalophyllum Schott
Ref. FP 13(1/3) 1936: 476; Croat & Lambert, 1986: 127.
Hemiepiphyte or herb. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Lechler 2495* (K), Vásquez 13638 (MO!)
Depts.: AM, CU, HU, LO, MD, SM, UC

Philodendron membranaceum Poeppig
Ref. FP 13(1/3) 1936: 476.
Note: Not reconfirmed.

Philodendron micranthum Poeppig ex Schott
Ref. FP 13(1/3) 1936: 476.
Epiphytic herb or vine. Amazonian. 0-500 m.
Voucher: Poeppig 2300* (B), Gentry *et al.* 29785 (MO!)
Depts.: AM, LO, SM

Philodendron muschlerianum K. Krause
=Philodendron ornatum Schott
Ref. FP 13(1/3) 1936: 477.

Philodendron ornatum Schott
Syn. *Philodendron muschlerianum* K. Krause
Ref. Croat & Lambert, 1986: 135.
Epiphytic herb. Amazonian, Andean I: forests on white sand. 0-1000 m.
Voucher: Young & Stratton 314 (MO!)
Depts.: LO, MD, SM

Philodendron panduriforme (H.B.K.) Kunth var. **panduriforme**
Syn. *Philodendron latilobum* Schott, *Pothos panduriformis* H.B.K.
Ref. Croat & Lambert, 1986: 135.
Epiphytic herb or vine. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Poeppig s.n.* (B), Croat 51209 (MO!)
Depts.: LO, SM

Philodendron pastazanum K. Krause
Ref. Krause, 1940: 42.
Hemiepiphyte or herb. Amazonian: riversides. 0-500 m.
Voucher: Wurdack 2186 (MO!)
Depts.: AM

Philodendron paxianum K. Krause
Ref. Bunting, 1979: 240.
Epiphytic herb. Amazonian, Andean I: forests on white sand. 0-1500 m.
Voucher: Ancuash 1449 (MO!)
Depts.: AM, LO, MD, SM

Philodendron poeppigii Schott
=Philodendron fragrantissimum (Hooker) G. Don
Ref. FP 13(1/3) 1936: 477.

Philodendron pteropus C. Martius ex Schott
Ref. FP 13(1/3) 1936: 477.
Epiphytic herb. Amazonian. 0-500 m.
Voucher: Huashikat 1819 (MO!)
Depts.: AM, LO

Philodendron pulchrum G. Barroso
Ref. Croat & Lambert, 1986: 144.
Epiphytic herb or vine. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Voucher: Rimachi 5884 (MO!)
Depts.: AM, LO, SM

Philodendron quinquelobum K. Krause
Ref. FP 13(1/3) 1936: 477.
Epiphytic herb or vine. Amazonian. 0-500 m.
Voucher: Foster & d'Achille 12148 (MO!)
Depts.: LO, MD

Philodendron ruizii Schott
Ref. FP 13(1/3) 1936: 477.
Epiphytic herb. Amazonian, Andean I-II: cloud forests. 0-2500 m.
Voucher: Ruiz & Pavón s.n.*, Croat 57718 (MO!)
Depts.: CA, CU, HU, JU, SM

Philodendron scandens K. Koch & Sello
Ref. Croat & Lambert, 1986: 146.
Hemiepiphyte or vine. Amazonian, Andean I-II. 0-2000 m.
Voucher: Smith 2927 (MO!)
Depts.: HU, MD, PA

Philodendron solimoesense A. C. Smith
Ref. Mayo, 1991: 658.
Hemiepiphyte or herb. Amazonian: disturbed areas. 0-500 m.
Voucher: Croat 18207 (MO!)
Depts.: LO, MD

Philodendron stenophyllum K. Krause
Ref. FP 13(1/3) 1936: 478.
Note: Not reconfirmed.

Philodendron steyermarkii Bunting
Ref. Croat & Lambert, 1986: 153.
Epiphytic herb or vine. Amazonian: forests. 0-500 m.
Voucher: McDaniel & Rimachi 21613 (MO!)
Depts.: LO

Philodendron surinamense (Miquel ex Schott) Engler
Syn. *Anthurium surinamensis* Miquel
Ref. Croat & Lambert, 1986: 153.
Epiphytic herb or vine.
Depts.: LO

Philodendron tarmense Engler
Ref. FP 13(1/3) 1936: 478.
Endemic hemiepiphyte. Andean I. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 1907* (B)
Depts.: JU

Philodendron tessmannii K. Krause
=Philodendron guttiferum Kunth
Ref. FP 13(1/3) 1936: 478.

[Philodendron tripartitum (Jacquin) Schott]
Syn. *Arum tripartitum* Jacquin
Ref. FP 13(1/3) 1936: 478.
Note: Not known from Peru.

Philodendron uleanum Engler
Ref. FP 13(1/3) 1936: 479.
Epiphytic herb. Amazonian. 0-500 m.
Voucher: Espinoza & Coba 385 (MO!)
Depts.: AM, MD, LO

Philodendron variifolium Schott
Ref. FP 13(1/3) 1936: 479.
Herb.
Note: Known from Peru only from the type locality.
Voucher: Poeppig 1281* (B photo F!)
Voucher: Without full locality data.

Philodendron venustum Bunting
Ref. Croat & Lambert, 1986: 160.
Herb. Amazonian. 0-500 m.
Voucher: Vásquez 495 (MO)
Depts.: LO

Philodendron verrucosum Mathieu ex Schott
Syn. *Philodendron discolor* K. Krause
Ref. Krause, 1913: 73.
Epiphytic herb. Andean II. 1500-2000 m.
Voucher: Gentry & Smith 45264 (MO!)
Depts.: SM

Philodendron weberbaueri Engler
Ref. FP 13(1/3) 1936: 479.
Endemic hemiepiphyte. Andean I. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 1352* (B)
Depts.: PU

Philodendron wurdackii Bunting
Ref. Bunting, 1986: 314; Croat & Lambert, 1986: 161.
Epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: Revilla 1239 (MO!)
Depts.: LO

Philonotion spruceanum Schott
=Schismatoglottis spruceanum var. spruceanum
Ref. Bunting, 1960a: 70; Croat & Lambert, 1986: 169.

Pistia crispata Blume =Pistia stratiotes L.
Ref. Engler, 1920: 259.

Pistia minor Blume =Pistia stratiotes L.
Ref. Engler, 1920: 259.

Pistia stratiotes L.
Syn. *Pistia crispata* Blume, *Pistia minor* Blume
Ref. FP 13(1/3) 1936: 486.
Aquatic herb. Amazonian: floating, riversides, seasonally inundated areas. 0-500 m.
Voucher: Gentry *et al.* 42573 (MO!)
Depts.: LI, LO, MD, SM, UC

Pothos cannaefolia Dryander =Spathiphyllum cannaefolium (Dryander) Schott
Ref. FP 13(1/3) 1936: 439; Bunting, 1960b: 12.

Pothos gracilis Rudge =Anthurium gracile (Rudge) Schott
Ref. FP 13(1/3) 1936: 450.

Pothos panduriformis H.B.K. =Philodendron panduriforme var. panduriforme
Ref. Croat & Lambert, 1986: 135.

Pothos rubrinervius Link =Anthurium rubrinervium (Link) G. Don
Ref. Engler, 1905: 193.

Pothos sagittifolius Rudge =Urospatha sagittifolia (Rudge) Schott
Ref. Engler, 1905: 317.

Pothos scolopendrinus Hamilton =Anthurium gracile (Rudge) Schott
Ref. FP 13(1/3) 1936: 457.

Rhodospatha amomifolia (Poeppig) J. F. Macbride =Stenospermation amomifolium (Poeppig) Schott
Ref. FP 13(1/3) 1936: 432.

Rhodospatha crassifolia (Engler) J. F. Macbride =Stenospermation crassifolium Engler
Ref. FP 13(1/3) 1936: 432.

Rhodospatha flavescens (Engler) J. F. Macbride =Stenospermation flavescens Engler
Ref. FP 13(1/3) 1936: 433.

Rhodospatha latifolia Poeppig
Ref. FP 13(1/3) 1936: 433.
Hemiepiphyte. Amazonian, Andean I: forests, riversides. 0-1000 m.
Voucher: Schunke 3966 (F!)
Depts.: AM, HU, LO, MD, PA, SM

Rhodospatha mathewsii (Schott) J. F. Macbride =Stenospermation mathewsii Schott
Ref. FP 13(1/3) 1936: 433.

Rhodospatha moritziana Schott
Ref. Croat & Lambert, 1986: 167.
Herb. Amazonian. 0-500 m.
Voucher: Schunke 10824 (MO!)
Depts.: SM

Rhodospatha oblongata Poeppig
Ref. FP 13(1/3) 1936: 433; Croat & Lambert, 1986: 167.
Epiphytic or terrestrial herb or vine. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Schunke 10824 (MO!)
Depts.: HU, LO, MD, SM

Rhodospatha spruceana (Schott) J. F. Macbride =Stenospermation spruceanum Schott
Ref. FP 13(1/3) 1936: 434.

Rhodospatha weberbaueri (Engler) J. F. Macbride =Stenospermation spruceanum Schott
Ref. FP 13(1/3) 1936: 434.

Schismatoglottis spruceanum (Schott) Bunting var. **spruceanum**
Syn. *Philonotion spruceanum* Schott
Ref. Bunting, 1960a: 70; Croat & Lambert, 1986: 169.
Herb. Amazonian: forests. 0-500 m.
Voucher: Balick & Allon 1087 (MO!)
Depts.: LO

Scindapsus dilaceratus K. Koch & Sellow =Monstera dilacerata (K. Koch & Sellow) K. Koch
Ref. Madison, 1977: 57.

Spathantheum orbignyanum Schott
Herb. Andean II: forests. 3000-3500 m.
Voucher: Núñez 9887 (MO!)
Depts.: CU, PU

Spathiphyllum cannaefolium (Dryander) Schott
Syn. *Pothos cannaefolia* Dryander
Ref. FP 13(1/3) 1936: 439; Bunting, 1960b: 12; Croat & Lambert, 1986: 169.
Herb. Amazonian. 0-500 m.
Voucher: Foster & d'Achille 10006 (MO!)
Depts.: AM, LO, PA

Spathiphyllum caudatum Poeppig =Urospatha caudata (Poeppig) Schott
Ref. FP 13(1/3) 1936: 441; Bunting, 1960b: 50.

Spathiphyllum gracile Bunting
Ref. Bunting, 1960b: 32.
Endemic herb. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Tessmann 4837* (NY)
Depts.: AM, LO

Spathiphyllum huberi Engler =Spathiphyllum humboldtii Schott
Ref. FP 13(1/3) 1936: 439; Bunting, 1960b: 33.

Spathiphyllum humboldtii Schott
Syn. *Spathiphyllum huberi* Engler
Ref. Bunting, 1960b: 33; Croat & Lambert, 1986: 169.
Herb. Amazonian: forests. 0-500 m.
Voucher: Huber MG-1403 (MG)
Depts.: LO, PA

Spathiphyllum juninense K. Krause
Ref. FP 13(1/3) 1936: 439; Bunting, 1960b: 27.
Herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Killip & Smith 26157* (US!), Smith 3844 (MO!)
Depts.: AM, HU, JU, LO, MD, PA, SM

Spathiphyllum lechlerianum Schott
Ref. FP 13(1/3) 1936: 439; Bunting, 1960b: 22.
Herb. Amazonian: forests. 0-500 m.
Voucher: Lechler 2338* (K), Schunke 7514 (MO!)
Depts.: AM, LO, MD, PU, SM

Spathiphyllum minor Bunting
Ref. Bunting, 1960b: 31.
Herb. Andean I: forests. 500-1000 m.
Voucher: Killip & Smith 26153* (US), Wurdack 2391 (F!)
Depts.: JU, LO

Spathiphyllum quindiuense Engler
Ref. Bunting, 1960b: 16.
Herb. Amazonian: disturbed areas. 0-500 m.
Voucher: Gentry *et al.* 25647 (F!)
Depts.: SM

Spathiphyllum tenerum Engler
Ref. FP 13(1/3) 1936: 440; Bunting, 1960b: 31.
Endemic herb. Andean I: riversides. 1000-1500 m.
Voucher: Ule 6851* (B), Schunke 3619 (F!)
Depts.: LO, SM

Stenospermation amomifolium (Poeppig) Schott
Syn. *Monstera amomifolium* Poeppig, *Rhodospatha amomifolia* (Poeppig) J. F. Macbride
Ref. FP 13(1/3) 1936: 432.
Epiphytic herb.
Voucher: Poeppig s.n.* (B), Croat 18343 (MO!)
Depts.: HU, JU, MD

Stenospermation crassifolium Engler
Syn. *Rhodospatha crassifolia* (Engler) J. F. Macbride
Ref. FP 13(1/3) 1936: 432.
Endemic herb. Andean I. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 3512* (B photo F!)
Depts.: HU, JU

Stenospermation flavescens Engler
Syn. *Rhodospatha flavescens* (Engler) J. F. Macbride
Ref. FP 13(1/3) 1936: 433.
Epiphytic herb or vine. Andean II. 1500-2500 m.
Voucher: Weberbauer 3506* (B), Schunke 9270 (MO!)
Depts.: HU, JU, LO, UC

Stenospermation gracile K. Krause
Ref. Krause, 1940: 39.
Epiphytic herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Kujikat 382 (MO!)
Depts.: AM

Stenospermation mathewsii Schott
Syn. *Rhodospatha mathewsii* (Schott) J. F. Macbride
Ref. FP 13(1/3) 1936: 433.
Herb.
Voucher: Mathews 52* (K)
Depts.: Without full locality data.

Stenospermation multiovulatum (Engler) N. E. Brown
Syn. *Stenospermation spruceanum* var. *multiovulatum* Engler
Ref. Croat & Lambert, 1986: 176.
Epiphytic or terrestrial herb. Amazonian, Andean I: forests on white sand. 0-1000 m.
Voucher: Schunke 10131 (MO!)
Depts.: HU, LO, SM

Stenospermation spruceanum Schott
Syn. *Rhodospatha spruceana* (Schott) J. F. Macbride, *Rhodospatha weberbaueri* (Engler) J. F. Macbride
Ref. FP 13(1/3) 1936: 434.
Vine. Amazonian, Andean I: seasonally inundated areas. 0-1000 m.
Voucher: Schunke 4921 (MO!)
Depts.: HU, JU, LO, SM

Stenospermation spruceanum var. *multiovulatum* Engler =Stenospermation multiovulatum (Engler) N. E. Brown
Ref. Engler & Krause, 1908: 88.

Stenospermation wallisii Masters
Ref. Engler & Krause, 1908: 88.
Herb. Andean I-II: forests. 500-2000 m.
Voucher: Foster 8623 (MO!)
Depts.: AM, CU, HU, JU, PA, SM

Stenospermation weberbaueri Engler
Ref. FP (13(1/3) 1936: 434; Engler & Krause, 1908: 87.
Endemic epiphytic herb. Andean I. 500-1000 m.
Voucher: Weberbauer 3653* (MO!), Schunke 7299 (MO!)
Depts.: HU

Synandrospadix vermitoxicus (Grisebach) Engler
Syn. *Asterostigma vermitoxicum* Grisebach
Shrub. Andean II. 3000-3500 m.
Voucher: Weberbauer 7953 (F!)
Depts.: CU

Syngonium gentryanum Croat
Ref. Croat, 1981: 612.
Endemic vine. Andean I: forests. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Gentry *et al.* 18822* (MO!, USM!)

Syngonium hastifolium Engler
Ref. Bunting, 1979: 269.
Epiphytic herb or vine. Andean I: forests. 500-1000 m.
Voucher: León & Bohorquez 814 (MO!)
Depts.: MD

Syngonium podophyllum Schott
Syn. *Syngonium poeppigii* Schott, *Syngonium ruizii* Schott, *Syngonium vellozianum* Schott
Ref. Croat, 1981: 628; Croat & Lambert, 1986: 176.
Epiphytic herb or vine. Amazonian, Andean I. 0-1000 m.
Voucher: Schunke 4932 (MO!)
Depts.: AM, AY, HO, JU, LO, MD, SM

Syngonium poeppigii Schott =Syngonium podophyllum Schott
Ref. Croat, 1981: 630.

Syngonium ruizii Schott =Syngonium podophyllum Schott
Ref. Croat, 1981: 630.

Syngonium vellozianum Schott =Syngonium podophyllum Schott
Ref. FP 13(1/3) 1936: 485.

Syngonium yurimaguense Engler
Ref. FP 13(1/3) 1936: 485; Croat, 1981: 648.
Hemiepiphyte or vine. Amazonian, Andean I. 0-1000 m.
Voucher: Ule 9237* (B), Vargas 13426 (US)
Depts.: MD

Taccarum weddellianum Brongniart ex Schott
Ref. FP 13(1/3) 1936: 484.
Note: Not reconfirmed.

Tornelia laniata Schott =Monstera adansonii var. laniata (Schott) Madison
Ref. Madison, 1977: 38.

Tornelia spruceana Schott =Monstera spruceana (Schott) Engler
Ref. FP 13(1/3) 1936: 438; Madison, 1977: 83.

Tornelia subpinnata Schott =Monstera subpinnata (Schott) Engler
Ref. FP 13(1/3) 1936: 438; Madison, 1977: 60.

Ulearum sagittatum Engler
Ref. FP 13(1/3) 1936: 485; Madison, 1980: 101.
Herb. Amazonian. 0-500 m.
Voucher: Ule 6323 (B), Schunke 1239 (F!)
Depts.: LO

Urospatha angusta K. Krause =Urospatha sagittifolia (Rudge) Schott
Ref. FP 13(1/3) 1936: 441.

Urospatha caudata (Poeppig) Schott
Syn. *Spathiphyllum caudatum* Poeppig
Ref. FP 13(1/3) 1936: 441; Bunting, 1960b: 50.
Note: Not reconfirmed.

Urospatha decipiens Schott =Urospatha sagittifolia (Rudge) Schott
Ref. FP 13(1/3) 1936: 441.

Urospatha langsdorffiana Schott =Urospatha sagittifolia (Rudge) Schott
Ref. FP 13(1/3) 1936: 442.

Urospatha sagittifolia (Rudge) Schott
Syn. *Pothos sagittifolius* Rudge, *Urospatha angusta* K. Krause, *Urospatha decipiens* Schott, *Urospatha langsdorffiana* Schott
Ref. Croat & Lambert, 1986: 176.
Aquatic herb. Amazonian: forests, swamps. 0-500 m.
Voucher: Vásquez *et al.* 998 (MO!)
Depts.: LO

Xanthosoma brevispathaceum Engler
Ref. FP 13(1/3) 1936: 480.
Herb. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 1821* (B)
Depts.: JU

Xanthosoma fractum Madison
Ref. Madison, 1981: 360.
Cultivated herb.
Voucher: Madison 6747* (SEL)
Depts.: HU

Xanthosoma helleborifolium (Jacquin) Schott
Syn. *Arum helleborifolium* Jacquin
Ref. FP 13(1/3) 1936: 481.
Herb. Amazonian, Andean I: bogs. 0-1000 m.
Voucher: Croat 51001 (MO!)
Depts.: LO, MD, PI, SM

Xanthosoma mafaffa var. *poeppigii* (Schott) Engler =Xanthosoma poeppigii Schott
Ref. FP 13(1/3) 1936: 481.

Xanthosoma poeppigii Schott
Syn. *Xanthosoma mafaffa* var. *poeppigii* (Schott) Engler
Ref. FP 13(1/3) 1936: 481.
Note: Not reconfirmed.

Xanthosoma pubescens Poeppig
Syn. *Caladium pubescens* N. E. Brown
Ref. FP 13(1/3) 1936: 481; Madison, 1981: 361.
Herb.
Voucher: Poeppig s.n.*, Gentry 40043 (MO!)
Depts.: HU, MD, PA, SM

Xanthosoma purpuratum K. Krause
Ref. FP 13(1/3) 1936: 482.
Note: Not reconfirmed.

Xanthosoma sagittifolium (L.) Schott
Syn. *Arum sagittifolium* L.
Ref. Bunting, 1979: 281
Herb. Andean II: forests. 2500-3000 m.
Voucher: Young 3975 (F!)
Depts.: MD, SM

Xanthosoma stenospathum Madison
Ref. Madison, 1981: 363.
Cultivated herb. Andean I: cloud forests. 1000-1500 m.
Voucher: Madison 6969* (SEL)
Depts.: HU

Xanthosoma tarapotense Engler
Ref. FP 13(1/3) 1936: 482.
Herb. Andean I: rocky slopes. 500-1000 m.
Voucher: Ule 6906* (B), Croat 58179 (MO!)
Depts.: SM

Xanthosoma trichophyllum K. Krause
Ref. FP 13(1/3) 1936: 482; Madison, 1981: 362.
Herb. Amazonian: forests. 0-500 m.
Voucher: Killip & Smith 29640* (US), Martin & Plowman 1822 (GH)
Depts.: LO, SM

Araliaceae

6 genera and 76 species in Peru.

Endemic species: 40.

Prepared by J. L. Zarucchi; reviewed by D. G. Frodin (Philadelphia, PA).

Actinophyllum acuminatum Pavón =Schefflera acuminata (Pavón) Harms
Ref. FP 13(5/1) 1959: 29.

Actinophyllum angulatum Pavón =Schefflera angulata (Pavón) Harms
Ref. FP 13(5/1) 1959: 29.

Actinophyllum conicum Pavón =Schefflera acuminata (Pavón) Harms
Ref. FP 13(5/1) 1959: 30.

Actinophyllum pedicellatum Pavón =Schefflera pedicellata (Pavón) Harms
Ref. FP 13(5/1) 1959: 35.

Actinophyllum pentandrum Pavón =Schefflera pentandra (Pavón) Harms
Ref. FP 13(5/1) 1959: 35.

Aralia arborea L. =Dendropanax arboreus (L.) Decaisne & Planchon
Ref. FP 13(5/1) 1959: 40; Cannon & Cannon, 1989: 11.

Aralia argentata H.B.K. =Oreopanax argentatus (H.B.K.) Decaisne & Planchon
Ref. FP 13(5/1) 1959: 14.

Aralia balfouriana Hort. ex André =Polyscias scutellaria (Burman f.) Fosberg
Ref. Lowry *et al.*, 1989: 8.

Aralia capitata Jacquin =Oreopanax capitatus (Jacquin) Decaisne & Planchon
Ref. FP 13(5/1) 1959: 16; Cannon & Cannon, 1989: 24.

Aralia discolor H.B.K. =Oreopanax discolor (H.B.K.) Decaisne & Planchon
Ref. Frodin, pers. comm.

[*Aralia ferruginea* H.B.K. =Schefflera ferruginea (H.B.K.) Harms]
Ref. Harms, 1942: 681.
Note: Not known from Peru.

Aralia filicifolia C. Moore ex E. Fournier =Polyscias cumingiana (C. Presl) Fernández-Villar
Ref. Lowry *et al.*, 1989: 7.

Aralia guilfoylei W. Bull =Polyscias guilfoylei (W. Bull) L. Bailey
Ref. Lowry *et al.*, 1989: 7.

Aralia soratensis Marchal
Syn. *Aralia weberbaueri* Harms
Ref. FP 13(5/1) 1959: 10; Jun Wen, pers. comm.
Shrub or treelet. Andean II: cloud forests. 2000-3000 m.
Voucher: Weberbauer 5668
Depts.: AP, CU, HV

Aralia weberbaueri Harms =Aralia soratensis Marchal
Ref. FP 13(5/1) 1959: 10; Jun Wen, pers. comm.

Crasula scutellaria Burman f. =Polyscias scutellaria (Burman f.) Fosberg
Ref. Lowry *et al.*, 1989: 8.

Dendropanax arboreus (L.) Decaisne & Planchon
Syn. *Aralia arborea* L., *Gilibertia arborea* (L.) Marchal
Ref. FP 13(5/1) 1959: 40; Maguire *et al.*, 1984: 81; Cannon & Cannon, 1989: 11.
Shrub or tree. Amazonian: forests, seasonally inundated areas. 0-500 m.
Voucher: Klug 2559 (F), Schunke 3792 (MOL!)
Depts.: LO, MD, SM

Dendropanax cuneatus (DC.) Decaisne & Planchon
Syn. *Gilibertia cuneata* (DC.) Marchal, *Hedera cuneata* DC.
Ref. FP 13(5/1) 1959: 40.
Tree. Amazonian: forests. 0-500 m.
Voucher: Smith *et al.* 1075 (MO!)
Depts.: SM

Dendropanax macropodus (Harms) Harms
Syn. *Gilibertia macropoda* Harms
Ref. FP 13(5/1) 1959: 41.
Shrub or tree. Amazonian: forests. 0-500 m.
Voucher: Tessmann 4712* (B photo F), Klug 4147 (MO!)
Depts.: LO, SM

Dendropanax marginiferus (Harms) Harms
Syn. *Gilibertia marginifera* Harms
Ref. FP 13(5/1) 1959: 41.
Endemic tree. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Williams 6595A* (F)
Depts.: SM

Dendropanax palustris (Ducke) Harms
Syn. *Gilibertia palustris* Ducke
Shrub. Amazonian: riversides. 0-500 m.
Voucher: Revilla 2190 (MO!)
Depts.: LO

Dendropanax pavoni Decaisne & Planchon =Dendropanax umbellatus (R. & P.) Decaisne & Planchon
Ref. FP 13(5/1) 1959: 42.

Dendropanax tessmannii (Harms) Harms
Syn. *Gilibertia tessmannii* Harms
Ref. FP 13(5/1) 1959: 41.
Shrub or tree. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Tessmann 3003* (B photo F), Schunke 4703 (MO!)
Depts.: CU, HU, LO, SM

Dendropanax umbellatus (R. & P.) Decaisne & Planchon
Syn. *Dendropanax pavoni* Decaisne & Planchon, *Gilibertia pavonii* (Decaisne & Planchon) Marchal, *Gilibertia umbellata* R. & P.
Ref. FP 13(5/1) 1959: 42.
Shrub or tree. Amazonian, Andean I-II: forests. 0-2500 m.
Voucher: Ruiz & Pavón s.n.* (MA), Croat 18018 (MO!)
Depts.: HU, LO

Dendropanax weberbaueri (Harms) Harms
Syn. *Gilibertia weberbaueri* Harms
Ref. FP 13(5/1) 1959: 43.
Endemic shrub. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Weberbauer 3669* (B photo F), Schunke 1802 (MOL!)
Depts.: HU, UC

Dendropanax williamsii (Harms) Harms
Syn. *Gilibertia williamsii* Harms
Ref. FP 13(5/1) 1959: 43.
Endemic shrub or tree. Andean I: forests. 1000-1500 m.
Voucher: Williams 7398* (F), Klug 3688 (MO!)
Depts.: SM

Didymopanax kuntzei Harms =Schefflera kuntzei (Harms) Frodin
Ref. Frodin, pers. comm.

Didymopanax morototoni (Aublet) Decaisne & Planchon =Schefflera morototoni (Aublet) Maguire *et al.*
Ref. FP 13(5/1) 1959: 25; Maguire *et al.*, 1984: 51.

Didymopanax morototoni var. *poeppigii* (Decaisne & Planchon) Marchal =Schefflera morototoni (Aublet) Maguire *et al.*
Ref. FP 13(5/1) 1959: 26.

Didymopanax poeppigii Decaisne & Planchon =Schefflera morototoni

(Aublet) Maguire *et al.*
Note: A renaming of *Panax chrysophyllus* Poeppig, non M. Vahl (Frodin, pers. comm.).

Didymopanax weberbaueri Harms
=Schefflera harmsii J. F. Macbride
Ref. FP 13(5/1) 1959: 31.

Gilibertia arborea (L.) Marchal
=Dendropanax arboreus (L.) Decaisne & Planchon
Ref. FP 13(5/1) 1959: 40.

Gilibertia cuneata (DC.) Marchal
=Dendropanax cuneatus (DC.) Decaisne & Planchon
Ref. FP 13(5/1) 1959: 40.

Gilibertia macropoda Harms
=Dendropanax macropodus (Harms) Harms
Ref. FP 13(5/1) 1959: 41.

Gilibertia marginifera Harms
=Dendropanax marginiferus (Harms) Harms
Ref. FP 13(5/1) 1959: 41.

Gilibertia palustris Ducke =Dendropanax palustris (Ducke) Harms

Gilibertia pavonii (Decaisne & Planchon) Marchal =Dendropanax umbellatus (R. & P.) Decaisne & Planchon
Ref. FP 13(5/1) 1959: 42.

Gilibertia tessmannii Harms
=Dendropanax tessmannii (Harms) Harms
Ref. FP 13(5/1) 1959: 41.

Gilibertia umbellata R. & P.
=Dendropanax umbellatus (R. & P.) Decaisne & Planchon
Ref. FP 13(5/1) 1959: 42.

Gilibertia weberbaueri Harms
=Dendropanax weberbaueri (Harms) Harms
Ref. FP 13(5/1) 1959: 43.

Gilibertia williamsii Harms =Dendropanax williamsii (Harms) Harms
Ref. FP 13(5/1) 1959: 43.

Hedera cuneata DC. =Dendropanax cuneatus (DC.) Decaisne & Planchon
Ref. FP 13(5/1) 1959: 40.

Hedera helix L.
Ref. FP 13(5/1) 1959: 9.
Introduced liana or shrub. Disturbed areas.
Note: No voucher seen, although it is expected.

Hedera quinquefolia L. =Parthenocissus quinquefolia (L.) Planchon (Vitaceae)

Oreopanax allocophyllus Harms
Ref. FP 13(5/1) 1959: 13.
Tree. Andean II: forests. 3000-3500 m.
Voucher: Weberbauer 6680* (B photo F), Young 1578 (MO!)
Depts.: JU, SM

Oreopanax apurimacensis Harms
Ref. FP 13(5/1) 1959: 13.
Endemic tree. Andean II: forests. 1500-2000 m.
Voucher: Raimondi s.n.* (B), Weberbauer 36 (MO!)
Depts.: AP, JU

Oreopanax aquifolius Harms
Ref. FP 13(5/1) 1959: 14.
Endemic shrub. Andean II: forests. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 3350* (B photo F)
Depts.: HU

Oreopanax argentatus (H.B.K.) Decaisne & Planchon
Syn. *Aralia argentata* H.B.K.
Ref. FP 13(5/1) 1959: 14.
Shrub or tree. Forests.
Note: Voucher cited in Flora of Peru (and here) questionably determined.
Voucher: Sawada 31 (F)
Depts.: HU

Oreopanax artocarpoides Standley
Ref. FP 13(5/1) 1959: 15.
Tree. Andean III: cloud forests. 3500-4000 m.
Voucher: Cook & Gilbert 1843 (F)
Depts.: CU

Oreopanax candamoanus Harms
Ref. FP 13(5/1) 1959: 15.
Endemic shrub or tree. Andean II: forests. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 4161* (B photo F)
Depts.: CA

Oreopanax capitatus (Jacquin) Decaisne & Planchon
Syn. *Aralia capitata* Jacquin
Ref. FP 13(5/1) 1959: 16; Cannon & Cannon, 1989: 24.
Liana, shrub or tree. Amazonian, Andean I-II: forests. 0-2500 m.
Voucher: Woytkowski 7773 (MO!)
Depts.: AM, CU, HU, JU, LL, LO

Oreopanax cissoides Harms
Ref. FP 13(5/1) 1959: 16.
Endemic shrub or treelet. Andean II: forests. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Raimondi 3481* (B)
Depts.: CA

Oreopanax cuspidatus Harms
Ref. FP 13(5/1) 1959: 17.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Weberbauer 4982* (B photo F)
Depts.: CU, PU

Oreopanax deinocephalus Harms
Ref. Harms, 1942: 683.
Endemic shrub. Andean II: cloud forests, disturbed areas. 3000-3500 m.
Note: Known from Peru only from the type locality and not reconfirmed. Not treated in the Flora of Peru.
Voucher: Weberbauer 4193* (B)
Depts.: CA

Oreopanax discolor (H.B.K.) Decaisne & Planchon
Syn. *Aralia discolor* H.B.K.
Ref. Frodin, pers. comm.
Shrub or tree.
Voucher: Lechler 1974 (K)
Depts.: PU

Oreopanax divulsum Marchal
Ref. FP 13(5/1) 1959: 17.
Endemic shrub. Andean II: forests. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Mathews s.n.* (G photo F)
Depts.: AM

[Oreopanax ecuadorense Seemann]
Ref. FP 13(5/1) 1959: 18.
Note: Not known from Peru.

Oreopanax eriocephalus Harms
Tree. Andean II: shrublands. 2500-3000 m.
Voucher: Ferreyra 8505 (MO!)
Depts.: CA

Oreopanax gnaphalocephalus Harms
Ref. FP 13(5/1) 1959: 18.
Endemic shrub. Andean II: shrublands. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 5661* (B)
Depts.: AY

Oreopanax iodophyllus Harms
Ref. FP 13(5/1) 1959: 18.
Endemic shrub. Andean II: forests. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Ruiz & Pavón s.n.* (B photo F)
Depts.: HU

Oreopanax ischnolobus Harms
Ref. FP 13(5/1) 1959: 19.
Endemic shrub or tree. Andean II: forests. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6614* (B)
Depts.: JU

Oreopanax jelskii Szyszylowicz
Ref. FP 13(5/1) 1959: 19.
Endemic shrub or tree. Andean II: forests. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Jelski 313* (W)
Depts.: CA

Oreopanax klugii Harms
Ref. Harms, 1942: 687.
Endemic tree. Andean I: forests. 500-1500 m.

Note: Known from Peru only from the type locality and not reconfirmed. Not treated in the Flora of Peru.
Voucher: Klug 3158* (B)
Depts.: LO

Oreopanax lechleri Seemann
Ref. FP 13(5/1) 1959: 20.
Endemic shrub.
Note: Known from Peru only from the type locality.
Voucher: Lechler 2286* (K)
Depts.: PU

Oreopanax macleanii Seemann
Ref. FP 13(5/1) 1959: 20.
Note: Questionably from Peru; the type may actually have been collected elsewhere.
Voucher: Maclean s.n.* (K-Hooker)
Depts.: Without full locality data.

Oreopanax mathewsii Seemann
Ref. FP 13(5/1) 1959: 20, 21.
Endemic shrub or tree. Andean II: forests. 2000-2500 m.
Note: Known from Peru only from the type locality. The Flora of Peru lists *O. mathewsii* as a synonym of *O. pavonii* "fide Marchal," although it is listed as an accepted species on the previous page.
Voucher: Mathews s.n.* (K-Bentham)
Depts.: AM

Oreopanax oroyanus Harms
Ref. FP 13(5/1) 1959: 20.
Tree. Andean II: shrublands. 2000-3500 m.
Voucher: Raimondi 9386* (B), Ferreyra 10423 (MO!)
Depts.: AN, CA, JU, LI

Oreopanax pariahuancae Harms
Ref. FP 13(5/1) 1959: 21.
Endemic shrub. Andean II: shrublands. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6532* (B)
Depts.: JU

Oreopanax pavonii Seemann
Ref. FP 13(5/1) 1959: 21.
Shrub or tree. Andean II: forests. 2000-2500 m.
Voucher: Ruiz & Pavón s.n.* (BM), Vásquez 189 (MOL!)
Depts.: AM, AY, HU, PA, PU

Oreopanax polycephalus Harms
Ref. FP 13(5/1) 1959: 22.
Tree. Andean I-II: forests. 500-2000 m.
Voucher: Weberbauer 1844* (B photo F), Ferreyra 11310 (MO!)
Depts.: JU

Oreopanax raimondii Harms
Ref. FP 13(5/1) 1959: 22.
Endemic shrub or tree. Andean II: forests. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Raimondi s.n.* (B photo F!)
Depts.: LL

Oreopanax ruizii Decaisne & Planchon
Ref. FP 13(5/1) 1959: 23.
Tree. Andean II-III: forests. 3000-4000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Woytkowski 596 (MO!)
Depts.: CU, HU

Oreopanax rusbyi Britton
Ref. Foster, 1958: 150.
Tree. Andean III: forests. 3500-4000 m.
Voucher: Aronson & Berry 508 (MO!)
Depts.: CU

Oreopanax sandianus Harms
Ref. FP 13(5/1) 1959: 23.
Endemic shrub. Andean II: forests. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 896* (B photo F)
Depts.: PU

Oreopanax stenodactylus Harms
Ref. FP 13(5/1) 1959: 23.
Endemic shrub. Andean II: shrublands. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 5590* (B)
Depts.: AY

Oreopanax stenophyllus Harms
Ref. FP 13(5/1) 1959: 24.
Endemic shrub or tree. Andean II: cloud forests. 3000-3500 m.
Voucher: Weberbauer 4948* (B photo F), Luteyn & Luteyn-Lebrón 6454 (MO!)
Depts.: CU, PU

Oreopanax urubambanus Harms
Ref. Harms, 1942: 690.
Endemic shrub. Andean II: rocky slopes, shrublands. 2500-3000 m.
Note: Known from Peru only from the type locality and not reconfirmed. Not treated in the Flora of Peru.
Voucher: Weberbauer 5071* (B)
Depts.: CU

Oreopanax weberbaueri Harms
Ref. FP 13(5/1) 1959: 24; Harms, 1908: 159.
Endemic shrub. Andean II: forests. 2500-3000 m.
Note: Known from Peru only from the type locality and not reconfirmed. Not treated in the Flora of Peru.
Voucher: Weberbauer 882* (B)
Depts.: PU

Oreopanax williamsii Harms
Ref. FP 13(5/1) 1959: 25.
Endemic tree. Andean I: forests. 1000-1500 m.
Voucher: Williams 7225* (F), Williams 7100 (F)
Depts.: SM

Panax fruticosum L. =Polyscias fruticosus (L.) Harms

Panax morototoni Aublet =Schefflera morototoni (Aublet) Maguire *et al.*
Ref. FP 13(5/1) 1959: 25; Cannon, 1958: 54; Maguire *et al.*, 1984: 51.

Panax victoriae W. Bull =Polyscias guilfoylei (W. Bull) L. Bailey
Ref. Frodin, pers. comm.

Paratropia cumingiana C. Presl =Polyscias cumingiana (C. Presl) Fernández-Villar
Ref. Lowry *et al.*, 1989: 7.

Polyscias balfouriana (Hort. ex André) L. Bailey =Polyscias scutellaria (Burman f.) Fosberg
Ref. FP 13(5/1) 1959: 9; Lowry *et al.*, 1989: 8.

Polyscias cumingiana (C. Presl) Fernández-Villar
Syn. *Aralia filicifolia* C. Moore ex E. Fournier, *Paratropia cumingiana* C. Presl, *Polyscias filicifolia* (C. Moore ex E. Fournier) L. Bailey
Ref. Lowry *et al.*, 1989: 7.
Introduced shrub. Amazonian: disturbed areas. 0-500 m.
Voucher: Williams s.n. (F)
Depts.: LO

Polyscias filicifolia (C. Moore ex E. Fournier) L. Bailey =Polyscias cumingiana (C. Presl) Fernández-Villar
Ref. FP 13(5/1) 1959: 9; Lowry *et al.*, 1989: 7.

Polyscias fruticosa (L.) Harms
Syn. *Panax fruticosum* L.
Ref. FP 13(5/1) 1959: 9.
Cultivated and introduced shrub. Amazonian: disturbed areas. 0-500 m.
Note: This is a questionable record for Peru (Frodin, pers. comm.).
Voucher: Without collection data.
Depts.: SM

Polyscias guilfoylei (W. Bull) L. Bailey
Syn. *Aralia guilfoylei* W. Bull, *Panax victoriae* W. Bull
Ref. FP 13(5/1) 1959: 9; Lowry *et al.*, 1989: 7.
Cultivated and introduced shrub. Amazonian: disturbed areas. 0-500 m.
Note: The cultivar '*Victoriae*' is known from Peru (Frodin, pers. comm.).
Voucher: Williams 5934 (US)
Depts.: LO, SM

Polyscias scutellaria (Burman f.) Fosberg
Syn. *Aralia balfouriana* Hort. ex André, *Crasula scutellaria* Burman f., *Polyscias balfouriana* (Hort. ex André) L. Bailey
Ref. Lowry *et al.*, 1989: 8.
Cultivated and introduced shrub. Amazonian: disturbed areas. 0-500 m.
Note: The record for Peru may be due to a misidentification (Frodin, pers. comm.).
Voucher: Williams s.n. (F)
Depts.: LO

Schefflera acuminata (Pavón) Harms
Syn. *Actinophyllum acuminatum* Pavón, *Actinophyllum conicum* Pavón, *Schefflera conica* (Pavón) Harms, *Sciodaphyllum acuminatum* (Pavón) Poiret, *Sciodaphyllum conicum* (Pavón) Poiret
Ref. FP 13(5/1) 1959: 28.
Hemiepiphyte or tree. Andean I-II: forests. 1000-2500 m.
Voucher: Ruiz & Pavón s.n.* (MO!), Ferreyra 480 (MO!)
Depts.: CU, HU, JU, PA, PU

Schefflera angulata (Pavón) Harms
Syn. *Actinophyllum angulatum* Pavón, *Sciodaphyllum angulatum* (Pavón) Poiret
Ref. FP 13(5/1) 1959: 29.
Tree. Andean II: forests. 2500-3000 m.
Voucher: Ruiz & Pavón s.n.* (MO!), Macbride & Featherstone 4893 (F)
Depts.: HU

Schefflera cainarachiensis Harms
Ref. Harms, 1942: 681.
Endemic tree. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality and not reconfirmed. Not treated in the Flora of Peru.
Voucher: Klug 2651* (B)
Depts.: SM

Schefflera conica (Pavón) Harms =Schefflera acuminata (Pavón) Harms
Ref. FP 13(5/1) 1959: 30; Frodin, pers. comm.

Schefflera dielsii Harms
Ref. Harms, 1935: 693; Frodin, pers. comm.
Shrub or treelet. Andean I-II: forests. 0-1500 m.
Voucher: Huashikat 688 (LAE!)

Schefflera dolichostyla Harms
Ref. FP 13(5/1) 1959: 30; Frodin, pers. comm.
Endemic shrub or treelet. Andean II: cloud forests. 2500-3000 m.
Voucher: Weberbauer 735* (B photo F), Vargas 14730 (US)
Depts.: CU, PU

Schefflera euryphylla Harms
Ref. FP 13(5/1) 1959: 31.
Endemic tree. Andean II: cloud forests. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 2288* (B photo F)
Depts.: JU

[Schefflera ferruginea (H.B.K.) Harms]
Syn. *Aralia ferruginea* H.B.K.
Ref. Harms, 1942: 681.
Note: Not known from Peru.

Schefflera harmsii J. F. Macbride
Syn. *Didymopanax weberbaueri* Harms
Ref. FP 13(5/1) 1959: 31.
Endemic shrub or treelet. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 2694* (G), Ferreyra 18643 (MO!)
Depts.: LO, SM

Schefflera inambarica Harms
Ref. FP 13(5/1) 1959: 32.
Shrub or tree. Andean II: forests, shrublands. 1500-3000 m.
Voucher: Weberbauer 1080* (B photo F!), Metcalf 30604 (MO!)
Depts.: CU, PU

Schefflera japurensis (C. Martius & Zuccarini ex Marchal) Harms
Syn. *Sciodaphyllum japurense* C. Martius & Zuccarini ex Marchal
Ref. Maguire *et al.*, 1984: 71.
Tree. Andean I: seasonally inundated areas, forests on white sand. 500-1000 m.
Voucher: Knapp *et al.* 7445 (MO!)
Depts.: HU, SM

Schefflera klugii Harms =Schefflera sprucei (Seemann) Harms
Ref. FP 13(5/1) 1959: 32; Frodin, pers. comm.

Schefflera kuntzei (Harms) Frodin
Syn. *Didymopanax kuntzei* Harms, *Schefflera lechleri* Harms
Ref. Frodin, pers. comm.
Shrub. Andean II. 2000-3000 m.
Note: New combination made in Appendix 1.
Voucher: Lechler 2592 (K!)
Depts.: CU

Schefflera lechleri Harms =Schefflera kuntzei (Harms) Frodin
Ref. Harms, 1942: 682.

Schefflera mathewsii (Seemann) Harms
Syn. *Sciodaphyllum mathewsii* Seemann
Endemic tree. Andean II: forests, shrublands. 2000-2500 m.
Note: Listed among *Schefflera* as *"Sciodaphyllum"* in the Flora of Peru.
Voucher: Mathews s.n.* (K), Boeke 2001 (MO!)
Depts.: AM

Schefflera megacarpa A. Gentry
Ref. Gentry, 1981c: 115; Spichiger *et al.*, 1990: 369.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 21225* (MO!), Revilla 1188 (MO!)
Depts.: LO

Schefflera microcephala Harms
Ref. FP 13(5/1) 1959: 33.
Endemic shrub. Andean II: forests. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 2108* (B destroyed)
Depts.: JU

Schefflera minutiflora Harms
Ref. FP 13(5/1) 1959: 34; Frodin, pers. comm.
Shrub or treelet. Andean I-II: forests. 1000-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 4735* (G), Morawetz & Wallnöfer 15-31188 (K)
Depts.: HU, SM

Schefflera monzonensis Harms
Ref. FP 13(5/1) 1959: 34.
Endemic shrub. Andean II: forests. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 3418* (B destroyed)
Depts.: HU

Schefflera morototoni (Aublet) Maguire *et al.*
Syn. *Didymopanax morototoni* (Aublet) Decaisne & Planchon, *Didymopanax morototoni* var. *poeppigii* (Decaisne & Planchon) Marchal, *Didymopanax poeppigii* Decaisne & Planchon, nom. nud., *Panax morototoni* Aublet
Ref. Maguire *et al.*, 1984: 51; Cannon & Cannon, 1989: 54.
Tree. Amazonian, Andean I: disturbed areas, seasonally inundated areas, terra firme forests.
Voucher: Poeppig 1959 (W!)
Depts.: AM, HU, JU, LO, SM, UC

Schefflera moyobambae Harms =Schefflera patula (Rusby) Harms
Ref. FP 13(5/1) 1959: 34; Frodin, pers. comm.

Schefflera pardoana Harms
Ref. FP 13(5/1) 1959: 35.
Endemic shrub. Andean II: forests, shrublands. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 2051* (B photo F)
Depts.: JU

Schefflera patula (Rusby) Harms
Syn. *Schefflera moyobambae* Harms, *Schefflera yuncacoyae* Harms, *Sciodaphyllum patulum* Rusby,
Ref. Rusby, 1893: 41.
Shrub or treelet. Andean I-II: forests. 500-2500 m.
Voucher: Woytkowski 8333 (MO)
Depts.: AM, CA, CU, HU, JU, LO, PU, SM

Schefflera pedicellata (Pavón) Harms
Syn. *Actinophyllum pedicellatum* Pavón, *Sciodaphyllum pedicellatum* (Pavón) Poiret
Ref. FP 13(5/1) 1959: 35.
Endemic shrub. Andean II: forests. 2000-2500 m.
Voucher: Ruiz & Pavón s.n.* (MA), Macbride & Featherstone 4120 (F)
Depts.: HU, SM

Schefflera pentandra (Pavón) Harms
Syn. *Actinophyllum pentandrum* Pavón, *Sciodaphyllum pentandrum* (Pavón) Poiret
Ref. FP 13(5/1) 1959: 35.
Hemiepiphyte or tree. Andean I-II: forests. 500-2000 m.
Voucher: Ruiz & Pavón s.n.* (MO!), Gentry *et al.* 18898 (MO!)
Depts.: CA, HU, JU, LO, PA, SM, UC

Schefflera peruviana Asplund
Ref. FP 13(5/1) 1959: 36.
Endemic tree. Andean I. 500-1000 m.
Note: Known from Peru only from the type locality. May prove to be a synonym of *S. sprucei* (Frodin, pers. comm.).
Voucher: Melin 95* (UPS or S)
Depts.: SM

Schefflera sandiana Harms
Ref. FP 13(5/1) 1959: 37.
Endemic shrub. Andean II: forests. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 1158* (B destroyed)
Depts.: PU

Schefflera sprucei (Seemann) Harms
Syn. *Schefflera klugii* Harms, *Sciodaphyllum sprucei* Seemann
Ref. Frodin, pers. comm.
Endemic tree. Amazonian, Andean I: forests. 0-1500 m.
Note: Known from Peru only from the type locality. Listed among *Schefflera* as *Sciodaphyllum* in the Flora of Peru.
Voucher: Spruce 4550* (K), Klug 2107 (B destroyed)
Depts.: AM, CU, HU, LO, MD, PA, SM

Schefflera ulei Harms
Ref. FP 13(5/1) 1959: 37.
Endemic shrub. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Ule 6761* (HBG)
Depts.: JU, SM

Schefflera viguieriana Harms
Ref. FP 13(5/1) 1959: 38.
Endemic shrub. Andean I-II: forests. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 2113* (B photo F)
Depts.: JU

Schefflera violacea Cuatrecasas
Ref. Cuatrecasas, 1946: 543.
Epiphytic shrub or treelet. Andean I: forests. 1000-1500 m.
Voucher: Wolfe 12374 (NA!)
Depts.: HU

Schefflera weberbaueri Harms
Ref. FP 13(5/1) 1959: 38.
Endemic shrub. Andean II: forests. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 3413* (B photo F), Gentry *et al.* 39966 (MO)
Depts.: HU

Schefflera yuncacoyae Harms =Schefflera patula (Rusby) Harms
Ref. FP 13(5/1) 1959: 38; Frodin, pers. comm.

Sciodaphyllum
Note: Sometimes spelled "*Sciadophyllum.*"

Sciodaphyllum acuminatum (Pavón) Poiret =Schefflera acuminata (Pavón) Harms
Ref. FP 13(5/1) 1959: 28.

Sciodaphyllum angulatum (Pavón) Poiret =Schefflera angulata (Pavón) Harms
Ref. FP 13(5/1) 1959: 29.

Sciodaphyllum conicum (Pavón) Poiret =Schefflera acuminata (Pavón) Harms
Ref. FP 13(5/1) 1959: 30.

Sciodaphyllum japurense C. Martius & Zuccarini ex Marchal =Schefflera japurensis (C. Martius & Zuccarini ex Marchal) Harms
Ref. Maguire *et al.*, 1984: 71.

Sciodaphyllum mathewsii Seemann =Schefflera mathewsii (Seemann) Harms
Ref. FP 13(5/1) 1959: 33.

Sciodaphyllum patulum Rusby =Schefflera patula (Rusby) Harms
Ref. Frodin, pers. comm.

Sciodaphyllum pedicellatum (Pavón) Poiret =Schefflera pedicellata (Pavón) Harms
Ref. FP 13(5/1) 1959: 35.

Sciodaphyllum pentandrum (R. & P.) Poiret =Schefflera pentandra (R. & P.) Harms
Ref. FP 13(5/1) 1959: 36.

Sciodaphyllum sprucei Seemann =Schefflera sprucei (Seemann) Harms
Ref. FP 13(5/1) 1959: 37.

Arecaceae

33 genera and 145 species in Peru.

Endemic species: 19.

Prepared by L. Brako, A. Henderson (NY) and F. Kahn (ORSTOM); reviewed by J. Dransfield (K).

Aiphanes aculeata Willdenow
Syn. *Aiphanes caryotifolia* (H.B.K.) H. A. Wendland, *Aiphanes ernestii* Burret, *Aiphanes praemorsa* (Poeppig ex C. Martius) Burret, *Bactris praemorsa* Poeppig ex C. Martius
Ref. Henderson, pers. comm.
Shrub or tree. Amazonian, Andean I: forests, riversides. 0-1500 m.
Voucher: Foster 9579 (MO)
Depts.: CU, HU, MD, SM

Aiphanes caryotifolia (H.B.K.) H. A. Wendland =Aiphanes aculeata Willdenow
Ref. Henderson, pers. comm.

Aiphanes deltoidea Burret
Ref. FP 13(1/2) 1960: 394; Henderson, pers. comm.
Tree. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Tessmann 4709*
Depts.: AM, HU, LO, UC

Aiphanes ernestii Burret =Aiphanes aculeata Willdenow
Ref. FP 13(1/2) 1960: 395; Henderson, pers. comm.

Aiphanes gracilis Burret =Aiphanes weberbaueri Burret
Ref. FP 13(1/2) 1960: 395; Henderson, pers. comm.

Aiphanes praemorsa (Poeppig ex C. Martius) Burret =Aiphanes aculeata Willdenow
Ref. FP 13(1/2) 1960: 396; Henderson, pers. comm.

Aiphanes tessmannii Burret =Aiphanes weberbaueri Burret
Ref. FP 13(1/2) 1960: 396; Henderson, pers. comm.

Aiphanes ulei (Dammer) Burret
Syn. *Martinezia ulei* Dammer
Ref. FP 13(1/2) 1960: 397.
Shrub. Amazonian, Andean I. 0-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Ule 6880*
Depts.: LO, SM

Aiphanes weberbaueri Burret
Syn. *Aiphanes gracilis* Burret, *Aiphanes tessmannii* Burret
Ref. FP 13(1/2) 1960: 397.
Endemic shrub. Amazonian, Andean I-II. 0-2000 m.
Voucher: Weberbauer 6775* (F!), Vásquez & Jaramillo 8868 (MO)
Depts.: HU, LO

Alfonsia oleifera H.B.K. =Elaeis oleifera (H.B.K.) Cortes

[Astrocaryum aculeatum G. Meyer]
Syn. *Astrocaryum princeps* Barbosa Rodrigues, *Astrocaryum tucuma* C. Martius
Note: Not known from Peru.

Astrocaryum carnosum F. Kahn & B. Millán
Ref. Kahn & Millán, 1992: 504.
Endemic tree. Amazonian: forests, riversides, seasonally inundated areas. 0-500 m.
Voucher: Kahn 1839* (P, USM), Kahn 2031 (NY)
Depts.: SM

Astrocaryum chambira Burret
Ref. FP 13(1/2) 1960: 398; Kahn &

Millán, 1992: 473.
Tree. Amazonian: disturbed areas, forests, seasonally inundated areas. 0-500 m.
Voucher: Tessmann 509* (B), Williams 1929 (F!)
Depts.: AM, LO, SM

Astrocaryum chonta C. Martius
Ref. FP 13(1/2) 1960: 399; Kahn & Millán, 1992: 522.
Tree. Amazonian: forests, seasonally inundated areas. 0-500 m.
Voucher: Gentry 26925 (MO!, USM)
Depts.: LO, MD

Astrocaryum gratum F. Kahn & B. Millán
Ref. Kahn & Millán, 1992: 520.
Tree. Amazonian: forests, disturbed areas, seasonally inundated areas. 0-500 m.
Voucher: Kahn & Llosa 2147* (P, USM), Millán 120 (USM)
Depts.: MD

Astrocaryum huicungo Dammer ex Burret
Ref. FP 13(1/2) 1960: 400.
Endemic shrub. Andean I: disturbed areas, forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer s.n.* (BH), Kahn & Moussa 3203 (USM)
Depts.: SM

Astrocaryum humile Wallace =Bactris humilis (Wallace) Burret

Astrocaryum jauari C. Martius
Ref. FP 13(1/2) 1960: 401; Kahn & Millán, 1992: 477.
Tree. Amazonian: forests, riversides, seasonally inundated areas. 0-500 m.
Voucher: Gentry *et al.* 19113 (MO!)
Depts.: LO

Astrocaryum javarense Trail ex Drude
Ref. Kahn & Millán, 1992: 507.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry & Revilla 20873 (MO!, USM)
Depts.: LO

Astrocaryum macrocalyx Burret
Ref. FP 13(1/2) 1960: 401; Kahn & Millán, 1992: 512.
Tree. Amazonian: disturbed areas, forests. 0-500 m.
Note: Treated as a synonym of *A. murumuru* in the Flora of Peru.
Voucher: Tessmann 5117* (NY), Vásquez 544 (BH, USM)
Depts.: LO

[Astrocaryum murumuru C. Martius]
Ref. FP 13(1/2) 1960: 402; Kahn & Millán, 1992: 524.
Note: Not known from Peru.

Astrocaryum perangustatum F. Kahn & B. Millán
Ref. Kahn & Millán, 1992: 517.
Endemic tree. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Voucher: Kahn 3232* (NY, USM), Smith 4045 (MO!, USM)
Depts.: PA

[*Astrocaryum princeps* Barbosa Rodrigues =Astrocaryum aculeatum G. Meyer]
Ref. FP 13(1/2) 1960: 402.
Note: Not known from Peru.

Astrocaryum ruizii H. A. Wendland
Endemic.
Voucher: Ruiz & Pavón s.n.*
Depts.: Without full locality data.

Astrocaryum scopatum F. Kahn & B. Millán
Ref. Kahn & Millán, 1992: 503.
Endemic tree. Amazonian: forests, riversides, seasonally inundated areas. 0-500 m.
Voucher: Kahn & Borchsenius 2563* (P, USM), Berlin 831 (BH)
Depts.: AM

[*Astrocaryum tucuma* C. Martius =Astrocaryum aculeatum G. Meyer]
Ref. FP 13(1/2) 1960: 402.
Note: Not known from Peru.

Atitara leptospadix (C. Martius) Kuntze =Desmoncus leptospadix C. Martius
Ref. FP 13(1/2) 1960: 416.

Atitara prunifer (Poeppig ex C. Martius) Kuntze =Desmoncus polyacanthos C. Martius
Ref. FP 13(1/2) 1960: 417; Henderson, pers. comm.

Attalea cephalotes Poeppig ex C. Martius =Scheelea phalerata (C. Martius ex Sprengel) Burret
Ref. FP 13(1/2) 1960: 390; Henderson, pers. comm.

Attalea racemosa Spruce
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez *et al.* 5324 (MO!)
Depts.: LO

Attalea spectabilis C. Martius
Syn. *Orbignya polysticha* Burret
Ref. Henderson, pers. comm.
Tree. Amazonian: forests on white sand. 0-500 m.
Voucher: Knapp 8093 (MO!)
Depts.: SM

Attalea tessmannii Burret
Ref. FP 13(1/2) 1960: 386.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Tessmann 5157* (F!), Gentry *et al.* 29032 (MO!)
Depts.: LO, MD, UC

Attalea venatorum (Poeppig ex C. Martius) C. Martius =Maximiliana maripa (Aublet) Drude
Ref. FP 13(1/2) 1960: 393, Henderson, pers. comm.

Bactris acanthocarpoides Barbosa Rodrigues
Shrub or tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 8754 (MO!)
Depts.: LO, PA

Bactris acanthospatha Trail ex Drude
Tree. Amazonian: forests. 0-500 m.
Voucher: Kahn & Mejía 1965 (NY)
Depts.: LO

Bactris actinoneura Drude & Trail ex Drude =Bactris monticola Barbosa Rodrigues
Ref. FP 13(1/2) 1960: 406.

Bactris amoena Burret =Bactris simplicifrons C. Martius
Ref. FP 13(1/2) 1960: 406.

Bactris angustifolia Dammer
Ref. FP 13(1/2) 1960: 407.
Note: Not reconfirmed.

Bactris arundinacea (Trail) Drude
Syn. *Bactris eumorpha* subsp. *arundinacea* Trail
Tree. Amazonian: riversides. 0-500 m.
Voucher: Encarnación E-1226 (US)
Depts.: LO

Bactris bifida C. Martius
Herb or shrub. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Vásquez 4978 (MO!)
Depts.: LO, SM, UC

Bactris brongnartii C. Martius =Bactris maraja C. Martius
Ref. FP 13(1/2) 1960: 407.

[Bactris chaetochlamys Burret]
Ref. FP 13(1/2) 1960: 408.
Note: Not known from Peru.

Bactris chloracantha Poeppig ex C. Martius
Ref. FP 13(1/2) 1960: 408.
Tree. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Poeppig 2107*
Depts.: LO

Bactris ciliata (R. & P.) C. Martius =Bactris gasipaes H.B.K.
Ref. FP 13(1/2) 1960: 409; Henderson, pers. comm.

Bactris concinna C. Martius
Syn. *Pyrenoglyphis concinna* (C. Martius) Burret
Ref. FP 13(1/2) 1960: 409.
Tree. Amazonian: riversides. 0-500 m.
Voucher: Gentry *et al.* 52224 (MO!)
Depts.: CU, HU, LO, MD

Bactris corosilla Karsten
Shrub. Amazonian: seasonally inundated areas. 0-500 m.

Voucher: Vásquez & Jaramillo 4835 (MO!)
Depts.: LO

[Bactris cuspidata C. Martius]
Ref. FP 13(1/2) 1960: 410.
Note: Not known from Peru.

Bactris cuspidata var. *mitis* Drude =Bactris hirta C. Martius
Ref. FP 13(1/2) 1960: 414.

Bactris eumorpha subsp. *arundinacea* Trail =Bactris arundinacea (Trail) Drude

Bactris fissifrons C. Martius
Ref. FP 13(1/2) 1960: 411.
Treelet. Amazonian: forests. 0-500 m.
Voucher: Balick *et al.* 989 (MO!)
Depts.: LO

Bactris gasipaes H.B.K.
Syn. *Bactris ciliata* (R. & P.) C. Martius, *Guilielma ciliata* (R. & P.) H. A. Wendland ex Kerchove, *Guilielma gasipaes* (H.B.K.) L. H. Bailey, *Guilielma microcarpa* Huber, *Guilielma speciosa* C. Martius, *Martinezia ciliata* R. & P.
Ref. FP 13(1/2) 1960: 411.
Cultivated tree. Amazonian: forests. 0-500 m.
Voucher: Kayap 370 (MO!)
Depts.: AM, LO, UC

Bactris hirta C. Martius
Syn. *Bactris cuspidata* C. Martius, *Bactris cuspidata* var. *mitis* Drude, *Bactris lakoi* Burret, *Bactris mitis* C. Martius, *Bactris mollis* Dammer, *Bactris pectinata* C. Martius
Ref. FP 13(1/2) 1960: 412.
Herb. Amazonian: forests. 0-500 m.
Voucher: Ule 6221*, Croat 20192 (MO!)
Depts.: LO, MD

Bactris humilis (Wallace) Burret
Syn. *Astrocaryum humile* Wallace
Tree. Amazonian. 0-500 m.
Voucher: Vásquez & Jaramillo 8669 (MO!)
Depts.: LO, MD

Bactris killipii Burret
Ref. FP 13(1/2) 1960: 413; Henderson, pers. comm.
Shrub. Amazonian. 0-500 m.
Voucher: Vásquez *et al.* 6216 (MO!)
Depts.: LO

Bactris lakoi Burret =Bactris hirta C. Martius
Ref. FP 13(1/2) 1960: 413.

Bactris longifrons C. Martius
Tree. Andean I. 500-1000 m.
Voucher: Weberbauer 1847 (MOL)
Depts.: JU

Bactris maraja C. Martius
Syn. *Bactris brongnartii* C. Martius, *Bactris rivularis* Barbosa Rodrigues, *Pyrenoglyphis brongnartii* (C. Martius) Burret
Ref. FP 13(1/2) 1960: 407.
Tree. Amazonian: riversides. 0-500 m.
Voucher: Vásquez & Jaramillo 3344 (MO!)
Depts.: LO, SM, UC

Bactris mitis C. Martius =Bactris hirta C. Martius
Ref. FP 13(1/2) 1960: 414.

Bactris mollis Dammer =Bactris hirta C. Martius
Ref. FP 13(1/2) 1960: 412.

Bactris monticola Barbosa Rodrigues
Syn. *Bactris actinoneura* Drude & Trail ex Drude, *Bactris trichospatha* Trail
Ref. Glassman, 1972: 45.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 10572 (MO!)
Depts.: HU, LO, MD, SM, UC

Bactris naevia Poeppig ex Burret =Bactris simplicifrons C. Martius
Ref. FP 13(1/2) 1960: 414.

Bactris pectinata C. Martius =Bactris hirta C. Martius

Bactris piranga Trail
Tree. Amazonian: forests. 0-500 m.
Voucher: Kahn & Mejía 1761 (K)
Depts.: LO

Bactris praemorsa Poeppig ex C. Martius =Aiphanes aculeata Willdenow
Ref. FP 13(1/2) 1960: 396; Henderson, pers. comm.

Bactris riparia C. Martius
Ref. FP 13(1/2) 1960: 415.
Tree. Amazonian. 0-500 m.
Voucher: Mejía 71 (USM)
Depts.: LO, MD

Bactris rivularis Barbosa Rodrigues =Bactris maraja C. Martius
Ref. FP 13(1/2) 1960: 407; Glassman, 1972: 49.

Bactris simplicifrons C. Martius
Syn. *Bactris amoena* Burret, *Bactris naevia* Poeppig ex Burret
Treelet. Amazonian, Andean I: forests on white sand, terra firme forests. 0-1000 m.
Voucher: Killip & Smith 29659 (US!), Gentry *et al.* 61967 (MO!)
Depts.: AM, CU, HU, LO, MD, PA, SM

Bactris sphaerocarpa Trail
Tree. Amazonian: forests. 0-500 m.
Voucher: Gentry & Young 32019 (AMAZ)
Depts.: LO, MD

Bactris trichospatha Trail =Bactris monticola Barbosa Rodrigues
Ref. FP 13(1/2) 1960: 415; Glassman, 1972: 54.

Bactris utilis Bentham & Hooker f. ex Hemsley
Herb. Andean I: disturbed areas. 500-1000 m.
Voucher: Gentry *et al.* 40077 (MO!)
Depts.: PA

Calyptrogyne synanthera (C. Martius) Burret =Pholidostachys synanthera (C. Martius) H. Moore
Ref. FP 13(1/2) 1960: 334.

Calyptrogyne weberbaueri Burret =Pholidostachys synanthera (C. Martius) H. Moore
Ref. FP 13(1/2) 1960: 334.

Calyptronoma synanthera (C. Martius) L. H. Bailey =Pholidostachys synanthera (C. Martius) H. Moore
Ref. FP 13(1/2) 1960: 334.

Calyptronoma weberbaueri (Burret) L. H. Bailey =Pholidostachys synanthera (C. Martius) H. Moore
Ref. FP 13(1/2) 1960: 334.

Catoblastus drudei Cook & Doyle
Syn. *Catostigma drudei* (Cook & Doyle) Burret, *Catoblastus pubescens* var. *krinocarpa* Trail ex Drude, *Iriartea pubescens* var. *krinocarpa* Trail
Ref. FP 13(1/2) 1960: 359.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez *et al.* 3075 (MO!)
Depts.: AM, LO, MD

Catoblastus maynensis (Spruce) Drude =Wettinia maynensis Spruce
Ref. FP 13(1/2) 1960: 361.

Catoblastus pubescens (Karsten) H. A. Wendland
Syn. *Iriartea pubescens* Karsten
Ref. FP 13(1/2) 1960: 359.
Note: Not reconfirmed.

Catoblastus pubescens var. *krinocarpa* Trail ex Drude =Catoblastus drudei (Cook & Doyle) Burret
Ref. FP 13(1/2) 1960: 359.

Catostigma drudei (Cook & Doyle) Burret =Catoblastus drudei Cook & Doyle
Ref. FP 13(1/2) 1960: 359.

Ceroxylon crispum Burret
Ref. FP 13(1/2) 1960: 363.
Tree. Andean II: forests. 2500-3000 m.
Voucher: Weberbauer 6825* (F!)
Depts.: HU

Ceroxylon deltoideum (R. & P.) H.B.K. =Iriartea deltoidea R. & P.
Ref. FP 13(1/2) 1960: 356.

Ceroxylon latisectum Burret
Ref. FP 13(1/2) 1960: 363.
Endemic tree. Andean II: forests. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 7161* (photo US)
Depts.: AM

Ceroxylon verruculosum Burret
Ref. FP 13(1/2) 1960: 364.
Endemic tree. Andean II: cloud forests. 2500-3000 m.
Voucher: Weberbauer 2284*, Anderson 6 (MOL)
Depts.: JU

Ceroxylon weberbaueri Burret
Ref. FP 13(1/2) 1960: 364.
Endemic shrub. Andean II: forests. 1500-2500 m.
Voucher: Weberbauer 1157*
Depts.: PU

Chamaedorea amazonica Dammer
=Chamaedorea pauciflora C. Martius
Ref. FP 13(1/2) 1960: 372.

Chamaedorea angustisecta Burret
Ref. FP 13(1/2) 1960: 368.
Tree. Amazonian, Andean I: forests, seasonally inundated areas. 0-1000 m.
Voucher: Killip & Smith 25091* (F!), Foster 9655 (MO!)
Depts.: AY, HU, JU, LO, MD, UC

Chamaedorea bifurcata Oersted
=Pholidostachys synanthera (C. Martius) H. Moore

Chamaedorea boliviensis Dammer
=Chamaedorea pinnatifrons (Jacquin) Oersted
Ref. FP 13(1/2) 1960: 368; Henderson, pers. comm.

Chamaedorea cataractarum Auct. non C. Martius =Chamaedorea fragrans (R. & P.) C. Martius
Ref. FP 13(1/2) 1960: 372; Henderson, pers. comm.

Chamaedorea depauperata Dammer
=Chamaedorea pinnatifrons (Jacquin) Oerstad
Ref. Henderson, pers. comm.

Chamaedorea fragrans (R. & P.) C. Martius
Syn. *Chamaedorea cataractarum* Auct. non C. Martius, *Chamaedorea pavoniana* H. A. Wendland ex Dammer, *Chamaedorea ruizii* H. A. Wendland ex Dammer, *Morenia fragrans* R. & P., *Nunnezharia fragrans* R. & P.
Ref. FP 13(1/2) 1960: 369; Henderson, pers. comm.
Tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Knapp & Alcorn 7422 (MO!)
Depts.: CU, HU, SM

Chamaedorea geonomoides (Spruce) Drude
=Chamaedorea pinnatifrons (Jacquin) Oersted
Ref. FP 13(1/2) 1960: 370; Henderson, pers. comm.

Chamaedorea herrerae Burret
=Chamaedorea pinnatifrons (Jacquin) Oersted
Ref. FP 13(1/2) 1960: 370; Henderson, pers. comm.

Chamaedorea integrifolia (Trail) Dammer
=Chamaedorea pauciflora C. Martius
Ref. FP 13(1/2) 1960: 371.

Chamaedorea lanceolata (R. & P.) Kunth
=Chamaedorea pinnatifrons (Jacquin) Oersted
Ref. FP 13(1/2) 1960: 372.

Chamaedorea lechleriana H. A. Wendland
=Chamaedorea pauciflora C. Martius
Ref. Glassman, 1972: 73.

Chamaedorea linearis (R. & P.) C. Martius
Syn. *Chamaedorea megaphylla* A. Gentry, *Chamaedorea poeppigiana* (C. Martius) A. Gentry, *Chamaedorea smithii* A. Gentry, *Martinezia linearis* R. & P., *Morenia linearis* (R. & P.) Burret, *Morenia poeppigiana* C. Martius, *Nunnezharia poeppigiana* (C. Martius) Kuntze
Ref. FP 13(1/2) 1960: 374.
Herb. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Ruiz & Pavón s.n.*, Killip & Smith 24672 (F!)
Depts.: AM, AY, CU, HU, JU, LO, PA

Chamaedorea megaphylla A. Gentry
=Chamaedorea linearis (R. & P.) C. Martius
Ref. Gentry, 1986a: 163; Henderson, pers. comm.

Chamaedorea pauciflora C. Martius
Syn. *Chamaedorea amazonica* Dammer, *Chamaedorea integrifolia* (Trail) Dammer, *Chamaedorea lechleriana* H. A. Wendland, *Morenia integrifolia* Trail, *Morenia integrifolia* var. *nigricans* Trail, *Morenia lechleriana* H. A. Wendland ex Dammer, *Morenia pauciflora* (C. Martius) Drude
Ref. FP 13(1/2) 1960: 372.
Shrub. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Davis 1318 (NY!)
Depts.: AM, CU, HU, LO, MD, SM, UC

Chamaedorea pavoniana H. A. Wendland ex Dammer =Chamaedorea fragrans (R. & P.) C. Martius
Ref. FP 13(1/2) 1960: 372; Henderson, pers. comm.

Chamaedorea pinnatifrons (Jacquin) Oersted
Syn. *Chamaedorea boliviensis* Dammer, *Chamaedorea depauperata* Dammer, *Chamaedorea geonomoides* (Spruce) Drude, *Chamaedorea herrerae* Burret, *Chamaedorea lanceolata* (R. & P.) Kunth, *Martinezia lanceolata* R. & P., *Nunnezharia geonomoides* Spruce
Ref. Henderson, pers. comm.
Shrub. Amazonian, Andean I-II: forests. 0-2500 m.
Voucher: Alexiades & Pesha 43 (MO!)
Depts.: AM, AY, CA, CU, HU, JU, LO, MD, PA, SM, UC

Chamaedorea poeppigiana (C. Martius) A. Gentry =Chamaedorea linearis (R. & P.) C. Martius
Ref. Gentry, 1986a: 162; Henderson, pers. comm.

Chamaedorea ruizii H. A. Wendland ex Dammer =Chamaedorea fragrans (R. & P.) C. Martius
Ref. Henderson, pers. comm.

Chamaedorea smithii A. Gentry =Chamaedorea linearis (R. & P.) C. Martius
Ref. Gentry, 1986a: 164; Henderson, pers. comm.

Chelyocarpus repens F. Kahn & K. Mejía
Ref. Kahn & Mejía, 1988: 69.
Endemic herb. Amazonian: forests. 0-500 m.
Voucher: Plowman *et al.* 6772* (BH), Kahn & Mejía 1973 (NY!)
Depts.: LO

Chelyocarpus ulei Dammer
Syn. *Tessmanniophoenix longibracteata* Burret
Ref. FP 13(1/2) 1960: 331; Moore, 1972: 76.
Tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Moore *et al.* 8379 (BH, USM)
Depts.: HU, LO, MD, PA, SM, UC

Chrysallidosperma smithii H. Moore =Syagrus smithii (H. Moore) Glassman
Ref. Moore, 1963c: 110.

Cocos butyracea Mutis ex L. F. =Scheelea butyracea (Mutis ex L.f.) Karsten ex H. A. Wendland

Cocos venatorum Poeppig ex C. Martius =Maximiliana maripa (Aublet) Drude
Ref. FP 13(1/2) 1960: 393; Henderson, pers. comm.

Dahlgrenia ptariana Steyermark =Dictyocaryum ptariense (Steyermark) H. Moore & Steyermark
Ref. Henderson, 1990: 60.

Desmoncus leptoclonos Drude ex Dammer =Desmoncus leptospadix C. Martius
Ref. FP 13(1/2) 1960: 416.

Desmoncus leptospadix C. Martius
Syn. *Atitara leptospadix* (C. Martius) Kuntze, *Desmoncus leptoclonos* Drude ex Dammer
Ref. FP 13(1/2) 1960: 416.
Vine. Amazonian: disturbed areas, seasonally inundated areas, terra firme forests. 0-500 m.
Voucher: Poeppig 2207* (G), Gentry *et al.* 27743 (MO!)
Depts.: LO, MD

Desmoncus longifolius C. Martius
Ref. FP 13(1/2) 1960: 417.
Vine. Amazonian: forests, swamps. 0-500 m.

Vine. Amazonian: forests, swamps. 0-500 m.
Voucher: Ruiz & Pavón s.n.* (G), Berlin 743 (MO!)
Depts.: AM, HU, JU, LO

Desmoncus mitis C. Martius
Liana. Amazonian: forests. 0-500 m.
Voucher: Foster 8814 (MO!)
Depts.: HU, LO

Desmoncus orthacanthos C. Martius
Liana. Amazonian: seasonally inundated areas, terra firme forests. 0-500 m.
Voucher: Barbour 5067 (MO!)
Depts.: AM, LO, MD, SM

Desmoncus polyacanthos C. Martius
Syn. *Atitara prunifer* (Poeppig ex C. Martius) Kuntze, *Desmoncus prunifer* Poeppig ex C. Martius
Liana. Amazonian, Andean I: seasonally inundated areas. 0-500 m.
Voucher: Gentry *et al.* 56146 (F!)
Depts.: LO, MD, SM

Desmoncus prunifer Poeppig ex C. Martius =Desmoncus polyacanthos C. Martius
Ref. FP 13(1/2) 1960: 417; Henderson, pers. comm.

Desmoncus setosus C. Martius
Tree. Amazonian: forests. 0-500 m.
Voucher: Tunqui 340 (MO!)
Depts.: AM

Desmoncus vacivus L. H. Bailey
Ref. FP 13(1/2) 1960: 418.
Vine. Amazonian: forests on white sand, terra firme forests. 0-500 m.
Voucher: Croat 18767 (MO!)
Depts.: LO

Dictyocaryum lamarckianum (C. Martius) H. A. Wendland
Syn. *Iriartea lamarckiana* C. Martius
Ref. Gentry, 1986a: 158.
Tree. Amazonian, Andean I-II: forests. 0-2500 m.
Voucher: Smith 4841 (MO!, USM)
Depts.: LO, MD, PA, SM

Dictyocaryum ptariense (Steyermark) H. Moore & Steyermark
Syn. *Dahlgrenia ptariana* Steyermark
Ref. Henderson, 1990: 60.
Tree. Amazonian: forests. 0-500 m.
Voucher: Kahn 2310 (NY!)
Depts.: LO

Elaeis guineensis Jacquin
Cultivated shrub. Amazonian, Andean I. 0-1000 m.
Voucher: Killip & Smith 29487 (NY!)
Depts.: SM

Elaeis oleifera (H.B.K.) Cortes
Syn. *Alfonsia oleifera* H.B.K.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez 6055 (MO!)
Depts.: HU, LO

Euterpe catinga Wallace
Tree. Amazonian: forests. 0-500 m.
Voucher: Revilla 4339 (MO!)
Depts.: LO

Euterpe ensiformis (R. & P.) C. Martius =Prestoea ensiformis (R. & P.) H. Moore
Ref. FP 13(1/2) 1960: 383.

Euterpe luminosa Henderson *et al.*
Ref. Henderson *et al.*, 1991: 178.
Endemic tree. Andean II. 2000-2500 m.
Voucher: Henderson *et al.* 1032* (USM!, NY!), Smith *et al.* 8514 (MO!)
Depts.: PA

Euterpe megalochlamys Burret =Prestoea acuminata (Willdenow) H. Moore
Ref. FP 13(1/2) 1960: 383; Moore, 1963b 286.

Euterpe oleracea C. Martius
Cultivated tree. Amazonian: disturbed areas. 0-500 m.
Voucher: Gentry *et al.* 31674 (MO!)
Depts.: LO

Euterpe precatoria C. Martius
Ref. FP 13(1/2) 1960: 384; Balick, 1985a: 15.
Tree. Amazonian, Andean I-II: forests on white sand, terra firme forests. 0-2000 m.
Voucher: Foster *et al.* 10999 (MO!)
Depts.: AM, CU, HU, LO, MD, PA, SM, UC

Euterpe schultzeana Burret =Prestoea schultzeana (Burret) H. Moore
Ref. Burret, 1939: 326; Henderson, pers. comm.

Geonoma acaulis C. Martius
Syn. *Geonoma acaulis* subsp. *tapajotensis* Trail, *Geonoma tapajotensis* (Trail) Drude, *Taenianthera acaulis* (C. Martius) Burret, *Taenianthera oligosticha* Burret, *Taenianthera tapajotensis* (Trail) Burret
Ref. FP 13(1/2) 1960: 352.
Herb. Amazonian, Andean I: riversides, seasonally inundated areas, terra firme forests. 0-1000 m.
Voucher: Vásquez & Jaramillo 3478 (MO!)
Depts.: AM, CU, LO, MD, SM, PA, UC

Geonoma acaulis subsp. *tapajotensis* Trail =Geonoma acaulis C. Martius
Ref. FP 13(1/2) 1960: 354.

Geonoma adscendens Dammer ex Burret =Geonoma jussieuana C. Martius
Ref. FP 13(1/2) 1960: 337.

Geonoma andicola Dammer ex Burret
Ref. FP 13(1/2) 1960: 338.
Endemic shrub. Andean II. 1500-2500 m.
Voucher: Weberbauer 1345*
Depts.: PU

Geonoma andina Burret =Geonoma lindeniana H. A. Wendland
Ref. FP 13(1/2) 1960: 339.

Geonoma arundinacea C. Martius
Syn. *Geonoma uleana* Dammer

Tree. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Voucher: Croat 18521A (MO!)
Depts.: AM, LO, MD, UC

Geonoma aspidifolia Spruce
Shrub. Amazonian: forests on white sand. 0-500 m.
Voucher: Vásquez & Jaramillo 8865 (MO!)
Depts.: LO

Geonoma baculifera (Poiteau) Kunth
Syn. *Gynestum baculiferum* Poiteau
Shrub. Amazonian: forests. 0-500 m.
Note: Probably not in Peru (Anderson, pers. comm.).
Voucher: Vásquez & Jaramillo 8806 (MO!)
Depts.: LO

Geonoma bartletii Dammer ex Burret
Herb. Amazonian: forests. 0-500 m.
Voucher: Foster 9320 (MO!)
Depts.: HU, PA, UC

Geonoma brongniartii C. Martius
Syn. *Geonoma cuneifolia* Burret
Ref. FP 13(1/2) 1960: 339.
Herb or shrub. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Foster 8861 (MO!)
Depts.: AM, AY, CU, HU, JU, LO, MD, PA, SM, UC

Geonoma camana Trail
Syn. *Geonoma lagesiana* Dammer, *Taenianthera camana* (Trail) Burret, *Taenianthera lagesiana* (Dammer) Burret
Ref. FP 13(1/2) 1960: 352.
Herb. Amazonian: forests, seasonally inundated areas. 0-500 m.
Voucher: Vásquez & Jaramillo 10398 (MO!)
Depts.: AM, HU, LO, MD, PU, SM

Geonoma camptoneura Burret =Geonoma maxima (Poiteau) Kunth
Ref. FP 13(1/2) 1960: 340.

Geonoma congestissima Burret
Ref. FP 13(1/2) 1960: 340.
Shrub. Andean I. 1000-1500 m.
Voucher: Weberbauer 4560*
Depts.: SM

Geonoma cuneata H. A. Wendland ex Spruce
Tree. Amazonian: disturbed areas, forests. 0-500 m.
Voucher: Rimachi 6611 (MO!)
Depts.: LO

Geonoma cuneifolia Burret =Geonoma brongniartii C. Martius
Ref. FP 13(1/2) 1960: 341.

Geonoma decurrens H. A. Wendland ex Burret
Tree. Amazonian: forests. 0-500 m.

Voucher: McDaniel *et al.* 21530 (MO!)
Depts.: LO

Geonoma densa H. A. Wendland
Tree. Amazonian, Andean I-II: cloud forests. 0-2000 m.
Voucher: Killip & Smith 24700 (US!)
Depts.: AM, JU, LO, PA

Geonoma deversa (Poiteau) Kunth
Syn. *Geonoma killipii* Burret, *Geonoma myriantha* Dammer, *Geonoma paniculigera* var. *papyracea* Trail, *Gynestum deversum* Poiteau
Ref. Balick, 1985a: 16.
Shrub or tree. Amazonian: disturbed areas, forests. 0-500 m.
Voucher: Foster 9566 (MO!)
Depts.: JU, LO, MD, PA, SM, UC

Geonoma dicranospadix Burret
Tree. Andean I. 500-1000 m.
Voucher: Weberbauer 3672 (B)
Depts.: HU

Geonoma ferruginea H. A. Wendland ex Spruce
Herb. Amazonian: riversides. 0-500 m.
Voucher: Foster 8863 (MO!)
Depts.: LO, MD, PA

Geonoma floccosa Dammer ex Burret =Geonoma lindeniana H. A. Wendland
Ref. FP 13(1/2) 1960: 341.

Geonoma gracilipes Dammer ex Burret
Ref. FP 13(1/2) 1960: 342.
Shrub. Andean I: terra firme forests. 1000-1500 m.
Voucher: Weberbauer 4557*
Depts.: SM

Geonoma granditrijuga Burret
Ref. FP 13(1/2) 1960: 342.
Shrub. Andean I-II: forests. 500-2500 m.
Voucher: Weberbauer 3673*, Foster 9116 (MO!)
Depts.: HU, PA, SM

Geonoma helminthoclada Burret
Ref. FP 13(1/2) 1960: 343.
Endemic shrub. Andean II: cloud forests. 1500-3000 m.
Voucher: Raimondi 509*, Cook & Gilbert 1092 (NY!)
Depts.: AM, CU, HU, PA

Geonoma interrupta (R. & P.) C. Martius
Syn. *Martinezia interrupta* R. & P.
Ref. FP 13(1/2) 1960: 343.
Tree. Amazonian: forests. 0-500 m.
Voucher: Ruiz & Pavón s.n.*, Schunke 7716 (MO!)
Depts.: CU, HU, LO, MD, SM, UC

Geonoma juruana Dammer
Syn. *Geonoma longisecta* Burret
Ref. FP 13(1/2) 1960: 349.
Tree. Amazonian, Andean I: forests on white sand, seasonally inundated areas. 0-1000 m.
Voucher: Klug 537 (F!)
Depts.: AM, HU, LO, PA

Geonoma jussieuana C. Martius
Syn. *Geonoma adscendens* Dammer ex Burret, *Geonoma multisecta* (Burret) Burret, *Taenianthera weberbaueri* Burret
Tree. Andean I-II: forests. 500-2000 m.
Voucher: Killip & Smith 23860 (US!), Vásquez *et al.* 690 (MO!)
Depts.: AM, AY, CU, HU, PA, SM

Geonoma killipii Burret =Geonoma deversa (Poiteau) Kunth
Ref. FP 13(1/2) 1960: 344.

Geonoma lagesiana Dammer =Geonoma camana Trail
Ref. FP 13(1/2) 1960: 353.

Geonoma laxiflora C. Martius
Tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Killip & Smith 27654 (US!)
Depts.: AM, LO

Geonoma lehmannii Burret
Herb. Andean II: forests. 1500-2500 m.
Voucher: Mexia 7764 (US!)
Depts.: HU, JU, PA

Geonoma leptospadix Trail
Ref. FP 13(1/2) 1960: 344.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Killip & Smith 26594*, Killip & Smith 26414 (F!)
Depts.: HU, JU, LO, PA, UC

Geonoma lindeniana H. A. Wendland
Syn. *Geonoma andina* Burret, *Geonoma floccosa* Dammer ex Burret, *Geonoma tenuifolia* Hort.
Ref. Glassman, 1972: 146.
Herb. Andean II: disturbed areas, forests. 1500-2500 m.
Voucher: Díaz & Osores 2531 (MO!)
Depts.: CA, JU

Geonoma longisecta Burret =Geonoma juruana Dammer
Ref. FP 13(1/2) 1960: 345.

Geonoma macrostachys C. Martius
Syn. *Taenianthera macrostachys* (C. Martius) Burret
Ref. FP 13(1/2) 1960: 353.
Herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Vásquez & Jaramillo 8665 (MO!)
Depts.: AM, LO, MD, PA, SM, UC

Geonoma marggraffia Engel
Tree. Andean II. 2500-3000 m.
Voucher: Moore *et al.* 8328 (BH, USM)
Depts.: HU

Geonoma maxima (Poiteau) Kunth
Syn. *Geonoma camptoneura* Burret, *Geonoma spruceana* Trail, *Gynestum maximum* Poiteau
Herb. Amazonian, Andean I: forests, riversides. 0-1500 m.
Voucher: Gentry *et al.* 56133 (MO!)
Depts.: CU, LO, MD, PA

Geonoma megalospatha Burret
Ref. FP 13(1/2) 1960: 345.
Endemic tree. Andean II: rocky slopes. 2500-3000 m.
Voucher: Weberbauer 6800* (F!), Macbride 4867 (F!)
Depts.: HU, PA

Geonoma multisecta (Burret) Burret =Geonoma jussieuana C. Martius
Ref. FP 13(1/2) 1960: 346.

Geonoma myriantha Dammer =Geonoma deversa (Poiteau) Kunth
Ref. FP 13(1/2) 1960: 346.

Geonoma oligoclona Trail
Tree. Amazonian. 0-500 m.
Voucher: Mejía 157 (USM)
Depts.: LO

Geonoma paniculigera var. *papyracea* Trail =Geonoma deversa (Poiteau) Kunth
Ref. FP 13(1/2) 1960: 346.

Geonoma piscicauda Dammer
Syn. *Geonoma raimondii* Burret, *Geonoma wittiana* Dammer
Ref. FP 13(1/2) 1960: 347.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Vásquez 4189 (MO!)
Depts.: AM, HU, LO, MD, PA, SM, UC

Geonoma poeppigiana C. Martius
Ref. FP 13(1/2) 1960: 347.
Herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Poeppig 2295/2326B* (M), Gentry 25638 (MO!)
Depts.: AM, HU, LO, PA, SM, UC

Geonoma pycnostachys C. Martius
Ref. FP 13(1/2) 1960: 348.
Shrub. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Killip & Smith 26190 (F!)
Depts.: AM, JU, LO, PA, SM, UC

Geonoma raimondii Burret =Geonoma piscicauda Dammer
Ref. FP 13(1/2) 1960: 348.

Geonoma spixiana C. Martius
Treelet. Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 56390 (MO!)
Depts.: LO, MD, PA

Geonoma spruceana Trail =Geonoma maxima (Poiteau) Kunth
Ref. FP 13(1/2) 1960: 349.

Geonoma synanthera C. Martius =Pholidostachys synanthera (C. Martius) H. Moore
Ref. FP 13(1/2) 1960: 334.

Geonoma tamandua Trail
Syn. *Taenianthera tamandua* (Trail) Burret
Ref. FP 13(1/2) 1960: 354.
Herb. Amazonian: forests. 0-500 m.
Voucher: Gentry & Emmons 38798 (MO!)
Depts.: LO

Geonoma tapajotensis (Trail) Drude =Geonoma acaulis C. Martius
Ref. FP 13(1/2) 1960: 354.

Geonoma tenuifolia Hort. =Geonoma lindeniana H. A. Wendland
Ref. Glassman, 1972: 146.

Geonoma tessmannii Burret
Ref. FP 13(1/2) 1960: 349.
Shrub. Amazonian: terra firme forests. 0-500 m.
Voucher: Tessmann 4225*
Depts.: LO

Geonoma traillii Burret
Herb. Amazonian: forests on white sand. 0-500 m.
Voucher: Gentry *et al.* 45997 (MO!)
Depts.: AM, LO, MD, UC

Geonoma triglochin Burret
Shrub. Amazonian: forests. 0-500 m.
Voucher: Killip & Smith 26431 (US)
Depts.: JU

Geonoma trigona (R. & P.) A. Gentry
Syn. *Carludovica trigona* R. & P. (Cyclanthaceae), *Ludovia trigona* (R. & P.) Persoon (Cyclanthaceae), *Salmia trigona* (R. & P.) Willdenow (Cyclanthaceae)
Ref. Gentry, 1986a: 161.
Endemic treelet. Andean II: disturbed areas, cloud forests. 2500-3000 m.
Voucher: Pavón s.n.* (MA photo F!), Gentry *et al.* 40003 (AMAZ, MO!)
Depts.: HU, PA

Geonoma uleana Dammer =Geonoma arundinacea C. Martius
Ref. FP 13(1/2) 1960: 350.

Geonoma undata Klotzsch
Herb. Andean II: cloud forests. 2000-2500 m.
Voucher: Gentry & Smith 35847 (MO!)
Depts.: PA

Geonoma weberbaueri Dammer ex Burret
Ref. FP 13(1/2) 1960: 350.
Endemic tree. Andean II: forests. 2000-3500 m.
Voucher: Weberbauer 3552* (B), Moore *et al.* 8327 (USM)
Depts.: HU

Geonoma wittiana Dammer =Geonoma piscicauda Dammer
Ref. FP 13(1/2) 1960: 347.

Guilielma ciliata (R. & P.) H. A. Wendland ex Kerchove =Bactris gasipaes H.B.K.
Ref. FP 13(1/2) 1960: 409; Henderson, pers. comm.

Guilielma gasipaes (H.B.K.) L. H. Bailey =Bactris gasipaes H.B.K.
Ref. FP 13(1/2) 1960: 411.

Guilielma microcarpa Huber =Bactris gasipaes H.B.K.
Ref. FP 13(1/2) 1960: 411.

Guilielma speciosa C. Martius =Bactris gasipaes H.B.K.
Ref. FP 13(1/2) 1960: 411.

Gynestum baculiferum Poiteau =Geonoma baculifera (Poiteau) Kunth

Gynestum deversum Poiteau =Geonoma deversa (Poiteau) Kunth

Gynestum maximum Poiteau =Geonoma maxima (Poiteau) Kunth

Hyospathe brevipedunculata Dammer =Hyospathe elegans C. Martius
Ref. FP 13(1/2) 1960: 375; Skov & Balslev, 1989: 196.

Hyospathe elegans C. Martius
Syn. *Hyospathe brevipedunculata* Dammer, *Hyospathe filiformis* H. A. Wendland ex Druce, *Hyospathe gracilis* H. A. Wendland ex Drude, *Hyospathe micropetala* Burret, *Hyospathe tessmannii* Burret, *Hyospathe weberbaueri* Dammer ex Burret,
Ref. FP 13(1/2) 1960: 376; Skov & Balslev, 1989: 196.
Shrub or tree. Amazonian, Andean I-II: seasonally inundated areas, terra firme forests. 0-2000 m.
Voucher: Poeppig s.n.* (W), Killip & Smith 24706 (F!)
Depts.: AM, HU, JU, LO, MD, PA, SM, UC

Hyospathe filiformis H. A. Wendland ex Drude =Hyospathe elegans C. Martius
Ref. FP 13(1/2) 1960: 376; Skov & Balslev, 1989: 196.

Hyospathe gracilis H. A. Wendland ex Drude =Hyospathe elegans C. Martius
Ref. FP 13(1/2) 1960: 376; Skov & Balslev, 1989: 196.

Hyospathe micropetala Burret =Hyospathe elegans C. Martius
Ref. FP 13(1/2) 1960: 377; Skov & Balslev, 1989: 201; Henderson, pers. comm.

Hyospathe tessmannii Burret =Hyospathe elegans C. Martius
Ref. FP 13(1/2) 1960: 377; Skov & Balslev, 1989: 201.

Hyospathe ulei Dammer
Ref. FP 13(1/2) 1960: 378; Skov & Balslev, 1989: 201.
Shrub. Andean I: forests. 1000-1500 m.
Voucher: Ule 47* (B)
Depts. LO

Hyospathe weberbaueri Dammer ex Burret =Hyospathe elegans C. Martius
Ref. FP 13(1/2) 1960: 378; Skov & Balslev, 1989: 201.

Iriartea deltoidea R. & P.
Syn. *Ceroxylon deltoideum* (R. & P.) H.B.K., *Iriartea ventricosa* C. Martius, *Iriartea weberbaueri* Burret
Ref. FP 13(1/2) 1960: 356.
Tree. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Ruiz & Pavón s.n.* (MA), Gentry & Jaramillo 57954 (MO!)
Depts.: AM, CU, HU, JU, LO, MD, PA, PU, SM, UC

Iriartea exorrhiza C. Martius =Socratea exorrhiza (C. Martius) H. A. Wendland
Ref. FP 13(1/2) 1960: 356.

Iriartea lamarckiana C. Martius =Dictyocaryum lamarckianum (C. Martius) H. A. Wendland
Ref. Gentry, 1986a: 158.

Iriartea pubescens Karsten =Catoblastus pubescens (Karsten) H. A. Wendland
Ref. Henderson, 1990: 90.

Iriartea pubescens var. *krinocarpa* Trail =Catoblastus drudei Cook & Doyle
Ref. FP 13(1/2) 1960: 359; Glassman, 1972: 155.

Iriartea setigera C. Martius =Iriartella setigera (C. Martius) H. A. Wendland
Ref. Moore, 1963a: 284.

Iriartea stenocarpa (Burret) J. F. Macbride =Iriartella stenocarpa Burret
Ref. FP 13(1/2) 1960: 357; Henderson, 1990: 75.

Iriartea ventricosa C. Martius =Iriartea deltoidea R. & P.
Ref. FP 13(1/2) 1960: 358.

Iriartea weberbaueri Burret =Iriartea deltoidea R. & P.
Ref. FP 13(1/2) 1960: 358.

Iriartella ferreyrae H. Moore =Iriartella stenocarpa Burret
Ref. Moore, 1963a: 278.

Iriartella setigera (C. Martius) H. A. Wendland
Syn. *Iriartea setigera* C. Martius
Ref. FP 13(1/2) 1960: 357; Moore, 1963a: 284.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Killip & Smith 26246 (F!), Foster *et al.* 7840 (MO!)
Depts.: HU, JU, LO, MD, PA, SM

Iriartella stenocarpa Burret
Syn. *Iriartea stenocarpa* (Burret) J. F. Macbride, *Iriartella ferreyrae* H. Moore
Ref. FP 13(1/2) 1960: 357; Moore, 1963a: 282.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Hopp 110* (B), Ayala *et al.* 3885 (NY!)
Depts.: LO, MD, PA, SM, UC

Itaya amicorum H. Moore
Ref. Moore, 1972: 86.
Shrub or tree. Amazonian: forests. 0-500 m.
Voucher: Moore *et al.* 8447* (BH, USM), Schunke 9838 (MO!)
Depts.: LO

Jessenia Karsten
Note: Balick (pers. comm.) treats this as a genus distinct from *Oenocarpus*.

Jessenia bataua IC. Martius) Burret subsp. *bataua* =Oenocarpus bataua C. Martius
Ref. FP 13(1/2) 1960: 379; Balick, 1985b: 119; Henderson, pers. comm.

Jessenia weberbaueri Burret =Oenocarpus bataua C. Martius
Ref. FP 13(1/2) 1960: 380; Balick, 1985b: 119; Henderson, pers. comm.

Lepidocaryum enneaphyllum Barbosa Rodrigues =Lepidocaryum gracile C. Martius
Ref. FP 13(1/2) 1960: 329.

Lepidocaryum gracile C. Martius
Syn. *Lepidocaryum enneaphyllum* Barbosa Rodrigues, *Lepidocaryum tessmannii* Burret
Shrub. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Ayala 3886 (MO!)
Depts.: LO, SM

Lepidocaryum tenue C. Martius
Ref. FP 13(1/2) 1960: 329.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Foster 4070 (MO!)
Depts.: LO

Lepidocaryum tessmannii Burret =Lepidocaryum gracile C. Martius
Ref. FP 13(1/2) 1960: 330.

Lepidococcus peruvianus (Beccari) A. Hawkes =Mauritiella aculeata (H.B.K.) Burret
Ref. FP 13(1/2) 1960: 328.

Manicaria saccifera Gaertner
Ref. Henderson, pers. comm.
Tree. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Grández 2233 (AMAZ)
Depts. LO

Martinezia ciliata R. & P. =Bactris gasipaes H.B.K.
Ref. FP 13(1/2) 1960: 409; Henderson, pers. comm.

Martinezia ensiformis R. & P. =Prestoea ensiformis (R. & P.) H. Moore
Ref. FP 13(1/2) 1960: 383; Moore, 1963b: 286.

Martinezia interrupta R. & P. =Geonoma interrupta (R. & P.) C. Martius
Ref. FP 13(1/2) 1960: 343; Glassman, 1972: 164.

Martinezia lanceolata R. & P. =Chamaedorea pinnatifrons (Jacquin) Oersted
Ref. FP 13(1/2) 1960: 371.

Martinezia linearis R. & P. =Chamaedorea linearis (R. & P.) C. Martius
Ref. FP 13(1/2) 1960: 374.

Martinezia ulei Dammer =Aiphanes ulei (Dammer) Burret
Ref. FP 13(1/2) 1960: 395.

Mauritia carana Wallace
Ref. Moussa *et al.*, 1992: 569, 593.
Tree. Amazonian: forests on white sand. 0-500 m.
Voucher: Mejía s.n. (USM)
Depts: LO

Mauritia flexuosa L. f.
Ref. FP 13(1/2) 1960: 327; Balick, 1985b: 5.
Tree. Amazonian: forests on white sand. 0-500 m.
Voucher: Killip & Smith 27171 (F!)
Depts.: CU, LO, MD, PA, SM, UC

Mauritia peruviana Beccari =Mauritiella aculeata (H.B.K.) Burret
Ref. FP 13(1/2) 1960: 328.

[Mauritia vinifera C. Martius]
Ref. FP 13(1/2) 1960: 328.
Note: Not known from Peru.

Mauritiella aculeata (H.B.K.) Burret
Syn. *Lepidococcus peruvianus* (Beccari) A. Hawkes, *Mauritia peruviana* Beccari, *Mauritiella peruviana* (Beccari) Burret
Tree. Amazonian, Andean I: disturbed areas, forests. 0-1500 m.
Voucher: Gentry *et al.* 39119 (MO!)
Depts.: LO, SM

Mauritiella peruviana (Beccari) Burret =Mauritiella aculeata (H.B.K.) Burret
Ref. FP 13(1/2) 1960: 328.

Maximiliana insignis C. Martius =Scheelea insignis (C. Martius) Karsten

Maximiliana maripa (Aublet) Drude
Syn. *Attalea venatorum* (Poeppig ex C. Martius) C. Martius, *Cocos venatorum* Poeppig ex C. Martius, *Maximiliana stenocarpa* Burret, *Maximiliana venatorum* (Poeppig ex C. Martius) H. A. Wendland ex Kerchove, *Palma maripa* Aublet
Ref. Balick, 1985b: 13.
Tree. Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 42111 (MO!)
Depts.: LO, PA, SM, UC

Maximiliana stenocarpa Burret =Maximiliana maripa (Aublet) Drude
Ref. FP 13(1/2) 1960: 392.

Maximiliana venatorum (Poeppig ex C. Martius) H. A. Wendland ex Kerchove =Maximiliana maripa (Aublet) Drude
Ref. FP 13(1/2) 1960: 393; Henderson, pers. comm.

Morenia fragrans R. & P. =Chamaedorea fragrans (R. & P.) C. Martius
Ref. FP 13(1/2) 1960: 373; Gentry, 1986a: 162; Henderson, pers. comm.

Morenia integrifolia Trail =Chamaedorea pauciflora C. Martius
Ref. FP 13(1/2) 1960: 371.

Morenia integrifolia var. *nigricans* Trail =Chamaedorea pauciflora C. Martius
Ref. FP 13(1/2) 1960: 371.

Morenia lechleriana H. A. Wendland ex Dammer =Chamaedorea pauciflora C. Martius
Ref. FP 13(1/2) 1960: 371.

Morenia linearis (R. & P.) Burret =Chamaedorea linearis (R. & P.) C. Martius
Ref. FP 13(1/2) 1960: 374.

[Morenia macrocarpa Burret]
Ref. FP 13(1/2) 1960: 374; Glassman, 1972: 172.
Endemic herb.
Note: Known from Peru only from the type locality. This species belongs in *Chamaedorea* but the combination has not been made.
Voucher: Weberbauer 3600* (B)

Morenia pauciflora (C. Martius) Drude =Chamaeodora pauciflora C. Martius
Ref. FP 13(1/2) 1960: 372.

Morenia poeppigiana C. Martius =Chamaedorea linearis (R. & P.) C. Martius
Ref. FP 13(1/2) 1960: 374; Gentry, 1986a: 162; Henderson, pers. comm.

Nunnezharia fragrans R. & P. =Chamaedorea fragrans (R. & P.) C. Martius
Ref. FP 13(1/2) 1960: 367; Henderson, pers. comm.

Nunnezharia geonomoides Spruce =Chamaedorea pinnatifrons (Jacquin) Oersted
Ref. FP 13(1/2) 1960: 370; Henderson, pers. comm.

Nunnezharia poeppigiana (C. Martius) Kuntze =Chamaedorea linearis (R. & P.) C. Martius
Ref. Henderson, pers. comm.

Oenocarpus bacaba C. Martius
Ref. FP 13(1/2) 1960: 381; Balick, 1985b: 95.
Tree. Amazonian. 0-500 m.
Voucher: Pérez 1 (USM)
Depts.: LO

Oenocarpus balickii F. Kahn
Tree. Amazonian: forests. 0-500 m.
Voucher: Kahn & Mejía 1723 (NY!)
Depts.: LO

Oenocarpus bataua C. Martius
Syn. *Jessenia bataua* subsp. *bataua*, *Jessenia weberbaueri* Burret, *Oenocarpus bataua* C. Martius
Ref. FP 13(1/2) 1960: 379; Balick, 1985b: 119; Henderson, pers. comm.

Tree. Amazonian: forests on white sand, terra firme forests. 0-500 m.
Voucher: Williams 4963 (MO!)
Depts.: HU, JU, LO, MD, PA, SM, UC

Oenocarpus mapora Karsten subsp. **mapora**
Syn. *Oenocarpus multicaulis* Spruce
Ref. Balick, 1985b: 105.
Tree. Amazonian, Andean I: disturbed areas. 0-1000 m.
Voucher: Balick *et al.* 987 (MO!)
Depts.: AM, LO, MD, SM, UC

Oenocarpus minor C. Martius
Ref. FP 13(1/2) 1960: 381; Balick, 1985b: 111.
Tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Gentry *et al.* 43749 (MO!)
Depts.: LO

Oenocarpus multicaulis Spruce =Oenocarpus mapora subsp mapora
Ref. FP 13(1/2) 1960: 382; Balick, 1985b: 105.

Orbignya polysticha Burret =Attalea spectabilis C. Martius
Ref. FP 13(1/2) 1960: 385; Henderson, pers. comm.

Oreodoxa acuminata Willdenow =Prestoea acuminata (Willdenow) H. Moore

Palma maripa Aublet =Maximiliana maripa (Aublet) Drude
Ref. Balick, 1985b: 13.

Phoenix canariensis Hort. ex Chabaud
Ref. Bailey & Bailey, 1976: 863.
Cultivated tree. Coastal. 0-500 m.
Voucher: Parra s.n. (USM)
Depts.: LI

Pholidostachys synanthera (C. Martius) H. Moore
Syn. *Calyptrogyne synanthera* (C. Martius) Burret, *Calyptrogyne weberbaueri* Burret, *Calyptronoma synanthera* (C. Martius) L. H. Bailey, *Calyptronoma weberbaueri* (Burret) L. H. Bailey, *Chamaedorea bifurcata* Oersted, *Geonoma synanthera* C. Martius
Shrub or tree. Amazonian: forests. 0-500 m.
Voucher: Barbour 4474 (NY!)
Depts.: AM, HU, LO, PU

Phytelephas macrocarpa R. & P. subsp. **macrocarpa**
Syn. *Phytelephas microcarpa* R. & P., *Yarina microcarpa* (R. & P.) Cook
Ref. FP 13(1/2) 1960: 326; Barfod, 1991: 58.
Shrub. Amazonian, Andean I: seasonally inundated areas. 0-1000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Gentry *et al.* 15937 (MO!)
Depts.: AM, CA, HU, LO, SM

Phytelephas macrocarpa subsp. **tenuicaulis** Barfod
Ref. Barfod, 1991: 62.
Shrub. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Gentry & Díaz 28260 (MO!)
Depts.: LO

Phytelephas microcarpa R. & P. =Phytelephas macrocarpa subsp. macrocarpa
Ref. FP 13(1/2) 1960: 326; Barfod, 1991: 58.

Prestoea acuminata (Willdenow) H. Moore
Syn. *Euterpe megalochlamys* Burret, *Oreodoxa acuminata* Willdenow, *Prestoea megalochlamys* (Burret) H. Moore
Tree. Andean II: cloud forests. 2000-3000 m.
Voucher: Young & León 3993 (HUT)
Depts.: CA, HU, JU, LL, SM

Prestoea ensiformis (R. & P.) H. Moore
Syn. *Euterpe ensiformis* (R. & P.) C. Martius, *Martinezia ensiformis* R. & P., *Prestoea sejuncta* L. H. Bailey
Ref. Moore, 1963b: 286.
Shrub or tree. Andean I: forests. 500-1500 m.
Voucher: Ruiz & Pavón s.n.*, Schunke 9327 (F!)
Depts.: CU, HU

Prestoea megalochlamys (Burret) H. Moore =Prestoea acuminata (Willdenow) H. Moore
Ref. Moore, 1963b: 286.

Prestoea schultzeana (Burret) H. Moore
Syn. *Euterpe schultzeana* Burret
Ref. Henderson, pers. comm.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Gentry 29157 (BH)
Depts.: AM, LO, PA

Prestoea sejuncta L. H. Bailey =Prestoea ensiformis (R. & P.) H. Moore
Ref. Henderson, pers. comm.

Pyrenoglyphis brongnartii (C. Martius) Burret =Bactris maraja C. Martius
Ref. FP 13(1/2) 1960: 407; Glassman, 1972: 190.

Pyrenoglyphis concinna (C. Martius) Burret =Bactris concinna C. Martius
Ref. FP 13(1/2) 1960: 409.

Rhopalostylis buettnerioides Klotzsch ex Baillon =Dalechampia micrantha Poeppig (Euphorbiaceae).
Ref. FP 13(3A/1) 1951: 102.

Scheelea bassleriana Burret =Scheelea butyracea (Mutis ex L.f.) Karsten ex H. A. Wendland
Ref. FP 13(1/2) 1960: 389; Henderson, pers. comm.

Scheelea brachyclada Burret =Scheelea butyracea (Mutis ex L.f.) Karsten ex H. A. Wendland
Ref. FP 13(1/2) 1960: 389; Henderson, pers. comm.

Scheelea butyracea (Mutis ex L. f.) Karsten ex H. A. Wendland
Syn. *Cocos butyracea* Mutis ex L. f., *Scheelea bassleriana* Burret, *Scheelea brachyclada* Burret, *Scheelea stenorhyncha* Burret, *Scheelea tessmannii* Burret
Ref. Henderson, pers. comm.
Shrub or tree. Amazonian: forests, riversides, seasonally inundated areas. 0-500 m.
Voucher: Kahn & Mejía 1728 (USM)
Depts.: LO, UC

Scheelea cephalotes (Poeppig ex C. Martius) Karsten =Scheelea phalerata (C. Martius ex Sprengel) Burret
Ref. FP 13(1/2) 1960: 390; Henderson, pers. comm.

Scheelea insignis (C. Martius) Karsten
Syn. *Maximiliana insignis* C. Martius
Shrub. Amazonian, Andean I: forests. 0-500 m.
Voucher: Gentry *et al.* 42634 (MO!)
Depts.: JU, LO

Scheelea phalerata (C. Martius ex Sprengel) Burret
Syn. *Attalea cephalotes* Poeppig ex C. Martius, *Scheelea cephalotes* (Poeppig ex C. Martius) Karsten, *Scheelea weberbaueri* Burret
Ref. Henderson, pers. comm.
Shrub or tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Croat 17992 (NY!)
Depts.: HU, JU, LO, MD

Scheelea stenorhyncha Burret =Scheelea butyracea (Mutis ex L. f.) Karsten ex H. A. Wendland
Ref. FP 13(1/2) 1960: 390; Henderson, pers. comm.

Scheelea tessmannii Burret =Scheelea butyracea (Mutis ex L.f.) Karsten ex H. A. Wendland
Ref. FP 13(1/2) 1960: 391; Henderson, pers. comm.

Scheelea weberbaueri Burret =Scheelea phalerata (C. Martius ex Sprengel) Burret
Ref. FP 13(1/2) 1960: 391; Henderson, pers. comm.

Socratea exorrhiza (C. Martius) H. A. Wendland
Syn. *Iriartea exorrhiza* C. Martius
Ref. FP 13(1/2) 1960: 356.
Herb or tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 4819 (MO!)
Depts.: AM, CU, LO, MD, PA, SM, UC

Socratea salazarii H. Moore
Ref. Moore, 1963c: 112.

Endemic tree. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Moore *et al.* 8366* (BH, USM), Barbour 4473 (MO!)
Depts.: AM, MD, PA, SM

Syagrus sancona Karsten
Syn. *Syagrus tessmannii* Burret
Tree. Amazonian. 0-500 m.
Voucher: Gentry & Smith 45573 (MO!)
Depts.: MD, SM, UC

Syagrus smithii (H. Moore) Glassman
Syn. *Chrysallidosperma smithii* H. Moore
Endemic shrub. Amazonian: forests. 0-500 m.
Voucher: Moore *et al.* 8516* (BH), Huashikat 1039 (MO!)
Depts.: AM

Syagrus tessmannii Burret =Syagrus sancona Karsten
Ref. FP 13(1/2) 1960: 387.

Taenianthera acaulis (C. Martius) Burret =Geonoma acaulis C. Martius
Ref. FP 13(1/2) 1960: 352.

Taenianthera camana (Trail) Burret =Geonoma camana Trail
Ref. FP 13(1/2) 1960: 352.

Taenianthera lagesiana (Dammer) Burret =Geonoma camana Trail
Ref. FP 13(1/2) 1960: 353.

Taenianthera macrostachys (C. Martius) Burret =Geonoma macrostachys C. Martius
Ref. FP 13(1/2) 1960: 353.

Taenianthera oligosticha Burret =Geonoma acaulis C. Martius
Ref. FP 13(1/2) 1960: 354.

Taenianthera tamandua (Trail) Burret =Geonoma tamandua Trail
Ref. FP 13(1/2) 1960: 354.

Taenianthera tapajotensis (Trail) Burret =Geonoma acaulis C. Martius
Ref. FP 13(1/2) 1960: 354.

Taenianthera weberbaueri Burret =Geonoma jussieuana C. Martius
Ref. FP 13(1/2) 1960: 346.

Tessmanniophoenix longibracteata Burret =Chelyocarpus ulei Dammer
Ref. FP 13(1/2) 1960: 332; Moore, 1972: 76.

Welfia georgii H. A. Wendland ex Burret
Tree. Andean II: disturbed areas. 1500-2000 m.
Voucher: Gentry *et al.* 63540 (MO)
Depts.: PA

Wendlandiella gracilis Dammer
Syn. *Wendlandiella polyclada* Burret, *Wendlandiella simplicifrons* Burret
Ref. FP 13(1/2) 1960: 365.
Herb. Amazonian: forests. 0-500 m.
Voucher: Huber 1541*, Gentry & Emmons 38706 (MO!)
Depts.: HU, LO, UC

Wendlandiella polyclada Burret =Wendlandiella gracilis Dammer
Ref. FP 13(1/2) 1960: 366.

Wendlandiella simplicifrons Burret =Wendlandiella gracilis Dammer
Ref. FP 13(1/2) 1960: 366.

Wettinella maynensis (Spruce) Cook & Doyle =Wettinia maynensis Spruce
Ref. FP 13(1/2) 1960: 361.

Wettinia augusta Poeppig & Endlicher
Ref. FP 13(1/2) 1960: 360.
Tree. Amazonian, Andean I-II: forests, disturbed areas. 0-2000 m.
Voucher: Poeppig 2058*, Gentry *et al.* 25521 (F!)
Depts.: AM, CU, HU, MD, LO, PA, SM

Wettinia longipetala A. Gentry
Ref. Gentry, 1986a: 160.
Endemic tree. Andean I: forests, shrublands. 500-1000 m.
Voucher: Gentry *et al.* 42009* (MO, USM), Gentry & Smith 36055 (MO!)
Depts.: PA

Wettinia maynensis Spruce
Syn. *Catoblastus maynensis* (Spruce) Drude, *Wettinella maynensis* (Spruce) Cook & Doyle
Ref. FP 13(1/2) 1960: 361.
Tree. Amazonian, Andean I-II: forests. 0-500 m.
Voucher: Vásquez *et al.* 3077 (MO!)
Depts.: HU, LO, SM

Wettinia weberbaueri Burret
Ref. FP 13(1/2) 1960: 361.
Tree. Andean I. 500-1000 m.
Voucher: Weberbauer s.n.*
Depts.: PU

Yarina microcarpa (R. & P.) Cook =Phytelephas macrocarpa subsp. macrocarpa
Ref. FP 13(1/2) 1960: 326; Barfod, 1991: 58.

Aristolochiaceae

1 genus and 40 species in Peru.

Endemic species: 16.

Prepared by L. Brako; reviewed by Z. Ahumada (CTES), F. González (COL), and K. Barringer (BKL).

Aristolochia acutifolia Duchartre
Ref. González, 1990: 49.
Vine. Amazonian: disturbed areas, forests. 0-500 m.
Voucher: Barbour 5779 (MO!)
Depts.: LO, MD, UC

Aristolochia amazonica Ule =Aristolochia pilosa H.B.K.
Ref. FP 13(2/2) 1937: 433; González, 1990: 114.

Aristolochia andahuaylensis Ahumada
Ref. Ahumada, 1979: 180.
Vine. Andean II. 1500-3000 m.
Voucher: Stork & Horton 10791* (F!), West 3678 (UC)
Depts.: AP, AY

Aristolochia asperifolia Ule
Syn. *Aristolochia sprucei* Hoehne non Masters
Ref. FP 13(2/2) 1937: 434; Hoehne, 1942: 89.
Endemic vine. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Ule 6502* (B photo F!), Woytkowski 35168 (MO!)
Depts.: JU, LO, SM

Aristolochia barbouri Barringer
Ref. Barringer, 1986a: 128.
Endemic liana. Amazonian: disturbed areas. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Barbour 5405* (MO!)
Depts.: MD

Aristolochia bicolor Ule
Ref. FP 13(2/2) 1937: 434.
Endemic vine. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Ule 5953* (B photo F)
Depts.: LO

[Aristolochia burelae Herzog]
Syn. *Aristolochia peltibracteata* Hoehne
Ref. FP 13(2/2) 1937: 435; Ahumada, 1967: 109.
Note: Not known from Peru. The type, *Ule 9342*, is from Acre, Brazil.

Aristolochia cauliflora Ule
Ref. FP 13(2/2) 1937: 435; Hoehne, 1942: 84.
Liana. Amazonian: forests. 0-500 m.
Voucher: Ule 6634* (B photo F!), Klug 4125 (MO!)
Depts.: LO, MD, SM, UC

Aristolochia chachapoyensis Ahumada
Ref. Ahumada, 1979: 177.
Endemic vine. Andean I: rocky slopes. 1000-1500 m.
Voucher: Hutchison & Wright 5447* (US, USM), Sánchez *et al.* 501 (Hb. Ahumada)
Depts.: AM

[Aristolochia colossifolia Hoehne]
Ref. González, 1990: 54; González, 1991b: 485.
Note: Not known from Peru; the specimen cited by González 1990, *Gentry 29333*, has been redetermined as *Aristolochia schunkeana* (González, 1991).

Aristolochia cornuta Masters
Ref. Hoehne, 1942: 120; González, 1990: 137.

Vine. Amazonian: forest. 0-500 m.
Voucher: Davis 826 (F!)
Dept.: LO

Aristolochia costaricensis (Klotzsch) Duchartre =Aristolochia pilosa H.B.K.
Ref. González, 1990: 114.

Aristolochia deltoidea H.B.K.
Syn. *Howardia deltoidea* (H.B.K.) Klotzsch
Ref. FP 13(2/2) 1937: 435.
Vine. Amazonian, Andean I: seasonally inundated forests, shrublands. 0-1000 m.
Voucher: Humboldt 3645* (P-H&B), Hutchison & Wright 3552 (MO!)
Depts.: AM, CA

Aristolochia didyma S. Moore
Ref. FP 13(2/2) 1937: 436.
Vine. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Knapp 7961 (MO!)
Depts.: LO, SM

Aristolochia disticha Masters
Vine. Amazonian: forests. 0-500 m.
Voucher: Gentry & Revilla 16312 (MO!)
Depts.: MD

Aristolochia dodsonii Pfeifer =Aristolochia iquitensis O. Schmidt
Ref. González, 1990: 144.

Aristolochia duchartrei André =Aristolochia ruiziana (Klotzsch) Duchartre
Ref. FP 13(2/2) 1937: 442; González, 1990: 152.

Aristolochia elegans Masters
Ref. FP 13(2/2) 1937: 436; González, 1990: 90.
Liana. Andean I: forests. 1000-1500 m.
Voucher: Seibert 2369 (MO!)
Depts.: CU, JU, LI

Aristolochia floribunda Lemaire
Syn. *Aristolochia juruana* Ule
Ref. FP 13(2/2) 1937: 436.
Liana. Amazonian: forests. 0-500 m.
Voucher: Schunke 6285 (MO!)
Depts.: LO, SM

Aristolochia fosteri Barringer
Ref. Barringer, 1986a: 129.
Endemic liana. Andean II: disturbed areas. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Foster *et al.* 7800* (MO!)
Depts.: PA

Aristolochia fragrantissima Ruiz
Syn. *Howardia fragrantissima* (Ruiz) Klotzsch
Ref. FP 13(2/2) 1937: 436; Hoehne, 1942: 117.
Endemic vine. Amazonian, Andean I: forests, riversides. 0-1000 m.
Voucher: Ruiz s.n.* (MA photo F!), Gentry *et al.* 25515 (MO!)
Depts.: HU

Aristolochia guentheri O. Schmidt
Ref. FP 13(2/2) 1937: 437; González, 1990: 141.
Liana. Amazonian: disturbed areas, forests. 0-500 m.
Voucher: Schunke 392* (F!), Revilla 234 (MO!, USM!)
Depts.: JU, LO

Aristolochia hutchisonii Ahumada =Aristolochia xerophytica R. Schultes
Ref. Ahumada, 1979: 177; González, 1991a: 297

Aristolochia hutchisonii Barringer, nom. illeg. =Aristolochia xerophytica R. Schultes
Ref. Barringer, 1986a: 131; González, 1991a: 297

Aristolochia iquitensis O. Schmidt
Syn. *Aristolochia dodsonii* Pfeifer
Ref. FP 13(2/2) 1937: 437; González, 1990: 144.
Vine. Amazonian: forests on white sand. 0-500 m.
Voucher: Tessmann 5120* (B photo MO!), Gentry *et al.* 25912 (MO!)
Depts.: LO, MD

Aristolochia juruana Ule =Aristolochia floribunda Lemaire
Ref. FP 13(2/2) 1937: 436.

Aristolochia killipiana O. Schmidt
Ref. FP 13(2/2) 1937: 438.
Endemic herb. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Cook & Gilbert 841* (US)
Depts.: CU

Aristolochia klugii O. Schmidt
Ref. FP 13(2/2) 1937: 442; González, 1990: 147.
Vine. Amazonian: forests. 0-500 m.
Voucher: González *et al.* 1788 (AMAZ)
Depts.: LO, SM

Aristolochia lagesiana Ule
Ref. Hoehne, 1942: 83.
Endemic vine. Amazonian: riversides. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Ule 5707* (B photo F!)
Depts.: LO

Aristolochia leuconeura Linden
Syn. *Aristolochia veraguensis* (Klotzsch) Duchartre
Ref. González, 1990: 149.
Liana. Amazonian: forests. 0-500 m.
Voucher: Foster 12905 (F!)
Depts.: LO, MD

Aristolochia lingulata Ule
Ref. FP 13(2/2) 1937: 438; Hoehne, 1942: 70.
Endemic herb. Amazonian: forests. 0-500 m.
Voucher: Ule 6581* (B photo F!), Killip & Smith 28923 (F?)
Depts.: LO, SM

Aristolochia macbrideana Standley =Aristolochia sprucei Masters
Ref. FP 13(2/2) 1937: 438; González, 1990: 65.

Aristolochia maranonensis O. Schmidt
Ref. FP 13(2/2) 1937: 439.
Endemic liana. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Tessmann 4865* (B)
Depts.: LO

Aristolochia martiniana Standley =Aristolochia odoratissima L.
Ref. González, 1990: 109.

Aristolochia mastersiana O. Schmidt
Ref. Schmidt, 1938: 54.
Note: Not reconfirmed.

Aristolochia mathewsii Duchartre
Syn. *Aristolochia reticulata* Seemann
Ref. FP 13(2/2) 1937: 439; Hoehne, 1942: 138.
Endemic vine. Amazonian: forests. 0-500 m.
Voucher: Mathews s.n.*, Gentry *et al.* 61995 (MO!)
Depts.: JU, LO, SM, UC

Aristolochia mishuyacensis O. Schmidt
Syn. *Aristolochia williamsii* O. Schmidt
Ref. FP 13(2/2) 1937: 439; González, 1990: 101.
Vine. Amazonian: disturbed areas, seasonally inundated forests. 0-500 m.
Voucher: Williams 4314* (F!), Vásquez & Grández 2656 (MO!)
Depts.: LO

Aristolochia odoratissima L.
Syn. *Aristolochia martiniana* Standley, *Aristolochia pandurata* Jacquin, *Aristolochia rimbachii* O. Schmidt
Ref. González, 1990: 106.
Vine. Amazonian, Andean I: riversides. 0-1000 m.
Voucher: Gentry *et al.* 37649 (MO!)
Depts.: MD, SM

Aristolochia pandurata Jacquin =Aristolochia odoratissima L.
Ref. González, 1990: 108.

Aristolochia pannosa Masters =Aristolochia pilosa H.B.K.
Ref. González, 1990: 113.

[*Aristolochia peltibracteata* Hoehne =Aristolochia burelae Herzog]
Ref. Ahumada, 1967: 109.
Note: Not known from Peru.

Aristolochia peruviana O. Schmidt
Ref. FP 13(2/2) 1937: 440.
Endemic vine. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Tessmann 3459* (B photo F!)
Depts.: LO

Aristolochia physodes Ule
Ref. FP 13(2/2) 1937: 441.
Endemic vine. Amazonian, Andean I: rocky slopes. 0-1000 m.
Voucher: Ule 6582* (B photo F!)
Depts.: JU, LO, SM

Aristolochia pilgeriana O. Schmidt =Aristolochia ruiziana (Klotzsch) Duchartre
Ref. FP 13(2/2) 1937: 441; González, 1990: 152.

Aristolochia pilosa H.B.K.
Syn. *Aristolochia amazonica* Ule, *Aristolochia costaricensis* (Klotzsch) Duchartre, *Aristolochia pannosa* Masters
Ref. FP 13(2/2) 1937: 441; González, 1990: 113.
Vine. Amazonian: disturbed areas, riversides. 0-500 m.
Voucher: Schunke 6681 (MO!)
Depts.: LO, MD, PA, SM

Aristolochia pucarensis Ahumada =Aristolochia xerophytica R. Schultes
Ref. Ahumada, 1979: 175; González, 1991a: 297.

Aristolochia putumayensis O. Schmidt
Ref. FP 13(2/2) 1937: 441; Hoehne, 1942: 82.
Endemic vine. Amazonian. 0-500 m.
Voucher: Klug 2032* (F), Mathias & Taylor 5502 (USM!)
Depts.: LO

Aristolochia reticulata Seemann =Aristolochia mathewsii Duchartre
Ref. FP 13(2/2) 1937: 439.

Aristolochia rimbachii O. Schmidt =Aristolochia odoratissima L.
Ref. FP 13(2/2) 1937: 442; González, 1990: 109.

Aristolochia ringens M. Vahl
Ref. Hoehne, 1942: 65.
Vine. Amazonian. 0-500 m.
Voucher: Killip & Smith 27163 (US)
Depts.: LO

Aristolochia ruiziana (Klotzsch) Duchartre
Syn. *Aristolochia duchartrei* André, *Aristolochia pilgeriana* O. Schmidt
Ref. FP 13(2/2) 1937: 442; González, 1990: 152.
Liana. Amazonian: forests. 0-500 m.
Voucher: Ruiz 361* (B photo F!), Gentry & Revilla 20423 (USM!)
Depts.: AM, HU, LO, MD, SM

Aristolochia schmidtiana Hoehne =Aristolochia tonduzii O. Schmidt
Ref. González, 1990: 71.

Aristolochia schunkeana F. González
Ref. González, 1991b: 485.
Liana. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Schunke 2076* (F); Gentry *et al.* 29333 (MO!)
Depts.: HU, LO

Aristolochia silvatica Barbosa Rodrigues
Ref. González, 1990: 64.
Liana. Amazonian: forests on white sand. 0-500 m.
Voucher: Gentry *et al.* 39496 (MO!)
Depts.: LO

Aristolochia sprucei Hoehne non Masters =Aristolochia asperifolia Ule
Ref. Hoehne, 1942: 90

Aristolochia sprucei Masters
Syn. *Aristolochia macbrideana* Standley
Ref. González, 1990: 65.
Vine. Amazonian: forests. 0-500 m.
Voucher: Klug 4079 (MO!)
Depts.: MD, SM

Aristolochia tarapotina Ule =Aristolochia truncata Fielding & Gardner
Ref. FP 13(2/2) 1937: 443; Hoehne, 1942: 95.

Aristolochia tonduzii O. Schmidt
Syn. *Aristolochia schmidtiana* Hoehne
Ref. González, 1990: 71.
Liana. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Klug 4336 (MO!)
Depts.: SM

Aristolochia truncata Fielding & Gardner
Syn. *Aristolochia tarapotina* Ule, *Howardia truncata* (Fielding & Gardner) Klotzsch
Ref. FP 13(2/2) 1937: 443; Hoehne, 1942: 95.
Vine. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Ule 6501* (B photo F!), Mathews 1308 (W photo MO!)
Depts.: CU, LO, SM

Aristolochia veraguensis (Klotzsch) Duchartre =Aristolochia leuconeura Linden
Ref. González, 1990: 149.

Aristolochia weberbaueri O. Schmidt
Ref. FP 13(2/2) 1937: 443.
Endemic vine. Andean II: grasslands. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6444* (B, MOL!)
Depts.: HV

Aristolochia williamsii O. Schmidt =Aristolochia mishuyacensis O. Schmidt
Ref. FP 13(2/2) 1937: 439; González, 1990: 101.

Aristolochia xerophytica R. Schultes
Syn: *Aristolochia hutchisonii* Ahumada, *Aristolochia hutchisonii* Barringer, nom. illeg., *Aristolochia pucarensis* Ahumada
Ref. González, 1991a: 297
Endemic vine. Andean I, Coastal: disturbed areas. 500-1000 m.
Voucher: Evinger 540* (US); Hutchison & Wright 3508 (MO!)
Depts.: CA, LL

Howardia deltoidea (H.B.K.) Klotzsch =Aristolochia deltoidea H.B.K.
Ref. FP 13(2/2) 1937: 435.

Howardia fragrantissima (Ruiz) Klotzsch =Aristolochia fragrantissima Ruiz
Ref. FP 13(2/2) 1937: 436.

Howardia truncata (Fielding & Gardner) Klotzsch =Aristolochia truncata Fielding & Gardner
Ref. FP 13(2/2) 1937: 443.

Asclepiadaceae

27 genera and 106 species in Peru.

Endemic species: 44.

Not treated in the Flora of Peru. Ongoing research on this family for Peru will surely add many new species and country records.

Prepared by A. Pool (MO); reviewed by D. Goyder (K) and W. D. Stevens (MO).

Aphanostelma parviflorum (Malme) Malme =Mitostigma parviflorum Malme
Ref. Malme, 1932: 11.
Note: *Aphanostelma* Malme has been widely used; it is a later homonym of *Aphanostelma* Schlechter and a superfluous name for *Melinia* Decaisne.

Araujia sericifera Brotero
Ref. Meyer, 1944: 189; Forster & Bruyns, 1992: 748.
Note: Not reconfirmed. This is reported in type publications as from Peru, "in Regio Horto Olisiponensi;" otherwise it is not known or expected in Peru. Originally published as *Araujia sericofera*.

Asclepias alba Cavanilles, nom. illeg.
Note: Described from Peru and of uncertain status; not an *Asclepias* or *Sarcostemma*, perhaps an *Oxypetalum*. Type not designated.

Asclepias altissima Jacquin =Marsdenia altissima (Jacquin) Dugand
Ref. Morillo, 1978: 36.

Asclepias clausa Jacquin =Sarcostemma clausum (Jacquin) Schultes
Ref. Holm, 1950: 511.

Asclepias curassavica L.
Ref. Spellman, 1975: 110.
Herb or subshrub. Amazonian, Andean I-II, Coastal: beach, disturbed areas, grasslands, riversides, seasonally inundated areas. 0-2500 m.
Voucher: Smith *et al.* 6333 (MO!)
Depts.: AM, AN, AR, CU, HU, JU, LA, LI, LL, LO, PA, SM, TU, UC

Asclepias fruticosus L.
Syn. *Gomphocarpus fruticosus* (L.) Aiton
Ref. Goyder, pers. comm.
Introduced herb or subshrub.
Voucher: Weberbauer 7454 (K!)
Depts.: MO

Asclepias macrophylla Humboldt & Bonpland ex Schultes =Marsdenia macrophylla (Humboldt & Bonpland ex Schultes) Fournier
Ref. Morillo, 1978: 47.

Asclepias physocarpa (E. Meyer) Schlechter
Syn. *Gomphocarpus physocarpus* E. Meyer
Cultivated and introduced herb, shrub or subshrub. Andean I-II, Coastal: disturbed areas. 0-3500 m.
Voucher: Núñez & Walsh 6335 (MO!)
Depts.: CU, LI

Astephanus peruvianus Fournier
Endemic vine.
Note: Known from Peru only from the type locality.
Voucher: Ruiz & Pavón s.n.* (LE)
Depts.: Without full locality data.

Astephanus sprucei (Fournier) Fontella
Syn. *Hemipogon sprucei* Fournier
Ref. Fontella, 1987: 380; Goyder, pers. comm.
Herb. Andean I. 1000-1500 m.
Voucher: Spruce 4391 (K!)
Depts.: SM

Blepharodon nitidum (Vell. Conc.) J. F. Macbride
Syn. *Cynanchum nitidum* Vell. Conc.
Ref. Morillo, 1976: 116.
Vine. Amazonian: disturbed areas, forests. 0-500 m.
Voucher: Schunke 8278 (MO!)
Depts.: MD, SM

Blepharodon peruvianum Schlechter =Vailia mucronata Rusby
Ref. Morillo, 1976: 153.

Blepharodon salicinum Decaisne
Syn. *Blepharodon trivialis* (Poeppig) K. Schumann, nom. illeg., *Ditassa trivialis* Poeppig, nom. illeg.
Endemic vine.
Note: Known from Peru only from the type locality. Decaisne reported the type, *Poeppig 1420*, as from "Brasil?" However, Poeppig, in describing *Ditassa trivialis*, indicated that his collection *1420* was from Peru.
Voucher: Poeppig 1420* (B photo F!)
Depts.: HU

Blepharodon trivialis (Poeppig) K. Schumann, nom. illeg. =Blepharodon salicinum Decaisne
Ref. Morillo, 1976: 153.

Calostigma peruvianum Markgraf
Ref. Markgraf, 1933: 788.
Endemic vine.
Note: Known from Peru only from the type locality.
Voucher: Ruiz & Pavón s.n.* (MA photo F!)
Depts.: Without full locality data.

Cryptostegia grandiflora R. Brown
Cultivated and introduced shrub. Andean I: disturbed areas. 1000-1500 m.
Voucher: Sánchez 4183 (MO!)
Depts.: CA

Cynanchum blandum (Decaisne) E. Sundell
Syn. *Roulinia blanda* Decaisne
Ref. Sundell, 1981: 21.
Vine. Amazonian: disturbed areas, forests, riversides, seasonally inundated areas, swamps. 0-500 m.
Voucher: Foster 12074 (MO!)
Depts.: AM, LO, MD, SM

Cynanchum decaisneanum R. Holm =Ditassa lanceolata Decaisne
Ref. Holm & Woodson, 1953: 506.

Cynanchum denticulatum M. Vahl =Gonolobus denticulatus (M. Vahl) W. D. Stevens
Ref. Stevens, 1988: 334.

Cynanchum ecuadorense Schlechter =Cynanchum formosum N. E. Brown
Ref. Diels, 1937: 126.

Cynanchum eurystephanum Malme =Cynanchum formosum N. E. Brown
Ref. Malme, 1932: 7.

Cynanchum formosum N. E. Brown
Syn. *Cynanchum ecuadorense* Schlechter, *Cynanchum eurystephanum* Malme
Ref. Diels, 1937: 126.
Vine. Andean II: disturbed areas, riversides, shrublands. 1500-3000 m.
Note: Syntypes are from both Peru and Ecuador.
Voucher: Maclean s.n.* (K), Stevens 22100 (MO!)
Depts.: AN, AR, CA, HU, LA, LI, LL

Cynanchum guianense (Decaisne) R. Holm =Tassadia guianensis Decaisne
Ref. Fontella, 1977: 281.

Cynanchum hickenii Malme
Ref. Malme, 1932: 5.
Endemic herb. Andean II. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Hicken 71* (S)
Depts.: CU

Cynanchum longirostrum (K. Schumann) W. D. Stevens
Syn. *Diplolepis longirostrum* K. Schumann
Ref. Stevens, 1988: 333.
Vine. Andean II: shrublands. 2500-3000 m.
Voucher: Stein & Todzia 2255 (MO!)
Depts.: HU

Cynanchum montevidense Sprengel
Syn. *Roulinia cordata* (Vell. Conc.) J. F. Macbride
Ref. Sundell, 1981: 27.
Vine. Amazonian: forests, riversides. 0-500 m.
Voucher: Schunke 1851 (MO!)
Depts.: CU, HU, LO

Cynanchum nitidum Vell. Conc. =Blepharodon nitidum (Vell. Conc.) J. F. Macbride
Ref. Morillo, 1976: 116.

Cynanchum pichinchense K. Schumann
Vine. Andean III: forests, shrublands. 3500-4000 m.
Voucher: Smith & Goodwin 8843 (MO!)
Depts.: AN

Cynanchum stellatum Vell. Conc. =Fischeria stellata (Vell. Conc.) Fournier
Ref. Murphy, 1986: 238.

Cynanchum stenolobum (Decaisne) Morillo =Metastelma stenolobum Decaisne
Ref. Morillo, 1981: 19.

Cynanchum tarmense Schlechter
Ref. Schlechter, 1906: 621.
Vine. Andean II-III: disturbed areas, shrublands, rocky slopes. 2000-4000 m.
Voucher: Weberbauer 1740* (G photo F!), Smith 9028 (MO!)
Depts.: AN, AP, CA, CU, HU, JU, LL, PA

Cynanchum tiaratum Malme
Ref. Malme, 1932: 7.
Endemic vine. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6875* (MO!)
Depts.: AR

Cynanchum unguiculatum Markgraf
Ref. Markgraf, 1933: 788.
Endemic vine.
Note: Known from Peru only from the type locality.
Voucher: Ruiz & Pavón s.n.*

Cynanchum wurdackii Morillo
Ref. Morillo, 1992: 11.
Vine. Andean II. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 1768* (US, USM)
Depts.: AM

Diplolepis longirostrum K. Schumann =Cynanchum longirostrum (K. Schumann) W. D. Stevens
Ref. Stevens, 1988: 333.

Ditassa adnata Fournier =Macroditassa adnata (Fournier) Malme
Ref. Malme, 1927: 10.

Ditassa albiflora Schlechter
Ref. Schlechter, 1906: 611.
Endemic vine. Andean II. 1500-2000 m.
Note: Known from Peru only from the type locality.

Voucher: Weberbauer 2024* (B photo F!)
Depts.: JU

Ditassa aristata Bentham ex Fournier =Tassadia aristata (Bentham ex Fournier) Fontella
Ref. Fontella, 1977: 335.

Ditassa crassa Schlechter
Ref. Schlechter, 1906: 611.
Endemic vine. Andean I-II: forests. 1000-2000 m.
Voucher: Weberbauer 3486* (B photo F!), Klug 3557 (MO!)
Depts.: HU, SM

Ditassa endoleuca Schlechter
Ref. Schlechter, 1906: 612.
Vine. Andean II: disturbed areas. 2000-2500 m.
Voucher: Dillon & Turner 1355 (MO!)
Depts.: JU

Ditassa gracilipes Schlechter
Ref. Schlechter, 1906: 612.
Endemic vine. Andean I. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 4543* (B photo F!)
Depts.: SM

Ditassa lanceolata Decaisne
Syn. *Cynanchum decaisneanum* R. Holm
Ref. Holm & Woodson, 1953: 506.
Note: Syntypes from both Brazil and Peru.
Voucher: Mathews 2064* (K)
Depts.: Without full locality data.

Ditassa peruviana Morillo
Ref. Morillo, 1989: 11.
Endemic subshrub. Andean I-II: forests. 1000-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Klug 3405* (MO!)
Depts.: SM

[*Ditassa subtrivialis* Grisebach, nom. nud.]
Ref. Lechler, 1857: 58.
Note: Lechler reported the "type," *Lechler 2079*, from Peru. The actual taxon to which this refers is unknown.

Ditassa trivialis Poeppig, nom. illeg. =Blepharodon salicinum Decaisne
Ref. Morillo, 1976: 153.

Ditassa violascens Schlechter
Syn. *Macroditassa violascens* (Schlechter) Malme
Ref. Malme, 1936: 6.
Endemic vine. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 5007* (B)
Depts.: CU

Ditassa weberbaueri Schlechter
Ref. Schlechter, 1906: 613.
Endemic vine. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 4276* (B)
Depts.: AM

Exolobus selloanus Fournier =Gonolobus selloanus (Fournier) N. M. Bacigalupo
Ref. Meyer & Bacigalupo, 1979: 144.

Fimbristemma brasiliensis Schlechter =Matelea brasiliensis (Schlechter) Spellman
Ref. Spellman, 1975: 145.

Fischeria calycina Decaisne =Fischeria stellata (Vell. Conc.) Fournier
Ref. Murphy, 1986: 238.

Fischeria macrocarpa Poeppig =Matelea macrocarpa (Poeppig) Morillo
Ref. Morillo, 1984: 37.

Fischeria peruviana Decaisne =Fischeria stellata (Vell. Conc.) Fournier
Ref. Murphy, 1986: 238, 241.
Note: Placed here tentatively. Murphy (1986) listed this taxon as a synonym of *F. stellata* and as an excluded species.

Fischeria stellata (Vell. Conc.) Fournier
Syn. *Cynanchum stellatum* Vell. Conc., *Fischeria calycina* Decaisne, *Fischeria peruviana* Decaisne
Ref. Murphy, 1986: 238.
Vine. Amazonian, Andean I: disturbed areas, forests, riversides. 0-1500 m.
Voucher: Vásquez *et al.* 6971 (MO!)
Depts.: CU, HU, LO, MD, PA, SM, UC

Funastrum clausum (Jacquin) Schlechter =Sarcostemma clausum (Jacquin) Schultes
Ref. Holm, 1950: 511.

Funastrum dombeyanum (Decaisne) Schlechter =Sarcostemma clausum (Jacquin) Schultes
Ref. Holm, 1950: 512.

Glaziostelma ovalifolium Fournier =Tassadia ovalifolia (Fournier) Fontella
Ref. Fontella, 1977: 329.

Gomphocarpus fruticosus (L.) Aiton =Asclepias fruticosus L.
Ref. Goyder, pers. comm.

Gomphocarpus physocarpus E. Meyer =Asclepias physocarpa (E. Meyer) Schlechter

Gonolobus cundurango Triana
Note: Not reconfirmed. Type is not designated; however it is reported in original description as from Peru and Ecuador.

Gonolobus dasytricha Schlechter =Matelea dasytricha (Schlechter) Fontella
Ref. Fontella, 1984: 55.

Gonolobus denticulatus (M. Vahl) W. D. Stevens
Syn. *Cynanchum denticulatum* M. Vahl, *Matelea denticulata* (M. Vahl) Fontella & Schwarz, *Matelea viridiflora* (G. Meyer) Woodson
Ref. Stevens, 1988: 334.
Vine. Amazonian: disturbed areas. 0-500 m.
Voucher: Kayap 162 (MO!)
Depts.: AM

Gonolobus glandulosus Poeppig ex Decaisne =Matelea glandulosa (Poeppig ex Decaisne) Morillo
Ref. Morillo, 1984: 35.

Gonolobus marginatus Schlechter
Ref. Schlechter, 1906: 626.
Endemic vine. Andean I. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 4635* (B)
Depts.: SM

Gonolobus melinii Malme =Matelea melinii (Malme) Morillo
Ref. Morillo, 1986: 244.

Gonolobus parviflorus Decaisne
Note: Known from Peru only from the type locality.
Voucher: Mathews s.n.* (K)
Depts.: AM

Gonolobus patens Decaisne
Ref. Meyer, 1944: 228.
Vine. Andean I-II: shrublands. 1000-2500 m.
Voucher: Woytkowski 5703 (MO!)
Depts.: CA, JU

Gonolobus pedicellatus Malme =Matelea pedicellata (Malme) Morillo
Ref. Morillo, 1983: 10.

Gonolobus peruanus Schlechter
Ref. Schlechter, 1906: 627.
Endemic vine. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 3191* (B photo F!)
Depts.: AN

[*Gonolobus pteroicarpus* K. Schumann, nom. nud.]
Ref. Ule, 1908: 411.
Note: Frequently referred to as *G. pterocarpus* Schlechter due to photographs of *Ule 6474* (B) being circulated as such.

Gonolobus purpureus Morillo
Ref. Morillo, 1990b: 354.
Endemic herb or shrub. Andean I. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Schunke 7656* (MO)
Depts.: SM

Gonolobus sagasteguii Morillo
Ref. Morillo, 1988: 17.
Endemic vine. Andean II: rocky slopes. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Sagástegui *et al.* 9413* (MO!)
Depts.: CA

Gonolobus selloanus (Fournier) N. M. Bacigalupo
Syn. *Exolobus selloanus* Fournier
Ref. Meyer & Bacigalupo, 1979: 144.
Vine. Andean I: forests, riversides. 500-1500 m.
Voucher: Schunke 4547 (MO!)
Depts.: SM

Gothofreda albiflora (Decaisne) Kuntze =Oxypetalum albiflorum Decaisne

Gothofreda cordifolia Ventenat =Oxypetalum cordifolium (Ventenat) Schlechter
Ref. Spellman, 1975: 115.

Gothofreda dombeyana (Decaisne) Kuntze =Oxypetalum dombeyanum Decaisne

Hemipogon peruvianus Fournier
Herb.
Note: Known from Peru only from the type locality.
Voucher: Haenke s.n.* (M photo F!)
Depts.: Without full locality data.

Hemipogon sprucei Fournier =Astephanus sprucei (Fournier) Fontella
Ref. Fontella, 1987: 380.

Lachnostoma longifolium Markgraf =Matelea longifolia (Markgraf) Morillo
Ref. Morillo, 1984: 36.

Lorostelma struthianthus Fournier =Stenomeria decalepis Turczaninow
Ref. Morillo, 1990a: 84.

Lugonia andina Ball =Sarcostemma andinum (Ball) R. Holm
Ref. Holm, 1950: 549.

Lugonia lysimachioides Weddell =Sarcostemma lysimachioides (Weddell) R. Holm
Ref. Holm, 1950: 547.

Macroditassa adnata (Fournier) Malme
Syn. *Ditassa adnata* Fournier
Ref. Malme, 1927: 10.
Vine. Shrublands.
Voucher: Woytkowski 7434 (MO!)
Depts.: JU

Macroditassa violascens (Schlechter) Malme =Ditassa violascens Schlechter
Ref. Malme, 1936: 6.

Macroscepis aurea Fournier
Ref. Meyer, 1944: 216.
Vine. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Klug 4195 (MO!)
Depts.: LO, SM

Macroscepis retusa Markgraf
Ref. Markgraf, 1933: 787.
Vine. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Ruiz & Pavón s.n.* (B destroyed)
Depts.: HU

Marsdenia altissima (Jacquin) Dugand
Syn. *Asclepias altissima* Jacquin
Ref. Morillo, 1978: 36.
Liana or vine.
Voucher: Ruiz & Pavón s.n. (MO!)
Depts.: Without full locality data.

Marsdenia asplundii Morillo & D. L. Spellman
Ref. Morillo, 1978: 38.
Liana or vine. Andean I: disturbed areas, forests. 500-1000 m.
Voucher: Woytkowski 7411 (MO!)
Depts.: JU, SM

Marsdenia cundurango Reichenbach f.
Syn. *Marsdenia reichenbachii* Triana, nom. illeg., *Pseudomarsdenia cundurango* (Reichenbach f.) Schlechter
Ref. Morillo, 1978: 44.
Shrub or vine. Amazonian, Andean I-II: disturbed areas, forests. 0-3000 m.
Voucher: Rozl s.n.* (W), Díaz 3163 (MO!)
Depts.: AM, CA, LA, MD, PI

Marsdenia ecuadorensis Morillo & D. L. Spellman
Ref. Morillo, 1978: 45.
Vine.
Voucher: Ruiz & Pavón s.n. (MA)
Depts.: Without full locality data.

Marsdenia lauretiana Woodson
Ref. Morillo, 1978: 46.
Vine. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Klug 477* (US)
Depts.: LO

Marsdenia macrophylla (Humboldt & Bonpland ex Schultes) Fournier
Syn. *Asclepias macrophylla* Humboldt & Bonpland ex Schultes, *Marsdenia maculata* Hooker f.
Ref. Morillo, 1978: 47.
Liana or vine. Amazonian, Andean I-II: disturbed areas, forests. 0-3000 m.
Voucher: Woytkowski 5594 (MO!)
Depts.: CA, SM

Marsdenia maculata Hooker f. =Marsdenia macrophylla (Humboldt & Bonpland ex Schultes) Fournier
Ref. Morillo, 1978: 47.

Marsdenia oligantha K. Schumann
Ref. Rothe, 1915: 413.
Endemic liana or vine.
Note: Known from Peru only from the type locality.
Voucher: Ule 6603* (HBG)
Depts.: SM

Marsdenia reichenbachii Triana, nom. illeg. =Marsdenia cundurango Reichenbach f.
Ref. Morillo, 1978: 44.

Marsdenia rubrofusca Fournier
Syn. *Stephanotella killipii* R. E. Woodson
Ref. Morillo, 1978: 50.
Liana or vine. Amazonian: disturbed areas, forests, riversides, seasonally inundated areas. 0-500 m.
Voucher: Gentry & Revilla 16685 (MO!)
Depts.: LO, UC

Marsdenia weberbaueri Schlechter & Rothe
Ref. Rothe, 1915: 431.
Endemic vine. Andean I: forests. 500-1000 m.
Voucher: Weberbauer 1911* (B frag. F), Spruce 4525 (K)
Depts.: JU, SM

Matelea aliciae Morillo
Ref. Morillo, 1986: 238.
Endemic vine. Amazonian, Andean I, Coastal: desert, disturbed areas, rocky slopes. 0-1000 m.
Voucher: Lourteig & Miranda 2996* (P), Stevens 21992 (MO!)
Depts.: CA, LA, LL

Matelea brasiliensis (Schlechter) Spellman
Syn. *Fimbristemma brasiliensis* Schlechter
Ref. Spellman, 1975: 145.
Vine. Amazonian, Andean I: disturbed areas. 0-1000 m.
Voucher: Woytkowski 6119 (MO!, US!)
Depts.: SM

Matelea camiloana Morillo
Ref. Morillo, 1988: 20.
Endemic vine. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Williams 4392* (F)
Depts.: LO

Matelea dasytricha (Schlechter) Fontella
Syn. *Gonolobus dasytricha* Schlechter
Ref. Fontella, 1984: 55; Goyder, pers. comm.
Vine. Andean I. 500-1500 m.
Voucher: Klug 3190 (K!)
Depts.: LO

Matelea denticulata (M. Vahl) Fontella & Schwarz =Gonolobus denticulatus (M. Vahl) W. D. Stevens
Ref. Stevens, 1988: 334.

Matelea glandulosa (Poeppig ex Decaisne) Morillo
Syn. *Gonolobus glandulosus* Poeppig ex Decaisne
Ref. Morillo, 1984: 35.
Endemic vine.
Note: Known from Peru only from the type locality.
Voucher: Poeppig 1418* (W photo F!)
Depts.: HU

Matelea klugii Morillo
Ref. Morillo, 1990b: 356.
Endemic vine. Amazonian, Andean I: forests. 0-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Klug 4342* (MO!)
Depts.: SM

Matelea longifolia (Markgraf) Morillo
Syn. *Lachnostoma longifolium* Markgraf
Ref. Morillo, 1984: 36.
Endemic vine.
Note: Known from Peru only from the type locality.
Voucher: Ruiz & Pavón s.n.* (MA photo F!)
Depts.: HU

Matelea macrocarpa (Poeppig) Morillo
Syn. *Fischeria macrocarpa* Poeppig
Ref. Morillo, 1984: 37.
Vine.
Note: Known from Peru only from the type locality.
Voucher: Poeppig s.n.* (W photo F!)
Depts.: Without full locality data.

Matelea marginata Morillo
Ref. Morillo, 1985: 6.
Endemic vine. Andean I. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Hutchison & Bismarck 6332* (MO!)
Depts.: CA

Matelea melinii (Malme) Morillo
Syn. *Gonolobus melinii* Malme
Ref. Morillo, 1986: 244.
Endemic vine. Andean I. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Melin 80* (S)
Depts.: SM

Matelea pedicellata (Malme) Morillo
Syn. *Gonolobus pedicellatus* Malme
Ref. Morillo, 1983: 10.
Endemic vine. Andean I. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6959* (MO!)
Depts.: CU

Matelea peruviana Morillo
Ref. Morillo, 1980: 76.
Endemic vine. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Schunke 1356* (MO!)
Depts.: HU

Matelea rivularis Woodson
Ref. Woodson, 1960: 80.
Herb. Amazonian, Andean I: forests, riversides. 0-1500 m.
Voucher: Klug 4036 (MO!)
Depts.: HU, LO, MD, PA, SM

Matelea ruiz-pavonii Morillo
Ref. Morillo, 1990b: 357.
Endemic vine.
Note: Known from Peru only from the type locality.
Voucher: Ruiz & Pavón 5/94* (MO!)
Depts.: JU

Matelea schunkei Morillo
Ref. Morillo, 1990b: 358.
Endemic vine. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Schunke 3206* (F)
Depts.: SM

Matelea subsessilifolia Morillo
Ref. Morillo, 1985: 8.
Endemic vine. Amazonian: disturbed areas. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Schunke 9830* (MO!)
Depts.: SM

Matelea vargasii Morillo
Ref. Morillo, 1988: 28.
Endemic vine. Andean II: shrublands. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Vargas 4182* (MO!)
Depts.: CU

Matelea viridiflora (G. Meyer) Woodson
=Gonolobus denticulatus (M. Vahl) W. D. Stevens
Ref. Stevens, 1988: 334.

Matelea weberbaueri Morillo
Ref. Morillo, 1990b: 359.
Endemic vine. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 7635* (F)
Depts.: TU

Matelea woytkowskii Morillo
Ref. Morillo, 1988: 29.
Endemic vine. Andean I: forests, disturbed areas. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Woytkowski 5694* (GH)
Depts.: CA

Melinia peruviana Schlechter
Ref. Malme, 1932: 12.
Endemic vine. Andean II-III. 3000-4500 m.
Voucher: Weberbauer 5514* (B photo F!), Tupayachi 103A (MO!)
Depts.: AY, CU

Metalepis albiflora Urban
Ref. Morillo, 1991: 53; Urban, 1919: 37.
Liana or vine. Amazonian, Andean I: disturbed areas, forests. 0-1500 m.
Voucher: Schunke 6534 (MO!)
Depts.: AM, CU, HU, LO, SM, UC

Metastelma calycinum Schlechter
Ref. Schlechter, 1916: 1.
Endemic vine. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6227* (B)
Depts.: CA

Metastelma fiebrigii Schlechter
Ref. Schlechter, 1906: 609; Goyder, pers. comm.
Vine. Andean II. 2000-2500 m.
Voucher: Stork *et al.* 10559 (K!)
Depts.: AP

Metastelma peruvianum Schlechter
Ref. Schlechter, 1906: 609.
Endemic vine. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 2041* (B)
Depts.: JU

Metastelma rariflorum Schlechter
Ref. Schlechter, 1906: 610.
Endemic vine. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 845* (B)
Depts.: PU

Metastelma stenolobum Decaisne
Syn. *Cynanchum stenolobum* (Decaisne) Morillo
Ref. Morillo, 1981: 19; Goyder, pers. comm.
Vine.
Voucher: Ule 9526 (K!)
Depts.: Without full locality data.

Mitostigma parviflorum Malme
Syn. *Aphanostelma parviflorum* (Malme) Malme
Ref. Malme, 1932: 11.
Vine. Andean II. 2500-3000 m.
Voucher: Núñez 7299 (MO!)
Depts.: AP, CU

Orthosia tarmensis Schlechter
Ref. Schlechter, 1906: 620.
Endemic vine. Andean II. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 2360* (B)
Depts.: JU

Orthosia thymifolia Schlechter
Ref. Schlechter, 1916: 2.
Endemic vine. Andean II. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6277* (B)
Depts.: PI

Oxypetalum albiflorum Decaisne
Syn. *Gothofreda albiflora* (Decaisne) Kuntze
Endemic vine.
Note: Known from Peru only from the type locality.
Voucher: D'Orbigny 1065* (P)
Depts.: Without full locality data.

Oxypetalum berterianum Sprengel
=Tassadia berteriana (Sprengel) W. D. Stevens
Ref. Stevens, 1988: 335.

Oxypetalum cordifolium (Ventenat) Schlechter
Syn. *Gothofreda cordifolia* Ventenat
Ref. Spellman, 1975: 115.
Vine. Andean I. 500-1000 m.
Voucher: Woytkowski 7166 (MO!)
Depts.: SM

Oxypetalum dombeyanum Decaisne
Syn. *Gothofreda dombeyana* (Decaisne) Kuntze
Vine. Andean I-II: disturbed areas, forests. 500-2000 m.
Voucher: Dombey s.n.* (P), Woytkowski 8060 (MO!)
Depts.: AM, AY, CU, HU, JU

Oxypetalum weberbaueri Schlechter
Ref. Schlechter, 1906: 622.
Endemic vine. Andean II. 1500-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 666* (B), Weberbauer 2009* (B)
Depts.: JU

Oxystelma solanoides (H.B.K.) K. Schumann =Sarcostemma solanoides (H.B.K.) Decaisne
Ref. Holm, 1950: 545.

Pentacyphus boliviensis Schlechter =Sarcostemma andinum (Ball) R. Holm
Ref. Holm, 1950: 549.

Pentagonium flavum (Meyen) Schauer =Sarcostemma solanoides (H.B.K.) Decaisne
Ref. Holm, 1950: 544.

Philibertia campanulata (Lindley) Nicholson =Sarcostemma campanulatum Lindley
Ref. Holm, 1950: 539.

Philibertia flava Meyen =Sarcostemma solanoides (H.B.K.) Decaisne
Ref. Holm, 1950: 544.

Philibertia hastata (Decaisne) Schlechter =Sarcostemma solanoides (H.B.K.) Decaisne
Ref. Schlechter, 1914: 282.

Philibertia obtusiuscula Malme =Sarcostemma solanoides (H.B.K.) Decaisne
Ref. Holm, 1950: 545.

Philibertia quadriflora (Decaisne) Schlechter =Sarcostemma solanoides (H.B.K.) Decaisne
Ref. Holm, 1950: 545.

Philibertia solanoides H.B.K. =Sarcostemma solanoides (H.B.K.) Decaisne
Ref. Holm, 1950: 544.

Philibertia variifolia (Decaisne) Schlechter =Sarcostemma solanoides (H.B.K.) Decaisne
Ref. Holm, 1950: 545.

Philibertia weberbaueri Schlechter =Sarcostemma solanoides (H.B.K.) Decaisne
Ref. Holm, 1950: 545.

Pseudomarsdenia cundurango (Reichenbach f.) Schlechter =Marsdenia cundurango Reichenbach f.
Ref. Morillo, 1978: 44.

Roulinia blanda Decaisne =Cynanchum blandum (Decaisne) E. Sundell
Ref. Sundell, 1981: 21.

Roulinia cordata (Vell. Conc.) J. F. Macbride =Cynanchum montevidense Sprengel
Ref. Sundell, 1981: 27.

Sarcostemma andinum (Ball) R. Holm
Syn. *Lugonia andina* Ball, *Pentacyphus boliviensis* Schlechter
Ref. Holm, 1950: 549.
Vine. Andean II-III: disturbed areas, forests, rocky slopes, shrublands. 1500- > 4500 m.
Voucher: Ball s.n.* (B photo F!), Cerrate 907 (MO!, USM)
Depts.: AR, HV, LI, MO

Sarcostemma campanulatum Lindley
Syn. *Philibertia campanulata* (Lindley) Nicholson
Ref. Holm, 1950: 539.
Vine. Andean II: disturbed areas, forests, shrublands. 1500-3500 m.
Voucher: Dillon *et al.* 2736 (MO!)
Depts.: AP, CU, HU, HV, LL

Sarcostemma clausum (Jacquin) Schultes
Syn. *Asclepias clausa* Jacquin, *Funastrum clausum* (Jacquin) Schlechter, *Funastrum dombeyanum* (Decaisne) Schlechter, *Sarcostemma dombeyanum* Decaisne, *Sarcostemma dombeyanum* var. *linearifolia* Decaisne
Ref. Holm, 1950: 511.
Vine. Amazonian, Andean I-II: disturbed areas, desert, forests, riversides, seasonally inundated areas. 0-2000 m.
Voucher: Grández *et al.* 326 (MO!)
Depts.: AN, AP, CA, IC, LA, LI, LL, MD, PI, TU, UC

Sarcostemma dombeyanum Decaisne =Sarcostemma clausum (Jacquin) Schultes
Ref. Holm, 1950: 511.

Sarcostemma dombeyanum var. *linearifolia* Decaisne =Sarcostemma clausum (Jacquin) Schultes
Ref. Holm, 1950: 511.

Sarcostemma glaucum H.B.K.
Ref. Holm, 1950: 509.
Vine.
Voucher: Maclean s.n. (K)
Depts.: Without full locality data.

Sarcostemma hastatum Decaisne =Sarcostemma solanoides (H.B.K.) Decaisne
Ref. Holm, 1950: 545.

Sarcostemma lysimachioides (Weddell) R. Holm
Syn. *Lugonia lysimachioides* Weddell
Ref. Holm, 1950: 547.
Herb. Andean II-III: grasslands, rocky slopes. 2500-4500 m.
Voucher: Dillon & Turner 1570 (MO!)
Depts.: CA, CU, JU, LL, PU

Sarcostemma marsupiflorum Decaisne =Sarcostemma solanoides (H.B.K.) Decaisne
Ref. Holm, 1950: 545.

Sarcostemma quadriflorum Decaisne =Sarcostemma solanoides (H.B.K.) Decaisne
Ref. Holm, 1950: 545.

Sarcostemma solanoides (H.B.K.) Decaisne
Syn. *Oxystelma solanoides* (H.B.K.) K. Schumann, *Pentagonium flavum* (Meyen) Schauer, *Philibertia flava* Meyen, *Philibertia hastata* (Decaisne) Schlechter, *Philibertia obtusiuscula* Malme, *Philibertia quadriflora* (Decaisne) Schlechter, *Philibertia solanoides* H.B.K., *Philibertia variifolia* (Decaisne) Schlechter, *Philibertia weberbaueri* Schlechter, *Sarcostemma hastatum* Decaisne, *Sarcostemma marsupiflorum* Decaisne, *Sarcostemma quadriflorum* Decaisne, *Sarcostemma variifolium* Decaisne
Ref. Holm, 1950: 544.
Vine. Amazonian, Andean I-III, Coastal: disturbed areas, grasslands, rocky slopes. 0- > 4500 m.
Note: Not clear if type is from Peru.
Voucher: Humboldt & Bonpland s.n.* (P), Stevens 22073 (MO!)
Depts.: AR, CA, CU, HV, LI, LL, MO, TA

Sarcostemma variifolium Decaisne =Sarcostemma solanoides (H.B.K.) Decaisne
Ref. Holm, 1950: 545.

Schistonema weberbaueri Schlechter
Ref. Schlechter, 1906: 604.
Vine. Disturbed areas.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 4145* (B)
Depts.: CA

Schubertia grandiflora C. Martius & Zuccarini
Cultivated vine. Amazonian: disturbed areas. 0-500 m.
Voucher: Seibert 2170 (MO!)
Depts.: MD

Stenomeria decalepis Turczaninow
Syn. *Lorostelma struthianthus* Fournier
Ref. Morillo, 1990a: 83.
Vine. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Voucher: Woytkowski 7504 (MO!)
Depts.: HU, LO, SM, UC

Stenomeria fosteri Morillo
Ref. Morillo, 1990a: 85.
Endemic vine. Forests.
Note: Known from Peru only from the type locality.
Voucher: Foster 2705* (F)
Depts.: MD

Stenomeria pentalepis Turczaninow
Ref. Morillo, 1990a: 87.
Vine. Amazonian: forests. 0-500 m.
Voucher: Klug 2628 (MO!)
Depts.: SM

Stephanotella killipii R. E. Woodson =Marsdenia rubrofusca Fournier
Ref. Morillo, 1978: 55.

Tassadia aristata (Bentham ex Fournier) Fontella
Syn. *Ditassa aristata* Bentham ex Fournier
Ref. Fontella, 1977: 335.
Vine. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Voucher: Schunke 5773 (MO!)
Depts.: LO, SM

Tassadia berteriana (Sprengel) W. D. Stevens
Syn. *Oxypetalum berterianum* Sprengel
Ref. Stevens, 1988: 335.
Vine. Andean I: disturbed areas, forests. 500-1000 m.
Voucher: Vargas 15241 (MO!)
Depts.: CU, HU, PA, SM

Tassadia cordata Malme
Ref. Fontella, 1977: 305.
Endemic vine. Amazonian: riversides. 0-500 m.
Voucher: Tessmann 3380* (G), Schunke 71 (MO!)
Depts.: LO, UC

Tassadia grazielae Fontella
Ref. Fontella, 1977: 315.
Endemic vine. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Voucher: Klug 488* (F), Woytkowski 6073 (MO!)
Depts.: LO, SM

Tassadia guianensis Decaisne
Syn. *Cynanchum guianense* (Decaisne) R. Holm
Ref. Fontella, 1977: 281.
Vine. Amazonian: riversides. 0-500 m.
Voucher: Schunke 390 (F)
Depts.: LO, UC

Tassadia milanezii Fontella
Ref. Fontella, 1977: 353.
Vine. Amazonian: disturbed areas, forests, riversides, seasonally inundated areas. 0-500 m.
Voucher: Woytkowski 5144* (MO!), Gentry & Revilla 21158 (MO!)
Depts.: LO, UC

Tassadia obovata Decaisne
Syn. *Tassadia poeppigiana* Decaisne
Ref. Fontella, 1977: 373.
Vine. Amazonian, Andean I: disturbed areas. 0-1500 m.
Voucher: Klug 3296 (MO!)
Depts.: AY, JU, LO, PA, SM

Tassadia ovalifolia (Fournier) Fontella
Syn. *Glaziostelma ovalifolium* Fournier
Ref. Fontella, 1977: 329.
Vine. Amazonian: disturbed areas, forests, riversides, seasonally inundated areas. 0-500 m.
Voucher: Schunke 72 (MO!)
Depts.: LO

Tassadia poeppigiana Decaisne =Tassadia obovata Decaisne
Ref. Fontella, 1977: 373.

Tassadia propinqua Decaisne
Ref. Fontella, 1977: 359.
Vine. Amazonian. 0-500 m.
Voucher: Gentry & Díaz 28185 (MO!)
Depts.: LO

Tassadia valioi Fontella
Ref. Fontella, 1977: 305.
Vine. Amazonian: riversides. 0-500 m.
Voucher: Pires & Black 1049* (IAN), Smith *et al.* 1443 (MO!)
Depts.: LO, MD

Vailia mucronata Rusby
Syn. *Blepharodon peruvianum* Schlechter
Ref. Morillo, 1976: 153.
Vine. Amazonian, Andean I-II: disturbed areas, forests. 0-2000 m.
Voucher: Schunke 7032 (MO!)
Depts.: AM, HU, JU, LO, MD, PA, SM

Asteraceae

222 genera and 1432 species in Peru.

Endemic genera (14): *Arnaldoa, Ascidiogyne, Aynia, Bishopanthus, Chucoa, Crossothamnus, Ellenbergia, Ferreyrella, Hughesia, Nothobaccharis, Pseudonoseris, Schizotrichia, Syncretocarpus, Uleophytum.*
Endemic species: 729.

Prepared by M. O. Dillon (F) and N. Hensold (F); reviewed by H. Robinson (US), V. A. Funk (US) and D. J. Keil (DAV).

Acanthospermum donii S. F. Blake =Acanthospermum microcarpum B. Robinson
Ref. Blake, 1921b: 389.

Acanthospermum hispidum DC.
Ref. Blake, 1921b: 386.
Herb. Andean I-II: disturbed areas. 500-2500 m.
Voucher: Macbride 5283 (F!)
Depts.: AP, JU

Acanthospermum microcarpum B. Robinson
Syn. *Acanthospermum donii* S. F. Blake
Ref. Blake, 1921b: 389.
Herb. Coastal. 0-500 m.
Voucher: Weberbauer 5978 (F!)
Depts.: PI, TU

Acanthospermum simile S. F. Blake
Ref. Blake, 1921b: 388.
Herb. Coastal. 0-500 m.
Voucher: Haught F-55 (F!)
Depts.: PI

Acanthoxanthium spinosum (L.) Fourreau
Syn. *Xanthium spinosum* L.
Ref. Löve, 1975: 55.
Herb. Andean II: disturbed areas. 2000-3500 m.
Voucher: Sagástegui 12727 (F!)
Depts.: AN, AR, CA, HU

Achillea millefolium L.
Ref. FP n.s. 7 1981: 2.
Cultivated and introduced herb. Andean II: disturbed areas. 3000-3500 m.
Voucher: Brunel 477 (MO!)
Depts.: CU

Achyrocline alata (H.B.K.) DC.
Syn. *Achyrocline madioides* Meyen & Walpers, *Gnaphalium alatum* H.B.K., *Gnaphalium incanum* H.B.K., *Gnaphalium pellitum* H.B.K., *Gnaphalium rufescens* H.B.K.
Ref. FP n.s. 26 1991: 4.
Herb. Andean II-III: disturbed areas, forests, rocky slopes. 2000-4500 m.
Voucher: Dillon & Turner 1348 (F!)
Depts.: AM, AN, AP, AY, CA, CU, HU, JU, LI, LL, PA, PI, PU, SM

Achyrocline celosioides (H.B.K.) DC.
Syn. *Gnaphalium celosioides* H.B.K.
Ref. FP n.s. 26 1991: 5.
Shrub. Andean II. 2000-3500 m.
Voucher: Hutchison & Wright 6635 (F!)
Depts.: AM, AN, AP, CA, JU, LL, PI

Achyrocline madioides Meyen & Walpers =Achyrocline alata (H.B.K.) DC.
Ref. FP n.s. 26 1991: 4.

Achyrocline peruviana Dillon & Sagástegui
Ref. FP n.s. 26 1991: 6; Dillon & Sagástegui, 1986b: 107.
Endemic herb. Andean II. 2500-3500 m.
Voucher: Sagástegui & López 10661* (HUT), Dillon *et al.* 4455 (F!, USM)
Depts.: CA, LL

Achyrocline ramosissima (Schultz-Bip.) Britton ex Rusby
Syn. *Gnaphalium ramosissimum* Schultz-Bip.
Ref. FP n.s. 26 1991: 6.
Herb. Andean II-III. 2500-4500 m.
Voucher: Lechler 1780* (F!), Smith *et al.* 12104 (USM)
Depts.: AN, AR, CU, HV, JU, LI, PU

Achyrocline satureioides (Lamarck) DC.
Syn. *Gnaphalium satureioides* Lamarck
Ref. FP n.s. 26 1991: 8.
Herb. Amazonian, Andean I-II: disturbed areas. 0-2500 m.
Voucher: Hutchison & Wright 3954 (MO!)
Depts.: AM, CU, HU, JU, PU, SM

Achyrophorus cryptocephalus Schultz-Bip. =Hypochaeris cryptocephala (Schultz-Bip.) Domke

Achyrophorus elatus Weddell =Hypochaeris chillensis (H.B.K.) Hieronymus

Achyrophorus eriolaenus Schultz-Bip. =Hypochaeris eriolaena (Schultz-Bip.) Reiche

Achyrophorus meyenianus (Walpers) Walpers =Hypochaeris meyeniana (Walpers) Grisebach
Ref. Cabrera, 1978: 674.

Achyrophorus setosus Weddell =Hypochaeris echegarayi Hieronymus
Ref. Hieronymus, 1901a: 84.

Achyrophorus stenocephalus A. Gray ex Weddell =Hypochaeris taraxacoides (Walpers) Bentham & Hooker f.
Ref. Cabrera, 1978: 674.

Achyrophorus taraxacoides Walpers =Hypochaeris taraxacoides (Walpers) Bentham & Hooker f.
Ref. Cabrera, 1978: 674.

Acmella alba (L'Héritier) Jansen var. **alba**
Syn. *Bidens ocymifolia* Lamarck, *Spilanthes alba* L'Héritier, *Spilanthes iolepis* A. H. Moore, *Spilanthes ocymifolia* (Lamarck) A. H. Moore, *Spilanthes salivaria* J. A. Murray
Ref. Jansen, 1985: 62.
Endemic herb. Andean I, Coastal: rocky slopes. 0-1500 m.
Voucher: Macbride 5960 (F!)
Depts.: CA, LI, LL

Acmella alba var. **ecuadorensis** R. K. Jansen
Ref. Jansen, 1985: 63.
Herb. Coastal: rocky slopes. 0-500 m.
Voucher: Horton 11573 (GH, US)
Depts.: PI

Acmella brachyglossa Cassini
Ref. Jansen, 1985: 73.
Herb. Amazonian, Andean I-II: disturbed areas, riversides. 0-3000 m.
Voucher: Belshaw 3319 (F!, LL)
Depts.: SM

Acmella ciliata (H.B.K.) Cassini
Syn. *Spilanthes ciliata* H.B.K., *Spilanthes fimbriata* H.B.K., *Spilanthes poeppigii* DC.
Ref. Jansen, 1985: 36.
Herb. Amazonian, Andean I-II, Coastal: disturbed areas, riversides, seasonally inundated areas. 0-3000 m.
Voucher: Klug 3283 (F, G, GH)
Depts.: SM

Acmella hirta Lagasca =Jaegeria hirta (Lagasca) Lessing
Ref. Jansen, 1985: 30.

Acmella oleracea (L.) R. K. Jansen
Syn. *Spilanthus oleracea* L.
Ref. Jansen, 1985: 65.
Cultivated herb. Coastal: disturbed areas, lomas, terra firme forests. 0-500 m.
Voucher: Killip & Smith 23879 (F!)
Depts.: AN, JU, LI, LL

Acmella oppositifolia (Lamarck) R. K. Jansen
Syn. *Anthemis oppositifolia* Lamarck, *Spilanthes americana* (Mutis) Hieronymus ex Sodiro, *Spilanthes diffusa* Poeppig
Ref. Jansen, 1985: 30.
Herb. Amazonian, Andean I-II, Coastal: disturbed areas, riversides, seasonally inundated areas. 0-3000 m.
Voucher: Wurdack 416 (F, LP)
Depts.: AM

Addisonia virgata Rusby =Hologyne virgata (Rusby) B. Robinson
Ref. King & Robinson, 1987: 477.

Adenostemma fosbergii King & H. Robinson
Ref. King & Robinson, 1987: 60, 477.
Herb. Amazonian, Andean I: terra firme forests. 0-1500 m.
Voucher: Fosberg 19918* (US), Klug 2925 (US!)
Depts.: LO, SM

Adenostemma platyphyllum Cassini
Ref. King & Robinson, 1987: 60, 478.
Herb. Amazonian, Andean I-II, Coastal. 0-2000 m.
Voucher: Schunke 8217 (US!)
Depts.: CU, HU, JU, LO, MD, SM, TU

Adenostemma vargasii King & H. Robinson
Ref. King & Robinson, 1987: 60, 478.
Endemic herb. Amazonian, Andean I: rocky slopes. 0-1000 m.
Voucher: Vargas 1283* (US!), Foster 3019 (US!)
Depts.: CU, MD

Aequatorium caramarcense H. Robinson & Cuatrecasas
Ref. Robinson & Cuatrecasas, 1992: 411.
Endemic tree. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Díaz & Osores 2585* (MO)
Depts.: CA

Aequatorium carpishense (Cuatrecasas) H. Robinson & Cuatrecasas
Syn. *Gynoxys carpishensis* Cuatrecasas
Ref. Robinson & Cuatrecasas, 1992: 412.
Endemic tree. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Ellenberg 2211* (U)
Depts.: HU

Aequatorium juninense H. Robinson & Cuatrecasas
Ref. Robinson & Cuatrecasas, 1992: 412.
Shrub. Andean II: forests. 2500-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Killip & Smith 24434* (US), Killip & Smith 24402 (US)
Depts.: JU

Aequatorium rimachianum (Cuatrecasas) H. Robinson & Cuatrecasas
Syn. *Gynoxys rimachiana* Cuatrecasas
Ref. Robinson & Cuatrecasas, 1992: 413.
Endemic tree. Andean II: rocky slopes. 2500-3000 m.
Note: Known from Peru only from the type locality.
Vouchers: Rimachi 4908* (F!)
Depts.: HU

Aequatorium stellatopilosum (Greenman & Cuatrecasas ex Cuatrecasas) Jeffrey
Syn. *Senecio stellatopilosus* Greenman & Cuatrecasas ex Cuatrecasas, *Senecio sternbergianus* DC.
Ref. Jeffrey, 1992: 62.
Tree. Andean II. 1500-2000 m.
Voucher: Macbride 4946* (F), Sawada 63 (F)
Depts.: HU

Aequatorium tovarii H. Robinson & Cuatrecasas
Ref. Robinson & Cuatrecasas, 1992: 413.
Shrub. Andean II: forests. 2000-3500 m.
Voucher: Tovar 4781* (US), Tovar 4252 (US)
Depts.: HV

Aequatorium tuestae (Cuatrecasas) H. Robinson & Cuatrecasas
Syn. *Gynoxys tuestae* (Cuatrecasas) Cuatrecasas, *Senecio tuestae* Cuatreacasas
Ref. Robinson & Cuatrecasas, 1992: 413.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Tuesta & Woytkowski 34095 (F)
Depts.: HU

Aetheolaena involucrata (H.B.K.) Nordenstam =Lasiocephalus involucratus (H.B.K.) Cuatrecasas
Ref. Nordenstam, 1978: 54.

Aetheolaena loeseneri (Hieronymus) Nordenstam =Lasiocephalus loesneri (Hieronymus) Cuatrecasas
Ref. Nordenstam, 1978: 54.

Aetheolaena patens (H.B.K.) Nordenstam =Lasiocephalus patens (H.B.K.) Cuatrecasas
Ref. Nordenstam, 1978: 56.

Ageratina adenophora (Sprengel) King & H. Robinson
Syn. *Eupatorium adenophorum* Sprengel, *Eupatorium adenophorum* var. *peruvianum* Hieronymus
Ref. King & Robinson, 1987: 433, 478.
Herb.
Voucher: Jelski 661* (B frag. US)
Depts.: CA

Ageratina articulata (Schultz-Bip. ex Hieronymus) King & H. Robinson
Syn. *Eupatorium articulatum* Schultz-Bip. ex Hieronymus
Ref. King & Robinson, 1987: 433, 478.
Subshrub. Andean I-II: forests on white sand. 500-3000 m.
Voucher: Macbride & Featherstone 1593 (F!)
Depts.: AM, CA, HU, LL

Ageratina azangaroensis (Schultz-Bip. ex Weddell) King & H. Robinson

Syn. *Eupatorium azangaroense* Schultz-Bip.
Ref. King & Robinson, 1987: 433, 478.
Shrub. Andean II-III: rocky slopes, shrublands. 2000-4500 m.
Voucher: Smith 8231 (F!)
Depts.: AN, AR, AY, CA, CU, LA, LI, LL, PA, PU

Ageratina bishopii King & H. Robinson
Ref. King & Robinson, 1987: 433, 478.
Endemic shrub. Andean II: grasslands. 2500-3000 m.
Voucher: King & Bishop 9246* (US!)
Depts.: AM

Ageratina boekei King & H. Robinson
Ref. King & Robinson, 1987: 435, 478.
Endemic shrub. Andeal II: elfin forests. 1500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Boeke 2024* (US!)
Depts.: AM

Ageratina chachapoyasensis (Cuatrecasas) King & H. Robinson
Syn. *Eupatorium chachapoyasense* Cuatrecasas
Ref. King & Robinson, 1987: 435, 479.
Endemic shrub. Andean II-III: grasslands, shrublands. 3000-4000 m.
Voucher: Wurdack 1703* (F!)
Depts.: AM, LA

Ageratina choricephaloides (B. Robinson) King & H. Robinson
Syn. *Eupatorium choricephaloides* B. Robinson
Ref. King & Robinson, 1987: 433, 479.
Endemic shrub. Andean II. 2000-3500 m.
Voucher: Mathews s.n.* (K), King & Bishop 9170 (US!)
Depts.: AM

Ageratina cuencana (B. Robinson) King & H. Robinson
Syn. *Eupatorium cuencanum* B. Robinson
Ref. King & Robinson, 1987: 433, 479.
Shrub. Andean II. 1500-2500 m.
Voucher: Fosberg 27784 (US!)
Depts.: CA

Ageratina cutervensis (Hieronymus) King & H. Robinson
Syn. *Eupatorium cutervense* Hieronymus
Ref. King & Robinson, 1987: 433, 479.
Shrub. Andean II-III: rocky slopes. 2500-4000 m.
Voucher: Macbride 4871 (F!)
Depts.: CA, HU

Ageratina cuzcoensis (Hieronymus) King & H. Robinson
Syn. *Eupatorium cuzcoense* Hieronymus
Ref. King & Robinson, 1987: 436, 479.
Endemic shrub. Andean II-III: shrublands. 3000-4000 m.
Voucher: Weberbauer 4852* (B), Davis *et al.* 1587 (F!)
Depts.: AN, AP, AY, CU, HV, PU

Ageratina dombeyana (DC.) King & H. Robinson
Syn. *Eupatorium dombeyanum* DC.
Ref. King & Robinson, 1987: 436, 479.
Endemic shrub. Andean II: forests. 3000-3500 m.
Voucher: Dombey s.n.* (P), Ochoa 530 (US!)
Depts.: CU, LL, JU

Ageratina elegans (H.B.K.) King & H. Robinson
Syn. *Eupatorium elegans* H.B.K.
Ref. King & Robinson, 1987: 511.
Shrub.
Note: No voucher cited by King & Robinson.

Ageratina exsertovenosa (Klatt) King & H. Robinson
Syn. *Eupatorium exsertovenosum* Klatt, *Eupatorium loxense* Hieronymus, *Eupatorium pseudofastigiatum* Hieronymus, *Eupatorium pseudofastigiatum* var. *crenata* Hieronymus, *Eupatorium pseudofastigiatum* var. *crenatodentata* Hieronymus, *Eupatorium pseudofastigiatum* var. *lanceolata* Hieronymus
Ref. King & Robinson, 1987: 436, 479, 519.
Shrub or treelet. Andean II: shrublands. 2000-3500 m.
Voucher: Dillon & Skillman 4149 (F!)
Depts.: AM, CA, LA, LL. PI

Ageratina fastigiata (H.B.K.) King & H. Robinson
Syn. *Eupatorium fastigiatum* H.B.K.
Ref. King & Robinson, 1987: 436, 479.
Shrub. Andean II. 2000-3500 m.
Voucher: Dillon & Turner 1639 (F!)
Depts.: CA, LL

Ageratina gilbertii (B. Robinson) King & H. Robinson
Syn. *Eupatorium gilbertii* B. Robinson
Ref. King & Robinson, 1987: 433, 479.
Endemic herb or shrub. Andean II: riversides, rocky slopes. 1500-3500 m.
Voucher: Cook & Gilbert 1115* (US!)
Depts.: AY, CU, HU, JU

Ageratina glechonophylla (Lessing) King & H. Robinson
Syn. *Eupatorium glechonophyllum* Lessing
Ref. King & Robinson, 1987: 433.
Endemic herb. Andean III: grasslands. 3500-4000 m.
Voucher: Vargas 4459 (F!)
Depts.: AY, CU, JU, LL, PU

Ageratina gloeoclada (B. Robinson) King & H. Robinson
Syn. *Eupatorium gloeocladum* B. Robinson
Ref. King & Robinson, 1987: 436, 479.
Herb. Andean II. 2500-3000 m.
Voucher: Vargas 17828 (US!)
Depts.: CU, PU

Ageratina gracilenta (B. Robinson) King & H. Robinson
Syn. *Eupatorium gracilentum* B. Robinson
Ref. King & Robinson, 1987: 433, 480.
Endemic shrub. Andean II. 1500-2500 m.
Voucher: Mathews s.n.* (NY), Macbride 3810 (F!)
Depts.: AM, HU

Ageratina infiernillensis King & H. Robinson
Ref. King & Robinson, 1987: 433, 480.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Ferreyra 7718* (US!)
Depts.: LI

Ageratina lobulifera (B. Robinson) King & H. Robinson
Syn. *Eupatorium lobuliferum* B. Robinson
Ref. King & Robinson, 1987: 433, 480.
Endemic herb. Andean II-III: rocky slopes. 2000-4000 m.
Voucher: Macbride & Featherstone 481* (F!)
Depts.: AN, LI, MO

Ageratina lopezmirandae King & H. Robinson
Ref. King & Robinson, 1987: 436, 480.
Endemic shrub. Andean II. 2500-3500 m.
Voucher: López 972* (US!), López & Sagástegui 8066 (US!)
Depts.: LL

Ageratina macbridei (B. Robinson) King & H. Robinson
Syn. *Eupatorium macbridei* B. Robinson
Ref. King & Robinson, 1987: 436, 480.
Endemic shrub or tree. Andean II: forests, grasslands, riversides, shrublands. 2000-3000 m.
Voucher: Macbride & Featherstone 1742* (F!)
Depts.: AM, HU

Ageratina pampalcensis (B. Robinson) King & H. Robinson
Syn. *Eupatorium pampalcense* B. Robinson
Ref. King & Robinson, 1987: 434, 481.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Killip & Smith 22232* (US!)
Depts.: AY

Ageratina pentlandiana (DC.) King & H. Robinson
Syn. *Eupatorium incasicum* Weddell, *Eupatorium pentlandianum* DC.
Ref. King & Robinson, 1987: 436, 481.
Shrub. Andean II-III: rocky slopes. 2000-4000 m.
Voucher: Dillon *et al.* 1257 (F!)
Depts.: AR, CU, JU, LL, PU

Ageratina pichinchensis (H.B.K.) King & H. Robinson
Syn. *Eupatorium pichinchense* H.B.K.
Ref. King & Robinson, 1987: 425.
Shrub. Andean II: disturbed areas, forests, grasslands, shrublands. 1500-3500 m.
Voucher: Gentry *et al.* 23197 (F!, MO)
Depts.: AM, LI

Ageratina piurae (B. Robinson) King & H. Robinson

Syn. *Eupatorium piurae* B. Robinson
Ref. King & Robinson, 1987: 436, 481.
Endemic shrub. Andean II. 3000-3500 m.
Note: Known from Peru only from the type locality
Voucher: Weberbauer 6045* (F!)
Depts.: PI

Ageratina proba (N. E. Brown) King & H. Robinson
Syn. *Eupatorium probum* N. E. Brown
Ref. King & Robinson, 1987: 434, 481.
Endemic shrub. Andean II. 2500-3500 m.
Note: Described from cultivated material from Peru.
Voucher: Hort. Kew s.n.*, Sagástegui 8038 (US!)
Depts.: CA, LL

Ageratina prunellaefolia (H.B.K.) King & H. Robinson
Syn. *Eupatorium prunifolium* H.B.K.
Herb. Andean II-III. 3000-4000 m.
Ref. King & Robinson, 1987: 527.
Voucher: Ferreyra 7468 (MO!)
Depts.: AN

Ageratina rhytidodes (B. Robinson) King & H. Robinson
Syn. *Eupatorium rhytidodes* B. Robinson
Ref. King & Robinson, 1987: 434, 481.
Endemic shrub. Andean II: forests. 2000-3000 m.
Voucher: Macbride 3985* (F!)
Depts.: HU

Ageratina riparia (Regel) King & H. Robinson
Syn. *Ageratina ventillana* (Cuatrecasas) King & H. Robinson, *Eupatorium riparium* Regel, *Eupatorium ventillanum* Cuatrecasas
Ref. King & Robinson, 1987: 434, 481.
Shrub. Andean II. 2000-2500 m.
Voucher: Wurdack 1476 (F!)
Depts.: AM

Ageratina scopulorum (Weddell) King & H. Robinson
Syn. *Eupatorium scopulorum* Weddell
Ref. King & Robinson, 1987: 434, 481.
Shrub. Andean II-III: rocky slopes. 1500- > 4500 m.
Voucher: Macbride & Featherstone 1430 (F!)
Depts.: AM, AN, AP, AR, AY, CU, HU, HV, JU, LA, LI, PU

Ageratina simulans (B. Robinson) King & H. Robinson
Syn. *Eupatorium simulans* B. Robinson
Ref. King & Robinson, 1987: 436, 481.
Endemic shrub. Andean II-III. 3000-4000 m.
Voucher: Weberbauer 3253* (GH)
Depts.: AN

Ageratina sodiroi (Hieronymus) King & H. Robinson
Syn. *Eupatorium sodiroi* Hieronymus
Ref. King & Robinson, 1987: 531.
Shrub.
Note: No voucher cited by King & Robinson (1987).

Ageratina sternbergiana (DC.) King & H. Robinson
Syn. *Eupatorium sternbergianum* DC.
Ref. King & Robinson, 1987: 434, 481.
Herb or shrub. Andean I-III: lomas, riversides. 500-4500 m.
Voucher: Pennell 13547 (F!)
Depts.: AM, AN, AP, AR, AY, CA, CU, HU, HV, JU, LI, LL, PA, PU

Ageratina stictophylla (B. Robinson) King & H. Robinson
Syn. *Eupatorium stictophyllum* B. Robinson
Ref. King & Robinson, 1987: 436, 481.
Endemic shrub. Andean II-III: riversides. 2500-4000 m.
Voucher: Weberbauer 860* (B), Dillon *et al.* 3108 (F!)
Depts.: AN, CU, HU, JU, PA, PU

Ageratina subferruginea (B. Robinson) King & H. Robinson
Syn. *Eupatorium subferrugineum* B. Robinson
Ref. King & Robinson, 1987: 436, 481.
Endemic shrub.
Note: Known from Peru only from the type locality.
Voucher: Gay s.n* (P), Gay 1839-40 (GH photo US!)
Depts.: Without full locality data.

Ageratina tambillensis (Hieronymus) King & H. Robinson
Syn. *Eupatorium tambillense* Hieronymus
Ref. King & Robinson, 1987: 434, 482.
Endemic shrub. Andean II. 1500-3000 m.
Voucher: Jelski 668* (B), Macbride 4314 (F!)
Depts.: AM, AY, CA, CU, HU, JU, MD

Ageratina tarmensis (B. Robinson) King & H. Robinson
Syn. *Eupatorium tarmense* B. Robinson
Ref. King & Robinson, 1987: 434, 482.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Killip & Smith 21833* (F!)
Depts.: JU

Ageratina vallincola (DC.) King & H. Robinson
Syn. *Eupatorium vallincola* DC.
Ref. King & Robinson, 1987: 434, 482.
Endemic subshrub. Amazonian, Andean I-III, Coastal: lomas, rocky slopes. 0-4000 m.
Voucher: Haenke s.n.*, Macbride & Featherstone 266 (F!)
Depts.: AN, AP, AY, CA, HU, JU, LI, LL

Ageratina ventillana (Cuatrecasas) King & H. Robinson =Ageratina riparia (Regel) King & H. Robinson
Ref. King & Robinson, 1987: 482.

Ageratina wurdackii King & H. Robinson
Ref. King & Robinson, 1987: 436, 482.
Endemic herb. Andean II. 2500-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Hutchison & Wright 5574* (US!)
Depts.: AM

Ageratum conyzoides L. var. **conyzoides**
Syn. *Ageratum conyzoides* var. *inaequipaleaceum* Hieronymus
Ref. Johnson, 1971: 26; King & Robinson, 1987: 145, 482.
Herb. Amazonian, Andean I-II, Coastal: disturbed areas. 0-2500 m.
Voucher: Schunke 3994 (US!)
Depts.: AM, CA, CU, HU, JU, LA, LI, LL, MD, PA, PI, SM

Ageratum conyzoides var. *inaequipaleaceum* Hieronymus =Ageratum conyzoides var. conyzoides
Ref. Johnson, 1971: 27.

Ageratum conyzoides var. **latifolium** (Cavanilles) M. Johnson
Syn. *Ageratum latifolium* Cavanilles
Ref. Johnson, 1971: 31.
Herb. Andean II. 1500-3000 m.
Note: For alternative treatment, see Johnson (1971).
Voucher: Neé s.n.* (MA), Stork *et al.* 10493 (F!)
Depts.: AM, CU, JU, LI, PU

Ageratum houstonianum Miller
Ref. King & Robinson, 1987: 145, 483.
Cultivated herb.
Voucher: Ferreyra 6331 (US!)
Depts.: LI

Ageratum latifolium Cavanilles =Ageratum conyzoides var. latifolium (Cavanilles) M. Johnson
Ref. Johnson, 1971: 27.

Allocarpus caracasanus H.B.K. =Alloispermum caracasanum (H.B.K.) H. Robinson
Ref. Robinson, 1978a: 411.

Alloispermum caracasanum (H.B.K.) H. Robinson
Syn. *Allocarpus caracasanus* H.B.K.
Ref. Robinson, 1978a: 411.
Shrub. Andean I: rocky slopes. 1000-1500 m.
Voucher: Woytkowski 6621 (F!)
Depts.: JU

Alloispermum weberbaueri H. Robinson
Ref. Robinson, 1979d: 427.
Endemic liana or shrub. Andean I-II: forests. 1000-3000 m.
Voucher: Weberbauer 7581* (F,), Killip & Smith 22422 (US)
Depts.: AY

Amboroa wurdackii King & H. Robinson
Ref. King & Robinson, 1987: 376, 485.
Endemic herb. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 2101* (US!)
Depts.: LO

Ambrosia arborescens Miller
Syn. *Franseria artemisioides* Willdenow

Ref. Payne, 1964: 411; Payne, 1966: 28.
Subshrub. Andean II-III: disturbed areas, rocky slopes. 1500-4000 m.
Voucher: Smith & Canne 5923 (F!)
Depts.: AN, AR, CA, CU, HU, HV, JU, LI, LL, MO, PA

Ambrosia artemisiifolia L.
Ref. Payne, 1966: 28.
Herb.
Voucher: Skottsberg 1404 (F!)
Depts.: HU, LI, TA

Ambrosia artemisioides Meyen & Walpers ex Meyen
Syn. *Franseria meyeniana* Schultz-Bip., *Franseria recurva* Rusby, *Franseria tacorensis* Meyen & Walpers
Ref. Payne, 1964: 412; Payne, 1966: 29.
Shrub. Andean I-III, Coastal: rocky slopes. 500-4000 m.
Voucher: Lechler 1568* (NY), Williams 2527 (NY)
Depts.: AR, MO, TA

Ambrosia dentata (Cabrera) Dillon
Syn. *Ambrosia parvifolia* Payne, *Franseria dentata* Cabrera
Ref. Dillon, 1984a: 337.
Endemic subshrub. Coastal: lomas. 0-500 m.
Voucher: Rauh & Hirsch P498* (NY), Angulo 2554 (HUT, LP)
Depts.: AR

Ambrosia elatior L. =Ambrosia peruviana Willdenow

Ambrosia orobanchifera Meyen =Ambrosia peruviana Willdenow

Ambrosia pannosa Payne
Ref. Payne, 1966: 31.
Endemic shrub. Andean II. 2000-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Pennell 13107* (US!)
Depts.: AR

Ambrosia parvifolia Payne =Ambrosia dentata (Cabrera) Dillon
Ref. Payne, 1966: 35; Dillon, 1984a: 337.

Ambrosia peruviana Willdenow
Syn. *Ambrosia elatior* L., *Ambrosia orobanchifera* Meyen
Ref. Payne, 1966: 29.
Herb. Amazonian, Andean I, Coastal: disturbed areas, forests, riversides, seasonally inundated areas. 0-1500 m.
Voucher: Díaz *et al.* 654 (F!)
Depts.: AM, CA, LI, LL, LO, UC

Ampherephis aristata H.B.K. =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Ampherephis intermedia Link =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Ampherephis mutica H.B.K. =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Ampherephis pilosa Cassini =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Ampherephis pulchella Cassini =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Amphibecis violacea (Schrank) Schrank =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Anacyclus australis Sieber ex Sprengel =Cotula australis (Sieber ex Sprengel) Hooker f.
Ref. FP n.s. 7 1981: 6.

Andromachia acaulis H.B.K. =Chrysactinium acaule (H.B.K.) Weddell
Ref. Robinson & Brettell, 1974: 49.

Andromachia excelsa Poeppig =Ferreyranthus excelsus (Poeppig) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 51.

Andromachia grandiflora H.B.K. =Liabum grandiflorum (H.B.K.) Lessing
Ref. Robinson & Brettell, 1974: 52.

Andromachia hieracioides H.B.K. =Chrysactinium hieracioides (H.B.K.) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 50.

Andromachia igniaria H.B.K. =Liabum igniarium (H.B.K.) Lessing
Ref. Robinson & Brettell, 1974: 53.

Andromachia solidaginea H.B.K. =Liabum solidagineum (H.B.K.) Lessing
Ref. Robinson & Brettell, 1974: 53.

Andromachia verbascifolia H.B.K. =Ferreyranthus verbascifolius (H.B.K.) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 51.

Antennaria andina A. Gray =Mniodes andina (A. Gray) A. Gray ex Hooker f. & A. B. Jackson
Ref. FP n.s. 26 1991: 53.

Antennaria aretioides (Schultz-Bip.) A. Gray =Mniodes aretioides (Schultz-Bip.) Cuatrecasas
Ref. FP n.s. 26 1991: 53.

Antennaria linearifolia Weddell
Syn. *Gnaphalium linearifolium* (Weddell) Franchet, *Gnaphalium sedoides* Klatt, *Leontopodium linearifolium* (Weddell) Bentham & Hooker f.
Ref. FP n.s. 26 1991: 9.
Herb. Andean II-III: rocky slopes, shrublands. 2500-4000 m.
Voucher: Dombey (or Pavón) s.n.* (P), Hutchison & Wright 5560 (F!)
Depts.: AM, AN, CA, CU, HU, JU, LI, LL, PA

Antennaria monica Weddell =Gnaphalium antennarioides DC.
Ref. FP n.s. 26 1991: 34.

Anthemis buphthalmoides Jacquin =Heliopsis buphthalmoides (Jacquin) Dunal
Ref. Blake, 1940: 73.

Anthemis oppositifolia Lamarck =Acmella oppositifolia (Lamarck) R. K. Jansen
Ref. Jansen, 1985: 30.

Apargia chillensis H.B.K. =Hypochaeris chillensis (H.B.K.) Hieronymus
Ref. Hieronymus, 1901a: 84; Cabrera, 1976: 313.

Aphanactis villosa S. F. Blake
Ref. Blake, 1926: 216; Turner, 1980: 40.
Herb. Andean II-III: grasslands, rocky slopes, shrublands. 2000-4500 m.
Voucher: Macbride 3297* (F!), Hutchison & Wright 4395 (F!)
Depts.: AN, CU, HU, LA

Aristeguietia amethystina (B. Robinson) King & H. Robinson
Syn. *Eupatorium amethystinum* B. Robinson
Ref. King & Robinson, 1987: 345, 485.
Shrub.
Note: No voucher cited by King & Robinson (1987).

Aristeguietia anisodonta (B. Robinson) King & H. Robinson
Syn. *Eupatorium anisodontum* B. Robinson
Ref. King & Robinson, 1987: 345, 485.
Endemic subshrub. Andean II. 1500-3500 m.
Voucher: Mathews s.n. [in 1836]* (K), Peyton & Peyton 1049 (F!)
Depts.: AM, AP, CA, CU, HU, LA, LL, PI

Aristeguietia ballii (Oliver) King & H. Robinson
Syn. *Eupatorium ballii* Oliver
Ref. King & Robinson, 1987: 345, 485.
Endemic shrub. Andean III. 3500-4000 m.
Voucher: Ball s.n. [in 1882]*, Weberbauer 6856 (US!)
Depts.: AR, LI

Aristeguietia buddleifolia (Bentham) King & H. Robinson
Syn. *Eupatorium buddleifolium* Bentham
Ref. King & Robinson, 1987: 505.
Shrub. Andean II. 2500-3500 m.
Voucher: Sagástegui *et al.* 8088 (MO!)
Depts.: CA

Aristeguietia cursonii (B. Robinson) King & H. Robinson
Syn. *Eupatorium cursonii* B. Robinson
Ref. King & Robinson, 1987: 345, 485.
Endemic shrub.
Note: Known from Peru only from the

type locality.
Voucher: Curson s.n.* (BM)
Depts.: AR

Aristeguietia diplodictyon (B. Robinson) King & H. Robinson
Syn. *Eupatorium diplodictyon* B. Robinson
Ref. King & Robinson, 1987: 345, 485.
Endemic shrub. Andean II: rocky slopes. 2500-3000 m.
Voucher: Lobb s.n.* (K), Macbride 4296 (F!)
Depts.: CU, HU

Aristeguietia discolor (DC.) King & H. Robinson
Syn. *Eupatorium discolor* DC., nom. illeg.
Ref. King & Robinson, 1987: 345, 485.
Endemic shrub or treelet. Andean II-III: elfin forests, shrublands. 2000-4000 m.
Voucher: Smith & Buddensiek 10885 (F!)
Depts.: AM, AN, AP, AY, CA, CU, HU, HV, JU, LI, LL, PA, SM

Aristeguietia gascae (B. Robinson) King & H. Robinson
Syn. *Eupatorium gascae* B. Robinson
Ref. King & Robinson, 1987: 345, 485.
Endemic shrub.
Note: Known from Peru only from the type locality.
Voucher: Mathews s.n.* (GH)
Depts.: AM

Aristeguietia gayana (Weddell) King & H. Robinson
Syn. *Eupatorium gayanum* Weddell
Ref. King & Robinson, 1987: 345, 485.
Endemic shrub. Andean II-III: rocky slopes. 3000-4000 m.
Voucher: Gay s.n. (P), Macbride & Featherstone 939 (F!)
Depts.: CU, HV, JU

Aristeguietia pseudarborea (Hieronymus) King & H. Robinson
Syn. *Eupatorium pseudarboreum* Hieronymus
Ref. King & Robinson, 1987: 345, 485.
Endemic shrub. Andean II: forests, shrublands. 2000-3500 m.
Voucher: Jelski 766* (B), Hutchison & Wright 3818 (F!)
Depts.: AM, CA

Aristeguietia tahonensis (Hieronymus) King & H. Robinson
Syn. *Eupatorium tahonense* Hieronymus
Ref. King & Robinson, 1987: 345, 485.
Endemic herb. Andean II. 2500-3000 m.
Voucher: Weberbauer 4037* (B photo F), Sagástegui 8429 (F!)
Depts.: CA

Arnaldoa coccinosantha (Muschler) Ferreyra
Syn. *Arnaldoa peruviana* López & Sagástegui, *Barnadesia coccinosantha* Muschler, *Chuquiraga coccinosantha* (Muschler) Chung
Ref. Ferreyra, 1965a: 4; Miranda, 1981: 2.
Endemic shrub. Andean I-II: shrublands. 2000-3000 m.
Voucher: Weberbauer 3295* (USM), López & Sagástegui 8159 (MO)
Depts.: AN, LL

Arnaldoa macbrideana Ferreyra
Syn. *Dasyphyllum barbatum* Chung
Ref. Ferreyra, 1965a: 6; Miranda, 1981: 8.
Endemic shrub. Andean I-II. 1000-2500 m.
Voucher: Ferreyra & Wurdack 14415* (USM), Hutchison & Wright 1379 (US!)
Depts.: LA, PI

Arnaldoa magnifica Cabrera =Arnaldoa weberbaueri (Muschler) Ferreyra
Ref. Cabrera, 1962: 39.

Arnaldoa peruviana López & Sagástegui =Arnaldoa coccinosantha (Muschler) Ferreyra
Ref. Miranda, 1981: 2.

Arnaldoa weberbaueri (Muschler) Ferreyra
Syn. *Arnaldoa magnifica* Cabrera, *Barnadesia weberbaueri* Muschler, *Chuquiraga muschlerii* Chung
Ref. Ferreyra, 1965a: 2; Miranda, 1981: 5.
Endemic shrub. Andean II: rocky slopes, shrublands. 1500-2500 m.
Voucher: Weberbauer 4278* (B, destroyed), Hutchison 5454 (US!)
Depts.: AM, CA

Arnica peruviana (Lamarck) Persoon =Oritrophium peruvianum (Lamarck) Cuatrecasas
Ref. Cuatrecasas, 1969: 75.

Artemisia absinthium L.
Ref. FP n.s. 7 1981: 3.
Cultivated herb. Andean II: disturbed areas. 3000-3500 m.
Voucher: Cerrate 3810 (MO!)
Depts.: JU

Artemisia annua L.
Ref. FP n.s. 7 1981: 4.
Cultivated herb. Andean II: disturbed areas. 3000-3500 m.
Voucher: Ridoutt s.n. (MO!)
Depts.: JU

Ascidiogyne sanchezvegae Cabrera
Ref. King & Robinson, 1987: 154, 485.
Endemic herb. Andean III: bogs, grasslands, shrublands. 3500-4000 m.
Voucher: Sánchez 1236* (US!), Dillon & Molau 3016 (F!)
Depts.: CA

Ascidiogyne wurdackii Cuatrecasas
Ref. King & Robinson, 1987: 154, 485.
Endemic herb. Andean II-III: bogs. 3000-4000 m.
Voucher: Wurdack 1716* (US), Wurdack 1246 (US)
Depts.: AM

Aspilia jelskii (Hieronymus) S. F. Blake
Syn. *Gymnolomia jelskii* Hieronymus
Ref. Blake, 1924a: 619.
Endemic shrub. Amazonian, Andean I: disturbed areas. 0-500 m.
Voucher: Jelski 649* (US!)
Depts.: CA, MD

Asplundianthus sagasteguii King & H. Robinson
Ref. King & Robinson, 1987: 346, 485.
Endemic shrub. Andean II. 2000-3000 m.
Voucher: Sagástegui *et al.* 8273* (F!)
Depts.: CA, PI

Asplundianthus scabrifolius (B. Robinson) King & H. Robinson
Syn. *Eupatorium scabrifolium* B. Robinson
Ref. King & Robinson, 1987: 347, 485.
Endemic liana or shrub. Andean I-II: forests. 1000-3000 m.
Voucher: Macbride & Featherstone 1873 (F!)
Depts.: HU, JU

Asplundianthus stuebelii (Hieronymus) King & H. Robinson
Syn. *Eupatorium stuebelii* Hieronymus
Ref. King & Robinson, 1987: 347, 485.
Liana or shrub. Andean II. 1500-2500 m.
Voucher: Macbride & Featherstone 413 (F!)
Depts.: AM, CA, LI

Asplundianthus trachyphyllus (Hieronymus) King & H. Robinson
Syn. *Eupatorium trachyphyllum* Hieronymus
Ref. King & Robinson, 1987: 347, 486.
Endemic shrub.
Note: Known from Peru only from the type locality.
Voucher: Jelski 607* (B), Jelski 697 (MO!)
Depts.: CA

Aster acaulis Weddell =Noticastrum marginatum (H.B.K.) Cuatrecasas
Ref. Cuatrecasas, 1969: 47.

Aster crocifolius H.B.K. =Oritrophium crocifolium (H.B.K.) Cuatrecasas

Aster glutinosus Cavanilles =Grindelia glutinosa (Cavanilles) Dunal

Aster marginatus H.B.K. =Noticastrum marginatum (H.B.K.) Cuatrecasas
Ref. Cuatrecasas, 1969: 47.

Aster mutisianus Cuatrecasas =Oritrophium limnophilum subsp. mutisianum (Cuatrecasas) Cuatrecasas
Ref. Cuatrecasas, 1969: 87.

Aster pellitus H.B.K. =Oritrophium peruvianum (Lamarck) Cuatrecasas
Ref. Cuatrecasas, 1969: 75.

Aster perezii Cuatrecasas =Noticastrum marginatum (H.B.K.) Cuatrecasas
Ref. Cuatrecasas, 1969: 47.

Aster peruvianus (Lamarck) Cabrera =Oritrophium peruvianum (Lamarck) Cuatrecasas
Ref. Cuatrecasas, 1969: 75.

Aster repens H.B.K. =Oritrophium repens (H.B.K.) Cuatrecasas

Aster sodiroi Hieronymus =Oritrophium limnophilum subsp. limnophilum
Ref. Hieronymus, 1901a: 20.

Aster sodiroi var. *mutisianus* (Cuatrecasas) Cuatrecasas =Oritrophium limnophilum subsp. mutisianum (Cuatrecasas) Cuatrecasas

Aster stuebelii Hieronymus =Diplostephium stuebelii (Hieronymus) Cuatrecasas

Aster trachyticus F. Philippi =Diplostephium meyenii (Schultz-Bip.) S. F. Blake
Ref. Blake, 1928b: 54.

Aster trinervis R. & P. =Lycoseris trinervis (R. & P. ex D. Don) S. F. Blake

Austroeupatorium decemflorum (DC.) King & H. Robinson
Syn. *Eupatorium decemflorum* DC., *Eupatorium mapiriense* Hieronymus
Ref. King & Robinson, 1987: 69, 486.
Shrub. Andean I-II: forests. 500-2000 m.
Voucher: Ferreyra 17301 (US!)
Depts.: AY, CA, CU, HU, JU, SM

Austroeupatorium inulaefolium (H.B.K.) King & H. Robinson
Syn. *Eupatorium inulaefolium* H.B.K.
Ref. King & Robinson, 1987: 69, 486.
Shrub or treelet. Amazonian, Andean I-II, Coastal: forests, riversides, shrublands. 0-3000 m.
Voucher: Llatas 1232 (F!)
Depts.: AM, AY, CA, CU, HU, JU, LA, LL, PA, PI, PU, SM

Ayapana amygdalina (Lamarck) King & H. Robinson
Syn. *Eupatorium amygdalinum* Lamarck, *Eupatorium dodoneaefolium* DC., *Eupatorium fraternum* DC.
Ref. King & Robinson, 1987: 197, 486.
Shrub. Amazonian, Andean I-II. 0-2000 m.
Voucher: Macbride 4932 (F!)
Depts.: CA, CU, HU, JU, SM

Ayapana elata (Steetz) King & H. Robinson
Syn. *Eupatorium elatum* Steetz, *Eupatorium sprucei* B. Robinson
Ref. King & Robinson, 1987: 197, 486.
Herb. Amazonian, Andean I-II: riversides. 0-2500 m.
Voucher: Killip & Smith 26304 (US!)
Depts.: AM, HU, JU, LO, SM

Ayapana lanceolata King & H. Robinson
Ref. King & Robinson, 1987: 197, 486.
Vine. Amazonian, forest. 0-500 m.
Voucher: Belshaw 3517* (US!)
Depts.: SM

Ayapana pilluanensis (Hieronymus) King & H. Robinson
Syn. *Eupatorium pilluanense* Gardner
Ref. King & Robinson, 1987: 197, 486.
Endemic herb.
Note: Known from Peru only from the type locality.
Voucher: Ule 6780* (B)
Depts.: LO

Ayapanopsis andina (B. Robinson) King & H. Robinson
Syn. *Eupatorium andinum* B. Robinson
Ref. King & Robinson, 1987: 199, 486.
Endemic herb.
Note: Known from Peru only from the type locality.
Voucher: Gay 959* (P)
Depts.: CU

Ayapanopsis ferreyrii King & H. Robinson
Ref. King & Robinson, 1987: 199, 486.
Endemic shrub. Andean II. 1500-2000 m.
Voucher: Friedberg 614* (US!)
Depts.: CA

Ayapanopsis mathewsii (B. Robinson) King & H. Robinson
Syn. *Eupatorium mathewsii* B. Robinson
Ref. King & Robinson, 1987: 199, 486.
Endemic herb.
Voucher: Mathews 1386* (K)
Depts.: AM

Ayapanopsis tarapotensis (B. Robinson) King & H. Robinson
Syn. *Eupatorium tarapotense* B. Robinson
Ref. King & Robinson, 1987: 199, 486.
Endemic liana or shrub. Andean I-II: rocky slopes. 500-2000 m.
Voucher: Spruce 4014* (GH), Woytkowski 35285 (F!)
Depts.: AM, CU, LO, SM

Ayapanopsis vargasii King & H. Robinson
Ref. King & Robinson, 1987: 199.
Endemic herb. Andean II. 1500-2000 m.
Voucher: Vargas 14061* (US!), Vargas 17463 (US)
Depts.: CU

Aynia pseudascaricida H. Robinson
Ref. Robinson, 1988d: 959.
Endemic herb or shrub. Andean I: shrublands. 500-1000 m.
Voucher: Killip & Smith 22514* (US), Killip & Smith 23101 (US)
Depts.: AY

Bacasia corymbosa R. & P. =Barnadesia corymbosa (R. & P.) D. Don

Bacasia spinosa R. & P. =Barnadesia dombeyana Lessing
Ref. Cabrera, 1960: 209.

Baccharis absinthioides Hooker & Arnott =Pluchea absinthioides (Hooker & Arnott) H. Robinson & Cuatrecasas
Ref. FP n.s. 26 1991: 58.

Baccharis adscendens Persoon =Baccharis scandens (R. & P.) Persoon
Ref. Cabrera, 1960: 203.

Baccharis alaternoides H.B.K.
Syn. *Baccharis resinosa* H.B.K.
Ref. Cuatrecasas, 1967a: 4.
Shrub. Andean II-III. 2000-4000 m.
Voucher: Humboldt & Bonpland s.n.* (P-H&B), Ferreyra 1299 (US)
Depts.: CA, CU, LI, LL

Baccharis alnifolia Meyen & Walpers
Endemic shrub. Coastal. 0-500 m.
Voucher: Meyen s.n.*, Dillon & Whalen 4018 (F!)
Depts.: AR, LL

Baccharis alpina H.B.K. =Baccharis caespitosa var. alpina (H.B.K.) Cuatrecasas
Ref. Cuatrecasas, 1968: 218.

Baccharis alpina var. *surculosa* Weddell =Baccharis caespitosa var. surculosa (Weddell) Cuatrecasas
Ref. Cuatrecasas, 1968: 219.

Baccharis arbutifolia M. Vahl
Ref. Cuatrecasas, 1967b: 16.
Shrub.
Note: Treated by Index Kewensis & Cuatrecasas, 1967 as based on *Conzya arbutifolia* Lamarck, but there is no reference to Lamarck's name in the protologue, and a different specimen is cited. The Lamark type and species (*B. arbutifolia* (Lamarck) H.B.K.) is said by Cuatrecasas to be endemic to Ecuador. Vahl reports his species as Peruvian.
Voucher: Schumacher s.n.* (C)
Depts.: Without full locality data.

Baccharis aretioides Schultz-Bip. =Mniodes aretioides (Schultz-Bip.) Cuatrecasas
Ref. FP n.s. 26 1991: 53.

Baccharis auriculigera Hieronymus
Ref. Cuatrecasas, 1968: 226.
Endemic shrub. Andean II. 2500-3500 m.
Voucher: Jelski 685* (photo F!), Sagástegui 8260 (HUT, NY!)
Depts.: AM, CA, LL, PI

Baccharis ayacuchensis Cuatrecasas
Ref. Cuatrecasas, 1981a: 69.
Endemic shrub. Andean II-III. 3000-4000 m.
Voucher: Dudley 12005* (US!)
Depts.: AY

Baccharis berberifolia H.B.K. =Baccharis oblongifolia (R. & P.) Persoon
Ref. Cabrera, 1960: 200.

Baccharis boliviensis (Weddell) Cabrera
Syn. *Heterothalamus bolivensis* Weddell, *Pseudobaccharis bolivensis* (Weddell) Cabrera, *Psila bolivensis* (Weddell) Cabrera
Ref. Cabrera, 1975: 256.
Shrub. Andean II-III. 3000-4000 m.

Voucher: Peyton & Peyton 30 (F!)
Depts.: CU

Baccharis brachylaenoides DC. var. **brachylaenoides**
Syn. *Baccharis oblanceolata* Rusby, *Baccharis venulosa* DC.
Ref. Cuatrecasas, 1967b: 66.
Liana or shrub. Andean I-II. 500-2000 m.
Voucher: Haenke s.n.* (G), Boeke 2000 (NY)
Depts.: AM, CU, JU, HU, LO, SM

Baccharis brachylaenoides var. **mathewsii** Cuatecasas
Ref. Cuatrecasas, 1967a: 13.
Endemic shrub.
Note: Known from Peru only from the type locality.
Voucher: Mathews 1838* (K)
Depts.: AM

Baccharis buchtienii H. Robinson
Ref. Robinson, 1988a: 38.
Shrub. Andean II. 3000-3500 m.
Voucher: Luteyn 6428 (NY)
Depts.: CU

Baccharis buddlejoides H.B.K.
Shrub.
Voucher: Humboldt & Bonpland s.n.* (P frag & photo F!)
Depts.: Without full locality data.

Baccharis buxifolia (Lamarck) Persoon
Syn. *Conyza buxifolia* Lamarck
Ref. Cuatrecasas, 1967b: 73.
Shrub. Andean II-III. 3000-4000 m.
Voucher: Jussieu s.n.* (P), Tupayachi 607 (NY)
Depts.: CU

Baccharis caespitosa (R. & P.) Persoon var. **alpina** (H.B.K.) Cuatrecasas
Syn. *Baccharis alpina* H.B.K.
Ref. Cuatrecasas, 1967b: 42; Cuatrecasas, 1968: 219.
Shrub. Andean II-III. 3000-4000 m.
Voucher: Macbride & Featherstone 623 (F!)
Depts.: CU

Baccharis caespitosa var. **caespitosa**
Syn. *Molina caespitosa* R. & P.
Ref. Cuatrecasas, 1968: 218.
Shrub. Andean II-III. 3000- > 4500 m.
Voucher: Pennell 14670 (NY)
Depts.: AN, AP, AR, CA, CU, HV, JU, LI, PU

Baccharis caespitosa var. **surculosa** (Weddell) Cuatrecasas
Syn. *Baccharis alpina* var. *surculosa* Weddell, *Baccharis procumbens* Hieronymus
Ref. Cuatrecasas, 1968: 219.
Shrub. Andean II. 3000-3500 m.
Voucher: Macbride & Featherstone 1868 (F!)
Depts.: CA, CU, HU

Baccharis candolleana Steudel
=Nothobaccharis candolleana (Steudel) King & H. Robinson

[Baccharis cataphracta Sprengel]
Note: Kew Index states that this species is from Peru, but we find no publications. Perhaps a nom. nud.

Baccharis chachapoyasensis Cuatrecasas
Ref. Cuatrecasas, 1964c: 138.
Endemic shrub. Andean II: rocky slopes, shrublands. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 597* (US!), Wurdack 598 (US)
Depts.: AM

Baccharis chilcaura Hieronymus
Ref. Hieronymus, 1905: 477.
Endemic shrub. Andean I. 500-1000 m.
Voucher: Jelski 740* & 771* (B, syntypes), Fosberg 56181 (NY)
Depts.: JU

Baccharis chilco H.B.K.
Syn. *Baccharis obovata* (R. & P.) DC., *Molina obovata* R. & P.
Ref. Cuatrecasas, 1967b: 31.
Shrub. Andean I-III. 1000-4000 m.
Voucher: Killip & Smith 24513 (US!)
Depts.: AM, AN, CU, HU, JU, SM

Baccharis cinnamomifolia H.B.K.
=Baccharis pedunculata (Miller) Cabrera
Ref. Cuatrecasas, 1967b: 48.

Baccharis corymbosa (R. & P.) Persoon
Syn. *Molina corymbosa* R. & P.
Ref. Cuatrecasas, 1968: 226.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Macbride 4480 (F!)
Depts.: HU

Baccharis cutervensis Hieronymus
Syn. *Baccharis pseupospathulata* Teodoro, *Baccharis spathulata* Klatt, non Schauer
Ref. Cuatrecasas, 1967a: 15.
Shrub. Andean II. 2000-3500 m.
Voucher: Jelski 690* (B), Wurdack 1377 (US)
Depts.: AM, CA

Baccharis davidsonii Cuatrecasas
Ref. Cuatrecasas, 1981a: 71.
Endemic shrub. Andean I. 500-1000 m.
Voucher: Davidson & Jones 9000* (US!)
Depts.: JU

Baccharis dependens (R. & P.) Persoon
Syn. *Molina dependens* R. & P.
Ref. Cabrera, 1960: 213.
Shrub.
Voucher: Ruiz & Pavón s.n.* (MA)
Depts.: HU

Baccharis dracunculifolia DC.
Shrub. Andean III: grasslands. 4000-4500 m.
Voucher: Peyton & Peyton 1058 (MO!)
Depts.: CU, LI

Baccharis dudleyi Cuatrecasas
Ref. Cuatrecasas, 1981a: 70.
Endemic shrub. Andean II. 1500-2000 m.
Voucher: Dudley 13183* (NA), Dudley 13238 (NA)
Depts.: HU

Baccharis emarginata (R. & P.) Persoon
Syn. *Molina emarginata* R. & P.
Ref. Cuatrecasas, 1967a: 3.
Shrub. Andean II. 2500-3500 m.
Voucher: Ruiz & Pavón s.n.* (MA), Macbride 3454 (US)
Depts. AY, HU, JU

Baccharis espadae Cuatrecasas
Shrub.
Voucher: Isern 463* (F)
Depts.: Without full locality data.

Baccharis ferruginea (R. & P.) Persoon
=Loricaria ferruginea (R. & P.) Weddell

Baccharis fevillei DC. =Baccharis salicifolia (R. & P.) Persoon
Ref. Cabrera, 1960: 203.
Note: For alternative treatment see Cuatrecasas (1967: 5).

Baccharis floribunda H.B.K. =Baccharis latifolia (R. & P.) Persoon
Ref. Cuatrecasas, 1967b: 15; Cuatrecasas, 1968: 201.

Baccharis frigida H.B.K.
Ref. Robinson, 1988a: 37.
Endemic shrub. Andean II-III. 2500-4000 m.
Voucher: Becker & Terrones 1685 (US!)
Depts.: CA

Baccharis genistelloides (Lamarck) Persoon
Syn. *Baccharis venosa* (R. & P.) Persoon, *Conyza genistelloides* Lamarck, *Molina venosa* R. & P.
Ref. Cuatrecasas, 1967b: 85.
Shrub. Andean I-III. 500-4500 m.
Voucher: Smith & Canne 5783 (NY)
Depts.: AM, AN, AR, CA, CU, JU, LO, PA, PI, PU, SM

Baccharis glutinosa Persoon =Baccharis salicifolia (R. & P.) Persoon
Ref. Cuatrecasas, 1968: 204.

Baccharis grandicapitulata Hieronymus var. **grandicapitulata**
Ref. Cuatrecasas, 1967a: 4.
Endemic shrub. Andean II-III. 2500-4500 m.
Note: Perhaps only a form of *B. emarginata*, according to Cuatrecasas (1967a).
Voucher: Jelski 773* (US!), Wurdack 664 (US)
Depts.: AM, AN, CA, PI

Baccharis grandicapitulata var. **subdentata** Hieronymus
Ref. Cuatrecasas, 1967a: 5.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Jelski s.n.* (US), Killip & Smith 23250 (NY)
Depts.: AY, CA

Baccharis graveolens Schultz-Bip. =Loricaria graveolens (Schultz-Bip.) Weddell
Ref. FP n.s. 26 1991: 46.

Baccharis grindeliifolia Weddell =Baccharis uniflora (R. & P.) Persoon
Ref. Cuatrecasas, 1981a: 72.

Baccharis hutchisonii Cuatrecasas
Ref. Cuatrecasas, 1967b: 25; Robinson, 1988a: 37.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Hutchison & Wright 5173* (F!, US!), Becker 1282 (US)
Depts.: CA

Baccharis ilinissae Bentham =Loricaria ferruginea (R. & P.) Weddell

Baccharis incarum Weddell fo. **incarum**
Syn. *Baccharis microphylla* var. *incarum* Weddell
Ref. Cuatrecasas, 1963: 7; Cuatrecasas, 1967a: 6.
Shrub. Andean III. 3500-4500 m.
Voucher: Weddell s.n.* (P), Hutchison 1735 (NY)
Depts.: AP, AR, PU

Baccharis incarum fo. **prostrata** Cuatrecasas
Ref: Cuatrecasas, 1967a: 8.
Shrub. Andean II-III. 3000-4500 m.
Voucher: Pennell 14670 (US)
Depts.: LI, PU

Baccharis iresinoides H.B.K. =Baccharis salicifolia (R. & P.) Persoon
Ref. Cuatrecasas, 1968: 204.

Baccharis jelskii Hieronymus
Ref. Cuatrecasas, 1967b: 46.
Endemic shrub.
Voucher: Jelski 772* (US!).
Depts.: CA, PA

Baccharis kingii Cuatrecasas
Ref. Cuatrecasas, 1982b: 166.
Shrub. Andean II. 2000-2500 m.
Voucher: King & Collins 9028* (US!), López 3223 (HUT)
Depts.: AN, LI

Baccharis lanceolata H.B.K. =Baccharis salicifolia (R. & P.) Persoon
Ref. Cuatrecasas, 1968: 204.

Baccharis latifolia (R. & P.) Persoon
Syn. *Baccharis floribunda* H.B.K., *Baccharis polyantha* H.B.K., *Baccharis riparia* H.B.K., *Molina latifolia* R. & P.
Ref. Cuatrecasas, 1967b: 15; Cuatrecasas, 1968: 201.
Shrub. Andean I-III. 1000-4000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Hutchison 1666 (F!)
Depts.: AM, AN, AR, AY, CA, CU, HU, HV, JU, LI, PU

Baccharis ledifolia H.B.K.
Ref. Cuatrecasas, 1967a: 21.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Humboldt & Bonpland s.n.* (P-H&B), Hutchison & Wright 6965 (F!)
Depts.: AM, CA

Baccharis libertadensis (S. B. Jones) H. Robinson
Syn. *Vernonia libertadensis* S. B. Jones
Ref. Robinson, 1988a: 37.
Shrub. Andean II: disturbed areas. 3000-3500 m.
Voucher: López 1947* (GA), López 0971 (US)
Depts.: LL

Baccharis lucida Meyen =Parastrephia lucida (Meyen) Cabrera
Ref. Cabrera, 1954a: 57.

Baccharis macraei Hooker & Arnott
Endemic shrub. Andean II-III. 2500-4000 m.
Voucher: Pennell 14636 (NY)
Depts.: LI

Baccharis mapiriiensis Rusby =Baccharis quitensis H.B.K.

Baccharis microphylla DC. =Nothobaccharis candolleana (Steudel) King & H. Robinson
Ref. King & Robinson, 1987: 486.

Baccharis microphylla var. *incarum* Weddell =Baccharis incarum fo. incarum

Baccharis nitida (R. & P.) Persoon
Syn. *Baccharis oronocensis* DC., *Baccharis oronocensis* var. *perua* Cuatrecasas, *Baccharis prinoides* H.B.K., *Molina nitida* R. & P.
Ref. Cuatrecasas, 1967b: 70; Cuatrecasas, 1968: 225.
Shrub. Andean I-II. 500-2500 m.
Voucher: Ruiz & Pavón s.n.* (B frag. F!), Maguire & Maguire 44437 (NY!)
Depts.: AM, AY, CU, HU, JU

Baccharis oblanceolata Rusby =Baccharis brachylaenoides var. brachylaenoides
Ref. Cuatrecasas, 1967b: 66.

Baccharis oblongifolia (R. & P.) Persoon
Syn. *Baccharis berberifolia* H.B.K. *Molina oblongifolia* R. & P.
Ref. Cabrera, 1960: 200; Cuatrecasas, 1967a: 14.
Shrub. Andean II. 2500-3500 m.
Voucher: Wurdack 1644 (NY)
Depts.: AM

Baccharis obovata (R. & P.) DC. =Baccharis chilco H.B.K.
Ref. Cuatrecasas, 1967b: 31.

Baccharis obtusifolia H.B.K.
Shrub. Andean III. 3500-4000 m.
Voucher: Rauh & Hirsch P1493 (NY)
Depts.: AN, AP

Baccharis odorata H.B.K.
Ref. Cuatrecasas, 1969: 279.
Shrub. Andean II. 3000-3500 m.
Voucher: Killip & Smith 21747 (NY)
Depts.: CU, LI

Baccharis oronocensis DC. =Baccharis nitida (R. & P.) Persoon
Ref. Cuatrecasas, 1967b: 70; Cuatrecasas, 1968: 225.

Baccharis oronocensis var. *perua* Cuatrecasas =Baccharis nitida (R. & P.) Persoon
Ref. Cuatrecasas, 1968: 225.

Baccharis oxyphylla DC.
Endemic shrub.
Voucher: Poeppig 1263* (NY)
Depts.: HU

Baccharis pachycephala Hieronymus
Ref. Hieronymus, 1905: 480.
Shrub. Andean II. 2500-3000 m.
Note: For alternative treatment, see Cuatrecasas (1967: 4).
Voucher: Hutchison & Wright 5192 (NY)
Depts.: CA

Baccharis parviflora R. & P. =Baccharis salicifolia (R. & P.) Persoon
Ref. Cabrera, 1960: 214.

Baccharis parviflora (R. & P.) Persoon =Baccharis salicifolia (R. & P.) Persoon
Ref. Cabrera, 1960: 202.

Baccharis parvifolia DC.
Shrub.
Note: The type is from "Peruvia ad Averbrada de Cobrachillo."
Voucher: Haenke s.n.* (PR).
Depts.: Without full locality data.

Baccharis patiensis Hieronymus
Syn. *Baccharis patiensis* var. *pluridentata* Hieronymus
Ref. Hieronymus, 1906: 202.
Shrub. Amazonian, Andean I. 0-1000 m.
Note: Hieronymus's discussion indicates that he considers var. *pluridentata* to be an insignificant variant, and the type is a mixed collection with the typical variety, until then reported only from Colombia.
Voucher: Ule 6470 (B)
Depts.: SM

Baccharis patiensis var. *pluridentata* Hieronymus =Baccharis patiensis Hieronymus
Ref. Hieronymus, 1906: 203.

Baccharis pedunculata (Miller) Cabrera
Syn. *Baccharis cinnamomifolia* H.B.K., *Conyza pedunculata* Miller
Ref. Cuatrecasas, 1967b: 48; Cuatrecasas, 1968: 221.
Shrub. Andean I-II. 500-2500 m.
Voucher: Rimachi 4970 (NY)
Depts.: JU, HU

Baccharis pellucida Hieronymus
Ref. Hieronymus, 1905: 482.
Shrub.
Voucher: Jelski 671* (US), Luteyn 6335 (US!)
Depts.: CA

Baccharis pentlandii DC.
Ref. Cuatrecasas, 1967a: 20.
Shrub. Andean III: grasslands, riversides. 3500-4000 m.
Voucher: Luteyn 6335 (US!)
Depts.: AN, HV, PU

Baccharis peruviana Cuatrecasas
Ref. Cuatrecasas, 1967a: 23.
Shrub. Andean II-III. 3000-4000 m.
Voucher: Soukup 3761* (US!), Kunkel 693 (US)
Depts.: AN, AP, AY, CU, JU

Baccharis petiolata DC.
Shrub. Andean I-II, Coastal. 0-3500 m.
Voucher: Hutchison & Wright 7231 (NY)
Depts.: AR, LA

Baccharis phylicaeformis Meyen
=Parastrephia phylicaeformis (Meyen) Cabrera
Ref. Cabrera, 1954a: 57.

Baccharis phylicoides H.B.K.
Shrub. Andean II. 2000-3500 m.
Voucher: Wurdack 548 (NY)
Depts.: AM, LL, PI

Baccharis polyantha H.B.K. =Baccharis latifolia (R. & P.) Persoon
Ref. Cabrera, 1960: 198.

Baccharis prinoides H.B.K. =Baccharis nitida (R. & P.) Persoon
Ref. Cuatrecasas, 1967b: 70; Cuatrecasas, 1968: 225.

Baccharis procumbens Hieronymus
=Baccharis caespitosa var. surculosa (Weddell) Cuatrecasas
Ref. Cuatrecasas, 1968: 219.

Baccharis prostrata R. & P. =Baccharis tricuneata var. ruiziana Cuatrecasas
Ref. Cuatrecasas, 1968: 214.

Baccharis prostrata var. *lineata* Cuatrecasas =Baccharis tricuneata var. lineata (Cuatrecasas) Cuatrecasas
Ref. Cuatrecasas, 1968: 214.

Baccharis prunifolia H.B.K.
Ref. Cuatrecasas, 1969: 249.
Shrub. Andean II-III. 2500-4500 m.
Voucher: Humboldt & Bonpland s.n.* (P frag. F!), Foster 8999 (F!)
Depts.: CU, PA

Baccharis pseudospathulata Teodoro
=Baccharis cutervensis Hieronymus
Ref. Cuatrecasas, 1967b: 15.
Note: New name for *Baccharis spathulata* Klatt non Schauer.

Baccharis pulchella Schultz-Bip. ex Klatt
Ref. Cuatrecasas, 1968: 225.
Shrub. Andean II-III. 2500-4000 m.
Voucher: Macbride & Featherstone 1843 (F!)
Depts.: AY, CU, LI, PU

Baccharis pulverulenta Klatt
Shrub.
Voucher: D'Orbigny 1143 (P photo F!)
Depts.: Without full locality data.

Baccharis quadrangularis Meyen
=Lepidophyllum quadrangulare (Meyen) Bentham & Hooker f.
Ref. Cabrera, 1954a: 57.

Baccharis quitensis H.B.K.
Syn. *Baccharis mapiriensis* Rusby
Ref. Hieronymus, 1905: 482; Cuatrecasas, 1967a: 8.
Shrub. Andean I-II. 1000-2500 m.
Voucher: Hutchison & Wright 4463 (NY)
Depts.: AM, CA, CU

Baccharis radin Philippi
Shrub.
Voucher: Rusby 1586 (NY)
Depts.: AR, LI, TA

Baccharis resinosa H.B.K. =Baccharis alaternoides H.B.K.

Baccharis revoluta H.B.K.
Shrub.
Voucher: Humboldt & Bonpland s.n.* (B photo F!)
Depts.: Without full locality data.

Baccharis rhexioides H.B.K. =Baccharis trinervis (Lamarck) Persoon
Ref. Cuatrecasas, 1967b: 49; Cuatrecasas, 1969: 272.

Baccharis riparia H.B.K. =Baccharis latifolia (R. & P.) Persoon
Ref. Cuatrecasas, 1967b: 15; Cuatrecasas, 1968: 201.

Baccharis salicifolia (R. & P.) Persoon
Syn. *Baccharis fevillei* DC., *Baccharis glutinosa* Persoon, *Baccharis iresinoides* H.B.K., *Baccharis lanceolata* H.B.K., *Baccharis parviflora* R. & P., *Baccharis parviflora* (R. & P.) Persoon, *Baccharis viscosa* (R. & P.) Kuntze, *Molina parviflora* R. & P., *Molina salicifolia* R. & P., *Molina striata* R. & P., *Molina viscosa* R. & P.
Ref. Cabrera, 1960: 214; Cuatrecasas, 1968: 204.
Shrub. Amazonian, Andean I-II, Coastal. 0-3500 m.
Voucher: Ruiz & Pavón s.n. * (MA), Pennell 14346 (NY)
Depts.: AP, CA, JU, HU, LA, LI, LL, LO, SM

Baccharis scabra (R. & P.) Persoon
Syn. *Molina scabra* R. & P.
Ref. Cabrera, 1960: 213.
Endemic shrub.
Voucher: Ruiz & Pavón s.n.* (MA)
Depts.: JU

Baccharis scandens (R. & P.) Persoon
Syn. *Baccharis adscendens* Persoon, *Molina scandens* R. & P.
Ref. Cabrera, 1960: 203; Cuatrecasas, 1967a: 5.
Shrub. Andean I. 500-1500 m.
Note: For alternative treatment, see Cuatrecasas (1967: 5).
Voucher: Ruiz & Pavón s.n.* (MA), Hutchison & Wright 3570 (NY)
Depts.: CA

Baccharis semiserrata DC. =Baccharis sternbergiana Steudel
Ref. Robinson, 1988a: 38.

Baccharis sinuata H.B.K.
Liana. Andean II. 1500-2500 m.
Voucher: Humboldt & Bonpland s.n.* (B photo F!)
Depts.: PI

Baccharis solomonii H. Robinson
Ref. Robinson, 1988a: 40.
Liana. Andean II: elfin forests. 2500-3000 m.
Voucher: Boeke & Boeke 3107 (US!)
Depts.: PU

Baccharis spathulata Klatt non Schauer
=Baccharis cutervensis Hieronymus
Ref. Cuatrecasas, 1967a: 15.

Baccharis sternbergiana Steudel
Syn. *Baccharis semiserrata* DC.
Ref. Robinson, 1988a: 38.
Shrub. Andean I-II. 1000-3000 m.
Voucher: Hutchison & Wright 4472 (NY)
Depts.: AM, AN, CA, LL

Baccharis stuebelii Hieronymus
Shrub. Andean II. 3000-3500 m.
Voucher: Stubel 37* (B photo F!)
Depts.: Without full locality data.

Baccharis subalata Weddell
Shrub. Andean I-II. 1000-3500 m.
Voucher: Boeke & Boeke 3104 (NY)
Depts.: PU

Baccharis subbimera Hieronymus
Shrub. Andean II. 1500 m.
Voucher: Stuebel 56* (B photo F)
Depts.: SM

Baccharis subsculpta Hochreutiner
Shrub.
Voucher: Matthews 564 (NY)
Depts.: LI

Baccharis tarmensis Cuatrecasas
Ref. Cuatrecasas, 1967a: 22.
Endemic shrub. Andean II: riversides. 3000-3500 m.
Voucher: Ruiz & Pavón s.n.* (G), Hutchison & Wright 6982 (NY)
Depts.: AM, CA, JU

Baccharis thuyoides (Lamarck) Persoon
=Loricaria thuyoides var. thuyoides

Baccharis tomentosa (R. & P.) Persoon
Syn. *Molina tomentosa* R. & P.
Ref. Cabrera, 1960: 204; Cuatrecasas, 1967a: 21.
Endemic shrub. Andean III. 3500-4500 m.
Voucher: Ruiz & Pavón s.n.* (MA), Ferreyra 5817 (US, USM)
Depts.: AN

Baccharis tricuneata (L. f.) Persoon var. **lineata** (Cuatrecasas) Cuatrecasas
Syn. *Baccharis prostrata* var. *lineata* Cuatrecasas
Ref. Cuatrecasas, 1968: 214.
Shrub. Andean II. 3000-3500 m.
Voucher: Isern 438* (US!), Fosberg 28378 (NY)
Depts.: JU, CU

Baccharis tricuneata var. **robusta** Cuatrecasas
Ref. Cuatrecasas, 1968: 215.
Shrub. Andean II-III. 2500-4000 m.
Voucher: Macbride & Featherstone 2468* (F!), Pennell 14636 (US!)
Depts.: AY

Baccharis tricuneata var. **ruiziana** Cuatrecasas
Syn. *Baccharis prostrata* (R. & P.) Persoon, *Molina prostrata* R. & P.
Ref. Cuatrecasas, 1968: 214.
Shrub. Andean II-III. 3000-4000 m.
Voucher: Ruiz & Pavón s.n.* (G), Killip & Smith 22172 (US!)
Depts.: CU, JU

Baccharis tricuneata var. **tricuneata**
Syn. *Erigeron tricuneatum* L. f.
Ref. Cuatrecasas, 1967b: 34; Cuatrecasas, 1968: 212.
Shrub. Andean II-III. 2000-4500 m.
Voucher: Hutchison & Wright 4335 (NY)
Depts.: AN, AP, AR, CA, CU, HU, JU, LI, LL, PU, SM

Baccharis tricuneata var. **tricuneata** fo. **angusta** Cuatrecasas
Ref. Cuatrecasas, 1968: 215.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Weberbauer 5826* (US!), Weberbauer 5823 (GH)
Depts.: AY

Baccharis tricuneata var. **tricuneata** fo. **callaensis** Cuatrecasas
Ref. Cuatrecasas, 1968: 218.
Endemic shrub. Andean II: shrublands. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 1706* (US!)
Depts.: AM

Baccharis trinervis (Lamarck) Persoon
Syn. *Baccharis rhexioides* H.B.K., *Conyza trinervis* Lamarck
Ref. Cuatrecasas, 1967b: 49.
Shrub. Amazonian, Andean I-II. 0-3000 m.
Voucher: Sagástegui 12359 (NY)
Depts.: AM, CA, CU, HU, JU, LO, PI, SM

Baccharis uniflora (R. & P.) Persoon
Syn. *Baccharis grindeliifolia* Weddell, *Molina uniflora* R. & P.
Ref. Cuatrecasas, 1981a: 72; Robinson, 1988a: 38.
Shrub. Andean III: grasslands, rocky slopes, shrublands. 3500-4500 m.
Voucher: Macbride & Featherstone 1053 (F!)
Depts.: AN, CU, IC, JU, LL

Baccharis venosa (R. & P.) Persoon =Baccharis genistelloides (Lamarck) Persoon
Ref. Cuatrecasas, 1967b: 85.

Baccharis venulosa DC. =Baccharis brachylaenoides var. brachylaenoides
Ref. Cuatrecasas, 1967b: 66.

Baccharis venulosoides Malagarriga
Ref. Malagarriga, 1977: 139.
Endemic shrub. Andean II. 2500-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 1645* (US!)
Depts.: AM

Baccharis viscosa (R. & P.) Kuntze =Baccharis salicifolia (R. & P.) Persoon
Ref. Cuatrecasas, 1968: 204.

Baccharis volubilis H.B.K.
Vine. Andean II. 3000-3500 m.
Voucher: Humboldt & Bonpland s.n.* (B photo F)
Depts.: PI

Baccharoides brachylepis (Schultz-Bip. ex Baker) Kuntze =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Baccharoides holtonii (Baker) Kuntze =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Baccharoides muticum (H.B.K.) Kuntze =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Baccharoides punctatum (Cassini) Kuntze =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Baccharoides violaceum (Schrank) Kuntze =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Badilloa drepanoides (B. Robinson) King & H. Robinson
Syn. *Eupatorium drepanoides* B. Robinson
Ref. King & Robinson, 1987: 350, 487.
Endemic shrub. Andean III. 3500-4000 m.
Voucher: Weberbauer 2918a* (B destroyed)
Depts.: AN

Badilloa helianthifolia (H.B.K.) King & H. Robinson
Syn. *Eupatorium helianthifolium* H.B.K.
Ref. King & Robinson, 1987: 350, 487.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Humboldt & Bonpland s.n.* (P-H&B), Soukup 4346 (US!)
Depts.: PI

Badilloa herrerae (B. Robinson) King & H. Robinson
Syn. *Eupatorium herrerae* B. Robinson
Ref. King & Robinson, 1987: 350, 487.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Herrera 1593* (F!)
Depts.: CU

Badilloa procera (B. Robinson) King & H. Robinson
Syn. *Eupatorium procerum* B. Robinson
Ref. King & Robinson, 1987: 350, 487.
Endemic shrub. Andean II: disturbed areas, rocky slopes. 2500-3000 m.
Voucher: Macbride & Featherstone 1551* (F!)
Depts.: HU

Badilloa sphagnophila (B. Robinson) King & H. Robinson
Syn. *Eupatorium sphagnophilum* B. Robinson
Ref. King & Robinson, 1987: 351, 487.
Endemic shrub. Andean II. 1500-3500 m.
Voucher: Macbride 4968* (F!)
Depts.: CU, HU

Baillieria aspera Aublet =Clibadium asperum (Aublet) DC.

Baillieria sylvestris Aublet =Clibadium sylvestre (Aublet) Baillon

Baltimora geminata (Brandegee) Stuessy
Syn. *Melampodium geminata* Brandegee
Ref. Stuessy, 1973: 42.
Herb. Amazonian, Andean I, Coastal: disturbed areas. 0-1000 m.
Voucher: Macbride 5457 (F!, GH)
Depts.: JU, TU

Baltimora recta L.
Ref. Stuessy, 1973: 35.
Herb. Amazonian: disturbed areas. 0-500 m.
Voucher: Gentry *et al.* 18640 (F!)
Depts.: LO

Barnadesia berberoides Schultz-Bip.
Syn. *Barnadesia macrocephala* Kuntze, *Barnadesia pycnophylla* Muschler
Shrub. Andean II-III: grasslands, rocky slopes. 3000-4000 m.
Voucher: Lechler s.n.* (B photo F!), Macbride & Featherstone 1830 (F!)
Depts.: AP, CU, HU, HV, JU, PU

Barnadesia blakeana Ferreyra
Ref. Ferreyra, 1964: 14.
Endemic shrub. Andean II: shrublands. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Ferreyra 10427* (MO!)
Depts.: LI

Barnadesia caryophylla (Vell. Conc.) S. F. Blake
Syn. *Xenophontia caryophylla* Vell. Conc.
Ref. Harling, 1991: 6.
Cultivated shrub. Andean I: shrublands. 500-1500 m.

Voucher: Ferreyra 3696 (MO!)
Depts.: AM, CA, CU, JU, LA, LI, SM

Barnadesia chachapoyasensis Chung
=Barnadesia wurdackii Ferreyra
Ref. Harling, 1991: 17.

Barnadesia coccinosantha Muschler
=Arnaldoa coccinosantha (Muschler) Ferreyra
Ref. Ferreyra, 1965a: 4.

Barnadesia corymbosa (R. & P.) D. Don
Syn. *Bacasia corymbosa* R. & P., *Barnadesia venosa* Rusby
Tree. Andean I-II: forests. 1000-3000 m.
Note: For alternative treatment, see Harling (1991: 12).
Voucher: Weberbauer 6717 (F!)
Depts.: CA, CU, HU

Barnadesia dombeyana Lessing
Syn. *Bacasia spinosa* R. & P., *Barnadesia lanceolata* D. Don, *Chuquiraga spinosa* (R. & P.) D. Don
Ref. Cabrera, 1960: 209.
Shrub. Andean II-III: rocky slopes, shrublands. 2000-4500 m.
Note: For alternative treatment, see Chung (1965: 57).
Voucher: Dombey 448* (P photo F!), Macbride & Featherstone 1222 (F)
Depts.: AN, CA, HU, LL, LI, PA

Barnadesia glomerata Kuntze var. *distincta* Chung =Barnadesia macbridei Ferreyra
Ref. Chung, 1965: 36.

Barnadesia horrida Muschler
Syn. *Chuquiraga seleriana* Muschler
Ref. Muschler, 1914: 100; Chung, 1965: 29.
Shrub. Andean II-III: shrublands. 3000-4000 m.
Voucher: Weberbauer 4859* (USM), Herrera 1544 (US!)
Depts.: AY, CU, HV

Barnadesia hutchisoniana Ferreyra
Ref. Ferreyra, 1964: 30
Endemic shrub. Andean I-II: shrublands. 1000-3500 m.
Voucher: Ferreyra 15201* (US!), Gentry *et al.* 23188 (MO!)
Depts.: AM, CA, PI

Barnadesia jelskii Hieronymus
Ref. Harling, 1991: 13.
Shrub. Andean II-III: rocky slopes, shrublands. 2500-4000 m.
Voucher: Jelski 748* (B photo F!), Dillon & Turner 1637 (MO!)
Depts.: AM, CA, HU, LL, PI

Barnadesia lanceolata D. Don
=Barnadesia dombeyana Lessing
Ref. Cabrera, 1960: 209.

Barnadesia laurifolia (Humboldt & Bonpland) Hieronymus =Fulcaldea laurifolia (Humboldt & Bonpland) Poiret ex Lessing
Ref. Harling, 1991: 20.

Barnadesia lehmannii Hieronymus
Syn. *Barnadesia lehmannii* var. *angustifolia* Chung
Ref. Harling, 1991: 8.
Shrub. Andean II. 1500-2500 m.
Voucher: Hutchison & Wright 6684 (UC)
Depts.: LA, PI, TU

Barnadesia lehmanni var. *angustifolia* Chung =Barnadesia lehmannii Hieronymus
Ref. Chung, 1965: 50.

Barnadesia macbridei Ferreyra
Syn. *Barnardesia golmerata* var. *distincta* Chung
Ref. Ferreyra, 1964: 23.
Endemic shrub. Andean II: rocky slopes. 2000-3500 m.
Voucher: Macbride 3878* (F), Woytkowski 34335 (F!)
Depts.: HU, JU, LI

Barnadesia macrocephala Kuntze =Barnadesia berberoides Schultz-Bip.
Ref. Chung, 1965: 32.

Barnadesia polyacantha Weddell
Ref. Harling, 1991: 12.
Shrub. Andean II: cloud forests, shrublands. 2000-3500 m.
Voucher: Vargas 440 (F!, USM)
Depts.: CU, JU, PU

Barnadesia pycnophylla Muschler =Barnadesia berberoides Schultz-Bip.
Ref. Muschler, 1914: 101.

Barnadesia reticulata D. Don
Ref. Chung, 1965: 56.
Endemic shrub. Andean II: rocky slopes, shrublands. 2500-3000 m.
Voucher: Ruiz & Pavón s.n.* (BM), Ferreyra 6914 (USM)
Depts.: IC, JU, LI

Barnadesia venosa Rusby =Barnadesia corymbosa (R. & P.) D. Don
Ref. Chung, 1965: 51.

Barnadesia weberbaueri Muschler =Arnaldoa weberbaueri (Muschler) Ferreyra
Ref. Ferreyra, 1965a: 2.

Barnadesia wurdackii Ferreyra
Syn. *Barnadesia chachapoyasensis* Chung
Ref. Ferreyra, 1964: 16.
Endemic shrub. Andean II: shrublands. 2000-3500 m.
Voucher: Wurdack 681* (MO!), Hutchison & Wright 5596 (UC)
Depts.: AM

Bartlettina macromeris (B. Robinson) King & H. Robinson
Syn. *Eupatorium macromeris* B. Robinson
Ref. King & Robinson, 1987: 406.
Endemic shrub. Andean I-II: rocky slopes. 500-2000 m.
Voucher: Pavón s.n.* (G), Macbride 3785 (F!)
Depts.: HU, JU, LO

Belloa cerrateae (Ferreyra) Sagástegui & Dillon =Belloa schultzii (Weddell) Cabrera
Ref. Sagástegui & Dillon, 1985b: 396.

Belloa longifolia (Cuatrecasas & Aristeguieta) Sagástegui & Dillon
Syn. *Lucilia longifolia* Cuatrecasas & Aristeguieta
Ref. FP n.s. 26 1991: 12; Sagástegui & Dillon, 1985b: 396.
Herb. Andean III: grasslands, shrublands. 3500- > 4500 m.
Voucher: Sagástegui *et al.* 12853 (F!)
Depts.: AN, AY, CA, CU, JU, LA, LL

Belloa lopezmirandae Cabrera
Syn. *Lucilia lopezmirandae* (Cabrera) Freire
Ref. FP n.s. 26 1991: 14.
Endemic herb. Andean II: grasslands. 3000-3500 m.
Voucher: López 858* (F!, HUT), López 1864 (F!, HUT)
Depts.: LL

Belloa pickeringii (A. Gray) Sagástegui & Dillon
Syn. *Belloa pickeringii* var. *minor* A. Gray, *Lucilia pickeringii* A. Gray, *Lucilia pickeringii* var. *minor* A. Gray
Ref. FP n.s. 26 1991: 14; Sagástegui & Dillon, 1985b: 396.
Endemic herb. Andean III: grasslands. 3500-4500 m.
Voucher: Wilkes Exped. s.n.* (GH), Macbride & Featherstone 705 (F!)
Depts.: CU, JU, LI

Belloa pickeringii var. *minor* A. Gray =Belloa pickeringii (A. Gray) Sagástegui & Dillon
Ref. FP n.s. 26 1991: 14.

Belloa piptolepis (Weddell) Cabrera
Syn. *Gnaphalium piptolepis* (Weddell) Grisebach, *Lucilia piptolepis* Weddell, *Merope piptolepis* Weddell
Ref. FP n.s. 26 1991: 14.
Herb. Andean II-III: grasslands, shrublands. 3000- > 4500 m.
Voucher: Sagástegui *et al.* 12906 (HUT)
Depts.: AN, AY, CA, CU, JU, LA, LL, MO, PU

Belloa plicatifolia Sagástegui & Dillon
Syn. *Lucilia plicatifolia* (Sagástegui & Dillon) Freire
Ref. FP n.s. 26 1991: 15; Sagástegui & Dillon, 1985b: 394.
Endemic herb. Andean II-III: rocky slopes, shrublands. 3000-4000 m.
Voucher: Sagástegui *et al.* 10117* (HUT), Sagástegui *et al.* 10010 (MO!)
Depts.: CA, LL

Belloa schultzii (Weddell) Cabrera
Syn. *Belloa cerrateae* (Ferreyra) Sagástegui & Dillon, *Gnaphalium schultzii* Weddell, *Lucilia schultzii* (Weddell) Freire, *Merope schultzii* Weddell, *Mniodes cerratei* Ferreyra
Ref. FP n.s. 26 1991: 16.
Herb. Andean III: dry valleys, grasslands.

4000-4500 m.
Voucher: Lechler 1984* (P), Dillon *et al.* 3346A (HUT, MO)
Depts.: AR, CU, JU, LI, MO

Belloa spathulifolia Sagástegui & Dillon
Ref. FP n.s. 26 1991: 16; Sagástegui & Dillon, 1985b: 394.
Endemic herb. Andean II: shrublands. 3000-3500 m.
Voucher: Sagástegui *et al.* 11695* (HUT, MO)
Depts.: CA, LL

Belloa subspicata Weddell
Syn. *Lucilia subspicata* (Weddell) Freire
Ref. FP n.s. 26 1991: 16.
Herb. Andean II-III. 2500-4500 m.
Voucher: Sagástegui & López 10640 (MO)
Depts.: CA, CU, HU, JU, LI, LL, PU

Belloa turneri Sagástegui & Dillon
Ref. FP n.s. 26 1991: 18; Sagástegui & Dillon, 1985b: 392.
Herb. Andean II-III: shrublands. 3000-4500 m.
Voucher: Sagástegui *et al.* 10087* (HUT, MO), Sagástegui *et al.* 9547 (F!)
Depts.: AN, CA, LL

Bidens abadiae DC. var. **abadiae**
Ref. Sherff, 1937b: 357.
Herb.
Voucher: Abadia s.n.* (G-DC)
Depts.: LI

Bidens abadiae var. **pilosoides** Sherff
Ref. Sherff, 1937b: 358.
Endemic herb.
Voucher: Cuming 1041* (K), Rose 18740 (NY)
Depts.: LI

Bidens alausensis H.B.K. =Bidens pilosa var. alausensis (H.B.K.) Sherff
Ref. Sherff, 1937b: 450.

Bidens andicola H.B.K. var. **andicola**
Syn. *Bidens buchtienii* Scherff
Ref. Sherff, 1937b: 494.
Herb. Andean II-III: disturbed areas, grasslands. 3000-4500 m.
Voucher: Dillon *et al.* 1258 (F!)
Depts.: CU, HU, JU, LI, LL, PU

Bidens andicola var. **decomposita** Kuntze
Ref. Sherff, 1937b: 499.
Herb. Andean II-III. 1500- > 4500 m.
Voucher: Macbride & Featherstone 441 (F!)
Depts.: CU, JU

Bidens bipinnata var. *cynapiifolia* (H.B.K.) Gómez =Bidens cynapiifolia H.B.K.

Bidens buchtienii Scherff =Bidens andicola var. andicola
Ref. Sherff, 1937b: 502.

Bidens calcicola Greenman =Bidens pilosa var. calcicola (Greenman) Scherff
Ref. Sherff, 1937b: 455.

Bidens cynapiifolia H.B.K.
Syn. *Bidens bipinnata* var. *cynapiifolia* (H.B.K.) Gómez
Ref. Sherff, 1937b: 468.
Herb. Amazonian: disturbed areas. 0-500 m.
Voucher: Rimachi 7344 (NY)
Depts.: JU, LO, SM, TU

Bidens exigua Sherff
Ref. Sherff, 1937b: 382.
Herb. Andean I-II: rocky slopes. 500-2500 m.
Voucher: Townsend 1513* (US!), Macbride 2873 (F!)
Depts.: AN, HU, LI, MO

Bidens humilis H.B.K. =Bidens triplinervia var. triplinervia
Ref. Sherff, 1937b: 502.

Bidens laevis (L.) Britton *et al.*
Syn. *Helianthus laevis* L.
Ref. Sherff, 1937a: 313.
Aquatic herb. Andean II. 2000-2500 m.
Voucher: Wurdack 892 (NY)
Depts.: AM

Bidens leucantha Willdenow =Bidens pilosa var. radiata Schultz-Bip.
Ref. Sherff, 1937b: 430.

Bidens macrantha Weddell =Bidens triplinervia var. macrantha (Weddell) Sherff
Ref. Sherff, 1937b: 499.

Bidens mollis Poeppig =Bidens triplinervia var. mollis (Poeppig) Sherff
Ref. Sherff, 1937b: 522.

Bidens monticola Poeppig
Ref. Sherff, 1937a: 167.
Endemic shrub. Andean II. 1500-2500 m.
Voucher: Poeppig s.n.* (W), Killip & Smith 24114 (NY)
Depts.: JU, HU

Bidens nivea L. =Melanthera nivea (L.) Small
Ref. Sherff, 1937b: 640.

Bidens ocymifolia Lamarck =Acmella alba var. alba
Ref. Sherff, 1937b: 197.

Bidens patula Gardner =Bidens segetum var. patula (Gardner) Sherff

Bidens pilosa L. var. **alausensis** (H.B.K.) Sherff
Syn. *Bidens alausensis* H.B.K., *Bidens scandicina* H.B.K.
Ref. Sherff, 1937b: 450.
Herb. Andean II. 2000-3000 m.
Voucher: Wurdack 449 (NY)
Depts.: AM, CA, CU, HU, JU

Bidens pilosa var. **calcicola** (Greenman) Scherff
Syn. *Bidens calcicola* Greenman
Ref. Sherff, 1937b: 455.
Herb. Andean II. 2000-3500 m.
Voucher: Wurdack 444 (NY)
Depts.: AM, LL

Bidens pilosa L. var. *dubia* (Cassini) O. E. Schulz =Bidens pilosa var. minor (Blume) Sherff
Ref. Sherff, 1937b: 422.

Bidens pilosa var. **minor** (Blume) Sherff
Syn. *Bidens pilosa* var. *dubia* (Cassini) O. E. Schulz, *Bidens sundaica* var. *minor* Blume
Ref. Sherff, 1937b: 421.
Herb. Andean I-II, Coastal. 0-2500 m.
Voucher: Grant 7452 (NY)
Depts.: AR, LI, PI

Bidens pilosa var. **pilosa**
Ref. Sherff, 1937b: 412.
Herb or subshrub. Amazonian, Andean I-III, Coastal: disturbed areas. 0-4000 m.
Voucher: Fosberg 28211 (NY)
Depts.: AM, AY, CA, CU, HU, HV, JU, LI, LL, LO, SM, TA

Bidens pilosa var. **radiata** Schultz-Bip.
Syn. *Bidens leucantha* Willdenow
Ref. Sherff, 1937b: 430.
Herb. Amazonian, Andean I-III. Coastal. 0-4000 m.
Voucher: Klug 4264 (NY)
Depts.: CU, HU, LI, SM

Bidens pseudocosmos Sherff
Ref. Sherff, 1937b: 410.
Herb. Andean II; disturbed areas, riversides. 1500-2500 m.
Voucher: Macbride 2904 (F!)
Depts.: AN, LI

Bidens refracta Brandegee =Bidens riparia var. refracta (Brandegee) O. E. Schulz
Ref. Sherff, 1937b: 475.

Bidens rhombifolia Schultz-Bip. =Heterosperma ovalifolium Cavanilles
Ref. Sherff, 1937b: 642.

Bidens riparia H.B.K. var. **refracta** (Brandegee) O. E. Schulz
Syn. *Bidens refracta* Brandegee
Ref. Sherff, 1937b: 475.
Shrub. Amazonian, Coastal. 0-500 m.
Voucher: Schunke 3006 (NY)
Depts.: LO, PI, TU

Bidens riparia var. **riparia**
Ref. Sherff, 1937b: 474.
Shrub. Amazonian, Coastal: disturbed areas, riversides. 0-500 m.
Voucher: Schunke 3006 (NY)
Depts.: LO, PI, TU

Bidens rubifolia H.B.K.
Syn. *Bidens segetum* C. Martius ex Colla
Ref. Sherff, 1937a: 187.
Liana or shrub. Andean I-II. 500-3500 m.
Voucher: Killip & Smith 22490 (NY)
Depts.: AY, CA, CU, HU, JU, LL, PU, SM

Bidens scandens L. =Salmea scandens (L.) DC.
Ref. Sherff, 1937b: 643.

Bidens scandicina H.B.K. =Bidens pilosa var. alausensis (H.B.K.) Sherff
Ref. Hieronymus, 1905: 496.

Bidens segetum C. Martius ex Colla =Bidens rubifolia H.B.K.
Ref. Sherff, 1937a: 194.

Bidens segetum var. **patula** (Gardner) Sherff
Syn. *Bidens patula* Gardner
Ref. Sherff, 1937a: 197.
Shrub. Andean I. 500-1000 m.
Voucher: Killip & Smith 23453 (NY)
Depts.: CA, JU

Bidens squarrosa H.B.K.
Ref. Sherff, 1937a: 179.
Liana or shrub. Andean I-II. 500-3000 m.
Voucher: Killip & Smith 5348 (NY)
Depts.: CA, JU

Bidens sundaica var. *minor* Blume =Bidens pilosa var. minor (Blume) Sherff
Ref. Sherff, 1937b: 421.

Bidens triplinervia H.B.K. var. **macrantha** (Weddell) Sherff
Syn. *Bidens macrantha* Weddell
Ref. Sherff, 1937b: 510.
Shrub. Andean II-III. 2000-4500 m.
Voucher: Macbride 3501 (NY)
Depts.: AM, AP, AY, CA, CU, HU, HV, PA, PU

Bidens triplinervia var. **mollis** (Poeppig) Sherff
Syn. *Bidens mollis* Poeppig
Ref. Sherff, 1937b: 520.
Shrub. Andean II: forest. 2000-2500 m.
Voucher: Poeppig 1377* (W), Wurdack 48 (NY)
Depts.: AM

Bidens triplinervia var. **triplinervia**
Syn. *Bidens humilis* H.B.K.
Ref. Sherff, 1937b: 506.
Herb or shrub. Andean II-III: disturbed areas. 2500-4000 m.
Voucher: Smith & Vásquez 3451 (NY)
Depts.: AP, AR, CA, CU, HV, JU, LI, LL, PA, PI, PU

Bidens verticillata L. =Trichospira verticillata (L.) S. F. Blake
Ref. FP n.s. 11 1982: 6.

Bigelowia lehmannii Hieronymus =Llerasia lindenii Triana
Ref. Blake, 1927b: 113; Cuatrecasas, 1970b: 43.

Bishopanthus soliceps H. Robinson
Ref. Robinson, 1983c: 63.
Endemic shrub. Andean I. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: King & Bishop 9280* (US!)
Depts.: AM

Blumea lyrata (H.B.K.) Badillo =Blumea viscosa (Miller) Badillo
Ref. FP n.s. 26 1991: 20.

Blumea viscosa (Miller) Badillo
Syn. *Blumea lyrata* (H.B.K.) Badillo, *Blumea viscosa* (Miller) D'Arcy, *Conyza lyrata* H.B.K., *Conyza viscosa* Miller, *Ernstia lyrata* (H.B.K.) Badillo, *Eschenbachia lyrata* (H.B.K.) Britton & Millspaugh, *Pseudoconyza lyrata* (H.B.K.) Cuatrecasas, *Pseudoconyza viscosa* (Miller) D'Arcy
Ref. FP n.s. 26 1991: 20.
Herb. Coastal. 0-500 m.
Voucher: Sagástegui & Mostacero 11361 (HUT, MO)
Depts.: CA, LA

Blumea viscosa (Miller) D'Arcy =Blumea viscosa (Miller) Badillo
Ref. FP n.s. 26 1991: 20.

Borrichia peruviana (Lamarck) DC.
Syn. *Buphthalmum lineare* Willdenow, nom. illeg., *Buphthalmum peruvianum* Lamarck
Ref. Semple, 1979: 693.
Endemic herb.
Note: Known from Peru only from the type locality. Based on a sterile collection possibly representing an introduction that did not become established (Semple, 1979).
Voucher: Dombey s.n.* (G-DC)
Depts.: Without full locality data.

Brickellia diffusa (M. Vahl) A. Gray
Syn. *Eupatorium diffusum* M. Vahl
Ref. King & Robinson, 1987: 223, 488.
Herb. Amazonian, Andean I-II. 0-2500 m.
Voucher: Mexia 8028 (F!)
Depts.: AM, CA, CU, HU, LA, LL

Brickellia microphylla (DC.) Hieronymus =Nothobaccharis candolleana (Steudel) King & H. Robinson
Ref. King & Robinson, 1987: 487.

Buphthalmum lineare Willdenow, nom. illeg. =Borrichia peruviana (Lamarck) DC.
Ref. Semple, 1979: 693.

Buphthalmum peruvianum Lamarck =Borrichia peruviana (Lamarck) DC.
Ref. Semple, 1979: 693.

Cacalia argyropappa (Buek) Kuntze =Vernonia salzmannii DC.
Ref. FP n.s. 5 1980: 46.

Cacalia aschenborniana (Schauer) Kuntze =Vernonia patens H.B.K.
Ref. FP n.s. 5 1980: 35.

Cacalia baccharoides (H.B.K.) Kuntze =Vernonia patens H.B.K.
Ref. FP n.s. 5 1980: 35.

Cacalia brachiata (Bentham) Kuntze =Vernonia brachiata Bentham ex Oersted
Ref. FP n.s. 5 1980: 41.

Cacalia bullata (Bentham) Kuntze =Vernonia canescens H.B.K.
Ref. FP n.s. 5 1980: 44.

Cacalia canescens (Bentham) Kuntze =Vernonia canescens H.B.K.
Ref. FP n.s. 5 1980: 44.

Cacalia cordifolia L. f. =Mikania cordifolia (L. f.) Willdenow
Ref. FP n.s. 9 1982: 17; King & Robinson, 1987: 490.

Cacalia ferruginea (Lessing) Kuntze =Vernonia ferruginea Lessing
Ref. FP n.s. 5 1980: 33.

Cacalia gracilis (H.B.K.) Kuntze =Vernonia gracilis H.B.K.
Ref. FP n.s. 5 1980: 31.

Cacalia haenkeana (DC.) Kuntze =Vernonia patens H.B.K.
Ref. FP n.s. 5 1980: 35.

Cacalia involucrata H.B.K. =Lasiocephalus involucratus (H.B.K.) Cuatrecasas
Ref. Cuatrecasas, 1978: 310.

Cacalia lanceolaris (DC.) Kuntze =Vernonia patens H.B.K.
Ref. FP n.s. 5 1980: 35.

Cacalia laurifolia (DC.) Kuntze =Vernonia laurifolia DC.
Ref. FP n.s. 5 1980: 32.

Cacalia mikaniaefolia DC. =Paracalia jundioides (Hooker & Arnott) Cuatrecasas

Cacalia mollis (H.B.K.) Kuntze =Vernonia canescens H.B.K.
Ref. FP n.s. 5 1980: 44.

Cacalia moritziana (Schultz-Bip.) Kuntze =Vernonia gracilis H.B.K.
Ref. FP n.s. 5 1980: 31.

Cacalia myriocephala (DC.) Kuntze =Vernonia myriocephala DC.
Ref. FP n.s. 5 1980: 43.

Cacalia patens (H.B.K.) Kuntze =Vernonia patens H.B.K.
Ref. FP n.s. 5 1980: 35.

Cacalia salzmannii (DC.) Kuntze =Vernonia salzmannii DC.
Ref. FP n.s. 5 1980: 46.

Cacalia scorpioides (Lamarck) Kuntze =Vernonia scorpioides (Lamarck) Persoon
Ref. FP n.s. 5 1980: 39.

Cacalia sordidopapposa (Hieronymus) Kuntze =Vernonia sordidopapposa

Hieronymus
Ref. FP n.s. 5 1980: 32.

Cacalia suaveolens (H.B.K.) Kuntze =Vernonia patens H.B.K.
Ref. FP n.s. 5 1980: 35.

Cacalia ternata Vell. Conc. =Mikania ternata (Vell. Conc.) B. Robinson
Ref. FP n.s. 9 1982: 51; King & Robinson, 1987: 491.

Cacalia tournefortioides (H.B.K.) Kuntze =Vernonia scorpioides (Lamarck) Persoon
Ref. FP n.s. 5 1980: 39.

Cacosmia rugosa H.B.K. var. **kingii** H. Robinson
Ref. Robinson, 1976b: 48.
Endemic shrub. Andean II. 1500-2500 m.
Voucher: Fosberg 27777* (F!), Weberbauer 6304 (US)
Depts.: CA

Cacosmia rugosa var. **nivea** Hieronymus
Ref. Hieronymus, 1901b: 619.
Shrub. Andean II. 1500-3500 m.
Voucher: Dillon & Turner 1669 (F!)
Depts.: CA, HU

Cacosmia rugosa var. **rugosa**
Ref. Robinson, 1976b: 47.
Shrub. Andean II. 1500-2500 m.
Voucher: Gentry *et al.* 23136 (F!)
Depts.: AM, CA, PI, LL

Caesulia radicans Willdenow =Enydra radicans (Willdenow) Lack
Ref. Lack, 1980: 6.

Calea aspera Jacquin =Melanthera aspera (Jacquin) Small

Calea coriacea DC.
Shrub. Andean I. 1000-1500 m.
Voucher: Haenke s.n. (M)
Depts.: PU

Calea jelskii Hieronymus
Ref. Hieronymus, 1905: 496.
Shrub. Andean II: disturbed areas, grasslands. 2000-3000 m.
Voucher: Jelski 743* (frag. US), Dillon *et al.* 2880 (F!)
Depts.: CA, JU

Calea montana Klatt
Shrub. Amazonian, Andean I. 0-1500 m.
Voucher: Ferreyra 4688 (MO!)
Depts.: LO, SM

Calea szyszylowiczii Hieronymus
Ref. Hieronymus, 1905: 497.
Endemic shrub. Andean II: shrublands. 1500-2000 m.
Voucher: Jelski 651* & 744* (B, syntypes), Hutchison & Wright 3950 (NY, UC)
Depts.: AM, CA, SM

Calea ulei Hieronymus
Ref. Hieronymus, 1906: 204.
Shrub. Andean I: forests. 500-1000 m.
Voucher: Ule 6380* (F!)
Depts.: LO, SM

Calea umbellulata Hochreutiner
Shrub. Andean II. 2000-2500 m.
Voucher: Mathews s.n.* (US), Mathews 3086 (NY)
Depts.: AM, CA, CU, LA, SM

Carduus lanceolatus L. =Cirsium vulgare (Savi) Tenore
Ref. FP n.s. 10 1982: 4.

Carduus marianus L. =Silybum marianum (L.) Gaertner
Ref. FP n.s. 10 1982: 6.

Carduus vulgaris Savi =Cirsium vulgare (Savi) Tenore
Ref. FP n.s. 10 1982: 4.

Carphobolus asterotrichus (Poeppig) Schultz-Bip. =Piptocarpha asterotrichia (Poeppig) Baker
Ref. FP n.s. 5 1980: 49.

Carphobolus latifolius Schultz-Bip. =Piptocarpha opaca (Bentham) Baker
Ref. FP n.s. 5 1980: 51.

Carphobolus lechleri Schultz-Bip. =Piptocarpha lechleri (Schultz-Bip.) Baker
Ref. FP n.s. 5 1980: 53.

Carphobolus poeppigiana (DC.) Schultz-Bip. =Piptocarpha poeppigiana (DC.) Baker
Ref. FP n.s. 5 1980: 48.

Carphobolus tereticaulis (DC.) Schultz-Bip. =Piptocarpha poeppigiana (DC.) Baker
Ref. FP n.s. 5 1980: 48.

Celmisia crocifolia (H.B.K.) Schultz-Bip. =Oritrophium crocifolium (H.B.K.) Cuatrecasas

Celmisia pellita (H.B.K.) Schultz-Bip. =Oritrophium peruvianum (Lamarck) Cuatrecasas
Ref. Cuatrecasas, 1969: 75.

Centaurea melitensis L.
Ref. FP n.s. 10 1982: 2.
Cultivated and introduced herb. Andean I-II, Coastal: disturbed areas. 0-3500 m.
Voucher: Sagástegui *et al.* 9856 (MO!)
Depts.: AN, CU, JU, LL

Centratherum aristatum Cassini =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Centratherum brachylepis Schultz-Bip. ex Baker =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Centratherum brevispinum Cassini =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Centratherum camporum var. *longipes* (Hassler) Malme =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 60.

Centratherum holotoni Baker =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Centratherum intermedium (Link) Lessing =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Centratherum longispinum Cassini =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Centratherum muticum (H.B.K.) Lessing =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Centratherum pulchellum (Cassini) Steudel =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Centratherum punctatum Cassini
Syn. *Ampherephis aristata* H.B.K., *Ampherephis intermedia* Link, *Ampherephis mutica* H.B.K., *Ampherephis pilosa* Cassini, *Ampherephis pulchella* Cassini, *Amphibecis violacea* (Schrank) Schrank, *Baccharoides brachylepis* (Schultz-Bip. ex Baker) Kuntze, *Baccharoides holtonii* (Baker) Kuntze, *Baccharoides muticum* (H.B.K.) Kuntze, *Baccharoides punctatum* (Cassini) Kuntze, *Baccharoides violaceum* (Schrank) Kuntze, *Centratherum aristatum* Cassini, *Centratherum brachylepis* Schultz-Bip. ex Baker, *Centratherum brevispinum* Cassini, *Centratherum camporum* var. *longipes* (Hassler) Malme, *Centratherum holotoni* Baker, *Centratherum intermedium* (Link) Lessing, *Centratherum longispinum* Cassini, *Centratherum muticum* (H.B.K.) Lessing, *Centratherum pulchellum* (Cassini) Steudel, *Centratherum punctatum* fo. *brachyphyllum* Hassler, *Centratherum punctatum* fo. *foliosum* (Chodat) Hassler, *Centratherum punctatum* var. *foliosa* Chodat, *Centratherum punctatum* var. *longipes* Hassler, *Centratherum punctatum* var. *parviflorum* Baker, *Centratherum violaceum* (Schrank) Gleason, *Crantzia ovata* Vell. Conc., *Spixia violacea* Schrank
Ref. FP n.s. 5 1980: 59; Kirkman, 1981: 15.
Herb. Amazonian, Andean I: disturbed areas. 0-1000 m.
Voucher: Woytkowski 7643 (MO)
Depts.: SM

Centratherum punctatum fo. *brachyphyllum* Hassler =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Centratherum punctatum fo. *foliosum* (Chodat) Hassler =Centratherum

punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Centratherum punctatum var. *foliosa* Chodat =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Centratherum punctatum var. *longipes* Hassler =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Centratherum punctatum var. *parviflorum* Baker =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Centratherum violaceum (Schrank) Gleason =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 60.

Centroclinium albicans D. Don =Onoseris albicans (D. Don) Ferreyra
Ref. Ferreyra, 1944: 389.

Centroclinium altissimum Poeppig =Lycoseris trinervis (R. & P. ex D. Don) S. F. Blake
Ref. Harling, 1991: 34.

Centroclinium reflexum Hooker =Onoseris odorata (D. Don) Hooker & Arnott
Ref. Harling, 1991: 34.

Cephalophora robusta Rusby =Hymenoxys robusta (Rusby) K. Parker
Ref. Parker, 1962: 207.

Ceratocephalus leiocarpus (DC.) Kuntze, nom. illeg. =Spilanthes leiocarpa DC.
Ref. Jansen, 1981: 251.

Chabraea daucifolia (D. Don) Weddell =Leucheria daucifolia (D. Don) Crisci

Chabraea laciniata Weddell =Leucheria daucifolia (D. Don) Crisci

Chaenocephalus arboreus (H.B.K.) O. Hoffman =Verbesina arborea H.B.K.

Chaenocephalus jelskii Hieronymus =Monactis hieronymi H. Robinson
Ref. Hieronymus, 1905: 494.

Chaetachlaena odorata D. Don =Onoseris odorata (D. Don) Hooker & Arnott
Ref. Ferreyra, 1944: 360.

Chaetanthera chiquianensis Ferreyra
Ref. Ferreyra, 1953a: 5.
Endemic herb. Andean II. 2500-3500 m.
Voucher: Cerrate 1323* (USM)
Depts.: AN

Chaetanthera cochlearifolia (A. Gray) B. Robinson
Syn. *Oreastrum cochlearifolium* A. Gray
Ref. Ferreyra, 1953a: 2.
Endemic herb. Andean III: grasslands, shrublands. > 4500 m.
Voucher: Wilkes Exped. s.n.* (US), Dillon & Turner 1315 (F!)
Depts.: JU, LI

Chaetanthera multiflora Humboldt & Bonpland =Perezia multiflora (Humboldt & Bonpland) Lessing
Ref. Harling, 1991: 97.

Chaetanthera peruviana A. Gray
Ref. Ferreyra, 1953a: 4.
Endemic herb. Andean II-III. 3000-4000 m.
Voucher: Wilkes Exped. s.n.* (US), Weberbauer 6876 (F, USM)
Depts.: AR, LI

Chaetanthera pinnatifida Humboldt & Bonpland =Perezia pinnatifida (Humboldt & Bonpland) Weddell
Ref. Harling, 1991: 102.

Chaetanthera pungens Humboldt & Bonpland =Perezia pungens Lessing
Ref. Harling, 1991: 99.

Chaetanthera stuebelii Hieronymus
Herb. Andean III. 3500- > 4500 m.
Voucher: Stafford 873 (F!)
Depts.: PU

Chaetospira funckii (Turczaninow) S. F. Blake =Pseudelephantopus spiralis (Lessing) Cronquist
Ref. FP n.s. 5 1980: 68.

Chaetospira spiralis (Lessing) Asplund & S. F. Blake =Pseudelephantopus spiralis (Lessing) Cronquist
Ref. FP n.s. 5 1980: 68.

Chaptalia callacallensis Cuatrecasas
Ref. Cuatrecasas, 1985b: 5.
Endemic herb. Andean II. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Hutchison & Wright 5589* (US!)
Depts.: AM

Chaptalia cordata Hieronymus
Ref. Harling, 1991: 48.
Herb. Andean II. 2500-4000 m.
Voucher: Dillon & Turner 1735 (USM)
Depts.: AM, CU, HU, PI

Chaptalia cordata var. *ferrugineo-tomentosa* Hieronymus =Chaptalia rotundifolia D. Don

Chaptalia integerrima (Vell. Conc.) Burkhart
Syn. *Tussilago integerrima* Vell. Conc.
Ref. Burkart, 1944: 576.
Herb. Andean II. 1500-2500 m.
Voucher: King & Bishop 9282 (US!)
Depts.: AM

Chaptalia isernia Cuatrecasas
Endemic herb. Andean II. 2500-3000 m.
Voucher: Isern 42* (F!), Woytkowski 34110 (F!)
Depts.: HU, JU

Chaptalia malcabalensis Cuatrecasas
Endemic herb. Andean II. 2500-3000 m.
Note: Known only from Peru from the type locality.
Voucher: Wurdack 1414* (USM)
Depts.: AM

Chaptalia nutans (L.) Polakowski
Syn. *Tussilago nutans* L.
Ref. Harling, 1991: 53.
Herb. Andean I. 500-1500 m.
Voucher: Ferreyra 5066 (USM)
Depts.: AM, CU, HU, JU, MD, PA, SM, UC

Chaptalia oblonga D. Don.
Syn. *Chaptalia ovalis* D. Don., *Perdicium oblongum* R. & P., *Perdicium ovale* R. & P. ex D. Don, *Trichocline oblonga* Hieronymus, *Trichocline ovalis* (D. Don) Hieronymus
Ref. Harling, 1991: 50.
Herb. Andean II. 3000-3500 m.
Voucher: Ruiz & Pavón s.n.* (MA), André 4524 (F)
Depts.: HU, JU

Chaptalia ovalis D. Don. =Chaptalia oblonga D. Don.
Ref. Harling, 1991: 50.

Chaptalia rotundifolia D. Don
Syn. *Chaptalia cordata* var. *ferrugineo-tomentosa* Hieronymus
Endemic herb. Andean II-III. 3000-4500 m.
Voucher: Ruiz & Pavón s.n.* (MA), Tovar & Rivas 9549 (USM)
Depts.: AN, CU, HU

Chaptalia similis R. E. Fries
Herb. Andean II-III. 3000-4000 m.
Voucher: Vargas 12474 (US!)
Depts.: CU

Chersodoma antennaria (Weddell) Cabrera
Syn. *Senecio antennaria* Weddell
Ref. Cabrera, 1946: 352.
Herb. Andean III. > 4500 m.
Voucher: Vargas 10074 (F)
Depts.: CU, PU

Chersodoma arequipensis (Cuatrecasas) Cuatrecasas
Syn. *Chersodoma longipedicellata* Ricardi & Marticorena, *Senecio arequipensis* Cuatrecasas
Ref. Cuatrecasas, 1960: 185.
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Hinkley & Hinkley 55* (US), Pennell 13201 (F)
Depts.: AR

Chersodoma diclina (Weddell) Cabrera
Syn. *Senecio diclinus* Weddell
Ref. Cabrera, 1946: 353.
Endemic herb. Andean III. 3500-4500 m.
Voucher: Smith & Valencia 9968 (MO)
Depts.: AN, LI

Chersodoma jodopappa (Schultz-Bip.) Cabrera
Syn. *Senecio jodopappus* Schultz-Bip.

Ref. Cabrera, 1946: 350.
Shrub. Andean II-III. 3000-4500 m.
Voucher: Dillon *et al.* 3282 (F)
Depts.: AR

Chersodoma juanisernii (Cuatrecasas) Cuatrecasas
Syn. *Senecio isernii* Cuatrecasas, nom. illeg., *Senecio juanisernii* Cuatrecasas
Ref. Cuatrecasas, 1960: 183.
Endemic subshrub. Andean II. 2500-3500 m.
Voucher: Macbride & Featherstone 232 (F)
Depts.: LI

Chersodoma longipedicellata Ricardi & Marticorena =Chersodoma arequipensis (Cuatrecasas) Cuatrecasas
Ref. Ricardi & Marticorena, 1964: 3.

Chersodoma ovopedata (Cuatrecasas) Cuatrecasas
Syn. *Senecio ovopedatus* Cuatrecasas
Ref. Cuatrecasas, 1960: 185.
Endemic herb. Andean III. > 4500 m.
Voucher: Macbride & Featherstone 1095* (F)
Depts.: AN, JU

Chevreulia acuminata Lessing
Syn. *Chevreulia filiformis* Hooker & Arnott, *Chevreulia longipes* Weddell
Ref. FP n.s. 26 1991: 22.
Herb. Andean II: shrublands. 1500-3500 m.
Voucher: Macbride & Featherstone 1723 (F!)
Depts.: AM, HU

Chevreulia filiformis Hooker & Arnott =Chevreulia acuminata Lessing
Ref. FP n.s. 26 1991: 22.

Chevreulia longipes Weddell =Chevreulia acuminata Lessing
Ref. FP n.s. 26 1991: 22.

Chionopappus benthamii S. F. Blake
Ref. Blake, 1935: 492; Robinson, 1983a: 27.
Subshrub. Andean II, Coastal: lomas, rocky slopes. 500-2000 m.
Voucher: Cuming 996* (K photo US), Smith & Buddensiek 10935 (F!)
Depts.: AN, CA, LI, LL

Chromolaena anachoretica (B. Robinson) King & H. Robinson
Syn. *Eupatorium anachoreticum* B. Robinson
Ref. King & Robinson, 1987: 385, 493.
Endemic subshrub. Andean II. 1500-2500 m.
Voucher: Mostacero 960 (F!)
Depts.: AM, CA, SM

Chromolaena bangii (Rusby) King & H. Robinson
Syn. *Eupatorium bangii* Rusby
Ref. King & Robinson, 1987: 385.
Shrub. Andean II. 2500-3000 m.
Voucher: Vargas 13136 (US!)
Depts.: CU

Chromolaena connivens (Rusby) King & H. Robinson
Syn. *Eupatorium connivens* Rusby
Ref. King & Robinson, 1987: 386.
Shrub. Andean II: riversides, rocky slopes. 2000-3500 m.
Voucher: Killip & Smith 22154 (F!)
Depts.: CU, HU, JU

Chromolaena eripsima (B. Robinson) King & H. Robinson
Syn. *Eupatorium eripsimum* B. Robinson
Ref. King & Robinson, 1987: 386.
Endemic subshrub. Andean II: grasslands. 2000-3000 m.
Voucher: Weberbauer 3003* (B), López 1800 (US!)
Depts.: AN

Chromolaena extensa (Gardner) King & H. Robinson
Syn. *Eupatorium extensum* Gardner
Ref. King & Robinson, 1987: 386.
Shrub. Amazonian. 0-500 m.
Voucher: Ferreyra 18019 (US!)
Depts.: HU, LO

Chromolaena haughtii (B. Robinson) King & H. Robinson
Syn. *Eupatorium haughtii* B. Robinson
Ref. King & Robinson, 1987: 386, 494.
Endemic herb or subshrub. Amazonian, Andean I-II, Coastal: disturbed areas, riversides, rocky slopes. 0-2000 m.
Voucher: Haught 275* (F!)
Depts.: AN, CA, LA, PI

Chromolaena ivaefolia (L.) King & H. Robinson
Syn. *Eupatorium fasciculare* Poeppig, *Eupatorium ivaefolium* L.
Ref. King & Robinson, 1987: 386, 494.
Subshrub. Amazonian, Andean I-II: forests, rocky slopes. 0-2500 m.
Voucher: Vargas 16542 (US!)
Depts.: AM, CA, CU, HU, JU, SM

Chromolaena jelskii (Hieronymus) King & H. Robinson
Syn. *Eupatorium jelskii* Hieronymus
Ref. King & Robinson, 1987: 386.
Endemic shrub. Amazonian, Andean I-II. 500-2500 m.
Voucher: Jelski 665*, King & Bishop 9183 (US!)
Depts.: AM, CA, JU

Chromolaena laevigata (Lamarck) King & H. Robinson
Syn. *Eupatorium laevigatum* Lamarck
Ref. King & Robinson, 1987: 386.
Shrub. Amazonian, Andean I-II: forests, shrublands. 500-3500 m.
Voucher: Killip & Smith 24625 (F!)
Depts.: AM, CA, CU, HU, JU, MD, PA, PU, SM, UC

Chromolaena leptocephala (DC.) King & H. Robinson
Syn. *Eupatorium leptocephalum* DC., *Eupatorium leptocephalum* var. *hypomalacum* DC.
Ref. King & Robinson, 1987: 386, 494.
Shrub. Andean I-II: disturbed areas, forests, grasslands, shrublands. 1000-3500 m.
Voucher: Mostacero 849 (F!)
Depts.: AM, AY, CA, CU, HU, JU, PI, PU

Chromolaena odorata (L.) King & H. Robinson
Syn. *Eupatorium clematitis* DC., *Eupatorium odoratum* L.
Ref. King & Robinson, 1987: 387, 494.
Herb or shrub. Amazonian, Andean I-II, Coastal: disturbed areas, forests, riversides, shrublands. 0-3000 m.
Voucher: Schunke 1 (US!)
Depts.: AM, AP, CA, CU, HU, JU, LA, LL, PI, SM, UC

Chromolaena roseorum (B. Robinson) King & H. Robinson
Syn. *Eupatorium roseorum* B. Robinson
Ref. King & Robinson, 1987: 387, 495.
Shrub. Amazonian. 0-500 m.
Voucher: Fosberg 27898 (US!)
Depts.: LO, MD

Chromolaena serratuloides (H.B.K.) King & H. Robinson
Syn. *Eupatorium serratuloides* H.B.K.
Ref. King & Robinson, 1987: 387, 495.
Endemic shrub. Andean I-II, Coastal: lomas. 500-2000 m.
Voucher: Humboldt & Bonpland s.n.* (P-H&B), Fosberg 29898 (US!)
Depts.: CA, LA, PI

Chromolaena squalida (DC.) King & H. Robinson
Syn. *Eupatorium squalidum* DC., *Eupatorium squalidum* var. *rusbyanum* B. Robinson
Ref. King & Robinson, 1987: 387, 495.
Herb or shrub. Amazonian, Andean I-II: forests, grasslands, shrublands. 0-3000 m.
Voucher: Killip & Smith 25115 (F!)
Depts.: CU, HU, JU, SM

Chromolaena subscandens (Hieronymus) King & H. Robinson
Syn. *Eupatorium subscandens* Hieronymus
Ref. King & Robinson, 1987: 387, 495.
Subshrub. Amazonian, Andean I. 0-1500 m.
Voucher: Killip & Smith 22718 (US!)
Depts.: AY, JU, LO

Chromolaena tenuicapitulata (Hieronymus) King & H. Robinson
Syn. *Eupatorium tenuicapitulatum* Hieronymus
Ref. King & Robinson, 1987: 387, 495.
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Jelski 598* (US), Jelski 680 (US!)
Depts.: AM, CA, CU

Chrysactinium acaule (H.B.K.) Weddell
Syn. *Andromachia acaulis* H.B.K., *Chrysactinium arthrothrix* (S. F. Blake) H. Robinson & Brettell, *Liabum acaule* (H.B.K.) Lessing, *Liabum arthrothrix* S. F. Blake

Ref. Robinson & Brettell, 1974: 49, Robinson, 1983a: 51.
Herb. Andean III. 3500-4000 m.
Voucher: Dillon & Turner 1628 (F!)
Depts.: CA

Chrysactinium amphothrix (S. F. Blake) H. Robinson & Brettell
Syn. *Liabum amphothrix* S. F. Blake
Ref. Robinson & Brettell, 1974: 49.
Endemic herb. Andean II-III. 2500-4000 m.
Voucher: Macbride & Featherstone 1665* (F!)
Depts.: CA, HU

Chrysactinium arthrothrix (S. F. Blake) H. Robinson & Brettell =Chrysactinium acaule (H.B.K.) Weddell
Ref. Robinson & Brettell, 1974: 49.

Chrysactinium bicolor (S. F. Blake) H. Robinson & Brettell =Chrysactinium caulescens (Hieronymus) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 49.

Chrysactinium caulescens (Hieronymus) H. Robinson & Brettell
Syn. *Chrysactinium bicolor* (S. F. Blake) H. Robinson & Brettell, *Liabum bicolor* S. F. Blake, *Liabum caulescens* Hieronymus
Ref. Robinson & Brettell, 1974: 50.
Herb. Andean II. 2000-3500 m.
Voucher: Stork & Horton 16330 (F!)
Depts.: AM, CA, HU, LL, PI

Chrysactinium hieracioides (H.B.K.) H. Robinson & Brettell
Syn. *Andromachia hieracioides* H.B.K., *Liabum hieracioides* (H.B.K.) Lessing
Ref. Robinson & Brettell, 1974: 50.
Herb. Andean II-III. 2000-4000 m.
Voucher: Smith 6078 (F!)
Depts.: AM, AN, CA, LL

Chrysactinium rosulatum (Hieronymus) H. Robinson & Brettell
Syn. *Liabum rosulatum* Hieronymus
Ref. Robinson & Brettell, 1974: 50.
Herb. Andean II-III. 3000-4000 m.
Voucher: Dillon *et al.* 2782 (F!)
Depts.: AN, CA, LL

Chrysanthellum indicum DC. var. **afroamericanum** Turner
Ref. Turner, 1982: 291.
Herb. Andean I. 1000-1500 m.
Voucher: Burkart 10490 (MO!)
Depts.: CU

Chrysanthellum weberbaueri Chung
Ref. Chung, 1967: 321.
Endemic herb.
Note: Turner annotated the holotype (F) as *C. indicum* var. *afroamericanum*, in 1976.
Voucher: Weberbauer 6465* (F!)
Depts.: HV

Chrysanthemum coronarium L.
Ref. FP n.s. 7 1981: 4.
Cultivated herb. Andean II: disturbed areas. 3000-3500 m.
Voucher: Ridoutt s.n. (MO!)
Depts.: CU, JU

Chrysanthemum leucanthemum L. =Leucanthemum vulgare Lamarck
Ref. FP n.s. 7 1981: 10.

Chrysanthemum morifolium Ramatuell =Dendranthema morifolium (Ramatuell) Tzvelev
Ref. FP n.s. 7 1981: 9.

Chrysanthemum parthenium (L.) Bernhardi =Tanacetum parthenium (L.) Schultz-Bip.
Ref. FP n.s. 7 1981: 19.

Chrysocoma herbacea Vell. Conc. =Vernonia herbacea (Vell. Conc.) Rusby
Ref. FP n.s. 5 1980: 46.

Chrysogonum peruvianum L. =Zinnia peruviana (L.) L.
Ref. Torres, 1963: 12.

Chucoa ilicifolia Cabrera
Syn. *Weberbaueriella johnstoniana* Ferreyra
Ref. Cabrera, 1955c: 42.
Endemic shrub. Andean II. 2000-3000 m.
Voucher: López 1090* (LP), Weberbauer 7017 (USM)
Depts.: LL

Chuquiraga coccinosantha (Muschler) Chung =Arnaldoa coccinosantha (Muschler) Ferreyra
Ref. Chung, 1965: 7.

Chuquiraga horrida Muschler =Dasyphyllum horridum (Muschler) Tovar
Ref. Ezcurra, 1985: 279.

Chuquiraga johnstonii Tovar
Ref. Tovar, 1952: 8.
Endemic shrub. Andean III. 3500-4000 m.
Voucher: Macbride & Featherstone 1209* (F!), Ferreyra 6598 (F!)
Depts.: HU, HV, PA

Chuquiraga jussieui Gmelin
Syn. *Chuquiraga microphylla* Humboldt & Bonpland, *Chuquiraga peruviana* J. St. Hilaire, *Chuquiraga pseudoruscifolia* Muschler
Ref. Tovar, 1952: 13; Harling, 1991: 22.
Shrub. Andean II-III: grasslands, shrublands. 2000-4500 m.
Voucher: Gmelin s.n.* (P), Weberbauer 936 (MO!)
Depts.: AR, CU, LA, LL, PI, PU

Chuquiraga microphylla Humboldt & Bonpland =Chuquiraga jussieui Gmelin
Ref. Ezcurra, 1985: 247.

Chuquiraga muschlerii Chung =Arnaldoa weberbaueri (Muschler) Ferreyra
Ref. Chung, 1965: 8.

Chuquiraga peruviana J. St. Hilaire =Chuquiraga jussieui Gmelin
Ref. Ezcurra, 1985: 246.

Chuquiraga pseudoruscifolia Muschler =Chuquiraga jussieui Gmelin
Ref. Tovar, 1952: 14.

Chuquiraga rotundifolia Weddell
Syn. *Chuquiraga spinosa* subsp. *rotundifolia* (Weddell) Ezcurra
Ref. Tovar, 1952: 9.
Shrub. Andean III. 3500-4500 m.
Voucher: Weddell s.n.* (P), Pennell 13214 (F)
Depts.: AR, AY, MO, TA

Chuquiraga seleriana Muschler =Barnadesia horrida Muschler

Chuquiraga spinosa (R. & P.) D. Don =Barnadesia dombeyana Lessing
Ref. Cabrera, 1960: 209; Ezcurra, 1985: 280.

Chuquiraga spinosa Lessing subsp. **huamanpinta** Ezcurra
Ref. Ezcurra, 1985: 243.
Shrub. Andean II-III. 3000- > 4500 m.
Voucher: Diers 946* (LP), Dillon & Turner 1387 (F)
Depts.: AN, AY, CU, HU, JU, LI, LL

Chuquiraga spinosa subsp. *rotundifolia* (Weddell) Ezcurra =Chuquiraga rotundifolia Weddell

Chuquiraga spinosa subsp. **spinosa**
Ref. Ezcurra, 1985: 240.
Endemic shrub. Andean III. 3500- > 4500 m.
Voucher: Dombey 447* (P), Macbride & Featherstone 1209 (F)
Depts.: AN, AP, CU, HU, HV, JU, LI, PA

Chuquiraga weberbaueri Tovar
Ref. Tovar, 1952: 11; Harling, 1991: 26.
Endemic shrub. Andean II-III. 3000- > 4500 m.
Voucher: Ferreyra 1304* (USM), Weberbauer 7009 (LM)
Depts.: AM, CA, LL

Cirsium lanceolatum (L.) Scopoli =Cirsium vulgare (Savi) Tenore
Ref. FP n.s. 10 1982: 4.

Cirsium vulgare (Savi) Airy-Shaw =Cirsium vulgare (Savi) Tenore
Ref. FP n.s. 10 1982: 4.

Cirsium vulgare (Savi) Tenore
Syn. *Carduus lanceolatus* L., *Carduus vulgaris* Savi, *Cirsium lanceolatum* (L.) Scopoli, *Cirsium vulgare* (Savi) Airy-Shaw
Ref. FP n.s. 10 1982: 4.
Introduced herb. Andean II-III: disturbed areas. 3000-4000 m.
Voucher: Brunel 679 (MO!)
Depts.: CU

Clarionea ciliosa Philippi =Perezia ciliosa (Philippi) Reiche
Ref. Simpson-Vuilleumier, 1969: 104.

Clarionea macrocephala Schultz-Bip., nom. nud. =Perezia pungens (Humboldt & Bonpland) Lessing

Clibadium asperum (Aublet) DC.
Syn. *Baillieria aspera* Aublet
Shrub. Amazonian, Andean I. 0-1000 m.
Voucher: McDaniel & Rimachi 29698 (NY)
Depts.: LO, SM

Clibadium divaricatum S. F. Blake
Syn. *Clibadium rimachii* H. Robinson
Ref. Blake, 1917b: 7.
Shrub. Andean I. 500-1000 m.
Voucher: Spruce 4522* (BM, K), Rimachi 3877 (US!)
Depts.: HU, SM

Clibadium peruvianum Poeppig ex DC.
Shrub. Amazonian, Andean I. 0-1500 m.
Voucher: Poeppig 1611* (G-DC), Gentry *et al.* 29189 (F!)
Depts.: JU, LO, MD, SM

Clibadium psilogynum S. F. Blake
Ref. Blake, 1931b: 329.
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Weberbauer 7864* (US!)
Depts.: CU

Clibadium remotiflorum O. E. Schulz
Ref. Schulz, 1912: 621.
Shrub. Amazonian. 0-500 m.
Voucher: Rimachi 6344 (NY)
Depts.: LO

Clibadium rimachii H. Robinson =Clibadium divaricatum S. F. Blake
Ref. Robinson, 1988c: 50.

Clibadium strigillosum S. F. Blake
Ref. Blake, 1917a: 46.
Endemic shrub. Andean I. 500-1000 m.
Voucher: Mathews 1360* (K), Kayap 1460 (NY)
Depts.: AM

Clibadium surinamense L.
Shrub. Andean II. 2000-2500 m.
Voucher: Foster *et al.* 7691 (NY)
Depts.: LO, MD, PA

Clibadium sylvestre (Aublet) Baillon
Syn. *Baillieria sylvestris* Aublet
Ref. Robinson, 1979a: 46.
Herb. Amazonian, Andean I. 0-1500 m.
Voucher: Schuh & Schuh 19 (NY)
Depts.: AM, JU

Clibadium vargasianum H. Robinson
Ref. Robinson, 1979a: 46.
Endemic shrub. Andean I. 500-1000 m.
Voucher: Vargas 16928* (US!), Vargas 11615 (US)
Depts.: MD

Complaya trilobata (L.) Strother
Syn. *Silphium trilobatum* L., *Wedelia trilobata* (L.) A. Hitchcock
Ref. Strother, 1991: 14.
Herb. Amazonian: disturbed areas. 0-500 m.
Voucher: Díaz *et al.* 584 (F)
Depts.: AM, LO, UC

Condylidium iresinoides (H.B.K.) King & H. Robinson
Syn. *Eupatorium iresinoides* H.B.K.
Ref. King & Robinson, 1987: 206, 498.
Note: Not reconfirmed. King & Robinson (1987) list this taxon from Peru but no specimens have been seen at F or US. The only specimen at MO is *Klug 1629* from "Peru-Columbian border" labeled *Eupatorium marginatum* Poeppig; =*E. iresinoides* H.B.K. (by Robinson, 1933); *C. iresinoides* (H.B.K.) King & Robinson (by R. Liesner).

Conyza albida Willdenow ex Sprengel =Conyza bonariensis (L.) Cronquist
Ref. Cuatrecasas, 1969: 223.

Conyza alopecuroides Lamarck =Pterocaulon alopecuroides (Lamarck) DC.
Ref. FP n.s. 26 1991: 62; Cuatrecasas, 1969: 223.

[*Conyza ambigua* DC. =Conyza bonariensis (L.) Cronquist]
Ref. Cuatrecasas, 1969: 223.

Conyza apurensis H.B.K.
Syn. *Conyza subspathulata* Cronquist, *Erigeron chinensis* Jacquin, *Erigeron spathulatum* M. Vahl
Ref. Cuatrecasas, 1969: 221.
Voucher: Seidenschwarz 231 (F)
Depts.: HU

Conyza arborescens L. =Vernonia arborescens (L.) Swartz
Ref. Robinson, 1990: 481.

Conyza artemisiifolia Meyen & Walpers
Herb. Andean III: disturbed areas. 3500-4000 m.
Voucher: Hutchison & Tovar 4211 (MO)
Depts.: AN, AR, CU, JU, PU

Conyza bonariensis (L.) Cronquist
Syn. *Conyza albida* Willdenow ex Sprengel,*Conyza ambigua* DC., *Conyza floribunda* H.B.K., *Conyza linifolia* Willdenow, *Erigeron bonariensis* L., *Leptilon bonariense* (L.) Small, *Marsea bonariensis* (L.) Badillo
Ref. Cuatrecasas, 1969: 223.
Herb. Amazonian, Andean I-III, Coastal; disturbed areas, riversides, rocky slopes. 0-4000 m.
Voucher: Stork & Horton 10707 (F!)
Depts.: AN, AP, AR, CU, HU, JU, LI, LO, MD, SM

Conyza buxifolia Lamarck =Baccharis buxifolia (Lamarck) Persoon
Ref. Cuatrecasas, 1967b: 73.

Conyza canadensis (L.) Cronquist
Syn. *Erigeron canadensis* L., *Leptilon canadense* (L.) Britton & Brown, *Marsea canadensis* (L.) Badillo
Ref. Cuatrecasas, 1969: 222.
Herb. Amazonian, Andean I-II: disturbed areas, rocky slopes. 0-3500 m.
Voucher: Croat 57667 (F!)
Depts.: CA, CU, JU, SM

Conyza cardaminifolia H.B.K.
Syn. *Erigeron cardaminifolius* (H.B.K.) Weddell, *Erigeron pinnatum* Turczaninow, *Erigeron turczaninowii* Weddell
Ref. Cuatrecasas, 1969: 211.
Note: Not reconfirmed.

Conyza chilensis Sprengel =Conyza primulaefolia (Lamarck) Cuatrecasas & Lourteig
Ref. Hieronymus, 1901b: 587; Lourteig & Cuatrecasas, 1985: 475.

Conyza chingoyo H.B.K. =Pluchea chingoyo (H.B.K.) DC.
Ref. FP n.s. 26 1991: 59.

Conyza deserticola Philippi
Herb. Andean III. 4000-4500 m.
Voucher: Davis *et al.* 1719 (F!)
Depts.: CU

Conyza evacioides Rusby =Laennecia gnaphalioides (H.B.K.) Cassini
Ref. Zardini, 1981: 162.

Conyza filaginoides (DC.) Hieronymus =Laennecia filaginoides DC.
Ref. Blake, 1917a: 30; Zardini, 1981: 166.

Conyza floribunda H.B.K. =Conyza bonariensis (L.) Cronquist
Ref. Cuatrecasas, 1969: 223.

Conyza genistelloides Lamarck =Baccharis genistelloides (Lamarck) Persoon
Ref. Cuatrecasas, 1967b: 85.

Conyza gnaphalioides H.B.K. =Laennecia gnaphalioides (H.B.K.) Cassini
Ref. Blake, 1917a: 29; Cuatrecasas, 1969: 207; Zardini, 1981: 161.

Conyza kunthiana DC. =Lucilia kunthiana (DC.) Zardini
Ref. FP n.s. 26 1991: 51.

Conyza linifolia Willdenow =Conyza bonariensis (L.) Cronquist
Ref. Cuatrecasas, 1969: 223.

Conyza lyrata H.B.K. =Blumea viscosa (Miller) Badillo
Ref. FP n.s. 26 1991: 20.

Conyza pedunculata Miller =Baccharis pedunculata (Miller) Cabrera
Ref. Cuatrecasas, 1967b: 48.

Conyza primulaefolia (Lamarck) Cuatrecasas & Lourteig
Syn. *Conyza chilensis* Sprengel, *Inula primulaefolia* Lamarck
Ref. Lourteig & Cuatrecasas, 1985: 475.
Herb. Andean I-II. 500-3000 m.

Voucher: Without full collection data.
Depts.: CU, HU

Conyza pusilla H.B.K. =Lucilia kunthiana (DC.) Zardini
Ref. FP n.s. 26 1991: 52.

Conyza scorpioides Lamarck =Vernonia scorpioides (Lamarck) Persoon
Ref. FP n.s. 5 1980: 38.

Conyza subspathulata Cronquist =Conyza apurensis H.B.K.
Ref. Cuatrecasas, 1969: 221.

Conyza thuyoides Lamarck =Loricaria thuyoides var. thuyoides
Ref. FP n.s. 26 1991: 48.

Conyza trinervis Lamarck =Baccharis trinervis (Lamarck) Persoon
Ref. Cuatrecasas, 1967b: 49.

Conyza tunariensis (Kuntze) Zardini
Syn. *Erigeron tunariensis* Kuntze
Ref. Zardini, 1976: 45.
Herb. Andean I-II. 1000-3500 m.
Voucher: Macbride & Featherstone 1226 (F)
Depts.: CU, LL, PA

Conyza viscosa Miller =Blumea viscosa (Miller) Badillo
Ref. FP n.s. 26 1991: 20.

Coreopsis baccata L. f. =Wulffia baccata (L. f.) Kuntze

Coreopsis breviligulata Sagástegui & Sánchez
Ref. Sagástegui & Sánchez, 1981: 223.
Endemic shrub. Andean II: rocky slopes. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Sánchez 1130* (HUT)
Depts.: CA

Coreopsis capillacea H.B.K.
Herb.
Voucher: Humboldt & Bonpland s.n.* (P photo F!)
Depts.: Without full locality data.

Coreopsis celendinensis Sagástegui & Sánchez
Ref. Sagástegui & Sánchez, 1971: 337.
Endemic subshrub. Andean II. 2000-3500 m.
Voucher: Sánchez s.n. [in 1970]* (HUT, LP), Sagástegui 8474 (NY)
Depts.: CA

Coreopsis connata Cabrera
Ref. Cabrera, 1962: 27.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: López & Sagástegui 3124* (HUT, LP), Dillon & Turner 1685 (F!)
Depts.: CA

Coreopsis fasciculata Weddell var. **fasciculata**
Ref. Sherff, 1936: 339.
Subshrub. Andean II-III: rocky slopes. 2000-4500 m.
Voucher: Gay s.n.* (P), Ferreyra 8337 (MO!)
Depts.: AM, AN, AR, AY, CA, HV, JU, LI, LL, PA, SM

Coreopsis fasciculata var. **laevigata** Sherff
Ref. Sherff, 1936: 340.
Endemic subshrub.
Voucher: Herrera 111* (B)
Depts.: CU

Coreopsis foliosa A. Gray
Ref. Sherff, 1936: 330.
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Mathews 1376* (K), Luteyn & Lebrón-Luteyn 5538 (F)
Depts.: AM

Coreopsis glaucodes S. F. Blake & Sherff
Ref. Sherff, 1923: 369.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Weberbauer 4048* (US)
Depts.: CA

Coreopsis holodasya S. F. Blake
Ref. Blake, 1962: 373.
Endemic shrub. Andean III: rocky slopes, shrublands. 4000-4500 m.
Voucher: Balls 6846* (F!)
Depts.: AP

Coreopsis imbricata Sherff
Ref. Sherff, 1936: 337.
Endemic shrub. Andean III. 3500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Pearce s.n.* (K)
Depts.: AY

Coreopsis integra S. F. Blake
Endemic shrub. Andean II: rocky slopes. 2000-3000 m.
Voucher: Macbride & Featherstone 2469* (F!), Smith *et al.* 10349 (MO!)
Depts.: CA, HU, PI

Coreopsis irmscheriana F. Bruns
Ref. Sherff, 1936: 318.
Endemic herb. Coastal. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Guenther & Buchtien 55* (HBG photo F!)
Depts.: AR

Coreopsis killipii Sherff
Ref. Sherff, 1936: 324.
Endemic shrub. Andean II. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Killip & Smith 21823* (F!)
Depts.: JU

Coreopsis longula S. F. Blake
Ref. Sherff, 1936: 327.
Endemic shrub. Andean II: shrublands. 3000-3500 m.
Voucher: Mathews s.n.* (GH), Dillon & Skillman 4150 (F!)
Depts.: AM, LA

Coreopsis lopez-mirandae Sagástegui
Ref. Sagástegui, 1969b: 248.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: López *et al.* 4460* (HUT), Sagástegui 6077 (LP)
Depts.: AM

Coreopsis macbridei Sherff
Ref. Sherff, 1936: 323.
Endemic subshrub. Andean II: rocky slopes. 2000-2500 m.
Voucher: Macbride 3504* (F!), Macbride 3152 (F!)
Depts.: HU

Coreopsis microlepis S. F. Blake & Sherff ex Sherff
Ref. Sherff, 1936: 322.
Endemic shrub. Andean II. 2000-3000 m.
Voucher: Mathews 1418* (K), Hutchison & Wright 5226 (MO!)
Depts.: AM, CA, HU

Coreopsis multifida DC. var. **multifida**
Herb.
Voucher: Ruiz & Pavón s.n.* (P)
Depts.: Without full locality data.

Coreopsis multifida var. **mutica** DC.
Herb.
Voucher: The type is a cultivated plant from seed sent by Dombey (P).
Depts.: Without full locality data.

Coreopsis nodosa Sherff
Ref. Sherff, 1936: 329.
Endemic shrub. Andean II: riversides, rocky slopes. 2500-3500 m.
Voucher: Pennell 13646* (F!), King & Collins 9032 (MO!)
Depts.: CU

Coreopsis notha S. F. Blake & Sherff var. **notha**
Ref. Sherff, 1936: 332.
Shrub. Andean II; rocky slopes. 1500-3000 m.
Voucher: Weberbauer 3812* (B)
Depts.: CA

Coreopsis notha var. **parvifolia** Sherff
Ref. Sherff, 1936: 333.
Shrub.
Voucher: Raimondi 6695* (B)
Depts.: CA

Coreopsis oblanceolata S. F. Blake
Ref. Sherff, 1936: 326.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Townsend A211* (F!) Sagástegui & Cabanillas 8283 (MO!)
Depts.: CA, PI

Coreopsis obovatifolia Sagástegui
Ref. Sagástegui, 1982b: 263.
Endemic shrub. Andean II-III: rocky slopes. 2500-4000 m.
Voucher: Sagástegui 7771* (HUT), Sagástegui 7382 (MO!)
Depts.: CA

Coreopsis parviceps S. F. Blake & Sherff
Ref. Sherff, 1936: 325.
Endemic shrub.

Note: Known from Peru only from the type locality.
Voucher: Jelski 765* (B)
Depts.: CA

Coreopsis peruviana Sagástegui
Ref. Sagástegui, 1970: 73; Sagástegui, 1982b: 265.
Endemic subshrub. Andean II. 2500-3000 m.
Voucher: Sagástegui 7495* (HUT), Sagástegui 8055 (MO!)
Depts.: CA

Coreopsis pervelutina Sagástegui
Ref. Sagástegui, 1982b: 265.
Endemic shrub. Andean II; rocky slopes. 2500-3000 m.
Voucher: Sánchez 1198* (HUT)
Depts.: CA

Coreopsis pickeringii A. Gray
Ref. Sherff, 1936: 336.
Shrub. Andean II-III: rocky slopes. 2000-4000 m.
Voucher: Wilkes Exped. s.n.*, Goodspeed & Weberbauer 33061 (MO!)
Depts.: LI

Coreopsis piurana Sherff
Ref. Sherff, 1964: 370.
Endemic shrub.
Voucher: Soukup 4662* (US photo US!)
Depts.: PI

Coreopsis polyactis S. F. Blake & Sherff
Ref. Sherff, 1922: 372.
Endemic shrub. Andean III: grasslands. 3500-4000 m.
Voucher: Weberbauer 6995* (US!)
Depts.: LL

Coreopsis senaria S. F. Blake & Sherff
Ref. Sherff, 1936: 330.
Endemic shrub. Andean II: grasslands, rocky slopes, shrublands. 2500-3000 m.
Voucher: Stubel 35* (B), Smith 6213 (MO)
Depts.: AM, CA, LL

Coreopsis sherffii S. F. Blake
Endemic shrub. Andean II: grasslands. 2500-3000 m.
Voucher: Macbride & Featherstone 1596* (US), Macbride & Featherstone 1482 (F)
Depts.: HU

Coreopsis spectablilis A. Gray
Ref. Sherff, 1936: 335.
Endemic shrub.
Voucher: McLean s.n.* (US)
Depts.: Without full locality data.

Coreopsis townsendii S. F. Blake
Ref. Sherff, 1936: 338.
Shrub. Andean II. 2000-2500 m.
Voucher: Townsend A192* (F!)
Depts.: CA

Coreopsis triloba S. F. Blake
Ref. Sherff, 1936: 334.
Shrub. Andean II. 3000-3500 m.
Voucher: Killip & Smith 22171 (NY)
Depts.: CA, JU

Coreopsis venusta H.B.K.
Ref. Sherff, 1936: 328.
Subshrub. Andean II. 2000-3000 m.
Voucher: Sagástegui 11892 (NY)
Depts.: CA, LL

Coreopsis woytkowskii Sherff
Ref. Sherff, 1936: 326.
Endemic subshrub. Andean II: rocky slopes. 2500-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Woytkowski 24* (F), Smith 6214 (NY)
Depts.: AM, CA

Cosmos caudatus H.B.K.
Cultivated herb. Amazonian: disturbed areas. 0-500 m.
Voucher: Rimachi 160 (NY)
Depts.: HU, LO, SM, UC

Cosmos marginatus Klatt =Cosmos peucedanifolius Weddell

Cosmos peucedanifolius Weddell
Syn. *Cosmos marginatus* Klatt
Herb. Andean II-III: disturbed areas, grasslands, rocky slopes. 1500-4500 m.
Voucher: Sagástegui 10388 (NY)
Depts.: AM, AN, AP, AY, CA, CU, JU, HU, HV

Cosmos subpubescens Weddell
Herb.
Voucher: Gay s.n.* (P)
Depts.: CU

Cosmos sulphureus Cavanilles
Herb. Andean I: disturbed areas. 500-1500 m.
Voucher: Allard 22012 (F!)
Depts.: CU, SM

Cotula australis (Sieber ex Sprengel) Hooker f.
Syn. *Anacyclus australis* Sieber ex Sprengel
Ref. FP n.s. 7 1981: 6.
Herb. Andean I-II, Coastal: disturbed areas, lomas. 0-3000 m.
Voucher: Dillon & Turner 1720 (F!)
Depts.: AM, AR, CA, JU, LI, LL, MO, PI

Cotula cabrera Caro =Cotula mexicana (DC.) Cabrera
Ref. FP n.s. 7 1981: 7.

Cotula coronopifolia L.
Ref. FP n.s. 9 1982: 6.
Introduced herb. Andean I-III, Coastal: disturbed areas. 0-4000 m.
Voucher: Solomon 2826 (MO!)
Depts.: AR, PU

Cotula mexicana (DC.) Cabrera
Syn. *Cotula cabrera* Caro, *Cotula minuta* (L. f.) Schinz, *Cotula pedicellata* (R. & P.) Cabrera, *Cotula pygmaea* (H.B.K.) Bentham & Hooker f. ex Hemsley, *Gymnostyles minuta* (L. f.) Sprengel, *Gymnostyles peruviana* Sprengel, *Hippia minuta* L. f., *Lancisia minuta* (L. f.) Rydberg, *Soliva mexicana* DC., *Soliva minuta* (L. f.) Sweet, *Soliva pedicellata* R. & P., *Soliva pedunculata* R. & P. ex Steudel, *Soliva pygmaea* H.B.K.
Ref. FP n.s. 7 1981: 7; Cabrera, 1960: 207.
Herb. Andean II-III: disturbed areas. 3000- > 4500 m.
Voucher: Wurdack 1331 (F!)
Depts.: AM, PU

Cotula minuta (L. f.) Schinz =Cotula mexicana (DC.) Cabrera
Ref. FP n.s. 7 1981: 7; Cabrera, 1960: 207.

Cotula pedicellata (R. & P.) Cabrera =Cotula mexicana (DC.) Cabrera
Ref. FP n.s. 7 1981: 7; Cabrera, 1960: 207.

Cotula pygmaea (H.B.K.) Bentham & Hooker f. ex Hemsley =Cotula mexicana (DC.) Cabrera
Ref. FP n.s. 7 1981: 7; Cabrera, 1960: 207.

Cotula viscosa L. =Egletes viscosa (L.) Lessing
Ref. Cuatrecasas, 1969: 27.

Crantzia ovata Vell. Conc. =Centratherum punctatum Cassini
Ref. FP n.s. 5 1980: 59.

Crepis capillaris (L.) Wallroth
Herb
Voucher: Soukup 3159 (F!)
Depts.: JU, LI

Critonia morifolia (Miller) King & H. Robinson
Syn. *Eupatorium morifolium* Miller
Ref. King & Robinson, 1987: 298.
Herb or subshrub. Amazonian, Andean I: riversides. 0-1500 m.
Voucher: Macbride 5362 (F!)
Depts.: AM, CU, HU, JU, SM

Critoniella acuminata (H.B.K.) King & H. Robinson
Syn. *Eupatorium acuminatum* H.B.K.
Ref. King & Robinson, 1987: 343.
Herb. Andean I-II. 1000-2000 m.
Voucher: King & Bishop 9227 (MO!)
Depts.: AM

[*Critoniopsis lindenii* Schultz-Bip. =Vernonia lindenii (Schultz-Bip.) Cuatrecasas]
Ref. FP n.s. 5 1980: 28.
Note: Not known from Peru.

Cronquistianthus bishopii King & H. Robinson
Syn. *Eupatorium bishopii* (King & H. Robinson) B. Turner
Ref. King & Robinson, 1987: 368, 499.
Endemic shrub. Andean II. 2000-2500 m.
Note: For alternative treatment, see Turner (1991: 161).

Voucher: King & Bishop 9281* (US!), Sagástegui 9805 (F!)
Depts.: AM

Cronquistianthus bulliferus (S. F. Blake) King & H. Robinson =Cronquistianthus chamaedrifolius (H.B.K.) King & H. Robinson
Ref. Turner, 1991: 163.

Cronquistianthus callacatensis (Hieronymus) King & H. Robinson
Syn. *Cronquistianthus kalenbornianus* (B. Robinson) King & H. Robinson, *Eupatorium callacatense* Hieronymus, *Eupatorium kalenbornianum* B. Robinson
Ref. Turner, 1991: 162.
Note: For alternative treatment, see King & Robinson (1987: 368).
Endemic herb or subshrub. Andean II: riversides. 1500-3500 m.
Voucher: Jelski 670* (B photo F), Sagástegui 9805 (F!)
Depts.: AN, CA, HU, JU, LA, LL, PA

Cronquistianthus celendinensis King & H. Robinson
Syn. *Eupatorium celendinensis* (King & H. Robinson) B. Turner
Ref. King & Robinson, 1987: 368, 499.
Endemic shrub. Andean II: disturbed areas, shrublands. 2500-3000 m.
Voucher: Hutchison & Wright 5134* (F!), Mostacero 995 (F!)
Depts.: CA

Cronquistianthus chachapoyensis King & H. Robinson
Syn. *Eupatorium chachapoyense* (King & H. Robinson) B. Turner
Ref. King & Robinson, 1987: 368, 499.
Endemic shrub. Andean II. 1500-2000 m.
Voucher: Ferreyra 14440* (US!), King 9158 (MO)
Depts.: AM

Cronquistianthus chamaedrifolius (H.B.K.) King & H. Robinson
Syn. *Cronquistianthus bulliferus* (S. F. Blake) King & H. Robinson, *Cronquistianthus rugosus* (H.B.K.) King & H. Robinson, *Eupatorium bulliferum* S. F. Blake, *Eupatorium chamaedrifolium* H.B.K., *Eupatorium rugosum* H.B.K.
Ref. Turner, 1991: 163.
Shrub. Andean II. 2500-3000 m.
Note: For alternative treatment, see King & Robinson (1987: 368, 499).
Voucher: Humboldt & Bonpland 3485* (F!), Weberbauer 6335 (F!)
Depts.: PI

Cronquistianthus chotensis (Hieronymus) King & H. Robinson =Cronquistianthus lavandulaefolius (DC.) King & H. Robinson
Ref. King & Robinson, 1987: 368, 499.

Cronquistianthus desmophyllus (B. Robinson) King & H. Robinson
Syn. *Eupatorium desmophyllum* B. Robinson
Ref. King & Robinson, 1987: 368, 499.
Endemic subshrub. Andean II-III: riversides. 2000-4000 m.
Voucher: Macbride & Featherstone 1975* (F!), Edwin 3842 (F!)
Depts.: AN, CA, HU, LL

Cronquistianthus determinatus (B. Robinson) King & H. Robinson
Syn. *Cronquistianthus infantesii* King & H. Robinson, *Eupatorium determinatum* (B. Robinson) B. Turner, *Eupatorium urubambense* var. *determinatum* B. Robinson
Ref. Turner, 1991: 166.
Note: For alternative treatment, see King & Robinson (1987: 368, 499).
Endemic subshrub. Andean II-III: rocky slopes. 2000-4000 m.
Voucher: Macbride & Featherstone 1181* (F!), Ferreyra 6218 (F!)
Depts.: AN, HU, LL, PA

Cronquistianthus ferreyrii King & H. Robinson
Syn. *Eupatorium ferreyrii* (King & H. Robinson) B. Turner
Ref. King & Robinson, 1987: 368, 499.
Endemic subshrub. Andean II. 2500-3500 m.
Voucher: Ferreyra 13293* (US!), Hutchison 5247 (F!)
Depts.: CA

Cronquistianthus glomeratus (DC.) King & H. Robinson
Syn. *Eupatorium glomeratum* DC.
Ref. King & Robinson, 1987: 368, 499.
Endemic shrub. Andean II. 2000-3500 m.
Voucher: Haenke 8146* (F!), Stork & Horton 10893 (F!)
Depts.: AN, CA, HV, LI, LL

Cronquistianthus infantesii King & H. Robinson =Cronquistianthus determinatus (B. Robinson) King & H. Robinson
Ref. Turner. 1991: 166.

Cronquistianthus kalenbornianus (B. Robinson) King & H. Robinson =Cronquistianthus callacatensis (Hieronymus) King & H. Robinson
Ref. Turner, 1991: 162.

Cronquistianthus lavandulaefolius (DC.) King & H. Robinson
Syn. *Cronquistianthus chotensis* (Hieronymus) King & H. Robinson, *Eupatorium chotense* Hieronymus, *Eupatorium lavandulaefolium* DC.
Ref. King & Robinson, 1987: 368, 499.
Endemic herb or subshrub. Amazonian, Andean I-III, Coastal. 500-4000 m.
Voucher: Dombey 51[8147]* (G-DC), Sagástegui 11902 (F!)
Depts.: AN, CA, JU, LA, LI, LL, PI

[Cronquistianthus leucophyllus (H.B.K.) King & H. Robinson]
Syn. *Eupatorium leucophyllum* H.B.K.
Ref. King & Robinson, 1987: 368, 499.
Shrub. Andean II. 2000-3000 m.
Note: Not known from Peru. The type, *Humboldt & Bonpland s.n.*, is reported to be from Peru, but is probably from Loja, Ecuador; the taxon is likely to occur in northwest Peru (Turner, 1991: 170).

Cronquistianthus lopezmirandae (Cabrera) King & H. Robinson
Syn. *Eupatorium lopezmirandae* Cabrera
Ref. King & Robinson, 1987: 368, 499.
Endemic subshrub. Andean II: rocky slopes. 2500-3000 m.
Voucher: López & Sagástegui 2782* (LP), Sagástegui *et al.* 12001 (F!)
Depts.: CA, LL

Cronquistianthus macbridei King & H. Robinson
Syn. *Eupatorium huanucanum* B. Turner
Ref. King & Robinson, 1987: 368, 499.
Endemic subshrub. Andean II: rocky slopes. 1500-2500 m.
Voucher: Macbride 3881* (US!), Woytkowski 34231 (F!)
Depts.: HU

Cronquistianthus marrubiifolius (Hieronymus) King & H. Robinson
Syn. *Eupatorium marrubiifolium* Hieronymus
Ref. King & Robinson, 1987: 368, 500.
Endemic herb or subshrub. Andean II. 2000-3500 m.
Voucher: Jelski 799* (B photo F!), Sagástegui 11766 (F!)
Depts.: CA, HU, LI, LL

Cronquistianthus rugosus (H.B.K.) King & H. Robinson =Cronquistianthus chamaedrifolius (H.B.K.) King & H. Robinson
Ref. Turner, 1991: 163.

Cronquistianthus urubambensis (B. Robinson) King & H. Robinson
Syn. *Eupatorium urubambense* B. Robinson, *Eupatorium urubambense* var. *mantarense* B. Robinson
Ref. King & Robinson, 1987: 368, 500.
Endemic shrub. Andean I-II: shrublands. 1000-3500 m.
Voucher: Pentland s.n.* (K!), Vargas 11048 (F!)
Depts.: AM, AN, AY, CU, CA, HV, LI, LL

Cronquistianthus volkensii (Hieronymus) King & H. Robinson
Syn. *Eupatorium volkensii* Hieronymus
Ref. King & Robinson, 1987: 368, 500.
Endemic shrub. Andean II-III: riversides. 2500-4000 m.
Voucher: Weberbauer 4850* (B photo F!), Killip 23321 (NY)
Depts.: AY, CU

Crossothamnus pascoanus B. Turner & Dillon
Ref. Turner & Dillon, 1990: 420.
Endemic shrub. Andean II: forests on white sand, shrublands. 2500-3000 m.
Note: Known from Peru only from the type locality.

Voucher: Foster 8996* (F!)
Depts.: PA

Crossothamnus weberbaueri (Hieronymus) King & H. Robinson
Syn. *Eupatorium weberbaueri* Hieronymus
Ref. King & Robinson, 1987: 264, 500.
Endemic shrub. Andean II: shrublands. 2000-2500 m.
Voucher: Wurdack 988 (F!)
Depts.: AM

Cryptopetalon ciliare Cassini =Pectis sessiliflora (Lessing) Schultz-Bip.

Cuatrecasanthus jelskii (Hieronymus) H. Robinson
Syn. *Eremanthus jelskii* Hieronymus, *Vernonia shanynensis* MacLeish
Ref. Robinson, 1989: 210.
Shrub. Andean II. 2000-2500 m.
Voucher: Jelski 776 (US)
Depts.: CA

Cuatrecasanthus sandemanii (H. Robinson) H. Robinson
Syn. *Vernonia sandemanii* H. Robinson
Ref. Robinson, 1989: 210.
Endemic shrub. Andean II: cloud forests. 2500-3000 m.
Voucher: Sandeman 219* (BM), Ferreyra 1214 (US)
Depts.: HU

Cuatrecasasiella isernii (Cuatrecasas) H. Robinson
Syn. *Luciliopsis isernii* Cuatrecasas
Ref. FP n.s. 26 1991: 24.
Herb. Andean III. 4000- > 4500 m.
Voucher: Dillon 2517 (F, HUT)
Depts.: AN, JU

Culcitium canescens Humboldt & Bonpland =Senecio canescens var. canescens
Ref. Cuatrecasas, 1951a: 37.

Culcitium canescens var. *monocephalum* Weddell =Senecio canescens var. monocephalus (Weddell) Cuatrecasas
Ref. Cabrera, 1985: 115.

Culcitium glaciale Meyen & Walpers =Senecio candollii Weddell
Ref. Cabrera, 1985: 113.

Culcitium haenkei Weddell =Senecio haenkeanus Cuatrecasas

Culcitium humile DC. =Senecio candollii Weddell
Ref. Cabrera, 1985: 113.

Culcitium neaei Schultz-Bip =Senecio neeanus Cuatrecasas
Ref. Cabrera, 1985: 114.

Culcitium nivale H.B.K. =Senecio nivalis (H.B.K.) Cuatrecasas
Ref. Cuatrecasas, 1950b: 44.

Culcitium pavonii Weddell =Senecio pavonii Weddell
Ref. Cuatrecasas, 1950b: 44.

Culcitium peruvianum Klatt =Senecio culciklattii Cuatrecasas
Ref. Cuatrecasas, 1951a: 43.

Culcitium rufescens H.B.K. =Senecio canescens var. canescens
Ref. Cuatrecasas, 1950b: 49.

Culcitium serratifolium Meyen & Walpers =Senecio serratifolium (Meyen & Walpers) Cuatrecasas
Ref. Cuatrecasas, 1950b: 45.

Dasycondylus lobbii (Klatt) King & H. Robinson
Syn. *Eupatorium lobbii* Klatt
Ref. King & Robinson, 1987: 94, 500.
Herb. Andean I. 500-1000 m.
Voucher: Spruce 4804* (W), Schunke 7351 (US!)
Depts.: SM

Dasyphyllum barbatum Chung =Arnaldoa macbrideana Ferreyra
Ref. Chung, 1967: 321.

Dasyphyllum brasiliense (Sprengel) Cabrera var. **barnadesioides** (Tovar) Cabrera
Syn. *Flotovia barnadesioides* Tovar
Ref. Cabrera, 1959b: 76.
Endemic shrub. Andean I-II. 500-2000 m.
Voucher: Weberbauer s.n.* (USM), Marin 1567 (LP)
Depts.: CU, JU

Dasyphyllum brasiliense var. **brasiliense**
Ref. Cabrera, 1959b: 74.
Shrub. Andean II. 2000-2500 m.
Voucher: López *et al.* 9136 (HUT)
Depts.: CA

Dasyphyllum brevispinum Sagástegui & Dillon
Ref. Sagástegui & Dillon, 1985a: 6.
Endemic shrub. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: López *et al.* 9136* (F!, HUT)
Depts.: CA

Dasyphyllum cabrerae Sagástegui
Ref. Sagástegui, 1980: 61.
Endemic shrub. Andean I. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Díaz *et al.* 1105* (HUT)
Depts.: AM

Dasyphyllum ferox (Weddell) Cabrera
Syn. *Flotovia ferox* Weddell
Ref. Chung, 1965: 8.
Shrub. Andean II-III. 3000-4000 m.
Voucher: Macbride 2513 (GH)
Depts.: AN, CU, JU, LI, LL

Dasyphyllum horridum (Muschler) Tovar
Syn. *Chuquiraga horrida* Muschler, *Flotovia horrida* (Muschler) Tovar
Ref. Cabrera, 1959b: 49.
Endemic shrub. Andean II. 2500-3500 m.
Voucher: Weberbauer 5847* (B), Vargas 708 (MO!)
Depts.: AP, CU

Dasyphyllum hystrix (Weddell) Cabrera var. **hystrix**
Syn. *Flotovia hystrix* Weddell
Ref. Cabrera, 1959b: 51.
Shrub. Andean II-III. 3000-4000 m.
Voucher: Vargas 20693 (MO!)
Depts.: CU

Dasyphyllum hystrix var. **peruvianum** Cabrera
Ref. Cabrera, 1959b: 52.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: López 980* (USM), López 1961 (HUT)
Depts.: LL

Dasyphyllum leiocephalum (Weddell) Cabrera
Syn. *Flotovia leiocephala* Weddell
Ref. Cabrera, 1959b: 50.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Gay 1839-40* (P photo F), Stork & Horton 10737 (GH)
Depts.: AP, CU

Dasyphyllum weberbaueri (Tovar) Cabrera
Syn. *Flotovia weberbaueri* Tovar
Ref. Harling, 1991: 32.
Endemic shrub. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6345* (GH)
Depts.: CA, PI

Dendranthema morifolium (Ramatuell) Tzvelev
Syn. *Chrysanthemum morifolium* Ramatuell
Ref. FP n.s. 7 1981: 9.
Cultivated & introduced herb. Amazonian, Andean I-II: disturbed areas. 0-3500 m.
Voucher: Brunel 734 (MO!)
Depts.: CU, LO, SM

Dialesta discolor H.B.K. =Pollalesta discolor (H.B.K.) Aristeguieta
Ref. FP n.s. 5 1980: 55; Stutts, 1981: 400.

Diaphoranthus fuscus Meyen =Polyachyrus fuscus (Meyen) Walpers
Ref. Ricardi & Weldt, 1974: 21.

Diazeuxis trinervis R. & P. ex D. Don =Lycoseris trinervis (R. & P. ex D. Don) S. F. Blake
Ref. Harling, 1991: 34.

Diplostephium abietinum S. F. Blake
Ref. Blake, 1950: 47.
Shrub. Andean II. 3000-3500 m.
Voucher: Sandeman 13* (US!)
Depts.: AM, SM

Diplostephium affine Weddell
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Weddell 4740* (US!)
Depts.: PU

Diplostephium azureum Cuatrecasas
Ref. Cuatrecasas, 1956c: 179.

Endemic shrub. Andean II-III: grasslands, shrublands. 3000-4000 m.
Voucher: Ferreyra 7505* (US!, USM), Mostacero 1394 (F!)
Depts.: AN, CA, PA

Diplostephium cajamarquillense Cuatrecasas
Ref. Cuatrecasas, 1956c: 180.
Endemic shrub. Andean III. 3500-4000 m.
Voucher: Ferreyra 1253* (USM!), Hutchison *et al.* 6191 (NY)
Depts.: LL

Diplostephium callaense Cuatrecasas
Ref. Cuatrecasas, 1964c: 130.
Endemic shrub. Andean II: shrublands. 3000-3500 m.
Voucher: Wurdack 1266* (US), Sagástegui *et al.* 12244 (MO!)
Depts.: AM, CA

Diplostephium callilepis S. F. Blake
Ref. Blake, 1928b: 51.
Endemic shrub. Andean III: rocky slopes. 3500-4000 m.
Voucher: Pennell 13858* (F), Dillon & Turner 1736 (MO!)
Depts.: CU

Diplostephium carabayense Weddell
Ref. Blake, 1928b: 56.
Endemic shrub. Andean II. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Weddell 4648* (P frag. US!)
Depts.: PU

Diplostephium cinereum Cuatrecasas
Ref. Cuatrecasas, 1943: 228.
Endemic shrub. Andean III. 3500-4000 m.
Voucher: Weberbauer 5833* (F!)
Depts.: AP, AY

Diplostephium empetrifolium S. F. Blake
Ref. Blake, 1928b: 49.
Shrub. Andean II. 2000-3500 m.
Voucher: Edwin & Schunke 3683 (NY!)
Depts.: AM

Diplostephium foliosissimum S. F. Blake
Ref. Blake, 1936: 80.
Endemic shrub. Andean II-III: rocky slopes. 2500-4500 m.
Voucher: Weberbauer 6044* (GH), Sagástegui 8902 (NY!)
Depts.: AN, PI

Diplostephium friedbergii Cuatrecasas
Shrub. Andean II: forests. 1500-3000 m.
Voucher: Friedberg 818* (US!), Boeke 1896 (MO!)
Depts.: AM, PI

Diplostephium gnidioides S. F. Blake
Ref. Blake, 1928b: 56.
Endemic shrub. Andean I-II: grasslands. 1500-3500 m.
Voucher: Macbride & Featherstone 1858* (F!), Macbride 5184 (F)
Depts.: HU

Diplostephium goodspeedii Cuatrecasas
Ref. Cuatrecasas, 1953b: 405.
Endemic shrub. Andean II-III: disturbed areas, elfin forests, shrublands. 3000-4000 m.
Voucher: Metcalf 30747 (UC), Boeke 3226 (MO!)
Depts.: CU

Diplostephium gynoxyoides Cuatrecasas
Ref. Cuatrecasas, 1953b: 404.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Woytkowski 34049* (F!)
Depts.: HU

Diplostephium haenkei (DC.) Weddell
Syn. *Simblocline haenkei* DC.
Ref. Blake, 1928b: 59.
Shrub. Andean III: cloud forests, shrublands. 3500-4000 m.
Voucher: Haenke s.n.* (P), Pennell 13899 (NY!)
Depts.: AM, AN, CU

Diplostephium hippophae S. F. Blake
Ref. Blake, 1928b: 52.
Endemic shrub. Andean II. 1500-2000 m.
Voucher: Macbride 5136* (F!)
Depts.: HU

Diplostephium incanum Hieronymus
Ref. Blake, 1928b: 64.
Shrub. Andean II. 3000-3500 m.
Voucher: Stubel 32a* (B photo F!)
Depts.: AY

Diplostephium jelskii Hieronymus
Ref. Blake, 1928b: 54.
Endemic shrub.
Voucher: Jelski 622* (US!), Jelski 634
Depts.: CA

Diplostephium konotrichum Cuatrecasas
Ref. Cuatrecasas, 1964c: 131.
Endemic shrub. Andean II: forests. 2500-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 1634* (US!)
Depts.: AM

Diplostephium lanatum Cuatrecasas
Ref. Cuatrecasas, 1956c: 180.
Endemic shrub. Andean III. 4000-4500 m.
Voucher: Weberbauer 3323* (USM!)
Depts.: AN

Diplostephium lechleri (Schultz-Bip.) Weddell
Syn. *Liabum lechleri* Schultz-Bip.
Ref. Blake, 1928b: 58.
Shrub.
Note: Known from Peru only from the type locality.
Voucher: Lechler 2517* (NY!)
Depts.: PU

Diplostephium leucactinum Cuatrecasas
Ref. Cuatrecasas, 1956c: 181.
Shrub. Andean II: shrublands. 2500-3000 m.
Voucher: Ferreyra 1249* (USM!)
Depts.: LL

Diplostephium meyenii (Schultz-Bip.) S. F. Blake
Syn. *Aster trachyticus* F. Philippi, *Linochilus meyenii* Schultz-Bip.
Ref. Blake, 1928b: 54.
Endemic shrub. Andean II-III. 3000-4500 m.
Voucher: Rauh & Hirsch P424 (NY!)
Depts.: AM, AR, IC, MO, TA

Diplostephium pachyphyllum Cuatrecasas
Ref. Cuatrecasas, 1943: 228.
Endemic shrub. Andean II-III: shrublands. 3000-4000 m.
Voucher: Weberbauer 6078* (F), Sagástegui 12915 (NY!)
Depts.: CA, LA

Diplostephium pearcei Sprague & S. F. Blake
Ref. Blake, 1928b: 51.
Endemic shrub. Andean III: bogs. 3500-4000 m.
Voucher: Pearce s.n.* (BM frag. US!), Woytkowski 34289 (MO!)
Depts.: AY

Diplostephium peruvianum Cuatrecasas
Ref. Cuatrecasas, 1953b: 406.
Endemic shrub. Andean III. 3500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Woytkowski 34285* (F)
Depts.: HU

Diplostephium pulchrum S. F. Blake
Ref. Blake, 1928b: 58.
Endemic shrub. Andean II-III: rocky slopes. 2500-4000 m.
Voucher: Macbride 4346* (F!), Pearce s.n. (K)
Depts.: HU

Diplostephium sagasteguii Cuatrecasas
Ref. Cuatrecasas, 1972: 352.
Endemic shrub. Andean III: grasslands. 3500-4000 m.
Voucher: Sagástegui *et al.* 6185* (HUT, US!)
Depts.: AN, LL

Diplostephium sandiense Cuatrecasas
Ref. Cuatrecasas, 1956c: 183.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Weberbauer 750* (USM!)
Depts.: PU

Diplostephium serratifolium Cuatrecasas
Ref. Cuatrecasas, 1982a: 176.
Endemic shrub. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Alza s.n.* (LP frag. US!)
Depts.: CA

Diplostephium stuebelii (Hieronymus) Cuatrecasas
Syn. *Aster stuebelii* Hieronymus
Shrub.
Voucher: Stuebel 24a* (B photo F), Wurdack 1675 (US!)
Depts.: AM

Diplostephium tacorense Hieronymus
Shrub. Andean III. 4000-4500 m.
Voucher: Meyen s.n. [in 1831]* (US!), Rose 18954 (N)
Depts.: TA

Diplostephium tovarii Cuatrecasas
Ref. Cuatrecasas, 1975: 319.
Endemic shrub. Andean III. 4000-4500 m.
Voucher: Tovar 6274* (US!, USM), Tovar 6795 (US)
Depts.: AY

Diplostephium vaccinoioides S. F. Blake
Ref. Blake, 1936: 77.
Shrub. Andean III. 3500-4000 m.
Voucher: Weberbauer 6633* (GH!)
Depts.: JU

Diplostephium vermiculatum Cuatrecasas
Ref. Cuatrecasas, 1943: 229.
Endemic shrub. Andean II: rocky slopes. 3000-3500 m.
Voucher: Konehira s.n.* (F), Dillon *et al.* 3116 (F!)
Depts.: AN, HU

Diplostephium weberbaueri Cuatrecasas
Ref. Cuatrecasas, 1956c: 181.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Weberbauer 2224* (USM!)
Depts.: JU

Diplostephium wurdackii Cuatrecasas
Ref. Cuatrecasas, 1964c: 135.
Endemic shrub or subshrub. Andean II: shrublands. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 1672* (US!)
Depts.: AM

Distreptus spicatus Cassini
=Pseudelephantopus spicatus (Jussieu ex Aublet) Rohr

Distreptus spicatus (Jussieu ex Aublet) Cassini =Pseudelephantopus spicatus (Jussieu ex Aublet) Rohr
Ref. FP n.s. 5 1980: 66.

Distreptus spiralis Lessing
=Pseudelephantopus spiralis (Lessing) Cronquist
Ref. FP n.s. 5 1980: 68.

Dolichogyne acaulis Weddell ex Bentham
=Novenia acaulis (Weddell ex Bentham) Freire & Hellwig
Ref. FP n.s. 26 1991: 56.

Dolichogyne lepidophylla Weddell
=Parastrephia lepidophylla (Weddell) Cabrera
Ref. Cabrera, 1954a: 57.

Dorobaea pimpinellifolia (H.B.K.) B. Nordenstam
Syn. *Senecio lacinatus* H.B.K., *Senecio pimpinellifolia* H.B.K.
Ref. Nordenstam, 1978: 53.
Herb. Andean II-III. 1500-4000 m.
Voucher: Dillon *et al.* 2921 (F!)
Depts.: AM, AN, CA, HU, LL, PI, SM

Doronicum peruvianum Lamarck
=Oritrophium peruvianum (Lamarck) Cuatrecasas
Ref. Cuatrecasas, 1969: 75.

Dumerilia axillaris Lagasca ex DC.
=Jungia axillaris (Lagasca ex DC.) Sprengel
Ref. Harling, 1991: 80.

Dumerilia paniculata Cassini =Jungia paniculata (DC.) A. Gray
Ref. Harling, 1991: 90.

Dumerilia paniculata DC. =Jungia paniculata (DC.) A. Gray

Dunantia microcephala DC. =Isocarpha microcephala (DC.) S. F. Blake
Ref. King & Robinson, 1987: 501.

Dyssodia friasensis Domke
Ref. Strother, 1969: 86.
Endemic shrub. Andean II: grasslands. 3000-3500 m.
Note: According to Strother (1969: 86), this taxon belongs in the genus *Schizotrichia*.
Voucher: Weberbauer 6398* (B)
Depts.: PI

Dyssodia jelskii Hieronymus
Ref. Strother, 1969: 86.
Endemic shrub. Andean II: rocky slopes. 2500-3000 m.
Note: According to Strother (1969: 86), this taxon probably belongs in the genus *Schizotrichia*.
Voucher: Jelski 792*, 794*, 796* (B, syntypes), López 7813 (F)
Depts.: CA

Dyssodia lopez-mirandae Cabrera
Ref. Strother, 1969: 86.
Endemic subshrub. Andean II: rocky slopes. 2500-3000 m.
Note: Strother (1969) excludes this species from *Dyssodia* and indicates that it belongs in *Schizotrichia*.
Voucher: Sagástegui 11736 (F)
Depts.: LL

Dyssodia remota S. F. Blake
Ref. Strother, 1969: 86.
Endemic shrub. Andean II: rocky slopes. 2000-2500 m.
Note: According to Strother (1967, annotation), this taxon belongs in the genus *Schizotrichia*.
Voucher: Macbride & Featherstone 2241* (F!)
Depts.: HU

Eclipta alba (L.) Hasskarl =Eclipta prostrata (L.) L.

Eclipta prostrata (L.) L.
Syn. *Eclipta alba* (L.) Hasskarl, *Verbesina alba* L., *Verbesina prostrata* L., *Wedelia psammophila* Poeppig
Herb. Amazonian, Andean I, Coastal: disturbed areas, forests, riversides, seasonally inundated areas. 0-1000 m.
Voucher: Schunke 5998 (F)
Depts.: AM, CA, HU, IC, LI, LL, LO, PI, SM, TU, UC

Egletes viscosa (L.) Lessing
Syn. *Cotula viscosa* L.
Ref. Hieronymus, 1901b: 584; Cuatrecasas, 1969: 27.
Herb. Amazonian, Coastal: disturbed areas, forests, lomas, riversides, seasonally inundated areas. 0-500 m.
Voucher: McDaniel 23056 (F!)
Depts.: LA, LO

Elephantopus angustifolius Swartz
Syn. *Elephantopus nudiflorus* Willdenow, *Elephantopus quadriflorus* (Lessing) D. Dietrich, *Elephantosis quadriflora* Lessing, *Orthopappus angustifolius* (Swartz) Gleason
Ref. FP n.s. 5 1980: 65.
Herb. Amazonian, Andean I-II: disturbed areas, forests. 0-2500 m.
Voucher: Hutchison & Wright 3980 (MO!)
Depts.: AM, CU, HU, JU, LO, SM

Elephantopus carolinianus var. *mollis* (H.B.K.) Beurling =Elephantopus mollis H.B.K.
Ref. FP n.s. 5 1980: 63.

Elephantopus hypomalacus S. F. Blake =Elephantopus mollis H.B.K.
Ref. FP n.s. 5 1980: 63.

Elephantopus martii Graham =Elephantopus mollis H.B.K.
Ref. FP n.s. 5 1980: 63.

Elephantopus mollis H.B.K.
Syn. *Elephantopus carolinianus* var. *mollis* (H.B.K.) Beurling, *Elephantopus hypomalacus* S. F. Blake, *Elephantopus martii* Graham, *Elephantopus pilosus* Philipson, *Elephantopus sericeus* Graham, *Elephantopus serratus* Blanco
Ref. FP n.s. 5 1980: 63.
Herb. Amazonian, Andean I-II: disturbed areas, forests, riversides, shrublands. 0-3000 m.
Voucher: Klug 3464 (MO)
Depts.: AM, AY, CU, HU, JU, LO, MD, PA, SM

Elephantopus nudiflorus Willdenow =Elephantopus angustifolius Swartz
Ref. FP n.s. 5 1980: 65.

Elephantopus pilosus Philipson =Elephantopus mollis H.B.K.
Ref. FP n.s. 5 1980: 63.

Elephantopus quadriflorus (Lessing) D. Dietrich =Elephantopus angustifolius Swartz
Ref. FP n.s. 5 1980: 65.

Elephantopus sericeus Graham =Elephantopus mollis H.B.K.
Ref. FP n.s. 5 1980: 63.

Elephantopus serratus Blanco
=Elephantopus mollis H.B.K.
Ref. FP n.s. 5 1980: 63.

Elephantopus spicatus Jussieu ex Aublet
=Pseudelephantopus spicatus (Jussieu ex Aublet) Rohr
Ref. FP n.s. 5 1980: 66; Hieronymus, 1901a: 3.

Elephantosis quadriflora Lessing
=Elephantopus angustifolius Swartz
Ref. FP n.s. 5 1980: 65.

Eleutheranthera ruderalis (Swartz) Schultz-Bip.
Syn. *Melampodium ruderale* Swartz
Herb. Amazonian, Andean I: disturbed areas. 0-1000 m.
Voucher: Sagástegui 8317 (F)
Depts.: HU, SM

Ellenbergia glandulata Cuatrecasas
Syn. *Piqueria setifera* Chung
Ref. Cuatrecasas, 1964c: 142; King & Robinson, 1987: 501, 561.
Endemic herb. Andean II: shrublands. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Ellenberg 982* (US)
Depts.: CU

Encelia canescens Lamarck var. **canescens**
Shrub. Andean I-II, Coastal: beach, desert, disturbed areas, lomas. 0-3000 m.
Voucher: Sagástegui 11050 (NY), Pennell 13050 (NY)
Depts.: AN, AR, CA, IC, LA, LI, LL, PI, TA

Encelia canescens var. **parvifolia** (H.B.K.) J. Ball
Syn. *Encelia parvifolia* H.B.K., *Encelia pilocarpa* Rusby
Shrub. Andean II. 2500-3000 m.
Voucher: Williams 2526 (US)
Depts.: AR, LL

Encelia hirsuta fo. *radiata* Kuntze =Simsia dombeyana DC.

Encelia parvifolia H.B.K. =Encelia canescens var. parvifolia (H.B.K.) J. Ball

Encelia pilocarpa Rusby =Encelia canescens var. parvifolia (H.B.K.) J. Ball

Encelia pilosiflora S. F. Blake
Ref. Blake, 1917a: 43.
Endemic shrub. Coastal: lomas. 0-500 m.
Voucher: Weberbauer 1658* (B), Macbride 5955 (F)
Depts.: AR, LI

Enydra anagallis Gardner =Enydra sessilifolia (R. & P.) Cabrera

Enydra fluctuans Lourteig
Ref. Lack, 1980: 4.
Aquatic herb. Amazonian: riversides. 0-500 m.
Voucher: McDaniel & Rimachi 22336 (F)
Depts.: LO

Enydra oblonga (R. & P.) DC. =Enydra sessilifolia (R. & P.) Cabrera
Ref. Cabrera, 1960: 205.

Enydra radicans (Willdenow) Lack
Syn. *Caesulia radicans* Willdenow
Ref. Lack, 1980: 6.
Aquatic or terrestrial herb. Coastal: disturbed areas. 0-500 m.
Voucher: Llatas 824 (F)
Depts.: LA

Enydra sessilifolia (R. & P.) Cabrera
Syn. *Enydra anagallis* Gardner, *Enydra oblonga* (R. & P.) DC., *Sobreyra oblonga* R. & P. *Sobreyra sessilifolia* R. & P.
Ref. Cabrera, 1960: 206.
Aquatic or terrestrial herb. Coastal: beaches, disturbed areas. 0-1000 m.
Voucher: Macbride 5936 (F)
Depts.: LI, LL

Erato polymnioides DC.
Syn. *Liabum pallatangense* Hieronymus, *Munnozia polymnioides* (DC.) H. Robinson & Brettell
Ref. Robinson, 1976f: 379.
Herb or shrub. Andean I-II. 1000-3000 m.
Voucher: Killip & Smith 24282 (F!)
Depts.: AM, CU, HU, JU, LO, PA, PU, SM

Erato stenolepis (S. F. Blake) H. Robinson
Syn. *Liabum stenolepis* S. F. Blake, *Munnozia stenolepis* (S. F. Blake) H. Robinson & Brettell
Shrub. Andean II. 2000-2500 m.
Voucher: Macbride 4338* (F!)
Depts.: JU, HU, SM

Erechtites hieraciifolia (L.) Raf. ex DC.
Syn. *Erichtites hieraciifolia* var. *cacalioides* (Fischer ex Sprengel) Grisebach, *Senecion hieraciifolius* L.
Ref. Belcher, 1956: 12.
Herb. Amazonian, Andean I-II: disturbed areas, forests, riversides. 0-3500 m.
Voucher: Gentry *et al.* 22901 (F)
Depts.: AM, CA, CU, HU, JU, LO, MD, PA, SM

Erechtites hieracifolia var. *cacalioides* (Fischer ex Sprengel) Grisebach =Erechites hieracifolia (L.) Raf. ex DC.

Erechtites valerianifolia (Wolf) DC.
Syn. *Senecio valerianifolius* Wolf
Ref. Belcher, 1956: 25.
Herb. Amazonian, Andean I-II: disturbed areas, forests, riversides. 500-3000 m.
Voucher: Wurdack 1874 (F)
Depts.: AM, CA, HU, PU, SM

Eremanthus jelskii Hieronymus =Cuatrecasanthus jelskii (Hieronymus) H. Robinson
Ref. Robinson, 1989: 210.

Ericentrodea decomposita S. F. Blake & Sherff
Ref. Sherff, 1931: 207.
Shrub. Andean II: forest. 2500-3000 m.
Voucher: Weberbauer 7075* (F)
Depts.: LL

Erigeron bonariensis L. =Conyza bonariensis (L.) Cronquist
Ref. Cuatrecasas, 1969: 222.

Erigeron brittonianum Rusby =Erigeron rosulatus Weddell
Ref. Solbrig, 1962: 49.

Erigeron canadensis L. =Conyza canadensis (L.) Cronquist
Ref. Hieronymus, 1901a: 21.

Erigeron cardaminifolius (H.B.K.) Weddell =Conyza cardaminifolia H.B.K.
Ref. Cuatrecasas, 1969: 211.

Erigeron chinensis Jacquin =Conyza apurensis H.B.K.
Ref. Cuatrecasas, 1969: 221.

Erigeron crocifolius (H.B.K.) Weddell =Oritrophium crocifolium (H.B.K.) Cuatrecasas

Erigeron ecuadoriensis Hieronymus
Syn. *Erigeron spathulatum* Weddell, nom. illeg., *Erigeron weddellianus* Hieronymus, *Erigeron weddellianus* var. *rosuloides* Cuatrecasas
Ref. Solbrig, 1962: 37; Cuatrecasas, 1969: 59.
Herb. Andean II-III. 3000-4000 m.
Voucher: Cook & Gilbert 1304 (US)
Depts.: AM, LI

Erigeron ferrugineus Weddell =Oritrophium ferrugineum (Weddell) Cuatrecasas
Ref. Solbrig, 1962: 74.

Erigeron frigidum Weddell =Oritrophium limnophilum subsp. limnophilum
Ref. Solbrig, 1962: 74.

Erigeron gaudichaudii DC. =Erigeron leptorhizon DC.
Ref. Hieronymus, 1901b: 584.

Erigeron hieracioides Weddell =Oritrophium hieracioides (Weddell) Cuatrecasas
Ref. Solbrig, 1962: 74.

Erigeron hirtopilosus Hieronymus =Oritrophium hirtopilosum (Hieronymus) Cuatrecasas
Ref. Solbrig, 1962: 74.

Erigeron incaicus Solbrig
Ref. Solbrig, 1962: 39.
Endemic herb. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.

Voucher: Ferreyra 8532* (GH, USM)
Depts.: CA

Erigeron karwinskianum DC.
Syn. *Erigeron mucronatum* DC.
Ref. Blake, 1917a: 30; Solbrig, 1962: 44; Cuatrecasas, 1969: 57.
Introduced herb.
Note: Not reconfirmed. Said to occur in Peru by Blake (1917a), Solbrig (1962) and Cuatrecasas (1969), but no Peruvian specimens cited.

Erigeron lanceolatus var. *lorentzianus* Grisebach =Erigeron lanceolatus Weddell
Ref. Solbrig, 1962: 52.

Erigeron lanceolatus var. *subacaulis* Weddell =Erigeron lanceolatus Weddell
Ref. Solbrig, 1962: 52.

Erigeron lanceolatus Weddell
Syn. *Erigeron lanceolatus* var. *lorentzianus* Grisebach, *Erigeron lanceolatus* var. *subacaulis* Weddell
Ref. Solbrig, 1962: 52.
Herb. Andean II. 3000-3500 m.
Note: No Peru voucher cited by Solbrig (1962).

Erigeron lehmannii Hieronymus =Oritrophium peruvianum (Lamarck) Cuatrecasas

Erigeron leptorhizon DC.
Syn. *Erigeron gaudichaudii* DC.
Ref. Solbrig, 1962: 47.
Herb. Andean I, Coastal: disturbed, lomas. 0-1000 m.
Voucher: Dombey s.n.* (F!, GH), Mexia 4033 (MO)
Depts.: AN, LI, LL

Erigeron limnophilus Schultz-Bip. =Oritrophium limnophilum subsp. limnophilum

Erigeron loxensis Hieronymus =Oritrophium peruvianum (Lamarck) Cuatrecasas

Erigeron mucronatum DC. =Erigeron karwinskianum DC.
Ref. Cuatrecasas, 1969: 57.

Erigeron niveum Schultz-Bip. =Laennecia gnaphalioides (H.B.K.) Cassini
Ref. Zardini, 1981: 162.

Erigeron pazensis Schultz-Bip. ex Rusby
Ref. Solbrig, 1962: 35.
Herb. Andean II. 3000-3500 m.
Voucher: Aguilar 437 (USM)
Depts.: PU

Erigeron pellitum (H.B.K.) Weddell =Oritrophium peruvianum (Lamarck) Cuatrecasas
Ref. Cuatrecasas, 1969: 75.

Erigeron peruvianus (Lamarck) Cuatrecasas =Oritrophium peruvianum (Lamarck) Cuatrecasas
Ref. Cuatrecasas, 1969: 75.

Erigeron pinnatum Turczaninow =Conyza cardaminifolia H.B.K.
Ref. Cuatrecasas, 1969: 211.

Erigeron pulvinatum Weddell =Erigeron rosulatus Weddell
Ref. Solbrig, 1962: 49.

Erigeron repens (H.B.K.) Weddell =Oritrophium repens (H.B.K.) Cuatrecasas

Erigeron rosulatus Weddell
Syn. *Erigeron brittonianum* Rusby, *Erigeron pulvinatum* Weddell
Ref. Solbrig, 1962: 51.
Herb. Andean II-III: grasslands, rocky slopes. 3000- > 4500 m.
Voucher: Dillon & Turner 1305 (F!)
Depts.: AN, JU, PU

Erigeron spathulatum M. Vahl =Conyza apurensis H.B.K.
Ref. Cuatrecasas, 1969: 221.

Erigeron spathulatum Weddell, nom. illeg. =Erigeron ecuadoriensis Hieronymus
Ref. Cuatrecasas, 1969: 59.

Erigeron tricuneatum L. f. =Baccharis tricuneata var. tricuneatum.
Ref. Cuatrecasas, 1967b: 34.

Erigeron tunariensis Kuntze =Conyza tunariensis (Kuntze) Zardini
Ref. Zardini, 1976: 45.

Erigeron turczaninowii Weddell =Conyza cardaminifolia H.B.K.
Ref. Cuatrecasas, 1969: 211, 212.

Erigeron weddellianus Hieronymus =Erigeron ecuadoriensis Hieronymus
Ref. Cuatrecasas, 1969: 59.

Erigeron weddellianus var. *rosuloides* Cuatrecasas =Erigeron ecuadoriensis Hieronymus
Ref. Cuatrecasas, 1969: 59.

Ernstia lyrata (H.B.K.) Badillo =Blumea viscosa (Miller) Badillo
Ref. FP n.s. 26 1991: 20.

Eschenbachia lyrata (H.B.K.) Britton & Millspaugh =Blumea viscosa (Miller) Badillo
Ref. FP n.s. 26 1991: 20.

Ethulia bidentis L. =Flaveria bidentis (L.) Kuntze
Ref. Cabrera, 1978: 420.

Ethulia sparganophora L. =Struchium sparganophorum (L.) Kuntze
Ref. FP n.s. 5 1980: 60.

Ethulia struchium Swartz =Struchium sparganophorum (L.) Kuntze
Ref. FP n.s. 5 1980: 62.

Eupatorium acuminatum H.B.K. =Critoniella acuminata (H.B.K.) King & H. Robinson
Ref. King & Robinson, 1987: 501.

Eupatorium adenophorum Sprengel =Ageratina adenophora (Sprengel) King & H. Robinson
Ref. King & Robinson, 1987: 501.

Eupatorium adenophorum var. *peruvianum* Hieronymus =Ageratina adenophora (Sprengel) King & H. Robinson

Eupatorium amarum M. Vahl =Mikania parviflora (Aublet) Karsten
Ref. FP n.s. 9 1982: 41; King & Robinson, 1987: 502.

Eupatorium amethystinum B. Robinson =Aristeguietia amethystina (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 502.

Eupatorium amori Cuatrecasas =Ophryosporus heptanthus (Schultz-Bip. ex Weddell) King & H. Robinson
Ref. King & Robinson, 1987: 366, 502.

Eupatorium amygdalinum Lamarck =Ayapana amygdalina (Lamarck) King & H. Robinson
Ref. King & Robinson, 1987: 502.

Eupatorium anachoreticum B. Robinson =Chromolaena anachoretica (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 502.

Eupatorium andinum B. Robinson =Ayapanopsis andina (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 502.

Eupatorium anisodontum B. Robinson =Aristeguietia anisodonta (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 502.

Eupatorium articulatum Schultz-Bip. ex Hieronymus =Ageratina articulata (Schultz-Bip. ex Hieronymus) King & H. Robinson
Ref. King & Robinson, 1987: 503.

Eupatorium azangaroense Schultz-Bip. =Ageratina azangaroensis (Schultz-Bip. ex Weddell) King & H. Robinson
Ref. King & Robinson, 1987: 503.

Eupatorium ballii Oliver =Aristeguietia ballii (Oliver) King & H. Robinson
Ref. King & Robinson, 1987: 504.

Eupatorium bangii Rusby =Chromolaena bangii (Rusby) King & H. Robinson
Ref. King & Robinson, 1987: 504.

Eupatorium beneolens B. Robinson =Hebeclinium beneolens (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 504.

Eupatorium beneolens fo. *ctenotum* B. Robinson =Hebeclinium beneolens (B. Robinson) King & H. Robinson

Eupatorium bicolor Lamarck ex DC. =Gynoxys buxifolia (H.B.K.) Cassini
Ref. King & Robinson, 1987: 504.

Eupatorium bishopii (King & H. Robinson) B. Turner =Cronquistianthus bishopii King & H. Robinson
Ref. King & Robinson, 1987: 504.

Eupatorium buddleifolium Bentham =Aristeguietia buddleifolia (Bentham) King & H. Robinson
Ref. King & Robinson, 1987: 505.

Eupatorium bullatissimum B. Robinson =Hebeclinium bullatissimum (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 505.

Eupatorium bulliferum S. F. Blake =Cronquistianthus chamaedrifolius (H.B.K.) King & H. Robinson
Ref. Turner, 1991: 163.

Eupatorium callacatense Hieronymus =Cronquistianthus callacatensis (Hieronymus) King & H. Robinson
Ref. Turner, 1991: 162.

Eupatorium celendinensis (King & H. Robinson) B. Turner =Cronquistianthus celendinensis King & Robinson

Eupatorium celtidifolium Lamarck =Koanophyllon celtidifolia (Lamarck) King & H. Robinson
Ref. King & Robinson, 1987: 506.

Eupatorium chachapoyasense Cuatrecasas =Ageratina chachapoyasensis (Cuatrecasas) King & H. Robinson
Ref. King & Robinson, 1987: 506.

Eupatorium chachapoyense (King & H. Robinson) B. Turner =Cronquistianthus chachapoyensis King & Robinson

Eupatorium chamaedrifolium H.B.K. =Cronquistianthus chamaedrifolius (H.B.K.) King & H. Robinson
Ref. Turner, 1991: 163.

Eupatorium chilca H.B.K. =Ophryosporus chilca (H.B.K.) Hieronymus
Ref. King & Robinson, 1987: 506.

Eupatorium choricephaloides B. Robinson =Ageratina choricephaloides (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 506.

Eupatorium chotense Hieronymus =Cronquistianthus lavandulaefolius (DC.) King & H. Robinson
Ref. King & Robinson, 1987: 506-507.

Eupatorium clematideum Grisebach =Praxelis clematidea (Grisebach) King & H. Robinson
Ref. King & Robinson, 1987: 507.

Eupatorium clematitis DC. =Chromolaena odorata (L.) King & H. Robinson
Ref. King & Robinson, 1987: 507.

Eupatorium coelocaule B. Robinson =Grosvenoria coelocaulis (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 507.

Eupatorium connivens Rusby =Chromolaena connivens (Rusby) King & H. Robinson
Ref. King & Robinson, 1987: 507.

Eupatorium cookii B. Robinson =Fleischmannia cookii (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 508.

Eupatorium crenulatum Sprengel =Raulinoreitzia crenulata (Sprengel) King & H. Robinson
Ref. King & Robinson, 1987: 508.

Eupatorium cuencanum B. Robinson =Ageratina cuencana (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 509.

Eupatorium cursonii B. Robinson =Aristeguietia cursonii (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 509.

Eupatorium cuspidatum Willdenow ex Lessing =Pollalesta discolor (H.B.K.) Aristeguieta
Ref. FP n.s. 5 1980: 55; Stutts, 1981: 400.

Eupatorium cutervense Hieronymus =Ageratina cutervensis (Hieronymus) King & H. Robinson
Ref. King & Robinson, 1987: 509.

Eupatorium cuzcoense Hieronymus =Ageratina cuzcoensis (Hieronymus) King & H. Robinson
Ref. King & Robinson, 1987: 509.

Eupatorium decemflorum DC. =Austroeupatorium decemflorum (DC.) King & H. Robinson
Ref. King & Robinson, 1987: 509.

Eupatorium desmophyllum B. Robinson =Cronquistianthus desmophyllus (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 509.

Eupatorium determinatum (B. Robinson) B. Turner =Cronquistianthus determinatus (B. Robinson) King & H. Robinson
Ref. Turner, 1991: 166.

Eupatorium diffusum M. Vahl =Brickellia diffusa (M. Vahl) A. Gray
Ref. King & Robinson, 1987: 510.

Eupatorium diplodictyon B. Robinson =Aristeguietia diplodictyon (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 510.

Eupatorium discolor DC., nom. illeg. =Aristeguietia discolor (DC.) King & H. Robinson
Ref. King & Robinson, 1987: 510.

Eupatorium dispar B. Robinson =Neocuatrecasia dispar (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 510.

Eupatorium dodoneaefolium DC. =Ayapana amygdalina (Lamarck) King & H. Robinson
Ref. King & Robinson, 1987: 510.

Eupatorium dombeyanum DC. =Ageratina dombeyana (DC.) King & H. Robinson
Ref. King & Robinson, 1987: 510.

Eupatorium drepanoides B. Robinson =Badilloa drepanoides (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 510.

Eupatorium elatum Steetz =Ayapana elata (Steetz) King & H. Robinson
Ref. King & Robinson, 1987: 511.

Eupatorium elegans H.B.K. =Ageratina elegans (H.B.K.) King & H. Robinson
Ref. King & Robinson, 1987: 511.

Eupatorium eleutherantherum Rusby =Ophryosporus eleutherantherus (Rusby) B. Robinson
Ref. King & Robinson, 1987: 511.

Eupatorium endytum B. Robinson =Kaunia endyta (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 511.

Eupatorium eripsimum B. Robinson =Chromolaena eripsima (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 511.

Eupatorium eucosmoides B. Robinson =Kaunia eucosmoides (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 511.

Eupatorium exserto-venosum Klatt =Ageratina exserto-venosa (Klatt) King & H. Robinson
Ref. King & Robinson, 1987: 511.

Eupatorium extensum Gardner =Chromolaena extensa (Gardner) King & H. Robinson
Ref. King & Robinson, 1987: 511.

Eupatorium fasciculare Poeppig =Chromolaena ivaefolia (L.) King & H. Robinson
Ref. King & Robinson, 1987: 511.

Eupatorium fastigiatum H.B.K. =Ageratina fastigiata (H.B.K.) King &

H. Robinson
Ref. King & Robinson, 1987: 511.

Eupatorium ferreyrii (King & H. Robinson) B. Turner =Cronquistianthus ferreyrii King & H. Robinson

Eupatorium flexile B. Robinson =Koanophyllon flexilis (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 512.

Eupatorium fragile B. Robinson =Fleischmannia fragilis (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 512.

Eupatorium fraternum DC. =Ayapana amygdalina (Lamarck) King & H. Robinson
Ref. King & Robinson, 1987: 512.

Eupatorium gascae B. Robinson =Aristeguietia gascae (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 512.

Eupatorium gayanum Weddell =Aristeguietia gayana (Weddell) King & H. Robinson
Ref. King & Robinson, 1987: 512.

Eupatorium gilbertii B. Robinson =Ageratina gilbertii (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 512.

Eupatorium glechonophyllum Lessing =Ageratina glechonophylla (Lessing) King & H. Robinson
Ref. King & Robinson, 1987: 513.

Eupatorium gloeocladum B. Robinson =Ageratina gloeoclada (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 513.

Eupatorium glomeratum DC. =Cronquistianthus glomeratus (DC.) King & H. Robinson
Ref. King & Robinson, 1987: 513.

Eupatorium gracilentum B. Robinson =Ageratina gracilenta (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 513.

Eupatorium haughtii B. Robinson =Chromolaena haughtii (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 514.

Eupatorium helianthifolium H.B.K. =Badilloa helianthifolia (H.B.K.) King & H. Robinson
Ref. King & Robinson, 1987: 514.

Eupatorium heptanthum Schultz-Bip. ex Weddell =Ophryosporus heptanthus (Schultz-Bip. ex Weddell) King & H. Robinson
Ref. King & Robinson, 1987: 514.

Eupatorium herrerae B. Robinson =Badilloa herrerae (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 514.

Eupatorium huantae B. Robinson =Koanophyllon huantae (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 515.

Eupatorium huanucanum B. Turner =Cronquistianthus macbridei King & H. Robinson
Ref. King & Robinson, 1987: 368, 499.

Eupatorium hylophorbum B. Robinson =Hebeclinium hylophorbum (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 515.

Eupatorium incarum B. Robinson =Nothobaccharis candolleana (Steudel) King & H. Robinson
Ref. King & Robinson, 1987: 516.

Eupatorium incasicum Weddell =Ageratina pentlandiana (DC.) King & H. Robinson
Ref. King & Robinson, 1987: 516.

Eupatorium inulaefolium H.B.K. =Austroeupatorium inulaefolium (H.B.K.) King & H. Robinson
Ref. King & Robinson, 1987: 516.

Eupatorium iresinoides H.B.K. =Condylidium iresinoides (H.B.K.) King & H. Robinson
Ref. King & Robinson, 1987: 516.

Eupatorium isillumense B. Robinson =Koanophyllon isillumense (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 516.

Eupatorium ivaefolium L. =Chromolaena ivaefolia (L.) King & H. Robinson
Ref. King & Robinson, 1987: 516.

Eupatorium jelskii Hieronymus =Chromolaena jelskii (Hieronymus) King & H. Robinson
Ref. King & Robinson, 1987: 516.

Eupatorium juninense B. Robinson =Koanophyllon juninense (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 516.

Eupatorium kalenbornianum B. Robinson =Cronquistianthus callacatensis (Hieronymus) King & H. Robinson
Ref. Turner, 1991: 162.

Eupatorium kleinioides H.B.K. =Praxelis kleinioides (H.B.K.) Schultz-Bip.
Ref. King & Robinson, 1987: 517.

Eupatorium laevigatum Lamarck =Chromolaena laevigata (Lamarck) King & H. Robinson
Ref. King & Robinson, 1987: 517.

Eupatorium lavandulaefolium DC. =Cronquistianthus lavandulaefolius (DC.) King & H. Robinson
Ref. King & Robinson, 1987: 517.

Eupatorium leptocephalum DC. =Chromolaena leptocephala (DC.) King & H. Robinson
Ref. King & Robinson, 1987: 518.

Eupatorium leptocephalum var. *hypomalacum* DC. =Chromolaena leptocephala (DC.) King & H. Robinson

Eupatorium leucophyllum H.B.K. =Cronquistianthus leucophyllus (H.B.K.) King & H. Robinson
Ref. King & Robinson, 1987: 518.

Eupatorium lithophilum B. Robinson =Fleischmannia lithophila (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 518.

Eupatorium lobbii Klatt =Dasycondylus lobbii (Klatt) King & H. Robinson
Ref. King & Robinson, 1987: 518.

Eupatorium lobuliferum B. Robinson =Ageratina lobulifera (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 518.

Eupatorium longipetiolatum Schultz-Bip. ex Rusby =Kaunia longipetiolata (Schultz-Bip. ex Rusby) King & H. Robinson
Ref. King & Robinson, 1987: 518.

Eupatorium longipetiolatum var. *arbusculare* B. Robinson =Kaunia arbuscularis (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 518.

Eupatorium lopezmirandae Cabrera =Cronquistianthus lopezmirandae (Cabrera) King & H. Robinson
Ref. Cabrera, 1962: 21; King & Robinson, 1987: 518.

Eupatorium loxense Hieronymus =Ageratina exserto-venosa (Klatt) King & H. Robinson
Ref. King & Robinson, 1987: 519.

Eupatorium macbridei B. Robinson =Ageratina macbridei (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 519.

Eupatorium macromeris B. Robinson =Bartlettina macromeris (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 519.

Eupatorium macrophyllum L. =Hebeclinium macrophyllum (L.) DC.
Ref. King & Robinson, 1987: 519.

Eupatorium mancoanum B. Robinson =Neocuatrecasia mancoana (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 519.

Eupatorium mapiriense Hieronymus =Austroeupatorium decemflorum (DC.)

King & H. Robinson
Ref. King & Robinson, 1987: 519.

Eupatorium marginatum Poeppig =Fleischmannia marginata (Poeppig) King & H. Robinson
Ref. King & Robinson, 1987: 519.

Eupatorium marquezianum Gómez de la Maza =Mikania cordifolia (L. f.) Willdenow
Ref. FP n.s. 9 1982: 17; King & Robinson, 1987: 519.

Eupatorium marrubiifolium Hieronymus =Cronquistianthus marrubiifolius (Hieronymus) King & H. Robinson
Ref. King & Robinson, 1987: 519.

Eupatorium mathewsii B. Robinson =Ayapanopsis mathewsii (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 519.

Eupatorium melissaefolium Lamarck =Stevia melissiaefolia (Lamarck) Schultz-Bip.
Ref. King & Robinson, 1987: 520.

Eupatorium mercedense B. Robinson =Fleischmannia mercedensis (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 520.

Eupatorium microstemon Cassini =Fleischmannia microstemon (Cassini) King & H. Robinson
Ref. King & Robinson, 1987: 520.

Eupatorium microstemon var. *perennans* B. Robinson =Fleischmannia microstemon (Cassini) King & H. Robinson

Eupatorium morifolium Miller =Critonia morifolia (Miller) King & H. Robinson
Ref. King & Robinson, 1987: 521.

Eupatorium nemorosum Klatt =Polyanthina nemorosa (Klatt) King & H. Robinson
Ref. King & Robinson, 1987: 522.

Eupatorium odoratum L. =Chromolaena odorata (L.) King & H. Robinson
Ref. King & Robinson, 1987: 522.

Eupatorium orgyaloides B. Robinson =Idiothamnus orgyaloides (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 523.

Eupatorium origanoides Meyen & Walpers =Ophryosporus heptanthus (Schultz-Bip. ex Weddell) King & H. Robinson
Ref. King & Robinson, 1987: 523.

Eupatorium pampalcense B. Robinson =Ageratina pampalcensis (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 523.

Eupatorium parviflorum Aublet =Mikania parviflora (Aublet) Karsten
Ref. FP n.s. 9 1982: 41; King & Robinson, 1987: 524.

Eupatorium pastazae B. Robinson =Fleischmannia pastazae (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 524.

Eupatorium pauciflorum H.B.K. =Praxelis pauciflora (H.B.K.) King & H. Robinson
Ref. King & Robinson, 1987: 524.

Eupatorium pentlandianum DC. =Ageratina pentlandiana (DC.) King & H. Robinson
Ref. King & Robinson, 1987: 525.

Eupatorium pichinchense H.B.K. =Ageratina pichinchensis (H.B.K.) King & H. Robinson
Ref. King & Robinson, 1987: 425.

Eupatorium pilluanense Gardner =Ayapana pilluanensis (Hieronymus) King & H. Robinson
Ref. King & Robinson, 1987: 525.

Eupatorium piquerioides DC. =Ophryosporus piquerioides (DC.) Bentham ex Baker
Ref. King & Robinson, 1987: 525.

Eupatorium piurae B. Robinson =Ageratina piurae (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 425.

Eupatorium probum N. E. Brown =Ageratina proba (N. E. Brown) King & H. Robinson
Ref. King & Robinson, 1987: 526.

Eupatorium procerum B. Robinson =Badilloa procera (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 526.

Eupatorium prunifolium H.B.K. =Ageratina prunellaefolia (H.B.K.) King & H. Robinson
Ref. King & Robinson, 1987: 527.

Eupatorium pseudarboreum Hieronymus =Aristeguietia pseudarborea (Hieronymus) King & H. Robinson
Ref. King & Robinson, 1987: 527.

Eupatorium pseudofastigiatum Hieronymus =Ageratina exserto-venosa (Klatt) King & H. Robinson
Ref. King & Robinson, 1987: 527.

Eupatorium pseudofastigiatum var. *crenata* Hieronymus =Ageratina exserto-venosa (Klatt) King & H. Robinson

Eupatorium pseudofastigiatum var. *crenatodentata* Hieronymus =Ageratina exserto-venosa (Klatt) King & H. Robinson

Eupatorium pseudofastigiatum var. *lanceolata* Hieronymus =Ageratina exserto-venosa (Klatt) King & H. Robinson

Eupatorium pteropodum Hieronymus =Polyanthina nemorosa (Klatt) King & H. Robinson
Ref. King & Robinson, 1987: 527.

Eupatorium pycnocephalum Lessing =Fleischmannia pycnocephala (Lessing) King & H. Robinson
Ref. King & Robinson, 1987: 527.

Eupatorium rhodotephrum B. Robinson =Fleischmannia rhodotephra (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 528.

Eupatorium rhytidodes B. Robinson =Ageratina rhytidodes (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 528.

Eupatorium riparium Regel =Ageratina riparia (Regel) King & H. Robinson
Ref. King & Robinson, 1987: 528.

Eupatorium roseorum B. Robinson =Chromolaena roseorum (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 529.

Eupatorium rugosum H.B.K. =Cronquistianthus chamaedrifolius (H.B.K.) King & H. Robinson
Ref. Turner, 1991: 163.

Eupatorium scabrifolium B. Robinson =Asplundianthus scabrifolius (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 530.

Eupatorium scopulorum Weddell =Ageratina scopulorum (Weddell) King & H. Robinson
Ref. King & Robinson, 1987: 530.

Eupatorium serratuloides H.B.K. =Chromolaena serratuloides (H.B.K.) King & H. Robinson
Ref. King & Robinson, 1987: 530.

Eupatorium simulans B. Robinson =Ageratina simulans (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 531.

Eupatorium sodiroi Hieronymus =Ageratina sodiroi (Hieronymus) King & H. Robinson
Ref. King & Robinson, 1987: 531.

Eupatorium solidaginoides H.B.K. =Koanophyllon solidaginoides (H.B.K.) King & H. Robinson
Ref. King & Robinson, 1987: 531.

Eupatorium sphagnophilum B. Robinson =Badilloa sphagnophila (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 531.

Eupatorium sprucei B. Robinson =Ayapana elata (Steetz) King &

H. Robinson
Ref. King & Robinson, 1987: 531.

Eupatorium squalidum DC. =Chromolaena squalida (DC.) King & H. Robinson
Ref. King & Robinson, 1987: 531.

Eupatorium squalidum var. *rusbyanum* B. Robinson =Chromolaena squalida (DC.) King & H. Robinson

Eupatorium sternbergianum DC. =Ageratina sternbergiana (DC.) King & H. Robinson
Ref. King & Robinson, 1987: 532.

Eupatorium stictophyllum B. Robinson =Ageratina stictophylla (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 532.

Eupatorium stramineum DC. =Helogyne straminea (DC.) B. Robinson
Ref. King & Robinson, 1987: 532.

Eupatorium stuebelii Hieronymus =Asplundianthus stuebelii (Hieronymus) King & H. Robinson
Ref. King & Robinson, 1987: 532.

Eupatorium subferrugineum B. Robinson =Ageratina subferruginea (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 532.

Eupatorium subscandens Hieronymus =Chromolaena subscandens (Hieronymus) King & H. Robinson
Ref. King & Robinson, 1987: 532.

Eupatorium tacaquirense (Hieronymus) B. Robinson =Helogyne tacaquirensis Hieronymus
Ref. King & Robinson, 1987: 533.

Eupatorium tahonense Hieronymus =Aristeguietia tahonensis (Hieronymus) King & H. Robinson
Ref. King & Robinson, 1987: 533.

Eupatorium tambillense Hieronymus =Ageratina tambillensis (Hieronymus) King & H. Robinson
Ref. King & Robinson, 1987: 533.

Eupatorium tarapotense B. Robinson =Ayapanopsis tarapotensis (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 533.

Eupatorium tarmense B. Robinson =Ageratina tarmensis (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 533.

Eupatorium tenuicapitulatum Hieronymus =Chromolaena tenuicapitulata (Hieronymus) King & H. Robinson
Ref. King & Robinson, 1987: 533.

Eupatorium trachyphyllum Hieronymus =Asplundianthus trachyphyllus (Hieronymus) King & H. Robinson
Ref. King & Robinson, 1987: 534.

Eupatorium uber B. Robinson =Kaunia uber (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 535.

Eupatorium urubambense B. Robinson =Cronquistianthus urubambensis (B. Robinson) King & H. Robinson
Ref. Turner, 1991: 166.

Eupatorium urubambense var. *determinatum* B. Robinson =Cronquistianthus determinatus (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 535.

Eupatorium urubambense var. *mantarense* B. Robinson =Cronquistianthus urubambensis (B. Robinson) King & H. Robinson

Eupatorium vallincola DC. =Ageratina vallincola (DC.) King & H. Robinson
Ref. King & Robinson, 1987: 535.

Eupatorium ventillanum Cuatrecasas =Ageratina riparia (Regel) King & H. Robinson
Ref. King & Robinson, 1987: 535.

Eupatorium vestitum Poeppig non Sprengel =Hebeclinium vestitum King & H. Robinson
Ref. King & Robinson, 1987: 536.

Eupatorium vitalbae DC. =Heterocondylus vitalbae (DC.) King & H. Robinson
Ref. King & Robinson, 1987: 536.

Eupatorium volkensii Hieronymus =Cronquistianthus volkensii (Hieronymus) King & H. Robinson
Ref. King & Robinson, 1987: 536.

Eupatorium weberbaueri Hieronymus =Crossothamnus weberbaueri (Hieronymus) King & H. Robinson
Ref. King & Robinson, 1987: 536.

Eupatorium weddellii B. Robinson =Neocuatrecasia weddellii (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 536.

Facelis lasiocarpa (Grisebach) Cabrera
Syn. *Facelis schultziana* Beauvisage, *Filago lasiocarpa* Grisebach
Ref. FP n.s. 26 1991: 25.
Herb. Andean II-III. 1500-4000 m.
Voucher: Sagástegui *et al.* 8988 (F!, HUT)
Depts.: AN, CA, LI, LL

Facelis plumosa (Weddell) Schultz-Bip.
Syn. *Facelis weddelliana* Beauvisage, *Lucilia plumosa* Weddell
Ref. FP n.s. 26 1991: 25.
Herb. Andean II-III: rocky slopes. 2500-4500 m.
Voucher: Weddell s.n.* (P), Pennell 13251 (F!)
Depts.: AR, AY, JU, LI, PU

Facelis schultziana Beauvisage =Facelis lasiocarpha (Grisebach) Cabrera
Ref. FP n.s. 26 1991: 25.

Facelis weddelliana Beauvisage =Facelis plumosa (Weddell) Schultz-Bip.
Ref. FP n.s. 26 1991: 25.

Ferreyranthus excelsus (Poeppig) H. Robinson & Brettell
Syn. *Andromachia excelsa* Poeppig, *Liabum excelsum* (Poeppig) S. F. Blake
Ref. Robinson & Brettell, 1974: 51.
Endemic shrub.
Voucher: Poeppig s.n.* (W), Dillon 2695 (F!)
Depts.: AN, AM, CU, HU, LI

Ferreyranthus fruticosus (Muschler) H. Robinson
Syn. *Liabum fruticosum* Muschler, *Oligactis fruticosa* (Muschler) H. Robinson & Brettell
Ref. Robinson, 1982: 169.
Endemic shrub. Andean I-II. 1000-3000 m.
Voucher: Weberbauer 4257* (B photo F), Dillon & Turner 1722 (F!)
Depts.: AM, CA, LA, PI

Ferreyranthus pseudosalviifolius (Hieronymus) H. Robinson & Brettell =Ferreyranthus verbascifolius (H.B.K.) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 51.

Ferreyranthus ramonii H. Robinson
Ref. Robinson, 1982: 170.
Endemic shrub. Andean II: forests. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Ferreyra 15259* (US!, USM)
Depts.: AM

Ferreyranthus rugosus (Ferreyra) H. Robinson & Brettell
Syn. *Liabum rugosum* Ferreyra
Ref. Robinson & Brettell, 1974: 51.
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Wurdack 469* (NY)
Depts.: AM

Ferreyranthus tovarii (Cabrera) H. Robinson & Brettell =Ferreyranthus vernonioides (Muschler) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 51.

Ferreyranthus vaginans (Muschler) H. Robinson & Brettell
Syn. *Liabum vaginans* Muschler
Ref. Robinson & Brettell, 1974: 51.
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Weberbauer 5868* (US)
Depts.: AP

Ferreyranthus verbascifolius (H.B.K.) H. Robinson & Brettell
Syn. *Andromachia verbascifolia* H.B.K., *Ferreyranthus pseudosalviifolius* (Hieronymus) H. Robinson & Brettell, *Liabum pseudosalviifolium* Hieronymus, *Liabum salviifolium* Hieronymus,

Liabum verbascifolium (H.B.K.) Lessing
Ref. Robinson & Brettell, 1974: 51.
Shrub. Andean II. 1000-3000 m.
Voucher: Sagástegui 12182 (F!)
Depts.: AM, AP, CA, CU, HU, LA, LL

Ferreyranthus vernonioides (Muschler) H. Robinson & Brettell
Syn. *Ferreyranthus tovarii* (Cabrera) H. Robinson & Brettell, *Liabum tovarii* Cabrera, *Liabum vernonioides* Muschler
Ref. Robinson & Brettell, 1974: 51.
Endemic shrub. Andean II. 2000-3500 m.
Voucher: Weberbauer 5854* (B photo F), Tovar 1408 (USM)
Depts.: AP, AY, CA, HV, LL

Ferreyrella cuatrecasasii King & H. Robinson
Ref. King & Robinson, 1987: 163, 537.
Endemic herb. Andean II. 2500-3000 m.
Voucher: Hutchison & Wright 5215* (US)
Depts.: CA

Ferreyrella peruviana S. F. Blake
Ref. King & Robinson, 1987: 163, 537.
Endemic herb. Andean II: rocky slopes. 1500-3500 m.
Voucher: Ferreyra 7623* (US!), Ferreyra 7653 (US!)
Depts.: CA, LL

Filago lasiocarpa Grisebach =Facelis lasiocarpha (Grisebach) Cabrera
Ref. FP n.s. 26 1991: 25.

Flaveria bidentis (L.) Kuntze
Syn. *Ethulia bidentis* L., *Flaveria chilensis* Gmelin, *Vermifuga corymbosa* R. & P.
Ref. Cabrera, 1978: 420.
Herb. Andean I-II, Coastal: beach, disturbed areas, lomas, riversides. 0-2500 m.
Voucher: Gentry *et al.* 22797 (MO)
Depts.: AM, AP, AR, CA, CU, HU, IC, LI, LL, TA

Flaveria chilensis Gmelin =Flaveria bidentis (L.) Kuntze
Ref. Cabrera, 1978: 420.

Flaveria peruviana Gmelin =Ophryosporus peruvianus (Gmelin) King & H. Robinson
Ref. King & Robinson, 1987: 537.

Flaveria trinervia (Sprengel) C. Mohr
Syn. *Oedera trinervia* Sprengel
Herb.
Voucher: Hutchison 1293 (UC)
Depts.: AR

Fleischmannia cookii (B. Robinson) King & H. Robinson
Syn. *Eupatorium cookii* B. Robinson
Ref. King & Robinson, 1987: 288, 537.
Endemic herb. Andean I-III, Coastal: disturbed areas, forests. 500-4000 m.
Voucher: Cook & Gilbert 1352* (US), Macbride 4911 (F!)
Depts.: CU, HU, JU, LA, PI

Fleischmannia ferreyrii King & H. Robinson
Ref. King & Robinson, 1987: 288.
Endemic herb. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Ferreyra 9494a* (US!)
Depts.: HU

Fleischmannia fragilis (B. Robinson) King & H. Robinson
Syn. *Eupatorium fragile* B. Robinson
Ref. King & Robinson, 1987: 288.
Endemic herb. Andean II: rocky slopes. 2500-3000 m.
Voucher: Macbride & Featherstone 1585* (F!)
Depts.: HU

Fleischmannia lithophila (B. Robinson) King & H. Robinson
Syn. *Eupatorium lithophilum* B. Robinson
Ref. King & Robinson, 1987: 288.
Endemic herb. Andean II: rocky slopes. 2000-3500 m.
Voucher: Macbride & Featherstone 2235* (F!)
Depts.: HU, HV

Fleischmannia marginata (Poeppig) King & H. Robinson
Syn. *Eupatorium marginatum* Poeppig
Ref. King & Robinson, 1987: 288.
Endemic shrub. Andean I-II: disturbed areas, forests, riversides. 500-3000 m.
Voucher: Poeppig 1264* (W photo F), Dillon *et al.* 1118 (F!)
Depts.: AM, CA, CU, HU, HV, JU, LA, PU

Fleischmannia mercedensis (B. Robinson) King & H. Robinson
Syn. *Eupatorium mercedense* B. Robinson
Ref. King & Robinson, 1987: 288.
Endemic herb. Andean I: shrublands. 500-1000 m.
Voucher: Killip & Smith 23793* (US!)
Depts.: JU

Fleischmannia microstemon (Cassini) King & H. Robinson
Syn. *Eupatorium microstemon* Cassini, *Eupatorium microstemon* var. *perennans* B. Robinson
Ref. King & Robinson, 1987: 288, 537.
Herb. Amazonian, Andean I-II: disturbed areas, forests, riversides. 0-2500 m.
Voucher: Plowman *et al.* 7207 (F!)
Depts.: AM, AY, CU, HU, JU, LO, PA, SM

Fleischmannia pastazae (B. Robinson) King & H. Robinson
Syn. *Eupatorium pastazae* B. Robinson
Ref. King & Robinson, 1987: 288, 538.
Herb. Andean II: disturbed areas. 2000-2500 m.
Voucher: Llatas 1218 (F!)
Depts.: CA

Fleischmannia pycnocephala (Lessing) King & H. Robinson
Syn. *Eupatorium pycnocephalum* Lessing
Ref. King & Robinson, 1987: 289, 538.
Herb. Andean I-II. 1000-3000 m.
Voucher: Killip & Smith 24195 (F!)
Depts.: HU, HV, JU, PI

Fleischmannia rhodotephra (B. Robinson) King & H. Robinson
Syn. *Eupatorium rhodotephrum* B. Robinson
Ref. King & Robinson, 1987: 289, 538.
Endemic subshrub. Andean I-II: riversides. 1000-3500 m.
Voucher: Macbride & Featherstone 1228* (F!)
Depts.: AY, HU, PA

Flotovia barnadesioides Tovar =Dasyphyllum brasiliense var. barnadesioides (Tovar) Cabrera
Ref. Tovar, 1953: 10.

Flotovia ferox Weddell =Dasyphyllum ferox (Weddell) Cabrera
Ref. Tovar, 1953: 6; Chung, 1965: 8.

Flotovia horrida (Muschler) Tovar =Dasyphyllum horridum (Muschler) Tovar
Ref. Tovar, 1953: 7.

Flotovia hystrix Weddell =Dasyphyllum hystrix var. hystrix
Ref. Cabrera, 1959b: 51.

Flotovia leiocephala Weddell =Dasyphyllum leiocephalum (Weddell) Cabrera
Ref. Tovar, 1953: 9.

Flotovia weberbaueri Tovar =Dasyphyllum weberbaueri (Tovar) Cabrera
Ref. Tovar, 1953: 9.

Flourensia angustifolia (DC.) S. F. Blake
Syn. *Flourensia thurifera* var. *angustifolia* DC.
Ref. Dillon, 1984b: 35.
Endemic shrub. Andean II. 1500-3500 m.
Voucher: Dombey 24* (F), Dillon & Turner 1317 (F!)
Depts.: JU, HU

Flourensia cajabambensis Dillon
Ref. Dillon, 1986: 32.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Dillon *et al.* 2885* (NY), Sagástegui 11265 (HUT)
Depts.: CA

Flourensia macrophylla S. F. Blake
Ref. Dillon, 1984b: 35.
Endemic shrub. Andean II. 2500-3500 m.
Voucher: Weberbauer 119* (F!), Dillon *et al.* 3171 (F!)
Depts.: AN, LI, LL

Flourensia peruviana Dillon
Ref. Dillon, 1981b: 108; Dillon, 1984b: 38.
Endemic shrub. Andean II: rocky slopes. 1500-3500 m.
Voucher: Tovar 193* (F), Ochoa 574 (GH)
Depts.: AY, HV

Flourensia polycephala Dillon
Ref. Dillon, 1981b: 106; Dillon, 1984b: 38.
Endemic shrub. Andean II: rocky slopes. 2500-3500 m.
Voucher: Marin 231* (F), Vargas 11053 (F)
Depts.: AP, CU

Flourensia thurifera var. *angustifolia* DC. =Flourensia angustifolia (DC.) S. F. Blake

Franseria artemisioides Willdenow =Ambrosia arborescens Miller

Franseria dentata Cabrera =Ambrosia dentata (Cabrera) Dillon
Ref. Cabrera, 1962: 25; Dillon, 1984a: 337.

Franseria meyeniana Schultz-Bip. =Ambrosia artemisioides Meyen & Walpers ex Meyen

Franseria recurva Rusby =Ambrosia artemisioides Meyen & Walpers ex Meyen

Franseria tacorensis Meyen & Walpers =Ambrosia artemisioides Meyen & Walpers ex Meyen

Fulcaldea laurifolia (Humboldt & Bonpland) Poiret ex Lessing
Syn. *Barnadesia laurifolia* (Humboldt & Bonpland) Hieronymus, *Turpinia laurifolia* Humboldt & Bonpland
Ref. Harling, 1991: 20.
Shrub. Andean I. 1000-1500 m.
Voucher: Weberbauer 6357 (F!)
Depts.: PI

Galinsoga caligensis Canne
Ref. Canne, 1977: 353.
Endemic herb. Coastal: lomas. 0-1000 m.
Voucher: Mexia 4045* (MO!), Vargas 4690
Depts.: LI

Galinsoga ciliata (Raf.) S. F. Blake =Galinsoga quadriradiata R. & P.
Ref. Canne, 1977: 356.

Galinsoga mandonii Schultz-Bip.
Ref. Canne, 1977: 370.
Herb. Andean II-III: disturbed areas, rocky slopes. 1500-4500 m.
Voucher: Ruiz & Pavón s.n.* (MA), Sagástegui 11645 (F!)
Depts.: AR, CU, JU, HU, LI, LL

Galinsoga parviflora Cavanilles
Syn. *Galinsoga quinqueradiata* R. & P.
Ref. Hieronymus, 1905: 498.
Herb. Amazonian, Andean I-II, Coastal: disturbed areas, grasslands. 0-3000 m.
Voucher: Canne & Schunke 207 (F)
Depts.: CA, HU, JU, LI, LO

Galinsoga quadriradiata R. & P.
Syn. *Galinsoga ciliata* (Raf.) S. F. Blake, *Galinsoga urticaefolia* (H.B.K.) Bentham, *Stemmatella urticifolia* var. *eglandulosa* Hieronymus, *Wilborgia urticaefolia* H.B.K.
Ref. Canne, 1977: 355.
Herb. Amazonian, Andean I-II, Coastal: disturbed areas, grasslands, riversides. 0-3500 m.
Voucher: Ferreyra 6099 (F!)
Depts.: CU, HU, HV, JU, LA, LI, LL, PI, SM

Galinsoga quinqueradiata R. & P. =Galinsoga parviflora Cavanilles

Galinsoga urticaefolia (H.B.K.) Bentham =Galinsoga quadriradiata R. & P.
Ref. Canne, 1977: 355.

Gamochaeta americana (Miller) Weddell
Syn. *Gamochaeta spicata* (Lamarck) Cabrera, *Gnaphalium americanum* Miller, *Gnaphalium spicatum* Lamarck
Ref. FP n.s. 26 1991: 28.
Herb. Andean I-III, Coastal: forests. 1000-4000 m.
Voucher: Dillon *et al.* 2861 (F!, HUT)
Depts.: AM, AN, AP, CA, CU, HU, HV, JU, LA, LI, LL, MO, PA, PI, PU, SM

Gamochaeta captitata Weddell =Stuckertiella capitata (Weddell) Beauvisage
Ref. FP n.s. 26 1991: 63.

Gamochaeta humilis Weddell
Ref. FP n.s. 26 1991: 29.
Herb. Andean II-III: grasslands. 3000- > 4500 m.
Voucher: Dillon *et al.* 3356 (F!)
Depts.: AN, AY, CU, JU, LL, MO, PU

Gamochaeta monticola Dillon & Sagástegui, nom. illeg. =Gamochaeta oreophila Dillon & Sagástegui
Ref. FP n.s. 26 1991: 29; Dillon & Sagástegui, 1986a: 227.

Gamochaeta oreophila Dillon & Sagástegui
Syn. *Gamochaeta monticola* Dillon & Sagástegui nom. illeg.
Ref. FP n.s. 26 1991: 29.
Endemic herb. Andean II-III: shrublands. 3000- > 4500 m.
Voucher: Sagástegui *et al.* 11100* (F!, HUT), Sagástegui *et al.* 12228 (F!, HUT)
Depts.: AN, CA, LA, LL

Gamochaeta purpurea (L.) Cabrera
Syn. *Gnaphalium purpureum* L.
Ref. FP n.s. 26 1991: 31.
Herb. Amazonian, Andean I-III, Coastal: lomas. 0-4500 m.
Voucher: Dillon & Dillon 3878 (F!, HUT)
Depts.: AN, AP, AR, CA, CU, HU, HV, JU, LA, LI, LL, MO, PI, PU, TA

Gamochaeta spicata (Lamarck) Cabrera =Gamochaeta americana (Miller) Weddell
Ref. FP n.s. 26 1991: 28.

Garcilassa rivularis Poeppig
Herb. Amazonian, Andean I-II: disturbed areas, forests, riversides. 0-3000 m.
Voucher: Solomon 3042 (MO!)
Depts.: AM, CU, JU, HU, SM

Gerbera hieracioides (H.B.K.) Zardini
Syn. *Onoseris hieracioides* H.B.K., *Trichocline hieracioides* (H.B.K.) Ferreyra, *Trichocline peruviana* Hieronymus
Ref. Zardini, 1974: 105; Harling, 1991: 56.
Herb. Andean II-III: forests, shrublands. 1500-4000 m.
Voucher: Hutchison & Wright 5653 (USM)
Depts.: AM, AN, CA, HU, LL, PI

Gnaphalium alatum H.B.K. =Achyrocline alata (H.B.K.) DC.
Ref. FP n.s. 26 1991: 4.

Gnaphalium americanum Miller =Gamochaeta americana (Miller) Weddell
Ref. FP n.s. 26 1991: 28.

Gnaphalium antennarioides DC.
Syn. *Antennaria monica* Weddell, *Helichrysum gnaphaloides* H.B.K.
Ref. FP n.s. 26 1991: 34.
Herb. Andean II-III: forests. 3000-4000 m.
Voucher: Humboldt & Bonpland s.n. (P photo F)
Depts.: AM, CU, PI

Gnaphalium argyrolepis Philippi =Gnaphalium lacteum Meyen & Walpers
Ref. Dillon & Sagástegui, 1991: 39.

Gnaphalium badium Weddell
Ref. FP n.s. 26 1991: 34.
Herb. Andean II-III: forests. 3000- > 4500 m.
Voucher: Macbride & Featherstone 782 (F!)
Depts.: AN, AY, JU, LI, PU

Gnaphalium capitatum (Weddell) Grisebach =Stuckertiella capitata (Weddell) Beauvisage
Ref. FP n.s. 26 1991: 63.

Gnaphalium celosioides H.B.K. =Achyrocline celosioides (H.B.K.) DC.
Ref. FP n.s. 26 1991: 5.

[Gnaphalium cheiranthifolium Lamarck]
Syn. *Pseudognaphalium cheiranthifolia* (Lamarck) Hilliard & Burt
Ref. FP n.s. 26 1991: 40.
Note: Not known from Peru.

Gnaphalium dombeyanum DC.
Syn. *Gnaphalium helichrysoides* Weddell, *Gnaphalium jelskii* Hieronymus, *Gnaphalium lanuginosum* H.B.K., *Gnaphalium melanosphaeroides* Schultz-Bip. ex Weddell, *Gnaphalium nanum* H.B.K.
Ref. FP n.s. 26 1991: 35.

Endemic herb. Amazonian, Andean I-III, Coastal. 0-4500 m.
Voucher: Dombey 38* (F!), Dillon & Turner 1721 (F, USM)
Depts.: AM, AN, AP, AR, AY, CA, CU, HU, HV, JU, LA, LI, LL, MO, PI, PU

Gnaphalium dysodes Sprengel
Ref. FP n.s. 26 1991: 35.
Note: Name is of uncertain application. The type has yet to be located.

Gnaphalium elegans H.B.K.
Syn. *Gnaphalium poeppigianum* DC.
Ref. FP n.s. 26 1991: 37.
Herb. Andean I-II. 1000-3000 m.
Voucher: Dillon *et al.* 3036 (F!)
Depts.: AM, AN, AP, AR, AY, CA, CU, HU, HV, JU, LA, LI, LL, MO, PI, PU

Gnaphalium frigidum Weddell
=Gnaphalium lacteum Meyen & Walpers
Ref. FP n.s. 26 1991: 40.

[Gnaphalium glandulosum Klatt]
Ref. FP n.s. 26 1991: 40
Note: Not known from Peru.

[Gnaphalium graveolens H.B.K., nom. illeg.]
Ref. FP n.s. 26 1991: 41
Note: Not known from Peru.

Gnaphalium helichrysoides Weddell
=Gnaphalium dombeyanum DC.
Ref. FP n.s. 26 1991: 36.

Gnaphalium incanum H.B.K.
=Achyrocline alata (H.B.K.) DC.
Ref. FP n.s. 26 1991: 4.

Gnaphalium jelskii Hieronymus
=Gnaphalium dombeyanum DC.
Ref. FP n.s. 26 1991: 35.

Gnaphalium kunthianum (DC.) Kuntze
=Lucilia kunthiana (DC.) Zardini
Ref. FP n.s. 26 1991: 52.

Gnaphalium lacteum Meyen & Walpers
Syn. *Gnaphalium argyrolepis* Philippi, *Gnaphalium frigidum* Weddell
Ref. FP n.s. 26 1991: 39.
Herb. Andean II-III. 3000-4500 m.
Voucher: Pennell 13219 (F!)
Depts.: AN, AR, HV, LI, PU

Gnaphalium lanuginosum H.B.K.
=Gnaphalium dombeyanum DC.
Ref. FP n.s. 26 1991: 36.

Gnaphalium linearifolium (Weddell) Franchet =Antennaria linearifolia Weddell
Ref. FP n.s. 26 1991: 9.

Gnaphalium luteoalbum L.
Ref. FP n.s. 26 1991: 39.
Cultivated and introduced herb. Andean II. 2000-2500 m.
Voucher: Eyerdam & Beetle 22147 (MO)
Depts.: AR

Gnaphalium melanosphaeroides Schultz-Bip. ex Weddell =Gnaphalium dombeyanum DC.
Ref. FP n.s. 26 1991: 36.

Gnaphalium nanum H.B.K. =Gnaphalium dombeyanum DC.
Ref. FP n.s. 26 1991: 36.

Gnaphalium pellitum H.B.K.
=Achyrocline alata (H.B.K.) DC.
Ref. FP n.s. 26 1991: 4.

Gnaphalium peruvianum Sprengel
Ref. FP n.s. 26 1991: 35.
Note: Name is of uncertain application. The type has yet to be located.

Gnaphalium piptolepis (Weddell) Grisebach =Belloa piptolepis (Weddell) Cabrera
Ref. FP n.s. 26 1991: 14.

Gnaphalium poeppigianum DC.
=Gnaphalium elegans H.B.K.
Ref. FP n.s. 26 1991: 37.

Gnaphalium polium Weddell
Ref. FP n.s. 26 1991: 40.
Herb. Andean III. 3500- > 4500 m.
Voucher: Gay 1709* (P photo & frag. F), Dillon *et al.* 3110 (F!, HUT)
Depts.: AN, CA, CU, JU, LI, LL, PU

Gnaphalium purpureum L. =Gamochaeta purpurea (L.) Cabrera
Ref. FP n.s. 26 1991: 31.

Gnaphalium ramosissimum Schultz-Bip.
=Achyrocline ramosissima (Schultz-Bip.) Britton ex Rusby
Ref. FP n.s. 26 1991: 6.

Gnaphalium rufescens H.B.K.
=Achyrocline alata (H.B.K.) DC.
Ref. FP n.s. 26 1991: 4.

Gnaphalium satureioides Lamarck
=Achyrocline satureioides (Lam.) DC.
Ref. FP n.s. 26 1991: 8.

Gnaphalium schultzii Weddell =Belloa schultzii (Weddell) Cabrera

Gnaphalium sedoides Klatt =Antennaria linearifolia Weddell
Ref. FP n.s. 26 1991: 9.

Gnaphalium spicatum Lamarck
=Gamochaeta americana (Miller) Weddell
Ref. FP n.s. 26 1991: 28.

Gnaphalium tunariense Kuntze =Novenia acaulis (Weddell ex Bentham) Freire & Hellwig
Ref. FP n.s. 26 1991: 56.

Gnaphalium weddellianum Rusby
=Stuckertiella capitata (Weddell) Beauvisage
Ref. FP n.s. 26 1991: 63.

Gochnatia arequipensis Sandwith
Syn. *Gochnatia iserniana* Cuatrecasas
Ref. Cabrera, 1971c: 17.
Shrub. Andean II. 2000-3500 m.
Voucher: Lechler 2751* (K photo LP), Weberbauer 6866 (MO!, USM)
Depts.: AR, TA

Gochnatia iserniana Cuatrecasas
=Gochnatia arequipensis Sandwith
Ref. Cabrera, 1971c: 17.

Gochnatia patazina Cabrera
Ref. Cabrera, 1971c: 28.
Endemic shrub. Andean II. 2000-3000 m.
Voucher: López & Sagástegui 3409* (HUT, LP), Macbride & Featherstone 2520 (US!)
Depts.: AN, LL

Gochnatia vargasii Cabrera
Ref. Cabrera, 1971c: 19.
Endemic shrub. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Vargas 16317* (US!, USM)
Depts.: AP

Gochnatia vernonioides H.B.K.
Ref. Cabrera, 1971c: 26.
Endemic shrub. Andean II. 1500-3000 m.
Voucher: Humboldt & Bonpland s.n.* (P-B&H), Ferreyra 7079 (MO!, USM)
Depts.: AM, CA, LL

Graemia aromatica Hooker =Helenium aromaticum (Hooker) Bailey
Ref. Bailey, 1922: 1443.

Grindelia bergii (Hieronymus) Cabrera
Syn. *Grindelia brachystephana* var. *bergii* Hieronymus
Ref. Cabrera, 1933: 236.
Shrub. Andean I-II, Coastal. 0-3500 m.
Voucher: Hutchison & Wright 7169 (US!)
Depts.: AR, AY, HV, TA

Grindelia boliviana Rusby
Ref. Cabrera, 1933: 241.
Shrub. Andean II-III: disturbed areas. 2500-4000 m.
Voucher: Ugent & Ugent 3748 (US!)
Depts.: AR, CU, JU, PU

Grindelia brachystephana var. *bergii* Hieronymus =Grindelia bergii (Hieronymus) Cabrera
Ref. Cabrera, 1933: 256.

Grindelia glutinosa (Cavanilles) Dunal
Syn. *Aster glutinosus* Cavanilles, *Grindelia peruviana* Schultz-Bip.
Ref. Ferreyra, 1961: 119.
Shrub. Amazonian, Andean I-II, Coastal: lomas. 0-3500 m.
Voucher: Hutchison & Wright 7136 (US!)
Depts.: AR, MO, TA

Grindelia obovata Rusby =Grindelia tarapacana Philippi
Ref. Cabrera, 1933: 246.

Grindelia peruviana Schultz-Bip.
=Grindelia glutinosa (Cavanilles) Dunal

Grindelia pulchella Dunal
Ref. Cabrera, 1933: 243.
Shrub. Andean II-III. 3000-4000 m.
Voucher: Velarde 5110 (US!, USM)
Depts.: JU

Grindelia tarapacana Philippi
Syn. *Grindelia obovata* Rusby
Ref. Cabrera, 1933: 246.
Shrub. Amazonian, Andean I-III, Coastal. 0-4000 m.
Voucher: Boeke 1342 (F!)
Depts.: AR, PU, TA

Grosvenoria coelocaulis (B. Robinson) King & H. Robinson
Syn. *Eupatorium coelocaule* B. Robinson
Ref. King & Robinson, 1987: 352, 539.
Endemic shrub. Andean II: shrublands. 2500-3500 m.
Voucher: Mathews s.n.* (K), Wurdack 1657 (F!)
Depts.: AM

Guevaria sodiroi (Hieronymus) King & H. Robinson
Syn. *Piqueria sodiroi* Hieronymus
Ref. King & Robinson, 1987: 163, 539.
Herb. Andean II. 2500-3000 m.
Voucher: King & Bishop 9251 (US!)
Depts.: AM, PI

Guevaria vargasii (Chung) King & H. Robinson
Syn. *Piqueria vargasii* Chung
Ref. King & Robinson, 1987: 163, 539.
Endemic herb. Andean II: rocky slopes. 2000-2500 m.
Voucher: Vargas 6018* (F!)
Depts.: AP

Gymnocoronis spilanthoides DC.
Ref. King & Robinson, 1987: 62, 539.
Aquatic herb. Amazonian. 0-500 m.
Voucher: Barbour 4899 (F!)
Depts.: MD

Gymnolomia jelskii Hieronymus =Aspilia jelskii (Hieronymus) S. F. Blake
Ref. Hieronymus, 1905: 487.

Gymnolomia rudbeckioides H.B.K. =Viguiera rudbeckioides (H.B.K.) H. Robinson
Ref. Robinson & Cuatrecasas, 1977: 209.

Gymnostyles minuta (L. f.) Sprengel =Cotula mexicana (DC.) Cabrera
Ref. FP n.s. 7 1981: 7.

Gymnostyles nasturtiifolia Jussieu =Soliva stolonifera (Brotherus) Loudon
Ref. FP n.s. 7 1981: 17.

Gymnostyles peruviana Sprengel =Cotula mexicana (DC.) Cabrera
Ref. FP n.s. 7 1981: 7.

Gynoxys albifluminis Cuatrecasas
Ref. Cuatrecasas, 1951a: 12.
Endemic shrub. Andean III. > 4500 m.
Voucher: Macbride 3028* (F)
Depts.: LI

Gynoxys buxifolia (H.B.K.) Cassini
Syn. *Eupatorium bicolor* Lamarck ex DC., *Senecio buxifolia* H.B.K.
Ref. King & Robinson, 1987: 504.
Shrub. Andean II-III. 3000-4000 m.
Voucher: Cerrate 1542 (MO!)
Depts.: AN, HU

Gynoxys callacallana Cuatrecasas
Ref. Herrera, 1980: 26.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Wurdack 1670* (US)
Depts.: AM

Gynoxys calyculisolvens Hieronymus
Ref. Herrera, 1980: 32.
Endemic shrub. Andean II. 2000-3500 m.
Voucher: Jelski 780* (B), Hutchison & Wright 6994 (F)
Depts.: AM, CA

Gynoxys capituliparva Cuatrecasas
Ref. Cuatrecasas, 1951a: 6.
Endemic tree. Andean II. 3000-3500 m.
Voucher: Macbride 4434* (US), Smith 8153 (MO!)
Depts.: HU, PA

Gynoxys caracensis Muschler
Ref. Herrera, 1980: 33.
Endemic shrub. Andean II-III. 2500-4500 m.
Voucher: Weberbauer 2909* (B), Macbride & Featherstone 1700 (F)
Depts.: AN, CA, HU

Gynoxys carpishensis Cuatrecasas =Aequatorium carpishense (Cuatrecasas) H. Robinson & Cuatrecasas
Ref. Cuatrecasas, 1960: 185.

Gynoxys colanensis Dillon & Sagástegui
Ref. Dillon & Sagástegui, 1988: 221.
Endemic tree. Andean II: terra firme forests. 2000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Barbour 3409* (HUT, MO)
Depts.: AM

Gynoxys compressissima Cuatrecasas
Ref. Cuatrecasas, 1951a: 4.
Endemic shrub. Andean III. 4000-4500 m.
Voucher: Macbride 4435* (F)
Depts.: HU

Gynoxys congestiflora Sagástegui & Dillon
Ref. Sagástegui & Dillon, 1985a: 8.
Endemic tree. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Dillon 2608* (MO!)
Depts.: HU

Gynoxys cordifolia Cassini =Pseudogynoxys cordifolia (Cassini) Cabrera
Ref. Cabrera, 1950a: 54.

Gynoxys costihirsuta Cuatrecasas
Ref. Herrera, 1980: 20.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Wurdack 1670* (US)
Depts.: AM

Gynoxys cuatrecasasii Herrera
Ref. Herrera, 1980: 40.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Hutchison & Wright 5519* (USM)
Depts.: AM

Gynoxys cusilluyocana Cuatrecasas
Ref. Herrera, 1980: 8.
Endemic shrub. Andean III: rocky slopes, shrublands. 3500-4000 m.
Voucher: Pennell 13900* (F)
Depts.: CU

Gynoxys cutervensis Hieronymus
Ref. Hieronymus, 1905: 506.
Endemic shrub.
Voucher: Jelski 632* (B photo F!)
Depts.: CA

Gynoxys cuzcoensis Cuatrecasas
Ref. Herrera, 1980: 15.
Endemic tree. Andean III. 3500-4000 m.
Voucher: Vargas 2253* (NY)
Depts.: CU

Gynoxys dilloniana Sagástegui & Téllez
Ref. Sagástegui & Téllez , 1987: 432.
Endemic shrub. Andean III: rocky slopes, shrublands. 4000-4500 m.
Note: Known from Peru only from the type locality.
Voucher: Sagástegui *et al.* 12835* (F!, HUT)
Depts.: LA

Gynoxys fallax Mattfeld
Ref. Mattfeld, 1921: 183.
Endemic shrub. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6319B* (B)
Depts.: PI

Gynoxys ferreyrae Herrera
Ref. Herrera, 1980: 35.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Ferreyra 8559* (MO!)
Depts.: CA

Gynoxys henrici Mattfeld
Ref. Mattfeld, 1921: 178.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Weberbauer 4413* (B)
Depts.: AM

Gynoxys huanucona (Cuatrecasas) Cuatrecasas
Syn. *Senecio huanuconus* Cuatrecasas
Ref. Cuatrecasas, 1955a: 158.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Sawada 45* (F), Woytkowski 34306 (F photo US!)
Depts.: HU

Gynoxys huasahuasis Cuatrecasas
Ref. Cuatrecasas, 1951a: 2.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Woytkowski 37* (F photo US!)
Depts.: HU

Gynoxys hutchisonii H. Robinson & Cuatrecasas
Ref. Robinson & Cuatrecasas, 1992: 414.
Endemic shrub. Andean II-III: 3000-4000 m.
Voucher: Hutchison 1609* (US), Wurdack 1702 (US)
Depts.: AM, PI

Gynoxys hypoleucophylla Cuatrecasas
Ref. Cuatrecasas, 1964b: 148.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Wurdack 1671* (USM)
Depts.: AM

Gynoxys infralanata Cuatrecasas
Ref. Herrera, 1980: 6.
Endemic shrub. Andean III. 3500-4000 m.
Voucher: Heller 2181* (US)
Depts.: CU

Gynoxys jelskii Hieronymus
Ref. Herrera, 1980: 32.
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Jelski 678* (B photo F!)
Depts.: CA

Gynoxys longifolia Weddell
Syn. *Senecio asclepiadeus* DC.
Shrub. Andean III. 3500-4000 m.
Voucher: Bay s.n.* (US), Vargas 507 (F)
Depts.: AR, AY, CU, JU, LL

Gynoxys longistyla (Greenman & Cuatrecasas) Cuatrecasas
Syn. *Senecio longistylus* Greenman & Cuatrecasas
Ref. Cuatrecasas, 1955a: 158.
Endemic shrub. Andean III. 3500-4000 m.
Voucher: Weberbauer 7331A (F)
Depts.: MO

Gynoxys lopezii Dillon & Sagástegui
Syn. *Paragynoxys lopezii* (Dillon & Sagástegui) Cuatrecasas
Ref. Dillon & Sagástegui, 1988: 223; Cuatrecasas, 1990: 314.
Endemic shrub. Andean II: terra firme forests. 1500-2500 m.
Voucher: López & Sagástegui 8160* (F, HUT), López & Sagástegui 3626 (HUT)
Depts.: LL

Gynoxys macfrancisci Cuatrecasas
Ref. Herrera, 1980: 23.
Endemic shrub. Andean II: shrublands. 2500-3000 m.
Voucher: Macbride 3747* (F), Ferreyra 9454 (MO!)
Depts.: HU

Gynoxys macrophylla Muschler
Ref. Weberbauer, 1914: 88.
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Weberbauer 3534* (B photo F!)
Depts.: HU

Gynoxys malcabalensis Cuatrecasas
Ref. Herrera, 1980: 16.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Wurdack 1413* (US)
Depts.: AM

Gynoxys marcapatana Cuatrecasas
Ref. Herrera, 1980: 22.
Endemic tree. Andean III. 3500-4500 m.
Voucher: Vargas 9717* (GH), Vargas 3823 (MO!)
Depts.: AP, CU

Gynoxys metcalfii Cuatrecasas
Ref. Cuatrecasas, 1951a: 2.
Endemic herb. Andean II: rocky slopes. 3000-3500 m.
Voucher: Metcalf 30529* (US), Metcalf 30524 (US)
Depts.: PU

Gynoxys monzonensis Mattfeld
Ref. Mattfeld, 1921: 180.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Weberbauer 3338* (B)
Depts.: HU

Gynoxys myrtoides Mattfeld
Ref. Mattfeld, 1921: 182.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Weberbauer 6319a* (B)
Depts.: PI

Gynoxys nitida Muschler
Ref. Herrera, 1980: 31.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Weberbauer 5535* (US), King & Collins 9067 (MO!)
Depts.: AN, AY, CU, LI, PA

Gynoxys oleifolia Muschler
Ref. Weberbauer, 1914: 89.
Endemic shrub. Andean III: rocky slopes. 3500-5000 m.
Voucher: Weberbauer 2937* (G photo F!), Smith 11372 (MO!)
Depts.: AN, AY, HV

Gynoxys pachyphylla Mattfeld
Ref. Mattfeld, 1921: 184.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Weberbauer 6082* (B)
Depts.: PI

Gynoxys pillahuatensis Cuatrecasas
Ref. Herrera, 1980: 21.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Pennell 14134* (F), Tupayachi 611 (MO!)
Depts.: CU

Gynoxys pleniaurita Cuatrecasas =Senecio pleniauritus Cuatrecasas
Ref. Cuatrecasas, 1964c: 154.

Gynoxys poeppigii DC. =Pseudogynoxys poeppigii (DC.) H. Robinson & Cuatrecasas
Ref. Robinson & Cuatrecasas, 1977: 187.

Gynoxys poggeana Mattfeld
Ref. Herrera, 1980: 34.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Weberbauer 6645* (MO!), Poeppig s.n. (G-DC photo M!)
Depts.: JU

Gynoxys rimachiana Cuatrecasas =Aequatorium rimachianum (Cuatrecasas) H. Robinson & Cuatrecasas
Ref. Cuatrecasas, 1982b: 164.

Gynoxys rugulosa Muschler
Ref. Herrera, 1980: 39.
Endemic shrub. Andean II-III. 3000-4000 m.
Voucher: Weberbauer 747* (B), Weberbauer 4940 (B)
Depts.: CA, CU, LL, PU

Gynoxys scabra Bentham =Pseudogynoxys scabra (Bentham) Cuatrecasas
Ref. Robinson & Cuatrecasas, 1977: 187.

Gynoxys seleriana Muschler
Ref. Weberbauer, 1914: 90.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Weberbauer 4926* (B), Vargas, 9677 (MO!)
Depts.: CU

Gynoxys sinclairi Bentham =Pseudogynoxys sonchoides (H.B.K.) Cuatrecasas
Ref. Robinson & Cuatrecasas, 1977: 189.

Gynoxys soukupii Cuatrecasas
Ref. Herrera, 1980: 18.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Soukup 4072* (F), Ferreyra 8515 (MO!)
Depts.: AM, CA, LA, LL, PI

Gynoxys subamplectens Cuatrecasas
Ref. Herrera, 1980: 17.
Endemic shrub. Andean III. 3500-4000 m.
Voucher: Pennell 13825* (F), Woytkowski 607 (MO!)
Depts.: CU

Gynoxys szyszylowiczii Hieronymus
Ref. Hieronymus, 1905: 505.
Endemic shrub.
Voucher: Jelski 754* (B), Jelski 607
Depts.: Without full locality data.

Gynoxys tetroici V. Funk & H. Robinson
Ref. Funk & Robinson, 1989: 243.
Endemic shrub. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Valencia 1991* (US)
Depts.: PI

Gynoxys tomentosissima Cuatrecasas
Ref. Herrera, 1980: 27.
Endemic shrub. Andean II-III: grasslands. 2500-4000 m.
Voucher: Wurdack 1254* (US), Smith & Vásquez 5083 (MO!)
Depts.: AM

Gynoxys tuestae (Cuatrecasas) Cuatrecasas =Aequatorium tuestae (Cuatrecasas) H. Robinson & Cuatrecasas
Ref. Cuatrecasas, 1955a: 158.

Gynoxys vacana Cuatrecasas
Ref. Cuatrecasas, 1951a: 5.
Endemic tree. Andean III. 3500-4000 m.
Voucher: Macbride 4319* (F)
Depts.: HU

Gynoxys visoensis Cuatrecasas
Ref. Herrera, 1980: 29.
Endemic shrub. Andean II. 2500-3500 m.
Voucher: Macbride & Featherstone 580* (F!)
Depts.: LI, PA

Gynoxys weberbaueri Mattfeld
Ref. Mattfeld, 1921: 181.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Weberbauer 6075* (B)
Depts.: PI

Gynoxys woytkowskii (Cuatrecasas) Cuatrecasas
Syn. *Senecio woytkowskii* Cuatrecasas
Ref. Cuatrecasas, 1955a: 158.
Endemic shrub. Andean II-III. 3000-4000 m.
Voucher: Woytkowski 145* (F)
Depts.: HU

Gynoxys yananoensis Cuatrecasas
Ref. Cuatrecasas, 1951a: 10.
Endemic shrub. Andean II. 1500-2000 m.
Voucher: Macbride 7931* (F)
Depts.: Without full locality data.

Haplopappus ferreyrae Cabrera
Ref. Cabrera, 1962: 23.
Endemic shrub. Andean II-III. 3000-4000 m.
Voucher: Ferreyra 7714* (LP, USM), Velarde 2002 (LP)
Depts.: HV, LI

Haplopappus lehmannii (Hieronymus) S. F. Blake =Llerasia lindenii Triana
Ref. Cuatrecasas, 1970b: 43; Blake, 1927b: 113.

Haplopappus rufescens S. F. Blake =Llerasia rufescens (S. F. Blake) Cuatrecasas
Ref. Blake, 1927b: 111; Cuatrecasas, 1970b: 45.

Haplopappus viridialbus Cuatrecasas
Endemic shrub. Andean II. 2000-3000 m.
Voucher: Hutchison & Wright 7028* (US!), Weberbauer 7215 (US!)
Depts.: CA

Harpalium sericeum DC. =Syncretocarpus sericeus (DC.) S. F. Blake
Ref. Blake, 1917a: 41.

Hebeclinium beneolens (B. Robinson) King & H. Robinson
Syn. *Eupatorium beneolens* B. Robinson, *Eupatorium beneolens* fo. *ctenotum* B. Robinson
Ref. King & Robinson, 1987: 401, 539.
Endemic liana or shrub. Andean I-II. 500-2500 m.
Voucher: Macbride 4912 (F!)
Depts.: HU, JU, SM

Hebeclinium bullatissimum (B. Robinson) King & H. Robinson
Syn. *Eupatorium bullatissimum* B. Robinson
Ref. King & Robinson, 1987: 401, 539.
Liana or subshrub. Andean I-II: disturbed areas, riversides. 500-2000 m.
Voucher: Schunke 7525 (F!)
Depts.: HU, SM

Hebeclinium hylophorbum (B. Robinson) King & H. Robinson
Syn. *Eupatorium hylophorbum* B. Robinson
Ref. King & Robinson, 1987: 401, 539.
Endemic herb. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Killip & Smith 25827* (GH), Wurdack 2154 (US!)
Depts.: CU, JU, LO, SM

Hebeclinium macrophyllum (L.) DC.
Syn. *Eupatorium macrophyllum* L.
Ref. King & Robinson, 1987: 401, 540.
Herb. Amazonian, Andean I-II: disturbed areas, forests. 0-2000 m.
Voucher: Ferreyra 7910 (F!)
Depts.: AM, AY, CU, HU, JU, LO, MD, SM

Hebeclinium vestitum King & H. Robinson
Syn. *Eupatorium vestitum* Poeppig
Ref. King & Robinson, 1987: 401, 540.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Vargas 3527 (F!)
Depts.: CU, HU

Helenium aromaticum (Hooker) Bailey
Syn. *Graemia aromatica* Hooker
Cultivated and introduced herb. Coastal. 0-500 m.
Voucher: Macbride & Featherstone 2572 (F!)
Depts.: AR, LI

Helianthopsis acuminata (S. F. Blake) H. Robinson =Pappobolus acuminatus (S. F. Blake) Panero
Ref. Robinson, 1979c: 262; Panero, 1992: 101.

Helianthopsis bishopii H. Robinson =Pappobolus stuebelii (Hieronymus) Panero
Ref. Robinson, 1983b: 52; Panero, 1992: 129.

Helianthopsis discolor (S. F. Blake) H. Robinson =Pappobolus discolor (S. F. Blake) Panero
Ref. Panero, 1992: 156.

Helianthopsis hutchisonii H. Robinson =Pappobolus hutchisonii (H. Robinson) Panero
Ref. Panero, 1992: 69.

Helianthopsis jelskii (Hieronymus) H. Robinson =Pappobolus jelskii (Hieronymus) Panero
Ref. Panero, 1992: 136.

Helianthopsis lanata (Heiser) H. Robinson =Pappobolus lanatus var. lanatus
Ref. Panero, 1992: 164.

Helianthopsis lodicata (Cuatrecasas) H. Robinson =Pappobolus lodicatus (Cuatrecasas) Panero
Ref. Panero, 1992: 139.

Helianthopsis mathewsii (Hochreutiner) H. Robinson =Pappobolus mathewsii var. mathewsii
Ref. Panero, 1992: 54.

Helianthopsis microphylla (H.B.K.) H. Robinson =Pappobolus microphyllus var. microphyllus
Ref. Panero, 1992: 141.

Helianthopsis sagasteguii H. Robinson =Pappobolus sagasteguii (H. Robinson) Panero
Ref. Panero, 1992: 61.

Helianthopsis senex (S. F. Blake) H. Robinson =Pappobolus senex (S. F. Blake) Panero
Ref. Panero, 1992: 169.

Helianthopsis smithii Ferreyra =Pappobolus smithii (Ferreyra) Panero
Ref. Panero, 1992: 133.

Helianthopsis stuebelii (Hieronymus) H. Robinson =Pappobolus stuebelii (Hieronymus) Panero
Ref. Panero, 1992: 129.

Helianthopsis subnivea (S. F. Blake) H. Robinson =Pappobolus subniveus (S. F. Blake) Panero
Ref. Robinson, 1979c: 266; Panero, 1992: 149.

Helianthopsis utcubambensis H. Robinson =Pappobolus mathewsii var. mathewsii
Ref. Panero, 1992: 56.

Helianthopsis verbesinoides (H.B.K.) H. Robinson =Pappobolus verbesinoides (H.B.K.) Panero
Ref. Panero, 1992: 75.

Helianthopsis viridior (S. F. Blake) H. Robinson =Pappobolus viridior (S. F. Blake) Panero
Ref. Panero, 1992: 175.

Helianthus acuminatus S. F. Blake =Pappobolus acuminatus (S. F. Blake) Panero
Ref. Blake, 1926: 219; Panero, 1992: 101.

Helianthus annuus L.
Cultivated and introduced herb. Amazonian. 0-500 m.
Voucher: Williams 3602 (F)
Depts.: LO

Helianthus discolor S. F. Blake =Pappobolus discolor (S. F. Blake) Panero
Ref. Blake, 1926: 220; Panero, 1992: 156.

Helianthus incanus Persoon =Viguiera incana (Persoon) S. F. Blake
Ref. Panero, 1992: 179.

Helianthus jelskii Hieronymus =Pappobolus jelskii (Hieronymus) Panero
Ref. Hieronymus, 1905: 490; Panero, 1992: 136.

Helianthus laevis L. =Bidens laevis (L.) Britton *et al.*
Ref. Sherff, 1937a: 313.

Helianthus lanata Heiser =Pappobolus lanatus var. lanatus
Ref. Panero, 1992: 164.

Helianthus lodicatus Cuatrecasas =Pappobolus lodicatus (Cuatrecasas) Panero
Ref. Cuatrecasas, 1964c: 144; Panero, 1992: 139.

Helianthus mathewsii Hochreutiner =Pappobolus mathewsii var. mathewsii
Ref. Panero, 1992: 54.

Helianthus microcephalus Torrey & A. Gray =Pappobolus microphyllus var. microphyllus

Helianthus microphyllus H.B.K. =Pappobolus microphyllus var. microphyllus
Ref. Panero, 1992: 141.

Helianthus niveus Hieronymus, nom. illeg. =Pappobolus subniveus (S. F. Blake) Panero
Ref. Panero, 1992: 149.

Helianthus procumbens Persoon =Viguiera procumbens (Persoon) S. F. Blake
Ref. Panero, 1992: 180.

Helianthus rugosus Meyen =Viguiera peruviana A. Gray
Ref. Panero, 1992: 180.

Helianthus senex S. F. Blake =Pappobolus senex (S. F. Blake) Panero
Ref. Blake, 1926: 220; Panero, 1992: 169.

Helianthus stuebelii Hieronymus =Pappobolus stuebelii (Hieronymus) Panero
Ref. Panero, 1992: 129.

Helianthus subniveus S. F. Blake =Pappobolus subniveus (S. F. Blake) Panero
Ref. Panero, 1992: 149.

Helianthus szyszylowiczii Hieronymus =Pappobolus szyszylowiczii (Hieronymus) Panero
Ref. Panero, 1992: 128.

Helianthus truxillensis H.B.K. =Viguiera truxillensis (H.B.K.) S. F. Blake
Ref. Panero, 1992: 180.

Helianthus verbesinoides H.B.K. =Pappobolus verbesinoides (H.B.K.) Panero
Ref. Panero, 1992: 75.

Helianthus viridior S. F. Blake =Pappobolus viridior (S. F. Blake) Panero
Ref. Blake, 1926: 221; Panero, 1992: 175.

Helichrysum bracteatum (Ventenat) Andrews
Syn. *Xeranthemum bracteatum* Ventenat
Ref. FP n.s. 26 1991: 41.
Cultivated herb.
Note: No Peru voucher cited.

Helichrysum gnaphaloides H.B.K. =Gnaphalium antennarioides DC.
Ref. FP n.s. 26 1991: 34.

Heliopsis buphthalmoides (Jacquin) Dunal
Syn. *Anthemis buphthalmoides* Jacquin
Ref. Blake, 1940: 73
Herb. Andean I-III: disturbed areas, riversides, rocky slopes. 1000-4000 m.
Voucher: Sagástegui 11418 (NY)
Depts.: AM, AN, AP, AY, CA, CU, JU, HU, HV, LA, LI, LL, PA, PI

Heliopsis canescens H.B.K.
Herb. Andean II-III. 2500-4000 m.
Voucher: Tupayachi 913 (MO!)
Depts.: CU, LI

Heliopsis decumbens S. F. Blake
Ref. Blake, 1940: 72.
Endemic herb. Andean II: disturbed areas. 2500-3500 m.
Voucher: Osgood & Anderson 35* (F), Sagástegui 8387 (F)
Depts.: CA

Helogyne apaloidea Nuttall
Ref. King & Robinson, 1987: 266, 540.
Subshrub. Andean I-II, Coastal: lomas. 0-3000 m.
Voucher: Soukup 6434 (F!)
Depts.: AR, MO

Helogyne calocephala Mattfeld
Ref. King & Robinson, 1987: 266, 540.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Weberbauer 7007* (F!)
Depts.: AN, AR

Helogyne ferreyrii King & H. Robinson
Ref. King & Robinson, 1987: 266, 540.
Endemic shrub. Andean II-III: rocky slopes. 2500-4000 m.
Voucher: Ferreyra 6237* (US!)
Depts.: LI

Helogyne hutchisonii King & H. Robinson
Ref. King & Robinson, 1987: 266, 540.
Endemic subshrub. Coastal: lomas. 0-500 m.
Voucher: Hutchison & Wright 7126* (F!)
Depts.: AR

Helogyne straminea (DC.) B. Robinson
Syn. *Eupatorium stramineum* DC., *Helogyne weberbaueri* B. Robinson
Ref. King & Robinson, 1987: 266, 540.
Subshrub. Andean II. 2000-3000 m.
Voucher: Weberbauer 5495 (F!)
Depts.: AR, AY, CU

Helogyne tacaquirensis Hieronymus
Syn. *Eupatorium tacaquirense* (Hieronymus) B. Robinson
Ref. King & Robinson, 1987: 266, 533, 540.
Subshrub. Andean II-III; rocky slopes. 3000-4000 m.
Voucher: Pennell 14196 (F!)
Depts.: CU

Helogyne virgata (Rusby) B. Robinson
Syn. *Addisonia virgata* Rusby
Ref. King & Robinson, 1987: 266, 540.
Note: Not reconfirmed. Cited by King & Robinson as from Peru, but specimen not seen.

Helogyne weberbaueri B. Robinson =Helogyne straminea (DC.) B. Robinson
Ref. King & Robinson, 1987: 540.

Heterochaeta stricta Bentham =Laennecia gnaphalioides (H.B.K.) Cassini
Ref. Zardini, 1981: 162.

Heterocondylus vitalbae (DC.) King & H. Robinson
Syn. *Eupatorium vitalbae* DC.
Ref. King & Robinson, 1987: 204, 540.
Liana or subshrub. Amazonian, Andean I-II: forests, shrublands. 0-2000 m.
Voucher: Hutchison & Wright 6745 (US!)
Depts.: CA, CU, HU, JU, LO, SM, TU

Heterosperma diversifolium H.B.K.
Ref. Cabrera, 1978: 401.
Herb. Amazonian, Andean I-III, Coastal: disturbed areas, rocky slopes. 0-4000 m.
Voucher: Pennell 13130 (F)
Depts.: AR, CU, HU, LI, LL, PU

Heterosperma diversifolium var. *tenuisectum* Grisebach =Heterosperma tenuisecta (Grisebach) Cabrera
Ref. Hieronymus, 1905: 495.

Heterosperma ferreyrii H. Robinson
Ref. Robinson, 1979a: 47.
Endemic herb. Coastal. 0-1000 m.
Voucher: Vargas 8568* (US), Ferreyra 12575 (US)
Depts.: AR, MO, TA

Heterosperma maritimum H.B.K.
Endemic herb. Andean II: grasslands, rocky slopes. 2000-2500 m.
Voucher: Humboldt & Bonpland s.n.* (P-H&B), Macbride & Featherstone 193 (F!)
Depts.: HU, LI, LL

Heterosperma nanum (Nuttall) Sherff
Syn. *Microdonta nana* Nuttall
Ref. Cabrera, 1978: 402.
Herb. Andean II: disturbed areas. 2500-3000 m.
Voucher: Dillon *et al.* 2872 (F)
Depts.: AR, CA

Heterosperma ovatifolium Cavanilles
Syn. *Bidens rhombifolia* Schultz-Bip.
Herb. Amazonian, Andean I-II, Coastal. 0-3500 m.

Voucher: Sagástegui 10531 (F)
Depts.: AR, CA, CU. HU, LI, LL

Heterosperma tenuisectum (Grisebach) Cabrera
Syn. *Heterosperma diversifolium* var. *tenuisectum* Grisebach
Ref. Cabrera, 1978: 404.
Herb. Andean II: disturbed areas. 1500-2000 m.
Voucher: Sagástegui 9736 (F)
Depts.: CA

Heterothalamus bolivensis Weddell =Baccharis boliviensis (Weddell) Cabrera

Heterotheca deltoidea Klatt =Munnozia hastifolia (Poeppig) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 55.

Hidalgoa ternata Llave & Lexarza
Herb. Andean I: forests. 1000-1500 m.
Voucher: Klug 3640 (F)
Depts.: SM

Hieracium adenoconum Sleumer
Ref. Sleumer, 1936: 117.
Endemic herb. Andean II. 3000-3500 m.
Voucher: Weberbauer 4286* (B)
Depts.: AM

Hieracium bangii Rusby =Hieracium leptocephalium var. microcephalum (Schultz-Bip.) Zahn
Ref. Zahn, 1922: 1099.

Hieracium cacrayense Zahn
Ref. Zahn, 1922: 1141.
Endemic herb. Andean II. 3000-3500 m.
Voucher: Weberbauer 215* (B photo F)
Depts.: LI

Hieracium chilense Lessing
Ref. Zahn, 1922: 1097.
Herb. Andean II. 3000-3500 m.
Voucher: Weberbauer 7341 (F!)
Depts.: CA

Hieracium comasinum Zahn
Ref. Zahn, 1925: 412.
Endemic herb. Andean II. 3000-3500 m.
Weberbauer 6681* (B)
Depts.: JU

Hieracium frigidulans Zahn
Ref. Zahn, 1922: 1099
Endemic herb. Andean II. 2500-3000 m.
Voucher: Weberbauer 6379a* (B)
Depts.: PI

Hieracium fulvipes Weddell =Hieracium lagopus D. Don
Ref. Cabrera, 1978: 706.

Hieracium herrerae Zahn, nom. illeg. =Hieracium neoherrerae Zahn
Ref. Zahn, 1927: 121.

Hieracium infravillosulum Sleumer
Ref. Sleumer, 1936: 117
Endemic herb. Andean II. 3000-3500 m.
Voucher: Weberbauer 7779* (B)
Depts.: CU

Hieracium lagopus D. Don
Syn. *Hieracium fulvipes* Weddell, *Hieracium loxense* Arvet-Touvet
Ref. Zahn, 1922: 1095.
Herb. Andean II. 2000-3000 m.
Voucher: Dillon & Turner 1678 (F!)
Depts.: CA, HV, LL

Hieracium leptocephalium Bentham var. **microcephalum** (Schultz-Bip.) Zahn
Syn. *Hieracium bangii* Rusby, *Hieracium microcephalum* Schultz-Bip.
Ref. Zahn, 1922: 1096.
Herb. Andean I-II. 1000-2500 m.
Voucher: Lechler 1820 (P)
Depts.: CA, PU

Hieracium loxense Arvet-Touvet =Hieracium lagopus D. Don
Ref. Zahn, 1922: 1097.

Hieracium mandonii (Schultz-Bip.) Arvet-Touvet
Syn. *Pilosella mandonii* Schultz-Bip.
Ref. Zahn, 1922: 1139.
Endemic herb. Andean II-III. 2000-4000 m.
Voucher: Weberbauer 216*
Depts.: LI

Hieracium mathewsii Arvet-Touvet
Endemic herb.
Voucher: Mathews 3067* (D)
Depts.: Without full locality data.

Hieracium microcephalum Schultz-Bip. =Hieracium leptocephalium var. microcephalum (Schultz-Bip.) Zahn
Ref. Zahn, 1922: 1096.

Hieracium neoherrerae Zahn
Syn. *Hieracium herrerae* Zahn, nom. illeg.
Ref. Zahn, 1927: 121.
Endemic herb. Andean II-III. 2500-4000 m.
Voucher: Herrera 579* (B), Tupayachi 948 (MO!)
Depts.: CU

Hieracium peruanum E. M. Fries var. **ayavacanum** Zahn
Ref. Zahn, 1922: 1091.
Endemic herb. Andean II. 2500-3000 m.
Voucher: Weberbauer 6379* (F!)
Depts.: PI

Hieracium peruanum var. **peruanum**
Ref. Zahn, 1922: 1091.
Endemic herb. Andean II-III. 2000-4000 m.
Voucher: Weberbauer 1783 (B)
Depts.: CU, HU, JU, LI

Hieracium tallenganum Zahn
Ref. Zahn, 1922: 1092.
Endemic herb. Andean III. 3500-4000 m.
Voucher: Without collection data.
Depts.: AN

Hieracium weberbauerianum Zahn
Ref. Zahn, 1922: 1095.
Endemic herb. Andean II. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer s.n.* (B)
Depts.: JU

Hippia bogotensis H.B.K. =Plagiocheilus bogotensis (H.B.K.) Weddell
Ref. FP n.s. 7 1981: 13.

Hippia minuta L. f. =Cotula mexicana (DC.) Cabrera
Ref. FP n.s. 7 1981: 7; Cabrera, 1960: 207.

Hippia stolonifera Brotherus =Soliva stolonifera (Brotherus) Loudon
Ref. FP n.s. 7 1981: 17.

Hughesia reginae King & H. Robinson
Ref. King & Robinson, 1987: 363, 541.
Endemic liana. Andean II: forests. 1500-2000 m.
Voucher: Woytkowski 7471* (US!)
Depts.: JU

Hymenostephium rudbeckioides (H.B.K.) S. F. Blake =Viguiera rudbeckioides (H.B.K.) H. Robinson
Ref. Blake, 1924a: 630; Robinson & Cuatrecasas, 1977: 209.

Hymenoxys robusta (Rusby) K. Parker
Syn. *Cephalophora robusta* Rusby
Ref. Parker, 1962: 207.
Herb. Andean II-III: riversides. 3000-3500 m.
Voucher: Solomon 3075 (F!)
Depts.: CU

Hypochaeris chillensis (H.B.K.) Hieronymus
Syn. *Achyrophorus elatus* Weddell, *Apargia chillensis* H.B.K., *Hypochaeris elata* (Weddell) Grisebach
Ref. Hieronymus, 1901a: 84; Cabrera, 1976: 313.
Herb.
Voucher: Soukup 2739 (F!)
Depts.: AP, CA, CU, HV, JU, LI

Hypochaeris cryptocephala (Schultz-Bip.) Domke
Syn. *Achyrophorus cryptocephalus* Schultz-Bip.
Herb.
Voucher: Lechler 1963* (W photo F!)
Depts.: Without full locality data.

Hypochaeris echegarayi Hieronymus
Syn. *Achyrophorus setosus* Weddell, *Hypochaeris setosa* (Weddell) Rusby
Herb. Andean II-III. 2500- > 4500 m.
Voucher: Tupayachi 724 (MO!)
Depts.: CU

Hypochaeris elata (Weddell) Grisebach =Hypochaeris chillensis (H.B.K.) Hieronymus
Ref. Hieronymus, 1901a: 84.

Hypochaeris eriolaena (Schultz-Bip.) Reiche
Syn. *Achyrophorus eriolaenus* Schultz-Bip.
Herb. Andean III. 4000- > 4500 m.
Voucher: Gay s.n.* (P photo F!)
Depts.: AN

Hypochaeris graminea Hieronymus
Herb. Andean III: bogs, rocky slopes, shrublands.
Voucher: Dillon & Turner 1558 (F)
Depts.: AN

Hypochaeris meyeniana (Walpers) Grisebach
Syn. *Achyrophorus meyenianus* (Walpers) Walpers, *Oreophila meyeniana* Walpers
Herb. Andean II-III. 2500- > 4500 m.
Voucher: Meyen s.n.* (B photo F!)
Depts.: CU

Hypochaeris mucida Domke var. **integrifolia** Cuatrecasas
Ref. Cuatrecasas, 1964c: 156.
Endemic herb. Andean III. 4000-4500 m.
Voucher: Ellenberg 495* (U), Ellenberg 638 (U)
Depts.: PU

Hypochaeris mucida var. mucida
Ref. Cuatrecasas, 1964c: 156.
Herb.
Note: Not reconfirmed.

Hypochaeris radicata L.
Ref. Cabrera, 1978: 677.
Herb.
Note: Not reconfirmed.

Hypochaeris schizoglossa Cabrera
Ref. Cabrera, 1962: 44.
Herb. Andean II. 3000-3500 m.
Voucher: Sagástegui 3175 (HUT, LP)
Depts.: LL

Hypochaeris sessiliflora H.B.K.
Syn. *Werneria glandulosa* Weddell
Herb.
Note: Not reconfirmed.

Hypochaeris setosa (Weddell) Rusby =Hypochaeris echegarayi Hieronymus

Hypochaeris stenocephala (A. Gray ex Weddell) Kuntze =Hypochaeris taraxacoides (Walpers) Bentham & Hooker f.
Ref. Cabrera, 1978: 674.

Hypochaeris taraxacoides (Walpers) Bentham & Hooker f.
Syn. *Achyrophorus stenocephalus* A. Gray ex Weddell, *Achyrophorus taraxacoides* Walpers, *Hypochaeris stenocephala* (A. Gray ex Weddell) Kuntze, *Oreophila taraxacifolia* Meyen & Walpers
Ref. Cabrera, 1978: 674.
Herb. Andean II-III: bogs, grasslands, rocky slopes, shrublands. 2500- > 4500 m.
Voucher: Smith 11310 (MO!)
Depts.: AN, CU, JU

Ichthyothere peruviana (Poeppig) Baker
Syn. *Latreillea peruviana* Poeppig
Shrub. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Schunke 7359 (F)
Depts.: LO, SM

Ichthyothere scandens S. F. Blake
Ref. Blake, 1921a: 301.
Liana. Andean II: forests. 1500-2000 m.
Voucher: Jones & Davidson 9445 (F)
Depts.: HU

Ichthyothere terminalis (Sprengel) S. F. Blake
Syn. *Rolandra terminalis* Sprengel
Ref. Blake, 1921a: 301.
Herb. Andean I: forests. 500-1000 m.
Voucher: Dillon *et al.* 1212 (F)
Depts.: PU

Idiothamnus orgyaloides (B. Robinson) King & H. Robinson
Syn. *Eupatorium orgyaloides* B. Robinson
Ref. King & Robinson, 1987: 335, 541.
Voucher: Spruce 4546 (NY)
Depts.: SM

Inula primulaefolia Lamarck =Conyza primulaefolia (Lamarck) Cuatrecasas & Lourteig
Ref. Lourteig & Cuatrecasas, 1985: 475.

Isocarpha blepharolepis Greenman =Isocarpha microcephala (DC.) S. F. Blake
Ref. King & Robinson, 1987: 541; Keil & Stuessy, 1981: 272.

Isocarpha divaricata Bentham =Isocarpha microcephala (DC.) S. F. Blake
Ref. King & Robinson, 1987: 541.

Isocarpha fistulosa Keil & Stuessy
Ref. Keil & Stuessy, 1981: 273; King & Robinson, 1987: 217, 541.
Herb. Andean I-II: forests. 1000-2500 m.
Voucher: Sagástegui & Cabanillas 8546 (MO!)
Depts.: PI

Isocarpha microcephala (DC.) S. F. Blake
Syn. *Dunantia microcephala* DC., *Isocarpha blepharolepis* Greenman, *Isocarpha divaricata* Bentham
Ref. Keil & Stuessy, 1981: 272; King & Robinson, 1987: 217, 541.
Herb. Coastal: disturbed areas, grasslands. 0-500 m.
Voucher: Haenke s.n.*, Weberbauer 7763 (F!)
Depts.: LA, LL, PI, TU

Jaegeria hirta (Lagasca) Lessing
Syn. *Acmella hirta* Lagasca
Ref. Hieronymus, 1905: 487.
Herb. Amazonian, Andean I-II, Coastal: cloud forest, disturbed areas. 0-3000 m.
Voucher: Smith 5981 (F!)
Depts.: AM, CA, CU, HU, LA, LO, SM

Jalcophila peruviana Dillon & Sagástegui
Ref. FP n.s. 26 1991: 42.
Endemic herb. Andean II-III. 3000-4000 m.
Voucher: Sagástegui *et al.* 11131* (F!, HUT), Sagástegui *et al.* 11104 (F, HUT)
Depts.: LL

Jaumea mimuloides Hieronymus =Philoglossa mimuloides (Hieronymus) H. Robinson & Cuatrecasas
Ref. Robinson & Brettell, 1974: 59.

Jaumeopsis mimuloides Hieronymus =Philoglossa mimuloides (Hieronymus) H. Robinson & Cuatrecasas

Jungia amplistipula E. Cerrate
Ref. Cerrate, 1951: 10.
Endemic herb. Andean II. 3000-3500 m.
Voucher: Ferreyra 7202* (USM), Metcalf 30275 (US)
Depts.: AY, CU, HV, LI, PI

Jungia axillaris (Lagasca ex DC.) Sprengel
Syn. *Dumerilia axillaris* Lagasca ex DC., *Jungia peltata* Hieronymus, *Jungia seleriana* Muschler
Ref. Cerrate, 1951: 13.
Endemic herb or shrub. Andean I-II. 1000-3500 m.
Voucher: Lagasca s.n.* (P), Macbride & Featherstone 2551 (GH)
Depts.: AN, AY, CA, CU, HU, LI, LL, SM

Jungia discolor Muschler
Ref. Cerrate, 1951: 13.
Shrub or vine. Andean II. 2500-3500 m.
Voucher Hutchison & Bismarck 6510 (F!, MO)
Depts.: AM, CA, HU, SM

Jungia floribunda Lessing
Ref. Cerrate, 1951: 12.
Herb. Andean I-II. 2000-3500 m.
Voucher: Macbride & Featherstone 1586 (US)
Depts.: AM, CA, HU, HV, LL

Jungia jelskii Hieronymus =Jungia rugosa Lessing
Ref. Cerrate, 1951: 18.

Jungia longifolia Cerrate =Jungia stuebelii (Hieronymus) Crisci
Ref. Cerrate, 1951: 7.

Jungia malvaefolia Muschler =Jungia rugosa Lessing
Ref. Cerrate, 1951: 21.

Jungia paniculata (DC.) A. Gray
Syn. *Dumerilia paniculata* Cassini, *Dumerilia paniculata* DC.
Ref. Cerrate, 1951: 15; Harling, 1991: 90.
Shrub. Andean II. 2000-3500 m.
Voucher: Jussieu s.n.* (P), López & Sagástegui 8236 (MO)
Depts.: AN, CA, HU, LL, LI

Jungia peltata Hieronymus =Jungia axillaris (Lagasca ex DC.) Sprengel
Ref. Cerrate, 1951: 13.

Jungia rugosa Lessing
Syn. *Jungia jelskii* Hieronymus, *Jungia malvaefolia* Muschler
Ref. Cerrate, 1951: 19; Harling, 1991: 88.
Shrub. Andean II-III. 2500-4000 m.
Voucher: Pennell 14149 (F!)
Depts.: AM, AN, AP, CA, CU, LA, LL, PI

Jungia seleriana Muschler =Jungia axillaris (Lagasca ex DC.) Sprengel
Ref. Cerrate, 1951: 13

Jungia spectabilis D. Don
Ref. Cerrate, 1951: 17; Harling, 1991: 85.
Shrub. Andean I-II. 1000-3500 m.
Voucher: Soukup 3824 (F!)
Depts.: CA, LL, PI

Jungia stuebelii (Hieronymus) Crisci
Syn. *Jungia longifolia* Cerrate, *Leucheria stuebelii* Hieronymus
Ref. Crisci, 1971: 341.
Endemic herb. Andean II-III. 2500-4000 m.
Voucher: Stübel 35G* (B destroyed, photo F) Hutchison & Wright 4385 (USM)
Depts.: AN, CA, LL

Jungia vitocensis Cuatrecasas
Ref. Cerrate, 1951: 9.
Endemic herb.
Voucher: Isern 462* (MA), Macbride 4138 (F!)
Depts.: JU, HU

Jungia weberbaueri Cerrate
Ref. Cerrate, 1951: 22; Harling, 1991: 95.
Endemic liana or subshrub. Andean II. 2500-3000 m.
Voucher: Weberbauer 6701* (LM), Ferreyra 2098 (USM)
Depts.: HU

Kanimia cutervensis (Hieronymus) Hieronymus =Mikania cutervensis Hieronymus
Ref. FP n.s. 9 1982: 18; King & Robinson, 1987: 541.

Kaunia arbuscularis (B. Robinson) King & H. Robinson
Syn. *Eupatorium longepetiolatum* var. *arbusculare* B. Robinson
Ref. King & Robinson, 1987: 450, 542.
Shrub. Andean II. 1000-1500 m.
Voucher: King & Bishop 9160 (US!)
Depts.: AM, CA

Kaunia endyta (B. Robinson) King & H. Robinson
Syn. *Eupatorium endytum* B. Robinson
Ref. King & Robinson, 1987: 450, 542.
Endemic shrub or tree. Andean I-II. 1000-2000 m.
Voucher: Weberbauer 1074* (P photo GH), Metcalf 30623 (US!)
Depts.: PU

Kaunia eucosmoides (B. Robinson) King & H. Robinson
Syn. *Eupatorium eucosmoides* B. Robinson
Ref. King & Robinson, 1987: 450, 542.
Endemic shrub or tree. Andean II. 2500-3000 m.
Voucher: Mathews 1123 (P photo GH), Killip & Smith 22179 (US!)
Depts.: AY

Kaunia longipetiolata (Schultz-Bip. ex Rusby) King & H. Robinson
Syn. *Eupatorium longipetiolatum* Schultz-Bip. ex Rusby
Ref. King & Robinson, 1987: 450, 542.
Shrub or tree. Andean II: disturbed areas, forests. 2000-2500 m.
Voucher: Peyton & Peyton 1144 (F!)
Depts.: CU, PI

Kaunia uber (B. Robinson) King & H. Robinson
Syn. *Eupatorium uber* B. Robinson
Ref. King & Robinson, 1987: 450, 542.
Cultivated shrub or tree. Andean I-II: forests, shrublands. 1000-3000 m.
Voucher: Mostacero 1580 (F!)
Depts.: AM, AN, CA, CU, PI

Kleinia alata G. Meyer =Mikania micrantha H.B.K.
Ref. FP n.s. 9 1982: 36; King & Robinson, 1987: 542.

Kleinia ruderalis Jacquin =Porophyllum ruderale (Jacquin) Cassini
Ref. Johnson, 1969: 234.

Koanophyllon celtidifolia (Lamarck) King & H. Robinson
Syn. *Eupatorium celtidifolium* Lamarck
Ref. King & Robinson, 1987: 317, 542.
Shrub. Andean I. 500-1000 m.
Voucher: Ferreyra 4346 (US!)
Depts.: HU

Koanophyllon flexilis (B. Robinson) King & H. Robinson
Syn. *Eupatorium flexile* B. Robinson
Ref. King & Robinson, 1987: 317, 542.
Endemic herb. Andean I-II: forests. 1000-3000 m.
Voucher: Sagástegui 11827 (F!)
Depts.: AN, CA, LL

Koanophyllon huantae (B. Robinson) King & H. Robinson
Syn. *Eupatorium huantae* B. Robinson
Ref. King & Robinson, 1987: 317, 543.
Endemic shrub. Andean II: shrublands. 2500-3000 m.
Voucher: Killip & Smith 23337 (US!)
Depts.: AY

Koanophyllon isillumense (B. Robinson) King & H. Robinson
Syn. *Eupatorium isillumense* B. Robinson
Ref. King & Robinson, 1987: 318, 543.
Endemic herb. Andean I. 500-1500 m.
Voucher: Macbride 5514 (F!)
Depts.: HU, JU, PU

Koanophyllon juninense (B. Robinson) King & H. Robinson
Syn. *Eupatorium juninense* B. Robinson
Ref. King & Robinson, 1987: 318, 543.
Endemic liana. Andean I: forests. 500-1000 m.
Voucher: Macbride 5583* (F!)
Depts.: JU

Koanophyllon sagasteguii King & H. Robinson
Ref. King & Robinson, 1987: 318, 543.
Endemic subshrub. Andean II. 2000-2500 m.
Voucher: Sagástegui & Cabanillas 8011* (US!)
Depts.: CA

Koanophyllon solidaginoides (H.B.K.) King & H. Robinson
Syn. *Eupatorium solidaginoides* H.B.K.
Ref. King & Robinson, 1987: 318, 543.
Liana or shrub. Andean I-II. 500-2500 m.
Voucher: Macbride 5258 (F!)
Depts.: AM, CU, HU, JU, PI

Lactuca intybacea Jacquin
Introduced herb. Andean I-II, Coastal. 0-2000 m.
Voucher: López & Sagástegui 7995 (HUT)
Depts.: AN, CA, LA, LL

Laennecia filaginoides DC.
Syn. *Conyza filaginoides* (DC.) Hieronymus, *Laennecia pinnatifida* Turczaninow
Ref. Zardini, 1981: 166.
Herb. Andean I-II: disturbed areas. 1000-3000 m.
Voucher: López & Sagástegui 5235 (F!)
Depts.: CA

Laennecia gnaphalioides (H.B.K.) Cassini
Syn. *Conyza evacioides* Rusby, *Conyza gnaphalioides* H.B.K., *Erigeron niveum* Schultz-Bip., *Heterochaeta stricta* Bentham, *Laennecia parvifolia* DC.
Ref. Zardini, 1981: 161.
Herb. Andean II-III: disturbed areas. 2000-4000 m.
Voucher: Sagástegui 2949 (LP)
Depts.: AN, CA, HU, JU

Laennecia parvifolia DC. =Laennecia gnaphalioides (H.B.K.) Cassini
Ref. Zardini, 1981: 166.

Laennecia pinnatifida Turczaninow =Laennecia filaginoides DC.
Ref. Zardini, 1981: 166.

Lagascea mollis Cavanilles
Herb. Amazonian, Andean I-II, Coastal: disturbed areas. 0-2000 m.
Voucher: Woytkowski 6818 (MO!)
Depts.: AM, CA, LL, PI

Lancisia minuta (L. f.) Rydberg =Cotula mexicana (DC.) Cabrera

Ref. FP n.s. 7 1981: 7; Cabrera, 1960: 208.

Lasiocephalus campanulatus (Schultz-Bip. ex Klatt) Cuatrecasas
Syn. *Senecio campanulatus* Schultz-Bip. ex Klatt, *Senecio campanulatus* var. *lanosissimus* Cabrera
Ref. Cuatrecasas, 1978: 309.
Subshrub. Andean II-III. 3000-4000 m.
Note: For alternative treatment, see Cabrera (1985: 84).
Voucher: Gentry *et al.* 37367 (MO)
Depts.: AN, CU

Lasiocephalus involucratus (H.B.K.) Cuatrecasas
Syn. *Aetheolaena involucrata* (H.B.K.) Nordenstam, *Cacalia involucrata* H.B.K., *Senecio involucratus* (H.B.K.) DC.
Ref. Cuatrecasas, 1978: 310.
Shrub.
Note: No Peru vouchers cited.

Lasiocephalus loesneri (Hieronymus) Cuatrecasas
Syn. *Aetheolaena loeseneri* (Hieronymus) Nordenstam, *Senecio loeseneri* Hieronymus
Ref. Nordenstam, 1978: 45.
Shrub. Andean II. 2500-3500 m.
Voucher: Hutchison & Wright 5747 (F)
Depts.: AP, CA, PI

Lasiocephalus patens (H.B.K.) Cuatrecasas
Syn. *Aetheolaena patens* (H.B.K.) Nordenstam, *Senecio patens* (H.B.K.) DC.
Ref. Nordenstam, 1978: 56.
Shrub. Amazonian, Andean I-II, Coastal: disturbed areas. 0-2500 m.
Voucher: Humboldt & Bonpland s.n.* (P), Ferreyra & Acleto 15327 (F)
Depts.: AM, AY, CA, CU, HU, JU, LO, MD, PA, PI, SM, UC

Latreillea peruviana Poeppig =Ichthyothere peruviana (Poeppig) Baker

Leighia microphylla (H.B.K.) Cassini =Pappobolus microphyllus var. microphyllus
Ref. Panero, 1992: 141.

Leontopodium linearifolium (Weddell) Bentham & Hooker f. =Antennaria linearifolia Weddell
Ref. FP n.s. 26 1991: 9.

Lepidaploa arborescens (L.) H. Robinson =Vernonia arborescens (L.) Swartz
Note: For alternative treatment, see Robinson (1990: 481).

Lepidaploa canescens (H.B.K.) Cassini =Vernonia canescens H.B.K.
Ref. FP n.s. 5 1980: 44; Robinson, 1990: 483.

Lepidaploa costata (Rusby) H. Robinson =Vernonia costata Rusby
Ref. Robinson, 1990: 486.

Lepidaploa ferreyrae (H. Robinson) H. Robinson =Vernonia ferreyrae H. Robinson
Ref. Robinson, 1980a: 158.

Lepidaploa fieldiana (Gleason) H. Robinson =Vernonia fieldiana Gleason
Ref. Robinson, 1990: 487.

Lepidaploa gracilis (H.B.K.) H. Robinson =Vernonia gracilis H.B.K.
Ref. Robinson, 1990: 488.

Lepidaploa mapirensis (Gleason) H. Robinson =Vernonia mapirensis Gleason
Ref. Robinson, 1990: 489.

Lepidaploa myriocephala (DC.) H. Robinson =Vernonia myriocephala DC.
Ref. Robinson, 1990: 490.

Lepidaploa retrosetosa (H. Robinson) H. Robinson =Vernonia retrosetosa H. Robinson
Ref. Robinson, 1980a: 159.

Lepidaploa rimachii (H. Robinson) H. Robinson =Vernonia rimachii H. Robinson
Ref. Robinson, 1990: 491.

Lepidaploa salzmannii (DC.) H. Robinson =Vernonia salzmannii DC.
Ref. Robinson, 1990: 492.

Lepidaploa scorpioides (Lamarck) Cassini =Vernonia scorpioides (Lamarck) Persoon
Ref. FP n.s. 5 1980: 39.

Lepidaploa sordidopapposa (Hieronymus) H. Robinson =Vernonia sordidopapposa Hieronymus
Ref. Robinson, 1990: 493.

Lepidophyllum acaule (Weddell ex Bentham) Bentham & Hooker f. ex Hooker f. & A. B. Jackson =Novenia acaulis (Weddell ex Bentham) Freire & Hellwig
Ref. FP n.s. 26 1991: 56; Cabrera, 1945: 58.

Lepidophyllum lucidum (Meyen) Hieronymus =Parastrephia lucida (Meyen) Cabrera
Ref. Cabrera, 1945: 51.

Lepidophyllum phylicaeforme (Meyen) Hieronymus =Parastrephia phylicaeformis (Meyen) Cabrera
Ref. Cabrera, 1945: 53.

Lepidophyllum quadrangulare (Meyen) Bentham & Hooker f.
Syn. *Baccharis quadrangularis* Meyen, *Parastrephia quadrangularis* (Meyen) Cabrera
Ref. Cabrera, 1945: 54.
Shrub. Andean II-III. 3000-4500 m.
Voucher: Ferreyra 2595 (US!)
Depts.: AR, AY, LI, PU, TA

Lepidophyllum rigidum (Weddell) Bentham et Hooker =Parastrephia lucida (Meyen) Cabrera
Ref. Cabrera, 1945: 51.

Lepidophyllum tola Cabrera =Parastrephia lepidophylla (Weddell) Cabrera
Ref. Cabrera, 1945: 56.

Leptilon bonariense (L.) Small =Conyza bonariensis (L.) Cronquist
Ref. Cuatrecasas, 1969: 223.

Leptilon canadense (L.) Britton & Brown =Conyza canadensis (L.) Cronquist

Leptinella bogotensis (H.B.K.) DC. =Plagiocheilus bogotensis (H.B.K.) Weddell
Ref. FP n.s. 7 1981: 13.

Leucanthemum vulgare Lamarck
Syn. *Chrysanthemum leucanthemum* L.
Ref. FP n.s. 7 1981: 10.
Cultivated and introduced herb. Andean III: disturbed areas. 3500-4000 m.
Voucher: Brunel 268 (MO!)
Depts.: CU

Leucheria daucifolia (D. Don) Crisci
Syn. *Chabraea daucifolia* (D. Don) Weddell, *Chabraea laciniata* Weddell, *Ptilurus daucifolius* D. Don.
Ref. Crisci, 1976: 52.
Endemic herb. Andean III. 3500- > 4500 m.
Voucher: Ruiz & Pavón s.n.* (P), Weberbauer 224 (F!)
Depts.: AN, AR, CU, JU, LI, PA, PU

Leucheria stuebelii Hieronymus =Jungia stuebelii (Hieronymus) Crisci
Ref. Hieronymus, 1905: 512.

Liabum acaule (H.B.K.) Lessing =Chrysactinium acaule (H.B.K.) Weddell

Liabum acostae Chung =Munnozia acostae (Chung) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 54.

Liabum acuminatum Rusby
Ref. Robinson, 1983a: 34.
Herb. Amazonian. 0-500 m.
Voucher: Foster 9788 (F!)
Depts.: MD

Liabum acutifolium Cuatrecasas =Liabum solidagineum (H.B.K.) Lessing
Ref. Robinson & Brettell, 1974: 52.

Liabum affine S. F. Blake =Munnozia affinis (S. F. Blake) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 54.

Liabum amphothrix S. F. Blake
=Chrysactinium amphothrix (S. F. Blake) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 49.

Liabum amplexicaule Poeppig
Syn. *Liabum ulei* Hieronymus
Ref. Robinson & Brettell, 1974: 52; Robinson, 1983a: 34.
Herb or shrub. Amazonian, Andean I-II. 0-2000 m.
Voucher: Gentry 23202 (F!)
Depts.: AM, CU, HU, JU, LO, PA, SM

Liabum angustum S. F. Blake =Munnozia angusta (S. F. Blake) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 54.

Liabum annuum Muschler =Munnozia annua (Muschler) H. Robinson & Brettell
Ref. Muschler, 1914: 84.

Liabum arthrothrix S. F. Blake
=Chrysactinium acaule (H.B.K.) Weddell
Ref. Robinson & Brettell, 1974: 49.

Liabum bicolor S. F. Blake
=Chrysactinium caulescens (Hieronymus) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 49.

Liabum bullatum (A. Gray ex Weddell) Hieronymus =Paranephelius bullatus A. Gray ex Weddell

Liabum caulescens Hieronymus
=Chrysactinium caulescens (Hieronymus) H. Robinson & Brettell
Ref. Hieronymus, 1905: 500; Robinson & Brettell, 1974: 50.

Liabum convencionense Cuatrecasas
=Munnozia convencionensis (Cuatrecasas) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 54.

Liabum coriaceum Hieronymus =Oligactis coriacea (Hieronymus) H. Robinson & Brettell
Ref. Hieronymus, 1901a: 58.

Liabum corymbosum (R. & P.) Schultz-Bip.
=Munnozia corymbosa R. & P.
Ref. Cabrera, 1960: 208.

Liabum diehlii H. Robinson
Ref. Robinson, 1980b: 99; Robinson, 1983a: 34.
Endemic herb. Andean I. 500-1000 m.
Voucher: Bues 923* (F), Diehl 2406 (F!)
Depts.: CU

Liabum erigeroides Bentham =Oritrophium peruvianum (Lamarck) Cuatrecasas
Ref. Robinson, 1983a: 62.

Liabum eriocalyx S. F. Blake =Munnozia corymbosa R. & P.
Ref. Robinson & Brettell, 1974: 54.

Liabum eriocaulon Poeppig
Ref. Robinson & Brettell, 1974: 52.
Endemic herb. Andean I. 500-1500 m.
Voucher: Solomon 3356 (F!)
Depts.: HU, JU, LO, SM, UC

Liabum eupatorioides Muschler
=Schistocarpha sinforosi Cuatrecasas
Ref. Muschler, 1914: 83; Robinson, 1983a: 62.

Liabum excelsum (Poeppig) S. F. Blake
=Ferreyranthus excelsus (Poeppig) H. Robinson & Brettell
Ref. Blake, 1927a: 293; Robinson & Brettell, 1974: 51.

Liabum ferreyrii H. Robinson
Ref. Robinson, 1976c: 287; Robinson, 1983a: 35.
Endemic shrub. Andean II. 2000-3000 m.
Voucher: Ferreyra 8074* (US!), Ferreyra 8152 (US)
Depts.: HU, LI

Liabum floribundum Lessing
Ref. Hieronymus, 1905: 502; Robinson & Brettell, 1974: 52; Robinson, 1983a: 35.
Shrub. Andean I-II. 500-3000 m.
Voucher: Dillon & Skillman 4184 (F!)
Depts.: CA, LA, LL, PI, TU

Liabum foliosum (Rusby) Ferreyra
=Munnozia foliosa Rusby
Ref. Robinson, 1983a: 29.

Liabum fruticosum Muschler
=Ferreyranthus fruticosus (Muschler) H. Robinson
Ref. Robinson, 1982: 169.

Liabum giganteum Rusby =Munnozia gigantea (Rusby) Rusby
Ref. Robinson & Brettell, 1974: 55.

Liabum grandiflorum (H.B.K.) Lessing
Syn. *Andromachia grandiflora* H.B.K., *Liabum weberbaueri* Muschler
Ref. Robinson & Brettell, 1974: 52; Robinson, 1983a: 35.
Herb. Andean II. 2000-3000 m.
Voucher: Sagástegui 12746 (F!)
Depts.: CA

Liabum hastifolium Poeppig =Munnozia hastifolia (Poeppig) H. Robinson & Brettell
Ref. Hieronymus, 1905: 503.

Liabum herrerae Cabrera =Munnozia herrerae (Cabrera) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 55.

Liabum hieracioides (H.B.K.) Lessing
=Chrysactinium hieracioides (H.B.K.) H. Robinson & Brettell

Liabum igniarium (H.B.K.) Lessing
Syn. *Andromachia igniaria* H.B.K.
Ref. Robinson & Brettell, 1974: 52.
Shrub.
Note: No Peru voucher seen.

Liabum jelskii Hieronymus =Paranephelius ferreyrii H. Robinson
Ref. Hieronymus, 1905: 499; Robinson & Brettell, 1974: 59.

Liabum lanatum Ferreyra =Pseudonoseris discolor (Muschler) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 60.

Liabum lanceolatum (R. & P.) Schultz-Bip.
=Munnozia lanceolata R. & P.
Ref. Cabrera, 1960: 208.

Liabum lechleri Schultz-Bip.
=Diplostephium lechleri (Schultz-Bip.) Weddell

Liabum lyratum A. Gray =Munnozia lyrata (A. Gray) H. Robinson & Brettell
Ref. Hieronymus, 1905: 503; Robinson & Brettell, 1974: 55.

Liabum macbridei H. Robinson
Ref. Robinson, 1976c: 290; Robinson, 1983a: 35.
Endemic herb. Andean I. 500-1000 m.
Voucher: Macbride 4224* (US!), Canne & Schunke 266 (US)
Depts.: HU, JU

Liabum megacephalum Schultz-Bip.
=Munnozia senecionidis Bentham
Ref. Robinson & Brettell, 1974: 55.

Liabum niveum Hieronymus =Munnozia nivea (Hieronymus) H. Robinson & Brettell

Liabum nudicaule H. Robinson
Ref. Robinson, 1976e: 37; Robinson, 1983a: 35.
Endemic herb. Andean I-II. 1000-3000 m.
Voucher: Hutchison 1191* (US!), Macbride 5192 (US)
Depts.: HU, JU, LO, PI

Liabum ochraceum Cuatrecasas =Oligactis ochracea (Cuatrecasas) H. Robinson & Brettell
Ref. Cuatrecasas, 1953c: 302.

Liabum olearioides Muschler =Munnozia olearioides (Muschler) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 55.

Liabum ovatum (Weddell) J. Ball
=Paranephelius ovatus Weddell
Ref. Robinson, 1983a: 47.

Liabum oxyphyllum Cuatrecasas
=Munnozia oxyphylla (Cuatrecasas) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 55.

Liabum pallatangense Hieronymus =Erato polymnioides DC.
Ref. Hieronymus, 1905: 503.

Liabum peruense Cuatrecasas =Munnozia peruensis (Cuatrecasas) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 55.

Liabum pinnulosum Kuntze =Munnozia pinnulosa (Kuntze) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 56.

Liabum pseudosalviifolium Hieronymus =Ferreyranthus verbascifolius (H.B.K.) H. Robinson & Brettell
Ref. Hieronymus, 1905: 502; Robinson & Brettell, 1974: 51.

Liabum pulchrum S. F. Blake =Munnozia venosissima R. & P.
Ref. Robinson & Brettell, 1974: 56.

Liabum rosulatum Hieronymus =Chrysactinium rosulatum (Hieronymus) H. Robinson & Brettell
Ref. Hieronymus, 1905: 501; Robinson & Brettell, 1974: 50.

Liabum rugosum Ferreyra =Ferreyranthus rugosus (Ferreyra) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 51.

Liabum sagittatum Schultz-Bip. =Munnozia senecionidis Bentham
Ref. Robinson, 1983a: 59.

Liabum salviifolium Hieronymus =Ferreyranthus verbascifolius (H.B.K.) H. Robinson & Brettell
Ref. Hieronymus, 1901b: 622.

Liabum sandemannii H. Robinson
Ref. Robinson, 1977b: 488; Robinson, 1983a: 35.
Endemic herb. Andean II. 1500-2000 m.
Voucher: Sandeman 4420* (K photo US!)
Depts.: JU

Liabum saundersii H. Robinson
Ref. Robinson, 1983a: 52.
Endemic subshrub. Andean I: rocky slopes. 501000 m.
Voucher: Saunders 559* (IJ)
Depts.: JU

Liabum silphioides (Poeppig) S. F. Blake =Munnozia silphioides (Poeppig) H. Robinson & Brettell
Ref. Robinson, 1983a: 59.

Liabum solidagineum (H.B.K.) Lessing
Syn. *Andromachia solidaginea* H.B.K., *Liabum acutifolium* Cuatrecasas
Ref. Hieronymus, 1905: 503; Robinson & Brettell, 1974: 53.
Herb or shrub. Andean II-III. 2000-4000 m.
Voucher: Humboldt & Bonpland s.n.* (P-H&B), Smith 10577 (F!)
Depts.: AM, AN, AP, CA, CU, HU, JU, LL, PU

Liabum stenolepis S. F. Blake =Erato stenolepis (S. F. Blake) H. Robinson
Ref. Blake, 1927a: 290.

Liabum striatum Cuatrecasas =Pseudonoseris striata (Cuatrecasas) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 60.

Liabum stuebelii Hieronymus =Munnozia nivea (Hieronymus) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 53.

Liabum subviride S. F. Blake =Munnozia subviride (S. F. Blake) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 56.

Liabum szyszylowiczii Hieronymus =Pseudonoseris szyszylowiczii (Hieronymus) H. Robinson & Brettell
Ref. Hieronymus, 1905: 503; Robinson & Brettell, 1974: 60.

Liabum taeniotrichum S. F. Blake =Munnozia taeniotricha (S. F. Blake) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 56.

Liabum tovarii Cabrera =Ferreyranthus vernonioides (Muschler) H. Robinson & Brettell
Ref. Cabrera, 1962: 29; Robinson & Brettell, 1974: 51.

Liabum trinerve (R. & P.) Schultz-Bip. =Munnozia trinervis R. & P.
Ref. Cabrera, 1960: 208.

Liabum ulei Hieronymus =Liabum amplexicaule Poeppig
Ref. Robinson & Brettell, 1974: 53; Robinson, 1983a: 34.

Liabum uniflorum (Poeppig) Schultz-Bip. =Paranephelius uniflorus Poeppig
Ref. Robinson, 1983a: 47.

Liabum vaginans Muschler =Ferreyranthus vaginans (Muschler) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 51.

Liabum vargasii H. Robinson
Ref. Robinson, 1976c: 299.
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Vargas 10182* (US!), Ferreyra 2691 (US)
Depts.: CU

Liabum venosissimum (R. & P.) Schultz-Bip. =Munnozia venosissima R. & P.
Ref. Cabrera, 1960: 209; Robinson, 1983a: 59.

Liabum verbascifolium (H.B.K.) Lessing =Ferreyranthus verbascifolius (H.B.K.) H. Robinson & Brettell
Ref. Robinson, 1983a: 29.

Liabum vernonioides Muschler =Ferreyranthus vernonioides (Muschler) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 51.

Liabum weberbaueri Muschler =Liabum grandiflorum (H.B.K.) Lessing
Ref. Robinson & Brettell, 1974: 53.

Liabum wurdackii Ferreyra
Ref. Ferreyra, 1965b: 1; Robinson & Brettell, 1974: 53; Robinson, 1983a: 35.
Endemic shrub. Andean I-II. 500-3000 m.
Voucher: Ferreyra 14423* (USM), Hutchison & Wright 3571 (F!)
Depts.: AM, CA

Linochilus meyenii Schultz-Bip. =Diplostephium meyenii (Schultz-Bip.) S. F. Blake
Ref. Blake, 1928b: 54.

Llerasia hutchisonii Cuatrecasas
Ref. Cuatrecasas, 1970b: 45.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Hutchison & Bismarck 6400* (F!)
Depts.: CA, LL

Llerasia lindenii Triana
Syn. *Bigelowia lehmannii* Hieronymus, *Haplopappus lehmannii* (Hieronymus) S. F. Blake
Ref. Sagástegui & Dillon, 1988: 367; Cuatrecasas, 1969: 33; Blake, 1927b: 113.
Shrub. Andean III: forests. 3500-4000 m.
Voucher: Sagástegui *et al.* 12776 (HUT, MO!)

Llerasia pascoensis Sagástegui & Dillon
Ref. Sagástegui & Dillon, 1988: 363.
Endemic liana. Andean II-III: cloud forests, elfin forests. 3000-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Foster *et al.* 10437* (F, USM)
Depts.: PA

Llerasia rufescens (S. F. Blake) Cuatrecasas
Syn. *Haplopappus rufescens* S. F. Blake
Ref. Cuatrecasas, 1970b: 45; Sagástegui & Dillon, 1988: 367.
Shrub. Andean II. 2500-3500 m.
Voucher: Weberbauer 7209* (US), Hutchison & Wright 5216 (MO!)
Depts.: CA, LL

Llerasia sanmartinensis Sagástegui & Dillon
Ref. Sagástegui & Dillon, 1988: 365.
Endemic shrub. Andean II: forests. 3000-3500 m.
Voucher: Young 2337* (HUT), Young 1935 (HUT)
Depts.: SM

Lophopappus berberidifolius Cuatrecasas
Ref. Cabrera, 1953: 48.
Shrub. Andean III. 3500-4000 m.
Voucher: Tovar 961* (LP, USM)
Depts.: AR, HV, JU, LI, MO, TA

Lophopappus blakei Cabrera
Syn. *Proustia cuneata* S. F. Blake
Ref. Cabrera, 1953: 48.
Shrub. Andean II-III. 3000-4000 m.
Voucher: Cook & Gilbert 538 (US!)
Depts.: AP, AY, CU

Lophopappus foliosus Rusby
Ref. Cabrera, 1953: 47.
Shrub. Andean II-III. 3000-4000 m.
Voucher: Weberbauer 6888* (F, USM)
Depts.: AR

Lophopappus peruvianus Cabrera
Ref. Cabrera, 1953: 50.
Shrub. Andean II. 3000-3500 m.
Voucher: Cerrate 1552* (USM), Macbride & Featherstone 2296 (F!)
Depts.: AN, AY, HU, LL

Lorentea multiflosculosa DC. =Pectis multiflosculosa (DC.) Schultz-Bip.

Lorentea sessiliflora Lessing =Pectis sessiliflora (Lessing) Schultz-Bip.

Lorentea subsquarrosa Hooker f. =Pectis subsquarrosa (Hooker f.) Schultz-Bip.

Loricaria ferruginea (R. & P.) Weddell
Syn. *Baccharis ferruginea* (R. & P.) Persoon, *Baccharis ilinissae* Bentham, *Molina ferruginea* R. & P.
Ref. FP n.s. 26 1991: 44; Cabrera, 1960: 205.
Endemic shrub. Andean II-III: shrublands. 3000- > 4500 m.
Voucher: Ruiz & Pavón 28/10* (MA photo F!), Antúnez de Mayolo 321 (F!, USM)
Depts.: AN, CA, LA, LL, PA

Loricaria graveolens (Schultz-Bip.) Weddell
Syn. *Baccharis graveolens* Schultz-Bip.
Ref. FP n.s. 26 1991: 46.
Shrub. Andean III: shrublands. 3500-4500 m.
Voucher: Lechler 1815* (F!), Pennell 13517 (F!)
Depts.: AR, CU, LI, PU

Loricaria leptothamna (Mattfeld) Cuatrecasas
Syn. *Tafalla leptothamna* Mattfeld
Ref. FP n.s. 26 1991: 46.
Endemic shrub. Andean III: shrublands. 3500-4000 m.
Voucher: Weberbauer 7027* (F!), Dillon & Turner 1738 (F!, HUT)
Depts.: AM, CA, CU, LL

Loricaria lucida Cuatrecasas
Ref. FP n.s. 26 1991: 47.
Endemic shrub. Andean III: shrublands. 4000-4500 m.
Voucher: Macbride & Featherstone 2171* (F!), Ochoa 166 (F!, USM)
Depts.: HU, JU

Loricaria lycopodinea Cuatrecasas
Ref. FP n.s. 26 1991: 47.
Endemic shrub. Andean III: shrublands. 4000-4500 m.
Voucher: Macbride & Featherstone 2471* (F!), Hutchison *et al.* 6139 (F!)
Depts.: AN, JU, LL

Loricaria macbridei Cuatrecasas
Ref. FP n.s. 26 1991: 48.
Endemic shrub. Andean III: shrublands. 3500-4500 m.
Voucher: Macbride & Featherstone 1093* (F!), Vargas 11181 (F!)
Depts.: CU, JU

Loricaria stuebelii Hieronymus =Loricaria thuyoides var. stuebelii (Hieronymus) Cuatrecasas
Ref. FP n.s. 26 1991: 49.

Loricaria thuyoides (Lamarck) Schultz-Bip. var. **stuebelii** (Hieronymus) Cuatrecasas
Syn. *Loricaria stuebelii* Hieronymus
Ref. FP n.s. 26 1991: 49.
Endemic shrub. Andean III: shrublands. 4000-4500 m.
Voucher: Stuebel 53* (F!), López & Sagástegui 3345 (HUT, MO!)
Depts.: LL, HU

Loricaria thuyoides var. **thuyoides**
Syn. *Baccharis thuyoides* (Lamarck) Persoon, *Conyza thuyoides* Lamarck, *Molina incana* R. & P.
Ref. FP n.s. 26 1991: 49; Cabrera, 1960: 205.
Shrub. Andean II-III: shrublands. 3000-4500 m.
Voucher: Jussieu 42* (P photo F!), Wurdack 1189 (F!)
Depts.: AM, AY, CU, LL, HU, JU, SM

Loricaria thuyoides var. *thyrsoidea* Cuatrecasas =Loricaria thyrsoidea (Cuatrecasas) Dillon & Sagástegui
Ref. FP n.s. 26 1991: 49.

Loricaria thyrsoidea (Cuatrecasas) Dillon & Sagástegui
Syn. *Loricaria thuyoides* var. *thyrsoidea* Cuatrecasas
Ref. FP n.s. 26 1991: 49; Dillon & Sagástegui, 1986a: 230.
Endemic shrub. Andean III: shrublands. 4000-4500 m.
Voucher: Pennell 14685* (F!), Stafford 988 (F!)
Depts.: CU, JU, LI

Lucilia conoidea Weddell
Ref. FP n.s. 26 1991: 50.
Herb. Andean III: shrublands. 4000-4500 m.
Voucher: Gay s.n.* (P frag. F!), Dillon *et al.* 1082 (F!, HUT)
Depts.: CU, PU

Lucilia kunthiana (DC.) Zardini
Syn. *Conyza kunthiana* DC., *Conyza pusilla* H.B.K., *Gnaphalium kunthianum* (DC.) Kuntze, *Lucilia lehmannii* Hieronymus, *Lucilia pusilla* (H.B.K.) Hieronymus
Ref. FP n.s. 26 1991: 51; Zardini, 1987: 431.
Herb. Andean II-III: grasslands, shrublands. 3000- > 4500 m.
Voucher: Dillon & Turner 1466 (F!, USM)
Depts.: AN, AP, AY, CA, CU, HU, HV, JU, PA, PU

Lucilia lehmannii Hieronymus =Lucilia kunthiana (DC.) Zardini
Ref. FP n.s. 26 1991: 52.

Lucilia longifolia Cuatrecasas & Aristeguieta =Belloa longifolia (Cuatrecasas & Aristeguieta) Sagástegui & Dillon
Ref. FP n.s. 26 1991: 12; Sagástegui & Dillon, 1985b: 396.

Lucilia lopezmirandae (Cabrera) Freire =Belloa lopezmirandae Cabrera
Ref. FP n.s. 26 1991: 14.

Lucilia pickeringii A. Gray =Belloa pickeringii (A. Gray) Sagástegui & Dillon
Ref. FP n.s. 26 1991: 14; Sagástegui & Dillon, 1985b: 396.

Lucilia pickeringii var. *minor* A. Gray =Belloa pickeringii (A. Gray) Sagástegui & Dillon
Ref. FP n.s. 26 1991: 14.

Lucilia piptolepis Weddell =Belloa piptolepis (Weddell) Cabrera
Ref. FP n.s. 26 1991: 14.

Lucilia plicatifolia (Sagástegui & Dillon) Freire =Belloa plicatifolia Sagástegui & Dillon
Ref. FP n.s. 26 1991: 15.

Lucilia plumosa Weddell =Facelis plumosa (Weddell) Schultz-Bip.
Ref. FP n.s. 26 1991: 25.

Lucilia pusilla (H.B.K.) Hieronymus =Lucilia kunthiana (DC.) Zardini
Ref. FP n.s. 26 1991: 52.

Lucilia schultzii (Weddell) Freire =Belloa schultzii (Weddell) Cabrera

Lucilia subspicata (Weddell) Freire =Belloa subspicata Weddell

Lucilia tunariensis (Kuntze) K. Schumann =Novenia acaulis (Weddell ex Bentham) Freire & Hellwig
Ref. FP n.s. 26 1991: 56.

Luciliopsis isernii Cuatrecasas =Cuatrecasasiella isernii (Cuatrecasas) H. Robinson
Ref. FP n.s. 26 1991: 24.

Lycoseris peruviana Egeröd
Ref. Egeröd & Stahl, 1991: 564.
Endemic liana or shrub. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Woytkowski 5080* (F), Ferreyra 7942 (MO!)
Depts.: SM

Lycoseris trinervis (R. & P. ex D. Don) S. F. Blake
Syn. *Aster trinervis* R. & P., *Centroclinium altissimum* Poeppig, *Diazeuxis trinervis* R. & P. ex D. Don, *Lycoseris trinervis* subsp. *altissima* (Poeppig) Egeröd, *Onoseris altissima* (Poeppig) Kuntze
Ref. Harling, 1991: 34.
Endemic liana. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.

Voucher: Ruiz & Pavón s.n.*, Macbride 4593 (F)
Depts.: HU, JU, LO, SM, UC

Lycoseris trinervis subsp. *altissima* (Poeppig) Egerőd =Lycoceris trinervis (D. Don) S. F. Blake
Ref. Harling, 1991: 36.

Marsea bonariensis (L.) Badillo =Conyza bonariensis (L.) Cronquist
Ref. Cuatrecasas, 1969: 223.

Marsea canadensis (L.) Badillo =Conyza canadensis (L.) Cronquist
Ref. Cuatrecasas, 1969: 222.

Matamoria spicata (Jussieu ex Aublet) Llave & Lexarza =Pseudelephantopus spicatus (Jussieu ex Aublet) Rohr
Ref. FP n.s. 5 1980: 66.

Matricaria courrantiana DC. =Matricaria recutita L.
Ref. FP n.s. 7 1981: 12.

Matricaria parthenium L. =Tanacetum parthenium (L.) Schultz-Bip.
Ref. FP n.s. 7 1981: 19.

Matricaria recutita L.
Syn. *Matricaria courrantiana* DC.
Ref. FP n.s. 7 1981: 12.
Cultivated and introduced herb. Andean II-III: disturbed areas. 2000-4000 m.
Voucher: Macbride & Featherstone 458 (F!)
Depts.: AP, CU, JU, LI, LO

Melampodium geminata Brandegee =Baltimora geminata (Brandegee) Stuessy
Ref. Stuessy, 1973: 42.

Melampodium ruderale Swartz =Eleutheranthera ruderalis (Swartz) Schultz-Bip.

Melanthera aspera (Jacquin) Small
Syn. *Calea aspera* Jacquin
Ref. Parks, 1973: 190.
Shrub. Amazonian, Coastal: disturbed areas, forests, riversides. 0-500 m.
Voucher: Plowman *et al.* 6386 (F!)
Depts.: LL, LO

Melanthera nivea (L.) Small
Syn. *Bidens nivea* L.
Ref. Parks, 1973: 184.
Herb. Amazonian: terra firme forests. 0-500 m.
Voucher: Vásquez *et al.* 2364 (F!)
Depts.: LO

Merope aretioides (Schultz-Bip.) Weddell =Mniodes aretioides (Schultz-Bip.) Cuatrecasas
Ref. FP n.s. 26 1991: 53.

Merope piptolepis Weddell =Belloa piptolepis (Weddell) Cabrera
Ref. FP n.s. 26 1991: 14.

Merope schultzii Weddell =Belloa schultzii (Weddell) Cabrera
Ref. FP n.s. 26 1991: 16.

Microdonta nana Nuttall =Heterosperma nanum (Nuttall) Sherff
Ref. Cabrera, 1978: 402.

Mikania alata (G. Meyer) DC. =Mikania micrantha H.B.K.
Ref. FP n.s. 9 1982: 36; King & Robinson, 1987: 549.

Mikania almagroi Cuatrecasas =Mikania banisteriae DC.
Ref. FP n.s. 9 1982: 11; King & Robinson, 1987: 549.

Mikania amara (M. Vahl) Willdenow =Mikania parviflora (Aublet) Karsten
Ref. FP n.s. 9 1982: 41; King & Robinson, 1987: 549.

Mikania amara var. *guaco* (Humboldt & Bonpland) Baker =Mikania guaco Humboldt & Bonpland
Ref. FP n.s. 9 1982: 23.

Mikania angularis Humboldt & Bonpland
Syn. *Mikania armigera* Poeppig, *Mikania laxa* DC.
Ref. FP n.s. 9 1982: 8; King & Robinson, 1987: 423, 549.
Liana. Andean I-II: forests. 500-2500 m.
Voucher: Macbride 5290 (F!)
Depts.: CU, HU, JU, LA

Mikania antioquiensis Hieronymus =Mikania banisteriae DC.
Ref. FP n.s. 9 1982: 11; King & Robinson, 1987: 549.

Mikania antioquiensis var. *subcuneata* B. Robinson =Mikania banisteriae DC.
Ref. FP n.s. 9 1982: 11.

Mikania anzoatiguensis Badillo =Mikania vitifolia DC.
Ref. FP n.s. 9 1982: 54; King & Robinson, 1987: 549.

Mikania apiifolia DC. =Mikania ternata (Vell. Conc.) B. Robinson
Ref. FP n.s. 9 1982: 51; King & Robinson, 1987: 549.

Mikania aquaria B. Robinson
Ref. FP n.s. 9 1982: 8; King & Robinson, 1987: 423, 549.
Endemic liana. Amazonian, Andean I: forests, riversides. 0-1000 m.
Voucher: Macbride 5242* (F!), Mathias & Taylor 5904 (F!)
Depts.: CU, HU, JU, LO

Mikania areolata Holmes & McDaniel
Ref. FP n.s. 9 1982: 8; King & Robinson, 1987: 423, 549.
Endemic liana. Andean II. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Hutchison & Wright 5754* (F!)
Depts.: AM

Mikania armigera Poeppig =Mikania angularis Humboldt & Bonpland
Ref. FP n.s. 9 1982: 8; King & Robinson, 1987: 549.
Note: Listed by King & Robinson (1987) as a synonym of *M. laxa*, which in turn (p. 553) is listed as a synonym of *M. angularis*.

Mikania arthroclada B. Robinson
Ref. FP n.s. 9 1982: 9; King & Robinson, 1987: 423, 549.
Endemic liana or shrub. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6972* (F!)
Depts.: CU

Mikania aschersonii Hieronymus
Syn. *Mikania aschersonii* var. *indula* B. Robinson
Ref. FP n.s. 9 1982: 9; King & Robinson, 1987: 423, 549.
Vine. Amazonian, Andean I-II: forests, rocky slopes, shrublands. 0-2000 m.
Voucher: Klug 3679 (F!)
Depts.: CU, HU, JU, LO, SM

Mikania aschersonii var. *indula* B. Robinson =Mikania aschersonii Hieronymus
Ref. FP n.s. 9 1982: 9.

Mikania atriplicifolia Schultz-Bip. ex Miquel =Mikania congesta DC.
Ref. FP n.s. 9 1982: 16; King & Robinson, 1987: 550.

Mikania attenuata DC. =Mikania guaco Humboldt & Bonpland
Ref. FP n.s. 9 1982: 23; King & Robinson, 1987: 550.

Mikania badieri DC. =Mikania hookeriana DC.
Ref. FP n.s. 9 1982: 26; King & Robinson, 1987: 550.

Mikania badieri var. *kittsiana* Urban =Mikania hookeriana DC.
Ref. FP n.s. 9 1982: 26.

Mikania banisteriae DC.
Syn. *Mikania almagroi* Cuatrecasas, *Mikania antioquiensis* Hieronymus, *Mikania antioquiensis* var. *subcuneata* B. Robinson, *Mikania banisteriae* fo. *lanuginosa* (DC.) Steyermark, *Mikania banisteriae* fo. *lehmanniana* (Hieronymus) Steyermark, *Mikania banisteriae* fo. *subglabra* (B. Robinson) Steyermark, *Mikania bergantinensis* Badillo, *Mikania canaquensis* Badillo, *Mikania caudata* Bentham, *Mikania ferruginea* (Rusby) Rusby ex Buchtien, *Mikania hirsutissima* Buchtien, nom. illeg., *Mikania kavanayensis* Badillo, *Mikania lanuginosa* DC., *Mikania macbridei* B. Robinson, *Mikania meridana* Badillo, *Mikania molinensis* Badillo, *Mikania oniaensis* Badillo, *Mikania ptaretepuiensis* Badillo, *Mikania ruiziana* Poeppig, *Mikania*

ruiziana var. *lehmanniana* Hieronymus, *Mikania skutchii* S. F. Blake, *Willoughbya ferruginea* Rusby, *Willoughbya hirsutissima* Rusby, nom. illeg.
Ref. FP n.s. 9 1982: 11; King & Robinson, 1987: 423, 550.
Liana. Amazonian, Andean I-II, Coastal: disturbed areas, forests, seasonally inundated areas. 0-3000 m.
Voucher: McDaniel *et al.* 21652 (F!)
Depts.: AM, AN, CU, HU, JU, LO, PU, SM, UC

Mikania banisteriae fo. *lanuginosa* (DC.) Steyermark =Mikania banisteriae DC.
Ref. FP n.s. 9 1982: 11.

Mikania banisteriae fo. *lehmanniana* (Hieronymus) Steyermark =Mikania banisteriae DC.
Ref. FP n.s. 9 1982: 11.

Mikania banisteriae fo. *subglabra* (B. Robinson) Steyermark =Mikania banisteriae DC.
Ref. FP n.s. 9 1982: 11.

Mikania bergantinensis Badillo =Mikania banisteriae DC.
Ref. FP n.s. 9 1982: 11; King & Robinson, 1987: 550.

Mikania boliviensis Lingelsheim =Mikania vitifolia DC.
Ref. FP n.s. 9 1982: 54; King & Robinson, 1987: 550.

Mikania brachiata Poeppig =Mikania guaco Humboldt & Bonpland
Ref. FP n.s. 9 1982: 23; King & Robinson, 1987: 550.

Mikania brachyphylla Hieronymus
Ref. FP n.s. 9 1982: 13; King & Robinson, 1987: 423, 550.
Endemic vine. Andean II: elfin forests. 2500-3000 m.
Voucher: Jelski 703* (B photo F!), Barbour 3373 (F)
Depts.: AM, CA

Mikania brevifaucia Holmes & McDaniel
Ref. FP n.s. 9 1982: 13; King & Robinson, 1987: 423, 550.
Endemic vine. Andean II-III. 3000-4000 m.
Voucher: Vargas 4447* (F!), Chávez 3282 (MO!)
Depts.: CU

Mikania brooksii Holmes & McDaniel
Ref. FP n.s. 9 1982: 13; King & Robinson, 1987: 423, 550.
Endemic liana. Amazonian: forests. 0-500 m.
Voucher: McDaniel *et al.* 21387* (IBE), Rimachi 4832 (US!)
Depts.: LO

Mikania bulbisetifera Cuatrecasas
Ref. FP n.s. 9 1982: 14; King & Robinson, 1987: 423, 550.
Endemic vine. Andean I-II: forests, shrublands. 500-2500 m.
Voucher: Wurdack 1078* (US!)
Depts.: AM, SM

Mikania bullata B. Robinson
Ref. FP n.s. 9 1982: 14; King & Robinson, 1987: 423, 550.
Endemic liana or shrub. Andean II. 1500-2500 m.
Voucher: Weberbauer 1085* (B photo F!), Ferreyra 16685 (MO!)
Depts.: PU

Mikania canaquensis Badillo =Mikania banisteriae DC.
Ref. FP n.s. 9 1982: 11; King & Robinson, 1987: 550.

Mikania carnosa Muschler
Ref. FP n.s. 9 1982: 15; King & Robinson, 1987: 423, 550.
Endemic liana or shrub. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 5645* (F!)
Depts.: AY

Mikania caudata Bentham =Mikania banisteriae DC.
Ref. FP n.s. 9 1982: 11; King & Robinson, 1987: 550.

Mikania caustolepis B. Robinson =Mikania vitifolia DC.
Ref. FP n.s. 9 1982: 54; King & Robinson, 1987: 550.

Mikania chimborazensis Hieronymus
Ref. FP n.s. 9 1982: 15; King & Robinson, 1987: 423, 550.
Liana or vine. Andean II. 2500-3000 m.
Voucher: Hutchison & Wright 5310 (US!)
Depts.: CA

Mikania cissampelina DC. =Mikania cordifolia (L. f.) Willdenow
Ref. FP n.s. 9 1982: 17; King & Robinson, 1987: 550.

Mikania congesta DC.
Syn. *Mikania atriplicifolia* Schultz-Bip. ex Miquel, *Mikania parkeriana* DC., *Mikania scandens* fo. *congesta* (DC.) B. Robinson, *Mikania scandens* var. *congesta* (DC.) Baker, *Mikania sieberiana* DC., *Mikania variabilis* Gardner
Ref. FP n.s. 9 1982: 16; King & Robinson, 1987: 423, 551.
Liana. Amazonian: riversides, seasonally inundated areas, swamps. 0-500 m.
Voucher: Schunke 54 (F!)
Depts.: LO, MD

Mikania conglomerata Holmes & McDaniel
Ref. FP n.s. 9 1982: 16; King & Robinson, 1987: 423, 551.
Endemic liana. Amazonian. 0-500 m.
Voucher: Schunke 2249* (US!), Schunke 1145 (F)
Depts.: HU

Mikania consanguinea Gardner =Mikania psilostachya DC.
Ref. FP n.s. 9 1982: 42; King & Robinson, 1987: 551.

Mikania convolvulacea DC. =Mikania cordifolia (L. f.) Willdenow
Ref. FP n.s. 9 1982: 17; King & Robinson, 1987: 551.

Mikania cordifolia (L. f.) Willdenow
Syn. *Cacalia cordifolia* L. f., *Eupatorium marquezianum* Gómez de la Maza, *Mikania cissampelina* DC., *Mikania convolvulacea* DC., *Mikania gonoclada* DC., *Mikania hostmannii* Miquel, *Mikania mollis* H.B.K., *Mikania poeppigii* Sprengel, *Mikania scandens* var. *rhodotricha* Baker, *Mikania suaveolens* H.B.K., *Mikania surinamensis* Miquel, *Mikania vellosiana* Barbosa Rodrigues, *Mikania yapasensis* B. Robinson, *Willoughbya cordifolia* (L. f.) Kuntze, *Willoughbya halei* Small
Ref. FP n.s. 9 1982: 17; King & Robinson, 1987: 423, 551.
Vine. Amazonian, Andean I-II, Coastal: forests, riversides. 0-2000 m.
Voucher: Ferreyra 4244 (MO)
Depts.: AY, AM, CU, HU, JU, LA, LO, MD, PI, SM, UC

Mikania crassifolia Hieronymus
Ref. FP n.s. 9 1982: 18; King & Robinson, 1987: 423, 551.
Endemic vine. Andean I. 500-1000 m.
Voucher: Jelski 696* (MO!)
Depts.: CA, LA

Mikania cryptodonta B. Robinson =Mikania vitifolia DC.
Ref. FP n.s. 9 1982: 54; King & Robinson, 1987: 551.

Mikania cuneata Schultz-Bip. =Mikania guaco Humboldt & Bonpland
Ref. FP n.s. 9 1982: 23; King & Robinson, 1987: 551.

Mikania cutervensis Hieronymus
Syn. *Kanimia cutervensis* (Hieronymus) Hieronymus
Ref. FP n.s. 9 1982: 18; King & Robinson, 1987: 424, 551.
Endemic liana.
Voucher: Jelski 795* (B destroyed), Weberbauer 4036 (frag. F!)
Depts.: CA, HU

Mikania cuzcoensis Holmes & McDaniel
Ref. FP n.s. 9 1982: 19; King & Robinson, 1987: 424, 551.
Endemic liana. Andean I. 500-1000 m.
Voucher: Vargas 16521* (US!), Ferreyra 2159 (US!, MO!)
Depts.: CU, HU

Mikania decora Poeppig
Syn. *Mikania decora* var. *heteroneura* B. Robinson, *Mikania tarapotensis* B. Robinson, *Willoughbya bangii* Rusby
Ref. FP n.s. 9 1982: 19; King & Robinson, 1987: 424, 551.

Liana or shrub. Amazonian, Andean I-II, Coastal: forests. 0-3000 m.
Voucher: Poeppig 1645* (W photo F!), McDaniel & Rimachi 22033 (F!)
Depts.: AM, AN, CA, CU, HU, JU, SM

Mikania decora var. *heteroneura* B. Robinson =Mikania decora Poeppig
Ref. FP n.s. 9 1982: 19.

Mikania dentata Sprengel =Mikania ternata (Vell. Conc.) B. Robinson
Ref. FP n.s. 9 1982: 51; King & Robinson, 1987: 551; Holmes & McDaniel, 1989: 489.

Mikania desmocephala B. Robinson
Syn. *Mikania desmocephala* var. *peruviana* B. Robinson
Ref. FP n.s. 9 1982: 21; King & Robinson, 1987: 424, 551.
Vine. Andean I-II. 1000-2000 m.
Voucher: Dudley 10446 (MO)
Depts.: CU, JU, LO

Mikania desmocephala var. *peruviana* B. Robinson =Mikania desmocephala B. Robinson
Ref. FP n.s. 9 1982: 21.

Mikania dioscoreoides (Rusby) B. Robinson
Syn. *Willoughbya dioscoreoides* Rusby
Ref. King & Robinson, 1987: 424, 551.
Liana. Andean I-II: forests. 500-2000 m.
Voucher: Schunke 11433 (NY)
Depts.: HU, MD, SM

Mikania dudleyi Holmes & McDaniel
Ref. FP n.s. 9 1982: 21; King & Robinson, 1987: 424, 551.
Endemic liana. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Dudley 10913* (US!)
Depts.: CU

Mikania ecuadorensis Holmes & McDaniel
Ref. FP n.s. 9 1982: 22; King & Robinson, 1987: 424, 551.
Herb or vine. Coastal. 0-500 m.
Voucher: Townsend 791 (F!)
Depts.: PI

Mikania featherstonei B. Robinson
Ref. FP n.s. 9 1982: 22; King & Robinson, 1987: 424, 551.
Vine. Andean II: riversides. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Macbride & Featherstone 2428* (F!)
Depts.: HU

Mikania ferruginea (Rusby) Rusby ex Buchtien =Mikania banisteriae DC.
Ref. FP n.s. 9 1982: 11; King & Robinson, 1987: 424, 551.

Mikania filicifolia B. Robinson
Ref. FP n.s. 9 1982: 22; King & Robinson, 1987: 424, 552.
Endemic vine. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Cook & Gilbert 853* (US!)
Depts.: CU

Mikania glandulifera Holmes & McDaniel
Ref. FP n.s. 9 1982: 23; King & Robinson, 1987: 424, 552.
Endemic liana. Amazonian. 0-500 m.
Voucher: Schunke 1487* (F!)
Depts.: HU

Mikania glechomaefolia Schultz-Bip. ex Baker =Mikania micrantha H.B.K.
Ref. FP n.s. 9 1982: 36; King & Robinson, 1987: 552.

Molina tomentosa R. & P. =Baccharis tomentosa (R. & P.) Persoon
Ref. Cabrera, 1960: 204.

Molina uniflora R. & P. =Baccharis uniflora (R. & P.) Persoon
Ref. Robinson, 1988a: 38.

Molina venosa R. & P. =Baccharis genistelloides (Lamarck) Persoon
Ref. Cuatrecasas, 1967b: 85.

Molina viscosa R. & P. =Baccharis salicifolia (R. & P.) Persoon
Ref. Cabrera, 1960: 202.

Monactis flaveriae DC. =Monactis flaverioides H.B.K.
Ref. Robinson, 1976a: 40.

Monactis flaverioides H.B.K.
Syn. *Monactis flaveriae* DC.
Ref. Robinson, 1976a: 40.
Endemic shrub. Amazonian, Andean I-II, Coastal. 0-3000 m.
Voucher: Humboldt & Bonpland s.n.* (P-H&B), Ferreyra 15547 (US!)
Depts.: AM, CA, LA, PI

Monactis hieronymi H. Robinson
Syn. *Chaenocephalus jelskii* Hieronymus, *Monopholis jelskii* (Hieronymus) S. F. Blake
Ref. Robinson, 1976a: 40.
Endemic shrub. Andean II. 1500-2000 m.
Voucher: Jelski 698* (US!)
Depts.: CA

Monactis jelskii Hieronymus
Ref. Robinson, 1976a: 41.
Endemic shrub. Andean II-III: shrublands. 3000-4500 m.
Voucher: Jelski 684* (US!)
Depts.: CA, LI, LL

Monactis macbridei H. Robinson
Ref. Robinson, 1979b: 71.
Shrub. Andean II-III. 2500-4000 m.
Voucher: Macbride & Featherstone 771* (F!)
Depts.: CA, LI, LL

Monactis rhombifolia Sagástegui & Dillon
Ref. Sagástegui, 1986: 5.
Shrub or tree. Andean I-II: riversides, rocky slopes, seasonally inundated areas. 500-2000 m.
Voucher: Sánchez 979* (HUT, F), Plowman *et al.* 14262 (F!)
Depts.: AM, CA

Monactis wurdackii H. Robinson
Ref. Robinson, 1976a: 41.
Endemic shrub. Andean II. 2000-3000 m.
Voucher: Wurdack 452* (US!), Hutchison & Wright (NY)
Depts.: AM, CA

Monopholis jelskii (Hieronymus) S. F. Blake =Monactis hieronymi H. Robinson
Ref. Robinson, 1976a: 40.

Montanoa ovalifolia Delessert ex DC. subsp. **australis** Funk
Ref. Funk, 1982: 71.
Shrub. Andean II: disturbed areas. 2000-2500 m.
Voucher: Weberbauer 7102 (F!)
Depts.: LA

Munnozia acostae (Chung) H. Robinson & Brettell
Syn. *Liabum acostae* Chung
Ref. Robinson & Brettell, 1974: 54; Robinson, 1983a: 59.
Herb. Andean II. 2500-3000 m.
Voucher: Sagástegui & Mostacero 9158 (F!)
Depts.: CA

Munnozia affinis (S. F. Blake) H. Robinson & Brettell
Syn. *Liabum affine* S. F. Blake
Ref. Robinson & Brettell, 1974: 56; Robinson, 1983a: 57.
Endemic vine. Andean II. 2000-3000 m.
Voucher: Macbride 4337* (F!)
Depts.: HU, PA, SM

Munnozia angusta (S. F. Blake) H. Robinson & Brettell
Syn. *Liabum angustum* S. F. Blake
Ref. Robinson & Brettell, 1974: 54; Robinson, 1983a: 57.
Endemic vine. Andean II. 1500-2000 m.
Voucher: Macbride 5198* (F!)
Depts.: HU

Munnozia annua (Muschler) H. Robinson & Brettell
Syn. *Liabum annuum* Muschler
Ref. Robinson, 1983a: 69.
Endemic herb. Andean II. 2000-2500 m.
Note: For alternative treatment, see Robinson (1983: 59).
Voucher: Weberbauer 3876* (B photo F)
Depts.: CA

Munnozia convencionensis (Cuatrecasas) H. Robinson & Brettell
Syn. *Liabum convencionense* Cuatrecasas
Ref. Robinson & Brettell, 1974: 54; Robinson, 1983a: 57.
Endemic vine. Andean II-III. 1500-4000 m.
Voucher: Vargas 4446* (F!), Vargas 4198 (F)
Depts.: CU

Munnozia corymbosa R. & P.
Syn. *Liabum corymbosum* (R. & P.) Schultz-Bip., *Liabum eriocalyx* S. F. Blake, *Munnozia eriocalyx* (S. F. Blake) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 54; Robinson, 1983a: 58.
Endemic liana. Andean I-III. 1000-4000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Macbride 5783 (F!)
Depts.: JU, HU

Munnozia eriocalyx (S. F. Blake) H. Robinson & Brettell =Munnozia corymbosa R. & P.
Ref. Robinson & Brettell, 1974: 54; Robinson, 1983a: 58.

Munnozia ferreyrii H. Robinson
Ref. Robinson, 1976d: 381; Robinson, 1983a: 58.
Endemic herb. Andean II. 2000-3000 m.
Voucher: Hutchison & Wright 5234* (NY)
Depts.: AM, CA

Munnozia foliosa Rusby
Syn. *Liabum foliosum* (Rusby) Ferreyra
Ref. Robinson, 1983a: 58.
Shrub. Andean II: shrublands. 2000-2500 m.
Voucher: Boeke 2069 (MO!)
Depts.: AM

Munnozia gigantea (Rusby) Rusby
Syn. *Liabum giganteum* Rusby
Ref. Robinson & Brettell, 1974: 55; Robinson, 1983a: 58.
Herb or shrub. Andean II. 1500-2500 m.
Voucher: Vargas 3565 (F!)
Depts.: CU

Munnozia hastifolia (Poeppig) H. Robinson & Brettell
Syn. *Heterotheca deltoidea* Klatt, *Liabum hastifolium* Poeppig
Ref. Robinson & Brettell, 1974: 55; Robinson, 1983a: 58.
Herb or shrub. Amazonian, Andean I-II. 0-3000 m.
Voucher: Núñez 8711 (F!)
Depts.: CU, HU, JU, LO, PU

Munnozia herrerae (Cabrera) H. Robinson & Brettell
Syn. *Liabum herrerae* Cabrera
Ref. Robinson & Brettell, 1974: 55.
Endemic shrub. Andean II-III. 3000-4000 m.
Voucher: Vargas 2761* (F!)
Depts.: CU

Munnozia lanceolata R. & P.
Syn. *Liabum lanceolatum* (R. & P.) Schultz-Bip.
Ref. Robinson & Brettell, 1974: 55; Robinson, 1983a: 58.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Hutchison *et al.* 5928 (F!)
Depts.: HU

Munnozia lyrata (A. Gray) H. Robinson & Brettell
Syn. *Liabum lyratum* A. Gray
Ref. Robinson & Brettell, 1974: 55; Robinson, 1983a: 58.
Herb. Andean II-III. 2000-4000 m.
Voucher: Wilkes Exped. s.n.* (US), Dillon *et al.* 3047 (F!)

Depts.: AM, AP, AR, AY, CA, CU, HV, LI, MO

Munnozia megacephalum (Schultz-Bip.) H. Robinson & Brettell =Munnozia senecionidis Bentham
Ref. Robinson & Brettell, 1974: 55.

Munnozia nivea (Hieronymus) H. Robinson & Brettell
Syn. *Liabum niveum* Hieronymus, *Liabum stuebelii* Hieronymus
Ref. Robinson & Brettell, 1974: 57; Robinson, 1983a: 59.
Herb. Andean II. 2500-3500 m.
Voucher: Weberbauer 4417* (US!)
Depts.: PA

Munnozia olearioides (Muschler) H. Robinson & Brettell
Syn. *Liabum olearioides* Muschler
Ref. Robinson & Brettell, 1974: 55; Robinson, 1983a: 58.
Endemic shrub. Andean II. 2500-3500 m.
Voucher: Weberbauer 4417 (US!)
Depts.: AM

Munnozia oxyphylla (Cuatrecasas) H. Robinson & Brettell
Syn. *Liabum oxyphyllum* Cuatrecasas
Ref. Robinson & Brettell, 1974: 55; Robinson, 1983a: 58.
Endemic vine. Andean II. 2500-3000 m.
Voucher: Woytkowski 34165 (F!)
Depts.: HU

Munnozia peruensis (Cuatrecasas) H. Robinson & Brettell
Syn. *Liabum peruense* Cuatrecasas
Ref. Robinson & Brettell, 1974: 56; Robinson, 1983a: 58.
Endemic shrub. Andean II-III. 3000-4500 m.
Voucher: Woytkowski 34275 (F!)
Depts.: AM, HU, PA

Munnozia pinnulosa (Kuntze) H. Robinson & Brettell
Syn. *Liabum pinnulosum* Kuntze
Ref. Robinson, 1983a: 58.
Herb. Andean II. 2500-3000 m.
Voucher: Weberbauer 6605 (F!)
Depts.: JU

Munnozia polymnioides (DC.) H. Robinson & Brettell =Erato polymnioides DC.
Ref. Robinson & Brettell, 1974: 56.

Munnozia pulchra (S. F. Blake) H. Robinson & Brettell =Munnozia venosissima R. & P.
Ref. Robinson & Brettell, 1974: 56.

Munnozia sagasteguii H. Robinson
Ref. Robinson, 1984: 288.
Endemic herb. Andean II: rocky slopes. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Sagástegui 2980* (US!)
Depts.: CA

Munnozia sagittata Weddell =Munnozia senecionidis Bentham
Ref. Robinson, 1983a: 58.

Munnozia senecionidis Bentham
Syn. *Liabum megacephalum* Schultz-Bip., *Liabum sagittatum* Schultz-Bip., *Munnozia megacephalum* (Schultz-Bip.) H. Robinson & Brettell, *Munnozia sagittata* Weddell
Ref. Robinson & Brettell, 1974: 56.
Vine. Andean II-III. 1500-4000 m.
Voucher: Gentry *et al.* 22889 (F!)
Depts.: AM, CA, CU, HU, JU, LO, SM, UC

Munnozia silphioides (Poeppig) H. Robinson & Brettell
Syn. *Liabum silphioides* (Poeppig) S. F. Blake, *Prionolepis silphioides* Poeppig
Ref. Robinson & Brettell, 1974: 56; Robinson, 1983a: 59.
Endemic herb or shrub. Andean I-II. 1000-3000 m.
Voucher: Poeppig s.n.* (W), Dillon 2593 (F!)
Depts.: HU, PA

Munnozia stenolepis (S. F. Blake) H. Robinson & Brettell =Erato stenolepis (S. F. Blake) H. Robinson
Ref. Robinson & Brettell, 1974: 57.

Munnozia subviride (S. F. Blake) H. Robinson & Brettell
Syn. *Liabum subviride* S. F. Blake
Ref. Robinson & Brettell, 1974: 56; Robinson, 1983a: 59.
Endemic herb. Andean II. 2500-3000 m.
Voucher: Cook & Gilbert 1365* (US!)
Depts.: CU

Munnozia taeniotricha (S. F. Blake) H. Robinson & Brettell
Syn. *Liabum taeniotrichum* S. F. Blake
Ref. Robinson & Brettell, 1974: 56.
Endemic herb. Andean II. 1500-3000 m.
Note: For alternative treatment, see Robinson (1983: 59).
Voucher: Mathews s.n.* (K photo & frag. US!)
Depts.: AM

Munnozia trinervis R. & P.
Syn. *Liabum trinerve* (R. & P.) Schultz-Bip.
Ref. Robinson & Brettell, 1974: 56; Robinson, 1983a: 59.
Endemic shrub. Andean II. 2500-3500 m.
Voucher: Ruiz & Pavón s.n.* (MA photo US), Killip & Smith 22247 (F!)
Depts.: AY, CU

Munnozia venosissima R. & P.
Syn. *Liabum pulchrum* S. F. Blake, *Liabum venosissimum* (R. & P.) Schultz-Bip., *Munnozia pulchra* (S. F. Blake) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 56; Robinson, 1983a: 59.
Endemic herb or liana. Andean II. 2000-2500 m.
Voucher: Ruiz & Pavón s.n.* (MA photo US), Macbride 4312 (F!)
Depts.: AP, HU

Mutisia acuminata R. & P. var. **acuminata** Cabrera
Syn. *Mutisia peduncularis* Cavanilles, *Mutisia viciaefolia* Cavanilles
Ref. Cabrera, 1965: 56.
Shrub. Andean I-III. 1000-4000 m.
Voucher: Dombey s.n.* (P), Ferreyra 6186 (USM)
Depts.: AN, CA, HU, JU, LI

Mutisia acuminata var. **bicolor** Cabrera
Ref. Harling, 1991: 72.
Endemic shrub. Andean II. 2000-3500 m.
Voucher: Angulo 1794* (LP), Hutchison & Wright 7222 (F!)
Depts.: AP, AR, AY, JU, TA

Mutisia acuminata var. **hirsuta** (Meyen) Cabrera
Syn. *Mutisia hirsuta* Meyen
Ref. Cabrera, 1965: 59.
Shrub. Andean II. 2500-3500 m.
Voucher: Meyen s.n.* (F), Macbride & Featherstone 1014 (F!)
Depts.: AP, AR, AY, CA, CU, JU, HV, LI, LL, MO

Mutisia alata Hieronymus
Ref. Harling, 1991: 72.
Shrub. Andean II-III. 2000-4000 m.
Voucher: Hutchison & Wright 5242 (USM)
Depts.: CA

Mutisia andersonii Sodiro ex Hieronymus
Ref. Harling, 1991: 74.
Shrub or vines. Andean II-III. 2000-4000 m.
Voucher: Velarde 2100 (USM)
Depts.: HV, LI

Mutisia arequipensis Cabrera
Ref. Cabrera, 1965: 171.
Endemic shrub. Andean II-III. 2000-4000 m.
Voucher: Weberbauer 6857* (USM)
Depts.: AR, HV

Mutisia cochabambensis Hieronymus
Ref. Harling, 1991: 74.
Herb. Andean II-III. 3000-4000 m.
Voucher: Balls 6833 (F!)
Depts.: AP, CU, TA

Mutisia hastata Cavanilles
Ref. Harling, 1991: 57.
Endemic vine. Andean II-III. 3000-4000 m.
Voucher: Macbride & Featherstone 1857 (F!)
Depts.: AN, HU, HV, LI

Mutisia hirsuta Meyen =Mutisia acuminata var. hirsuta (Meyen) Cabrera
Ref. Cabrera, 1965: 59.

Mutisia lanata R. & P.
Ref. Cabrera, 1960: 211.
Herb or liana. Andean II. 1500-3500 m.
Voucher: Ruiz & Pavón s.n.* (MA),

Macbride & Featherstone 2223 (F!)
Depts.: CU, HU, HV, JU, PA, PU

Mutisia lanigera Weddell
Ref. Cabrera, 1965: 173.
Shrub. Andean III. 3500-4500 m.
Voucher: Weberbauer 1388 (USM)
Depts.: AR, PU

Mutisia ledifolia Decaisne ex Weddell
Ref. Cabrera, 1965: 133.
Shrub. Andean II-III. 3000-4500 m.
Voucher: Manheim 159 (NY)
Depts.: PU

Mutisia macrantha Muschler =Mutisia pulcherrima Muschler
Ref. Muschler, 1914: 103.

Mutisia mathewsii Hooker & Arnott var. **anomala** Cabrera
Ref. Cabrera, 1965: 117.
Endemic shrub or vines. Andean II. 3000-3500 m.
Voucher: Hutchison 1244* (USM),
Depts.: AY, LI

Mutisia mathewsii var. **mathewsii**
Syn. *Mutisia weberbaueri* Hieronymus
Ref. Cabrera, 1965: 115.
Endemic shrub. Andean III. 3000-4500 m.
Voucher: Mathews 1119* (P)
Depts.: AN, AY, JU, LI

Mutisia orbignyana Weddell
Ref. Cabrera, 1965: 105.
Shrub. Andean II-III. 3000-4000 m.
Voucher: Weberbauer 6847 (USM)
Depts.: AR, PU

Mutisia peduncularis Cavanilles =Mutisia acuminata var. acuminata
Ref. Cabrera, 1965: 55.

Mutisia pulcherrima Muschler
Syn. *Mutisia macrantha* Muschler
Ref. Muschler, 1914: 102.
Endemic liana. Andean II. 2000-3000 m.
Voucher: Weberbauer 4444* (B), Hutchison & Wright 5613 (USM)
Depts.: AM, CA, PA

Mutisia rauhii Ferreyra
Ref. Ferreyra, 1980a: 8.
Endemic liana or shrubs. Andean III. 3500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 1451* (USM)
Depts.: CU

Mutisia venusta S. F. Blake
Endemic liana. Andean II-III. 1500-4000 m.
Voucher: Cook & Gilbert 1235* (US), Hutchison & Wright 3881 (USM)
Depts.: AM, AP, CU

Mutisia viciaefolia Cavanilles =Mutisia acuminata var. acuminata Cabrera
Ref. Cabrera, 1965: 55.

Mutisia weberbaueri Hieronymus =Mutisia mathewsii var. mathewsii
Ref. Muschler, 1914: 104.

Mutisia wurdackii Cabrera
Ref. Cabrera, 1965: 81.
Endemic liana. Andean II. 1500-2500 m.
Voucher: Wurdack 840* (LP), Hutchison & Wright 3881 (USM!)
Depts.: AM

Neilreichia eupatorioides Fenzl =Schistocarpha eupatorioides (Fenzl) Kuntze
Ref. Robinson, 1979e: 9.

Neocuatrecasia cuzcoensis King & H. Robinson
Ref. King & Robinson, 1987: 108, 558.
Endemic subshrub. Andean III: forests, grasslands. 3500-4000 m.
Voucher: Stein 2481* (US!, MO!)
Depts.: CU

Neocuatrecasia dispar (B. Robinson) King & H. Robinson
Syn. *Eupatorium dispar* B. Robinson
Ref. King & Robinson, 1987: 108, 558.
Endemic herb. Andean II: rocky slopes. 2000-2500 m.
Voucher: Pennell 13967* (F!)
Depts.: CU

Neocuatrecasia hirtella King & H. Robinson
Ref. King & Robinson, 1987: 108, 558.
Endemic shrub. Andean II-III: grasslands. 3000-4500 m.
Voucher: Woytkowski 617* (P photo US!)
Depts.: CU

Neocuatrecasia mancoana (B. Robinson) King & H. Robinson
Syn. *Eupatorium mancoanum* B. Robinson
Ref. King & Robinson, 1987: 110, 558.
Endemic subshrub. Andean II: riversides, rocky slopes. 3000-3500 m.
Voucher: Pennell 13767* (F!)
Depts.: CU

Neocuatrecasia sessilifolia King & H. Robinson
Ref. King & Robinson, 1987: 110, 558.
Endemic shrub. Andean III. 4000-4500 m.
Voucher: Soukup 3146* (US!), Soukup 3658 (US)
Depts.: JU

Neocuatrecasia weddellii (B. Robinson) King & H. Robinson
Syn. *Eupatorium weddellii* B. Robinson
Ref. King & Robinson, 1987: 109, 558.
Endemic herb. Grasslands.
Voucher: Weddell 4654* (P frag GH, photo US!)
Depts.: PU

Nothites petiolata Cassini =Stevia petiolata (Cassini) Schultz-Bip.
Ref. King & Robinson, 1987: 559.

Nothobaccharis candolleana (Steudel) King & H. Robinson
Syn. *Baccharis candolleana* Steudel, *Baccharis microphylla* DC., *Brickellia microphylla* (DC.) Hieronymus, *Eupatorium incarum* B. Robinson
Ref. King & Robinson, 1987: 326, 559.
Endemic shrub. Coastal: rocky slopes. 0-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Haenke s.n.* (PR), Vargas 9626 (US!)
Depts.: LI

Noticastrum macbridei Cuatrecasas
Ref. Cuatrecasas, 1985b: 15.
Endemic herb. Andean III: grasslands. 3500-4000 m.
Voucher: Macbride & Featherstone 1881* (F!)
Depts.: HU

Noticastrum marginatum (H.B.K.) Cuatrecasas
Syn. *Aster acaulis* Weddell, *Aster marginatus* H.B.K., *Aster perezii* Cuatrecasas, *Noticastrum marginatum* fo. *acaulis* (Weddell) Cuatrecasas
Ref. Cuatrecasas, 1969: 47.
Herb. Andean II. 2500-3500 m.
Voucher: Dillon 2780 (F!)
Depts.: CA, LL

Noticastrum marginatum fo. *acaulis* (Weddell) Cuatrecasas =Noticastrum marginatum (H.B.K.) Cuatrecasas
Ref. Cuatrecasas, 1969: 47.

Novenia acaulis (Weddell ex Bentham) Freire & Hellwig
Syn. *Dolichogyne acaulis* Weddell ex Bentham, *Gnaphalium tunariense* Kuntze, *Lepidophyllum acaule* (Weddell ex Bentham) Bentham & Hooker f. ex Hooker f. & A. B. Jackson, *Lucilia tunariensis* (Kuntze) K. Schumann, *Mniodes tunariensis* (Kuntze) Hieronymus ex Weberbauer, *Novenia tunariensis* (Kuntze) Freire
Ref. FP n.s. 26 1991: 56; Freire & Hellwig, 1990: 124.
Herb. Andean II-III. 3000- > 4500 m.
Voucher: Aguilar s.n. (MO, USM)
Depts.: AN, CA, CU, HU, JU, LI, LL, PA, PU

Novenia tunariensis (Kuntze) Freire =Novenia acaulis (Weddell ex Bentham) Freire & Hellwig
Ref. FP n.s. 26 1991: 56; Freire, 1986: 296.

Oblivia mikanioides (Britton) Strother
Syn. *Salmea mikanioides* Britton, *Zexmenia mikanioides* (Britton) S. F. Blake
Ref. Strother, 1989: 541
Shrub.
Voucher: Killip & Smith 25485 (NY)
Depts.: JU, SM

Oedera trinervia Sprengel =Flaveria trinervia (Sprengel) C. Mohr
Ref. Mohr, 1901: 810.

Oligactis coriacea (Hieronymus) H. Robinson & Brettell
Syn. *Liabum coriaceum* Hieronymus
Ref. Robinson & Brettell, 1974: 58; Robinson, 1983a: 39.
Vine. Andean II. 2000-3000 m.
Voucher: Sagástegui 10180 (F!)
Depts.: AM, PI

Oligactis fruticosa (Muschler) H. Robinson & Brettell =Ferreyranthus fruticosus (Muschler) H. Robinson
Ref. Robinson & Brettell, 1974: 58.

Oligactis ochracea (Cuatrecasas) H. Robinson & Brettell
Syn. *Liabum ochraceum* Cuatrecasas
Ref. Robinson & Brettell, 1974: 58; Robinson, 1983a: 29.
Vine. Andean II. 2000-2500 m.
Voucher: Towsend A-193 (F!)
Depts.: CA

Oliganthes corei Cuatrecasas =Pollalesta discolor (H.B.K.) Aristeguieta
Ref. FP n.s. 5 1980: 55; Cuatrecasas, 1956c: 185; Stutts, 1981: 401.

Oliganthes discolor (H.B.K.) Schultz-Bip. =Pollalesta discolor (H.B.K.) Aristeguieta
Ref. FP n.s. 5 1980: 55; Stutts, 1981: 400.

Oliganthes ferruginea Gleason =Pollalesta discolor (H.B.K.) Aristeguieta
Ref. FP n.s. 5 1980: 55; Stutts, 1981: 400.

Oliganthes jelskii Hieronymus
Ref. Hieronymus, 1905: 461.
Note: Species incert. sed., non *Pollalesta*.
Voucher: Jelski 624* (B)
Depts.: CA

Oliganthes karstenii Schultz-Bip. =Pollalesta discolor (H.B.K.) Aristeguieta
Ref. FP n.s. 5 1980: 55; Stutts, 1981: 400.

Onoseris acerifolia H.B.K.
Ref. Ferreyra, 1944: 380.
Herb. Amazonian, Andean I-II, Coastal: shrublands. 0-3000 m.
Voucher: Humboldt & Bonpland s.n.* (P photo F!), Ferreyra 14417 (MO!)
Depts.: AM, AP, CA, CU, LL, PA

Onoseris albicans (D. Don) Ferreyra
Syn. *Centroclinium albicans* D. Don, *Onoseris integrifolia* Lessing
Ref. Ferreyra, 1944: 389.
Herb. Andean I-II. 1000-3500 m.
Voucher: Ruiz & Pavón s.n.* (P), Goodspeed *et al.* 11524 (F!)
Depts.: AP, CA, CU, HU, HV, JU, LA, LI, LL, PA, PI

Onoseris altissima (Poeppig) Kuntze =Lycoseris trinervis (R. & P. ex D. Don) S. F. Blake

Onoseris amplexicaulis Ferreyra
Ref. Ferreyra, 1944: 364.
Endemic herb. Andean II. 1500-2500 m.
Voucher: Macbride & Featherstone 310* (F!), Rose & Rose 18668 (US)
Depts.: LI

Onoseris annua Lessing
Ref. Ferreyra, 1944: 365.
Endemic herb. Andean II. 2000-3500 m.
Voucher: Dombey s.n.* (P photo F!), Ferreyra & Cerrate 5670 (USM)
Depts.: AN, LI

Onoseris cabrerae Ferreyra
Ref. Ferreyra, 1980a: 19.
Endemic herb. Andean I-II. 1000-3000 m.
Voucher: Ferreyra & Acleto 15339* (USM), Hutchison & Wright 5448 (USM)
Depts.: AM, AP, CU, HV, LL

Onoseris castelnaeana Weddell
Syn. *Seris castelnaeana* (Weddell) Kuntze
Ref. Ferreyra, 1944: 381; Harling, 1991: 37.
Endemic herb. Andean II. 2000-3000 m.
Voucher: Castelnau s.n.* (P photo F!), Gentry *et al.* 23341 (MO!)
Depts.: AP, CU

Onoseris chrysactinioides Sagástegui & Dillon
Ref. Sagástegui & Dillon, 1985a: 8.
Endemic herb. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Sagástegui *et al.* 10839* (HUT, MO!), Sagástegui *et al.* 14018 (F)
Depts.: CA

Onoseris cummingii Hooker & Arnott
Ref. Ferreyra, 1944: 362.
Endemic herb. Coastal: desert. 0-500 m.
Voucher: Cuming 995* (P photo F!), Haught 30 (US)
Depts.: PI

Onoseris discolor Muschler =Pseudonoseris discolor (Muschler) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 60.

Onoseris gnaphalioides Muschler
Syn. *Onoseris hyssopifolia* var. *teretifolia* Weddell
Ref. Ferreyra, 1944: 392.
Herb. Andean II. 1500-3500 m.
Voucher: Weberbauer 3012* (photo G), Hutchison 1495 (USM)
Depts.: AM, AN, AP, AY, CA, CU, HV, LL, PI

Onoseris hieracioides H.B.K. =Gerbera hieracioides (H.B.K.) Zardini
Ref. Harling, 1991: 56.

Onoseris humboldtiana Ferreyra
Ref. Ferreyra, 1959: 2.
Endemic herb. Andean I. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Ferreyra 13400* (USM)
Depts.: IC

Onoseris hyssopifolia var. *teretifolia* Weddell =Onoseris gnaphalioides Muschler
Ref. Ferreyra, 1944: 392.

Onoseris integrifolia Lessing =Onoseris albicans (D. Don) Ferreyra
Ref. Harling, 1991: 41.

Onoseris linearifolia Sagástegui
Ref. Sagástegui, 1985: 415.
Endemic herb. Andean II: rocky slopes. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Sagástegui *et al.* 11264* (HUT, F), Dillon *et al.* 2857 (F!)
Depts.: CA

Onoseris longipedicellata Muschler =Onoseris odorata (D. Don) Hooker & Arnott
Ref. Ferreyra, 1944: 363.

Onoseris lopezii Ferreyra
Ref. Ferreyra, 1959: 4.
Endemic herb. Andean II. 2500-3500 m.
Voucher: López 439* (HUT), Ferreyra 15001 (MO)
Depts.: AN, CA, LL

Onoseris macbridei Ferreyra
Ref. Harling, 1991: 41.
Endemic herb. Andean II. 1500-3000 m.
Voucher: Ferreyra 846* (USM), Ferreyra & Acleto 15379 (USM)
Depts.: AN, CA

Onoseris minima Domke
Ref. Ferreyra, 1944: 366.
Endemic herb. Andean I-II. 1000-2000 m.
Voucher: Stafford s.n.* (K), Weberbauer 7440 (F!)
Depts.: AR, MO

Onoseris odorata (D. Don) Hooker & Arnott
Syn. *Centroclinum reflexum* Hooker, *Chaetachlaena odorata* D. Don, *Onoseris longipedicellata* Muschler, *Onoseris parva* Muschler, *Onoseris reflxa* (Hooker) Lessing
Ref. Ferreyra, 1944: 360.
Endemic herb. Amazonian, Andean I-III, Coastal. 0-4000 m.
Voucher: Mathews 569* (G), Pennell 14468 (F)
Depts.: AN, AR, AY, CA, LA, LI, LL, TU

Onoseris parva Muschler =Onoseris odorata (D. Don) Hooker & Arnott
Ref. Muschler, 1914: 95.

Onoseris peruviana Ferreyra
Ref. Ferreyra, 1944: 373.
Endemic herb. Andean I. 500-1000 m.
Voucher: Macbride 5425* (F!), Killip &

Smith 24937 (US)
Depts.: CU, JU

Onoseris reflexa (Hooker) Lessing =Onoseris odorata (Hooker) Lessing
Ref. Ferreyra, 1944: 389.

Onoseris speciosa H.B.K.
Syn. *Onoseris stuebelii* Hieronymus, *Seris speciosa* (H.B.K.) Kuntze
Ref. Ferreyra, 1944: 376; Harling, 1991: 38.
Herb. Andean I-II. 1000-3000 m.
Voucher: Ferreyra 14442 (USM)
Depts.: AM, CA, LA, PI

Onoseris stuebelii Hieronymus =Onoseris speciosa H.B.K.
Ref. Harling, 1991: 38.

Onoseris weberbaueri Ferreyra
Ref. Ferreyra, 1944: 386.
Endemic herb. Amazonian, Andean I. 0-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6163* (F!)
Depts.: AM, CA

Ophryosporus anomalus King & H. Robinson
Syn. *Piqueria cumingii* B. Robinson
Ref. King & Robinson, 1987: 365, 559.
Voucher: Cuming 953* (GH!, US!)
Depts.: TA

Ophryosporus apricus B. Robinson
Ref. King & Robinson, 1987: 365, 559.
Endemic shrub. Andean II. 1500-2000 m.
Voucher: Macbride 5204* (F!)
Depts.: HU

Ophryosporus bipinnatifidus B. Robinson
Ref. King & Robinson, 1987: 365, 559.
Endemic shrub.
Voucher: Rose & Rose 18805* (US!)
Depts.: AR

Ophryosporus chilca (H.B.K.) Hieronymus
Syn. *Eupatorium chilca* H.B.K.
Ref. King & Robinson, 1987: 365, 559.
Endemic shrub. Andean II-III: grasslands, shrublands. 2000-4000 m.
Voucher: Humboldt & Bonpland s.n.* (P-B&H), Smith *et al.* 11690 (F!)
Depts.: AN, AR, CA, HU, JU, LL, PA

Ophryosporus eleutherantherus (Rusby) B. Robinson
Syn. *Eupatorium eleutherantherum* Rusby
Ref. King & Robinson, 1987: 365, 559.
Shrub. Andean III. 3500-4000 m.
Voucher: Vargas 12705 (US!)
Depts.: CU

Ophryosporus floribundus (DC.) King & H. Robinson
Syn. *Piqueria floribunda* DC.
Ref. King & Robinson, 1987: 366, 559.
Endemic subshrub. Andean I-II, Coastal: rocky slopes. 0-3000 m.
Voucher: Haenke s.n.* (PR), Macbride & Featherstone 767 (F!)
Depts.: LI

Ophryosporus galioides (DC.) King & H. Robinson
Syn. *Piqueria galioides* DC.
Ref. King & Robinson, 1987: 366, 559.
Endemic subshrub. Andean I-II: rocky slopes. 500-2000 m.
Voucher: Haenke s.n.* (PR), Sagástegui 12457 (F!)
Depts.: CA, HV, LI, LL

Ophryosporus hartwegii (B. Robinson) King & H. Robinson
Syn. *Piqueria hartwegii* B. Robinson
Ref. King & Robinson, 1987: 366, 559.
Endemic shrub. Andean I, Coastal: rocky slopes. 0-1000 m.
Note: *Piqueria hartwegii* is based on *P. artemisioides* Bentham (non H.B.K.).
Voucher: Hartweg 762* (K), Sagástegui 11334 (F!)
Depts.: CA, LL

Ophryosporus heptanthus (Schultz-Bip. ex Weddell) King & H. Robinson
Syn. *Eupatorium amori* Cuatrecasas, *Eupatorium heptanthum* Schultz-Bip. ex Weddell, *Eupatorium origanoides* Meyen & Walpers, *Ophryosporus origanoides* (Meyen & Walpers) Hieronymus
Ref. King & Robinson, 1987: 366, 559.
Shrub. Andean II-III: disturbed areas, rocky slopes. 2000-4000 m.
Voucher: Macbride 963 (F!)
Depts.: AR, AY, CU, JU, LI, LL, MO, PU

Ophryosporus hoppii (B. Robinson) King & H. Robinson
Syn. *Trychinolepis hoppii* B. Robinson
Ref. King & Robinson, 1987: 366, 559.
Endemic subshrub. Andean I-II, Coastal: disturbed areas. 0-3000 m.
Voucher: Hopp 28* (B photo GH), Dillon & Dillon 3926 (F!)
Depts.: AR

Ophryosporus macbridei B. Robinson
Ref. King & Robinson, 1987: 366, 559.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Macbride 3717* (F!)
Depts.: AN, HU

Ophryosporus mathewsii (B. Robinson) King & H. Robinson
Syn. *Piqueria mathewsii* B. Robinson
Ref. King & Robinson, 1987: 366, 559.
Endemic shrub.
Voucher: Mathews 1015* (K)
Depts.: Without full locality data.

Ophryosporus origanoides (Meyen & Walpers) Hieronymus =Ophryosporus heptanthus (Schultz-Bip. ex Weddell) King & H. Robinson
Ref. King & Robinson, 1987: 559.

Ophryosporus ovatus B. Robinson
Ref. King & Robinson, 1987: 366, 559.
Endemic subshrub. Andean II. 2000-2500 m.
Voucher: Mathews 1370* (K), Llatas 1199 (F!)
Depts.: AM, CA

Ophryosporus peruvianus (Gmelin) King & H. Robinson
Syn. *Flaveria peruviana* Gmelin, *Piqueria peruviana* (Gmelin) B. Robinson
Ref. King & Robinson, 1987: 366, 559.
Shrub. Amazonian, Andean I-II, Coastal: desert, disturbed areas, rocky slopes. 0-3500 m.
Voucher: Dillon 2500 (F!)
Depts.: AN, AP, AR, CA, CU, HV, IC, LA, LI, LL, PI

Ophryosporus pinifolius (Philippi) King & H. Robinson
Syn. *Piqueria pinifolia* (Philippi) Hieronymus ex B. Robinson, *Stevia pinifolia* Philippi
Ref. King & Robinson, 1987: 366, 559.
Shrub. Andean I-II. 1000-3000 m.
Voucher: Weberbauer 5373 (US!)
Depts.: HV, LI, TA

Ophryosporus piquerioides (DC.) Bentham ex Baker
Syn. *Eupatorium piquerioides* DC.
Ref. King & Robinson, 1987: 366, 559.
Shrub. Andean I-II: disturbed areas, shrublands. 1000-3500 m.
Voucher: Smith 2469 (F!)
Depts.: AM, AP, AY, CA, CU, HU, JU, LL, PU

Ophryosporus pubescens (Smith) King & H. Robinson
Syn. *Piqueria pubescens* Smith
Ref. King & Robinson, 1987: 366, 559.
Endemic shrub. Andean I-II, Coastal: lomas. 0-2500 m.
Voucher: Collector unknown s.n.* (Linn), Worth & Morrison 15702 (F!)
Depts.: AR, LI

Ophryosporus sodiroi Hieronymus
Ref. King & Robinson, 1987: 366, 560.
Shrub. Andean II. 2000-2500 m.
Voucher: Ferreyra & Chanco 20436 (US!)
Depts.: CA, PI

Oreastrum cochlearifolium A. Gray =Chaetanthera cochlearifolia (A. Gray) B. Robinson
Ref. Ferreyra, 1953a: 2.

Oreophila meyeniana Walpers =Hypochaeris meyeniana (Walpers) Grisebach
Ref. Cabrera, 1978: 675.

Oreophila taraxacifolia Meyen & Walpers =Hypochaeris taraxacoides (Walpers) Bentham & Hooker f.
Ref. Cabrera, 1978: 674.

Oritrophium aciculifolium Cuatrecasas
Ref. Cuatrecasas, 1964c: 137.
Endemic herb. Andean II: shrublands. 2000-3000 m.
Note: Known from Peru only from the type locality.

Voucher: Wurdack 1275* (US!)
Depts.: AM

Oritrophium callacallense Cuatrecasas
Ref. Cuatrecasas, 1985b: 9.
Endemic herb. Andean II-III. 3000-4000 m.
Voucher: Hutchison & Wright 5540* (US!)
Depts.: AM

Oritrophium crocifolium (H.B.K.) Cuatrecasas
Syn. *Aster crocifolius* H.B.K., *Celmisia crocifolia* (H.B.K.) Schultz-Bip., *Erigeron crocifolius* (H.B.K.) Weddell
Herb. Andean II. 3000-3500 m.
Voucher: Young & León 4641 (F!)
Depts.: SM

Oritrophium ferrugineum (Weddell) Cuatrecasas
Syn. *Erigeron ferrugineus* Weddell
Herb. Andean III. 4000-4500 m.
Voucher: Solomon 1983 (MO!)
Depts.: JU

Oritrophium hieracioides (Weddell) Cuatrecasas
Syn. *Erigeron hieracioides* Weddell
Endemic herb. Andean II-III: forests, grasslands, rocky slopes. 3000-> 4500 m.
Voucher: Weddell s.n.* (P), Weberbauer 7934 (F!)
Depts.: AM, AN, CU, LL

Oritrophium hirtopilosum (Hieronymus) Cuatrecasas
Syn. *Erigeron hirtopilosus* Hieronymus
Ref. Cuatrecasas, 1963: 6.
Endemic herb. Andean II. 3000-3500 m.
Voucher: Stuebel 48i*, Mathews s.n. (US!)
Depts.: AM, CA

Oritrophium limnophilum (Schultz-Bip.) Cuatrecasas subsp. **limnophilum**
Syn. *Aster sodiroi* Hieronymus, *Erigeron frigidum* Weddell, *Erigeron limnophilus* Schultz-Bip.
Ref. Cuatrecasas, 1969: 87.
Herb. Andean III: bogs. 3500-> 4500 m.
Voucher: Macbride & Featherstone 1788* (US), Macbride & Featherstone 1854 (F!)
Depts.: AN, CA, JU, HU

Oritrophium limnophilum subsp. **mutisianum** (Cuatrecasas) Cuatrecasas
Syn. *Aster mutisianus* Cuatrecasas, *Aster sodiroi* var. *mutisianus* (Cuatrecasas) Cuatrecasas
Ref. Cuatrecasas, 1969: 88.
Herb. Andean III. 3500-4000 m.
Voucher: Ellenberg 1850 (U)
Depts.: CA

Oritrophium limnophilum subsp. **punae** (Cuatrecasas) Cuatrecasas
Herb. Andean II-III. 3000-4500 m.
Voucher: Macbride & Featherstone 1788 (F!, US!)
Depts.: AN, CU, HU

Oritrophium peruvianum (Lamarck) Cuatrecasas
Syn. *Arnica peruviana* (Lamarck) Persoon, *Aster pellitus* H.B.K., *Aster peruvianus* (Lamarck) Cabrera, *Celmisia pellita* (H.B.K.) Schultz-Bip., *Doronicum peruvianum* Lamarck, *Erigeron lehmannii* Hieronymus, *Erigeron loxensis* Hieronymus, *Erigeron pellitum* (H.B.K.) Weddell, *Erigeron peruvianus* (Lamarck) Cuatrecasas, *Liabum erigeroides* Bentham
Ref. Cuatrecasas, 1969: 75.
Herb. Andean III: grasslands. 3500-4500 m.
Voucher: Macbride & Featherstone 2186 (F!)
Depts.: AM, AN

Oritrophium repens (H.B.K.) Cuatrecasas
Syn. *Aster repens* H.B.K., *Erigeron repens* (H.B.K.) Weddell
Herb. Andean II. 3000-3500 m.
Voucher: Weberbauer 6130 (F!)
Depts.: PI

Orthopappus angustifolius (Swartz) Gleason =Elephantopus angustifolius Swartz
Ref. FP n.s. 5 1980: 65.
Note: For alternative treatment of *Orthopappus angustifolius* see Robinson, 1992b: 357.

Oyedaea buphthalmoides DC.
Ref. Blake, 1921c: 413.
Shrub. Andean II: rocky slopes. 1500-2500 m.
Voucher: Poeppig 1624* (NY), Mathews 1382 (K)
Depts.: AM, HU, JU, PA

Oyedaea oxylepis S. F. Blake
Ref. Blake, 1931b: 334.
Endemic shrub. Andean I: forests. 1000-1500 m.
Voucher: Williams 6992* (F!)
Depts.: SM

Oyedaea rusbyi S. F. Blake
Ref. Blake, 1921c: 416.
Shrub. Andean II: disturbed areas. 1500-2000 m.
Voucher: Woytkowski 6584 (F!)
Depts.: JU

Oyedaea wedelioides (Klatt) S. F. Blake
Syn. *Zexmenia wedelioides* Klatt
Ref. Blake, 1921c: 414.
Endemic shrub.
Voucher: Mathews 1383* (G), Mathews 1384 (K)
Depts.: SM

Pacourina cirsiifolia H.B.K. =Pacourina edulis Aublet
Ref. FP n.s. 11 1982: 2.

Pacourina edulis Aublet
Syn. *Pacourina cirsiifolia* H.B.K., *Pacourina edulis* var. *spinosissima* Britton, *Pacourinopsis dentata* Cassini, *Pacourinopsis integrifolia* Cassini
Ref. FP n.s. 11 1982: 2.
Aquatic or terrestrial herb. Amazonian, Andean I. 500-1000 m.
Voucher: Barbour 4866 (MO)
Depts.: MD

Pacourina edulis var. *spinosissima* Britton =Pacourina edulis Aublet
Ref. FP n.s. 11 1982: 2.

Pacourinopsis dentata Cassini =Pacourina edulis Aublet
Ref. FP n.s. 11 1982: 2.

Pacourinopsis integrifolia Cassini =Pacourina edulis Aublet
Ref. FP n.s. 11 1982: 2.

Pappobolus acuminatus (S. F. Blake) Panero
Syn. *Helianthopsis acuminata* (S. F. Blake) H. Robinson, *Helianthus acuminatus* S. F. Blake
Ref. Panero, 1992: 101.
Endemic shrub. Andean II: rocky slopes. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Macbride & Featherstone 2429* (F!)
Depts.: HU

Pappobolus acutifolia (S. F. Blake) Panero
Syn. *Viguiera acutifolia* S. F. Blake
Ref. Panero, 1992: 72.
Endemic shrub. Andean II: dry valleys, rocky slopes. 1500-3000 m.
Voucher: Weberbauer 3008* (GH), Panero & Galán 1400 (F, HUT)
Depts.: AN, CA

Pappobolus amoenus Panero var. **amoenus**
Ref. Panero, 1992: 124.
Endemic shrub. Andean II: forests. 1500-3000 m.
Voucher: Panero & Sánchez 1156* (HUT, US!), Sagástegui 3923 (HUT, US)
Depts.: CA, LA

Pappobolus amoenus var. **lambayequensis** Panero
Ref. Panero, 1992: 124.
Endemic shrub. Andean II: forests. 2000-3000 m.
Voucher: Cano 2077* (US), Townsend A206 (F)
Depts.: LA, PI

Pappobolus andinus Panero
Ref. Panero, 1992: 96.
Endemic shrub. Andean II: dry valleys, shrublands. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Hutchison & Tovar 4153* (US!)
Depts.: JU

Pappobolus cajamarcensis Panero
Ref. Panero, 1992: 153.
Endemic shrub. Andean II: rocky slopes,

shrublands. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Panero & Sánchez 1282* (TENN, USM), Sánchez 300 (F)
Depts.: CA

Pappobolus cinerascens S. F. Blake
Ref. Panero, 1992: 102.
Endemic shrub. Andean II: cloud forests. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Mathews s.n.[in 1836]* (US!), Panero 1357 (CPUN, TENN)
Depts.: AM

Pappobolus davidii Panero
Ref. Panero, 1992: 162.
Endemic shrub. Andean III: disturbed areas, shrublands. 3500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Smith *et al.* 11984* (F, HUT)
Depts.: AN

Pappobolus decumbens Panero
Ref. Panero, 1992: 158.
Endemic shrub. Andean II: rocky slopes, shrublands. 2500-3500 m.
Voucher: Panero & Sánchez 1345* (CPUN, F), Cabanillas 257 (CPUN, TENN)
Depts.: CA

Pappobolus discolor (S. F. Blake) Panero
Syn. *Helianthopsis discolor* (S. F. Blake) H. Robinson, *Helianthus discolor* S. F. Blake
Ref. Panero, 1992: 156.
Endemic shrub. Andean II: forests, rocky slopes, shrublands. 2000-3500 m.
Voucher: Macbride & Featherstone 2240* (F), Panero & Galán 1368 (US)
Depts.: HU

Pappobolus hutchisonii (H. Robinson) Panero
Syn. *Helianthopsis hutchisonii* H. Robinson
Ref. Panero, 1992: 69.
Endemic shrub. Andean II: shrublands. 500-1500 m.
Voucher: Hutchison & Wright 5436* (US), Panero & Sánchez 1242 (HUT, TEX)
Depts.: AM, CA

Pappobolus jelskii (Hieronymus) Panero
Syn. *Helianthopsis jelskii* (Hieronymus) H. Robinson, *Helianthus jelskii* Hieronymus
Ref. Panero, 1992: 136.
Endemic shrub. Andean II-III: rocky slopes. 2500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Jelski 713* (US!), Ferreyra 8499 (MO, USM)
Depts.: CA

Pappobolus lanatus (Heiser) Panero var. **lanatus**
Syn. *Helianthopsis lanata* (Heiser) H. Robinson, *Helianthus lanata* Heiser
Ref. Panero, 1992: 166.
Endemic shrub. Andean II: disturbed areas, shrublands. 2000-3500 m.
Voucher: Ferreyra 5808* (US!), Goodspeed & Weberbauer 33063 (MO)
Depts.: AN, LI, PA

Pappobolus lanatus var. **sanctae** Panero
Ref. Panero, 1992: 166.
Shrub. Andean II: disturbed areas, shrublands. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Panero & Galán 1398* (US!, USM)
Depts.: AN

Pappobolus lodicatus (Cuatrecasas) Panero
Syn. *Helianthopsis lodicata* (Cuatrecasas) H. Robinson, *Helianthus lodicatus* Cuatrecasas
Ref. Panero, 1992: 139.
Endemic shrub. Andean II-III: shrublands. 3000-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Ellenberg 1756* (U frag. US!)
Depts.: CA

Pappobolus macranthus S. F. Blake
Ref. Panero, 1992: 108.
Endemic shrub. Andean II: disturbed areas, forests. 2000-2500 m.
Voucher: Pearce 121* (K), Macbride 3646 (F!)
Depts.: HU, JU

Pappobolus mathewsii (Hochreutiner) Panero var. **mathewsii**
Syn. *Helianthopsis mathewsii* (Hochreutiner) H. Robinson, *Helianthopsis utcubambensis* H. Robinson, *Helianthus mathewsii* Hochreutiner
Ref. Panero, 1992: 59.
Endemic shrub. Andean I-II: semi-deciduous forests. 500-2500 m.
Voucher: Mathews 3061* (US!), Panero 1353 (US, USM)
Depts.: AN, CA

Pappobolus mathewsii var. **occidentalis** Panero
Ref. Panero, 1992: 59.
Endemic shrub. Andean I-II: disturbed areas, shrublands. 1000-2000 m.
Voucher: Sánchez 4699* (CPUN, TENN), López & Sagástegui 5185 (HUT, TENN)
Depts.: CA

Pappobolus mathewsii var. **viridifolius** Panero
Ref. Panero, 1992: 60.
Endemic shrub. Andean I: disturbed areas. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Panero & Sánchez 1257* (F, USM), Panero & Sánchez 1263 (CPUN, US)
Depts.: CA

Pappobolus microphyllus (H.B.K.) Panero var. **dillonii** Panero
Ref. Panero, 1992: 146.
Endemic shrub. Andean II: shrublands. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Dillon *et al.* 2805* (F!)
Depts.: LL

Pappobolus microphyllus var. **libertadianus** Panero
Ref. Panero, 1992: 148.
Endemic shrub. Andean II: disturbed areas. 2500-3000 m.
Voucher: Sagástegui 11820* (NY), López 1955 (HUT, US)
Depts.: LL

Pappobolus microphyllus var. **microphyllus**
Syn. *Helianthopsis microphylla* (H.B.K.) H. Robinson, *Helianthus microcephalus* Torrey & A. Gray, *Helianthus microphyllus* H.B.K., *Leighia microphylla* (H.B.K.) Cassini, *Viguiera microphylla* (H.B.K.) Bentham ex Hieronymus, nom. illeg.
Ref. Panero, 1992: 143.
Endemic shrub. Andean II: disturbed areas, shrublands. 2000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Humboldt & Bonpland 3683* (P-H&B), López 8737 (F, HUT)
Depts.: CA

Pappobolus microphyllus var. **soukupii** Panero
Ref. Panero, 1992: 149.
Endemic shrub. Andean II: disturbed areas, shrublands. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Soukup 4548* (US!)
Depts.: CA

Pappobolus mollicomus S. F. Blake
Ref. Panero, 1992: 104.
Endemic shrub. Andean II: forests. 2500-3000 m.
Voucher: Mathews s.n.[in 1836]* (GH), Cevasco 13391 (USM)
Depts.: AM

Pappobolus robinsonii Panero
Ref. Panero, 1992: 125.
Shrub. Andean II: disturbed areas, riversides, rocky slopes. 2000-3000 m.
Voucher: Panero *et al.* 955* (US!), Panero & Sánchez 1213 (TENN)
Depts.: AM, CA

Pappobolus sagasteguii (H. Robinson) Panero
Syn. *Helianthopsis sagasteguii* H. Robinson
Ref. Panero, 1992: 61.
Endemic shrub. Andean II: shrublands. 2000-3000 m.
Voucher: Hutchison & Wright 5397* (F), Sagástegui *et al.* 8456 (HUT, TENN)
Depts.: CA

Pappobolus sanchezii Panero
Ref. Panero, 1992: 110.
Endemic shrub or treelet. Andean II-III: cloud forests. 2500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Panero 1195* (F, HUT), Sánchez 2756 (CPUN, F)
Depts.: CA

Pappobolus schillingii Panero
Ref. Panero, 1992: 118.
Shrub. Andean II: forests. 2500-3000 m.
Voucher: López *et al.* 7787 (HUT)
Depts.: PI

Pappobolus senex (S. F. Blake) Panero
Syn. *Helianthopsis senex* (S. F. Blake) H. Robinson, *Helianthus senex* S. F. Blake
Ref. Panero, 1992: 169.
Endemic shrub. Andean II: disturbed areas, shrublands. 2000-3000 m.
Voucher: Macbride & Featherstone 1572* (US!), Woytkowski 34247 (MO!)
Depts.: HU

Pappobolus smithii (Ferreyra) Panero
Syn. *Helianthopsis smithii* Ferreyra
Ref. Panero, 1992: 133.
Endemic shrub. Andean II: rocky slopes. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Ferreyra 1296* (USM), López & Sagástegui 3309 (HUT, TENN)
Depts.: LL

Pappobolus storkhortonianus Panero
Ref. Panero, 1992: 98.
Endemic shrub. Andean II: riversides. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Stork & Horton 10316* (UC), Tovar 3581 (LP)
Depts.: HV

Pappobolus stuebelii (Hieronymus) Panero
Syn. *Helianthopsis bishopii* H. Robinson, *Helianthopsis stuebelii* (Hieronymus) H. Robinson, *Helianthus stuebelii* Hieronymus
Ref. Panero, 1992: 129.
Endemic shrub. Andean II-III: rocky slopes. 2500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Stubel 34e* (US!), Dillon & Turner 1636 (MO!)
Depts.: CA

Pappobolus subniveus (S. F. Blake) Panero
Syn. *Helianthopsis subnivea* (S. F. Blake) H. Robinson, *Helianthus niveus* Hieronymus, nom. illeg., *Helianthus subniveus* S. F. Blake
Ref. Panero, 1992: 149.
Endemic shrub. Andean II: disturbed areas, shrublands. 3000-3500 m.
Voucher: Stuebel 34d* (US!), Panero 1136 (MO!)
Depts.: CA

Pappobolus szyszylowiczii (Hieronymus) Panero
Syn. *Helianthus szyszylowiczii* Hieronymus
Ref. Panero, 1992: 128.
Endemic shrub. Andean II: forests. 1500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Jelski 732* (B destroyed)
Depts.: CA

Pappobolus verbesinoides (H.B.K.) Panero
Syn. *Helianthopsis verbesinoides* (H.B.K.) H. Robinson, *Helianthus verbesinoides* H.B.K.
Ref. Panero, 1992: 75.
Endemic shrub. Andean II: shrublands. 2000-2500 m.
Voucher: Humboldt & Bonpland 3534* (P-H&B), Ferreyra & Chanco 20463 (TENN, USM)
Depts.: PI

Pappobolus viridior (S. F. Blake) Panero
Syn. *Helianthopsis viridior* (S. F. Blake) H. Robinson, *Helianthus viridior* S. F. Blake
Ref. Panero, 1992: 175.
Endemic shrub. Andean III: shrublands, rocky slopes. 2500-4500 m.
Voucher: Macbride & Featherstone 1070* (US!), Dillon & Turner 1329 (MO)
Depts.: JU

Pappobolus woodsonianus Cuatrecasas
Ref. Panero, 1992: 159.
Endemic shrub. Andean II: riversides, shrublands. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 584* (US!)
Depts.: AM

Pappobolus youngiorum Panero
Ref. Panero, 1992: 115.
Endemic shrub. Andean II: cloud forests. 2000-3500 m.
Voucher: Young 2936* (F), Gentry *et al.* 23129 (F!)
Depts.: AM, LL

Paracalia jungioides (Hooker & Arnott) Cuatrecasas
Syn. *Cacalia mikaniaefolia* DC., *Pentanthus jungioides* Hooker & Arnott, *Senecio mikaniaefolius* (D.C.) Schultz-Bip
Ref. Cuatrecasas, 1960: 183.
Endemic shrub. Andean II. 2000-3000 m.
Voucher: Sagástegui 14074 (F)
Depts.: CA, LI, LL

Paragynoxys lopezii (Dillon & Sagástegui) Cuatrecasas =Gynoxys lopezii Dillon & Sagástegui
Ref. Cuatrecasas, 1990: 314.

Paranephelius bullatus A. Gray ex Weddell
Syn. *Liabum bullatum* (A. Gray ex Weddell) Hieronymus
Ref. Robinson & Brettell, 1974: 59; Robinson, 1983a: 47.
Endemic herb. Andean II. 2500-3500 m.
Voucher: Woytkowski 34333 (MO!)
Depts.: HU

Paranephelius ferreyrii H. Robinson
Syn. *Liabum jelskii* Hieronymus, *Paranephelius jelskii* (Hieronymus) H. Robinson & Brettell
Ref. Robinson, 1977a: 235; Robinson, 1983a: 47.
Endemic herb. Andean II. 3000-3500 m.
Voucher: Ferreyra 3311* (US), Sagástegui 10356 (F!)
Depts.: CA, LL

Paranephelius jelskii (Hieronymus) H. Robinson & Brettell =Paranephelius ferreyrii H. Robinson
Ref. Robinson & Brettell, 1974: 59; Robinson, 1983a: 47.

Paranephelius ovatus Weddell
Syn. *Liabum ovatum* (Weddell) J. Ball
Ref. Robinson & Brettell, 1974: 59; Robinson, 1983a: 47.
Herb. Andean II-III. 2500- > 4500 m.
Voucher: Hutchison & Tovar 4206 (F!)
Depts.: AN, AP, AY, CA, CU, JU, LI, PU

Paranephelius uniflorus Poeppig
Syn. *Liabum uniflorum* (Poeppig) Schultz-Bip.
Ref. Robinson & Brettell, 1974: 59; Robinson, 1983a: 47.
Endemic herb. Andean II-III. 3000-4500 m.
Voucher: Poeppig s.n.* (W), Brunel 569 (F!)
Depts.: CA, CU, JU, HV, PA

Paranephelius wurdackii H. Robinson
Ref. Robinson, 1977a: 236; Robinson, 1983a: 47.
Endemic herb. Andean III. 3500-4000 m.
Voucher: Wurdack 1240* (NY)
Depts.: AM, CA

Parastrephia ericoides Nuttall =Parastrephia phylicaeformis (Meyen) Cabrera
Ref. Cabrera, 1954a: 57.

Parastrephia lepidophylla (Weddell) Cabrera
Syn. *Dolichogyne lepidophylla* Weddell, *Lepidophyllum tola* Cabrera
Ref. Cabrera, 1954a: 57.
Shrub. Andean III: grasslands, shrublands. 3500-4000 m.
Voucher: Ellenberg 4919 (US!)
Depts.: AR, AY, MO

Parastrephia lucida (Meyen) Cabrera
Syn. *Baccharis lucida* Meyen, *Lepidophyllum lucidum* (Meyen) Hieronymus, *Lepidophyllum rigidum* (Weddell) Bentham et Hooker
Ref. Cabrera, 1954a: 57.
Shrub. Andean III. 4000- > 4500 m.
Voucher: Weberbauer 5437 (US!)
Depts.: AR, HV

Parastrephia phylicaeformis (Meyen) Cabrera
Syn. *Baccharis phylicaeformis* Meyen, *Lepidophyllum phylicaeforme* (Meyen) Hieronymus, *Parastrephia ericoides* Nuttall
Ref. Cabrera, 1954a: 57.
Shrub. Andean III. > 4500 m.
Voucher: Vargas 10821 (US!)
Depts.: AR, CU

Parastrephia quadrangularis (Meyen) Cabrera =Lepidophyllum quadrangulare (Meyen) Bentham & Hooker f.
Ref. Cabrera, 1954a: 57.

Pectis arida Keil
Ref. Keil, 1984: 78.
Herb. Coastal: beach. 0-500 m.
Voucher: Svenson 1124* (US), Haught F-47 (F)
Depts.: LA, PI, TU

Pectis cajamarcana Keil
Ref. Keil, 1984: 79.
Herb. Andean I. 500-1500 m.
Voucher: Hutchison & Wright 3579* (MO), Gentry *et al.* 22709 (MO)
Depts.: CA

Pectis cryptopetala Schultz-Bip. =Pectis sessiliflora (Lessing) Schultz-Bip.

Pectis linifolia L. var. **linifolia**
Ref. Keil, 1981: 225.
Herb. Andean I, Coastal: beach, riversides. 0-1500 m.
Voucher: Sagástegui 9234 (F)
Depts.: CA, PI

Pectis multiflosculosa (DC.) Schultz-Bip.
Syn. *Lorentea multiflosculosa* DC.
Ref. Keil, 1976: 1225.
Herb. Andean I, Coastal: beach. 0-1000 m.
Voucher: Haenke s.n.* (MO photo), Weberbauer 7751 (F)
Depts.: TU

Pectis peruviana Keil
Ref. Keil, 1978: 48.
Endemic herb. Andean I. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Hutchison & Wright 5414* (US)
Depts.: CA

Pectis pinnata Lamarck =Schkuhria pinnata var. pinnata

Pectis sessiliflora (Lessing) Schultz-Bip.
Syn. *Lorentea sessiliflora* Lessing, *Cryptopetalon ciliare* Cassini, *Pectis cryptopetela* Schultz-Bip.
Herb. Amazonian, Andean I-II, Coastal: rocky slopes. 0-3000 m.
Voucher: Croat 57797 (F)
Depts.: AY, CA, CU, HU, LI, PI

Pectis subsquarrosa (Hooker f.) Schultz-Bip.
Syn. *Lorentea subsquarrosa* Hooker f.
Herb. Andean I: rocky slopes. 500-1000 m.
Voucher: Sánchez 3012 (F)
Depts.: CA

Pentacalia aclydiphylla (Cuatrecasas) Cuatrecasas
Syn. *Senecio aclydiphyllus* Cuatrecasas
Ref. Cuatrecasas, 1981b: 252.
Endemic shrub. Andean III. 3500-4000 m.
Voucher: Wurdack 1196* (US)
Depts.: AM

Pentacalia arbutifolia (H.B.K.) Cuatrecasas
Syn. *Senecio arbutifolius* H.B.K., *Senecio pichinchensis* Greenman
Ref. Cuatrecasas, 1981b: 253.
Shrub. Andean II-III. 2500-4500.
Voucher: Humboldt & Bonpland s.n.* (P-H&B)
Depts.: Without full locality data.

Pentacalia asplundii (Cabrera) Cuatrecasas
Syn. *Senecio asplundii* Cabrera
Ref. Cuatrecasas, 1981b: 243.
Shrub.
Voucher: Asplund 13127* (S)
Depts.: HU

Pentacalia bacopoides (Greenman & Cuatrecasas) Cuatrecasas
Syn. *Senecio bacopoides* Greenman & Cuatrecasas
Ref. Cuatrecasas, 1981b: 253.
Shrub. Andean II. 2500-3000 m.
Voucher: Macbride 4868* (F)
Depts.: HU

Pentacalia barbourii Dillon & Sagástegui
Ref. Dillon & Sagástegui, 1988: 225.
Endemic shrub. Andean II: terra firme forests. 2000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Barbour 3450* (MO!)
Depts.: AM

Pentacalia carpishensis (Cuatrecasas) Cuatrecasas
Syn. *Senecio carpishensis* Cuatrecasas
Ref. Cuatrecasas, 1981b: 244.
Endemic shrub. Andean II: shrublands. 2500-3000 m.
Voucher: Ferreyra 2354* (US)
Depts.: HU

Pentacalia chachapoyensis (Greenman) Cuatrecasas
Syn. *Senecio chachapoyensis* Greenman
Ref. Cuatrecasas, 1981b: 245.
Endemic shrub.
Voucher: Mathews 1356* (K)
Depts.: AM

Pentacalia diplostephioides (Cuatrecasas) Cuatrecasas
Syn. *Senecio diplostephioides* Cuatrecasas
Ref. Cuatrecasas, 1981b: 254.
Endemic herb. Andean III. > 4500 m.
Voucher: Rauh & Hirsch P1252* (NY)
Depts.: CU

Pentacalia divisoria (Cabrera) Cuatrecasas
Syn. *Senecio divisorius* Cabrera
Ref. Cuatrecasas, 1981b: 245.
Endemic liana or shrub. Andean I-II. 1000-2000 m.
Voucher: Killip & Smith 25599* (US)m Plowman & Schunke 11720 (NY)
Depts.: HU

Pentacalia empetroides (Cuatrecasas) Cuatrecasas
Syn. *Senecio empetroides* Cuatrecasas
Ref. Cuatrecasas, 1954c: 41.
Vine. Andean II. 3000-3500 m.
Depts.: Without full locality data.

Pentacalia epiphytica (Kuntze) Cuatrecasas
Syn. *Senecio epiphyticus* Kuntze
Ref. Cuatrecasas, 1981b: 246.
Shrub. Andean II. 2000-3500 m.
Voucher: Macbride 4094 (MO)
Depts.: HU

Pentacalia huallagana (Cuatrecasas) Cuatrecasas
Syn. *Senecio huallaganus* Cuatrecasas
Ref. Cuatrecasas, 1981b: 247.
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Weberbauer 6811* (F)
Depts.: SM

Pentacalia huamaliensis (Cabrera) Cuatrecasas
Syn. *Senecio huamaliensis* Cabrera
Ref. Cuatrecasas, 1981b: 247.
Endemic shrub. Andean II. 2000-3000 m.
Voucher: Weberbauer 3409* (MOL)
Depts.: HU

Pentacalia jalcana (Cuatrecasas) Cuatrecasas
Syn. *Senecio jalcanus* Cuatrecasas
Ref. Cuatrecasas, 1981b: 247.
Endemic shrub. Andean II: shrublands. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 1375* (US)
Depts.: AM

Pentacalia jelskii (Hieronymus) Cuatrecasas
Syn. *Senecio jelskii* Hieronymus
Ref. Cuatrecasas, 1981b: 247.
Shrub.
Note: For alternative treatment, see Cabrera (1985: 92).
Voucher: Jelski 769* (US)
Depts.: AY

Pentacalia loretensis (Cuatrecasas) Cuatrecasas
Syn. *Senecio loretensis* Cuatrecasas
Ref. Cuatrecasas, 1981b: 248.
Endemic shrub. Andean I. 500-1500 m.
Voucher: Klug 3191* (F)
Depts.: LO

Pentacalia lucidissima (Cuatrecasas) Cuatrecasas
Syn. *Senecio lucidissimus* Cuatrecasas
Ref. Cuatrecasas, 1981b: 248.
Endemic shrub. Andean II. 1500-2000 m.

Voucher: Tuesta & Woytkowski 34500* (F)
Depts.: HU

Pentacalia marinii (Cabrera) Cuatrecasas
Syn. *Senecio marinii* Cabrera
Ref. Cuatrecasas, 1981b: 248.
Shrub. Andean II. 1500-2000 m.
Note: For alternative treatment, see Cabrera (1985: 100).
Voucher: Marin 1949* (LP)
Depts.: CU

Pentacalia megaphlebia (Greenman & Cuatrecasas) Cuatrecasas
Syn. *Senecio megaphlebius* Greenman & Cuatrecasas
Ref. Cuatrecasas, 1981b: 248.
Endemic shrub. Andean II. 1500-2000 m.
Voucher: Macbride 5157* (F)
Depts.: CU

Pentacalia oronocensis (DC.) Cuatrecasas
Syn. *Senecio cuzcoensis* Cabrera, *Senecio oronocensis* DC., *Senecio ramonii* Cuatrecasas
Ref. Cuatrecasas, 1981b: 248.
Endemic vine. Andean II. 2500-3000 m.
Note: For alternative treatment, see Cabrera (1985: 102).
Voucher: Ferreyra 2310 (US)
Depts.: CU, HU

Pentacalia peruviana (Persoon) Cuatrecasas
Syn. *Senecio diosmoides* Turczaninow, *Senecio ericaefolius* Bentham, *Senecio peruvianus* Persoon
Ref. Cuatrecasas, 1981b: 257.
Endemic shrub. Andean II-III. 3000-4000 m.
Voucher: Jussieu s.n.* (P), Sagástegui 12778 (F)
Depts.: AM, LA

Pentacalia pomacochana (Cuatrecasas) Cuatrecasas
Syn. *Senecio pomacochanus* Cuatrecasas, *Senecio pomacochanus* fo. *arachnoideus* Cuatrecasas
Ref. Cuatrecasas, 1981b: 249.
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Wurdack 989* (US), Wurdack 990 (US)
Depts.: AM

Pentacalia purpurivenosa (Cuatrecasas) Cuatrecasas
Syn. *Senecio purpurivenosus* Cuatrecasas
Ref. Cuatrecasas, 1981b: 249.
Endemic liana. Andean II. 1500-2000 m.
Voucher: Macbride 4969* (F), Marin 2157 (LP)
Depts.: CU

Pentacalia reflexa (H.B.K.) Cuatrecasas
Syn. *Senecio klugii* Greenman, *Senecio macbridei* Greenman, *Senecio reflexa* H.B.K., *Senecio semidentatus* var. *klugii* (Greenman) Cuatrecasas
Ref. Cuatrecasas, 1981b: 258.
Shrub. Andean I-II. 1000-2000 m.
Voucher: Macbride 5254 (MO)
Depts.: CU, HU, JU, MD, SM

Pentacalia rufohirsuta (Cabrera) Cuatrecasas
Syn. *Senecio rufohirsutus* Cabrera
Ref. Cuatrecasas, 1981b: 249.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Macbride 4876* (MO)
Depts.: Without full locality data.

Pentacalia tarapotensis (Cabrera) Cuatrecasas
Syn. *Senecio tarapotensis* Cabrera
Ref. Cabrera, 1954b: 589.
Liana. Amazonian. 0-500 m.
Voucher: Spruce 4811 (C)
Depts.: LO

Pentacalia urubambensis (Cabrera) Cuatrecasas
Syn. *Senecio urubambensis* Cabrera
Ref. Cuatrecasas, 1981b: 251.
Endemic vine. Andean II. 2000-2500 m.
Voucher: Vargas 2185* (LP)
Depts.: CU

Pentacalia vernicifolia (Cuatrecasas) Cuatrecasas
Syn. *Senecio vernicifolius* Cuatrecasas
Ref. Cuatrecasas, 1981b: 260.
Endemic shrub. Andean II. 2500-3500 m.
Voucher: Sandeman 4298* (K), Hutchison & Wright 6649 (F)
Depts.: PI

Pentacalia verticillata (Klatt) Cuatrecasas
Syn. *Senecio verticillatus* Klatt, *Senecio verticillatus* var. *trichophorus* Greenman
Ref. Cuatrecasas, 1981b: 260.
Endemic shrub. Andean II. 2500-3500 m.
Voucher: Mathews 105* (K), Sagástegui 9520 (F)
Depts.: CA

Pentacalia wurdackii (Cuatrecasas) Cuatrecasas
Syn. *Senecio wurdackii* Cuatrecasas
Ref. Cuatrecasas, 1981b: 251.
Endemic vine. Andean II. 3000-3500 m.
Voucher: Wurdack 1599* (US)
Depts.: AM

Pentanthus jungioides Hooker & Arnott =Paracalia jungioides (Hooker & Arnott) Cuatrecasas

Perdicium divaricatum H.B.K. =Trixis divaricata (H.B.K.) Sprengel
Ref. Harling, 1991: 77.

Perdicium oblongum R. & P. =Chaptalia oblonga D. Don.
Ref. Harling, 1991: 50.

Perdicium ovale R. & P. ex D. Don =Chaptalia oblonga D. Don.
Ref. Harling, 1991: 50.

Perezia ciliaris D. Don ex Hooker & Arnott =Perezia pungens (Humboldt & Bonpland) Lessing
Ref. Harling, 1991: 102.

Perezia ciliosa (Philippi) Reiche
Syn. *Clarionea ciliosa* Philippi
Ref. Simpson-Vuilleumier, 1969: 104.
Herb. Andean III. 3500-4500 m.
Voucher: Stafford 578 (K)
Depts.: AR

Perezia cirsiifolia Weddell =Perezia coerulescens Weddell

Perezia coerulescens var. *amplibracteata* Tovar =Perezia coerulescens Weddell

Perezia coerulescens Weddell
Syn. *Perezia cirsiifolia* Weddell, *Perezia coerulescens* var. *amplibracteata* Tovar, *Perezia nivalis* Weddell
Ref. Harling, 1991: 103.
Herb. Andean III. 3500- > 4500 m.
Voucher: Tovar 1156 (USM)
Depts.: AN, AR, CU, HU, HV, JU, LI, PU

Perezia conaicaensis Tovar =Perezia pungens (H. & B.) Lessing

Perezia coriacea Tovar =Perezia pungens (Humboldt & Bonpland) Lessing

Perezia fosbergii Tovar =Perezia pungens Lessing
Ref. Harling, 1991: 99.

Perezia multiflora (Humboldt & Bonpland) Lessing
Syn. *Chaetanthera multiflora* Humboldt & Bonpland
Ref. Harling, 1991: 97.
Herb. Andean III. 3500- > 4500 m.
Voucher: Dillon & Turner 1481 (USM)
Depts.: AN, AP, AR, AY, CA, CU, HU, HV, JU, LI, LL, PA, PU, TA

Perezia nivalis Weddell =Perezia coerulescens Weddell

Perezia pinnatifida (Humboldt & Bonpland) Weddell
Syn. *Chaetanthera pinnatifida* Humboldt & Bonpland
Ref. Harling, 1991: 102.
Herb. Andean II-III. 3000- > 4500 m.
Voucher: Macbride 3031 (F!)
Depts.: AN, AP, AR, HV, JU, LI, PA, PU

Perezia pungens (Humboldt & Bonpland) Lessing
Syn. *Chaetanthera pungens* Humboldt & Bonpland, *Clarionea macrocephala* Schultz-Bip. in Lechler, nom. nud., *Perezia ciliaris* D. Don ex Hooker & Arnott, *Perezia conaicaensis* Tovar, *Perezia coriacea* Tovar, *Perezia fosbergii* Tovar, *Perezia stuebelii* Hieronymus, *Perezia weberbaueri* Hieronymus
Ref. Harling, 1991: 99.
Herb. Andean III. 3500-4500 m.
Voucher: Killip & Smith 23303 (US!)
Depts.: AM, AN, AR, AY, CA, CU, HU, HV, JU, LI, LL, PI, PU

Perezia pygmaea Weddell
Ref. Harling, 1991: 103.

Endemic herb. Andean III. 4000-> 4500 m.
Voucher: Hutchison & Tovar 4259 (USM)
Depts.: CU, HV, JU, LI

Perezia stuebelii Hieronymus =Perezia pungens (H. & B.) Lessing
Ref. Harling, 1991: 99.

Perezia sublyrata Domke
Syn. *Perezia sublyrata* var. *glabrescens* Tovar
Ref. Domke, 1936: 248.
Endemic herb. Andean II-III. 3000-4500 m.
Voucher: Stafford 345* (K), Kalenborn 115 (US)
Depts.: JU, PU

Perezia sublyrata var. *glabrescens* Tovar =Perezia sublyrata Domke

Perezia virens (D. Don) Hooker & Arnott =Perezia coerulescens Weddell

Perezia weberbaueri Hieronymus =Perezia pungens (H. & B.) Lessing
Ref. Harling, 1991: 99.

Perityle discoidea (Philippi) Johnston
Ref. Ferreyra, 1961: 119.
Herb. Andean I: lomas. 500-1000 m.
Voucher: Ferreyra 12550 (USM)
Depts.: TA

Perityle emoryi Torrey
Herb. Andean I. 500-1000 m.
Voucher: Dillon & Dillon 3676 (F)
Depts.: AR, LA, TA

Perymenium bishopii H. Robinson
Ref. Robinson, 1983b: 54.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: King & Bishop 9122* (US!, MO!), Hutchison & Wright 4338 (US!)
Depts.: AN, CA

Perymenium ecuadoricum S. F. Blake
Ref. Blake, 1922: 423.
Shrub. Andean II: rocky slopes. 2500-3000 m.
Voucher: Dillon & Skillman 4176 (F!)
Depts.: LA

Perymenium featherstonei S. F. Blake
Ref. Blake, 1926: 222.
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Macbride & Featherstone 1329* (F!), Sagástegui *et al.* 9624 (MO!)
Depts.: JU

Perymenium mathewsii S. F. Blake
Ref. Blake, 1915: 136.
Endemic shrub.
Voucher: Matthews 765* (NY!)
Depts.: LI

Perymenium serratum S. F. Blake
Ref. Blake, 1915: 136.
Endemic shrub. Amazonian. 0-500 m.
Voucher: Mathews s.n.* (K)
Depts.: AM

Phalacraea latifolia DC.
Syn. *Piqueria latifolia* (DC.) Gardner
Ref. King & Robinson, 1987: 149.
Endemic herb. Andean II: rocky slopes. 2500-3000 m.
Voucher: Macbride 724 (F!)
Depts.: LI

Philoglossa blakei H. Robinson & Cuatrecasas
Ref. Robinson, 1983a: 62.
Endemic herb. Andean I. 500-1000 m.
Voucher: Weberbauer 7687* (US!)
Depts.: TU

Philoglossa mimuloides (Hieronymus) H. Robinson & Cuatrecasas
Syn. *Jaumea mimuloides* Hieronymus, *Jaumeopsis mimuloides* Hieronymus, *Philoglossa peruviana* var. *sapida* Bristol
Ref. Robinson & Brettell, 1974: 59; Robinson, 1983a: 62.
Herb. Andean I-II. 1000-3500 m.
Voucher: Wurdack 507 (US!)
Depts.: AM, CA, LL, PI

Philoglossa peruviana DC.
Ref. Robinson & Brettell, 1974: 59; Robinson, 1983a: 62.
Endemic herb. Andean I-II, Coastal. 0-2500 m.
Voucher: Dombey s.n.* (G-DC) Macbride 5919 (US!)
Depts.: AN, AR, LI, LL, TA

Philoglossa peruviana var. *sapida* Bristol =Philoglossa mimuloides (Hieronymus) H. Robinson & Cuatrecasas
Ref. Robinson, 1983a: 62.

Philoglossa pterocarpa Sandwith
Ref. Robinson & Brettell, 1974: 59; Robinson, 1983a: 62.
Endemic herb. Andean II. 1500-2500 m.
Voucher: Sandeman 4230* (K), Soukup 4219 (US!)
Depts.: CA, LA, LI, PI

Philoglossa purpureodisca H. Robinson
Ref. Robinson, 1983a: 62.
Endemic herb. Coastal. 0-1000 m.
Voucher: Angulo 1219* (F!)
Depts.: LL

Picrosia longifolia D. Don
Syn. *Sonchus asper* (L.) Hill, *Sonchus oleraceus* var. *asper* L.
Ref. Schulz, 1944: 497.
Herb. Coastal. 0-500 m.
Voucher: Macbride & Featherstone 2448 (F!)
Depts.: HU, LI, LL, MO

Pilosella mandonii Schultz-Bip. =Hieracium mandonii (Schultz-Bip.) Arvet-Touvet
Ref. Zahn, 1923a: 1139.

Piptocarpha asterotrichia (Poeppig) Baker
Syn. *Carphobolus asterotrichus* (Poeppig) Schultz-Bip., *Piptocarpha insignis* Gleason, *Vernonia argyrotrichia* Schultz-Bip. ex Baker, *Vernonia asterotrichia* Poeppig
Ref. FP n.s. 5 1980: 49.
Endemic liana. Amazonian, Andean I-II: forests, cloud forests. 0-2000 m.
Voucher: Poeppig 1887* (NY), Killip & Smith 26083 (NY)
Depts.: AM, CU, JU, HU, LO, SM, UC

Piptocarpha canescens Gleason
Ref. FP n.s. 5 1980: 52.
Endemic shrub. Andean I. 1000-1500 m.
Voucher: Killip & Smith 26084* (NY)
Depts.: JU

Piptocarpha chontalensis Baker =Piptocarpha poeppigiana (DC.) Baker
Ref. FP n.s. 5 1980: 48.

Piptocarpha costaricensis Klatt =Piptocarpha poeppigiana (DC.) Baker
Ref. FP n.s. 5 1980: 48.

Piptocarpha foliosa Cuatrecasas =Piptocarpha poeppigiana (DC.) Baker
Ref. FP n.s. 5 1980: 49.

Piptocarpha gutierrezii Cuatrecasas
Syn. *Piptocarpha umbricola* Cuatrecasas
Ref. FP n.s. 5 1980: 54.
Endemic shrub. Amazonian, Andean I, Coastal: disturbed areas, forests, rocky slopes. 0-1000 m.
Voucher: Kayap 356 (NY)
Depts.: AM, LA, PI

Piptocarpha insignis Gleason =Piptocarpha asterotrichia (Poeppig) Baker
Ref. FP n.s. 5 1980: 49.

Piptocarpha laxa Rusby =Piptocarpha poeppigiana (DC.) Baker
Ref. FP n.s. 5 1980: 49.

Piptocarpha lechleri (Schultz-Bip.) Baker
Syn. *Carphobolus lechleri* Schultz-Bip., *Piptocarpha longifolia* Gleason, *Piptocarpha vismiaefolia* Gleason
Ref. FP n.s. 5 1980: 53.
Endemic shrub or treelet. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Lechler 2479* (B), Killip & Smith 23848 (US)
Depts.: CU, JU, SM

Piptocarpha longifolia Gleason =Piptocarpha lechleri (Schultz-Bip.) Baker
Ref. FP n.s. 5 1980: 53.

Piptocarpha opaca (Bentham) Baker
Syn. *Carphobolus latifolius* Schultz-Bip., *Piptocarpha opaca* var. *latifolia* (Schultz-Bip.) Baker, *Vernonia opaca* Bentham
Ref. FP n.s. 5 1980: 51.
Liana. Amazonian, Andean I. 0-1000 m.
Voucher: Schomburgk 1016* (K), Schunke 6182 (F)
Depts.: AM, HU, LO

Piptocarpha opaca (Bentham) Baker var. *latifolia* (Schultz-Bip.) Baker =Piptocarpha opaca (Bentham) Baker
Ref. FP n.s. 5 1980: 51.

Piptocarpha paraensis Cabrera
=Piptocarpha poeppigiana (DC.) Baker
Ref. FP n.s. 5 1980: 49.

Piptocarpha poeppigiana (DC.) Baker
Syn. *Carphobolus poeppigiana* (DC.) Schultz-Bip., *Carphobolus tereticaulis* (DC.) Schultz-Bip., *Piptocarpha chontalensis* Baker, *Piptocarpha costaricensis* Klatt, *Piptocarpha foliosa* Cuatrecasas, *Piptocarpha laxa* Rusby, *Piptocarpha paraensis* Cabrera, *Piptocarpha tereticaulis* (DC.) Baker, *Vernonia poeppigiana* DC., nom. illeg., *Vernonia tereticaulis* DC.
Ref. FP n.s. 5 1980: 48.
Liana or shrub. Amazonian, Andean I: forests, riversides. 0-1000 m.
Voucher: Wurdack 2501 (F)
Depts.: AM, CU, JU, HU, LO, MD, SM

Piptocarpha sprucei Baker
Ref. FP n.s. 5 1980: 52.
Endemic liana. Andean I: forests. 500-1500 m.
Voucher: Spruce 4362* (K), King 3167 (MO)
Depts.: SM

Piptocarpha tereticaulis (DC.) Baker
=Piptocarpha poeppigiana (DC.) Baker
Ref. FP n.s. 5 1980: 48; Hieronymus, 1901a: 2.

Piptocarpha umbricola Cuatrecasas
=Piptocarpha gutierrezii Cuatrecasas
Ref. FP n.s. 5 1980: 54.

Piptocarpha vismiaefolia Gleason
=Piptocarpha lechleri (Schultz-Bip.) Baker
Ref. FP n.s. 5 1980: 53.

Piqueria cuningii B. Robinson
=Ophryosporus anomalus King & H. Robinson
Ref. King & Robinson, 1987: 562.

Piqueria floribunda DC. =Ophryosporus floribundus (DC.) King & H. Robinson
Ref. King & Robinson, 1987: 562.

Piqueria galioides DC. =Ophryosporus galioides (DC.) King & H. Robinson
Ref. King & Robinson, 1987: 562.

Piqueria hartwegii B. Robinson
=Ophryosporus hartwegii (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 562.

Piqueria latifolia (DC.) Gardner
=Phalacraea latifolia DC.
Ref. King & Robinson, 1987: 562.

Piqueria mathewsii B. Robinson
=Ophryosporus mathewsii (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 562.

Piqueria peruviana (Gmelin) B. Robinson
=Ophryosporus peruvianus (Gmelin) King & H. Robinson
Ref. King & Robinson, 1987: 563.

Piqueria pinifolia (Philippi) Hieronymus ex B. Robinson =Ophryosporus pinifolius (Philippi) King & H. Robinson

Piqueria pubescens Smith =Ophryosporus pubescens (Smith) King & H. Robinson

Piqueria vargasii Chung =Guevaria vargasii (Chung) King & H. Robinson
Ref. King & Robinson, 1987: 563.

Plagiocheilus bogotensis (H.B.K.) Weddell
Syn. *Hippia bogotensis* H.B.K., *Leptinella bogotensis* (H.B.K.) DC., *Plagiocheilus prostratus* Bentham
Ref. FP n.s. 7 1981: 13.
Herb. Andean II: disturbed areas, rocky slopes. 2000-3500 m.
Voucher: Sagástegui *et al.* 8076 (F!)
Depts.: AM, CA, LL

Plagiocheilus frigidus Poeppig
Ref. FP n.s. 7 1981: 13.
Herb. Andean III: disturbed areas, grasslands. 4000-4500 m.
Voucher: Poeppig s.n.* (W), Gentry *et al.* 19226 (MO!)
Depts.: PA

Plagiocheilus prostratus Bentham
=Plagiocheilus bogotensis (H.B.K.) Weddell
Ref. FP n.s. 7 1981: 13.

Plagiocheilus solivaeformis DC.
Ref. FP n.s. 7 1981: 14.
Herb. Andean II-III: disturbed areas. 2500-4000 m.
Voucher: Pentland s.n.* (P), Macbride & Featherstone 1888 (F!)
Depts.: AM, HU, LL

Plazia conferta R. & P.
Ref. Ferreyra, 1980b: 101.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Woytkowski 52 (USM)
Depts.: JU

Plazia daphnoides Weddell
Ref. Ferreyra, 1980b: 102.
Shrub. Andean III. 3500-4000 m.
Voucher: Weddell s.n.* (P photo F), Keel 698 (USM)
Depts.: AY

Pluchea absinthioides (Hooker & Arnott) H. Robinson & Cuatrecasas
Syn. *Baccharis absinthioides* Hooker & Arnott, *Tessaria absinthioides* (Hooker & Arnott) DC.
Ref. FP n.s. 26 1991: 58.
Shrub or subshrub. Andean II: cloud forests. 2000-2500 m.
Voucher: Hinkley 33 (F!)
Depts.: AR

Pluchea chingoyo (H.B.K.) DC.
Syn. *Conyza chingoyo* H.B.K.
Ref. FP n.s. 26 1991: 59.
Shrub. Andean I, Coastal: shrublands. 0-1000 m.
Voucher: Bonpland 3758* (P frag F), Dillon & Whalen 4006 (F, USM)
Depts.: AN, AR, JU, LA, LI, LL, PI, TA

Pluchea microcephala Godfrey
Ref. FP n.s. 26 1991: 60.
Endemic shrub. Coastal: disturbed areas. 0-500 m.
Voucher: Dillon *et al.* (F!, HUT)
Depts.: LA, LL

Pluchea zamalloae (Cabrera) H. Robinson & Cuatrecasas
Syn. *Tessaria zamalloae* Cabrera
Ref. FP n.s. 26 1991: 60.
Endemic shrub. Andean II-III: dry valleys. 1500-4000 m.
Voucher: Zamalloa 1007* (LP), Ferreyra 9875 (MO, USM)
Depts.: AP, AY

Pollalesta argentea Aristeguieta
=Pollalesta discolor (H.B.K.) Aristeguieta
Ref. FP n.s. 5 1980: 55; Stutts, 1981: 401.

Pollalesta brasiliana Aristeguieta
=Pollalesta discolor (H.B.K.) Aristeguieta
Ref. FP n.s. 5 1980: 55; Stutts, 1981: 401.

Pollalesta colombiana Aristeguieta
=Pollalesta discolor (H.B.K.) Aristeguieta
Ref. FP n.s. 5 1980: 55; Stutts, 1981: 401.

Pollalesta corei (Cuatrecasas) Aristeguieta
=Pollalesta discolor (H.B.K.) Aristeguieta
Ref. FP n.s. 5 1980: 55; Stutts, 1981: 401.

Pollalesta discolor (H.B.K.) Aristeguieta
Syn. *Dialesta discolor* H.B.K., *Eupatorium cuspidatum* Willdenow ex Lessing, *Oliganthes corei* Cuatrecasas, *Oliganthes discolor* (H.B.K.) Schultz-Bip., *Oliganthes ferruginea* Gleason, *Oliganthes karstenii* Schultz-Bip., *Pollalesta argentea* Aristeguieta, *Pollalesta brasiliana* Aristeguieta, *Pollalesta colombiana* Aristeguieta, *Pollalesta corei* (Cuatrecasas) Aristeguieta, *Pollalesta ecuatoriana* Aristeguieta, *Pollalesta ferruginea* (Gleason) Aristeguieta, *Pollalesta karstenii* (Schultz-Bip.) Aristeguieta, *Pollalesta klugii* Aristeguieta, *Pollalesta peruviana* Aristeguieta
Ref. FP n.s. 5 1980: 55; Stutts, 1981: 385.

Tree. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Klug 2220 (MO)
Depts.: AM, CA, LO, SM, UC

Pollalesta ecuatoriana Aristeguieta =Pollalesta discolor (H.B.K.) Aristeguieta
Ref. FP n.s. 5 1980: 55; Stutts, 1981: 401.

Pollalesta ferruginea (Gleason) Aristeguieta =Pollalesta discolor (H.B.K.) Aristeguieta
Ref. FP n.s. 5 1980: 55; Stutts, 1981: 401.

Pollalesta karstenii (Schultz-Bip.) Aristeguieta =Pollalesta discolor (H.B.K.) Aristeguieta
Ref. FP n.s. 5 1980: 55; Stutts, 1981: 401.

Pollalesta klugii Aristeguieta =Pollalesta discolor (H.B.K.) Aristeguieta
Ref. FP n.s. 5 1980: 55; Stutts, 1981: 401.

Pollalesta peruviana Aristeguieta =Pollalesta discolor (H.B.K.) Aristeguieta
Ref. FP n.s. 5 1980: 55; Stutts, 1981: 401.

Polyachyrus annuus I. M. Johnston
Syn. *Polyachyrus mollendoensis* I. M. Johnston
Ref. Ricardi & Weldt, 1974: 13.
Herb. Andean I, Coastal. 0-1000 m.
Voucher: Worth & Morrison 15758 (F!)
Depts.: AR, IC, MO, TA

Polyachyrus fuscus (Meyen) Walpers
Syn. *Diaphoranthus fuscus* Meyen, *Polyachyrus nesites* I. M. Johnston
Ref. Ricardi & Weldt, 1974: 21.
Herb. Andean I. 500-1000 m.
Voucher: Murphy 3467* (GH), Meyen s.n. (B)
Depts.: IC

Polyachyrus glandulosus Nuttall =Polyachyrus sphaerocephalus D. Don
Ref. Ricardi & Weldt, 1974: 23.

Polyachyrus mollendoensis I. M. Johnston =Polyachyrus annuus I. M. Johnston
Ref. Ricardi & Weldt, 1974: 13.

Polyachyrus nesites I. M. Johnston =Polyachyrus fuscus (Meyen) Walpers
Ref. Ricardi & Weldt, 1974: 21.

Polyachyrus sphaerocephalus D. Don
Syn. *Polyachyrus glandulosus* Nuttall, *Polyachyrus villosus* Weddell
Ref. Ricardi & Weldt, 1974: 23.
Herb. Andean I-III: shrublands. 500-4000 m.
Voucher: Ruiz & Pavón s.n.* (P), Hutchison 1256 (USM)
Depts.: AN, AR, AY, LI, LL, MO, TA

Polyachyrus villosus Weddell =Polyachyrus sphaerocephalus D. Don
Ref. Ricardi & Weldt, 1974: 23.

Polyanthina nemorosa (Klatt) King & H. Robinson
Syn. *Eupatorium nemorosum* Klatt, *Eupatorium pteropodum* Hieronymus
Ref. King & Robinson, 1987: 201, 527, 563.
Herb. Amazonian, Andean I-II: disturbed areas, forests. 0-3000 m.
Voucher: Dillon & Turner 1430 (F!)
Depts.: AM, CU, HU, JU, LO, MD, SM

Polymnia edulis Weddell =Smallanthus sonchifolius (Poeppig & Engler) H. Robinson
Ref. Wells, 1965: 157.

Polymnia fruticosa Bentham =Smallanthus fruticosus (Bentham) H. Robinson
Ref. Wells, 1965: 157.

Polymnia glabrata DC. =Smallanthus glabratus (DC.) H. Robinson
Ref. Wells, 1965: 156.

Polymnia jelskii Hieronymus =Smallanthus jelskii (Hieronymus) H. Robinson
Ref. Wells, 1965: 147.

Polymnia lehmannii Hieronymus
Shrub.
Voucher: Weberbauer 5557 (F)
Depts.: Without full locality data.

Polymnia parviceps S. F. Blake =Smallanthus parviceps (S. F. Blake) H. Robinson
Ref. Wells, 1965: 157.

Polymnia riparia H.B.K. =Smallanthus riparius (H.B.K.) H. Robinson
Ref. Wells, 1965: 150.

Polymnia siegesbeckia DC. =Smallanthus siegesbeckius (DC.) H. Robinson
Ref. Wells, 1965: 150.

Polymnia sonchifolia Poeppig =Smallanthus sonchifolius (Poeppig) H. Robinson
Ref. Wells, 1965: 154.

Porophyllum ruderale (Jacquin) Cassini
Syn. *Kleinia ruderalis* Jacquin, *Tagetes integrifolia* Muschler
Ref. Johnson, 1969: 234.
Herb. Amazonian, Andean I-II, Coastal: disturbed areas. 0-2000 m.
Voucher: Foster 6680 (F)
Depts.: HU, LI, MD

Praxelis clematidea (Grisebach) King & H. Robinson
Syn. *Eupatorium clematideum* Grisebach
Ref. King & Robinson, 1987: 382, 563.
Herb. Amazonian, Andean I: disturbed areas, shrublands. 0-1500 m.
Voucher: Schunke 3711 (F!)
Depts.: AM, HU, SM

Praxelis kleinioides (H.B.K.) Schultz-Bip.
Syn. *Eupatorium kleinioides* H.B.K.
Herb.
Ref. King & Robinson, 1987: 382, 563.
Note: Cited from Peru by King & Robinson (1987: 382) but no material seen at F or US.

Praxelis pauciflora (H.B.K.) King & H. Robinson
Syn. *Eupatorium pauciflorum* H.B.K.
Ref. King & Robinson, 1987: 382, 563.
Herb. Andean I. 500-1000 m.
Voucher: Vargas 14480 (US!)
Depts.: CU

Prionolepis silphioides Poeppig =Munnozia silphioides (Poeppig) H. Robinson & Brettell
Ref. Robinson & Brettell, 1974: 56.

Proustia cuneata S. F. Blake =Lophopappus blakei Cabrera
Ref. Blake, 1924a: 653.

Proustia cuneifolia D. Don
Syn. *Proustia pungens* Poeppig ex Lessing
Shrub. Andean I-III, Coastal. 0-4000 m.
Voucher: Ferreyra 13939 (USM)
Depts.: AP, AR, AY, CU

Proustia pungens Poeppig ex Lessing =Proustia cuneifolia D. Don

Pseudelephantopus funckii (Turczaninow) Philipson =Pseudelephantopus spiralis (Lessing) Cronquist
Ref. FP n.s. 5 1980: 68.

Pseudelephantopus spicatus (Jussieu ex Aublet) Rohr
Syn. *Distreptus spicatus* (Jussieu ex Aublet) Cassini, *Distreptus spicatus* Cassini, *Elephantopus spicatus* B. Jussieu ex Aublet, *Matamoria spicata* (Jussieu ex Aublet) Llave & Lexarza
Ref. FP n.s. 5 1980: 66.
Herb. Amazonian, Andean I. 0-1000 m.
Note: The Flora of Peru uses the incorrect author citation "*Pseudelephantopus spicatus* (Jussieu ex Aublet) C. F. Baker."
Voucher: Plowman 6026 (USM)
Depts.: LO, JU, SM

Pseudelephantopus spiralis (Lessing) Cronquist
Syn. *Chaetospira funckii* (Turczaninow) S. F. Blake, *Chaetospira spiralis* (Lessing) Asplund & S. F. Blake, *Distreptus spiralis* Lessing, *Pseudelephantopus funckii* (Turczaninow) Philipson, *Spirochaeta funckii* Turczaninow
Ref. FP n.s. 5 1980: 68.
Herb. Amazonian, Andean I-II: forests, grasslands. 0-2500 m.
Voucher: Ferreyra 17863 (USM)
Depts.: AM, CU, HU, JU, LO, MD, PA, SM, UC

Pseudobaccharis bolivensis (Weddell) Cabrera =Baccharis boliviensis

(Weddell) Cabrera
Ref. Cabrera, 1975: 256.

Pseudoconyza lyrata (H.B.K.) Cuatrecasas
=Blumea viscosa (Miller) Badillo
Ref. FP n.s. 26 1991: 20.

Pseudoconyza viscosa (Miller) D'Arcy
=Blumea viscosa (Miller) Badillo
Ref. FP n.s. 26 1991: 20.

[*Pseudognaphalium cheiranthifolia* (Lamarck) Hilliard & Burt
=Gnaphalium cheiranthifolium Lam.]
Ref. FP n.s. 26 1991: 40.
Note: Not known from Peru.

Pseudogynoxys asplundii K. Afzelius
=Pseudogynoxys scabra (Bentham) Cuatrecasas
Ref. Robinson & Cuatrecasas, 1977: 188.

Pseudogynoxys chiribogensis K. Afzelius
=Pseudogynoxys sonchoides (H.B.K.) Cuatrecasas
Ref. Robinson & Cuatrecasas, 1977: 189.

Pseudogynoxys chongonensis K. Afzelius
=Pseudogynoxys scabra (Bentham) Cuatrecasas
Ref. Robinson & Cuatrecasas, 1977: 188.

Pseudogynoxys cordifolia (Cassini) Cabrera
Syn. *Gynoxys cordifolia* Cassini, *Pseudogynoxys volubilis* (Hooker) Cabrera, *Senecio jussieui* Klatt, *Senecio volubilis* Hooker
Ref. Robinson & Cuatrecasas, 1977: 185.
Vine. Amazonian, Andean I-II, Coastal. 0-2500 m.
Voucher: Dillon & Whalen 4021 (F)
Depts.: CA, LA, LL

Pseudogynoxys eggersii (Hieronymus) Cabrera =Pseudogynoxys scabra (Bentham) Cuatrecasas
Ref. Robinson & Cuatrecasas, 1977: 185.

Pseudogynoxys engleri (Hieronymus) H. Robinson & Cuatrecasas
Syn. *Senecio engleri* Hieronymus
Ref. Robinson & Cuatrecasas, 1977: 186.
Vine. Coastal. 0-500 m.
Voucher: Llatas 932 (F)
Depts.: LA

Pseudogynoxys filicalyculata (Cuatrecasas) Cuatrecasas
Syn. *Senecio filicalyculatus* Cuatrecasas
Ref. Robinson & Cuatrecasas, 1977: 186.
Endemic vine. Andean I, Coastal. 0-1000 m.
Voucher: Weberbauer 7721* (F), Simpson & Schunke 539 (F)
Depts.: TU

Pseudogynoxys neovolubilis (Cuatrecasas) Cuatrecasas =Pseudogynoxys scabra (Bentham) Cuatrecasas
Ref. Robinson & Cuatrecasas, 1977: 188.

Pseudogynoxys poeppigii (DC.) H. Robinson & Cuatrecasas
Syn. *Gynoxys poeppigii* DC., *Pseudogynoxys sprucei* (Klatt) Cabrera, *Senecio sprucei* Klatt
Ref. Robinson & Cuatrecasas, 1977: 187.
Endemic vine. Amazonian, Andean I, Coastal 0-2000 m.
Voucher: Gentry & Smith 45108 (F)
Depts.: AM, LO, PI, SM, TU

Pseudogynoxys scabra (Bentham) Cuatrecasas
Syn. *Gynoxys scabra* Bentham, *Pseudogynoxys asplundii* K. Afzelius, *Pseudogynoxys chongonensis* K. Afzelius, *Pseudogynoxys eggersii* (Hieronymus) Cabrera, *Pseudogynoxys neovolubilis* (Cuatrecasas) Cuatrecasas, *Senecio eggersii* Hieronymus, *Senecio neovolubilis* Cuatrecasas
Ref. Robinson & Cuatrecasas, 1977: 187.
Vine. Andean I. 1000-1500 m.
Voucher: Hutchison & Wright 6660 (US)
Depts.: PI

Pseudogynoxys sonchoides (H.B.K.) Cuatrecasas
Syn. *Gynoxys sinclairi* Bentham, *Pseudogynoxys chiribogensis* K. Afzelius, *Senecio jamesonii* Spruce ex Klatt, *Senecio sinclairii* (Bentham) Hieronymus, *Senecio sonchoides* H.B.K.
Ref. Robinson & Cuatrecasas, 1977: 189.
Vine. Andean I. 500-1500 m.
Voucher: Hutchison & Wright 3424 (US)
Depts.: CA, LA, PI

Pseudogynoxys sprucei (Klatt) Cabrera =Pseudogynoxys poeppigii (DC.) H. Robinson & Cuatrecasas
Ref. Robinson & Cuatrecasas, 1977: 187.

Pseudogynoxys volubilis (Hooker) Cabrera =Pseudogynoxys cordifolia (Cassini) Cabrera
Ref. Robinson & Cuatrecasas, 1977: 185.

Pseudonoseris discolor (Muschler) H. Robinson & Brettell
Syn. *Liabum lanatum* Ferreyra, *Onoseris discolor* Muschler
Ref. Robinson & Brettell, 1974: 60; Robinson, 1983a: 49.
Endemic herb. Andean II. 1500-3500 m.
Voucher: Ferreyra 16739 (USM)
Depts.: PU

Pseudonoseris striata (Cuatrecasas) H. Robinson & Brettell
Syn. *Liabum striatum* Cuatrecasas
Ref. Robinson & Brettell, 1974: 60; Robinson, 1983a: 47.
Endemic herb. Andean II. 1500-2000 m.
Voucher: Weberbauer 7107* (F!)
Depts.: LA

Pseudonoseris szyszylowiczii (Hieronymus) H. Robinson & Brettell
Syn. *Liabum szyszylowiczii* Hieronymus
Ref. Robinson & Brettell, 1974: 60; Robinson, 1983a: 47.
Endemic herb. Andean II. 2000-3500 m.
Voucher: Jelski 718* (B photo F), Ferreyra 15465 (USM)
Depts.: AM, AN, CA

Psila bolivensis (Weddell) Cabrera =Baccharis boliviensis (Weddell) Cabrera
Ref. Cabrera, 1975: 256.

Psilactis brevilingulata Schultz-Bip fo. **andina** Cuatrecasas
Ref. Cuatrecasas, 1964c: 140; Cuatrecasas, 1969: 69.
Endemic herb. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Ellenberg 1919* (U)
Depts.: CA

Pterocaulon alopecuroides (Lamarck) DC.
Syn. *Conyza alopecuroides* Lamarck
Ref. FP n.s. 26 1991: 62.
Herb. Andean I: grasslands. 500-1500 m.
Voucher: Spruce 4488 (F!)
Depts.: JU, SM

Ptilurus daucifolius D. Don. =Leucheria daucifolia (D. Don) Crisci
Ref. Crisci, 1976: 52.

Pyrethrum cinerariifolium Trev. =Tanacetum cinerariifolium (Trev.) Schultz-Bip.
Ref. FP n.s. 7 1981: 19.

Raulinoreitzia crenulata (Sprengel) King & H. Robinson
Syn. *Eupatorium crenulatum* Sprengel
Ref. King & Robinson, 1987: 77, 563.
Shrub or tree. Andean I-II: forests, shrublands. 500-2500 m.
Voucher: Weberbauer 7941 (F!)
Depts.: AY, CU, PU

Rolandra terminalis Sprengel =Ichthyothere terminales (Sprengel) S. F. Blake
Ref. Blake, 1921a: 301.

Salmea mikanioides Britton =Oblivia mikanioides (Britton) Strother
Ref. Bolick, 1991: 476.

Salmea scandens (L.) DC.
Syn. *Bidens scandens* L.
Ref. Bolick, 1991: 464.
Liana. Amazonian, Andean I: forests, riversides. 0-1000 m.
Voucher: Solomon 3236 (F!)
Depts.: JU, SM

Santolina chamaecyparissus L.
Ref. FP n.s. 7 1981: 15.
Cultivated and introduced subshrub. Coastal: disturbed areas. 0-500 m.
Voucher: Soukup 995 (F!)
Depts.: LI

Schistocarpha eupatorioides (Fenzl) Kuntze
Syn. *Neilreichia eupatorioides* Fenzl, *Schistocarpha hoffmannii* Kuntze, *Schistocarpha oppositifolia* (Kuntze) Rydberg
Ref. Robinson, 1979e: 9.

Herb. Amazonian, Andean I-II: disturbed areas, forests, riversides. 0-2000 m.
Voucher: Poeppig 74* (W), Dillon 2670 (F!)
Depts.: AM, AY, CA, CU, HU, MD, LO, SM

Schistocarpha hoffmannii Kuntze =Schistocarpha eupatorioides (Fenzl) Kuntze
Ref. Robinson, 1979e: 9.

Schistocarpha oppositifolia (Kuntze) Rydberg =Schistocarpha eupatorioides (Fenzl) Kuntze
Ref. Robinson, 1979e: 9.

Schistocarpha sinforosi Cuatrecasas
Syn. *Liabum eupatorioides* Muschler
Ref. Robinson, 1979e: 17.
Herb. Andean II. 1500-3000 m.
Voucher: Hutchison & Wright 4923 (F!)
Depts.: AM, HU

Schizoptera peduncularis (Bentham) S. F. Blake
Syn. *Synedrella peduncularis* Bentham
Ref. Blake, 1916: 1.
Shrub. Coastal. 0-500 m.
Voucher: Weberbauer 5969 (F!)
Depts.: PI, TU

Schizotrichia eupatorioides Bentham
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Mathews s.n.* (NY), Woykowski 7809 (F)
Depts.: AM

Schkuhria abrotanoides Roth =Schkuhria pinnata var. abrotanoides (Roth) Cabrera

Schkuhria multiflora Hooker & Arnott var. *aristata* (Fries) Cabrera =Schkuhria multiflora var. multiflora
Ref. Cabrera, 1932: 192.

Schkuhria multiflora var. **multiflora**
Syn. *Schkuhria multiflora* var. *aristata* (Fries) Cabrera, *Schkuhria pusilla* var. *aristata* Fries
Ref. Heiser, 1945: 274.
Herb. Andean II-III. 2000-4000 m.
Voucher: Pennell 13162 (F)
Depts.: AP, AR, CU, MO

Schkuhria multiflora var. **pusilla** (Weddell) Cabrera
Syn. *Schkuhria pusilla* Weddell
Ref. Heiser, 1945: 276.
Herb. Andean II-III. 3000-4000 m.
Voucher: Pennell 13364 (F)
Depts.: AP, PU

Schkuhria octoaristata DC. =Schkuhria pinnata var. octoaristata (DC.) Cabrera
Ref. Heiser, 1945: 269.

Schkuhria pinnata (Lamarck) Kuntze var. **abrotanoides** (Roth) Cabrera
Syn. *Schkuhria abrotanoides* Roth
Ref. Heiser, 1945: 270.
Herb. Andean II: disturbed areas. 2000-3000 m.
Voucher: Stork & Horton 10793 (F)
Depts.: AY, CU, HU

Schkuhria pinnata var. **octoaristata** (DC.) Cabrera
Syn. *Schkuhria octoaristata* DC.
Ref. Heiser, 1945: 269.
Herb. Andean II: rocky slopes. 2000-3500 m.
Voucher: Macbride 275 (F)
Depts.: AP, CU, LI

Schkuhria pinnata var. **pinnata**
Syn. *Pectis pinnata* Lamarck
Ref. Heiser, 1945: 268.
Herb. Andean I-II: disturbed areas, grasslands, rocky slopes, shrublands. 1000-3000 m.
Voucher: Croat 58388 (MO)
Depts.: AN, CA, CU, HU, LA, LL, PI

Schkuhria pusilla var. *aristata* Fries =Schkuhria multiflora var. multiflora
Ref. Cabrera, 1932: 192.

Schkuhria pusilla Weddell =Schkuhria multiflora var. pusilla (Weddell) Cabrera
Ref. Heiser, 1945: 276.

Senecio abadianus DC.
Syn. *Senecio pulchrifolius* Cabrera
Ref. Cabrera, 1955a: 194.
Shrub. Coastal: lomas. 0-500 m.
Voucher: Núñez 277* (LP), Pennell 14761 (MO)
Depts.: LI

Senecio aberrans Greenman
Ref. Greenman, 1923: 73.
Voucher: Pennell 3636 (NY)
Depts.: Without full locality data.

Senecio acarinus Cabrera
Ref. Cabrera, 1955a: 210.
Shrub. Coastal: lomas. 0-500 m.
Voucher: Núñez 1560* (LP)
Depts.: AR

Senecio aclydiphyllus Cuatrecasas =Pentacalia aclydiphylla (Cuatrecasas) Cuatrecasas
Ref. Cuatrecasas, 1964c: 149; Cuatrecasas, 1981b: 252.

Senecio adenophylloides Schultz-Bip.
Endemic shrub. Andean III. 4000- > 4500 m.
Note: For alternative treatment, see Cabrera (1985: 167).
Voucher: Lechler s.n.* (US), Dillon & Turner 1316 (F)
Depts.: AR, JU, LI, PU

Senecio adenophyllus Meyen & Walpers
Syn. *Senecio adenophyllus* var. *stipulata* Domke
Ref. Cabrera, 1985: 200.
Endemic shrub. Andean II-III. 3000- > 4500 m.
Voucher: Pennell 13303 (NY)
Depts.: AN, AR, CU, HV, LI, PU, TV

Senecio adenophyllus var. *angustifolius* Weddell =Senecio phylloleptus Cuatrecasas
Ref. Cabrera, 1955a: 224; Cabrera, 1985: 161.

Senecio adenophyllus var. *stipulata* Domke =Senecio adenophyllus Meyen & Walpers
Ref. Domke, 1936: 246.

Senecio adscendens Bojer =Senecio andinus Buek
Ref. Stearn, 1955: 66.

Senecio agapatensis Schultz-Bip. =Senecio ayapatensis Schultz-Bip.

Senecio allapajanus Cuatrecasas
Ref. Cuatrecasas, 1956c: 186.
Endemic herb. Andean II. 3000-3500 m.
Voucher: Ferreyra 7189* (US)
Depts.: AY

Senecio andinus Buek
Syn. *Senecio adscendens* Bojer, *Senecio floccoso-araneosus* Steudel
Ref. Stearn, 1955: 66.
Herb.
Note: Not reconfirmed. Not found at Geneva by Stearn.

Senecio antaicochensis Cuatrecasas
Ref. Cuatrecasas, 1951a: 67.
Endemic shrub. Andean III. 4000-4500 m.
Note: For alternative treatment, see Cabrera (1985).
Voucher: Pennell 14687* (F)
Depts.: LI

Senecio antennaria Weddell =Chersodoma antennaria (Weddell) Cabrera
Ref. Rusby, 1907: 393; Cabrera, 1985: 214.

Senecio arachnolomus Weddell
Endemic herb. Andean III. 3500-4500 m.
Voucher: Dombey s.n.* (P), Smith 11253 (F)
Depts.: AN

Senecio arbutifolius H.B.K. =Pentacalia arbutifolia (H.B.K.) Cuatrecasas
Ref. Cuatrecasas, 1981b: 253.

Senecio arequipensis Cuatrecasas =Chersodoma arequipensis (Cuatrecasas) Cuatrecasas
Ref. Cuatrecasas, 1951a: 62.

Senecio argutidentatus Cuatrecasas
Ref. Cuatrecasas, 1953c: 281.
Endemic herb. Andean III. 3500-4000 m.
Voucher: Vargas 2916a* (F)
Depts.: CU

Senecio arnaldii Cabrera
Ref. Cabrera, 1955a: 203.
Endemic herb. Coastal: lomas. 0-1000 m.
Voucher: López 0383* (HUT)
Depts.: LL

Senecio asclepiadeus DC. =Gynoxys longifolia Weddell

Senecio asplundii Cabrera =Pentacalia asplundii (Cabrera) Cuatrecasas
Ref. Cabrera, 1954b: 598.

Senecio attenuatus Schultz-Bip.
Ref. Cabrera, 1985: 156.
Endemic herb or subshrub. Andean II-III. 3000-4500 m.
Voucher: Rose & Rose 18808 (NY)
Depts.: AN, AR, CU

Senecio axillifoliatus Cuatrecasas
Ref. Cuatrecasas, 1953c: 283.
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Macbride & Featherstone 2259* (F)
Depts.: HU

Senecio ayapatensis Schultz-Bip.
Syn. *Senecio agapatensis* Schultz-Bip.
Ref. Cabrera, 1985: 178.
Endemic herb. Andean II-III. 2500-4000 m.
Voucher: Lechler 1903* (P), Sagástegui *et al.* 12044 (F)
Depts.: AN, CA, LL

Senecio bacopoides Greenman & Cuatrecasas =Pentacalia bacopoides (Greenman & Cuatrecasas) Cuatrecasas
Ref. Cuatrecasas, 1981b: 253.

Senecio biacuminatus Rusby
Ref. Cabrera, 1985: 140.
Liana. Andean II. 1500-2000 m.
Voucher: Boeke & Boeke 3205 (NY)
Depts.: PU

Senecio bolivarianus Cuatrecasas
Ref. Galán, 1989b: 118.
Endemic herb. Andean III: rocky slopes. 4000-4500 m.
Voucher: Lloyd & Marshall 257* (US), Tovar *et al.* 1294 (MAF, USM)
Depts.: CU, HU, JU

Senecio boliviensis Schultz-Bip.
Ref. Cabrera, 1985: 180.
Herb. Andean III. > 4500 m.
Voucher: Lloyd & Marshall 257* (K), Tovar *et al.* 1294 (USM)
Depts.: CU, HU, JU

Senecio breviscapus DC.
Syn. *Senecio wernerioides* Weddell
Ref. Cabrera, 1985: 108.
Herb. Andean III. 4000- > 4500 m.
Voucher: Weddell 4404* (P), Hutchison *et al.* 5887 (F)
Depts.: CU, JU, PA

Senecio brittonianus Hieronymus
Ref. Cabrera, 1954b: 588; Cabrera, 1985: 100.
Endemic shrub. Andean I. 1000-1500 m.
Voucher: Spruce 4811* (K)
Depts.: HU

Senecio buxifolia H.B.K. =Gynoxys buxifolia (H.B.K.) Cassini
Ref. King & Robinson, 1987: 504.

Senecio cajamarquillensis Cabrera
Ref. Cabrera, 1953: 39.
Endemic shrub. Andean III. 3500-4000 m.
Voucher: Ferreyra 1310* (MO), Ferreyra 1312 (LP)
Depts.: LL

Senecio calachaquensis Cabrera
Ref. Cabrera, 1955a: 227.
Endemic herb. Andean III. 3500-4000 m.
Voucher: Cerrate 1886* (MO!)
Depts.: LI

Senecio calcensis Cabrera & Zardini
Ref. Cabrera & Zardini, 1975: 380.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Marin 607* (LP)
Depts.: CU

Senecio calcicola Meyen & Walpers
Endemic shrub. Andean I. 500-1000 m.
Voucher: Meyen s.n.* (B photo F), Ferreyra 11677 (MO!)
Depts.: AR

Senecio callacallensis Cuatrecasas
Ref. Cuatrecasas, 1964c: 151; Nordenstam, 1978: 53.
Endemic herb. Andean II: bogs, shrublands. 2500-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 1277* (US)
Depts.: AM

Senecio calvus Cuatrecasas
Ref. Cuatrecasas, 1953c: 275.
Herb. Andean III. 4000- > 4500 m.
Voucher: Weberbauer 7239* (F)
Depts.: AN, JU

Senecio campanelliferus Cuatrecasas
Ref. Cuatrecasas, 1960: 192.
Endemic shrub. Andean III. 4000- > 4500 m.
Voucher: Rauh & Hirsch P2086* (US)
Depts.: AN

Senecio campanulatus Schultz-Bip. ex Klatt =Lasiocephalus campanulatus (Schultz-Bip. ex Klatt) Cuatrecasas
Ref. Cuatrecasas, 1978: 309.
Note: For alternative treatment, see Cabrera (1985: 84).

Senecio campanulatus var. *lanosissimus* Cabrera =Lasiocephalus campanulatus (Schultz-Bip. ex Klatt) Cuatrecasas
Ref. Cabrera, 1985: 115.

Senecio candollii Weddell
Syn. *Culcitium glaciale* Meyen & Walpers, *Culcitium humile* DC., *Senecio glacialis* (Meyen & Walpers) Cuatrecasas, *Senecio mandonianus* Weddell
Ref. Cabrera, 1966: 21; Cabrera, 1985: 112.
Endemic herb. Andean III. 3500- > 4500 m.
Voucher: Haenke s.n.* (PR), Macbride & Featherstone 868 (F)
Depts.: LI, PU

Senecio canescens (H.B.K.) Cuatrecasas var. **canescens**
Syn. *Culcitium canescens* Humboldt & Bonpland, *Culcitium rufescens* H.B.K.
Ref. Cuatrecasas, 1951a: 36; Cabrera, 1985: 115.
Herb. Andean III. 4000- > 4500 m.
Voucher: Bonpland 3049 (frag. F)
Depts.: AN, HU, JU, LL

Senecio canescens var. **monocephalus** (Weddell) Cuatrecasas
Syn. *Culcitium canescens* var. *monocephalum* Weddell
Ref. Cuatrecasas, 1951a: 37.
Herb. Andean I. 1000-1500 m.
Voucher: Herrera 1094 (US)
Depts.: AN, JU, LL

Senecio canopurpureus Cuatrecasas
Ref. Cuatrecasas, 1951a: 42.
Endemic shrub. Andean II-III. 3000-4000 m.
Voucher: Killip & Smith 22131* (US)
Depts.: JU

Senecio carpishensis Cuatrecasas =Pentacalia carpishensis (Cuatrecasas) Cuatrecasas
Ref. Cuatrecasas, 1981b: 244.

Senecio casapaltensis Ball
Endemic herb. Andean II. 2500-3000 m.
Voucher: Ball s.n.* (K)
Depts.: LI

Senecio cerrateae Cabrera
Ref. Cabrera, 1955a: 201.
Endemic shrub. Andean III. 3500-4000 m.
Voucher: Cerrate 1916* (LP)
Depts.: LI

Senecio chachaniensis Cuatrecasas
Ref. Cuatrecasas, 1951a: 44.
Endemic shrub. Andean III. 3500-4500 m.
Voucher: Pennell 13285* (US)
Depts.: AR

Senecio chachapoyensis Greenman =Pentacalia chachapoyensis (Greenman) Cuatrecasas
Ref. Cuatrecasas, 1981b: 245.

Senecio chavanilloensis Cuatrecasas
Ref. Cuatrecasas, 1953c: 269; Cabrera, 1985: 175.
Endemic herb. Andean II. 2000-2500 m.
Voucher: Macbride & Featherstone 1968* (US)
Depts.: HU, LI

Senecio chiquianensis Cabrera var. **chiquianensis**
Ref. Herrera, 1980: 25.
Endemic shrub. Andean II. 2500-3500 m.
Voucher: Ferreyra 7572 (F)
Depts.: AN, AY, CA, LL

Senecio chiquianensis var. **dentatus** Cabrera
Ref. Herrera, 1980: 29.

Endemic shrub. Andean II-III. 3000-4000 m.
Voucher: Ferreyra 6201 (F)
Depts.: AN

Senecio clivicolus Weddell var. **clivicolus** Cabrera
Syn. *Senecio pampae* var. *penicillatus* Lingelsheim
Ref. Cabrera, 1985: 186.
Shrub. Andean III. 3500-4000 m.
Voucher: Mexia 4259 (MO)
Depts.: PU

Senecio collinus DC.
Ref. Cabrera, 1955a: 207.
Shrub. Andean III. 3500-4500 m.
Voucher: Haenke s.n.* (G photo F), Macbride & Featherstone 964 (F)
Depts.: AN, JU, HV, LI, PU

Senecio comosus Schultz-Bip. var. **blancus** Cuatrecasas
Ref. Cuatrecasas, 1951a: 63.
Endemic herb. Andean II-III. 2500-4000 m.
Voucher: Macbride & Featherstone 712* (US), Killip & Smith 21622 (US)
Depts.: LI

Senecio comosus var. **comosus** Cabrera
Ref. Cabrera, 1985: 116.
Herb. Andean III. 3500-4500 m.
Voucher: Lechler 2051* (P), Bang 1240 (MO)
Depts.: JU, PU

Senecio comosus var. **culcitioides** (Schultz-Bip.) Cabrera
Ref. Cabrera, 1985: 116.
Herb.
Voucher: Lechler 2051a* (P), Asplund 4043 (US)
Depts.: AN, AR, HU, LI, PU

Senecio comosus var. **debilis** Cuatrecasas
Ref. Cuatrecasas, 1951a: 63.
Endemic herb. Andean II. 3000-3500 m.
Voucher: Soukup 2740* (US)
Depts.: JU, HU

Senecio condimentarius Cabrera
Syn. *Senecio rhizocephalus* A. Gray ex Weddell
Ref. Cabrera, 1954b: 554.
Herb. Andean III. 3500-4500 m.
Voucher: Cerrate 1572* (LP), Núñez 3360 (LP)
Depts.: AN, HU, JU

Senecio cosnipatense Cabrera
Ref. Cabrera, 1955a: 236.
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Núñez 1179* (LP), Núñez 1451 (LP)
Depts.: CU

Senecio coymolachensis Cabrera
Ref. Cabrera, 1953: 39.
Endemic herb. Andean II-III. 3000-4500 m.
Voucher: Weberbauer 3977* (MOL) Dillon & Turner 1638A (F)
Depts.: CA

Senecio crassilodix Cuatrecasas
Ref. Cuatrecasas, 1953c: 280.
Endemic shrub. Andean III. 4000-4500 m.
Voucher: Schmidt s.n.* (F)
Depts.: AR

[Senecio crepidifolius DC.]
Ref. Cabrera, 1985: 176.
Note: Not known from Peru.

Senecio cuatrecasasii Cabrera
Ref. Cabrera, 1944: 194.
Endemic shrub. Andean III. 3500-4000 m.
Voucher: Vargas 4045* (LP)
Depts.: CU

Senecio culciklattii Cuatrecasas
Syn. *Culcitium peruvianum* Klatt
Ref. Cuatrecasas, 1951a: 43.
Herb.
Voucher: Collector unknown s.n.* (W photo F)

Senecio culcitioides Schultz-Bip.
Herb. Andean III. > 4500 m.
Note: For alternative treatment, see Cabrera (1985: 116).
Voucher: Hutchison & Tovar 4255 (F)
Depts.: AN, LI

Senecio cumingii Hooker & Arnott
Ref. Cabrera, 1949: 391.
Herb. Andean II. 2500-3500 m.
Voucher: Weberbauer 7313 (F)
Depts.: MO

Senecio curvidens Schultz-Bip.
Ref. Cabrera, 1985: 136.
Shrub. Andean II. 1500-3500 m.
Voucher: Lechler 2658* (B), Metcalf 30642
Depts.: PU

Senecio cuzcoensis Cabrera =Pentacalia oronocensis (DC.) Cuatrecasas
Ref. Cabrera, 1944: 196.
Note: For alternative treatment, see Cabrera (1985: 102).

Senecio danai A. Gray
Endemic herb. Andean III. 4000-4500 m.
Voucher: Wilkes Exped. s.n.* (US), Hutchison *et al.* 5900 (F)
Depts.: JU, PA

Senecio diclinus Weddell =Chersodoma diclina (Weddell) Cabrera
Ref. Cabrera, 1985: 214.

Senecio diosmoides Turczaninow =Pentacalia peruviana (Persoon) Cuatrecasas
Ref. Cabrera, 1959a: 244.

Ref. Cuatrecasas, 1960: 183.

Senecio ishcaivilcanus Cuatrecasas
Ref. Cuatrecasas, 1960: 188.
Endemic herb. Andean III. 3500-4500 m.

Voucher: Ellenberg 1954* (U), Sánchez 793 (F)
Depts.: CA

Senecio jalcanus Cuatrecasas =Pentacalia jalcana (Cuatrecasas) Cuatrecasas
Ref. Cuatrecasas, 1964c: 152; Cuatrecasas, 1981b: 247.

Senecio jamesonii Spruce ex Klatt =Pseudogynoxys sonchoides (H.B.K.) Cuatrecasas
Ref. Robinson & Cuatrecasas, 1977: 189.

Senecio jarae Philippi
Herb. Andean III. 4000-4500 m.
Voucher: Bernardi *et al.* 16755 (F)
Depts.: PU

Senecio jelskii Hieronymus =Pentacalia jelskii (Hieronymus) Cuatrecasas
Ref. Cuatrecasas, 1981b: 249.
Note: For alternative treatment, see Cabrera (1985: 92).

Senecio jodopappus Schultz-Bip. =Chersodoma jodopappa (Schultz-Bip.) Cabrera
Ref. Cabrera, 1946: 350.

Senecio juanisernii Cuatrecasas =Chersodoma juanisernii (Cuatrecasas) Cuatrecasas
Ref. Cuatrecasas, 1960: 183.
Note: Based on *Senecio isernii* Cuatrecasas, nom. illeg. (non Philippi).

Senecio jungioides Cabrera
Ref. Cabrera, 1954b: 558.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: López 633* (HUT)
Depts.: HU, LL

Senecio jussieui Klatt =Pseudogynoxys cordifolia (Cassini) Cabrera
Ref. Robinson & Cuatrecasas, 1977: 185.

Senecio kingbishopii Cuatrecasas
Ref. Cuatrecasas, 1985c: 625.
Endemic shrub. Andean II: disturbed areas. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: King & Bishop 9144* (F!)
Depts.: CA

Senecio klattii Greenman
Syn. *Senecio roseus* Klatt, non Schultz-Bip.
Ref. Greenman, 1914: 281.
Endemic herb. Andean III. 3500-4500 m.
Voucher: Besser s.n.* (B), Smith *et al.* 12335* (F)
Depts.: AN

Senecio klugii Greenman =Pentacalia reflexa (H.B.K.) Cuatrecasas
Ref. Greenman, 1938: 806.

Senecio laciniatus H.B.K. =Dorobaea pimpinellifolius (H.B.K.) B. Nordenstam
Ref. Nordenstam, 1978: 53.

Senecio lancidentatus Cuatrecasas
Ref. Cuatrecasas, 1951a: 58.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Macbride & Featherstone 1826* (F)
Depts.: HU

Senecio laricifolius H.B.K.
Syn. *Senecio morrensis* Hieronymus
Shrub. Andean I-II. 1000-2000 m.
Voucher: Dillon *et al.* 2828 (F)
Depts.: AM, AR, CA, LL, SM

Senecio leucophorbius Cuatrecasas
Ref. Cuatrecasas, 1951a: 39.
Endemic herb. Andean III. 4000-> 4500 m.
Voucher: Weberbauer 7241* (F)
Depts.: AN

Senecio llewelynii Cuatrecasas
Ref. Cuatrecasas, 1951a: 39.
Endemic shrub. Andean II. 2500-3500 m.
Voucher: Williams 7589* (F)
Depts.: AM

Senecio loeseneri Hieronymus =Lasiocephalus loesneri (Hieronymus) Cuatrecasas
Ref. Greenman, 1938: 806.
Note: For alternative treatment, see Cabrera (1985: 86).

Senecio lomincola Cabrera
Ref. Cabrera, 1955a: 195.
Endemic shrub. Andean I. 500-1000 m.
Voucher: Núñez 2247* (LP), Ferreyra 8043 (USM)
Depts.: AN, AR, LI

Senecio longistylus Greenman & Cuatrecasas =Gynoxys longistyla (Greenman & Cuatrecasas) Cuatrecasas
Ref. Cuatrecasas, 1953c: 292.

Senecio lopez-mirandae Cabrera
Ref. Cabrera, 1953: 43.
Endemic shrub. Andean II-III. 3000-4000 m.
Voucher: López 0461* (HUT, LP), Weberbauer 6602 (F)
Depts.: LL

Senecio loretensis Cuatrecasas =Pentacalia loretensis (Cuatrecasas) Cuatrecasas
Ref. Cuatrecasas, 1981b: 248.

Senecio lucidissimus Cuatrecasas =Pentacalia lucidissima (Cuatrecasas) Cuatrecasas
Ref. Cuatrecasas, 1981b: 248.

Senecio macbridei Greenman =Pentacalia reflexa (H.B.K.) Cuatrecasas
Ref. Greenman, 1938: 808.

Senecio macrorrhizus Weddell
Endemic herb. Andean III. 4000-> 4500 m.
Voucher: Gay s.n.* (P), Dillon 2541 (F)
Depts.: AN, PA

Senecio mandonianus Weddell =Senecio candollii Weddell
Ref. Cabrera, 1985: 112.

Senecio marinii Cabrera =Pentacalia marinii (Cabrera) Cuatrecasas
Ref. Cuatrecasas, 1981b: 248.
Note: For alternative treatment, see Cabrera (1985: 100).

Senecio mathewsii Weddell
Ref. Cabrera, 1955a: 218.
Endemic shrub. Andean II-III. 3000-4500 m.
Voucher: Gay s.n.* (P photo F), Vargas 8352 (LP)
Depts.: AN, CU

Senecio megaphlebius Greenman & Cuatrecasas =Pentacalia megaphlebia (Greenman & Cuatrecasas) Cuatrecasas
Ref. Cuatrecasas, 1981b: 248.

Senecio melanocalyx Cuatrecasas
Syn. *Senecio melanocalyx* fo. *discoideus* Cuatrecasas
Ref. Cabrera, 1955a: 218.
Endemic shrub. Andean II-III. 3000-4000 m.
Voucher: Macbride & Featherstone 1766 (F)
Depts.: AN, CU, HU, HV

Senecio melanocalyx fo. *discoideus* Cuatrecasas =Senecio melanocalyx Cuatrecasas
Ref. Cabrera, 1955a: 218.

Senecio melanolepis DC.
Syn. *Senecio melanolepis* var. *medius* D.C.
Ref. Cabrera, 1955a: 218.
Endemic shrub. Andean III. 3500-4500 m.
Voucher: Haenke s.n.* (P), Ferreyra 4110 (LP)
Depts.: JU, PA

Senecio melanolepis var. *medius* D.C. =Senecio melanolepis DC.
Ref. Cabrera, 1955a: 218.

Senecio mikaniaefolius (DC.) Schultz-Bip =Paracalia jungioides (Hooker & Arnott) Cuatrecasas

Senecio minesinus Cuatrecasas
Ref. Cuatrecasas, 1951a: 69.
Endemic shrub. Andean II-III. 3000-4500 m.
Voucher: Macbride & Featherstone 2470* (US), Macbride & Featherstone 2169 (US)
Depts.: AM, AN CA, HU

Senecio miniauritus Sagástegui & Dillon
Ref. Sagástegui & Dillon, 1985a: 11.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Dillon & Turner 1732* (F), Barbour 3410 (MO)
Depts.: AM

Senecio mitonis Cuatrecasas
Ref. Cuatrecasas, 1951a: 40.

Endemic herb. Andean II: grasslands. 2500-3000 m.
Voucher: Macbride & Featherstone 1807* (US)
Depts.: HU

Senecio modestus Weddell
Ref. Cabrera, 1985: 114.
Endemic herb. Andean II. 2500-3000 m.
Voucher: Weddell 4745* (P), Macbride & Featherstone 610 (F)
Depts.: LI

Senecio mollendoensis Cabrera
Ref. Cabrera, 1962: 35.
Endemic herb or subshrub.
Voucher: Williams 2529* (K), Cuming 944 (K)
Depts.: AR

Senecio morrensis Hieronymus =Senecio laricifolius H.B.K.

Senecio neeanus Cuatrecasas
Syn. *Culcitium neaei* Schultz-Bip
Ref. Cuatrecasas, 1951a: 44; Cabrera, 1985: 114.
Endemic herb. Andean III. > 4500 m.
Voucher: Haenke s.n.* (P), Herrera 2185 (F)
Depts.: CU

Senecio neoglandulosus Cuatrecasas
Ref. Cuatrecasas, 1951a: 44.
Shrub. Andean II: grasslands. 2500-3000 m.
Voucher: Macbride & Featherstone 1597* (US)
Depts.: AM

Senecio neoviscosus Cuatrecasas
Ref. Cuatrecasas, 1953c: 271.
Endemic herb. Andean II. 3000-3500 m.
Voucher: Weberbauer 7466* (F)
Depts.: MO

Senecio neovolubilis Cuatrecasas =Pseudogynoxys scabra (Bentham) Cuatrecasas
Ref. Robinson & Cuatrecasas, 1977: 187.

Senecio nivalis (H.B.K.) Cuatrecasas
Syn. *Culcitium nivale* H.B.K.
Ref. Cuatrecasas, 1950b: 44.
Herb. Andean III. > 4500 m.
Voucher: Smith *et al.* 11762 (MO)
Depts.: AN

Senecio nutans Schultz-Bip.
Ref. Cabrera, 1985: 192.
Shrub. Andean II-III. 3000- > 4500 m.
Voucher: Lechler 1747* (P), Pennell 13297 (MO)
Depts.: AN, AR, AY, LI, PU, TA

Senecio ochoanus Cuatrecasas
Ref. Cuatrecasas, 1956c: 188.
Endemic herb or subshrub. Andean III. 3500-4000 m.
Voucher: Ochoa 478* (US)
Depts.: PA

Senecio octophyllus Schultz-Bip. ex Rusby
Ref. Cabrera, 1985: 196.
Shrub. Andean III. 4000-4500 m.
Voucher: Pennell 13296 (F)
Depts.: AR

Senecio okopanus Cabrera
Ref. Cabrera, 1962: 36.
Endemic herb. Coastal. 0-1000 m.
Voucher: Ferrerya 11975* (LP), Ferrerya 11466 (LP)
Depts.: AR

Senecio oronocensis DC. =Pentacalia oronocensis (DC.) Cuatrecasas
Ref. Cabrera, 1985: 102.

Senecio otuscensis Cabrera
Ref. Cabrera, 1953: 43.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: López 0481* (HUT, LP)
Depts.: LL

Senecio ovopedatus Cuatrecasas =Chersodoma ovopedata (Cuatrecasas) Cuatrecasas
Ref. Cuatrecasas, 1953c: 290.

Senecio pampae var. *penicillatus* Lingelsheim =Senecio clivicolus var. clivicolus Cabrera
Ref. Cabrera, 1985: 186.

Senecio panticallensis Cabrera
Ref. Cabrera, 1947: 157; Cabrera, 1954b: 581.
Endemic subshrub. Andean II. 3000-3500 m.
Voucher: Vargas 4406* (LP), Marin 2250 (F)
Depts.: AP, CU

Senecio parvocapitatus Cabrera
Ref. Cabrera, 1955a: 212.
Endemic shrub. Andean II-III. 3000-4000 m.
Voucher: Vargas 8279* (LP), Davis *et al.* 1354 (F)
Depts.: CU

Senecio patens (H.B.K.) DC. =Lasiocephalus patens (H.B.K.) Cuatrecasas
Ref. Nordenstam, 1978: 44.

Senecio pavonii Weddell
Syn. *Culcitium pavonii* Weddell
Ref. Cuatrecasas, 1951a: 44.
Voucher: Pavón s.n.*
Depts.: Without full locality data.

Senecio pellitus A. Gray
Herb.
Note: For alternative treatment, see Cabrera (1950: 115).
Voucher: Wilkes Exped. s.n.* (US)
Depts.: Without full locality data.

Senecio pensilis Greenman
Ref. Cabrera, 1985: 148.
Subshrub. Andean III. > 4500 m.
Voucher: Macbride & Featherstone 796 (F)
Depts.: HU, LI

Senecio szyszylowiczii Hieronymus
Ref. Cabrera, 1954b: 561.
Endemic shrub. Andean II. 1500-3500 m.
Voucher: Jelski 798* (B photo F), Sagástegui *et al.* 10812 (F)
Depts.: CA, LL

Senecio tacorensis Cabrera
Ref. Cabrera, 1962: 38.
Shrub.
Voucher: Pearce s.n.* (K)
Depts.: TA

Senecio tarapotensis Cabrera =Pentacalis tarapotensis (Cabrera) Cuatrecasas
Ref. Cabrera, 1954b: 589.

Senecio tenuisagittatus Cuatrecasas
Ref. Cuatrecasas, 1953c: 277.
Endemic herb. Andean II. 2500-3000 m.
Voucher: Macbride & Featherstone 1806* (F)
Depts.: HU

Senecio tephrosioides Turczaninow
Ref. Cabrera, 1985: 125.
Herb. Andean II-III. 3000-4500 m.
Note: Probably synonymous with *S. punasessilis* (Cuatrecasas, 1951a: 65).
Voucher: Peyton & Peyton 923 (F)
Depts.: AN, CU, PI, PU

Senecio tergopurpurens Cuatrecasas
Ref. Cuatrecasas, 1953c: 263; Cabrera, 1985: 131.
Shrub. Andean II. 2000-2500 m.
Voucher: West 6457* (GH)
Depts.: CU

Senecio theresiae O. Hoffmann
Syn. *Senecio pinnatus* var. *divaricoides* Cuatrecasas
Ref. Cabrera, 1944: 204.
Endemic shrub.
Voucher: Bayern s.n.* (BD), Weberbauer 48 (BD photo F)
Depts.: LI

Senecio timidus Cuatrecasas
Ref. Cuatrecasas, 1951a: 66.
Endemic herb. Andean III. > 4500 m.
Voucher: Killip & Smith 22040* (F)
Depts.: JU

Senecio tingoensis Cabrera & Zardini
Ref. Cabrera & Zardini, 1975: 387.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: López & Sagástegui 3531* (LP)
Depts.: AN, CA, LL

Senecio torrehuasensis Cuatrecasas
Ref. Cuatrecasas, 1953c: 267.
Endemic shrub. Andean III. 4000-4500 m.
Voucher: Woytkowski 34304* (F)
Depts.: HU

Senecio tovarii Cabrera
Ref. Cabrera, 1955a: 198.
Endemic shrub. Andean II. 1500-3000 m.
Voucher: Ferreyra 6056* (LP), Goodspeed 33112 (MO)
Depts.: AY, LI

Senecio tridentatus DC.
Note: Not reconfirmed. Known only from the literature.
Voucher: Haenke s.n.* (PR)
Depts.: Without full locality data.

Senecio trifurcifolius Hieronymus
Ref. Cabrera, 1985: 210.
Endemic subshrub. Andean III. 4000- > 4500 m.
Voucher: Stubel 105* (MO), Werdermann 1153 (K)
Depts.: TA

Senecio trigynus Cuatrecasas
Ref. Cuatrecasas, 1956c: 189.
Shrub. Andean II-III. 3000-4000 m.
Voucher: Gay 2051* (P)
Depts.: CU

Senecio truxillensis Cabrera
Ref. Cabrera, 1955a: 199.
Endemic shrub. Andean I. 500-1000 m.
Voucher: López 0175* (US), López 0834 (LP)
Depts.: LL

Senecio tubicapillosus Cuatrecasas
Ref. Cuatrecasas, 1960: 192.
Endemic herb. Andean III. 4000- > 4500 m.
Voucher: Rauh & Hirsch P1806* (NY), Rauh & Hirsch P1896 (NY)
Depts.: AN

Senecio tuestae Cuatrecasas =Aequatorium tuestae (Cuatrecasas) H. Robinson & Cuatrecasas
Ref. Cuatrecasas, 1951a: 46.

Senecio urubambense Cabrera =Pentacalia urubambensis (Cabrera) Cuatrecasas
Ref. Cuatrecasas, 1981b: 251.

Senecio usgorensis Cuatrecasas
Syn. *Senecio elatus* H.B.K.
Ref. Cuatrecasas, 1954a: 244.
Endemic shrub. Andean II. 2500-3500 m.
Voucher: Ferreyra 7565* (F)
Depts.: AN, CA

Senecio valerianifolius Wolf =Erechtites valerianifolia (Wolf) DC.
Ref. Belcher, 1956: 25.

Senecio vallestris DC.
Ref. Cabrera, 1955a: 217.
Endemic herb. Andean II-III. 3000-4000 m.
Note: For alternative treatment, see Cabrera (1985: 163).
Voucher: Haenke s.n.* (PR), Killip & Smith 21750 (F)
Depts.: CU, LI, PU

Senecio vanillodorus Cabrera
Ref. Cabrera, 1955a: 238.
Endemic shrub. Andean I. 1000-1500 m.
Voucher: Ridoutt 0512* (LP)
Depts.: CA

Senecio vargasii Cabrera
Ref. Cabrera, 1944: 225.
Endemic shrub. Andean II. 1500-2000 m.
Voucher: Vargas 3481* (LP)
Depts.: CU

Senecio vegetus (Weddell) Cabrera
Syn. *Senecio humillimus* var. *vegetus* (Weddell) Cabrera
Ref. Cabrera, 1985: 205.
Herb. Andean III. 3500- > 4500 m.
Voucher: Gay s.n.* (P), Weberbauer 7419 (MO)
Depts.: AY, PU, CU

Senecio velardei Cuatrecasas
Ref. Cabrera, 1950b: 109.
Endemic herb. Andean II. 2000-3000 m.
Voucher: Velarde 1024* (LP), Pennell 14587 (F)
Depts.: LI

Senecio vernicifolius Cuatrecasas =Pentacalia vernicifolia (Cuatrecasas) Cuatrecasas
Ref. Cuatrecasas, 1956c: 190.

Senecio verticillatus Klatt =Pentacalia verticillata (Klatt) Cuatrecasas
Ref. Cuatrecasas, 1981b: 260.

Senecio verticillatus var. *trichophorus* Greenman =Pentacalia verticillata (Klatt) Cuatrecasas
Ref. Greenman, 1938: 822.

Senecio volubilis Hooker =Pseudogynoxys cordifolia (Cassini) Cabrera
Ref. Robinson & Cuatrecasas, 1977: 185.

Senecio vulgaris L.
Ref. Cabrera, 1985: 107.
Herb. Andean I-III. 500-4000 m.
Voucher: Sagástegui 7648 (F)
Depts.: AR, CA, CU, LI, LL

Senecio weberbaueri Cuatrecasas
Ref. Cuatrecasas, 1951a: 41.
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Weberbauer 6618* (F)
Depts.: AR

Senecio wernerioides Weddell =Senecio breviscapus DC.
Ref. Cabrera, 1985: 108.

Senecio woodsonianus Cuatrecasas
Ref. Cuatrecasas, 1965: 304.
Endemic herb. Andean II-III. 3000-4000 m.
Voucher: Wurdack 1954* (US)
Depts.: AM

Senecio woytkowskii Cuatrecasas =Gynoxys woytkowskii (Cuatrecasas) Cuatrecasas
Ref. Cuatrecasas, 1951a: 49.

Senecio wurdackii Cuatrecasas =Pentacalia wurdackii (Cuatrecasas) Cuatrecasas
Ref. Cuatrecasas, 1964c: 153; Cuatrecasas, 1981b: 251.

Senecio yalusay Cabrera fo. **ligulata** Cuatrecasas
Ref. Cuatrecasas, 1960: 194.
Endemic herb. Andean II. 2500-3500 m.
Voucher: Killip & Smith 24425* (US)
Depts.: JU

Senecio yalusay fo. **yalusay**
Ref. Cabrera, 1950b: 112.
Endemic herb or shrub. Andean II. 3000-3500 m.
Voucher: Ochoa 542* (LP)
Depts.: LU

Senecio yauyensis Cabrera
Ref. Cabrera, 1955a: 205.
Endemic shrub. Andean III. 3500-4000 m.
Voucher: Cerrate & Tovar 1140* (LP, USM)
Depts.: AR, LI

Senecio yunguyensis Cuatrecasas
Ref. Cuatrecasas, 1953c: 279.
Endemic herb. Andean I-II. 1000-2000 m.
Voucher: Soukup 589* (F)
Depts.: PU

Senecio yurensis Rusby
Ref. Cabrera, 1950b: 115.
Endemic shrub. Andean II. 2500-3500 m.
Voucher: Williams 2565* (NY), Rose & Rose 18830 (MO)
Depts.: AR

Seris castelnaeana (Weddell) Kuntze =Onoseris castelnaeana Weddell

Seris speciosa (H.B.K.) Kuntze =Onoseris speciosa H.B.K.
Ref. Harling, 1991: 38.

Siegesbeckia agrestis Poeppig
Herb. Andean II: disturbed areas. 1500-2000 m.
Voucher: Woytkowski 37029 (F!)
Depts.: HU, JU

Siegesbeckia cordifolia H.B.K.
Herb. Andean II: disturbed areas. 2500-3000 m.
Voucher: Marin 230 (F!)
Depts.: CU

Siegesbeckia flosculosa L'Héritier
Herb. Andean II. 1500-2500 m.
Voucher: Dombey s.n.* (P), Sagástegui 8740 (F!)
Depts.: LI, LL, PI

Siegesbeckia jorullensis H.B.K.
Herb. Andean II-III: disturbed areas, rocky slopes. 2500-4000 m.
Voucher: Sánchez 2732 (F!)
Dept.: AN, CA, CU, HU, LI, SM

Siegesbeckia orientalis L.
Introduced herb. Coastal: disturbed areas. 0-500 m.
Voucher: Sagástegui 7874 (F!)
Depts.: LL

Siegesbeckia serrata DC.
Herb. Andean II: disturbed areas. 1500-3500 m.
Voucher: Macbride & Featherstone 1681 (F!)
Depts.: CU, JU, HU

Silphium trilobatum L. =Complaya trilobata (L.) Strother
Ref. Strother, 1991: 14.

Silybum marianum (L.) Gaertner
Syn. *Carduus marianus* L.
Ref. FP n.s. 10 1982: 6.
Cultivated and introduced herb. Andean II-III: disturbed areas. 3000-4000 m.
Voucher: Dillon & Turner 1569 (F!, USM!)
Depts.: CA, JU, LL, PA, PU

Sinblocline haenkei DC. =Diplostephium haenkei (DC.) Weddell
Ref. Blake, 1928b: 59.

Simsia dombeyana DC.
Syn. *Encelia hirsuta* fo. *radiata* Kuntze
Herb. Andean I, Coastal. 0-1500 m.
Voucher: Dombey s.n.* (G), Sagástegui 8740 (F!)
Depts.: LI, LL, PI

Smallanthus fruticosus (Bentham) H. Robinson
Syn. *Polymnia fruticosa* Bentham
Ref. Robinson, 1978b: 49.
Shrub. Andean II-III: shrublands. 3000-4000 m.
Voucher: Smith *et al.* 12137 (F!)
Depts.: AN, HU

Smallanthus glabratus (DC.) H. Robinson
Syn. *Polymnia glabrata* DC.
Ref. Robinson, 1978b: 49.
Cultivated shrub or treelet. Andean I-II: elfin forests, riversides, rocky slopes. 500-3500 m.
Voucher: Pennell 14542 (F!)
Depts.: AN, AP, CA, HU, LI, LL

Smallanthus jelskii (Hieronymus) H. Robinson
Syn. *Polymnia jelskii* Hieronymus
Ref. Robinson, 1978b: 49.
Endemic treelet. Andean II. 2000-3500 m.
Voucher: Jelski 687* (US!)
Depts.: AM, CA

Smallanthus parviceps (S. F. Blake) H. Robinson
Syn. *Polymnia parviceps* S. F. Blake
Ref. Robinson, 1978b: 51.
Subshrub. Andean II-III: grasslands, riversides. 2000-4000 m.
Voucher: Cook & Gilbert 818* (US!)
Depts.: AY, CA, CU, LA, PI, PU

Smallanthus riparius (H.B.K.) H. Robinson
Syn. *Polymnia riparia* H.B.K.
Ref. Robinson, 1978b: 51.
Shrub.
Note: No vouchers cited by Robinson (1987b)

Smallanthus siegesbeckius (DC.) H. Robinson
Syn. *Polymnia siegesbeckia* DC.
Ref. Robinson, 1978b: 51.
Herb. Andean I-II: disturbed areas, forests. 500-2000 m.
Voucher: Klug 3399 (F!)
Depts.: CU, JU, SM

Smallanthus sonchifolius (Poeppig & Engler) H. Robinson
Syn. *Polymnia edulis* Weddell, *Polymnia sonchifolia* Poeppig
Ref. Robinson, 1978b: 51.
Cultivated herb. Andean II. 2500-3000 m.
Voucher: Macbride 3421 (F!)
Depts.: HU

Sobreyra oblonga R. & P. =Enydra sessilifolia (R. & P.) Cabrera

Sobreyra sessilifolia R. & P. =Enydra sessilifolia (R. & P.) Cabrera
Ref. Cabrera, 1960: 206.

Soliva mexicana DC. =Cotula mexicana (DC.) Cabrera
Ref. FP n.s. 7 1981: 7; Cabrera, 1960: 207.

Soliva minuta (L. f.) Sweet =Cotula mexicana (DC.) Cabrera
Ref. FP n.s. 7 1981: 7; Cabrera, 1960: 207.

Soliva nasturtiifolia (Jussieu) DC. =Soliva stolonifera (Brotherus) Loudon
Ref. FP n.s. 7 1981: 17.

Soliva neglecta Cabrera
Ref. FP n.s. 7 1981: 16.
Herb. Andean III: disturbed areas. 3500-4000 m.
Voucher: Cerrate 2515 (MO!)
Depts.: AN

Soliva pedicellata R. & P. =Cotula mexicana (DC.) Cabrera
Ref. FP n.s. 7 1981: 7; Cabrera, 1960: 207.

Soliva pedunculata R. & P. ex Steudel =Cotula mexicana (DC.) Cabrera
Ref. FP n.s. 7 1981: 7; Cabrera, 1960: 207.

Soliva pygmaea H.B.K. =Cotula mexicana (DC.) Cabrera
Ref. FP n.s. 7 1981: 7; Cabrera, 1960: 207.

Soliva stolonifera (Brotherus) Loudon
Syn. *Gymnostyles nasturtiifolia* Jussieu, *Hippia stolonifera* Brotherus, *Soliva nasturtiifolia* (Jussieu) DC.
Ref. FP n.s. 7 1981: 17.
Introduced herb. Andean II: disturbed areas. 3000-3500 m.
Voucher: Macbride & Featherstone 819 (F!)
Depts.: LI

Sonchus asper (L.) Hill =Picrosia longifolia D. Don
Ref. Boulos, 1960: 412.

Sonchus oleraceus L.
Ref. Boulos, 1960: 412.
Introduced herb. Amazonian, Andean I-II, Coastal. 0-3000 m.
Voucher: Dillon 2600 (F!)
Depts.: AR, CA, CU, JU, LI, LL, MO, PU, SM, TA

Sonchus oleraceus var. *asper* L. =Picrosia longifolia D. Don

Sparganophorus americanum Poiret =Struchium sparganophorum (L.) Kuntze
Ref. FP n.s. 5 1980: 60.

Ref. FP n.s. 5 1980: 39.

Stemmatella urticifolia var. *eglandulosa* Hieronymus =Galinsoga quadriradiata R. & P.
Ref. Hieronymus, 1905: 487; Canne, 1977: 355.

Stevia andina B. Robinson
Ref. King & Robinson, 1987: 173, 564.

Herb. Andean II. 1500-3000 m.
Voucher: Sagástegui 9838 (F)
Depts.: AM, CA, CU

Stevia cajabambensis Hieronymus
Ref. King & Robinson, 1987: 173, 565.
Endemic herb. Andean II-III: grasslands. 2000-4000 m.
Voucher: Weberbauer 3124* (B photo F), Mostacero 1254 (F)
Depts.: AM, AN, AP, CA, CU, LL

Stevia cathartica Poeppig
Ref. King & Robinson, 1987: 173, 565.
Endemic herb.
Voucher: Poeppig 1380* (W)
Depts.: Without full locality data.

Stevia cuzcoensis Hieronymus
Ref. King & Robinson, 1987: 173, 565.
Endemic herb. Andean II-III: grasslands, riversides, rocky slopes, shrublands. 2500-4000 m.
Voucher: Weberbauer 4851* (B photo F), Herrera 2353 (F)
Depts.: AM, CU

Stevia galeopsidifolia Hieronymus
Ref. King & Robinson, 1987: 174, 566.
Subshrub. Andean II: grasslands, shrublands. 2500-3500 m.
Voucher: Vargas 9927 (F)
Depts.: CU

Stevia herrerae B. Robinson
Ref. King & Robinson, 1987: 174, 566.
Endemic herb or subshrub. Andean II: rocky slopes, shrublands. 1500-3000 m.
Voucher: Herrera s.n.* (F), Killip & Smith 22288 (F)
Depts.: AY, CA, CU

Stevia hoppii B. Robinson
Ref. King & Robinson, 1987: 174, 566.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Hopp 3* (B photo GH)
Depts.: AR

Stevia lechleri Hieronymus
Ref. King & Robinson, 1987: 174, 566.
Endemic herb.
Voucher: Lechler 1869* (B)
Depts.: Without full locality data.

Stevia leucosticta B. Robinson
Ref. King & Robinson, 1987: 174, 566.
Endemic subshrub. Andean II: shrublands. 2500-3000 m.
Voucher: Macbride & Featherstone 1382* (F)
Depts.: HU

Stevia macbridei B. Robinson
Syn. *Stevia macbridei* var. *anomala* B. Robinson
Ref. King & Robinson, 1987: 174, 567.
Endemic herb. Andean II-III: grasslands, shrublands. 2000-4000 m.
Voucher: Macbride & Featherstone 1613* (F), Tovar 985 (F)
Depts.: AM, AN, AP, AY, CA, CU, HU, HV, JU, LI, LL, PU

Stevia macbridei var. *anomala* B. Robinson =Stevia macbridei B. Robinson
Ref.B. Robinson, 1930: 9.

Stevia maimarensis (Hieronymus) Cabrera
Syn. *Stevia satureifolia* var. *maimarensis* Hieronymus
Ref. King & Robinson, 1987: 174, 567.
Shrub. Andean II. 2500-3000 m.
Voucher: Panero *et al.* 872 (US)
Depts.: CA

Stevia mandonii Schultz-Bip.
Ref. King & Robinson, 1987: 174, 567.
Herb. Andean III. 3500-4000 m.
Voucher: Pennell 13372 (F)
Depts.: CA, CU, PU

Stevia melissiifolia (Lamarck) Schultz-Bip.
Syn. *Eupatorium melissifolium* Lamarck
Ref. King & Robinson, 1987: 567.
Endemic herb. Andean I-II, Coastal: lomas. 0-3000 m.
Voucher: Sagástegui 10641 (F)
Depts.: AR, CA, LI

Stevia ovata Willdenow
Syn. *Stevia rhombifolia* H.B.K.
Ref. King & Robinson, 1987: 174, 567.
Herb. Amazonian, Andean I-III, Coastal. 0-4000 m.
Voucher: Brunel 898 (US)
Depts.: AM, AN, AP, AR, AY, CA, CU, HU, HV, JU, PU

Stevia pabloensis Hieronymus
Ref. King & Robinson, 1987: 174, 567.
Endemic shrub or subshrub. Andean II-III: shrublands. 2000-4000 m.
Voucher: Weberbauer 3860* (B photo F), Sánchez 2828 (F)
Depts.: CA, CU

Stevia pearcei B. Robinson
Ref. King & Robinson, 1987: 174, 567.
Endemic shrub. Andean II. 2000-3000 m.
Voucher: Pearce 104* (K photo & frag. GH), Smith 12018 (US)
Depts.: AN, HU, LI

Stevia pennellii B. Robinson
Ref. King & Robinson, 1987: 174, 567.
Endemic herb. Andean III: grasslands, shrublands. 3500-4000 m.
Voucher: Pennell 13883* (GH)
Depts.: CU

Stevia petiolata (Cassini) Schultz-Bip.
Syn. *Nothites petiolata* Cassini
Ref. King & Robinson, 1987: 174, 567.
Endemic herb. Andean II: grasslands, shrublands. 2500-3500 m.
Voucher: Dombey s.n.* (P), López 8349 (F)
Depts.: AN, LI

Stevia pinifolia Philippi =Ophryosporus pinifolius (Philippi) King & H. Robinson
Ref. King & Robinson, 1987: 567.

Stevia polyphylla DC.
Ref. King & Robinson, 1987: 174, 567.
Voucher: Haenke s.n.* (PR)
Depts.: Without full locality data.

Stevia puberula Hooker
Ref. King & Robinson, 1987: 174, 568.
Herb or subshrub. Andean II: grasslands, riversides, rocky slopes. 1500-3500 m.
Voucher: Pennell 14336 (F)
Depts.: AM, AN, AR, CU, HU, HV, LI, LL, PA, PI

Stevia punensis B. Robinson
Ref. King & Robinson, 1987: 174, 568.
Endemic shrub. Andean III. 3500-4000 m.
Voucher: Weberbauer 850 (B photo &frag. GH)
Depts.: PU

Stevia rhombifolia H.B.K. =Stevia ovata Willdenow
Ref. King & Robinson, 1987: 568.

Stevia satureifolia var. *maimarensis* Hieronymus =Stevia maimarensis (Hieronymus) Cabrera
Ref. King & Robinson, 1987: 568.

Stevia soratensis Hieronymus
Ref. King & Robinson, 1987: 175, 568.
Shrub or subshrub. Andean II-III: shrublands. 3000-4000 m.
Voucher: Soejarto & Pando 5246 (F)
Depts.: CU

Stevia urticaefolia Billberg
Ref. King & Robinson, 1987: 175, 569.
Herb.Andean I-II. 1000-3000 m.
Voucher: Sagástegui 8371 (F)
Depts.: CA, CU

Stevia weberbaueri B. Robinson
Ref. King & Robinson, 1987: 175, 569.
Endemic subshrub. Andean II: rocky slopes. 3000-3500 m.
Voucher: Weberbauer 7293* (F)
Depts.: JU, LI, MO

Stilpnopappus aquaticus (Poeppig) Dillon
Syn. *Stilpnopappus viridis* Bentham ex Baker, *Xiphochaeta aquatica* Poeppig
Ref. FP n.s. 11 1982: 4.
Aquatic or terrestrial herb. Amazonian. 0-500 m.
Note: For alternative treatment, see Robinson (1992b).
Voucher: Davidson & Jones 9924 (F)
Depts.: LO

Stilpnopappus viridis Bentham ex Baker =Stilpnopappus aquaticus (Poeppig) Dillon
Ref. FP n.s. 11 1982: 4.

Struchium americanum Poiret =Struchium sparganophorum (L.) Kuntze
Ref. FP n.s. 5 1980: 62.

Struchium herbaceum Browne ex St. Hilaire =Struchium sparganophorum (L.) Kuntze
Ref. FP n.s. 5 1980: 60.

Struchium sparganophorum (L.) Kuntze
Syn. *Ethulia sparganophora* L., *Ethulia struchium* Swartz, *Sparganophorus americanum* Poiret, *Sparganophorus fasciatus* Poiret, *Sparganophorus struchium* Poiret, *Struchium americanum* Poiret, *Struchium herbaceum* Browne ex St. Hilaire
Ref. FP n.s. 5 1980: 60.
Herb. Amazonian: riversides, seasonally inundated areas. 0-500 m.
Voucher: Mexia 6350 (MO)
Depts.: HU, LO, SM

Stuckertiella capitata (Weddell) Beauvisage
Syn. *Gamochaeta captitata* Weddell, *Gnaphalium capitatum* (Weddell) Grisebach, *Gnaphalium weddellianum* Rusby
Ref. FP n.s. 26 1991: 63.
Herb. Andean II-III: disturbed areas, grasslands. 2000-4000 m.
Voucher: Gay s.n.* (P frag. F), Dillon *et al.* 3115 (MO)
Depts.: AN, AP, AY, CA, CU, HU, JU, LI, PA, PU

Syncretocarpus sericeus (DC.) S. F. Blake
Syn. *Harpalium sericeum* DC., *Syncretocarpus weberbaueri* S. F. Blake
Ref. Blake, 1917a: 41.
Endemic shrub. Andean I-II: disturbed areas. 500-2000 m.
Voucher: Neé s.n.*, Weberbauer 5356 (F!)
Depts.: AN, CA, LI

Syncretocarpus similis S. F. Blake
Ref. Gilg, 1916: 50.
Endemic shrub. Andean I-II: rocky slopes. 1000-2000 m.
Voucher: Weberbauer 5404* (F!)
Depts.: HV, IC

Syncretocarpus weberbaueri S. F. Blake =Syncretocarpus sericeus (DC.) S. F. Blake
Ref. Blake, 1917a: 41.

Synedrella nodiflora (L.) Gaertner
Syn. *Verbesina nodiflora* L.
Shrub. Amazonian: disturbed areas.
Voucher: MacRae & McKenna 15 (F)
Depts.: UC

Synedrella peduncularis Bentham =Schizoptera peduncularis (Bentham) S. F. Blake

Tafalla leptothamna Mattfeld =Loricaria leptothamna (Mattfeld) Cuatrecasas
Ref. FP n.s. 26 1991: 46.

Tagetes dianthiflora H.B.K.
Ref. Neher, 1966: 192.
Shrub. Andean II: shrublands. 1500-3500 m.
Voucher: Bonpland 3462* (F), Townsend A203 (F)
Depts.: AN, AY, CU, HU, JU, LI, LL, PI

Tagetes dichotoma Turczaninow =Tagetes filifolia Lagasca

Tagetes elliptica Smith
Herb. Andean II. 3000-3500 m.
Note: For alternative treatment, see Neher (1966: 192).
Voucher: Dillon *et al.* 3101 (F)
Depts.: AN

Tagetes erecta L.
Ref. Neher, 1966: 249.
Cultivated herb. Amazonian, Andean I-II. 0-3500 m.
Voucher: Montes s.n.* (photo S), Montes 2 (F)
Depts.: UC

Tagetes erythrocephala Rusby
Ref. Rusby, 1912: 133.
Herb. Andean II-III. 3000-4000 m.
Note: For alternative treatment, see Neher (1966: 192).
Voucher: Williams 2512* (US)
Depts.: PU

Tagetes filifolia Lagasca
Syn. *Tagetes dichotoma* Turczaninow, *Tagetes foeniculacea* Poeppig ex DC., *Tagetes pusilla* H.B.K., *Tagetes silenoides* Meyen & Walpers
Herb. Andean II. 2000-2500 m.
Note: For alternative treatment, see Nehr (1966: 93).
Voucher: Croat 57884 (F)
Depts.: HU, PU

Tagetes foeniculacea Poeppig ex DC. =Tagetes filifolia Lagasca
Note: For alternative treatment, see Neher (1966: 99).

Tagetes gracilis DC.
Ref. Neher, 1966: 152.
Herb. Andean II: shrublands. 1500-3500 m.
Voucher: Dombey 29* (GH), Pennell 14577
Depts.: CU, LI

Tagetes graveolens L'Héritier =Tagetes terniflora H.B.K.

Tagetes integrifolia Muschler =Porophyllum ruderale (Jacquin) Cassini
Ref. Muschler, 1914: 77.

Tagetes multiflora H.B.K.
Syn. *Tagetes multiflora* var. *rupestris* Weddell
Ref. Neher, 1966: 138.
Herb. Andean I-III: riversides. 1000-4500 m.
Voucher: Willdenow 16118* (photo F), Treacy 777 (F)
Depts.: AN, AR, CU, LI

Tagetes multiflora var. *rupestris* Weddell =Tagetes multiflora H.B.K.
Ref. Neher, 1966: 138.

Tagetes pectinata Turczaninow
Herb.
Note: For alternative treatment, see Neher (1966: 224).
Voucher: Jameson 776* (US)
Depts.: Without full locality data.

Tagetes pusilla H.B.K. =Tagetes filifolia Lagasca
Note: For alternative treatment, see Neher (1966: 99).

Tagetes silenoides Meyen & Walpers =Tagetes filifolia Lagasca

Tagetes terniflora H.B.K.
Syn. *Tagetes graveolens* L'Héritier
Ref. Neher, 1966: 177.
Shrub. Amazonian, Andean I-III, Coastal: forests, grasslands. 500-4500 m.
Voucher: Humboldt & Bonpland s.n.* (F)
Depts.: AM, AR, AY, CU, HU, HV, JU, LI, SM

Tanacetum cinerariifolium (Trev.) Schultz-Bip.
Syn. *Pyrethrum cinerariifolium* Trev.
Ref. FP n.s. 7 1981: 19.
Cultivated and introduced herb. Andean I-II, Coastal: disturbed areas. 0-3500 m.
Voucher: Soukup 2933 (F!)
Depts.: JU, LI

Tanacetum parthenium (L.) Schultz-Bip.
Syn. *Chrysanthemum parthenium* (L.) Bernhardi, *Matricaria parthenium* L.
Ref. FP n.s. 7 1981: 19.
Cultivated and introduced herb. Andean I-III: disturbed areas. 500-4000 m.
Voucher: Ferreyra 15425 (MO!)
Depts.: AM, CU, HU, HV, LL, LI, PA, PU, SM

Tanacetum vulgare L.
Ref. FP n.s. 7 1981: 20.
Cultivated and introduced herb. Andean III: disturbed areas. 3500-4000 m.
Voucher: Brunel 104 (F!)
Depts.: CU

Taraxacum officinale Wiggers
Introduced herb. Andean I-II, Coastal: disturbed areas. 0-3500 m.
Voucher: López 1065 (HUT)
Depts.: LL

Tessaria absinthioides (Hooker & Arnott) DC. =Pluchea absinthioides (Hooker & Arnott) H. Robinson & Cuatrecasas
Ref. FP n.s. 26 1991: 58.

Tessaria dentata R. & P. =Tessaria integrifolia R. & P.
Ref. FP n.s. 26 1991: 65.

Tessaria integrifolia R. & P.
Syn. *Tessaria dentata* R. & P.
Ref. FP n.s. 26 1991: 65.
Shrub or tree. Amazonian, Andean I-II, Coastal: forests, riversides. 0-2500 m.
Voucher: Ruiz & Pavón 30/26* (F), Gentry *et al.* 23081 (MO, HUT)
Depts.: AM, AN, AP, AR, CA, CU, HU, HV, JU, LA, LI, LL, LO, MD, PA, PI, SM, TA, TU, UC

Tessaria zamalloae Cabrera =Pluchea zamalloae (Cabrera) H. Robinson & Cuatrecasas
Ref. FP n.s. 26 1991: 60.

Tithonia pusilla A. Gray =Viguiera pusilla var. pusilla
Ref. Blake, 1918: 161.

Trichocline beckeri H. Robinson
Ref. Robinson, 1988b: 47.
Endemic herb. Andean II-III. 2500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Becker & Terrones 1305* (CPUN, US), Becker & Terrones 1916 (US)
Depts.: CA

Trichocline hieracioides (H.B.K.) Ferreyra =Gerbera hieracioides (H.B.K.) Zardini
Ref. Harling, 1991: 56.

Trichocline oblonga Hieronymus =Chaptalia oblonga D. Don.
Ref. Harling, 1991: 50.

Trichocline ovalis (D. Don) Hieronymus =Chaptalia oblonga D. Don.
Ref. Harling, 1991: 50.

Trichocline peruviana Hieronymus =Gerbera hieracioides (H.B.K.) Zardini
Ref. Harling, 1991: 56.

Trichospira biarista Lessing =Trichospira verticillata (L.) S. F. Blake
Ref. FP n.s. 11 1982: 6.

Trichospira menthoides H.B.K. =Trichospira verticillata (L.) S. F. Blake
Ref. FP n.s. 11 1982: 6.

Trichospira prieurei DC. =Trichospira verticillata (L.) S. F. Blake
Ref. FP n.s. 11 1982: 6.

Trichospira pulegium C. Martius ex DC. =Trichospira verticillata (L.) S. F. Blake
Ref. FP n.s. 11 1982: 6.

Trichospira verticillata (L.) S. F. Blake
Syn. *Bidens verticillata* L., *Trichospira biarista* Lessing, *Trichospira menthoides* H.B.K., *Trichospira prieurei* DC., *Trichospira pulegium* C. Martius ex DC.
Ref. FP n.s. 11 1982: 6.
Herb. Amazonian: disturbed areas, riversides. 0-500 m.
Voucher: Díaz *et al.* 655 (MO)
Depts.: LO

Tridax angustifolia Spruce ex Bentham & Hooker f.
Syn. *Tridax sodiroi* Hieronymus
Ref. Powell, 1965: 55.
Shrub. Andean II. 2500-3500 m.
Voucher: Dillon & Turner 1556 (F!)
Depts.: CA

Tridax oligodonta S. F. Blake =Tridax tambensis Hieronymus
Ref. Powell, 1965: 58.

Tridax peruviensis Powell
Ref. Powell, 1965: 56.
Endemic shrub. Andean II: disturbed areas. 2000-3000 m.
Voucher: Ferreyra & Pennell 2993* (US!), Ferreyra 7673 (US!)
Depts.: AM, CA, LL

Tridax procumbens L.
Ref. Powell, 1965: 80.
Herb.
Voucher: Woytkowski 34317 (UC)
Depts.: HU

Tridax sodiroi Hieronymus =Tridax angustifolia Spruce ex Bentham & Hooker f.
Ref. Powell, 1965: 55.

Tridax stuebelii Hieronymus
Ref. Powell, 1965: 57.
Herb. Andean II. 2000-2500 m.
Voucher: Weberbauer 6390 (GH)
Depts.: CA

Tridax tambensis Hieronymus
Syn. *Tridax oligodonta* S. F. Blake
Ref. Powell, 1965: 57.
Herb.
Voucher: Stübel 45b* (B), Rose *et al.* 23168 (US)
Depts.: AM

Trixis antimenorrhoea (Schrank) C. Martius ex Baker =Trixis divaricata (H.B.K.) Sprengel
Ref. Harling, 1991: 77.

Trixis cacalioides H.B.K.
Syn. *Trixis hexantha* S. Moore, *Trixis paradoxa* Cassini
Ref. Harling, 1991: 78.
Shrub. Amazonian, Andean I-II, Coastal. 0-2500 m.
Voucher: Ferreyra 13789 (USM)
Depts.: AN, AR, CA, IC, LI, LL, PI

Trixis churinensis Herrera
Shrub. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Ferreyra 6151* (USM)
Depts.: LI

Trixis divaricata (H.B.K.) Sprengel
Syn. *Perdicium divaricatum* H.B.K., *Trixis antimenorrhoea* (Schrank) C. Martius ex Baker
Shrub. Andean II. 1500-3000 m.
Note: For alternative treatment, see Harling (1991: 77).
Voucher: Macbride 3793 (F!)
Depts.: AP, CU, HU, HV, JU, PI, SM

Trixis hexantha S. Moore =Trixis cacalioides H.B.K.
Ref. Moore, A. & S. Moore, 1914: 264.

Trixis neaeana DC.
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Neé s.n.* (P), Ferreyra 14585 (USM)
Depts.: AN

Trixis paradoxa Cassini =Trixis cacalioides H.B.K.
Ref. Harling, 1991: 78

Trixis sagasteguii Cabrera
Ref. Harling, 1991: 80.
Shrub. Coastal. 0-500 m.
Voucher: López & Sagástegui 3163* (HUT, LP)
Depts.: LL

Trixis subparadoxa Herrera
Ref. Herrera, 1969: 6.
Endemic shrub. Andean I-II. 500-2000 m.
Voucher: Ferreyra 15059 (USM)
Depts.: AM, CA

Trychinolepis hoppii B. Robinson =Ophryosporus hoppii (B. Robinson) King & H. Robinson
Ref. King & Robinson, 1987: 571.

Turpinia laurifolia Humboldt & Bonpland =Fulcaldea laurifolia (Humboldt & Bonpland) Poiret ex Lessing
Ref. Harling, 1991: 20.

Tussilago integerrima Vell. Conc. =Chaptalia integerrima (Vell. Conc.) Burkhart

Tussilago nutans L. =Chaptalia nutans (L.) Polakowski
Ref. Harling, 1991: 53.

Uleophytum scandens Hieronymus
Ref. King & Robinson, 1987: 373, 571.
Endemic herb. Andean I. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Ule 6556* (US!)
Depts.: LO

Unxia dissecta Hooker =Vasquezia oppositifolia (Lagasca) S. F. Blake

Vanillosmopsis weberbaueri Hieronymus =Vernonia ramospatana MacLeish
Ref. MacLeish, 1984: 135.

Vasquezia oppositifolia (Lagasca) S. F. Blake
Syn. *Unxia dissecta* Hooker, *Villanova dissecta* (Hooker) DC., *Villanova oppositifolia* Lagasca
Ref. Blake, 1937: 387.
Herb. Andean I-II: disturbed areas. 500-4000 m.
Note: Robinson (pers. comm.) considers *Villanova* to be the conserved name.
Voucher: Stevens 22005 (F!)
Depts.: AN, CA, CU, JU, LI, LL

Vasquezia titicacensis (Meyen & Walpers) S. F. Blake
Syn. *Wedelia titicacensis* Meyen & Walpers
Ref. Blake, 1937: 387.
Herb. Andean II-III: disturbed areas, grasslands, rocky slopes. 2000-4000 m.

Voucher: Soukup 52 (F!)
Depts.: AN, AR, CA, CU, LI, LL, MO, PU

Verbesina alba L. =Eclipta prostrata (L.) L.

Verbesina andina Sagástegui
Endemic shrub. Andean II. 2500-3500 m.
Voucher: Sánchez 481 (F!)
Depts.: CA

Verbesina arborea H.B.K.
Syn. *Chaenocephalus arboreus* (H.B.K.) O. Hoffman
Shrub. Andean II-III. 3000-4000 m.
Voucher: López & Sagástegui 7548 (F!)
Depts.: AN

Verbesina auriculigera S. F. Blake
Ref. Blake, 1931a: 80.
Endemic shrub. Andean II. 2000-3500 m.
Voucher: Weberbauer 7612* (US!)
Depts.: AP, JU, HV

Verbesina ayabacensis Sagástegui
Ref. Sagástegui, 1976: 43.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Weberbauer 6392* (GH)
Depts.: PI

Verbesina cabrerae Sagástegui
Ref. Sagástegui, 1969b: 240.
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Cabrera & Fabris 13505* (LP)
Depts.: CU

Verbesina cajamarcensis Sagástegui
Ref. Sagástegui, 1975: 261.
Endemic shrub. Andean II: disturbed areas, rocky slopes. 2500-3000 m.
Voucher: Hutchison & Wright 5033* (NY!, USM)
Depts.: CA, LL

Verbesina callacatensis Hieronymus
Ref. Hieronymus, 1905: 492.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Jelski 649* (US)
Depts.: CA, LA

Verbesina contumacensis Sagástegui
Ref. Sagástegui, 1976: 45.
Endemic shrub. Andean II. 1500-3000 m.
Voucher: Sagástegui 7644* (HUT), Sagástegui 9687 (F!)
Depts.: CA, LL

Verbesina cumingii Schultz-Bip. ex S. F. Blake
Ref. Blake, 1925b: 643.
Shrub. Andean II. 2500-3000 m.
Voucher: Weberbauer 6392 (F!)
Depts.: AM, AN

Verbesina dilloniana Sagástegui
Ref. Sagástegui, 1991: 1.
Endemic shrub. Andean II: shrublands. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Sagástegui & Sánchez 14181* (F!)
Depts.: LL

Verbesina eggersii Hieronymus
Ref. Hieronymus, 1901b: 611.
Shrub. Andean I. 1000-1500 m.
Voucher: Sánchez 4033 (F!)
Depts.: CA

Verbesina fuscicaulis Sagástegui
Ref. Sagástegui, 1991: 3.
Endemic shrub. Andean II: rocky slopes, shrublands. 2500-3000 m.
Voucher: Leiva & Leiva 63* (F!)
Depts.: LL

Verbesina grandifolia S. F. Blake
Ref. Blake, 1924b: 432.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Macbride & Featherstone 1500* (F!)
Depts.: JU, HU

Verbesina grandis S. F. Blake
Ref. Blake, 1924b: 428.
Endemic shrub. Andean II. 1500-2000 m.
Voucher: Macbride 3786* (F!)
Depts.: HU

Verbesina hastifolia S. F. Blake
Syn. *Verbesina tomentosa* DC.
Ref. Blake, 1924b: 426.
Endemic shrub. Andean II: rocky slopes. 2000-2500 m.
Voucher: Macbride & Featherstone 195* (F!)
Depts.: LI

Verbesina hexantha Sagástegui
Ref. Sagástegui, 1982a: 303.
Endemic shrub or tree. Andean II: rocky slopes. 2000-2500 m.
Voucher: López & Aldave 8531* (HUT), Sánchez 2187 (F!)
Depts.: AM

Verbesina huaranchaliana Sagástegui
Ref. Sagástegui, 1982a: 306.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: Sagástegui & Suarez 2632* (HUT)
Depts.: LL

Verbesina jelskii Hieronymus
Ref. Hieronymus, 1905: 493.
Shrub.
Voucher: Jelski 691* (US!)
Depts.: CA

Verbesina killipii S. F. Blake
Ref. Blake, 1931a: 82.
Shrub. Andean II. 1500-3000 m.
Voucher: Sagástegui 9706 (F!)
Depts.: CA

Verbesina laevis S. F. Blake
Ref. Blake, 1924a: 639.
Endemic shrub.
Voucher: Mathews s.n.* (NY)
Depts.: AM

Verbesina lopez-mirandae Sagástegui
Ref. Sagástegui, 1980: 64.
Endemic shrub. Andean I-II. 1000-2000 m.
Note: Known from Peru only from the type locality.
Voucher: López 707* (US!)
Depts.: LL

Verbesina macbridei S. F. Blake
Ref. Blake, 1924b: 421.
Endemic shrub. Andean I-II: riversides. 1000-2000 m.
Voucher: Macbride 4822* (F!)
Depts.: CA, HU, LL

Verbesina malacophylla S. F. Blake
Ref. Blake, 1924b: 422.
Endemic shrub. Andean II: riversides. 3000-3500 m.
Voucher: Macbride & Featherstone 1935* (F!)
Depts.: HU

Verbesina nodiflora L. =Synedrella nodiflora (L.) Gaertner

Verbesina ochroleucotricha Sagástegui
Ref. Sagástegui, 1980: 67.
Endemic shrub. Andean II. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Evinger 494* (US!)
Depts.: AM

Verbesina oligactis S. F. Blake
Ref. Blake, 1926: 227.
Shrub. Andean II. 2500-3000 m.
Voucher: Sagástegui 9979 (F!)
Depts.: CA

Verbesina paucicephala Sagástegui
Ref. Sagástegui, 1969b: 243.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Tovar 3559* (LP, USM)
Depts.: HV

Verbesina pentalobifolia Sagástegui
Ref. Sagástegui, 1969a: 56.
Endemic shrub. Andean I. 1000-1500 m.
Voucher: Hutchison & Wright 3400* (GH)
Depts.: LA

Verbesina peruviana Sagástegui
Ref. Sagástegui, 1969b: 245.
Endemic shrub. Andean II. 2500-3000 m.
Voucher: López & Sagástegui 5470* (HUT, LP), Sagástegui 7779* (F!)
Depts.: CA

Verbesina pflanzii Perkins
Ref. Perkins, 1912: 227.
Herb. Andean II. 3000-3500 m.
Voucher: King *et al.* 298 (F!)
Depts.: CU

Verbesina piurana Sagástegui
Ref. Sagástegui, 1985: 416.
Endemic shrub. Andean II. 1500-2500 m.
Voucher: Sagástegui *et al.* 8132* (F, HUT), Sagástegui 8722 (F!, HUT)
Depts.: PI

Verbesina plowmanii Sagástegui
Ref. Sagástegui, 1991: 6.
Endemic shrub. Andean I: disturbed areas. 1000-1500 m.
Note: Known from Peru only from the type locality.

Voucher: Plowman *et al.* 14307* (F!)
Depts.: LA

Verbesina prostrata L. =Eclipta prostrata (L.) L.

Verbesina retifera S. F. Blake
Ref. Blake, 1931a: 81.
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Weberbauer 7918* (F!)
Depts.: CU

Verbesina sanchezii Sagástegui
Ref. Sagástegui, 1982a: 308.
Endemic shrub. Andean II: forests, rocky slopes. 2500-3500 m.
Voucher: Sagástegui 7405* (HUT), Sánchez 1794 (F!)
Depts.: CA

Verbesina saubinetioides S. F. Blake
Ref. Blake, 1924b: 423.
Shrub. Andean I-II. 1000-3000 m.
Voucher: Macbride & Featherstone 132* (F!)
Depts.: AM, CA, LI, LL

Verbesina semidecurrens Kuntze
Shrub. Andean II. 2500-3000 m.
Voucher: Stork & Horton 10658 (F!)
Depts.: AP, CU

Verbesina simplicicaulis Sagástegui
Ref. Sagástegui, 1982a: 311.
Endemic subshrub. Andean II: forests. 2500-3000 m.
Voucher: Sagástegui *et al.* 8225* (HUT), Sagástegui 8579 (F!)
Depts.: PI

Verbesina sodiroi Hieronymus
Ref. Hieronymus, 1901a: 44.
Shrub. Andean II. 2500-3000 m.
Voucher: Macbride & Featherstone 1189 (F!)
Depts.: HV, PA

Verbesina subrotundifolia Sagástegui
Ref. Sagástegui, 1982a: 313.
Endemic shrub. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Sagástegui *et al.* 8224* (HUT)
Depts.: PI

Verbesina szyszylowiczii Hieronymus
Ref. Hieronymus, 1905: 492.
Endemic shrub.
Voucher: Jelski 673* (US!)
Depts.: CA

Verbesina tomentosa DC. =Verbesina hastifolia S. F. Blake

Verbesina tovarii Cabrera
Ref. Cabrera, 1955b: 67.
Endemic shrub. Andean II-III. 3000-4000 m.
Voucher: Tovar 977* (LP), Tovar 784 (LP)
Depts.: HV

Verbesina weberbaueri Sagástegui
Ref. Sagástegui, 1975: 263.
Endemic shrub. Andean II. 1500-2000 m.
Voucher: Weberbauer 6581* (GH)
Depts.: JU

Vermifuga corymbosa R. & P. =Flaveria bidentis (L.) Kuntze
Ref. Cabrera, 1960: 207.

Vernonia:
Note: The genus *Vernonia* is in transition. For an alternative treatment see Robinson, 1992a.

Vernonia affinis H.B.K.
Note: Type reportedly from Peru. Robinson (pers. comm.) believes this to be a synonym of *Critoniopsis floribunda* (H.B.K.) H. Robinson.
Voucher: Humboldt & Bonpland s.n.* (P-H&B)

Vernonia albifila Gleason =Vernonia yurimaguasensis Hieronymus

Vernonia apurimacensis S. B. Jones
Ref. FP n.s. 5 1980: 38; Robinson, 1990: 487.
Shrub. Andean II: shrublands. 2000-3000 m.
Note: Treated as conspecific with *V. ferreyrae* (as *Lepidaploa*) by Robinson (1990: 487).
Voucher: Hutchison 1748* (F), Stork & Horton 10668 (F)
Depts.: AP, CU

Vernonia arborescens (L.) Swartz
Syn. *Conyza arborescens* L., *Lepidaploa arborescens* (L.) H. Robinson
Ref. Keeley, 1982: 79; Robinson, 1990: 481.
Liana or shrub. Amazonian, Andean I-II: forests. 0-2000 m.
Note: Treated under *Lepidaploa* by Robinson (1990: 481) who also restricts the circumscription of the taxon to Caribbean material.
Voucher: Jelski 775 (B photo NY)
Depts.: Without full locality data.

Vernonia arborescens var. *cuneifolia* Britton =Vernonia canescens H.B.K.
Ref. FP n.s. 5 1980: 44; Robinson, 1990: 483.

Vernonia argyropappa Buek =Vernonia salzmannii DC.
Ref. FP n.s. 5 1980: 46; Robinson, 1990: 492.

Vernonia argyrotrichia Schultz-Bip. ex Baker =Piptocarpha asterotrichia (Poeppig) Baker
Ref. Robinson, 1990: 482.
Note: For alternative treatment, see Robinson (1990: 482).

Vernonia aschenborniana Schauer =Vernonia patens H.B.K.
Ref. FP n.s. 5 1980: 35.

Vernonia asterotrichia Poeppig =Piptocarpha asterotrichia (Poeppig) Baker
Ref. FP n.s. 5 1980: 49.

Vernonia baccharoides H.B.K. =Vernonia patens H.B.K.
Ref. FP n.s. 5 1980: 35.

Vernonia bangii Rusby =Vernonia patens H.B.K.
Ref. FP n.s. 5 1980: 35.

Vernonia brachiata Bentham ex Oersted
Syn. *Cacalia brachiata* (Bentham ex Oersted) Kuntze, *Vernonia digitata* Rusby
Ref. FP n.s. 5 1980: 41.
Herb or shrub. Amazonian, Andean I: forests, riversides. 0-1500 m.
Voucher: Oersted s.n.* (K), Klug 2615 (F)
Depts.: AM, CU, HU, JU, LO, MD, SM

Vernonia bullata Bentham =Vernonia canescens H.B.K.
Ref. FP n.s. 5 1980: 44.

Vernonia cainarachiensis Hieronymus
Ref. FP n.s. 5 1980: 41.
Shrub. Amazonian, Andean I-II: forests, shrublands. 0-2000 m.
Voucher: Ule 6387* (B), Schunke A-1 (F)
Depts.: AM, CU, HU, JU, LO, SM

Vernonia cajamarcensis H. Robinson
Endemic shrub. Andean I. 1000-1500 m.
Voucher: Ferreyra & Sánchez 19652* (US)
Depts.: CA

Vernonia canescens H.B.K.
Syn. *Cacalia bullata* (Bentham) Kuntze, *Cacalia canescens* (Bentham) Kuntze, *Cacalia mollis* (H.B.K.) Kuntze, *Lepidaploa canescens* (H.B.K.) Cassini, *Vernonia arborescens* var. *cuneifolia* Britton, *Vernonia bullata* Bentham, *Vernonia cuneifolia* (Britton) Gleason, *Vernonia mollis* H.B.K., *Vernonia patuliflora* Rusby, *Vernonia pseudomollis* Gleason, *Vernonia rusbyi* Gleason, *Vernonia volubilis* Hieronymus
Ref. FP n.s. 5 1980: 44; Keeley, 1982: 80; Robinson, 1990: 483.
Herb or shrub. Amazonian, Andean I-II, Coastal: disturbed areas, shrublands. 0-2500 m.
Note: For alternative treatment, see Robinson (1990: 483).
Voucher: Bonpland 3529* (P), Hutchison & Wright 5865 (MO!)
Depts.: AM, AY, CU, HU, JU, LA, LO, PI, PU, SM, UC

Vernonia costata Rusby
Syn. *Lepidaploa costata* (Rusby) H. Robinson
Ref. FP n.s. 5 1980: 44; Robinson, 1990: 486.
Shrub. Andean I: savannas. 500-1500 m.
Note: For alternative treatment, see Robinson (1990: 486).

Voucher: Killip & Smith 25012 (F)
Depts.: CU, JU

Vernonia cotaniensis Hieronymus
=Vernonia fulta Grisebach
Ref. FP n.s. 5 1980: 37.

Vernonia cuneifolia (Britton) Gleason
=Vernonia canescens H.B.K.
Ref. FP n.s. 5 1980: 44; Robinson, 1990: 485.

Vernonia cutervensis Hieronymus
Endemic shrub.
Voucher: Jelski 755* (B)
Depts.: CA

Vernonia digitata Rusby =Vernonia brachiata Bentham ex Oersted
Ref. FP n.s. 5 1980: 41.

Vernonia ferreyrae H. Robinson
Syn. *Lepidaploa ferreyrae* (H. Robinson) H. Robinson
Ref. Robinson, 1980a: 158.
Endemic shrub. Andean II: riversides, rocky slopes. 1500-2500 m.
Note: For alternative treatment, see Robinson (1990: 487).
Voucher: Vargas 17905* (US), Ferreyra 2744 (US!)
Depts.: AP, CU

Vernonia ferruginea Lessing
Syn. *Cacalia ferruginea* (Lessing) Kuntze
Ref. FP n.s. 5 1980: 33.
Endemic shrub or tree. Andean I: grasslands. 500-1500 m.
Voucher: Killip & Smith 24780 (F!)
Depts.: CU, JU

Vernonia fieldiana Gleason
Syn. *Lepidaploa fieldiana* (Gleason) H. Robinson
Ref. FP n.s. 5 1980: 45; Robinson, 1990: 487.
Endemic shrub. Andean I-II: forests. 1000-2000 m.
Note: For alternative treatment, see Robinson (1990: 487).
Voucher: Williams 7663* (US), Klug 3423 (MO)
Depts.: SM

Vernonia flavescens Lessing =Vernonia scorpioides (Lamarck) Persoon
Ref. FP n.s. 5 1980: 39.

Vernonia floribunda H.B.K. =Vernonia patens H.B.K.
Ref. FP n.s. 5 1980: 35.

Vernonia fulta Grisebach
Syn. *Vernonia cotaniensis* Hieronymus, *Vernonia trixioides* Rusby
Ref. FP n.s. 5 1980: 36.
Liana. Andean I-II. 500-2500 m.
Voucher: Klug 3734 (MO)
Depts.: AM, CU, HU, JU, LO, PA, PU, SM

Vernonia geminiflora Poeppig =Vernonia salzmannii DC.
Ref. FP n.s. 5 1980: 46.

Vernonia gracilis H.B.K.
Syn. *Cacalia gracilis* (H.B.K.) Kuntze, *Cacalia moritziana* (Schultz-Bip.) Kuntze, *Lepidaploa gracilis* (H.B.K.) H. Robinson, *Vernonia moritziana* Schultz-Bip.
Ref. FP n.s. 5 1980: 31; Robinson, 1990: 488.
Herb.
Note: For alternative treatment, see Robinson (1990: 488).
Voucher: Croat 19916 (MO!)
Depts.: LO

Vernonia haenkeana DC. =Vernonia patens H.B.K.
Ref. FP n.s. 5 1980: 35.

Vernonia heptantha DC.
Herb.
Note: Not reconfirmed. Reportedly from Peru.

Vernonia herbacea (Vell. Conc.) Rusby
Syn. *Chrysocoma herbacea* Vell. Conc., *Vernonia obovata* Lessing, *Vernonia paucifolia* Rusby
Ref. FP n.s. 5 1980: 46.
Herb. Andean I. 1000-1500 m.
Voucher: Schunke 1527 (F)
Depts.: JU

Vernonia jalcana Cuatrecasas
Ref. FP n.s. 5 1980: 29.
Endemic shrub. Andean II: grasslands, shrublands. 1500-3500 m.
Voucher: Wurdack 1359* (NY), Hutchison & Wright 5515 (F)
Depts.: AM, CA, LI, PA

Vernonia jelskii Hieronymus
Syn. *Vernonia jelskii* var. *virescens* Hieronymus
Ref. FP n.s. 5 1980: 30.
Endemic shrub.
Note: Known from Peru only from the type locality.
Voucher: Jelski 602* (MO), Jelski 623 (US)
Depts.: CA

Vernonia jelskii var. *virescens* Hieronymus =Vernonia jelskii Hieronymus
Ref. FP n.s. 5 1980: 30.

Vernonia lambayequensis S. B. Jones
Ref. FP n.s. 5 1980: 28.
Endemic shrub. Andean I. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Hutchison & Wright 3473* (MO!, USM!)
Depts.: LA

Vernonia lanceolaris DC. =Vernonia patens H.B.K.
Ref. FP n.s. 5 1980: 35.

Vernonia lanuginosa Gardner =Vernonia scorpioides (Lamarck) Persoon
Ref. FP n.s. 5 1980: 39.

Vernonia laurifolia DC.
Syn. *Cacalia laurifolia* (DC.) Kuntze
Ref. FP n.s. 7 1981: 32.
Endemic herb. Andean II. 1500-2000 m.
Voucher: Hb. DeCandolle s.n.* (G-DC), Metcalf 30660 (MO)
Depts.: PU

Vernonia libertadensis S. B. Jones =Baccharis libertadensis (S. B. Jones) H. Robinson
Ref. FP n.s. 5 1980: 31; Robinson, 1988a: 34.

[Vernonia lindenii (Schultz-Bip.) Cuatrecasas]
Syn. *Critoniopsis lindenii* Schultz-Bip.
Ref. FP n.s. 5 1980: 28.
Note: Not known from Peru.

Vernonia longeracemosa C. Martius ex DC., nom. illeg. =Vernonia scorpioides (Lamarck) Persoon
Ref. FP n.s. 5 1980: 39.

Vernonia mapirensis Gleason
Syn. *Lepidaploa mapirensis* (Gleason) H. Robinson, *Vernonia trichoclada* Gleason
Ref. FP n.s. 5 1980: 33; Robinson, 1990: 489.
Herb. Andean I-II. 1000-3000 m.
Note: For alternative treatment, see Robinson (1990: 489).
Voucher: Macbride 5775 (F!)
Depts.: CU, JU, PU

[Vernonia megaphylla Hieronymus]
Ref. FP n.s. 5 1980: 41.
Note: Not known from Peru.

Vernonia mexiae H. Robinson
Ref. Robinson, 1981: 266.
Endemic shrub. Andean II. 1500-2000 m.
Voucher: Mexia 8229* (US), Schunke 4974
Depts.: HU, SM

Vernonia micradenia DC. =Vernonia patens H.B.K.
Ref. FP n.s. 5 1980: 35.

Vernonia mollis H.B.K. =Vernonia canescens H.B.K.
Ref. FP n.s. 5 1980: 44; Robinson, 1990: 483.

Vernonia monsonensis Hieronymus =Vernonia patens H.B.K.
Ref. FP n.s. 5 1980: 35.

Vernonia moritziana Schultz-Bip. =Vernonia gracilis H.B.K.
Ref. FP n.s. 5 1980: 31; Robinson, 1990: 488.

Vernonia myriocephala DC.
Syn. *Cacalia myriocephala* (DC.) Kuntze, *Lepidaploa myriocephala* (DC.) H. Robinson
Ref. FP n.s. 5 1980: 43; Keeley, 1982: 80; Robinson, 1990: 490.
Shrub. Amazonian, Andean I: forests, shrublands. 0-1500 m.
Note: For alternative treatment, see Robinson (1990: 490).

Voucher: Haenke s.n.* (G-DC), Ferreyra 2168 (US!)
Depts.: CU, HU, JU, LO, SM

Vernonia obovata Lessing =Vernonia herbacea (Vell. Conc.) Rusby
Ref. FP n.s. 5 1980: 46.

Vernonia opaca Bentham =Piptocarpha opaca (Bentham) Baker
Ref. FP n.s. 5 1980: 51.

Vernonia pacchensis Bentham =Vernonia patens H.B.K.
Ref. FP n.s. 5 1980: 35.

Vernonia pacchensis var. *tambillensis* Hieronymus =Vernonia patens H.B.K.
Ref. FP n.s. 5 1980: 35.

Vernonia patens H.B.K.
Syn. *Cacalia aschenborniana* (Schauer) Kuntze, *Cacalia baccharoides* (H.B.K.) Kuntze, *Cacalia haenkeana* (DC.) Kuntze, *Cacalia lanceolaris* (DC.) Kuntze, *Cacalia patens* (H.B.K.) Kuntze, *Cacalia suaveolens* (H.B.K.) Kuntze, *Vernonia aschenborniana* Schauer, *Vernonia baccharoides* H.B.K., *Vernonia bangii* Rusby, *Vernonia floribunda* H.B.K., *Vernonia haenkeana* DC., *Vernonia lanceolaris* DC., *Vernonia micradenia* DC., *Vernonia monsonensis* Hieronymus, *Vernonia pacchensis* Bentham, *Vernonia pacchensis* var. *tambillensis* Hieronymus, *Vernonia salamana* Gleason, *Vernonia suaveolens* H.B.K., *Vernonia weberbaueri* Hieronymus
Ref. FP n.s. 5 1980: 35.
Shrub or tree. Amazonian, Andean I-II: disturbed areas, forests. 0-2500 m.
Voucher: Humboldt & Bonpland s.n.* (P), Woytkowski 34350 (MO)
Depts.: AM, CU, LO

Vernonia patuliflora Rusby =Vernonia canescens H.B.K.
Ref. FP n.s. 5 1980: 44; Robinson, 1990: 483.

Vernonia paucartambensis Dillon
Endemic shrub or tree. Andean II. 2000-2500 m.
Voucher: Gentry *et al.* 23553 (MO)
Depts.: CU

Vernonia paucifolia Rusby =Vernonia herbacea (Vell. Conc.) Rusby
Ref. FP n.s. 5 1980: 46.

Vernonia peruviana Cuatrecasas
Ref. FP n.s. 5 1980: 30.
Endemic shrub. Andean II: rocky slopes. 1500-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Macbride 5150* (F!)
Depts.: HU

Vernonia phylicaeformis Walpers
Shrub
Note reconfirmed.

Vernonia poeppigiana DC., nom. illeg. =Vernonia salzmannii DC.
Ref. FP n.s. 5 1980: 46; Robinson, 1990: 492.
Note: Epithet used twice by same author in the same work; see *Piptocarpha poeppigiana*.

Vernonia poeppigiana DC., nom. illeg. =Piptocarpha poeppigiana (DC.) Baker
Ref. FP n.s. 5 1980: 46; Robinson, 1990: 492.
Note: Epithet used twice by same author in same work; see *V. salzmannii*.

Vernonia pseudomollis Gleason =Vernonia canescens H.B.K.
Ref. FP n.s. 5 1980: 45; Robinson, 1990: 485.

Vernonia pycnantha Bentham
Ref. FP n.s. 5 1980: 28.
Shrub or treelet. Andean II: forests. 1500-2000 m.
Voucher: Mexia 8229 (MO)
Depts.: AM, HU, SM

Vernonia ramospatana MacLeish
Syn. *Vanillosmopsis weberbaueri* Hieronymus
Ref. MacLeish, 1984: 135.
Shrub. Andean II. 2000-2500 m.
Voucher: Weberbauer 1324* (NY)
Depts.: PU

Vernonia retrosetosa H. Robinson
Syn. *Lepidaploa retrosetosa* (H. Robinson) H. Robinson
Ref. Robinson, 1980a: 159.
Endemic shrub. Andean II: forests. 2000-3000 m.
Note: Known from Peru only from the type locality. For alternative treatment, see by Robinson (1990: 491).
Voucher: Vargas 11844* (US)
Depts.: PU

Vernonia rimachii H. Robinson
Syn. *Lepidaploa rimachii* (H. Robinson) H. Robinson
Ref. Robinson 1981: 267; Robinson, 1990: 491.
Endemic herb. Andean II: forests. 2000-2500 m.
Note: For alternative treatment, see Robinson (1990: 491).
Voucher: Rimachi 3856* (US)
Depts.: SM

Vernonia rusbyi Gleason =Vernonia canescens H.B.K.
Ref. FP n.s. 5 1980: 45; Robinson, 1990: 485.

Vernonia saepia Ekman =Vernonia scorpioides (Lamarck) Persoon
Ref. FP n.s. 5 1980: 39.

Vernonia sagasteguii Dillon
Endemic shrub. Andean II. 2000-3000 m.
Voucher: Sagástegui 9046 (MO)
Depts.: CA

Vernonia salamana Gleason =Vernonia patens H.B.K.
Ref. FP n.s. 5 1980: 36.

Vernonia salzmannii DC.
Syn. *Cacalia argyropappa* (Buek) Kuntze, *Cacalia salzmannii* (DC.) Kuntze, *Lepidaploa salzmannii* (DC.) H. Robinson, *Vernonia argyropappa* Buek, *Vernonia geminiflora* Poeppig, *Vernonia poeppigiana* DC., nom. illeg.
Ref. FP n.s. 5 1980: 46; Robinson, 1990: 492.
Herb. Amazonian, Andean I: forests. 0-1500 m.
Note: For alternative treatment, see Robinson (1990: 491).
Voucher: Seibert 2125 (MO!)
Depts.: CU, HU, JU, MD, SM

Vernonia sambrayana S. B. Jones
Ref. FP n.s. 5 1980: 34.
Endemic tree. Andean II. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Mexia 8055a* (UC)
Depts.: CU

Vernonia sandemanii H. Robinson =Cuatrecasanthus sandemanii (H. Robinson) H. Robinson
Ref. Robinson & Kahn, 1985: 253.

Vernonia scorpioides (Lamarck) Persoon
Syn. *Cacalia scorpioides* (Lamarck) Kuntze, *Cacalia tournefortioides* (H.B.K.) Kuntze, *Conyza scorpioides* Lamarck, *Lepidaploa scorpioides* (Lamarck) Cassini, *Staehelina solidaginoides* Willdenow ex Lessing, *Vernonia flavescens* Lessing, *Vernonia lanuginosa* Gardner, *Vernonia longeracemosa* C. Martius ex DC., nom. illeg., *Vernonia saepia* Ekman, *Vernonia scorpioides* var. *centriflora* DC., *Vernonia scorpioides* var. *longeracemosa* DC., *Vernonia scorpioides* var. *longifolia* DC., *Vernonia scorpioides* var. *subrepanda* DC., *Vernonia scorpioides* var. *subtomentosa* DC., *Vernonia subrepanda* Persoon, *Vernonia tournefortioides* H.B.K.
Ref. FP n.s. 5 1980: 38.
Herb. Amazonian, Andean I-II, Coastal: disturbed areas. 0-2500 m.
Voucher: Hutchison & Wright 6829 (MO)
Depts.: AM, AY, CA, CU, HU, JU, LL, LO, PA, PI, PU, SM, TU

Vernonia scorpioides var. *centriflora* DC. =Vernonia scorpioides (Lamarck) Persoon
Ref. FP n.s. 5 1980: 39.

Vernonia scorpioides var. *longeracemosa* DC. =Vernonia scorpioides (Lamarck) Persoon
Ref. FP n.s. 5 1980: 39.

Vernonia scorpioides var. *longifolia* DC. =Vernonia scorpioides (Lamarck) Persoon
Ref. FP n.s. 5 1980: 39.

Vernonia scorpioides var. *subrepanda* DC. =Vernonia scorpioides (Lamarck) Persoon
Ref. FP n.s. 5 1980: 39.

Vernonia scorpioides var. *subtomentosa* DC. =Vernonia scorpioides (Lamarck) Persoon
Ref. FP n.s. 5 1980: 39.

Vernonia shanynensis MacLeish =Cuatrecasanthus jelskii (Hieronymus) H. Robinson
Ref. MacLeish, 1984: 135.

Vernonia sordidopapposa Hieronymus
Syn. *Cacalia sordidopapposa* (Hieronymus) Kuntze, *Lepidaploa sordidopapposa* (Hieronymus) H. Robinson
Ref. FP n.s. 5 1980: 32; Robinson, 1990: 493.
Endemic shrub. Andean II: grasslands. 2000-3500 m.
Note: For alternative treatment, see Robinson (1990: 493).
Voucher: Weberbauer 759* (B), Wurdack 1371 (NY)
Depts.: AM, PU

Vernonia stuebelii Hieronymus
Ref. FP n.s. 5 1980: 34.
Endemic herb.
Note: Known from Peru only from the type locality. Robinson (pers. comm.) believes this is a synonym of *V. patens*.
Voucher: Stubel 58b* (B)
Depts.: SM

Vernonia suaveolens H.B.K. =Vernonia patens H.B.K.
Ref. FP n.s. 5 1980: 35.

Vernonia subrepanda Persoon =Vernonia scorpioides (Lamarck) Persoon
Ref. FP n.s. 5 1980: 38.

Vernonia tereticaulis DC. =Piptocarpha poeppigiana (DC.) Baker
Ref. FP n.s. 5 1980: 48.

Vernonia tournefortioides H.B.K. =Vernonia scorpioides (Lamarck) Persoon
Ref. FP n.s. 5 1980: 39.

Vernonia trichoclada Gleason =Vernonia mapirensis Gleason
Ref. FP n.s. 5 1980: 33.
Note: Recognized as a distinct taxon under *Lepidaploa* by Robinson (1990: 495).

Vernonia trixioides Rusby =Vernonia fulta Grisebach
Ref. FP n.s. 5 1980: 36.
Note: Robinson (pers. comm.) accepts *V. trixioides* as a valid species.

Vernonia vargasii Cuatrecasas =Vernonia yurimaguasensis Hieronymus
Ref. FP n.s. 5 1980: 43.
Note: Robinson (pers. comm.) believes this is a synonym of *V. patens*.

Vernonia volubilis Hieronymus =Vernonia canescens H.B.K.
Ref. FP n.s. 5 1980: 44; Keeley, 1982: 80; Robinson, 1990: 483.

Vernonia weberbaueri Hieronymus =Vernonia patens H.B.K.
Ref. FP n.s. 5 1980: 35.

Vernonia woytkowskii S. B. Jones
Ref. FP n.s. 5 1980: 29.
Endemic liana. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Woytkowski 6770* (MO)
Depts.: LA

Vernonia yurimaguasensis Hieronymus
Syn. *Vernonia albifila* Gleason, *Vernonia vargasii* Cuatrecasas
Ref. FP n.s. 5 1980: 43.
Endemic shrub. Amazonian: forests. 0-500 m.
Voucher: Ule 6270* (B), Sagástegui *et al.* 4248 (GA)
Depts.: AM, CU, LO

Viguiera acutifolia S. F. Blake =Pappobolus acutifolia (S. F. Blake) Panero
Ref. Panero, 1992: 72.

Viguiera australis S. F. Blake
Ref. Blake, 1918: 148.
Subshrub. Andean II. 2000-3500 m.
Voucher: Sandeman 3751 (F!)
Depts.: AR

Viguiera brittonii Hochreutiner
Ref. Hochreutiner, 1910: 294.
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Mathews 12[in 1862]* (NY), Llatas 1201 (F!)
Depts.: CA

Viguiera ellenbergii Cuatrecasas
Ref. Cuatrecasas, 1964c: 146.
Endemic shrub. Andean II: forests. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Ellenberg 719* (US!)
Depts.: CU

Viguiera hieronymi Muschler
Herb. Andean II. 2500-3000 m.
Voucher: Woytkowski 47 (F!)
Depts.: JU

Viguiera incana (Persoon) S. F. Blake
Syn. *Helianthus incanus* Persoon
Ref. Panero, 1992: 179.
Herb. Andean II. 1500-2000 m.
Voucher: Sagástegui 11499 (F!)
Depts.: LL

Viguiera lanceolata Britton
Herb. Andean II. 2000-3500 m.
Voucher: King & Collins 9023 (F!)
Depts.: AN, AR, CU, JU

Viguiera lepidostephana Cuatrecasas
Ref. Cuatrecasas, 1964c: 147.
Endemic herb. Coastal: desert. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Ellenberg 1423* (U)
Depts.: TU

Viguiera macbridei S. F. Blake
Ref. Blake, 1926: 218.
Endemic shrub. Andean II. 1500-2000 m.
Voucher: Macbride 4078* (F!)
Depts.: HU

Viguiera microphylla (H.B.K.) Bentham ex Hieronymus, nom. illeg. =Pappobolus microphyllus var. microphyllus
Ref. Panero, 1992: 141.

Viguiera pazensis Rusby
Shrub. Andean I-III. 1000-4000 m.
Voucher: Dillon *et al.* 1116 (F!)
Depts.: AN, AR, CA, CU, LI, PU

Viguiera peruviana A. Gray
Syn. *Helianthus rugosus* Meyen
Endemic shrub. Andean II-III. 2000-4000 m.
Voucher: Wilkes Exped. s.n.*, Smith *et al.* 12032 (F!)
Depts.: AN, CU, HV, LI

Viguiera pflanzii Perkins =Viguiera procumbens (Persoon) S. F. Blake
Ref. Blake, 1930: 253.

Viguiera procumbens (Persoon) S. F. Blake
Syn. *Helianthus procumbens* Persoon, *Viguiera pflanzii* Perkins, *Viguiera punensis* S. F. Blake
Ref. Blake, 1930: 253.
Shrub. Andean II-III. 2000-4000 m.
Voucher: Dillon & Dillon 3660 (F!)
Depts.: AR, AY, CA, CU, JU, HU, MO, LI, PU

Viguiera punensis S. F. Blake =Viguiera procumbens (Persoon) S. F. Blake

Viguiera pusilla (A. Gray) S. F. Blake var. **astephana** S. F. Blake
Ref. Blake, 1926: 218.
Endemic shrub. Andean II. 1500-2000 m.
Voucher: Wilkes Exped. s.n.* (US), Macbride 3750* (US!)
Depts.: HU

Viguiera pusilla var. **pusilla**
Syn. *Tithonia pusilla* A. Gray
Ref. Blake, 1918: 160.
Endemic shrub. Andean II. 1500-2500 m.
Voucher: Wilkes Exped. s.n.* (US), Pennell 14484 (F!)
Depts.: LI

Viguiera rudbeckioides (H.B.K.) H. Robinson
Syn. *Gymnolomia rudbeckioides* H.B.K., *Hymenostephium rudbeckioides* (H.B.K.) S. F. Blake
Ref. Robinson, 1977: 209.
Endemic shrub. Andean II. 2000-2500 m.
Voucher: Humboldt & Bonpland s.n.* (P-H&B), Llatas 1219 (F!)
Depts.: CA

Viguiera simsioides S. F. Blake
Ref. Blake, 1917c: 48.
Endemic shrub. Andean II. 1500-2500 m.
Voucher: Weberbauer 5355* (US!)
Depts.: LI, LL

Viguiera szyszylowiczii Hieronymus
Ref. Hieronymus, 1905: 489.
Endemic herb. Andean II. 2500-3000 m.
Voucher: Jelski 797* (B photo F), Sagástegui 14150 (F!)
Depts.: CA, LL

Viguiera truxillensis (H.B.K.) S. F. Blake
Syn. *Helianthus truxillensis* H.B.K.
Ref. Blake, 1918: 136.
Endemic herb. Andean II. 2500-3000 m.
Voucher: Sagástegui 14149 (F!)
Depts.: CA, LL

Viguiera weberbaueri S. F. Blake
Ref. Blake, 1917c: 49; Ferreyra, 1961: 118.
Endemic herb. Coastal: lomas. 0-500 m.
Voucher: Weberbauer 1571* (B photo F), Dillon 3375 (F!)
Depts.: AR, TA

Villanova alternifolia Lagasca
Note: Taxonomic position uncertain.
Voucher: Without collection data.
Depts.: LI

Villanova dissecta (Hooker) DC.
=Vasquezia oppositifolia (Lagasca) S. F. Blake

Villanova oppositifolia Lagasca
=Vasquezia oppositifolia (Lagasca) S. F. Blake

Weberbaueriella johnstoniana Ferreyra
=Chucoa ilicifolia Cabrera

Wedelia calycina Richard
Shrub. Amazonian. 0-500 m.
Voucher: Rimachi 8333 (F!)
Depts.: LO

Wedelia episcopalis H. Robinson
Ref. Robinson, 1983b: 55.
Endemic shrub or subshrub. Andean I: forests. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: King & Bishop 9095* (US)
Depts.: CA

Wedelia forbesii S. Moore
Ref. Moore & Moore, 1914: 264.
Endemic herb. Andean II. 2000-2500 m.
Voucher: Forbes s.n.* (BM)
Depts.: LL

Wedelia gaudichaudii DC.
Endemic herb. Amazonian, Andean I-II, Coastal. 0-2500 m.
Voucher: Gaudichaud s.n.* (G-DC), Sagástegui 9121 (F!)
Depts.: AM, AP, CA, HU, LI, LL, TU

Wedelia grandiflora Bentham
Shrub. Amazonian, Andean I, Coastal. 0-1500 m.
Voucher: Hutchison & Wright 3580 (F!)
Depts.: AM, CA, PI, SM, TU

Wedelia helianthoides H.B.K.
Herb. Amazonian, Andean I-II, Coastal. 0-3000 m.
Voucher: Sagástegui 9813 (F!)
Depts.: AN, CA, LI, LL

Wedelia hoffmanniana F. Bruns
Ref. Bruns, 1929: 79.
Endemic herb. Coastal. 0-500 m.
Voucher: Gunther & Buchtien 46* & 47* (HBG photo F)
Depts.: AR

Wedelia jelskii Hieronymus
Ref. Hieronymus, 1905: 488.
Endemic shrub.
Voucher: Jelski 662* (US!)
Depts.: CA

Wedelia latifolia DC.
Shrub. Amazonian, Andean I-II, Coastal. 0-2000 m.
Voucher: Smith 6184 (F!)
Depts.: AM, CA, LL

Wedelia psammophila Poeppig =Eclipta prostrata (L.) L.

Wedelia titicacensis Meyen & Walpers =Vasquezia titicacensis (Meyen & Walpers) S. F. Blake

Wedelia trilobata (L.) A. Hitchcock =Complaya trilobata (L.) Strother
Ref. Strother, 1991: 14.

Werneria acerosifolia Hieronymus =Werneria villosa A. Gray

Werneria amblydactyla S. F. Blake
Ref. Rockhausen, 1939: 287.
Endemic herb. Andean III. 3500-4500 m.
Voucher: Wilkes Exped. s.n.* (US)
Depts.: HU, JU

Werneria apiculata Schultz-Bip.
Ref. Cabrera, 1948: 57.
Herb. Andean II-III. 3000-4500 m.
Voucher: Burkart & Tronocoso 11662* (LP), Tupayachi 1056 (F)
Depts.: CU

Werneria aretioides Weddell
Ref. Cabrera, 1948: 59.
Shrub. Andean III. 4000- > 4500 m.
Voucher: Wedermann 1155 (LP)
Depts.: TA

Werneria caespitosa Weddell
Ref. Rockhausen, 1939: 315.
Endemic herb. Andean III. 3500-4500 m.
Voucher: Dombey s.n.* (P), Smith *et al.* 12191 (MO)
Depts.: AN

Werneria carnulosa A. Gray
Ref. Rockhausen, 1939: 284.
Endemic herb. Andean III. > 4500 m.
Voucher: Wilkes Exped. s.n.* (US), Macbride & Featherstone 855
Depts.: HU

Werneria ciliolata A. Gray
Syn. *Werneria juneriperina* Hieronymus, *Werneria lycopodioides* S. F. Blake
Ref. Cuatrecasas, 1960: 185.
Endemic herb. Andean III. > 4500 m.
Voucher: Wilkes Exped. s.n.* (US), Werdermann 1164 (GH)
Depts. Without full locality data.

Werneria cornea S. F. Blake
Ref. Blake, 1928a: 495.
Endemic herb. Andean III. 4000-4500 m.
Voucher: Macbride & Featherstone 2477* (F)
Depts.: HU

Werneria dactylophylla Schultz-Bip.
Ref. Cabrera, 1948: 60.
Endemic subshrub. Andean III. 4000- > 4500 m.
Voucher: Lechler 1807* (B photo F), Smith *et al.* 11644 (F)
Depts.: AN

Werneria decora S. F. Blake
Ref. Rockhausen, 1939: 290.
Endemic herb. Andean III. > 4500 m.
Voucher: Macbride & Featherstone 849* (F)
Depts.: LI

Werneria decumbens Hieronymus
Ref. Funk, pers. comm.
Voucher: Stuebel 100c* (B photo F)

Werneria digitata Weddell
Ref. Cabrera, 1948: 61.
Herb. Andean III. 3500-4000 m.
Voucher: Gay s.n.* (P), Herrera 1033 (US)
Depts.: CU

Werneria esquilachensis Cuatrecasas
Ref. Cuatrecasas, 1956c: 192.
Endemic herb. Andean III. > 4500 m.
Voucher: Stafford s.n. [in 1937]* (K)
Depts.: PU

Werneria glandulosa Weddell =Hypochaeris sessiliflora H.B.K.

Werneria heteroloba Weddell
Ref. Cabrera, 1948: 50.
Endemic herb. Andean III. 4000- > 4500 m.
Voucher: Gay s.n.* (P), Weberbauer 7362* (F)
Depts.: MO

Werneria juneriperina Hieronymus =Werneria ciliolata A. Gray
Ref. Cuatrecasas, 1960: 185.

Werneria lycopodioides S. F. Blake =Werneria ciliolata A. Gray
Ref. Blake, 1928a: 493.

Werneria macbridei Cuatrecasas =Senecio repens var. macbridei (Cuatrecasas) Cabrera
Ref. Cuatrecasas, 1953c: 294.

Werneria marcida S. F. Blake
Syn. *Werneria sedoides* S. F. Blake
Ref. Rockhausen, 1939: 299.
Endemic herb. Andean III. > 4500 m.
Voucher: Macbride 3032* (F), Macbride & Featherstone 2475 (F)
Depts.: HU, LI

Werneria melanandra Weddell
Ref. Rockhausen, 1939: 284.
Herb. Andean III. > 4500 m.
Voucher: Weddell s.n.* (P)
Depts.: PU

Werneria nubigena H.B.K.
Syn. *Werneria stuebelii* Hieronymus
Ref. Rockhausen, 1939: 284.
Herb. Andean II-III. 2500-4000 m.
Voucher: Smith *et al.* 12286 (MO)
Depts.: AM, AN, CA, CU, LA, SM

Werneria obtusiloba S. F. Blake
Ref. Blake, 1928a: 489.
Endemic herb. Andean III. 4000- > 4500 m.
Voucher: Weberbauer 7362* (F), Pennell 13338 (F)
Depts.: AR, MO

Werneria orbignyana Weddell var. **breviradiata** A. Gray
Endemic herb. Andean III. 3500- > 4500 m.
Voucher: Wilkes Exped. s.n.* (US)
Depts.: Without full locality data.

Werneria orbignyana var. **orbignyana**
Herb. Andean II-III. 2500-4000 m.
Voucher: Peyton & Peyton 715 (F)
Depts.: CU

Werneria plantaginifolia Weddell var. **macrocephala** Cuatrecasas
Ref. Cuatrecasas, 1953a: 153.
Endemic herb. Andean III. 3500-4000 m.
Voucher: Vargas 1047 (F)
Depts.: AP

Werneria pygmaea Gillies ex Hooker & Arnott
Ref. Cabrera, 1948: 55.
Herb. Andean III. 3500- > 4500 m.
Voucher: Franquemont 363 (F)
Depts.: AN, AR, CU, JU, LI, PU

Werneria pygmophylla S. F. Blake
Ref. Blake, 1928a: 491.
Endemic herb. Andean III. > 4500 m.
Voucher: Weberbauer 7358* (F)
Depts.: MO

Werneria rosenii R. E. Fries
Ref. Cabrera, 1948: 51.
Subshrub. Andean III. 4000- > 4500 m.
Voucher: Tupayachi 736 (MO)
Depts.: Without full locality data.

Werneria sedoides S. F. Blake =Werneria marcida S. F. Blake
Ref. Blake, 1928a: 493.

Werneria solivaefolia Schultz-Bip.
Ref. Funk, pers. comm.
Endemic shrub. Andean III. 4000-4500 m.
Voucher: Without collection data.
Depts.: CU, PU

Werneria staticaefolia Schultz-Bip.
Ref. Rockhausen, 1939: 306.
Endemic herb. Andean II-III. 3000-4000 m.
Voucher: Lechler 2212* (F), Lechler 2111 (F)
Depts.: CU

Werneria strigosissima A. Gray
Ref. Rockhausen, 1939: 323.
Endemic subshrub. Andean III. 3500- > 4500 m.
Voucher: Wilkes Exped. s.n.* (US), Franquemont 315 (F)
Depts.: AN, CU, LI

Werneria stuebelii Hieronymus =Werneria nubigena H.B.K.
Ref. Funk, pers. comm.

Werneria villosa A. Gray
Syn. *Werneria acerosifolia* Hieronymus
Ref. Cabrera, 1948: 55.
Endemic herb. Andean II-III. 3000- > 4500 m.
Voucher: Wilkes Exped. s.n.* (US), Sagástegui *et al.* 11694 (F)
Depts.: AN, CA, CU

Werneria weberbaueriana Rockhausen
Ref. Rockhausen, 1939: 323.
Endemic herb. Andean II-III. 3000- > 4500 m.
Voucher: Weberbauer 2984*
Depts.: Without full locality data.

Wilborgia urticaefolia Kuntze =Galinsoga quadriradiata R. & P.

Willoughbya bangii Rusby =Mikania decora Poeppig
Ref. FP n.s. 9 1982: 19; King & Robinson, 1987: 572.

Willoughbya cordifolia (L. f.) Kuntze =Mikania cordifolia (L. f.) Willdenow
Ref. FP n.s. 9 1982: 17; King & Robinson, 1987: 572.

Willoughbya dioscoreoides Rusby =Mikania dioscoreoides (Rusby) B. Robinson
Ref. King & Robinson, 1987: 572.

Willoughbya ferruginea Rusby =Mikania banisteriae DC.
Ref. FP n.s. 9 1982: 11; King & Robinson, 1987: 572.

Willoughbya guaco (H. & B.) Kuntze =Mikania guaco Humboldt & Bonpland
Ref. FP n.s. 9 1982: 23; King & Robinson, 1987: 572.

Willoughbya halei Small =Mikania cordifolia (L. f.) Willdenow
Ref. FP n.s. 9 1982: 17; King & Robinson, 1987: 572.

Willoughbya hirsutissima Rusby, nom. illeg. =Mikania banisteriae DC.
Ref. FP n.s. 9 1982: 11.

Willoughbya imrayana (Grisebach) Kuntze =Mikania hookeriana DC.
Ref. FP n.s. 9 1982: 26; King & Robinson, 1987: 572.

Willoughbya micrantha (H.B.K.) Rusby =Mikania micrantha H.B.K.
Ref. FP n.s. 9 1982: 36; King & Robinson, 1987: 573.

Willoughbya platyphylla (DC.) Kuntze =Mikania hookeriana DC.
Ref. FP n.s. 9 1982: 26; King & Robinson, 1987: 573.

Willoughbya trifolia Rusby =Mikania trifolia (Rusby) B. Robinson
Ref. King & Robinson, 1987: 574; Rusby, 1907: 382.

Wulffia baccata (L. f.) Kuntze
Syn. *Coreopsis baccata* L. f., *Wulffia scandens* DC.
Liana or shrub. Amazonian, Andean I-II. 0-2000 m.
Voucher: Smith 1280 (F!)
Depts.: AM, AY, CU, HU, JU, LO, MD, PU, SM, UC

Wulffia scandens DC. =Wulffia baccata (L. f.) Kuntze

Xanthium spinosum L. =Acanthoxanthium spinosum (L.) Fourreau
Ref. Löve, 1975: 61.

Xenophontia caryophylla Vell. Conc. =Barnadesia caryophylla (Vell. Conc.) S. F. Blake
Ref. Blake, 1925a: 86; Chung, 1965: 38.

Xeranthemum bracteatum Ventenat =Helichrysum bracteatum (Ventenat) Andrews
Ref. FP n.s. 26 1991: 41.

Xiphochaeta aquatica Poeppig =Stilpnopappus aquaticus (Poeppig) Dillon
Ref. FP n.s. 11 1982: 4.

Zexmenia mikanioides (Britton) S. F. Blake =Oblivia mikanioides (Britton) Strother

Zexmenia wedelioides Klatt =Oyedaea wedelioides (Klatt) S. F. Blake
Ref. Blake, 1921c: 414.

Zinnia elegans Jacquin
Ref. Torres, 1963: 15.

Herb. Amazonian, Andean I-II. 0-2000 m.
Voucher: Williams 4062 (F!)
Depts.: AM, LO, SM

Zinnia multiflora L. =Zinnia peruviana (L.) L.
Ref. Torres, 1963: 12.

Zinnia pauciflora L. =Zinnia peruviana (L.) L.
Ref. Torres, 1963: 12.

Zinnia peruviana (L.) L.
Syn. *Chrysogonum peruvianum* L., *Zinnia multiflora* L., *Zinnia pauciflora* L.
Ref. Torres, 1963: 12.
Herb. Amazonian, Andean I-II, Coastal. 0-3500 m.
Voucher: Jussieu 9416* (P-JU), Sagástegui 9244 (F!),
Depts.: AN, AP, AY, CA, CU, HU, LA, LI, MO, PI

Balanophoraceae

6 genera and 10 species in Peru.

Prepared by L. Brako.

Corynaea crassa Hooker f. var. **crassa**
Syn. *Corynaea purdiei* Hooker f.
Ref. FP 13(2/2) 1937: 431; Hansen, 1980: 42.
Parasitic herb. Andean II: cloud forests. 1500-2500 m.
Voucher: Barbour 2715 (MO!)
Depts.: AM, PA

Corynaea crassa var. **sprucei** (Eichler) B. Hansen
Syn. *Corynaea sprucei* Eichler
Ref. Hansen, 1980: 44.
Parasitic herb. Andean I-III: forests. 1000-4000 m.
Voucher: Smith & Vásquez 3568 (MO!)
Depts.: AM, AY, CA, LL, PI

Corynaea purdiei Hooker f. =Corynaea crassa var. crassa
Ref. FP 13(2/2) 1937: 431; Hansen, 1980: 42.

Corynaea sprucei Eichler =Corynaea crassa var. sprucei (Eichler) B. Hansen
Ref. Hansen, 1980: 44.

Cynomorium cayennense Swartz =Helosis cayennensis var. cayennensis
Ref. FP 13(2/2) 1937: 430; Hansen, 1980: 35.

Helosis cayennensis (Swartz) Sprengel var. **cayennensis**
Syn. *Cynomorium cayennense* Swartz, *Helosis guyanensis* Richard
Ref. FP 13(2/2) 1937: 430; Hansen, 1980: 38.
Parasitic herb. Amazonian, Andean I-II: disturbed areas, forests. 0-2500 m.
Voucher: Berlin 457 (MO!)
Depts.: AM, CU, JU, LO, MD, TU

Helosis guyanensis Richard =Helosis cayennensis var. cayennensis
Ref. FP 13(2/2) 1937: 430; Hansen, 1980: 36.

Juelia subterranea Asplund =Ombrophytum subterraneum (Asplund) B. Hansen
Ref. FP 13(2/2) 1937: 430; Hansen, 1980: 62.

Langsdorffia hypogaea C. Martius
Ref. FP 13(2/2) 1937: 430; Hansen, 1980: 68.
Parasitic herb. Amazonian, Andean I-II: seasonally inundated areas, terra firme forests. 0-3500 m.
Voucher: van der Werff *et al.* 8419 (MO!)
Depts.: AM, CU, HU, PA, SM

[*Lophophytum bolivianum* Weddell =Lophophytum mirabile subsp. bolivianum (Weddell) B. Hansen]
Ref. FP 13(2/2) 1937: 428; Hansen, 1980: 52.
Note: Not known from Peru.

[Lophophytum mirabile Schott & Endlicher subsp. bolivianum (Weddell) B. Hansen]
Syn. *Lophophytum bolivianum* Weddell
Ref. FP 13(2/2) 1937: 428; Hansen, 1980: 52.
Note: Not known from Peru. The Flora of Peru lists *Tessmann 4202* as the voucher for this taxon from Peru, but Hansen (1980) does not include Peru in the distribution of this species and does not list this collection.

Lophophytum mirabile subsp. **mirabile**
Ref. FP 13(2/2) 1937: 428; Hansen, 1980: 52.
Parasitic herb. Amazonian: terra firme forests. 0-500 m.
Voucher: Vásquez & Soto 8893 (MO!)
Depts.: LO

Lophophytum weddellii Hooker f.
Ref. Hansen, 1980: 49.
Parasitic herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Schunke 5675 (F!)
Depts.: SM

Ombrophytum microlepis B. Hansen
Ref. Hansen, 1980: 60.
Parasitic herb. Amazonian: forests. 0-500 m.
Voucher: Schunke 3943 (F!)
Depts.: LO, MD, SM

Ombrophytum peruvianum Poeppig & Endlicher
Syn. *Ombrophytum zamioides* Weddell
Ref. FP 13(2/2) 1937: 429; Hansen, 1980: 60.
Parasitic herb. Amazonian: forests. 0-500 m.
Voucher: Poeppig s.n. illustration
Depts.: HU, LO, MD, SM

Ombrophytum subterraneum (Asplund) B. Hansen
Syn. *Juelia subterranea* Asplund
Ref. Hansen, 1980: 62.
Parasitic herb.
Voucher: Foster 3065 (F!)
Depts.: MD

Ombrophytum ulei Harms =Ombrophytum violaceum B. Hansen
Ref. FP 13(2/2) 1937: 429; Hansen, 1980: 58.

Ombrophytum violaceum B. Hansen
Syn. *Ombrophytum ulei* Harms
Ref. Hansen, 1980: 58.
Parasitic herb. Amazonian: forests. 0-500 m.
Voucher: Wurdack 2360* (US), Mexia 6337A (F)
Depts.: AM, LO, MD

Ombrophytum zamioides Weddell =Ombrophytum peruvianum Poeppig & Endlicher
Ref. FP 13(2/2) 1937: 429; Hansen, 1980: 62.

Scybalium depressum (Hooker f.) Eichler
Syn. *Sphaerorhizon depressum* Hooker f.
Ref. Hansen, 1980: 25.
Parasitic herb. Andean II: cloud forests. 1500-2000 m.
Voucher: Barbour 4131 (MO!)
Depts.: AM

Sphaerorhizon depressum Hooker f. =Scybalium depressum (Hooker f.) Eichler
Ref. Hansen, 1980: 25.

Balsaminaceae

1 genus and 2 species in Peru.

Prepared by L. Brako.

Impatiens balsamina L.
Ref. Terrell *et al.*, 1985: 79.
Cultivated herb. Amazonian. 0-500 m.
Voucher: Ferreyra 13184 (MO!)
Depts.: CU, HU

Impatiens walleriana Hooker f.
Cultivated herb. Amazonian. 0-500 m.
Voucher: Gentry *et al.* 27391 (MO!)
Depts.: CU

Basellaceae

3 genera and 8 species in Peru.

Prepared by J. L. Zarucchi and L. Brako; reviewed by C. R[illegible]erling (BARC).

Anredera baselloides (H.B.K.) Baillon
Syn. *Anredera weberbaueri* (Ulbrich) Soukup, nom. illeg., *Boussingaultia baselloides* H.B.K., *Boussingaultia weberbaueri* Ulbrich
Ref. Sperling, 1987: 214.
Vine. Andean II: disturbed areas, shrublands. 2000-3500 m.

Voucher: Sagástegui *et al.* 7962 (MO!)
Depts.: CA, CU, HU, LL, SM

Anredera cordifolia (Tenore) Steenis
Syn. *Boussingaultia cordifolia* Tenore
Ref. Sperling, 1987: 183.
Vine. Coastal: disturbed areas. 0-500 m.
Voucher: Sperling & King 5581 (GH)
Depts.: LI

Anredera diffusa (Moquin) Soukup, nom. illeg. =Anredera diffusa (Moquin) Sperling
Ref. Sperling, 1987: 234.

Anredera diffusa (Moquin) Sperling
Syn. *Anredera diffusa* (Moquin) Soukup, nom. illeg., *Basella diffusa* R. & P. ex Moquin, nom. illeg., *Boussingaultia diffusa* (Moquin) Volkens, *Tandonia diffusa* Moquin
Ref. Sperling, 1987: 234.
Vine. Andean I-II, Coastal: desert, lomas, rocky slopes. 0-3500 m.
Note: New combination made in Appendix 1.
Voucher: Ruiz & Pavón s.n.* (P frag. F!), Ferreyra 7289 (US, USM!)
Depts.: AN, AR, AY, CU, JU, LI

Anredera filiformis (Moquin) Soukup, nom. illeg. =Anredera ramosa (Moquin) Eliasson
Ref. Sperling, 1987: 222.

Anredera marginata (H.B.K.) Sperling
Syn. *Basella marginata* H.B.K., *Boussingaultia marginata* (H.B.K.) Britton ex Rusby
Ref. Sperling, 1987: 254.
Herb or vine. Andean II-III: disturbed areas, rocky slopes. 2000-4500 m.
Note: New combination made in Appendix 1.
Voucher: Núñez & Núñez 8213 (MO!)
Depts.: CU, LI

Anredera ramosa (Moquin) Eliasson
Syn. *Anredera filiformis* (Moquin) Soukup, *Boussingaultia boliviensis* (Hauman) J. F. Macbride, *Boussingaultia filiformis* (Moquin) Hauman, *Boussingaultia ramosa* var. *boliviensis* Hauman, *Tandonia filiformis* Moquin, *Tandonia ramosa* Moquin
Ref. Sperling, 1987: 222.
Vine. Andean II-III: disturbed areas, shrublands. 1500-4000 m.
Voucher: Sagástegui 9727 (MO!)
Depts.: CA

Anredera scandens (L.) Moquin =Anredera vesicaria (Lamarck) Gaertner f.
Ref. FP 13(2/2) 1937: 578; Sperling, 1987: 160.

Anredera vesicaria (Lamarck) Gaertner f.
Syn. *Anredera scandens* (L.) Moquin, *Polygonum scandens* L. (Polygonaceae) [in part, non lectotype].
Ref. Sperling, 1987: 159.
Vine. Coastal: disturbed areas. 0-500 m.
Voucher: Plowman 10987 (F, USM!)
Depts.: LI

Anredera weberbaueri (Ulbrich) Soukup, nom. illeg. =Anredera baselloides (H.B.K.) Baillon
Ref. Sperling, 1987: 214.

Basella alba L.
Syn. *Basella rubra* L.
Ref. FP 13(2/2) 1937: 574; Sperling, 1987: 97.
Cultivated herb or vine. Amazonian, Andean I-III: rocky slopes. 0-4000 m.
Voucher: Tupayachi 1020 (MO!)
Depts.: AR, CU, JU, LI, MO

Basella diffusa R. & P. ex Moquin, nom. illeg. =Anredera diffusa (Moquin) Sperling
Ref. FP 13(2/2) 1937: 576; Sperling, 1987: 234.

Basella marginata H.B.K. =Anredera marginata (H.B.K.) Sperling
Ref. Sperling, 1987: 254.

Basella rubra L. =Basella alba L.
Ref. FP 13(2/2) 1937: 574; Sperling, 1987: 97.

Basella tuberosa H.B.K. =Ullucus tuberosus subsp. tuberosus
Ref. FP 13(2/2) 1937: 575; Sperling, 1987: 128.

Boussingaultia baselloides H.B.K. =Anredera baselloides (H.B.K.) Baillon
Ref. Sperling, 1987: 214.

Boussingaultia boliviensis (Hauman) J. F. Macbride =Anredera ramosa (Moquin) Eliasson
Ref. FP 13(2/2) 1937: 577; Sperling, 1987: 222.

Boussingaultia cordifolia Tenore =Anredera cordifolia (Tenore) Steenis
Ref. Sperling, 1987: 183.

Boussingaultia diffusa (Moquin) Volkens =Anredera diffusa (Moquin) Sperling
Ref. FP 13(2/2) 1937: 576; Sperling, 1987: 234.
Note: The Flora of Peru uses the incorrect author citation (R. & P.) Volkens.

Boussingaultia filiformis (Moquin) Hauman =Anredera ramosa (Moquin) Eliasson
Ref. FP 13(2/2) 1937: 577; Sperling, 1987: 222.

Boussingaultia marginata (H.B.K.) Britton ex Rusby =Anredera marginata (H.B.K.) Sperling
Ref. Sperling, 1987: 254.

[Boussingaultia minor Diels]
Ref. FP 13(2/2) 1937: 577.
Note: Not known from Peru. Sperling (1987: 266) lists this as an uncertain species.

Boussingaultia ramosa var. *boliviensis* Hauman =Anredera ramosa (Moquin) Eliasson
Ref. FP 13(2/2) 1937: 577; Sperling, 1987: 222.

Boussingaultia weberbaueri Ulbrich =Anredera baselloides (H.B.K.) Baillon
Ref. FP 13(2/2) 1937: 578; Sperling, 1987: 214.

Melloca peruviana Moquin =Ullucus tuberosus subsp. tuberosus
Ref. FP 13(2/2) 1937: 575; Sperling, 1987: 128.

Tandonia diffusa Moquin =Anredera diffusa (Moquin) Sperling
Ref. FP 13(2/2) 1937: 576; Sperling, 1987: 234.

Tandonia filiformis Moquin =Anredera ramosa (Moquin) Eliasson
Ref. FP 13(2/2) 1937: 577; Sperling, 1987: 222.

Tandonia ramosa Moquin =Anredera ramosa (Moquin) Eliasson
Ref. Sperling, 1987: 222.

Ullucus aborigineus Bruecher =Ullucus tuberosus subsp. aborigineus (Bruecher) Sperling
Ref. Sperling, 1987: 133.

Ullucus kunthii Moquin =Ullucus tuberosus subsp. tuberosus
Ref. FP 13(2/2) 1937: 575; Sperling, 1987: 128.

Ullucus tuberosus Caldas subsp. **aborigineus** (Bruecher) Sperling
Syn. *Ullucus aborigineus* Brücher
Ref. Sperling, 1987: 132.
Herb. Andean II-III: disturbed areas. 2500-4000 m.
Note: New combination made in Appendix 1.
Voucher: Stork & Horton 10796 (F!)
Depts.: AN, AY, CA, CU, JU

Ullucus tuberosus subsp. **tuberosus**
Syn. *Basella tuberosa* H.B.K., *Melloca peruviana* Moquin, *Ullucus kunthii* Moquin
Ref. FP 13(2/2) 1937: 575; Sperling, 1987: 128.
Cultivated herb. Andean II-III: disturbed areas. 2500-4500 m.
Voucher: King *et al.* 156 (F!)
Depts.: AN, CA, CU, JU, PU

Bataceae

1 genus and 1 species in Peru.

Prepared by J. L. Zarucchi; reviewed by W. G. D'Arcy (MO).

Batis maritima L.
Ref. D'Arcy, 1977: 388.
Herb or shrub. Coastal: beaches, lomas. 0-500 m.

Voucher: Simpson & Schunke 603 (F!)
Depts.: AN, PI, TU

Begoniaceae

1 genus and 76 species in Peru.

Endemic species: 38.

Prepared by J. L. Zarucchi; reviewed by D. C. Wasshausen (US).

Barya monadelpha Klotzsch =Begonia monadelpha subsp. monadelpha
Ref. FP 13(4/1) 1941: 194; Smith *et al.*, 1986: 201, 253.

Begonia acerifolia H.B.K.
Syn. *Begonia dolabrifera* C. DC.
Ref. Smith & Wasshausen, 1986: 48; Smith *et al.*, 1986: 135, 160.
Herb. Andean II: disturbed areas, forests. 1500-2500 m.
Voucher: Soukup 3876 (US!)
Depts.: CA, PI

Begonia aeranthos Lyman B. Smith & B. G. Schubert
Syn. *Begonia grandibracteolata* Irmscher
Ref. Smith & Wasshausen, 1986: 15; Smith *et al.*, 1986: 136.
Herb or vine.
Note: The Flora of Ecuador (Smith & Wasshausen, 1986) lists this species as endemic to Ecuador and without the synonym given here.
Voucher: Lobb s.n. (W photo US!)
Depts.: Without full locality data.

Begonia albomaculata C. DC.
Ref. FP 13(4/1) 1941: 202; Smith & Wasshausen, 1984: 465; Smith & Wasshausen, 1986: 46; Smith *et al.*, 1986: 137.
Herb. Amazonian, Andean I: forests, rocky slopes. 0-1000 m.
Note: The Flora of Peru indicates "...description insufficient for identification."
Voucher: Huber MG1518* (MG), Chávez 3111 (MO!)
Depts.: CU, LO, SM

Begonia alnifolia A. DC.
Ref. Smith & Schubert, 1946b: 180; Smith *et al.*, 1986: 137.
Herb. Andean I: forests. 1000-1500 m.
Note: Smith *et al.* (1986) states that this taxon occurs only in Colombia.
Voucher: Vargas 7316 (US!)
Depts.: CU

Begonia altoperuviana A. DC.
Ref. FP 13(4/1) 1941: 185; Smith *et al.*, 1986: 137.
Herb. Andean III: shrublands. 3500-4000 m.
Voucher: Weddell 4556* (P photo F!), Vargas 3763 (Hb. Vargas photo US!)
Depts.: PU

Begonia anemoniflora Irmscher
Ref. Irmscher, 1953: 76; Smith *et al.*, 1986: 138.
Endemic herb. Andean II: forests. 1500-2500 m.
Voucher: Weberbauer 2015* (B photo F!), Weberbauer 1764 (B)
Depts.: JU

Begonia arrogans Irmscher
Ref. Irmscher, 1949: 606; Smith *et al.*, 1986: 140.
Endemic herb. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Killip & Smith 26137* (US)
Depts.: JU

Begonia bifurcata Lyman B. Smith & B. G. Schubert
Ref. Smith & Schubert, 1955: 113; Smith *et al.*, 1986: 143.
Endemic herb. Andean II: forests. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Ferreyra 3103* (US)
Depts.: PI

Begonia bracteosa A. DC.
Ref. FP 13(4/1) 1941: 185; Smith *et al.*, 1986: 145.
Endemic herb. Andean II: disturbed areas, rocky slopes. 1500-3000 m.
Voucher: Herb. Hooker s.n.* (K), West 6416 (MO!)
Depts.: CU, JU, PU

Begonia brevicordata Lyman B. Smith & B. G. Schubert
Ref. Smith & Schubert, 1955: 113; Smith *et al.*, 1986: 146.
Endemic herb. Andean I: forests. 1000-1500 m.
Voucher: Vargas 6767* (US), Scolnik 927 (US!)
Depts.: CU

Begonia buddleiifolia A. DC.
Ref. FP 13(4/1) 1941: 186; Smith & Wasshausen, 1986: 11; Smith *et al.*, 1986: 146.
Herb. Andean I: disturbed areas, forests. 500-1000 m.
Note: In the Flora of Peru as "*buddleiaefolia*".
Voucher: Spruce 3998* (G photo F!), Killip & Smith 26101 (US!)
Depts.: JU, SM

Begonia ciliata H.B.K. =Begonia hirtella var. hirtella
Ref. FP 13(4/1) 1941: 192; Smith *et al.*, 1986: 150, 179.

Begonia cinnabarina Hooker
Ref. FP 13(4/1) 1941: 186; Smith & Wasshausen, 1984: 466; Smith *et al.*, 1986: 151.
Herb. Andean II: disturbed areas, forests, rocky slopes. 2000-3500 m.
Note: The Flora of Peru included *B. clarkei* as a synonym of this species.
Voucher: Herrera 3275 (US!)
Depts.: CU

Begonia clarkei Hooker f.
Ref. FP 13(4/1) 1941: 186; Smith & Wasshausen, 1984: 466; Smith *et al.*, 1986: 151.
Herb. Andean II: rocky slopes. 2000-2500 m.
Note: Treated in the Flora of Peru as a synonym of *B. cinnabarina* Hooker.
Voucher: West 8025 (MO!)
Depts.: AY

Begonia columnaris Bentham =Begonia urticae var. urticae
Ref. FP 13(4/1) 1941: 187; Smith *et al.*, 1986: 152, 245.

Begonia columnaris var. *glabra* (A. DC.) Lyman B. Smith & B. G. Schubert =Begonia urticae var. urticae
Ref. FP 13(4/1) 1941: 187; Smith *et al.*, 1986: 152, 246.

Begonia cordifolia (A. DC.) Warburg nom. illeg. =Begonia hirta var. cordifolia (A. DC.) Lyman B. Smith & B. G. Schubert
Ref. FP 13(4/1) 1941: 192; Smith *et al.*, 1986: 153, 179.

Begonia cucullata Willdenow var. **cucullata**
Syn. *Begonia paludicola* C. DC.
Ref. FP 13(4/1) 1941: 187; Golding, 1982: 332; Smith *et al.*, 1986: 155.
Cultivated herb. Andean I-II: forests. 500-3500 m.
Note: The Flora of Peru treated *B. spatulata* Loddiges as a synonym of this species.
Voucher: Núñez 6765 (MO!)
Depts.: CU

Begonia cyathophora Poeppig & Endlicher
Syn. *Cyathocnemis obliqua* Klotzsch
Ref. FP 13(4/1) 1941: 188; Smith *et al.*, 1986: 156.
Herb or vine. Andean I-II: forests, riversides. 500-2500 m.
Voucher: Poeppig s.n.* (W), Schunke 9221 (MO!)
Depts.: CU, HU, JU, PU, SM, UC

Begonia davisii Veitch ex Hooker f.
Ref. FP 13(4/1) 1941: 188; Smith *et al.*, 1986: 157.
Endemic herb. Andean II: forests. 2500-3000 m.
Voucher: Davis s.n.*
Depts.: Without full locality data.

[*Begonia diversifolia* var. *nana* Walpers =Begonia hirtella var. nana (Walpers) A. DC.]
Ref. FP 13(4/1) 1941: 192; Smith *et al.*, 1986: 159, 179.
Note: Not known from Peru.

Begonia dolabrifera C. DC. =Begonia acerifolia H.B.K.
Ref. Smith & Wasshausen, 1986: 48; Smith *et al.*, 1986: 135, 160.

Begonia elliptica H.B.K. =Begonia glabra var. glabra
Ref. FP 13(4/1) 1941: 190; Smith &

Wasshausen, 1986: 14; Smith *et al.*, 1986: 162, 171.

Begonia erythrocarpa A. DC.
Syn. *Begonia lobatopeltata* Irmscher, *Begonia macbrideana* Irmscher, *Begonia pennellii* fo. *macrantha* Irmscher, *Begonia pennellii* Lyman B. Smith & B. G. Schubert, *Begonia pennellii* subsp. *lobato-ovata* Irmscher, *Begonia pennellii* subsp. *longiloba* Irmscher
Ref. Smith & Wasshausen, 1986: 38; Smith *et al.*, 1986: 164.
Herb. Andean II: cloud forests, disturbed areas. 1500-3500 m.
Voucher: Metcalf 30543 (US!)
Depts.: AY, CU, PI, PU

Begonia falcifolia Hooker f.
Ref. Smith *et al.*, 1986: 165.
Endemic herb.
Note: Described from cultivation.
Voucher: Pearce s.n.* (K)
Depts.: Without full locality data.

Begonia filipes Bentham
Ref. Smith & Schubert, 1946a: 79; Smith *et al.*, 1986: 166.
Herb. Amazonian: forests. 0-500 m.
Voucher: Mejía 402 (US!)
Depts.: LO

Begonia fischeri Schrank var. **fischeri**
Syn. *Begonia tovarensis* Klotzsch, *Begonia moritziana* Klotzsch
Ref. Smith & Wasshausen, 1986: 48; Smith *et al.*, 1986: 166.
Herb. Amazonian, Andean I-II: forests, seasonally inundated areas. 0-2500 m.
Note: In Irmscher (1953) as "*var. eufischeri*".
Voucher: Dombey s.n.* (P: Hb. Jussieu Catal. no. 17282 photo US!), Smith 6036 (MO!)
Depts.: AM, CA, LO, MD

Begonia fischeri var. **klugii** Irmscher
Ref. Irmscher, 1953: 99; Smith & Wasshausen, 1986 49.
Herb. Amazonian, Andean I: forests. 0-1500 m.
Note: The Flora of Ecuador (Smith & Wasshausen, 1986) incorrectly state that this taxon is endemic to Ecuador; the type is from Peru.
Voucher: Klug 3389* (US), Encarnación & Mejía 25124 (US!)
Depts.: LO, SM

Begonia foliosa H.B.K. var. **australis** Lyman B. Smith & B. G. Schubet
Syn. *Begonia poeppigiana* (Klotzsch) A. DC., *Lepsia poeppigiana* Klotzsch
Ref. Smith *et al.*, 1986: 168.
Herb or shrub. Andean I: disturbed area, forests. 500-1000 m.
Voucher: Mexia 8298 (MO!)
Depts.: HU

Begonia foliosa var. *miniata* (Planchon & Linden) Lyman B. Smith & B. G. Schubert =Begonia fuchsioides var. miniata (Planchon & Linden) A. DC.
Ref. Smith & Schubert, 1946b: 196; Smith *et al.*, 1986: 168, 170.

Begonia fuchsiiflora (A. DC.) Baranov & F. Barkley
Syn. *Begonia fuchsiifolia* Warburg, *Casparya fuchsiiflora* A. DC.
Ref. Baranov & Barkley, 1973: 220; Smith *et al.*, 1986: 169.
Herb.
Voucher: Without collection data.
Depts.: Without full locality data.

Begonia fuchsiifolia Warburg =Begonia fuchsiiflora (A. DC.) Baranov & F. Barkley
Ref. Baranov & Barkley, 1973: 220; Smith *et al.*, 1986: 169.
Note: In Flora of Peru as "*fuchsiaefolia*".

Begonia fuchsioides Hooker var. **miniata** (Planchon & Linden) A. DC.
Syn. *Begonia foliosa* var. *miniata* (Planchon & Linden) Lyman B. Smith & B. G. Schubert, *Begonia miniata* Planchon & Linden, *Tittelbachia miniata* (Planchon & Linden) Klotzsch
Ref. Smith *et al.*, 1986: 170.
Herb. Andean II: disturbed areas, forests. 1500-2500 m.
Voucher: Sánchez 4471 (US!)
Depts.: AM, CA

Begonia gaudichaudii Walpers =Begonia geraniifolia Hooker
Ref. FP 13(4/1) 1941: 189; Smith *et al.*, 1986: 170, 171.

Begonia geraniifolia Hooker
Syn. *Begonia gaudichaudii* Walpers, *Begonia petalodes* Lindley, *Eupetalum kunthianum* Klotzsch, *Eupetalum lindleyanum* Gaudichaud-Beaupré, *Eupetalum petaloides* Lindley, *Eupetalum tuberosum* Klotzsch
Ref. FP 13(4/1) 1941: 189; Smith *et al.*, 1986: 171.
Herb. Andean I-II, Coastal: lomas, rocky slopes. 0-3000 m.
Voucher: Mathews 734* (K), Knapp 8328 (MO!)
Depts.: LI, LL

Begonia gesnerioides Lyman B. Smith & B. G. Schubert
Ref. FP 13(4/1) 1941: 190; Smith *et al.*, 1986: 171.
Endemic herb. Amazonian, Andean I: terra firme forests. 0-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Klug 4296* (GH)
Depts.: SM

Begonia glabra Aublet var. **amplifolia** (A. DC.) Lyman B. Smith & B. G. Schubert
Syn. *Begonia scandens* var. *amplifolia* A. DC.
Ref. FP 13(4/1) 1941: 191; Smith *et al.*, 1986: 172, 229.
Herb or shrub. Amazonian: forests. 0-500 m.
Voucher: Poeppig 1928 (W)
Depts.: HU, SM

Begonia glabra var. **glabra**
Syn. *Begonia elliptica* H.B.K., *Begonia lucida* Otto & Dietrich, *Begonia moritziana* Kunth & Bouché, *Begonia physalifolia* Liebmann, *Begonia scandens* Swartz, *Pritzelia deflexa* A. DC., *Pritzelia glabra* A. DC., *Pritzelia lucida* A. DC., *Pritzelia montana* A. DC., *Wageneria deflexa* Klotzsch, *Wageneria glabra* Klotzsch, *Wageneria lucida* (Otto & Dietrich) Klotzsch, *Wageneria montana* Klotzsch
Ref. FP 13(4/1) 1941: 190; Smith & Wasshausen, 1986: 14; Smith *et al.*, 1986: 171.
Herb or vine. Amazonian, Andean I-II: forests on white sand, terra firme forests. 0-2000 m.
Voucher: Croat 18652 (MO!)
Depts.: AM, AY, CA, CU, HU, JU, LO, MD, PA, PU, SM, UC

Begonia glacoides Irmscher
Ref. Irmscher, 1949: 582; Smith *et al.*, 1986: 172.
Endemic herb. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Poeppig 1057* (W)
Depts.: HU

Begonia glauca (Klotzsch) R. & P. ex A. DC.
Syn. *Pritzelia glauca* Klotzsch
Ref. FP 13(4/1) 1941: 191; Smith *et al.*, 1986: 172.
Endemic herb or shrub. Andean II: forests. 1500-2000 m.
Voucher: Ruiz & Pavón s.n.* (G photo F!)
Depts.: HU

Begonia gracillima A. DC.
Ref. FP 13(4/1) 1941: 191; Smith *et al.*, 1986: 173.
Endemic herb.
Note: Known from Peru only from the type locality. Type locality not certain.
Voucher: Gay s.n.* (P photo F!)
Depts.: Without full locality data.

Begonia grandibracteolata Irmscher =Begonia aeranthos Lyman B. Smith & B. G. Schubert
Ref. Irmscher, 1953: 91; Smith *et al.*, 1986: 136, 173.
Note: Not listed as a synonym of *B. aeranthos* in the Flora of Ecuador (Smith & Wasshausen, 1986).

Begonia grandiflora Knowles & Wescott =Begonia octopetala subsp. octopetala
Ref. FP 13(4/1) 1941: 195; Smith & Wasshausen, 1986: 34; Smith *et al.*, 1986: 173, 207.

Begonia guaduensis H.B.K.
Ref. Smith & Wasshausen, 1986: 52; Smith *et al.*, 1986: 175.
Herb. Amazonian: cloud forests.

0-500 m.
Voucher: Sagástegui 5871 (US!)
Depts.: AM

Begonia heracleifolia Schlechtendal & Chamisso
Ref. Smith *et al.*, 1986: 177.
Herb. Amazonian: forests. 0-500 m.
Note: Possibly introduced.
Voucher: Williams 4320 (F photo US!)
Depts.: LO

Begonia herrerae Lyman B. Smith & B. G. Schubert
Ref. Smith & Schubert, 1945: 91; Smith *et al.*, 1986: 178.
Endemic herb. Andean I: rocky slopes. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Vargas 3720* (GH)
Depts.: CU

Begonia hirta (Klotzsch) Lyman B. Smith & B. G. Schubert var. **cordifolia** (A. DC.) Lyman B. Smith & B. G. Schubert
Syn. *Begonia cordifolia* (A. DC.) Warburg, nom. illeg., *Casparya cordifolia* A. DC.
Ref. FP 13(4/1) 1941: 192; Smith *et al.*, 1986: 179.
Endemic herb. Andean II: forests. 1500-2000 m.
Voucher: Ruiz & Pavón s.n.*
Depts.: HU

Begonia hirta var. **hirta**
Syn. *Casparya cordifolia* var. *hirta* (Klotzsch) A. DC., *Casparya hirta* Klotzsch
Ref. FP 13(4/1) 1941: 192; Smith *et al.*, 1986: 179.
Herb. Andean II: forests. 2000-3500 m.
Voucher: Weberbauer 6639 (B)
Depts.: HU, JU

Begonia hirtella Link var. **hirtella**
Syn. *Begonia ciliata* H.B.K., *Begonia villosa* Lindley
Ref. FP 13(4/1) 1941: 192; Smith *et al.*, 1986: 179.
Herb. Amazonian, Andean I-II: forests. 0-2000 m.
Note: The Flora of Peru lists *B. diversifolia* Graham var. *nana* and *B. hirtella* var. *nana* as synonyms of *B. hirtella*; Smith *et al.* (1986) accepts var. *nana* as a valid taxon from Brazil.
Voucher: Spruce 3982 (K)
Depts.: JU, SM

[Begonia hirtella var. nana (Walpers) A. DC.]
Syn. *Begonia diversifolia* var. *nana* Walpers
Ref. FP 13(4/1) 1941: 192; Smith *et al.*, 1986: 179.
Note: Not known from Peru.

Begonia humilis Dryander var. **humilis**
Syn. *Begonia lucida* Haworth, *Begonia meyeniana* Walpers, *Begonia pavoniana* A. DC.
Ref. FP 13(4/1) 1941: 193; Smith & Wasshausen, 1986: 9; Smith *et al.*, 1986: 181.
Herb. Amazonian, Andean I: forests, riversides. 0-1000 m.
Note: The Flora of Peru attributes authorship of this name to Aiton.
Voucher: Wasshausen & Encarnación 1093 (MO!)
Depts.: AY, HU, JU, LO, SM, UC

Begonia juninensis Irmscher
Ref. Irmscher, 1949: 594; Smith *et al.*, 1986: 185.
Endemic herb. Andean I: forests. 500-1000 m.
Voucher: Killip & Smith 26097* (US), Killip & Smith 26108 (F)
Depts.: JU

Begonia juntasensis Kuntze
Ref. Smith *et al.*, 1986: 185.
Herb.
Voucher: Moore *et al.* 8601 (US!)
Depts.: CU

Begonia lichenoides Lyman B. Smith & B. G. Schubert =Begonia weberbaueri Irmscher
Ref. Smith & Schubert, 1963: 10; Smith *et al.*, 1986: 190, 250.

Begonia lobatopeltata Irmscher =Begonia erythrocarpa A. DC.
Ref. Irmscher, 1953: 86; Smith & Wasshausen, 1986 38; Smith *et al.*, 1986: 164, 191.

Begonia longimaculata Irmscher
Ref. Irmscher, 1953: 89; Smith *et al.*, 1986: 192.
Endemic herb.
Voucher: Lobb s.n.* (W)
Depts.: LO, SM

Begonia longirostris Bentham
Ref. Irmscher, 1914: 573; Smith *et al.*, 1986: 192.
Herb.
Voucher: Young 1250 (US!)
Depts.: SM

Begonia lophoptera Rolfe
Ref. FP 13(4/1) 1941: 193; Smith *et al.*, 1986: 193.
Endemic herb. Andean I-II: forests. 1000-2500 m.
Voucher: Pearce 556* (K), Pennell 14069
Depts.: CU, HU, SM

Begonia lucida Haworth =Begonia humilis var. humilis
Ref. FP 13(4/1) 1941: 193; Smith & Wasshausen, 1986: 9; Smith *et al.*, 1986: 181, 193.

Begonia lucida Otto & Dietrich =Begonia glabra var. glabra
Ref. FP 13(4/1) 1941: 190; Smith & Wasshausen, 1986: 14; Smith *et al.*, 1986: 172, 193.

Begonia lucifuga Irmscher
Ref. Irmscher, 1949: 608; Smith *et al.*, 1986: 193.
Endemic herb. Andean II: forests. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Killip & Smith 24300* (US)
Depts.: JU

Begonia macbrideana Irmscher =Begonia erythrocarpa A. DC.
Ref. Irmscher, 1953: 87; Smith *et al.*, 1986: 164, 194.

Begonia mayasiana Lyman B. Smith & B. G. Schubert
Ref. Smith & Schubert, 1963: 7; Smith *et al.*, 1986: 198.
Endemic herb. Amazonian: forests, rocky slopes. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 1902* (US)
Depts.: AM

Begonia maynensis A. DC.
Ref. FP 13(4/1) 1941: 194; Smith & Wasshausen, 1986: 49; Smith *et al.*, 1986: 198.
Herb. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Spruce 4859* (G), Mexia 6130 (MO!)
Depts.: AM, HU, LO, MD, SM

Begonia meyeniana Walpers =Begonia humilis var. humilis
Ref. FP 13(4/1) 1941: 193; Smith & Wasshausen, 1986: 9; Smith *et al.*, 1986: 181, 199.

Begonia micrantha Steudel, nom. nud. =Begonia parviflora Poeppig & Endlicher
Ref. FP 13(4/1) 1941: 195; Smith & Wasshausen, 1986: 10; Smith *et al.*, 1986: 199, 211.

Begonia miniata Planchon & Linden =Begonia fuchsioides var. miniata (Planchon & Linden) A. DC.
Ref. Smith *et al.*, 1986: 170, 200.

Begonia monadelpha (Klotzsch) R. & P. ex A. DC. subsp. **glabriflora** Irmscher
Ref. Irmscher, 1953: 73; Smith *et al.*, 1986: 201.
Endemic herb. Andean II: shrublands. 2500-3000 m.
Voucher: Weberbauer 7035* (F)
Depts.: LL

Begonia monadelpha subsp. **monadelpha**
Syn. *Barya monadelpha* Klotzsch
Ref. FP 13(4/1) 1941: 194; Smith *et al.*, 1986: 201.
Herb or shrub. Andean II: forests. 2000-3000 m.
Voucher: Ruiz & Pavón s.n.* (G), Ferreyra 9416 (MO!)
Depts.: AM, CU, HU, LL

Begonia moritziana Klotzsch =Begonia fischeri var. fischeri
Ref. FP 13(4/1) 1941: 200.

Begonia moritziana Kunth & Bouché =Begonia glabra var. glabra
Ref. FP 13(4/1) 1941: 190; Smith & Wasshausen, 1986: 14; Smith *et al.*, 1986: 172, 202.

Begonia myriantha Britton =Begonia parviflora Poeppig & Endlicher
Ref. FP 13(4/1) 1941: 196; Smith & Wasshausen, 1986: 10; Smith *et al.*, 1986: 203, 211.

Begonia obtecticaulis Irmscher
Ref. Irmscher, 1949: 600; Smith *et al.*, 1986: 207.
Endemic herb. Andean I-II: disturbed areas, forests. 500-2000 m.
Voucher: Macbride 3721* (F), Ferreyra 16068 (MO!)
Depts.: HU, UC

Begonia octopetala L'Héritier subsp. **octopetala**
Syn. *Begonia grandiflora* Knowles & Wescott, *Huszia octopetala* (L'Héritier) Klotzsch
Ref. FP 13(4/1) 1941: 195; Smith & Wasshausen, 1986: 34; Smith *et al.*, 1986: 207.
Andean I-II, Coastal: forests, lomas, rocky slopes. 0-3000 m.
Note: Taxon incorrectly listed as "var." in Smith *et al.* (1986).
Voucher: Dombey s.n.* (P: Herb. Jussieu photo US!), Knapp *et al.* 8341 (MO!)
Depts.: AN, CA, HU, HV, LI, LL, PI, SM

Begonia octopetala subsp. **ovatoformis** Irmscher
Ref. Irmscher, 1953: 75; Smith *et al.*, 1986: 207.
Endemic herb. Andean II: rocky slopes. 1500-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Macbride 4143* (F)
Depts.: HU

Begonia paludicola C. DC. =Begonia cucullata var. cucullata
Ref. FP 13(4/1) 1941: 187; Golding, 1982: 355; Smith *et al.*, 1986: 155.

Begonia parviflora Poeppig & Endlicher
Syn. *Begonia micrantha* Steudel, nom. nud., *Begonia myriantha* Britton, *Scheidweileria parviflora* (Poeppig & Endlicher) Klotzsch
Ref. FP 13(4/1) 1941: 195; Smith & Wasshausen, 1986: 10; Smith *et al.*, 1986: 211.
Herb. Amazonian, Andean I: forests. 0-2500 m.
Voucher: Poeppig s.n.* (W), Vargas 7327 (MO!)
Depts.: AM, AY, CU, HU, JU, LO, MD, PA, PU, SM

Begonia pavoniana A. DC. =Begonia humilis var. humilis
Ref. FP 13(4/1) 1941: 193; Smith & Wasshausen, 1986: 9; Smith *et al.*, 1986: 181, 212.

Begonia peltigera Irmscher
Ref. Irmscher, 1953: 79; Smith *et al.*, 1986: 213.
Endemic herb. Andean II: disturbed areas, shrublands. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 506* (B)
Depts.: PU

Begonia pennellii fo. *macrantha* Irmscher =Begonia erythrocarpa A. DC.
Ref. Smith *et al.*, 1986: 164, 213.

Begonia pennellii Lyman B. Smith & B. G. Schubert =Begonia erythrocarpa A. DC.
Ref. FP 13(4/1) 1941: 196; Smith & Schubert, 1955: 114; Smith & Wasshausen, 1986 38; Smith *et al.*, 1986: 164, 213.

Begonia pennellii subsp. *lobato-ovata* Irmscher =Begonia erythrocarpa A. DC.
Ref. Irmscher, 1953: 84; Smith *et al.*, 1986: 164, 213.

Begonia pennellii subsp. *longiloba* Irmscher =Begonia erythrocarpa A. DC.
Ref. Irmscher, 1953: 85; Smith *et al.*, 1986: 164, 213.

Begonia peruviana A. DC.
Ref. FP 13(4/1) 1941: 196; Smith *et al.*, 1986: 214.
Endemic herb. Andean I-II: forests. 1000-3000 m.
Voucher: Mathews s.n.* (G)
Depts.: CU, HU, JU

Begonia petalodes Lindley =Begonia geraniifolia Hooker
Ref. FP 13(4/1) 1941: 189; Smith *et al.*, 1986: 171, 214.

Begonia physalifolia Liebmann =Begonia glabra var. glabra
Ref. FP 13(4/1) 1941: 190; Smith & Wasshausen, 1986: 14; Smith *et al.*, 1986: 172, 214.

Begonia pilosella Irmscher
Ref. Irmscher, 1949: 598; Smith *et al.*, 1986: 215.
Endemic herb. Andean II: forests. 1500-3000 m.
Voucher: Pennell 14054* (F), Cook & Gilbert 1109 (US)
Depts.: CU

Begonia piurensis Lyman B. Smith & B. G. Schubert
Ref. FP 13(4/1) 1941: 197; Smith & Wasshausen, 1983: 298; Smith & Wasshausen, 1986 52; Smith *et al.*, 1986: 216.
Herb. Andean I: riversides. 1000-1500 m.
Voucher: Stork 11393* (UC)
Depts.: PI

Begonia pleiopetala A. DC.
Ref. FP 13(4/1) 1941: 197; Smith *et al.*, 1986: 216.
Herb. Andean II: forests. 2500-3500 m.
Voucher: Maclean s.n.* (K), Vargas 9632 (MO!)
Depts.: JU, PI, PU, TU

Begonia poeppigiana (Klotzsch) A. DC. =Begonia foliosa var. australis Lyman B. Smith & B. G. Schubert
Ref. FP 13(4/1) 1941: 198; Smith *et al.* 1986: 168.

Begonia polypetala A. DC.
Ref. FP 13(4/1) 1941: 198; Smith *et al.*, 1986: 218.
Endemic herb. Andean II: forests. 1500-2000 m.
Note: From "Andes of Peru."
Voucher: Froebel s.n.* (G), Ferreyra 3117 (MO!)
Depts.: PI

Begonia prionophylla Irmscher
Ref. Irmscher, 1949: 597; Smith *et al.*, 1986: 219.
Endemic herb. Andean II: forests, rocky slopes. 1500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6718* (B), Vargas 161 (MO!)
Depts.: HU

Begonia pseudoglauca Irmscher
Ref. Irmscher, 1949: 578; Smith *et al.*, 1986: 220.
Endemic herb. Andean I: forests. 500-1000 m.
Voucher: Poeppig s.n.* (W)
Depts.: HU

Begonia pululahuana C. DC.
Ref. Smith *et al.*, 1986: 220.
Herb.
Voucher: Santisteban & Guevara 99 (F)
Depts.: CA

Begonia raimondii Irmscher
Ref. Irmscher, 1949: 629; Smith *et al.*, 1986: 222.
Endemic herb or shrub. Andean II: forests, shrublands. 3000-3500 m.
Voucher: Raimondi 2982* (B), Weberbauer 6639 (US)
Depts.: JU

Begonia rosiflora Hooker f. =Begonia veitchii Hooker f.
Ref. FP 13(4/1) 1941: 201; Smith *et al.*, 1986: 226, 247.
Note: In the Flora of Peru as "*rosaeflora.*"

Begonia rossmanniae A. DC.
Syn. *Rossmannia repens* Klotzsch
Ref. FP 13(4/1) 1941: 199; Smith & Wasshausen, 1986: 32; Smith *et al.*, 1986: 226.
Herb or vine. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Ruiz & Pavón s.n.* (G), Huashikat 505 (MO!)
Depts.: AM, CU, HU, LO, MD, PA

Begonia rubiginosipes Irmscher
Ref. Irmscher, 1949: 596; Smith *et al.*, 1986: 227.
Endemic herb. Andean I: forests. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Killip & Smith 25632* (US)
Depts.: JU

Begonia rubrotincta Lyman B. Smith & B. G. Schubert
Ref. Smith & Schubert, 1963: 4; Smith *et al.*, 1986: 227.
Endemic herb or vine. Andean II: cloud forests. 2000-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 921* (US)
Depts.: AM

Begonia scandens Swartz =Begonia glabra var. glabra
Ref. FP 13(4/1) 1941: 190; Smith & Wasshausen, 1986: 14; Smith *et al.*, 1986: 171, 229.

Begonia scandens var. *amplifolia* A. DC. =Begonia glabra var. amplifolia (A. DC.) Lyman B. Smith & B. G. Schubert
Ref. FP 13(4/1) 1941: 191; Smith *et al.*, 1986: 172, 229.

Begonia semiovata Liebmann
Syn. *Begonia spruceana* A. DC.
Ref. Smith & Wasshausen, 1986: 8; Smith *et al.*, 1986: 231.
Herb. Amazonian, Andean I: terra firme forests. 0-1500 m.
Voucher: Foster 9829 (MO!)
Depts.: AM, CU, JU, LO, MD, PA, PU, SM

Begonia soror Irmscher
Ref. Irmscher, 1953: 71; Smith *et al.*, 1986: 235.
Endemic herb or shrub. Andean II: forests. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 4440* (B)
Depts.: AM

Begonia spruceana A. DC. =Begonia semiovata Liebmann
Ref. FP 13(4/1) 1941: 199; Smith & Wasshausen, 1986: 8; Smith *et al.*, 1986: 231, 236.

Begonia stenotepala Lyman B. Smith & B. G. Schubert
Ref. FP 13(4/1) 1941: 200; Smith *et al.*, 1986: 236.
Endemic herb. Andean I: forests. 500-1500 m.
Voucher: West 7114* (UC)
Depts.: CU

Begonia subciliata A. DC. var. **persicina** Irmscher
Ref. Irmscher, 1949: 588; Smith *et al.*, 1986: 237.
Endemic herb. Andean I-II: forests. 500-2000 m.
Voucher: Killip & Smith 25613* (US), Killip & Smith 26118 (F)
Depts.: JU

Begonia subciliata var. **subciliata**
Ref. FP 13(4/1) 1941: 188; Smith *et al.*, 1986: 237.
Herb. Amazonian, Andean I: forests. 0-1500 m.
Note: The Flora of Peru treats *B. subciliata* as a synonym of *B. cyathophora*; Irmscher (1949) lists this taxon as "*var. eusubciliata*".
Voucher: Ruiz & Pavón s.n.* (G)
Depts.: AY, JU, PA

Begonia subspinulosa Irmscher
Ref. Irmscher, 1949: 592; Smith *et al.*, 1986: 238.
Endemic herb or shrub. Andean I-II: forests, shrublands. 1000-2000 m.
Voucher: Weberbauer 7836A* (F)
Depts.: CU

Begonia suprafastigiata Irmscher
Ref. Irmscher, 1949: 590; Smith *et al.*, 1986: 239.
Endemic herb or shrub. Andean II: shrublands. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 7907* (F)
Depts.: CU

Begonia tetrandra Irmscher
Ref. Irmscher, 1949: 626; Smith *et al.*, 1986: 241.
Herb.
Voucher: Lobb s.n.* (W)
Depts.: Without full locality data.

Begonia thyrsoidea Irmscher
Ref. Irmscher, 1949: 610; Smith *et al.*, 1986: 241.
Endemic herb. Andean I: forests. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 7927* (F)
Depts.: CU

Begonia tovarensis Klotzsch =Begonia fischeri var. fischeri
Ref. FP 13(4/1) 1941: 200; Smith *et al.*, 1986: 166, 242.

Begonia tribracteata Irmscher
Ref. Irmscher, 1949: 589; Smith *et al.*, 1986: 243.
Endemic herb. Andean I: forests. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Killip & Smith 22326* (US)
Depts.: AY

Begonia tumbezensis Irmscher
Ref. Irmscher, 1953: 74; Smith *et al.*, 1986: 244.
Endemic herb. Coastal: shrublands. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 7646* (F), Weberbauer 7685 (F)
Depts.: TU

Begonia urticae L. f. var. **urticae**
Syn. *Begonia columnaris* Bentham, *Begonia columnaris* var. *glabra* (A. DC.) Lyman B. Smith & B. G. Schubert, *Casparya coccinea* Klotzsch, *Casparya columnaris* (Bentham) A. DC., *Casparya columnaris* var. *glabra* (Klotzsch) A. DC., *Sassea columnaris* (Bentham) Klotzsch, *Sassea glabra* Klotzsch
Ref. Smith & Wasshausen, 1986: 30; Smith *et al.*, 1986: 245.
Herb. Andean II: forests. 2000-3500 m.
Voucher: Weberbauer 6723 (US!)
Depts.: AM , CA, CU, HU, SM

Begonia veitchii Hooker f.
Syn. *Begonia rosiflora* Hooker f.
Ref. FP 13(4/1) 1941: 201; Smith *et al.*, 1986: 247.
Herb. Andean II-III: rocky slopes. 2000-4500 m.
Voucher: Pearce s.n.* (K), Metcalf 30460 (MO!)
Depts.: AP, CU, HV, PU

Begonia velata Lyman B. Smith & B. G. Schubert
Ref. FP 13(4/1) 1941: 201; Smith *et al.*, 1986: 247.
Endemic herb. Andean II: forests. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6021* (GH)
Depts.: PI

Begonia villosa Lindley =Begonia hirtella var. hirtella
Ref. FP 13(4/1) 1941: 192; Smith *et al.*, 1986: 179, 248.

Begonia viridiflora A. DC. var. **parviflora** Lyman B. Smith & B. G. Schubert
Ref. FP 13(4/1) 1941: 202; Smith *et al.*, 1986: 248.
Endemic herb. Andean II: disturbed areas, forests. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Mexia 4152* (MO!)
Depts.: HU

Begonia viridiflora var. **viridiflora**
Ref. FP 13(4/1) 1941: 201; Smith *et al.*, 1986: 247.
Endemic herb or shrub. Andean I: forests. 500-1000 m.
Voucher: Poeppig 1063*
Depts.: AY, HU, JU

Begonia weberbaueri Irmscher
Syn. *Begonia lichenoides* Lyman B. Smith & B. G. Schubert
Ref. Irmscher, 1953: 78; Smith *et al.*, 1986: 250.
Endemic herb. Andean II: forests, rocky slopes. 2000-3000 m.

Note: Known from Peru only from the type locality.
Voucher: Weberbauer 3824* (B), Sagástegui *et al.* 9943 (MO!)
Depts.: CA

Begonia wurdackii Lyman B. Smith & B. G. Schubert
Ref. Smith & Schubert, 1963: 5; Smith *et al.*, 1986: 250.
Endemic herb or vine. Andean II: cloud forests. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 1028* (US)
Depts.: AM

Casparya coccinea Klotzsch =Begonia urticae var. urticae
Ref. FP 13(4/1) 1941: 187; Smith *et al.*, 1986: 246, 253.

Berberidaceae

1 genus and 32 species in Peru.

Endemic species: 18.

Prepared by R. L. Liesner (MO); with comments regarding synonymy from the late D. N. Smith (MO).

Berberis agapatensis Lechler
Ref. FP 13(2/3) 1938: 668; Ahrendt, 1961: 273.
Shrub or tree. Andean II-III: grasslands, shrublands. 2000-4500 m.
Voucher: Lechler 2646* (P photo F!), Núñez 7219 (MO!)
Depts.: CU, PU

Berberis armata Citerne
Ref. FP 13(2/3) 1938: 668; Ahrendt, 1961: 263.
Endemic shrub.
Voucher: Gay s.n.* (P photo F!), Dombey s.n. (B photo F!)
Depts.: CU

Berberis barbeyana C. Schneider
Ref. FP 13(2/3) 1938: 669; Ahrendt, 1961: 291.
Endemic shrub. Andean II: forests. 2000-2500 m.
Voucher: Mathews s.n.* (G photo F!), Chávez 3484 (MO!)
Depts.: AM, CU

Berberis beauverdiana C. Schneider
Ref. FP 13(2/3) 1938: 669; Ahrendt, 1961: 290.
Endemic shrub or tree. Andean II: rocky slopes. 2000-3000 m.
Note: The voucher cited in the Flora of Peru, *Weberbauer 4199*, has been placed tentatively under *B. multiflora*.
Voucher: Mathews s.n.* (G photo F!), López 9036 (MO!)
Depts.: AM, CA, PI

Berberis benoistiana J. F. Macbride
Ref. FP 13(2/3) 1938: 669; Ahrendt, 1961: 273.
Endemic shrub. Andean III: grasslands, shrublands. 4000-4500 m.
Note: Known from Peru only from the type locality.

Voucher: Macbride 4455* (F)
Depts.: HU

Berberis boliviana Lechler
Syn. *Berberis conferta* var. *boliviana* (Lechler) C. Schneider
Ref. FP 13(2/3) 1938: 670; Ahrendt, 1961: 271.
Shrub. Andean II-III: shrublands. 2500-4500 m.
Note: Cited in the Flora of Peru as *B. conferta* var. *boliviana*.
Voucher: Vargas 9985 (MO!)
Depts.: CU

Berberis brumalis J. F. Macbride
Ref. FP 13(2/3) 1938: 670; Ahrendt, 1961: 285.
Endemic shrub. Andean II: shrublands. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6799* (B, MOL)
Depts.: HU

Berberis buceronis J. F. Macbride
Ref. FP 13(2/3) 1938: 671; Ahrendt, 1961: 278.
Endemic shrub. Andean II: disturbed areas. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6994* (B, MOL)
Depts.: LL

Berberis carinata Lechler var. **carinata**
Ref. FP 13(2/3) 1938: 671; Ahrendt, 1961: 265.
Endemic shrub. Andean II: rocky slopes. 3000-3500 m.
Voucher: Lechler 2644* (P photo F!), Dillon 1263 (MO!)
Depts.: CU, HU, PU

Berberis carinata var. **echinata** Diels
Ref. FP 13(2/3) 1938: 671; Ahrendt, 1961: 266.
Endemic shrub. Andean II. 3500-4000 m.
Voucher: Herrera s.n.* (B)
Depts.: CU

Berberis citernei Ahrendt
Syn. *Berberis gayi* Citerne non Koch
Ref. Ahrendt, 1961: 259.
Endemic.
Note: Known from Peru only from the type locality.
Voucher: Gay 1164* (P photo F!)
Depts.: CU

Berberis cliffortioides Diels
Ref. FP 13(2/3) 1938: 671; Ahrendt, 1961: 268.
Endemic shrub. Andean II-III: grasslands, shrublands. 3000-4000 m.
Voucher: Raimondi s.n.* (B), Davis 1356 (MO!)
Depts.: CU, JU, PA

Berberis commutata Eichler
Syn. *Berberis divaricata* Rusby
Ref. FP 13(2/3) 1938: 672; Ahrendt, 1961: 262.
Shrub. Andean II-III: rocky slopes. 2500-4000 m.
Voucher: Vargas 1335 (MO!)
Depts.: AY, CU, HU, PU

Berberis conferta H.B.K. =Berberis lutea R. & P.
Ref. FP 13(2/3) 1938: 676; Ahrendt, 1961: 270; D. N. Smith, pers. comm.

Berberis conferta var. *boliviana* (Lechler) C. Schneider =Berberis boliviana Lechler
Ref. FP 13(2/3) 1938: 670; Ahrendt, 1961: 271.

Berberis conferta var. *hypopyrrantha* C. Schneider =Berberis lutea R. & P.
Ref. FP 13(2/3) 1938: 677; Ahrendt, 1961: 271; D. N. Smith, pers. comm.

Berberis conferta var. *lobbiana* C. Schneider =Berberis lobbiana (C. Schneider) C. Schneider
Ref. FP 13(2/3) 1938: 675; Ahrendt, 1961: 271.

Berberis conferta var. *psiloclada* C. Schneider =Berberis lutea R. & P.
Ref. FP 13(2/3) 1938: 677; Ahrendt, 1961: 272; D. N. Smith, pers. comm.

Berberis conferta var. *spruceana* C. Schneider =Berberis spruceana (C. Schneider) Ahrendt
Ref. FP 13(2/3) 1938: 677; Ahrendt, 1961: 269.

Berberis divaricata Rusby =Berberis commutata Eichler
Ref. FP 13(2/3) 1938: 672; Ahrendt, 1961: 262.

Berberis dryandriphylla Diels
Ref. FP 13(2/3) 1938: 672; Ahrendt, 1961: 281.
Endemic shrub or tree. Andean II: shrublands. 2000-3000 m.
Voucher: Herrera 1742* (B), Vargas 3941 (MO!)
Depts.: CU

Berberis flexuosa R. & P.
Ref. FP 13(2/3) 1938: 672; Ahrendt, 1961: 260.
Endemic shrub. Andean II: rocky slopes, shrublands. 2500-3000 m.
Voucher: Ruiz & Pavón s.n.* (B photo F!), Stevens 21973 (MO!)
Depts.: AN, JU, LI

Berberis gayi Citerne non Koch =Berberis citernei Ahrendt
Ref. FP 13(2/3) 1938: 673; Ahrendt, 1961: 259.

Berberis glauca R. & P. =Berberis lutea R. & P.
Ref. FP 13(2/3) 1938: 676; D. N. Smith, pers. comm.

Berberis grandiflora Turczaninow
Ref. Ahrendt, 1961: 275.
Tree. Andean II: grasslands, shrublands. 3000-3500 m.
Voucher: Díaz 2157 (MO!)
Depts.: CA

Berberis heterophylla A. L. Jussieu ex Poiret
Ref. Ahrendt, 1961: 233.
Shrub. Andean II: forests. 3000-3500 m.
Voucher: Young 2101 (MOL!)
Depts.: SM

Berberis hochreutinerana J. F. Macbride
Ref. FP 13(2/3) 1938: 673; Ahrendt, 1961: 293.
Endemic shrub. Andean II: grasslands, shrublands. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6831* (F)
Depts.: CU

Berberis huanucensis (C. Schneider) J. F. Macbride =Berberis lutea R. & P.
Ref. FP 13(2/3) 1938: 674; Ahrendt, 1961: 266; D. N. Smith, pers. comm.

Berberis humbertiana J. F. Macbride
Ref. FP 13(2/3) 1938: 674; Ahrendt, 1961: 270.
Endemic shrub. Andean II: grasslands, shrublands. 3000-3500 m.
Voucher: Gay s.n.* (P), Vargas 7686 (MO!)
Depts.: AP, AY, CU

Berberis jelskiana C. Schneider
Ref. FP 13(2/3) 1938: 675; Ahrendt, 1961: 281.
Shrub. Andean II: grasslands, shrublands. 2500-3500 m.
Voucher: Jelski 232* (B photo F!), Sánchez 2689 (MO!)
Depts.: AM, AN, CA, HU

Berberis latifolia R. & P.
Ref. FP 13(2/3) 1938: 675; Ahrendt, 1961: 264.
Endemic. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Ruiz & Pavón s.n.* (MA photo F!)
Depts.: HU

Berberis lobbiana (C. Schneider) C. Schneider
Syn. *Berberis conferta* var. *lobbiana* C. Schneider
Ref. FP 13(2/3) 1938: 675; Ahrendt, 1961: 271.
Shrub or tree. Andean II-III: forests, cloud forests. 2500-4000 m.
Voucher: Antuñez 235 (MO!)
Depts.: CU, HU, JU

Berberis loxensis Bentham
Ref. FP 13(2/3) 1938: 675; Ahrendt, 1961: 293.
Shrub. Andean II: cloud forests, shrublands. 2500-3500 m.
Note: Part of a complex; cited specimen tentatively determined.
Voucher: Young 1485 (MO!)
Depts.: CA, HU, LL, SM

Berberis lutea R. & P.
Syn. *Berberis conferta* H.B.K., *Berberis conferta* var. *hypopyrrantha* C. Schneider, *Berberis conferta* var. *psiloclada* C. Schneider, *Berberis glauca* R. & P., *Berberis huanucensis* (C. Schneider) J. F. Macbride, *Berberis lutea* var. *conferta* (H.B.K.) DC., *Berberis phyllacantha* Rusby, *Berberis psiloclada* (C. Schneider) Ahrendt, *Berberis virgata* R. & P., *Berberis virgata* var. *huanucensis* C. Schneider
Ref. FP 13(2/3) 1938: 676; Ahrendt, 1961: 266; D. N. Smith, pers. comm.
Shrub or tree. Andean II-III: rocky slopes. 2500-4500 m.
Voucher: Ruiz & Pavón 793* (G photo F!), López 8339 (MO!)
Depts.: AM, AN, AY, CA, HU, LI, PA, PI, PU, SM

Berberis lutea var. *conferta* (H.B.K.) DC. =Berberis lutea R. & P.
Ref. FP 13(2/3) 1938: 676; D. N. Smith, pers. comm.

Berberis monosperma R. & P.
Ref. FP 13(2/3) 1938: 677; Ahrendt, 1961: 260.
Shrub. Andean II: grasslands, shrublands. 3000-3500 m.
Voucher: Née s.n.* (MA photo F!), Lechler 2642
Depts.: CA, JU, LI, PU

Berberis multiflora Bentham
Ref. FP 13(2/3) 1938: 678; Ahrendt, 1961: 292.
Shrub or tree. Andean II: shrublands. 2000-3000 m.
Note: Peruvian collections under this name may represent an undescribed species.
Voucher: Díaz 4003 (MO!)
Depts.: AM, CA

Berberis paniculata Jussieu ex DC.
Ref. FP 13(2/3) 1938: 678; Ahrendt, 1961: 291.
Shrub or tree. Andean II. 2500-3000 m.
Note: The type, *Jussieu s.n.*, may be from Ecuador according to the Flora of Peru.
Voucher: Jussieu s.n.* (P photo F!), Díaz 2722 (MO!)
Depts.: PI

Berberis peruviana Schellenberg
Ref. FP 13(2/3) 1938: 678; Ahrendt, 1961: 263.
Endemic. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 5897* (B)
Depts.: CU

Berberis phyllacantha Rusby =Berberis lutea R. & P.
Ref. FP 13(2/3) 1938: 676; Ahrendt, 1961: 268; D. N. Smith, pers. comm.

Berberis podophylla C. Schneider
Ref. FP 13(2/3) 1938: 679; Ahrendt, 1961: 285.
Endemic shrub. Andean II: shrublands. 2000-3000 m.
Voucher: Weberbauer 3137* (B photo F!), Sagástegui 7710 (MO!)
Depts.: AN, CA

Berberis psiloclada (C. Schneider) Ahrendt =Berberis lutea R. & P.
Ref. Ahrendt, 1961: 272; D. N. Smith, pers. comm.

Berberis rotunda J. F. Macbride =Xylosma cordatum (H.B.K.) Gilg (Flacourtiaceae)
Ref. FP 13(4/1) 1941: 32; Sleumer, 1980: 166.

Berberis saxicola Lechler
Ref. FP 13(2/3) 1938: 679; Ahrendt, 1961: 270.
Shrub. Andean II-III: shrublands. 2500- > 4500 m.
Note: Possibly conspecific with *B. lutea*.
Voucher: Lechler 2096* (P photo F!), Núñez 9856 (MO!)
Depts.: CU

Berberis spruceana (C. Schneider) Ahrendt
Syn. *Berberis conferta* var. *spruceana* C. Schneider
Ref. FP 13(2/3) 1938: 677; Ahrendt, 1961: 269.
Endemic shrub. Andean II. 2500-3000 m.
Note: This taxon (as a variety) was discussed under *B. lutea* in the Flora of Peru.
Voucher: Weberbauer 4157 (B)
Depts.: CA

Berberis tomentosa R. & P.
Ref. Ahrendt, 1961: 265.
Endemic shrub. Andean II: shrublands. 3000-3500 m.
Voucher: Pavón s.n.* (MA photo F!), Young 2795 (MO!)
Depts.: AM, JU, SM

[Berberis undulata Lindley]
Ref. FP 13(2/3) 1938: 679.
Note: Cited in the Flora of Peru as an uncertain taxon.

Berberis virgata R. & P. =Berberis lutea R. & P.
Ref. FP 13(2/3) 1938: 679; Ahrendt, 1961: 266; D. N. Smith, pers. comm.

Berberis virgata var. *huanucensis* C. Schneider =Berberis lutea R. & P.
Ref. FP 13(2/3) 1938: 674; Ahrendt, 1961: 266; D. N. Smith, pers. comm.

Berberis weberbaueri C. Schneider
Ref. FP 13(2/3) 1938: 680; Ahrendt, 1961: 260.
Endemic shrub. Andean II: grasslands, shrublands. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 2680* (B photo F!, MOL)
Depts.: AN

Betulaceae

1 genus and 1 species in Peru.

Prepared by J. L. Zarucchi.

Alnus acuminata H.B.K. subsp. **acuminata**
Syn. *Alnus acuminata* var. *genuina* Regel, nom. illeg., *Alnus acuminata* var. *mirbelii* (Spach) Regel, *Alnus acutissima* (Winkler) Callier, *Alnus arguta* var. *punctata* Regel, *Alnus castaneifolia* Mirbel, *Alnus ferruginea* H.B.K., *Alnus jorullensis* var. *acuminata* (H.B.K.) Kuntze, *Alnus jorullensis* var. *acutissima* Winkler, *Alnus jorullensis* var. *castaneifolia* (Mirbel) Regel, *Alnus jorullensis* var. *ferruginea* (H.B.K.) Kuntze, *Alnus jorullensis* var. *mirbelii* (Spach) Winkler, *Alnus lanceolata* Philippi, *Alnus mirbelii* Spach, *Alnus mirbelii* var. *acutissima* (Winkler) Callier pro syn.
Ref. Furlow, 1979a: 100.
Cultivated tree. Andean I-III, Coastal: disturbed areas, forests, grasslands, riversides, shrublands. 0-4000 m.
Voucher: Humboldt & Bonpland s.n.* (P), Dwyer 6126 (MO!)
Depts.: AM, AN, AP, CA, CU, HU, JU, LA, LI, LL, PI, PU

Alnus acuminata var. *genuina* Regel, nom. illeg. =Alnus acuminata subsp. acuminata
Ref. Furlow, 1979a: 100.

Alnus acuminata var. *mirbelii* (Spach) Regel =Alnus acuminata subsp. acuminata
Ref. Furlow, 1979a: 102.

Alnus acutissima (Winkler) Callier =Alnus acuminata subsp. acuminata
Ref. Furlow, 1979a: 102.

Alnus arguta var. *punctata* Regel =Alnus acuminata subsp. acuminata
Ref. Furlow, 1979a: 102.

Alnus castaneifolia Mirbel =Alnus acuminata subsp. acuminata
Ref. Furlow, 1979a: 102.
Note: This taxon treated under *A. jorullensis* in the Flora of Peru.

Alnus ferruginea H.B.K. =Alnus acuminata subsp. acuminata
Ref. Furlow, 1979a: 102.

[Alnus jorullensis H.B.K.]
Ref. FP 13(2/2) 1937: 267; Furlow, 1979b: 153.
Note: Not known from Peru. Furlow (1979b) indicates that this species is restricted to Mexico and Guatemala.

Alnus jorullensis var. *acuminata* (H.B.K.) Kuntze =Alnus acuminata subsp. acuminata
Ref. Furlow, 1979a: 100.

Alnus jorullensis var. *acutissima* Winkler =Alnus acuminata subsp. acuminata
Ref. FP 13(2/2) 1937: 267; Furlow, 1979a: 102.

Alnus jorullensis var. *castaneifolia* (Mirbel) Regel =Alnus acuminata subsp. acuminata
Ref. FP 13(2/2) 1937: 267; Furlow, 1979a: 102.
Note: See note under *A. castaneifolia*.

Alnus jorullensis var. *ferruginea* (H.B.K.) Kuntze =Alnus acuminata subsp. acuminata
Ref. FP 13(2/2) 1937: 267; Furlow, 1979a: 102.

Alnus jorullensis var. *mirbelii* (Spach) Winkler =Alnus acuminata subsp. acuminata
Ref. FP 13(2/2) 1937: 267; Furlow, 1979a: 102.

Alnus lanceolata Philippi =Alnus acuminata subsp. acuminata
Ref. Furlow, 1979a: 102.

Alnus mirbelii Spach =Alnus acuminata subsp. acuminata
Ref. Furlow, 1979a: 102.

Alnus mirbelii var. *acutissima* (Winkler) Callier pro syn. =Alnus acuminata subsp. acuminata
Ref. Furlow, 1979a: 102.

Bignoniaceae

47 genera and 166 species in Peru.

Endemic species: 13.

Prepared by A. H. Gentry (MO).

Adenocalymma auristellae Kraenzlin =Adenocalymma impressum (Rusby) Sandwith
Ref. FP 13(5C/1) 1961: 32; Gentry, 1982: 24.

Adenocalymma bilabiatum (Sprague) Sandwith =Arrabidaea bilabiata (Sprague) Sandwith
Ref. FP 13(5C/1) 1961: 32; Gentry, 1982: 76.

[Adenocalymma bracteolatum A. DC.]
Ref. FP 13(5C/1) 1961: 32.
Note: Not known from Peru. The specimen cited in the Flora of Peru is redetermined as *A. purpurascens*.

Adenocalymma floribundum A. DC. =Cuspidaria floribunda (A. DC.) A. Gentry
Ref. Gentry, 1973: 233.

Adenocalymma foveolatum (A. DC.) Baillon =Mansoa kerere (Aublet) A. Gentry
Ref. FP 13(5C/1) 1961: 34.

Adenocalymma impressum (Rusby) Sandwith
Syn. *Adenocalymma auristellae* Kraenzlin, *Bignonia impressa* Rusby
Ref. FP 13(5C/1) 1961: 32; Gentry, 1982: 24.
Liana. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Gentry *et al.* 19648 (MO!)
Depts.: HU, LO, MD, PA, UC

Adenocalymma inundatum C. Martius ex A. DC.
Ref. FP 13(5C/1) 1961: 33; Gentry, 1982: 25.
Liana. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Ayala *et al.* 3918 (AMAZ!, MO!)
Depts.: LO, MD, SM

Adenocalymma latifolium Rusby =Adenocalymma uleanum Kraenzlin
Ref. FP 13(5C/1) 1961: 33.

[*Adenocalymma magnificum* C. Martius ex A. DC. =Memora magnifica (C. Martius ex A. DC.) Bureau]
Ref. FP 13(5C/1) 1961: 67.
Note: Not known from Peru.

Adenocalymma pachypus (Schumann) Bureau & Schumann =Mansoa alliacea (Lamarck) A. Gentry
Ref. FP 13(5C/1) 1961: 30.

[Adenocalymma prancei A. Gentry]
Ref. Gentry, 1978: 725.
Note: Not known from Peru. The cited Peruvian specimen, *Gentry & Daly 18783*, is *A. uleanum* Kraenzlin.

Adenocalymma purpurascens Rusby
Ref. Gentry, 1977: 14.
Liana. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Gentry *et al.* 37244 (MO!, USM!)
Depts.: HU, JU, LO, MD, SM

Adenocalymma uleanum Kraenzlin
Syn. *Adenocalymma latifolium* Rusby
Ref. FP 13(5C/1) 1961: 33.
Liana. Amazonian, Andean I: terra firme forests. 0-1000 m.
Note: Possibly conspecific with *A. bracteatum*.
Voucher: Ule 6280*, Smith 3897 (MO!, USM!)
Depts.: CU, HU, LO, MD, PA, UC

Adenocalymma verrucosum Standley =Arrabidaea verrucosa (Standley) A. Gentry
Ref. FP 13(5C/1) 1961: 40; Gentry, 1982: 119.

Amphilophium aschersonii Ule
Ref. FP 13(5C/1) 1961: 52; Gentry, 1982: 31.
Liana. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Ule 6813* (K), Gentry *et al.* 18638 (MO!)
Depts.: AM, LO, PA, SM, UC

Amphilophium ecuadorense A. Gentry
Ref. Gentry, 1977: 17.
Liana. Andean I: dry valleys. 500-1500 m.
Voucher: Díaz 2731 (MO!, USM!)
Depts.: CA, PI, TU

Amphilophium jelskii Zahlbruckner =Amphilophium pannosum (A. DC.) Bureau & Schumann
Ref. FP 13(5C/1) 1961: 53; Gentry, 1982: 40.

Amphilophium macrophyllum H.B.K. =Amphilophium paniculatum var. molle (Schlechtendal & Chamisso) Standley
Ref. FP 13(5C/1) 1961: 53; Gentry, 1982: 37.

Amphilophium molle Schlechtendal & Chamisso =Amphilophium paniculatum var. molle (Schlechtendal & Chamisso) Standley
Ref. Gentry, 1982: 37.

Amphilophium mutisii H.B.K. =Amphilophium paniculatum var. paniculatum
Ref. FP 13(5C/1) 1961: 54; Gentry, 1977: 17.

Amphilophium paniculatum (L.) H.B.K. var. **molle** (Schlechtendal & Chamisso) Standley
Syn. *Amphilophium macrophyllum* H.B.K., *Amphilophium molle* Schlechtendal & Chamisso, *Bignonia paniculata* L.
Ref. FP 13(5C/1) 1961: 54; Gentry, 1982: 37.
Liana. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Schunke 10141 (MO!)
Depts.: AM, CA, CU, HU, LO, MD, PA, SM

Amphilophium paniculatum var. **paniculatum**
Syn. *Amphilophium mutisii* H.B.K.
Ref. Gentry, 1977: 17.
Liana. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Gentry & Revilla 16327 (MO!, USM!)
Depts.: AM, CU, HU, JU, LO, MD, PI, SM

Amphilophium pannosum (A. DC.) Bureau & Schumann
Syn. *Amphilophium jelskii* Zahlbruckner, *Bignonia pannosa* A. DC.
Ref. Gentry, 1982: 39.
Liana. Andean II: cloud forests. 1500-2500 m.
Voucher: Gentry 61513 (MO!, USM!)
Depts.: CA, PA

Anemopaegma chrysanthum Dugand
Ref. Gentry, 1977: 25.
Liana. Andean I-II: forests. 1000-2000 m.

Voucher: Sagástegui & Cabanidas 8674 (MO!)
Depts.: CA, PI

Anemopaegma chrysoleucum (H.B.K.) Sandwith
Syn. *Bignonia chrysoleuca* H.B.K.
Ref. FP 13(5C/1) 1961: 36; Gentry, 1982: 49.
Liana. Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 61992 (MO!, USM!)
Depts.: AM, LO, SM, UC

Anemopaegma colombianum (Sandwith) A. Gentry
Syn. *Pseudopaegma colombianum* Sandwith
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 63280 (MO!, USM!)
Depts.: PA

Anemopaegma flavum Morong
Liana. Amazonian: riversides. 0-500 m.
Voucher: Gentry *et al.* 19630 (MO!)
Depts.: MD

Anemopaegma floridum C. Martius ex A. DC.
Ref. FP 13(5C/1) 1961: 36; Gentry, 1982: 52.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry 22298 (MO!)
Depts.: LO, MD

Anemopaegma insculptum (Sandwith) A. Gentry
Syn. *Pseudopaegma insculptum* Sandwith
Liana. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Gentry *et al.* 51227 (MO!)
Depts.: MD

Anemopaegma leptosiphon Rusby =Martinella obovata (H.B.K.) Bureau & Schumann
Ref. FP 13(5C/1) 1961: 43; Gentry, 1982: 249.

Anemopaegma oligoneuron (Sprague & Sandwith) A. Gentry
Syn. *Pseudopaegma oligoneuron* Sprague & Sandwith
Ref. Gentry, 1982: 59.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 61981 (MO!)
Depts.: LO

Anemopaegma pachypus Schumann =Mansoa alliacea (Lamarck) A. Gentry
Ref. FP 13(5C/1) 1961: 30.

Anemopaegma paraense Bureau & Schumann
Ref. FP 13(5C/1) 1961: 36; Gentry, 1982: 62.
Liana. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Gentry *et al.* 56145 (AMAZ!, MO!)
Depts.: AM, LO

Anemopaegma poeppigii A. DC. =Arrabidaea poeppigii (A. DC.) Sandwith
Ref. FP 13(5C/1) 1961: 28.

Anemopaegma puberulum (Seibert) Miranda
Syn. *Chodanthus puberulus* Seibert
Ref. Gentry, 1977: 28.
Liana. Andean I-II, Coastal: dry valleys. 0-2000 m.
Voucher: Díaz *et al.* 2745 (MO!, USM!)
Depts.: PI

[*Anemopaegma whitei* Rusby =Arrabidaea whitei (Rusby) Sandwith]
Ref. FP 13(5C/1) 1961: 29; Sandwith, 1968: 414.
Note: Not known from Peru.

Argylia eromophila Philippi =Argylia radiata (L.) D. Don
Ref. FP 13(5C/1) 1961: 77; Gentry, 1992a: 9.

Argylia feuillei A. DC. =Argylia radiata (L.) D. Don
Ref. FP 13(5C/1) 1961: 77; Gentry, 1992a: 9.

Argylia puberula Philippi =Argylia radiata (L.) D. Don
Ref. FP 13(5C/1) 1961: 77; Gentry, 1992a: 9.

Argylia radiata (L.) D. Don
Syn. *Argylia eromophila* Philippi, *Argylia feuillei* A. DC., *Argylia puberula* Philippi, *Bignonia radiata* L.
Ref. FP 13(5C/1) 1961: 77; Gentry, 1992a: 9.
Herb. Coastal: lomas. 0-1000 m.
Voucher: Dillon *et al.* 3387 (MO!)
Depts.: AR, TA

Arrabidaea affinis A. Gentry
Ref. Gentry, 1992a: 159.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 61884 (AMAZ!, MO!)
Depts.: LO, MD, PA, SM

Arrabidaea bangii Sprague =Arrabidaea platyphylla A. DC.
Ref. FP 13(5C/1) 1961: 22.

Arrabidaea belizensis Standley =Arrabidaea verrucosa (Standley) A. Gentry
Ref. FP 13(5C/1) 1961: 40; Gentry, 1982: 119.

Arrabidaea bilabiata (Sprague) Sandwith
Syn. *Adenocalymma bilabiatum* (Sprague) Sandwith, *Memora bilabiata* Sprague
Ref. Gentry, 1982: 76.
Liana. Amazonian: swamps. 0-500 m.
Voucher: Gentry *et al.* 21605 (AMAZ!, MO!)
Depts.: LO, MD

Arrabidaea biternata Huber =Arrabidaea bracteolata (A. DC.) Sandwith
Ref. FP 13(5C/1) 1961: 17.

Arrabidaea brachypoda (A. DC.) Bureau
Syn. *Arrabidaea platyphylla* (Chamisso) Bureau & Schumann, *Bignonia brachypoda* A. DC., *Bignonia platyphylla* Chamisso
Ref. FP 13(5C/1) 1961: 18; Gentry, 1982: 78.
Liana. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Gentry & Prance 16394 (MO!, USM!)
Depts.: CU, HU, JU, LO, MD, PA, SM, UC

Arrabidaea bracteolata (A. DC.) Sandwith
Syn. *Arrabidaea biternata* Huber, *Bignonia bracteolata* A. DC.
Ref. FP 13(5C/1) 1961: 17.
Liana. Amazonian: forests, seasonally inundated areas. 0-500 m.
Voucher: Gentry & Revilla 16619 (AMAZ!, MO!)
Depts.: LO

Arrabidaea candelabrum Kraenzlin =Arrabidaea spicata Bureau & Schumann
Ref. FP 13(5C/1) 1961: 25; Gentry, 1982: 42.

Arrabidaea candicans (Richard) A. DC.
Syn. *Arrabidaea orbignyana* A. DC., *Arrabidaea pachycalyx* Sprague, *Arrabidaea quinquenervis* Bureau & Schumann, *Bignonia candicans* Richard
Ref. FP 13(5C/1) 1961: 21; Gentry, 1982: 79.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 37651 (MO!, USM!)
Depts.: LO, SM

Arrabidaea chica (Humboldt & Bonpland) Verlot
Syn. *Bignonia chica* Humboldt & Bonpland
Ref. Gentry, 1982: 85.
Liana. Amazonian, Andean I: terra firme forests. 0-1500 m.
Voucher: Núñez & Motocanchi 8765 (MO!)
Depts.: CA, CU, LO, MD

Arrabidaea cinnamomea (A. DC.) Sandwith
Syn. *Bignonia cinnamomea* A. DC.
Ref. FP 13(5C/1) 1961: 19.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 63535 (MO!, USM!)
Depts.: LO, PA, SM, UC

Arrabidaea corallina (Jacquin) Sandwith
Syn. *Arrabidaea obliqua* (H.B.K.) Bureau, *Bignonia boliviana* Rusby, *Bignonia corallina* Jacquin, *Bignonia obliqua* H.B.K.
Ref. FP 13(5C/1) 1961: 19; Gentry, 1982: 89.
Liana. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Gentry & Young 31759 (MO!)
Depts.: LO, MD, PI, SM, TU, UC

Arrabidaea divaricata Bureau & Schumann =Arrabidaea florida A. DC.
Ref. FP 13(5C/1) 1961: 20; Gentry, 1982: 96.

Arrabidaea egensis Bureau & Schumann
Ref. Gentry, 1982: 94.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: McKenna & MacRae DMK-60 (MO!)
Depts.: LO

Arrabidaea elliptica Bureau & Schumann =Arrabidaea platyphylla A. DC.
Ref. FP 13(5C/1) 1961: 22.

Arrabidaea fanshawei Sandwith
Ref. Gentry, 1982: 95.
Liana. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Gentry & Díaz 28163 (MO!)
Depts.: AM, LO, MD, PA, SM

Arrabidaea florida A. DC.
Syn. *Arrabidaea divaricata* Bureau & Schumann
Ref. FP 13(5C/1) 1961: 20; Gentry, 1982: 96.
Liana. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Gentry & Smith 45099 (MO!, USM!)
Depts.: AM, CU, HU, JU, LO, MD, PA, SM, UC

Arrabidaea inaequalis (DC. ex Splitgerber) Schumann
Syn. *Bignonia inaequalis* DC. ex Splitgerber, *Tetrastichella inaequalis* (DC. ex Splitgerber) Pichon
Ref. FP 13(5C/1) 1961: 21; Gentry, 1982: 100.
Liana. Amazonian: grasslands, terra firme forests. 0-500 m.
Voucher: Gentry & Smith 41428 (MO!, USM!)
Depts.: MD, SM, UC

Arrabidaea japurensis (A. DC.) Bureau & Schumann
Syn. *Arrabidaea lenticellosa* Bureau & Schumann, *Scobinaria japurensis* (A. DC.) Sandwith, *Tabebuia japurensis* A. DC.
Ref. FP 13(5C/1) 1961: 40; Gentry, 1982: 101.
Liana. Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 31558 (AMAZ!, MO!)
Depts.: AM, LO, MD, PA

Arrabidaea lenticellosa Bureau & Schumann =Arrabidaea japurensis (A. DC.) Bureau & Schumann

Arrabidaea pachycalyx Sprague =Arrabidaea candicans (Richard) A. DC.
Ref. FP 13(5C/1) 1961: 21; Gentry, 1982: 79.

Arrabidaea patellifera (Schlechtendal) Sandwith
Syn. *Bignonia patellifera* Schlechtendal, *Cuspidaria mollis* Kraenzlin, *Petastoma patelliferum* (Schlechtendal) Miers
Ref. Gentry, 1982: 111.
Liana. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Gentry *et al.* 58055 (MO!, USM!)
Depts.: AM, HU, LO, MD, PA, PU, SM, UC

Arrabidaea pearcei (Rusby) Schumann ex Urban
Syn. *Bignonia pearcei* Rusby
Ref. FP 13(5C/1) 1961: 22; Gentry, 1977: 40.
Liana. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Gentry *et al.* 25763 (MO!, USM!)
Depts.: HU, JU, LO, MD, SM, UC

Arrabidaea pentstemonoides Kraenzlin =Arrabidaea nicotianiflora Kraenzlin
Ref. FP 13(5C/1) 1961: 28; Gentry, 1982: 111.

Arrabidaea platyphylla (Chamisso) Bureau & Schumann =Arrabidaea brachypoda (A. DC.) Bureau
Ref. FP 13(5C/1) 1961: 18; Gentry, 1982: 78.

Arrabidaea platyphylla A. DC.
Syn. *Arrabidaea bangii* Sprague, *Arrabidaea elliptica* Bureau & Schumann, *Arrabidaea macrophylla* Schumann
Ref. FP 13(5C/1) 1961: 22.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 31183 (AMAZ!, MO!)
Depts.: HU, MD, UC

Arrabidaea poeppigii (A. DC.) Sandwith
Syn. *Anemopaegma poeppigii* A. DC., *Petastoma poeppigii* (A. DC.) Sandwith, *Petastoma reticulatum* Poeppig ex Bureau & Schumann
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Seibert 2047 (MO!)
Depts.: MD

Arrabidaea pubescens (L.) A. Gentry
Syn. *Bignonia pubescens* L.
Ref. Gentry, 1982: 113.
Liana. Amazonian, Coastal: seasonally inundated areas, terra firme forests. 0-500 m.
Voucher: Gentry & Núñez 54243 (MO!, USM!)
Depts.: LO, MD, SM, TU, UC

Arrabidaea quinquenervis Bureau & Schumann =Arrabidaea candicans (Richard) A. DC.
Ref. FP 13(5C/1) 1961: 23.

Arrabidaea revillae A. Gentry
Ref. Gentry, 1978: 726.
Liana. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Revilla 718* (AMAZ!, MO!), Croat 19355 (MO!)
Depts.: LO

Arrabidaea rubrinervis Miers =Cuspidaria floribunda (A. DC.) A. Gentry
Ref. FP 13(5C/1) 1961: 23.

Arrabidaea schumanniana Huber =Clytostoma binatum (Thunberg) Sandwith
Ref. FP 13(5C/1) 1961: 24.

Arrabidaea selloi (Sprengel) Sandwith
Syn. *Bignonia selloi* Sprengel
Ref. Gentry, 1982: 116.
Liana. Andean I: dry valleys. 1000-1500 m.
Voucher: Núñez & Walsh 6286 (MO!)
Depts.: CU

Arrabidaea spicata Bureau & Schumann
Syn. *Arrabidaea candelabrum* Kraenzlin
Ref. FP 13(5C/1) 1961: 25; Gentry, 1977: 42.
Liana. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Spruce 4535* (NY!), Gentry

et al. 19652 (MO!)
Depts.: LO, MD, SM

Arrabidaea subfastigiata Bureau ex Bureau & Schumann =Cuspidaria floribunda (A. DC.) A. Gentry
Ref. FP 13(5C/1) 1961: 23.

Arrabidaea trailii Sprague
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry & Revilla 16274 (MO!)
Depts.: MD

Arrabidaea tuberculata A. DC.
Ref. FP 13(5C/1) 1961: 25.
Liana. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Gentry *et al.* 51319 (MO!)
Depts.: CA, HU, LO, MD, PA, SM

Arrabidaea verrucosa (Standley) A. Gentry
Syn. *Adenocalymma verrucosum* Standley, *Arrabidaea belizensis* Standley, *Martinella verrucosa* (Standley) Standley
Ref. Gentry, 1982: 118.
Liana. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Gentry 43529 (MO!, USM!)
Depts.: HU, JU, LO, MD, PA

Ref. FP 13(5C/1) 1961: 48; Gentry, 1977: 90.

Bignonia magnoliifolia H.B.K. =Distictella magnoliifolia (H.B.K.) Sandwith
Ref. Gentry, 1982: 177.

Bignonia melioides S. Moore =Pleonotoma melioides (S. Moore) A. Gentry

Bignonia meyeniana Schauer =Tecoma fulva (Cavanilles) G. Don
Ref. FP 13(5C/1) 1961: 81; Gentry, 1992a: 279.

Bignonia obliqua H.B.K. =Arrabidaea corallina (Jacquin) Sandwith
Ref. FP 13(5C/1) 1961: 19; Gentry, 1982: 89.

Bignonia obovata Hooker & Arnott =Stemmadenia obovata (Hooker & Arnott) Schumann (Apocynaceae)
Ref. Allorge, 1985: 42.

Bignonia paniculata L. =Amphilophium paniculatum var. molle (Schlechtendal & Chamisso) Standley
Ref. FP 13(5C/1) 1961: 54; Gentry, 1982: 33.

Bignonia pannosa A. DC. =Amphilophium pannosum (A. DC.) Bureau & Schumann
Ref. Gentry, 1982: 39.

Bignonia patellifera Schlechtendal =Arrabidaea patellifera (Schlechtendal) Sandwith
Ref. FP 13(5C/1) 1961: 27; Gentry, 1982: 111.

Bignonia pearcei Rusby =Arrabidaea pearcei (Rusby) Schumann ex Urban
Ref. FP 13(5C/1) 1961: 22; Gentry, 1977: 40.

Bignonia perforata Chamisso =Stizophyllum riparium (H.B.K.) Sandwith
Ref. FP 13(5C/1) 1961: 55.

Bignonia platyphylla Chamisso =Arrabidaea brachypoda (A. DC.) Bureau
Ref. FP 13(5C/1) 1961: 18; Gentry, 1982: 78.

Bignonia pratensis Poeppig ex Bureau & Schumann, nom. nud. =Xylophragma pratense (Bureau & Schumann ex Schumann) Sprague
Ref. FP 13(5C/1) 1961: 65.

Bignonia prieurei A. DC. =Mussatia prieurei (A. DC.) Bureau ex Schumann
Ref. Gentry, 1982: 282.

Bignonia pubescens L. =Arrabidaea pubescens (L.) A. Gentry
Ref. Gentry, 1982: 113.

Bignonia purpurea Loddiges ex Hooker f. =Clytostoma binatum (Thunberg) Sandwith
Ref. FP 13(5C/1) 1961: 38; Gentry, 1977: 51.

Bignonia pyramidata Richard =Paragonia pyramidata (Richard) Bureau
Ref. FP 13(5C/1) 1961: 46; Gentry, 1982: 287.

Bignonia quadrivalvis Jacquin =Melloa quadrivalvis (Jacquin) A. Gentry
Ref. Gentry, 1982: 253.

Bignonia quinquefolia Vell. Conc. =Cybistax antisyphilitica (C. Martius) C. Martius ex A. DC.
Ref. FP 13(5C/1) 1961: 90; Gentry, 1992a: 26.

Bignonia radiata L. =Argylia radiata (L.) D. Don
Ref. FP 13(5C/1) 1961: 77; Gentry, 1992a: 9.

Bignonia radicans L. =Campsis radicans (L.) Seemann
Ref. FP 13(5C/1) 1961: 78.

Bignonia riparia H.B.K. =Stizophyllum riparium (H.B.K.) Sandwith
Ref. FP 13(5C/1) 1961: 55; Gentry, 1982: 349.

Bignonia rodigasiana L. Lindley =Macfadyena unguis-cati (L.) A. Gentry

Bignonia roseo-alba Ridley =Tabebuia roseo-alba (Ridley) Sandwith
Ref. Gentry, 1992a: 251.

Bignonia rusbyi Britton ex Rusby =Distictella magnoliifolia (H.B.K.) Sandwith
Ref. FP 13(5C/1) 1961: 45; Gentry, 1982: 177.

Bignonia selloi Sprengel =Arrabidaea selloi (Sprengel) Sandwith
Ref. Gentry, 1982: 116.

Bignonia serratifolia M. Vahl =Tabebuia serratifolia (M. Vahl) Nicholson
Ref. FP 13(5C/1) 1961: 89; Gentry, 1992a: 254.

Bignonia stans L. =Tecoma stans var. stans
Ref. FP 13(5C/1) 1961: 84; Gentry, 1992a: 285.

[*Bignonia tenuiflora* A. DC. =Tecoma tenuiflora (DC.) Fabris]
Ref. FP 13(5C/1) 1961: 82; Gentry, 1992a: 29.
Note: Not known from Peru. The Flora of Peru incorrectly cites this taxon as a synonym of *Tecoma rosifolia*.

Bignonia tetragonoloba Jacquin =Ceratophytum tetragonolobum (Jacquin) Sprague & Sandwith
Ref. Gentry, 1982: 129.

Bignonia triflora Pavón ex A. DC., nom. nud. pro syn. =Coutarea hexandra (Jacquin) Schumann (Rubiaceae)
Ref. FP 13(6) 1936: 54.

Bignonia umbrosa H.B.K. =Lundia corymbifera (M. Vahl) Sandwith
Ref. FP 13(5C/1) 1961: 59; Gentry, 1982: 217.

Bignonia uncata Andrews =Macfadyena uncata (Andrews) Sprague & Sandwith
Ref. FP 13(5C/1) 1961: 71; Gentry, 1982: 227.

Bignonia unguis-cati L. =Macfadyena unguis-cati (L.) A. Gentry
Ref. FP 13(5C/1) 1961: 72; Gentry, 1982: 229.

Bignonia variabilis Jacquin =Pleonotoma variabilis (Jacquin) Miers
Ref. Gentry, 1982: 315.

Bignonia venusta Ker-Gawler =Pyrostegia venusta (Ker-Gawler) Miers
Ref. FP 13(5C/1) 1961: 57; Gentry, 1982: 327.

Bignonia verrucifera Schlechtendal =Mansoa verrucifera (Schlechtendal) A. Gentry
Ref. Gentry, 1982: 245.

Bignonia viridiflora Loddiges, nom. nud. =Cybistax antisyphilitica (C. Martius) C. Martius ex A. DC.
Ref. FP 13(5C/1) 1961: 90; Gentry, 1992a: 26.

Blepharitheca floribunda (A. DC.) Pichon =Cuspidaria floribunda (A. DC.) A. Gentry
Ref. FP 13(5C/1) 1961: 23.

Calampelis scaber (R. & P.) D. Don =Eccremocarpus scaber R. & P.
Ref. FP 13(5C/1) 1961: 99; Sandwith, 1965: 407.

Callichlamys latifolia (Richard) Schumann
Syn. *Bignonia latifolia* Richard
Ref. FP 13(5C/1) 1961: 56; Gentry, 1982: 121.
Liana. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Klug 4203 (MO!)
Depts.: HU, LO, MD, PA, SM, UC

Campsis radicans (L.) Seemann
Syn. *Bignonia radicans* L.

Ref. FP 13(5C/1) 1961: 78.
Cultivated liana. Coastal: disturbed areas. 0-500 m.
Voucher: Seibert 2332 (MO!)
Depts.: LI

Ceratophytum tetragonolobum (Jacquin) Sprague & Sandwith
Syn. *Bignonia tetragonoloba* Jacquin
Ref. Gentry, 1982: 129.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Schunke 7956 (MO!)
Depts.: LO, MD, SM

Chodanthus puberulus Seibert =Anemopaegma puberulum (Seibert) Miranda
Ref. Gentry, 1977: 28.

Clytostoma binatum (Thunberg) Sandwith
Syn. *Arrabidaea schumanniana* Huber, *Bignonia binata* Thunberg, *Bignonia purpurea* Loddiges ex Hooker f., *Clytostoma noterophilum* (C. Martius ex DC.) Bureau & Schumann
Ref. FP 13(5C/1) 1961: 38; Gentry, 1977: 51.
Liana. Amazonian, Andean I: seasonally inundated areas, swamps. 0-1000 m.
Voucher: Gentry 52304 (AMAZ!, MO!)
Depts.: HU, LO, MD, SM, UC

Clytostoma callistegioides (Chamisso) Bureau ex Grisebach
Syn. *Bignonia callistegioides* Chamisso
Cultivated liana. Coastal. 0-500 m.
Voucher: Seibert 2325 (MO!)
Depts.: LI

Clytostoma campanulatum (Chamisso) Bureau & Schumann
Syn. *Bignonia campanulata* Chamisso
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 27210 (MO!, USM!)
Depts.: MD

Clytostoma noterophilum (C. Martius ex DC.) Bureau & Schumann =Clytostoma binatum (Thunberg) Sandwith
Ref. FP 13(5C/1) 1961: 38.

Clytostoma sciuripabulum Bureau & Schumann
Ref. FP 13(5C/1) 1961: 39; Gentry, 1982: 139.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry 31167 (MO!)
Depts.: AM, CU, JU, LO, MD, UC

Clytostoma uleanum Kraenzlin
Syn. *Macfadyena violacea* Rusby
Ref. FP 13(5C/1) 1961: 39.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 26280 (MO!, USM!)
Depts.: CU, HU, LO, MD, SM, UC

Crescentia amazonica Ducke
Ref. Gentry, 1980: 87.
Tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Gentry *et al.* 25811 (AMAZ!, MO!)
Depts.: LO

Crescentia cujete L.
Ref. FP 13(5C/1) 1961: 97; Gentry, 1982: 142.
Cultivated tree. Amazonian: disturbed areas. 0-500 m.
Voucher: Gentry *et al.* 10481 (MO!)
Depts.: LO

Cuspidaria emmonsii A. Gentry
Ref. Gentry, 1992: 160.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry 31126* (AMAZ!, MO!), Emmons 230 (MO!)
Depts.: MD, UC

Cuspidaria floribunda (A. DC.) A. Gentry
Syn. *Adenocalymma floribundum* A. DC., *Arrabidaea macrocarpa* Kuntze, *Arrabidaea rubrinervis* Miers, *Arrabidaea subfastigiata* Bureau ex Bureau & Schumann, *Blepharitheca floribunda* (A. DC.) Pichon
Ref. Gentry, 1973: 232.
Liana. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Gentry *et al.* 40145 (MO!, USM!)
Depts.: AM, CU, HU, JU, LO, MD, PA, SM, UC

Cuspidaria lateriflora (C. Martius) A. DC.
Syn. *Saldanhaea lateriflora* (C. Martius) Bureau, *Tecoma lateriflora* C. Martius
Ref. FP 13(5C/1) 1961: 64; Gentry, 1982: 147.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Seibert 1992 (MO!)
Depts.: MD

Cuspidaria mollis Kraenzlin =Arrabidaea patellifera (Schlechtendal) Sandwith
Ref. FP 13(5C/1) 1961: 27; Gentry, 1982: 111.

Cuspidaria schumanniana Kuntze =Tynanthus schumannianus (Kuntze) A. Gentry

Cuspidaria weberbaueri (Sprague) A. Gentry
Syn. *Arrabidaea weberbaueri* Sprague, *Saldanhaea weberbaueri* Sprague
Ref. Gentry, 1973: 233.
Endemic liana. Amazonian, Andean I: dry valleys. 0-1000 m.
Voucher: Weberbauer 1934* (K!), Gentry & Smith 45103 (MO!, USM!)
Depts.: JU, SM

Cybistax antisyphilitica (C. Martius) C. Martius ex A. DC.
Syn. *Bignonia antisyphilitica* C. Martius, *Bignonia quinquefolia* Vell. Conc., *Bignonia viridiflora* Loddiges, nom. nud., *Cybistax quinquefolia* (Vell. Conc.) J. F. Macbride, *Cybistax sprucei* Schumann, nom. nud., *Yangua tinctoria* Spruce
Ref. FP 13(5C/1) 1961: 90; Gentry, 1992a: 26.
Shrub or tree. Amazonian, Andean I-II: savannas, dry valleys. 0-2500 m.
Voucher: Gentry *et al.* 22842 (MO!, USM!)
Depts.: AM, CA, CU, LO, SM, UC

Cybistax quinquefolia (Vell. Conc.) J. F. Macbride =Cybistax antisyphilitica (C. Martius) C. Martius ex A. DC.
Ref. FP 13(5C/1) 1961: 90; Gentry, 1992a: 28.

Cybistax sprucei Schumann, nom. nud. =Cybistax antisyphilitica (C. Martius) C. Martius ex A. DC.
Ref. Gentry, 1992a: 26.

Cydista aequinoctialis (L.) Miers
Syn. *Bignonia aequinoctialis* L.
Ref. FP 13(5C/1) 1961: 61; Gentry, 1982: 151.
Liana. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Gentry & Revilla 16281 (AMAZ!, MO!)
Depts.: LO, MD, PA, SM, UC

Cydista bracteomana Schumann ex Sprague =Roentgenia bracteomana (Schumann ex Sprague) Urban
Ref. FP 13(5C/1) 1961: 62; Gentry, 1977: 126.

Cydista lilacina A. Gentry
Ref. Gentry, 1982: 159.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 27217 (MO!, USM!)
Depts.: CA, HU, LO, MD, SM, UC

Delostoma dentatum D. Don
Ref. FP 13(5C/1) 1961: 92; Gentry, 1992a: 31.
Endemic shrub or tree. Andean II: cloud forests. 2000-3000 m.
Voucher: Pavón 766* (F), Gentry *et al.* 21687 (MO!, USM!)
Depts.: AN, AY, LI

Delostoma gracile A. Gentry
Ref. Gentry, 1977: 61.
Endemic shrub or tree. Andean I: dry valleys. 500-1000 m.
Voucher: Weberbauer 7683* (F! frag. MO), Díaz & Peña 4043 (MO!, USM!)
Depts.: TU

Delostoma integrifolium D. Don
Syn. *Delostoma nervosum* A. DC., *Delostoma weberbauerianum* Kraenzlin
Ref. FP 13(5C/1) 1961: 93; Gentry, 1992a: 33.
Shrub or tree. Andean II: cloud forests. 1500-3000 m.
Voucher: Ruiz & Pavón s.n.*, Gentry *et al.* 23142 (MO!, USM!)

Depts.: AM, AY, CA, CU, HU, LI, LL, PI, SM

Delostoma lobbii Seemann
Syn. *Delostoma vargasii* Standley ex Vargas, nom. nud.
Ref. FP 13(5C/1) 1961: 94; Gentry, 1992a: 36.
Shrub or tree. Andean II: dry valleys. 1500-3500 m.
Voucher: Lobb s.n.* (K!), Díaz 2195 (MO, USM)
Depts.: AM, AP, CA, CU, LA, LI, LL

Delostoma nervosum A. DC. =Delostoma integrifolium D. Don
Ref. FP 13(5C/1) 1961: 93; Gentry, 1992a: 33.

Delostoma vargasii Standley ex Vargas, nom. nud. =Delostoma lobbii Seemann
Ref. Gentry, 1992a: 36.

Delostoma weberbauerianum Kraenzlin =Delostoma integrifolium D. Don
Ref. FP 13(5C/1) 1961: 94; Gentry, 1992a: 33.

Dermatocalyx parviflorus Oersted =Schlegelia parviflora (Oersted) Monachino
Ref. FP 13(5C/1) 1961: 95; Gentry, 1982: 336.

Distictella dasytricha Sandwith
Ref. Sandwith, 1953: 476.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry & Díaz 28225 (AMAZ!, MO!)
Depts.: LO, PA

Distictella elongata (M. Vahl) Urban
Syn. *Bignonia elongata* M. Vahl
Ref. Gentry, 1982: 174.
Liana. Amazonian: savannas. 0-500 m.
Voucher: Gentry & Núñez 69446 (MO!, USM!)
Depts.: MD

Distictella magnoliifolia (H.B.K.) Sandwith
Syn. *Bignonia magnoliifolia* H.B.K., *Bignonia rusbyi* Britton ex Rusby, *Distictella racemosa* (Bureau & Schumann) Urban, *Distictis racemosa* Bureau & Schumann
Ref. Gentry, 1982: 177.
Liana. Amazonian: forests. 0-500 m.
Voucher: Gentry & Daly 18322 (AMAZ!, MO!)
Depts.: JU, LO, MD, PA

Distictella pulverulenta Sandwith =Distictis pulverulenta (Sandwith) A. Gentry
Ref. Gentry, 1982: 187.

Distictella racemosa (Bureau & Schumann) Urban =Distictella magnoliifolia (H.B.K.) Sandwith
Ref. FP 13(5C/1) 1961: 44; Gentry, 1982: 177.

Distictis granulosa Bureau & Schumann
Ref. Gentry, 1982: 186.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 51393 (MO!, USM!)
Depts.: MD

Distictis occidentalis A. Gentry
Ref. Gentry, 1992c: 161.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Barbour 3739 (MO!)
Depts.: LO, MD, UC

Distictis pulverulenta (Sandwith) A. Gentry
Syn. *Distictella pulverulenta* Sandwith
Ref. Gentry, 1982: 187.
Liana. Amazonian: forests on white sand. 0-500 m.
Voucher: Gentry *et al.* 21308 (AMAZ!, MO!)
Depts.: LO

Distictis racemosa Bureau & Schumann =Distictella magnoliifolia (H.B.K.) Sandwith
Ref. FP 13(5C/1) 1961: 44; Gentry, 1982: 177.

Dombeya lappacea L'Héritier =Tourrettia lappacea (L'Héritier) Willdenow
Ref. FP 13(5C/1) 1961: 100; Gentry, 1980: 110.

Doxantha unguis-cati (L.) Miers =Macfadyena unguis-cati (L.) A. Gentry
Ref. FP 13(5C/1) 1961: 72; Gentry, 1982: 232.

Eccremocarpus huainaccapac Vargas
Ref. FP 13(5C/1) 1961: 98; Sandwith, 1965: 406.
Endemic vine. Andean III: grasslands. 3500-4000 m.
Voucher: Vargas 3034* (US!), Saunders 776 (K)
Depts.: AP, CU

Eccremocarpus longiflorus Humboldt & Bonpland
Ref. FP 13(5C/1) 1961: 98; Gentry, 1977: 71.
Vine. Andean II-III: shrublands. 3000-4000 m.
Voucher: Davis s.n. (MO!)
Depts.: HU

Eccremocarpus scaber R. & P.
Syn. *Calampelis scaber* (R. & P.) D. Don
Ref. FP 13(5C/1) 1961: 99; Sandwith, 1965: 407.
Vine. Andean II: grasslands. 3000-3500 m.
Voucher: Shepard 9 (NY!)
Depts.: PU

Eccremocarpus vargasianus Sandwith
Ref. Sandwith, 1965: 406.
Endemic vine. Andean II-III: grasslands. 3000-4000 m.
Voucher: Vargas 5956* (MO!), Núñez & Luna 8841 (MO!)
Depts.: CU

Eccremocarpus viridis R. & P.
Ref. FP 13(5C/1) 1961: 99; Sandwith, 1965: 403.
Endemic vine. Andean III: shrublands. 3500-4000 m.
Voucher: Ruiz & Pavón s.n.* (MA photo F), Davis s.n. (MO!)
Depts.: HU

[*Exsertanthera longa* (Vell. Conc.) Pichon =Lundia cordata A. DC.]
Ref. FP 13(5C/1) 1961: 59.
Note: Not known from Peru.

[*Gelseminum amoenum* Kuntze =Tecoma tenuiflora (A. DC.) Fabris]
Ref. FP 13(5C/1) 1961: 82; Gentry, 1992a: 291.
Note: Not known from Peru. The Flora of Peru incorrectly cites this taxon as a synonym of *Tecoma rosifolia*.

Godmania aesculifolia (H.B.K.) Standley
Syn. *Bignonia aesculifolia* H.B.K., *Godmania uleana* Kraenzlin
Ref. FP 13(5C/1) 1961: 91; Gentry, 1992a: 47.
Tree. Amazonian: semi-deciduous forests. 0-500 m.
Voucher: Gentry 43736 (MO!, USM!)
Depts.: MD

Godmania uleana Kraenzlin =Godmania aesculifolia (H.B.K.) Standley
Ref. FP 13(5C/1) 1961: 91; Gentry, 1992a: 48.

Haplolophium nunezii A. Gentry
Ref. Gentry, 1992c: 163.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Núñez & Phillips 10412* (CUZ!, MO!), Gentry *et al.* 26802 (MO!)
Depts.: MD

Jacaranda acutifolia Humboldt & Bonpland
Ref. FP 13(5C/1) 1961: 73; Gentry, 1992a: 56.
Endemic tree. Andean I-II: dry valleys. 1000-2500 m.
Voucher: Humboldt & Bonpland s.n.* (B!), Gentry *et al.* 37519 (MO!, USM!)
Depts.: AM, CA, CU, HU, HV

Jacaranda atropurpurea Rusby =Jacaranda glabra (A. DC.) Bureau & Schumann
Ref. FP 13(5C/1) 1961: 75; Gentry, 1992a: 78.

Jacaranda cauliflora Bureau & Schumann =Jacaranda glabra (A. DC.) Bureau & Schumann
Ref. FP 13(5C/1) 1961: 75; Gentry, 1992a: 77.

[Jacaranda copaia (Aublet) D. Don subsp. copaia
Syn. *Bignonia copaia* Aublet
Ref. Gentry, 1992a: 68.

Note: This subspecies not known from Peru.

Jacaranda copaia subsp. **spectabilis** (C. Martius ex A. DC.) A. Gentry
Syn. *Jacaranda spectabilis* C. Martius ex A. DC.
Ref. FP 13(5C/1) 1961: 74; Gentry, 1992a: 69.
Tree. Amazonian, Andean I: terra firme forests. 0-1500 m.
Note: Material of this subspecies was reported under the species in the Flora of Peru.
Voucher: Gentry & Young 31778 (MO!, USM!)
Depts.: AM, HU, LO, MD, PA, SM, UC

Jacaranda glabra (A. DC.) Bureau & Schumann
Syn. *Jacaranda atropurpurea* Rusby, *Jacaranda cauliflora* Bureau & Schumann, *Jacaranda intermedia* Huber, *Jacaranda longiflora* Britton ex Rusby, *Jacaranda rachidoptera* Bureau & Schumann, *Pteropodium glabrum* A. DC.
Ref. FP 13(5C/1) 1961: 75; Gentry, 1992a: 77.
Tree or treelet. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Gentry *et al.* 52287 (MO!, USM!)
Depts.: AM, AY, CU, HU, JU, LO, MD, PA, SM, UC

Jacaranda intermedia Huber =Jacaranda glabra (A. DC.) Bureau & Schumann
Ref. FP 13(5C/1) 1961: 75; Gentry, 1992a: 78.

Jacaranda lasiogyne Bureau & Schumann =Jacaranda obtusifolia subsp. obtusifolia
Ref. FP 13(5C/1) 1961: 76; Gentry, 1992a: 93.

Jacaranda longiflora Britton ex Rusby =Jacaranda glabra (A. DC.) Bureau & Schumann
Ref. FP 13(5C/1) 1961: 75; Gentry, 1992a: 77.

Jacaranda macrocarpa Bureau & Schumann ex Schumann
Ref. Gentry, 1992a: 85.
Tree. Amazonian: forests on white sand. 0-500 m.
Voucher: Gentry & Aronson 25015 (AMAZ!, MO!)
Depts.: LO, SM

Jacaranda mimosifolia D. Don
Ref. Gentry, 1977: 76.
Cultivated tree. Andean II: terra firme forests. 2000-2500 m.
Voucher: Gentry *et al.* 23397 (MO!, USM!)
Depts.: CU

Jacaranda obtusifolia Humboldt & Bonpland subsp. **obtusifolia**
Syn. *Jacaranda lasiogyne* Bureau & Schumann
Ref. FP 13(5C/1) 1961: 76; Gentry, 1992a: 93.
Tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Gentry *et al.* 51471 (MO!, USM!)
Depts.: LO, MD

Jacaranda rachidoptera Bureau & Schumann =Jacaranda glabra (A. DC.) Bureau & Schumann
Ref. FP 13(5C/1) 1961: 75; Gentry, 1992a: 77.

Jacaranda sparrei A. Gentry
Ref. Gentry, 1992a: 104.
Tree. Andean II: dry valleys. 2000-2500 m.
Voucher: Gentry *et al.* 74936 (MO!)
Depts.: PI

Jacaranda spectabilis C. Martius ex A. DC. =Jacaranda copaia subsp. spectabilis (C. Martius ex DC.) A. Gentry
Ref. Gentry, 1992a: 69.

Kigelia africana (Lamarck) Bentham
Syn. *Bignonia africana* Lamarck
Ref. Gentry, 1977: 78.
Cultivated and introduced tree. Disturbed areas.
Voucher: Ferreyra 5997 (MO!, USM)

[Lundia cordata A. DC.]
Syn. *Bignonia longa* Vell. Conc., *Exsertanthera longa* (Vell. Conc.) Pichon
Ref. FP 13(5C/1) 1961: 58.
Note: Not known from Peru. The specimens cited in the Flora of Peru are misidentified.

Lundia corymbifera (M. Vahl) Sandwith
Syn. *Bignonia corymbifera* M. Vahl, *Bignonia umbrosa* H.B.K., *Lundia umbrosa* (H.B.K.) Bureau
Ref. FP 13(5C/1) 1961: 59; Gentry, 1982: 217.
Liana. Amazonian, Andean I: terra firme forests. 0-1500 m.
Voucher: Gentry *et al.* 61360 (MO!, USM!)
Depts.: AM, CA, CU, LO, MD, SM

Lundia densiflora C. DC.
Ref. Gentry, 1982: 221.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry 29969 (AMAZ!, MO!)
Depts.: LO

Lundia dicheilocalyx S. F. Blake =Lundia puberula Pittier
Ref. FP 13(5C/1) 1961: 60; Gentry, 1982: 224.

Lundia erionema A. DC.
Ref. Gentry, 1982: 222.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Woytkowski 35022 (MO!)
Depts.: LO, SM

Lundia puberula Pittier
Syn. *Lundia dicheilocalyx* S. F. Blake
Ref. FP 13(5C/1) 1961: 60; Gentry, 1982: 224.
Liana. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Smith *et al.* 5442 (MO!, USM)
Depts.: CU, LO, MD, PA, SM

Lundia spruceana Bureau
Ref. FP 13(5C/1) 1961: 60; Gentry, 1977: 84.
Liana. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Spruce 4489* (BR!), Gentry & Smith 44943 (MO!, USM!)
Depts.: AM, HU, JU, LO, MD, SM

Lundia umbrosa (H.B.K.) Bureau =Lundia corymbifera (M. Vahl) Sandwith
Ref. FP 13(5C/1) 1961: 59; Gentry, 1982: 217.

Macfadyena bangii Rusby =Phryganocydia corymbosa (Ventenat) Baillon
Ref. FP 13(5C/1) 1961: 63; Gentry, 1982: 298.

Macfadyena corymbosa (Ventenat) Grisebach =Phryganocydia corymbosa (Ventenat) Baillon
Ref. FP 13(5C/1) 1961: 63; Gentry, 1982: 298.

Macfadyena uncata (Andrews) Sprague & Sandwith
Syn. *Bignonia uncata* Andrews
Ref. FP 13(5C/1) 1961: 71; Gentry, 1982: 227.
Liana. Amazonian: seasonally inundated areas, swamps. 0-500 m.
Voucher: Gentry & Díaz 58405 (AMAZ!, MO!)
Depts.: AM, HU, LO, MD, SM, UC

Macfadyena unguis-cati (L.) A. Gentry
Syn. *Batocydia unguis* (L.) C. Martius ex DC., *Bignonia rodigasiana* L. Lindley, *Bignonia unguis-cati* L., *Doxantha unguis-cati* (L.) Miers, *Microbignonia auristellae* Kraenzlin
Ref. Gentry, 1982: 229.
Liana. Amazonian, Andean I: terra firme forests. 0-1500 m.
Voucher: Schunke 4431 (MO!)
Depts.: CU, JU, LO, MD, PA, SM, UC

Macfadyena violacea Rusby =Clytostoma uleanum Kraenzlin
Ref. FP 13(5C/1) 1961: 39.

Macranthisiphon longiflorus (Cavanilles) Schumann
Syn. *Bignonia longiflora* Cavanilles
Ref. FP 13(5C/1) 1961: 48; Gentry, 1977: 90.
Liana. Coastal: forests. 0-1000 m.
Voucher: López *et al.* 7682 (MO!)
Depts.: PI, TU

Mansoa alliacea (Lamarck) A. Gentry
Syn. *Adenocalymma pachypus* (Schumann) Bureau & Schumann, *Anemopaegma pachypus* Schumann,

Bignonia alliacea Lamarck, *Pseudocalymma alliaceum* (Lamarck) Sandwith, *Pseudocalymma pachypus* (Schumann) Sandwith
Ref. Gentry, 1979a: 782.
Liana. Amazonian: riversides. 0-500 m.
Voucher: Gentry *et al.* 25477A (AMAZ!, MO!)
Depts.: AM, HU, LO, SM

Mansoa hymenaea (A. DC.) A. Gentry
Syn. *Bignonia hymenaea* A. DC.
Ref. Gentry, 1982: 236.
Liana. Amazonian, Andean I, Coastal: semi-deciduous forests, terra firme forests. 0-1500 m.
Voucher: López 8775 (MO!)
Depts.: LA, MD, PI, TU

Mansoa kerere (Aublet) A. Gentry
Syn. *Adenocalymma foveolatum* (A. DC.) Baillon, *Bignonia kerere* Aublet, *Pachyptera foveolata* A. DC., *Pachyptera kerere* (Aublet) Sandwith
Ref. Gentry, 1982: 239.
Liana. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Gentry *et al.* 22205 (AMAZ!, MO!)
Depts.: AM, LO, MD, UC

Mansoa parvifolia (A. Gentry) A. Gentry
Syn. *Pachyptera parvifolia* A. Gentry
Liana. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Gentry & Díaz 58507 (MO!, USM!)
Depts.: AM, JU, LO, MD, UC

Mansoa standleyi (Steyermark) A. Gentry
Syn. *Pseudocalymma standleyi* Steyermark
Ref. Gentry, 1982: 243.
Liana. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Gentry *et al.* 55996 (AMAZ!, MO!)
Depts.: AM, HU, JU, LO, MD, PA, SM

Mansoa verrucifera (Schlechtendal) A. Gentry
Syn. *Bignonia verrucifera* Schlechtendal
Ref. Gentry, 1982: 245.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 21891 (AMAZ!, MO!)
Depts.: LO, MD, SM

Martinella iquitosensis A. Sampaio
Ref. FP 13(5C/1) 1961: 42.
Liana. Amazonian: forests. 0-500 m.
Voucher: Kuhlmann 1492* (MO!), Vásquez & Jaramillo 8032 (AMAZ!, MO!)
Depts.: LO

Martinella obovata (H.B.K.) Bureau & Schumann
Syn. *Anemopaegma leptosiphon* Rusby, *Spathodea obovata* H.B.K.
Ref. FP 13(5C/1) 1961: 42; Gentry, 1982: 249.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Schunke 12432 (MO!)
Depts.: AM, HU, JU, LO, PA, SM

Martinella verrucosa (Standley) Standley =Arrabidaea verrucosa (Standley) A. Gentry
Ref. FP 13(5C/1) 1961: 40; Gentry, 1982: 119.

Melloa quadrivalvis (Jacquin) A. Gentry
Syn. *Bignonia quadrivalvis* Jacquin
Ref. Gentry, 1982: 253.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 31140 (MO!)
Depts.: MD, UC

Memora bilabiata Sprague =Arrabidaea bilabiata (Sprague) Sandwith
Ref. FP 13(5C/1) 1961: 32; Gentry, 1982: 76.

Memora cladotricha Sandwith
Ref. Gentry, 1982: 265.
Treelet. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry & Díaz 58445 (MO!, USM!)
Depts.: AM, HU, LO, SM, UC

Memora croatii A. Gentry
Ref. Gentry, 1974: 877.
Liana. Amazonian: forests on white sand. 0-500 m.
Voucher: Croat 18335* (MO!), Revilla 224 (AMAZ!, MO!)
Depts.: LO

Memora duckei A. Sampaio =Memora flavida (A. DC.) Bureau & Schumann
Ref. FP 13(5C/1) 1961: 67; Gentry, 1982: 269.

Memora flavida (A. DC.) Bureau & Schumann
Syn. *Bignonia flavida* A. DC., *Memora duckei* A. Sampaio, *Pleonotoma flavida* (A. DC.) Miers
Ref. FP 13(5C/1) 1961: 67; Gentry, 1982: 269.
Liana. Amazonian: dry valleys. 0-500 m.
Voucher: Gentry *et al.* 37656 (MO!, USM!)
Depts.: SM

Memora flaviflora (Miquel) Pulle
Syn. *Spathodea flaviflora* Miquel
Ref. Gentry, 1982: 270.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 56462 (MO!)
Depts.: LO

Memora juliae A. Gentry
Ref. Gentry, 1981a: 118.
Liana. Amazonian: forests, riversides. 0-500 m.
Voucher: Gentry & Revilla 20348* (AMAZ!, MO!), Gentry & Revilla 20354 (MO, USM)
Depts.: LO

[Memora magnifica (C. Martius ex DC.) Bureau]
Syn. *Adenocalymma magnificum* C. Martius ex A. DC.
Ref. FP 13(5C/1) 1961: 67.
Note: Not known from Peru. The specimens cited in the Flora of Peru are misidentified.

[*Memora ovata* (Bureau & Schumann) Sprague & Sandwith =Memora schomburgkii (A. DC.) Miers]
Ref. FP 13(5C/1) 1961: 68.
Note: Not known from Peru.

[Memora patula Miers]
Ref. FP 13(5C/1) 1961: 68.
Note: Not known from Peru. The specimen cited in the Flora of Peru is *M. cladotricha*.

Memora pseudopatula A. Gentry
Ref. Gentry, 1981a: 119.
Liana. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Gentry & Revilla 16617* (AMAZ!, MO!), Davis 217 (MO)
Depts.: LO

[Memora schomburgkii (A. DC.) Miers]
Syn. *Memora ovata* (Bureau & Schumann) Sprague & Sandwith, *Spathodea schomburgkii* A. DC., *Tanaecium ovatum* Bureau & Schumann
Ref. FP 13(5C/1) 1961: 68.
Note: Not known from Peru. The specimen cited in the Flora of Peru is *M. cladotricha*.

Microbignonia auristellae Kraenzlin =Macfadyena unguis-cati (L.) A. Gentry

Mussatia hyacinthina (Standley) Sandwith
Syn. *Tynanthus hyacinthinus* Standley
Ref. FP 13(5C/1) 1961: 51; Gentry, 1982: 279.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 25648 (MO!)
Depts.: LO, MD, PA, SM

Mussatia prieurei (A. DC.) Bureau ex Schumann
Syn. *Bignonia prieurei* A. DC.
Ref. FP 13(5C/1) 1961: 51; Gentry, 1982: 282.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Díaz & Jaramillo 1434 (AMAZ!, MO!)
Depts.: LO, MD, UC

Osmhydrophora nocturna Barbosa Rodrigues =Tanaecium nocturnum (Barbosa Rodrigues) Bureau & Schumann
Ref. FP 13(5C/1) 1961: 47; Gentry, 1982: 413.

Pachyptera foveolata A. DC. =Mansoa kerere (Aublet) A. Gentry
Ref. FP 13(5C/1) 1961: 34; Gentry, 1982: 239.

Pachyptera kerere (Aublet) Sandwith =Mansoa kerere (Aublet) A. Gentry
Ref. FP 13(5C/1) 1961: 34.

Pachyptera parvifolia A. Gentry =Mansoa parvifolia (A. Gentry) A. Gentry

Paragonia pyramidata (Richard) Bureau
Syn. *Bignonia pyramidata* Richard
Ref. FP 13(5C/1) 1961: 46; Gentry, 1982: 287.
Liana. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Gentry & Smith 45106 (MO!, USM!)
Depts.: AM, CU, HU, JU, LO, MD, PA, SM, UC

Periarrabidaea truncata A. Sampaio
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry & Horna 29496 (MO!)
Depts.: CU, HU, LO, MD, UC

Petastoma patelliferum (Schlechtendal) Miers =Arrabidaea patellifera (Schlechtendal) Sandwith
Ref. FP 13(5C/1) 1961: 27; Gentry, 1982: 111.

Petastoma pentstemonoides (Kraenzlin) Sandwith =Arrabidaea nicotianiflora Kraenzlin
Ref. FP 13(5C/1) 1961: 28; Gentry, 1982: 111.

Petastoma poeppigii (A. DC.) Sandwith =Arrabidaea poeppigii (A. DC.) Sandwith
Ref. FP 13(5C/1) 1961: 28.

Petastoma reticulatum Poeppig ex Bureau & Schumann =Arrabidaea poeppigii (A. DC.) Sandwith
Ref. FP 13(5C/1) 1961: 28.

[*Petastoma whitei* (Rusby) Sandwith =Arrabidaea whitei (Rusby) Sandwith]
Ref. FP 13(5C/1) 1961: 29; Sandwith, 1968: 414.
Note: Not known from Peru.

Phryganocydia corymbosa (Ventenat) Baillon
Syn. *Macfadyena bangii* Rusby, *Macfadyena corymbosa* (Ventenat) Grisebach, *Spathodea corymbosa* Ventenat
Ref. FP 13(5C/1) 1961: 63; Gentry, 1982: 297.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 22087 (AMAZ!, MO!)
Depts.: LO

Phryganocydia xanthophylla C. Martius ex A. DC. =Spathicalyx xanthophylla (C. Martius ex A. DC.) A. Gentry
Ref. FP 13(5C/1) 1961: 65; Gentry, 1977: 136.

Pithecoctenium crucigerum (L.) A. Gentry
Syn. *Bignonia crucigera* L., *Bignonia echinata* Jacquin, *Pithecoctenium echinatum* (Jacquin) Baillon
Ref. Gentry, 1982: 302.
Liana. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Gentry *et al.* 40144 (MO!, USM!)
Depts.: AM, CA, CU, HU, JU, LO, MD, PA, SM

Pithecoctenium cynanchoides DC.
Ref. FP 13(5C/1) 1961: 44.
Cultivated. Disturbed areas.
Voucher: Soukup 5659 (US)
Depts.: LI

Pithecoctenium echinatum (Jacquin) Baillon =Pithecoctenium crucigerum (L.) A. Gentry
Ref. FP 13(5C/1) 1961: 44; Gentry, 1982: 303.

Pleonotoma auriculatum Schumann ex Sprague =Pleonotoma melioides (S. Moore) A. Gentry
Ref. FP 13(5C/1) 1961: 69.

Pleonotoma brittonii Rusby =Pleonotoma melioides (S. Moore) A. Gentry
Ref. FP 13(5C/1) 1961: 69.

[Pleonotoma clematis (H.B.K.) Miers]
Syn. *Bignonia clematis* H.B.K., *Pleonotoma uleanum* Kraenzlin
Ref. FP 13(5C/1) 1961: 70.
Note: Not known from Peru. The specimens cited in the Flora of Peru were misidentified.

Pleonotoma dendrotricha Sandwith
Ref. Gentry, 1982: 311.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 56616 (AMAZ!, MO!)
Depts.: LO, UC

Pleonotoma flavida (A. DC.) Miers =Memora flavida (A. DC.) Bureau & Schumann
Ref. FP 13(5C/1) 1961: 67; Gentry, 1982: 269.

Pleonotoma melioides (S. Moore) A. Gentry
Syn. *Bignonia melioides* S. Moore, *Pleonotoma auriculatum* Schumann ex Sprague, *Pleonotoma brittonii* Rusby
Liana. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Gentry & Jaramillo 41381 (MO!)
Depts.: CU, HU, JU, LO, MD, PA, SM, UC

[*Pleonotoma uleanum* Kraenzlin =Pleonotoma clematis (H.B.K.) Miers]
Ref. FP 13(5C/1) 1961: 70.
Note: Not known from Peru.

Pleonotoma variabilis (Jacquin) Miers
Syn. *Bignonia variabilis* Jacquin
Ref. Gentry, 1982: 315.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Revilla 1661 (AMAZ!, MO!)
Depts.: LO, MD

Pseudocalymma alliaceum (Lamarck) Sandwith =Mansoa alliacea (Lamarck) A. Gentry
Ref. FP 13(5C/1) 1961: 30.

Pseudocalymma pachypus (Schumann) Sandwith =Mansoa alliacea (Lamarck) A. Gentry
Ref. FP 13(5C/1) 1961: 30.

Pseudocalymma standleyi Steyermark =Mansoa standleyi (Steyermark) A. Gentry
Ref. Gentry, 1982: 243.

Pseudopaegma colombianum Sandwith =Anemopaegma colombianum (Sandwith) A. Gentry

Pseudopaegma insculptum Sandwith =Anemopaegma insculptum (Sandwith) A. Gentry
Ref. FP 13(5C/1) 1961: 37.

Pseudopaegma oligoneuron Sprague & Sandwith =Anemopaegma oligoneuron (Sprague & Sandwith) A. Gentry
Ref. Gentry, 1982: 59.

Pteropodium glabrum A. DC. =Jacaranda glabra (A. DC.) Bureau & Schumann
Ref. FP 13(5C/1) 1961: 75; Gentry, 1992a: 77.

Pyrostegia dichotoma Miers ex Schumann
Ref. FP 13(5C/1) 1961: 57; Gentry, 1982: 324.
Liana. Amazonian: terra firme forests. 0-1000 m.
Voucher: Spruce 3930* (NY), Ferreyra 18274 (MO!, USM!)
Depts.: LO, MD, PA, SM, UC

Pyrostegia venusta (Ker-Gawler) Miers
Syn. *Bignonia venusta* Ker-Gawler
Ref. FP 13(5C/1) 1961: 57; Gentry, 1982: 327.
Cultivated liana. Amazonian, Andean I, Coastal: forests on white sand, lomas. 0-1500 m.
Note: The specimens cited in Flora of Peru are *P. dichotoma* Miers ex Schumann.
Voucher: Seibert 2333 (MO!)
Depts.: CU, LI

Roentgenia bracteomana (Schumann ex Sprague) Urban
Syn. *Cydista bracteomana* Schumann ex Sprague
Ref. FP 13(5C/1) 1961: 62; Gentry, 1977: 126.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry & Revilla 16336 (AMAZ!, MO!)
Depts.: AM, HU, LO, MD, SM, UC

Saldanhaea lateriflora (C. Martius) Bureau =Cuspidaria lateriflora (C. Martius) A. DC.
Ref. FP 13(5C/1) 1961: 64; Gentry, 1982: 147.

Saldanhaea pratensis (Bureau & Schumann ex Schumann) Bureau & Schumann =Xylophragma pratense (Bureau & Schumann ex Schumann) Sprague
Ref. FP 13(5C/1) 1961: 65.

Saldanhaea seemanniana Kuntze =Xylophragma seemannianum (Kuntze) Sandwith
Ref. Gentry, 1982: 429.

Saldanhaea weberbaueri Sprague =Cuspidaria weberbaueri (Sprague) A. Gentry

Schizopsis panurensis Bureau =Tynanthus panurensis (Bureau) Sandwith

Schizopsis polyantha Bureau =Tynanthus polyanthus (Bureau) Sandwith
Ref. FP 13(5C/1) 1961: 49; Gentry, 1982: 415.

Schlegelia albiflora Kuhlmann =Schlegelia scandens (Briquet & Spruce) Sandwith
Ref. FP 13(5C/1) 1961: 96; Gentry, 1982: 339.

Schlegelia cauliflora A. Gentry
Ref. Gentry, 1992c: 165.
Hemiepiphytic liana. Amazonian: forests on white sand. 0-500 m.
Voucher: Gentry & Revilla 20656* (MO!, USM!), Gentry & Jaramillo 22312 (AMAZ!, MO!)
Depts.: LO

Schlegelia macrophylla Ducke
Hemiepiphytic liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 39682 (AMAZ!, MO!)
Depts.: LO

Schlegelia parviflora (Oersted) Monachino
Syn. *Dermatocalyx parviflorus* Oersted, *Schlegelia ramizii* Sandwith
Ref. FP 13(5C/1) 1961: 95; Gentry, 1982: 336.
Hemiepiphytic liana. Andean II: cloud forests. 1500-2000 m.
Voucher: Gentry *et al.* 45493 (MO!, USM!)
Depts.: SM

Schlegelia ramizii Sandwith =Schlegelia parviflora (Oersted) Monachino
Ref. FP 13(5C/1) 1961: 95; Gentry, 1982: 336.

Schlegelia roseiflora Ducke
Ref. FP 13(5C/1) 1961: 95; Ducke, 1943: 29.
Hemiepiphytic liana. Amazonian: terra firme forests. 0-500 m.
Note: This taxon may be conspecific with *S. parviflora*.
Voucher: Gentry & Aronson 24979 (AMAZ!, MO!)
Depts.: HU, LO, PA

Schlegelia scandens (Briquet & Spruce) Sandwith
Syn. *Citharexylum scandens* Briquet & Spruce (Verbenaceae), *Schlegelia albiflora* Kuhlmann
Ref. FP 13(5C/1) 1961: 96; Gentry, 1982: 339.
Hemiepiphytic liana. Amazonian: forests on white sand. 0-500 m.
Voucher: Rimachi 5889 (MO!)
Depts.: LO

Scobinaria japurensis (A. DC.) Sandwith =Arrabidaea japurensis (A. DC.) Bureau & Schumann
Ref. FP 13(5C/1) 1961: 40.

Sparattosperma leucanthum (Vell. Conc.) Schumann
Syn. *Bignonia leucantha* Vell. Conc., *Spathodea lithontripticum* C. Martius ex A. DC., *Spathodea vernicosa* Chamisso, *Spathodea vernicosum* (Chamisso) Bureau & Schumann, nom. illeg.
Ref. FP 13(5C/1) 1961: 91; Gentry, 1992a: 116.
Tree. Amazonian, Andean I-II: terra firme forests. 0-2000 m.
Voucher: Gentry & Revilla 16323 (AMAZ!, MO!)
Depts.: LO, MD, PA, SM, UC

Spathicalyx duckei (A. Sampaio) A. Gentry
Syn. *Tanaecium duckei* A. Sampaio
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 41878 (MO!, USM!)
Depts.: LO, PA

Spathicalyx xanthophylla (C. Martius ex A. DC.) A. Gentry
Syn. *Arrabidaea xanthophylla* (A. DC.) Bureau & Schumann, *Phryganocydia xanthophylla* C. Martius ex A. DC., *Tabebuia xanthophylla* A. DC., *Xylophragma xanthophylla* (A. DC.) J. F. Macbride
Ref. Gentry, 1977: 136.
Liana. Amazonian, Andean I: terra firme forests. 0-1500 m.
Voucher: Gentry *et al.* 18587 (MO!)
Depts.: AM, CU, JU, LO, MD, SM, UC

Spathodea campanulata P. Beauvois
Ref. Gentry, 1992a: 119.
Introduced and cultivated tree.
Voucher: Dillon 2653 (MO!)
Depts.: Without full locality data.

Spathodea corymbosa Ventenat =Phryganocydia corymbosa (Ventenat) Baillon
Ref. FP 13(5C/1) 1961: 63; Gentry, 1982: 297.

Spathodea flaviflora Miquel =Memora flaviflora (Miquel) Pulle
Ref. Gentry, 1982: 270.

Spathodea lithontripticum C. Martius ex A. DC. =Sparattosperma leucanthum (Vell. Conc.) Schumann
Ref. FP 13(5C/1) 1961: 91.

Spathodea obovata H.B.K. =Martinella obovata (H.B.K.) Bureau & Schumann
Ref. FP 13(5C/1) 1961: 42; Gentry, 1982: 249.

[*Spathodea schomburgkii* A. DC. =Memora schomburgkii (A. DC.) Miers]
Ref. FP 13(5C/1) 1961: 68.
Note: Not known from Peru.

Spathodea vernicosa Chamisso =Sparattosperma leucanthum (Vell. Conc.) Schumann
Ref. FP 13(5C/1) 1961: 91; Gentry, 1992a: 116.

Spathodea vernicosum (Chamisso) Bureau & Schumann, nom. illeg. =Sparattosperma leucanthum (Vell. Conc.) Schumann
Ref. FP 13(5C/1) 1961: 91.

Stenolobium arequipense Sprague =Tecoma arequipensis (Sprague) Sandwith
Ref. FP 13(5C/1) 1961: 79; Gentry, 1992a: 275.

Stenolobium castanifolium D. Don =Tecoma castanifolia (D. Don) Melchior
Ref. FP 13(5C/1) 1961: 80; Gentry, 1992a: 278.

[*Stenolobium cochabambense* Herzog =Tecoma cochabambensis (Herzog) Sandwith]
Ref. FP 13(5C/1) 1961: 81; Gentry, 1992a: 279.
Note: Not known from Peru.

Stenolobium fulvum (Cavanilles) Sprague =Tecoma fulva (Cavanilles) G. Don
Ref. FP 13(5C/1) 1961: 81; Gentry, 1992a: 279.

Stenolobium huancabambae Kraenzlin =Tecoma rosifolia H.B.K.
Ref. FP 13(5C/1) 1961: 82; Gentry, 1992a: 283.

Stenolobium sambucifolium (H.B.K.) Seemann =Tecoma sambucifolia H.B.K.
Ref. FP 13(5C/1) 1961: 83; Gentry, 1992a: 284.

Stenolobium stans (L.) Seemann =Tecoma stans var. stans
Ref. FP 13(5C/1) 1961: 84; Gentry, 1992a: 285.

Stenolobium stans var. *castanifolium* (D. Don) Seemann =Tecoma castanifolia (D. Don) Melchior
Ref. FP 13(5C/1) 1961: 80; Gentry, 1992a: 278.

Stenolobium tanaeciiflorum Kraenzlin
=Tecoma tanaeciiflora (Kraenzlin) Sandwith
Ref. FP 13(5C/1) 1961: 85; Gentry, 1992a: 290.

Stenolobium weberbauerianum Kraenzlin
=Tecoma weberbaueriana (Kraenzlin) Melchior
Ref. FP 13(5C/1) 1961: 85; Gentry, 1992a: 292.

Stizophyllum inaequilaterum Bureau & Schumann
Ref. FP 13(5C/1) 1961: 55; Gentry, 1982: 346.
Liana. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Poeppig 1827* (W), Gentry *et al.* 37629 (MO!, USM!)
Depts.: AM, HU, LO, MD, PA, SM, UC

Stizophyllum perforatum (Chamisso) Miers
=Stizophyllum riparium (H.B.K.) Sandwith
Ref. FP 13(5C/1) 1961: 55.

Stizophyllum riparium (H.B.K.) Sandwith
Syn. *Bignonia brevipes* Rusby, *Bignonia perforata* Chamisso, *Bignonia riparia* H.B.K., *Stizophyllum perforatum* (Chamisso) Miers
Ref. FP 13(5C/1) 1961: 55; Gentry, 1982: 349.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 19774 (AMAZ!, MO!)
Depts.: AM, HU, LO, MD, PA, SM, UC

Tabebuia aurea (Manso) Bentham & Hooker f. ex S. Moore
Syn. *Bignonia aurea* Manso, *Tabebuia caraiba* (C. Martius) Bureau, *Tecoma caraiba* C. Martius
Ref. Gentry, 1992a: 144.
Tree. Amazonian: dry valleys, savannas. 0-500 m.
Voucher: Raymondi 17 (USM!)
Depts.: SM

Tabebuia billbergii (Bureau & Schumann) Standley subsp. **ampla** A. Gentry
Syn. *Tecoma billbergii* Bureau & Schumann
Ref. Gentry, 1992a: 153.
Tree. Coastal: dry valleys. 0-500 m.
Voucher: Weberbauer 7734 (MO!, USM!)
Depts.: TU

Tabebuia capitata (Bureau & Schumann) Sandwith
Syn. *Tecoma capitata* Bureau & Schumann
Ref. FP 13(5C/1) 1961: 87; Gentry, 199a2: 161.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 56005 (AMAZ!, MO!)
Depts.: AM, LO, MD, PA, UC

Tabebuia caraiba (C. Martius) Bureau
=Tabebuia aurea (Manso) Bentham & Hooker f. ex S. Moore
Ref. Gentry, 1992a: 144.

Tabebuia chrysantha (Jacquin) Nicholson subsp. **chrysantha**
Syn. *Bignonia chrysantha* Jacquin, *Tecoma chrysantha* (Jacquin) DC.
Ref. Gentry, 1992a: 165.
Tree. Amazonian, Andean I: dry valleys. 0-1500 m.
Voucher: Gentry & Díaz 58278 (MO!, USM!)
Depts.: CA, HU, JU, LO, MD, TU, SM, UC

Tabebuia chrysantha subsp. **meridionalis** A. Gentry
Ref. Gentry, 1992a: 167.
Tree. Andean I-II: cloud forests. 500-2500 m.
Voucher: Barbour 3975 (MO!)
Depts.: AM, AY, CA

Tabebuia chrysantha subsp. **pluvicola** A. Gentry
Ref. Gentry, 1992a: 168.
Tree. Amazonian, Andean I: terra firme forests. 0-1500 m.
Voucher: Schunke 9840 (MO!)
Depts.: LO

Tabebuia guayacan (Seemann) Hemsley
Syn. *Tecoma guayacan* Seemann
Ref. Gentry, 1992a: 187.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Núñez 5963 (MO!)
Depts.: LO, MD, UC

Tabebuia heteropoda (A. DC.) Sandwith
=Tabebuia ochracea subsp. ochracea
Ref. FP 13(5C/1) 1961: 87.

Tabebuia impetiginosa (C. Martius ex A. DC.) Standley
Syn. *Tabebuia schunkevigoi* D. Simpson, *Tecoma impetiginosa* C. Martius ex A. DC.
Ref. Gentry, 1992a: 199.
Tree. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Gentry *et al.* 37698 (MO!, USM!)
Depts.: AM, HU, MD, SM

Tabebuia incana A. Gentry
Ref. Gentry, 1992a: 203.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 21314 (AMAZ!, MO!)
Depts.: LO, MD, SM

Tabebuia insignis (Miquel) Sandwith var. **insignis**
Syn. *Tecoma insignis* Miquel
Ref. Gentry, 1992a: 205.
Tree. Amazonian, Andean I-II: swamps. 0-2000 m.
Voucher: Gentry *et al.* 51380 (MO!, USM!)
Depts.: MD

Tabebuia insignis var. **monophylla** Sandwith
Ref. Gentry, 1992a: 207.
Tree. Amazonian: swamps. 0-500 m.
Voucher: Gentry *et al.* 36410 (AMAZ!, MO!)
Depts.: LO

Tabebuia japurensis A. DC. =Arrabidaea japurensis (A. DC.) Bureau & Schumann
Ref. FP 13(5C/1) 1961: 40; Gentry, 1982: 101.

Tabebuia obscura (Bureau & Schumann) Sandwith
Syn. *Tecoma obscura* Bureau & Schumann
Ref. FP 13(5C/1) 1961: 88; Gentry, 1992a: 223.
Shrub or tree. Amazonian: forests on white sand. 0-500 m.
Voucher: Gentry *et al.* 22278 (AMAZ!, MO!)
Depts.: LO

Tabebuia ochracea (Chamisso) Standley subsp. **ochracea**
Syn. *Tabebuia heteropoda* (A. DC.) Sandwith, *Tecoma grandiceps* Kraenzlin, *Tecoma heteropoda* A. DC., *Tecoma ochracea* Chamisso
Ref. Gentry, 1992a: 226.
Tree. Andean I-II: dry valleys. 1000-2500 m.
Voucher: Chávez 553 (MO!)
Depts.: CA, CU, HU, JU, LA, LI

Tabebuia roseo-alba (Ridley) Sandwith
Syn. *Bignonia roseo-alba* Ridley
Ref. Gentry, 1992a: 251.
Tree. Amazonian, Andean I: semi-deciduous forests, dry valleys. 0-1500 m.
Voucher: Williams 6687 (MO!)
Depts.: CU, MD, SM

Tabebuia schunkevigoi D. Simpson
=Tabebuia impetiginosa (C. Martius ex DC.) Standley
Ref. Gentry, 1992a: 199.

Tabebuia serratifolia (M. Vahl) Nicholson
Syn. *Bignonia serratifolia* M. Vahl
Ref. FP 13(5C/1) 1961: 89; Gentry, 1992a: 254.
Tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Gentry & Díaz 58350 (MO!, USM!)
Depts.: AM, HU, JU, LO, MD, PA, SM, UC

Tabebuia xanthophylla A. DC.
=Spathicalyx xanthophylla (C. Martius ex A. DC.) A. Gentry
Ref. FP 13(5C/1) 1961: 65; Gentry, 1977: 136.

Tanaecium duckei A. Sampaio
=Spathicalyx duckei (A. Sampaio) A. Gentry

Tanaecium jaroba Swartz
Ref. Gentry, 1982: 412.
Liana. Amazonian: seasonally inundated areas, swamps. 0-500 m.
Voucher: Gentry *et al.* 19622 (MO!)
Depts.: LO, MD

Tanaecium nocturnum (Barbosa Rodrigues) Bureau & Schumann
Syn. *Osmhydrophora nocturna* Barbosa Rodrigues
Ref. FP 13(5C/1) 1961: 47; Gentry, 1982: 413.
Liana. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Gentry *et al.* 39691 (AMAZ!, MO!)
Depts.: CU, HU, LO, MD, PA, SM, UC

[*Tanaecium ovatum* Bureau & Schumann =Memora schomburgkii (A. DC.) Miers]
Ref. FP 13(5C/1) 1961: 68.
Note: Not known from Peru.

Tecoma alata DC., nom. nud. pro syn. =Tecoma guarume A. DC.
Ref. Gentry, 1992a: 281.

Tecoma arequipensis (Sprague) Sandwith
Syn. *Stenolobium arequipense* Sprague
Ref. FP 13(5C/1) 1961: 79; Gentry, 1992a: 275.
Shrub. Andean II: dry valleys. 2000-3500 m.
Voucher: Weberbauer 1430* (K!), Gentry *et al.* 23352 (MO!, USM!)
Depts.: AR, AP, AY, CU

Tecoma azaeleiflora H.B.K. =Tecoma rosifolia H.B.K.
Ref. FP 13(5C/1) 1961: 82; Gentry, 1992a: 283.

Tecoma billbergii Bureau & Schumann =Tabebuia billbergii subsp. ampla A. Gentry
Ref. Gentry, 1992a: 151.

Tecoma caraiba C. Martius =Tabebuia aurea (Manso) Bentham & Hooker f. ex S. Moore
Ref. Gentry, 1992a: 144.

Tecoma capensis (Thunberg) Lindley
Syn. *Bignonia capensis* Thunberg
Ref. Gentry, 1977: 162.
Cultivated liana. Coastal: forests on white sand. 0-500 m.
Voucher: Seibert 2094 (MO!)
Depts.: LI

Tecoma capitata Bureau & Schumann =Tabebuia capitata (Bureau & Schumann) Sandwith
Ref. FP 13(5C/1) 1961: 87; Gentry, 1992a: 161.

Tecoma castanifolia (D. Don) Melchior
Syn. *Bignonia castaneaefolia* (D. Don) A. DC., *Stenolobium castanifolium* D. Don, *Stenolobium stans* var. *castanifolium* (D. Don) Seemann, *Tecoma gaudichaudii* A. DC.
Ref. FP 13(5C/1) 1961: 80; Gentry, 1992a: 278.
Shrub. Coastal. 500-1000 m.
Note: The Peruvian plants are probably simple-leaved variants of *T. weberbaueriana*.
Voucher: Soukup 4196 (F!, USM)
Depts.: PI

[Tecoma cochabambensis (Herzog) Sandwith]
Syn. *Stenolobium cochabambense* Herzog
Ref. FP 13(5C/1) 1961: 81; Gentry, 1992a: 279.
Note: Not known from Peru. The specimens cited in the Flora of Peru are *T. guarume* and *T. arequipensis*.

Tecoma chrysantha (Jacquin) DC. =Tabebuia chrysantha subsp. chrysantha
Ref. Gentry, 1992a: 165.

Tecoma fulva (Cavanilles) G. Don
Syn. *Bignonia fulva* Cavanilles, *Bignonia meyeniana* Schauer, *Stenolobium fulvum* (Cavanilles) Sprague, *Tecomaria fulvum* (Cavanilles) Seemann
Ref. FP 13(5C/1) 1961: 81; Gentry, 1992a: 279.
Shrub. Andean I-II, Coastal: desert, riversides. 0-2500 m.
Voucher: Hutchison & Wright 7164 (MO!)
Depts.: TA

Tecoma gaudichaudii A. DC. =Tecoma castanifolia (D. Don) Melchior
Ref. FP 13(5C/1) 1961: 80; Gentry, 1992a: 278.

Tecoma grandiceps Kraenzlin =Tabebuia ochracea subsp. ochracea
Ref. FP 13(5C/1) 1961: 87; Gentry, 1992a: 226.

Tecoma guarume A. DC.
Syn. *Bignonia guarume* Dombey ex DC., nom. nud. pro syn., *Tecoma alata* DC., nom. nud. pro syn.
Ref. FP 13(5C/1) 1961: 82; Gentry, 1992a: 281.
Endemic shrub. Andean I, Coastal: dry valleys. 0-1500 m.
Voucher: Pavón s.n.* (F), Ferreyra 13458 (MO!, USM!)
Depts.: IC

Tecoma guayacan Seemann =Tabebuia guayacan (Seemann) Hemsley
Ref. Gentry, 1992a: 187.

Tecoma heteropoda A. DC. =Tabebuia ochracea subsp. ochracea
Ref. FP 13(5C/1) 1961: 87; Gentry, 1992a: 226.

Tecoma impetiginosa C. Martius ex A. DC. =Tabebuia impetiginosa (C. Martius ex DC.) Standley
Ref. Gentry, 1992a: 199.

Tecoma insignis Miquel =Tabebuia insignis var. insignis
Ref. Gentry, 1992a: 205.

Tecoma lateriflora C. Martius =Cuspidaria lateriflora (C. Martius) A. DC.
Ref. FP 13(5C/1) 1961: 64; Gentry, 1982: 147.

Tecoma obscura Bureau & Schumann =Tabebuia obscura (Bureau & Schumann) Sandwith
Ref. FP 13(5C/1) 1961: 88; Gentry, 1992a: 223.

Tecoma ochracea Chamisso =Tabebuia ochracea subsp. ochracea
Ref. Gentry, 1992a: 226.

Tecoma pratensis Bureau & Schumann ex Schumann =Xylophragma pratense (Bureau & Schumann ex Schumann) Sprague
Ref. FP 13(5C/1) 1961: 65.

Tecoma rosifolia H.B.K.
Syn. *Stenolobium huancabambae* Kraenzlin, *Tecoma azaeleiflora* H.B.K., *Tecomaria roseifolia* (H.B.K.) Seemann
Ref. FP 13(5C/1) 1961: 82; Gentry, 1992a: 283.
Endemic shrub. Andean I-II: dry valleys. 500-3000 m.
Voucher: Humboldt & Bonpland s.n.* (P), Gentry *et al.* 23228 (MO!, USM!)
Depts.: AM, CA, LL, PI

Tecoma sambucifolia H.B.K.
Syn. *Stenolobium sambucifolium* (H.B.K.) Seemann
Ref. FP 13(5C/1) 1961: 83; Gentry, 1992a: 284.
Shrub or tree. Andean II: disturbed areas, dry valleys. 1500-3500 m.
Voucher: Humboldt & Bonpland 3672* (P!), Gentry *et al.* 37471 (MO!, USM!)
Depts.: AN, AP, AR, AY, CA, CU, HU, HV, JU, LA, LI, LL

Tecoma stans (L.) Jussieu ex H.B.K. var. **stans**
Syn. *Bignonia stans* L., *Stenolobium stans* (L.) Seemann
Ref. FP 13(5C/1) 1961: 84; Gentry, 1992a: 285.
Shrub or tree. Amazonian, Andean I-II, Coastal: dry valleys. 0-3000 m.
Voucher: Gentry & Díaz 58340 (MO!, USM!)
Depts.: AM, AP, CA, LA

Tecoma stans var. **velutina** A. DC.
Ref. Gentry, 1992a: 289.
Shrub or tree. Andean II: dry valleys. 1500-3000 m.
Voucher: Gentry *et al.* 22662 (MO!, USM!)
Depts.: AP, CA, CU, LL, PI

Tecoma tanaeciiflora (Kraenzlin) Sandwith
Syn. *Stenolobium tanaeciiflorum* Kraenzlin
Ref. FP 13(5C/1) 1961: 85; Gentry,

1992a: 290.
Endemic shrub. Andean I: dry valleys. 1000-1500 m.
Voucher: Weberbauer 6844* (MO!)
Depts.: AR

Tecoma weberbaueriana (Kraenzlin) Melchior
Syn. *Stenolobium weberbauerianum* Kraenzlin
Ref. FP 13(5C/1) 1961: 85; Gentry, 1992a: 292.
Endemic shrub. Coastal: dry valleys. 0-500 m.
Voucher: Weberbauer 6005* (US!), Gentry *et al.* 22533 (MO!, USM!)
Depts.: LA, PI

Tecomaria fulvum (Cavanilles) Seemann =Tecoma fulva (Cavanilles) G. Don
Ref. FP 13(5C/1) 1961: 81; Gentry, 1992a: 279.

Tecomaria roseifolia (H.B.K.) Seemann =Tecoma rosifolia H.B.K.
Ref. FP 13(5C/1) 1961: 82; Gentry, 1992a: 283.

Tetrastichella inaequalis (DC. ex Splitgerber) Pichon =Arrabidaea inaequalis (DC. ex Splitgerber) Schumann
Ref. FP 13(5C/1) 1961: 21; Gentry, 1982: 100.

Tourrettia lappacea (L'Héritier) Willdenow
Syn. *Dombeya lappacea* L'Héritier, *Tourrettia volubilis* J. Gmelin
Ref. FP 13(5C/1) 1961: 100; Gentry, 1980: 110.
Vine. Andean I-II, Coastal: cloud forests, lomas. 0-2500 m.
Voucher: Dombey 391* (P), Dillon *et al.* 4657 (MO!)
Depts.: CA, LI, LL, PI

Tourrettia volubilis J. Gmelin =Tourrettia lappacea (L'Héritier) Willdenow
Ref. FP 13(5C/1) 1961: 100; Gentry, 1980: 110.

Tynanthus hyacinthinus Standley =Mussatia hyacinthina (Standley) Sandwith
Ref. FP 13(5C/1) 1961: 51; Gentry, 1982: 279.

Tynanthus laxiflorus Miers, nom. nud. =Tynanthus polyanthus (Bureau) Sandwith
Ref. FP 13(5C/1) 1961: 49; Gentry, 1982: 425.

Tynanthus myrianthus Bureau & Schumann =Tynanthus polyanthus (Bureau) Sandwith
Ref. FP 13(5C/1) 1961: 49; Gentry, 1982: 425.

Tynanthus panurensis (Bureau) Sandwith
Syn. *Schizopsis panurensis* Bureau
Ref. Gentry, 1974: 876.
Liana or vine. Amazonian: terra firme forests. 0-500 m.
Voucher: Klug 1972 (MO!)
Depts.: LO, PA, SM, UC

Tynanthus polyanthus (Bureau) Sandwith
Syn. *Schizopsis polyantha* Bureau, *Tynanthus laxiflorus* Miers, nom. nud., *Tynanthus myrianthus* Bureau & Schumann
Ref. FP 13(5C/1) 1961: 49; Gentry, 1982: 425.
Liana. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Spruce 4895* (K!), Gentry & Revilla 16354 (AMAZ!, MO!)
Depts.: AM, HU, LO, MD, PA, SM, UC

Tynanthus pubescens A. Gentry
Ref. Gentry, 1982: 427.
Liana. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 25579 (MO!, USM!)
Depts.: SM

Tynanthus schumannianus (Kuntze) A. Gentry
Syn. *Cuspidaria schumanniana* Kuntze
Liana. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Gentry & Jaramillo 58012 (MO!, USM!)
Depts.: MD

Tynanthus villosus A. Gentry
Ref. Gentry, 1976: 60.
Endemic liana. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Schunke 6852* (MO!), Croat 21121 (MO)
Depts.: HU, SM, UC

Tynanthus weberbaueri Sprague
Ref. FP 13(5C/1) 1961: 50; Gentry, 1974: 876.
Endemic liana. Andean I: dry valleys. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 1896* (MOL!)
Depts.: JU

Xylophragma pratense (Bureau & Schumann ex Schumann) Sprague
Syn. *Bignonia pratensis* Poeppig ex Bureau & Schumann, nom. nud., *Saldanhaea pratensis* (Bureau & Schumann ex Schumann) Bureau & Schumann, *Tecoma pratensis* Bureau & Schumann ex Schumann
Ref. FP 13(5C/1) 1961: 65.
Liana. Amazonian, Andean I: terra firme forests. 0-1000 m.
Voucher: Poeppig 2316*, Klug 3847 (MO!)
Depts.: HU, JU, LO, MD, PA, SM, UC

Xylophragma seemannianum (Kuntze) Sandwith
Syn. *Saldanhaea seemanniana* Kuntze
Ref. Gentry, 1982: 429.
Liana. Amazonian: forests. 0-500 m.
Voucher: Núñez s.n. (MO!)
Depts.: MD

Xylophragma xanthophylla (A. DC.) J. F. Macbride =Spathicalyx xanthophylla (C. Martius ex A. DC.) A. Gentry
Ref. FP 13(5C/1) 1961: 65; Gentry, 1977: 137.

Yangua tinctoria Spruce =Cybistax antisyphilitica (C. Martius) C. Martius ex A. DC.
Ref. FP 13(5C/1) 1961: 90; Gentry, 1992a: 26.

Bixaceae

3 genera and 8 species in Peru.

Note: Treated in the Flacourtiaceae in the Flora of Peru.

Prepared by L. Brako.

[Amoreuxia potentilloides Pilger]
Syn. *Cochlospermum potentilloides* (Pilger) J. F. Macbride
Ref. FP 13(4/1) 1941: 14; Poppendieck, 1981: 24.
Note: Not known from Peru. Poppendieck (1981) lists this as a doubtful species as it was known only from the type collection destroyed in the Berlin herbarium (B) during WWII.

Amoreuxia wrightii A. Gray
Ref. Poppendieck, 1981: 22.
Herb. Amazonian: forests. 0-500 m.
Voucher: Hutchison 1504 (F!)
Dept.: AM

Bixa arborea Huber
Tree. Amazonian: forests. 0-500 m.
Voucher: Hartshorn 1670 (MO!)
Depts.: HU, LO

Bixa excelsa Gleason & Krukoff
Ref. FP 13(4/1) 1941: 11.
Tree. Amazonian: riversides. 0-500 m.
Voucher: Young 168 (MO!)
Depts.: LO, MD

Bixa odorata R. & P. ex Don =Bixa orellana L.
Ref. FP 13(4/1) 1941: 11; Molau, 1983a: 4.

Bixa orellana L.
Syn. *Bixa odorata* R. & P. ex G. Don
Ref. FP 13(4/1) 1941: 11; Molau, 1983a: 4.
Cultivated shrub or tree. Amazonian, Andean I: disturbed areas, forests, riversides, seasonally inundated areas. 0-1000 m.
Voucher: Smith 4069 (MO!)
Depts.: AM, CU, HU, JU, LI, LO, MD, SM, UC

Bixa orellana var. *urucurana* (Willdenow) Kuntze ex Pilger =Bixa urucurana Willdenow
Ref. FP 13(4/1) 1941: 12; Molau, 1983a: 5.

Bixa platycarpa R. & P. ex G. Don
Ref. FP 13(4/1) 1941: 12; Molau, 1983a: 5.
Tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Kayap 825 (MO!)
Depts.: AM, HU, JU, LO, MD, PA, SM

Bixa sphaerocarpa Triana =Bixa urucurana Willdenow
Ref. FP 13(4/1) 1941: 12; Molau, 1983a: 5.

Bixa urucurana Willdenow
Syn. *Bixa orellana* var. *urucurana* (Willdenow) Kuntze ex Pilger, *Bixa sphaerocarpa* Triana
Ref. FP 13(4/1) 1941: 12; Molau, 1983a: 5.
Shrub or tree. Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 31432 (F!)
Depts.: JU, LO, MD, UC

Cochlospermum orinocense (H.B.K.) Steudel
Syn. *Bombax orinocense* H.B.K. (Bombacaceae), *Cochlospermum williamsii* J. F. Macbride
Ref. FP 13(4/1) 1941: 13; Poppendieck, 1981: 14.
Tree. Amazonian: forests. 0-500 m.
Voucher: Croat 17806 (MO!)
Depts.: AM, LO, MD, UC

[*Cochlospermum potentilloides* (Pilger) J. F. Macbride =Amoreuxia potentilloides Pilger]
Ref. FP 13(4/1) 1941: 14; Poppendieck, 1981: 18, 24.
Note: Not known from Peru.

Cochlospermum vitifolium (Willdenow) Sprengel
Syn. *Bombax vitifolium* Willdenow (Bombacaceae)
Ref. FP 13(4/1) 1941: 14; Poppendieck, 1981: 9.
Shrub or tree. Amazonian, Andean I: disturbed areas. 0-1000 m.
Voucher: Díaz & Osores 2643 (MO!)
Depts.: AM, CA, LA, PI, TU

Cochlospermum williamsii J. F. Macbride =Cochlospermum orinocense (H.B.K.) Steudel
Ref. FP 13(4/1) 1941: 14; Poppendieck, 1981: 14.

Bombacaceae

14 genera and 47 species in Peru.

Endemic species: 9.

Prepared by L. Brako; reviewed by W. Alverson (WIS).

Bernoullia swietenioides Gleason =Huberodendron swietenioides (Gleason) Ducke
Ref. FP 13(3A/2) 1956: 608; Spichiger *et al.*, 1990: 5.

Bombacopsis paraensis (Ducke) Robyns
Syn. *Bombax paraense* Ducke
Ref. Robyns, 1963b: 213.
Tree. Amazonian: forests. 0-500 m.
Voucher: Hartshorn 1696 (MO!)
Depts.: HU, LO

Bombacopsis trinitensis (Urban) Robyns =Pachira trinitensis Urban
Ref. Steyermark & Stevens, 1988: 398.

Bombax aquaticum (Aublet) Schumann =Pachira aquatica Aublet
Ref. FP 13(3A/2) 1956: 596; Robyns, 1963b: 234.

Bombax balanoides Ulbrich =Pseudobombax septenatum (Jacquin) Dugand
Ref. FP 13(3A/2) 1956: 596; Robyns, 1963a: 34.

Bombax discolor H.B.K. =Eriotheca discolor (H.B.K.) Robyns
Ref. FP 13(3A/2) 1956: 597; Robyns, 1963b: 160.

Bombax globosum Aublet =Eriotheca globosa (Aublet) Robyns
Ref. Robyns, 1963a: 142.

Bombax marginatum (St. Hilaire) Schumann =Pseudobombax marginatum (St. Hilaire) Robyns
Ref. FP 13(3A/2) 1956: 597; Robyns, 1963a: 73.

Bombax munguba C. Martius & Zuccarini =Pseudobombax munguba (C. Martius & Zuccarini) Dugand
Ref. FP 13(3A/2) 1956: 598; Robyns, 1963a: 38.

Bombax orinocense H.B.K. =Cochlospermum orinocense (H.B.K.) Steudel (Bixaceae)
Ref. FP 726: 13; Poppendieck, 1981: 14.

Bombax paraense Ducke =Bombacopsis paraensis (Ducke) Robyns
Ref. FP 13(3A/2) 1956: 598; Robyns, 1963b: 213.

Bombax pentandrum L. =Ceiba pentandra (L.) Gaertner
Ref. FP 13(3A/2) 1956: 602.

Bombax pyramidale Cavanilles ex Lamarck =Ochroma pyramidale (Cavanilles ex Lamarck) Urban
Ref. FP 13(3A/2) 1956: 607.

Bombax ruizii Schumann =Eriotheca ruizii (Schumann) Robyns
Ref. FP 13(3A/2) 1956: 599; Robyns, 1963b: 162.

Bombax sclerophyllum Ducke =Eriotheca macrophylla subsp. sclerophylla (Ducke) Robyns
Ref. Robyns, 1963b: 154.

Bombax septenatum Jacquin =Pseudobombax septenatum (Jacquin) Dugand
Ref. Robyns, 1963a: 32.

Bombax spruceanum (Decaisne) Ducke =Pachira insignis (Swartz) Swartz ex Savigny
Ref. FP 13(3A/2) 1956: 600; Robyns, 1963b: 248.

Bombax vargasii Cuatrecasas =Eriotheca vargasii (Cuatrecasas) Robyns
Ref. FP 13(3A/2) 1956: 600; Robyns, 1963b: 165.

Bombax vitifolium Willdenow =Cochlospermum vitifolium (Willdenow) Sprengel (Bixaceae)
Ref. FP 13(4/1) 1941: 14; Poppendieck, 1981: 9.

Bombax weberbaueri Cuatrecasas =Eriotheca discolor (H.B.K.) Robyns
Ref. FP 13(3A/2) 1956: 601; Robyns, 1963b: 160.

Carolinea insignis Swartz =Pachira insignis (Swartz) Swartz ex Savigny
Ref. Robyns, 1963b: 247.

Cavanillesia arborea (Willdenow) Schumann =Cavanillesia umbellata R. & P.
Ref. FP 13(3A/2) 1956: 612.

Cavanillesia cordata R. & P. ex Sprengel =Cavanillesia umbellata R. & P.
Ref. FP 13(3A/2) 1956: 612.

Cavanillesia hylogeiton Ulbrich
Ref. FP 13(3A/2) 1956: 610.
Tree. Amazonian: forest. 0-500 m.
Voucher: Ule 9594* (B photo MO!), Foster 5432 (MO!)
Depts.: HU, MD, UC

Cavanillesia platanifolia (Humboldt & Bonpland) Kunth
Syn. *Pourretia platanifolia* Humboldt & Bonpland
Ref. FP 13(3A/2) 1956: 611.
Note: Not reconfirmed.

Cavanillesia umbellata R. & P.
Syn. *Cavanillesia arborea* (Willdenow) Schumann, *Cavanillesia cordata* R. & P. ex Sprengel, *Pourretia arborea* Willdenow
Ref. FP 13(3A/2) 1956: 612.
Tree. Amazonian: forests. 0-500 m.
Voucher: Ruiz & Pavón s.n.*, Gentry *et al.* 29688 (MO!)
Depts.: AM, HU, LO, UC

Ceiba insignis (H.B.K.) Gibbs & Semir
Syn. *Chorisia insignis* H.B.K.
Ref. Gibbs *et al.*, 1988: 134.
Tree. Amazonian: forests. 0-500 m.
Voucher: Bonpland s.n.* (P-H&B)
Depts.: CA, CU, HU, LO, PI, SM

Ceiba mandonii Britten & Baker f. =Ceiba speciosa St. Hilaire

Ref. FP 13(3A/2) 1956: 602; Gibbs *et al.*, 1988: 127.

Ceiba pentandra (L.) Gaertner
Syn. *Bombax pentandrum* L.
Ref. FP 13(3A/2) 1956: 602.
Tree. Amazonian: riversides. 0-500 m.
Voucher: Núñez *et al.* 9996 (MO!)
Depts.: MD

Ceiba pubiflora (St. Hilaire) Schumann =Ceiba speciosa St. Hilaire
Ref. FP 13(3A/2) 1956: 602; Gibbs *et al.*, 1988: 127.

Ceiba salmonea (Ulbrich) Bakhuisen
Syn. *Spirotheca salmonea* Ulbrich
Ref. FP 13(3A/2) 1956: 603.
Endemic tree.
Voucher: Weberbauer 116*, Weberbauer 6770
Depts.: HU, PU

Ceiba samauma (C. Martius & Zuccarini) Schumann
Syn. *Eriodendron samauma* C. Martius & Zuccarini
Ref. FP 13(3A/2) 1956: 603.
Note: Not reconfirmed.

Ceiba speciosa St. Hilaire
Syn. *Ceiba mandonii* Britten & Baker f., *Ceiba pubiflora* (St. Hilaire) Schuman *Eriodendron pubiflorum* St. Hilaire
Ref. Gibbs *et al.*, 1988: 127.
Note: Not reconfirmed.

Ceiba trichistandra (A. Gray) Bakhuisen
Syn. *Eriodendron trichistandrum* A. Gray
Ref. FP 13(3A/2) 1956: 604.
Note: Not reconfirmed. The Flora of Peru lists the type as "from a garden at Lima (*Wilkes Exped.*); also in Java, country of origin unknown."

Chorisia insignis H.B.K. =Ceiba insignis (H.B.K.) Gibbs & Semir
Ref. FP 13(3A/2) 1956: 606; Gibbs *et al.*, 1988: 134.

Chorisia integrifolia Ulbrich
Ref. FP 13(3A/2) 1956: 606.
Endemic tree. Andean I: forests. 500-1000 m.
Voucher: Weberbauer 6195*
Depts.: CA, JU

Eriodendron pubiflorum St. Hilaire =Ceiba speciosa St. Hilaire
Ref. FP 13(3A/2) 1956: 602; Gibbs *et al.*, 1988: 127.

Eriodendron samauma C. Martius & Zuccarini =Ceiba samauma (C. Martius & Zuccarini) Schumann
Ref. FP 13(3A/2) 1956: 603.

Eriodendron trichistandrum A. Gray =Ceiba trichistandra (A. Gray) Bakhuisen
Ref. FP 13(3A/2) 1956: 604.

Eriotheca discolor (H.B.K.) Robyns
Syn. *Bombax discolor* H.B.K., *Bombax weberbaueri* Cuatrecasas
Ref. Robyns, 1963b: 159.
Tree. Andean I-II, Coastal: desert. 500-2500 m.
Voucher: Gentry *et al.* 22559 (MO!)
Depts.: AP, CA, LA, LI, LL

Eriotheca globosa (Aublet) Robyns
Syn. *Bombax globosum* Aublet
Ref. Robyns, 1963a: 142.
Tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Vásquez & Jaramillo 3161 (MO!)
Depts.: LO

Eriotheca macrophylla Robyns subsp. **sclerophylla** (Ducke) Robyns
Syn. *Bombax sclerophyllum* Ducke
Ref. Robyns, 1963b: 154.
Tree. Amazonian: forests. 0-500 m.
Voucher: Kayap 980 (MO!)
Depts.: AM, MD, PA, UC

Eriotheca peruviana Robyns
Ref. Robyns, 1968a: 51.
Endemic tree. Andean I: riversides. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Hutchison *et al.* 6228* (UC)
Depts.: LL

Eriotheca ruizii (Schumann) Robyns
Syn. *Bombax ruizii* Schumann, *Millea ecuadorensis* Standley
Ref. Robyns, 1963b: 162.
Tree. Andean II. 1500-2500 m.
Voucher: Pavón s.n.* (G), Tasayco 11-HTT (MO!)
Depts.: CA, CU, PI, LL, TU

Eriotheca vargasii (Cuatrecasas) Robyns
Syn. *Bombax vargasii* Cuatrecasas
Ref. Robyns, 1963b: 165.
Endemic shrub. Andean II: dry valleys. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Vargas 1087* (F!)
Depts.: CU

Huberodendron styraciflorum Ducke =Huberodendron swietenioides (Gleason) Ducke
Ref. FP 13(3A/2) 1956: 608; Spichiger *et al.*, 1990: 5.

Huberodendron swietenioides (Gleason) Ducke
Syn. *Bernoullia swietenioides* Gleason, *Huberodendron styraciflorum* Ducke
Ref. FP 13(3A/2) 1956: 608; Spichiger *et al.*, 1990: 5.
Tree. Amazonian: forests. 0-500 m.
Voucher: JHR 7/6 (G)
Depts.: LO

Matisia bicolor Ducke
Syn. *Matisia rhombifolia* Standley ex Cuatrecasas, *Quararibea rhombifolia* (Standley ex Cuatrecasas) J. F. Macbride, *Quararibea rhombifolia* Standley, nom. nud.
Ref. Alverson, pers. comm.
Tree. Andean I: forests. 500-1000 m.
Voucher: Schunke 10513 (MO!)
Depts.: HU, MD, SM, UC

Matisia bracteolosa Ducke
Syn. *Quararibea bracteolosa* (Ducke) Cuatrecasas, *Quararibea lomensis* Cuatrecasas
Ref. FP 13(3A/2) 1956: 615.
Tree. Amazonian: forest. 0-500 m.
Voucher: Klug 2039 (MO!)
Depts.: AM, LO

Matisia cordata Humboldt & Bonpland
Syn. *Quararibea cordata* (Humboldt & Bonpland) Vischer
Ref. FP 13(3A/2) 1956: 615.
Tree. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Mexia 8305 (MO!)
Depts.: AM, HU, LO, MD, PA, SM, UC

Matisia huallagensis Cuatrecasas
Syn. *Quararibea huallagensis* (Cuatrecasas) J. F. Macbride
Ref. FP 13(3A/2) 1956: 617; Cuatrecasas, 1954b: 476.
Endemic tree. Amazonian: forests. 0-500 m.
Voucher: Williams 4572* (F)
Depts.: LO

Matisia intricata (Robyns & Nilsson) Alverson
Syn. *Quararibea intricata* Robyns & Nilsson
Ref. Alverson, 1989: 386.
Tree. Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 19033 (MO!)
Depts.: LO

Matisia lasiocalyx Schumann
Syn. *Quararibea lasiocalyx* (Schumann) Vischer, *Quararibea wurdackii* Robyns
Ref. FP 13(3A/2) 1956: 617; Alverson, pers. comm.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 1890 (MO!)
Depts.: LO

Matisia longitubulosa (Robyns) Cuatrecasas
Syn. *Quararibea longitubulosa* Robyns
Ref. Alverson, 1989: 385.
Endemic tree. Amazonian: forests. 0-500 m.
Voucher: Wurdack 2102* (US)
Depts.: LO

Matisia malacocalyx (Robyns & Nilsson) Alverson
Syn. *Quararibea malacocalyx* Robyns & Nilsson
Ref. Alverson, 1989: 386.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez *et al.* 485 (MO!)
Depts.: AM, LO

Matisia muricata (Cuatrecasas) Cuatrecasas =Matisia ochrocalyx Schumann
Ref. Cuatrecasas, 1954b: 479; Alverson pers. comm.

[Matisia obliquifolia Standley]
Syn. *Quararibea inaequilatera* Cuatrecasas
Ref. Alverson, pers. comm.
Note: Not known from Peru.

Matisia oblongifolia Poeppig & Endlicher
Syn. *Quararibea oblongifolia* (Poeppig & Endlicher) Vischer
Ref. FP 13(3A/2) 1956: 618.
Note: Not reconfirmed.

Matisia ochrocalyx Schumann
Syn. *Matisia muricata* (Cuatrecasas) Cuatrecasas, *Quararibea muricata* Cuatrecasas, *Quararibea ochrocalyx* (Schumann) Vischer
Ref. FP 13(3A/2) 1956: 619; Alverson, 1989: 384.
Tree. Amazonian: forests. 0-500 m.
Voucher: JHR 6/4 (G)
Depts.: LO

Matisia rhombifolia Standley ex Cuatrecasas =Matisia bicolr Ducke
Ref. FP 13(3A/2) 1956: 620; Cuatrecasas, 1954b: 479; Alverson, pers. comm.

Matisia stenopetala Standley & Cuatrecasas
Syn. *Quararibea stenopetala* (Standley & Cuatrecasas) J. F. Macbride
Ref. FP 13(3A/2) 1956: 620; Cuatrecasas, 1954b: 477.
Endemic tree. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Klug 2972* (F)
Depts.: LO

Millea ecuadorensis Standley =Eriotheca ruizii (Schumann) Robyns
Ref. FP 13(3A/2) 1956: 599; Robyns, 1963b: 162.

Ochroma boliviana Rowlee =Ochroma pyramidale (Cavanilles ex Lamarck) Urban
Ref. FP 13(3A/2) 1956: 607.

Ochroma lagopus Swartz =Ochroma pyramidale (Cavanilles ex Lamarck) Urban
Ref. FP 13(3A/2) 1956: 607.

Ochroma peruviana I. M. Johnston =Ochroma pyramidale (Cavanilles ex Lamarck) Urban
Ref. FP 13(3A/2) 1956: 607.

Ochroma pyramidale (Cavanilles ex Lamarck) Urban
Syn. *Bombax pyramidale* Cavanilles ex Lamarck, *Ochroma boliviana* Rowlee, *Ochroma lagopus* Swartz, *Ochroma peruviana* I. M. Johnston
Ref. FP 13(3A/2) 1956: 607.
Tree. Amazonian, Andean I-II: seasonally inundated areas. 0-2000 m.
Voucher: Smith *et al.* 1978 (MO!)
Depts.: AM, CU, HU, LI, LO, MD, PA, SM, UC

Pachira aquatica Aublet
Syn. *Bombax aquaticum* (Aublet) Schumann
Ref. FP 13(3A/2) 1956: 596; Robyns, 1963b: 234.
Tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Young & Stratton 232 (MO!)
Depts.: LO, MD

Pachira brevipes (Robyns) Alverson
Syn. *Rhodognaphalopsis brevipes* Robyns
Ref. Robyns, 1963b: 287.
Tree. Amazonian: forests. 0-500 m.
Voucher: Ruiz & Murphy 197 (MO!)
Depts.: LO

Pachira insignis (Swartz) Swartz ex Savigny
Syn. *Bombax spruceanum* (Decaisne) Ducke, *Carolinea insignis* Swartz, *Pachira spruceana* Decaisne
Ref. FP 13(3A/2) 1956: 600; Robyns, 1963b: 247.
Tree. Amazonian: forests. 0-500 m.
Voucher: Revilla 2139 (MO!)
Depts.: LO, MD, SM, UC

Pachira marginata St. Hilaire =Pseudobombax marginatum (St. Hilaire) Robyns
Ref. FP 13(3A/2) 1956: 597; Robyns, 1963a: 73.

Pachira spruceana Decaisne =Pachira insignis (Swartz) Swartz ex Savigny
Ref. FP 13(3A/2) 1956: 600; Robyns, 1963b: 248.

Pachira trinitensis Urban
Syn. *Bombacopsis trinitensis* (Urban) Robyns, *Pochota trinitensis* (Urban) Steyermark & Stevens
Ref. Steyermark & Stevens, 1988: 398, Alverson, pers. comm.
Tree.
Voucher: Tasayco 15-HTT (MO!)
Depts.: TU

Patinoa sphaerocarpa Cuatrecasas
Ref. Cuatrecasas, 1953d: 312.
Tree. Amazonian: forests. 0-500 m.
Voucher: Schunke 6448 (NY)
Depts.: SM

Phragmotheca leucoflora D. Simpson
Ref. Simpson, 1982: 308.
Tree. Amazonian: forests. 0-500 m.
Voucher: Guttiérrez 179* (F), Arostegui 128 (F)
Depts.: LO

Phragmotheca mammosa Alverson subsp. **amazonica** Alverson
Ref. Alverson, 1991: 82.
Tree. Amazonian: forests. 0-500 m.
Voucher: McDaniel & Rimachi 20726* (NA), Díaz & Jaramillo 1268 (MO)
Depts.: LO

Pochota trinitensis (Urban) Steyermark & W. D. Stevens =Pachira trinitensis Urban
Ref. Steyermark & Stevens, 1988: 398.

Pourretia arborea Willdenow =Cavanillesia umbellata R. & P.
Ref. FP 13(3A/2) 1956: 612.

Pourretia platanifolia Humboldt & Bonpland =Cavanillesia platanifolia (Humboldt & Bonpland) Kunth
Ref. FP 13(3A/2) 1956: 611.

Pseudobombax marginatum (St. Hilaire) Robyns
Syn. *Bombax marginatum* (St. Hilaire) Schumann, *Pachira marginata* St. Hilaire
Ref. Robyns, 1963a: 73.
Shrub or tree. Amazonian: forests. 0-500 m.
Voucher: Schunke 1557 (F!)
Depts.: JU

Pseudobombax munguba (C. Martius & Zuccarini) Dugand
Syn. *Bombax munguba* C. Martius & Zuccarini
Ref. Robyns, 1963a: 38.
Tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Croat 17710 (MO!)
Depts.: LO, MD

Pseudobombax septenatum (Jacquin) Dugand
Syn. *Bombax balanoides* Ulbrich, *Bombax septenatum* Jacquin
Ref. Robyns, 1963a: 32.
Tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Foster 9880 (MO!)
Depts.: HU, MD

Quararibea amazonica Ulbrich
Ref. FP 13(3A/2) 1956: 614.
Note: Not reconfirmed.

Quararibea bilobata Robyns
Ref. Robyns, 1968a: 54.
Endemic tree. Amazonian: 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 2450* (UC)
Depts.: LO

Quararibea bracteolosa (Ducke) Cuatrecasas =Matisia bracteolosa Ducke
Ref. FP 13(3A/2) 1956: 615.

Quararibea cordata (Humboldt & Bonpland) Vischer =Matisia cordata Humboldt & Bonpland
Ref. FP 13(3A/2) 1956: 615.

[Quararibea duckei Huber]
Ref. FP 13(3A/2) 1956: 616.
Note: Not known from Peru.

Quararibea guianensis Aublet
Syn. *Quararibea machin* J. F. Macbride
Ref. Alverson, pers. comm.
Tree. Amazonian: forests, riversides. 0-500 m.
Voucher: Gentry *et al.* 18952 (MO!)
Depts.: LO

Quararibea huallagensis (Cuatrecasas) J. F. Macbride =Matisia huallagensis Cuatrecasas
Ref. FP 13(3A/2) 1956: 616.

[*Quararibea inaequilatera* Cuatrecasas =Matisia obliquifolia Standley]
Ref. FP 13(3A/2) 1956: 617.
Note: Not known from Peru.

Quararibea intricata Robyns & Nilsson =Matisia intricata (Robyns & Nilsson) Alverson
Ref. Alverson, 1989: 386.

Quararibea lasiocalyx (Schumann) Vischer =Matisia lasiocalyx Schumann
Ref. FP 13(3A/2) 1956: 617.

Quararibea lomensis Cuatrecasas =Matisia bracteolosa Ducke
Ref. FP 13(3A/2) 1956: 618; Alverson, pers. comm.

Quararibea longitubulosa Robyns =Matisia longitubulosa (Robyns) Cuatrecasas
Ref. Alverson, 1989: 384.

Quararibea machin J. F. Macbride =Quararibea guianensis Aublet
Ref. FP 13(3A/2) 1956: 618; Alverson, pers. comm.

Quararibea malacocalyx Robyns & Nilsson =Matisia malacocalyx (Robyns & Nilsson) Alverson
Ref. Alverson, 1989: 386.

Quararibea muricata Cuatrecasas =Matisia ochrocalyx Schumann
Ref. Alverson, pers. comm.

Quararibea oblongifolia (Poeppig & Endlicher) Vischer =Matisia oblongifolia Poeppig & Endlicher
Ref. FP 13(3A/2) 1956: 618.

Quararibea ochrocalyx (Schumann) Vischer =Matisia ochrocalyx Schumann
Ref. FP 13(3A/2) 1956: 619; Alverson, 1989: 386.

Quararibea putumayensis Cuatrecasas
Ref. FP 13(3A/2) 1956: 619.
Note: Not reconfirmed.

Quararibea rhombifolia (Standley ex Cuatrecasas) J. F. Macbride =Matisia bicolor Ducke
Ref. FP 13(3A/2) 1956: 620; Alverson, pers. comm.

Quararibea rhombifolia Standley, nom. nud. =Matisia bicolor Ducke
Ref. FP 13(3A/2) 1956: 620; Alverson, pers. comm.

Quararibea stenopetala (Standley & Cuatrecasas) J. F. Macbride =Matisia stenopetala Standley & Cuatrecasas
Ref. FP 13(3A/2) 1956: 620.

Quararibea velutina Cuatrecasas
Ref. FP 13(3A/2) 1956: 621.
Endemic tree. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Schunke 235* (F)
Depts.: LO

Quararibea wittii Schumann & Ulbrich
Ref. FP 13(3A/2) 1956: 622.
Tree. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Phillips & Núñez 102 (MO!)
Depts.: LO, MD, SM

Quararibea wurdackii Robyns =Matisia lasiocalyx
Ref. Robyns, 1968a: 58; Alverson, pers. comm.

Redoutea heterophylla Ventenat =Cienfuegosia heterophylla (Ventenat) Guercke (Malvaceae)

Rhodognaphalopsis brevipes Robyns =Pachira brevipes (Robyns) Alverson
Ref. Robyns, 1963b: 287; Alverson, pers. comm.

Septotheca tessmannii Ulbrich
Ref. FP 13(3A/2) 1956: 609.
Tree. Amazonian: forests. 0-500 m.
Voucher: Tessmann 3214* (B)
Depts.: LO

Spirotheca salmonea Ulbrich =Ceiba salmonea (Ulbrich) Bakhuisen
Ref. FP 13(3A/2) 1956: 603.

Boraginaceae

16 genera and 131 species in Peru.

Endemic species: 36.

Prepared by L. Brako; reviewed by J. S. Miller (MO).

Allocarya humilis (R. & P.) Greene =Plagiobothrys humilis (R. & P.) I. M. Johnston
Ref. FP 13(5/2) 1960: 599; Johnston, 1927: 85.

Allocarya kunthii (Walpers) J. F. Macbride =Plagiobothrys kunthii (Walpers) I. M. Johnston
Ref. FP 13(5/2) 1960: 600; Johnston, 1927: 84.

Allocarya macbridei (I. M. Johnston) Ferreyra =Plagiobothrys macbridei I. M. Johnston
Ref. FP 13(5/2) 1960: 600.

Allocarya pygmaea (H.B.K.) J. F. Macbride =Plagiobothrys pygmaeus (H.B.K.) I. M. Johnston
Ref. FP 13(5/2) 1960: 601.

Amsinckia angustifolia Lehmann =Amsinckia hispida (R. & P.) I. M. Johnston
Ref. FP 13(5/2) 1960: 597.

Amsinckia aurantiaca Brand =Amsinckia hispida (R. & P.) I. M. Johnston
Ref. FP 13(5/2) 1960: 597.

Amsinckia hispida (R. & P.) I. M. Johnston
Syn. *Amsinckia angustifolia* Lehmann, *Amsinckia aurantiaca* Brand, *Lithospermum hispidum* R. & P., *Plagiobothrys aurantiacus* Brand
Ref. FP 13(5/2) 1960: 597.
Introduced herb. Andean II: disturbed areas. 2500-3500 m.
Voucher: Leiva & Leiva 104 (MO!)
Depts.: CA, LI, LL

Anchusa kunthii Walpers =Plagiobothrys kunthii (Walpers) I. M. Johnston
Ref. FP 13(5/2) 1960: 600; Johnston, 1927: 84.

Anchusa linifolia var. *kunthii* (Walpers) J. F. Macbride =Plagiobothrys kunthii (Walpers) I. M. Johnston
Ref. FP 13(5/2) 1960: 600; Johnston, 1927: 84.

Anchusa pygmaea H.B.K. =Plagiobothrys pygmaeus (H.B.K.) I. M. Johnston
Ref. FP 13(5/2) 1960: 601; Johnston, 1927: 87.

Antiphytum walpersii A. DC. =Plagiobothrys kunthii (Walpers) I. M. Johnston
Ref. FP 13(5/2) 1960: 600; Johnston, 1927: 84.

Borago officinalis L.
Ref. Miller, 1988: 460.
Cultivated and introduced herb. Andean I-II, Coastal: disturbed areas. 0-3500 m.
Voucher: Núñez 6632 (MO!)
Depts.: AN, CU, LI

Cerdana alliodora R. & P. =Cordia alliodora (R. & P.) Oken
Ref. FP 13(5/2) 1960: 574; Miller, 1988: 465.

Coldenia aggregata Rusby =Tiquilia paronychioides (Philippi) A. Richardson
Ref. FP 13(5/2) 1960: 570; Richardson, 1977: 561.

Coldenia conspicua Howell, nom. illeg. non I. M. Johnston =Tiquilia nesiotica (J. T. Howell) A. Richardson
Ref. Richardson, 1977: 565.

Coldenia conspicua I. M. Johnston =Tiquilia conspicua (I. M. Johnson) A. Richardson
Ref. FP 13(5/2) 1960: 569; Richardson, 1977: 559.

Coldenia dichotoma (R. & P.) Lehmann =Tiquilia dichotoma (R. & P.) Persoon
Ref. FP 13(5/2) 1960: 569; Richardson, 1977: 543.

Coldenia dombeyana Jussieu ex DC. =Tiquilia dichotoma (R. & P.) Persoon

Ref. FP 13(5/2) 1960: 569; Richardson, 1977: 543.

Coldenia elongata Rusby =Tiquilia elongata (Rusby) A. Richardson
Ref. FP 13(5/2) 1960: 570; Richardson, 1977: 554.

Coldenia ferreyrae I. M. Johnston =Tiquilia ferreyrae (I. M. Johnston) A. Richardson
Ref. Richardson, 1977: 549.

Coldenia grandiflora Philippi =Tiquilia grandiflora (Philippi) A. Richardson
Ref. Richardson, 1977: 547.

Coldenia litoralis Philippi =Tiquilia litoralis (Philippi) A. Richardson
Ref. Richardson, 1977: 557.

Coldenia nesiotica J. T. Howell =Tiquilia nesiotica (J. T. Howell) A. Richardson
Ref. Richardson, 1977: 565.

Coldenia paronychioides Philippi =Tiquilia paronychioides (Philippi) A. Richardson
Ref. FP 13(5/2) 1960: 570; Richardson, 1977: 561.

[*Coldenia parviflora* Philippi =Tiquilia atacamensis (Philippi) Richards]
Ref. FP 13(5/2) 1960: 570; Richardson, 1977: 551.
Note: Not known from Peru.

Coldenia pentandra Jussieu ex DC. =Tiquilia dichotoma (R. & P.) Persoon
Ref. FP 13(5/2) 1960: 570; Richardson, 1977: 543.

Coldenia simulans I. M. Johnston =Tiquilia simulans (I. M. Johnson) A. Richardson
Ref. Richardson, 1977: 545.

Cordia alliodora (R. & P.) Oken
Syn. *Cerdana alliodora* R. & P.
Ref. FP 13(5/2) 1960: 574; Miller, 1988: 465.
Tree. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Ruiz & Pavón s.n.* (B photo F!), Vásquez *et al.* 7760 (MO!)
Depts.: AM, CA, CU, HU, JU, LO, MD, PA, PU, SM

Cordia axillaris I. M. Johnston var. **axillaris**
Syn. *Cordia patens* var. *monocephala* Chamisso
Ref. Johnston, 1930: 35; Johnston, 1956: 292.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Klug 4385 (GH)
Depts.: LO

Cordia bicolor A. DC.
Ref. Miller, 1988: 468.
Tree. Amazonian: forests. 0-500 m.
Voucher: Foster 12135 (MO!)
Depts.: LO, MD, SM

Cordia bifurcata Roemer & Schultes
Syn. *Varronia dichotoma* R. & P.
Ref. FP 13(5/2) 1960: 575; Miller, 1988: 468.
Shrub. Amazonian, Andean I: disturbed areas, seasonally inundated areas. 0-1500 m.
Voucher: Ruiz & Pavón s.n.* (B-W microfiche MO!)
Depts.: AM, CU, HU, JU, LO, MD, PA, PI, SM

Cordia buddleoides Rusby
Ref. FP 13(5/2) 1960: 577.
Shrub or vine. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Gentry & Revilla 16377 (MO!)
Depts.: AM, CU, LO, MD, SM, PU

Cordia chacoensis Chodat =Cordia curassavica (Jacquin) Roemer & Schultes

Cordia chamissoniana D. Don
Ref. Taroda & Gibbs, 1987: 35.
Shrub or tree. Amazonian: forest. 0-500 m.
Voucher: Vásquez & Jaramillo 17257 (MO!)
Depts.: LO

Cordia cicatricosa L. O. Williams
Ref. Williams, 1964: 21.
Endemic tree. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Aróstegui 74* (F), Aróstegui 86 (F)
Depts.: LO

Cordia collococca L.
Syn. *Cordia glabra* auct. non L.
Ref. FP 13(5/2) 1960: 577; Miller, 1988: 470.
Tree. Amazonian: forests, seasonally inundated areas. 0-500 m.
Voucher: Klug 2368 (MO!)
Depts.: LO

Cordia corymbosa (L.) G. Don
Syn. *Lantana corymbosa* L. (Verbenaceae)
Shrub. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Williams 4779 (NY)
Depts.: CU, LO, SM

Cordia curassavica (Jacquin) Roemer & Schultes
Syn. *Cordia chacoensis* Chodat, *Varronia curassavica* Jacquin
Ref. Miller, 1988: 474.
Shrub. Andean I: forests. 500-1000 m.
Voucher: Gentry & Díaz 58280 (MO!)
Depts.: TU

Cordia cylindrostachya (R. & P.) Roemer & Schultes
Syn. *Cordia subserrata* Krause, *Cordia tarmensis* Krause, *Varronia cylindristachya* R. & P., *Varronia macrostachya* Jacquin
Ref. FP 13(5/2) 1960: 578.
Shrub. Andean II: forests, rocky slopes, shrublands. 1500-3000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Sagástegui & Leiva 14077 (MO!)
Depts.: AP, AR, CA, CU, HU, JU, PA, PI

Cordia cymosa (J. D. Smith) Standley
Syn. *Cornutia cymosa* J. D. Smith (Verbenaceae)
Ref. Miller, 1988: 477.
Tree. Amazonian: forests. 0-500 m.
Voucher: Croat 20819 (MO!)
Depts.: LO

Cordia eriostigma Pittier
Ref. Miller, 1988: 480.
Tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Díaz & Vásquez 3076 (MO!)
Depts.: TU

Cordia ferruginea (Lamarck) Roemer & Schultes =Cordia spinescens L.
Ref. FP 13(5/2) 1960: 588; Miller, 1988: 492.

Cordia glabra auct. non L. =Cordia collococca L.
Ref. FP 13(5/2) 1960: 577.

Cordia guayaquilensis A. DC. =Cordia macrocephala (Desvaux) H.B.K.
Ref. FP 13(5/2) 1960: 583.

[Cordia haenkeana Mez =Cordia insignis Chamisso]
Ref: FP 13(5/2) 1960: 580.
Note: Not known from Peru.

Cordia hebeclada I. M. Johnston
Ref. FP 13(5/2) 1960: 578.
Tree. Amazonian: forests. 0-500 m.
Voucher: Revilla 1649 (MO!)
Depts.: AM, HU, LO, MD, SM, TU

Cordia heterophylla Poiret =Cordia toqueve Aublet
Ref. FP 13(5/2) 1960: 589.

Cordia hispidissima DC. =Cordia nodosa Lamarck
Ref. FP 13(5/2) 1960: 585.

Cordia iguaguana Melchior ex I. M. Johnston
Ref. FP 13(5/2) 1960: 579.
Endemic tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Weberbauer 6213* (B), Gentry *et al.* 37700 (MO!)
Depts.: AM, CA, SM

[Cordia insignis Chamisso]
Syn. *Cordia haenkeana* Mez
Ref. FP 13(5/2) 1960: 580.
Note: Not known from Peru.

Cordia krausiana Killip
Syn. *Cordia pauciflora* Krause, nom. illeg.
Ref. FP 13(5/2) 1960: 580.
Shrub. Andean II: rocky slopes. 2500-3000 m.

Voucher: Weberbauer 3161* (F), Hutchison & Ricardi 4994 (MO!)
Depts.: AN, CU, LI

Cordia laevior I. M. Johnston
Ref. FP 13(5/2) 1960: 581.
Tree. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Klug 2756* (MO!)
Depts.: SM

Cordia lantanoides Sprengel
Syn. *Varronia crenata* R. & P.
Ref. FP 13(5/2) 1960: 581.
Shrub. Andean II: disturbed areas, grasslands, shrublands. 1500-3500 m.
Voucher: Ruiz & Pavón s.n.* (MA), Sagástegui 12326 (MO!)
Depts.: CA, CU, HU

Cordia lippioides I. M. Johnston
Ref. Johnston, 1956: 290.
Endemic subshrub. Andean II: forests. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Cerrate 565* (GH)
Depts.: AN

Cordia lomatoloba I. M. Johnston
Ref. FP 13(5/2) 1960: 582.
Tree. Amazonian: forests, riversides. 0-500 m.
Voucher: Gentry *et al.* 45757 (MO!)
Depts.: AM, HU, LO, MD, SM

Cordia lutea Lamarck
Syn. *Cordia marchionica* Drake, *Cordia rotundifolia* R. & P.
Ref. FP 13(5/2) 1960: 582.
Shrub or tree. Andean I, Coastal: disturbed areas, rocky slopes, shrublands. 0-1500 m.
Voucher: Díaz & Vásquez 3114 (MO!)
Depts.: AN, CA, HU, LA, LI, LO, PI, TU

Cordia macrocephala (Desvaux) H.B.K.
Syn. *Cordia guayaquilensis* A. DC., *Varronia macrocephala* Desvaux
Ref. FP 13(5/2) 1960: 583.
Shrub. Andean I, Coastal: lomas, rocky slopes. 0-1500 m.
Voucher: Dombey 984* (B photo F), Macbride & Featherstone 2556 (F)
Depts.: AN, CA, JU, LA, LI, LL, PI

Cordia macrodonta Killip
Ref. FP 13(5/2) 1960: 583.
Shrub. Andean II: forests. 1500-2000 m.
Voucher: Weberbauer 6015* (F), Hutchison & Wright 4435 (MO!)
Depts.: LA, PI

Cordia marchionica Drake =Cordia lutea Lamarck
Ref. FP 13(5/2) 1960: 582.

Cordia mexiana I. M. Johnston
Ref. FP 13(5/2) 1960: 584.
Tree. Amazonian, Andean I-II: forests, swamps. 0-2500 m.
Voucher: Mexia 6459* (MO!), Schunke 6923 (MO!)
Depts.: AM, LO, MD, SM

Cordia mollissima Killip
Ref. FP 13(5/2) 1960: 584.
Shrub or vine. Amazonian, Andean I-II: disturbed areas. 0-2000 m.
Voucher: Weberbauer 6202* (F), Vásquez & Jaramillo 3518 (MO!)
Depts.: AM, CA, LO, PA, SM

Cordia munda I. M. Johnston
Ref. Johnston, 1956: 290.
Endemic shrub. Andean II: shrublands. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Cerrate & Tovar 1294* (GH)
Depts.: LI

Cordia nodosa Lamarck
Syn. *Cordia hispidissima* DC.
Ref. FP 13(5/2) 1960: 585.
Shrub or tree. Amazonian, Andean I: forests, disturbed areas, riversides, seasonally inundated areas. 0-1000 m.
Voucher: Vásquez 4985 (MO!)
Depts.: AM, AY, CU, HU, JU, LO, MD, PA, SM, UC

Cordia patens H.B.K.
Ref. FP 13(5/2) 1960: 585.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Schunke 2809 (MO!)
Depts.: UC

Cordia patens var. *monocephala* Chamisso =Cordia axillaris I. M. Johnston var. axillaris
Ref. Johnston, 1930: 35.

Cordia pauciflora Krause, nom. illeg. =Cordia krausiana Killip
Ref. FP 13(5/2) 1960: 580.

Cordia pauciflora Rusby =Cordia spinescens L.
Ref. FP 13(5/2) 1960: 588.

Cordia peruviana Roemer & Schultes
Syn. *Lithocardium peruvianum* Kuntze, *Varronia obliqua* R. & P., nom. illeg., *Varronia peruviana* (Roemer & Schultes) A. Borhidi
Ref. FP 13(5/2) 1960: 586.
Shrub. Andean I-II, Coastal: disturbed areas, lomas, rocky slopes. 500-3000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Sagástegui & Dillon 11290 (MO!)
Depts.: AN, AR, CA, JU, LA, LI, PI

Cordia poeppigii A. DC.
Ref. FP 13(5/2) 1960: 586.
Shrub. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Voucher: Poeppig s.n.* (B photo F), Knapp & Alcorn 7316 (MO!)
Depts.: AM, HU, JU, LO, PA, SM

Cordia polyantha Bentham
Ref. FP 13(5/2) 1960: 583.
Shrub. Andean I, Coastal: rocky slopes. 0-1000 m.
Voucher: Díaz & Baldeón 2362 (MO!)
Depts.: CA, LA, LL, PI, TU

Cordia pyrifolia Willdenow ex Roemer & Schultes =Cordia spinescens L.
Ref. FP 13(5/2) 1960: 588.

Cordia ripicola I. M. Johnston
Ref. FP 13(5/2) 1960: 587.
Shrub or tree. Amazonian, Andean I-II: forests. 0-2500 m.
Voucher: Klug 2262* (MO!), Stein & Todzia 2234 (MO!)
Depts.: CA, LO, SM

Cordia rotundifolia R. & P. =Cordia lutea Lamarck
Ref. FP 13(5/2) 1960: 582.

Cordia scaberrima H.B.K.
Ref. FP 13(5/2) 1960: 587.
Tree. Amazonian, Coastal: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Humboldt s.n.* (B photo F)
Depts.: HU, JU, LO, PI

Cordia scabrifolia DC.
Ref. FP 13(5/2) 1960: 588.
Shrub or tree. Amazonian: disturbed areas, forests. 0-500 m.
Voucher: Vásquez & Jaramillo 4892 (MO!)
Depts.: LO, MD, SM

Cordia scandens Poiret =Dichapetalum rugosum (M. Vahl) Prance (Dichapetalaceae)
Ref. FP 13(3/3): 956; Prance, 1972b: 24; Prance, 1980: 5.

Cordia spinescens L.
Syn. *Cordia ferruginea* (Lamarck) Roemer & Schultes, *Cordia pauciflora* Rusby, *Cordia pyrifolia* Willdenow ex Roemer & Schultes, *Cordia thibaudiana* DC., *Varronia ferruginea* Lamarck
Ref. FP 13(5/2) 1960: 588; Miller, 1988: 492.
Shrub. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Voucher: Vásquez *et al.* 7773 (MO!)
Depts.: AM, AR, LO, PA, SM

Cordia sprucei Mez
Syn. *Lithocardium sprucei* (Mez) Kuntze
Ref. FP 13(5/2) 1960: 589.
Tree. Amazonian: forests. 0-500 m.
Voucher: Kayap 934 (MO!)
Depts.: AM

Cordia subserrata Krause =Cordia cylindrostachya (R. & P.) Roemer & Schultes
Ref. FP 13(5/2) 1960: 578.

Cordia tarmensis Krause =Cordia cylindrostachya (R. & P.) Roemer & Schultes
Ref. FP 13(5/2) 1960: 578.

Cordia tetrandra Aublet
Tree. Amazonian. 0-500 m.

Voucher: Timaná & Jaramillo 3608 (MO!)
Depts.: LO, MD

Cordia thibaudiana DC. =Cordia spinescens L.
Ref. FP 13(5/2) 1960: 588; Miller, 1988: 492.

Cordia toqueve Aublet
Syn. *Cordia heterophylla* Poiret
Ref. FP 13(5/2) 1960: 589.
Tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Gentry *et al.* 51264 (MO!)
Depts.: AM, LO, MD, SM

Cordia trachyphylla C. Martius
Tree. Amazonian: forests. 0-500 m.
Voucher: Huashikat 610 (MO!)
Depts.: AM, LO

Cordia ucayaliensis (I. M. Johnston) I. M. Johnston
Syn. *Cordia ulei* var. *ucayaliensis* I. M. Johnston
Ref. FP 13(5/2) 1960: 590.
Tree. Amazonian: forests. 0-500 m.
Voucher: Tessmann 5457* (B), Vásquez *et al.* 622 (MO!)
Depts.: AM, HU, LO, MD, UC

Cordia ulei I. M. Johnston
Ref. FP 13(5/2) 1960: 590.
Tree. Amazonian: forests. 0-500 m.
Voucher: Woytkowski 5770 (MO!)
Depts.: LO

Cordia ulei var. *ucayaliensis* I. M. Johnston =Cordia ucayaliensis (I. M. Johnston) I. M. Johnston
Ref. FP 13(5/2) 1960: 590.

Cordia vargasii I. M. Johnston
Ref. Johnston, 1956: 291.
Endemic shrub. Andean II: forests. 1500-2000 m.
Voucher: Vargas 9790* (GH), Herrera 3227 (GH)
Depts.: CU

Cordia varronifolia I. M. Johnston
Ref. FP 13(5/2) 1960: 591.
Endemic shrub. Andean I: forests. 500-1500 m.
Voucher: Weberbauer 7138* (GH), Hutchison & Wright 6774 (MO!)
Depts.: AM

Cryptantha cajabambensis Brand =Cryptantha peruviana I. M. Johnston
Ref. FP 13(5/2) 1960: 604.

Cryptantha debilis var. *peruviana* (I. M. Johnston) Brand =Cryptantha peruviana I. M. Johnston
Ref. FP 13(5/2) 1960: 604.

Cryptantha filaginea (Philippi) Reiche
Syn. *Eritrichium filagineum* Philippi
Ref. FP 13(5/2) 1960: 602; Johnston, 1927: 46.
Herb. Andean III: bog, grasslands. 4000-4500 m.
Voucher: Johnston 6280 (GH)
Depts.: AR

Cryptantha granulosa (R. & P.) I. M. Johnston
Syn. *Cryptantha latifolia* I. M. Johnston, *Myosotis granulosa* R. & P.
Ref. FP 13(5/2) 1960: 602; Johnston, 1927: 44.
Herb. Coastal: lomas. 0-500 m.
Voucher: Ruiz & Pavón s.n.* (MA), Ferreyra 8757 (MO!)
Depts.: AR, LI

Cryptantha latifolia I. M. Johnston =Cryptantha granulosa (R. & P.) I. M. Johnston
Ref. FP 13(5/2) 1960: 602.

Cryptantha limensis (A. DC.) I. M. Johnston
Syn. *Cryptantha macbridei* I. M. Johnston, *Cryptantha woitschachii* Brand, *Eritrichium limense* A. DC.
Ref. FP 13(5/2) 1960: 603; Johnston, 1927: 48.
Endemic herb. Coastal: lomas, rocky slopes. 0-500 m.
Voucher: Abadia s.n.* (G-DC), Macbride 5869 (F)
Depts.: AR, LI

Cryptantha macbridei I. M. Johnston =Cryptantha limensis (A. DC.) I. M. Johnston
Ref. FP 13(5/2) 1960: 603.

Cryptantha parviflora (Philippi) Reiche
Syn. *Cryptantha piscoensis* Brand, *Cryptantha seleri* Brand, *Cryptantha umbelliformis* Brand, *Eritrichium parviflorum* Philippi
Ref. FP 13(5/2) 1960: 604; Johnston, 1927: 39.
Herb. Andean I-II, Coastal: lomas, rocky slopes. 0-3000 m.
Voucher: Dillon *et al.* 2710 (MO!)
Depts.: AR, IC, LI, LL, MO, TA

Cryptantha peruviana I. M. Johnston
Syn. *Cryptantha cajabambensis* Brand, *Cryptantha debilis* var. *peruviana* (I. M. Johnston) Brand, *Cryptantha weberbaueri* Brand
Ref. FP 13(5/2) 1960: 604; Johnston, 1927: 50.
Herb. Andean II-III: rocky slopes. 2000-4000 m.
Voucher: Macbride & Featherstone 674* (F), Pennell 13235 (GH)
Depts.: AN, AR, LI, MO

Cryptantha piscoensis Brand =Cryptantha parviflora (Philippi) Reiche
Ref. FP 13(5/2) 1960: 604.

Cryptantha seleri Brand =Cryptantha parviflora (Philippi) Reiche
Ref. FP 13(5/2) 1960: 604.

Cryptantha umbelliformis Brand =Cryptantha parviflora (Philippi) Reiche
Ref. FP 13(5/2) 1960: 604.

Cryptantha varians Brand
Ref. FP 13(5/2) 1960: 605.
Endemic herb. Andean I: rocky slopes. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 5340* (B)
Depts.: LI

Cryptantha weberbaueri Brand =Cryptantha peruviana I. M. Johnston
Ref. FP 13(5/2) 1960: 604.

Cryptantha woitschachii Brand =Cryptantha limensis (A. DC.) I. M. Johnston
Ref. FP 13(5/2) 1960: 603.

Cynoglossum amabile Stapf & J. R. Drummond
Introduced herb. Andean II: disturbed areas, rocky slopes. 1500-2500 m.
Voucher: Smith & Albán 5484 (MO!)
Depts.: AM, CA, LA, PA

Cynoglossum andicolum Krause =Hackelia andicola (Krause) Brand
Ref. FP 13(5/2) 1960: 606.

Cynoglossum fiebrigii Krause =Hackelia revoluta (R. & P.) I. M. Johnston
Ref. FP 13(5/2) 1960: 607.

Cynoglossum lateriflorum Lamarck =Pectocarya lateriflora (Lamarck) DC.
Ref. FP 13(5/2) 1960: 609.

Cynoglossum lineare R. & P. =Pectocarya lateriflora (Lamarck) DC.
Ref. FP 13(5/2) 1960: 609.

Cynoglossum mexicanum Schlechtendal & Chamisso =Heckelia mexicanum (Schlechtendal & Chamisso) I. M. Johnston

Cynoglossum ovatifolium Grisebach =Hackelia revoluta (R. & P.) I. M. Johnston
Ref. FP 13(5/2) 1960: 607.

Cynoglossum parviflorum Krause =Hackelia parviflora (Krause) Brand
Ref. FP 13(5/2) 1960: 607.

Cynoglossum pilosum R. & P. =Pectocarya lateriflora (Lamarck) DC.
Ref. FP 13(5/2) 1960: 609.

Cynoglossum revolutum R. & P. =Hackelia revoluta (R. & P.) I. M. Johnston
Ref. FP 13(5/2) 1960: 607.

Ehretia halimifolia L'Héritier =Grabowskia boerhaaviaefolia (L. f.) Schlechtendal (Solanaceae)
Ref. FP 13(3/3) 1950: 7.

Ehretia spinosa Jacquin =Rochefortia spinosa (Jacquin) Urban
Ref. Lefor, 1968: 52.

Eritrichium filagineum Philippi
=Cryptantha filaginea (Philippi) Reiche
Ref. FP 13(5/2) 1960: 602.

Eritrichium gayanum Weddell
=Lithospermum gayanum (Weddell) I. M. Johnston
Ref. FP 13(5/2) 1960: 595.

Eritrichium humilis var. *congestum* Weddell =Plagiobothrys pygmaeus (H.B.K.) I. M. Johnston
Ref. FP 13(5/2) 1960: 601.

Eritrichium limense A. DC. =Cryptantha limensis (A. DC.) I. M. Johnston
Ref. FP 13(5/2) 1960: 603.

Eritrichium parviflorum Philippi
=Cryptantha parviflora (Philippi) Reiche
Ref. FP 13(5/2) 1960: 604.

Eritrichium walpersii (A. DC.) Weddell
=Plagiobothrys kunthii (Walpers) I. M. Johnston
Ref. FP 13(5/2) 1960: 600; Johnston, 1927: 84.

Hackelia andicola (Krause) Brand
Syn. *Cynoglossum andicolum* Krause
Ref. FP 13(5/2) 1960: 606.
Endemic herb. Andean III. 4000-4500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 4230* (B)
Depts.: CA

Hackelia mexicana (Schlechtendal & Chamisso) I. M. Johnston
Syn. *Cynoglossum mexicanum* Schlechtendal & Chamisso
Ref. Miller, 1988: 499.
Herb. Andean II-III: forests, grasslands. 2500-4500 m.
Voucher: Tupayachi & Galiano 846 (MO!)
Depts.: AN, CU

Hackelia parviflora (Krause) Brand
Syn. *Cynoglossum parviflorum* Krause
Ref. FP 13(5/2) 1960: 607.
Endemic herb. Andean III. 3500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 2520* (B)
Depts.: JU

Hackelia revoluta (R. & P.) I. M. Johnston
Syn. *Cynoglossum fiebrigii* Krause, *Cynoglossum ovatifolium* Grisebach, *Cynoglossum revolutum* R. & P., *Lappula revoluta* (R. & P.) Brand
Ref. FP 13(5/2) 1960: 607.
Herb. Andean III. 3500-4500 m.
Voucher: Ruiz & Pavón s.n.* (MA), Weberbauer 4230 (B)
Depts.: AP, JU, LL

Heliophytum brachystachyum DC.
=Heliotropium microstachyum R. & P.
Ref. FP 13(5/2) 1960: 563.

Heliotropium adenogynum I. M. Johnston
Ref. FP 13(5/2) 1960: 556.
Endemic shrub. Andean I. 500-1500 m.
Voucher: Macbride & Featherstone 495* (F), Weberbauer 5312 (F)
Depts.: LI

Heliotropium angiospermum Murray
Syn. *Heliotropium parviflorum* L., *Heliotropium simplex* Meyen, *Heliotropium synzystachyum* R. & P., *Synzistachium peruvianum* Raf., *Tournefortia synzystachya* (R. & P.) R. & P.
Ref. FP 13(5/2) 1960: 557.
Herb. Andean I, Coastal: disturbed areas, lomas, rocky slopes. 0-2500 m.
Voucher: Dillon *et al.* 2730 (MO!)
Depts.: AM, AN, AP, AR, CA, HV, IC, LI, LL, PI, SM, TA

Heliotropium arborescens L.
Syn. *Heliotropium arborescens* var. *grisellum* I. M. Johnston, *Heliotropium corymbosum* R. & P., *Heliotropium peruvianum* L.
Ref. FP 13(5/2) 1960: 558.
Herb or shrub. Andean I-II, Coastal: forests, lomas. 0-3500 m.
Voucher: Mostacero *et al.* 1449 (MO!)
Depts.: CA, AN, AR, AY, CA, JU, LA, LI, LL, MO, PA, TA

Heliotropium arborescens var. *grisellum* I. M. Johnston =Heliotropium arborescens L.
Ref. FP 13(5/2) 1960: 558.

Heliotropium brachystachyum (DC.) Grisebach =Heliotropium microstachyum R. & P.
Ref. FP 13(5/2) 1960: 563.

Heliotropium corymbosum R. & P.
=Heliotropium arborescens L.
Ref. FP 13(5/2) 1960: 558.

Heliotropium curassavicum L.
Syn. *Heliotropium curassavicum* var. *parviflorum* Ball, *Heliotropium lehmannianum* Bruns
Ref. FP 13(5/2) 1960: 559; Miller, 1988: 501.
Herb. Coastal: lomas. 0-1000 m.
Voucher: Dillon *et al.* 3377 (MO!)
Depts.: AR, IC, LA, LI, LL, PI, TA

Heliotropium curassavicum var. *parviflorum* Ball =Heliotropium curassavicum L.
Ref. FP 13(5/2) 1960: 559.

Heliotropium erianthum I. M. Johnston
Ref. FP 13(5/2) 1960: 559.
Endemic shrub. Andean II: disturbed areas. 2500-3000 m.
Voucher: Weberbauer 6332* (GH), Díaz 1984 (MO!)
Depts.: AN, PI

Heliotropium ferreyrae I. M. Johnston
Ref. Johnston, 1956: 296.
Endemic herb or shrub. Coastal: lomas, rocky slopes. 0-500 m.
Voucher: Ferreyra 6044* (A), Cerrate 5262 (MO!)
Depts.: LA, LL, PI

Heliotropium incanum R. & P.
Ref. FP 13(5/2) 1960: 560.
Endemic shrub. Andean II-III: rocky slopes. 1500-4000 m.
Voucher: Ruiz & Pavón s.n.* (B photo F!), Stevens 22075 (MO!)
Depts.: AP, CA, CU, HU, HV, JU, PI

Heliotropium indicum L.
Ref. FP 13(5/2) 1960: 560; Miller, 1988: 501.
Herb. Amazonian, Andean I, Coastal: disturbed areas, rocky slopes, seasonally inundated areas. 0-1000 m.
Voucher: Ayala *et al.* 3160 (MO!)
Depts.: CU, HU, LA, LL, LO, MD, PI, SM

Heliotropium inundatum Swartz
=Heliotropium procumbens Miller
Ref. FP 13(5/2) 1960: 566; Miller, 1988: 503.

Heliotropium krauseanum Fedde
Syn. *Heliotropium saxatile* Krause
Ref. FP 13(5/2) 1960: 561.
Herb or shrub. Coastal: rocky slopes. 0-500 m.
Voucher: Weberbauer 1552* (B photo F!), Ferreyra 6360 (MO!)
Depts.: AR

Heliotropium lanceolatum R. & P.
Ref. FP 13(5/2) 1960: 561.
Endemic herb. Andean I-II, Coastal. 0-3000 m.
Voucher: Ruiz & Pavón s.n.* (B photo F!), Ferreyra 588 (MO!)
Depts.: LA, LI

Heliotropium lehmannianum Bruns
=Heliotropium curassavicum L.

Heliotropium lippioides Krause
Ref. FP 13(5/2) 1960: 562.
Endemic herb or shrub. Andean II: forests. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 4122* (B photo F!)
Depts.: CA

Heliotropium lobbii I. M. Johnston
Ref. FP 13(5/2) 1960: 562.
Endemic herb. Andean I-II, Coastal: rocky slopes. 0-2500 m.
Voucher: Lobb s.n.* (K), Sánchez 2974 (MO!)
Depts.: AM, CA

Heliotropium mandonii I. M. Johnston
Ref. FP 13(5/2) 1960: 562.
Shrub. Andean I-II: disturbed areas, forests. 1000-2000 m.
Voucher: Boeke 1865 (MO!)
Depts.: AM, CU, HU

Heliotropium microcalyx R. & P.
=Tournefortia microcalyx (R. & P.)

I. M. Johnston
Ref. FP 13(5/2) 1960: 548.

Heliotropium microstachyum R. & P.
Syn. *Heliophytum brachystachyum* DC., *Heliotropium brachystachyum* (DC.) Grisebach
Ref. FP 13(5/2) 1960: 563.
Herb. Andean II: disturbed areas. 2000-3000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Tupayachi 993 (MO!)
Depts.: AP, AR, CU, HU, HV, IC, JU, LI, MO, PU

Heliotropium oppositifolium R. & P.
=Tournefortia polystachya R. & P.
Ref. FP 13(5/2) 1960: 549.

Heliotropium oxylobum I. M. Johnston
Ref. FP 13(5/2) 1960: 564.
Endemic herb. Andean II: rocky slopes. 2000-2500 m.
Voucher: Pearce s.n.* (K), Vargas 8905 (MO!)
Depts.: AP, CU, HV

Heliotropium parviflorum L.
=Heliotropium angiospermum Murray
Ref. FP 13(5/2) 1960: 557.

Heliotropium peruvianum L.
=Heliotropium arborescens L.
Ref. FP 13(5/2) 1960: 558.

Heliotropium pilosum R. & P.
Ref. FP 13(5/2) 1960: 564.
Endemic herb. Andean II: disturbed areas, lomas, rocky slopes. 1500-3000 m.
Voucher: Ruiz s.n.* (MA), Cerrate 5761 (MO!)
Depts.: AN, AR, CU, LI

Heliotropium pinnatum M. Vahl =Phacelia secunda J. F. Gmelin (Hydrophyllaceae)
Ref. FP 13(5A/2) 1967: 107.

Heliotropium piurense I. M. Johnston
Ref. FP 13(5/2) 1960: 565.
Endemic herb. Coastal: grasslands. 0-500 m.
Voucher: Haught & Svenson 11553* (MO!), Haught 256 (GH)
Depts.: PI

Heliotropium polyanthellum I. M. Johnston
Ref. FP 13(5/2) 1960: 566.
Endemic subshrub. Andean I: shrublands. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6184* (F)
Depts.: CA

Heliotropium procumbens Miller
Syn. *Heliotropium inundatum* Swartz
Ref. FP 13(5/2) 1960: 566; Miller, 1988: 503.
Herb. Coastal: lomas. 0-1000 m.
Voucher: Knapp 8327 (MO!)
Depts.: LI, LO, PI

Heliotropium rufipilum (Bentham) I. M. Johnston
Syn. *Tournefortia rufipila* Bentham
Ref. FP 13(5/2) 1960: 566.
Herb. Andean I-II, Coastal: disturbed areas. 0-2500 m.
Voucher: Díaz & Vásquez 3036 (MO!)
Depts.: AM, CA, JU, LA, LI, LL, PI, SM

Heliotropium saxatile Krause
=Heliotropium krauseanum Fedde
Ref. FP 13(5/2) 1960: 561.

Heliotropium simplex Meyen
=Heliotropium angiospermum Murray
Ref. FP 13(5/2) 1960: 557.

Heliotropium submolle Klotzsch
Ref. Johnston, 1928a: 46.
Herb or shrub. Andean II: elfin forests, shrublands. 1500-3000 m.
Voucher: Smith & Buddensiek 10942 (MO!)
Depts.: AN, AY, CA, HU, LL, PI

Heliotropium synzystachyum R. & P.
=Heliotropium angiospermum Murray
Ref. FP 13(5/2) 1960: 557.

Heliotropium tarmense Krause
=Tournefortia tarmensis (Krause) J. F. Macbride
Ref. FP 13(5/2) 1960: 551.

Heliotropium toratense I. M. Johnston
Ref. FP 13(5/2) 1960: 567.
Endemic subshrub. Andean II: shrublands. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 7407* (F)
Depts.: MO

Heliotropium urbanianum Krause
Ref. FP 13(5/2) 1960: 567.
Tree. Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 22459a (MO!)
Depts.: AM, LO

Lappula revoluta (R. & P.) Brand
=Hackelia revoluta (R. & P.) I. M. Johnston
Ref. FP 13(5/2) 1960: 607.

Lithocardium peruvianum Kuntze =Cordia peruviana Roemer & Schultes

Lithocardium sprucei (Mez) Kuntze
=Cordia sprucei Mez
Ref. FP 13(5/2) 1960: 589.

Lithospermum aequatoriale Brand
=Lithospermum peruvianum A. DC.
Ref. FP 13(5/2) 1960: 596.

[Lithospermum aggregatum R. & P.]
Ref. FP 13(5/2) 1960: 570; Richardson, 1977: 569.
Note: Not known from Peru. Generic placement uncertain. Johnston (1928: 11) excluded it from *Lithospermum* saying it was *Coldenia paronychioides* [=*Tiquilia paronychioides*], and Richardson (1977: 569), without seeing any specimens, excluded it from *Tiquilia*.

Lithospermum andinum Krause
=Lithospermum gayanum (Weddell) I. M. Johnston
Ref. FP 13(5/2) 1960: 595.

Lithospermum cinerascens (A. DC.) I. M. Johnston
Syn. *Macromeria cinerascens* A. DC.
Ref. FP 13(5/2) 1960: 594.
Endemic herb. Andean II.
Note: Known from Peru only from the type locality.
Voucher: Mathews s.n.* (K)
Depts.: AM

Lithospermum cuneifolium Persoon
Syn. *Lithospermum incanum* R. & P.
Ref. Johnston, 1927: 11.
Note: Collection not seen. Excluded from *Lithospermum* by Johnston.

Lithospermum dichotomum R. & P.
=Tiquilia dichotoma (R. & P.) Persoon
Ref. FP 13(5/2) 1960: 569; Richardson, 1977: 542.

Lithospermum gayanum (Weddell) I. M. Johnston
Syn. *Eritrichium gayanum* Weddell, *Lithospermum andinum* Krause, *Lithospermum shepardae* I. M. Johnston
Ref. FP 13(5/2) 1960: 595.
Shrub. Andean III: grasslands. 3500-4000 m.
Voucher: Gay s.n.* (P)
Depts.: CU, JU, PU

Lithospermum hispidum R. & P.
=Amsinckia hispida (R. & P.) I. M. Johnston
Ref. FP 13(5/2) 1960: 597.

Lithospermum incanum R. & P.
=Lithospermum cuneifolium Persoon
Ref. Johnston, 1927: 11.

Lithospermum macbridei I. M. Johnston
Ref. FP 13(5/2) 1960: 595.
Endemic shrub. Andean II: shrublands. 2000-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Macbride & Featherstone 1185* (F!)
Depts.: HU

Lithospermum myosotoides Lehmann
=Plagiobothrys myosotoides (Lehmann) Brand
Ref. FP 13(5/2) 1960: 598.

Lithospermum peruvianum A. DC.
Syn. *Lithospermum aequatoriale* Brand
Ref. FP 13(5/2) 1960: 596.
Shrub. Andean II.
Voucher: Mathews s.n.* (K)
Depts.: AM

Lithospermun peruvianium Kuntze =Cordia peruvianium Roemer & Schultes

Lithospermum shepardae I. M. Johnston =Lithospermum gayanum (Weddell) I. M. Johnston
Ref. FP 13(5/2) 1960: 595.

Lithospermum tinctorium R. & P., nom. illeg. non L. =Plagiobothrys myosotoides (Lehmann) Brand
Ref. FP 13(5/2) 1960: 598.

Macromeria cinerascens A. DC. =Lithospermum cinerascens (A. DC.) I. M. Johnston
Ref. FP 13(5/2) 1960: 594.

Meratia lindenii A. DC. =Moritzia lindenii (DC.) Gurke ex Bentham
Ref. FP 13(5/2) 1960: 593.

Messerschmidtia hirsutissima (L.) Roemer & Schultes =Tournefortia hirsutissima L.
Ref. FP 13(5/2) 1960: 546.

Moritzia lindenii (DC.) Gurke ex Bentham
Syn. *Meratia lindenii* A. DC.
Ref. FP 13(5/2) 1960: 593; Miller, 1988: 504.
Herb. Andean II: grasslands. 2000-2500 m.
Voucher: Barbour 3374 (MO!)
Depts.: AM, PI

Myosotis azorica H. C. Watson
Ref. FP 13(5/2) 1960: 592.
Cultivated and introduced herb. Disturbed areas.
Note: Not reconfirmed; no voucher seen for Peru.

[*Myosotis gracilis* R. & P. =Pectocarya gracilis (R. & P.) I. M. Johnston]
Note: Not known from Peru.

Myosotis granulosa R. & P. =Cryptantha granulosa (R. & P.) I. M. Johnston
Ref. FP 13(5/2) 1960: 602.

Myosotis humilis R. & P. =Plagiobothrys humilis (R. & P.) I. M. Johnston
Ref. FP 13(5/2) 1960: 599; Johnston, 1927: 85.

Pectocarya anomala I. M. Johnston
Ref. Johnston, 1924: 35.
Endemic herb. Andean II: grasslands. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Hinkley & Hinkley 41* (GH)
Depts.: AR

[Pectocarya gracilis (R. & P.) I. M. Johnston]
Syn. *Myosotis gracilis* R. & P.
Ref. FP 13(5/2) 1960: 608.
Note: Not known from Peru.

Pectocarya lateriflora (Lamarck) DC.
Syn. *Cynoglossum lateriflorum* Lamarck, *Cynoglossum lineare* R. & P., *Cynoglossum pilosum* R. & P., *Pectocarya linearis* (R. & P.) DC.
Ref. FP 13(5/2) 1960: 609.
Endemic herb. Andean I-II, Coastal: rocky slopes. 0-3000 m.
Voucher: Ferreyra 3988 (MO!)
Depts.: AR, LI

Pectocarya linearis (R. & P.) DC. =Pectocarya lateriflora (Lamarck) DC.
Ref. FP 13(5/2) 1960: 609.

Plagiobothrys aurantiacus Brand =Amsinckia hispida (R. & P.) I. M. Johnston
Ref. FP 13(5/2) 1960: 597.

Plagiobothrys congestus (Weddell) I. M. Johnston =Plagiobothrys pygmaeus (H.B.K.) I. M. Johnston
Ref. FP 13(5/2) 1960: 601; Johnston, 1927: 85.

Plagiobothrys humilis (R. & P.) I. M. Johnston
Syn. *Allocarya humilis* (R. & P.) Greene, *Myosotis humilis* R. & P.
Ref. FP 13(5/2) 1960: 599; Johnston, 1927: 84.
Herb. Andean II-III: grasslands, riversides, shrublands. 2500-4500 m.
Voucher: Smith *et al.* 12285 (MO!)
Depts.: AN, CU

Plagiobothrys kunthii (Walpers) I. M. Johnston
Syn. *Allocarya kunthii* (Walpers) J. F. Macbride, *Anchusa kunthii* Walpers, *Anchusa linifolia* var. *kunthii* (Walpers) J. F. Macbride, *Antiphytum walpersii* A. DC., *Eritrichium walpersii* (A. DC.) Weddell
Ref. FP 13(5/2) 1960: 600; Johnston, 1927: 83.
Note: Not reconfirmed.

Plagiobothrys macbridei I. M. Johnston
Syn. *Allocarya macbridei* (I. M. Johnston) Ferreyra
Ref. FP 13(5/2) 1960: 600; Johnston, 1927: 88.
Endemic herb. Andean II: grasslands. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Macbride & Featherstone 599* (F)
Depts.: LI

Plagiobothrys myosotoides (Lehmann) Brand
Syn. *Lithospermum myosotoides* Lehmann, *Lithospermum tinctorium* R. & P., nom. illeg. non L., *Plagiobothrys tinctorius* (R. & P.) A. Gray
Ref. FP 13(5/2) 1960: 598.
Herb. Andean II-III: rocky slopes. 3000-4000 m.
Voucher: Pennell 13279 (PH)
Depts.: AR, LI

[Plagiobothrys pygmaeus (H.B.K.) I. M. Johnston]
Syn. *Allocarya pygmaea* (H.B.K.) J. F. Macbride, *Anchusa pygmaea* H.B.K., *Eritrichium humilis* var. *congestum* Weddell, *Plagiobothrys congestus* (Weddell) I. M. Johnston
Ref. Johnston, 1927: 87.
Note: Not known from Peru. Cited only from Ecuador in Johnston (1927).

Plagiobothrys tinctorius (R. & P.) A. Gray =Plagiobothrys myosotoides (Lehmann) Brand
Ref. FP 13(5/2) 1960: 598.

Rochefortia spinosa (Jacquin) Urban
Syn. *Ehretia spinosa* Jacquin
Ref. Lefor, 1968: 52.
Liana. Amazonian, Andean I: rocky slopes. 0-1000 m.
Voucher: Gentry & Smith 45027 (MO!)
Depts.: SM

Saccellium lanceolatum Humboldt & Bonpland
Ref. FP 13(5/2) 1960: 592.
Tree. Andean I: disturbed areas, forests. 500-1500 m.
Voucher: Bonpland s.n.* (P), Gentry *et al.* 22695 (MO!)
Depts.: AM, CA

Synzistachium peruvianum Raf. =Heliotropium angiospermum Murray
Ref. FP 13(5/2) 1960: 557.

Tiquilia conspicua (I. M. Johnson) A. Richardson
Syn. *Coldenia conspicua* I. M. Johnston
Ref. Richardson, 1977: 559.
Herb. Coastal: lomas. 0-500 m.
Voucher: Guenther & Buchtien 155* (HBG), Richardson 2126 (MO!)
Depts.: AR

Tiquilia dichotoma (R. & P.) Persoon
Syn. *Coldenia dichotoma* (R. & P.) Lehmann, *Coldenia dombeyana* Jussieu ex DC., *Coldenia pentandra* Jussieu ex DC., *Lithospermum dichotomum* R. & P.
Ref. FP 13(5/2) 1960: 570; Richardson, 1977: 542.
Endemic herb. Coastal: lomas. 0-500 m.
Voucher: Ruiz & Pavón 11/6* (MA), Sagástegui & Mostacero 11368 (MO!)
Depts.: AR, IC, LA, LI, LL, PI

Tiquilia elongata (Rusby) A. Richardson
Syn. *Coldenia elongata* Rusby
Ref. Richardson, 1977: 554.
Endemic herb. Andean I, Coastal: disturbed areas. 500-1000 m.
Voucher: Williams 2562* (NY), Richardson 2112 (MO!)
Depts.: AR, TA

Tiquilia ferreyrae (I. M. Johnston) A. Richardson
Syn. *Coldenia ferreyrae* I. M. Johnston
Ref. Richardson, 1977: 549.
Endemic herb. Coastal: lomas. 0-500 m.
Voucher: Ferreyra 2506* (A), Richardson 2100 (MO!)
Depts.: AR

Tiquilia grandiflora (Philippi) A. Richardson
Syn. *Coldenia grandiflora* Philippi

Ref. Richardson, 1977: 547.
Herb. Andean I-II, Coastal: desert, lomas. 0-2500 m.
Voucher: Richardson 2124 (MO!)
Depts.: AR

Tiquilia hunteri A. Richardson
Ref. Richardson, 1977: 556.
Endemic herb. Coastal: disturbed areas. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Richardson 2106* (TEX)
Depts.: AR

Tiquilia litoralis (Philippi) A. Richardson
Syn. *Coldenia litoralis* Philippi
Ref. Richardson, 1977: 557.
Herb. Coastal: disturbed areas, lomas. 500-1000 m.
Voucher: Dillon *et al.* 4771 (MO!)
Depts.: AR, TA

Tiquilia nesiotica (J. T. Howell) A. Richardson
Syn. *Coldenia conspicua* J. T. Howell nom. illeg. non I. M. Johnston, *Coldenia nesiotica* J. T. Howell
Ref. Richardson, 1977: 561.
Herb. Coastal: lomas. 0-500 m.
Voucher: Vásquez 8623 (MO!)
Depts.: AR

Tiquilia paronychioides (Philippi) A. Richardson
Syn. *Coldenia aggregata* Rusby, *Coldenia paronychioides* Philippi
Ref. Richardson, 1977: 561.
Herb. Andean I, Coastal: desert, disturbed areas, lomas. 0-1500 m.
Voucher: Ferreyra 14829 (MO!)
Depts.: AN, AR, JU, LA, LI, LL, PI, PU, TA

Tiquilia simulans (I. M. Johnson) A. Richardson
Syn. *Coldenia simulans* I. M. Johnston
Ref. Richardson, 1977: 545.
Endemic herb. Coastal: lomas. 0-500 m.
Voucher: Scolnik 1010* (GH), Richardson 2150 (MO!)
Depts.: AR

Tiquilia tacnensis A. Richardson
Ref. Richardson, 1977: 553.
Endemic herb. Coastal. 0-500.
Note: Known from Peru only from the type locality.
Voucher: Richardson 2130* (TEX)
Depts.: TA

Tournefortia angustiflora R. & P.
Ref. FP 13(5/2) 1960: 543; Miller, 1988: 505.
Shrub or vine. Amazonian, Andean I: forests, seasonally inundated areas, terra firme forests. 0-1000 m.
Voucher: Ruiz & Pavón s.n.* (B photo F), Smith *et al.* 1033 (MO!)
Depts.: AM, HU, LO, MD, SM

Tournefortia bicolor Swartz
Syn. *Tournefortia laevigata* Lamarck
Ref. FP 13(5/2) 1960: 543; Miller, 1988: 506.
Liana or shrub. Amazonian, Andean I-II: forests, disturbed areas, seasonally inundated areas. 0-2500 m.
Voucher: Vásquez & Jaramillo 2562 (MO!)
Depts.: AM, JU, LO, SM, TU, UC

[Tournefortia breviflora DC.]
Syn. *Tournefortia xapuryensis* Vaupel
Ref. FP 13(5/2) 1960: 544.
Note: Not known from Peru.

Tournefortia buchtienii Killip
Ref. FP 13(5/2) 1960: 544.
Shrub. Andean II: shrubland. 3000-3500 m.
Voucher: Weberbauer 6607 (F)
Depts.: JU

Tournefortia chinchensis Killip
Ref. FP 13(5/2) 1960: 545.
Shrub or liana. Andean II: forests. 2000-2500 m.
Voucher: Macbride & Featherstone 5142* (F)
Depts.: HU

Tournefortia cirrhosa Vaupel
=Tournefortia psilostachya H.B.K.
Ref. FP 13(5/2) 1960: 550.

Tournefortia coriacea Vaupel
Ref. FP 13(5/2) 1960: 545.
Liana. Amazonian: disturbed areas, forests. 0-500 m.
Voucher: Vásquez & Jaramillo 11093 (MO!)
Depts.: AM, LO, PA, SM

Tournefortia cuspidata H.B.K.
Syn. *Tournefortia obscura* A. DC.
Ref. FP 13(5/2) 1960: 546; Miller, 1988: 508.
Liana. Amazonian: disturbed areas, forests, seasonally inundated areas. 0-500 m.
Voucher: Vásquez & Jaramillo 1644 (MO!)
Depts.: AM, HU, LO, MD, SM, UC

Tournefortia floribunda H.B.K.
=Tournefortia psilostachya H.B.K.
Ref. FP 13(5/2) 1960: 550.

Tournefortia foetidissima L.
Shrub or tree. Amazonian: forests. 0-500 m.
Voucher: Klug 2730 (F)
Depts.: SM

Tournefortia glabra L.
Ref. FP 13(5/2) 1960: 546; Miller, 1988: 510.
Shrub or tree. Amazonian: forests. 0-500 m.
Voucher: Berlin 565 (MO!)
Depts.: AM, MD, SM

Tournefortia hirsutissima L.
Syn. *Messerschmidtia hirsutissima* (L.) Roemer & Schultes
Ref. FP 13(5/2) 1960: 546; Miller, 1988: 511.
Liana. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Knapp *et al.* 7401 (MO!)
Depts.: AR, AY, HU, JU, SM

Tournefortia hispidula R. & P.
=Tournefortia microcalyx (R. & P.) I. M. Johnston
Ref. FP 13(5/2) 1960: 548.

Tournefortia laevigata Lamarck
=Tournefortia bicolor Swartz
Ref. FP 13(5/2) 1960: 543; Miller, 1988: 506.

Tournefortia longifolia R. & P.
Ref. FP 13(5/2) 1960: 547.
Endemic shrub. Andean I-II: forests. 1000-2500 m.
Voucher: Ruiz & Pavón s.n.* (B photo F!), Killip & Smith 21920 (F)
Depts.: CA, HU, JU, PA

Tournefortia loxensis H.B.K.
=Tournefortia polystachya R. & P.
Ref. FP 13(5/2) 1960: 549.

Tournefortia maculata Jacquin
Syn. *Tournefortia peruviana* Poiret, *Tournefortia syringaefolia* M. Vahl
Ref. FP 13(5/2) 1960: 547; Miller, 1988: 515.
Liana or vine. Amazonian, Andean I: disturbed areas, forests, rocky slopes. 0-1500 m.
Voucher: Schunke 2305 (MO!)
Depts.: AM, CA, CU, HU, JU, LO, MD, PU, SM

Tournefortia mapirensis Lingelsheim
Syn. *Tournefortia subrotunda* Rusby
Ref. FP 13(5/2) 1960: 548.
Liana. Amazonian: forests. 0-500 m.
Voucher: Huashikat 289 (MO!)
Depts.: AM, LO

Tournefortia microcalyx (R. & P.) I. M. Johnston
Syn. *Heliotropium microcalyx* R. & P., *Tournefortia hispidula* R. & P.
Ref. FP 13(5/2) 1960: 548.
Liana or shrub. Andean I-II, Coastal: disturbed areas, rocky slopes. 0-2500 m.
Voucher: Ruiz & Pavón s.n.* (MA), Cerrate *et al.* 4245 (MO!)
Depts.: AM, AN, CA, HU, IC, LI, LL, PI, SM

Tournefortia obscura A. DC.
=Tournefortia cuspidata H.B.K.
Ref. FP 13(5/2) 1960: 546; Miller, 1988: 509.

Tournefortia ovalifolia Rusby
Ref. FP 13(5/2) 1960: 549.
Shrub or tree. Andean II: cloud forests. 2000-3000 m.
Voucher: Croat 57836 (MO!)
Depts.: AM, HU

Tournefortia paniculata Chamisso
Ref. FP 13(5/2) 1960: 547.

Shrub. Amazonian: disturbed areas. 0-500 m.
Voucher: Gentry & Smith 44972 (MO!)
Depts.: JU, SM

Tournefortia peruviana Poiret =Tournefortia maculata Jacquin
Ref. FP 13(5/2) 1960: 547.

Tournefortia polystachya R. & P.
Syn. *Heliotropium oppositifolium* R. & P., *Tournefortia loxensis* H.B.K.
Ref. FP 13(5/2) 1960: 549.
Shrub. Andean II: disturbed areas, forests, grasslands. 2500-3500 m.
Voucher: Ruiz s.n.* (B photo F!), Sagástegui *et al.* 11836 (MO!)
Depts.: AM, AP, AY, CA, CU, HU, JU, LI, LL

Tournefortia psilostachya H.B.K.
Syn. *Tournefortia cirrhosa* Vaupel, *Tournefortia floribunda* H.B.K.
Ref. FP 13(5/2) 1960: 550.
Liana. Amazonian, Andean I: shrublands. 0-1500 m.
Voucher: Hutchison & Wright 3463 (MO!)
Depts.: CA, CU, LA, LL, LO

Tournefortia rufipila Bentham =Heliotropium rufipilum (Bentham) I. M. Johnston
Ref. FP 13(5/2) 1960: 566.

Tournefortia salzmanii DC.
Ref. Johnston, 1930: 87.
Liana or shrub. Andean II. 2000-2500 m.
Voucher: Woytkowski 6792 (MO!)
Depts.: LA

Tournefortia scabrida H.B.K.
Shrub or tree. Andean II: forests, elfin forests, shrublands. 1500-3500 m.
Voucher: Smith *et al.* 2168 (MO!)
Depts.: AN, CA, HU, LL, SM, PI

Tournefortia setacea Killip
Ref. FP 13(5/2) 1960: 551.
Liana or shrub. Amazonian, Andean I: disturbed areas. 0-1000 m.
Voucher: Macbride 5579* (US), Schunke 10500 (MO!)
Depts.: AY, CA, CU, HU, JU, LO, SM, UC

Tournefortia subrotunda Rusby =Tournefortia mapirensis Lingelsheim
Ref. FP 13(5/2) 1960: 548.

Tournefortia synzystachya (R. & P.) R. & P. =Heliotropium angiospermum Murray
Ref. FP 13(5/2) 1960: 557.

Tournefortia syringaefolia M. Vahl =Tournefortia maculata Jacquin
Ref. FP 13(5/2) 1960: 547.

Tournefortia tarmensis (Krause) J. F. Macbride
Syn. *Heliotropium tarmense* Krause
Ref. FP 13(5/2) 1960: 551.
Liana or shrub. Andean II: riversides. 2500-3000 m.
Voucher: Weberbauer 1750* (K), Stein *et al.* 3836 (MO!)
Depts.: JU

Tournefortia ternifolia H.B.K.
Ref. FP 13(5/2) 1960: 552.
Endemic shrub. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Humboldt & Bonpland s.n.* (P-H&B), Killip & Smith 21920 (US)
Depts.: AM, CA, JU

Tournefortia ulei Vaupel
Ref. FP 13(5/2) 1960: 552.
Shrub. Amazonian, Andean I-II: forests. 0-2500 m.
Voucher: Ayala 2400 (MO!)
Depts.: AM, LA, LO

Tournefortia undulata R. & P.
Ref. FP 13(5/2) 1960: 552.
Shrub. Coastal: lomas. 0-500 m.
Voucher: Tafalla s.n.* (B photo F!), Ferreyra 13965 (MO!)
Depts.: AM, AR, CA, HU, LI, PU

Tournefortia virgata R. & P.
Ref. FP 13(5/2) 1960: 553.
Shrub. Andean I-II. 1000-3000 m.
Voucher: Ruiz & Pavón 139* (MA photo F!), Dillon & Turner 1319 (MO!)
Depts.: AN, AP, HU, JU, PU

Tournefortia volubilis L.
Ref. FP 13(5/2) 1960: 547, 550; Miller, 1988: 520.
Liana. Coastal. 500-1000 m.
Voucher: Llatas 744 (MO!)
Depts.: LA

[*Tournefortia xapuryensis* Vaupel =Tournefortia breviflora DC.]
Ref. FP 13(5/2) 1960: 544.
Note: Not known from Peru.

Varronia crenata R. & P. =Cordia lantanoides Sprengel
Ref. FP 13(5/2) 1960: 581.

Varronia curassavica Jacquin =Cordia curassavica (Jacquin) Roemer & Schultes
Ref. Miller, 1988: 474.

Varronia cylindristachya R. & P. =Cordia cylindrostachya (R. & P.) Roemer & Schultes
Ref. FP 13(5/2) 1960: 578.

Varronia dichotoma R. & P. =Cordia bifurcata Roemer & Schultes
Ref. FP 13(5/2) 1960: 575; Miller, 1988: 468.

Varronia ferruginea Lamarck =Cordia spinescens L.
Ref. FP 13(5/2) 1960: 588; Miller, 1988: 492.

Varronia macrocephala Desvaux =Cordia macrocephala (Desvaux) H.B.K.
Ref. FP 13(5/2) 1960: 583.

Varronia macrostachya Jacquin =Cordia cylindrostachya (R. & P.) Roemer & Schultes
Ref. FP 13(5/2) 1960: 578.

Varronia obliqua R. & P., nom. illeg. =Cordia peruviana Roemer & Schultes
Ref. FP 13(5/2) 1960: 586.

Varronia peruviana (Roemer & Schultes) A. Borhidi =Cordia peruviana Roemer & Schultes
Ref. Borhidi *et al*, 1988: 393.

Brassicaceae

27 genera and 104 species in Peru.

Endemic genera (2): *Catadysia, Dactylocardamum.*
Endemic species: 28.

Prepared by L. Brako and I. A. Al-Shehbaz (MO).

Alpaminia trichocarpa (Muschler) O. E. Schulz =Weberbauera trichocarpa (Muschler) J. F. Macbride
Ref. FP 13(2/3) 1938: 973; Al-Shehbaz, 1990d: 240.

Alyssum maritimum (L.) Lamarck =Lobularia maritima (L.) Desvaux
Ref. FP 13(2/3) 1938: 967.

Arabis andicola Walpers ex Meyen =Halimolobus hispidula var. hispidula
Ref. FP 13(2/3) 1938: 977.

Arabis bracteata Weddell =Sisymbrium peruvianum DC.
Ref. FP 13(2/3) 1938: 979; Romanczuk, 1982: 85.

Arabis lanata Walpers =Sisymbrium lanatum (Walpers) O. E. Schulz
Ref. FP 13(2/3) 1938: 977.

Arabis spathulata Walpers =Weberbauera spathulifolia (A. Gray) O. E. Schulz
Ref. FP 13(2/3) 1938: 972; Al-Shehbaz, 1990d: 227.

Aschersoniodoxa cachensis (Spegazzini) Al-Shehbaz
Syn. *Braya cachensis* Spegazzini
Ref. Al-Shehbaz, 1990b: 392.
Herb. Andean III. 4000- > 4500 m.
Voucher: Cerrate 1514 (GH)
Depts.: AN, HV, JU

Aschersoniodoxa pilosa Al-Shehbaz
Ref. Al-Shehbaz, 1990b: 390.
Endemic herb. Andean III: rocky slopes. > 4500 m.
Note: Known from Peru only from the type locality.
Voucher: Peyton & Peyton 112* (MO!)
Depts.: CU

Berteroa peruviana DC. =Draba peruviana (DC.) O. E. Schulz
Ref. FP 13(2/3) 1938: 959.

Biscutella chilensis Lagasca ex DC. =Cremolobus chilensis (Lagasca ex DC.) DC.
Ref. Khanna & Rollins, 1965: 148.

Biscutella peruviana Lamarck =Cremolobus peruvianus (Lamarck) DC.
Ref. FP 13(2/3) 1938: 943; Khanna & Rollins, 1965: 145.

Biscutella suffruticosa DC. =Cremolobus suffruticosus (DC.) DC.
Ref. Khanna & Rollins, 1965: 147.

Brassica campestris L. =Brassica rapa subsp. campestris (L.) Clapham
Ref. FP 13(2/3) 1938: 945.

Brassica juncea (L.) Cosson
Syn. *Sinapis juncea* L.
Ref. FP 13(2/3) 1938: 945; Rollins, 1948: 104.
Introduced herb. Amazonian, Andean I-III: forests. 0-4000 m.
Voucher: Brunel 891 (MO!)
Depts.: AN, CU, LO, SM

Brassica nigra (L.) Koch
Syn. *Sinapis nigra* L.
Ref. FP 13(2/3) 1938: 945.
Cultivated herb. Amazonian, Andean I-II: disturbed areas. 0-3500 m.
Voucher: Brunel 493 (MO!)
Depts.: AP, CA, CU, LI, LO

Brassica oleracea L.
Ref. FP 13(2/3) 1938: 945.
Cultivated herb. Andean II. 3000-3500 m.
Voucher: Brunel 482 (MO!)
Depts.: CU

Brassica rapa subsp. **campestris** (L.) Clapham
Syn. *Brassica campestris* L.
Ref. Mostacero, 1976: 9.
Introduced herb. Amazonian, Andean I-III: disturbed areas. 0-4500 m.
Voucher: López 1074 (HUT)
Depts.: CA

Brassica rapa L. subsp. **rapa**
Herb. Andean II-III: disturbed areas, grasslands. 2500-4000 m.
Note: Material not determined to variety.
Voucher: Smith 11905 (MO!)
Depts.: AN, CA, CU, LI

Braya cachensis Spegazzini =Aschersoniodoxa cachensis (Spegazzini) Al-Shehbaz
Ref. Al-Shehbaz, 1990b: 392.

Braya calycina (Desvaux) Weddell =Brayopsis calycina (Desvaux) Gilg & Muschler
Ref. FP 13(2/3) 1938: 970; Al-Shehbaz, 1989c: 620.

Braya densiflora Muschler =Weberbauera spathulifolia (A. Gray) O. E. Schulz
Ref. FP 13(2/3) 1938: 972; Al-Shehbaz, 1990d: 227.

Brayopsis alpaminae Gilg & Muschler subsp. **alpaminae**
Syn. *Brayopsis pycnophylla* Gilg & Muschler, *Englerocharis alpaminae* (Gilg & Muschler) Baehni & J. F. Macbride
Ref. FP 13(2/3) 1938: 970; Al-Shehbaz, 1989c: 622.
Herb. Andean III: rocky slopes. 3500-4000 m.
Voucher: Weberbauer 5123* (B!), Macbride 3074 (MO!)
Depts.: JU

Brayopsis alpaminae subsp. **smithii** Al-Shehbaz
Ref. Al-Shehbaz, 1989c: 623.
Herb. Andean III: rocky slopes. > 4500 m.
Voucher: Smith *et al.* 10663* (MO!), Smith & Cautivo 10288 (MO!)
Depts.: AN

Brayopsis alpaminae var. *argentea* O. E. Schulz =Brayopsis calycina (Desvaux) Gilg & Muschler
Ref. Al-Shehbaz, 1989c: 620.

Brayopsis argentea Gilg & Muschler =Brayopsis calycina (Desvaux) Gilg & Muschler
Ref. Al-Shehbaz, 1989c: 620.

Brayopsis calycina (Desvaux) Gilg & Muschler
Syn. *Braya calycina* (Desvaux) Weddell, *Brayopsis alpaminae* var. *argentea* O. E. Schulz, *Brayopsis argentea* Gilg & Muschler, *Brayopsis calycina* fo. *leiophylla* O. E. Ref. FP 13(2/3) 1938: 963.

Cardamine sarmentosa Solander ex Forster =Rorippa sarmentosa (Solander ex Forster) J. F. Macbride
Ref. FP 13(2/3) 1938: 966.

Catadysia rosulans O. E. Schulz
Ref. FP 13(2/3) 1938: 971.
Herb. Andean III: grasslands, rocky slopes. > 4500 m.
Voucher: Weberbauer 7236* (B!), Duncan *et al.* 2637 (MO!)
Depts.: AN

Cheiranthus incanus L. =Matthiola incana (L.) R. Brown

Clypeola maritima L. =Lobularia maritima (L.) Desvaux
Ref. FP 13(2/3) 1938: 967.

Coronopus didymus (L.) Smith
Syn. *Lepidium didymum* L.
Ref. FP 13(2/3) 1938: 953; Gutte *et al.*, 1986: 191.
Herb. Andean I, Coastal. 0-1500 m.
Voucher: Müller 3638 (LZ, USM)
Depts.: LI, MO

Cremolobus aphanopterus A. Gray =Cremolobus chilensis (Lagasca ex DC.) DC.
Ref. FP 13(2/3) 1938: 941; Khanna & Rollins, 1965: 148.

Cremolobus benoistii J. F. Macbride =Cremolobus chilensis (Lagasca ex DC.) DC.
Ref. FP 13(2/3) 1938: 941; Khanna & Rollins, 1965: 149.

Cremolobus chilensis (Lagasca ex DC.) DC.
Syn. *Biscutella chilensis* Lagasca ex DC., *Cremolobus aphanopterus* A. Gray, *Cremolobus benoistii* J. F. Macbride, *Cremolobus humilis* Muschler, *Cremolobus parviflorus* Weddell, *Cremolobus paysonii* O. E. Schulz ex J. F. Macbride, *Cremolobus pinnatifidus* Hooker, *Cremolobus pinnatifidus* var. *integrifolius* A. Gray, *Cremolobus sinuatus* Hooker, *Cremolobus weberbaueri* Muschler
Ref. FP 13(2/3) 1938: 943; Khanna & Rollins, 1965: 148.
Herb. Andean I-III, Coastal: lomas, rocky slopes. 0-4500 m.
Voucher: Sagástegui & Mostacero 9102 (MO!)
Depts.: AN, AR, CA, LI, LL, MO

Cremolobus humilis Muschler =Cremolobus chilensis (Lagasca ex DC.) DC.
Ref. FP 13(2/3) 1938: 942; Khanna & Rollins, 1965: 148.

Cremolobus parviflorus Weddell =Cremolobus chilensis (Lagasca ex DC.) DC.
Ref. FP 13(2/3) 1938: 942; Khanna & Rollins, 1965: 148.

Cremolobus paysonii O. E. Schulz ex J. F. Macbride =Cremolobus chilensis (Lagasca ex DC.) DC.
Ref. FP 13(2/3) 1938: 942; Khanna & Rollins, 1965: 149.

Cremolobus peruvianus (Lamarck) DC.
Syn. *Biscutella peruviana* Lamarck, *Cremolobus pubescens* Hooker
Ref. FP 13(2/3) 1938: 943; Khanna & Rollins, 1965: 145.
Herb. Andean II. 2000-2500 m.
Voucher: Jussieu s.n.* (frag. F), Weberbauer 6673 (F)
Depts.: JU

Cremolobus pinnatifidus Hooker =Cremolobus chilensis (Lagasca ex DC.) DC.
Ref. FP 13(2/3) 1938: 943; Khanna & Rollins, 1965: 148.

Cremolobus pinnatifidus var. *integrifolius* A. Gray =Cremolobus chilensis (Lagasca ex DC.) DC.
Ref. FP 13(2/3) 1938: 942; Khanna & Rollins, 1965: 148.

Cremolobus pubescens Hooker =Cremolobus peruvianus (Lamarck) DC.
Ref. FP 13(2/3) 1938: 943; Khanna & Rollins, 1965: 145.

Cremolobus rhomboideus Hooker
Syn. *Urbanodoxa rhomboidea* (Hooker) Muschler
Ref. FP 13(2/3) 1938: 944; Khanna & Rollins, 1965: 155.
Herb. Andean II. 2500-3000 m.
Voucher: Mathews 1061* (K), Weberbauer 7296 (US)
Depts.: AN, LI, MO

Cremolobus sinuatus Hooker =Cremolobus chilensis (Lagasca ex DC.) DC.
Ref. FP 13(2/3) 1938: 943; Khanna & Rollins, 1965: 148.

Cremolobus stenophylla Muschler
Syn. *Loxoptera stenophylla* (Muschler) O. E. Schulz
Ref. FP 13(2/3) 1938: 940; Khanna & Rollins, 1965: 153.
Herb. Andean I: rocky slopes. 1000-1500 m.
Voucher: Weberbauer 5335* (F), Rose 19479 (US)
Depts.: LI

[Cremolobus subscandens Kuntze]
Ref. FP 13(2/3) 1938: 943; Khanna & Rollins, 1965: 144.
Note: Not known from Peru.

Cremolobus suffruticosus (DC.) DC.
Syn. *Biscutella suffruticosa* DC.
Ref. FP 13(2/3) 1938: 944; Khanna & Rollins, 1965: 147.
Endemic shrub.
Voucher: Dombey s.n.* (frag. F), Cerrate 2216 (GH)
Depts.: AN

Cremolobus weberbaueri Muschler =Cremolobus chilensis (Lagasca ex DC.) DC.
Ref. FP 13(2/3) 1938: 944; Khanna & Rollins, 1965: 149.

Dactylocardamum imbricatifolium Al-Shehbaz
Ref. Al-Shehbaz, 1989a: 519.
Endemic herb. Andean III: rocky slopes. > 4500 m.
Note: Known from Peru only from the type locality. Monotypic genus.
Voucher: Tothill 144* (UC!)
Depts.: AN

Descurainia athrocarpa (A. Gray) O. E. Schulz
Syn. *Descurainia gilgiana* Muschler, *Descurainia urbaniana* Muschler, *Sisymbrium athrocarpum* A. Gray
Ref. FP 13(2/3) 1938: 981.
Herb. Andean III: rocky slopes. > 4500 m.
Voucher: Maclean s.n.*, Smith *et al.* 11746 (MO!)
Depts.: AN, CU, JU, LI, TA

Descurainia depressa (Philippi) Reiche
Syn. *Descurainia depressa* var. *pflanzii* (Muschler) O. E. Schulz, *Sisymbrium*

depressum Philippi, *Sisymbrium myriophyllum* Walpers ex Meyen, *Sisymbrium titicacense* Weddell
Ref. FP 13(2/3) 1938: 981.
Herb. Andean III. > 4500 m.
Voucher: Meyen s.n.*, Kalenborn 135 (MO!)
Depts.: JU, LI, PU

Descurainia depressa var. *pflanzii* (Muschler) O. E. Schulz =Descurainia depressa (Philippi) Reiche
Ref. FP 13(2/3) 1938: 981.

Descurainia gilgiana Muschler =Descurainia athrocarpa (A. Gray) O. E. Schulz
Ref. FP 13(2/3) 1938: 981.

Descurainia leptoclada Muschler
Ref. FP 13(2/3) 1938: 981.
Herb.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 245* (B)
Depts.: LI

Descurainia macbridei O. E. Schulz =Descurainia myriophylla (Willdenow ex DC.) R. E. Fries
Ref. FP 13(2/3) 1938: 982.

Descurainia myriophylla (Willdenow ex DC.) R. E. Fries
Syn. *Descurainia macbridei* O. E. Schulz, *Descurainia myriophylla* var. *glandulosa* O. E. Schulz, *Descurainia perkinsiana* Muschler, *Descurainia pulcherrima* Muschler, *Sisymbrium myriophyllum* Willdenow ex DC.
Ref. FP 13(2/3) 1938: 982.
Herb. Andean II-III: disturbed areas. 2500-4000 m.
Voucher: Sagástegui 10378 (MO!)
Depts.: AN, AR, AY, CA, CU, HU, LI, PU

Descurainia myriophylla var. *glandulosa* O. E. Schulz =Descurainia myriophylla (Willdenow ex DC.) R. E. Fries
Ref. FP 13(2/3) 1938: 982.

Descurainia perkinsiana Muschler =Descurainia myriophylla (Willdenow ex DC.) R. E. Fries
Ref. FP 13(2/3) 1938: 983.

Descurainia pflanzii Muschler =Descurainia depressa (Philippi) Reiche
Ref. FP 13(2/3) 1938: 981.

Descurainia pulcherrima Muschler =Descurainia myriophylla (Willdenow ex DC.) R. E. Fries
Ref. FP 13(2/3) 1938: 983.

Descurainia titicacensis (Walpers) Lillo ex Hauman & Irigoyen
Syn. *Sisymbrium titicacense* Walpers, *Sisymbrium titicacense* Weddell
Ref. FP 13(2/3) 1938: 983.
Herb. Andean III. 3500- > 4500 m.
Voucher: Meyen s.n.*, Hutchison & Tovar 4247 (MO!)
Depts.: AY, CU, JU, LI, PU, TA

Descurainia urbaniana Muschler =Descurainia athrocarpa (A. Gray) O. E. Schulz
Ref. FP 13(2/3) 1938: 981.

Dictyophragmus englerianus (Muschler) O. E. Schulz
Syn. *Streptanthus englerianus* Muschler
Ref. FP 13(2/3) 1938: 967.
Herb. Coastal: lomas. 0-500 m.
Voucher: Weberbauer 1453* (B), Worth & Morrison 15762 (MO!)
Depts.: AR

Diplotaxis muralis (L.) DC.
Syn. *Sisymbrium murale* L.
Ref. Gutte *et al.*, 1986: 195.
Herb. Andean II-III: grasslands. 3000-4000 m.
Voucher: Gentry *et al.* 39763 (MO!)
Depts.: JU

Draba alchemilloides Gilg ex Gilg & Muschler
Ref. FP 13(2/3) 1938: 955.
Endemic herb. Andean III. > 4500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 2902* (B)
Depts.: AN

[Draba alyssoides Humboldt & Bonpland ex DC.]
Ref. FP 13(2/3) 1938: 955.
Note: Not known from Peru.

Draba araboides Weddell
Ref. FP 13(2/3) 1938: 956.
Herb. Andean I-II, Coastal. 0-2500 m.
Voucher: Gay s.n.* (P photo F!)
Depts.: CU, LI

Draba argentea O. E. Schulz
Ref. FP 13(2/3) 1938: 956.
Endemic herb. Andean III. 4000-4500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 5114* (B)
Depts.: JU

Draba atacamensis Gilg ex Gilg & Muschler
Ref. FP 13(2/3) 1938: 956.
Note: Not reconfirmed.

Draba brackenridgei A. Gray
Syn. *Draba cephalantha* Gilg
Ref. FP 13(2/3) 1938: 956.
Herb. Andean III. > 4500 m.
Voucher: Wilkes Exped. s.n.* (US), Macbride 3033 (MO!)
Depts.: JU

Draba calycina Desvaux =Brayopsis calycina (Desvaux) Gilg & Muschler
Ref. FP 13(2/3) 1938: 970; Al-Shehbaz, 1989c: 620.

Draba cephalantha Gilg =Draba brackenridgei A. Gray
Ref. FP 13(2/3) 1938: 956.

Draba chlorantha O. E. Schulz =Draba cryptantha Hooker f.
Ref. FP 13(2/3) 1938: 957.

Draba cryptantha Hooker f.
Syn. *Draba chlorantha* O. E. Schulz, *Draba cryptantha* var. *laxistellata* (Gilg & Brandt) O. E. Schulz, *Draba laxistellata* Gilg & Brandt ex O. E. Schulz, *Draba weberbaueri* Gilg & Muschler
Ref. FP 13(2/3) 1938: 957.
Herb. Andean III. 4000- > 4500 m.
Voucher: Smith *et al.* 11773B (MO!)
Depts.: AN, AY, CU, JU

Draba cryptantha var. *laxistellata* (Gilg & Brandt) O. E. Schulz =Draba cryptantha Hooker f.
Ref. FP 13(2/3) 1938: 957.

Draba cuzcoensis O. E. Schulz
Ref. FP 13(2/3) 1938: 958.
Endemic herb. Andean III. 4000-4500 m.
Note: Known from Peru only from the type locality.
Voucher: Stafford 264* (B)
Depts.: CU

Draba depressa Hooker
Herb. Andean III: rocky slopes. 4700-4800 m.
Voucher: Smith *et al.* 11773A (MO!)
Depts.: AN

Draba intricatissima Philippi =Eremodraba intricatissima (Philippi) O. E. Schulz

Draba laxistellata Gilg & Brandt ex O. E. Schulz =Draba cryptantha Hooker f.
Ref. FP 13(2/3) 1938: 957.

Draba macleanii Hooker f.
Syn. *Draba siliquosa* Ball
Ref. FP 13(2/3) 1938: 958.
Note: Not reconfirmed.

Draba matthioloides Gilg & O. E. Schulz subsp. **matthioloides**
Ref. FP 13(2/3) 1938: 958.
Endemic herb. Andean III: rocky slopes. 4000-4500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 4231* (B)
Depts.: AN

Draba matthioloides subsp. **saundersii** Al-Shehbaz
Ref. Al-Shehbaz, 1991: 70.
Endemic herb. Andean III. 4000-4500 m.
Note: Known from Peru only from the type locality.
Voucher: Saunders 926* (K!)
Depts.: LL

[*Draba muscosa* R. & P. ex Steudel =Draba verna L.]
Ref. Al-Shehbaz, pers. comm.

Draba ochropetala O. E. Schulz
Ref. FP 13(2/3) 1938: 959.
Endemic herb. Andean III. > 4500 m.
Note: Known from Peru only from the

type locality.
Voucher: Weberbauer 7233* (B photo F!)
Depts.: AN

Draba pavonii Gilg =Draba peruviana (DC.) O. E. Schulz
Ref. FP 13(2/3) 1938: 959.

Draba peruviana (DC.) O. E. Schulz
Syn. *Berteroa peruviana* DC., *Draba pavonii* Gilg, *Farsetia peruviana* Sprengel
Ref. FP 13(2/3) 1938: 959.
Herb. Andean III. 3500- > 4500 m.
Voucher: Ruiz & Pavón s.n.* (G-DC.), Macbride 4440 (MO!)
Depts.: HU

Draba pickeringii A. Gray
Ref. FP 13(2/3) 1938: 959.
Herb. Andean III. 4000- > 4500 m.
Voucher: Wilkes Exped. s.n.* (US)
Depts.: JU, LI

Draba schusteri O. E. Schulz
Ref. FP 13(2/3) 1938: 960.
Endemic herb. Andean II: grasslands. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6033* (B)
Depts.: PI

Draba scopulorum Weddell
Ref. FP 13(2/3) 1938: 960.
Note: Not reconfirmed.

Draba siliquosa Ball =Draba macleanii Hooker f.
Ref. FP 13(2/3) 1938: 958.

Draba solitaria O. E. Schulz
Ref. FP 13(2/3) 1938: 960.
Endemic herb. Andean III. 4000-4500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 7235* (B photo F!)
Depts.: AN

Draba soratensis Gilg & Muschler
Ref. FP 13(2/3) 1938: 956.
Note: Not reconfirmed.

[Draba verna L.]
Ref. Al-Shehbaz, pers. comm.
Syn. *Draba muscosa* R. & P. ex Steudel
Note: Not known from Peru.

Draba weberbaueri Gilg & Muschler =Draba cryptantha Hooker f.
Ref. FP 13(2/3) 1938: 957.

Draba wurdackii Al-Shehbaz
Ref. Al-Shehbaz, 1991: 68.
Endemic herb. Andean III. 3500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 1577* (US!)
Depts.: AM

Englerocharis alpaminae (Gilg & Muschler) Baehni & J. F. Macbride =Brayopsis alpaminae subsp. alpaminae
Ref. FP 13(2/3) 1938: 970.

Englerocharis alpaminae var. *argentea* (Gilg & Muschler) Baehni & J. F. Macbride =Brayopsis calycina (Desvaux) Gilg & Muschler
Ref. FP 13(2/3) 1938: 970; Al-Shehbaz, 1989c: 620.

Englerocharis calycina (Desvaux) Baehni & J. F. Macbride =Brayopsis calycina (Desvaux) Gilg & Muschler
Ref. FP 13(2/3) 1938: 970; Al-Shehbaz, 1989c: 620.

Englerocharis calycina var. *filiformis* (O. E. Schulz) Baehni & J. F. Macbride =Brayopsis calycina (Desvaux) Gilg & Muschler
Ref. FP 13(2/3) 1938: 970; Al-Shehbaz, 1989c: 620.

Englerocharis pauciflora Al-Shehbaz
Ref. Al-Shehbaz, 1989c: 624.
Endemic herb. Andean III: grasslands. 3500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Smith 5684* (MO!)
Depts.: JU

Englerocharis peruviana Muschler
Syn. *Englerocharis peruviana* var. *leiocarpa* O. E. Schulz
Ref. FP 13(2/3) 1938: 970; Al-Shehbaz, 1989c: 624.
Herb. Andean III: rocky slopes. 4000- > 4500 m.
Voucher: Weberbauer 331* (B!), Macbride & Featherstone 869 (F!)
Depts.: AN, JU, LI

Englerocharis peruviana var. *leiocarpa* O. E. Schulz =Englerocharis peruviana Muschler
Ref. FP 13(2/3) 1938: 971; Al-Shehbaz, 1989c: 624.

Englerocharis weberbaueri (Gilg & Muschler) Baehni & J. F. Macbride =Brayopsis calycina (Desvaux) Gilg & Muschler
Ref. FP 13(2/3) 1938: 971; Al-Shehbaz, 1989c: 620.

Eremodraba hinkleyana O. E. Schulz, nom. illeg. =Eremodraba schulzii Al-Shehbaz
Ref. FP 13(2/3) 1938: 969; Al-Shehbaz, 1990f: 602.

Eremodraba intricatissima (Philippi) O. E. Schulz
Syn. *Draba intricatissima* Philippi
Ref. Gutte *et al.*, 1986: 195.
Herb. Andean II. 2000-2500 m.
Voucher: Solomon 2770 (MO!)
Depts.: AR

Eremodraba schulzii Al-Shehbaz
Syn. *Eremodraba hinkleyana* O. E. Schulz, nom. illeg.
Ref. Al-Shehbaz, 1990f: 602.
Herb. Andean II. 2000-2500 m.
Voucher: Rauh & Hirsch P508* (GH!), Sandeman 3944 (OXF!)
Depts.: AR

Erysimum officinale L. =Sisymbrium officinale (L.) Scopoli
Ref. FP 13(2/3) 1938: 978.

[*Erysimum pusillum* Gillies ex Hooker & Arnott =Weberbauera colchaguensis (Barnéoud) Al-Shehbaz]
Ref. FP 13(2/3) 1938: 972; Al-Shehbaz, 1990d: 241.
Note: Not known from Peru.

Erysimum ramosissimum Muschler =Sisymbrium gracile Weddell
Ref. FP 13(2/3) 1938: 978.

Eudema incurva Al-Shehbaz
Ref. Al-Shehbaz, 1990a: 101.
Endemic herb. Andean III: grasslands, riversides. 4000-4500 m.
Note: Known from Peru only from the type locality.
Voucher: Molau & Eriksen 3512* (GB!)
Depts.: AN

Eudema trichocarpa Muschler =Weberbauera trichocarpa (Muschler) J. F. Macbride
Ref. FP 13(2/3) 1938: 973; Al-Shehbaz, 1990d: 240.

Farsetia peruviana Sprengel =Draba peruviana (DC.) O. E. Schulz
Ref. Al-Shehbaz, pers. comm.

Greggia arabioides Muschler =Halimolobus hispidula var. hispidula
Ref. FP 13(2/3) 1938: 977.

Greggia montana Grisebach =Halimolobus montanus (Grisebach) O. E. Schulz

Halimolobus hispidula (DC.) O. E. Schulz var. **hispidula**
Syn. *Arabis andicola* Walpers ex Meyen, *Greggia arabioides* Muschler, *Halimolobus weddellii* O. E. Schulz, *Sisymbrium hispidulum* (DC.) Triana & Planchon, *Sisymbrium hispidulum* var. *weddellii* (Fournier) Baehni & J. F. Macbride, *Turritis hispidula* DC.
Ref. FP 13(2/3) 1938: 976.
Note: Not reconfirmed.

Halimolobus hispidula var. **herrerae** (O. E. Schulz) Rollins
Ref. FP 13(2/3) 1938: 977.
Syn. *Halimolobus weddellii* var. *herrerae* O. E. Schulz, *Sisymbrium hispidulum* var. *herrerae* (O. E. Schulz) Baehni & J. F. Macbride
Note: Not reconfirmed.

Halimolobus montana (Grisebach) O. E. Schulz
Syn. *Greggia montana* Grisebach
Herb. Andean II-III. 2500-4000 m.
Voucher: Tupayachi & Galiano 798 (MO!)
Depts.: AP, CU

Halimolobus weddellii O. E. Schulz =Halimolobus hispidula var. hispidula
Ref. FP 13(2/3) 1938: 976.

Halimolobus weddellii var. *herrerae* O. E. Schulz =Halimolobus hispidula var. herrerae (O. E. Schulz) Rollins
Ref. FP 13(2/3) 1938: 977.

Hesperis calycina (Desvaux) Kuntze =Brayopsis calycina (Desvaux) Gilg & Muschler
Ref. Al-Shehbaz, 1989c: 620.

Hesperis peruviana (DC.) Kuntze =Sisymbrium peruvianum DC.
Ref. Romanczuk, 1982: 85.

Heterothrix gracilis (Weddell) O. E. Schulz =Sisymbrium gracile Weddell
Ref. FP 13(2/3) 1938: 976.

Isatis tinctoria L.
Ref. FP 13(2/3) 1938: 951.
Note: Not reconfirmed. Native of Europe and widely cultivated.

Kardanoglyphos nana Schlechtendal =Rorippa nana (Schlechtendal) J. F. Macbride
Ref. FP 13(2/3) 1938: 965.

Lepidium abrotanifolium Turczaninow
Ref. FP 13(2/3) 1938: 947; Hitchcock, 1945: 89.
Herb. Andean II. 2000-2500 m.
Voucher: Macbride & Featherstone 484 (F)
Depts.: JU, LI

Lepidium affine Weddell =Lepidium weddellii O. E. Schulz
Ref. FP 13(2/3) 1938: 951; Hitchcock, 1945: 85.

Lepidium aletes J. F. Macbride
Syn. *Lepidium calycinum* Godron
Ref. FP 13(2/3) 1938: 948; Hitchcock, 1945: 106.
Note: Not reconfirmed.

Lepidium bipinnatifidum Desvaux
Syn. *Lepidium humboldtii* DC., *Lepidium sectifolium* Steudel
Ref. FP 13(2/3) 1938: 948; Hitchcock, 1945: 110.
Herb. Andean II-III: grasslands, shrublands. 2500-4500 m.
Voucher: Davis *et al.* 1619 (MO!)
Depts.: AN, AR, CA, CU, HU, LI, LL, PU

Lepidium calycinum Godron =Lepidium aletes J. F. Macbride
Ref. FP 13(2/3) 1938: 948; Hitchcock, 1945: 106.

Lepidium chichicara Desvaux
Ref. FP 13(2/3) 1938: 949; Hitchcock, 1945: 95.
Herb. Andean I-II: rocky slopes. 500-3000 m.
Voucher: Metcalf 30307 (MO!)
Depts.: AP, AR, AY, CA, LI, PU

Lepidium chichicara var. *lanceolatum* Thellung =Lepidium depressum Thellung
Ref. FP 13(2/3) 1938: 951; Hitchcock, 1945: 95.

Lepidium cyclocarpum Thellung
Ref. FP 13(2/3) 1938: 949.
Shrub. Coastal: rocky slopes. 500-1000 m.
Note: Material not determined to variety.
Voucher: Weberbauer 1614 (B)
Depts.: AR, LI

Lepidium cyclocarpum var. **crassius** C. Hitchcock
Ref. Hitchcock, 1945: 94.
Endemic herb. Andean I. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Worth & Morrison 15701* (MO!)
Depts.: AR

Lepidium depressum Thellung
Syn. *Lepidium chichicara* var. *lanceolatum* Thellung, *Lepidium lanceolatum* Walpers, *Lepidium walpersii* J. F. Macbride
Ref. Hitchcock, 1945: 98.
Herb. Andean III: disturbed areas. 4000-4500 m.
Voucher: Sullivan & Sullivan 818 (MO!)
Depts.: JU

Lepidium didymum L. =Coronopus didymus (L.) Smith
Ref. FP 13(2/3) 1938: 953.

Lepidium gelidum Weddell =Lepidium meyenii Walpers
Ref. FP 13(2/3) 1938: 949.

Lepidium humboldtii DC. =Lepidium bipinnatifidum Desvaux
Ref. FP 13(2/3) 1938: 948; Hitchcock, 1945: 110.

Lepidium kalenbornii L. C. Hitchcock
Ref. Hitchcock, 1945: 88.
Endemic herb. Andean II-III. 3000-4500 m.
Voucher: Kalenborn 20* (GH!)
Depts.: AY

Lepidium lanceolatum Walpers =Lepidium depressum Thellung
Ref. FP 13(2/3) 1938: 951; Hitchcock, 1945: 98.

Lepidium meyenii Walpers
Syn. *Lepidium gelidum* Weddell
Ref. FP 13(2/3) 1938: 949; Hitchcock, 1945: 85.
Cultivated herb. Andean III: disturbed areas. 4000-4500 m.
Voucher: Macbride 3022 (F)
Depts.: MO, PU

Lepidium meyenii var. *affine* Thellung =Lepidium weddellii O. E. Schulz
Ref. FP 13(2/3) 1938: 951; Hitchcock, 1945: 85.

Lepidium peruvianum G. Chacón de Popovici
Ref. Chacón de Popovici, 1990: 202.
Herb. Andean III. 4000-4500 m.
Voucher: Chacón de Popovici 89129* (USM)
Depts.: JU, PA

Lepidium pubescens Desvaux
Ref. Hitchcock, 1945: 122.
Herb.
Voucher: Dombey s.n.* (P photo F), Weberbauer 5310 (F)
Depts.: LI

Lepidium raimondii O. E. Schulz
Ref. FP 13(2/3) 1938: 950; Hitchcock, 1945: 122.
Herb. Coastal: lomas. 0-500 m.
Voucher: Raimondi 7538* (B), López *et al.* 8406 (MO!)
Depts.: CA, LL

Lepidium sectifolium Steudel =Lepidium bipinnatifidum Desvaux
Ref. Al-Shehbaz, pers. comm.

Lepidium subvaginatum Steudel, nom. illeg. =Lepidium subvaginatum Thellung
Ref. FP 13(2/3) 1938: 950; Hitchcock, 1945: 112.

Lepidium subvaginatum Thellung
Syn. *Lepidium subvaginatum* Steudel, nom. illeg.
Ref. FP 13(2/3) 1938: 950; Hitchcock, 1945: 112.
Note: Not reconfirmed.

Lepidium virginicum L.
Ref. FP 13(2/3) 1938: 950; Hitchcock, 1945: 130; Rollins, 1948: 106.
Introduced herb. Andean I-II, Coastal: disturbed areas. 0-1500 m.
Voucher: Croat 58393 (MO!)
Depts.: CA, LI, LL, MO, PI

Lepidium walpersii J. F. Macbride =Lepidium depressum Thellung
Ref. FP 13(2/3) 1938: 951; Hitchcock, 1945: 98.

Lepidium weddellii O. E. Schulz
Syn. *Lepidium affine* Weddell, *Lepidium meyenii* var. *affine* Thellung
Ref. FP 13(2/3) 1938: 951; Hitchcock, 1945: 87.
Herb. Coastal: disturbed areas. 0-500 m.
Voucher: Kalenborn 132 (MO!)
Depts.: LI

Lobularia maritima (L.) Desvaux
Syn. *Alyssum maritimum* (L.) Lamarck, *Clypeola maritima* L.
Ref. FP 13(2/3) 1938: 967.
Note: Not reconfirmed.

Loxoptera stenophylla (Muschler) O. E. Schulz =Cremolobus stenophylla Muschler
Ref. FP 13(2/3) 1938: 940; Khanna & Rollins, 1965: 153.

Machaerophorus matthioloides Schlechtendal =Mathewsia matthioloides (Schlechtendal) C. Muller
Ref. FP 13(2/3) 1938: 968.

[Mancoa foliosa (Weddell) O. E. Schultz]
Ref. FP 13(2/3) 1938: 952.
Note: Not known from Peru.

[Mancoa laevis Weddell]
Ref. FP 13(2/3) 1938: 952.
Note: Not known from Peru. Known only from the type, collected in Bolivia.

Mancoa hispida Weddell
Ref. FP 13(2/3) 1938: 952.
Herb. Andean III. > 4500 m.
Voucher: Weddell s.n.* (P), Smith & Torres 11810 (MO!)
Depts.: AN, AR, MO, TA

Mathewsia densifolia Rollins
Ref. Rollins, 1966: 110.
Herb. Coastal: rocky slopes. 0-1000 m.
Voucher: Ferreyra 11678* (GH)
Depts.: AR

Mathewsia matthioloides (Schlechtendal) C. Muller
Syn. *Machaerophorus matthioloides* Schlechtendal
Ref. FP 13(2/3) 1938: 968.
Endemic herb.
Note: Known from Peru only from the type locality.
Voucher: Lechler 1702* (B)
Depts.: PU

Mathewsia peruviana O. E. Schulz
Ref. FP 13(2/3) 1938: 968.
Endemic herb. Coastal: lomas. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Raimondi s.n.* (B)
Depts.: AR

Matthiola incana (L.) R. Brown
Syn. *Cheiranthus incanus* L.
Herb. Andean III. 3500-4000 m.
Voucher: Brunel 257 (MO!)
Depts.: CU

Nasturtium bonariense (Poiret) DC. =Rorippa bonariensis (Poiret) Macloskey
Ref. FP 13(2/3) 1938: 965.

Nasturtium clandestinum Sprengel =Rorippa clandestina var. clandestina
Ref. FP 13(2/3) 1938: 965.

Nasturtium clandestinum var. *brevistylum* O. E. Schulz =Rorippa clandestina var. clandestina
Ref. FP 13(2/3) 1938: 965.

Nasturtium clandestinum var. *sodiroi* O. E. Schulz =Rorippa clandestina var. sodiroi (O. E. Schulz) J. F. Macbride
Ref. FP 13(2/3) 1938: 965.

[*Nasturtium eggersii* O. E. Schulz =Rorippa eggersii (O. E. Schulz) J. F. Macbride]
Ref. FP 13(2/3) 1938: 965.
Note: Not known from Peru.

Nasturtium erectum Trevisan ex Sweet =Rorippa bonariensis (Poiret) Macloskey
Ref. FP 13(2/3) 1938: 965.

Nasturtium fontanum (Lamarck) Ascherson =Rorippa nasturtium-aquaticum (L.) Hayek
Ref. FP 13(2/3) 1938: 966.

Nasturtium nanum (Schlectendal) Weddell =Rorippa nana (Schlechtendal) J. F. Macbride
Ref. FP 13(2/3) 1938: 965.

Nasturtium officinale R. Brown =Rorippa nasturtium-aquaticum (L.) Hayek
Ref. FP 13(2/3) 1938: 966.

Nasturtium sarmentosum O. E. Schulz =Rorippa sarmentosa (Forster ex DC.) J. F. Macbride
Ref. FP 13(2/3) 1938: 966.

Nasturtium sinapis (Burman f.) O. E. Schulz =Rorippa indica (L.) Hiern
Ref. FP 13(2/3) 1938: 967.

[*Neuontobotrys berningeri* O. E. Schulz =Sisymbrium berningeri (O. E. Schulz) Baehni & J. F. Macbride]
Ref. FP 13(2/3) 1938: 975.
Note: Not known from Peru.

Pelagatia bracteata O. E. Schulz =Weberbauera bracteata (O. E. Schulz) J. F. Macbride
Ref. FP 13(2/3) 1938: 972; Al-Shehbaz, 1990d: 237.

Pennellia gracilis O. E. Schulz =Sisymbrium gracile Weddell
Ref. FP 13(2/3) 1938: 976; Al-Shehbaz, 1990c: 13.

Phlebiophragmus macrorrhizus (Muschler) O. E. Schulz =Sisymbrium gracile Weddell
Ref. FP 13(2/3) 1938: 978; Al-Shehbaz, 1990c: 13.

Phlebiophragmus macrorrhizus var. *meyenii* O. E. Schulz =Sisymbrium gracile Weddell
Ref. FP 13(2/3) 1938: 978.

Phlebiophragmus macrorrhizus var. *ramosissimus* O. E. Schulz =Sisymbrium gracile Weddell
Ref. FP 13(2/3) 1938: 978.

Raphanus raphanistrum L.
Syn. *Raphanus raphanistrum* fo. *carneus* (Schweigger & Koerte) Thellung, *Raphanus raphanistrum* var. *purpurascens* Dumortier
Ref. FP 13(2/3) 1938: 946.
Introduced herb. Andean II-III. 2000-3500 m.
Voucher: Brunel 924 (MO!)
Depts.: CA, CU, HU

Raphanus raphanistrum fo. *carneus* (Schweigger & Koerte) Thellung =Raphanus raphanistrum L.
Ref. FP 13(2/3) 1938: 945.

Raphanus raphanistrum var. *purpurascens* Dumortier =Raphanus raphanistrum L.
Ref. FP 13(2/3) 1938: 946.

Raphanus sativus L.
Ref. FP 13(2/3) 1938: 946.
Cultivated herb. Andean II: disturbed areas. 2000-2500 m.
Voucher: Macbride & Featherstone 172 (F)
Depts.: CU, LI

Rorippa bonariensis (Poiret) Macloskie
Syn. *Nasturtium bonariense* (Poiret) DC., *Nasturtium erectum* Trevisan ex Sweet, *Sisymbrium bonariense* Poiret, *Sisymbrium mandonii* Fournier
Ref. FP 13(2/3) 1938: 965.
Note: Not reconfirmed.

Rorippa clandestina (Sprengel) J. F. Macbride var. **clandestina**
Syn. *Nasturtium clandestinum* Sprengel, *Nasturtium clandestinum* var. *brevistylum* O. E. Schulz
Ref. FP 13(2/3) 1938: 965.
Note: Not reconfirmed.

Rorippa clandestina var. **sodiroi** (O. E. Schulz) J. F. Macbride
Syn. *Nasturtium clandestinum* var. *sodiroi* O. E. Schulz
Ref. FP 13(2/3) 1938: 965.
Note: Not reconfirmed.

[Rorippa eggersii (O. E. Schulz) J. F. Macbride]
Syn. *Nasturtium eggersii* O. E. Schultz
Ref. FP 13(2/3) 1938: 965.
Note: Not known from Peru.

Rorippa indica (L.) Hiern
Syn. *Nasturtium sinapis* (Burman f.) O. E. Schulz, *Rorippa sinapis* (Burman f.) J. F. Macbride, *Sisymbrium indicum* L., *Sisymbrium sinapis* Burman f.
Ref. Hara, 1955: 197.
Note: Not reconfirmed. Native to India and widely naturalized elsewhere.

Rorippa nana (Schlechtendal) J. F. Macbride
Syn. *Cardamine nana* C. Mueller, *Kardanoglyphos nana* Schlechtendal, *Nasturtium nanum* (Schlectendal) Weddell

Ref. FP 13(2/3) 1938: 965, Al-Shehbaz, pers. comm.
Aquatic herb. Andean III. 3500-4000 m.
Voucher: Lechler 2583* (B), Núñez 7617 (MO!)
Depts.: CU, LO, PU

Rorippa nasturtium-aquaticum (L.) Hayek
Syn. *Nasturtium fontanum* (Lamarck) Ascherson, *Nasturtium officinale* R. Brown, *Sisymbrium nasturtium-aquaticum* L.
Ref. FP 13(2/3) 1938: 966.
Introduced aquatic herb. Andean II-III. 2500-4000 m.
Voucher: Tupayachi & Galiano 779 (MO!)
Depts.: AN, AP, AR, CA, CU, JU, LI, LL, PU

Rorippa palustris (L.) Besser
Syn. *Sisymbrium amphibium* var. *palustre* L.
Herb. Amazonian: riversides. 0-500 m.
Voucher: Foster 9549 (MO!)
Depts.: MD, SM

Rorippa sarmentosa (Forster ex DC.) J. F. Macbride
Syn. *Cardamine sarmentosa* Forster ex DC., *Nasturtium sarmentosum* O. E. Schulz
Ref. FP 13(2/3) 1938: 966.
Note: Not reconfirmed. Native to Polynesia.

Rorippa sinapis (Burman f.) J. F. Macbride =Rorippa indica (L.) Hiern
Ref. FP 13(2/3) 1938: 967; Hara, 1955: 197.

Sarcodraba herzogii O. E. Schulz =Weberbauera herzogii (O. E. Schulz) Al-Shehbaz
Ref. Al-Shehbaz, 1990d: 236.

Sinapis juncea L. =Brassica juncea (L.) Cosson
Ref. FP 13(2/3) 1938: 945.

Sinapis nigra L. =Brassica nigra (L.) Koch
Ref. FP 13(2/3) 1938: 945.

Sisymbrium amphibium var. *palustre* L. =Rorippa palustris (L.) Besser

Sisymbrium amplexicaule A. Gray, nom. illeg. =Sisymbrium grayanum Baehni & J. F. Macbride
Ref. FP 13(2/3) 1938: 976.

Sisymbrium amplexicaule var. *tenuicaule* O. E. Schulz =Sisymbrium grayanum Bachni & J. F. Macbride
Ref. FP 13(2/3) 1938: 976.

Sisymbrium anomalum Weddell =Sisymbrium peruvianum DC.
Ref. FP 13(2/3) 1938: 979; Romanczuk, 1982: 85.

Sisymbrium arequipanum Al-Shehbaz
Ref. Al-Shehbaz, 1989b: 1176.
Endemic herb. Andean III: rocky slopes. 4000-4500 m.
Voucher: Stafford 674* (F), Straw 2326 (US)
Depts.: AR

Sisymbrium athrocarpum A. Gray =Descurainia athrocarpa (A. Gray) O. E. Schulz
Ref. FP 13(2/3) 1938: 981.

[Sisymbrium berningeri (O. E. Schulz) Bachni & J. F. Macbride
Syn. *Neuontobotrys berningeri* O. E. Schulz]
Ref. FP 13(2/3) 1938: 975.
Note: Not known from Peru.

Sisymbrium bonariense Poiret =Rorippa bonariensis (Poiret) Macloskie
Ref. FP 13(2/3) 1938: 965.

Sisymbrium calycinum (Desvaux) Weddell =Brayopsis calycina (Desvaux) Gilg & Muschler
Ref. FP 13(2/3) 1938: 970; Al-Shehbaz, 1989c: 620.

Sisymbrium ciliolatum Fournier =Weberbauera spathulifolia (A. Gray) O. E. Schulz
Ref. FP 13(2/3) 1938: 972.

Sisymbrium depressum Philippi =Descurainia depressa (Philippi) Reiche
Ref. FP 13(2/3) 1938: 981.

Sisymbrium effusum O. E. Schulz
Ref. FP 13(2/3) 1938: 975.
Endemic herb. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6499* (B)
Depts.: HV

Sisymbrium fragile Weddell =Sisymbrium lanatum (Walpers) O. E. Schulz
Ref. FP 13(2/3) 1938: 977, Al-Shehbaz, pers. comm.

Sisymbrium gracile Weddell
Syn. *Erysimum ramosissimum* Muschler, *Heterothrix gracilis* (Weddell) O. E. Schulz, *Pennellia gracilis* O. E. Schulz, *Phlebiophragmus macrorrhizus* (Muschler) O. E. Schulz, *Phlebiophragmus macrorrhizus* var. *meyenii* O. E. Schulz, *Phlebiophragmus macrorrhizus* var. *ramosissimus* O. E. Schulz, *Sisymbrium macrorrhizum* (Muschler) J. F. Macbride, *Sisymbrium macrorrhizum* var. *meyenii* (O. E. Schulz) J. F. Macbride, *Sisymbrium macrorrhizum* var. *ramosissimum* (Muschler) J. F. Macbride, *Sisymbrium meyenii* O. E. Schulz, *Thelypodium macrorrhizum* Muschler
Ref. FP 13(2/3) 1938: 976; Al-Shehbaz, 1990c: 13.
Herb. Andean II-III: shrublands. 2500-4000 m.
Voucher: Weddell s.n.* (P), Tupayachi 976 (MO!)
Depts.: CU, TA

Sisymbrium grayanum Baehni & J. F. Macbride
Syn. *Sisymbrium amplexicaule* A. Gray, nom. illeg., *Sisymbrium amplexicaule* var. *tenuicaule* O. E. Schulz, *Sisymbrium grayanum* var. *tenuicaule* (O. E. Schulz) Baehni & J. F. Macbride
Ref. FP 13(2/3) 1938: 976.
Herb. Andean I: rocky slopes. 1000-1500 m.
Voucher: Wilkes Exped. s.n.* (US)
Depts.: AN, LI

Sisymbrium grayanum var. *tenuicaule* (O. E. Schulz) Baehni & J. F. Macbride =Sisymbrium grayanum Baehni & J. F. Macbride
Ref. FP 13(2/3) 1938: 976.

Sisymbrium hispidulum (DC.) Triana & Planchon =Halimolobus hispidula var. hispidula
Ref. FP 13(2/3) 1938: 976.

Sisymbrium hispidulum var. *herrerae* (O. E. Schulz) Baehni & J. F. Macbride =Halimolobus hispidula var. herrerae (O. E. Schulz) Rollins
Ref. FP 13(2/3) 1938: 977.

Sisymbrium hispidulum var. *weddellii* (Fournier) Baehni & J. F. Macbride =Halimolobus hispidula var. hispidula
Ref. FP 13(2/3) 1938: 977.

Sisymbrium indicum L. =Rorippa indica (L.) Hiern

Sisymbrium lanatum (Walpers) O. E. Schulz
Syn. *Arabis lanata* Walpers, *Sisymbrium fragile* Weddell, *Sisymbrium lanatum* var. *fragile* (Weddell) O. E. Schulz
Ref. FP 13(2/3) 1938: 977.
Herb. Andean II: rocky slopes. 2500-3000 m.
Voucher: Meyen s.n.* (B), Solomon 2829 (MO!)
Depts.: AR

Sisymbrium lanatum var. *fragile* (Weddell) O. E. Schulz =Sisymbrium lanatum (Walpers) O. E. Schulz
Ref. FP 13(2/3) 1938: 977.

Sisymbrium llatasii Al-Shehbaz
Ref. Al-Shehbaz, 1990e: 219.
Endemic herb. Coastal. 500-1000 m.
Voucher: Llatas 2102* (F!), Llatas 331 (NY!)
Depts.: LA

Sisymbrium macrorrhizum (Muschler) J. F. Macbride =Sisymbrium gracile Weddell
Ref. FP 13(2/3) 1938: 978; Al-Shehbaz, 1990c: 13.

Sisymbrium macrorrhizum var. *meyenii* (O. E. Schulz) J. F. Macbride =Sisymbrium gracile Weddell
Ref. FP 13(2/3) 1938: 978.

Sisymbrium macrorrhizum var. *ramosissimum* (Muschler) J. F. Macbride =Sisymbrium gracile Weddell
Ref. FP 13(2/3) 1938: 978.

Sisymbrium mandonii Fournier =Rorippa bonariensis (Poiret) Macloskey
Ref. FP 13(2/3) 1938: 965.

Sisymbrium meyenii O. E. Schulz =Sisymbrium gracile Weddell
Ref. FP 13(2/3) 1938: 978.

Sisymbrium morrisonii Al-Shehbaz
Ref. Al-Shehbaz, 1990c: 219.
Endemic herb. Coastal: lomas. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Worth & Morrison 15729* (UC!)
Depts.: AR

Sisymbrium murale L. =Diplotaxis muralis (L.) DC.

Sisymbrium myriophyllum Walpers ex Meyen =Descurainia depressa (Philippi) Reiche
Ref. FP 13(2/3) 1938: 981.

Sisymbrium myriophyllum Willdenow ex DC. =Descurainia myriophylla (Willdenow ex DC.) R. E. Fries
Ref. FP 13(2/3) 1938: 982.

Sisymbrium nasturtium-aquaticum L. =Rorippa nasturtium-aquaticum (L.) Hayek
Ref. FP 13(2/3) 1938: 966.

Sisymbrium officinale (L.) Scopoli
Syn. *Erysimum officinale* L.
Ref. FP 13(2/3) 1938: 978.
Introduced herb. Andean II: disturbed areas. 2000-3000 m.
Voucher: López 8305 (MO!)
Depts.: AR, CA, LI, MO

Sisymbrium oleraceum O. E. Schulz
Ref. FP 13(2/3) 1938: 979.
Herb. Andean II: disturbed areas. 3000-3500 m.
Voucher: Tafalla s.n.* (B), Núñez 7479 (MO!)
Depts.: CU

Sisymbrium orientale L.
Ref. Romanczuk, 1982: 152.
Introduced herb. Andean II: disturbed areas. 1500-2500 m.
Voucher: Sullivan *et al.* 975 (MO!)
Depts.: LI

Sisymbrium pectinifolium Al-Shehbaz
Ref. Al-Shehbaz, 1990c: 14.
Endemic herb. Andean II. 2500-3500 m.
Voucher: Rose 18832 (US!)
Depts.: AR

Sisymbrium peruvianum DC.
Syn. *Arabis bracteata* Weddell, *Hesperis peruviana* (DC.) Kuntze, *Sisymbrium anomalum* Weddell
Ref. FP 13(2/3) 1938: 979; Romanczuk, 1982: 85.
Herb. Andean II-III: rocky slopes. 2500-4500 m.
Voucher: Ruiz & Pavón s.n.* (B photo F!), Núñez *et al.* 7826 (MO!)
Depts.: CU, JU, LI, MO, PU

Sisymbrium sinapis Burman f. =Rorippa indica (L.) Hiern
Ref. FP 13(2/3) 1938: 967.

Sisymbrium spathulifolium A. Gray =Weberbauera spathulifolia (A. Gray) O. E. Schulz
Ref. FP 13(2/3) 1938: 972; Al-Shehbaz, 1990d: 227.

Sisymbrium titicacense Walpers =Descurainia titicacensis (Walpers) Lillo ex Hauman & Irigoyen
Ref. FP 13(2/3) 1938: 983.

Sisymbrium titicacense Weddell =Descurainia titicacensis (Walpers) Lillo ex Hauman & Irigoyen
Ref. FP 13(2/3) 1938: 982.

Sisymbrium weberbaueri O. E. Schulz
Ref. FP 13(2/3) 1938: 979.
Endemic herb.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 7426* (F)
Depts.: MO

Streptanthus englerianus Muschler =Dictyophragmus englerianus (Muschler) O. E. Schulz
Ref. FP 13(2/3) 1938: 967.

Thelypodium macrorrhizum Muschler =Sisymbrium gracile Weddell
Ref. FP 13(2/3) 1938: 978.

Thlaspi bursa-pastoris L. =Capsella bursa-pastoris (L.) Medicus
Ref. FP 13(2/3) 1938: 952.

Turritis hispidula DC. =Halimolobus hispidula var. hispidula
Ref. FP 13(2/3) 1938: 977.

Urbanodoxa rhomboidea (Hooker) Muschler =Cremolobus rhomboideus Hooker
Ref. FP 13(2/3) 1938: 944; Khanna & Rollins, 1965: 155.

Weberbauera bracteata (O. E. Schulz) J. F. Macbride
Syn. *Pelagatia bracteata* O. E. Schulz
Ref. FP 13(2/3) 1938: 972; Al-Shehbaz, 1990d: 237.
Endemic herb. Andean III. 4000-4500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 7234* (B photo F!)
Depts.: AN

[Weberbauera colchaguense (Barnéoud) Al-Shehbaz]
Syn. *Erysimum pusillum* Gillies ex Hooker & Arnott, *Weberbauera pusilla* (Gillies) O. E. Schulz
Ref. Al-Shehbaz, 1990d: 241.
Note: Not known from Peru.

Weberbauera densiflora Gilg & Muschler =Weberbauera spathulifolia (A. Gray) O. E. Schulz
Ref. FP 13(2/3) 1938: 972; Al-Shehbaz, 1990d: 227.

Weberbauera herzogii (O. E. Schulz) Al-Shehbaz
Syn. *Sarcodraba herzogii* O. E. Schulz
Ref. Al-Shehbaz, 1990d: 236.
Herb. Andean II-III. 3000-4500 m.
Voucher: Shepard 38 (GH!)
Depts.: PU

Weberbauera minutipila Al-Shehbaz
Ref. Al-Shehbaz, 1990d: 231.
Herb. Andean III: rocky slopes. 3500-4000 m.
Voucher: Iltis & Ugent 1455* (GH!), Iltis & Ugent 1415 (WIS!)
Depts.: AR

Weberbauera perforata Al-Shehbaz
Ref. Al-Shehbaz, 1990g: 841.
Endemic herb. Andean III. > 4500 m.
Voucher: Hirsch P1255* (GH!), Hirsch P1215 (GH!)
Depts.: CU

[*Weberbauera pusilla* (Gillies) O. E. Schulz =Weberbauera colchaguensis (Barnéoud) Al-Shehbaz]
Ref. FP 13(2/3) 1938: 972; Al-Shehbaz, 1990d: 241.
Note: Not known from Peru.

Weberbauera smithii Al-Shehbaz
Ref. Al-Shehbaz, 1990d: 233.
Endemic herb. Andean III: grasslands. > 4500 m.
Voucher: Smith & Goodwin 8894* (MO!), Smith 11298A (MO!)
Depts.: AN

Weberbauera spathulifolia (A. Gray) O. E. Schulz
Syn. *Arabis spathulata* Walpers, *Braya densiflora* Muschler, *Sisymbrium ciliolatum* Fournier, *Sisymbrium spathulaefolium* A. Gray, *Weberbauera densiflora* Gilg & Muschler, *Weberbauera spathulaefolia* var. *integrifolia* O. E. Schulz
Ref. FP 13(2/3) 1938: 972; Al-Shehbaz, 1990d: 227.
Herb. Andean III: grasslands, shrublands. 3500- > 4500 m.
Voucher: Wilkes Exped. s.n.* (US!), Smith *et al.* 9670 (MO!)
Depts.: AN, HV, JU, LI, MO, PA, PU

Weberbauera spathulifolia var. *integrifolia* O. E. Schulz =Weberbauera spathulifolia (A. Gray) O. E. Schulz
Ref. FP 13(2/3) 1938: 973; Al-Shehbaz, 1990d: 227.

Weberbauera trichocarpa (Muschler) J. F. Macbride
Syn. *Alpaminia trichocarpa* (Muschler) O. E. Schulz, *Brayopsis trichocarpa* (Muschler) Gilg & Muschler, *Eudema trichocarpa* Muschler
Ref. FP 13(2/3) 1938: 973; Al-Shehbaz, 1990d: 240.
Herb. Andean III: rocky slopes. 4000-> 4500 m.
Voucher: Weberbauer 5119* (B!), Macbride 2990 (MO!)
Depts.: AN, JU, LI, PA

Bromeliaceae

17 genera and 420 species in Peru.

Endemic species: 239.

Prepared by L. Brako; reviewed by B. K. Holst (MO), H. E. Luther (SEL), and I. Ramírez (MO).

Acanthospora conantha Sprengel =Guzmania strobilantha (R. & P.) Mez
Ref. FP 13(1/3) 1936: 573; Smith & Downs, 1977: 1331.

Acanthospora juncea (R. & P.) Sprengel =Tillandsia juncea (R. & P.) Poiret
Ref. FP 13(1/3) 1936: 555; Smith & Downs, 1977: 916.

Acanthostachys ananassoides Baker =Ananas ananassoides (Baker) L. B. Smith
Ref. Smith & Downs, 1979: 2052

Aechmea amazonica Ule =Aechmea chantinii fo. amazonica (Ule) H. Luther
Ref. FP 13(1/3) 1936: 587; Luther, 1987: 56.

Aechmea angustifolia Poeppig & Endlicher
Syn. *Aechmea boliviana* Rusby, *Aechmea cummingii* Baker, *Aechmea cylindrica* Mez, *Hoplophytum angustifolium* (Poeppig & Endlicher) Beer
Ref. FP 13(1/3) 1936: 589; Smith & Downs, 1979: 1837.
Endemic epiphytic herb. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Poeppig 1823* (W lost), Wurdack 2269 (US!)
Depts.: AM, AY, CU, HU, LO, MD, SM

[Aechmea anomala L. B. Smith]
Syn. *Platyaechmea anomala* (L. B. Smith) L. B. Smith & Kress
Ref. Smith & Downs, 1979: 1895; Smith & Kress, 1990: 272.
Note: Not known from Peru. The specimen cited from Peru in Smith & Downs (1979) is redetermined by Luther (pers. comm.) as *A. retusa*.

Aechmea boliviana Rusby =Aechmea angustifolia Poeppig & Endlicher
Ref. FP 13(1/3) 1936: 589; Smith & Downs, 1979: 1837.

Aechmea bromeliifolia (Rudge) Baker
Syn. *Macrochordion bromeliifolia* (Rudge) Beer, *Tillandsia bromeliifolia* Rudge
Ref. Smith & Downs, 1979: 1929.
Epiphytic herb. Amazonian: disturbed areas, forests. 0-500 m.
Voucher: Smith *et al.* 637 (US!)
Depts.: HU, MD

Aechmea chantinii (Carrière) Baker fo. **amazonica** (Ule) H. Luther
Syn. *Aechmea amazonica* Ule
Ref. Luther, 1987: 56.
Epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: Ferreyra 3377 (USM!)
Depts.: LO

Aechmea chantinii fo. **chantinii**
Syn. *Billbergia chantinii* Carrière, *Platyaechmea chantinii* (Carrière) L. B. Smith & Kress
Ref. Luther, 1987: 56.
Epiphytic herb. Amazonian, Andean I: riversides. 0-1500 m.
Voucher: Gentry *et al.* 25812A (US!)
Depts.: LO, SM

Aechmea contracta (C. Martius ex Schultes & Schultes f.) Baker
Syn. *Billbergia contracta* C. Martius ex Schultes & Schultes f., *Platyaechmea contracta* (C. Martius ex Schultes & Schultes f.) L. B. Smith & Kress
Ref. FP 13(1/3) 1936: 590; Smith & Downs, 1979: 1893.
Epiphytic herb. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: McDaniel 18834 (US!)
Depts.: LO, PA

[*Aechmea cornui* Carrière =Aechmea nudicaulis var. aureorosea (Antoine) L. B. Smith]
Ref. FP 13(1/3) 1936: 590; Smith & Downs, 1979: 1925.
Note: Not known from Peru.

Aechmea corymbosa (C. Martius ex Schultes & Schultes f.) Mez
Syn. *Billbergia corymbosa* C. Martius ex Schultes & Schultes f.
Ref. Smith & Downs, 1979: 1785.
Epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 31619 (MO!)
Depts.: AM, LO

Aechmea cummingii Baker =Aechmea angustifolia Poeppig & Endlicher
Ref. FP 13(1/3) 1936: 589; Smith & Downs, 1979: 1838.

Aechmea cylindrica Mez =Aechmea angustifolia Poeppig & Endlicher
Ref. FP 13(1/3) 1936: 589; Smith & Downs, 1979: 1838.

Aechmea fernandae (C. J. Morren) Baker
Syn. *Bromelia fernandae* C. J. Morren, *Chevaliera fernandae* (C. J. Morren) L. B. Smith & Kress
Ref. Smith & Downs, 1979: 1940; Luther, pers. comm.
Herb. Amazonian: riversides. 0-500 m.
Voucher: Foster 11990 (F!)
Depts.: MD

Aechmea ferruginea L. B. Smith
Syn. *Podaechmea ferruginea* (L. B. Smith) L. B. Smith & Kress
Ref. FP 13(1/3) 1936: 586; Smith & Downs, 1979: 1782.
Endemic herb. Andean II. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Killip & Smith 25815* (US!)
Depts.: PA

Aechmea fraseri Baker
Syn. *Pothuava fraseri* (Baker) L. B. Smith & Kress
Ref. Smith & Downs, 1979: 1909; Luther, pers. comm.
Herb. Andean I: forests. 1000-1500 m.
Voucher: Bues s.n. (GH)
Depts.: CU

Aechmea friedrichsthalii Mez & J. D. Smith =Aechmea penduliflora André
Ref. FP 13(1/3) 1936: 589; Smith & Downs, 1979: 1855.

Aechmea fuerstenbergii C. J. Morren & Wittmack =Streptocalyx fuerstenbergii (C. J. Morren & Wittmack) C. J. Morren
Ref. FP 13(1/3) 1936: 582; Smith & Downs, 1979: 1522.

Aechmea hoppii (Harms) L. B. Smith
Syn. *Streptocalyx hoppii* Harms
Ref. Smith & Downs, 1979: 1799.
Epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: Schunke 2437 (MO!)
Depts.: LO

Aechmea inermis Mez =Aechmea penduliflora André
Ref. FP 13(1/3) 1936: 589; Smith & Downs, 1979: 1855.

Aechmea kienastii C. J. Morren ex Mez =Aechmea tillandsioides (C. Martius ex Schultes & Schultes f.) Baker
Ref. Smith & Downs, 1979: 1903; Luther, pers. comm.

Aechmea longicuspis Baker
Ref. Smith & Downs, 1979: 1817.
Epiphytic herb. Andean I: disturbed areas, seasonally inundated areas. 500-1000 m.
Voucher: Smith 205 (US!)
Depts.: JU, MD, PA

Aechmea mertensii (G. Meyer) Schultes & Schultes f.
Syn. *Aechmea mucroniflora* Hooker, *Aechmea spicata* C. Martius ex Schultes & Schultes f., *Bromelia mertensii* G. Meyer
Ref. FP 13(1/3) 1936: 588; Smith & Downs, 1979: 1809.
Epiphytic or terrestrial herb. Amazonian, Andean I: forests, seasonally inundated

areas. 0-1000 m.
Voucher: Schunke 3189A (US!)
Depts.: AM, CU, LO, MD, SM

Aechmea moorei H. Luther
Syn. *Platyaechmea moorei* (H. Luther) L. B. Smith & Kress
Ref. Luther, 1980: 177.
Herb. Amazonian. 0-500 m.
Voucher: Moore & Holmes s.n.* (SEL)
Depts.: LO

Aechmea mucroniflora Hooker =Aechmea mertensii (G. Meyer) Schultes & Schultes f.
Ref. FP 13(1/3) 1936: 588; Smith & Downs, 1979: 1809.

Aechmea nallyi L. B. Smith
Ref. Smith & Downs, 1979: 1841.
Herb. Amazonian: forests. 0-500 m.
Voucher: Moore s.n.* (US!), Davidson & Jones 7705 (US!)
Depts.: LO

Aechmea nidularioides L. B. Smith
Ref. Smith & Downs, 1979: 1818.
Epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: Ayala s.n. (US!)
Depts.: LO

[Aechmea nudicaulis (L.) Grisebach var. aureorosea (Antoine) L. B. Smith]
Syn. *Aechmea cornui* Carrière
Ref. Smith & Downs, 1979: 1925.
Note: Not known from Peru.

[Aechmea nudicaulis var. cuspidata Baker]
Syn. *Aechmea sulcata* Lindman, *Billbergia oblonga* C. Martius, *Bromelia lutea* G. Meyer, *Hoplophytum spicatum* Beer, *Hoplophytum unispicatum* (Vell. Conc.) Beer, *Pothuava spicata* Gaudichaud, *Tillandsia unispicata* Vell. Conc.
Ref. Smith & Downs, 1979: 1924.
Note: Not known from Peru.

Aechmea nudicaulis var. **nudicaulis**
Syn. *Billbergia lanuginosa* Beer, nom. nud., *Billbergia nudicaulis* (L.) Lindley, *Billbergia quadricolor* Hort. ex Baker, nom. nud., *Bromelia nudicaulis* L., *Hohenbergia nudicaule* (L.) Baker, *Hoplophytum lanuginosum* Beer, *Hoplophytum nudicaule* (L.) K. Koch, *Pothuava nudicaulis* (L.) Regel
Ref. FP 13(1/3) 1936: 590; Smith & Downs, 1979: 1923.
Epiphytic herb. Amazonian, Andean I: riversides. 0-1000 m.
Voucher: López *et al.* s.n. (US)
Depts.: AM, SM

Aechmea paniculata R. & P.
Ref. FP 13(1/3) 1936: 588; Smith & Downs, 1979: 1812.
Endemic epiphytic herb.
Note: Known from Peru only from the type locality.
Voucher: Ruiz & Pavón s.n.* (photo US)
Depts.: HU

Aechmea penduliflora André
Syn. *Aechmea friedrichsthalii* Mez & J. D. Smith, *Aechmea inermis* Mez, *Aechmea schultesiana* Mez, *Billbergia paniculata* C. Martius ex Schultes & Schultes f.
Ref. Smith & Downs, 1979: 1855.
Epiphytic or terrestrial herb. Amazonian, Andean I: forests, riversides. 0-1000 m.
Voucher: Schunke 3801 (US!)
Depts.: LO, SM

Aechmea pyramidalis Bentham
Ref. Smith & Downs, 1979: 1836.
Herb. Andean I: forests. 500-1000 m.
Voucher: Schunke 2387 (US!)
Depts.: TU

Aechmea retusa L. B. Smith
Platyaechmea retusa (L. B. Smith) L. B. Smith & Kress
Ref. Smith & Downs, 1979: 1895.
Endemic epiphytic herb. Andean I. 500-1000 m.
Voucher: Nally s.n.* (US), Berlin 833 (US!)
Depts.: AM

Aechmea schultesiana Mez =Aechmea penduliflora André
Ref. FP 13(1/3) 1936: 589; Smith & Downs, 1979: 1855.

Aechmea setigera C. Martius ex Schultes & Schultes f.
Ref. Smith & Downs, 1979: 1815.
Epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: Croat 20147 (MO!)
Depts.: LO

Aechmea spicata C. Martius ex Schultes & Schultes f. =Aechmea mertensii (G. Meyer) Schultes & Schultes f.
Ref. FP 13(1/3) 1936: 588; Smith & Downs, 1979: 1809.

Aechmea strobilacea L. B. Smith
Syn. *Chevaliera strobilacea* (L. B. Smith) L. B. Smith & Kress
Ref. Smith & Downs, 1979: 1941; Luther, pers. comm.
Herb. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 3379 (MO!)
Depts.: LO

[*Aechmea sulcata* Lindman =Aechmea nudicaulis var. cuspidata Baker]
Ref. FP 13(1/3) 1936: 590; Smith & Downs, 1979: 1924.
Note: Not known from Peru.

Aechmea tessmannii Harms
Syn. *Platyaechmea tessmannii* (Harms) L. B. Smith & Kress
Ref. FP 13(1/3) 1936: 587; Smith & Downs, 1979: 1904.
Endemic epiphytic or terrestrial herb. Amazonian: forests. 0-500 m.
Voucher: Tessmann 3937* (B photo F), Klug 1009 (US!)
Depts.: LO

Aechmea tillandsioides (C. Martius ex Schultes & Schultes f.) Baker
Syn. *Aechmea kienastii* C. J. Morren ex Mez, *Aechmea tillandsioides* var. *kienastii* (C. J. Morren ex Mez) L. B. Smith, *Billbergia tillandsioides* C. Martius ex Schultes & Schultes f.
Ref. Smith & Downs, 1979: 1902; Luther, pers. comm.
Epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 56118 (MO!)
Depts.: LO, UC

Aechmea tillandsioides var. *kienastii* (C. J. Morren ex Mez) L. B. Smith =Aechmea tillandsioides (C. Martius ex Schultes & Schultes f.) Baker
Ref. Smith & Downs, 1979: 1903; Luther, pers. comm.

Aechmea veitchii Baker
Syn. *Chevaliera veitchii* (Baker) C. J. Morren
Ref. FP 13(1/3) 1936: 591; Smith & Downs, 1979: 1936.
Epiphytic or terrestrial herb. Andean I: forests. 500-1500 m.
Voucher: Dudley 13267 (NA)
Depts.: AM, HU, LO, SM, UC

Aechmea weberbaueri Harms
Ref. Smith & Downs, 1979: 1908.
Endemic epiphytic herb. Andean I. 1000-1500 m.
Voucher: Weberbauer 8041* (B photo B), Rauh 20347 (US!)
Depts.: LA

Aechmea woronowii Harms
Syn. *Streptocalyx holmesii* Slingerland
Ref. Smith & Downs, 1979: 1861.
Epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 22010 (MO!)
Depts.: LO

[*Agallostachys antiacantha* (Bertoloni) Beer =Bromelia antiacantha Bertoloni]
Ref. FP 13(1/3) 1936: 579; Smith & Downs, 1979: 1659.
Note: Not known from Peru.

[*Agallostachys commeliniana* (Vriese) Beer =Bromelia antiacantha Bertoloni]
Ref. FP 13(1/3) 1936: 579; Smith & Downs, 1979: 1659.
Note: Not known from Peru.

[*Agallostachys fastuosa* (Lindley) Beer =Bromelia pinguin L.]
Ref. FP 13(1/3) 1936: 579; Smith & Downs, 1979: 1665.
Note: Not known from Peru.

Allardtia roezlii C. J. Morren ex Baker, nom. nud. =Tillandsia roezlii C. J. Morren
Ref. FP 13(1/3) 1936: 562; Smith & Downs, 1977: 705.

Ananas ananas (L.) Cockerell, nom. illeg. =Ananas comosus var. comosus

Ref. FP 13(1/3) 1936: 592; Smith & Downs, 1979: 2063.

Ananas ananassoides (Baker) L. B. Smith
Syn. *Acanthostachys ananassoides* Baker
Ref. Smith & Downs, 1979: 2052
Herb. Andean I. 1000-1500 m.
Voucher: Díaz & Campos 3418 (MO!)
Depts.: AM

Ananas bracteatus (Lindley) Schultz f.
Herb. Amazonian. 0-500 m.
Voucher: Gentry & Núñez 69468 (MO!)
Depts.: MD

Ananas comosus (L.) Merrill var. **comosus**
Syn. *Ananas ananas* (L.) Cockerell, *Ananas sativus* Schultes & Schultes f., *Ananassa sativa* Lindley ex Beer, *Bromelia ananas L.*, *Bromelia comosa* L.
Ref. FP 13(1/3) 1936: 592; Smith & Downs, 1979: 2061.
Cultivated herb, herb. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Cook & Gilbert 1655 (US!)
Depts.: HU

Ananas lucidus Miller
Ref. Smith & Downs, 1979: 2056.
Epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: Asplund 12206 (US)
Depts.: HU, LO

Ananas sativus Schultes & Schultes f. =Ananas comosus var. comosus
Ref. FP 13(1/3) 1936: 592; Smith & Downs, 1979: 2063.

Ananassa sativa Lindley ex Beer =Ananas comosus var. comosus
Ref. FP 13(1/3) 1936: 592; Smith & Downs, 1979: 2062.

[*Anoplophytum amoenum* C. J. Morren =Tillandsia tenuifolia var. vaginata (Wawra) L. B. Smith]
Ref. FP 13(1/3) 1936: 566; Smith & Downs, 1977: 832.
Note: Not known from Peru.

[*Anoplophytum brachypodium* C. J. Morren ex Baker =Tillandsia tenuifolia var. vaginata (Wawra) L. B. Smith]
Ref. FP 13(1/3) 1936: 566; Smith & Downs, 1977: 832.
Note: Not known from Peru.

Anoplophytum calothyrsus Beer, nom. nud. =Guzmania calothyrsus Mez
Ref. FP 13(1/3) 1936: 572; Smith & Downs, 1977: 1332.

Anoplophytum longebracteatum Beer pro syn. =Tillandsia purpurea R. & P.
Ref. FP 13(1/3) 1936: 560; Smith & Downs, 1977: 866.

Anoplophytum pulchellum (Hooker) Beer =Tillandsia tenuifolia var. tenuifolia
Ref. FP 13(1/3) 1936: 566; Smith & Downs, 1977: 829.

Anoplophytum strobilanthum (R. & P.) Beer =Guzmania strobilantha (R. & P.) Mez
Ref. FP 13(1/3) 1936: 573; Smith & Downs, 1979: 1332.

Anoplophytum violaceum Beer, nom. nud. =Tillandsia biflora R. & P.
Ref. FP 13(1/3) 1936: 565.

Aregelia eleutheropetala (Ule) Mez ex L. B. Smith =Neoregelia eleutheropetala var. eleutheropetala
Ref. FP 13(1/3) 1936: 580; Smith & Downs, 1979: 1538.

Billbergia baraquiniana Lemaire, nom. nud. =Billbergia decora Poeppig & Endlicher
Ref. Smith & Downs, 1979: 2021.

Billbergia boliviensis Baker =Billbergia decora Poeppig & Endlicher
Ref. FP 13(1/3) 1936: 584; Smith & Downs, 1979: 2021.

Billbergia chantinii Carrière =Aechmea chantinii fo. chantinii
Ref. Smith & Downs, 1979: 1896.

Billbergia contracta C. Martius ex Schultes & Schultes f. =Aechmea contracta (C. Martius ex Schultes & Schultes f.) Baker
Ref. FP 13(1/3) 1936: 590; Smith & Downs, 1979: 1893.

Billbergia corymbosa C. Martius ex Schultes & Schultes f. =Aechmea corymbosa (C. Martius ex Schultes & Schultes f.) Mez
Ref. Smith & Downs, 1979: 1785.

Billbergia decora Poeppig & Endlicher
Syn. *Billbergia baraquiniana* Lemaire, nom. nud., *Billbergia boliviensis* Baker, *Helicodea baraquiniana* Lemaire
Ref. FP 13(1/3) 1936: 584; Smith & Downs, 1979: 2021.
Epiphytic herb. Amazonian, Andean I-II: disturbed areas, forests. 0-2000 m.
Voucher: Poeppig s.n.* (W lost), Killip & Smith 27646 (US!)
Depts.: JU, LO, MD

Billbergia formosa Ule
Ref. FP 13(1/3) 1936: 585; Smith & Downs, 1979: 2018.
Endemic epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: Ule 60-P* (B photo F), Díaz *et al.* 1086 (MO!)
Depts.: LO

Billbergia incarnata (R. & P.) Schultes & Schultes f.
Syn. *Bromelia incarnata* R. & P.
Ref. FP 13(1/3) 1936: 585; Smith & Downs, 1979: 2016.
Endemic epiphytic herb. Andean I. 500-1000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Vargas & Fernández 50 (US!)
Depts.: HU, JU, LO, SM

Billbergia lanuginosa Beer, nom. nud. =Aechmea nudicaulis var. nudicaulis
Ref. FP 13(1/3) 1936: 590; Smith & Downs, 1979: 1923.

Billbergia nudicaulis (L.) Lindley =Aechmea nudicaulis var. nudicaulis
Ref. FP 13(1/3) 1936: 590; Smith & Downs, 1979: 1923.

[*Billbergia oblonga* C. Martius =Aechmea nudicaulis var. cuspidata Baker]
Ref. FP 13(1/3) 1936: 590; Smith & Downs, 1979: 1924.
Note: Not known from Peru.

Billbergia paniculata C. Martius ex Schultes & Schultes f. =Aechmea penduliflora André
Ref. FP 13(1/3) 1936: 589; Smith & Downs, 1979: 1855.

Billbergia quadricolor Hort. ex Baker, nom. nud. =Aechmea nudicaulis var. nudicaulis
Ref. FP 13(1/3) 1936: 590; Smith & Downs, 1979: 1923.

Billbergia robertreadii E. Gross & W. Rauh
Ref. Rauh, 1987a: 89.
Endemic herb. Andean I. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 26163* (HEID)
Depts.: CU

Billbergia stenopetala Harms
Ref. FP 13(1/3) 1936: 585; Smith & Downs, 1979: 2016.
Endemic herb. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Tessmann 3060* (B photo F!)
Depts.: LO

Billbergia tessmannii Harms
Ref. FP 13(1/3) 1936: 584; Smith & Downs, 1979: 2018.
Endemic epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: Tessmann 5318* (B photo F!), Klug 1324 (MO!)
Depts.: LO

Billbergia tillandsioides C. Martius ex Schultes & Schultes f. =Aechmea tillandsioides (C. Martius ex Schultes & Schultes f.) Baker
Ref. Smith & Downs, 1979: 1902; Luther, pers. comm.

Bonapartea juncea R. & P. =Tillandsia juncea (R. & P.) Poiret
Ref. FP 13(1/3) 1936: 555; Smith & Downs, 1977: 916.

Bonapartea strobilantha R. & P. =Guzmania strobilantha (R. & P.) Mez
Ref. FP 13(1/3) 1936: 573; Smith & Downs, 1979: 1331.

Bromelia ananas L. =Ananas comosus var. comosus
Ref. FP 13(1/3) 1936: 592; Smith & Downs, 1979: 2062.

[Bromelia antiacantha Bertoloni]
Syn. *Agallostachys antiacantha* (Bertoloni) Beer, *Agallostachys commeliniana* (Vriese) Beer, *Bromelia commeliniana* Vriese
Ref. FP 13(1/3) 1936: 578; Smith & Downs, 1979: 1658.
Note: Not known from Peru.

[*Bromelia commeliniana* Vriese =Bromelia antiacantha Bertoloni]
Ref. FP 13(1/3) 1936: 579; Smith & Downs, 1979: 1659.
Note: Not known from Peru.

Bromelia comosa L. =Ananas comosus var. comosus
Ref. FP 13(1/3) 1936: 592; Smith & Downs, 1979: 2062.

[*Bromelia fastuosa* Lindley =Bromelia pinguin L.]
Ref. FP 13(1/3) 1936: 578; Smith & Downs, 1979: 1665.
Note: Not known from Peru.

Bromelia fernandae C. J. Morren =Aechmea fernandae (C. J. Morren) Baker
Ref. Smith & Downs, 1979: 1940.

Bromelia goeldiana L. B. Smith
Ref. Smith & Downs, 1979: 1668.
Herb. Amazonian: forests. 0-500 m.
Voucher: Foster 12100 (F!)
Depts.: MD

Bromelia incarnata R. & P. =Billbergia incarnata (R. & P.) Schultes & Schultes f.
Ref. FP 13(1/3) 1936: 585; Smith & Downs, 1979: 2016.

Bromelia lanuginosa (R. & P.) Beer =Puya lanuginosa (R. & P.) Schultes & Schultes f.
Ref. FP 13(1/3) 1936: 506; Smith & Downs, 1974: 163.

Bromelia longifolia Rudge =Streptocalyx longifolius (Rudge) Baker
Ref. Smith & Downs, 1979: 1519.

[*Bromelia lutea* G. Meyer =Aechmea nudicaulis var. cuspidata Baker]
Ref. FP 13(1/3) 1936: 590; Smith & Downs, 1979: 1923.
Note: Not known from Peru.

Bromelia mertensii G. Meyer =Aechmea mertensii (G. Meyer) Schultes & Schultes f.
Ref. FP 13(1/3) 1936: 588; Smith & Downs, 1979: 1809.

Bromelia nudicaulis L. =Aechmea nudicaulis var. nudicaulis
Ref. FP 13(1/3) 1936: 590; Smith & Downs, 1979: 1923.

[Bromelia pinguin L.]
Syn. *Agallostachys fastuosa* (Lindley) Beer, *Bromelia fastuosa* Lindley
Ref. Smith & Downs, 1979: 1665
Note: Not known from Peru.

Bromelia poeppigii Mez
Ref. FP 13(1/3) 1936: 578; Smith & Downs, 1979: 1669.
Endemic herb.
Note: Known from Peru only from the type locality.
Voucher: Poeppig 1824* (W lost)
Depts.: SM

Bromelia pyramidata (R. & P.) Beer =Puya pyramidata (R. & P.) Schultes & Schultes f.
Ref. FP 13(1/3) 1936: 505; Smith & Downs, 1974: 125.

Bromelia scarlatina C. J. Morren
Ref. Smith & Read, 1982: 54.
Cultivated herb. Amazonian: forests. 0-500 m.
Voucher: Plowman *et al.* 7032 (F, USM)
Depts.: LO

Bromelia tarapotina Ule
Ref. FP 13(1/3) 1936: 578; Smith & Downs, 1979: 1678.
Endemic herb. Amazonian: forests. 0-500 m.
Voucher: Ule 6682* (B photo F), Maas *et al.* 5984 (US!)
Depts.: LO, SM

Caraguata conifera André =Guzmania conifera (André) André ex Mez
Ref. FP 13(1/3) 1936: 572; Smith & Downs, 1977: 1326.

Caraguata lindenii (André) Baker =Guzmania lindenii var. lindenii
Ref. FP 13(1/3) 1936: 574; Smith & Downs, 1977: 1316.

Caraguata pulchella André =Tillandsia seemannii (Baker) Mez
Ref. FP 13(1/3) 1936: 534; Smith & Downs, 1977: 1022.

Caraguata schlumbergeri Baker =Guzmania morreniana var. morreniana
Ref. FP 13(1/3) 1936: 573; Smith & Downs, 1977: 1321.

Caraguata violacea André =Tillandsia ionochroma André ex Mez
Ref. FP 13(1/3) 1936: 563; Smith & Downs, 1977: 746.

Catopsis flexuosa Baker =Tillandsia bakeri L. B. Smith
Ref. FP 13(1/3) 1936: 538; Smith & Downs, 1977: 1048.

Catopsis garckeana Wittmack =Tillandsia tetrantha var. aurantiaca (Grisebach) L. B. Smith
Ref. FP 13(1/3) 1936: 540.

Catopsis latifolia Ule =Tillandsia brevilingua Mez ex Harms
Ref. FP 13(1/3) 1936: 553; Smith & Downs, 1977: 715.

Catopsis penduliflora C. H. Wright =Fosterella penduliflora (C. H. Wright) L. B. Smith
Ref. FP 13(1/3) 1936: 512; Smith & Downs, 1974: 206.

Catopsis schumanniana Wittmack =Tillandsia adpressa var. tonduziana (Mez) L. B. Smith
Ref. FP 13(1/3) 1936: 539; Smith & Downs, 1977: 1050.

Catopsis sessiliflora (R. & P.) Mez
Syn. *Pogospermum sessiliflorum* (R. & P.) Brongniart, *Tillandsia sessiliflora* R. & P., *Tussacia sessiliflora* (R. & P.) Beer
Ref. FP 13(1/3) 1936: 577; Smith & Downs, 1977: 1385.
Epiphytic herb. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Ruiz & Pavón s.n.* (B), Moore 340 (US!)
Depts.: HU, LO, SM

Chevaliera fernandae (C. J. Morren) L. B. Smith & Kress =Aechmea fernandae (C. J. Morren) Baker
Ref. Smith & Kress, 1989: 78; Luther, pers. comm.

Chevaliera strobilacea (L. B. Smith) L. B. Smith & Kress =Aechmea strobilacea L. B. Smith
Ref. Smith & Kress, 1989: 78

Chevaliera veitchii (Baker) C. J. Morren =Aechmea veitchii Baker
Ref. FP 13(1/3) 1936: 591; Smith & Downs, 1979: 1936.

Chlorophytum schidospermum Baker =Fosterella schidosperma var. schidosperma
Ref. Smith & Downs, 1974: 208.

Cipuropsis subandina Ule =Vriesea subandina (Ule) L. B. Smith & Pittendrigh
Ref. FP 13(1/3) 1936: 556; Smith & Downs, 1977: 1097.

Cottendorfia rusbyi Baker =Fosterella schidosperma var. schidosperma
Ref. FP 13(1/3) 1936: 511; Ravenna, 1983a: 253.

Dendropogon usneoides (L.) Raf. =Tillandsia usneoides (L.) L.
Ref. FP 13(1/3) 1936: 543; Smith & Downs, 1977: 899.

Deuterocohnia longipetala (Baker) Mez
Syn. *Dyckia decomposita* Baker, *Dyckia longipetala* Baker, *Puya flava* Willdenow ex Baker
Ref. FP 13(1/3) 1936: 512; Smith & Downs, 1974: 233.
Herb. Amazonian, Andean I: rocky

slopes. 0-1000 m.
Voucher: Humboldt & Bonpland 3595* (B photo F), Sánchez & Schunke 876 (US!)
Depts.: AM, CA

Diaphoranthema capillaris (R. & P.) Beer =Tillandsia capillaris fo. capillaris
Ref. FP 13(1/3) 1936: 542; Smith & Downs, 1977: 893.

Diaphoranthema recurvata (L.) Beer =Tillandsia recurvata (L.) L.
Ref. FP 13(1/3) 1936: 542; Smith & Downs, 1977: 888.

Diaphoranthema squamulosa Beer, nom. nud. =Tillandsia caerulea H.B.K.
Ref. FP 13(1/3) 1936: 545; Smith & Downs, 1977: 869.

Diaphoranthema subulata (Vell. Conc.) Beer =Tillandsia tenuifolia var. tenuifolia
Ref. FP 13(1/3) 1936: 566; Smith & Downs, 1977: 829.

Diaphoranthema uniflora (H.B.K.) Beer =Tillandsia recurvata (L.) L.
Ref. FP 13(1/3) 1936: 542; Smith & Downs, 1977: 888.

Diaphoranthema virescens (R. & P.) Beer =Tillandsia capillaris fo. virescens (R. & P.) L. B. Smith
Ref. FP 13(1/3) 1936: 542; Smith & Downs, 1977: 895.

Dyckia decomposita Baker =Deuterocohnia longipetala (Baker) Mez
Ref. FP 13(1/3) 1936: 513; Smith & Downs, 1974: 233.

Dyckia longipetala Baker =Deuterocohnia longipetala (Baker) Mez
Ref. Smith & Downs, 1974: 233.

Fosterella aletroides (L. B. Smith) L. B. Smith
Syn. *Lindmania aletroides* L. B. Smith
Ref. Smith & Downs, 1974: 203.
Endemic herb. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Vargas 7358* (US!)
Depts.: CU

Fosterella penduliflora (C. H. Wright) L. B. Smith
Syn. *Catopsis penduliflora* C. H. Wright, *Lindmania penduliflora* (C. H. Wright) Stapf
Ref. Smith & Downs, 1974: 206.
Herb. Andean I. 500-1500 m.
Voucher: Moore *et al.* 8549* (US), Rahn 309 (MO!)
Depts.: HU

Fosterella petiolata (Mez) L. B. Smith
Syn. *Lindmania petiolata* Mez
Ref. Smith & Downs, 1974: 203.
Endemic herb.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 1210* (B)
Depts.: PU

Fosterella rusbyi (Mez) L. B. Smith
Syn. *Lindmania rusbyi* Mez
Ref. Smith & Downs, 1974: 204.
Herb. Andean I. 1000-1500 m.
Voucher: Herrera 3316 (US)
Depts.: CU

Fosterella schidosperma (Baker) L. B. Smith var. **schidosperma**
Syn. *Chlorophytum schidospermum* Baker, *Cottendorfia rusbyi* Baker, *Fosterella weberbaueri* (Mez) L. B. Smith, *Lindmania schidosperma* (Baker) Ravenna, *Lindmania weberbaueri* Mez
Ref. Smith & Downs, 1974: 208.
Endemic herb. Andean I: rocky slopes, 500-1500 m.
Voucher: Lechler 2382* (CGE), Schunke 10427 (MO!)
Depts.: AY, CU, HU, JU, PU

Fosterella schidosperma var. **vestita** L. B. Smith & Read
Ref. Smith & Read, 1982: 49.
Herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Dillon *et al.* 1253* (US), Foster 8868 (MO!, USM!)
Depts.: PA, PU

Fosterella weberbaueri (Mez) L. B. Smith =Fosterella schidosperma var. schidosperma
Ref. Smith & Downs, 1974: 208.

Greigia amazonica L. B. Smith
Ref. Smith & Downs, 1979: 1633.
Endemic herb. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Moore A-120* (US!)
Depts.: LO

Greigia macbrideana L. B. Smith
Ref. FP 13(1/3) 1936: 579; Smith & Downs, 1979: 1645.
Endemic herb. Andean III. 3500-4000 m.
Voucher: Macbride 4442* (US!), Boeke 2030 (MO!)
Depts.: AM, HU

Guzmania acutispica E. Gross
Ref. Rauh & Gross, 1990: 27.
Endemic herb. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 23873* (HEID)
Depts.: UC

Guzmania altsonii L. B. Smith
Ref. Gouda, 1987: 19.
Epiphytic herb. Amazonian. 0-500 m.
Voucher: Foster & d'Achille 10167 (USM!)
Depts.: PA

[Guzmania angustifolia (Baker) Wittmack]
Syn. *Guzmania bulliana* André
Ref. Smith & Downs, 1977: 1325.
Note: Not known from Peru.

Guzmania apiculata L. B. Smith
Ref. FP 13(1/3) 1936: 573; Smith & Downs, 1977: 1336.
Epiphytic herb. Andean I-II. 1000-2000 m.
Voucher: Macbride 5811* (F), Ferreyra 2256 (USM!)
Depts.: HU, JU, LO, UC

Guzmania bipartita L. B. Smith
Ref. Smith & Downs, 1977: 1322.
Epiphytic herb. Andean I: forests. 500-1500 m.
Voucher: Vargas 451 (US!)
Depts.: JU, LO

Guzmania bismarckii W. Rauh
Ref. Rauh, 1984: 19.
Endemic herb. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality
Voucher: Rauh & Bismarck 63679* (HEID)
Depts.: SM

Guzmania brachycephala (Baker) Mez =Guzmania strobilantha (R. & P.) Mez
Ref. FP 13(1/3) 1936: 571; Smith & Downs, 1977: 1332.

Guzmania brevispatha Mez
Ref. FP 13(1/3) 1936: 575; Smith & Downs, 1977: 1318.
Endemic herb. Andean II: forests. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 3537* (B, MOL!)
Depts.: HU

[*Guzmania bulliana* André =Guzmania angustifolia (Baker) Wittmack]
Ref. Smith & Downs, 1977: 1325.
Note: Not known from Peru.

Guzmania bulliana sensu Baker non André =Tillandsia seemannii (Baker) Mez
Ref. FP 13(1/3) 1936: 534; Smith & Downs, 1977: 1022.

Guzmania calothyrsus Mez
Syn. *Anoplophytum calothyrsus* Beer, nom. nud., *Tillandsia calothyrsus* Poeppig ex Beer nom nud.
Ref. FP 13(1/3) 1936: 572; Smith & Downs, 1977: 1332.
Endemic epiphytic herb. Amazonian, Andean I-II. 0-2000 m.
Voucher: Poeppig 1224* (W lost), Davis 824 (US!)
Depts.: HU, JU, LO

Guzmania clavata (Lamarck) Urban =Guzmania monostachia var. monostachia
Ref. FP 13(1/3) 1936: 571; Smith & Downs, 1977: 1338.

Guzmania claviformis H. Luther
Ref. Luther, 1991a: 6.

Cultivated herb.
Voucher: Moore s.n. (SEL!)
Depts.: SM

Guzmania comosa Bertero ex Schultes & Schultes f. =Guzmania monostachia var. monostachia
Ref. FP 13(1/3) 1936: 571; Smith & Downs, 1977: 1336.

Guzmania confinis L. B. Smith
Ref. Smith & Downs, 1977: 1342.
Herb. Andean II: disturbed areas, shrublands. 2500-3000 m.
Voucher: Foster *et al.* 7651 (F!, USM!)
Depts.: PA

Guzmania conifera (André) André ex Mez
Syn. *Caraguata conifera* André
Ref. FP 13(1/3) 1936: 572; Smith & Downs, 1977: 1326.
Epiphytic or terrestrial herb. Andean I-II: forests. 1000-2000 m.
Voucher: Boeke 2061 (US!, USM!)
Depts.: AM, JU

[*Guzmania crispa* Baker =Tillandsia crispa (Baker) Mez]
Ref. FP 13(1/3) 1936: 535; Smith & Downs, 1977: 1024.
Note: Not known from Peru.

Guzmania cryptantha Baker var. *pauciflora* L. B. Smith =Guzmania squarrosa (Mez & Sodiro) L. B. Smith & Pittendrigh
Ref. Smith & Downs, 1977: 1024.

Guzmania cuzcoensis L. B. Smith
Ref. Smith & Downs, 1977: 1401.
Herb. Andean II: cloud forests. 2000-2500 m.
Note: Known only from Peru from the type locality.
Voucher: Dudley 11317* (NA)
Depts: CU

Guzmania devansayana C. J. Morren
Ref. Smith & Downs, 1977: 1330.
Herb. Andean II. 1500-2000 m.
Voucher: Dudley 13337 (NA)
Depts.: HU

Guzmania dudleyi L. B. Smith
Ref. Smith & Downs, 1977: 1356.
Endemic herb. Andean I: forests. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Dudley 13076* (US!), Wolfe & Dudley 12347 (US!)
Depts.: HU

Guzmania fragrans Hort. ex Baker, nom. nud. =Guzmania monostachia var. monostachia
Ref. FP 13(1/3) 1936: 571; Smith & Downs, 1979: 1337.

Guzmania garciaensis W. Rauh
Ref. Rauh, 1979: 16.
Endemic herb. Andean II. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 38613* (HEID)
Depts.: AM

Guzmania glaucophylla W. Rauh
Ref. Rauh, 1985b: 43.
Endemic herb. Andean II: forests. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh & Bismarck 66031* (HEID)
Depts.: PA

Guzmania globosa L. B. Smith
Ref. Smith & Downs, 1979: 1359.
Herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Dudley 13149 (US!)
Depts.: HU

Guzmania graminifolia (André ex Baker) L. B. Smith
Syn. *Sodiroa graminifolia* André ex Baker
Ref. Smith & Downs, 1979: 1360.
Epiphytic herb. Forests.
Voucher: Esposto 69 (USM!)
Depts.: PA

Guzmania grandis Hort. ex Baker, nom. nud. =Guzmania monostachia var. monostachia
Ref. FP 13(1/3) 1936: 571; Smith & Downs, 1977: 1337.

Guzmania killipiana L. B. Smith
Ref. FP 13(1/3) 1936: 574; Smith & Downs, 1977: 1317.
Endemic herb. Andean I-II: forests. 1000-2000 m.
Voucher: Killip & Smith 25630* (US!), Killip & Smith 25561 (US!)
Depts.: JU

Guzmania lindenii (André) Mez var. **concolor** W. Rauh
Ref. Rauh, 1983c: 41.
Endemic epiphytic herb. Andean I. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh & Bismarck 31312* (HEID)
Depts.: JU

Guzmania lindenii var. **lindenii**
Syn. *Caraguata lindenii* (André) Baker, *Massangea lindenii* André, *Schlumbergera lindenii* (André) C. J. Morren
Ref. FP 13(1/3) 1936: 574; Smith & Downs, 1977: 1316; Rauh, 1983c: 41.
Endemic herb. Andean II: forests. 1500-2000 m.
Voucher: Germiny Hortus s.n.* (LG), Rauh 31312 (US!)
Depts.: JU

Guzmania lingulata (L.) Mez var. **lingulata**
Syn. *Tillandsia lingulata* L.
Ref. Smith & Downs, 1977: 1349.
Epiphytic or terrestrial herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: López *et al.* 4236 (MO!)
Depts.: AM, LO, SM

Guzmania maculata Linden ex Baker =Guzmania monostachia var. monostachia
Ref. FP 13(1/3) 1936: 571; Smith & Downs, 1977: 1337.

Guzmania melinonis Regel
Ref. Smith & Downs, 1977: 1332.
Epiphytic herb. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Foster & Wachter 7371 (F!, USM!)
Depts.: MD, PA

[Guzmania mitis L. B. Smith]
Ref. Smith & Downs, 1977: 1312.
Note: Not known from Peru. Redetermined as *G.* cf. *xipholepis*.

Guzmania monostachia (L.) Rusby ex Mez var. **monostachia**
Syn. *Guzmania clavata* (Lamarck) Urban, *Guzmania comosa* Bertero ex Schultes & Schultes f., *Guzmania fragrans* Hort. ex Baker, nom. nud., *Guzmania grandis* hort. ex Baker, nom. nud., *Guzmania maculata* Linden ex Baker, *Guzmania sympaganthera* (R. & P.) Beer, *Guzmania tricolor* R. & P., *Pourretia sympaganthera* R. & P., *Renealmia monostachia* L., nom. rejic., *Tillandsia clavata* Lamarck, *Tillandsia gymnophylla* Baker, *Tillandsia monostachia* (L.) L., *Tillandsia pachycarpa* Baker
Ref. FP 13(1/3) 1936: 571; Smith & Downs, 1977: 1336.
Epiphytic or terrestrial herb. Andean I: rocky slopes. 500-1500 m.
Voucher: Simpson & Schunke 452 (MO!)
Depts.: CA, HU, PI, SM, TU

Guzmania morreniana (Linden ex C. J. Morren) Mez var. **morreniana**
Syn. *Caraguata schlumbergerii* Baker, *Massangea morreniana* Linden ex C. J. Morren, *Schlumbergera morreniana* (Linden ex C. J. Morren) C. J. Morren
Ref. FP 13(1/3) 1936: 572; Smith & Downs, 1977: 1321.
Endemic herb. Andean II: riversides. 1500-2500 m.
Voucher: Morren Hortus s.n.* (LG), Sagástegui 6004 (US!)
Depts.: AM, CU

Guzmania morreniana var. **tenuifolia** H. Luther
Ref. Luther, 1989a: 57.
Endemic epiphytic herb. Andean II: disturbed areas. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Smith & Alban 5562* (SEL!)
Depts.: PA

Guzmania paniculata Mez
Ref. FP 13(1/3) 1936: 575; Smith & Downs, 1977: 1313.
Herb. Andean II: forests. 1500-2000 m.
Note: Known from Peru only from the

type locality.
Voucher: Weberbauer 1136* (MO!)
Depts.: PU

Guzmania parviflora Ule =Guzmania strobilantha (R. & P.) Mez
Ref. FP 13(1/3) 1936: 573; Smith & Downs, 1979: 1332.

Guzmania pleiosticha (Grisebach) Mez =Mezobromelia pleiosticha (Grisebach) Utley & H. Luther
Ref. Gouda, 1987: 82; Utley & Luther, 1991: 270.

Guzmania rionievensis W. Rauh var. **laxiflora** W. Rauh
Ref. Rauh, 1984: 24.
Endemic herb. Andean II: cloud forests. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh & Bismarck 63687* (HEID)
Depts.: SM

Guzmania rionievensis var. **rionievensis**
Ref. Rauh, 1984: 24.
Endemic herb. Andean II: cloud forests. 1500-3000 m.
Voucher: Rauh & Bismarck 63687* (HEID), Díaz & Campos 3868 (MO!)
Depts.: AM, SM

Guzmania roezlii (C. J. Morren) Mez
Syn. *Schlumbergera roezlii* C. J. Morren, *Tillandsia rigidula* Baker
Ref. FP 13(1/3) 1936: 576; Smith & Downs, 1979: 1292.
Epiphytic herb. Andean I-II: forests. 500-2000 m.
Voucher: Killip & Smith 24063 (MO!)
Depts.: AY, JU, SM

Guzmania seemannii Baker =Tillandsia seemannii (Baker) Mez
Ref. FP 13(1/3) 1936: 535; Smith & Downs, 1977: 1022.

Guzmania squarrosa (Mez & Sodiro) L. B. Smith & Pittendrigh
Syn. *Guzmania cryptantha* var. *pauciflora* L. B. Smith, *Thecophyllum squarrosum* Mez & Sodiro
Ref. Smith & Downs, 1977: 1344.
Herb. Andean I-II: forests. 500-2000 m.
Voucher: Allard 21579 (US!)
Depts.: CU, HU, SM

Guzmania strobilantha (R. & P.) Mez
Syn. *Acanthospora conantha* Sprengel, *Anoplophytum strobilanthum* (R. & P.) Beer, *Bonapartea strobilantha* R. & P., *Guzmania brachycephala* (Baker) Mez, *Guzmania parviflora* Ule, *Misandra strobilantha* Dietrich ex Schultes & Schultes f. pro syn., *Tillandsia brachycephala* Baker, *Tillandsia conantha* (Sprengel) Baker, *Tillandsia strobilantha* (R. & P.) Poiret
Ref. FP 13(1/3) 1936: 573; Smith & Downs, 1979: 1331.
Endemic herb. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Foster & d'Achille 10010 (US!, USM!)
Depts.: HU, JU, LO, PA, PU, SM

Guzmania sympaganthera (R. & P.) Beer =Guzmania monostachia var. monostachia
Ref. FP 13(1/3) 1936: 571; Smith & Downs, 1977: 1336.

Guzmania tarapotina Ule
Ref. FP 13(1/3) 1936: 575; Smith & Downs, 1977: 1318.
Endemic epiphytic herb. Andean I: forests. 500-1000 m.
Voucher: Ule 6683* (B photo F!), Schunke 7613 (US!)
Depts.: HU, LO, PA, SM

Guzmania tricolor R. & P. =Guzmania monostachia var. monostachia
Ref. FP 13(1/3) 1936: 571; Smith & Downs, 1977: 1336.

Guzmania undulatobracteata (W. Rauh) W. Rauh
Syn. *Tillandsia undulatobracteata* W. Rauh
Ref. Rauh, 1991: 18, 106.
Endemic herb. Andean II: forests. 1500-2000 m.
Voucher: Rauh 25825* (US)
Depts.: PA

Guzmania variegata L. B. Smith
Ref. Smith & Downs, 1977: 1348; Sagástegui & Dillon, 1991: 43
Herb.
Voucher: Rauh s.n.* (US), Leiva 40
Depts.: CA, PI

Guzmania venamensis L. B. Smith
Ref. Smith & Downs, 1977: 1294.
Herb. Andean I: forests. 1000-1500 m.
Voucher: Dudley 10561 (NA)
Depts.: CU

Guzmania victoriae W. Rauh
Ref. Rauh, 1976b: 24.
Endemic herb. Andean II: forests. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 38336* (HEID)
Depts.: AM

Guzmania weberbaueri Mez
Ref. FP 13(1/3) 1936: 576; Smith & Downs, 1977: 1300.
Herb. Andean I: forests. 1000-1500 m.
Voucher: Weberbauer 1300* (B photo F), Vargas 5176 (CUZ)
Depts.: CU, MD, PU

Guzmania xipholepis L. B. Smith
Ref. Smith & Downs, 1977: 1316.
Herb. Andean II: forests. 2000-3000 m.
Note: Known only from the type locality.
Voucher: Wurdack 917* (US, USM)
Depts.: AM

Helicodea baraquiniana Lemaire =Billbergia decora Poeppig & Endlicher
Ref. FP 13(1/3) 1936: 584; Smith & Downs, 1979: 2021.

Hohenbergia nudicaulis (L.) Baker =Aechmea nudicaulis var. nudicaulis
Ref. FP 13(1/3) 1936: 590; Smith & Downs, 1979: 1923.

Hoplophytum angustifolium (Poeppig & Endlicher) Beer =Aechmea angustifolia Poeppig & Endlicher
Ref. FP 13(1/3) 1936: 589; Smith & Downs, 1979: 1938.

Hoplophytum lanuginosum Beer =Aechmea nudicaulis var. nudicaulis
Ref. FP 13(1/3) 1936: 590; Smith & Downs, 1979: 1923.

Hoplophytum nudicaule (L.) K. Koch =Aechmea nudicaulis var. nudicaulis
Ref. FP 13(1/3) 1936: 590; Smith & Downs, 1979: 1923.

[*Hoplophytum spicatum* Beer =Aechmea nudicaulis var. cuspidata Baker]
Ref. FP 13(1/3) 1936: 590; Smith & Downs, 1979: 1924.
Note: Not known from Peru.

[*Hoplophytum unispicatum* (Vell. Conc.) Beer =Aechmea nudicaulis var. cuspidata Baker]
Ref. FP 13(1/3) 1936: 590; Smith & Downs, 1979: 1924.
Note: Not known from Peru.

Lindmania aletroides L. B. Smith =Fosterella aletroides (L. B. Smith) L. B. Smith
Ref. Smith & Downs, 1974: 203.

Lindmania penduliflora (C. H. Wright) Stapf =Fosterella penduliflora (C. H. Wright) L. B. Smith
Ref. FP 13(1/3) 1936: 512; Smith & Downs, 1974: 206.

Lindmania petiolata Mez =Fosterella petiolata (Mez) L. B. Smith
Ref. FP 13(1/3) 1936: 511; Smith & Downs, 1974: 203.

Lindmania rusbyi Mez =Fosterella rusbyi (Mez) L. B. Smith
Ref. FP 13(1/3) 1936: 511; Smith & Downs, 1974: 204.

Lindmania schidosperma (Baker) Ravenna =Fosterella schidosperma var. schidosperma
Ref. Ravenna, 1983a: 253.

Lindmania weberbaueri Mez =Fosterella schidosperma var. schidosperma
Ref. Smith & Downs, 1974: 208.

Macrochordion bromeliifolia (Rudge) Beer =Aechmea bromeliifolia (Rudge) Baker
Ref. Smith & Kress, 1989: 77; Luther, pers. comm.

Massangea lindenii André =Guzmania lindenii var. lindenii

Ref. FP 13(1/3) 1936: 574; Smith & Downs, 1977: 1316.

Massangea morreniana Linden ex C. J. Morren =Guzmania morreniana var. morreniana
Ref. FP 13(1/3) 1936: 573; Smith & Downs, 1977: 1321.

Mezobromelia hutchisonii (L. B. Smith) W. Weber & L. B. Smith
Syn. *Mezobromelia trollii* W. Rauh, *Tillandsia hutchisonii* L. B. Smith
Ref. Weber & Smith, 1983: 121.
Endemic epiphytic herb. Andean II: forests. 2000-2500 m.
Voucher: Rauh 40104* (US!), Hutchison & Wright 6801 (USM!)
Depts.: AM

Mezobromelia pleiosticha (Grisebach) Utley & H. Luther
Syn. *Guzmania pleiosticha* (Grisebach) Mez, *Tillandsia pleiosticha* Grisebach, *Vriesea pleiosticha* (Grisebach) Gouda
Ref. Gouda, 1987: 82; Utley & Luther, 1991: 270.
Note: Not reconfirmed. No Peruvian specimens are cited by Gouda (1987) or Utley & Luther (1991).

Mezobromelia trollii W. Rauh =Mezobromelia hutchisonii (L. B. Smith) W. Weber
Ref. Weber & Smith, 1983: 121.

Misandra juncea (R. & P.) Dietrich =Tillandsia juncea (R. & P.) Poiret
Ref. FP 13(1/3) 1936: 555; Smith & Downs, 1977: 916.

Misandra strobilantha Dietrich ex Schultes & Schultes f. pro syn. =Guzmania strobilantha (R. & P.) Mez
Ref. FP 13(1/3) 1936: 573; Smith & Downs, 1977: 1331.

Neoregelia eleutheropetala (Ule) L. B. Smith var. **bicolor** L. B. Smith
Ref. FP 13(1/3) 1936: 580; Smith & Downs, 1979: 1538.
Epiphytic herb. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Moore s.n.* (US!)
Depts.: LO

Neoregelia eleutheropetala var. **eleutheropetala**
Syn. *Aregelia eleutheropetala* (Ule) Mez ex L. B. Smith, *Nidularium eleutheropetalum* Ule
Ref. FP 13(1/3) 1936: 580; Smith & Downs, 1979: 1538.
Epiphytic herb. Amazonian, Andean I: disturbed areas, forests. 0-2000 m.
Voucher: Wurdack 2420 (US!)
Depts.: AM, HU, LO, MD, SM

Neoregelia johnsoniae H. Luther
Ref. Luther, 1989b: 70.
Cultivated herb. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Johnson s.n.* (SEL!)
Depts.: LO

Neoregelia mooreana L. B. Smith
Ref. Smith & Downs, 1979: 1543.
Endemic herb. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Moore s.n.* (US!)
Depts.: LO

Neoregelia pendula L. B. Smith var. **brevifolia** L. B. Smith
Ref. Smith & Downs, 1979: 1542.
Epiphytic herb. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 2345* (US, USM)
Depts.: LO

Neoregelia pendula var. **pendula**
Ref. Smith & Downs, 1979: 1542.
Epiphytic herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Wurdack 2166* (US!), Berlin 1972 (US!)
Depts.: AM

Neoregelia peruviana L. B. Smith
Ref. Smith & Downs, 1979: 1543.
Epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: Wurdack 2320* (US!, USM!), Gentry 26209 (USM!)
Depts.: AM, LO

Neoregelia rosea L. B. Smith
Ref. Smith & Downs, 1979: 1542.
Epiphytic herb. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 2389* (US!)
Depts.: LO

Neoregelia stolonifera L. B. Smith
Ref. Smith & Downs, 1979: 1543.
Epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: Moore 50* (US), Díaz & Jaramillo 238 (MO!)
Depts.: LO

Neoregelia tarapotoensis W. Rauh
Ref. Rauh, 1985a: 68.
Epiphytic herb. Andean I: forests. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh & Bismarck 63976* (HEID)
Depts.: SM

Neoregelia wurdackii L. B. Smith
Ref. Smith & Downs, 1979: 1541.
Endemic epiphytic herb. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 2469* (US!, USM)
Depts.: AM

Nidularium eleutheropetalum Ule =Neoregelia eleutheropetala var. eleutheropetala
Ref. FP 13(1/3) 1936: 580; Smith & Downs, 1979: 1538.

Orthopetalum inerme (G. Meyer) Beer =Pitcairnia inermis var. inermis
Ref. FP 13(1/3) 1936: 521; Smith & Downs, 1974: 326.

Phytarrhiza lindenii (C. J. Morren) C. J. Morren ex Baker =Tillandsia cyanea var. cyanea
Ref. FP 13(1/3) 1936: 551; Smith & Downs, 1977: 849.

Phytarrhiza purpurea C. J. Morren ex Baker pro syn. =Tillandsia purpurea R. & P.
Ref. FP 13(1/3) 1936: 560; Smith & Downs, 1977: 866.

Phytarrhiza rubra (R. & P.) C. J. Morren ex Baker =Vriesea rubra (R. & P.) Beer
Ref. FP 13(1/3) 1936: 558.

Pitcairnia acicularis L. B. Smith
Ref. Smith & Downs, 1974: 433.
Endemic herb. Andean II: shrublands. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Ferreyra 14167* (US!, USM!)
Depts.: LA

Pitcairnia ancuashii L. B. Smith & Read
Ref. Smith & Read, 1979: 330.
Endemic herb. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Ancuash 519* (MO!)
Depts.: AM

Pitcairnia aphelandriflora Lemaire
Ref. Smith & Downs, 1974: 277.
Herb. Amazonian, Andean I: seasonally inundated areas. 0-1000 m.
Voucher: Sandeman 136 (US!)
Depts.: AM, LO

Pitcairnia asplundii L. B. Smith
Ref. Smith & Downs, 1974: 400.
Endemic herb. Riversides.
Note: Known from Peru only from the type locality.
Voucher: Asplund 12263* (S photo US)
Depts.: HU

Pitcairnia asterotricha Poeppig & Endlicher =Puya ferruginea (R. & P.) L. B. Smith
Ref. FP 13(1/3) 1936: 526; Smith & Downs, 1974: 98.

Pitcairnia attenuata L. B. Smith & Read
Ref. Smith & Read, 1979: 329.
Endemic herb. Andean I. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Schunke 8078* (MO!)
Depts.: SM

Pitcairnia augustii Harms
Ref. FP 13(1/3) 1936: 517; Smith & Downs, 1974: 408.
Endemic herb. Andean II: riversides. 2000-2500 m.
Voucher: Weberbauer 7074* (MOL!), Acleto 290 (USM!)
Depts.: LL, PI

Pitcairnia aureobrunnea W. Rauh
Ref. Rauh, 1984: 26.
Endemic herb. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 53677* (HEID)
Depts.: SM

Pitcairnia biattenuata Rusby =Pitcairnia paniculata (R. & P.) R. & P.
Ref. FP 13(1/3) 1936: 519; Smith & Downs, 1974: 306.

Pitcairnia bifaria L. B. Smith
Ref. Smith & Downs, 1974: 605.
Endemic herb. Andean I-II: cloud forests. 500-2000 m.
Voucher: Dudley 13087* (NA), Schunke 11907 (US!)
Depts.: HU, MD

Pitcairnia biflora L. B. Smith
Ref. Smith & Downs, 1974: 364.
Endemic herb. Amazonian, Andean I. 0-1000 m.
Voucher: Sandeman s.n.* (K), Rauh 63681 (HEID)
Depts.: LO, SM

Pitcairnia billbergioides L. B. Smith
Ref. Smith & Downs, 1974: 414.
Endemic herb. Andean I-II. 500-2000 m.
Voucher: Ferreyra 14161* (US!), Díaz & Beltrán 3370 (MO!)
Depts.: LA, PI

Pitcairnia brevicalycina Mez
Ref. FP 13(1/3) 1936: 522; Smith & Downs, 1974: 345.
Herb. Andean II: forests. 1500-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6825A* (B photo F)
Depts.: HU

Pitcairnia brittoniana Mez
Ref. Smith & Downs, 1974: 383.
Herb. Andean I: forests. 1000-1500 m.
Voucher: McCarrol 92 (GH)
Depts.: PU

Pitcairnia calatheoides L. B. Smith
Ref. Smith & Downs, 1974: 372.
Endemic herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Klug 4237* (GH), Schunke 10469 (MO!)
Depts.: SM

Pitcairnia cassapensis Mez
Ref. FP 13(1/3) 1936: 519; Smith & Downs, 1974: 303.
Endemic herb. Andean I-II: forests. 1500-2500 m.
Voucher: Poeppig 1526* (B photo F), Mathews 2089 (US!)
Depts.: CU, HU

Pitcairnia cerrateana L. B. Smith
Ref. Smith, 1991: 52.
Endemic herb. Andean II: forests. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Cerrate 8967* (USM!)
Depts.: AN

Pitcairnia clavata L. B. Smith
Ref. Smith & Downs, 1974: 390.
Endemic herb. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 2419* (US!)
Depts.: LO

Pitcairnia concolor Baker =Pitcairnia pungens var. pungens
Ref. FP 13(1/3) 1936: 517; Smith & Downs, 1974: 412.

Pitcairnia consimilis Baker =Puya ferruginea (R. & P.) L. B. Smith
Ref. FP 13(1/3) 1936: 526; Smith & Downs, 1974: 98.

Pitcairnia corallina Linden & André var. **corallina**
Ref. FP 13(1/3) 1936: 515; Smith & Downs, 1974: 286.
Herb. Amazonian: shrublands. 0-500 m.
Voucher: Ferreyra 4805 (US!)
Depts.: LO, SM

Pitcairnia cotahuasiana Harms =Puya ferruginea (R. & P.) L. B. Smith
Ref. FP 13(1/3) 1936: 526; Smith & Downs, 1974: 98.

Pitcairnia crystallina Persoon =Puya lanuginosa R. & P.
Ref. FP 13(1/3) 1936: 506; Smith & Downs, 1974: 163.

Pitcairnia cuzcoensis L. B. Smith
Ref. FP 13(1/3) 1936: 525; Smith & Downs, 1974: 294.
Endemic herb. Andean II: grasslands, shrublands. 1500-2000 m.
Voucher: Weberbauer 7825* (F), Vargas 3060 (GH)
Depts.: CU

Pitcairnia cyanopetala Ule
Ref. FP 13(1/3) 1936: 516; Smith & Downs, 1974: 375.
Endemic herb. Andean I. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Ule 6608* (B photo US)
Depts.: SM

Pitcairnia decurvata L. B. Smith
Ref. Smith & Downs, 1974: 419.
Endemic herb. Coastal: rocky slopes. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: López *et al.* 4047* (TRP, US)
Depts.: LA

Pitcairnia echinotricha (André) Baker =Puya ferruginea (R. & P.) L. B. Smith
Ref. FP 13(1/3) 1936: 526; Smith & Downs, 1974: 98.

Pitcairnia ellenbergii L. B. Smith
Ref. Smith & Downs, 1974: 303.
Endemic herb. Andean II: disturbed areas. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Ellenberg 993* (U photo US)
Depts.: CU

Pitcairnia elongata L. B. Smith
Ref. Smith & Downs, 1974: 368.
Epiphytic herb. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Foster *et al.* 10936 (F!)
Depts.: MD, PA

Pitcairnia erratica L. B. Smith
Ref. Smith & Downs, 1974: 432.
Epiphytic herb. Andean II. 3000-3500 m.
Note: This is probably a synonym of *P. riparia* (Luther, pers. comm.).
Voucher: Barbour 3541 (MO!)
Depts.: AM

Pitcairnia excelsa C. J. Morren =Pitcairnia paniculata (R. & P.) R. & P.
Ref. FP 13(1/3) 1936: 519; Smith & Downs, 1974: 306.

Pitcairnia eximia Mez
Ref. FP 13(1/3) 1936: 517; Smith & Downs, 1974: 327.
Endemic herb. Andean II: disturbed areas. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 2025* (B photo US!)
Depts.: JU

Pitcairnia ferreyrae L. B. Smith
Ref. Smith & Downs, 1974: 383.
Endemic herb. Andean II: forests. 1500-3500 m.
Voucher: Ferreyra 1044* (USM!), Hutchison 2620 (US!)
Depts.: UC

Pitcairnia ferruginea R. & P. =Puya ferruginea (R. & P.) L. B. Smith
Ref. FP 13(1/3) 1936: 526; Smith & Downs, 1974: 98.

Pitcairnia fimbriatobracteata W. Rauh
Ref. Rauh, 1985b: 48.
Endemic herb. Andean I. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh & Bismarck 40180* (HEID)
Depts.: AM

Pitcairnia fractifolia L. B. Smith
Ref. Smith & Downs, 1974: 424.

Herb. Andean I: rocky slopes. 500-1000 m.
Voucher: López *et al.* 4242* (TRP, US), Rauh 24597 (US!)
Depts.: AM

Pitcairnia fruticetorum Mez =Pitcairnia paniculata (R. & P.) R. & P.
Ref. FP 13(1/3) 1936: 519; Smith & Downs, 1974: 306.

Pitcairnia grandiflora Mez =Puya pitcairnioides L. B. Smith
Ref. FP 13(1/3) 1936: 524; Smith & Downs, 1974: 132.

Pitcairnia gutteana W. Weber
Ref. Mueller *et al.*, 1984: 40.
Endemic herb. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Gutte *et al.* 1432* (LZ)
Depts.: LO

Pitcairnia guzmanioides L. B. Smith
Ref. Smith & Downs, 1974: 380.
Herb. Andean I-II. 500-3000 m.
Voucher: McCarroll 47 (GH)
Depts.: PU

Pitcairnia herrerae Harms =Puya ferruginea (R. & P.) L. B. Smith
Ref. FP 13(1/3) 1936: 526; Smith & Downs, 1974: 98.

Pitcairnia heterophylla (Lindley) Beer var. **heterophylla** fo. **heterophylla**
Syn. *Puya heterophylla* Lindley
Ref. Smith & Downs, 1974: 406.
Epiphytic or terrestrial herb. Andean I-II: forests, rocky slopes. 1500-2500 m.
Voucher: Soukup 3847 (US)
Depts.: CA, PI

Pitcairnia imperialis Harms =Puya ferruginea (R. & P.) L. B. Smith
Ref. FP 13(1/3) 1936: 526; Smith & Downs, 1974: 98.

Pitcairnia inermis (G. Meyer) G. Meyer ex Schultes & Schultes var. **flava** L. B. Smith
Ref. Smith & Downs, 1974: 326.
Endemic herb. Andean I. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Ferreyra 4228* (USM)
Depts.: HU

Pitcairnia inermis var. **inermis**
Syn. *Orthopetalum inerme* (G. Meyer) Beer, *Pourretia inermis* G. Meyer
Ref. FP 13(1/3) 1936: 521; Smith & Downs, 1974: 326.
Herb. Andean II: grasslands. 1500-2000 m.
Voucher: Woytkowski 34213 (US!)
Depts.: HU

Pitcairnia juzepczukii W. Weber
Ref. Weber, 1986: 95.
Endemic herb.
Note: Known from Peru only from the type locality.
Voucher: Juzepczuk 10310* (LE)
Depts.: JU

Pitcairnia laevis Willdenow ex Schultes & Schultes f. pro syn. =Pitcairnia pungens var. pungens
Ref. FP 13(1/3) 1936: 517; Smith & Downs, 1974: 412.

Pitcairnia lanata (H.B.K.) Dietrich =Puya lanata (H.B.K.) Schultes & Schultes f.
Ref. FP 13(1/3) 1936: 508; Smith & Downs, 1974: 162.

Pitcairnia lanuginosa R. & P.
Syn. *Pitcairnia sessiliflora* Rusby, *Pitcairnia subpetiolata* Baker, *Puya ruiziana* Mez as to synonymy, not as to description (note from FP)
Ref. FP 13(1/3) 1936: 518; Smith & Downs, 1974: 312.
Endemic herb. Amazonian, Andean I: riversides. 0-1000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Schunke 7777 (MO!)
Depts.: AM, CU, HU, JU, MD, SM, UC

Pitcairnia laresiana Harms =Puya ferruginea (R. & P.) L. B. Smith
Ref. FP 13(1/3) 1936: 526; Smith & Downs, 1974: 98.

Pitcairnia latibracteata Harms =Puya ferruginea (R. & P.) L. B. Smith
Ref. FP 13(1/3) 1936: 526; Smith & Downs, 1974: 32.

Pitcairnia lechleri Baker
Ref. FP 13(1/3) 1936: 518; Smith & Downs, 1974: 325.
Endemic herb. Andean II: rocky slopes. 1500-3000 m.
Voucher: Lechler 3132* (K), Vargas 11033 (US!)
Depts.: CU, PU

Pitcairnia lehmannii Baker
Ref. Rauh, 1985a: 35.
Endemic herb. Andean I-II. 1000-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 63751* (HEID)
Depts.: SM

Pitcairnia longifolia Hooker =Pitcairnia paniculata (R. & P.) R. & P.
Ref. FP 13(1/3) 1936: 519; Smith & Downs, 1974: 306.

Pitcairnia lopezii L. B. Smith
Ref. Smith & Downs, 1974: 419.
Endemic herb. Coastal: lomas, rocky slopes. 500-1000 m.
Voucher: López M. 226* (TRP, US!), López M. s.n. (TRP, US)
Depts.: LL

Pitcairnia marnierlapostollei L. B. Smith
Ref. Smith & Downs, 1974: 414.
Cultivated herb.
Voucher: Marnier-Lapostolle s.n.* (US)
Depts.: Without full locality data.

Pitcairnia megastachya Baker =Puya roezlii C. J. Morren
Ref. FP 13(1/3) 1936: 499; Smith & Downs, 1974: 79.

Pitcairnia melanopoda L. B. Smith
Ref. Smith & Downs, 1974: 415.
Endemic herb. Andean II: grasslands. 2000-2500 m.
Voucher: Wurdack 1070* (US, USM!), Rauh 24560 (US!)
Depts.: AM

Pitcairnia odontopoda Baker
Ref. FP 13(1/3) 1936: 527; Smith & Downs, 1974: 319.
Herb. Andean II. 1500-2500 m.
Note: Listed in the Flora of Peru as an excluded species.
Voucher: Vargas 14050 (US!)
Depts.: CU, MD

Pitcairnia pallidiflavens W. Rauh
Ref. Rauh, 1985a: 23.
Endemic herb. Andean I. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 53674* (HEID)
Depts.: SM

Pitcairnia paniculata (R. & P.) R. & P.
Syn. *Pitcairnia biattenuata* Rusby, *Pitcairnia excelsa* C. J. Morren, *Pitcairnia fruticetorum* Mez, *Pitcairnia longifolia* Hooker, *Pourretia paniculata* R. & P.
Ref. FP 13(1/3) 1936: 519; Smith & Downs, 1974: 306.
Herb. Amazonian, Andean I-II: forests. 0-3000 m.
Voucher: Ferreyra 1825 (MO!)
Depts.: AM, CU, HU, JU, LO, MD, PU, SM, UC

Pitcairnia poeppigiana Mez
Ref. FP 13(1/3) 1936: 524; Smith & Downs, 1974: 381.
Endemic herb. Amazonian: swamps. 0-500 m.
Voucher: Poeppig 2424* (W photo US!), Rimachi 173 (USM!)
Depts.: LO

Pitcairnia pomacochae W. Rauh
Ref. Rauh, 1981: 121.
Endemic herb. Andean I: forests. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 24566* (HEID)
Depts.: JU, SM

Pitcairnia pseudopungens W. Rauh
Ref. Rauh & Gross, 1990: 13.
Endemic herb. Andean I. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 52797* (HEID)
Depts.: AM

Pitcairnia pseudoundulata W. Rauh
Ref. Rauh, 1985a: 27.
Herb. Andean I. 500-1000 m.

Note: Known from Peru only from the type locality.
Voucher: Rauh 40159* (HEID)
Depts.: AM

Pitcairnia pulverulenta R. & P.
Ref. FP 13(1/3) 1936: 520; Smith & Downs, 1974: 316.
Endemic herb. Andean I-II: forests. 500-2500 m.
Voucher: Ruiz & Pavón s.n.* (G photo F), Boeke 1203 (US!)
Depts.: CU, HU, JU, PU, SM

Pitcairnia pungens H.B.K. var. **flava** L. B. Smith
Ref. Smith & Downs, 1974: 414.
Endemic herb. Andean II: rocky slopes. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Iltis & Ugent 1128* (US!, USM!)
Depts.: CU

Pitcairnia pungens var. **pungens**
Syn. *Pitcairnia concolor* Baker, *Pitcairnia laevis* Willdenow ex Schultes & Schultes f. pro syn.
Ref. Smith & Downs, 1974: 412.
Epiphytic or terrestrial herb. Andean I-II: rocky slopes. 500-3500 m.
Voucher: Ferreyra 8545 (US, USM)
Depts.: AN, CA, CU, HU, LI

Pitcairnia puyoides L. B. Smith
Ref. FP 13(1/3) 1936: 525; Smith & Downs, 1974: 304.
Endemic epiphytic herb. Andean I: forests. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Klug 3547* (US!)
Depts.: SM

Pitcairnia pyramidata (R. & P.) Persoon =Puya pyramidata (R. & P.) Schultes & Schultes f.
Ref. FP 13(1/3) 1936: 505; Smith & Downs, 1974: 125.

Pitcairnia quesnelioides L. B. Smith
Ref. Smith & Downs, 1974: 279.
Herb. Andean I: riversides. 500-1000 m.
Voucher: Schunke 7881 (MO!)
Depts.: SM

Pitcairnia rectiflora W. Rauh
Ref. Rauh, 1985a: 26.
Endemic herb. Andean I. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 53673* (HEID)
Depts.: SM

Pitcairnia rigida Mez
Ref. FP 13(1/3) 1936: 519; Smith & Downs, 1974: 324.
Endemic herb. Andean I-II: rocky slopes. 500-2500 m.
Voucher: Weberbauer 1303* (US!), Vargas 17675 (US!)
Depts.: CU, PU, SM

Pitcairnia riparia Mez
Ref. Smith & Downs, 1974: 434.
Endemic epiphytic or terrestrial herb. Andean I: forests. 500-1500 m.
Voucher: Weberbauer 6156* (B photo US!), Harling 3845 (US!)
Depts.: CA

Pitcairnia rubronigriflora W. Rauh
Ref. Rauh, 1984: 32.
Endemic herb. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 53676* (HEID)
Depts.: SM

Pitcairnia ruderalis L. B. Smith
Ref. Smith & Downs, 1974: 306.
Endemic herb. Andean I: disturbed areas. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Chrostoski 66-5B* (US!)
Depts.: UC

Pitcairnia ruiziana Mez
Ref. FP 13(1/3) 1936: 526; Smith & Downs, 1974: 312.
Endemic herb.
Note: Known from Peru only from the type locality.
Voucher: Ruiz & Pavón s.n.* (G photo F)
Depts.: Without locality data.

Pitcairnia sagasteguii L. B. Smith & Read
Ref. Smith & Downs, 1974: 137.
Endemic herb. Andean I: rocky slopes. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Sagástegui *et al.* 8145* (HUT, US)
Depts.: PI

Pitcairnia sandemanii L. B. Smith
Ref. Smith & Downs, 1974: 326.
Endemic herb. Andean II. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Sandeman 4586* (K photo US)
Depts.: JU

Pitcairnia scandens Ule
Ref. FP 13(1/3) 1936: 524; Smith & Downs, 1974: 431.
Endemic herb. Andean I. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Ule 6687* (US!)
Depts.: SM

Pitcairnia sceptriformis Mez
Ref. FP 13(1/3) 1936: 523; Smith & Downs, 1974: 383.
Endemic herb. Andean I. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Ule 62-P* (B photo US)
Depts.: UC

Pitcairnia schunkei L. B. Smith & Read
Ref. Smith & Read, 1975: 290.
Endemic herb.
Note: Known from Peru only from the type locality.
Voucher: Schunke 4995* (US)
Depts.: SM

Pitcairnia serrulata L. B. Smith & Read
Ref. Smith & Read, 1977: 135.
Endemic herb. Andean I: forests. 500-1000 m.
Voucher: Berlin 631* (US), Ancuash 221 (MO)
Depts.: AM

Pitcairnia sessiliflora Rusby =Pitcairnia lanuginosa R. & P.
Ref. FP 13(1/3) 1936: 520; Smith & Downs, 1974: 312.

Pitcairnia smithiorum H. Luther
Ref. Luther, 1991b: 99.
Endemic herb. Amazonian: riversides. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Smith & Smith s.n.* (SEL)
Depts.: LO

Pitcairnia sprucei Baker
Ref. FP 13(1/3) 1936: 516; Smith & Downs, 1974: 287.
Herb. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Gentry & Revilla 20646 (US!)
Depts.: CU, LO

Pitcairnia stenophylla André
Ref. Smith & Downs, 1974: 411.
Herb. Andean I: rocky slopes. 500-1000 m.
Voucher: Knapp 8006 (MO!)
Depts.: SM

Pitcairnia stolonifera L. B. Smith & Read
Ref. Smith & Read, 1976: 431.
Endemic epiphytic herb. Andean II: disturbed areas. 1500-2000 m.
Note: Known from Peru only from the type locality. This is probably a synonym of *P. riparia* (Luther, pers. comm.).
Voucher: Tillett 673-275* (US)
Depts.: AM

Pitcairnia straminea Poeppig ex Mez
Ref. FP 13(1/3) 1936: 523; Smith & Downs, 1974: 343.
Endemic herb. Andean I. 500-1000 m.
Voucher: Poeppig 1442* (W lost), Ferreyra 4228 (USM!)
Depts.: HU

Pitcairnia subfuscopetala W. Rauh & Hebding
Ref. Rauh & Gross, 1990: 16.
Endemic herb. Andean I. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 24416* (HEID)
Depts.: CA

Pitcairnia subpetiolata Baker =Pitcairnia lanuginosa R. & P.
Ref. FP 13(1/3) 1936: 520; Smith & Downs, 1974: 312.

Pitcairnia subulifera L. B. Smith
Ref. Smith & Downs, 1974: 400.
Endemic herb. Andean II: rocky slopes. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Asplund 13163* (US!), Rauh 63828 (HEID)
Depts.: HU

Pitcairnia tarapotensis Baker
Ref. FP 13(1/3) 1936: 521; Smith & Downs, 1974: 309.
Endemic herb. Amazonian, Andean I-II: forests, rocky slopes. 0-2500 m.
Voucher: Spruce s.n.* (K photo GH), Rimachi 4095 (US!)
Depts.: SM

Pitcairnia trianae André var. **trianae**
Ref. Smith & Downs, 1974: 330.
Herb. Andean I-II: grasslands. 1500-3000 m.
Voucher: Hutchison & Wright 6567 (US!, USM!)
Depts.: PI

Pitcairnia truncata L. B. Smith
Ref. FP 13(1/3) 1936: 522; Smith & Downs, 1974: 320.
Endemic herb. Andean I-II: forests. 1000-2000 m.
Voucher: Killip & Smith 22414* (US!), Iltis & Ugent 233 (US!)
Depts.: AM, AY, CA, HV, JU, LO

Pitcairnia umbratilis L. B. Smith
Ref. Smith & Downs, 1974: 396.
Endemic herb. Andean II: forests. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Asplund 13162* (US!)
Depts.: HU

Pitcairnia utcubambensis W. Rauh
Ref. Rauh, 1988: 659.
Endemic herb. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh & Bismarck 53566* (HEID)
Depts.: AM

Pitcairnia vargasiana L. B. Smith
Ref. Smith & Downs, 1974: 322.
Endemic herb. Andean II: rocky slopes. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Vargas 14716* (US)
Depts.: CU

Pitcairnia viridis Mez =Puya ferruginea (R. & P.) L. B. Smith
Ref. FP 13(1/3) 1936: 523; Smith & Downs, 1974: 98.

Pitcairnia weberbaueri Mez =Puya textoragricolae W. Weber
Ref. Weber, 1986: 101.

Pitcairnia wolfei L. B. Smith
Ref. Smith & Downs, 1974: 605.
Endemic herb. Andean II: riversides. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Wolfe & Dudley 12404* (NA), Dudley 13293 (US!)
Depts.: HU

Pitcairnia yaupibajaensis W. Rauh
Ref. Rauh, 1983c: 46.
Endemic herb. Andean II. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 25718* (HEID)
Depts.: PA

[*Platyaechmea anomala* (L. B. Smith) L. B. Smith & Kress =Aechmea anomala L. B. Smith]
Ref. Smith & Kress, 1990: 272.

Voucher: Herrera 1954* (B photo F), Vargas 5090 (US)
Depts.: AR, AP, CU

Puya depauperata L. B. Smith
Ref. FP 13(1/3) 1936: 507; Smith & Downs, 1974: 141.
Endemic herb. Andean II: shrublands. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Macbride & Featherstone 1339* (F)
Depts.: JU

Puya dolichostrobila Harms
Ref. FP 13(1/3) 1936: 507; Smith & Downs, 1974: 174.
Endemic herb. Andean I: rocky slopes. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6981* (B, MOL!)
Depts.: LL

Puya echinotricha André =Puya ferruginea (R. & P.) L. B. Smith
Ref. FP 13(1/3) 1936: 526; Smith & Downs, 1974: 98.

Puya fastuosa Mez
Ref. FP 13(1/3) 1936: 504; Smith & Downs, 1974: 146.
Endemic herb. Andean II-III: grasslands, swamps. 3000-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 4069* (B photo F!)
Depts.: CA

Puya ferox Mez
Ref. FP 13(1/3) 1936: 502; Smith & Downs, 1974: 139.
Endemic herb. Andean II: rocky slopes. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 1344* (B photo F!)
Depts.: PU

Puya ferreyrae L. B. Smith
Ref. Smith & Downs, 1974: 132.
Endemic herb. Andean II: rocky slopes. 2000-2500 m.
Voucher: Ferreyra 14096* (US!, USM!), Hutchison & Wright 6124 (US!)
Depts.: LL

Puya ferruginea (R. & P.) L. B. Smith
Syn. *Pitcairnia asterotricha* Poeppig & Endlicher, *Pitcairnia consimilis* Baker, *Pitcairnia cotahuasiana* Harms, *Pitcairnia echinotricha* (André) Baker, *Pitcairnia ferruginea* R. & P., *Pitcairnia herrerae* Harms, *Pitcairnia imperialis* Harms, *Pitcairnia laresiana* Harms, *Pitcairnia latibracteata* Harms, *Pitcairnia viridis* Mez, *Pourretia ferruginea* (R. & P.) Sprengel, *Puya echinotricha* André, *Puya grandiflora* Hooker
Ref. Smith & Downs, 1974: 98.
Herb. Andean I-III, Coastal: lomas, rocky slopes. 500-4000 m.
Voucher: Vargas 1888 (US!)
Depts.: AM, AN, AP, AR, CU, HU, HV, JU, LI, LL, MO, PA, PU

Puya flava Willdenow ex Baker =Deuterocohnia longipetala (Baker) Mez
Ref. FP 13(1/3) 1936: 512; Smith & Downs, 1974: 233.

Puya fulgens L. B. Smith
Ref. Smith & Downs, 1974: 118.
Endemic herb. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 1458* (US!)
Depts.: AM

Puya gerdae W. Weber
Ref. Mueller *et al.*, 1984: 41.
Endemic herb. Andean II: forests. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Gutte 508* (LZ)
Depts.: LI

Puya gerdmuelleri W. Weber
Ref. Mueller *et al.*, 1984: 42.
Endemic epiphytic herb. Andean III: forests. 3500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Gutte & Mueller 8890* (LZ)
Depts.: CA

Puya glandulosa L. B. Smith
Ref. Smith & Downs, 1974: 92.
Endemic herb. Andean II: forests. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Hutchison *et al.* 6123* (US!, USM!)
Depts.: LL

Puya glaucovirens Mez
Ref. FP 13(1/3) 1936: 501; Smith & Downs, 1974: 108.
Endemic herb. Andean II: rocky slopes. 2000-3500 m.
Voucher: Weberbauer 4208* (B photo F), Rauh 24270 (US!)
Depts.: AM, CA

Puya gracilis L. B. Smith
Ref. FP 13(1/3) 1936: 509; Smith & Downs, 1974: 131.
Endemic herb. Andean II: rocky slopes. 1500-2500 m.
Voucher: Weberbauer 6474* (MOL!, US!), Tovar 1857 (US!, USM!)
Depts.: HU, HV

Puya grandidens Mez
Ref. FP 13(1/3) 1936: 500; Smith & Downs, 1974: 139.
Endemic herb. Andean II: grasslands. 2500-3500 m.
Voucher: Weberbauer 2738* (MOL!), Cerrate 4026 (US!, USM!)
Depts.: AN

Puya grandiflora Hooker =Puya ferruginea (R. & P.) L. B. Smith
Ref. FP 13(1/3) 1936: 526; Smith & Downs, 1974: 98.

Puya gutteana W. Weber
Ref. Mueller *et al.*, 1984: 42.
Endemic herb. Andean II: forests. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Gutte & Gutte 3308* (LZ)
Depts.: CU

Puya hamata L. B. Smith
Ref. Smith & Downs, 1974: 181.
Herb. Andean III: grasslands. 3500-4000 m.
Voucher: Hutchison & Wright 7036 (US!, USM!)
Depts.: CA

Puya herrerae Harms
Ref. FP 13(1/3) 1936: 505; Smith & Downs, 1974: 179.
Endemic herb. Andean II-III: grasslands. 3000-4500 m.
Voucher: Herrera 1965* (B photo F), Sánchez *et al.* 1183 (MO!)
Depts.: AP, CU, PU

Puya heterophylla Lindley =Pitcairnia heterophylla var. heterophylla fo. heterophylla
Ref. Smith & Downs, 1974: 406.

Puya huancavelicae L. B. Smith
Ref. Smith & Downs, 1974: 162.
Endemic herb. Andean II: rocky slopes. 2000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Tovar 2124* (US, USM)
Depts.: HV

Puya hutchisonii L. B. Smith
Ref. Smith & Downs, 1974: 137.
Endemic herb. Andean II: disturbed areas. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Hutchison & Wright 4380* (US!, USM!)
Depts.: AN

Puya iltisiana L. B. Smith
Ref. Smith & Downs, 1974: 142.
Endemic herb. Andean II: rocky slopes. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Iltis & Ugent 613* (US)
Depts.: AP

Puya isabellina Mez
Ref. FP 13(1/3) 1936: 508; Smith & Downs, 1974: 166.
Endemic herb. Andean I. 1000-1500 m.
Voucher: Weberbauer 4144* (B photo F!), Ferreyra & Sánchez 19714 (MO!, USM!)
Depts.: CA

Puya laccata Mez
Ref. FP 13(1/3) 1936: 503; Smith & Downs, 1974: 151.
Endemic herb. Andean II: bogs. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 3376* (B photo F)
Depts.: HU

Puya lanata (H.B.K.) Schultes & Schultes f.
Syn. *Pitcairnia lanata* (H.B.K.) Dietrich, *Pourretia lanata* H.B.K.
Ref. FP 13(1/3) 1936: 508; Smith & Downs, 1974: 162.
Herb.
Voucher: Humboldt & Bonpland 3713* (P), Ferreyra 15000 (US, USM)
Depts.: CA

Puya lanuginosa (R. & P.) Schultes & Schultes f.
Syn. *Bromelia lanuginosa* (R. & P.) Beer, *Pitcairnia crystallina* Persoon, *Pourretia lanuginosa* R. & P.
Ref. Smith & Downs, 1974: 163.
Endemic herb. Rocky slopes.
Voucher: Ruiz & Pavón s.n.* (BM), Ruiz & Pavón s.n. in lit.
Depts.: HU, JU

Puya lasiopoda L. B. Smith
Ref. Smith & Downs, 1974: 144.
Herb. Andean II: rocky slopes. 2000-2500 m.
Voucher: Vargas 17515 (MO!)
Depts.: PU

Puya leptostachya L. B. Smith
Ref. Smith & Downs, 1974: 159.
Herb. Andean III: grasslands. 3500-4000 m.
Voucher: Pennell 13877 (PH)
Depts.: CU

Puya llatensis L. B. Smith
Ref. FP 13(1/3) 1936: 502; Smith & Downs, 1974: 141.
Endemic herb. Andean II: rocky slopes. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Macbride & Featherstone 2300* (F)
Depts.: HU

Puya longisepala Mez
Ref. FP 13(1/3) 1936: 500; Smith & Downs, 1974: 79.
Endemic herb. Andean II: rocky slopes. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 550* (MOL!)
Depts.: PU

Puya longistyla Mez
Ref. FP 13(1/3) 1936: 504; Smith & Downs, 1974: 138.
Endemic herb. Andean II: rocky slopes. 2500-3500 m.
Voucher: Weberbauer 4916* (B photo F), Iltis & Iltis 962 (US!)
Depts.: CU

Puya lopezii L. B. Smith
Ref. Smith & Downs, 1974: 137.
Endemic herb. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: López & Sagástegui 3549* (TRP, US)
Depts.: LL

Puya lutheri W. Till
Ref. Till, 1992: 443
Herb. Andean III: grasslands. 3500-4500 m.
Voucher: Smith *et al.* 9196 (ISC)
Depts.: AN

Puya macbridei L. B. Smith subsp. **macbridei**
Ref. FP 13(1/3) 1936: 507; Smith & Downs, 1974: 135.
Endemic herb. Andean II: rocky slopes. 3000-3500 m.
Voucher: Macbride & Featherstone 2516* (F), Rauh & Hirsch P-2075 (US!)
Depts.: AN

Puya macbridei subsp. **yungayensis** W. Weber
Ref. Mueller *et al.*, 1984: 44.
Endemic herb. Andean II: forests. 2500-3000 m.
Note: Known from Peru only from the type locality.

Voucher: Gutte & Chanco 9687* (LZ)
Depts.: AN

Puya macropoda L. B. Smith
Ref. Smith & Downs, 1974: 131.
Endemic herb. Andean II. 1500-2000 m.
Voucher: Hutchison & Wright 5855* (US!, USM!), Gentry *et al.* 23230 (USM!)
Depts.: AM

Puya macrura Mez
Ref. FP 13(1/3) 1936: 508; Smith & Downs, 1974: 176.
Endemic herb. Andean II: rocky slopes. 1500-3000 m.
Voucher: Weberbauer 3022* (MOL!), Ferreyra 14619 (US!)
Depts.: AN, LL

Puya mariae L. B. Smith
Ref. Smith & Downs, 1974: 166.
Endemic herb. Andean II: rocky slopes. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 602* (US!, USM!)
Depts.: AM

Puya medica L. B. Smith
Ref. Smith & Downs, 1974: 117.
Endemic herb. Andean II-III: rocky slopes. 2500-4000 m.
Voucher: Cerrate 1333* (US!, USM!), Becker & Terrones s.n. (US!)
Depts.: AN, CA, LL

Puya membranacea L. B. Smith
Ref. Smith & Downs, 1974: 157.
Endemic herb. Andean II: grasslands. 3000-3500 m.
Voucher: West 7032* (UC), Gentry *et al.* 23429 (US!)
Depts.: CU

Puya mima L. B. Smith & Read
Ref. Smith & Read, 1979: 329.
Endemic herb. Andean II. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Hutchison 18109* (US)
Depts.: CA

Puya mitis Mez
Ref. FP 13(1/3) 1936: 506; Smith & Downs, 1974: 127.
Endemic herb. Andean II: rocky slopes, swamps. 3000-3500 m.
Voucher: Weberbauer 2094* (MOL!), Pennell 15867 (PH)
Depts.: AM, JU

Puya nigrescens L. B. Smith
Ref. Smith & Downs, 1974: 129.
Endemic herb.
Note: Known only from the type locality.
Voucher: Cerrate 4103* (US, USM)
Depts.: AN

Puya oxyantha Mez
Ref. FP 13(1/3) 1936: 501; Smith & Downs, 1974: 145.
Endemic herb. Andean II: forests. 2000-2500 m.
Voucher: Weberbauer 1058* (B photo F), Ferreyra 16654 (US!, USM!)
Depts.: PU

[Puya pearcei (Baker) Mez]
Ref. FP 13(1/3) 1936: 510; Smith & Downs, 1974: 101.
Note: Not known from Peru. Listed in the Flora of Peru as an excluded species.

Puya pectinata L. B. Smith =Puya roezlii C. J. Morren
Ref. FP 13(1/3) 1936: 499; Smith & Downs, 1974: 79.

Puya pitcairnioides L. B. Smith
Syn. *Pitcairnia grandiflora* Mez
Ref. Smith & Downs, 1974: 132.
Endemic herb. Andean II: riversides. 1500-2500 m.
Voucher: Weberbauer 4268* (B), Barbour 4224 (US!)
Depts.: AM

Puya ponderosa L. B. Smith
Ref. Smith & Downs, 1974: 160.
Endemic herb. Andean III: rocky slopes. 3500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Ilits & Ugent 445* (US)
Depts.: AY

Puya pratensis L. B. Smith
Ref. Smith & Downs, 1974: 155.
Endemic herb. Andean II: grasslands, rocky slopes. 3000-3500 m.
Voucher: Ferreyra 8580* (USM!), López & Sagástegui 2862 (US!, USM!)
Depts.: CA, LL

Puya pyramidata (R. & P.) Schultes & Schultes f.
Syn. *Bromelia pyramidata* (R. & P.) Beer, *Pitcairnia pyramidata* (R. & P.) Persoon, *Pourretia pyramidata* R. & P.
Ref. FP 13(1/3) 1936: 505; Smith & Downs, 1974: 125.
Endemic herb. Andean II: bogs, disturbed areas. 2500-3000 m.
Voucher: Ruiz & Pavón s.n.* (MA lost), Macbride 4891 (F)
Depts.: HU, LL

Puya raimondii Harms
Syn. *Pourretia gigantea* Raimondi
Ref. FP 13(1/3) 1936: 509; Smith & Downs, 1974: 189.
Herb. Andean III: rocky slopes, shrublands. 3500-4500 m.
Voucher: Weberbauer 2955* (B photo F), Macbride & Featherstone 2496 (F!)
Depts.: AN, HV, PU

Puya ramonii L. B. Smith
Ref. Smith, 1990: 57.
Endemic herb. Andean III: grasslands. 3500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Ferreyra 20910* (US!, USM!)
Depts.: LA

Puya ramosa L. B. Smith
Ref. Smith & Downs, 1974: 99.
Endemic herb. Andean II: rocky slopes. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 1600* (US!)
Depts.: AM

Puya rauhii L. B. Smith
Ref. Smith & Downs, 1974: 123.
Endemic herb. Andean III: rocky slopes. 3500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh & Hirsch P-2022* (US!)
Depts.: AN

Puya reflexiflora Mez
Syn. *Puya stenostele* Harms
Ref. FP 13(1/3) 1936: 507; Smith & Downs, 1974: 138.
Endemic herb. Andean II-III: grasslands. 3000-4500 m.
Voucher: Weberbauer 3148* (MOL!), Ferreyra 16500A (USM!)
Depts.: AN

Puya roezlii C. J. Morren
Syn. *Pitcairnia megastachya* Baker, *Puya pectinata* L. B. Smith
Ref. FP 13(1/3) 1936: 499; Smith & Downs, 1974: 79.
Endemic herb. Andean II: rocky slopes. 2000-3500 m.
Voucher: Roezl s.n.* (LG), Asplund 11161 (US!)
Depts.: AN, AP, LI

Puya ruiziana Mez =Pitcairnia lanuginosa R. & P.
Ref. FP 13(1/3) 1936: 506, 518; Smith & Downs, 1974: 312.

Puya sagasteguii L. B. Smith
Ref. Smith & Downs, 1974: 137.
Endemic herb. Andean II. 2500-3000 m.
Voucher: López & Sagástegui 3549* (TRP, US), López & Sagástegui 3548 (MO!)
Depts.: LL

Puya simulans L. B. Smith
Ref. Smith & Downs, 1974: 104
Herb. Andean II: rocky slopes. 3000-3500 m.
Note: known from Peru only from the type locality.
Voucher: López & Sagástegui 2815* (US, TRP)
Depts.: LL

Puya stenostele Harms =Puya reflexiflora Mez
Ref. FP 13(1/3) 1936: 507; Smith & Downs, 1974: 138.

Puya stipitata L. B. Smith
Ref. FP 13(1/3) 1936: 503; Smith & Downs, 1974: 142.
Endemic herb. Andean II: grasslands, rocky slopes, shrublands. 2500-3000 m.

Voucher: Macbride 3436* (F), Macbride 3854 (F)
Depts.: HU

Puya strobilantha Mez
Ref. FP 13(1/3) 1936: 509; Smith & Downs, 1974: 174.
Endemic herb. Andean II: rocky slopes. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 2050* (B)
Depts.: JU

Puya textoragricolae W. Weber
Syn. *Pitcairnia weberbaueri* Mez
Ref. Weber, 1986: 101.
Endemic herb. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 570* (MOL!)
Depts.: PU

Puya tovariana L. B. Smith
Ref. Smith & Downs, 1974: 112.
Endemic herb. Andean II: forests. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Cerrate & Tovar 1831* (US, USM!)
Depts.: LI

[Puya tuberosa Mez]
Ref. FP 13(1/3) 1936: 501; Smith & Downs, 1974: 118.
Note: Not known from Peru. The type specimen, *Haenke s.n.*, originally cited from Peru is now known to be from Bolivia.

Puya vargasiana L. B. Smith
Ref. Smith & Downs, 1974: 120.
Endemic herb.
Note: Known from Peru only from the type locality.
Voucher: Vargas 7558* (GH)
Depts.: CU

Puya weberbaueri Mez
Ref. FP 13(1/3) 1936: 502; Smith & Downs, 1974: 146.
Endemic herb. Andean II-III: rocky slopes. 2000-4000 m.
Voucher: Weberbauer 847* (B photo F), Iltis & Iltis 992 (MO!)
Depts.: AM, CU, HV, JU, PU

Puya werneriana Read & L. B. Smith
Ref. Rauh, 1986a: 15.
Endemic herb. Andean III: grasslands. 3500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 25891* (HEID)
Depts.: JU

Puya westii L. B. Smith
Ref. Smith & Downs, 1974: 108.
Endemic herb. Andean II: rocky slopes. 2500-3500 m.
Voucher: West 8353* (UC photo US), Sagástegui 6369 (US!)
Depts.: CA, LL

Puya wrightii L. B. Smith
Ref. Smith & Downs, 1974: 135.
Endemic herb. Amazonian: rocky slopes. 0-500 m.
Voucher: Hutchison & Wright 3560* (US!, USM!), Hutchison & Wright 3786 (US!, USM!)
Depts.: AM, CA

Puya wurdackii L. B. Smith
Ref. Smith & Downs, 1974: 125.
Endemic herb. Andean II: grasslands. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 1066* (US, USM)
Depts.: AM

Renealmia monostachia L., gen. nom. rejic. =Guzmania monostachia var. monostachia
Ref. FP 13(1/3) 1936: 571; Smith & Downs, 1977: 1366.

Renealmia recurvata L., gen. nom. rejic. =Tillandsia recurvata (L.) L.
Ref. FP 13(1/3) 1936: 542; Smith & Downs, 1977: 888.

Renealmia usneoides L., gen. nom. rejic. =Tillandsia usneoides (L.) L.
Ref. FP 13(1/3) 1936: 543; Smith & Downs, 1977: 899.

Ronnbergia explodens L. B. Smith
Ref. Smith & Downs, 1979: 1505.
Epiphytic or terrestrial herb. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Dudley 13063* (US!), Foster 8635 (USM!)
Depts.: HU, PA

Schlumbergera lindenii (André) C. J. Morren =Guzmania lindenii var. lindenii
Ref. FP 13(1/3) 1936: 574; Smith & Downs, 1977: 1316.

Schlumbergera morreniana (Linden ex C. J. Morren) C. J. Morren =Guzmania morreniana var. morreniana
Ref. FP 13(1/3) 1936: 573; Smith & Downs, 1977: 1321.

Schlumbergera roezlii C. J. Morren =Guzmania roezlii (C. J. Morren) Mez
Ref. FP 13(1/3) 1936: 576; Smith & Downs, 1977: 1292.

Sodiroa graminifolia André ex Baker =Guzmania graminifolia (André ex Baker) L. B. Smith
Ref. Smith & Downs, 1979: 1360.

Strepsia usneoides (L.) Nuttall ex Steudel =Tillandsia usneoides (L.) L.
Ref. FP 13(1/3) 1936: 543; Smith & Downs, 1977: 899.

Streptocalyx angustifolia Mez =Streptocalyx longifolius (Rudge) Baker
Ref. FP 13(1/3) 1936: 583; Smith & Downs, 1977: 1519.

Streptocalyx arenarius Ule
Ref. FP 13(1/3) 1936: 583; Smith & Downs, 1979: 1521.
Endemic herb. Amazonian: forests. 0-500 m.
Voucher: Ule 6335* (B photo F), Ferreyra 4823 (US!, USM!)
Depts.: LO, SM

Streptocalyx brachystachys Harms
Ref. FP 13(1/3) 1936: 582; Smith & Downs, 1979: 1523.
Endemic epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: Tessmann 4645* (B photo F), Plowman 6468 (US!)
Depts.: AM, LO

Streptocalyx fuerstenbergii (C. J. Morren & Wittmack) C. J. Morren
Syn. *Aechmea fuerstenbergii* C. J. Morren & Wittmack
Ref. FP 13(1/3) 1936: 582; Smith & Downs, 1979: 1522.
Epiphytic herb. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Weberbauer 6664 (MOL!)
Depts.: JU

Streptocalyx holmesii Slingerland =Aechmea woronowii Harms
Ref. Smith & Downs, 1979: 1861.

Streptocalyx hoppii Harms =Aechmea hoppii (Harms) L. B. Smith
Ref. Smith & Downs, 1979: 1799.

Streptocalyx longifolius (Rudge) Baker
Syn. *Bromelia longifolia* Rudge, *Streptocalyx angustifolia* Mez
Ref. Smith & Downs, 1979: 1519.
Epiphytic or terrestrial herb. Amazonian, Andean I: disturbed areas, forests, swamps. 0-1000 m.
Voucher: Wurdack 1887 (US!, USM!)
Depts.: AM, CU, HU, JU, LO, MD, SM

Streptocalyx poeppigii Beer
Ref. Smith & Downs, 1979: 1521.
Epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: Vásquez 2284 (MO!)
Depts.: HU, JU, LO, PA

Streptocalyx poitaei Baker
Syn. *Streptocalyx tessmannii* Harms
Ref. FP 13(1/3) 1936: 582; Smith & Downs, 1979: 1523.
Epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: Killip & Smith 27887 (MO!)
Depts.: LO

Streptocalyx tessmannii Harms =Streptocalyx poitaei Baker
Ref. Smith & Downs, 1979: 1523.

Streptocalyx williamsii L. B. Smith
Ref. FP 13(1/3) 1936: 581; Smith & Downs, 1979: 1524.
Epiphytic herb. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.

Voucher: Williams 2722* (F)
Depts.: LO

Thecophyllum squarrosum Mez & Sodiro =Guzmania squarrosa (Mez & Sodiro) L. B. Smith & Pittendrigh
Ref. Smith & Downs, 1977: 1344.

Tillandsia adpressa André var. **adpressa**
Ref. FP 13(1/3) 1936: 539; Smith & Downs, 1977: 1049.
Epiphytic herb. Andean II: forests. 2000-3500 m.
Voucher: Hutchison & Bismarck 6411 (F, USM!)
Depts.: AM, CA, LL

[Tillandsia adpressa var. orthiantha (Standley) L. B. Smith]
Syn. *Tillandsia orthiantha* Standley
Ref. Smith & Downs, 1977: 1050.
Note: Not known from Peru.

Tillandsia adpressa var. **tonduziana** (Mez) L. B. Smith
Syn. *Catopsis schumanniana* Wittmack, *Tillandsia schumanniana* (Wittmack) Mez, *Tillandsia tonduziana* Mez
Ref. Smith & Downs, 1977: 1050.
Epiphytic herb. Andean II-III: elfin forests. 1500-4000 m.
Voucher: Sagástegui 7484 (US!)
Depts.: AM, JU, LL, SM

Tillandsia adpressiflora Mez
Ref. FP 13(1/3) 1936: 556; Smith & Downs, 1977: 774.
Epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: Klug 1184 (US!)
Depts.: LO, SM

[Tillandsia andicola sensu Wittmack non Gillies ex Baker]
Ref. FP 13(1/3) 1936: 541; Smith & Downs, 1977: 884.
Note: Not known from Peru.

Tillandsia arenicola L. B. Smith
Ref. Smith & Downs, 1977: 790.
Endemic herb. Region uncetain.
Note: Known from Peru only from the type locality.
Voucher: Angulo 1254* (US!)
Depts.: LL

[*Tillandsia argentea* Grisebach =Tillandsia tectorum C. J. Morren]
Ref. FP 13(1/3) 1936: 553; Smith & Downs, 1977: 786, 975.

Tillandsia arnoldiana Harms =Tillandsia tovarensis Mez
Ref. FP 13(1/3) 1936: 557; Smith & Downs, 1977: 723.

Tillandsia asplundii L. B. Smith
Ref. Smith & Downs, 1977: 734.
Epiphytic herb. Andean II: cloud forests. 2000-2500 m.
Voucher: Dudley 11319 (NA)
Depts.: CU

[*Tillandsia atrichoides* S. Moore =Tillandsia loliacea C. Martius ex Schultes & Schultes f.]
Ref. FP 13(1/3) 1936: 544; Smith & Downs, 1977: 874.
Note: Not known from Peru.

Tillandsia aurantiaca Grisebach =Tillandsia tetrantha var. aurantiaca (Grisebach) L. B. Smith
Ref. FP 13(1/3) 1936: 540; Smith & Downs, 1977: 1054.

Tillandsia aurea Mez var. **aurea**
Ref. FP 13(1/3) 1936: 545; Smith & Downs, 1977: 868.
Endemic epiphytic herb. Andean II: forests. 2500-3000 m.
Voucher: Weberbauer 3297* (B), Luer *et al.* 5375 (US!)
Depts.: AN

Tillandsia aurea var. **minor** Hromadnik & W. Rauh
Ref. Rauh, 1985a: 66.
Endemic, eiphytic herb. Andean I-II: riversides. 1000-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Hromadnik & Rauh 4206* (HEID)
Depts.: AN

Tillandsia aureobrunnea Mez =Tillandsia humilis C. Presl
Ref. FP 13(1/3) 1936: 552; Smith & Downs, 1977: 868.

Tillandsia axillaris Grisebach =Tillandsia complanata var. complanata
Ref. FP 13(1/3) 1936: 550; Smith & Downs, 1977: 724.

Tillandsia azurea C. Presl =Tillandsia purpurea R. & P.
Ref. FP 13(1/3) 1936: 560; Smith & Downs, 1977: 866.

Tillandsia baguagrandensis W. Rauh
Ref. Rauh, 1987b: 259.
Endemic epiphytic herb. Andean I: rocky slopes. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Perino s.n.* (HEID)
Depts.: AP

Tillandsia bakeri L. B. Smith
Syn. *Catopsis flexuosa* Baker, *Tillandsia flexuosa* (Baker) Mez, nom. illeg.
Ref. FP 13(1/3) 1936: 538; Smith & Downs, 1977: 1048.
Epiphytic herb. Andean II: forests. 2000-3500 m.
Voucher: Sánchez 218 (US!)
Depts.: AM, CA, CU, HU, SM

Tillandsia bakeriana Britten =Tillandsia streptocarpa var. streptocarpa
Ref. FP 13(1/3) 1936: 548; Smith & Downs, 1977: 855.

Tillandsia balsasensis W. Rauh
Ref. Rauh, 1976b: 335.
Endemic herb. Andean II. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 38570* (HEID)
Depts.: CA

Tillandsia bangii Baker =Tillandsia fendleri var. fendleri
Ref. FP 13(1/3) 1936: 558; Smith & Downs, 1977: 697.

Tillandsia barbeyana Wittmack
Ref. Smith & Downs, 1977: 771.
Epiphytic herb. Andean II. 1500-2000 m.
Voucher: López *et al.* 4301 (US!)
Depts.: AM

Tillandsia biflora R. & P.
Syn. *Anoplophytum violaceum* Beer, nom. nud., *Tillandsia grisebachiana* Baker, *Tillandsia tetrantha* R. & P. sensu Grisebach non Baker, *Tillandsia violacea* Klotzsch ex Beer, nom. nud.
Ref. FP 13(1/3) 1936: 565; Smith & Downs, 1977: 745.
Epiphytic or terrestrial herb. Andean II: forests, riversides. 1500-3000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Wurdack 750 (US!)
Depts.: AM, CU, HU, JU, PU

Tillandsia bismarckii W. Rauh & Lehmann
Ref. Rauh, 1983c: 22.
Endemic epiphytic herb. Andean I-II: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh & Bismarck 53653* (HEID)
Depts.: SM

Tillandsia bongarana L. B. Smith
Ref. Smith & Downs, 1977: 700.
Endemic epiphytic herb. Andean II: forests. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 1037* (US)
Depts.: AM

Tillandsia brachycephala Baker =Guzmania strobilantha (R. & P.) Mez
Ref. Smith & Downs, 1977: 1332.

Tillandsia brevicapsula Gilmartin
Ref. Smith & Downs, 1977: 711.
Herb. Andean II: forests. 2000-3500 m.
Voucher: Rauh 24242 (US!)
Depts.: CA, CU, JU

Tillandsia brevilingua Mez ex Harms
Syn. *Catopsis latifolia* Ule
Ref. FP 13(1/3) 1936: 553; Smith & Downs, 1977: 715.
Endemic epiphytic herb. Andean I: forests. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Ule 61-P* (B)

Tillandsia bromeliifolia Rudge =Aechmea bromeliifolia (Rudge) Baker
Ref. Smith & Downs, 1979: 1929.

Tillandsia bryoides Grisebach ex Baker
Syn. *Tillandsia coarctata* Gillies ex Baker, nom. nud.
Ref. FP 13(1/3) 1936: 544; Smith & Downs, 1977: 879.
Epiphytic or terrestrial herb. Andean I-II: rocky slopes. 500-2500 m.
Voucher: Tovar 3704 (US!)
Depts.: AP, CU, HV

Tillandsia cacticola L. B. Smith
Ref. Smith & Downs, 1977: 865.
Endemic epiphytic herb. Andean I-II, Coastal: disturbed areas, dry valleys. 0-3000 m.
Voucher: Sandemann 4325* (K), Davis & Turner 668 (US!)
Depts.: AM, CA, HU, LA, LL, PI

Tillandsia caerulea H.B.K.
Syn. *Diaphoranthema squamulosa* Beer, nom. nud., *Tillandsia squamulosa* Willdenow ex Schultes & Schultes f. pro syn.
Ref. FP 13(1/3) 1936: 545; Smith & Downs, 1977: 869.
Epiphytic herb. Andean I: dry valleys. 1000-1500 m.
Voucher: Humboldt & Bonpland 3442* (P), Ferreyra 10614 (US!, USM!)
Depts.: CA, PI, TU

Tillandsia cajamarcensis W. Rauh
Ref. Rauh, 1985a: 43.
Endemic herb. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 24305a* (HEID)
Depts.: CA

Tillandsia calocephala Wittmack =Tillandsia nana Baker
Ref. FP 13(1/3) 1936: 565; Smith & Downs, 1977: 807.

Tillandsia calothyrsus Poeppig ex Beer, nom. nud. =Guzmania calothyrsus Mez
Ref. FP 13(1/3) 1936: 572; Smith & Downs, 1977: 1332.

Tillandsia capillaris R. & P. fo. **capillaris**
Syn. *Diaphoranthema capillaris* (R. & P.) Beer, *Tillandsia lanuginosa* Gillies ex Baker pro syn.
Ref. FP 13(1/3) 1936: 542; Smith & Downs, 1977: 893.
Epiphytic or terrestrial herb. Andean I-III, Coastal: lomas, rocky slopes. 500-4000 m.
Voucher: Ruiz & Pavón s.n.* (BM), Cook & Gilbert 550 (US!)
Depts.: AN, AP, AR, CA, CU, HU, HV, JU, LI, LL, PU, TA

Tillandsia capillaris fo. **cordobensis** (Hieronymus) L. B. Smith
Syn. *Tillandsia cordobensis* Hieronymus
Ref. Smith & Downs, 1977: 895.
Epiphytic herb. Andean I-III: dry valleys. 1000-4500 m.
Voucher: Rose 19035 (US!)
Depts.: AN, CA, CU, JU, LA, LI, PU

[Tillandsia capillaris fo. hieronymii (Mez) L. B. Smith]
Syn. *Tillandsia dependens* Hieronymus ex Mez, *Tillandisa hieronymi* Mez
Ref. Smith & Downs, 1977: 896.
Note. Not known from Peru.

[Tillandsia capillaris fo. incana (Mez) L. B. Smith]
Syn. *Tillandsia incana* Gillies ex Baker pro syn.
Ref. Smith & Downs, 1977: 894.
Note: Not known from Peru.

Tillandsia capillaris fo. **virescens** (R. & P.) L. B. Smith
Syn. *Diaphoranthema virescens* (R. & P.) Beer, *Tillandsia propinqua* C. Gay, *Tillandsia pusilla* Gillies ex Baker, *Tillandsia stolpii* Philippi, *Tillandsia virescens* R. & P., *Tillandsia williamsii* Rusby
Ref. FP 13(1/3) 1936: 542; Smith & Downs, 1977: 895.
Epiphytic or terrestrial herb. Andean I-III: dry valleys, rocky slopes. 1000-4000 m.
Voucher: Mexia 4264 (US!)
Depts.: AR, AY, CU, JU, LI, PU

Tillandsia capituligera Grisebach =Vriesia capituligera (Grisebach) L. B. Smith & Pittendrigh
Ref. Smith & Downs, 1977: 1170.

Tillandsia carnosa L. B. Smith var. **brevistipitata** W. Rauh
Ref. Smith & Downs, 1977: 904.
Endemic herb. Andean I: rocky slopes. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 24568* (US)
Depts.: CA

Tillandsia carnosa var. **carnosa**
Ref. Smith & Downs, 1977: 904.
Endemic herb. Andean II: rocky slopes. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 603* (US!, USM!)
Depts.: AM

Tillandsia carnosa var. **longispicata** W. Rauh
Ref. Smith & Downs, 1977: 904.
Endemic herb. Andean I: rocky slopes. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 14418* (US)
Depts.: CA

Tillandsia caulescens Brongniart ex Baker
Ref. FP 13(1/3) 1936: 546; Smith & Downs, 1977: 808.
Herb. Andean I-II: rocky slopes. 500-3000 m.
Voucher: Gay 1186* (P), Ferreyra 9833 (US!, USM!)
Depts.: AP, CU, IC

Tillandsia cauligera Mez
Ref. FP 13(1/3) 1936: 545; Smith & Downs, 1977: 793.
Endemic herb. Andean II: rocky slopes. 2000-3500 m.
Voucher: Weberbauer 4050* (US), López 1006 (US)
Depts.: CA, CU, HV, JU, LL

Tillandsia cereicola Mez =Vriesea cereicola (Mez) L. B. Smith
Ref. FP 13(1/3) 1936: 560; Smith & Downs, 1977: 1249.

Tillandsia cerrateana L. B. Smith
Ref. Smith & Downs, 1977: 755.
Endemic epiphytic or terrestrial herb. Andean II-III. 2500-4000 m.
Voucher: Cerrate 391* (US!, USM!), López 5312 (US!)
Depts.: AN, CA, CU

Tillandsia chartacea L. B. Smith var. **chartacea**
Ref. Smith & Downs, 1977: 761.
Epiphytic or terrestrial herb. Andean II. 2000-2500 m.
Voucher: Rauh 24312 (US!)
Depts.: CA

Tillandsia chartacea var. **peruviana** L. B. Smith
Ref. Smith & Downs, 1977: 762.
Endemic herb. Andean II: rocky slopes. 2000-3500 m.
Voucher: Cerrate 454* (US), Ferreyra 6213 (US)
Depts.: AN

Tillandsia chilensis Baker =Tillandsia paleacea C. Presl
Ref. FP 13(1/3) 1936: 547; Smith & Downs, 1977: 863.

Tillandsia chiletensis W. Rauh
Ref. Rauh, 1984: 5.
Endemic epiphytic herb. Andean II: forests. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 24256* (HEID)
Depts.: CA

Tillandsia chrysostachys (C. J. Morren) Baker =Vriesea chrysostachys var. chrysostachys
Ref. FP 13(1/3) 1936: 569; Smith & Downs, 1977: 1094.

Tillandsia churinensis W. Rauh
Ref. Rauh, 1985b: 39.
Endemic herb. Andean II. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Bismarck 32682* (HEID)
Depts.: LI

Tillandsia cinerascens Willdenow ex Schultes & Schultes f. pro syn. =Tillandsia disticha H.B.K.
Ref. FP 13(1/3) 1936: 554.

Tillandsia clavata Lamarck =Guzmania monostachia var. monostachia

Ref. FP 13(1/3) 1936: 571; Smith & Downs, 1977: 1336.

Tillandsia clavigera Mez var. **clavigera**
Ref. FP 13(1/3) 1936: 558; Smith & Downs, 1977: 711.
Epiphytic herb. Andean I-II: forests. 500-2000 m.
Voucher: Gentry *et al.* 23058 (US!)
Depts.: AM, HU

Tillandsia clavigera var. **pendula** W. Rauh
Ref. Rauh, 1985a: 59.
Endemic herb. Andean II: forests. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 63924* (HEID)
Depts.: PA

Tillandsia coarctata Gillies ex Baker, nom. nud. =Tillandsia bryoides Grisebach ex Baker
Ref. FP 13(1/3) 1936: 544; Smith & Downs, 1977: 879.

Tillandsia coarctata Willdenow ex Schultes & Schultes f. pro syn. =Tillandsia floribunda H.B.K.
Ref. FP 13(1/3) 1936: 549; Smith & Downs, 1977: 765.

Tillandsia coinaensis Ehlers
Ref. Ehlers, 1990: 9.
Endemic, epiphytic herb.
Note: Known from Peru only from the type locality.
Voucher: Ehlers 7873* (WU)
Depts.: LL

Tillandsia commixa Mez
Syn. *Tillandsia parvifolia* Baker, nom. nud.
Ref. FP 13(1/3) 1936: 538; Smith & Downs, 1977: 1062.
Endemic herb.
Note: Known only from the type and one collection without locality.
Voucher: Mathews s.n.* (K), Rauh 20469 (US)
Depts.: AM

Tillandsia complanata Bentham var. **complanata**
Syn. *Tillandsia axillaris* Grisebach
Ref. FP 13(1/3) 1936: 550; Smith & Downs, 1977: 724.
Epiphytic herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Wasshausen & Encarnación 874 (US!)
Depts.: AM, CA, HU, JU, PA, PI, SM, TU

Tillandsia complanata var. **latifolia** Gilmartin
Ref. Gilmartin, 1977: 225.
Epiphytic herb. Andean II-III: cloud forests. 1500-3500 m.
Voucher: Díaz 2018 (MO!)
Depts.: CA

Tillandsia compressa Gillies ex Baker pro syn. non Bertero =Tillandsia gilliesii Baker
Ref. FP 13(1/3) 1936: 541; Smith & Downs, 1977: 884.

Tillandsia conantha (Sprengel) Baker =Guzmania strobilantha (R. & P.) Mez
Ref. FP 13(1/3) 1936: 573.

Tillandsia confertiflora André
Ref. Smith & Downs, 1977: 784.
Epiphytic herb. Andean I-II. 1000-3000 m.
Voucher: Sagástegui *et al.* 11680 (US!)
Depts.: LL, PI

Tillandsia confinis L. B. Smith var. **confinis**
Ref. Smith & Downs, 1977: 705.
Epiphytic herb. Amazonian: forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Ferreyra 1686* (US!)
Depts.: LO

Tillandsia cordobensis Hieronymus =Tillandsia capillaris fo. cordobensis (Hieronymus) L. B. Smith
Ref. FP 13(1/3) 1936: 542; Smith & Downs, 1977: 895.

Tillandsia crinita Willdenow ex Beer =Tillandsia usneoides (L.) L.
Ref. FP 13(1/3) 1936: 543; Smith & Downs, 1977: 899.

[Tillandsia crispa (Baker) Mez]
Syn. *Guzmania crispa* Baker
Ref. FP 13(1/3) 1936: 535; Smith & Downs, 1977: 1024.
Note: Not known from Peru (Luther, pers. comm.) The specimen cited in the Flora of Peru is *T. undulifolia*.

Tillandsia cryptantha hort. ex Baker pro syn. =Vriesea chrysostachys var. chrysostachys
Ref. FP 13(1/3) 1936: 569; Smith & Downs, 1977: 1094.

Tillandsia cuspidata L. B. Smith
Ref. Smith & Downs, 1977: 1047.
Endemic epiphytic herb. Andean II: forests. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Wurdack 1457* (US!)
Depts.: AM

Tillandsia cyanea Linden ex K. Koch var. **cyanea**
Syn. *Phytarrhiza lindenii* (C. J. Morren) C. J. Morren, *Tillandsia lindenii* C. J. Morren, nom. illeg, *Tillandsia morreniana* Regel, *Vriesea lindenii* (C. J. Morren) Lemaire, *Wallisia lindenii* C. J. Morren, nom. provis.
Ref. Smith & Downs, 1977: 849.
Epiphytic herb.
Note: Known from Peru only from the type which is based on a description and illustration.
Voucher: Wallis s.n.* (LG)
Depts.: PI

Tillandsia decipiens André =Tillandsia multiflora var. decipiens (André) L. B. Smith
Ref. FP 13(1/3) 1936: 537; Smith & Downs, 1977: 1045.

Tillandsia denudata André var. **denudata**
Ref. Smith & Downs, 1977: 710.
Epiphytic or terrestrial herb. Andean II: disturbed areas, forests. 2000-3500 m.
Voucher: Ferreyra & Acleto 15330A (US!, USM!)
Depts.: AM, SM

Tillandsia denudata var. **vivipara** W. Rauh
Ref. Rauh, 1985a: 63.
Endemic herb. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 40030* (HEID)
Depts.: AM

[*Tillandsia dependens* Hieronymus ex Mez =Tillandsia capillaris fo. hieronymi (Mez) L. B. Smith]
Ref. FP 13(1/3) 1936: 542; Smith & Downs, 1977: 896.
Note: Not known from Peru.

[Tillandsia deppeana Steudel]
Syn. *Tillandsia leiochlamys* Baker, *Tillandsia paniculata* Chamisso & Schlechtendal, nom. illeg.
Ref. FP 13(a/3) 1936: 558; Smith & Downs, 1977: 714.
Note: Not known from Peru.

Tillandsia deppeana Steudel var. *tripinnata* L. B. Smith =Tillandsia stenoura var. tripinnata (L. B. Smith) L. B. Smith
Ref. Smith & Downs, 1977: 707.

Tillandsia diffusa L. B. Smith
Ref. Smith & Downs, 1977: 1038.
Endemic epiphytic herb. Andean II: forests. 1500-2500 m.
Voucher: Wurdack 1547* (US!), López *et al.* 7395 (US)
Depts.: AM, AN, CA

Tillandsia disticha H.B.K.
Syn. *Platystachys cinerascens* Beer, nom. nud., *Tillandsia cinerascens* Willdenow ex Schultes & Schultes f. pro syn.
Ref. FP 13(1/3) 1936: 554; Smith & Downs, 1977: 777.
Epiphytic or terrestrial herb. Andean I-II, Coastal: dry valleys, lomas. 500-2500 m.
Voucher: Schunke 2365 (US!)
Depts.: CA, LL, PI, TU

Tillandsia divaricata Bentham =Tillandsia latifolia var. divaricata (Bentham) Mez
Ref. Smith & Downs, 1977: 789.

Tillandsia dombeyi Baker =Tillandsia humilis C. Presl

Ref. FP 13(1/3) 1936: 552; Smith & Downs, 1977: 868.

Tillandsia dubia L. B. Smith =Vriesa dubia (L. B. Smith) L. B. Smith
Ref. Smith & Downs, 1977: 1097; Smith & Read, 1977: 138.

Tillandsia dudleyi L. B. Smith
Ref. Smith & Downs, 1977: 701.
Endemic epiphytic herb. Andean II: cloud forests. 1500-3000 m.
Voucher: Dudley 11322* (NA), Dudley 10528 (NA)
Depts.: CA, CU

Tillandsia ecarinata L. B. Smith
Ref. Smith & Downs, 1977: 904.
Endemic epiphytic or terrestrial herb. Amazonian, Andean I. 0-1000 m.
Voucher: Rauh Rp-20390* (US), López *et al.* 4152 (US!)
Depts.: AM, PI

Tillandsia elongata H.B.K. var. **subimbricata** (Baker) L. B. Smith
Syn. *Tillandsia subimbricata* Baker
Ref. Smith & Downs, 1977: 773.
Epiphytic or terrestrial herb. Amazonian: forests. 0-500 m.
Voucher: Ferreyra 4906 (USM!)
Depts.: LO

Tillandsia elviraegrossiae W. Rauh
Ref. Rauh, 1988: 675.
Endemic epiphytic herb. Andean I. 1000-1500 m.
Voucher: Rauh 38332* (HEID)
Depts.: AM

Tillandsia excelsa var. *latifolia* Grisebach =Tillandsia fendleri var. fendleri
Ref. FP 13(1/3) 1936: 558; Smith & Downs, 1977: 697.

Tillandsia exigua Ule =Tillandsia parviflora var. parviflora
Ref. FP 13(1/3) 1936: 539; Smith & Downs, 1977: 1062.

Tillandsia extensa Mez
Ref. FP 13(1/3) 1936: 552; Smith & Downs, 1977: 965.
Endemic herb. Andean I-II: rocky slopes. 1000-2500 m.
Voucher: Weberbauer 3296* (B, MOL!), Rauh 24168 (US!)
Depts.: AN, LA

Tillandsia favillosa Mez =Tillandsia paleacea C. Presl
Ref. FP 13(1/3) 1936: 547; Smith & Downs, 1977: 863.

Tillandsia fendleri Grisebach var. **fendleri**
Syn. *Tillandsia bangii* Baker, *Tillandsia excelsa* var. *latifolia* Grisebach, *Tillandsia kalbreyeri* Baker
Ref. FP 13(1/3) 1936: 558; Smith & Downs, 1977: 697.
Epiphytic herb. Amazonian, Andean I-II: forests. 0-3000 m.
Voucher: Sagástegui 3389 (US!)
Depts.: AM, CA, CU, HU, JU

Tillandsia fendleri var. **reducta** (L. B. Smith) L. B. Smith
Syn. *Tillandsia rubra* var. *reducta* L. B. Smith
Ref. Smith & Downs, 1977: 698; Smith, 1988: 157.
Herb. Andean III; rocky slopes. 3500-4000 m.
Voucher: Smith 11715
Depts.: AN, JU, LL

Tillandsia ferreyrae L. B. Smith
Ref. Smith & Downs, 1977: 966.
Herb. Amazonian, Andean I: rocky slopes. 0-2000 m.
Voucher: Ferreyra 14445* (US, USM!), Hutchison & Wright 5845 (US!)
Depts.: AM, CA

Tillandsia flexuosa (Baker) Mez, nom. illeg. =Tillandsia bakeri L. B. Smith
Ref. FP 13(1/3) 1936: 538; Smith & Downs, 1977: 1048.

Tillandsia floribunda H.B.K.
Syn. *Platystachys floribunda* (H.B.K.) Beer, *Tillandsia coarctata* Willdenow ex Schultes & Schultes f. pro syn.
Ref. FP 13(1/3) 1936: 549; Smith & Downs, 1977: 765.
Epiphytic or terrestrial herb. Andean I-II, Coastal: lomas, rocky slopes. 0-2500 m.
Voucher: Humboldt & Bonpland 3495* (P), Sagástegui *et al.* 11502 (US!)
Depts.: CA, IC, LA, LL, PI

Tillandsia fraseri Baker
Ref. Smith & Downs, 1977: 1064.
Epiphytic or terrestrial herb. Andean II: forests, rocky slopes. 2500-3000 m.
Voucher: Ferreyra 14101 (US, USM!)
Depts.: LL

Tillandsia fulgens (Klotzsch ex Beer) Mez =Tillandsia tetrantha var. aurantiaca (Grisebach) L. B. Smith
Ref. Smith & Downs, 1977: 1054.

Tillandsia fusca Baker =Tillandsia paleacea C. Presl
Ref. FP 13(1/3) 1936: 547; Smith & Downs, 1977: 863.

Tillandsia fuscoguttata Mez =Tillandsia ionochroma André ex Mez
Ref. FP 13(1/3) 1936: 566; Smith & Downs, 1977: 746.

Tillandsia gayi Baker
Ref. FP 13(1/3) 1936: 561; Smith & Downs, 1977: 773.
Epiphytic herb. Andean II-III. 1500-4000 m.
Voucher: Gay s.n.* (P), Rauh P-1386 (US!)
Depts.: AP, AY, CU, HV, JU

Tillandsia gerdmuelleri W. Weber
Ref. Weber, 1983: 611.
Endemic herb. Andean II: rocky slopes. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Mueller & Gutte 9441* (LZ)
Depts.: CU

Tillandsia gilliesii Baker
Syn. *Tillandsia andicola* sensu Wittmack non Gilles ex Baker, *Tillandsia compressa* Gillies ex Baker pro syn., nom. illeg.
Ref. FP 13(1/3) 1936: 541; Smith & Downs, 1977: 884.
Epiphytic herb. Andean II: forests. 2000-2500 m.
Voucher: Tate 1196 (NY)
Depts.: AR

Tillandsia gladioliflora Wendland =Vriesea gladioliflora (Wendland) Antoine
Ref. Smith & Downs, 1977: 1115.

Tillandsia glauca L. B. Smith
Ref. Smith & Downs, 1977: 700.
Endemic herb. Andean II: forests. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 20033* (US)
Depts.: PI

Tillandsia glumaciflora Ule =Tillandsia rusbyi Baker
Ref. FP 13(1/3) 1936: 559.

Tillandsia grisea Baker =Tillandsia latifolia var. latifolia
Ref. FP 13(1/3) 1936: 555; Smith & Downs, 1977: 787.

Tillandsia grisebachiana Baker =Tillandsia biflora R. & P.
Ref. FP 13(1/3) 1936: 565; Smith & Downs, 1977: 745.

Tillandsia gutteana W. Weber
Ref. Weber, 1983: 613.
Endemic herb. Andean III: rocky slopes. 3500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Gutte & Gutte 3948* (LZ)
Depts.: CA

Tillandsia gymnophylla Baker =Guzmania monostachia var. monostachia
Ref. FP 13(1/3) 1936: 571; Smith & Downs, 1979: 1336.

Tillandsia harmsiana L. B. Smith =Vriesea harmsiana (L. B. Smith) L. B. Smith
Ref. FP 13(1/3) 1936: 559; Smith & Downs, 1977: 1253.

Tillandsia heliconioides H.B.K. =Vriesea heliconioides var. heliconioides
Ref. FP 13(1/3) 1936: 568; Smith & Downs, 1977: 1111.

Tillandsia herrerae Harms =Tillandsia walteri var. walteri
Ref. FP 13(1/3) 1936: 550; Smith & Downs, 1977: 726.

Tillandsia heteromorpha Mez
Ref. FP 13(1/3) 1936: 554; Smith &

Downs, 1977: 808.
Endemic herb. Andean I: rocky slopes. 500-1000 m.
Voucher: Weberbauer 3742* (B photo F!), López & Sagástegui 5173 (US!)
Depts.: CA, LA, LL

[*Tillandsia hieronymi* Mez =Tillandsia capillaris fo. hieronymi (Mez) L. B. Smith]
Ref. FP 13(1/3) 1936: 542; Smith & Downs, 1977: 896.
Note: Not known from Peru.

Tillandsia hildae W. Rauh
Ref. Smith & Downs, 1977: 902.
Endemic herb. Andean I: rocky slopes. 1000-1500 m.
Voucher: Rauh 24329* (US), Hutchison & Wright 3516 (US!)
Depts.: CA

Tillandsia hitchcockiana L. B. Smith =Vriesea hitchcockiana (L. B. Smith) L. B. Smith
Ref. Smith & Downs, 1977: 1246.

Tillandsia huarazensis Ehlers & Till
Ref. Ehlers & Till, 1988: 21.
Endemic herb.
Voucher: Knize s.n.* (WU), Ehlers & Ehlers P7999 (WU)
Depts.: AN

Tillandsia humilis C. Presl
Syn. *Tillandsia aureobrunnea* Mez, *Tillandsia dombeyi* Baker, *Tillandsia mathewsii* Baker
Ref. FP 13(1/3) 1936: 552; Smith & Downs, 1977: 868.
Endemic epiphytic herb. Andean II-III: rocky slopes. 1500-3500 m.
Voucher: Haenke s.n.* (PR), Sánchez 1540 (US!)
Depts.: AN, CA, HU, JU, LL, LI

Tillandsia hutchisonii L. B. Smith =Mezobromelia hutchisonii (L. B. Smith) Wihl. Weber & L. B. Smith
Ref. Weber & Smith, 1983: 121.

[*Tillandsia incana* Gillies ex Baker pro syn. =Tillandsia capillaris fo. incana (Mez) L. B. Smith]
Ref. FP 13(1/3) 1936: 542; Smith & Downs, 1977: 894.
Note: Not known from Peru.

Tillandsia interrupta Mez
Ref. FP 13(1/3) 1936: 563; Smith & Downs, 1977: 784.
Endemic epiphytic herb. Andean II: forests. 2000-3000 m.
Voucher: Weberbauer 2736 p.p.* (B), Macbride & Featherstone 403 (F)
Depts.: AN, LI

Tillandsia ionochroma André ex Mez
Syn. *Caraguata violacea* André, *Tillandsia fuscoguttata* Mez, *Tillandsia pastensis* sensu Weberbauer, nom. illeg., *Tillandsia wangerinii* Mez
Ref. FP 13(1/3) 1936: 563; Smith & Downs, 1977: 746.
Epiphytic herb. Andean II-III: forests. 2000-4000 m.
Voucher: Smith *et al.* 10448 (US!)
Depts.: AM, AN, CA, CU, HU, LL, PI, PU

Tillandsia juncea (R. & P.) Poiret
Syn. *Acanthospora juncea* (R. & P.) Sprengel, *Bonapartea juncea* R. & P., *Misandra juncea* (R. & P.) Dietrich, *Platystachys juncea* (R. & P.) Beer, *Tillandsia juncifolia* Regel, *Tillandsia quadrangularis* M. Martens & Galeotti
Ref. FP 13(1/3) 1936: 555; Smith & Downs, 1977: 916.
Epiphytic or terrestrial herb. Amazonian, Andean I-II. 0-2500 m.
Voucher: Ruiz & Pavón s.n.* (MA), Schunke 9731 (US!)
Depts.: HU, SM

Tillandsia juncifolia Regel =Tillandsia juncea (R. & P.) Poiret
Ref. FP 13(1/3) 1936: 555; Smith & Downs, 1977: 916.

Tillandsia juruana Ule =Tillandsia paraënsis Mez
Ref. FP 13(1/3) 1936: 549; Smith & Downs, 1977: 989.

Tillandsia kalbreyeri Baker =Tillandsia fendleri var. fendleri
Ref. FP 13(1/3) 1936: 558; Smith & Downs, 1977: 697.

Tillandsia kauffmannii R. Ehlers
Ref. Rauh & Gross, 1990: 32.
Endemic herb.
Note: Known from Peru only from the type locality.
Voucher: Ehlers & Ehlers P 78105* (WU)
Depts.: LL

Tillandsia kirschnekii W. Rauh & W. Till
Ref. Rauh, 1983a: 79.
Endemic herb. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Kirschnek 39770* (HEID)
Depts.: AP

Tillandsia krahnii W. Rauh
Ref. Rauh, 1981: 107.
Endemic herb. Andean II: rocky slopes. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Krahn 595* (HEID)
Depts.: AN

Tillandsia krukoffiana L. B. Smith var. **piepenbringii** W. Rauh
Ref. Rauh, 1986b: 258.
Endemic herb. Amazonian. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 35343* (HEID)
Depts.: CA

Tillandsia kunthiana Gaudichaud =Tillandsia latifolia var. latifolia
Ref. FP 13(1/3) 1936: 555; Smith & Downs, 1977: 786.

Tillandsia kunthiana var. *major* (Mez) L. B. Smith =Tillandsia latifolia var. major Mez
Ref. Smith & Downs, 1977: 789.

Tillandsia laminata L. B. Smith
Ref. Smith & Downs, 1977: 1064.
Endemic epiphytic herb. Andean II: forests. 2000-2500 m.
Voucher: Wurdack 1502* (US!), Barbour 3744 (US)
Depts.: AM

Tillandsia lanata Mez =Tillandsia paleacea C. Presl
Ref. FP 13(1/3) 1936: 547; Smith & Downs, 1977: 863.

Tillandsia landbeckii Philippi
Ref. FP 13(1/3) 1936: 541; Smith & Downs, 1977: 888.
Epiphytic or terrestrial herb. Andean I-II, Coastal: beach, lomas, rocky slopes. 0-2500 m.
Note: The Flora of Peru lists *T. recurvata* Auct. non L., as a synonym of this species.
Voucher: Ferreyra 20038 (USM!)
Depts.: IC, LI, LL

Tillandsia lanuginosa Gillies ex Baker pro syn. =Tillandsia capillaris fo. capillaris
Ref. FP 13(1/3) 1936: 542; Smith & Downs, 1977: 893.

Tillandsia latifolia G. Meyen var. **divaricata** (Bentham) Mez
Syn. *Tillandsia divaricata* Bentham
Ref. Smith & Downs, 1977: 789.
Epiphytic or terrestrial herb. Andean I-II, Coastal: dry valleys, lomas. 0-3000 m.
Voucher: Ferreyra 14587 (US!)
Depts.: AM, AN, CA, LI, LL, TU

Tillandsia latifolia var. **latifolia**
Syn. *Platystachys kunthiana* (Gaudichaud) Beer, *Platystachys latifolia* (Meyen) K. Koch, *Tillandsia grisea* Baker, *Tillandsia kunthiana* Gaudichaud, *Tillandsia murorum* Mez, *Tillandsia oxysepala* Baker
Ref. FP 13(1/3) 1936: 555; Smith & Downs, 1977: 786.
Endemic herb. Andean I-II, Coastal: beach, lomas, rocky slopes. 0-3000 m.
Voucher: Meyen s.n.* (B), Ferreyra 757 (US!)
Depts.: AN, AR, IC, LI, LL, PI, TA

Tillandsia latifolia var. **leucophylla** W. Rauh
Ref. Rauh, 1974b: 22.
Endemic herb.
Note: Known from Peru only from the type locality.
Voucher: Rauh 35340* (HEID)
Depts.: CA

Tillandsia latifolia var. **major** Mez
Syn. *Tillandsia kunthiana* var. *major* (Mez) L. B. Smith

Ref. Smith & Downs, 1977: 789.
Endemic herb. Coastal: beach. 0-500 m.
Note: Known from Peru only from the type locality. "Possibly only a luxuriant form of the typical variety" (Smith & Downs, 1977).
Voucher: Gaudichaud 64* (B), Andersson s.n. (S)
Depts.: LI

Tillandsia latisepala L. B. Smith
=Tillandsia pohliana Mez
Ref. FP 13(1/3) 1936: 567; Smith & Downs, 1977: 817.

[*Tillandsia leiochlamys* Baker =Tillandsia deppeana Steudel]
Ref. FP 13(1/3) 1936: 558; Smith & Downs, 1977: 714.
Note: Not known from Peru.

Tillandsia lindeniana Regel =Tillandsia lindenii Regel var. lindenii
Ref. Smith & Downs, 1977: 844.

Tillandsia lindenii C. J. Morren, nom. illeg. =Tillandsia cyanea var. cyanea
Ref. FP 13(1/3) 1936: 551; Smith & Downs, 1977: 849.

Tillandsia lindenii Regel var. **lindenii**
Syn. *Tillandsia lindeniana* Regel
Ref. Smith & Downs, 1977: 844.
Endemic epiphytic herb. Andean I: 1000-1500 m.
Voucher: Wallis s.n.*, Stork 11406 (GH)
Depts.: PI

Tillandsia lingulata L. =Guzmania lingulata (L.) Mez var. lingulata
Ref. Smith & Downs, 1977: 1349.

[Tillandsia loliacea C. Martius ex Schultes & Schultes f.]
Syn. *Tillandsia atrichoides* S. Moore, *Tillandsia quadriflora* Baker, *Tillandsia undulata* Baker
Ref. FP 13(1/3) 1936: 544; Smith & Downs, 1977: 874.
Note: Not known from Peru.

Tillandsia longebracteata G. Meyen =Tillandsia purpurea R. & P.
Ref. FP 13(1/3) 1936: 560; Smith & Downs, 1977: 866.

Tillandsia lopezii L. B. Smith
Ref. Smith & Downs, 1977: 714.
Endemic herb. Andean II-III: rocky slopes. 3000-4000 m.
Voucher: López & Sagástegui 3307* (US), López *et al.* 7563
Depts.: AN, LL

Tillandsia lymanii W. Rauh
Ref. Rauh, 1974b: 16.
Endemic herb. Andean I: riversides. 500-1000 m.
Voucher: Rauh 35345* (HEID)
Depts.: CA

Tillandsia macbrideana L. B. Smith var. **atroviolacea** W. Rauh
Ref. Rauh, 1985b: 37.
Endemic herb. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 53856* (HEID)
Depts.: CA

Tillandsia macbrideana var. **longifolia** W. Rauh
Ref. Rauh, 1985b: 35.
Endemic herb. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 53755* (HEID)
Depts.: CA

Tillandsia macbrideana var. **longispica** W. Rauh
Ref. Rauh, 1985b: 35.
Endemic herb. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 35537* (HEID)
Depts.: LL

Tillandsia macbrideana var. **macbrideana**
Ref. FP 13(1/3) 1936: 546; Smith & Downs, 1977: 810.
Endemic herb. Andean II: rocky slopes. 2000-3000 m.
Voucher: Macbride & Featherstone 2258* (F!), Wurdack 1165 (US!, USM!)
Depts.: AM, CA, HU, LL

Tillandsia macbrideana var. **major** W. Rauh
Ref. Rauh, 1985b: 35.
Endemic herb. Andean II: 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 53778* (HEID)
Depts.: LL

Tillandsia macrodactylon Mez
Ref. FP 13(1/3) 1936: 558; Smith & Downs, 1977: 703.
Endemic herb. Andean II: grasslands. 2000-3000 m.
Voucher: Weberbauer 2049* (B), Montoya 3654 (US)
Depts.: JU, LL

Tillandsia maculata R. & P.
Syn. *Vriesea maculata* (R. & P.) Beer
Ref. FP 13(1/3) 1936: 557; Smith & Downs, 1977: 732.
Epiphytic or terrestrial herb. Andean I-II: forests. 1000-2000 m.
Voucher: Vargas 4241 (US!)
Depts.: CA, CU, HU

Tillandsia marantoidea Rusby
Ref. Smith & Downs, 1977: 775.
Epiphytic herb. Amazonian, Andean I-II: forests. 0-2500 m.
Voucher: Dudley 10349 (US!)
Depts.: AM, CU, HU

Tillandsia marconae W. Till & E. Vitek
Ref. Till & Vitek, 1985: 144.
Endemic herb. Coastal: lomas. 500-1000 m.
Voucher: Till & Vitek 820825/137* (WU), Ferreyra 13372 (USM)
Depts.: IC

Tillandsia mathewsii Baker =Tillandsia humilis C. Presl
Ref. FP 13(1/3) 1936: 552; Smith & Downs, 1977: 868.

Tillandsia mezii André ex Mez =Tillandsia seemannii (Baker) Mez
Ref. FP 13(1/3) 1936: 535; Smith & Downs, 1977: 1022.

Tillandsia micans L. B. Smith
Ref. Smith & Downs, 1977: 794.
Endemic herb. Andean II: rocky slopes. 2500-3500 m.
Voucher: Ferreyra 9879* (US!, USM!), Iltis & Ugent 961 (US)
Depts.: CU

Tillandsia mima L. B. Smith var. **chiletensis** W. Rauh
Ref. Rauh, 1977: 24.
Endemic herb. Andean I: riversides. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 40007* (HEID)
Depts.: CA

Tillandsia monostachia (L.) L. =Guzmania monostachia var. monostachia
Ref. FP 13(1/3) 1936: 571; Smith & Downs, 1977: 1336.

Tillandsia morreniana Regel =Tillandsia cyanea var. cyanea
Ref. FP 13(1/3) 1936: 551; Smith & Downs, 1977: 849.

[Tillandsia multiflora Bentham]
Ref. FP 13(1/3) 1936: 537; Smith & Downs, 1977: 1044.
Note: The specimen cited in the Flora of Peru is determined as *T. multiflora* var. *decipens* by Smith & Downs (1977).

Tillandsia multiflora var. **decipiens** (André) L. B. Smith
Syn. *Tillandsia decipiens* André
Ref. Smith & Downs, 1977: 1045.
Epiphytic herb. Andean I-II: forests. 1000-2500 m.
Voucher: Ochoa 11679 (US!)
Depts.: CA, PI

Tillandsia multiflora var. **tomensis** L. B. Smith
Ref. Smith & Downs, 1977: 1045.
Epiphytic herb. Andean I-II: forests. 500-2000 m.
Voucher: Hutchison & Wright 6691 (US!, USM!)
Depts.: CA, LA, LL, PI

Tillandsia murorum Mez =Tillandsia latifolia var. latifolia
Ref. FP 13(1/3) 1936: 555; Smith & Downs, 1977: 789.

Tillandsia myosura Grisebach ex Baker
Ref. Smith & Downs, 1977: 885.
Epiphytic herb. Andean I-II: forests. 500-3000 m.
Voucher: Rose 19014 (US)
Depts.: AR

Tillandsia nana Baker
Syn. *Tillandsia calocephala* Wittmack
Ref. FP 13(1/3) 1936: 567; Smith & Downs, 1977: 807.
Herb. Andean II-III: rocky slopes. 2500-4000 m.
Voucher: Davis *et al.* 1772 (US!, USM!)
Depts.: AY, CU, JU

Tillandsia oroyensis Mez var. **oroyensis**
Ref. FP 13(1/3) 1936: 562; Smith & Downs, 1977: 770; Rauh, 1977: 19.
Epiphytic or terrestrial herb. Andean I-II: forests, rocky slopes. 500-3500 m.
Voucher: Weberbauer 2523* (B), Sagástegui 3388 (US!)
Depts.: AN, AR, CA, HU, JU, LI, LL

Tillandsia oroyensis var. **secundiflora** W. Rauh
Ref. Rauh, 1977: 19.
Endemic herb. Andean II. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 40402* (HEID)
Depts.: AN

[*Tillandsia orthiantha* Standley =Tillandsia adpressa var. orthiantha (Standley) L. B. Smith]
Ref. FP 13(1/3) 1936: 540; Smith & Downs, 1977: 1050.
Note: Not known from Peru.

Tillandsia oxapampae W. Rauh & Bismarck
Ref. Rauh, 1985b: 20.
Endemic epiphytic herb. Andean II. 1500-2000 m.
Voucher: Rauh & Bismarck 66069* (HEID)
Depts.: PA

Tillandsia oxysepala Baker =Tillandsia latifolia var. latifolia
Ref. FP 13(1/3) 1936: 555; Smith & Downs, 1977: 787.

Tillandsia pachycarpa Baker =Guzmania monostachia var. monostachia
Ref. FP 13(1/3) 1936: 571; Smith & Downs, 1977: 1336.

Tillandsia paleacea C. Presl
Syn. *Tillandsia chilensis* Baker, *Tillandsia favillosa* Mez, *Tillandsia fusca* Baker, *Tillandsia lanata* Mez, *Tillandsia scalarifolia* Baker, *Tillandsia schenckiana* Wittmack
Ref. FP 13(1/3) 1936: 547; Smith & Downs, 1977: 863.
Herb. Andean I-II, Coastal: lomas, rocky slopes. 0-3000 m.
Voucher: Herrera 801 (US!)
Depts.: AN, AP, AR, CU, HV, IC, LI, SM

Tillandsia pallidoflavens Mez
Ref. FP 13(1/3) 1936: 537; Smith & Downs, 1977: 1045.
Endemic epiphytic herb. Andean II: forests. 1500-3000 m.
Voucher: Weberbauer 3298* (B), Rauh 24134 (US!)
Depts.: AN, CA, LL

Tillandsia pampasensis W. Rauh
Ref. Rauh, 1983a: 71.
Endemic epiphytic herb. Andean II. 2500-3500 m.
Voucher: Rauh 25913* (HEID), Rauh 26304 (HEID)
Depts.: AY, CU, JU

[*Tillandsia paniculata* Chamisso & Schlechtendal, nom. illeg. =Tillandsia deppeana Steudel]
Ref. FP 13(1/3) 1936: 558; Smith & Downs, 1977: 714.
Note: Not known from Peru.

Tillandsia paraënsis Mez
Syn. *Tillandsia juruana* Ule
Ref. Smith & Downs, 1977: 989.
Epiphytic herb. Amazonian: disturbed areas, forests, seasonally inundated. 0-500 m.
Voucher: Schunke 2895 (US!)
Depts.: HU, LO, MD, SM

Tillandsia parkeri Baker =Tillandsia spiculosa var. ustulata (Reitz) L. B. Smith
Ref. FP 13(1/3) 1936: 535; Smith & Downs, 1977: 1034.

Tillandsia parviflora R. & P. var. **parviflora**
Syn. *Platystachys parviflora* (R. & P.) Beer, *Pogospermum parviflorum* (R. & P.) Brongniart, *Tillandsia exigua* Ule, *Tillandsia weberbaueri* Mez
Ref. FP 13(1/3) 1936: 539; Smith & Downs, 1977: 1062.
Epiphytic herb. Andean I-II: forests. 500-2000 m.
Voucher: Ruiz & Pavón s.n.* (MA), Killip & Smith 24545 (US!)
Depts.: AM, CU, HU, JU, PA

Tillandsia parvifolia Baker, nom. nud. =Tillandsia commixa Mez
Ref. FP 13(1/3) 1936: 538; Smith & Downs, 1977: 1062.

Tillandsia pastensis André
Ref. Smith & Downs, 1977: 743.
Epiphytic or terrestrial herb. Andean II. 1500-2000 m.
Voucher: Without collector name 3955 (US!)
Depts.: LL

Tillandsia pastensis sensu Weberbauer, nom. illeg. =Tillandsia ionochroma André ex Mez
Ref. FP 13(1/3) 1936: 566; Smith & Downs, 1977: 747.

Tillandsia patula Mez =Vriesea patula (Mez) L. B. Smith
Ref. FP 13(1/3) 1936: 548; Smith & Downs, 1977: 1248.

Tillandsia pavonii Mez =Monotagma laxum (Poeppig & Endlicher) Schumacher (Marantaceae)
Ref. FP 13(1/3) 1936: 568.
Note: Listed in the Flora of Peru as an excluded species.

Tillandsia pendulispica Mez
Syn. *Tillandsia scorpiura* Mez, *Tillandsia triangularis* Rusby
Ref. FP 13(1/3) 1936: 536; Smith & Downs, 1977: 1040.
Epiphytic herb. Andean II: forests. 1500-2000 m.
Voucher: Boeke 2107 (US!)
Depts.: AM, HU, JU, PU

Tillandsia penlandii L. B. Smith var. **penlandii**
Ref. Smith & Downs, 1977: 1056.
Epiphytic herb. Andean II: forests. 2000-2500 m.
Voucher: Foster & Smith 7567 (F!)
Depts.: PA

Tillandsia pereziana var. *canescens* André =Vriesea pereziana var. canescens (André) Gilmartin
Ref. Smith & Downs, 1977: 1258.

Tillandsia pinnatodigitata Mez
Ref. FP 13(1/3) 1936: 562; Smith & Downs, 1977: 785.
Endemic herb. Andean II: rocky slopes. 2000-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 2736 e p* (B)
Depts.: AN

[*Tillandsia pityphylla* C. Martius ex Schultes & Schultes f. =Tillandsia tenuifolia L. var. vaginata (Wawra) L. B. Smith]
Ref. FP 13(1/3) 1936: 566; Smith & Downs, 1977: 832.
Note: Not known from Peru.

Tillandsia piurensis L. B. Smith
Ref. Smith & Downs, 1977: 750.
Endemic herb. Andean II: rocky slopes. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Hutchison & Wright 6616* (US!, USM!)
Depts.: PI

Tillandsia platyphylla Mez
Ref. FP 13(1/3) 1936: 558; Smith & Downs, 1977: 906.
Endemic herb. Andean I-II: rocky slopes. 500-2000 m.
Voucher: Weberbauer 3888* (B photo F), Rauh 24572 (US!)
Depts.: CA

Tillandsia platyrhachis Mez var. **magnifica** W. Rauh & Bismarck
Ref. Rauh, 1985b: 6.
Endemic epiphytic herb. Andean II: forests. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh & Bismarck 66107* (HEID)
Depts.: HU

Tillandsia platyrhachis var. **platyrhachis**
Ref. FP 13(1/3) 1936: 551; Smith & Downs, 1977: 842.
Epiphytic or terrestrial herb. Andean I: forests. 1000-1500 m.
Voucher: Killip & Smith 24604 (US)
Depts.: JU

Tillandsia pleiosticha Grisebach =Mezobromelia pleiosticha (Grisebach) Utley & H. Luther
Ref. Utley & Luther, 1991: 270

Tillandsia plicatifolia Ule =Tillandsia undulifolia Mez
Ref. FP 13(1/3) 1936: 535; Luther, pers. comm.

Tillandsia pohliana Mez
Syn. *Tillandsia latisepala* L. B. Smith
Ref. FP 13(1/3) 1936: 567; Smith & Downs, 1977: 817.
Epiphytic or terrestrial herb. Andean I: forests, rocky slopes. 1000-1500 m.
Voucher: Rauh 24454 (US!)
Depts.: CU

Tillandsia pomacochae W. Rauh
Ref. Smith & Downs, 1977: 700.
Endemic herb. Andean II: forests. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 24554* (US)
Depts.: CA

Tillandsia propagulifera W. Rauh
Ref. Smith & Downs, 1977: 968.
Endemic epiphytic herb. Amazonian, Andean I: riversides. 0-1500 m.
Voucher: Rauh 24346* (HEID), Ferreyra 19430 (US!)
Depts.: CA, LL

Tillandsia propinqua C. Gay =Tillandsia capillaris fo. virescens (R. & P.) L. B. Smith
Ref. FP 13(1/3) 1936: 542; Smith & Downs, 1977: 895.

Tillandsia pseudomacbrideana W. Rauh
Ref. Rauh, 1985b: 26.
Endemic herb. Andean II. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 53774* (HEID)
Depts.: CA

Tillandsia pseudomicans W. Rauh
Ref. Rauh, 1974a: 21.
Endemic herb. Andean II. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 25945* (HEID)
Depts.: AP

Tillandsia pucaraensis Ehlers
Ref. Ehlers, 1989: 9.
Endemic herb. Andean I: forests. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Ehlers P7953* (WU)
Depts.: CA

Tillandsia pugiformis L. B. Smith
Ref. Smith & Downs, 1977: 1026.
Epiphytic or terrestrial herb. Andean I-II. 1000-3000 m.
Voucher: Sagástegui *et al.* 10147 (US!)
Depts.: CA, LL, PI

Tillandsia pulchella Hooker =Tillandsia tenuifolia var. tenuifolia
Ref. FP 13(1/3) 1936: 566; Smith & Downs, 1977: 829.

Tillandsia purpurascens W. Rauh
Ref. Rauh & Gross, 1990: 35.
Epiphytic herb. Andean II: forests. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 69427* (HEID)
Depts.: PI

Tillandsia purpurea R. & P.
Syn. *Anoplophytum longebracteatum* Beer pro syn., *Phytarrhiza purpurea* C. J. Morren ex Baker pro syn., *Platystachys purpurea* (R. & P.) Beer, *Platystachys scoparia* Beer pro syn., *Tillandsia azurea* C. Presl, *Tillandsia longebracteata* G. Meyen, *Tillandsia scoparia* Willdenow ex Schultes & Schultes f. pro syn.
Ref. FP 13(1/3) 1936: 560; Smith & Downs, 1977: 866.
Herb. Andean I-II, Coastal: lomas, rocky slopes. 0-3000 m.
Voucher: Ruiz & Pavón s.n.* (BM), Dillon *et al.* 2735 (US!)
Depts.: AM, AN, AP, AR, CA, HU, IC, JU, LI, LL, MO, PI

Tillandsia pusilla Gillies ex Baker =Tillandsia capillaris fo. virescens (R. & P.) L. B. Smith
Ref. FP 13(1/3) 1936: 542; Smith & Downs, 1977: 895.

Tillandsia pyramidata André var. **pyramidata**
Ref. FP 13(1/3) 1936: 558; Smith & Downs, 1977: 703.
Epiphytic or terrestrial herb. Andean II: forests, rocky slopes. 1500-3000 m.
Voucher: Vargas 8808 (US!)
Depts.: AP, CU, HU, HV, JU, MD

Tillandsia pyramidata var. **vivipara** W. Rauh
Ref. Smith & Downs, 1977: 703.
Endemic herb. Andean II. 2500-3000 m.
Voucher: Rauh 23686A* (US), Jones & Davidson (US!)
Depts.: JU

Tillandsia quadrangularis M. Martens & Galeotti =Tillandsia juncea (R. & P.) Poiret
Ref. FP 13(1/3) 1936: 555; Smith & Downs, 1977: 916.

[*Tillandsia quadriflora* Baker =Tillandsia loliacea C. Martius ex Schultes & Schultes f.]
Ref. FP 13(1/3) 1936: 544; Smith & Downs, 1977: 874.
Note: Not known from Peru.

Tillandsia rauhii L. B. Smith var. **longispica** W. Rauh
Ref. Rauh & Gross, 1990: 37.
Endemic herb. Andean I. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 69431* (HEID)
Depts.: LA

Tillandsia rauhii var. **rauhii**
Ref. Rauh & Gross, 1990: 37; Sagástegui & Dillon, 1991: 43.
Endemic herb. Andean I: rocky slopes. 500-1000 m.
Voucher: Rauh P-379* (US), Sagástegui *et al.* 12420
Depts.: CA, PI

Tillandsia recurvata (L.) L.
Syn. *Diaphoranthema recurvata* (L.) Beer, *Diaphoranthema uniflora* (H.B.K.) Beer, *Renealmia recurvata* L., gen. nom. rejic., *Tillandsia uniflora* H.B.K.
Ref. FP 13(1/3) 1936: 542; Smith & Downs, 1977: 888.
Epiphytic or terrestrial herb. Andean I-III, Coastal: dry valleys, lomas. 500-4500 m.
Voucher: Ferreyra 10619 (US!)
Depts.: AN, AR, CA, CU, HU, JU, LI, LL, PI, TU

[*Tillandsia recurvifolia* Hooker =Tillandsia rosea Lindley]
Ref. FP 13(1/3) 1936: 566; Smith & Downs, 1977: 822.
Note: Not known from Peru.

Tillandsia reducta L. B. Smith
Ref. Smith & Downs, 1977: 762.
Endemic herb. Andean II: rocky slopes. 2500-3000 m.
Voucher: Ferreyra 3216* (US), López & Sagástegui 2785 (US!)
Depts.: CA, LL

Tillandsia restrepoana André
Ref. Smith & Downs, 1977: 752.
Epiphytic or terrestrial herb. Andean II-III. 2000-4000 m.
Voucher: Sagástegui 6002 (US!)
Depts.: CA

Tillandsia reuteri W. Rauh
Ref. Smith & Downs, 1977: 708.
Endemic epiphytic herb. Andean I. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 24555* (HEID)
Depts.: CA

Tillandsia rhododactyla Mez =Vriesea rubra (R. & P.) Beer
Ref. FP 13(1/3) 1936: 569; Smith & Downs, 1977: 1088.

Tillandsia rigidula Baker =Guzmania roezlii (C. J. Morren) Mez

Ref. FP 13(1/3) 1936: 576; Smith & Downs, 1979: 1292.

Tillandsia roetingii W. Rauh
Ref. Rauh, 1977: 11.
Endemic epiphytic herb. Andean II: riversides. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 40105* (HEID)
Depts.: AM

Tillandsia roezlii C. J. Morren
Syn. *Allardtia roezlii* C. J. Morren ex Baker, nom. nud., *Vriesea roezlii* C. J. Morren ex Baker, nom. nud.
Ref. FP 13(1/3) 1936: 562; Smith & Downs, 1977: 705.
Endemic herb.
Voucher: Roezl s.n.* (LG), Dillon *et al.* s.n. (USM!)
Depts.: JU, LL

Tillandsia ropalocarpa André
Ref. Smith & Downs, 1977: 1057.
Epiphytic herb. Andean II: forests. 2000-3000 m.
Voucher: Rauh 20101 (US!)
Depts.: CA, PI

[Tillandsia rosea Lindley]
Syn. *Tillandsia recurvifolia* Hooker
Ref. FP 13(1/3) 1936: 566; Smith & Downs, 1977: 822.
Note: Not known from Peru.

Tillandsia rubella Baker
Ref. Smith & Downs, 1977: 717.
Epiphytic or terrestrial herb. Andean III: forests. 3500-4000 m.
Voucher: Ferreyra 16830 (USM!)
Depts.: AN, CU

Tillandsia rubra R. & P. =Vriesea rubra (R. & P.) Beer
Ref. FP 13(1/3) 1936: 558; Smith & Downs, 1977: 1088.

Tillandsia rubra var. *reducta* L. B. Smith =Tillandsia fendleri Grisebach var. reducta (L.B. Smith) L. B. Smith
Ref. Smith & Downs, 1977: 698.

Tillandsia rusbyi Baker
Syn. *Tillandsia glumaciflora* Ule, *Tillandsia ulei* Mez
Ref. Smith & Downs, 1977: 768.
Herb.
Voucher: Ule 54-P (B)
Depts.: LO

Tillandsia sagasteguii L. B. Smith
Ref. Smith & Downs, 1977: 770.
Endemic epiphytic herb. Andean II. 1500-3000 m.
Voucher: Sagástegui 3390* (US), López *et al.* 3952 (US)
Depts.: CA, LL

Tillandsia saxicola Mez =Tillandsia tectorum C. J. Morren
Ref. FP 13(1/3) 1936: 553; Smith & Downs, 1977: 786.

Tillandsia scalarifolia Baker =Tillandsia paleacea C. Presl
Ref. FP 13(1/3) 1936: 547; Smith & Downs, 1977: 863.

Tillandsia schenckiana Wittmack =Tillandsia paleacea C. Presl
Ref. FP 13(1/3) 1936: 547; Smith & Downs, 1977: 863.

Tillandsia schimperiana Wittmack
Ref. FP 13(1/3) 1936: 564; Smith & Downs, 1977: 734.
Epiphytic herb. Andean II: forests. 1500-3000 m.
Voucher: Weberbauer 2296 (GH)
Depts.: JU

Tillandsia schumanniana (Wittmack) Mez =Tillandsia adpressa var. tonduziana (Mez) L. B. Smith
Ref. FP 13(1/3) 1936: 539; Smith & Downs, 1977: 1050.

Tillandsia schunkei L. B. Smith
Ref. Smith & Downs, 1977: 869.
Endemic herb. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Schunke 2404* (US!)
Depts.: TU

Tillandsia scoparia Willdenow ex Schultes & Schultes f. pro syn. =Tillandsia purpurea R. & P.
Ref. FP 13(1/3) 1936: 561; Smith & Downs, 1977: 866.

Tillandsia scorpiura Mez =Tillandsia pendulispica Mez
Ref. FP 13(1/3) 1936: 536; Smith & Downs, 1977: 1040.

Tillandsia seemannii (Baker) Mez
Syn. *Caraguata pulchella* André, *Guzmania bulliana* sensu Baker non André *Guzmania seemannii* Baker, *Tillandsia mezii* André ex Mez, *Tillandsia seemannii* var. *mezii* (André ex Mez) L. B. Smith
Ref. FP 13(1/3) 1936: 534; Smith & Downs, 1977: 1022.
Epiphytic herb. Andean II: forests. 2500-3500 m.
Voucher: López & Sagástegui 3500 (US!)
Depts.: AM, CU, LL, PA, SM

Tillandsia seemannii var. *mezii* (André ex Mez) L. B. Smith =Tillandsia seemannii (Baker) Mez
Ref. Smith & Downs, 1977: 1022.

Tillandsia sessiliflora R. & P. =Catopsis sessiliflora (R. & P.) Mez
Ref. FP 13(1/3) 1936: 577; Smith & Downs, 1977: 1385.

Tillandsia sodiroi Mez
Ref. Smith & Downs, 1977: 744.
Epiphytic herb. Andean I: forests. 3000-3500 m.
Voucher: Hutchison & Wright 5711 (USM!)
Depts.: AM

Tillandsia somnians L. B. Smith
Ref. Smith & Downs, 1977: 710.
Endemic herb. Andean I-II, Coastal: rocky slopes. 0-2000 m.
Voucher: West 3608* (UC), Ferreyra 13463 (US!)
Depts.: LI

[Tillandsia sphaerocephala Baker]
Ref. FP 13(1/3) 1936: 564; Smith & Downs, 1977: 778.
Note: Not known from Peru. The collection cited in the Flora of Peru, *Herrera 1146*, is redetermined as *T. nana* by Smith & Downs (1977).

Tillandsia spiculosa Grisebach var. **spiculosa**
Ref. Smith & Downs, 1977: 1033.
Epiphytic herb. Andean I-II: forests. 500-2500 m.
Voucher: Vargas 18852 (US)
Depts.: MD, PA, PU

Tillandsia spiculosa var. **ustulata** (Reitz) L. B. Smith
Syn. *Tillandsia parkeri* Baker, *Tillandsia triticea* Burchell ex Baker, *Tillandsia triticea* var. *ustulata* Reitz, *Tillandsia viridis* Baker, *Vriesea luschnathii* Mez, *Vriesea viridis* C. J. Morren ex Baker, nom. nud.
Ref. Smith & Downs, 1977: 1034.
Epiphytic herb. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Wurdack 2280 (US!)
Depts.: CU, JU, LO

Tillandsia spiraliflora W. Rauh
Ref. Rauh, 1976b: 8.
Endemic herb. Andean II. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 38567* (HEID)
Depts.: AM

Tillandsia spiralipetala Gouda
Syn. *Tillandsia tricholepis* var. *macrophylla* L. B. Smith
Ref. Gouda, 1986: 165.
Endemic herb. Andean II. 1500-2000 m.
Voucher: Mathews 18* (US!)
Depts.: AN

Tillandsia squamulosa Willdenow ex Schultes & Schultes f. pro syn. =Tillandsia caerulea H.B.K.
Ref. FP 13(1/3) 1936: 545; Smith & Downs, 1977: 869.

Tillandsia stenoura Harms var. **mauroi** Gilmartin
Ref. Smith & Downs, 1977: 707.
Epiphytic or terrestrial herb. Andean II: forests, rocky slopes. 3000-3500 m.
Voucher: López & Sagástegui 2759 (US)
Depts.: LL

Tillandsia stenoura var. **stenoura**
Ref. Smith & Downs, 1977: 707.

Epiphytic or terrestrial herb. Andean II: forests. 2000-3500 m.
Voucher: Macbride 3435 (F)
Depts.: AM, AN, HU

Tillandsia stenoura var. **tripinnata** (L. B. Smith) L. B. Smith
Syn. *Tillandsia deppeana* var. *tripinnata* L. B. Smith
Ref. Smith & Downs, 1977: 707.
Herb. Andean II: forests. 2000-2500 m.
Voucher: Macbride 4192 (F)
Depts.: HU, SM

Tillandsia stolpii Philippi =Tillandsia capillaris fo. virescens (R. & P.) L. B. Smith
Ref. FP 13(1/3) 1936: 542; Smith & Downs, 1977: 895.

Tillandsia straminea H.B.K.
Ref. FP 13(1/3) 1936: 561; Smith & Downs, 1977: 895; Luther, pers. comm.
Endemic herb. Coastal: lomas. 500-1000 m.
Voucher: Ferreyra 11552 (USM!)
Depts.: AR

Tillandsia streptocarpa Baker var. *peruviana* Ule =Tillandsia streptocarpa var. streptocarpa
Ref. FP 13(1/3) 1936: 548; Smith & Downs, 1977: 855.

Tillandsia streptocarpa var. **streptocarpa**
Syn. *Tillandsia bakeriana* Britten, *Tillandsia streptocarpa* var. *peruviana* Ule, *Tillandsia tricholepis* Baker
Ref. FP 13(1/3) 1936: 548; Smith & Downs, 1977: 855.
Epiphytic or terrestrial herb. Amazonian, Andean I-II: forests, rocky slopes. 0-2500 m.
Voucher: Ellenberg 5057 (US!)
Depts.: AM, AP, AY, CU

Tillandsia strobilantha (R. & P.) Poiret =Guzmania strobilantha (R. & P.) Mez
Ref. FP 13(1/3) 1936: 573.

Tillandsia subandina (Ule) Mez ex L. B. Smith =Vriesea subandina (Ule) L. B. Smith & Pittendrigh
Ref. FP 13(1/3) 1936: 556; Smith & Downs, 1977: 1097.

Tillandsia subconcolor L. B. Smith
Ref. Smith & Downs, 1977: 703.
Endemic epiphytic herb. Andean I-II: forests, rocky slopes. 500-2500 m.
Voucher: Rauh 20811* (US!), Ferreyra 9223A (USM!)
Depts.: CU, HU

Tillandsia subimbricata Baker =Tillandsia elongata var. subimbricata (Baker) L. B. Smith
Ref. Smith & Downs, 1977: 773.

Tillandsia subulata Vell. Conc. =Tillandsia tenuifolia var. tenuifolia
Ref. FP 13(1/3) 1936: 566; Smith & Downs, 1977: 829.

[*Tillandsia surinamensis* Miquel ex Mez pro syn. =Tillandsia tenuifolia var. surinamensis (Mez) L. B. Smith]
Ref. FP 13(1/3) 1936: 566; Smith & Downs, 1977: 831.
Note: Not known from Peru.

Tillandsia tectorum C. J. Morren
Syn. *Tillandsia argentea* sensu K. Koch non Grisebach, *Tillandsia saxicola* Mez
Ref. FP 13(1/3) 1936: 553; Smith & Downs, 1977: 786.
Herb. Andean I-II: rocky slopes. 500-3500 m.
Voucher: Wallis s.n.* (BR), Smith 12127 (US!)
Depts.: AN, CA, HU, JU, LI, LL, PI

[Tillandia tenuifolia var, surinamensis (Mez) L. B. Smith]
Syn. *Tillandsia surinamensis* Miquel ex Mez
Ref. Smith & Downs, 1977: 830.
Note: Not known from Peru.

Tillandsia tenuifolia L. var. **tenuifolia**
Syn. *Anoplophytum pulchellum* (Hooker) Beer, *Diaphoranthema subulata* (Vell. Conc.) Beer, *Tillandsia pulchella* Hooker, *Tillandsia subulata* Vell. Conc.
Ref. FP 13(1/3) 1936: 566; Smith & Downs, 1977: 829.
Epiphytic herb. Andean II: forests. 2000-3500 m.
Voucher: Vargas 11815 (US!)
Depts.: PU

[Tillandsia tenuifolia var. vaginata (Wawra) L. B. Smith
Syn. *Anoplophytum amoenum* C. J. Morren, *Anoplphytum brachypodium* C. J. Morren ex Baker, *Tillandsia pityphylla* C. Martius ex Schultes & Schultes f.
Ref. Smith & Downs, 1977: 832.
Note: Not known from Peru.

Tillandsia tequendamae André =Vriesea tequendamae (André) L. B. Smith
Ref. Smith & Downs, 1977: 1255.

Tillandsia teres L. B. Smith
Ref. Smith & Downs, 1977: 905.
Endemic herb. Andean I: rocky slopes. 500-1000 m.
Voucher: López & Sagástegui 5541* (US!), Rauh 24214 (US!)
Depts.: CA

Tillandsia tetrantha R. & P. sensu Grisebach =Tillandsia biflora R. & P.
Ref. FP 13(1/3) 1936: 565; Smith & Downs, 1977: 745

Tillandsia tetrantha R. & P. var. **aurantiaca** (Grisebach) L. B. Smith
Syn. *Catopsis garckeana* Wittmack, *Tillandsia aurantiaca* Grisebach, *Tillandsia fulgens* (Klotzsch ex Beer) Mez, *Tussacia fulgens* Klotzsch ex Beer
Ref. Smith & Downs, 1977: 1054.
Epiphytic herb. Andean I-II: forests. 500-3500 m.
Voucher: López & Sagástegui 5387 (TRP)
Depts.: CA

Tillandsia tetrantha var. **ramosior** L. B. Smith
Ref. Smith & Downs, 1977: 1056.
Endemic herb. Andean II: disturbed areas. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Hutchison & Wright 5669* (US!)
Depts.: AM

Tillandsia tetrantha var. **tetrantha**
Ref. FP 13(1/3) 1936: 540; Smith & Downs, 1977: 1052.
Epiphytic herb. Andean II: forests. 1500-3500 m.
Voucher: Ruiz & Pavón s.n.* (MA photo F), Wurdack 1345 (US!, USM!)
Depts.: AM, CU, HU, PA

Tillandsia tonduziana Mez =Tillandsia adpressa var. tonduziana (Mez) L. B. Smith
Ref. FP 13(1/3) 1936: 540; Smith & Downs, 1977: 1050.

Tillandsia tovarensis Mez
Syn. *Tillandsia arnoldiana* Harms
Ref. Smith & Downs, 1977: 723.
Epiphytic herb. Andean I-II: cloud forests. 1000-3500 m.
Voucher: Ochoa 11654 (US!)
Depts.: AM, AP, CA, CU, JU, LA, PU

Tillandsia triangularis Rusby =Tillandsia pendulispica Mez
Ref. FP 13(1/3) 1936: 536; Smith & Downs, 1977: 1040.

Tillandsia trichoides H.B.K. =Tillandsia usneoides (L.) L.
Ref. FP 13(1/2) 1936: 543; Smith & Downs, 1977: 899.

Tillandsia tricholepis Baker =Tillandsia streptocarpa var. streptocarpa
Ref. FP 13(1/3) 1936: 548; Smith & Downs, 1977: 855.

Tillandsia tricholepis var. *macrophylla* L. B. Smith =Tillandsia spiralipetala Gouda
Ref. Smith & Downs, 1977: 879; Luther, pers. comm.

Tillandsia triglochinoides C. Presl
Ref. Smith & Downs, 1977: 851.
Epiphytic herb. Andean I: forests. 500-1500 m.
Voucher: Rauh & Hirsch P-2125 (US!)
Depts.: PI

Tillandsia trinitensis Baker =Vriesea chrysostachys var. chrysostachys
Ref. FP 13(1/3) 1936: 569; Smith & Downs, 1977: 1094.

Tillandsia triticea Burchell ex Baker =Tillandsia spiculosa var. ustulata (Reitz) L. B. Smith

Ref. FP 13(1/3) 1936: 535; Smith & Downs, 1977: 1034.

Tillandsia teiticea var. *ustulata* Reitz =Tillandsia spiculata var. ustulata (Reitz) L. B. Smith
Ref: Smith & Downs, 1977 1034.

Tillandsia truxillana L. B. Smith
Ref. Smith & Downs, 1977: 785.
Endemic herb. Andean II: rocky slopes. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: López & Sagástegui 3296* (US!)
Depts.: LL

Tillandsia ulei Mez =Tillandsia rusbyi Baker
Ref. FP 13(1/3) 1936: 559; Smith & Downs, 1977: 768.

[*Tillandsia undulata* Baker =Tillandsia loliacea C. Martius ex Schultes & Schultes f.]
Ref. FP 13(1/3) 1936: 544; Smith & Downs, 1977: 874.
Note: Not known from Peru.

Tillandsia undulatobracteata W. Rauh =Guzmania undulatobracteata (W. Rauh) W. Rauh
Ref. Rauh, 1991: 18, 106.

Tillandsia undulifolia Mez
Syn. *Tillandsia plicatifolia* Ule
Ref. FP 13(1/3) 1936: 535; Luther, pers. comm.
Epiphytic herb. Andean I: forests. 1000-1500 m.
Voucher: Ule 6665 (B)
Depts.: SM

Tillandsia uniflora H.B.K. =Tillandsia recurvata (L.) L.
Ref. FP 13(1/3) 1936: 542; Smith & Downs, 1977: 888.

[*Tillandsia unispicata* Vell. Conc. =Aechmea nudicaulis var. cuspidata Baker]
Ref. FP 13(1/3) 1936: 590; Smith & Downs, 1979: 1923.
Note: Not known from Peru.

Tillandsia usneoides (L.) L.
Syn. *Dendropogon usneoides* (L.) Raf., *Renealmia usneoides* L., gen. nom. rejic., *Strepsia usneoides* (L.) Nuttall ex Steudel, *Tillandsia crinita* Willdenow ex Beer, *Tillandsia trichoides* H.B.K.
Ref. FP 13(1/3) 1936: 543; Smith & Downs, 1977: 899.
Epiphytic herb. Andean I-III, Coastal: disturbed areas, forests, lomas. 0-4000 m.
Voucher: Landrum 4624 (US!)
Depts.: AM, AN, AP, AY, CU, HU, JU, LI, LL, PI, PU, TU

Tillandsia violacea Klotzsch ex Beer, nom. nud. =Tillandsia biflora R. & P.
Ref. FP 13(1/3) 1936: 565.

Tillandsia violascens Mez
Ref. Smith & Downs, 1977: 743.
Epiphytic herb. Andean II: cloud forests. 3000-3500 m.
Voucher: Tovar 3775 (US!)
Depts.: HV

Tillandsia virescens R. & P. =Tillandsia capillaris fo. virescens (R. & P.) L. B. Smith
Ref. FP 13(1/3) 1936: 542; Smith & Downs, 1977: 895.

Tillandsia viridis Baker =Tillandsia spiculosa var. ustulata (Reitz) L. B. Smith
Ref. FP 13(1/3) 1936: 535; Smith & Downs, 1977: 1034.

Tillandsia wagneriana L. B. Smith
Ref. Smith & Downs, 1977: 838.
Cultivated and endemic herb. Amazonian, Andean I. 0-1000 m.
Voucher: Moore 310* (US), Hutchison & Wright 3690 (UC, USM!)
Depts.: AM, LO

Tillandsia walteri Mez var. *herrerae* (Harms) W. Rauh =Tillandsia walteri var. walteri
Ref. Rauh, 1977: 41.

Tillandsia walteri var. **walteri**
Syn. *Tillandsia herrerae* Harms, *Tillandsia walteri* var. *herrerae* (Harms) W. Rauh.
Ref. FP 13(1/3) 1936: 550; Smith & Downs, 1977: 726; Rauh, 1977: 726.
Epiphytic or terrestrial herb. Andean II-III: forests. 2000-4000 m.
Voucher: Weberbauer 4319* (B), Smith *et al.* 10481 (US!)
Depts.: AM, AN, CA, CU, HV, LL, PI

Tillandsia wangerinii Mez =Tillandsia ionochroma André ex Mez
Ref. FP 13(1/3) 1936: 566; Smith & Downs, 1977: 746.

Tillandsia weberbaueri Mez =Tillandsia parviflora var. parviflora
Ref. FP 13(1/3) 1936: 537; Smith & Downs, 1977: 1062.

Tillandsia werdermannii Harms
Ref. FP 13(1/3) 1936: 548; Smith & Downs, 1977: 793.
Endemic herb. Andean I, Coastal: lomas. 500-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Werdermann 717* (MO!)
Depts.: TA

Tillandsia williamsii Rusby =Tillandsia capillaris fo. virescens (R. & P.) L. B. Smith
Ref. FP 13(1/3) 1936: 542; Smith & Downs, 1977: 895.

Tillandsia wurdackii L. B. Smith
Ref. Smith & Downs, 1977: 704.
Endemic epiphytic herb. Andean II: forests. 2500-3500 m.
Voucher: Wurdack 801* (US!), León & Young 4453 (US!)
Depts.: AM, HU, SM

Tillandsia zamorensis L. B. Smith =Vriesea zamorensis (L. B. Smith) L. B. Smith
Ref. Smith & Downs, 1977: 1098.

Tillandsia zaratensis W. Weber
Ref. Weber, 1983: 621.
Endemic epiphytic herb.
Note: Known from Peru only from the type locality.
Voucher: Mueller & Gutte 9520* (LZ)
Depts.: LI

Tussacia fulgens Klotzsch ex Beer =Tillandsia tetrantha var. aurantiaca (Grisebach) L. B. Smith
Ref. FP 13(1/3) 1936: 540; Smith & Downs, 1977: 1054.

Tussacia sessiliflora (R. & P.) Beer =Catopsis sessiliflora (R. & P.) Mez
Ref. FP 13(1/3) 1936: 577; Smith & Downs, 1977: 1385.

Vriesea albiflora Ule =Vriesea rubra (R. & P.) Beer
Ref. FP 13(1/3) 1936: 569; Smith & Downs, 1977: 1088.

Vriesea alborubrobracteata W. Rauh
Ref. Rauh, 1976a: 19.
Epiphytic herb. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: B.G.H 17453* (HEID)
Depts.: AM

Vriesea appenii W. Rauh
Ref. Smith & Downs, 1977: 1188.
Herb. Andean II: shrublands. 1500-2000 m.
Voucher: Rauh 15420* (US), Rauh & Hirsch P-2151 (US)
Depts.: LA, PI

Vriesea aurea hort. ex Baker =Vriesea chrysostachys var. chrysostachys
Ref. FP 13(1/3) 1936: 569.

Vriesea bellula Linden =Vriesea heliconioides var. heliconiodes
Ref. FP 13(1/3) 1936: 568; Smith & Downs, 1977: 1111.

Vriesea capituligera (Grisebach) L. B. Smith & Pittendrigh
Syn. *Tillandsia capituligera* Grisebach
Ref. Smith & Downs, 1977: 1170.
Epiphytic herb. Andean II: cloud forests, grasslands, shrublands. 1500-3500 m.
Voucher: Foster & d'Achille 10565 (F!)
Depts.: CA, HU, LL, PA

Vriesea cereicola (Mez) L. B. Smith
Syn. *Tillandsia cereicola* Mez, *Vriesea lopezii* L. B. Smith
Ref. Smith & Downs, 1977: 1249.
Endemic epiphytic or terrestrial herb. Andean I-II: rocky slopes. 500-2500 m.

Voucher: Weberbauer 3025* (B, MOL), Rauh 20-369 (US!)
Depts.: AM, AN, CA, LL

Vriesea chrysostachys C. J. Morren var. **chrysostachys**
Syn. *Tillandsia chrysostachys* (C. J. Morren) Baker, *Tillandsia cryptantha* hort. ex Baker pro syn., *Tillandsia trinitensis* Baker, *Vriesia aurea* hort. ex Baker
Ref. FP 13(1/3) 1936: 569; Smith & Downs, 1977: 1094.
Herb. Andean I: forests. 500-1500 m.
Voucher: Davis s.n.* (LG), Killip & Smith 24010 (MO!)
Depts.: JU

Vriesea curvispica W. Rauh
Ref. Rauh, 1983b: 21.
Endemic herb. Andean I. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 52835* (HEID)
Depts.: AM

Vriesea cylindrica L. B. Smith
Ref. Smith & Downs, 1977: 1252.
Epiphytic or terrestrial herb. Andean I-II: forests. 1000-2000 m.
Voucher: Rauh P-333 (US)
Depts.: LA, LL, PI

Vriesea disticha Kuntze, as to material cited, not Renealmia disticta L. =Vriesea heliconioides var. heliconioides
Ref. FP 13(1/3) 1936: 568; Smith & Downs, 1977: 1111.

Vriesea dubia (L. B. Smith) L. B. Smith emend. L. B. Smith & Read
Syn. *Tillandsia dubia* L. B. Smith
Ref. Smith & Read, 1977: 138.
Herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Berlin 644 (MO!)
Depts.: AM, CU, PA

Vriesea falkenbergii W. Bull =Vriesea heliconioides var. heliconioides
Ref. FP 13(1/3) 1936: 568; Smith & Downs, 1977: 1111.
Note: The Flora of Peru lists an incorrect author citation "Hort. ex Gard."

Vriesea gladioliflora (Wendland) Antoine
Syn. *Tillandsia gladioliflora* Wendland
Ref. Smith & Downs, 1977: 1115
Epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: Davidson & Jones 9806 (US)
Depts.: LO

Vriesea harmsiana (L. B. Smith) L. B. Smith
Syn. *Tillandsia harmsiana* L. B. Smith
Ref. Smith & Downs, 1977: 1253.
Endemic epiphytic or terrestrial herb. Andean II: rocky slopes. 1500-3000 m.
Voucher: Macbride 3272* (F), Wurdack 1400 (US!)
Depts.: AM, CA, HU, LL

Vriesea heliconioides (H.B.K.) Hooker ex Walpers var. **heliconiodes**
Syn. *Platystachys disticha* Beer, nom. nud., *Tillandsia heliconioides* H.B.K., *Vriesea bellula* Linden, *Vriesea disticha* Kuntze, *Vriesea falkenbergii* W. Bull
Ref. FP 13(1/3) 1936: 568; Smith & Downs, 1977: 1110.
Epiphytic herb. Amazonian: forests. 0-500 m.
Voucher: Schunke 3228 (MO!)
Depts.: AY, SM

Vriesea hitchcockiana (L. B. Smith) L. B. Smith
Syn. *Tillandsia hitchcockiana* L. B. Smith
Ref. Smith & Downs, 1977: 1246.
Herb. Andean I: forests. 1000-1500 m.
Voucher: Rauh P-310 (US)
Depts.: PI

Vriesea lindenii (C. J. Morren) Lemaire =Tillandsia cyanea var. cyanea
Ref. FP 13(1/3) 1936: 551; Smith & Downs, 1977: 849.

Vriesea lopezii L. B. Smith = Vriesea cereicola (Mez) L. B. Smith
Ref. Smith & Downs, 1977: 1249.

Vriesea luschnathii Mez =Tillandsia spiculosa var. ustulata (Reitz) L. B. Smith
Ref. FP 13(1/3) 1936: 535; Smith & Downs, 1977: 1034.

Vriesea maculata (R. & P.) Beer =Tillandsia maculata R. & P.
Ref. FP 13(1/3) 1936: 557; Smith & Downs, 1977: 732.

Vriesea ochracea W. Rauh & Gross
Ref. Rauh & Gross, 1987: 196.
Endemic herb. Andean II: forests. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Lau s.n.* (HEID)
Depts.: PA

Vriesea olmosana L. B. Smith var. **olmosana**
Ref. Rauh, 1983c: 29.
Endemic epiphytic herb. Andean I. 500-1500 m.
Voucher: Rauh P333* (US), Rauh 24331 (HEID)
Depts.: HU, JU, LA, SM

Vriesea oxapampae W. Rauh
Ref. Rauh, 1976a: 22.
Endemic herb. Andean II: forests. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Lau s.n.* (HEID)
Depts.: PA

Vriesea patula (Mez) L. B. Smith
Syn. *Tillandsia patula* Mez
Ref. Smith & Downs, 1977: 1248.
Endemic epiphytic or terrestrial herb. Andean II: rocky slopes. 2000-3000 m.
Voucher: Killip & Smith 24349* (US!)
Depts.: JU

Vriesea pereziana (André) L. B. Smith var. **canescens** (André) Gilmartin
Syn. *Tillandsia pereziana* var. *canescens* André
Ref. Smith & Downs, 1977: 1258.
Epiphytic herb. Andean II. 2000-2500 m.
Voucher: Sagástegui 6001 (TRP)
Depts.: AM

Vriesea piepenbringii W. Rauh
Ref. Rauh, 1983c: 44.
Endemic herb. Andean I: riversides. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh 53548* (HEID)
Depts.: AM

Vriesea pleiosticha (Grisebach) Gouda =Mezobromelia pleiosticha (Grisebach) Utley & H. Luther
Ref. Gouda, 1987: 82; Utley & Luther, 1991: 270.

Vriesea rauhii L. B. Smith
Ref. Smith & Downs, 1977: 1248.
Herb. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Rauh P-330* (US)
Depts.: CA

Vriesea roezlii C. J. Morren ex Baker, nom. nud. =Tillandsia roezlii C. J. Morren
Ref. FP 13(1/3) 1936: 563; Smith & Downs, 1977: 705.

Vriesea rubra (R. & P.) Beer
Syn. *Phytarrhiza rubra* (R. & P.) C. J. Morren ex Baker, *Tillandsia rhododactyla* Mez, *Tillandsia rubra* R. & P., *Vriesea albiflora* Ule
Ref. FP 13(1/3) 1936: 558; Smith & Downs, 1977: 1088.
Epiphytic herb. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Macbride 4265 (F!)
Depts.: HU, JU, LO, SM

Vriesea sagasteguii L. B. Smith
Ref. Smith & Downs, 1977: 1252.
Endemic herb. Andean II: rocky slopes. 1500-2000 m.
Voucher: López & Sagástegui 5175* (TRP, US!), Rauh 20059 (US!)
Depts.: CA

Vriesea subandina (Ule) L. B. Smith & Pittendrigh
Syn. *Cipuropsis subandina* Ule, *Tillandsia subandina* (Ule) Mez ex L. B. Smith
Ref. Smith & Downs, 1977: 1097.
Endemic herb. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Ule 6684* (B)
Depts.: LO

Vriesea tarmaensis W. Rauh
Ref. Rauh, 1983c: 33.
Endemic herb. Andean II. 1500-3000 m.
Voucher: Rauh 21147* (HEID), Rauh 20952 (HEID)
Depts.: JU

Vriesea tequendamae (André) L. B. Smith
Syn. *Tillandsia tequendamae* André
Ref. Smith & Downs, 1977: 1255.
Epiphytic herb. Andean II: forests. 2000-3500 m.
Voucher: Wurdack 1649 (US!, USM!)
Depts.: AM, PI

Vriesea tillandsioides L. B. Smith
Ref. Smith & Downs, 1977: 1253.
Epiphytic herb.
Note: Known from Peru only from the type locality.
Voucher: Rauh P-304* (US)
Depts.: PI

Vriesea viridis C. J. Morren ex Baker, nom. nud. =Tillandsia spiculosa var. ustulata (Reitz) L. B. Smith
Ref. FP 13(1/3) 1936: 535; Smith & Downs, 1977: 1034.

Vriesea zamorensis (L. B. Smith) L. B. Smith
Syn. *Tillandsia zamorensis* L. B. Smith
Ref. Smith & Downs, 1977: 1098.
Epiphytic herb. Andean I. 500-1000 m.
Voucher: Ferreyra 12670A (MO!, USM!)
Depts.: HU

Wallisia lindenii C. J. Morren, nom. provis. =Tillandsia cyanea var. cyanea
Ref. FP 13(1/3) 1936: 551; Smith & Downs, 1977: 849.

Brunelliaceae

1 genus and 12 species in Peru.

Endemic species: 9.

Treated under Cunoniaceae in the Flora of Peru.

Prepared by L. Brako; reviewed by J. Cuatrecasas (US).

Brunellia briquetii Baehni
Ref. FP 13(2/3) 1938: 1040; Cuatrecasas, 1970a: 149.
Endemic tree. Andean II: forests. 2500-3000 m.
Voucher: Mathews s.n.* (G photo F! with frag.), Jelski 100 (US!)
Depts.: AM, CA

Brunellia brunnea J. F. Macbride
Ref. FP 13(2/3) 1938: 1040; Cuatrecasas, 1970a: 97.
Endemic tree. Andean II: forests. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6969* (F!)
Depts.: CU

Brunellia carpishensis Cuatrecasas
Syn. *Brunellia inermis* var. *petiolulata* Cuatrecasas
Ref. Cuatrecasas, 1985a: 69.
Endemic tree. Andean II: forests. 2500-3000 m.
Voucher: Asplund 13066* (S), Asplund 13065 (US!)
Depts.: HU

Brunellia cutervensis Cuatrecasas
Ref. Cuatrecasas, 1985a: 64.
Endemic tree. Andean II: forests. 2500-3000 m.
Voucher: López *et al.* 6709* (US), Díaz *et al.* 2123 (MO!)
Depts.: CA

Brunellia cuzcoensis Cuatrecasas
Ref. Cuatrecasas, 1970a: 143.
Endemic tree. Andean II: forests. 2000-3500 m.
Voucher: Vargas 13967* (US!), Vargas 17827 (US!)
Depts.: CU

Brunellia dichapetaloides J. F. Macbride
Ref. FP 13(2/3) 1938: 1041; Cuatrecasas, 1970a: 95.
Endemic tree. Andean II: forests. 1500-2000 m.
Note: Known from Peru only from the type locality.
Voucher: Schunke 83* (F!)
Depts.: JU

Brunellia dulcis J. F. Macbride
Ref. FP 13(2/3) 1938: 1041; Cuatrecasas, 1970a: 163.
Endemic tree. Andean II: forests. 2000-2500 m.
Voucher: Sawada 74* (F!), Vargas 137 (F!)
Depts.: HU, PA

Brunellia hexasepala Loesener
Ref. FP 13(2/3) 1938: 1042; Cuatrecasas, 1970a: 134.
Endemic tree. Andean II: forests. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 734* (B photo F! with frag.)
Depts.: PU

Brunellia inermis R. & P. var. **inermis**
Ref. FP 13(2/3) 1938: 1042; Cuatrecasas, 1970a: 124.
Endemic tree. Andean II: forests. 2000-3500 m.
Voucher: Ruiz & Pavón 23/67* (MA), Stein & Todzia 2291 (MO!)
Depts.: CU, HU, PA

Brunellia inermis var. *petiolulata* Cuatrecasas =Brunellia carpishensis Cuatrecasas
Ref. Cuatrecasas, 1985a: 69.

Brunellia sibundoya Cuatrecasas
Ref. Cuatrecasas, 1970a: 78.
Tree. Andean II: forests. 2000-2500 m.
Note: Based on herbarium specimens not determined to subspecies.
Voucher: Smith & Pretel 7611 (MO!)
Depts.: PA

Brunellia stenoptera Diels
Ref. Cuatrecasas, 1970a: 101.
Tree. Andean II: forests. 2000-2500 m.
Voucher: van der Werff *et al.* 8622 (MO!)
Depts.: JU

Brunellia ternata Loesener =Brunellia weberbaueri Loesener
Ref. FP 13(2/3) 1938: 1043; Cuatrecasas, 1970a: 136.

Brunellia weberbaueri Loesener
Syn. *Brunellia ternata* Loesener
Ref. FP 13(2/3) 1938: 1043; Cuatrecasas, 1970a: 136.
Endemic tree. Andean II: cloud forests, shrublands. 1500-3500 m.
Voucher: Weberbauer 6781* (F!), Macbride 4882 (F!)
Depts.: HU, PA

Burmanniaceae

8 genera and 16 species in Peru.

Endemic species: 1.

Prepared by L. Brako; reviewed by P. J. M. Maas (U).

Apteria aphylla (Nuttall) Barnhart ex Small
Syn. *Lobelia aphylla* Nuttall (Campanulaceae)
Ref. Maas *et al.*, 1986: 133.
Saprophytic herb. Amazonian: forests, seasonally inundated areas. 0-500 m.
Voucher: Gentry & Revilla 16610 (MO!)
Depts.: LO, PA

Apteria orobanchoides Hooker =Dictyostega orobanchoides subsp. orobanchoides
Ref. Maas *et al.*, 1986: 139.

Benitzia suaveolens Karsten =Gymnosiphon suaveolens (Karsten) Urban
Ref. Maas *et al.*, 1986: 118.

Burmannia kalbreyeri Oliver
Ref. Maas *et al.*, 1986: 47.
Epiphytic herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Wallköfer 14-18688 (WU)
Depts.: HU

Burmannia stuebelii Hieronymus & Schlechter
Ref. FP 13(1/3) 1936: 767; Maas *et al.*, 1986: 79.
Endemic herb. Andean II: disturbed areas, rocky slopes. 1500-3500 m.
Voucher: Stuebel 25B* (B), Hutchison & Wright 5501 (MO!)
Depts.: AM, CA, SM

Burmannia tenella Bentham
Ref. Maas *et al.*, 1986: 55.
Saprophytic herb. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Wolfe 12301 (NA)
Depts.: HU

Campylosiphon purpurascens Bentham
Ref. Maas *et al.*, 1986: 41.
Saprophytic herb. Amazonian: forests on white sand, riversides. 0-500 m.
Voucher: Vásquez *et al.* 5289 (AMAZ!, MO!)
Depts.: LO

Cymbocarpa refracta Miers
Ref. Maas *et al.*, 1986: 90.
Saprophytic herb. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Wolfe 12418 (NA)
Dept.: HU

Cymbocarpa saccata Sandwith
Ref. Maas *et al.*, 1986: 91.
Saprophytic herb. Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 36225A (MO!)
Depts.: UC

Dictyostega orobanchoides (Hooker) Miers subsp. **orobanchoides**
Syn. *Apteria orobanchoides* Hooker
Ref. Maas *et al.*, 1986: 139.
Saprophytic herb. Amazonian, Andean I-II: forests. 0-3000 m.
Voucher: Vargas 8151 (MO!)
Depts.: CU, JU, LO

Dictyostega orobanchoides subsp. **purdieana** (Bentham) Snelders & P. Maas
Syn. *Dictyostega pectinata* Karsten, *Dictyostega purdieana* Bentham
Ref. Maas *et al.*, 1986: 141.
Saprophytic herb. Andean I-II: forests, riversides. 1500-3000 m.
Voucher: Hodge 6103 (F)
Depts.: AM, CA, HU, SM

Dictyostega pectinata Karsten =Dictyostega orobanchoides subsp. purdieana (Bentham) Snelders & P. Maas
Ref. FP 13(1/3) 1936: 768; Maas *et al.*, 1986: 141.

Dictyostega purdieana Bentham =Dictyostega orobanchoides subsp. purdieana (Bentham) Snelders & P. Maas
Ref. Maas *et al.*, 1986: 141.

Dictyostega umbellata Miers =Miersiella umbellata (Miers) Urban
Ref. Maas *et al.*, 1986: 127.

Gymnosiphon breviflorus Gleason
Ref. Maas *et al.*, 1986: 103.
Saprophytic herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Gentry *et al.* 36221 (MO!)
Depts.: HU, UC

Gymnosiphon cymosus (Bentham) Bentham & Hooker f.
Syn. *Ptychomeria cymosa* Bentham
Ref. Maas *et al.*, 1986: 99.
Saprophytic herb. Amazonian, Andean I: forests on white sand, seasonally inundated areas. 0-1500 m.
Voucher: Gentry & Emmons 39002 (MO!)
Depts.: LO, SM

Gymnosiphon divaricatus (Bentham) Bentham & Hooker f.
Syn. *Ptychomeria divaricata* Bentham
Ref. Maas *et al.*, 1986: 113.
Saprophytic herb. Amazonian: forests. 0-1000 m.
Voucher: Gentry *et al.* 21028 (MO!)
Depts.: HU, LO

Gymnosiphon minutus Snelders & P. Maas
Ref. Maas *et al.*, 1986: 109.
Saprophytic herb. Amazonian: forests on white sand. 0-500 m.
Voucher: Gentry & Revilla 20708 (MO!)
Depts.: LO

Gymnosiphon suaveolens (Karsten) Urban
Syn. *Benitzia suaveolens* Karsten
Ref. Maas *et al.*, 1986: 118.
Saprophytic herb. Andean I-II: forests. 500-2500 m.
Voucher: Schunke 1132 (NY)
Depts.: AM, HU

Miersiella umbellata (Miers) Urban
Syn. *Dictyostega umbellata* Miers
Ref. Maas *et al.*, 1986: 127.
Saprophytic herb. Amazonian, Andean I-II: forests. 0-1500 m.
Voucher: Wolfe 12209 (NA)
Depts.: HU

Myostoma hyalinum Miers =Thismia hyalina (Miers) F. von Mueller
Ref. Maas *et al.*, 1986: 158.

Ophiomeris panamensis Standley =Thismia panamensis (Standley) Jonker
Ref. Maas *et al.*, 1986: 156.

Ptychomeria cymosa Bentham =Gymnosiphon cymosus (Bentham) Bentham & Hooker f.
Ref. Maas *et al.*, 1986: 99.

Ptychomeria divaricata Bentham =Gymnosiphon divaricatus (Bentham) Bentham & Hooker f.
Ref. Maas *et al.*, 1986: 113.

Thismia hyalina (Miers) F. von Mueller
Syn. *Myostoma hyalinum* Miers
Ref. Maas *et al.*, 1986: 158.
Saprophytic herb. Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 22049 (MO!)
Depts.: LO, SM

Thismia panamensis (Standley) Jonker
Syn. *Ophiomeris panamensis* Standley
Ref. Maas *et al.* 1986: 156.
Saprophytic herb. Amazonian: forests. 0-500 m.
Voucher: Foster & Wachter 7311 (F)
Depts.: LO, MD

Burseraceae

6 genera and 45 species in Peru.

Endemic species: 4.

Prepared by L. Brako; reviewed by D. C. Daly (NY).

Bursera graveolens (H.B.K.) Triana & Planchon
Syn. *Bursera graveolens* fo. *malacophylla* (B. Robinson) J. F. Macbride, *Bursera malacophylla* B. Robinson, *Elaphrium graveolens* H.B.K.
Ref. FP 13(3/2) 1949: 712.
Tree. Andean I-II: forests, rocky slopes. 1000-3500 m.
Voucher: Sagástegui *et al.* 9958 (MO!)
Depts.: CA, LA, PI, TU

Bursera graveolens fo. *malacophylla* (B. Robinson) J. F. Macbride =Bursera graveolens (H.B.K.) Triana & Planchon
Ref. FP 13(3/2) 1949: 712; Daly, pers. comm.

Bursera klugii (J. F. Macbride) J. F. Macbride =Protium klugii J. F. Macbride
Ref. FP 13(3/2) 1949: 712; Daly, 1989: 23.

Bursera malacophylla B. Robinson =Bursera graveolens (H.B.K.) Triana & Planchon
Ref. FP 13(3/2) 1949: 712; Daly, pers. comm.

Crepidospermum goudotianum (Tulasne) Triana & Planchon
Syn. *Crepidospermum sprucei* Hooker f., *Icica goudotiana* Tulasne
Ref. FP 13(3/2) 1949: 715.
Shrub. Amazonian: forests. 0-500 m.
Voucher: Woytkowski 7222 (MO!)
Depts.: AM, LO, MD, SM

Crepidospermum multijugum Swart
Ref. FP 13(3/2) 1949: 715.
Tree. Amazonian: forests. 0-500 m.
Voucher: Klug 2284* (NY), Klug 2004 (MO!)
Depts.: LO

Crepidospermum prancei Daly
Ref. Daly, 1987: 56.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez *et al.* 4010 (MO!)
Depts.: LO

Crepidospermum rhoifolium (Bentham) Swart
Syn. *Hedwigia rhoifolium* Bentham, *Hemicrepidospermum rhoifolium* (Swart) Swart
Tree. Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 39049 (MO!)
Depts.: LO

Crepidospermum sprucei Hooker f. =Crepidospermum goudotianum (Tulasne) Triana & Planchon
Ref. FP 13(3/2) 1949: 715.

Dacryodes chimantensis Steyermark & Maguire
Ref. Steyermark *et al.*, 1967: 445.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez *et al.* 10902 (MO!)
Depts.: LO

Dacryodes kukachkana L. O. Williams
Ref. Williams, 1967: 251.
Tree. Amazonian: forests. 0-500 m.
Voucher: Lao 79* (F), Begazo 59 (MO!)
Depts.: HU, UC

Dacryodes nitens Cuatrecasas
Ref. Cuatrecasas, 1956a: 64.
Tree. Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 61934 (MO!)
Depts.: LO

Dacryodes peruviana (Loesener) J. F. Macbride var. **peruviana**
Syn. *Pachylobus peruvianus* Loesener
Ref. FP 13(3/2) 1949: 716; Cuatrecasas, 1956a: 61.
Endemic tree. Amazonian: forests. 0-500 m.
Voucher: Weberbauer 3697* (B), Vásquez 2860 (MO!)
Depts.: AM, HU, LO, SM

Elaphrium graveolens H.B.K. =Bursera graveolens (H.B.K.) Triana & Planchon
Ref. FP 13(3/2) 1949: 712.

Hedwigia panamensis Engler =Tetragastris panamensis (Engler) Kuntze
Ref. FP 13(3/2) 1949: 714.

Hedwigia rhoifolium Bentham =Crepidospermum rhoifolium (Bentham) Swart
Ref. Swart, 1942: 205.

Hemicrepidospermum rhoifolium (Swart) Swart =Crepidospermum rhoifolium (Bentham) Swart
Ref. Swart, 1942: 205.

Icica altissima Aublet =Tetragastris altissima (Aublet) Swart
Ref. FP 13(3/2) 1949: 713.

Icica aracouchini Aublet =Protium aracouchini (Aublet) Marchand
Ref. Daly, 1987b: 242.

Icica decandra Aublet =Protium decandrum (Aublet) Marchand
Ref. Daly, 1987b: 292.

Icica goudotiana Tulasne =Crepidospermum goudotianum (Tulasne) Triana & Planchon
Ref. FP 13(3/2) 1949: 715.

Icica spruceana Bentham =Protium spruceanum (Bentham) Engler
Ref. Daly, 1987b: 347.

Icicopsis ferrugineus Engler =Protium ferrugineum (Engler) Engler

Icicopsis subserrata Engler =Protium subserratum (Engler) Engler
Ref. Daly, 1987b: 424.

Icicopsis tenuifolia Engler =Protium tenuifolium (Engler) Engler
Ref. Daly, 1987b: 209.

Pachylobus peruvianus Loesener =Dacryodes peruviana var. peruviana
Ref. FP 13(3/2) 1949: 716.

Paraprotium nitidifolium Cuatrecasas =Protium nitidifolium (Cuatrecasas) Daly
Ref. Daly, 1989a: 25.

Protium altsonii Sandwith
Ref. Daly, 1987b: 390.
Tree. Amazonian. 0-500 m.
Voucher: Pipoly *et al.* 14569 (MO!)
Depts.: AM, HU, LO, PA, SM

Protium apiculatum Swart
Ref. FP 13(3/2) 1949: 705; Daly, 1987b: 178.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 11406 (MO!)
Depts.: LO, MD

Protium aracouchini (Aublet) Marchand
Syn. *Icica aracouchini* Aublet
Ref. Daly, 1987b: 242.
Tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Schunke 9290 (MO!)
Depts.: HU, LO, MD, SM

Protium asperum Standley =Trattinnickia aspera (Standley) Swart
Ref. Swart, 1942: 426.

Protium carnosum A. C. Smith
Tree. Amazonian: forests on white sand. 0-500 m.
Voucher: Gentry *et al.* 39129 (MO!)
Depts.: HU, LO, PA

Protium crassipetalum Cuatrecasas
Ref. Cuatrecasas, 1957: 399.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 5866 (MO!)
Depts.: LO

Protium decandrum (Aublet) Marchand
Syn. *Icica decandra* Aublet, *Protium medianum* J. F. Macbride
Ref. Daly, 1987b: 292, Daly, pers. comm.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 6302 (MO!)
Depts.: LO

Protium divaricatum Engler subsp. **divaricatum**
Ref. Daly, 1987b: 256.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 11368 (MO!)
Depts.: HU, LO

Protium divaricatum subsp. **krukoffii** (Swart) Daly
Syn. *Protium divaricatum* var. *krukoffii* Swart
Ref. Daly, 1987b: 259.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 9506 (MO!)
Depts.: LO

Protium divaricatum var. *krukoffii* Swart =Protium divaricatum subsp. krukoffii (Swart) Daly
Ref. Daly, 1987b: 430.

Protium ferrugineum (Engler) Engler
Syn. *Icicopsis ferrugineus* Engler
Tree. Amazonian: forests on white sand. 0-500 m.
Voucher: Vásquez *et al.* 7504 (MO!)
Depts.: AM, LO

Protium fimbriatum Swart
Tree. Amazonian: disturbed areas. 0-500 m.
Voucher: Berlin 930 (MO!)
Depts.: AM, HU, LO, MD

Protium glabrescens Swart
Ref. FP 13(3/2) 1949: 706.
Tree. Amazonian. 0-500 m.
Note: The specimen cited in the Flora of Peru, *Klug 5468*, is actually from Brazil.
Voucher: van der Werff *et al.* 10046 (MO!)
Depts.: LO, MD, PA, UC

Protium glaucum J. F. Macbride
Ref. FP 13(3/2) 1949: 706.
Endemic tree. Amazonian. 0-500 m.
Voucher: Williams 4772* (F)
Depts.: LO, SM

Protium grandifolium Engler
Syn. *Protium llewelynii* J. F. Macbride
Ref. Daly, 1987b: 287.
Tree. Amazonian. 0-500 m.
Voucher: Vásquez 15179 (MO!)
Depts.: LO, PA

Protium klugii J. F. Macbride
Syn. *Bursera klugii* (J. F. Macbride) J. F. Macbride
Ref. FP 13(3/2) 1949: 712; Daly, 1989: 23.
Tree. Amazonian: forests. 0-500 m.
Voucher: Klug 806* (F), Rimachi 3215 (MO!)
Depts.: LO

Protium krukoffii Swart
Ref. Daly, 1987: 323.
Tree. Amazonian. 0-500 m.
Voucher: Gentry *et al.* 60918 (MO!)
Depts.: LO

Protium laxiflorum Engler
Tree. Amazonian: forests on white sand. 0-500 m.

Voucher: Vásquez & Soto 11888 (MO!)
Depts.: LO

Protium llewelynii J. F. Macbride =Protium grandifolium Engler
Ref. FP 13(3/2) 1949: 707; Daly, 1987b: 287.

Protium martianum Engler =Protium trifoliolatum Engler
Ref. FP 13(3/2) 1949: 711; Daly, 1987b: 372.

Protium medianum J. F. Macbride =Protium decandrum (Aublet) Marchand
Ref. FP 13(3/2) 1949: 707; Daly, pers. comm.

Protium neglectum Swart =Protium tenuifolium (Engler) Engler
Ref. FP 13(3/2) 1949: 708; Daly, pers. comm.

Protium neglectum var. *robustum* Swart =Protium robustum (Swart) Porter
Ref. Daly, 1987b: 428.

Protium nitidifolium (Cuatrecasas) Daly
Syn. *Paraprotium nitidifolium* Cuatrecasas
Ref. Daly, 1989a: 25.
Tree. Amazonian. 0-500 m.
Voucher: Foster 4364 (F!)
Depts.: LO

Protium opacum Swart subsp. **opacum**
Ref. Daly, 1987b: 419.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 2920 (MO!)
Depts.: HU, LO, PA, SM

Protium pallidum Cuatrecasas
Ref. Daly, 1987b: 223.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 8124 (MO!)
Depts.: LO

Protium paniculatum Engler ex C. Martius var. **paniculatum**
Syn. *Protium paniculatum* var. *pentamerum* Swart
Ref. FP 13(3/2) 1949: 708; Daly, 1987b: 317.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 10359 (MO!)
Depts.: LO

Protium paniculatum var. *pentamerum* Swart =Protium paniculatum var. paniculatum
Ref. Daly, 1987b: 317.

Protium peruvianum Swart
Syn. *Protium tenuifolium* var. *brevicalyx* Engler
Ref. FP 13(3/2) 1949: 708.
Endemic tree. Andean I: forests. 0-500 m.
Voucher: Spruce 4473* (BR)
Depts.: SM

Protium polybotryum (Turczaninow) Engler subsp. **blackii** (Swart) Daly
Syn. *Protium polybotryum* var. *blackii* Swart
Ref. Daly, 1987b: 198; Daly, 1992: 299.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 11546 (MO!)
Depts.: LO

Protium polybotryum var. *blackii* Swart =Protium polybotryum subsp. blackii (Swart) Daly
Ref. Daly, 1987b: 198; Daly, 1992: 299.

Protium puncticulatum J. F. Macbride
Ref. FP 13(3/2) 1949: 709.
Tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Williams 4861* (F), Barbour 5694 (MO!)
Depts.: HU, MD, SM

Protium robustum (Swart) Porter
Syn. *Protium neglectum* var. *robustum* Swart
Ref. Daly, 1987b: 468.
Tree. Amazonian: forests. 0-500 m.
Voucher: Knapp 8169 (MO!)
Depts.: AM, SM, UC

Protium spruceanum (Bentham) Engler
Syn. *Icica spruceana* Bentham
Ref. Daly, 1987b: 347.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 9693 (MO!)
Depts.: LO, MD, PA

Protium subserratum (Engler) Engler
Syn. *Icicopsis subserrata* Engler
Ref. FP 13(3/2) 1949: 709; Daly, 1987b: 169.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 8849 (MO!)
Depts.: LO, SM

Protium tenuifolium (Engler) Engler
Syn. *Icicopsis tenuifolia* Engler, *Protium neglectum* Swart
Ref. FP 13(3/2) 1949: 710; Daly, 1987b: 209; Daly, pers. comm.
Tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Gentry *et al.* 65614 (MO!)
Depts.: AM, LO, MD, PA, SM

Protium tenuifolium var. *brevicalyx* Engler =Protium peruvianum Swart
Ref. FP 13(3/2) 1949: 708.
Note: Infraspecific division of *P. tenuifolium* is not treated by Daly (1987b).

Protium titubans J. F. Macbride =Protium trifoliolatum Engler
Ref. FP 13(3/2) 1949: 711; Daly, 1987b: 372.

Protium trifoliolatum Engler
Syn. *Protium martianum* Engler, *Protium titubans* J. F. Macbride
Ref. FP 13(3/2) 1949: 711; Daly, 1987b: 372.
Tree. Amazonian: forests. 0-500 m.
Voucher: Gentry *et al.* 61675 (MO!)
Depts.: AM, LO, PA

Protium unifoliolatum Engler
Syn. *Tetragastris unifoliolata* (Engler) Cuatrecasas
Ref. Daly, 1987b: 379.
Tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Vásquez *et al.* 7467 (MO!)
Depts.: LO, SM, UC

Tetragastris altissima (Aublet) Swart
Syn. *Icica altissima* Aublet, *Tetragastris phanerosepala* Sandwith
Ref. FP 13(3/2) 1949: 713.
Note: Not reconfirmed.

Tetragastris panamensis (Engler) Kuntze
Syn. *Hedwigia panamensis* Engler
Ref. FP 13(3/2) 1949: 714.
Tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Gentry *et al.* 42163 (MO!)
Depts.: AM, JU, LO, MD, SM, UC

Tetragastris phanerosepala Sandwith =Tetragastris altissima (Aublet) Swart
Ref. FP 13(3/2) 1949: 713.

Tetragastris unifolioliata (Engler) Cuatrecasas =Protium unifoliolatum Engler

Trattinnickia aspera (Standley) Swart
Syn. *Protium asperum* Standley
Ref. Swart, 1942: 426.
Tree. Amazonian: forests on white sand. 0-500 m.
Note: Accepted questionably in *Trattinnickia*.
Voucher: Gentry *et al.* 39145 (MO!)
Depts.: LO, PA, UC

Trattinnickia glaziovii Swart
Ref. Swart, 1942: 428.
Tree. Amazonian: forests. 0-500 m.
Voucher: Pariona & Sebastian 41 (MO!)
Depts.: LO, PA

Trattinnickia lawrancei Standley
Ref. Swart, 1942: 427.
Tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Hartshorn 2765 (MO!)
Depts.: PA

Trattinnickia laxiflora Swart
Ref. FP 13(3/2) 1949: 716; Swart, 1942: 430.
Endemic tree. Andean I: forests. 0-500 m.
Voucher: Killip & Smith 24795* (US)
Depts.: JU

Trattinnickia peruviana Loesener
Ref. FP 13(3/2) 1949: 717; Swart, 1942: 427.
Endemic tree. Amazonian: forests. 0-500 m.
Voucher: Weberbauer 290* (B), Vásquez

et al. 12048 (MO!)
Depts.: AM, LO

Trattinnickia rhoifolia Willdenow
Ref. Swart, 1942: 423.
Tree. Amazonian: forests. 0-500 m.
Note: Based on herbarium specimen not determined to variety.
Voucher: Ruiz 682 (MO!)
Depts.: LO, PA

Trattinnickia rhoifolia var. **lancifolia** Cuatrecasas
Ref. Cuatrecasas, 1957: 425.
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez & Jaramillo 9703 (MO!)
Depts.: HU, LO, PA

Buxaceae

1 genus and 2 species in Peru.

Endemic species: 1.

Prepared by L. Brako; reviewed by A. H. Gentry (MO).

Styloceras brokawii A. Gentry & R. Foster
Ref. Gentry & Foster, 1981: 122.
Endemic shrub. Amazonian: forests. 0-500 m.
Voucher: Foster *et al.* 2474* (MO!), Gentry *et al.* 27221 (MO!)
Depts.: MD

[Styloceras kunthianum Jussieu]
Ref. FP 13(3A/1) 1951: 221; Gentry & Foster, 1981: 122.
Note: Not known from Peru.

Styloceras laurifolium (Willdenow) H.B.K.
Syn. *Trophis laurifolia* Willdenow (Moraceae)
Ref. FP 13(3A/1) 1951: 22; Gentry & Foster, 1981: 123.
Shrub. Andean II-III: grasslands. 2000-4000 m.
Voucher: Young 4328 (MO!)
Depts.: CU, HU, JU, SM

Cabombaceae

1 genus and 2 species in Peru.

Treated under Nymphaeaceae in the Flora of Peru.

Prepared by J. L. Zarucchi; reviewed by J. H. Wiersema (BARC).

Cabomba aquatica Aublet
Ref. FP 13(2/2) 1937: 639.
Note: Not reconfirmed. Ølgaard (1991) does not indicate a Peruvian distribution for this species. The Flora of Peru voucher, *Killip & Smith 29282* from Loreto, was not cited. McDaniel (pers. comm.) indicates that he has not observed any species of *Cabomba* in Loreto.

Cabomba furcata Schultes & Schultes f.
Syn. *Cabomba piauhyensis* Gardner
Ref. Ølgaard, 1991: 196.
Aquatic herb. Amazonian: floating, seasonally inundated areas, submerged. 0-500 m.
Voucher: Barbour 4885 (MO!)
Depts.: MD

Cabomba piauhyensis Gardner =Cabomba furcata Schultes & Schultes f.
Ref. Ølgaard, 1991: 196.

Cactaceae

40 genera and 247 species in Peru.

Endemic genera (11): *Borzicactus, Calymmanthium, Gymnanthocereus, Lasiocereus, Loxanthocereus, Matucana, Mila, Neolobivia, Oroya, Pygmaeocereus, Thrixanthocereus.*
Endemic species: 186.

Prepared by J. L. Zarucchi based largely upon the **CITES Cactaceae Checklist** (Hunt, 1992) compiled by D. Hunt (K). Initial data accumulation by L. Brako contributed to both this treatment and the CITES Checklist. Additional information on many of the taxa included in this checklist is contained in Backeberg (1958-62), a fully indexed work. Reviewed by B. D. Parfitt (MO) and J. C. Solomon (MO).

Acantholobivia incuiensis (Rauh & Backeberg) Rauh & Backeberg =Echinopsis tegeleriana (Backeberg) D. Hunt
Ref. Rauh, 1958: 471; Hunt, 1992: 33.

Acantholobivia tegeleriana (Backeberg) Backeberg =Echinopsis tegeleriana (Backeberg) D. Hunt
Ref. Rauh, 1958: 471; Ritter, 1981: 1329; Hunt, 1992: 33.

Acanthorhipsalis brevispina F. Ritter, nom. illeg. =Lepismium brevispinum Barthlott
Ref. Barthlott, 1987: 99.
Note: Barthlott (1987) noted that this name was invalid when published.

Acanthorhipsalis micrantha (Vaupel) Britton & Rose =Lepismium micranthum (Vaupel) Barthlott
Ref. Britton & Rose, 1923: 211; Hunt, 1992: 33.

Akersia roseiflora Buining =Cleistocactus samaipatensis (Cárdenas) D. Hunt
Ref. Buining, 1961: 25; Hunt, 1992: 33.

Arequipa aurantiaca (Vaupel) Werdermann =Matucana aurantiaca (Vaupel) F. Buxbaum
Ref. Kimnach & Hutchison, 1957a: 47; Ritter, 1981: 1489.

Arequipa erectocylindrica Rauh & Backeberg =Oreocereus hempelianus (Guerke) D. Hunt
Ref. Backeberg, 1956a: 18; Rauh, 1958: 335; Ritter, 1981: 1368; Hunt, 1992: 34.

Arequipa hempeliana (Guerke) Oehme =Oreocereus hempelianus (Guerke) D. Hunt
Ref. Ritter, 1980b: 1122; Hunt, 1992: 34.

Arequipa leucotricha (Philippi) Britton & Rose =Oreocereus leucotrichus (Philippi) Wagenknecht
Ref. Britton & Rose, 1922: 101; Rauh, 1958: 333; Kimnach, 1960b: 93; Ritter, 1980b: 1117; Hunt, 1992: 34.

Arequipa mirabilis (Buining) Backeberg =Matucana x mirabilis Buining (pro sp.)
Ref. Ritter, 1981: 1370; Hunt, 1992: 34.
Note: See note under *Matucana mirabilis*.

Arequipa myriacantha (Vaupel) Britton & Rose =Matucana myriacantha (Vaupel) F. Buxbaum
Ref. Britton & Rose, 1922: 101; Ritter, 1981: 1500; Hunt, 1992: 34.
Note: See note under *Matucana myriacantha*.

Arequipa rettigii (Quehl) Oehme =Oreocereus hempelianus (Guerke) D. Hunt
Ref. Rauh, 1958: 333; Ritter, 1981: 1368; Hunt, 1992: 34.

Arequipa rettigii var. *borealis* F. Ritter =Oreocereus hempelianus (Guerke) D. Hunt
Ref. Ritter, 1981: 1369.

Arequipa rettigii var. *erectocylindrica* (Rauh & Backeberg) Krainz =Oreocereus hempelianus (Guerke) D. Hunt
Ref. Ritter, 1981: 1368.

Arequipa soehrensii Backeberg, nom. illeg. =Oreocereus hempelianus (Guerke) D. Hunt
Ref. Ritter, 1980b: 1122; Hunt, 1992: 34.

Arequipa spinosissima F. Ritter =Oreocereus hempelianus (Guerke) D. Hunt
Ref. Ritter, 1981: 1369; Hunt, 1992: 34.

Arequipa variicolor (Backeberg) Backeberg =Oreocereus variicolor Backeberg
Ref. Ritter, 1980b: 1119.

Arequipiopsis hempeliana (Guerke) Kreuzinger & Buining =Oreocereus hempelianus (Guerke) D. Hunt
Ref. Kreuzinger, 1941: 199.

Arequipiopsis soehrensii Kreuzinger =Oreocereus hempelianus (Guerke) D. Hunt
Ref. Kreuzinger, 1941: 199.
Note: Listed by Kreuzinger (1941) as a "nom. prov." for *Echinocactus leucotrichus* (=*Oreocereus leucotrichus*).

Armatocereus arboreus Rauh & Backeberg =Armatocereus ghiesbreghtii (Schumann) F. Ritter
Ref. Backeberg, 1956a: 13; Rauh, 1958: 276; Ritter, 1981: 1272; Madsen, 1989: 13; Hunt, 1992: 34.
Note: Treated as a synonym of *A. matucanensis* by Madsen (1989).

Armatocereus arduus F. Ritter
Ref. Ritter, 1981: 1271; Hunt, 1992: 34.
Endemic erect, branched or columnar cactus. Andean I: rocky slopes, shrublands. 1000-1500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1060* (U)
Depts.: CA, LL

Armatocereus balsasensis F. Ritter
Syn. *Armatocereus rauhii* var. *balsasensis* F. Ritter, nom. nud.
Ref. Ritter, 1981: 1271; Hunt, 1992: 34.
Endemic erect, branched or columnar cactus. Andean I: dry valleys, rocky slopes, shrublands. 500-1000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 273a* (ZSS)
Depts.: AM, CA

Armatocereus cartwrightianus (Britton & Rose) Backeberg ex A. W. Hill
Syn. *Armatocereus cartwrightianus* var. *longispinus* Backeberg, *Armatocereus mocupensis* H. Johnson, nom. nud., *Cereus cartwrightianus* (Britton & Rose) Werdermann, *Lemaireocereus cartwrightianus* Britton & Rose
Ref. Rauh, 1958: 265; Ritter, 1981: 1272; Madsen, 1989: 10; Hunt, 1991: 84; Hunt, 1992: 34.
Erect, branched cactus. Coastal: rocky slopes, shrublands. 0-500 m.
Voucher: Ritter 297 (U)
Depts.: LA

Armatocereus cartwrightianus var. *longispinus* Backeberg =Armatocereus cartwrightianus (Britton & Rose) Backeberg ex A. W. Hill
Ref. Backeberg, 1956a: 14; Madsen, 1989: 10.

Armatocereus churinensis Rauh & Backeberg =Armatocereus ghiesbreghtii (Schumann) F. Ritter
Ref. Backeberg, 1956a: 13; Rauh, 1958: 274; Ritter, 1981: 1272; Madsen, 1989: 13; Hunt, 1992: 34.
Note: Treated as a synonym of *A. matucanensis* by Madsen (1989).

Armatocereus confusus F. Ritter, nom. nud. =Armatocereus procerus Rauh & Backeberg
Ref. Ritter, 1981: 1276.

Armatocereus ghiesbreghtii (Schumann) F. Ritter
Syn. *Armatocereus arboreus* Rauh & Backeberg, *Armatocereus churinensis* Rauh & Backeberg, *Armatocereus riomajensis* Rauh & Backeberg, *Cereus ghiesbreghtii* Schumann
Ref. Ritter, 1981: 1272; Hunt, 1992: 34.
Endemic erect, branched cactus. Andean I-II: rocky slopes, shrublands. 1000-3000 m.
Note: Accepted provisionally by Hunt (1992). The type of this taxon was thought to be Mexican in origin (see Britton & Rose, 1920: 60).
Voucher: Collector unknown s.n.*, Ritter 139 (U)
Depts.: AR, LI

Armatocereus ghiesbreghtii var. *oligogonus* (Rauh & Backeberg) F. Ritter =Armatocereus oligogonus Rauh & Backeberg
Ref. Ritter, 1981: 1275; Madsen, 1989: 13.

Armatocereus jungo Backeberg =Armatocereus lactus (H.B.K.) Backeberg ex A. W. Hill
Ref. Ritter, 1981: 1275.

Armatocereus laetus (H.B.K.) Backeberg ex A. W. Hill
Syn. *Armatocereus jungo* Backeberg, *Cactus laetus* H.B.K., *Cereus laetus* (H.B.K.) DC., *Lemaireocereus laetus* (H.B.K.) Britton & Rose
Ref. Backeberg & Knuth, 1935: 176; Rauh, 1958: 266; Hunt, 1991: 83; Hunt, 1992: 34.
Endemic erect, branched cactus. Andean II: dry valleys, rocky slopes, shrublands. 1500-2000 m.
Voucher: Humboldt & Bonpland s.n.* (P-H&B), Ritter 285 (U)
Depts.: CA, PI

Armatocereus maranonensis Krainz & F. Ritter, nom. nud. =Armatocereus rauhii Backeberg
Ref. Ritter, 1981: 1278.

Armatocereus mataranus F. Ritter
Syn. *Armatocereus mataranus* var. *ancashensis* F. Ritter
Ref. Ritter, 1966: 117; Ritter, 1967a: 23; Ritter, 1981: 1275; Hunt, 1992: 34.
Endemic erect, branched cactus. Andean II: rocky slopes, shrublands. 2000-2500 m.
Note: Treated by Ritter (1981) with two varieties: *mataranus* and *ancashensis*.
Voucher: Ritter 672* (U), Ritter 672a (U)
Depts.: AN, CA

Armatocereus mataranus var. *ancashensis* F. Ritter =Armatocereus mataranus F. Ritter
Ref. Ritter, 1981: 1276.
Note: Treated as a valid taxon by Ritter (1981).

Armatocereus matucanensis Backeberg ex A. W. Hill
Syn. *Armatocereus matucanensis* Backeberg, nom. illeg.
Ref. Rauh, 1958: 267; Ritter, 1981: 1272; Madsen, 1989: 13; Hunt, 1991: 84; Hunt, 1992: 34.
Erect, branched or columnar cactus. Andean II: rocky slopes, shrublands. 1500-2500 m.
Note: Treated by Ritter (1981) as a synonym of *A. ghiesbreghtii*.
Voucher: Rose 18650* (NY)
Depts.: LI

Armatocereus matucanensis Backeberg, nom. illeg. =Armatocereus matucanensis Backeberg ex A. W. Hill
Ref. Backeberg & Knuth, 1935: 176, 411.

Armatocereus mocupensis H. Johnson, nom. nud. =Armatocereus cartwrightianus (Britton & Rose) Backeberg ex A. W. Hill
Ref. Ritter, 1981: 1272.

Armatocereus nazcaensis H. Johnson, nom. nud. =Armatocereus procerus Rauh & Backeberg
Ref. Ritter, 1981: 1276.

Armatocereus oligogonus Rauh & Backeberg
Syn. *Armatocereus ghiesbreghtii* var. *oligogonus* (Rauh & Backeberg) F. Ritter
Ref. Rauh, 1958: 276; Ritter, 1981: 1275; Madsen, 1989: 13; Hunt, 1992: 34.
Endemic erect, branched cactus. Coastal: dry valleys, shrublands. 0-1000 m.
Note: Accepted provisionally by Hunt (1992). Treated as a variety of *A. ghiesbreghtii* by Ritter (1981) and as a synonym of *A. matucanensis* by Madsen (1989).
Voucher: Rauh 139a [1954]* (ZSS)
Depts.: LA

Armatocereus procerus Rauh & Backeberg
Syn. *Armatocereus confusus* F. Ritter, nom. nud., *Armatocereus nazcaensis* H. Johnson, nom. nud., *Armatocereus procerus* var. *armatus* F. Ritter
Ref. Backeberg, 1956a: 13; Rauh, 1958: 269; Ritter, 1981: 1276; Hunt, 1992: 34.
Endemic erect, branched cactus. Coastal: desert, rocky slopes. 500-1000 m.
Note: Accepted provisionally by Hunt (1992). Treated by Ritter (1981) with two varieties: *procerus* and *armatus*.
Voucher: Rauh K32 [1954]* (ZSS), Ritter 566 (U)
Depts.: AN, IC

Armatocereus procerus var. *armatus* F. Ritter =Armatocereus procerus Rauh & Backeberg
Ref. Ritter, 1981: 1277.

Armatocereus rauhii Backeberg
Syn. *Armatocereus maranonensis* Krainz

& F. Ritter, nom. nud.
Ref. Backeberg, 1956a: 13; Ritter, 1981: 1278; Hunt, 1992: 34.
Endemic erect, branched or columnar cactus. Andean I: dry valleys, rocky slopes, shrublands. 1000-1500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Rauh K127 [1954]* (ZSS), Ritter 273 (U)
Depts.: AN, CA

Armatocereus rauhii var. *balsasensis* F. Ritter, nom. nud. =Armatocereus balsasensis F. Ritter
Ref. Ritter, 1981: 1271.

Armatocereus riomajensis Rauh & Backeberg =Armatocereus ghiesbreghtii (Schumann) F. Ritter
Ref. Backeberg, 1956a: 13; Rauh, 1958: 273; Ritter, 1981: 1272; Hunt, 1992: 34.
Note: Treated as a synonym of *A. matucanensis* by Madsen (1989: 13).

Armatocereus rupicola F. Ritter
Ref. Ritter, 1981: 1278; Hunt, 1992: 34.
Endemic erect, branched cactus. Andean II: dry valleys, rocky slopes. 2000-2500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1318* (U)
Depts.: CA

Arthrocereus bylesianus (Andreae & Backeberg) F. Buxbaum =Pygmaeocereus bylesianus Andreae & Backeberg
Ref. Ritter, 1981: 1427.

Arthrocereus rowleyanus (Backeberg) F. Buxbaum =Pygmaeocereus bylesianus Andreae & Backeberg
Ref. Ritter, 1981: 1427; Hunt, 1992: 35.

Austrocylindropuntia cylindrica (Lamarck) Backeberg =Opuntia cylindrica (Lamarck) DC.
Ref. Madsen, 1989: 48; Hunt, 1992: 35.

Austrocylindropuntia exaltata (A. Berger) Backeberg =Opuntia subulata (Muehlenpfordt) Engelmann
Ref. Ritter, 1981: 1241; Hunt, 1992: 35.

Austrocylindropuntia floccosa (Salm-Dyck) F. Ritter =Opuntia floccosa Salm-Dyck
Ref. Ritter, 1981: 1244; Hunt, 1992: 36.

Austrocylindropuntia intermedia Rauh & Backeberg =Opuntia cylindrica (Lamarck) DC.
Ref. Backeberg, 1956a: 6; Hunt, 1992: 36.

Austrocylindropuntia lagopus (Schumann) F. Ritter, nom. illeg. =Opuntia lagopus Schumann
Ref. Ritter, 1981: 1242; Hunt, 1992: 36.

Austrocylindropuntia lagopus fo. *rauhii* (Backeberg) F. Ritter =Opuntia floccosa Salm-Dyck
Ref. Ritter, 1981: 1243.

Austrocylindropuntia lauliacoana F. Ritter =Opuntia floccosa Salm-Dyck
Ref. Ritter, 1981: 1247; Hunt, 1992: 36.

Austrocylindropuntia machacana F. Ritter =Opuntia floccosa Salm-Dyck
Ref. Ritter, 1981: 1246; Hunt, 1992: 36.

Austrocylindropuntia malyana (Rausch) F. Ritter =Opuntia lagopus Schumann
Ref. Ritter, 1981: 1244; Hunt, 1992: 36.

Austrocylindropuntia pachypus (Schumann) Backeberg =Opuntia pachypus Schumann
Ref. Ritter, 1981: 1242; Hunt, 1992: 36.

Austrocylindropuntia subulata (Muehlenpfordt) Backeberg =Opuntia subulata (Muehlenpfordt) Engelmann
Ref. Madsen, 1989: 60; Hunt, 1992: 36.

Austrocylindropuntia tephrocactoides Rauh & Backeberg =Opuntia floccosa Salm-Dyck
Ref. Backeberg, 1956a: 6; Rowley, 1958a: 4; Hunt, 1992: 36.

Azureocereus ciliisquamus F. Ritter, nom. nud. =Browningia viridis (Rauh & Backeberg) F. Buxbaum
Ref. Ritter, 1981: 1323.

Azureocereus deflexispinus Backeberg ex Rauh =Echinopsis knuthiana (Backeberg) Friedrich & G. Rowley
Ref. Rauh, 1958: 281; Hunt, 1992: 36.

Azureocereus hertlingianus (Backeberg) Rauh, nom. illeg. =Browningia hertlingiana (Backeberg) F. Buxbaum
Ref. Ritter, 1981: 1322; Hunt, 1992: 36.

Azureocereus nobilis Akers =Browningia hertlingiana (Backeberg) F. Buxbaum
Ref. Akers & Johnson, 1949: 134; Rauh, 1958: 279; Ritter, 1981: 1322.

Azureocereus viridis Rauh & Backeberg =Browningia viridis (Rauh & Backeberg) F. Buxbaum
Ref. Backeberg, 1956a: 14; Rauh, 1958: 280; Ritter, 1981: 1323; Hunt, 1992: 36.

Binghamia acanthura (Vaupel) Borg =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Ritter, 1981: 1455.

Binghamia acrantha (Vaupel) Britton & Rose =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Rauh, 1958: 374; Britton & Rose, 1920: 168.

Binghamia aurivilla (Schumann) Backeberg =Cleistocactus icosagonus (H.B.K.) A. Weber

Binghamia australis (Backeberg) Werdermann =Haageocereus australis Backeberg

Binghamia chosicensis (Werdermann & Backeberg) J. West =Haageocereus multangularis (Willdenow) F. Ritter

Binghamia climaxantha Werdermann =xHaagespostoa climaxantha (Werdermann) G. Rowley
Ref. Werdermann, 1937: 4; Croizat, 1942: 148; Rowley, 1982b: 76.

Binghamia decumbens (Vaupel) Werdermann =Haageocereus decumbens (Vaupel) Backeberg

Binghamia eriotricha (Werdermann & Backeberg) Borg =Cleistocactus acanthurus (Vaupel) D. Hunt

Binghamia humboldtii (H.B.K.) Backeberg =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Rauh, 1958: 324; Madsen, 1989: 16.

Binghamia icosagona (H.B.K.) Backeberg =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Madsen, 1989: 16.

Binghamia laredensis (Backeberg) Werdermann =Haageocereus pacalaensis Backeberg

Binghamia melanostele (Vaupel) Britton & Rose =Espostoa melanostele (Vaupel) Borg
Ref. Britton & Rose, 1920: 167.

Binghamia multangularis (Willdenow) Britton & Rose =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Britton & Rose, 1923: 279; Ritter, 1981: 1400.
Note: Treated under *H. multangularis* var. *multangularis* by Ritter (1981).

Binghamia multangularis var. *limensis* (Salm-Dyck) Borg =Haageocereus limensis (Salm-Dyck) F. Ritter

Binghamia olowinskiana (Backeberg) Marshall =Haageocereus limensis (Salm-Dyck) F. Ritter

Binghamia pacalaensis (Backeberg) Werdermann =Haageocereus pacalaensis Backeberg

Binghamia plagiostoma (Vaupel) Backeberg =Borzicactus plagiostoma (Vaupel) Britton & Rose

Binghamia platinospina (Werdermann & Backeberg) Werdermann =Haageocereus platinospinus (Werdermann & Backeberg) Backeberg

Binghamia pseudomelanostele (Werdermann & Backeberg) Backeberg =Haageocereus multangularis (Willdenow) F. Ritter

Binghamia versicolor (Werdermann & Backeberg) J. West =Haageocereus versicolor (Werdermann & Backeberg) Backeberg

Bolivicereus pisacensis Knize =Corryocactus erectus (Backeberg) F. Ritter
Ref. Knize, 1968a: 252; Ritter, 1981: 1281.

Bolivicereus samaipatanus Cárdenas =Cleistocactus samaipatensis (Cárdenas) D. Hunt
Ref. Cárdenas, 1951a: 91; Kimnach, 1960b: 93; Hunt, 1992: 37.

Bolivicereus serpens (H.B.K.) Backeberg =Cleistocactus serpens (H.B.K.) A. Weber
Ref. Ritter, 1981: 1387; Hunt, 1992: 37.

Bolivicereus soukupii Knize =Corryocactus erectus (Backeberg) F. Ritter
Ref. Knize, 1968a: 252; Hunt, 1992: 37.

Bolivicereus tenuiserpens (Rauh & Backeberg) Backeberg =Cleistocactus tenuiserpens Rauh & Backeberg
Ref. Hunt, 1992: 37.

Borzicactella serpens (H.B.K.) F. Ritter =Cleistocactus serpens (H.B.K.) A. Weber
Ref. Ritter, 1981: 1387; Hunt, 1992: 37.

Borzicactella tenuiserpens (Rauh & Backeberg) F. Ritter =Cleistocactus tenuiserpens Rauh & Backeberg
Ref. Ritter, 1981: 1387; Hunt, 1992: 37.

Borzicactus acanthurus (Vaupel) Britton & Rose =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Britton & Rose, 1920: 161; Rauh, 1958: 296; Ritter, 1981: 1455; Hunt & Taylor, 1987: 92.

Borzicactus aurantiacus (Vaupel) Kimnach & Hutchison =Matucana aurantiaca (Vaupel) F. Buxbaum
Ref. Kimnach & Hutchison, 1957a: 47; Ritter, 1981: 1489; Hunt, 1992: 37.

Borzicactus aurantiacus var. *calvescens* (Kimnach & Hutchison) Donald =Matucana aurantiaca (Vaupel) F. Buxbaum
Ref. Donald, 1971a: 10; Ritter, 1981: 1489.

Borzicactus aurantiacus var. *megalanthus* (F. Ritter) Donald =Matucana blancii Backeberg
Ref. Donald, 1971a: 10; Ritter, 1981: 1499.

Borzicactus aureiflorus (F. Ritter) Donald =Matucana aureiflora F. Ritter
Ref. Donald, 1971a: 10; Ritter, 1981: 1509.

Borzicactus aurivillus (Schumann) Britton & Rose =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Britton & Rose, 1920: 226; Madsen, 1989: 16; Hunt, 1992: 37.

Borzicactus cajamarcensis F. Ritter =Cleistocactus fieldianus (Britton & Rose) D. Hunt
Ref. Ritter, 1981: 1375; Hunt, 1992: 37.

Borzicactus calvescens Kimnach & Hutchison =Matucana aurantiaca (Vaupel) F. Buxbaum
Ref. Kimnach & Hutchison, 1957b: 111; Donald, 1971a: 10; Ritter, 1981: 1489; Hunt, 1992: 37.

Borzicactus calviflorus F. Ritter =Cleistocactus fieldianus (Britton & Rose) D. Hunt
Ref. Ritter, 1964a: 118; Hunt, 1992: 37.

Borzicactus celsianus (Lemaire ex Salm-Dyck) Kimnach =Oreocereus celsianus (Lemaire ex Salm-Dyck) Riccobono
Ref. Kimnach, 1960a: 59; Ritter, 1980a: 696.

Borzicactus doelzianus (Backeberg) Kimnach = Oreocereus doelzianus (Backeberg) Kimnach
Ref. Kimnach, 1960a: 59.

Borzicactus decumbens (Vaupel) Britton & Rose =Haageocereus decumbens (Vaupel) Backeberg
Ref. Britton & Rose, 1920: 162; Hunt, 1992: 37.

Borzicactus eriotrichus (Werdermann & Backeberg) Backeberg =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Ritter, 1981: 1455.

Borzicactus faustianus Backeberg =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Ritter, 1981: 1459.

Borzicactus fieldianus Britton & Rose =Cleistocactus fieldianus (Britton & Rose) D. Hunt
Ref. Britton & Rose, 1923: 278; Rauh, 1958: 287; Hunt & Taylor, 1987: 92; Hunt, 1992: 37.

Borzicactus fieldianus var. *tesselatus* (Akers & Buining) Krainz =Cleistocactus fieldianus (Britton & Rose) D. Hunt

Borzicactus formosus (F. Ritter) Donald =Matucana formosa F. Ritter
Ref. Donald, 1971a: 10; Ritter, 1981: 1494; Hunt, 1992: 37.

Borzicactus fruticosus (F. Ritter) Donald =Matucana fruticosa F. Ritter
Ref. Donald, 1971a: 10; Ritter, 1981: 1495; Hunt, 1992: 37.

Borzicactus gracilis var. *aticensis* (Rauh & Backeberg) Krainz =Cleistocactus sextonianus (Backeberg) D. Hunt
Ref. Ritter, 1981: 1460.

Borzicactus gracilis var. *camanaensis* (Rauh & Backeberg) Krainz =Cleistocactus sextonianus (Backeberg) D. Hunt
Ref. Ritter, 1981: 1460.

Borzicactus haynei (Otto ex Salm-Dyck) Kimnach =Matucana haynei (Otto ex Salm-Dyck) Britton & Rose
Ref. Kimnach, 1960b: 92; Hunt, 1992: 37.

Borzicactus huagalensis Donald & A. Lau =Matucana huagalensis (Donald & A. Lau) Bregman
Ref. Donald, 1970: 33; Bregman *et. al*, 1988e: 155; Hunt, 1992: 37.
Note: Incorrectly listed as a synonym of *Matucana aurantiaca* by Hunt, 1992; this error was corrected by Hunt in the "Corrigenda" (August 1992).

Borzicactus humboldtii (H.B.K.) Britton & Rose =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Rauh, 1958: 324; Britton & Rose, 1920: 163; Madsen, 1989: 16.

Borzicactus icosagonus (H.B.K.) Britton & Rose =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Britton & Rose, 1920: 163; Rauh, 1958: 324; Madsen, 1989: 16; Hunt, 1992: 37.

Borzicactus icosagonus fo. *aurantiaciflorus* (Backeberg) Krainz =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Madsen, 1989: 17.

Borzicactus intertextus (F. Ritter) Donald =Matucana intertexta F. Ritter
Ref. Donald, 1971a: 10; Ritter, 1981: 1498; Hunt, 1992: 37.
Note: Although treated by Hunt (1992: 37) as a synonym of *M. aurantiaca*, the basionym, *M. intertexta*, is listed as an accepted species (Hunt, 1992: 89).

Borzicactus intertextus var. *celendinensis* (F. Ritter) Donald =Matucana x celendinensis F. Ritter (pro sp.)
Ref. Donald, 1971a: 10; Ritter, 1981: 1491; Bregman *et al.*, 1988e: 101.
Note: See note under *Matucana celendinensis*.

Borzicactus jajoianus Backeberg =Cleistocactus sepium (H.B.K.) A. Weber
Ref. Backeberg & Knuth, 1935: 194, 411; Rauh, 1958: 298; Ritter, 1981: 1462.

Borzicactus keller-badensis (Backeberg & Krainz) Krainz =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Ritter, 1981: 1459.

Borzicactus krahnii Donald =Matucana krahnii (Donald) Bregman
Ref. Donald, 1979: 52; Bregman *et al.*, 1987a: 158; Hunt, 1992: 37.

Borzicactus leucotrichus (Philippi) Kimnach =Oreocereus leucotrichus (Philippi) Wagenknecht
Ref. Kimnach, 1960b: 93; Ritter, 1980b: 1117; Hunt, 1992: 36.

Borzicactus madisoniorum Hutchison =Matucana madisoniorum (Hutchison) G. Rowley
Ref. Hutchison, 1963: 167; Rowley, 1972: 10; Ritter, 1981: 1487; Hunt, 1992: 37.

Borzicactus madisoniorum var. *pujupatii* Donald & A. Lau =Matucana pujupatii (Donald & A. Lau) Bregman
Ref. Donald, 1971b: 71; Rowley, 1972: 10; Bregman, 1988: 179.

Borzicactus myriacanthus (Vaupel) Donald =Matucana myriacantha (Vaupel) F. Buxbaum
Ref. Hunt, 1992: 37.
Note: See note under *Matucana myriacantha*.

Borzicactus neoroezlii F. Ritter =Cleistocactus neoroezlii (F. Ritter) F. Buxbaum
Ref. Ritter, 1981: 1378; Hunt, 1992: 37.

Borzicactus oreodoxus (F. Ritter) Donald =Matucana oreodoxa (F. Ritter) Slaba
Ref. Donald, 1971a: 10; Ritter, 1981: 1486; Hunt, 1992: 37.

Borzicactus paucicostatus (F. Ritter) Donald =Matucana paucicostata F. Ritter
Ref. Donald, 1971a: 10; Ritter, 1981: 1501; Hunt, 1992: 37.

Borzicactus paucicostatus fo. *robustispinus* Donald & A. Lau =Matucana paucicostata F. Ritter
Ref. Donald, 1971b: 73.

Borzicactus piscoensis (Rauh & Backeberg) Rauh & Backeberg =Oreocereus piscoensis (Rauh & Backeberg) F. Ritter
Ref. Rauh, 1958: 291; Ritter, 1981: 1365.

Borzicactus plagiostoma (Vaupel) Britton & Rose
Syn. *Binghamia plagiostoma* (Vaupel) Backeberg, *Cereus plagiostoma* Vaupel
Ref. Britton & Rose, 1920: 163; Ritter, 1981: 1381; Hunt, 1992: 37.
Endemic erect, branched or columnar cactus. Andean II: shrublands. 2000-2500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Weberbauer 3906* (B), Ritter 577 (U)
Depts.: CA

Borzicactus platinospinus (Werdermann & Backeberg) Borg =Haageocereus platinospinus (Werdermann & Backeberg) Backeberg

Borzicactus purpureus F. Ritter
Ref. Ritter, 1981: 1383; Hunt, 1992: 37.
Endemic erect, branched or columnar cactus. Andean I: dry valleys, rocky slopes. 1000-1500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 577a* (U)
Depts.: CA

Borzicactus ritteri (Buining) Donald =Matucana ritteri Buining
Ref. Donald, 1971a: 10; Ritter, 1981: 1503; Hunt, 1992: 37.

Borzicactus roezlii (F. Haage ex Schumann) Backeberg =Cleistocactus roezlii (F. Haage ex Schumann) Backeberg

Borzicactus samaipatanus (Cárdenas) Kimnach =Cleistocactus samaipatensis (Cárdenas) D. Hunt
Ref. Kimnach, 1960b: 93; Hunt, 1992: 38.

Borzicactus samnensis F. Ritter
Ref. Ritter, 1964a: 118; Ritter, 1981: 1383; Hunt, 1992: 38.
Endemic scandent cactus. Andean I-II: shrublands. 1000-2000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 304* (ZSS)
Depts.: AN, CA, LL

Borzicactus sepium (H.B.K.) Britton & Rose =Cleistocactus sepium (H.B.K.) A. Weber
Ref. Britton & Rose, 1920: 160; Hunt, 1992: 38.

Borzicactus sepium var. *roezlii* (F. Haage ex Schumann) Borg =Cleistocactus roezlii (F. Haage ex Schumann) Backeberg

Borzicactus serpens (H.B.K.) Kimnach =Cleistocactus serpens (H.B.K.) A. Weber
Ref. Kimnach, 1960b: 95; Ritter, 1981: 1387; Hunt, 1992: 38.

Borzicactus sextonianus (Backeberg) Kimnach =Cleistocactus sextonianus (Backeberg) D. Hunt
Ref. Kimnach, 1960b: 95; Ritter, 1981: 1471; Hunt, 1992: 38.

Borzicactus sulcifer (Rauh & Backeberg) Kimnach =Loxanthocereus sulcifer Rauh & Backeberg
Ref. Kimnach, 1960b: 95; Ritter, 1981: 1472; Hunt, 1992: 38.

Borzicactus tenuiserpens (Rauh & Backeberg) Kimnach =Cleistocactus tenuiserpens Rauh & Backeberg
Ref. Kimnach, 1960b: 95; Hunt, 1992: 38.

Borzicactus tesselatus Akers & Buining =Cleistocactus fieldianus (Britton & Rose) D. Hunt
Ref. Akers & Buining, 1954: 81.

Borzicactus tuberculatus Donald =Matucana tuberculata (Donald) Bregman *et al.*
Ref. Donald, 1979: 55; Bregman *et al.*, 1987b: 175; Hunt, 1992: 38.

Borzicactus weberbaueri (Vaupel) Donald =Matucana weberbaueri (Vaupel) Backeberg
Ref. Donald, 1971a: 10; Hunt, 1992: 38.

Borzicactus weberbaueri var. *flammeus* Donald =Matucana weberbaueri (Vaupel) Backeberg

Borzicactus weberbaueri var. *myriacanthus* (Vaupel) Donald =Matucana myriacantha (Vaupel) F. Buxbaum
Ref. Donald, 1971a: 10; Ritter, 1981: 1500.

Borzicactus zanderi Backeberg, nom. nud.
Ref. Backeberg, 1931a: 187; Hunt, 1992: 38.
Endemic scandent cactus.
Note: Accepted provisionally by Hunt (1992). Not treated by Ritter (1981).

xBorzipostoa mirabilis (Rauh & Backeberg) G. Rowley
Syn. *Neobinghamia mirabilis* Rauh & Backeberg
Ref. Rowley, 1982a: 47; Hunt, 1992: 38.
Endemic erect, branched cactus. Coastal: dry valleys, shrublands. 0-500 m.
Note: Accepted provisionally by Hunt (1992). According to Rowley (1982a), this is a hybrid between *Borzicactus icosagonus* (=*Cleistocactus icosagonus* fide Hunt, 1992: 37) and *Espostoa lanata*.
Voucher: Rauh K82 [1956] (ZSS)
Depts.: LA

Brasiliopuntia brasiliensis (Willdenow) A. Berger =Opuntia brasiliensis (Willdenow) Haworth
Ref. Hunt, 1992: 38.

Browningia albiceps F. Ritter
Ref. Ritter, 1981: 1322; Hunt, 1992: 38.
Endemic erect, branched cactus. Andean I: dry valleys, rocky slopes. 1000-1500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1319* (U)
Depts.: CA

Browningia altissima (F. Ritter) F. Buxbaum
Syn. *Gymnanthocereus altissimus* F. Ritter, *Gymnocereus altissima* (F. Ritter) Backeberg
Ref. Hunt, 1992: 38.
Endemic erect, branched cactus. Amazonian: shrublands. 0-500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 291* (ZSS)
Depts.: CA

Browningia amstutziae (Rauh & Backeberg) Hutchison ex F. Buxbaum

Syn. *Gymnocereus amstutziae* Rauh & Backeberg
Ref. Hunt, 1992: 38.
Endemic erect, branched cactus. Andean III: rocky slopes. 3500-4000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Rauh K5 [1956]* (ZSS)
Depts.: PA

Browningia candelaris (Meyen) Britton & Rose
Syn. *Cereus candelaris* Meyen
Ref. Britton & Rose, 1920: 63; Rauh, 1958: 282; Ritter, 1981: 1320; Hunt, 1992: 38.
Erect, branched or columnar cactus. Andean II: rocky slopes, shrublands. 2000-3000 m.
Voucher: Meyen s.n.* (B), Rose 18794 (US)
Depts.: AR, TA

Browningia chlorocarpa (H.B.K.) Marshall
Syn. *Cactus chlorocarpus* H.B.K., *Cereus chlorocarpus* (H.B.K.) DC., *Gymnanthocereus chlorocarpus* (H.B.K.) Backeberg, *Lemaireocereus chlorocarpus* (H.B.K.) Borg, *Seticereus chlorocarpus* (H.B.K.) Backeberg
Ref. Marshall & Bock, 1945: 114; Ritter, 1981: 1314; Hunt, 1992: 38.
Endemic erect, branched cactus. Andean II: disturbed areas, dry valleys, rocky slopes, shrublands. 1500-2500 m.
Note: Accepted provisionally by Hunt (1992). Treated under *Gymnanthocereus* by Ritter (1981).
Voucher: Humboldt & Bonpland s.n.* (P-H&B), Ritter 290 (U)
Depts.: PI

Browningia columnaris F. Ritter
Ref. Ritter, 1981: 1323; Hunt, 1992: 38.
Endemic erect, branched cactus. Andean II: dry valleys, rocky slopes. 1500-2500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1294* (U)
Depts.: AY

Browningia hertlingiana (Backeberg) F. Buxbaum
Syn. *Azureocereus hertlingianus* (Backeberg) Rauh, nom. illeg., *Azureocereus nobilis* Akers, *Clistanthocereus hertlingianus* Backeberg
Ref. Ritter, 1981: 1322; Hunt, 1992: 38.
Endemic erect, branched or columnar cactus. Andean II: dry valleys, rocky slopes. 2000-2500 m.
Voucher: Ritter 149 (U)
Depts.: AY

Browningia icaensis F. Ritter
Ref. Ritter, 1981: 1320; Hunt, 1992: 38.
Endemic erect, branched cactus. Andean II: dry valleys, rocky slopes, shrublands. 1500-3000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 193* (U)
Depts.: IC

Browningia microsperma (Werdermann & Backeberg) Marshall
Syn. *Cereus microspermus* Werdermann & Backeberg, *Gymnanthocereus microspermus* (Werdermann & Backeberg) Backeberg, *Gymnocereus microspermus* (Werdermann & Backeberg) Backeberg
Ref. Ritter, 1981: 1322; Hunt, 1992: 38.
Endemic erect, branched cactus. Andean II: rocky slopes, shrublands. 1500-2000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 568 (U)
Depts.: PA

Browningia pilleifera (F. Ritter) Hutchison
Syn. *Gymnanthocereus pilleifer* F. Ritter
Ref. Hutchison, 1968: 23; Ritter, 1981: 1316; Hunt, 1992: 39.
Endemic erect, branched cactus. Andean I: dry valleys, rocky slopes. 500-1500 m.
Note: Accepted provisionally by Hunt (1992). Treated under *Gymnanthocereus* by Ritter (1981).
Voucher: Ritter 659* (U), Hutchison & Krahn 4955 (US)
Depts.: AM

Browningia riosaniensis (Backeberg) G. Rowley
Syn. *Rauhocereus riosaniensis* Backeberg, *Rauhocereus riosaniensis* var. *jaenensis* Backeberg
Ref. Rowley, 1982a: 48; Hunt, 1992: 39.
Endemic erect, branched cactus. Andean I, Coastal: dry valleys, rocky slopes. 500-1000 m.
Note: Accepted provisionally by Hunt (1992). Treated under *Rauhocereus* by Ritter (1981: 1345).
Voucher: Rauh K75 [1956]* (ZSS), Rauh K141 [1956] (ZSS)
Depts.: CA, LA

Browningia viridis (Rauh & Backeberg) F. Buxbaum
Syn. *Azureocereus ciliisquamus* F. Ritter, nom. nud., *Azureocereus viridis* Rauh & Backeberg
Ref. Hunt, 1992: 36.
Endemic erect, branched or columnar cactus. Andean II: dry valleys, rocky slopes. 1500-3000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Rauh K69b [1954]* (ZSS), Ritter 169 (U)
Depts.: AP, AY

Cactus aureus Meyen =Corryocactus aureus (Meyen) Hutchison
Ref. Buxbaum, 1963: 9; Ritter, 1981: 1279.

Cactus brasiliensis Willdenow =Opuntia brasiliensis (Willdenow) Haworth
Ref. Britton & Rose, 1919: 209.

Cactus chlorocarpus H.B.K. =Browningia chlorocarpa (H.B.K.) Marshall
Ref. Rauh, 1958: 326; Britton & Rose, 1920: 224; Marshall & Bock, 1945: 114.

Cactus cylindricus Lamarck =Opuntia cylindrica (Lamarck) DC.
Ref. Britton & Rose, 1919: 77; Madsen, 1989: 48.

Cactus ficus-indica L. =Opuntia ficus-indica (L.) Miller
Ref. Britton & Rose, 1919: 177.

Cactus horridus H.B.K., nom. illeg. =Pereskia horrida DC.
Ref. Britton & Rose, 1919: 21; Leuenberger, 1986: 67.

Cactus humboldtii H.B.K. =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Madsen, 1989: 16.

Cactus icosagonus H.B.K. =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Weber, 1904: 34; Madsen, 1989: 16.

Cactus laetus H.B.K. =Armatocereus laetus (H.B.K.) Backeberg ex A. W. Hill
Ref. Backeberg & Knuth, 1935: 176; Britton & Rose, 1920: 99; Ritter, 1981: 1275; Hunt, 1991: 83.

Cactus lanatus H.B.K. =Espostoa lanata (H.B.K.) Britton & Rose
Ref. Britton & Rose, 1920: 61; Rauh, 1958: 521; Ritter, 1981: 1437; Madsen, 1989: 37.

Cactus micrantha H.B.K. =Rhipsalis micrantha (H.B.K.) DC.
Ref. Barthlott, 1974: 647; Madsen, 1989: 68; Ritter, 1981: 1261.

Cactus multangularis Willdenow =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Britton & Rose, 1923: 279.

Cactus nanus H.B.K. =Opuntia pubescens Wendland
Ref. Britton & Rose, 1919: 217; Madsen, 1989: 53.

[Cactus peruvianus L.]
Ref. Hunt, 1992: 98.
Note: Not known from Peru. Hunt (1992) indicates that this name was incorrectly equated with *Neoraimondia* by Ritter (1981: 1267). Kiesling (1982: 445) transferred this taxon to *Stenocereus*; Hunt (1992: 132) indicated that this taxon should actually be treated as a synonym of *Cereus repandus*.

Cactus phyllanthus L. =Epiphyllum phyllanthus var. phyllanthus
Ref. Kimnach, 1964: 113; Madsen, 1989: 31.

Cactus pubescens (Wendland) Lemaire =Opuntia pubescens Wendland
Ref. Britton & Rose, 1919: 101; Madsen, 1989: 53.

Cactus sepium H.B.K. =Cleistocactus sepium (H.B.K.) A. Weber
Ref. Weber, 1904: 36; Britton & Rose, 1920: 160.

Cactus serpens H.B.K. =Cleistocactus serpens (H.B.K.) A. Weber
Ref. Weber, 1904: 39; Ritter, 1981: 1387.

Cactus townsendii Britton & Rose =Melocactus peruvianus Vaupel
Ref. Britton & Rose, 1922: 234; Taylor, 1991: 66.

Cactus tunicatus Lehmann =Opuntia tunicata (Lehmann) Link & Otto
Ref. Britton & Rose, 1919: 65; Madsen, 1989: 60.

Cactus villosus Monville =Neoporteria villosa (Monville) A. Berger
Ref. Ritter, 1980b: 1032.

Calymmanthium fertile F. Ritter
Ref. Ritter, 1966: 117; Ritter, 1981: 1266; Hunt, 1992: 39.
Endemic erect, branched cactus. Andean I: dry valleys. 500-1000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1295* (U)
Depts.: AM

Calymmanthium substerile F. Ritter
Ref. Ritter, 1981: 1263; Hunt, 1992: 39.
Endemic erect, branched or columnar cactus. Andean I: dry valleys, rocky slopes. 500-1000 m.
Voucher: Ritter 315* (ZSS)
Depts.: CA

Cephalocereus blossfeldiorum Werdermann =Espostoa blossfeldiorum (Werdermann) F. Buxbaum
Ref. Ritter, 1981: 1485.

Cephalocereus dautwitzii (F. Haage) Houghton =Espostoa lanata (H.B.K.) Britton & Rose

Cephalocereus melanostele Vaupel =Espostoa melanostele (Vaupel) Borg
Ref. Vaupel, 1913a: 12; Backeberg, 1931b: 72.

Cephalocereus tweedyanus Britton & Rose =Pilosocereus tweedyanus (Britton & Rose) Byles & G. Rowley
Ref. Britton & Rose, 1920: 54; Byles & Rowley, 1957: 69; Hunt, 1992: 40.

Cereus acanthurus Vaupel =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Vaupel, 1913a: 13; Rauh, 1958: 296; Ritter, 1981: 1455; Hunt & Taylor, 1987: 92.

Cereus acranthus Vaupel =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Vaupel, 1913a: 14; Rauh, 1958: 374; Ritter, 1981: 1396.
Note: Treated under var. *limensis* by Ritter (1981).

Cereus amazonicus Schumann
Syn. *Monvillea amazonica* (Schumann) Britton & Rose
Ref. Vaupel, 1913b: 283; Castellanos, 1967: 77; Hunt, 1992: 40.
Endemic climbing or sprawling cactus. Andean I: shrublands. 500-1000 m.
Note: Not treated by Ritter (1981).
Voucher: Ule 53* (B)
Depts.: SM

Cereus apiciflorus Vaupel =Corryocactus apiciflorus (Vaupel) Hutchison
Ref. Vaupel, 1913a: 15; Rauh, 1958: 251; Buxbaum, 1963, 9; Ritter, 1981: 1280.

Cereus arequipensis Meyen =Neoraimondia arequipensis (Meyen) Backeberg
Ref. Rauh, 1958: 256; Ritter, 1981: 1267.

Cereus aureus Meyen, nom. illeg. =Corryocactus aureus (Meyen) Hutchison
Ref. Buxbaum, 1963: 9; Ritter, 1981: 1279.

Cereus aurivillus Schumann =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Britton & Rose, 1920: 226; Rauh, 1958: 324; Madsen, 1989: 16.

Cereus brachypetalus Vaupel =Corryocactus brachypetalus (Vaupel) Britton & Rose
Ref. Vaupel, 1913a: 16; Britton & Rose, 1920: 67; Rauh, 1958: 242; Ritter, 1981: 1279.

Cereus brevistylus Schumann ex Vaupel =Corryocactus brevistylus (Schumann ex Vaupel) Britton & Rose
Ref. Vaupel, 1913a: 17; Britton & Rose, 1920: 66; Ritter, 1981: 1279.

Cereus brittonianus Werdermann =Cereus diffusus (Britton & Rose) Werdermann
Ref. Backeberg, 1931b: 68.
Note: Name based on *Monvillea maritima* Britton & Rose.

Cereus candelaris Meyen =Browningia candelaris (Meyen) Britton & Rose
Ref. Britton & Rose, 1920: 63.

Cereus cartwrightianus (Britton & Rose) Werdermann =Armatocereus cartwrightianus (Britton & Rose) Backeberg ex A. W. Hill
Ref. Backeberg, 1931b: 77; Madsen, 1989: 10.

Cereus celsianus (Lemaire ex Salm-Dyck) A. Berger =Oreocereus celsianus (Lemaire ex Salm-Dyck) Riccobono
Ref. Berger, 1905b: 64; Britton & Rose, 1920: 171.

Cereus cephalomacrostibas Werdermann & Backeberg =Echinopsis cephalomacrostibas (Werdermann & Backeberg) Friedrich & G. Rowley
Ref. Backeberg, 1931b: 101; Rowley, 1974: 94.

Cereus chachapoyensis Ochoa & Backeberg =Corryocactus chachapoyensis Ochoa & Backeberg, nom. nud.
Ref. Eggli & Taylor, 1991: 39.

Cereus chlorocarpus (H.B.K.) DC. =Browningia chlorocarpa (H.B.K.) Marshall
Ref. Britton & Rose, 1920: 224; Marshall & Bock, 1945: 114.

Cereus chosicensis Werdermann & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg, 1931b: 74; Backeberg & Knuth, 1935: 207; Ritter, 1981: 1400.
Note: Treated under *H. multangularis* var. *multangularis* by Ritter (1981).

Cereus cuzcoensis (Britton & Rose) Werdermann =Echinopsis cuzcoensis (Britton & Rose) Friedrich & G. Rowley
Ref. Backeberg, 1931b: 101.

Cereus cylindricus (Lamarck) Haworth =Opuntia cylindrica (Lamarck) DC.
Ref. Britton & Rose, 1919: 77; Madsen, 1989: 48.

Cereus dautwitzii (F. Haage) Orcutt =Espostoa lanata (H.B.K.) Britton & Rose
Ref. Britton & Rose, 1920: 61; Rauh, 1958: 521; Madsen, 1989: 37.

Cereus decumbens Vaupel =Haageocereus decumbens (Vaupel) Backeberg
Ref. Vaupel, 1913a: 18; Britton & Rose, 1920: 162.

Cereus deflexispinus Rauh & Backeberg =Echinopsis knuthiana (Backeberg) Friedrich & G. Rowley
Ref. Backeberg, 1956a: 14; Hunt, 1992: 36.
Note: Placed questionably in synonymy under *Echinopsis knuthiana* by Hunt (1992).

Cereus diffusus (Britton & Rose) Werdermann
Syn. *Cereus brittonianus* Werdermann, *Monvillea diffusa* Britton & Rose, *Monvillea maritima* Britton & Rose, *Monvillea pugionifera* F. Ritter
Ref. Backeberg, 1931b: 69; Hunt, 1992: 41.
Climbing or sprawling cactus. Andean I: shrublands. 500-1500 m.
Note: No Peru voucher seen, although recorded for the country by Hunt (1992).

Cereus eriotrichus Werdermann & Backeberg =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Backeberg, 1931b: 80; Ritter, 1981: 1455.

Cereus ghiesbreghtii Schumann =Armatocereus ghiesbreghtii (Schumann) F. Ritter
Ref. Britton & Rose, 1920: 60; Ritter, 1981: 1272.

Cereus haynei (Otto ex Salm-Dyck) Croucher =Matucana haynei (Otto ex Salm-Dyck) Britton & Rose
Ref. Britton & Rose, 1922: 102; Kimnach, 1960b: 92.

Cereus humboldtii (H.B.K.) DC. =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Rauh, 1958: 324; Madsen, 1989: 16.

Cereus icosagonus (H.B.K.) DC. =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Weber, 1904: 34; Rauh, 1958: 324; Madsen, 1989: 16.

Cereus isogonus Schumann =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Madsen, 1989: 16.

Cereus jajoianus Backeberg =Cleistocactus sepium (H.B.K.) A. Weber

Cereus laetus (H.B.K.) DC. =Armatocereus laetus (H.B.K.) Backeberg ex A. W. Hill
Ref. Britton & Rose, 1920: 99; Ritter, 1981: 1275.

Cereus lanatus (H.B.K.) DC. =Espostoa lanata (H.B.K.) Britton & Rose
Ref. Britton & Rose, 1920: 61; Ritter, 1981: 1437; Madsen, 1989: 37.

Cereus lanatus subsp. *sericatus* (Backeberg) Werdermann =Espostoa lanata (H.B.K.) Britton & Rose
Ref. Ritter, 1981: 1437; Madsen, 1989: 37.

[*Cereus lemairei* Hooker =Hylocereus lemairei (Hooker) Britton & Rose]
Ref. Britton & Rose, 1920: 189.
Note: Not known from Peru.

Cereus limensis Salm-Dyck =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Ritter, 1981: 1396.

Cereus macrostibas (Schumann) A. Berger =Neoraimondia arequipensis (Meyen) Backeberg
Ref. Backeberg & Knuth, 1935: 175.

Cereus macrostibas var. *roseiflorus* Werdermann & Backeberg =Neoraimondia arequipensis (Meyen) Backeberg

Cereus megalanthus Schumann ex Vaupel =Selenicereus megalanthus (Schumann ex Vaupel) Moran
Ref. Vaupel, 1913b: 284; Moran, 1953: 325; Madsen, 1989: 71.

Cereus melanostele (Vaupel) Werdermann =Espostoa melanostele (Vaupel) Borg
Ref. Backeberg, 1931b: 72.

Cereus meyenii (Britton & Rose) Werdermann =Corryocactus aureus (Meyen) Hutchison
Ref. Backeberg, 1931b: 79.

Cereus micranthus Vaupel =Lepismium micranthum (Vaupel) Barthlott
Ref. Vaupel, 1913a: 19; Britton & Rose, 1923: 211; Barthlott, 1987: 99.

Cereus microspermus Werdermann & Backeberg =Browningia microsperma (Werdermann & Backeberg) Marshall
Ref. Rauh, 1958: 283; Ritter, 1981: 1322.

Cereus multangularis (Willdenow) Haworth =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Britton & Rose, 1923: 279; Ritter, 1981: 1400.

Cereus nanus (H.B.K.) DC. =Opuntia pubescens Wendland
Ref. Britton & Rose, 1919: 217; Madsen, 1989: 53.

Cereus pacalaensis Backeberg, nom. nud. =Haageocereus pacalaensis Backeberg

Cereus pachanoi (Britton & Rose) Werdermann =Echinopsis pachanoi (Britton & Rose) Friedrich & G. Rowley
Ref. Madsen, 1989: 27.

[*Cereus peruvianus* Miller =Cerus repandus (L.) Miller]
Ref. Kiesling, 1982: 446.
Note: Not known from Peru. Kiesling (1982) transferred this to *Stenocereus*; Hunt (1992: 132) indicated that this taxon should be treated as a synonym of *C. repandus*.

Cereus phyllanthus (L.) DC. =Epiphyllum phyllanthus var. phyllanthus
Ref. Kimnach, 1964: 113; Madsen, 1989: 31.

Cereus plagiostoma Vaupel =Borzicactus plagiostoma (Vaupel) Britton & Rose
Ref. Vaupel, 1913a: 20; Britton & Rose, 1920: 163; Rauh, 1958: 324; Ritter, 1981: 1381.

Cereus platinospinus Werdermann & Backeberg =Haageocereus platinospinus (Werdermann & Backeberg) Backeberg
Ref. Backeberg, 1931b: 74; Backeberg & Knuth, 1935: 209; Ritter, 1981: 1418.

Cereus pseudomelanostele var. *laredensis* Backeberg =Haageocereus pacalaensis Backeberg

Cereus pseudomelanostele Werdermann & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg, 1931b: 74; Ritter, 1981: 1406.
Note: Treated under var. *pseudomelanostele* by Ritter (1981).

Cereus ramulosus Salm-Dyck =Pseudorhipsalis ramulosa (Salm-Dyck) Barthlott
Ref. Kimnach, 1961: 14; Barthlott, 1991: 90.

[Cereus repandus (L.) Miller]
Syn. *Cereus peruvianus* Miller, *Stenocereus peruvianus* (Miller) Kiesling
Ref. Hunt, 1992: 41.
Note: Not known from Peru; see note under *C. peruvianus*.

Cereus roezlii F. Haage ex Schumann =Cleistocactus roezlii (F. Haage ex Schumann) Backeberg

Cereus rosei Werdermann =Echinopsis pachanoi (Britton & Rose) Friedrich & G. Rowley
Ref. Madsen, 1989: 28.

Cereus sepium (H.B.K.) DC. =Cleistocactus sepium (H.B.K.) A. Weber
Ref. Weber, 1904: 36; Britton & Rose, 1920: 160.

Cereus sericatus Backeberg =Espostoa lanata (H.B.K.) Britton & Rose
Ref. Ritter, 1981: 1437; Madsen, 1989: 37.

Cereus serpens (H.B.K.) DC. =Cleistocactus serpens (H.B.K.) A. Weber
Ref. Weber, 1904: 39; Ritter, 1981: 1387.

Cereus sextonianus Backeberg =Cleistocactus sextonianus (Backeberg) D. Hunt
Ref. Hunt, 1991: 86.

Cereus squarrosus Vaupel =Corryocactus squarrosus (Vaupel) Hutchison
Ref. Vaupel, 1913a: 21; Buxbaum, 1963: 9; Ritter, 1981: 1280.

Cereus trigonodendron Schumann ex Vaupel
Ref. Vaupel, 1913b: 286; Britton & Rose, 1923: 267; Rauh, 1958: 509; Hunt, 1992: 42.
Erect, branched cactus. Andean I: shrublands. 500-1000 m.
Note: Accepted provisionally by Hunt (1992). Not treated by Ritter (1981).
Voucher: Ule s.n. [in 1901]* (B), Engelmann s.n. [in 1915] (US)
Depts.: SM

Cereus tunicatus (Lehmann) Link & Otto, pro syn. =Opuntia tunicata (Lehmann) Link & Otto
Ref. Madsen, 1989: 60.

Cereus vargasianus Cárdenas
Ref. Cárdenas, 1951b: 34; Rauh, 1958: 508; Hunt, 1992: 42.
Endemic erect, branched cactus. Andean II: rocky slopes, shrublands. 500-1500 m.
Note: Accepted provisionally by Hunt (1992). Not treated by Ritter (1981).
Voucher: Vargas 7559* (US), Herrera s.n. (CUZ)
Depts.: CU

Cereus versicolor Werdermann & Backeberg =Haageocereus versicolor (Werdermann & Backeberg) Backeberg
Ref. Backeberg, 1931b: 81; Rauh, 1958: 399; Ritter, 1981: 1422.

Cereus versicolor var. *humifusus* Werdermann & Backeberg =Haageocereus versicolor (Werdermann & Backeberg) Backeberg
Ref. Backeberg, 1931b: 81; Ritter, 1981: 1423.
Note: Treated under var. *humifusus* by Ritter (1981).

Cereus versicolor var. *lasiacanthus* Werdermann & Backeberg =Haageocereus versicolor (Werdermann & Backeberg) Backeberg
Ref. Backeberg, 1931b: 81; Ritter, 1981: 1422.

Cereus versicolor var. *xanthacanthus* Werdermann & Backeberg =Haageocereus versicolor (Werdermann & Backeberg) Backeberg
Ref. Backeberg, 1931b: 81; Ritter, 1981: 1422.

Cereus weberbaueri Schumann ex Vaupel =Weberbauerocereus weberbaueri (Schumann ex Vaupel) Backeberg
Ref. Vaupel, 1913a: 22; Ritter, 1981: 1354.

Cereus wittii Schumann =Selenicereus wittii (Schumann) G. Rowley
Ref. Rowley, 1986: 36; Madsen, 1989: 72.

Cleistocactus acanthurus (Vaupel) D. Hunt
Syn. *Binghamia acanthura* (Vaupel) Borg, *Binghamia eriotricha* (Werdermann & Backeberg) Borg, *Borzicactus acanthurus* (Vaupel) Britton & Rose, *Borzicactus eriotrichus* (Werdermann & Backeberg) Backeberg, *Borzicactus faustianus* Backeberg, *Borzicactus keller-badensis* (Backeberg & Krainz) Krainz, *Cereus acanthurus* Vaupel, *Cereus eriotrichus* Werdermann & Backeberg, *Haageocereus convergens* F. Ritter, nom. nud., *Haageocereus eremiticus* F. Ritter, nom. nud., *Haageocereus faustianus* (Backeberg) F. Ritter, *Haageocereus imperialensis* F. Ritter, nom. nud., *Haageocereus neglectus* F. Ritter, nom. nud., *Haageocereus pacaranensis* F. Ritter, nom. nud., *Haageocereus pacaranensis* var. *tenuispinus* F. Ritter, nom. nud., *Haageocereus paradoxus* Rauh & Backeberg, *Haageocereus peculiaris* (Rauh & Backeberg) F. Ritter, *Loxanthocereus acanthurus* (Vaupel) Backeberg, *Loxanthocereus acanthurus* var. *ferox* Backeberg, *Loxanthocereus bicolor* F. Ritter, *Loxanthocereus brevispinus* Rauh & Backeberg, *Loxanthocereus canetensis* Rauh & Backeberg, *Loxanthocereus cantaensis* Rauh & Backeberg, *Loxanthocereus convergens* F. Ritter, *Loxanthocereus cullmannianus* Backeberg, *Loxanthocereus eremiticus* F. Ritter, *Loxanthocereus erigens* Rauh & Backeberg, *Loxanthocereus eriotrichus* (Werdermann & Backeberg) Backeberg, *Loxanthocereus eulaliensis* Rauh & Backeberg, *Loxanthocereus faustianus* Backeberg, *Loxanthocereus gracilispinus* Rauh & Backeberg, *Loxanthocereus keller-badensis* Backeberg & Krainz, *Loxanthocereus multifloccosus* Rauh & Backeberg, *Loxanthocereus neglectus* F. Ritter, *Loxanthocereus neglectus* var. *chimbotensis* F. Ritter, *Loxanthocereus pacaranensis* F. Ritter, *Loxanthocereus peculiaris* Rauh & Backeberg, *Loxanthocereus pullatus* Rauh & Backeberg, *Loxanthocereus pullatus* var. *brevispinus* Rauh & Backeberg, *Loxanthocereus xylorhizus* F. Ritter
Ref. Hunt & Taylor, 1987: 92; Hunt, 1992: 42.
Endemic scandent cactus. Andean I-II, Coastal: desert, disturbed areas, rocky slopes. 0-2500 m.
Voucher: Weberbauer 1699* (B), Rauh K166 [1956] (ZSS)
Depts.: IC, LI

Cleistocactus aureus (Meyen) A. Weber =Corryocactus aureus (Meyen) Hutchison
Ref. Buxbaum, 1963: 9; Ritter, 1981: 1279.

Cleistocactus brevispinus F. Ritter
Ref. Ritter, 1981: 1360; Hunt, 1992: 43.
Endemic sprawling cactus. Andean II: rocky slopes. 2500-3000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1297* (U)
Depts.: AP

Cleistocactus celesianus (Lemaire ex Salm-Dyck) A. Weber =Oreocereus celsianus (Lemaire ex Salm-Dyck) Riccobono
Ref. Kimnach, 1960a: 59; Riccobono, 1909: 259; Britton & Rose, 1920: 171.

Cleistocactus chotaensis A. Weber
Syn. *Loxanthocereus trujilloensis* F. Ritter
Ref. Weber, 1904: 47; Hunt, 1992: 43.
Endemic sprawling cactus. Coastal: dry valleys, rocky slopes. 500-1000 m.
Voucher: André 3597* (P), Ritter 1469 (U)
Depts.: LL

Cleistocactus x crassiserpens Rauh & Backeberg (pro sp.)
Syn. *Loxanthocereus crassiserpens* (Rauh & Backeberg) Backeberg
Ref. Backeberg, 1956a: 17; Rauh, 1958: 321; Hunt, 1992: 43.
Endemic sprawling cactus. Andean II: rocky slopes, shrublands. 1500-2000 m.
Note: Accepted provisionally by Hunt (1992), but listed as a hybrid between *C. icosagonus* and *C. serpens*.
Voucher: Rauh K126 [1954]* (ZSS)
Depts.: CA

Cleistocactus fieldianus (Britton & Rose) D. Hunt
Syn. *Borzicactus cajamarcensis* F. Ritter, *Borzicactus calviflorus* F. Ritter, *Borzicactus fieldianus* Britton & Rose, *Borzicactus fieldianus* var. *tesselatus* (Akers & Buining) Krainz, *Borzicactus tesselatus* Akers & Buining, *Clistanthocereus calviflorus* (F. Ritter) Backeberg, *Clistanthocereus fieldianus* (Britton & Rose) Backeberg, *Clistanthocereus tesselatus* (Akers & Buining) Backeberg
Ref. Hunt & Taylor, 1987: 92; Hunt, 1992: 43.
Endemic climbing or sprawling cactus. Andean II: rocky slopes. 2500-3000 m.
Voucher: Macbride & Featherstone 2519* (F), Ritter 679 (U)
Depts.: AN

Cleistocactus humboldtii (H.B.K.) A. Weber =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Madsen, 1989: 16; Hunt, 1992: 43.

Cleistocactus icosagonus (H.B.K.) A. Weber
Syn. *Binghamia aurivilla* (Schumann) Backeberg, *Binghamia humboldtii* (H.B.K.) Backeberg, *Binghamia icosagona* (H.B.K.) Backeberg, *Borzicactus aurivillus* (Schumann) Britton & Rose, *Borzicactus humboldtii* (H.B.K.) Britton & Rose, *Borzicactus icosagonus* (H.B.K.) Britton & Rose, *Borzicactus icosagonus* fo. *aurantiaciflorus* (Backeberg) Krainz, *Cactus humboldtii* H.B.K., *Cactus icosagonus* H.B.K., *Cereus aurivillus* Schumann, *Cereus humboldtii* (H.B.K.) DC., *Cereus icosagonus* (H.B.K.) DC., *Cereus isogonus* Schumann, *Cleistocactus humboldtii* (H.B.K.) A. Weber, *Matucana humboldtii* (H.B.K.) F. Buxbaum, *Matucana icosagona* (H.B.K.) F. Buxbaum, *Seticereus humboldtii* (H.B.K.) Backeberg, *Seticereus icosagonus* (H.B.K.) Backeberg, *Seticereus icosagonus* var. *aurantiaciflorus* Backeberg, *Seticereus icosagonus* var. *ferruginea* (Backeberg) Backeberg, nom. illeg., *Seticereus icosagonus* var.

oehmeanus (Backeberg) Backeberg, *Seticereus oehmianus* Backeberg, *Seticereus oehmianus* var. *ferrugineus* Backeberg
Ref. Weber, 1904: 34; Madsen, 1989: 16; Hunt, 1992: 43.
Sprawling cactus. Andean II: rocky slopes. 1500-2500 m.
Voucher: Hutchison 1595 (MO!)
Depts.: PI

Cleistocactus lanatus (H.B.K.) A. Weber =Espostoa lanata (H.B.K.) Britton & Rose
Ref. Britton & Rose, 1920: 61; Rauh, 1958: 521; Ritter, 1981: 1437; Madsen, 1989: 37.

Cleistocactus morawetzianus Backeberg
Syn. *Cleistocactus morawetzianus* var. *pycnacanthus* Rauh & Backeberg, *Cleistocactus villaazulensis* F. Ritter
Ref. Rauh, 1958: 320; Ritter, 1981: 1360; Hunt, 1992: 43.
Endemic scandent cactus. Andean II: rocky slopes. 2000-2500 m.
Voucher: Rauh K75 [1954] (ZSS)
Depts.: HV

Cleistocactus morawetzianus var. *pycnacanthus* Rauh & Backeberg =Cleistocactus morawetzianus Backeberg
Ref. Backeberg, 1956a: 17; Rauh, 1958: 321.

Cleistocactus neoroezlii (F. Ritter) F. Buxbaum
Syn. *Borzicactus neoroezlii* F. Ritter
Ref. Ritter, 1981: 1378; Hunt, 1992: 43.
Scandent cactus. Andean II: rocky slopes, shrublands. 2000-2500 m.
Note: Accepted provisionally by Hunt (1992). Treated under *Borzicactus* by Ritter (1981).
Voucher: Ritter 801* (U)
Depts.: PI

Cleistocactus pungens F. Ritter
Ref. Ritter, 1964a: 115; Hunt, 1992: 43.
Endemic scandent cactus. Andean II: dry valleys, rocky slopes. 1500-2000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 664* (U)
Depts.: AP, AY

Cleistocactus roezlii (F. Haage ex Schumann) Backeberg
Syn. *Borzicactus roezlii* (F. Haage ex Schumann) Backeberg, *Borzicactus sepium* var. *roezlii* (F. Haage ex Schumann) Borg, *Cereus roezlii* F. Haage ex Schumann, *Seticereus roezlii* (F. Haage ex Schumann) Backeberg
Ref. Hunt, 1992: 43.
Scandent cactus. Amazonian, Andean I-II. 500-2500 m.
Note: Accepted provisionally by Hunt (1992).
Depts.: LA

Cleistocactus samaipatensis (Cárdenas) D. Hunt
Syn. *Akersia roseiflora* Buining, *Bolivicereus samaipatanus* Cárdenas, *Borzicactus samaipatanus* (Cárdenas) Kimnach
Ref. Hunt & Taylor, 1987: 92; Hunt, 1992: 44.
Erect, branched or columnar cactus. Coastal: lomas, rocky slopes. 0-500 m.
Note: Not listed from Peru by Hunt (1992); type locality of *Akersia roseiflora* is from Arequipa, Peru (Buining, 1961: 25).
Voucher: Akers s.n. (U)
Depts.: AR

Cleistocactus sepium (H.B.K.) A. Weber
Syn. *Borzicactus jajoianus* Backeberg, *Borzicactus sepium* (H.B.K.) Britton & Rose, *Cactus sepium* H.B.K., *Cereus jajoianus* Backeberg, *Cereus sepium* (H.B.K.) DC., *Loxanthocereus jajoianus* (Backeberg) Backeberg
Ref. Weber, 1904: 36; Britton & Rose, 1920: 160; Hunt, 1992: 44.
Sprawling cactus. Andean II: rocky slopes, shrublands. 2500-3000 m.
Note: Not listed for Peru by Hunt (1992); presence based on distribution of *Loxanthocereus jajoianus* (Rauh, 1958: 298).
Voucher: Ritter 189 (U)
Depts.: CU

Cleistocactus serpens (H.B.K.) A. Weber
Syn. *Bolivicereus serpens* (H.B.K.) Backeberg, *Borzicactella serpens* (H.B.K.) F. Ritter, *Borzicactus serpens* (H.B.K.) Kimnach, *Cactus serpens* H.B.K., *Cereus serpens* (H.B.K.) DC.
Ref. Weber, 1904: 39; Rauh, 1958: 321; Ritter, 1981: 1387; Hunt, 1992: 44.
Endemic scandent cactus. Andean I-II: rocky slopes, shrublands. 1000-2000 m.
Note: Treated by Ritter (1981) under *Borzicactella*.
Voucher: Humboldt & Bonpland s.n.* (P-H&B), Ritter 288 (U)
Depts.: PI

Cleistocactus sextonianus (Backeberg) D. Hunt
Syn. *Borzicactus gracilis* var. *aticensis* (Rauh & Backeberg) Krainz, *Borzicactus gracilis* var. *camanaensis* (Rauh & Backeberg) Krainz, *Borzicactus sextonianus* (Backeberg) Kimnach, *Cereus sextonianus* Backeberg, *Erdisia sextoniana* Backeberg, *Haageocereus variabilis* F. Ritter, nom. nud., *Loxanthocereus aticensis* Rauh & Backeberg, *Loxanthocereus camanaensis* Rauh & Backeberg, *Loxanthocereus gracilis* (Akers & Buining) Backeberg, *Loxanthocereus nanus* Backeberg, *Loxanthocereus puquiensis* F. Ritter, *Loxanthocereus riomajensis* Rauh & Backeberg, *Loxanthocereus sextonianus* (Backeberg) Backeberg, *Loxanthocereus splendens* Backeberg, *Loxanthocereus variabilis* F. Ritter, *Maritimocereus gracilis* Akers & Buining
Ref. Hunt, 1991: 86; Hunt, 1992: 44.
Endemic climbing or sprawling cactus. Andean I, Coastal: desert, dry valleys. 0-1500 m.
Voucher: Backeberg s.n.*, Ritter 148 (U)
Depts.: AR, AY, IC

Cleistocactus tenuiserpens Rauh & Backeberg
Syn. *Bolivicereus tenuiserpens* (Rauh & Backeberg) Backeberg, *Borzicactella tenuiserpens* (Rauh & Backeberg) F. Ritter, *Borzicactus tenuiserpens* (Rauh & Backeberg) Kimnach
Ref. Backeberg, 1956a: 17; Rauh, 1958: 323; Ritter, 1981: 1387; Hunt, 1992: 44.
Endemic sprawling cactus. Andean I: dry valleys, rocky slopes. 500-1000 m.
Note: Treated by Ritter (1981) under *Borzicactella*.
Voucher: Rauh K76 [1956]* (ZSS), Ritter 282 (U)
Depts.: AM

Cleistocactus villaazulensis F. Ritter =Cleistocactus morawetzianus Backeberg
Ref. Ritter, 1981: 1359; Hunt, 1992: 44.

Clistanthocereus calviflorus (F. Ritter) Backeberg =Cleistocactus fieldianus (Britton & Rose) D. Hunt
Ref. Hunt, 1992: 44.

Clistanthocereus fieldianus (Britton & Rose) Backeberg =Cleistocactus fieldianus (Britton & Rose) D. Hunt
Ref. Rauh, 1958: 287; Hunt, 1992: 44.

Clistanthocereus hertlingianus Backeberg =Browningia hertlingiana (Backeberg) F. Buxbaum
Ref. Ritter, 1981: 1322.

Clistanthocereus tesselatus (Akers & Buining) Backeberg =Cleistocactus fieldianus (Britton & Rose) D. Hunt
Ref. Hunt, 1992: 44.

Corryocactus acervatus F. Ritter
Ref. Ritter, 1981: 1287; Hunt, 1992: 46.
Endemic sprawling cactus. Andean II: rocky slopes, shrublands. 3000-3500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 558* (U)
Depts.: AR

Corryocactus apiciflorus (Vaupel) Hutchison
Syn. *Cereus apiciflorus* Vaupel, *Corryocactus maximus* (Backeberg) Hutchison, *Erdisia apiciflora* (Vaupel) Werdermann, *Erdisia maxima* Backeberg
Ref. Buxbaum, 1963: 9; Ritter, 1981: 1280; Hunt, 1992: 46.
Endemic erect, branched cactus. Andean II: dry valleys, rocky slopes, shrublands. 2500-3000 m.
Note: Accepted provisionally by Hunt (1992).

Voucher: Weberbauer 3743* (B), Ritter 1300 (U)
Depts.: AN

Corryocactus aureus (Meyen) Hutchison
Syn. *Cactus aureus* Meyen, *Cereus aureus* Meyen, nom. illeg., *Cereus meyenii* (Britton & Rose) Werdermann, *Cleistocactus aureus* (Meyen) A. Weber, *Echinocactus aureus* (Meyen) Pfeiffer, *Erdisia meyenii* Britton & Rose
Ref. Buxbaum, 1963: 9; Hunt, 1992: 46.
Endemic clustered, globular cactus. Andean II: dry valleys, rocky slopes. 2000-2500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Rose 18801 (US)
Depts.: AR

Corryocactus ayacuchoensis Rauh & Backeberg
Syn. *Corryocactus ayacuchoensis* var. *leucacanthus* Rauh & Backeberg
Ref. Backeberg, 1956a: 12; Rauh, 1958: 246; Ritter, 1981: 1281; Hunt, 1992: 46.
Endemic erect, branched cactus. Andean II: dry valleys, rocky slopes, shrublands. 2500-3000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Rauh K73 [1954]* (ZSS), Rauh K74 [1954] (ZSS)
Depts.: AY

Corryocactus ayacuchoensis var. *leucacanthus* Rauh & Backeberg =Corryocactus ayacuchoensis Rauh & Backeberg
Ref. Rauh, 1958: 246; Backeberg, 1956a: 12; Ritter, 1981: 1281.

Corryocactus brachycladus F. Ritter
Ref. Ritter, 1981: 1289; Hunt, 1992: 46.
Endemic climbing or sprawling cactus. Andean III: dry valleys, rocky slopes. 3500-4000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 657* (U)
Depts.: AN

Corryocactus brachypetalus (Vaupel) Britton & Rose
Syn. *Cereus brachypetalus* Vaupel
Ref. Britton & Rose, 1920: 67; Rauh, 1958: 242; Ritter, 1981: 1279; Hunt, 1992: 46.
Endemic erect, branched cactus. Coastal: lomas. 0-1000 m.
Voucher: Weberbauer 1549* (B), Rose 18810 (US)
Depts.: AR

Corryocactus brevispinus Rauh & Backeberg
Ref. Backeberg, 1956a: 12; Hunt, 1992: 46.
Endemic erect, branched cactus. Andean II: dry valleys, rocky slopes. 2500-3000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Collector unknown s.n.* (HEID)
Depts.: AR

Corryocactus brevistylus (Schumann ex Vaupel) Britton & Rose
Syn. *Cereus brevistylus* Schumann ex Vaupel
Ref. Britton & Rose, 1920: 66; Rauh, 1958: 243; Ritter, 1981: 1279; Hunt, 1992: 46.
Erect, branched cactus. Andean II: dry valleys, rocky slopes. 2000-3500 m.
Voucher: Weberbauer 1414* (B), Rose 18780 (US)
Depts.: AR, PU

Corryocactus brevistylus var. *puquiensis* (Rauh & Backeberg) F. Ritter =Corryocactus puquiensis Rauh & Backeberg
Ref. Ritter, 1981: 1279.

Corryocactus chachapoyensis Ochoa & Backeberg, nom. nud.
Syn. *Cereus chachapoyensis* Ochoa & Backeberg
Ref. Eggli & Taylor, 1991: 39; Hunt, 1992: 46.
Endemic sprawling cactus. Andean II: rocky slopes, shrublands. 2000-2500 m.
Note: Accepted provisionally by Hunt (1992). An invalid name according to Eggli & Taylor (1992); the combination *Corryocactus* has not been made.
Voucher: Ochoa s.n.[in 1952]*
Depts.: AM

Corryocactus chavinilloensis F. Ritter
Ref. Ritter, 1981: 1290; Hunt, 1992: 46.
Endemic climbing or sprawling cactus. Andean II: dry valleys, rocky slopes. 3000-3500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 689* (U)
Depts.: HU

Corryocactus cuajonesensis F. Ritter
Ref. Ritter, 1981: 1287; Hunt, 1992: 46.
Endemic sprawling cactus. Andean II: rocky slopes, shrublands. 3000-3500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 638* (U)
Depts.: MO

Corryocactus erectus (Backeberg) F. Ritter
Syn. *Bolivicereus pisacensis* Knize, *Bolivicereus soukupii* Knize, *Erdisia aureispina* Backeberg & Jacobsen, *Erdisia erecta* Backeberg
Ref. Ritter, 1981: 1281; Hunt, 1992: 46.
Endemic erect, branched cactus. Andean II-III: rocky slopes, shrublands. 3000-4000 m.
Voucher: Rauh K59 [1954]* (ZSS), Ritter 666 (U)
Depts.: CU

Corryocactus gracilis F. Ritter
Ref. Ritter, 1981: 1282; Hunt, 1992: 46.
Endemic climbing or sprawling cactus. Andean II: dry valleys, rocky slopes. 2000-2500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1299* (U)
Depts.: AP, AY

Corryocactus heteracanthus Backeberg
Ref. Backeberg, 1956a: 12; Rauh, 1958: 246; Hunt, 1992: 46.
Endemic climbing or sprawling cactus. Andean II: rocky slopes, shrublands. 2500-3000 m.
Voucher: Rauh K76 [1954]* (ZSS)
Depts.: AY

Corryocactus huincoensis F. Ritter
Ref. Ritter, 1981: 1288; Hunt, 1992: 46.
Endemic climbing or sprawling cactus. Andean I: rocky slopes. 1500-2000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1070* (U)
Depts.: LI

Corryocactus matucanensis F. Ritter
Ref. Ritter, 1981: 1287; Hunt, 1992: 46.
Endemic climbing or sprawling cactus. Andean II: dry valleys, rocky slopes. 2000-2500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 629* (U)
Depts.: LI

Corryocactus maximus (Backeberg) Hutchison =Corryocactus apiciflorus (Vaupel) Hutchison
Ref. Ritter, 1981: 1280; Hunt, 1992: 46.

Corryocactus megarhizus F. Ritter
Ref. Ritter, 1981: 1286; Hunt, 1992: 46.
Endemic sprawling cactus. Andean II: rocky slopes. 2000-2500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 559* (U)
Depts.: AY

Corryocactus melaleucus F. Ritter
Ref. Ritter, 1981: 1289; Hunt, 1992: 46.
Endemic climbing or sprawling cactus. Andean II: dry valleys, rocky slopes. 2500-3000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 687* (U)
Depts.: LI

Corryocactus odoratus F. Ritter
Ref. Ritter, 1981: 1285; Hunt, 1992: 46.
Endemic sprawling cactus. Andean II: rocky slopes. 3000-3500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1301* (U)
Depts.: HV

Corryocactus pachycladus Rauh & Backeberg =Corryocactus puquiensis Rauh & Backeberg
Ref. Backeberg, 1956a: 12; Hunt, 1992: 46.

Corryocactus pilispinus F. Ritter
Ref. Ritter, 1981: 1291; Hunt, 1992: 46.
Endemic sprawling cactus. Andean II: rocky slopes. 2500-3000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1071* (U)
Depts.: LL

Corryocactus prostratus F. Ritter
Ref. Ritter, 1981: 1283; Hunt, 1992: 46.
Endemic climbing or sprawling cactus. Andean II: rocky slopes, shrublands. 1500-3000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 180* (U)
Depts.: AR

Corryocactus puquiensis Rauh & Backeberg
Syn. *Corryocactus brevistylus* var. *puquiensis* (Rauh & Backeberg) F. Ritter, *Corryocactus pachycladus* Rauh & Backeberg
Ref. Backeberg, 1956a: 12; Rauh, 1958: 245; Hunt, 1992: 46.
Endemic sprawling cactus. Andean II: dry valleys, rocky slopes. 2500-3500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Rauh K48 [1954]* (ZSS), Rauh K39 [1954] (ZSS)
Depts.: AR

Corryocactus pyroporphyranthus F. Ritter
Ref. Ritter, 1981: 1284; Hunt, 1992: 46.
Endemic climbing or sprawling cactus. Andean II: dry valleys, rocky slopes. 3000-3500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1481* (U)
Depts.: AY

Corryocactus quadrangularis (Rauh & Backeberg) F. Ritter
Syn. *Erdisia quadrangularis* Rauh & Backeberg
Ref. Ritter, 1981: 1280; Hunt, 1992: 46.
Endemic climbing or sprawling cactus. Andean II: dry valleys. 3000-3500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Rauh K120 [1956]* (ZSS)
Depts.: AY

Corryocactus quivillanus F. Ritter
Ref. Ritter, 1981: 1290; Hunt, 1992: 46.
Endemic erect, branched cactus. Andean II: dry valleys, rocky slopes. 2500-3000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 688* (U)
Depts.: HU

Corryocactus serpens F. Ritter
Ref. Ritter, 1981: 1285; Hunt, 1992: 46.
Endemic climbing or sprawling cactus. Andean II: rocky slopes, shrublands. 2500-3000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1302* (U)
Depts.: HV

Corryocactus solitarius F. Ritter
Ref. Ritter, 1981: 1289; Hunt, 1992: 46.
Endemic sprawling cactus. Andean II: rocky slopes, shrublands. 3000-3500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 634* (U)
Depts.: LL

Corryocactus squarrosus (Vaupel) Hutchison
Syn. *Cereus squarrosus* Vaupel, *Erdisia squarrosa* (Vaupel) Britton & Rose
Ref. Buxbaum, 1963: 9; Ritter, 1981: 1280; Hunt, 1992: 46.
Endemic climbing or sprawling cactus. Andean II: dry valleys, rocky slopes. 2000-3500 m.
Voucher: Weberbauer 1719* (B), Ritter 621 (U)
Depts.: CU, JU

Corryocactus tenuiculus (Rauh & Backeberg) Hutchison
Syn. *Erdisia fortalezensis* F. Ritter, *Erdisia tenuicula* Rauh & Backeberg
Ref. Buxbaum, 1963: 9; Ritter, 1981: 1282; Hunt, 1992: 47.
Endemic climbing or sprawling cactus. Andean III: dry valleys, shrublands. 3500-4500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Rauh K54 [1956]* (ZSS), Ritter 1058 (U)
Depts.: AN

[Cumulopuntia]
Note: This name is generally considered a synonym of *Opuntia* (Hunt, 1992: 23). The three following accepted taxa should be assigned to *Opuntia*, but are insufficiently known to warrant making the new combinations at this time (J. C. Solomon, pers. comm.). Accepted taxa counted under *Opuntia*.

Cumulopuntia alboareolata (F. Ritter) F. Ritter =Opuntia zehnderi (Rauh & Backeberg) G. Rowley
Ref. Ritter, 1981: 1249; Hunt, 1992: 49.

Cumulopuntia crassicylindrica (Rauh & Backeberg) F. Ritter =Opuntia crassicylindrica (Rauh & Backeberg) G. Rowley
Ref. Ritter, 1981: 1254; Hunt, 1992: 49.

Cumulopuntia galerasensis F. Ritter
Ref. Ritter, 1981: 1249; Hunt, 1992: 49.
Endemic sprawling cactus. Andean II: rocky slopes, shrublands. 3000-3500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1045* (U)
Depts.: AY

Cumulopuntia ignescens (Vaupel) F. Ritter =Opuntia ignescens Vaupel
Ref. Ritter, 1980b: 880; Hunt, 1992: 49.

Cumulopuntia ignota (Britton & Rose) F. Ritter =Opuntia corotilla Schumann ex Vaupel
Ref. Ritter, 1981: 1250; Hunt, 1992: 49.

Cumulopuntia kuehnrichiana (Werdermann & Backeberg) F. Ritter =Opuntia sphaerica Foerster
Ref. Ritter, 1981: 1253; Hunt, 1992: 49.

Cumulopuntia multiareolata (F. Ritter) F. Ritter =Tephrocactus multiareolatus F. Ritter
Ref. Ritter, 1981: 1252; Hunt, 1992: 49.
Note: Incorrectly listed by Hunt (1992) as a provisionally accepted species; this error was corrected by Hunt in the "Corrigenda" (August 1992).

Cumulopuntia pentlandii (Salm-Dyck) F. Ritter =Opuntia pentlandii Salm-Dyck
Ref. Ritter, 1980a: 488; Hunt, 1992: 49.

Cumulopuntia pentlandii var. *dactylifera* (Vaupel) F. Ritter =Opuntia dactylifera Vaupel
Ref. Ritter, 1980a: 490.

Cumulopuntia pyrrhacantha (Schumann) F. Ritter =Opuntia pyrrhacantha Schumann
Ref. Ritter, 1981: 1249; Hunt, 1992: 49.

Cumulopuntia rauppiana (Schumann) F. Ritter =Opuntia sphaerica Foerster
Ref. Ritter, 1981: 1252; Hunt, 1992: 49.

Cumulopuntia rossiana (Heinrich & Backeberg) F. Ritter
Syn. *Tephrocactus pentlandii* var. *rossiana* Heinrich & Backeberg
Ref. Hunt, 1992: 49.
Note: No Peru voucher seen, although recorded for the country by Hunt (1992).
Depts.: Without locality data.

Cumulopuntia tumida F. Ritter
Ref. Ritter, 1981: 1254; Hunt, 1992: 49.
Endemic clump-forming cactus. Coastal: rocky slopes. 0-500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1324* (U)
Depts.: AR

Cumulopuntia unguispina (Backeberg) F. Ritter =Opuntia unguispina Backeberg
Ref. Ritter, 1981: 1251; Hunt, 1992: 49.

Cumulopuntia unguispina var. *major* F. Ritter =Opuntia unguispina Backeberg
Ref. Ritter, 1981: 1251.

Cumulopuntia zehnderii (Rauh & Backeberg) F. Ritter =Opuntia zehnderi

(Rauh & Backeberg) G. Rowley
Ref. Ritter, 1981: 1249; Hunt, 1992: 49.

Cylindropuntia cylindrica (Lamarck) F. Knuth =Opuntia cylindrica (Lamarck) DC.
Ref. Backeberg & Knuth, 1935: 120; Rauh, 1958: 193; Madsen, 1989: 48.

Cylindropuntia exaltata (A. Berger) Backeberg =Opuntia subulata (Muehlenpfordt) Engelmann
Ref. Rauh, 1958: 193; Ritter, 1981: 1241.

Cylindropuntia intermedia (Rauh & Backeberg) Rauh & Backeberg, nom. illeg. =Opuntia cylindrica (Lamarck) DC.
Ref. Rauh, 1958: 194; Hunt, 1992: 50.
Note: Invalid name according to Eggli & Taylor (1991: 43).

Cylindropuntia pachypus (Schumann) Backeberg =Opuntia pachypus Schumann
Ref. Backeberg & Knuth, 1935: 120; Rauh, 1958: 192; Ritter, 1981: 1242.

Cylindropuntia pallida (Rose) F. Knuth =Opuntia rosea DC.
Ref. Rauh, 1958: 195.

Cylindropuntia rosea (DC.) Backeberg =Opuntia rosea DC.
Ref. Hunt, 1992: 50.

Cylindropuntia subulata (Muehlenpfordt) F. Knuth =Opuntia subulata (Muehlenpfordt) Engelmann
Ref. Backeberg & Knuth, 1935: 121; Madsen, 1989: 60.

Cylindropuntia tephrocactoides (Rauh & Backeberg) Rauh & Backeberg =Opuntia floccosa Salm-Dyck
Ref. Rauh, 1958: 194.

Cylindropuntia tunicata (Lehmann) F. Knuth =Opuntia tunicata (Lehmann) Link & Otto
Ref. Backeberg & Knuth, 1935: 126; Rauh, 1958: 195; Madsen, 1989: 61; Hunt, 1992: 50.

Disocactus amazonicus (Schumann) D. Hunt
Syn. *Wittia amazonica* Schumann, *Wittiocactus amazonicus* (Schumann) Rauschert
Ref. Hunt, 1982: 2; Hunt, 1992: 51.
Epiphytic cactus. Amazonian: forests. 0-500 m.
Voucher: Killip & Smith 28362 (US)
Depts.: LO

Disocactus ramulosus (Salm-Dyck) Kimnach =Pseudorhipsalis ramulosa (Salm-Dyck) Barthlott
Ref. Kimnach, 1961: 14; Hunt, 1992: 52.

Echinocactus aurantiacus Vaupel =Matucana aurantiaca (Vaupel) F. Buxbaum
Ref. Vaupel, 1913a: 23; Ritter, 1981: 1489.

Echinocactus aureus (Meyen) Pfeiffer =Corryocactus aureus (Meyen) Hutchison
Ref. Buxbaum, 1963: 9; Ritter, 1981: 1279.

Echinocactus borchersii Boedecker =Oroya borchersii (Boedecker) Backeberg
Ref. Rauh, 1958: 487; Ritter, 1981: 1514.

Echinocactus clavatus Sohrens =Neoporteria clavata (Soehrens) Werdermann
Ref. Donald & Rowley, 1966: 55; Ritter, 1980b: 1037.

Echinocactus cumingii Regel & Klein, nom. illeg. =Rebutia neocumingii (Backeberg) D. Hunt
Ref. Hunt & Taylor, 1987: 94.

Echinocactus haynei Otto ex Salm-Dyck =Matucana haynei (Otto ex Salm-Dyck) Britton & Rose
Ref. Britton & Rose, 1922: 102; Ritter, 1981: 1497.

Echinocactus islayensis Foerster =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Foerster, 1861: 160; Donald & Rowley, 1966: 56.

Echinocactus leucotrichus Philippi =Oreocereus leucotrichus (Philippi) Wagenknecht
Ref. Britton & Rose, 1922: 101; Kimnach, 1960b: 93; Ritter, 1980b: 1117.

Echinocactus lindleyi Foerster =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Foerster, 1861: 162; Donald & Rowley, 1966: 57; Ritter, 1981: 1299.

Echinocactus molendensis Vaupel =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Vaupel, 1913a: 24; Rauh, 1958: 491; Donald & Rowley, 1966: 56; Ritter, 1981: 1299.

Echinocactus myriacanthus Vaupel =Matucana myriacantha (Vaupel) F. Buxbaum
Ref. Vaupel, 1913a: 25; Donald, 1971a: 10; Ritter, 1981: 1500.

Echinocactus peruvianus Schumann =Oroya peruviana (Schumann) Britton & Rose
Ref. Britton & Rose, 1922: 102; Ritter, 1981: 1511.

Echinocactus rettigii Quehl =Oreocereus hempelianus (Guerke) D. Hunt
Ref. Britton & Rose, 1922: 101; Rauh, 1958: 333; Ritter, 1981: 1368.

Echinocactus subgibbosus Haworth =Neoporteria subgibbosa (Haworth) Britton & Rose
Ref. Britton & Rose, 1922: 97; Ritter, 1980: 1042.

Echinocactus weberbaueri Vaupel =Matucana weberbaueri (Vaupel) Backeberg
Ref. Vaupel, 1913a: 26; Donald, 1971: 10; Ritter, 1981: 1505.

Echinocereus multangularis (Willdenow) Ruempler =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Britton & Rose, 1923: 279; Ritter, 1981: 1400.
Note: Treated under *H. multangularis* var. *multangularis* by Ritter (1981).

Echinopsis backebergii Werdermann
Syn. *Lobivia backebergii* (Werdermann) Backeberg, *Lobivia backebergii* var. *winteriana* (F. Ritter) Rausch, *Lobivia backebergii* var. *wrightiana* (Backeberg) Rausch, *Lobivia backebergii* var. *zecherii* (Rausch) Rausch, *Lobivia winteriana* F. Ritter, *Lobivia wrightiana* Backeberg, *Lobivia zecheri* Rausch, *Neolobivia divaricata* F. Ritter, *Neolobivia winteriana* (F. Ritter) F. Ritter, *Neolobivia wrightiana* (Backeberg) Y. Ito
Ref. Backeberg, 1931b: 84; Hunt, 1992: 56.
Solitary or clustered, globular cactus. Andean II: dry valleys, rocky slopes. 2000-3000 m.
Voucher: Ritter 1313 (U)
Depts.: AY, CU, HV

Echinopsis cephalomacrostibas (Werdermann & Backeberg) Friedrich & G. Rowley
Syn. *Cereus cephalomacrostibas* Werdermann & Backeberg, *Haageocereus ferox* F. Ritter, nom. nud., *Trichocereus cephalomacrostibas* (Werdermann & Backeberg) Backeberg, *Weberbauerocereus cephalomacrostibas* (Werdermann & Backeberg) F. Ritter
Ref. Rowley, 1974: 94; Hunt, 1992: 56.
Endemic erect, branched or columnar cactus.
Depts.: AR

Echinopsis chalaensis (Rauh & Backeberg) Friedrich & G. Rowley
Syn. *Trichocereus chalaensis* Rauh & Backeberg
Ref. Rowley, 1974: 94; Hunt, 1992: 56.
Endemic erect, branched or columnar cactus. Coastal: desert. 0-500 m.
Note: Accepted provisionally by Hunt (1992). Treated by Ritter (1981: 1328) under *Trichocereus*.
Voucher: Rauh K128 [1956]* (ZSS), Ritter 1052 (U)
Depts.: AR

Echinopsis cuzcoensis (Britton & Rose) Friedrich & G. Rowley
Syn. *Cereus cuzcoensis* (Britton & Rose)

Werdermann, *Trichocereus cuzcoensis* Britton & Rose
Ref. Rowley, 1974: 95; Ritter, 1981: 1327; Hunt, 1992: 57.
Endemic erect, branched cactus. Andean II: rocky slopes, shrublands. 2500-3500 m.
Note: Accepted provisionally by Hunt (1992). Treated by Ritter (1981) under *Trichocereus*.
Voucher: Rose 19022* (US), Ritter 677a (U)
Depts.: CU

Echinopsis glauca (F. Ritter) Friedrich & G. Rowley
Syn. *Echinopsis glauca* fo. *pendens* (F. Ritter) Friedrich & G. Rowley, *Trichocereus glaucus* F. Ritter, *Trichocereus glaucus* fo. *pendens* F. Ritter, *Trichocereus glaucus* var. *pendens* (F. Ritter) Backeberg
Ref. Rowley, 1974: 95; Hunt, 1992: 57.
Solitary or clustered, globular cactus. Coastal: dry valleys, rocky slopes. 500-1000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 270 p.p.* (U)
Depts.: AR

Echinopsis glauca fo. *pendens* (F. Ritter) Friedrich & G. Rowley =Echinopsis glauca (F. Ritter) Friedrich & G. Rowley
Ref. Rowley, 1974: 95.

Echinopsis hempeliana Guerke =Oreocereus hempelianus (Guerke) D. Hunt
Ref. Britton & Rose, 1922: 101; Rauh, 1958: 333; Hunt & Taylor, 1987: 93.

Echinopsis hertrichiana (Backeberg) D. Hunt
Syn. *Lobivia allegraiana* Backeberg, *Lobivia backebergii* var. *hertrichiana* (Backeberg) Rausch, *Lobivia backebergii* var. *laui* (Donald) Rausch, *Lobivia backebergii* var. *simplex* (Rausch) Rausch, *Lobivia binghamiana* Backeberg, *Lobivia echinata* Rausch, *Lobivia hertrichiana* Backeberg, *Lobivia huilcanota* Rauh & Backeberg, *Lobivia incaica* Backeberg, *Lobivia laui* Donald, *Lobivia minuta* F. Ritter, *Lobivia planiceps* Backeberg, *Lobivia simplex* Rausch, *Lobivia vilcabambae* F. Ritter, *Neolobivia echinata* (Rausch) F. Ritter, *Neolobivia hertrichiana* (Backeberg) F. Ritter, *Neolobivia incaica* (Backeberg) F. Ritter, *Neolobivia minuta* (F. Ritter) F. Ritter, *Neolobivia prolifera* F. Ritter, *Neolobivia vilcabambae* (F. Ritter) F. Ritter
Ref. Hunt, 1991: 88; Hunt, 1992: 57.
Solitary or clustered, globular cactus. Andean II-III: rocky slopes, shrublands. 2500-4000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 694 (U)
Depts.: CU

Echinopsis knuthiana (Backeberg) Friedrich & G. Rowley
Syn. *Azureocereus deflexispinus* Backeberg ex Rauh, *Cereus deflexispinus* Rauh & Backeberg, *Trichocereus knuthianus* Backeberg
Ref. Rowley, 1974: 96; Hunt, 1992: 57.
Endemic erect, branched cactus. Andean II: rocky slopes, shrublands. 2500-3000 m.
Note: Accepted provisionally by Hunt (1992). Treated by Ritter (1981: 1326) under *Trichocereus*.
Voucher: Backeberg s.n.*, Rauh K77 [1954] (ZSS)
Depts.: AY

Echinopsis maximiliana Heyder
Syn. *Echinopsis pentlandii* var. *maximiliana* (Heyder) Schumann, *Lobivia apurimacana* F. Ritter, nom. nud., *Lobivia corbula* (Herrera) Britton & Rose, *Lobivia cruciaureispina* Knize, *Lobivia intermedia* Rausch, *Lobivia maximiliana* (Heyder) Backeberg, *Lobivia maximiliana* var. *corbula* (Herrera) Rausch, *Lobivia maximiliana* var. *intermedia* (Rausch) Rausch, *Lobivia maximiliana* var. *leptacantha* (Rausch) Rausch, *Lobivia maximiliana* var. *westii* (Hutchison) Rausch, *Lobivia pentlandii* var. *maximiliana* (Heyder) Backeberg, *Lobivia sicuaniensis* Rausch, *Lobivia westii* Hutchison, *Lobivia westii* var. *intermedia* (Rausch) F. Ritter, *Mammillaria corbula* Herrera
Ref. Hunt, 1992: 58.
Clustered, globular cactus. Andean II-III: rocky slopes, shrublands. 2500-4000 m.
Voucher: Rose 19090 (US)
Depts.: AP, CU, PU

Echinopsis mistiensis Werdermann & Backeberg =Echinopsis pamparuizii Cárdenas
Ref. Rauh, 1958: 467; Backeberg, 1931b: 84.

Echinopsis pachanoi (Britton & Rose) Friedrich & G. Rowley
Syn. *Cereus pachanoi* (Britton & Rose) Werdermann, *Cereus rosei* Werdermann, *Echinopsis peruvianus* (Britton & Rose) Friedrich & G. Rowley, *Trichocereus pachanoi* Britton & Rose, *Trichocereus pachanoi* fo. *peruvianus* (Britton & Rose) F. Ritter, *Trichocereus peruvianus* Britton & Rose
Ref. Rowley, 1974: 96; Madsen, 1989: 27; Hunt, 1992: 58.
Erect, branched cactus. Andean II: rocky slopes. 2000-3000 m.
Note: Treated by Ritter (1981: 1325) under *Trichocereus*.
Voucher: Rose & Rose 18658 (US)
Depts.: AN, LA, LI, LL, PI

Echinopsis pampana (Britton & Rose) D. Hunt
Syn. *Lobivia aureosenilis* Knize, *Lobivia pampana* Britton & Rose
Ref. Madsen, 1989: 88; Hunt, 1992: 58.
Endemic clustered, globular cactus. Andean III: grasslands, rocky slopes. 3500-4000 m.
Voucher: Rose 18966* (US)
Depts.: AR

Echinopsis pamparuizii Cárdenas
Syn. *Echinopsis mistiensis* Werdermann & Backeberg, *Lobivia glaucescens* F. Ritter, *Lobivia mistiensis* (Werdermann & Backeberg) Backeberg, *Lobivia mistiensis* var. *brevispina* Backeberg ex Aragón, nom. nud.
Ref. Cárdenas, 1970: 32; Hunt, 1992: 58.
Solitary, globular cactus. Andean II-III: dry valleys, rocky slopes, shrublands. 2500-4000 m.
Note: Not recorded from Peru by Hunt (1992); its presence in Peru is based on distributional information for the synonyms *Lobivia glaucescens* and *L. mistiensis* (Hunt, 1992: 75, 76).
Voucher: Ritter 1460 (U)
Depts.: AR, MO

Echinopsis pentlandii Salm-Dyck
Syn. *Lobivia lauramarca* Rauh & Backeberg, *Lobivia pentlandii* (Salm-Dyck) Britton & Rose
Ref. Hunt, 1992: 58.
Solitary or clustered, globular cactus. Andean II: dry valleys, rocky slopes. 3000-3500 m.
Voucher: Rauh K144 [1956] (ZSS)
Depts.: CU

Echinopsis pentlandii var. *maximiliana* (Heyder) Schumann =Echinopsis maximiliana Heyder

Echinopsis peruvianus (Britton & Rose) Friedrich & G. Rowley =Echinopsis pachanoi (Britton & Rose) Friedrich & G. Rowley
Ref. Rowley, 1974: 97; Madsen, 1989: 28; Hunt, 1992: 58.

Echinopsis puquiensis (Rauh & Backeberg) Friedrich & G. Rowley
Syn. *Trichocereus puquiensis* Rauh & Backeberg
Ref. Rowley, 1974: 97; Ritter, 1981: 1325; Hunt, 1992: 58.
Endemic erect, branched or columnar cactus. Andean II: dry valleys, rocky slopes. 3000-3500 m.
Note: Accepted provisionally by Hunt (1992). Treated by Ritter (1981) under *Trichocereus*.
Voucher: Rauh K119 [1956]* (ZSS), Ritter 155b (U)
Depts.: AY

Echinopsis santaensis (Rauh & Backeberg) Friedrich & G. Rowley
Syn. *Trichocereus santaensis* Rauh & Backeberg
Ref. Rowley, 1974: 97; Hunt, 1992: 58.
Endemic erect, branched or columnar cactus. Andean II: dry valleys, rocky slopes. 2000-2500 m.
Note: Accepted provisionally by Hunt (1992). Treated by Ritter (1981: 1325) under *Trichocereus*.

Voucher: Rauh K58 [1956]* (ZSS), Ritter 567a (U)
Depts.: AN

Echinopsis schieliana (Backeberg) D. Hunt
Syn. *Lobivia leptacantha* Rausch, *Lobivia schieliana* Backeberg
Ref. Rowley, 1974: 92; Hunt, 1992: 58.
Solitary or clustered, globular cactus. Andean II: rocky slopes, shrublands. 3000-3500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Rausch 422 (ZSS)
Depts.: CU

Echinopsis schoenii (Rauh & Backeberg) Friedrich & G. Rowley
Syn. *Trichocereus schoenii* Rauh & Backeberg
Ref. Rowley, 1974: 97; Hunt, 1992: 58.
Endemic erect, branched cactus. Andean III: rocky slopes. 3500-4000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Under Rauh K185 [1956]* (ZSS)
Depts.: AR

Echinopsis tarmaensis (Rauh & Backeberg) Friedrich & G. Rowley
Syn. *Trichocereus tarmaensis* Rauh & Backeberg
Ref. Rowley, 1974: 98; Hunt, 1992: 59.
Endemic erect, branched cactus. Andean II: rocky slopes, shrublands. 2500-3500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Rauh K8 [1956]* (ZSS)
Depts.: JU

Echinopsis tegeleriana (Backeberg) D. Hunt
Syn. *Acantholobivia incuiensis* (Rauh & Backeberg) Rauh & Backeberg, *Acantholobivia tegeleriana* (Backeberg) Backeberg, *Lobivia akersii* Rausch, *Lobivia incuiensis* Rauh & Backeberg, *Lobivia tegeleriana* Backeberg, *Lobivia tegeleriana* var. *akersii* (Rausch) Rausch, *Lobivia tegeleriana* var. *incuiensis* (Rauh & Backeberg) Rausch, *Lobivia tegeleriana* var. *puquiensis* F. Ritter
Ref. Hunt & Taylor, 1987: 92; Hunt, 1992: 59.
Endemic solitary, globular cactus. Andean II-III: dry valleys, rocky slopes. 3000-4000 m.
Note: Treated by Ritter (1981: 1329) under *Lobivia tegeleriana* with two varieties: *tegeleriana* and *puquiensis*.
Voucher: Backeberg s.n.*, Ritter 1445 (U)
Depts.: AY

Echinopsis tulhuayacensis (Ochoa ex Backeberg) Friedrich & G. Rowley
Syn. *Trichocereus tulhuayacensis* Ochoa ex Backeberg
Ref. Rowley, 1974: 98; Hunt, 1992: 59.
Endemic erect, branched cactus.
Note: Accepted provisionally by Hunt (1992). Not treated by Ritter (1981).
Voucher: Ochoa s.n.* (ZSS)
Depts.: HU

Echinopsis uyupampensis (Backeberg) Friedrich & G. Rowley
Syn. *Trichocereus uyupampensis* Backeberg
Ref. Rowley, 1974: 99; Hunt, 1992: 59.
Scandent cactus. Andean II: rocky slopes. 2500-3500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Backeberg s.n.*
Dept.: AR

Eomatucana madisoniorum (Hutchison) F. Ritter =Matucana madisoniorum (Hutchison) G. Rowley
Ref. Ritter, 1981: 1487; Hunt, 1992: 59.
Note: Treated under *Eomatucana* by Ritter (1981).

Eomatucana oreodoxus F. Ritter =Matucana oreodoxa (F. Ritter) Slaba
Ref. Ritter, 1981: 1486; Hunt, 1992: 59.

Epiphyllum floribundum Kimnach
Ref. Kimnach, 1990: 85; Hunt, 1992: 60.
Endemic epiphytic cactus. Amazonian: forests, seasonally inundated areas. 0-500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Mathias s.n.* (MO!)
Depts.: LO

Epiphyllum phyllanthus (L.) Haworth var. **phyllanthus**
Syn. *Cactus phyllanthus* L., *Cereus phyllanthus* (L.) DC., *Opuntia phyllanthus* (L.) Miller, *Phyllocactus phyllanthus* (L.) Link
Ref. Britton & Rose, 1923: 187; Kimnach, 1964: 113; Madsen, 1989: 31; Hunt, 1992: 60.
Epiphytic, scandent cactus. Andean I-II: forests. 500-2500 m.
Voucher: Hutchison 1441 (UC)
Depts.: CA, CU, PU

Erdisia apiciflora (Vaupel) Werdermann =Corryocactus apiciflorus (Vaupel) Hutchison
Ref. Rauh, 1958: 251; Ritter, 1981: 1280; Hunt, 1992: 60.

Erdisia aureispina Backeberg & Jacobsen =Corryocactus erectus (Backeberg) F. Ritter
Ref. Backeberg, 1956a: 12; Rauh, 1958: 255; Ritter, 1981: 1281; Hunt, 1992: 60.

Erdisia erecta Backeberg =Corryocactus erectus (Backeberg) F. Ritter
Ref. Rauh, 1958: 251; Ritter, 1981: 1281; Hunt, 1992: 60.

Erdisia fortalezensis F. Ritter =Corryocactus tenuiculus (Rauh & Backeberg) Hutchison
Ref. Ritter, 1964a: 116; Ritter, 1981: 1282; Hunt, 1992: 60.

Erdisia maxima Backeberg =Corryocactus apiciflorus (Vaupel) Hutchison
Ref. Rauh, 1958: 250; Ritter, 1981: 1280; Hunt, 1992: 60.

Erdisia meyenii Britton & Rose =Corryocactus aureus (Meyen) Hutchison
Ref. Britton & Rose, 1922: 105; Rauh, 1958: 249; Buxbaum, 1963: 9; Ritter, 1981: 1279; Hunt, 1992: 60.

Erdisia quadrangularis Rauh & Backeberg =Corryocactus quadrangularis (Rauh & Backeberg) F. Ritter
Ref. Backeberg, 1956a: 12; Rauh, 1958: 253; Ritter, 1981: 1280; Hunt, 1992: 61.

Erdisia sextoniana Backeberg =Cleistocactus sextonianus (Backeberg) D. Hunt
Ref. Backeberg & Knuth, 1935: 174, 411; Rauh, 1958: 298; Ritter, 1981: 1471.

Erdisia squarrosa (Vaupel) Britton & Rose =Corryocactus squarrosus (Vaupel) Hutchison
Ref. Britton & Rose, 1920: 104; Buxbaum, 1963: 9; Ritter, 1981: 1280; Hunt, 1992: 61.

Erdisia tenuicula Rauh & Backeberg =Corryocactus tenuiculus (Rauh & Backeberg) Hutchison
Ref. Backeberg, 1956a: 12; Rauh, 1958: 252; Buxbaum, 1963: 9; Ritter, 1981: 1282; Hunt, 1992: 61.

Espostoa baumannii Knize
Syn. *Espostoa baumannii* var. *arborescens* Knize
Ref. Knize, 1968b: 263; Ritter, 1981: 1451; Hunt, 1992: 62.
Endemic erect, branched cactus.
Note: Accepted provisionally by Hunt (1992). Ritter (1981) suggested that this might represent a hybrid between *Espostoa lanianuligera* and *Matucana intertexta*.
Voucher: Knize 300*, Knize 299
Depts.: AM

Espostoa baumannii var. *arborescens* Knize =Espostoa baumannii Knize
Ref. Knize, 1968b: 263; Ritter, 1981: 1451.

Espostoa blossfeldiorum (Werdermann) F. Buxbaum
Syn. *Cephalocereus blossfeldiorum* Werdermann, *Facheiroa blossfeldiorum* (Werdermann) Marshall, *Thrixanthocereus blossfeldiorum* (Werdermann) Backeberg, *Thrixanthocereus cullmannianus* F. Ritter
Ref. Ritter, 1981: 1485; Hunt, 1992: 62.
Endemic erect, branched cactus. Andean II: dry valleys, rocky slopes. 1500-2500 m.

Note: Treated by Ritter (1981) under *Thrixanthocereus*.
Voucher: Ritter 306 (U)
Depts.: CA, PI

Espostoa calva F. Ritter
Ref. Ritter, 1981: 1432; Hunt, 1992: 62.
Endemic erect, branched or columnar cactus. Andean II: dry valleys, rocky slopes. 1500-2500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1314* (U)
Depts.: AM

Espostoa dautwitzii (F. Haage) Backeberg =Espostoa lanata (H.B.K.) Britton & Rose
Ref. Hunt, 1992: 62.

Espostoa gigantea Backeberg =Neoraimondia arequipensis (Meyen) Backeberg

Espostoa huanucoensis Johnson ex F. Ritter
Ref. Ritter, 1981: 1435; Hunt, 1992: 62.
Endemic erect, branched or columnar cactus. Andean II: rocky slopes, shrublands. 1500-2000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 665* (U)
Depts.: HU

Espostoa hylaea F. Ritter
Ref. Ritter, 1964b: 143; Ritter, 1981: 1436; Hunt, 1992: 62.
Endemic erect, branched cactus. Amazonian: dry valleys. 0-500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 668* (U)

Espostoa lanata (H.B.K.) Britton & Rose
Syn. *Cactus lanatus* H.B.K., *Cephalocereus dautwitzii* (F. Haage) Houghton, *Cereus dautwitzii* (F. Haage) Orcutt, *Cereus lanatus* (H.B.K.) DC., *Cereus lanatus* subsp. *sericatus* (Backeberg) Werdermann, *Cereus sericatus* Backeberg, *Cleistocactus lanatus* (H.B.K.) A. Weber, *Espostoa dautwitzii* (F. Haage) Backeberg, *Espostoa lanata* var. *floridaensis* F. Ritter, *Espostoa lanata* var. *sericata* (Backeberg) Werdermann & Backeberg, *Espostoa laticornua* Rauh & Backeberg, *Espostoa laticornua* var. *atroviolacea* Rauh & Backeberg, *Espostoa laticornua* var. *rubens* Rauh & Backeberg, *Espostoa procera* Rauh & Backeberg, *Espostoa sericata* (Backeberg) Backeberg, *Oreocereus lanatus* (H.B.K.) Britton & Rose, *Pilocereus dautwitzii* F. Haage, *Pilocereus lanatus* (H.B.K.) A. Weber
Ref. Britton & Rose, 1920: 61; Rauh, 1958: 521; Ritter, 1981: 1437; Hunt, 1992: 62.
Erect, branched cactus. Andean I-II, Coastal: dry valleys, rocky slopes. 0-2500 m.
Note: Treated by Ritter (1981) with two varieties: *lanata* and *floridaensis*.
Voucher: Humboldt & Bonpland s.n.* (P-H&B), Rauh K88 [1956] (ZSS)
Depts.: AM, CA, LA, PI

Espostoa lanata var. *floridaensis* F. Ritter =Espostoa lanata (H.B.K.) Britton & Rose
Ref. Ritter, 1981: 1442.

Espostoa lanata var. *sericata* (Backeberg) Werdermann & Backeberg =Espostoa lanata (H.B.K.) Britton & Rose
Ref. Rauh, 1958: 521; Ritter, 1981: 1437; Madsen, 1989: 37.

Espostoa lanianuligera F. Ritter
Ref. Ritter, 1981: 1443; Hunt, 1992: 62.
Endemic erect, branched cactus. Andean II: dry valleys, rocky slopes. 2000-2500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 660* (ZSS)
Depts.: CA

Espostoa laticornua Rauh & Backeberg =Espostoa lanata (H.B.K.) Britton & Rose
Ref. Backeberg, 1956a: 35; Rauh, 1958: 523; Ritter, 1981: 1437; Madsen, 1989: 37; Hunt, 1992: 62.

Espostoa laticornua var. *atroviolacea* Rauh & Backeberg =Espostoa lanata (H.B.K.) Britton & Rose
Ref. Backeberg, 1956a: 35; Rauh, 1958: 526; Ritter, 1981: 1437; Madsen, 1989: 37.

Espostoa laticornua var. *rubens* Rauh & Backeberg =Espostoa lanata (H.B.K.) Britton & Rose
Ref. Backeberg, 1956a: 35; Rauh, 1958: 527; Ritter, 1981: 1437; Madsen, 1989: 37.

Espostoa melanostele (Vaupel) Borg
Syn. *Binghamia melanostele* (Vaupel) Britton & Rose, *Cephalocereus melanostele* Vaupel, *Cereus melanostele* (Vaupel) Werdermann, *Espostoa melanostele* fo. *inermis* (Backeberg) Krainz, *Haageocereus melanostele* (Vaupel) Marshall, nom. nud., *Pseudoespostoa melanostele* (Vaupel) Backeberg, *Pseudoespostoa melanostele* var. *inermis* Backeberg
Ref. Rauh, 1958: 518; Hunt, 1992: 62.
Endemic erect, branched cactus. Coastal: disturbed areas, rocky slopes. 500-1000 m.
Note: Treated by Ritter (1981: 1433) under *E. haagei*; Hunt (1992) indicates that this use was a misapplication.
Voucher: Weberbauer 2630* (B)
Depts.: LI

Espostoa melanostele fo. *inermis* (Backeberg) Krainz =Espostoa melanostele (Vaupel) Borg
Ref. Rauh, 1958: 520.

Espostoa mirabilis F. Ritter
Syn. *Espostoa mirabilis* var. *primigena* F. Ritter
Ref. Ritter, 1964b: 143; Ritter, 1981: 1445; Hunt, 1992: 62.
Endemic erect, branched cactus. Andean I: dry valleys, rocky slopes. 500-1000 m.
Note: Accepted provisionally by Hunt (1992). Treated by Ritter (1981) with two varieties: *mirabilis* and *primigena*.
Voucher: Ritter 679* (U), Ritter 1061 (ZSS)
Depts.: AM, CA

Espostoa mirabilis var. *primigena* F. Ritter =Espostoa mirabilis F. Ritter
Ref. Ritter, 1964b: 143; Ritter, 1981: 1446.

Espostoa nana F. Ritter
Syn. *Pseudoespostoa nana* (F. Ritter) Backeberg
Ref. Ritter, 1964b: 143; Hunt, 1992: 62.
Endemic erect, branched cactus. Andean I: rocky slopes, shrublands. 1000-1500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 166* (U)
Depts.: AN

Espostoa procera Rauh & Backeberg =Espostoa lanata (H.B.K.) Britton & Rose
Ref. Backeberg, 1956a: 35; Rauh, 1958: 527; Ritter, 1981: 1437; Madsen, 1989: 37; Hunt, 1992: 62.

Espostoa ritteri Buining
Ref. Buining, 1960: 25; Ritter, 1981: 1447; Hunt, 1992: 62.
Endemic erect, branched cactus. Amazonian: dry valleys. 0-500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 274* (ZSS)
Depts.: CA

Espostoa ruficeps F. Ritter
Ref. Ritter, 1981: 1448; Hunt, 1992: 62.
Endemic erect, branched cactus. Andean II: rocky slopes. 2000-2500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 573a* (U)
Depts.: AN

Espostoa senilis (F. Ritter) N. P. Taylor
Syn. *Thrixanthocereus senilis* F. Ritter
Ref. Taylor, 1978: 54; Ritter, 1981: 1482; Hunt, 1992: 62.
Endemic erect, branched cactus. Andean II: dry valleys, rocky slopes. 2000-2500 m.
Voucher: Ritter 569* (U)
Depts.: AN

Espostoa sericata (Backeberg) Backeberg =Espostoa lanata (H.B.K.) Britton & Rose
Ref. Ritter, 1981: 1437; Madsen, 1989: 37.

Espostoa superba F. Ritter
Ref. Ritter, 1981: 1450; Hunt, 1992: 62.
Endemic erect, branched cactus. Andean I: dry valleys, rocky slopes. 500-1000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 572* (U)
Depts.: CA

Eulychnia ritteri Cullmann
Ref. Ritter, 1981: 1259; Hunt, 1992: 63.
Endemic erect, branched or columnar cactus. Coastal: lomas, rocky slopes. 0-500 m.
Voucher: Ritter 276* (ZSS)
Depts.: AR

Facheiroa blossfeldiorum (Werdermann) Marshall =Espostoa blossfeldiorum (Werdermann) F. Buxbaum
Ref. Ritter, 1981: 1485.

Gymnanthocereus altissimus F. Ritter =Browningia altissima (F. Ritter) F. Buxbaum
Ref. Ritter, 1981: 1315.

Gymnanthocereus chlorocarpus (H.B.K.) Backeberg =Browningia chlorocarpa (H.B.K.) Marshall

Gymnanthocereus macracanthus F. Ritter
Ref. Ritter, 1981: 1317; Hunt, 1992: 65.
Endemic erect, branched cactus. Andean I: rocky slopes. 1000-1500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1062* (U)
Depts.: LL

Gymnanthocereus microspermus (Werdermann & Backeberg) Backeberg =Browningia microsperma (Werdermann & Backeberg) Marshall
Ref. Ritter, 1981: 1322.

Gymnanthocereus pilleifer F. Ritter =Browningia pilleifera (F. Ritter) Hutchison
Ref. Ritter, 1966: 118; Ritter, 1967b: 24; Hutchison, 1968: 23; Ritter, 1981: 1316; Hunt, 1992: 65.

Gymnocereus altissima (F. Ritter) Backeberg =Browningia altissima (F. Ritter) F. Buxbaum
Ref. Hunt, 1992: 68.

Gymnocereus amstutziae Rauh & Backeberg =Browningia amstutziae (Rauh & Backeberg) Hutchison ex F. Buxbaum
Ref. Backeberg, 1956a: 14; Rauh, 1958: 284; Hunt, 1992: 68.

Gymnocereus microspermus Werdermann & Backeberg =Browningia microsperma (Werdermann & Backeberg) Marshall
Ref. Rauh, 1958: 283; Ritter, 1981: 1322; Hunt, 1992: 68.

Haageocereus acanthocladus Rauh & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg, 1956a: 23; Rauh, 1958: 408; Ritter, 1981: 1400; Hunt, 1992: 68.
Note: Treated under var. *multangularis* by Ritter (1981).

Haageocereus achaetus Rauh & Backeberg =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Backeberg, 1956a: 25; Rauh, 1958: 381; Ritter, 1981: 1399; Hunt, 1992: 68.
Note: Treated under var. *deflexispinus* by Ritter (1981).

Haageocereus acranthus (Vaupel) Backeberg =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Rauh, 1958: 374; Ritter, 1981: 1397; Hunt, 1992: 68.
Note: Treated under var. *limensis* by Ritter (1981).

Haageocereus acranthus var. *crassispinus* Rauh & Backeberg =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Backeberg, 1956a: 22; Rauh, 1958: 377; Ritter, 1981: 1400.
Note: Treated under var. *metachrous* by Ritter (1981).

Haageocereus acranthus var. *fortalezenis* Rauh & Backeberg =Haageocereus fulvus (Rauh & Backeberg) F. Ritter
Ref. Backeberg, 1956a: 22; Rauh, 1958: 377; Ritter, 1981: 1393.

Haageocereus acranthus var. *metachrous* Rauh & Backeberg =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Backeberg, 1956a: 22; Rauh, 1958: 376; Ritter, 1981: 1400.
Note: Treated under var. *metachrous* by Ritter (1981).

Haageocereus akersii Backeberg, nom. illeg. =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Rauh, 1958: 416; Ritter, 1981: 1406; Hunt, 1992: 68.
Note: Listed under *H. multangularis* var. *pseudomelanostele* by Ritter (1981).

Haageocereus albisetatus (Akers) Backeberg =xHaagespostoa albisetata (Akers) G. Rowley
Ref. Rowley, 1982b: 76.

Haageocereus albisetatus (Akers) Cullmann, nom. illeg. =xHaagespostoa albisetata (Akers) G. Rowley
Ref. Rauh, 1958: 414; Eggli & Taylor, 1991: 82.

Haageocereus albispinus (Akers) Rauh & Backeberg
Syn. *Haageocereus peniculatus* Rauh & Backeberg, *Peruvocereus albispinus* Akers
Ref. Rauh, 1958: 414; Ritter, 1981: 1388; Hunt, 1992: 68.
Endemic erect, branched or columnar cactus. Andean I: dry valleys, rocky slopes. 1000-1500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Akers s.n.*
Depts.: LI

Haageocereus ambiguus Rauh & Backeberg =Haageocereus decumbens (Vaupel) Backeberg
Ref. Backeberg, 1956a: 25; Rauh, 1958: 395; Ritter, 1981: 1389; Hunt, 1992: 68.
Note: Ritter (1981) indicated that this was "ein nomen dubium delendum."

Haageocereus ambiguus var. *reductus* Rauh & Backeberg =Haageocereus decumbens (Vaupel) Backeberg
Ref. Backeberg, 1956a: 25; Rauh, 1958: 395; Ritter, 1981: 1389.
Note: Ritter (1981) indicated this was "ein nomen dubium delendum."

Haageocereus andinus F. Ritter, nom. nud. =Loxanthocereus x montanus F. Ritter
Ref. Ritter, 1981: 1463.

Haageocereus aticensis F. Ritter, nom. nud. =Haageocereus subtilispinus F. Ritter
Ref. Ritter, 1981: 1419.

Haageocereus aureispinus Rauh & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg, 1956a: 23; Rauh, 1958: 404; Ritter, 1981: 1400; Hunt, 1992: 68.
Note: Treated under var. *multangularis* by Ritter (1981).

Haageocereus aureispinus var. *fuscispinus* Rauh & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Rauh, 1958: 407; Ritter, 1981: 1400.
Note: Treated under var. *multangularis* by Ritter (1981).

Haageocereus aureispinus var. *rigidispinus* Rauh & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Rauh, 1958: 407; Ritter, 1981: 1400.
Note: Treated under *H. multangularis* var. *multangularis* by Ritter (1981).

Haageocereus australis Backeberg
Syn. *Binghamia australis* (Backeberg) Werdermann, *Haageocereus australis* fo. *nanus* F. Ritter, *Haageocereus australis* var. *acinacispinus* Rauh & Backeberg, *Haageocereus multicolorispinus* Buining
Ref. Rauh, 1958: 392; Ritter, 1980b: 1126; Hunt, 1992: 68.
Erect, branched or columnar cactus. Coastal: lomas, rocky slopes. 0-1000 m.
Note: Accepted provisionally by Hunt (1992). Peruvian distribution based on

material cited by Ritter (1980b) under fo. *nanus*.
Voucher: Ritter 126c (U)
Depts.: MO

Haageocereus australis fo. *nanus* F. Ritter =Haageocereus australis Backeberg
Ref. Ritter, 1980b: 1127.

Haageocereus australis var. *acinacispinus* Rauh & Backeberg =Haageocereus australis Backeberg
Ref. Rauh, 1958: 392.

Haageocereus chalaensis F. Ritter
Ref. Ritter, 1981: 1389; Hunt, 1992: 68.
Endemic sprawling cactus. Coastal: dry valleys, lomas, rocky slopes. 0-500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 187* (U)
Depts.: AR

Haageocereus chosicensis (Werdermann & Backeberg) Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg & Knuth, 1935: 207; Rauh, 1958: 412; Ritter, 1981: 1400; Hunt, 1992: 68.
Note: Treated under *H. multangularis* var. *multangularis* by Ritter (1981).

Haageocereus chosicensis var. *chrysacanthus* F. Ritter, nom. nud. =Haageocereus chryseus F. Ritter
Ref. Ritter, 1981: 1390.

Haageocereus chosicensis var. *dichromus* (Rauh & Backeberg) F. Ritter ex Krainz =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Ritter, 1981: 1406.
Note: Treated under var. *dichromus* by Ritter (1981).

Haageocereus chosicensis var. *marksianus* F. Ritter, nom. nud. =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Ritter, 1981: 1416.
Note: Listed under var. *turbidus* by Ritter (1981).

Haageocereus chosicensis var. *rubrispinus* (Akers) Backeberg =Haageocereus x rubrospinus (Akers) Cullmann (pro sp.)
Ref. Backeberg & Knuth, 1935: 207; Rauh, 1958: 413.

Haageocereus chrysacanthus (Akers) Backeberg, nom. illeg. =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Rauh, 1958: 415; Ritter, 1981: 1406; Hunt, 1992: 68.
Note: Treated under var. *pseudomelanostele* by Ritter (1981).

Haageocereus chrysacanthus F. Ritter, nom. nud. =Haageocereus chryseus F. Ritter
Ref. Ritter, 1981: 1390.

Haageocereus chryseus F. Ritter
Syn. *Haageocereus chosicensis* var. *chrysacanthus* F. Ritter, nom. nud., *Haageocereus chrysacanthus* F. Ritter, nom. nud.
Ref. Ritter, 1981: 1390; Hunt, 1992: 68.
Endemic climbing or sprawling cactus. Andean I: dry valleys, rocky slopes. 1000-1500 m.
Voucher: Syntypes Ritter 585* & 147a* (U)
Depts.: AN

Haageocereus clavatus (Akers) Cullmann, nom. illeg. =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Ritter, 1981: 1406; Hunt, 1992: 68.
Note: Treated under var. *pseudomelanostele* by Ritter (1981).

Haageocereus clavispinus Rauh & Backeberg =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Backeberg, 1956a: 21; Rauh, 1958: 382; Ritter, 1981: 1396.
Note: Treated under var. *limensis* by Ritter (1981).

Haageocereus climaxanthus (Werdermann) Croizat =xHaagespostoa climaxantha (Werdermann) G. Rowley
Ref. Croizat, 1942: 148; Rowley, 1982b: 76; Hunt, 1992: 68.

Haageocereus x comosus Rauh & Backeberg (pro sp.)
Ref. Backeberg, 1956a: 21; Rauh, 1958: 430; Ritter, 1981: 1389, 1411; Hunt, 1992: 68.
Endemic erect, branched or columnar cactus. Andean I: dry valleys, rocky slopes. 1000-1500 m.
Note: Listed by Hunt (1992) as a hybrid without indication of parentage.
Voucher: Rauh K27 [1956]* (ZSS), Rauh K29 [1956] (ZSS)
Depts.: LI

Haageocereus convergens F. Ritter, nom. nud. =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Ritter, 1981: 1456.
Note: Listed under *Loxanthocereus convergens* by Ritter (1981).

Haageocereus crassiareolatus Rauh & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg, 1956a: 24; Rauh, 1958: 421; Ritter, 1981: 1406; Hunt, 1992: 68.
Note: Treated under var. *dichromus* by Ritter (1981).

Haageocereus crassiareolatus var. *smaragdisepalus* Rauh & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg, 1956a: 24; Ritter, 1981: 1406.
Note: Treated under var. *dichromus* by Ritter (1981).

Haageocereus decumbens (Vaupel) Backeberg
Syn. *Binghamia decumbens* (Vaupel) Werdermann, *Borzicactus decumbens* (Vaupel) Britton & Rose, *Cereus decumbens* Vaupel, *Haageocereus ambiguus* Rauh & Backeberg, *Haageocereus ambiguus* var. *reductus* Rauh & Backeberg, *Haageocereus decumbens* var. *brevispinus* F. Ritter, *Haageocereus decumbens* var. *spinosior* Backeberg, *Haageocereus litoralis* Rauh & Backeberg, *Haageocereus mamillatus* Rauh & Backeberg, *Haageocereus mamillatus* var. *brevior* Rauh & Backeberg, *Haageocereus oconacamanensis* Rauh & Backeberg
Ref. Rauh, 1958: 391; Ritter, 1981: 1392; Hunt, 1992: 68.
Endemic erect, branched or columnar cactus. Coastal: dry valleys, lomas. 0-500 m.
Note: Treated by Ritter (1981) with three varieties: *decumbens*, *brevispinus*, and *spinosior*.
Voucher: Weberbauer 1550* (B), Ritter 1024 (U)
Depts.: AR

Haageocereus decumbens var. *brevispinus* F. Ritter =Haageocereus decumbens (Vaupel) Backeberg
Ref. Ritter, 1981: 1392.
Note: Treated as an accepted taxon by Ritter (1981).

Haageocereus decumbens var. *spinosior* Backeberg =Haageocereus decumbens (Vaupel) Backeberg
Ref. Ritter, 1981: 1392.
Note: Treated as an accepted taxon by Ritter (1981).

Haageocereus deflexispinus Rauh & Backeberg =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Backeberg, 1956a: 22; Rauh, 1958: 380; Ritter, 1981: 1399; Hunt, 1992: 68.
Note: Treated under var. *deflexispinus* by Ritter (1981).

Haageocereus deserticola F. Ritter, nom. nud. =Loxanthocereus x deserticola F. Ritter (pro sp.)
Ref. Ritter, 1981: 1458.

Haageocereus dichromus Rauh & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg, 1956a: 24; Rauh, 1958: 420; Ritter, 1981: 1406; Hunt, 1992: 68.
Note: Treated under var. *dichromus* by Ritter (1981).

Haageocereus dichromus var. *pallidior* Rauh & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg, 1956a: 24; Rauh, 1958: 420.

Haageocereus divaricatispinus Rauh & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg, 1956a: 26; Rauh, 1958: 432; Ritter, 1981: 1400; Hunt, 1992: 68.

Note: Treated under var. *multangularis* by Ritter (1981).

Haageocereus elegans F. Ritter, nom. nud. =Haageocereus icosagonoides Rauh & Backeberg
Ref. Ritter, 1981: 1394.

Haageocereus eremiticus F. Ritter, nom. nud. =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Ritter, 1981: 1459.
Note: Listed under *Loxanthocereus eremiticus* by Ritter (1981).

Haageocereus faustianus (Backeberg) F. Ritter =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Ritter, 1981: 1459.

Haageocereus ferox F. Ritter, nom. nud. =Echinopsis cephalomacrostibas (Werdermann & Backeberg) Friedrich & G. Rowley
Ref. Ritter, 1981: 1353.
Note: Listed under *Weberbauerocereus cephalomacrostibas* by Ritter (1981).

Haageocereus fulvus (Rauh & Backeberg) F. Ritter
Syn. *Haageocereus acranthus* var. *fortalezensis* Rauh & Backeberg, *Haageocereus fulvus* var. *yautanensis* F. Ritter
Ref. Ritter, 1981: 1393; Hunt, 1992: 68.
Endemic sprawling cactus. Andean I-II: dry valleys, rocky slopes. 1000-2000 m.
Note: Accepted provisionally by Hunt (1992). Treated by Ritter (1981) with two varieties: *fulvus* and *yautanensis*.
Voucher: Rauh K51a [1956]* (ZSS), Ritter 584 (U)
Depts.: AN

Haageocereus fulvus var. *yautanensis* F. Ritter =Haageocereus fulvus (Rauh & Backeberg) F. Ritter
Ref. Ritter, 1981: 1393.

Haageocereus horrens Rauh & Backeberg =Haageocereus pacalaensis Backeberg
Ref. Backeberg, 1956a: 22; Rauh, 1958: 411; Ritter, 1981: 1417; Hunt, 1992: 68.
Note: Treated under var. *pseudoversicolor* by Ritter (1981).

Haageocereus horrens var. *sphaerocarpus* Rauh & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg, 1956a: 22; Rauh, 1958: 411; Ritter, 1981: 1400.
Note: Treated under var. *multangularis* by Ritter (1981).

Haageocereus humifusus (Werdermann & Backeberg) Backeberg =Haageocereus versicolor (Werdermann & Backeberg) Backeberg
Ref. Ritter, 1981: 1423.
Note: Treated under var. *humifusus* by Ritter (1981).

Haageocereus hystrix F. Ritter, nom. nud. =Loxanthocereus x montanus F. Ritter
Ref. Ritter, 1981: 1463.

Haageocereus icensis Backeberg ex F. Ritter
Ref. Ritter, 1981: 1394; Hunt, 1992: 68.
Endemic climbing or sprawling cactus. Coastal: lomas, rocky slopes. 0-500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 146 p.p.* (ZSS)
Depts.: IC

Haageocereus icosagonoides fo. *heteracanthus* F. Ritter =Haageocereus icosagonoides Rauh & Backeberg
Ref. Ritter, 1981: 1395.

Haageocereus icosagonoides Rauh & Backeberg
Syn. *Haageocereus elegans* F. Ritter, nom. nud., *Haageocereus icosagonoides* fo. *heteracanthus* F. Ritter, *Haageocereus versicolor* var. *elegans* F. Ritter, nom. nud.
Ref. Backeberg, 1956a: 23; Rauh, 1958: 402; Ritter, 1981: 1394; Hunt, 1992: 68.
Endemic climbing or sprawling cactus. Coastal: dry valleys, rocky slopes. 0-1000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Rauh K86 [1956]* (ZSS), Ritter 169a (U)
Depts.: LA

Haageocereus imperialensis F. Ritter, nom. nud. =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Ritter, 1981: 1468.
Note: Listed under *Loxanthocereus pucaranensis* by Ritter (1981).

Haageocereus lachayensis Rauh & Backeberg =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Backeberg, 1956a: 22; Rauh, 1958: 382; Ritter, 1981: 1396; Hunt, 1992: 68.
Note: Treated under var. *limensis* by Ritter (1981).

Haageocereus lanugispinus F. Ritter
Syn. *Pygmaeocereus densiaculeatus* Backeberg
Ref. Ritter, 1981: 1395; Hunt, 1992: 68.
Endemic sprawling cactus. Andean II: rocky slopes, shrublands. 2000-2500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 583* (U)
Depts.: AN, LI

Haageocereus laredensis Backeberg =Haageocereus pacalaensis Backeberg
Ref. Backeberg & Knuth, 1935: 208, 412; Rauh, 1958: 403; Ritter, 1981: 1416; Hunt, 1992: 69.
Note: Treated under var. *pacalaensis* by Ritter (1981).

Haageocereus laredensis var. *longispinus* Rauh & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg, 1956a: 23; Rauh, 1958: 403; Ritter, 1981: 1400.
Note: Treated under var. *multangularis* by Ritter (1981).

Haageocereus laredensis var. *montanus* F. Ritter, nom. nud. =Haageocereus pacalaensis Backeberg
Ref. Ritter, 1981: 1417.

Haageocereus laredensis var. *pseudoversicolor* F. Ritter =Haageocereus pacalaensis Backeberg
Ref. Ritter, 1981: 1417.
Note: Treated under var. *pseudoversicolor* by Ritter (1981).

Haageocereus limensis (Salm-Dyck) F. Ritter
Syn. *Binghamia acrantha* (Vaupel) Britton & Rose, *Binghamia multangularis* var. *limensis* (Salm-Dyck) Borg, *Binghamia olowinskiana* (Backeberg) Marshall, *Cereus acranthus* Vaupel, *Cereus limensis* Salm-Dyck, *Haageocereus achaetus* Rauh & Backeberg, *Haageocereus acranthus* (Vaupel) Backeberg, *Haageocereus acranthus* var. *crassispinus* Rauh & Backeberg, *Haageocereus acranthus* var. *metachrous* Rauh & Backeberg, *Haageocereus clavispinus* Rauh & Backeberg, *Haageocereus deflexispinus* Rauh & Backeberg, *Haageocereus lachayensis* Rauh & Backeberg, *Haageocereus limensis* var. *andicola* F. Ritter, *Haageocereus limensis* var. *brevispinus* F. Ritter, *Haageocereus limensis* var. *deflexispinus* (Rauh & Backeberg) F. Ritter, *Haageocereus limensis* var. *metachrous* (Rauh & Backeberg) F. Ritter, *Haageocereus limensis* var. *zonatus* (Rauh & Backeberg) F. Ritter, *Haageocereus olowinskianus* Backeberg, *Haageocereus olowinskianus* subvar. *erythranthus* Rauh & Backeberg, *Haageocereus olowinskianus* subvar. *rubiflorior* Rauh & Backeberg, nom. illeg., *Haageocereus olowinskianus* var. *repandus* Rauh & Backeberg, *Haageocereus olowinskianus* var. *rubriflorior* Rauh & Backeberg, *Haageocereus olowinskianus* var. *subintertextus* Rauh & Backeberg, *Haageocereus pseudoacranthus* Rauh & Backeberg, *Haageocereus zonatus* Rauh & Backeberg
Ref. Ritter, 1981: 1396; Hunt, 1992: 69.
Endemic climbing or sprawling cactus. Andean I-II, Coastal: desert, lomas, rocky slopes. 500-2500 m.
Note: Treated by Ritter (1981) with six varieties: *limensis*, *andicola*, *brevispinus*, *deflexispinus*, *metachrous*, and *zonatus*.
Voucher: Ritter 134 (U)
Depts.: LI

Haageocereus limensis var. *andicola* F. Ritter =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Ritter, 1981: 1397.
Note: Treated as an accepted taxon by Ritter (1981).

Haageocereus limensis var. *brevispinus* F. Ritter =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Ritter, 1981: 1399.
Note: Treated as an accepted taxon by Ritter (1981).

Haageocereus limensis var. *deflexispinus* (Rauh & Backeberg) F. Ritter =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Ritter, 1981: 1399.
Note: Treated as an accepted taxon by Ritter (1981).

Haageocereus limensis var. *metachrous* (Rauh & Backeberg) F. Ritter =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Ritter, 1981: 1400.

Haageocereus limensis var. *zonatus* (Rauh & Backeberg) F. Ritter =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Ritter, 1981: 1400.
Note: Treated as an accepted taxon by Ritter (1981).

Haageocereus litoralis Rauh & Backeberg =Haageocereus decumbens (Vaupel) Backeberg
Ref. Backeberg, 1956a: 26; Rauh, 1958: 394; Ritter, 1981: 1420; Hunt, 1992: 69.

Haageocereus longiareolatus Rauh & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg, 1956a: 21; Rauh, 1958: 418; Ritter, 1981: 1400; Hunt, 1992: 69.

Haageocereus marksianus F. Ritter, nom. nud. =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Ritter, 1981: 1416.
Note: Listed under var. *turbidus* by Ritter (1981).

Haageocereus melanostele (Vaupel) Marshall, nom. nud. =Espostoa melanostele (Vaupel) Borg
Ref. Marshall & Bock, 1941: 99.

Haageocereus montanus F. Ritter, nom. nud. =Loxanthocereus x montanus F. Ritter (pro sp.)
Ref. Ritter, 1981: 1463.

Haageocereus multangularis (Willdenow) F. Ritter
Syn. *Binghamia chosicensis* (Werdermann & Backeberg) J. West, *Binghamia multangularis* (Willdenow) Britton & Rose, *Binghamia pseudomelanostele* (Werdermann & Backeberg) Backeberg, *Cactus multangularis* Willdenow, *Cereus chosicensis* Werdermann & Backeberg, *Cereus multangularis* (Willdenow) Haworth, *Cereus pseudomelanostele* Werdermann & Backeberg, *Echinocereus multangularis* (Willdenow) Ruempler, *Haageocereus acanthocladus* Rauh & Backeberg, *Haageocereus akersii* Backeberg, nom. illeg., *Haageocereus aureispinus* Rauh & Backeberg, *Haageocereus aureispinus* var. *fuscispinus* Rauh & Backeberg, *Haageocereus aureispinus* var. *rigidispinus* Rauh & Backeberg, *Haageocereus chosicensis* (Werdermann & Backeberg) Backeberg, *Haageocereus chosicensis* var. *dichromus* (Rauh & Backeberg) F. Ritter ex Krainz, *Haageocereus chosicensis* var. *marksianus* F. Ritter, nom. nud., *Haageocereus chrysacanthus* (Akers) Backeberg, nom. illeg., *Haageocereus clavatus* (Akers) Cullmann, nom. illeg., *Haageocereus crassiareolatus* Rauh & Backeberg, *Haageocereus crassiareolatus* var. *smaragdisepalus* Rauh & Backeberg, *Haageocereus dichromus* Rauh & Backeberg, *Haageocereus dichromus* var. *pallidior* Rauh & Backeberg, *Haageocereus divaricatispinus* Rauh & Backeberg, *Haageocereus horrens* var. *sphaerocarpus* Rauh & Backeberg, *Haageocereus laredensis* var. *longispinus* Rauh & Backeberg, *Haageocereus longiareolatus* Rauh & Backeberg, *Haageocereus marksianus* F. Ritter, nom. nud., *Haageocereus multangularis* var. *aureus* F. Ritter, nom. nud., *Haageocereus multangularis* var. *dichromus* (Rauh & Backeberg) F. Ritter, *Haageocereus multangularis* var. *pseudomelanostele* (Backeberg) F. Ritter, *Haageocereus multangularis* var. *turbidus* (Rauh & Backeberg) F. Ritter, *Haageocereus pacalaensis* var. *longispinus* (Rauh & Backeberg) Krainz, *Haageocereus pachystele* Rauh & Backeberg, *Haageocereus piliger* Rauh & Backeberg, *Haageocereus pseudomelanostele* (Werdermann & Backeberg) Backeberg, *Haageocereus pseudomelanostele* var. *carminiflorus* Rauh & Backeberg, *Haageocereus pseudomelanostele* var. *chrysacanthus* (Akers) Krainz, *Haageocereus pseudomelanostele* var. *clavatus* (Akers) Backeberg, *Haageocereus pseudomelanostele* var. *setosus* (Akers) Backeberg, *Haageocereus rigidispinus* Rauh & Backeberg, *Haageocereus salmonoideus* var. *rubrispinus* Rauh, *Haageocereus setosus* (Akers) Backeberg, *Haageocereus setosus* var. *longicoma* (Akers) Backeberg, *Haageocereus symmetros* Rauh & Backeberg, *Haageocereus turbidus* Rauh & Backeberg, *Haageocereus turbidus* var. *maculatus* Rauh & Backeberg, *Haageocereus viridiflorus* (Akers) Backeberg, *Haageocereus zehnderi* Rauh & Backeberg, *Loxanthocereus casmaensis* F. Ritter, nom. nud., *Peruvocereus chrysacanthus* Akers, *Peruvocereus clavatus* Akers, *Peruvocereus multangularis* (Willdenow) Akers, *Peruvocereus setosus* Akers, *Peruvocereus setosus* var. longicoma Akers, *Peruvocereus viridiflorus* Akers
Ref. Ritter, 1981: 1400; Hunt, 1992: 69.
Endemic erect, branched cactus. Andean I-II, Coastal: desert, dry valleys, rocky slopes, shrublands. 500-2000 m.
Note: Treated by Ritter (1981) with four varieties: *multangularis*, *dichromus*, *pseudomelanostele*, and *turbidus*.
Voucher: Ritter 133 (U)
Depts.: IC, LI

Haageocereus multangularis var. *aureus* F. Ritter, nom. nud. =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Ritter, 1981: 1405.

Haageocereus multangularis var. *dichromus* (Rauh & Backeberg) F. Ritter =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Ritter, 1981: 1406.

Haageocereus multangularis var. *pseudomelanostele* (Backeberg) F. Ritter =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Ritter, 1981: 1406.
Note: Treated as an accepted taxon by Ritter (1981).

Haageocereus multangularis var. *turbidus* (Rauh & Backeberg) F. Ritter =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Ritter, 1981: 1416.
Note: Treated as an accepted taxon by Ritter (1981).

Haageocereus multicolorispinus Buining =Haageocereus australis Backeberg
Ref. Ritter, 1980b: 1126; Hunt, 1992: 69.

Haageocereus neglectus F. Ritter, nom. nud. =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Ritter, 1981: 1465.
Note: Listed under *Loxanthocereus neglectus* by Ritter (1981).

Haageocereus ocona-camanensis Rauh & Backeberg =Haageocereus decumbens (Vaupel) Backeberg

Ref. Backeberg, 1956a: 26; Ritter, 1981: 1392.
Note: Treated under var. *decumbens* by Ritter (1981).

Haageocereus olowinskianus Backeberg =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Rauh, 1958: 384; Ritter, 1981: 1396; Hunt, 1992: 69.
Note: Treated under var. *limensis* by Ritter (1981).

Haageocereus olowinskianus subvar. *erythranthus* Rauh & Backeberg =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Backeberg, 1956a: 24; Rauh, 1958: 386; Ritter, 1981: 1396.
Note: Treated under var. *limensis* by Ritter (1981).

Haageocereus olowinskianus subvar. *rubiflorior* Rauh & Backeberg, nom. illeg. =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Rauh, 1958: 387; Ritter, 1991: 1397.
Note: Treated under var. *limensis* by Ritter (1981).

Haageocereus olowinskianus var. *repandus* Rauh & Backeberg =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Backeberg, 1956a: 24; Rauh, 1958: 384; Ritter, 1981: 1397.
Note: Treated under var. *limensis* by Ritter (1981).

Haageocereus olowinskianus var. *rubriflorior* Rauh & Backeberg =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Backeberg, 1956a: 24; Rauh, 1958: 387; Ritter, 1981: 1397.
Note: Treated under var. *limensis* by Ritter (1981).

Haageocereus olowinskianus var. *subintertextus* Rauh & Backeberg =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Backeberg, 1956a: 24; Rauh, 1958: 387; Ritter, 1981: 1397.
Note: Treated under var. *limensis* by Ritter (1981).

Haageocereus pacalaensis Backeberg
Syn. *Binghamia laredensis* (Backeberg) Werdermann, *Binghamia pacalaensis* (Backeberg) Werdermann, *Cereus pacalaensis* Backeberg, nom. nud., *Cereus pseudomelanostele* var. *laredensis* Backeberg, *Haageocereus horrens* Rauh & Backeberg, *Haageocereus laredensis* Backeberg, *Haageocereus laredensis* var. *montanus* F. Ritter, nom. nud., *Haageocereus laredensis* var. *pseudoversicolor* F. Ritter, *Haageocereus pacalaensis* var. *laredensis* (Backeberg) Krainz, *Haageocereus pacalaensis* var. *montanus* F. Ritter, nom. nud., *Haageocereus pacalaensis* var. *pseudoversicolor* (Rauh & Backeberg) F. Ritter ex Krainz, *Haageocereus pacalaensis* var. *repens* (Rauh & Backeberg) Krainz, *Haageocereus pseudoversicolor* Rauh & Backeberg, *Haageocereus repens* Rauh & Backeberg, *Haageocereus tenuispinus* Rauh & Backeberg, *Loxanthocereus clavispinus* Rauh & Backeberg
Ref. Rauh, 1958: 404; Ritter, 1981: 1416; Hunt, 1992: 69.
Endemic climbing or sprawling cactus. Andean I, Coastal: desert, rocky slopes. 0-1500 m.
Note: Accepted provisionally by Hunt (1992). Treated by Ritter (1981) with two varieties: *pacalaensis* and *pseudoversicolor*.
Voucher: Ritter 294 (U)
Depts.: AN, LA, LL

Haageocereus pacalaensis var. *laredensis* (Backeberg) Krainz =Haageocereus pacalaensis Backeberg
Ref. Ritter, 1981: 1416.
Note: Treated under var. *pacalaensis* by Ritter (1981).

Haageocereus pacalaensis var. *longispinus* (Rauh & Backeberg) Krainz =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Ritter, 1981: 1400.
Note: Treated under var. *multangularis* by Ritter (1981).

Haageocereus pacalaensis var. *montanus* F. Ritter, nom. nud. =Haageocereus pacalaensis Backeberg
Ref. Ritter, 1981: 1417.

Haageocereus pacalaensis var. *pseudoversicolor* (Rauh & Backeberg) F. Ritter ex Krainz =Haageocereus pacalaensis Backeberg
Ref. Ritter, 1981: 1417.
Note: Treated as an accepted taxon by Ritter (1981).

Haageocereus pacalaensis var. *repens* (Rauh & Backeberg) Krainz =Haageocereus pacalaensis Backeberg
Ref. Ritter, 1981: 1416.
Note: Treated under var. *pacalaensis* by Ritter (1981).

Haageocereus pacaranensis F. Ritter, nom. nud. =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Ritter, 1981: 1468.
Note: Listed under *Loxanthocereus pucaranensis* by Ritter (1981).

Haageocereus pacaranensis var. *tenuispinus* F. Ritter, nom. nud. =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Ritter, 1981: 1466.
Note: Listed under *Loxanthocereus neglectus* var. *chimbotensis* by Ritter (1981).

Haageocereus pachystele Rauh & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg, 1956a: 24; Rauh, 1958: 434; Ritter, 1981: 1400; Hunt, 1992: 69.
Note: Treated under var. *multangularis* by Ritter (1981).

Haageocereus paradoxus Rauh & Backeberg =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Backeberg, 1956a: 21; Ritter, 1981: 1459; Hunt, 1992: 69.

Haageocereus peculiaris (Rauh & Backeberg) F. Ritter =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Ritter, 1981: 1470; Hunt, 1992: 69.

Haageocereus peniculatus Rauh & Backeberg =Haageocereus albispinus (Akers) Rauh & Backeberg
Ref. Backeberg, 1956a: 21; Ritter, 1981: 1388; Hunt, 1992: 69.

Haageocereus piliger Rauh & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg, 1956a: 25; Rauh, 1958: 415; Ritter, 1981: 1406; Hunt, 1992: 69.
Note: Treated under var. *pseudomelanostele* by Ritter (1981).

Haageocereus platinospinus (Werdermann & Backeberg) Backeberg
Syn. *Binghamia platinospina* (Werdermann & Backeberg) Werdermann, *Borzicactus platinospinus* (Werdermann & Backeberg) Borg, *Cereus platinospinus* Werdermann & Backeberg, *Haageocereus platinospinus* var. *pluriflorus* (Rauh & Backeberg) F. Ritter, *Haageocereus pluriflorus* Rauh & Backeberg
Ref. Backeberg & Knuth, 1935: 209; Rauh, 1958: 391; Ritter, 1981: 1418; Hunt, 1992: 69.
Endemic climbing or sprawling cactus. Andean I-II: dry valleys, rocky slopes, shrublands. 1000-2000 m.
Note: Accepted provisionally by Hunt (1992). Treated by Ritter (1981) with two varieties: *platinospinus* and *pluriflorus*.
Voucher: Ritter 318 (U)
Depts.: AR, TA

Haageocereus platinospinus var. *pluriflorus* (Rauh & Backeberg) F. Ritter =Haageocereus platinospinus (Werdermann & Backeberg) Backeberg
Ref. Ritter, 1981: 1418.
Note: Treated as an accepted taxon by Ritter (1981).

Haageocereus pluriflorus Rauh & Backeberg =Haageocereus platinospinus (Werdermann & Backeberg) Backeberg
Ref. Backeberg, 1956a: 23; Rauh, 1958: 389; Ritter, 1981: 1418; Hunt, 1992: 69.
Note: Treated under *H. pluriflorus* by Ritter (1981).

Haageocereus pseudoacranthus Rauh & Backeberg =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Backeberg, 1956a: 23; Rauh, 1958: 380; Ritter, 1981: 1399; Hunt, 1992: 69.
Note: Treated under var. *delfexispinus* by Ritter (1981).

Haageocereus pseudomelanostele (Werdermann & Backeberg) Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Ritter, 1981: 1406; Rauh, 1958: 426; Hunt, 1992: 69.
Note: Treated under var. *pseudomelanostele* by Ritter (1981).

Haageocereus pseudomelanostele var. *carminiflorus* Rauh & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg, 1956a: 21; Rauh, 1958: 428; Ritter, 1981: 1406.
Note: Treated under var. *pseudomelanostele* by Ritter (1981).

Haageocereus pseudomelanostele var. *chrysacanthus* (Akers) Krainz =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Ritter, 1981: 1406.
Note: Treated under var. *pseudomelanostele* by Ritter (1981).

Haageocereus pseudomelanostele var. *clavatus* (Akers) Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Rauh, 1958: 429; Ritter, 1981: 1406.
Note: Treated under var. *pseudomelanostele* by Ritter (1981).

Haageocereus pseudomelanostele var. *setosus* (Akers) Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Ritter, 1981: 1406.
Note: Treated under var. *pseudomelanostele* by Ritter (1981).

Haageocereus pseudoversicolor Rauh & Backeberg =Haageocereus pacalaensis Backeberg
Ref. Backeberg, 1956a: 23; Rauh, 1958: 401; Ritter, 1981: 1417; Hunt, 1992: 69.
Note: Accepted as a variety of *H. pacalaensis* by Ritter (1981).

Haageocereus repens Rauh & Backeberg =Haageocereus pacalaensis Backeberg
Ref. Backeberg, 1956a: 26; Rauh, 1958: 398; Ritter, 1981: 1416; Hunt, 1992: 69.
Note: Treated under var. *pacalaensis* by Ritter (1981).

Haageocereus rigidispinus Rauh & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg, 1956a: 26; Ritter, 1981: 1400.
Note: Treated under var. *multangularis* by Ritter (1981).

Haageocereus x rubrospinus (Akers) Cullmann (pro sp.)
Syn. *Haageocereus chosicensis* var. *rubrispinus* (Akers) Backeberg, *Peruvocereus rubrispinus* Akers
Ref. Hunt, 1992: 69.
Note: Listed by Hunt (1992) as a hybrid without indication of parentage. According to Eggli & Taylor (1992: 85) the combination by Cullmann is invalid.
Depts.: LI

Haageocereus x salmonoideus (Akers) Backeberg (pro sp.)
Syn. *Peruvocereus salmonoideus* Akers
Ref. Rauh, 1958: 429; Hunt, 1992: 69.
Note: Listed by Hunt (1992) as a hybrid without indication of parentage.
Depts.: LI

Haageocereus salmonoideus var. *rubrispinus* Rauh =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Ritter, 1981: 1400.
Note: Treated under *H. multangularis* var. *multangularis* by Ritter (1981).

Haageocereus x seticeps Rauh & Backeberg (pro sp.)
Syn. *Haageocereus seticeps* var. *robustispinus* Rauh & Backeberg
Ref. Backeberg, 1956a: 21; Rauh, 1958: 423; Ritter, 1981: 1389, 411; Hunt, 1992: 69.
Andean I. 500-1000 m.
Note: Listed by Hunt (1992) as a hybrid without indication of parentage.
Voucher: Rauh K43 [1956]* (ZSS)
Depts.: LI

Haageocereus seticeps var. *robustispinus* Rauh & Backeberg =Haageocereus x seticeps Rauh & Backeberg (pro sp.)
Ref. Backeberg, 1956a: 21; Rauh, 1958: 424.

Haageocereus setosus (Akers) Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Rauh, 1958: 414; Ritter, 1981: 1406; Hunt, 1992: 69.
Note: Treated under var. *pseudomelanostele* by Ritter (1981).

Haageocereus setosus var. longicoma (Akers) Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Rauh, 1958: 414.

Haageocereus x smaragdiflorus Rauh & Backeberg (pro sp.)
Ref. Backeberg, 1956a: 21; Rauh, 1958: 419; Ritter, 1981: 1388, 1411; Hunt, 1992: 69.
Andean I. 1000-1500 m.
Note: Listed by Hunt (1992) as a hybrid without indication of parentage.
Voucher: Rauh K33 [1956]* (ZSS)
Depts.: LI

Haageocereus subtilispinus F. Ritter
Syn. *Haageocereus aticensis* F. Ritter, nom. nud.
Ref. Ritter, 1981: 1419; Hunt, 1992: 69.
Endemic sprawling cactus. Coastal: desert, lomas, rocky slopes. 0-500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 582* (U)
Depts.: AR

Haageocereus symmetros Rauh & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg, 1956a: 24; Rauh, 1958: 430; Ritter, 1981: 1406; Hunt, 1992: 69.
Note: Treated under var. *dichromus* by Ritter (1981).

Haageocereus talarensis Backeberg, nom. nud. =Haageocereus versicolor (Werdermann & Backeberg) Backeberg
Ref. Ritter, 1981: 1422.
Note: Listed under var. *fuscus* by Ritter (1981).

Haageocereus tenuis F. Ritter
Ref. Ritter, 1981: 1421; Hunt, 1992: 69.
Endemic climbing or sprawling cactus. Coastal: dry valleys, rocky slopes. 0-500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 126e* (U)
Depts.: LI

Haageocereus tenuispinus Rauh & Backeberg =Haageocereus pacalaensis Backeberg
Ref. Backeberg, 1956a: 22; Rauh, 1958: 409; Ritter, 1981: 1416; Hunt, 1992: 69.
Note: Treated under var. *pacalaensis* by Ritter (1981).

Haageocereus turbidus Rauh & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg, 1956a: 25; Rauh, 1958: 425; Ritter, 1981: 1416; Hunt, 1992: 69.
Note: Treated under var. *turbidus* by Ritter (1981).

Haageocereus turbidus var. *maculatus* Rauh & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg, 1956a: 25; Rauh, 1958: 426; Ritter, 1981: 1416.
Note: Treated under var. *turbidus* by Ritter (1981).

Haageocereus variabilis F. Ritter, nom. nud. =Cleistocactus sextonianus (Backeberg) D. Hunt
Ref. Ritter, 1981: 1473.
Note: Listed under *Loxanthocereus variabilis* by Ritter (1981).

Haageocereus versicolor (Werdermann & Backeberg) Backeberg
Syn. *Binghamia versicolor* (Werdermann & Backeberg) J. West, *Cereus*

versicolor var. *humifusus* Werdermann & Backeberg, *Cereus versicolor* var. *lasiacanthus* Werdermann & Backeberg, *Cereus versicolor* var. *xanthacanthus* Werdermann & Backeberg, *Cereus versicolor* Werdermann & Backeberg, *Haageocereus humifusus* (Werdermann & Backeberg) Backeberg, *Haageocereus talarensis* Backeberg, nom. nud., *Haageocereus versicolor* var. atroferrugineus Backeberg, nom. nud., *Haageocereus versicolor* var. *aureispinus* Backeberg, *Haageocereus versicolor* var. *catacanthus* Rauh & Backeberg, *Haageocereus versicolor* var. *fuscus* Backeberg, *Haageocereus versicolor* var. *humifusus* (Werdermann & Backeberg) Backeberg, *Haageocereus versicolor* var. *lasiacanthus* (Werdermann & Backeberg) Backeberg, *Haageocereus versicolor* var. *paitanus* F. Ritter, nom. nud., *Haageocereus versicolor* var. *proliferus* Rauh, nom. illeg., *Haageocereus versicolor* var. *xanthacanthus* (Werdermann & Backeberg) Backeberg
Ref. Rauh, 1958: 399; Ritter, 1981: 1422; Hunt, 1992: 69.
Endemic climbing or sprawling cactus. Andean I, Coastal: dry valleys, rocky slopes, shrublands. 0-1500 m.
Note: Treated by Ritter (1981) with three varieties: *versicolor*, *fuscus*, and *humifusus*. Ritter (1981) did not treat var. *proliferus* Rauh.
Voucher: Backeberg s.n.*, Ritter 302* (U)
Depts.: LA, PI, TU

Haageocereus versicolor var. *atroferrugineus* Backeberg, nom. nud. =Haageocereus versicolor (Werdermann & Backeberg) Backeberg
Ref. Rauh, 1958: 401.

Haageocereus versicolor var. *aureispinus* Backeberg =Haageocereus versicolor (Werdermann & Backeberg) Backeberg
Ref. Rauh, 1958: 399; Ritter, 1981: 1422.
Note: Treated under var. *versicolor* by Ritter (1981).

Haageocereus versicolor var. *catacanthus* Rauh & Backeberg =Haageocereus versicolor (Werdermann & Backeberg) Backeberg
Ref. Backeberg, 1956a: 23; Rauh, 1958: 401; Ritter, 1981: 1422.
Note: Treated under var. *versicolor* by Ritter (1981).

Haageocereus versicolor var. *elegans* F. Ritter, nom. nud. =Haageocereus icosagonoides Rauh & Backeberg
Ref. Ritter, 1981: 1394.
Note: Listed under *H. icosagonoides* by Ritter (1981).

Haageocereus versicolor var. *fuscus* Backeberg =Haageocereus versicolor (Werdermann & Backeberg) Backeberg
Ref. Rauh, 1958: 401; Ritter, 1981: 1422.
Note: Treated as an accepted taxon by Ritter (1981).

Haageocereus versicolor var. *humifusus* (Werdermann & Backeberg) Backeberg =Haageocereus versicolor (Werdermann & Backeberg) Backeberg
Ref. Rauh, 1958: 401; Ritter, 1981: 1423.
Note: Treated as an accepted taxon by Ritter (1981).

Haageocereus versicolor var. *lasiacanthus* (Werdermann & Backeberg) Backeberg =Haageocereus versicolor (Werdermann & Backeberg) Backeberg
Ref. Rauh, 1958: 399; Ritter, 1981: 1422.

Haageocereus versicolor var. *paitanus* F. Ritter, nom. nud. =Haageocereus versicolor (Werdermann & Backeberg) Backeberg
Ref. Ritter, 1981: 1422.
Note: Listed under var. *fuscus* by Ritter (1981).

Haageocereus versicolor var. *proliferus* Rauh, nom. illeg. =Haageocereus versicolor (Werdermann & Backeberg) Backeberg
Note: Not treated by Ritter (1981).

Haageocereus versicolor var. *xanthacanthus* (Werdermann & Backeberg) Backeberg =Haageocereus versicolor (Werdermann & Backeberg) Backeberg
Ref. Rauh, 1958: 401; Ritter, 1981: 1422.

Haageocereus viridiflorus (Akers) Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Rauh, 1958: 404; Ritter, 1981: 1400; Hunt, 1992: 69.
Note: Treated under *H. multangularis* var. *multangularis* by Ritter (1981).

Haageocereus vulpes F. Ritter
Ref. Ritter, 1981: 1423; Hunt, 1992: 69.
Endemic sprawling cactus. Coastal: dry valleys, lomas. 0-500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1059* (U)
Depts.: LI

Haageocereus weberbaueri (Schumann ex Vaupel) D. Hunt =Weberbauerocereus weberbaueri (Schumann ex Vaupel) Backeberg
Ref. Hunt & Taylor, 1987: 92; Hunt, 1992: 69.

Haageocereus zangalensis F. Ritter
Ref. Ritter, 1981: 1424; Hunt, 1992: 69.
Endemic sprawling cactus. Andean II: dry valleys, rocky slopes. 1500-2000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1074* (U)
Depts.: CA

Haageocereus zehnderi Rauh & Backeberg =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Backeberg, 1956a: 23; Rauh, 1958: 416; Ritter, 1981: 1424; Hunt, 1992: 69.
Note: Treated by Ritter (1981) as a "nom. dubium delendum."

Haageocereus zonatus Rauh & Backeberg =Haageocereus limensis (Salm-Dyck) F. Ritter
Ref. Backeberg, 1956a: 22; Rauh, 1958: 378; Ritter, 1981: 1400; Hunt, 1992: 69.
Note: Treated under var. *zonatus* by Ritter (1981).

xHaagespostoa albisetata (Akers) G. Rowley
Syn. *Haageocereus albisetatus* (Akers) Backeberg, *Haageocereus albisetatus* (Akers) Cullmann, nom. illeg., *Neobinghamia multiareolata* Rauh & Backeberg, *Neobinghamia multiareolata* var. *superba* Rauh & Backeberg, *Neobinghamia villigera* Rauh & Backeberg, *Peruvocereus albisetatus* Akers, *Peruvocereus albisetatus* var. *robustus* Akers
Ref. Rowley, 1982b: 76; Hunt, 1992: 69.
Endemic erect, branched cactus. Andean I-II: dry valleys, rocky slopes, shrublands. 1000-2000 m.
Note: Accepted provisionally by Hunt (1992). According to Rowley (1982), a hybrid between *Espostoa haagei* and *Haageocereus multangularis*; Hunt (1992: 62) lists *E. haagei* as a misapplied name equalling *E. melanostele*.
Voucher: Akers s.n.* (unknown), Rauh K93 [1956] (ZSS)
Depts.: LI

xHaagespostoa climaxantha (Werdermann) G. Rowley
Syn. *Binghamia climaxantha* Werdermann, *Haageocereus climaxanthus* (Werdermann) Croizat, *Neobinghamia climaxantha* (Werdermann) Backeberg, *Neobinghamia climaxantha* var. *armata* Rauh & Backeberg, *Neobinghamia climaxantha* var. *lurinensis* Rauh & Backeberg, *Peruvocereus albicephalus* Akers, *Peruvocereus albicephalus* var. *armatus* Akers, *Pseudoespostoa climaxantha* (Werdermann) Backeberg
Ref. Rowley, 1982b: 76; Hunt, 1992: 69.
Endemic erect, branched cactus. Andean I, Coastal: dry valleys, rocky slopes. 500-1500 m.
Note: Accepted provisionally by Hunt (1992). According to Rowley (1982b), a hybrid between *Espostoa haagei* and *Haageocereus albispinus*; Hunt (1992: 62) lists *E. haagei* as a misapplied name equalling *E. melanostele*.
Voucher: Blossfeld 84* (B), Rauh K51 [1956] (ZSS)
Depts.: LI

Hariota micrantha (H.B.K.) Kuntze =Rhipsalis micrantha (H.B.K.) DC.
Ref. Madsen, 1989: 68; Barthlott, 1974: 647.

Hariota ramulosa (Salm-Dyck) Kuntze =Pseudorhipsalis ramulosa (Salm-Dyck) Barthlott
Ref. Kimnach, 1961: 14.

[Hylocereus lemairei (Hooker) Britton & Rose]
Syn. *Cereus lemairei* Hooker, *Hylocereus venezuelensis* Britton & Rose
Ref. Britton & Rose, 1920: 189; Hunt, 1992: 71
Note: Not known from Peru.

Hylocereus microcladus Backeberg
Ref. Backeberg, 1942: 61; Rauh, 1958: 230; Hunt, 1992: 71.
Note: Accepted provisionally by Hunt (1992). Not treated by Ritter (1981).

Hylocereus peruvianus Backeberg =Selenicereus sp.
Ref. Backeberg, 1942: 61; Rauh, 1958: 230; Ritter, 1981: 1627; Hunt, 1992: 71.
Note: Listed by Hunt (1992) as *Selenicereus* sp.

[*Hylocereus venezuelensis* Britton & Rose =Hylocereus lemairei (Hooker) Britton & Rose]
Ref. Rauh, 1958: 229; Hunt, 1992: 72.
Note: Not known from Peru.

Islaya bicolor Akers & Buining =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Donald & Rowley, 1966: 55; Rauh, 1958: 492; Ritter, 1981: 1292; Hunt, 1992: 72.
Note: Treated as an accepted species by Ritter (1981).

Islaya brevicylindrica Rauh & Backeberg =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Backeberg, 1956a: 33; Rauh, 1958: 496; Hunt, 1992: 72.
Note: Treated under var. *islayensis* by Donald & Rowley (1966: 56) and as an accepted species by Ritter (1981: 1292).

Islaya copiapoides Rauh & Backeberg =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Backeberg, 1956: 33a; Donald & Rowley, 1966: 56; Hunt, 1992: 72.
Note: Treated under var. *copiapoides* by Donald & Rowley (1966) and as an accepted species by Ritter (1981).

Islaya copiapoides var. *chalaensis* F. Ritter =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Ritter, 1981: 1295; Hunt, 1992: 72.

Islaya copiapoides var. *pseudomollendensis* F. Ritter =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Ritter, 1981: 1297.

Islaya divaricatiflora F. Ritter =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Ritter, 1964b: 144; Donald & Rowley, 1966: 56; Hunt, 1992: 72.

Islaya flavida F. Ritter =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Ritter, 1981: 1298; Hunt, 1992: 72.
Note: Not treated under *Neoporteria* by Donald & Rowley (1966).

Islaya grandiflorens Rauh & Backeberg =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Backeberg, 1956a: 33; Rauh, 1958: 499; Ritter, 1981: 1293; Hunt, 1992: 72.

Islaya grandiflorens Rauh & Backeberg, nom. illeg. =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Rauh, 1958: 499; Ritter, 1981: 1301.

Islaya grandiflorens var. *spinosior* Backeberg =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Ritter, 1981: 1301.
Note: Treated under *I. maritima* by Ritter (1981).

Islaya grandiflorens var. *tenuispina* Rauh & Backeberg =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Rauh, 1958: 500; Ritter, 1981: 1301.
Note: Treated under *I. maritima* by Ritter (1981) and under var. *islayensis* by Donald & Rowley (1966: 56).

Islaya grandis Rauh & Backeberg =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Backeberg, 1956a: 33; Rauh, 1958: 492; Ritter, 1981: 1299; Donald & Rowley, 1966: 56; Hunt, 1992: 72.
Note: Treated under var. *grandis* by Donald & Rowley (1966).

Islaya grandis var. *brevispina* Rauh & Backeberg =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Rauh, 1958: 494; Ritter, 1981: 1299; Donald & Rowley, 1966: 56.
Note: Treated under var. *grandis* by Donald & Rowley (1966).

Islaya grandis var. *neglecta* Simo =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Donald & Rowley, 1966: 56; Ritter, 1981: 1299.
Note: Treated under var. *grandis* by Donald & Rowley (1966).

Islaya islayensis (Foerster) Backeberg =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Rauh, 1958: 491; Ritter, 1981: 1299.

Islaya islayensis var. *copiapoides* (Rauh & Backeberg) F. Ritter =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Ritter, 1981: 1293.
Note: See note under *Islaya copiapoides*.

Islaya islayensis var. *minor* (Backeberg) F. Ritter =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Ritter, 1981: 1300.

Islaya krainziana F. Ritter =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Backeberg, 1956a: 31; Donald & Rowley, 1966: 57; Ritter, 1980b: 1026; Hunt, 1992: 72.

Islaya maritima F. Ritter =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Ritter, 1981: 1301; Hunt, 1992: 72.
Note: Replacement name for *I. grandiflorens* Rauh & Backeberg (Rauh, 1958: 499), non Rauh & Backeberg (Backeberg, 1956a: 33).

Islaya minor Backeberg =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Backeberg & Knuth, 1935: 258; Rauh, 1958: 492; Donald & Rowley, 1966: 56; Ritter, 1981: 1300.

Islaya minuscula F. Ritter =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Ritter, 1981: 1303; Hunt, 1992: 72.

Islaya molendensis Backeberg =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Ritter, 1981: 1299.

Islaya omasensis C. Ostolaza N. & T. C. Mischler =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Hunt, 1992: 72.

Islaya paucispina Rauh & Backeberg =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Rauh, 1958: 500; Donald & Rowley, 1966: 57; Ritter, 1981: 1295; Hunt, 1992: 72.
Note: Treated under *I. copiapoides* var. *chalaensis* by Ritter (1981) and as a synonym of *N. lindleyi* by Donald & Rowley (1966).

Islaya paucispina var. *copiapoides* F. Ritter, nom. nud. =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Ritter, 1981: 1293.
Note: See note under *Islaya copiapoides*.

Islaya paucispina var. *curvispina* Rauh & Backeberg =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Rauh, 1958: 502; Donald & Rowley, 1966: 57; Ritter, 1981: 1296.

Islaya paucispinosa Rauh & Backeberg =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Backeberg, 1956a: 33; Rauh, 1958: 500; Donald & Rowley, 1966: 57; Ritter, 1981: 1295; Hunt, 1992: 72.
Note: Treated under *I. copiapoides* var. *chalaensis* by Ritter (1981) and as a synonym of *N. lindleyi* by Donald & Rowley (1966: 57).

Islaya roseiflora Hoffmann =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Donald & Rowley, 1966: 55.
Note: Treated as a synonym under *N. bicolor* by Donald & Rowley (1966); not treated by either Ritter (1981) or Hunt (1992).

Islaya unguispina F. Ritter =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Ritter, 1981: 1304; Hunt, 1992: 72.

Lasiocereus fulvus F. Ritter
Ref. Ritter, 1966: 119; Ritter, 1981: 1479; Hunt, 1992: 72.
Endemic erect, branched or columnar cactus. Andean I: rocky slopes. 500-1000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1303* (U)
Depts.: AM

Lasiocereus rupicola F. Ritter
Ref. Ritter, 1966: 119; Ritter, 1981: 1478; Hunt, 1992: 72.
Endemic erect, branched or columnar cactus. Andean II: rocky slopes, shrublands. 2000-2500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 661* (U)
Depts.: CA

Lemaireocereus cartwrightianus Britton & Rose =Armatocereus cartwrightianus (Britton & Rose) Backeberg ex A. W. Hill
Ref. Britton & Rose, 1920: 100; Ritter, 1981: 1272; Madsen, 1989: 10; Hunt, 1991: 84; Hunt, 1992: 72.

Lemaireocereus chlorocarpus (H.B.K.) Borg =Browningia chlorocarpa (H.B.K.) Marshall

Lemaireocereus laetus (H.B.K.) Britton & Rose =Armatocereus laetus (H.B.K.) Backeberg ex A. W. Hill
Ref. Britton & Rose, 1920: 99; Rauh, 1958: 266; Ritter, 1981: 1275; Hunt, 1991: 83; Hunt, 1992: 73.

Lepismium brevispinum Barthlott
Syn. *Acanthorhipsalis brevispina* F. Ritter, nom. illeg.
Ref. Barthlott, 1987: 99; Hunt, 1992: 73.
Endemic epiphytic or terrestrial, scandent cactus. Andean II: dry valleys, rocky slopes. 1500-2000 m.
Voucher: Ritter s.n.* (fig. 1114 in Ritter, 1981)
Depts.: AM

Lepismium micranthum (Vaupel) Barthlott
Syn. *Acanthorhipsalis micrantha* (Vaupel) Britton & Rose, *Cereus micranthus* Vaupel, *Lymanbensonia micrantha* (Vaupel) Kimnach, *Rhipsalis asperula* Vaupel
Ref. Barthlott, 1987: 99; Hunt, 1992: 73.
Endemic epiphytic cactus. Andean II: forests. 2000-2500 m.
Voucher: Weberbauer 1353* (B), Baker 4258 (HBG)
Depts.: PU

Lobivia akersii Rausch =Echinopsis tegeleriana (Backeberg) D. Hunt
Ref. Rausch, 1975: 8; Ritter, 1981: 1332; Hunt, 1992: 74.

Lobivia allegraiana Backeberg =Echinopsis hertrichiana (Backeberg) D. Hunt
Ref. Backeberg & Knuth, 1935: 232, 413; Rauh, 1958: 468; Hunt, 1992: 74.

Lobivia apurimacana F. Ritter, nom. nud. =Echinopsis maximiliana Heyder
Ref. Rausch, 1975: 36; Ritter, 1981: 1330.
Note: Listed under *L. cruciaureispina* by Ritter (1981).

Lobivia aureosenilis Knize =Echinopsis pampana (Britton & Rose) D. Hunt
Ref. Knize, 1968a: 253; Hunt, 1992: 74.

Lobivia backebergii (Werdermann) Backeberg =Echinopsis backebergii Werdermann
Ref. Rausch, 1975: 20; Hunt, 1992: 75.

Lobivia backebergii var. *hertrichiana* (Backeberg) Rausch =Echinopsis hertrichiana (Backeberg) D. Hunt
Ref. Rausch, 1975: 20.

Lobivia backebergii var. *laui* (Donald) Rausch =Echinopsis hertrichiana (Backeberg) D. Hunt
Ref. Rausch, 1975: 20.

Lobivia backebergii var. *simplex* (Rausch) Rausch =Echinopsis hertrichiana (Backeberg) D. Hunt
Ref. Rausch, 1975: 20.

Lobivia backebergii var. *winteriana* (F. Ritter) Rausch =Echinopsis backebergii Werdermann
Ref. Rausch, 1975: 20.

Lobivia backebergii var. *wrightiana* (Backeberg) Rausch =Echinopsis backebergii Werdermann
Ref. Rausch, 1975: 20.

Lobivia backebergii var. *zecherii* (Rausch) Rausch =Echinopsis backebergii Werdermann
Ref. Rausch, 1975: 20.

Lobivia binghamiana Backeberg =Echinopsis hertrichiana (Backeberg) D. Hunt
Ref. Backeberg & Knuth, 1935: 232, 413; Rauh, 1958: 468; Hunt, 1992: 75.

Lobivia corbula (Herrera) Britton & Rose =Echinopsis maximiliana Heyder
Ref. Britton & Rose, 1922: 56; Rauh, 1958: 467; Hunt, 1992: 75.

Lobivia cruciaureispina Knize =Echinopsis maximiliana Heyder
Ref. Knize, 1968a: 253; Ritter, 1981: 1330; Hunt, 1992: 75.

Lobivia echinata Rausch =Echinopsis hertrichiana (Backeberg) D. Hunt
Ref. Ritter, 1981: 1338; Hunt, 1992: 75.

Lobivia glaucescens F. Ritter =Echinopsis pamparuizii Cárdenas
Ref. Ritter, 1981: 1331; Hunt, 1992: 75.

Lobivia hertrichiana Backeberg =Echinopsis hertrichiana (Backeberg) D. Hunt
Ref. Rauh, 1958: 467; Ritter, 1981: 1334; Hunt, 1991: 88; Hunt, 1992: 75.

Lobivia huilcanota Rauh & Backeberg =Echinopsis hertrichiana (Backeberg) D. Hunt
Ref. Backeberg, 1956a: 28; Rauh, 1958: 469; Hunt, 1992: 76.

Lobivia incaica Backeberg =Echinopsis hertrichiana (Backeberg) D. Hunt
Ref. Backeberg & Knuth, 1935: 233, 413; Rauh, 1958: 469; Rausch, 1975: 20; Hunt, 1992: 76.

Lobivia incuiensis Rauh & Backeberg =Echinopsis tegeleriana (Backeberg) D. Hunt
Ref. Backeberg, 1956a: 28; Rauh, 1958: 471; Hunt, 1992: 76.

Lobivia intermedia Rausch =Echinopsis maximiliana Heyder
Ref. Rausch, 1975: 36; Ritter, 1981: 1330; Hunt, 1992: 76.

Lobivia laui Donald =Echinopsis hertrichiana (Backeberg) D. Hunt
Ref. Rausch, 1975: 20; Ritter, 1981: 1332; Hunt, 1992: 76.

Lobivia lauramarca Rauh & Backeberg =Echinopsis pentlandii Salm-Dyck
Ref. Backeberg, 1956a: 28; Rauh, 1958: 469; Hunt, 1992: 76.

Lobivia leptacantha Rausch =Echinopsis schieliana (Backeberg) D. Hunt
Ref. Ritter, 1981: 1332; Hunt, 1992: 76.

Lobivia maximiliana (Heyder) Backeberg =Echinopsis maximiliana Heyder
Ref. Hunt, 1992: 76.

Lobivia maximiliana var. *corbula* (Herrera) Rausch =Echinopsis maximiliana Heyder
Ref. Rausch, 1975: 36.

Ref. Rausch, 1975: 36.

Lobivia maximiliana var. *leptacantha* (Rausch) Rausch =Echinopsis maximiliana Heyder
Ref. Rausch, 1975: 36.

Lobivia maximiliana var. *westii* (Hutchison) Rausch =Echinopsis maximiliana Heyder
Ref. Rausch, 1975: 36.

Lobivia minuta F. Ritter =Echinopsis hertrichiana (Backeberg) D. Hunt
Ref. Ritter, 1963a: 124; Ritter, 1981: 1336; Hunt, 1992: 76.

Lobivia mistiensis (Werdermann & Backeberg) Backeberg =Echinopsis pamparuizii Cárdenas
Ref. Rauh, 1958: 467; Hunt, 1992: 76.

Lobivia mistiensis var. *brevispina* Backeberg ex Aragón, nom. nud. =Echinopsis pamparuizii Cárdenas
Ref. Aragón, 1982: 69.

Lobivia pampana Britton & Rose =Echinopsis pampana (Britton & Rose) D. Hunt
Ref. Britton & Rose, 1923: 56; Rauh, 1958: 468; Hunt, 1991: 88; Hunt, 1992: 76.

Lobivia pentlandii (Salm-Dyck) Britton & Rose =Echinopsis pentlandii Salm-Dyck
Ref. Hunt, 1992: 76.

Lobivia pentlandii var. *maximiliana* (Heyder) Backeberg =Echinopsis maximiliana Heyder
Ref. Rauh, 1958: 467.

Lobivia planiceps Backeberg =Echinopsis hertrichiana (Backeberg) D. Hunt
Ref. Backeberg & Knuth, 1935: 233, 413; Rauh, 1958: 469; Hunt, 1992: 76.

Lobivia schieliana Backeberg =Echinopsis schieliana (Backeberg) D. Hunt
Ref. Backeberg, 1956a: 30; Hunt & Taylor, 1987: 92; Hunt, 1992: 77.

Lobivia sicuaniensis Rausch =Echinopsis maximiliana Heyder
Ref. Hunt, 1992: 77.

Lobivia simplex Rausch =Echinopsis hertrichiana (Backeberg) D. Hunt
Ref. Rausch, 1975: 20; Hunt, 1992: 77.

Lobivia tegeleriana Backeberg =Echinopsis tegeleriana (Backeberg) D. Hunt
Ref. Ritter, 1981: 1329; Rauh, 1958: 471; Hunt & Taylor, 1987: 92.

Lobivia tegeleriana var. *akersii* (Rausch) Rausch =Echinopsis tegeleriana (Backeberg) D. Hunt
Ref. Rausch, 1975: 8.

Lobivia tegeleriana var. *incuiensis* (Rauh & Backeberg) Rausch =Echinopsis tegeleriana (Backeberg) D. Hunt
Ref. Rausch, 1975: 8.

Lobivia tegeleriana var. *puquiensis* F. Ritter =Echinopsis tegeleriana (Backeberg) D. Hunt
Ref. Ritter, 1981: 1329.

Lobivia vilcabambae F. Ritter =Echinopsis hertrichiana (Backeberg) D. Hunt
Ref. Ritter, 1963a: 124; Rausch, 1975: 20; Ritter, 1981: 1337; Hunt, 1992: 77.

Lobivia westii Hutchison =Echinopsis maximiliana Heyder
Ref. Rausch, 1975: 36; Ritter, 1981: 1330; Hunt, 1992: 77.

Lobivia westii var. *intermedia* (Rausch) F. Ritter =Echinopsis maximiliana Heyder
Ref. Ritter, 1981: 1330.

Lobivia winteriana F. Ritter =Echinopsis backebergii Werdermann
Ref. Rausch, 1975: 20; Hunt, 1992: 77.

Lobivia wrightiana Backeberg =Echinopsis backebergii Werdermann
Ref. Rauh, 1958: 467; Rausch, 1975: 20; Ritter, 1981: 1333; Hunt, 1992: 77.

Lobivia zecheri Rausch =Echinopsis backebergii Werdermann
Ref. Rausch, 1975: 21; Ritter, 1981: 1332; Hunt, 1992: 77.

Loxanthocereus acanthurus (Vaupel) Backeberg =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Rauh, 1958: 296; Hunt, 1992: 78.

Loxanthocereus acanthurus var. *ferox* Backeberg =Cleistocactus acanthurus (Vaupel) D. Hunt

Loxanthocereus aticensis Rauh & Backeberg =Cleistocactus sextonianus (Backeberg) D. Hunt
Ref. Backeberg, 1956a: 15; Rauh, 1958: 300; Ritter, 1981: 1460; Hunt, 1992: 78.

Loxanthocereus bicolor F. Ritter =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Ritter, 1981: 1455; Hunt, 1992: 78.

Loxanthocereus brevispinus Rauh & Backeberg =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Rauh, 1958: 317; Hunt, 1992: 78.

Loxanthocereus camanaensis Rauh & Backeberg =Cleistocactus sextonianus (Backeberg) D. Hunt
Ref. Backeberg, 1956a: 15; Rauh, 1958: 301; Hunt, 1992: 78.

Loxanthocereus canetensis Rauh & Backeberg =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Backeberg, 1956a: 16; Rauh, 1958: 302; Hunt, 1992: 78.

Loxanthocereus cantaensis Rauh & Backeberg =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Rauh, 1958: 314; Ritter, 1981: 1470; Hunt, 1992: 78.

Loxanthocereus casmaensis F. Ritter, nom. nud. =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Ritter, 1981: 1400.
Note: Listed under var. *multangularis* by Ritter (1981).

Loxanthocereus clavispinus Rauh & Backeberg =Haageocereus pacalaensis Backeberg
Ref. Rauh, 1958: 304; Ritter, 1981: 1416.
Note: Treated under var. *pacalaensis* by Ritter (1981).

Loxanthocereus convergens F. Ritter =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Ritter, 1981: 1456; Hunt, 1992: 78.

Loxanthocereus crassiserpens (Rauh & Backeberg) Backeberg =Cleistocactus x crassiserpens Rauh & Backeberg (pro sp.)
Ref. Ritter, 1981: 1458; Hunt, 1992: 78.

Loxanthocereus cullmannianus Backeberg =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Hunt, 1992: 78.

Loxanthocereus x deserticola F. Ritter (pro sp.)
Syn. *Haageocereus deserticola* F. Ritter, nom. nud.
Ref. Ritter, 1981: 1458; Hunt, 1992: 78.
Endemic sprawling cactus. Andean II: rocky slopes, shrublands. 1500-2000 m.
Note: Hunt (1992) lists this as "(*Cleistocactus* x *Haageocereus* hybr.?)."
Voucher: Ritter 185 p.p.* (U), Ritter 627 (U)
Depts.: AY, IC

Loxanthocereus x erectispinus Rauh & Backeberg (pro sp.)
Ref. Backeberg, 1956a: 15; Rauh, 1958: 305; Ritter, 1981: 1459; Hunt, 1992: 78.
Endemic sprawling cactus. Andean II: dry valleys, rocky slopes. 1500-2500 m.
Note: Hunt (1992) lists this as "(*Cleistocactus* x *Espostoa* hybr.?)."
Voucher: Rauh K98 [1956]* (ZSS), Ritter 1075 (U)
Depts.: AN

Loxanthocereus eremiticus F. Ritter =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Ritter, 1981: 1459; Hunt, 1992: 78.

Loxanthocereus erigens Rauh & Backeberg =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Backeberg, 1956a: 16; Rauh, 1958: 304; Ritter, 1981: 1456; Hunt, 1992: 78.

Loxanthocereus eriotrichus (Werdermann & Backeberg) Backeberg =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Rauh, 1958: 297; Ritter, 1981: 1455; Hunt, 1992: 78.

Loxanthocereus eulaliensis Rauh & Backeberg =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Backeberg, 1956a: 14; Rauh, 1958: 317; Ritter, 1981: 1459.

Loxanthocereus faustianus Backeberg =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Rauh, 1958: 297; Hunt, 1992: 78.

Loxanthocereus x ferrugineus Rauh & Backeberg (pro sp.)
Ref. Backeberg, 1956a: 15; Rauh, 1958: 306; Hunt, 1992: 78.
Endemic climbing or sprawling cactus. Andean I: dry valleys, rocky slopes. 1000-1500 m.
Note: Hunt (1992) lists this as "(*Cleistocactus* x *Haageocereus* hybr.?)."
Voucher: Rauh K109 [1956]* (ZSS)
Depts.: IC

Loxanthocereus formosus (F. Ritter) F. Buxbaum =Matucana formosa F. Ritter
Ref. Ritter, 1981: 1494; Hunt, 1992: 78.

Loxanthocereus gracilis (Akers & Buining) Backeberg =Cleistocactus sextonianus (Backeberg) D. Hunt
Ref. Rauh, 1958: 300; Ritter, 1981: 1460; Hunt, 1992: 78.

Loxanthocereus gracilispinus Rauh & Backeberg =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Backeberg, 1956a: 16; Rauh, 1958: 307; Ritter, 1981: 1466; Hunt, 1992: 78.

Loxanthocereus granditessellatus Rauh & Backeberg =Loxanthocereus sulcifer Rauh & Backeberg
Ref. Backeberg, 1956a: 15; Rauh, 1958: 293; Ritter, 1981: 1460; Hunt, 1992: 78.
Note: Treated as an accepted species by Ritter (1981).

Loxanthocereus x hoffmannii F. Ritter (pro sp.)
Ref. Ritter, 1981: 1461; Hunt, 1992: 78.
Endemic erect, branched or columnar cactus. Coastal. 0-500 m.
Note: An invalid name according to Eggli & Taylor (1992: 109). Hunt (1992) lists this as "(*Cleistocactus* x *Espostoa* hybr.?)."
Voucher: Hoffmann s.n.* (HEID)
Depts.: LI

Loxanthocereus x hystrix Rauh & Backeberg (pro sp.)
Syn. *Loxanthocereus hystrix* var. *brunnescens* Rauh
Ref. Backeberg, 1956a: 15; Rauh, 1958: 311; Hunt, 1992: 78.
Endemic climbing or sprawling cactus. Andean II: rocky slopes, shrublands. 2500-3500 m.
Note: Hunt (1992) lists this as "[*Cleistocactus* x *Haageocereus* hybr.?]."
Voucher: Rauh K112 [1956]* (ZSS), Ritter 181 (U)
Depts.: AY

Loxanthocereus hystrix var. *brunnescens* Rauh =Loxanthocereus x hystrix Rauh & Backeberg
Ref. Rauh, 1958: 312.

Loxanthocereus jajoianus (Backeberg) Backeberg =Cleistocactus sepium (H.B.K.) A. Weber
Ref. Rauh, 1958: 298; Ritter, 1981: 1462; Hunt, 1992: 78.

Loxanthocereus keller-badensis Backeberg & Krainz =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Rauh, 1958: 299; Ritter, 1981: 1459; Hunt, 1992: 78.

Loxanthocereus madisoniorum (Hutchison) F. Buxbaum =Matucana madisoniorum (Hutchison) G. Rowley
Ref. Ritter, 1981: 1487; Hunt, 1992: 78.

Loxanthocereus x montanus F. Ritter (pro sp.)
Syn. *Haageocereus andinus* F. Ritter, nom. nud., *Haageocereus hystrix* F. Ritter, nom. nud., *Haageocereus montanus* F. Ritter, nom. nud.
Ref. Ritter, 1981: 1463; Hunt, 1992: 78.
Endemic sprawling cactus. Andean II: dry valleys, rocky slopes. 2500-3000 m.
Note: Hunt (1992) lists this as "(*Cleistocactus* x *Haageocereus* hybr.?)."
Voucher: Ritter 581* (U)
Depts.: AY

Loxanthocereus multifloccosus Rauh & Backeberg =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Backeberg, 1956a: 16; Rauh, 1958: 309; Ritter, 1981: 1466; Hunt, 1992: 78.

Loxanthocereus nanus Backeberg =Cleistocactus sextonianus (Backeberg) D. Hunt
Ref. Backeberg, 1956a: 17; Ritter, 1981: 1460; Hunt, 1992: 78.

Loxanthocereus neglectus F. Ritter =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Ritter, 1964a: 116; Ritter, 1981: 1465; Hunt, 1992: 78.

Loxanthocereus neglectus var. *chimbotensis* F. Ritter =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Ritter, 1964a: 116; Ritter, 1981: 1466.

Loxanthocereus otuscensis F. Ritter =Loxanthocereus sulcifer Rauh & Backeberg
Ref. Ritter, 1981: 1467; Hunt, 1992: 78.
Note: Treated as an accepted species by Ritter (1981).

Loxanthocereus pacaranensis F. Ritter =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Ritter, 1981: 1468; Hunt, 1992: 78.

Loxanthocereus pachycladus Rauh & Backeberg =Oreocereus piscoensis (Rauh & Backeberg) F. Ritter
Ref. Backeberg, 1956a: 16; Rauh, 1958: 318.
Note: Mentioned in discussion under *L. yauyosensis* by Ritter (1981: 1476).

Loxanthocereus parvitesselatus F. Ritter =Loxanthocereus sulcifer Rauh & Backeberg
Ref. Ritter, 1981: 1469; Hunt, 1992: 78.
Note: Treated as an accepted species by Ritter (1981).

Loxanthocereus peculiaris Rauh & Backeberg =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Backeberg, 1956a: 16; Rauh, 1958: 313; Ritter, 1981: 1470; Hunt, 1992: 78.

Loxanthocereus piscoensis Rauh & Backeberg =Oreocereus piscoensis (Rauh & Backeberg) F. Ritter
Ref. Backeberg, 1956a: 16; Rauh, 1958: 291; Ritter, 1981: 1365; Hunt, 1992: 78.

Loxanthocereus pullatus Rauh & Backeberg =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Backeberg, 1956a: 14; Rauh, 1958: 315; Ritter, 1981: 1466; Hunt, 1992: 78.

Loxanthocereus pullatus var. *brevispinus* Rauh & Backeberg =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Rauh, 1958: 316.

Loxanthocereus puquiensis F. Ritter =Cleistocactus sextonianus (Backeberg) D. Hunt
Ref. Ritter, 1981: 1470; Hunt, 1992: 78.

Loxanthocereus riomajensis Rauh & Backeberg =Cleistocactus sextonianus (Backeberg) D. Hunt

Ref. Backeberg, 1956a: 15; Rauh, 1958: 319; Ritter, 1981: 1471; Hunt, 1992: 78.

Loxanthocereus sextonianus (Backeberg) Backeberg =Cleistocactus sextonianus (Backeberg) D. Hunt
Ref. Rauh, 1958: 298; Ritter, 1981: 1471; Hunt, 1992: 78.

Loxanthocereus splendens Backeberg =Cleistocactus sextonianus (Backeberg) D. Hunt
Ref. Backeberg, 1956a: 14; Hunt, 1992: 78.

Loxanthocereus sulcifer Rauh & Backeberg
Syn. *Borzicactus sulcifer* (Rauh & Backeberg) Kimnach, *Loxanthocereus granditessellatus* Rauh & Backeberg, *Loxanthocereus otuscensis* F. Ritter, *Loxanthocereus parvitesselatus* F. Ritter, *Loxanthocereus sulcifer* var. *longispinus* Rauh & Backeberg
Ref. Backeberg, 1956a: 14; Rauh, 1958: 295; Ritter, 1981: 1472; Hunt, 1992: 78.
Endemic climbing or sprawling cactus. Andean I-II: rocky slopes, shrublands. 1000-3500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Rauh K52 [1956]* (ZSS), Ritter 633 (U)
Depts.: AN, CA, LL

Loxanthocereus sulcifer var. *longispinus* Rauh & Backeberg =Loxanthocereus sulcifer Rauh & Backeberg
Ref. Backeberg, 1956a: 14; Kimnach, 1960b: 95.

Loxanthocereus trujilloensis F. Ritter =Cleistocactus chotaensis A. Weber
Ref. Ritter, 1981: 1472; Hunt, 1992: 78.

Loxanthocereus variabilis F. Ritter =Cleistocactus sextonianus (Backeberg) D. Hunt
Ref. Ritter, 1981: 1473; Hunt, 1992: 78.

Loxanthocereus xylorhizus F. Ritter =Cleistocactus acanthurus (Vaupel) D. Hunt
Ref. Ritter, 1981: 1475; Hunt, 1992: 78.

Loxanthocereus yauyosensis F. Ritter =Oreocereus piscoensis (Rauh & Backeberg) F. Ritter
Ref. Ritter, 1981: 1476; Hunt, 1992: 78.

Lymanbensonia micrantha (Vaupel) Kimnach =Lepismium micranthum (Vaupel) Barthlott
Ref. Kimnach, 1984: 101; Hunt, 1992: 78.

Malacocarpus islayensis (Foerster) Britton & Rose =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Britton & Rose, 1922: 201; Ritter, 1981: 1299.

Mammillaria corbula Herrera =Echinopsis maximiliana Heyder
Ref. Britton & Rose, 1922: 56; Rausch, 1975: 36.

Maritimocereus gracilis Akers & Buining =Cleistocactus sextonianus (Backeberg) D. Hunt
Ref. Ritter, 1981: 1460.

Matucana aurantiaca (Vaupel) F. Buxbaum
Syn. *Arequipa aurantiaca* (Vaupel) Werdermann, *Borzicactus aurantiacus* (Vaupel) Kimnach & Hutchison, *Borzicactus aurantiacus* var. *calvescens* (Kimnach & Hutchison) Donald, *Borzicactus calvescens* Kimnach & Hutchison, *Echinocactus aurantiacus* Vaupel, *Matucana calvescens* (Kimnach & Hutchison) F. Buxbaum, *Submatucana aurantiaca* (Vaupel) Backeberg, *Submatucana calvescens* (Kimnach & Hutchison) Backeberg
Ref. Ritter, 1981: 1489; Hunt, 1992: 89.
Endemic clustered, globular cactus. Andean II: rocky slopes, shrublands. 2000-2500 m.
Voucher: Weberbauer 3846* (B), Ritter 596 (U)
Depts.: CA, LL

Matucana aureiflora F. Ritter
Syn. *Borzicactus aureiflorus* (F. Ritter) Donald, *Submatucana aureiflora* (F. Ritter) Backeberg
Ref. Ritter, 1981: 1509; Hunt, 1992: 89.
Endemic solitary or clustered, globular cactus. Andean II. 2500-3000 m.
Voucher: Ritter 1310* (U)
Depts.: CA

Matucana blancii Backeberg
Syn. *Borzicactus aurantiacus* var. *megalanthus* (F. Ritter) Donald, *Matucana blancii* var. *nigriarmata* Backeberg, *Matucana crinifera* F. Ritter, *Matucana megalantha* F. Ritter, *Matucana yanganucensis* Rauh & Backeberg, *Matucana yanganucensis* var. *albispina* Rauh & Backeberg, *Matucana yanganucensis* var. *fuscispina* Rauh & Backeberg, *Matucana yanganucensis* var. *longistyla* Rauh & Backeberg, *Matucana yanganucensis* var. *parviflora* Rauh & Backeberg, *Matucana yanganucensis* var. *salmonea* Rauh & Backeberg, *Matucana yanganucensis* var. *setosa* F. Ritter, *Matucana yanganucensis* var. *suberecta* Rauh & Backeberg
Ref. Backeberg, 1956b: 71; Rauh, 1958: 356; Hunt, 1992: 89.
Endemic solitary or clustered, globular cactus. Andean II: rocky slopes, shrublands. 3000-3500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Rauh K55b [1956]* (ZSS)
Depts.: AN

Matucana blancii var. *nigriarmata* Backeberg =Matucana blancii Backeberg
Ref. Backeberg, 1956b: 71; Rauh, 1958: 356.
Note: Not treated by Ritter (1981).

Matucana breviflora Rauh & Backeberg =Matucana hystrix Rauh & Backeberg
Ref. Backeberg, 1956a: 18; Rauh, 1958: 341; Ritter, 1981: 1500; Hunt, 1992: 89.
Note: Treated as a variety of *M. multicolor* by Ritter (1981).

Matucana calliantha F. Ritter
Syn. *Matucana calliantha* var. *prolifera* F. Ritter
Ref. Ritter, 1981: 1490; Hunt, 1992: 89.
Endemic solitary or clustered, globular cactus. Andean I-II: dry valleys, rocky slopes. 500-2000 m.
Note: Accepted provisionally by Hunt (1992). Treated by Ritter (1981) with two varieties: *calliantha* and *prolifera*.
Voucher: Ritter 1308* (U), Ritter 1308a (U)
Depts.: AM, CA

Matucana calliantha var. *prolifera* F. Ritter =Matucana calliantha F. Ritter
Ref. Ritter, 1981: 1491.
Note: Treated as an accepted taxon by Ritter (1981).

Matucana calocephala Skarupke =Matucana myriacantha (Vaupel) F. Buxbaum
Ref. Hunt, 1992: 89.
Note: Not treated by Ritter (1981).

Matucana calvescens (Kimnach & Hutchison) F. Buxbaum =Matucana aurantiaca (Vaupel) F. Buxbaum
Ref. Ritter, 1981: 1489; Hunt, 1992: 89.

Matucana x celendinensis F. Ritter (pro sp.)
Syn. *Borzicactus intertextus* var. *celendinensis* (F. Ritter) Donald, *Matucana intertexta* var. *celendinensis* (F. Ritter) Bregman
Ref. Ritter, 1966: 118; Ritter, 1981: 1491; Bregman *et al.*, 1988e: 101; Hunt, 1992: 89.
Endemic solitary or clustered, globular cactus. Andean II: dry valleys, rocky slopes. 2000-2500 m.
Note: Hunt (1992) lists this as "=*Matucana aurantiaca* (x *intertexta*?)."
Voucher: Ritter 692* (U)
Depts.: CA

Matucana cereoides Rauh & Backeberg =Matucana haynei (Otto ex Salm-Dyck) Britton & Rose
Ref. Backeberg, 1956a: 19; Rauh, 1958: 345; Ritter, 1981: 1497; Hunt, 1992: 89.

Matucana comacephala F. Ritter =Matucana myriacantha (Vaupel) F. Buxbaum
Ref. Ritter, 1958: 92; Ritter, 1981: 1492; Hunt, 1992: 89.

Matucana crinifera F. Ritter =Matucana blancii Backeberg
Ref. Ritter, 1963a: 125; Ritter, 1981: 1493; Hunt, 1992: 89.

Matucana currundayensis F. Ritter
Ref. Ritter, 1981: 1493; Hunt, 1992: 89.
Endemic solitary or clustered, globular cactus. Andean II: rocky slopes, shrublands. 2500-3000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 164* (ZSS)
Depts.: LL

Matucana elongata Rauh & Backeberg =Matucana haynei (Otto ex Salm-Dyck) Britton & Rose
Ref. Backeberg, 1956a: 19; Rauh, 1958: 347; Ritter, 1981: 1497; Hunt, 1992: 89.
Note: Treated as a variety of *M. haynei* by Ritter (1981).

Matucana formosa F. Ritter
Syn. *Borzicactus formosus* (F. Ritter) Donald, *Loxanthocereus formosus* (F. Ritter) F. Buxbaum, *Matucana formosa* var. *minor* F. Ritter, *Submatucana formosa* (F. Ritter) Backeberg
Ref. Ritter, 1963a: 125; Ritter, 1981: 1494; Hunt, 1992: 89.
Endemic solitary, globular cactus. Andean I: dry valleys, rocky slopes. 500-1000 m.
Note: Accepted provisionally by Hunt (1992). Treated by Ritter (1963a, 1981) with two varieties: *formosa* and *minor*. See note under *Submatucana formosa*.
Voucher: Ritter 658* (U), Ritter 1072 (U)
Depts.: CA, LL

Matucana formosa var. *minor* F. Ritter =Matucana formosa F. Ritter
Ref. Ritter, 1963a: 125; Ritter, 1981: 1495.
Note: Treated as an accepted taxon by Ritter (1963, 1981).

Matucana fruticosa F. Ritter
Syn. *Borzicactus fruticosus* (F. Ritter) Donald
Ref. Ritter, 1966: 117; Ritter, 1981: 1495; Hunt, 1992: 89.
Endemic sprawling cactus. Andean II. 1500-2500 m.
Voucher: Ritter 1307* (ZSS)
Depts.: CA

Matucana hastifera F. Ritter
Ref. Ritter, 1981: 1496; Hunt, 1992: 89.
Endemic clustered, globular cactus. Andean II: rocky slopes. 3000-3500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1306* (U)
Depts.: AN

Matucana haynei (Otto ex Salm-Dyck) Britton & Rose
Syn. *Borzicactus haynei* (Otto ex Salm-Dyck) Kimnach, *Cereus haynei* (Otto ex Salm-Dyck) Croucher, *Echinocactus haynei* Otto ex Salm-Dyck, *Matucana cereoides* Rauh & Backeberg, *Matucana elongata* Rauh & Backeberg, *Matucana haynei* var. *elongata* (Rauh & Backeberg) F. Ritter, *Matucana haynei* var. *erectipetala* Rauh & Backeberg, *Matucana herzogiana* Backeberg, *Matucana herzogiana* var. *perplexa* Backeberg, *Matucana supertexta* F. Ritter, *Matucana variabilis* Rauh & Backeberg, *Matucana variabilis* var. *fuscata* Rauh & Backeberg
Ref. Britton & Rose, 1922: 102; Rauh, 1958: 338; Ritter, 1981: 1497; Hunt, 1992: 89.
Endemic solitary or clustered, globular cactus. Andean II: dry valleys, rocky slopes. 2000-3000 m.
Note: Treated by Ritter (1981) with two varieties: *haynei* and *elongata*.
Voucher: Rose & Rose 18651 (US)
Depts.: LI

Matucana haynei var. *elongata* (Rauh & Backeberg) F. Ritter =Matucana haynei (Otto ex Salm-Dyck) Britton & Rose
Ref. Ritter, 1981: 1497.
Note: Treated as an accepted taxon by Ritter (1981).

Matucana haynei var. *erectipetala* Rauh & Backeberg =Matucana haynei (Otto ex Salm-Dyck) Britton & Rose
Ref. Backeberg, 1956a: 18; Rauh, 1958: 339; Ritter, 1981: 1497.

Matucana herzogiana Backeberg =Matucana haynei (Otto ex Salm-Dyck) Britton & Rose
Ref. Backeberg, 1956b: 71; Rauh, 1958: 356; Ritter, 1981: 1506; Hunt, 1992: 89.
Note: Treated under *M. yanganucensis* (=*M. blancii*) by Ritter (1981).

Matucana herzogiana var. *perplexa* Backeberg =Matucana haynei (Otto ex Salm-Dyck) Britton & Rose
Ref. Backeberg, 1956b: 71; Rauh, 1958: 356; Ritter, 1981: 1499.
Note: Treated under *M. megalantha* by Ritter (1981).

Matucana huagalensis (Donald & A. Lau) Bregman
Syn. *Borzicactus huagalensis* Donald & A. Lau
Ref. Bregman *et al.*, 1988f: 155; Hunt, 1992: 89.
Endemic solitary, globular cactus. Andean II: rocky slopes, shrublands. 2000-2500 m.
Voucher: Lau 174* (HEID)
Depts.: CA

Matucana humboldtii (H.B.K.) F. Buxbaum =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Madsen, 1989: 16; Hunt, 1992: 89.

Matucana hystrix Rauh & Backeberg
Syn. *Matucana breviflora* Rauh & Backeberg, *Matucana multicolor* Rauh & Backeberg, *Matucana multicolor* var. *breviflora* (Rauh & Backeberg) F. Ritter, *Matucana multicolor* var. *hystrix* (Rauh & Backeberg) F. Ritter, *Matucana robusta* F. Ritter, nom. nud.
Ref. Backeberg, 1956a: 19; Rauh, 1958: 342; Ritter, 1981: 1499; Hunt, 1992: 89.
Endemic climbing or sprawling cactus. Andean II-III: rocky slopes, shrublands. 3000-4000 m.
Note: Treated as a variety of *M. multicolor* by Ritter (1981); accepted provisionally by Hunt (1992).
Voucher: Rauh K113 [1956]* (ZSS), Rauh K123 [1956] (ZSS)
Depts.: AY

Matucana icosagona (H.B.K.) F. Buxbaum =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Madsen, 1989: 16.

Matucana intertexta F. Ritter
Syn. *Borzicactus intertextus* (F. Ritter) Donald, *Submatucana intertexta* (F. Ritter) Backeberg
Ref. Ritter, 1963a: 125; Ritter, 1981: 1498; Hunt, 1992: 89.
Endemic solitary, globular cactus. Andean II: dry valleys, rocky slopes. 2500-3000 m.
Note: Although listed as an accepted species by Hunt (1992: 37, 132), two homotypic names (*Borzicactus intertextus* and *Submatucana intertexta*) are listed as synonyms of *M. aurantiaca* (p. 37, 132).
Voucher: Ritter 693* (U)
Depts.: CA

Matucana intertexta var. *celendinensis* (F. Ritter) Bregman =Matucana x celendinensis F. Ritter (pro sp.)
Ref. Bregman *et al.*, 1988e: 100.
Note: See note under *M. celendinensis*.

Matucana krahnii (Donald) Bregman
Syn. *Borzicactus krahnii* Donald
Ref. Bregman *et al.*, 1987a: 158; Hunt, 1992: 89.
Endemic solitary, globular cactus. Andean II: dry valleys, rocky slopes. 1500-2000 m.
Voucher: Hutchison & Krahn 4954* (POM), Hutchison & Wright 7015 (UC)
Depts.: AM

Matucana madisoniorum (Hutchison) G. Rowley
Syn. *Borzicactus madisoniorum* Hutchison, *Eomatucana madisoniorum* (Hutchison) F. Ritter, *Loxanthocereus madisoniorum* (Hutchison) F. Buxbaum, *Submatucana madisoniorum* (Hutchison) Backeberg
Ref. Rowley, 1972: 10; Ritter, 1981: 1487; Bregman, 1988: 173; Hunt, 1992: 89.
Endemic solitary or clustered, globular cactus. Amazonian: dry valleys, rocky slopes. 0-500 m.
Voucher: Hutchison 1521* (UC), UC

Botanical Garden 57.880 (living accession)
Depts.: AM

Matucana madisoniorum var. *pujupatii* (Donald & A. Lau) G. Rowley =Matucana pujupatii (Donald & A. Lau) Bregman
Ref. Rowley, 1972: 10; Bregman, 1988: 179.

Matucana megalantha F. Ritter =Matucana blancii Backeberg
Ref. Ritter, 1966: 117; Donald, 1971a: 10; Ritter, 1981: 1499; Hunt, 1992: 89.
Note: Treated as an accepted species by Ritter (1981).

Matucana x mirabilis Buining (pro sp.)
Syn. *Arequipa mirabilis* (Buining) Backeberg
Ref. Buining, 1963a: 39; Ritter, 1981: 1370; Hunt, 1992: 89.
Endemic solitary or clustered, globular cactus.
Note: According to Hunt (1992) this is a hybrid between *Cleistocactus fieldianus* and *Matucana supertexta*.
Voucher: Akers s.n.* (ZSS)
Depts.: LI

Matucana multicolor Rauh & Backeberg =Matucana hystrix Rauh & Backeberg
Ref. Backeberg, 1956a: 19; Rauh, 1958: 344; Ritter, 1981: 1499; Hunt, 1992: 89.
Note: Treated as an accepted species by Ritter (1981) with three varieties; *multicolor*, *hystrix*, and *breviflora*.

Matucana multicolor var. *breviflora* (Rauh & Backeberg) F. Ritter =Matucana hystrix Rauh & Backeberg
Ref. Ritter, 1981: 1500.

Matucana multicolor var. *hystrix* (Rauh & Backeberg) F. Ritter =Matucana hystrix Rauh & Backeberg
Ref. Ritter, 1981: 1499.

Matucana myriacantha (Vaupel) F. Buxbaum
Syn. *Arequipa myriacantha* (Vaupel) Britton & Rose, *Borzicactus myriacanthus* (Vaupel) Donald, *Borzicactus weberbaueri* var. *myriacanthus* (Vaupel) Donald, *Echinocactus myriacanthus* Vaupel, *Matucana calocephala* Skarupke, *Matucana comacephala* F. Ritter, *Matucana purpureoalba* F. Ritter, *Matucana winteri* F. Ritter, *Submatucana myriacantha* (Vaupel) Backeberg
Ref. Ritter, 1981: 1500; Hunt, 1992: 89.
Endemic solitary, globular cactus. Andean II: dry valleys, rocky slopes, shrublands. 1500-3500 m.
Note: Accepted provisionally by Hunt (1992). Hunt (1992: 34, 132) gives *Arequipa myriacantha* and *Submatucana myriacantha* as synonyms of *M. weberbaueri* but accepts *M. myriacantha* (a homotypic name) as accepted provisionally (p. 89) with *Borzicactus myriacanthus* linked as a synonym (p. 37).
Voucher: Weberbauer 4272* (B), Ritter 587 (ZSS)
Depts.: AM, AN, LL

Matucana oreodoxa (F. Ritter) Slaba
Syn. *Borzicactus oreodoxus* (F. Ritter) Donald, *Eomatucana oreodoxus* F. Ritter
Ref. Hunt, 1992: 90.
Endemic solitary or clustered, globular cactus. Andean II: rocky slopes, shrublands. 2500-3000 m.
Voucher: Ritter s.n.*
Depts.: AN

Matucana pallarensis F. Ritter
Ref. Ritter, 1981: 1501; Hunt, 1992: 90.
Endemic solitary or clustered, globular cactus. Andean II: dry valleys, rocky slopes. 2000-2500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1076* (U)
Depts.: LL

Matucana paucicostata F. Ritter
Syn. *Borzicactus paucicostatus* (F. Ritter) Donald, *Borzicactus paucicostatus* fo. *robustispinus* Donald & A. Lau
Ref. Ritter, 1963a: 124; Ritter, 1981: 1501; Hunt, 1992: 90.
Endemic solitary, globular cactus. Andean II: dry valleys, rocky slopes. 2000-2500 m.
Voucher: Ritter 597* (U), Lau 187A (HEID)
Depts.: AN

Matucana polzii L. Diers, Donald & E. Zecher
Ref. Hunt, 1992: 90.
Endemic globular cactus.
Note: Accepted provisionally by Hunt (1992).
Voucher: Zecher 762* (KOELN)
Depts.: Without locality data.

Matucana pujupatii (Donald & A. Lau) Bregman
Syn. *Borzicactus madisoniorum* var. *pujupatii* Donald & A. Lau, *Matucana madisoniorum* var. *pujupatii* (Donald & A. Lau) G. Rowley
Ref. Bregman, 1988: 179: Hunt, 1992: 90.
Endemic solitary or clustered, globular cactus. Amazonian: dry valleys, rocky slopes. 0-500 m.
Note: Listed by Hunt (1992) as a possible hybrid "=*Matucana madisoniorum* (x *paucicostata*?)." Alternatively claimed by Bregman (1988) to represent a distinct species allopatric with *M. madisoniorum*.
Voucher: Lau 107* (HEID)
Depts.: CA

Matucana purpureoalba F. Ritter =Matucana myriacantha (Vaupel) F. Buxbaum
Ref. Ritter, 1981: 1502; Hunt, 1992: 90.

Matucana ritteri Buining
Syn. *Borzicactus ritteri* (Buining) Donald, *Submatucana ritteri* (Buining) Backeberg
Ref. Buining, 1959: 2; Ritter, 1981: 1503; Hunt, 1992: 90.
Endemic solitary, globular cactus. Andean II: dry valleys, rocky slopes. 2000-2500 m.
Voucher: Ritter 299* (ZSS)
Depts.: LI

Matucana robusta F. Ritter, nom. nud. =Matucana hystrix Rauh & Backeberg
Ref. Ritter, 1981: 1499.
Note: Listed under *M. multicolor* var. *hystrix* by Ritter (1981).

Matucana supertexta F. Ritter =Matucana haynei (Otto ex Salm-Dyck) Britton & Rose
Ref. Ritter, 1981: 1504; Hunt, 1992: 90.

Matucana tuberculata (Donald) Bregman *et al.*
Syn. *Borzicactus tuberculatus* Donald, *Matucana tuberculosa* F. Ritter
Ref. Hunt, 1992: 90.
Endemic solitary or clustered, globular cactus. Andean II: rocky slopes, shrublands. 1500-2500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Hutchison *et al.* 6218* (POM), Ritter 1073 (U)
Depts.: LL

Matucana tuberculosa F. Ritter =Matucana tuberculata (Donald) Bregman *et al.*
Ref. Ritter, 1981: 1505; Hunt, 1992: 90.

Matucana variabilis Rauh & Backeberg =Matucana haynei (Otto ex Salm-Dyck) Britton & Rose
Ref. Backeberg, 1956a: 18; Rauh, 1958: 348; Ritter, 1981: 1504; Hunt, 1992: 89.
Note: This species, including var. *fuscata*, was discussed under *M. supertexta* (=*M. haynei*) by Ritter (1981).

Matucana variabilis var. *fuscata* Rauh & Backeberg =Matucana haynei (Otto ex Salm-Dyck) Britton & Rose
Ref. Backeberg, 1956a: 20; Rauh, 1958: 348; Ritter, 1981: 1504.

Matucana weberbaueri (Vaupel) Backeberg
Syn. *Borzicactus weberbaueri* (Vaupel) Donald, *Borzicactus weberbaueri* var. *flammeus* Donald, *Echinocactus weberbaueri* Vaupel
Ref. Ritter, 1981: 1505; Hunt, 1992: 90.
Endemic solitary, globular cactus. Andean II: dry valleys, shrublands. 2000-2500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Weberbauer 4271* (B), Ritter 1304 (U)
Depts.: AM

Matucana winteri F. Ritter =Matucana myriacantha (Vaupel) F. Buxbaum
Ref. Ritter, 1981: 1506; Hunt, 1992: 90.

Matucana yanganucensis Rauh & Backeberg =Matucana blancii Backeberg
Ref. Backeberg, 1956a: 18; Rauh, 1958: 349; Ritter, 1981: 1506; Hunt, 1992: 90.
Note: Treated as an accepted species by Ritter (1981) with two varieties: *yanganucensis* and *setosa*.

Matucana yanganucensis var. *albispina* Rauh & Backeberg =Matucana blancii Backeberg
Ref. Backeberg, 1956a: 18; Rauh, 1958: 350; Ritter, 1981: 1506.

Matucana yanganucensis var. *fuscispina* Rauh & Backeberg =Matucana blancii Backeberg
Ref. Backeberg, 1956a: 18; Rauh, 1958: 355; Ritter, 1981: 1506.

Matucana yanganucensis var. *longistyla* Rauh & Backeberg =Matucana blancii Backeberg
Ref. Rauh, 1958: 352; Ritter, 1981: 1506.

Matucana yanganucensis var. *parviflora* Rauh & Backeberg =Matucana blancii Backeberg
Ref. Backeberg, 1956a: 19; Rauh, 1958: 353; Ritter, 1981: 1506.

Matucana yanganucensis var. *salmonea* Rauh & Backeberg =Matucana blancii Backeberg
Ref. Backeberg, 1956a: 18; Rauh, 1958: 353; Ritter, 1981: 1506.

Matucana yanganucensis var. *setosa* F. Ritter =Matucana blancii Backeberg
Ref. Ritter, 1981: 1507.

Matucana yanganucensis var. *suberecta* Rauh & Backeberg =Matucana blancii Backeberg
Ref. Backeberg, 1956a: 18; Rauh, 1958: 355; Ritter, 1981: 1499.
Note: Treated under *M. megalantha* by Ritter (1981).

Mediocactus megalanthus (Schumann ex Vaupel) Britton & Rose =Selenicereus megalanthus (Schumann ex Vaupel) Moran
Ref. Britton & Rose, 1920: 212; Madsen, 1989: 71; Hunt, 1992: 90.

Melocactus amstutziae Rauh & Backeberg =Melocactus peruvianus Vaupel
Ref. Backeberg, 1956a: 36; Ritter, 1981: 1310; Taylor, 1991: 67; Hunt, 1992: 90.

Melocactus bellavistensis Rauh & Backeberg subsp. **bellavistensis**
Ref. Backeberg, 1956a: 36; Rauh, 1958: 541; Taylor, 1991: 66; Hunt, 1992: 91.
Solitary, globular cactus. Andean I: rocky slopes. 500-1500 m.
Voucher: Rauh K137 [1954]* (HEID, ZSS), Knize 284 (ZSS)
Depts.: AM, CA

Melocactus bellavistensis subsp. **onychacanthus** (F. Ritter) N. P. Taylor
Syn. *Melocactus onychacanthus* F. Ritter, *Melocactus onychacanthus* var. *albescens* F. Ritter, *Melocactus onychacanthus* var. *conicus* F. Ritter
Ref. Taylor, 1991: 66; Hunt, 1992: 91.
Endemic solitary, globular cactus. Andean I-II: rocky slopes. 1000-2000 m.
Voucher: Ritter 700* (U), Knize 1047 (ZSS)
Depts.: AM, CA, LL

Melocactus fortalezensis Rauh & Backeberg =Melocactus peruvianus Vaupel
Ref. Backeberg, 1956a: 36; Rauh, 1958: 535; Ritter, 1981: 1310; Taylor, 1991: 67; Hunt, 1992: 91.

Melocactus huallancensis Rauh & Backeberg =Melocactus peruvianus Vaupel
Ref. Rauh, 1958: 533; Ritter, 1981: 1310; Taylor, 1991: 67; Hunt, 1992: 91.

Melocactus jansenianus Backeberg =Melocactus peruvianus Vaupel
Ref. Rauh, 1958: 535; Ritter, 1981: 1310; Taylor, 1991: 66; Hunt, 1992: 91.

Melocactus onychacanthus F. Ritter =Melocactus bellavistensis subsp. onychacanthus (F. Ritter) N. P. Taylor
Ref. Taylor, 1991: 66.

Melocactus onychacanthus var. *albescens* F. Ritter =Melocactus bellavistensis subsp. onychacanthus (F. Ritter) N. P. Taylor
Ref. Ritter, 1981: 1308; Taylor, 1991: 66.

Melocactus onychacanthus var. *conicus* F. Ritter =Melocactus bellavistensis subsp. onychacanthus (F. Ritter) N. P. Taylor
Ref. Ritter, 1981: 1308; Taylor, 1991: 66.

Melocactus peruvianus var. *amstutziae* (Rauh & Backeberg) Rauh & Backeberg =Melocactus peruvianus Vaupel
Ref. Rauh, 1958: 531; Ritter, 1981: 1310; Taylor, 1991: 67.

Melocactus peruvianus var. *canetensis* Rauh & Backeberg =Melocactus peruvianus Vaupel
Ref. Rauh, 1958: 533; Ritter, 1981: 1310; Taylor, 1991: 67.

Melocactus peruvianus var. *lurinensis* Rauh & Backeberg =Melocactus peruvianus Vaupel
Ref. Rauh, 1958: 533; Ritter, 1981: 1310; Taylor, 1991: 67.

Melocactus peruvianus Vaupel
Syn. *Cactus townsendii* Britton & Rose, *Melocactus amstutziae* Rauh & Backeberg, *Melocactus fortalezensis* Rauh & Backeberg, *Melocactus huallancensis* Rauh & Backeberg, *Melocactus jansenianus* Backeberg, *Melocactus peruvianus* var. *amstutziae* (Rauh & Backeberg) Rauh & Backeberg, *Melocactus peruvianus* var. *canetensis* Rauh & Backeberg, *Melocactus peruvianus* var. *lurinensis* Rauh & Backeberg, *Melocactus trujillensis* Rauh & Backeberg, *Melocactus trujillensis* var. *schoenii* Rauh & Backeberg, *Melocactus unguispinus* Backeberg
Ref. Vaupel, 1913a: 28; Rauh, 1958: 531; Ritter, 1981: 1310; Taylor, 1991: 66; Hunt, 1992: 92.
Solitary, globular cactus. Andean I, Coastal: dry valleys, rocky slopes. 0-1500 m.
Voucher: Weberbauer 2629* (B), Gibson 3066 (RSA)
Depts.: AN, AR, LA, LI, LL, PI, TU

Melocactus trujillensis Rauh & Backeberg =Melocactus peruvianus Vaupel
Ref. Backeberg, 1956a: 36; Rauh, 1958: 536; Ritter, 1981: 1310; Taylor, 1991: 67; Hunt, 1992: 92.

Melocactus trujillensis var. *schoenii* Rauh & Backeberg =Melocactus peruvianus Vaupel
Ref. Backeberg, 1956a: 36; Rauh, 1958: 538; Ritter, 1981: 1310; Taylor, 1991: 67.

Melocactus unguispinus Backeberg =Melocactus peruvianus Vaupel
Ref. Backeberg, 1956a: 36; Rauh, 1958: 539; Ritter, 1981: 1310; Taylor, 1991: 67; Hunt, 1992: 92.

Mila albisetacea Rauh & Backeberg =Mila caespitosa Britton & Rose
Ref. Backeberg, 1956a: 11; Rauh, 1958: 238; Ritter, 1981: 1342; Hunt, 1992: 93.

Mila alboareolata Akers =Mila nealeana Backeberg
Ref. Rauh, 1958: 231; Hunt, 1992: 93.
Note: Treated as a synonym of *M. caespitosa* by Ritter (1981: 1339).

Mila breviseta Rauh & Backeberg =Mila nealeana Backeberg
Ref. Backeberg, 1956a: 12; Rauh, 1958: 233; Ritter, 1981: 1341; Hunt, 1992: 93.

Mila caespitosa Britton & Rose
Syn. *Mila albisetacea* Rauh & Backeberg, *Mila caespitosa* fo. *albisetacea* (Rauh & Backeberg) Donald, *Mila caespitosa* fo. *cereoides* (Rauh & Backeberg) Donald, *Mila caespitosa* fo. *sublanata* (Rauh & Backeberg) Donald, *Mila caespitosa*

var. *fortalezensis* (Rauh & Backeberg) Donald, *Mila caespitosa* var. *pugionifera* (Rauh & Backeberg) Donald, *Mila ceroides* Rauh & Backeberg, *Mila fortalezensis* Rauh & Backeberg, *Mila pugionifera* Rauh & Backeberg, *Mila sublanata* Rauh & Backeberg
Ref. Britton & Rose, 1922: 211; Rauh, 1958: 231; Donald, 1978: 61; Ritter, 1981: 1339; Hunt, 1992: 93.
Endemic clustered, globular cactus. Andean I-II, Coastal: dry valleys, rocky slopes. 500-3500 m.
Voucher: Rose 18555* (US), Rauh K50 [1956] (ZSS)
Depts.: LI

Mila caespitosa fo. *albisetacea* (Rauh & Backeberg) Donald =Mila caespitosa Britton & Rose
Ref. Donald, 1978: 62.

Mila caespitosa fo. *breviseta* (Rauh & Backeberg) Donald =Mila nealeana Backeberg
Ref. Donald, 1978: 62.

Mila caespitosa fo. *cereoides* (Rauh & Backeberg) Donald =Mila caespitosa Britton & Rose
Ref. Donald, 1978: 61.

Mila caespitosa fo. *kubeana* (Werdermann & Backeberg) Donald =Mila nealeana Backeberg
Ref. Donald, 1978: 62; Ritter, 1981: 1340.

Mila caespitosa fo. *lurinensis* (Rauh & Backeberg) Donald =Mila nealeana Backeberg
Ref. Donald, 1978: 62.

Mila caespitosa fo. *sublanata* (Rauh & Backeberg) Donald =Mila caespitosa Britton & Rose
Ref. Donald, 1978: 61.

Mila caespitosa subsp. *nealaena* (Backeberg) Donald =Mila nealeana Backeberg
Ref. Donald, 1978: 62.

Mila caespitosa var. *alboareolata* (Akers) Donald =Mila nealeana Backeberg
Ref. Donald, 1978: 62.

Mila caespitosa var. *densiseta* (Rauh & Backeberg) Donald =Mila nealeana Backeberg
Ref. Donald, 1978: 62.

Mila caespitosa var. *fortalezensis* (Rauh & Backeberg) Donald =Mila caespitosa Britton & Rose
Ref. Donald, 1978: 61.

Mila caespitosa var. *pugionifera* (Rauh & Backeberg) Donald =Mila caespitosa Britton & Rose
Ref. Donald, 1978: 61.

Mila ceroides Rauh & Backeberg =Mila caespitosa Britton & Rose
Ref. Backeberg, 1956a: 11; Rauh, 1958: 235; Ritter, 1981: 1340; Hunt, 1992: 93.
Note: Treated as a synonym under *M. nealeana* by Ritter (1981).

Mila colorea F. Ritter
Ref. Ritter, 1981: 1341; Hunt, 1992: 93.
Endemic solitary or clustered, globular cactus. Andean II: rocky slopes. 2000-2500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 699* (U)
Depts.: AN

Mila densiseta Rauh & Backeberg =Mila nealeana Backeberg
Ref. Backeberg, 1956a: 11; Rauh, 1958: 239; Ritter, 1981: 1341; Hunt, 1992: 93.

Mila fortalezensis Rauh & Backeberg =Mila caespitosa Britton & Rose
Ref. Backeberg, 1956a: 11; Rauh, 1958: 234; Ritter, 1981: 1340; Hunt, 1992: 93.
Note: Treated as a synonym under *M. nealeana* by Ritter (1981).

Mila kubeana Werdermann & Backeberg =Mila nealeana Backeberg
Ref. Rauh, 1958: 232; Ritter, 1981: 1340; Hunt, 1992: 93.

Mila lurinensis Rauh & Backeberg =Mila nealeana Backeberg
Ref. Backeberg, 1956a: 11; Rauh, 1958: 240; Ritter, 1981: 1340; Hunt, 1992: 93.

Mila nealeana Backeberg
Syn. *Mila alboareolata* Akers, *Mila breviseta* Rauh & Backeberg, *Mila caespitosa* fo. *breviseta* (Rauh & Backeberg) Donald, *Mila caespitosa* fo. *kubeana* (Werdermann & Backeberg) Donald, *Mila caespitosa* fo. *lurinensis* (Rauh & Backeberg) Donald, *Mila caespitosa* subsp. *nealaena* (Backeberg) Donald, *Mila caespitosa* var. *alboareolata* (Akers) Donald, *Mila caespitosa* var. *densiseta* (Rauh & Backeberg) Donald, *Mila densiseta* Rauh & Backeberg, *Mila kubeana* Werdermann & Backeberg, *Mila lurinensis* Rauh & Backeberg, *Mila nealeana* fo. *senilis* F. Ritter, *Mila nealeana* var. *tenuior* Rauh & Backeberg, *Mila sublanata* var. *pallidior* Rauh & Backeberg
Ref. Rauh, 1958: 232; Ritter, 1981: 1340; Hunt, 1992: 93.
Endemic solitary or clustered, globular cactus. Andean I-II: dry valleys, rocky slopes. 1000-2500 m.
Note: Accepted provisionally by Hunt (1992). Various infraspecific taxa treated here as synonyms of *M. nealeana* were recognized by Donald (1978: 61-62) under *M. caespitosa*.
Voucher: Backeberg s.n.*, Ritter 141 (U)
Depts.: LI

Mila nealeana fo. *senilis* F. Ritter =Mila nealeana Backeberg
Ref. Ritter, 1981: 1340.

Mila nealeana var. *tenuior* Rauh & Backeberg =Mila nealeana Backeberg
Ref. Backeberg, 1956a: 11; Rauh, 1958: 232; Ritter, 1981: 1340.

Mila pugionifera Rauh & Backeberg =Mila caespitosa Britton & Rose
Ref. Backeberg, 1956a: 11; Rauh, 1958: 237; Ritter, 1981: 1342; Hunt, 1992: 93.

Mila sublanata Rauh & Backeberg =Mila caespitosa Britton & Rose
Ref. Backeberg, 1956a: 11; Rauh, 1958: 236; Ritter, 1981: 1340; Hunt, 1992: 93.
Note: Treated as a synonym under *M. nealeana* by Ritter (1981).

Mila sublanata var. *pallidior* Rauh & Backeberg =Mila nealeana Backeberg
Ref. Backeberg, 1956a: 11; Rauh, 1958: 236; Ritter, 1981: 1341.

Monvillea amazonica (Schumann) Britton & Rose =Cereus amazonicus Schumann
Ref. Rauh, 1958: 505; Castellanos, 1967: 77; Hunt, 1992: 93.

Monvillea diffusa Britton & Rose =Cereus diffusus (Britton & Rose) Werdermann
Ref. Backeberg, 1931b: 69; Rauh, 1958: 503; Britton & Rose, 1920: 24; Hunt, 1992: 93.

Monvillea jaenensis Rauh & Backeberg
Syn. *Monvillea jaenensis* var. *paucispina* Rauh & Backeberg, *Monvillea pucarensis* F. Ritter, nom. nud., *Praecereus jaenensis* (Rauh & Backeberg) F. Buxbaum
Ref. Backeberg, 1956a: 33; Rauh, 1958: 506; Ritter, 1981: 1306; Hunt, 1992: 93.
Endemic climbing or sprawling cactus. Andean I: shrublands. 500-1000 m.
Note: Accepted provisionally by Hunt (1992) with the annotation "(cf. *Cereus amazonicus*)."
Voucher: Rauh K78 [1956]* (ZSS), Ritter 293 (U)
Depts.: CA

Monvillea jaenensis var. *paucispina* Rauh & Backeberg =Monvillea jaenensis Rauh & Backeberg
Ref. Rauh, 1958: 507; Ritter, 1981: 1306.

Monvillea maritima Britton & Rose =Cereus diffusus (Britton & Rose) Werdermann
Ref. Backeberg, 1931b: 68; Rauh, 1958: 505; Ritter, 1981: 1304; Hunt, 1992: 93.

Monvillea pucarensis F. Ritter, nom. nud. =Monvillea jaenensis Rauh & Backeberg
Ref. Ritter, 1981: 1306.

Monvillea pugionifera F. Ritter =Cereus diffusus (Britton & Rose) Werdermann
Ref. Ritter, 1981: 1305; Hunt, 1992: 94.

Morawetzia doelziana Backeberg =Oreocereus doelzianus (Backeberg) Borg
Ref. Rauh, 1958: 332; Hunt, 1992: 94.

Morawetzia doelziana fo. *calva* (Rauh & Backeberg) F. Ritter =Oreocereus doelzianus (Backeberg) Borg
Ref. Rauh, 1958: 333; Ritter, 1981: 1366.

Morawetzia doelziana var. *calva* Rauh & Backeberg =Oreocereus doelzianus (Backeberg) Borg
Ref. Backeberg, 1956a: 18; Rauh, 1958: 333; Kimnach, 1960a: 59; Ritter, 1981: 1366.

Morawetzia doelziana var. *fuscatispina* Backeberg, nom. illeg. =Oreocereus doelzianus (Backeberg) Borg
Ref. Ritter, 1981: 1366.

Morawetzia sericata F. Ritter =Oreocereus doelzianus (Backeberg) Borg
Ref. Ritter, 1981: 1367; Hunt, 1992: 94.

Morawetzia varicolor Knize =Oreocereus leucotrichus (Philippi) Wagenknecht
Ref. Knize, 1968a: 254; Hunt, 1992: 94.

Neobinghamia climaxantha (Werdermann) Backeberg =xHaagespostoa climaxantha (Werdermann) G. Rowley
Ref. Rauh, 1958: 438; Rowley, 1982: 76; Hunt, 1992: 94.

Neobinghamia climaxantha var. *armata* Rauh & Backeberg =xHaagespostoa climaxantha (Werdermann) G. Rowley
Ref. Backeberg, 1956a: 34; Rauh, 1958: 440.

Neobinghamia climaxantha var. *lurinensis* Rauh & Backeberg =xHaagespostoa climaxantha (Werdermann) G. Rowley
Ref. Backeberg, 1956a: 34; Rauh, 1958: 441.

Neobinghamia mirabilis Rauh & Backeberg =xBorzipostoa mirabilis (Rauh & Backeberg) G. Rowley
Ref. Backeberg, 1956a: 35; Rauh, 1958: 447; Hunt, 1992: 94.

Neobinghamia multiareolata Rauh & Backeberg =xHaagespostoa albisetata (Akers) G. Rowley
Ref. Backeberg, 1956a: 34; Rauh, 1958: 442; Hunt, 1992: 94.

Neobinghamia multiareolata var. *superba* Rauh & Backeberg =xHaagespostoa albisetata (Akers) G. Rowley
Ref. Rauh, 1958: 444.

Neobinghamia villigera Rauh & Backeberg =xHaagespostoa albisetata (Akers) G. Rowley
Ref. Backeberg, 1956a: 35; Rauh, 1958: 445; Hunt, 1992: 94.

Neolobivia divaricata F. Ritter =Echinopsis backebergii Werdermann
Ref. Ritter, 1981: 1337; Hunt, 1992: 97.

Neolobivia echinata (Rausch) F. Ritter =Echinopsis hertrichiana (Backeberg) D. Hunt
Ref. Ritter, 1981: 1338; Hunt, 1992: 96.

Neolobivia hertrichiana (Backeberg) F. Ritter =Echinopsis hertrichiana (Backeberg) D. Hunt
Ref. Ritter, 1981: 1334; Hunt, 1992: 97.

Neolobivia incaica (Backeberg) F. Ritter =Echinopsis hertrichiana (Backeberg) D. Hunt
Ref. Ritter, 1981: 1335; Hunt, 1992: 97.

Neolobivia minuta (F. Ritter) F. Ritter =Echinopsis hertrichiana (Backeberg) D. Hunt
Ref. Ritter, 1981: 1336; Hunt, 1992: 97.

Neolobivia prolifera F. Ritter =Echinopsis hertrichiana (Backeberg) D. Hunt
Ref. Ritter, 1981: 1335; Hunt, 1992: 97.

Neolobivia segawae Y. Ito
Ref. Ito, 1957: 56, 284; Hunt, 1992: 97.
Endemic solitary, globular cactus.
Note: Accepted provisionally by Hunt (1992). Treated by Ito (1957) with four varieties: *segawae*, *albiroseiflora*, *roseiflora*, and *rubriviolacea*; see also Eggli & Taylor (1992: 139).

Neolobivia vilcabambae (F. Ritter) F. Ritter =Echinopsis hertrichiana (Backeberg) D. Hunt
Ref. Ritter, 1981: 1337; Hunt, 1992: 97.

Neolobivia winteriana (F. Ritter) F. Ritter =Echinopsis backebergii Werdermann
Ref. Ritter, 1981: 1333; Hunt, 1992: 97.

Neolobivia wrightiana (Backeberg) Y. Ito =Echinopsis backebergii Werdermann
Ref. Ritter, 1981: 1333; Hunt, 1992: 97.

Neolobivia xiphacantha Y. Ito
Ref. Ito, 1957: 55, 285; Hunt, 1992: 97.
Endemic solitary, globular cactus.
Note: Accepted provisionally by Hunt (1992). According to Eggli & Taylor (1992: 139), this name should probably have been published as *Echinopsis xiphacantha*, nom. nud., since several varieties have been published as new combinations under *Echinopsis*. No Peru voucher seen, although recorded for the country by Hunt (1992).
Depts.: Without locality data.

Neoporteria bicolor (Akers & Buining) Donald & G. Rowley =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Donald & Rowley, 1966: 55; Hunt, 1992: 97.

Neoporteria clavata (Soehrens) Werdermann
Syn. *Echinocactus clavatus* Sohrens
Ref. Donald & Rowley, 1966: 55; Ritter, 1980b: 1037; Hunt, 1992: 97.
Solitary, globular cactus.
Note: No Peru voucher seen although recorded for the country by Hunt (1992).

Neoporteria islayensis (Foerster) Donald & G. Rowley
Syn. *Echinocactus islayensis* Foerster, *Echinocactus lindleyi* Foerster, *Echinocactus molendensis* Vaupel, *Islaya bicolor* Akers & Buining, *Islaya brevicylindrica* Rauh & Backeberg, *Islaya copiapoides* Rauh & Backeberg, *Islaya copiapoides* var. *chalaensis* F. Ritter, *Islaya copiapoides* var. *pseudomollendensis* F. Ritter, *Islaya divaricatiflora* F. Ritter, *Islaya flavida* F. Ritter, *Islaya grandiflorens* Rauh & Backeberg, *Islaya grandiflorens* Rauh & Backeberg, nom. illeg., *Islaya grandiflorens* var. *spinosior* Backeberg, *Islaya grandiflorens* var. *tenuispina* Rauh & Backeberg, *Islaya grandis* Rauh & Backeberg, *Islaya grandis* var. *brevispina* Rauh & Backeberg, *Islaya grandis* var. *neglecta* Simo, *Islaya islayensis* (Foerster) Backeberg, *Islaya islayensis* var. *copiapoides* (Rauh & Backeberg) F. Ritter, *Islaya islayensis* var. *minor* (Backeberg) F. Ritter, *Islaya krainziana* F. Ritter, *Islaya maritima* F. Ritter, *Islaya minor* Backeberg, *Islaya minuscula* F. (F. Ritter) Donald & G. Rowley, *Neoporteria lindleyi* (Foerster) Donald & G. Rowley, *Neoporteria lindleyi* fo. *curvispina* (Rauh & Backeberg) Donald & G. Rowley
Ref. Donald & Rowley, 1966: 56; Ritter, 1981: 1299; Hunt, 1992: 97.
Endemic solitary, globular cactus. Andean I: dry valleys, lomas, rocky slopes. 0-1500 m.
Note: Treated by Donald & Rowley (1966: 56) with four varieties: *islayensis*, *copiapodes*, *divaricatiflora*, and *grandis*.
Voucher: Haage s.n.*, Ritter 307 (U)
Depts.: AR, MO, TA

Neoporteria islayensis fo. *brevicylindrica* (Rauh & Backeberg) Donald & G. Rowley =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Donald & Rowley, 1966: 56; Ritter, 1981: 1292.
Note: Treated under var. *islayensis* by Donald & Rowley (1966).

Neoporteria islayensis fo. *brevispina* (Rauh & Backeberg) Donald & G. Rowley =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Donald & Rowley, 1966: 56.
Note: Treated as an accepted taxon under var. *grandis* by Donald & Rowley (1966).

Neoporteria islayensis fo. *grandiflorens* (Rauh & Backeberg) Donald & G. Rowley =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Donald & Rowley, 1966: 56.
Note: Treated under var. *islayensis* by Donald & Rowley (1966).

Neoporteria islayensis fo. *minor* (Backeberg) Donald & G. Rowley =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Donald & Rowley, 1966: 56; Ritter, 1981: 1300.
Note: Treated under var. *islayensis* by Donald & Rowley (1966).

Neoporteria islayensis fo. *molendensis* (Vaupel) Donald & G. Rowley =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Donald & Rowley, 1966: 55.
Note: Treated under var. *islayensis* by Donald & Rowley (1966).

Neoporteria islayensis fo. *spinosior* (Backeberg) Donald & G. Rowley =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Donald & Rowley, 1966: 56.

Neoporteria islayensis var. *copiapoides* (Rauh & Backeberg) Donald & G. Rowley =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Donald & Rowley, 1966: 56.
Note: See note under *Islaya copiapoides*.

Neoporteria islayensis var. *divaricatiflora* (F. Ritter) Donald & G. Rowley =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Donald & Rowley, 1966: 56.

Neoporteria islayensis var. *grandis* (Rauh & Backeberg) Donald & G. Rowley =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Donald & Rowley, 1966: 56.
Note: Treated as an accepted taxon by Donald & Rowley (1966).

Neoporteria krainziana (F. Ritter) Donald & G. Rowley =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Donald & Rowley, 1966: 57; Ritter, 1980b: 1026; Hunt, 1992: 97.

Neoporteria lindleyi (Foerster) Donald & G. Rowley =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Donald & Rowley, 1966: 55; Ritter, 1981: 1295; Hunt, 1992: 97.

Neoporteria lindleyi fo. *curvispina* (Rauh & Backeberg) Donald & G. Rowley =Neoporteria islayensis (Foerster) Donald & G. Rowley
Ref. Donald & Rowley, 1966: 57.

Neoporteria subgibbosa (Haworth) Britton & Rose
Syn. *Echinocactus subgibbosus* Haworth
Ref. Britton & Rose, 1922: 97; Ritter, 1980b: 1042; Hunt, 1992: 98.
Solitary or clustered, globular cactus.
Note: No Peru voucher seen although recorded for the country by Hunt (1982).

Neoporteria villosa (Monville) A. Berger
Syn. *Cactus villosus* Monville
Ref. Ritter, 1980b: 1032; Hunt, 1992: 98.
Solitary or clustered, globular cactus.
Note: No Peru voucher seen although recorded for the country by Hunt (1992).

Neoraimondia arequipensis (Meyen) Backeberg
Syn. *Cereus arequipensis* Meyen, *Cereus macrostibas* (Schumann) A. Berger, *Cereus macrostibas* var. *roseiflorus* Werdermann & Backeberg, *Espostoa gigantea* Backeberg, *Neoraimondia arequipensis* var. *aticensis* (Rauh & Backeberg) Rauh & Backeberg, *Neoraimondia arequipensis* var. *rhodantha* Rauh & Backeberg, *Neoraimondia arequipensis* var. *riomajensis* Rauh & Backeberg, *Neoraimondia aticensis* Rauh & Backeberg, *Neoraimondia gigantea* Backeberg, *Neoraimondia gigantea* var. *saniensis* Rauh & Backeberg, *Neoraimondia macrostibas* (Schumann) Britton & Rose, *Neoraimondia macrostibas* var. *gigantea* Backeberg, *Neoraimondia macrostibas* var. *roseiflora* (Werdermann & Backeberg) Backeberg, *Neoraimondia peruviana* (L.) F. Ritter, *Neoraimondia roseiflora* (Werdermann & Backeberg) Backeberg, *Pilocereus macrostibas* Schumann
Ref. Rauh, 1958: 256; Ritter, 1981: 1267; Hunt, 1992: 98.
Endemic erect, branched cactus. Andean I, Coastal: desert, rocky slopes. 500-1500 m.
Note: Treated under *N. peruviana* by Ritter (1981), a misapplied name according to Hunt (1992).
Voucher: Meyen s.n.* (B), Ritter 272 (U)
Depts.: AR, IC, LI

Neoraimondia arequipensis var. *aticensis* (Rauh & Backeberg) Rauh & Backeberg =Neoraimondia arequipensis (Meyen) Backeberg
Ref. Rauh, 1958: 263.

Neoraimondia arequipensis var. *rhodantha* Rauh & Backeberg =Neoraimondia arequipensis (Meyen) Backeberg
Ref. Rauh, 1958: 261; Ritter, 1981: 1270.

Neoraimondia arequipensis var. *riomajensis* Rauh & Backeberg =Neoraimondia arequipensis (Meyen) Backeberg
Ref. Rauh, 1958: 262; Ritter, 1981: 1270.

Neoraimondia aticensis Rauh & Backeberg =Neoraimondia arequipensis (Meyen) Backeberg
Ref. Backeberg, 1956a: 13; Ritter, 1981: 1267; Hunt, 1992: 98.

Neoraimondia gigantea Backeberg =Neoraimondia arequipensis (Meyen) Backeberg
Ref. Ritter, 1981: 1267; Hunt, 1992: 98.

Neoraimondia gigantea var. *saniensis* Rauh & Backeberg =Neoraimondia arequipensis (Meyen) Backeberg
Ref. Rauh, 1958: 260; Ritter, 1981: 1367.

Neoraimondia macrostibas (Schumann) Britton & Rose =Neoraimondia arequipensis (Meyen) Backeberg
Ref. Ritter, 1981: 1267; Hunt, 1992: 98.

Neoraimondia macrostibas var. *gigantea* Backeberg =Neoraimondia arequipensis (Meyen) Backeberg
Ref. Backeberg & Knuth, 1935: 176.

Neoraimondia macrostibas var. *roseiflora* (Werdermann & Backeberg) Backeberg =Neoraimondia arequipensis (Meyen) Backeberg
Ref. Backeberg & Knuth, 1935: 176.

Neoraimondia peruviana (L.) F. Ritter =Neoraimondia arequipensis (Meyen) Backeberg
Ref. Ritter, 1981: 1267; Hunt, 1992: 98.
Note: Hunt (1992) notes that this name was misapplied by Ritter (1981).

Neoraimondia roseiflora (Werdermann & Backeberg) Backeberg =Neoraimondia

arequipensis (Meyen) Backeberg
Ref. Ritter, 1981: 1267; Hunt, 1992: 98.

Neowerdermannia chilensis Backeberg
Syn. *Weingartia chilensis* (Backeberg) Backeberg
Ref. Ritter, 1980b: 1117; Ritter, 1981: 1339; Hunt, 1992: 98.
Solitary, globular cactus.
Note: No Peru voucher seen although recorded for the country by Hunt (1992).
Depts.: Without locality data.

Neowerdermannia peruviana F. Ritter
Ref. Ritter, 1981: 1338; Hunt, 1992: 98.
Endemic solitary, globular cactus. Andean III: rocky slopes, shrublands. 3500-4000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 191* (U)
Depts.: MO

Opuntia
Note: Also see *Cumulopuntia* and *Platyopuntia* for additional taxa, with those 5 taxa counted as species of *Opuntia* in this work.

Opuntia blancii (Backeberg) G. Rowley
Syn. *Tephrocactus blancii* Backeberg
Ref. Rowley, 1958a: 5; Ritter, 1981: 1248; Hunt, 1992: 102.
Endemic clump-forming cactus. Andean III: rocky slopes, shrublands. 3500-4000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Blanc s.n.[in 1953]*
Depts.: AN

Opuntia bradleyi G. Rowley =Opuntia cylindrica (Lamarck) DC.
Ref. Rowley, 1958: 4; Hunt, 1992: 102.
Note: A replacement name for *Austrocylindropuntia intermedia* Rauh & Backeberg [non *O. intermedia* Salm-Dyck] treated by Hunt (1992) as a provisionally accepted name, whereas *A. intermedia* is listed as a synonym of *O. cylindrica* (Hunt, 1992: 36).

Opuntia brasiliensis (Willdenow) Haworth
Syn. *Brasiliopuntia brasiliensis* (Willdenow) A. Berger, *Cactus brasiliensis* Willdenow
Ref. Britton & Rose, 1919: 209; Hunt, 1992: 102.
Erect, branched cactus. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Voucher: Klug 3906 (MO!)
Depts.: AY, CU, SM

Opuntia campestris Britton & Rose =Opuntia sphaerica Foerster
Ref. Britton & Rose, 1919: 99; Hunt, 1992: 103.

Opuntia corotilla Schumann ex Vaupel
Syn. *Cumulopuntia ignota* (Britton & Rose) F. Ritter, *Opuntia corotilla* var. *aurantiaciflora* (Rauh & Backeberg) G. Rowley, *Opuntia ignota* Britton & Rose, *Tephrocactus corotilla* (Schumann ex Vaupel) Backeberg, *Tephrocactus corotilla* var. *aurantiaciflorus* Rauh & Backeberg, *Tephrocactus ignotus* (Britton & Rose) Backeberg
Ref. Vaupel, 1913a: 28; Britton & Rose, 1919: 96; Ritter, 1980b: 885; Hunt, 1992: 103.
Endemic sprawling cactus. Andean II: dry valleys. 3000-3500 m.
Note: Accepted provisionally by Hunt (1992). Treated as a synonym under *O. sphaerica* by Britton & Rose (1919); Ritter (1980b) treated it under *Cumulopuntia berteri*.
Voucher: Weberbauer 1412* (B)
Depts.: AR

Opuntia corotilla var. *aurantiaciflora* (Rauh & Backeberg) G. Rowley =Opuntia corotilla Schumann ex Vaupel
Ref. Rowley, 1958a: 5.
Note: Treated as an accepted taxon by Rowley (1958a).

Opuntia crassicylindrica (Rauh & Backeberg) G. Rowley
Syn. *Cumulopuntia crassicylindrica* (Rauh & Backeberg) F. Ritter, *Tephrocactus crassicylindricus* Rauh & Backeberg
Ref. Rowley, 1958a: 5; Hunt, 1992: 103.
Endemic sprawling cactus. Andean I, Coastal: dry valleys, rocky slopes. 500-1500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Rauh K152 [1956]* (ZSS)
Depts.: AN

Opuntia crispicrinita (Rauh & Backeberg) G. Rowley =Opuntia floccosa Salm-Dyck
Ref. Rowley, 1958a: 5; Hunt, 1992: 103.

Opuntia crispicrinita var. *cylindracea* (Rauh & Backeberg) G. Rowley =Opuntia floccosa Salm-Dyck
Ref. Rowley, 1958a: 5.

Opuntia cylindrica (Lamarck) DC.
Syn. *Austrocylindropuntia cylindrica* (Lamarck) Backeberg, *Austrocylindropuntia intermedia* Rauh & Backeberg, *Cactus cylindricus* Lamarck, *Cereus cylindricus* (Lamarck) Haworth, *Cylindropuntia cylindrica* (Lamarck) F. Knuth, *Cylindropuntia intermedia* (Rauh & Backeberg) Rauh & Backeberg, nom. illeg., *Opuntia bradleyi* G. Rowley
Ref. Britton & Rose, 1919: 77; Rauh, 1958: 193; Hunt, 1992: 103.
Scandent cactus. Andean I: dry valleys, shrublands. 1000-1500 m.
Voucher: Cultivated at "Jardin du Roi" [Paris]* (P), Rauh K111 [1954] (U)
Depts.: PI

Opuntia cylindrolanata (Rauh & Backeberg) G. Rowley =Opuntia floccosa Salm-Dyck
Ref. Rowley, 1958a: 5; Hunt, 1992: 103.

Opuntia dactylifera Vaupel
Syn. *Cumulopuntia pentlandii* var. *dactylifera* (Vaupel) F. Ritter, *Opuntia noodtiae* (Backeberg & Jacobsen) G. Rowley, *Tephrocactus dactyliferus* (Vaupel) Backeberg, *Tephrocactus noodtiae* Backeberg & Jacobsen
Ref. Vaupel, 1913a: 29; Britton & Rose, 1919: 97; Hunt, 1992: 103.
Sprawling cactus. Andean III: rocky slopes. 3500-4000 m.
Note: Accepted provisionally by Hunt (1992). Treated as a synonym under *O. pentlandii* by Britton & Rose (1919).
Voucher: Weberbauer 1357* (B)
Depts.: PU

Opuntia dimorpha Foerster =Opuntia sphaerica Foerster
Ref. Britton & Rose, 1919: 96; Hunt, 1992: 104.

Opuntia exaltata A. Berger =Opuntia subulata (Muehlenpfordt) Engelmann
Ref. Ritter, 1981: 1241; Hunt, 1992: 104.

Opuntia ficus-indica (L.) Miller
Syn. *Cactus ficus-indica* L.
Ref. Britton & Rose, 1919: 177; Hunt, 1992: 177.
Introduced and cultivated erect, branched cactus.
Note: Widely cultivated.
Voucher: Smith *et al.* 2453 (MO!)
Depts.: CU, JU.

Opuntia floccosa Salm-Dyck
Syn. *Austrocylindropuntia floccosa* (Salm-Dyck) F. Ritter, *Austrocylindropuntia lagopus* fo. *rauhii* (Backeberg) F. Ritter, *Austrocylindropuntia lauliacoana* F. Ritter, *Austrocylindropuntia machacana* F. Ritter, *Austrocylindropuntia tephrocactoides* Rauh & Backeberg, *Cylindropuntia tephrocactoides* (Rauh & Backeberg) Rauh & Backeberg, *Opuntia crispicrinita* (Rauh & Backeberg) G. Rowley, *Opuntia crispicrinita* var. *cylindracea* (Rauh & Backeberg) G. Rowley, *Opuntia cylindrolanata* (Rauh & Backeberg) G. Rowley, *Opuntia floccosa* var. *crassior* (Backeberg) G. Rowley, *Opuntia floccosa* var. *ovoides* (Rauh & Backeberg) G. Rowley, *Opuntia pseudo-udonis* (Rauh & Backeberg) G. Rowley, *Opuntia rauhii* (Backeberg) G. Rowley, *Opuntia tephrocactoides* (Rauh & Backeberg) G. Rowley, *Opuntia udonis* Weingart, *Opuntia verticosa* Weingart, *Tephrocactus atroviridis* (Werdermann & Backeberg) Backeberg, *Tephrocactus atroviridis* var. *longicylindricus* Rauh & Backeberg, *Tephrocactus atroviridis* var. *parviflorus* Rauh & Backeberg, *Tephrocactus atroviridis* var. *paucispinus* Rauh & Backeberg, *Tephrocactus crispicrinitus* Rauh & Backeberg, *Tephrocactus crispicrinitus* var. *cylindraceus* Rauh & Backeberg, *Tephrocactus cylindrolanatus* Rauh & Backeberg, *Tephrocactus floccosus*

(Salm-Dyck) Backeberg, *Tephrocactus floccosus* subvar. *aurescens* Rauh & Backeberg, *Tephrocactus floccosus* var. *aurescens* Rauh & Backeberg, *Tephrocactus floccosus* var. *crassior* Backeberg, *Tephrocactus floccosus* var. *cylindraceus* Rauh & Backeberg, *Tephrocactus floccosus* var. *flavicomus* Rauh & Backeberg, *Tephrocactus floccosus* var. *ovoides* Rauh & Backeberg, *Tephrocactus pseudo-udonis* Rauh & Backeberg, *Tephrocactus rauhii* Backeberg, *Tephrocactus udonis* (Weingart) Backeberg, *Tephrocactus verticosus* (Weingart) Backeberg
Ref. Britton & Rose, 1919: 86; Ritter, 1981: 1244; Hunt, 1992: 104.
Clump-forming cactus. Andean II-III: dry valleys, rocky slopes, shrublands. 3000- > 4500 m.
Note: Treated under *Austrocylindropuntia* by Ritter (1981).
Voucher: Hutchison 1251 (US)
Depts.: AN, AR, CU, JU, LI, LL

Opuntia floccosa var. *crassior* (Backeberg) G. Rowley =Opuntia floccosa Salm-Dyck
Ref. Rowley, 1958a: 5.

Opuntia floccosa var. *ovoides* (Rauh & Backeberg) G. Rowley =Opuntia floccosa Salm-Dyck
Ref. Rowley, 1958a: 5.

Opuntia fulvicoma (Rauh & Backeberg) G. Rowley
Syn. *Opuntia fulvicoma* var. *bicolor* (Rauh & Backeberg) G. Rowley, *Tephrocactus bicolor* (Rauh & Backeberg) Rauh, *Tephrocactus fulvicomus* Rauh & Backeberg, *Tephrocactus fulvicomus* var. *bicolor* Rauh & Backeberg
Ref. Rowley, 1958a: 5; Hunt, 1992: 104.
Endemic cushion cactus. Andean II: dry valleys, rocky slopes. 3000-3500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Rauh K122 [1956]* (ZSS), Rauh K114 [1956] (ZSS)
Depts.: AN

Opuntia fulvicoma var. *bicolor* (Rauh & Backeberg) G. Rowley =Opuntia fulvicoma (Rauh & Backeberg) G. Rowley
Ref. Rowley, 1958a: 5.

Opuntia hirschii (Backeberg) G. Rowley
Syn. *Tephrocactus hirschii* Backeberg
Ref. Rowley, 1958a: 5; Ritter, 1981: 1248; Hunt, 1992: 105.
Endemic clump-forming cactus. Andean III: rocky slopes. 3500-4000 m.
Note: Accepted provisionally by Hunt (1992). Mentioned briefly in discussion of *Austrocylindropuntia* by Ritter (1981).
Voucher: Rauh K103 [1954]* (ZSS)
Depts.: AN

Opuntia ignescens Vaupel
Syn. *Cumulopuntia ignescens* (Vaupel) F. Ritter, *Tephrocactus ignescens* (Vaupel) Backeberg
Ref. Vaupel, 1913a: 30; Britton & Rose, 1919: 98; Ritter, 1980b: 880; Hunt, 1992: 105.
Clump-forming cactus. Andean III: grasslands, rocky slopes. 3500-4000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Weberbauer 1370* (B), Rose & Rose 18970 (US)
Depts.: AR

Opuntia ignota Britton & Rose =Opuntia corotilla Schumann ex Vaupel
Ref. Britton & Rose, 1919: 99; Backeberg & Knuth, 1935: 111; Ritter, 1981: 1250; Hunt, 1992: 105.

Opuntia inaequilaterlis A. Berger
Syn. *Platyopuntia inaequilaterlis* (A. Berger) F. Ritter, *Platyopuntia inaequilaterlis* var. *angustior* F. Ritter
Ref. Berger, 1905a: 453; Britton & Rose, 1919: 188; Hunt, 1992: 105.
Sprawling cactus. Andean II: disturbed areas, rocky slopes, shrublands. 1500-2500 m.
Note: Accepted provisionally by Hunt (1992). Described from cultivated specimens grown at La Mortola, Italy (Britton & Rose, 1919).
Voucher: Ritter 1322a (U)
Depts.: AY, HV

Opuntia kuehnrichiana var. *applanata* Werdermann & Backeberg =Opuntia sphaerica Foerster
Ref. Backeberg & Knuth, 1935: 111.

Opuntia kuehnrichiana Werdermann & Backeberg =Opuntia sphaerica Foerster
Ref. Backeberg & Knuth, 1935: 110; Hunt, 1992: 105.

Opuntia lagopus Schumann
Syn. *Austrocylindropuntia lagopus* (Schumann) F. Ritter, nom. illeg., *Austrocylindropuntia malyana* (Rausch) F. Ritter, *Opuntia lagopus* var. *aurea* (Rauh & Backeberg) G. Rowley, *Opuntia lagopus* var. *aureo-penicillata* (Rauh & Backeberg) G. Rowley, *Opuntia lagopus* var. *leucolagopus* (Rauh & Backeberg) G. Rowley, *Opuntia lagopus* var. *pachyclada* (Rauh & Backeberg) G. Rowley, *Tephrocactus floccosus* var. *lagopus* (Schumann) F. Ritter, *Tephrocactus lagopus* (Schumann) Backeberg, *Tephrocactus lagopus* var. *aureo-penicillatus* Rauh & Backeberg, *Tephrocactus lagopus* var. *aureus* Rauh & Backeberg, *Tephrocactus lagopus* var. *leucolagopus* Rauh & Backeberg, *Tephrocactus lagopus* var. *pachycladus* Rauh & Backeberg, *Tephrocactus malyanus* Rausch
Ref. Britton & Rose, 1919: 87; Rowley, 1958a: 5-6; Ritter, 1981: 1242; Hunt, 1992: 105.
Clump-forming cactus. Andean II-III: grasslands, rocky slopes. 3000- > 4500 m.
Note: Accepted provisionally by Hunt (1992). Treated under *Austrocylindropuntia* by Ritter (1981). Accepted by Rowley (1958a) with five varieties: *lagopus*, *aurea*, *aureo-penicillata*, *leucolagopus*, and *pachyclada*.
Voucher: Ritter 152 (U)
Depts.: AP, AR, AY, CU, LI, PU

Opuntia lagopus var. *aurea* (Rauh & Backeberg) G. Rowley =Opuntia lagopus Schumann
Ref. Rowley, 1958a: 5.

Opuntia lagopus var. *aureo-penicillata* (Rauh & Backeberg) G. Rowley =Opuntia lagopus Schumann
Ref. Rowley, 1958a: 6.

Opuntia lagopus var. *leucolagopus* (Rauh & Backeberg) G. Rowley =Opuntia lagopus Schumann
Ref. Rowley, 1958a: 6.

Opuntia lagopus var. *pachyclada* (Rauh & Backeberg) G. Rowley =Opuntia lagopus Schumann
Ref. Rowley, 1958a: 6.

Opuntia macbridei Britton & Rose =Opuntia quitensis A. Weber
Ref. Britton & Rose, 1923: 261; Rauh, 1958: 226; Ritter, 1981: 1255; Madsen, 1989: 55; Hunt, 1992: 106.

Opuntia macbridei var. *orbicularis* Rauh & Backeberg =Opuntia quitensis A. Weber
Ref. Ritter, 1981: 1255; Madsen, 1989: 55.

Opuntia mira (Rauh & Backeberg) G. Rowley =Opuntia sphaerica Foerster
Ref. Rowley, 1958a: 6; Hunt, 1992: 106.

Opuntia mistiensis (Backeberg) G. Rowley
Syn. *Tephrocactus mistiensis* Backeberg
Ref. Rowley, 1958a: 6; Hunt, 1992: 106.
Endemic sprawling cactus. Andean III: rocky slopes, shrublands. 3500-4000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Backeberg s.n.*
Depts.: AR

Opuntia noodtiae (Backeberg & Jacobsen) G. Rowley =Opuntia dactylifera Vaupel
Ref. Rowley, 1958a: 6; Hunt, 1992: 107.

Opuntia pachypus Schumann
Syn. *Austrocylindropuntia pachypus* (Schumann) Backeberg, *Cylindropuntia pachypus* (Schumann) Backeberg
Ref. Britton & Rose, 1919: 77; Ritter, 1981: 1242; Hunt, 1992: 107.
Endemic sprawling cactus. Coastal: desert, rocky slopes. 0-500 m.
Note: Treated under *Austrocylindropuntia* by Ritter (1981).
Voucher: Weberbauer s.n.* (B), Ritter 172 (U)
Depts.: AN, LI

Opuntia pallida Rose =Opuntia rosea DC.
Ref. Backeberg, 1962: 197.

Opuntia pascoensis Britton & Rose =Opuntia pubescens Wendland
Ref. Britton & Rose, 1919: 101; Rauh, 1958: 226; Madsen, 1989: 53; Hunt, 1992: 107.

Opuntia pentlandii Salm-Dyck
Syn. *Cumulopuntia pentlandii* (Salm-Dyck) F. Ritter, *Tephrocactus pentlandii* (Salm-Dyck) Backeberg
Ref. Britton & Rose, 1919: 97; Hunt, 1992: 107.
Cushion cactus. Andean II: rocky slopes. 2500-3500 m.
Voucher: Rose 19089 (US)
Depts.: PU

Opuntia pestifer Britton & Rose =Opuntia pubescens Wendland
Ref. Britton & Rose, 1919: 217; Rauh, 1958: 227; Madsen, 1989: 53; Hunt, 1992: 107.
Note: Name based on *Cactus nanus* H.B.K., non *O. nanus* Visiani.

Opuntia phyllanthus (L.) Miller =Epiphyllum phyllanthus var. phyllanthus
Ref. Kimnach, 1964: 113; Madsen, 1989: 31.

Opuntia pseudo-udonis (Rauh & Backeberg) G. Rowley =Opuntia floccosa Salm-Dyck
Ref. Rowley, 1958a: 6; Hunt, 1992: 107.

Opuntia pubescens Wendland
Syn. *Cactus nanus* H.B.K., *Cactus pubescens* (Wendland) Lemaire, *Cereus nanus* (H.B.K.) DC., *Opuntia pascoensis* Britton & Rose, *Opuntia pestifer* Britton & Rose, *Platyopuntia nana* (H.B.K.) F. Ritter
Ref. Britton & Rose, 1919: 101; Madsen, 1989: 53; Hunt, 1992: 107.
Sprawling cactus. Andean I-II: dry valleys, rocky slopes. 1000-2500 m.
Note: Not listed by Hunt for Peru, although *O. pascoensis* and *Platyopuntia nana* are cited as synonyms of *O. pubescens* (Hunt 1992: 107, 119).
Voucher: Rose & Rose 18812 (US)
Depts.: LI, PA, PI

Opuntia punta-caillan (Rauh & Backeberg) G. Rowley
Syn. *Tephrocactus punta-caillan* Rauh & Backeberg
Ref. Rowley, 1958a: 6; Ritter, 1981: 1248; Hunt, 1992: 107.
Endemic clump-forming cactus. Andean III: rocky slopes. 4000-4500 m.
Note: Accepted provisionally by Hunt (1992). Mentioned briefly in discussion on *Austrocylindropuntia* by Ritter (1981).
Voucher: Rauh K105 [1954]* (ZSS)
Depts.: AN

Opuntia pyrrhacantha Schumann
Syn. *Cumulopuntia pyrrhacantha* (Schumann) F. Ritter, *Tephrocactus pyrrhacanthus* (Schumann) Backeberg
Ref. Britton & Rose, 1919: 97; Hunt, 1992: 108.
Endemic sprawling cactus. Andean III: grasslands, rocky slopes. 4000-4500 m.
Note: From border area with Chile. Treated as a synonym under *O. pentlandii* by Britton & Rose (1919).
Voucher: Syntypes Stuebel 98c* & 111b* (B)
Depts.: TA

Opuntia quitensis A. Weber
Syn. *Opuntia macbridei* Britton & Rose, *Opuntia macbridei* var. *orbicularis* Rauh & Backeberg, *Platyopuntia quitensis* (A. Weber) F. Ritter
Ref. Britton & Rose, 1919: 154; Madsen, 1989: 55; Ritter, 1981: 1255.
Sprawling cactus. Andean I-II: dry valleys, rocky slopes. 1000-2500 m.
Voucher: Macbride & Featherstone 2365 (NY)
Depts.: AM, AP, HU, LA

Opuntia rauhii (Backeberg) G. Rowley =Opuntia floccosa Salm-Dyck
Ref. Rowley, 1958a: 6; Hunt, 1992: 108.

Opuntia rauppiana Schumann =Opuntia sphaerica Foerster
Ref. Ritter, 1981: 1252; Hunt, 1992: 108.

Opuntia rosea DC.
Syn. *Cylindropuntia pallida* (Rose) F. Knuth, *Cylindropuntia rosea* (DC.) Backeberg, *Opuntia pallida* Rose
Ref. Britton & Rose, 1919: 63; Hunt, 1992: 178.
Introduced sprawling cactus.
Note: Listed as a synonym of *O. imbricata* by Britton & Rose (1919). No Peru voucher seen although recorded for the country by Hunt (1992).

Opuntia soehrensii Britton & Rose
Syn. *Platyopuntia soehrensii* (Britton & Rose) F. Ritter
Ref. Britton & Rose, 1919: 134; Rauh, 1958: 227; Navarro & Galán de Mera, 1991: 112; Hunt, 1992: 108.
Sprawling cactus. Andean III: disturbed areas, rocky slopes. 3500-4000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Rose & Rose 18967* (US), Rauh K154 [1956] (ZSS)
Depts.: AR, PU

Opuntia sphaerica Foerster
Syn. *Cumulopuntia kuehnrichiana* (Werdermann & Backeberg) F. Ritter, *Cumulopuntia rauppiana* (Schumann) F. Ritter, *Opuntia campestris* Britton & Rose, *Opuntia dimorpha* Foerster, *Opuntia kuehnrichiana* var. *applanata* Werdermann & Backeberg, *Opuntia kuehnrichiana* Werdermann & Backeberg, *Opuntia mira* (Rauh & Backeberg) G. Rowley, *Opuntia rauppiana* Schumann, *Opuntia sphaerica* var. *rauppiana* (Schumann) G. Rowley, *Tephrocactus campestris* (Britton & Rose) Backeberg, *Tephrocactus dimorphus* (Foerster) Backeberg, *Tephrocactus kuehnirichianus* (Werdermann & Backeberg) Backeberg, *Tephrocactus mirus* Rauh & Backeberg, *Tephrocactus sphaericus* (Foerster) Backeberg, *Tephrocactus sphaericus* var. *rauppianus* (Schumann) Backeberg
Ref. Britton & Rose, 1919: 96; Hunt, 1992: 109.
Sprawling cactus. Andean I-III: grasslands, rocky slopes. 1000-4000 m.
Voucher: Collector unknown s.n.*, Rose & Rose 19002 (US)
Depts.: AR, IC, LI

Opuntia sphaerica var. *rauppiana* (Schumann) G. Rowley =Opuntia sphaerica Foerster
Ref. Rowley, 1958b: 25.

Opuntia sphaerica var. *unguispina* (Backeberg) G. Rowley =Opuntia unguispina Backeberg
Ref. Rowley, 1958b: 25.

Opuntia staffordae Bullock
Syn. *Tephrocactus staffordae* (Bullock) Backeberg
Ref. Eggli & Taylor, 1991: 211.
Endemic clump-forming cactus.
Note: Treated neither by Ritter (1981) nor by Hunt (1992).
Voucher: Stafford 1030 (K)
Depts.: AR

Opuntia subulata (Muehlenpfordt) Engelmann
Syn. *Austrocylindropuntia exaltata* (A. Berger) Backeberg, *Austrocylindropuntia subulata* (Muehlenpfordt) Backeberg, *Cylindropuntia exaltata* (A. Berger) Backeberg, *Cylindropuntia subulata* (Muehlenpfordt) F. Knuth, *Opuntia exaltata* A. Berger, *Pereskia subulata* Muhlenpfordt
Ref. Britton & Rose, 1919: 75; Hunt, 1992: 109.
Erect branched cactus. Andean I-II, Coastal: disturbed areas, rocky slopes. 0-3500 m.
Voucher: Rose 18632 (US)
Depts.: CU, LI, PU

Opuntia tephrocactoides (Rauh & Backeberg) G. Rowley =Opuntia floccosa Salm-Dyck
Ref. Rowley, 1958a: 4; Hunt, 1992: 109.

Opuntia tunicata (Lehmann) Link & Otto
Syn. *Cactus tunicatus* Lehmann, *Cereus tunicatus* (Lehmann) Link & Otto, pro syn., *Cylindropuntia tunicata* (Lehmann) F. Knuth
Ref. Britton & Rose, 1919: 65; Madsen, 1989: 60; Hunt, 1992: 109.
Introduced erect cactus. Andean I-II, Coastal: disturbed areas, dry valleys, rocky slopes. 0-3000 m.
Voucher: Rose & Rose 18657 (US)
Depts.: CU, HU, LI

Opuntia udonis Weingart =Opuntia floccosa Salm-Dyck
Ref. Hunt, 1992: 109.

Opuntia unguispina Backeberg
Syn. *Cumulopuntia unguispina* (Backeberg) F. Ritter, *Cumulopuntia unguispina* var. *major* F. Ritter, *Opuntia sphaerica* var. *unguispina* (Backeberg) G. Rowley, *Tephrocactus sphaericus* var. *unguispina* (Backeberg) Backeberg
Ref. Hunt, 1992: 109.
Endemic clump-forming cactus. Andean I-II: lomas, rocky slopes. 500-2000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 121b (U)
Depts.: AR

Opuntia verticosa Weingart =Opuntia floccosa Salm-Dyck
Ref. Hunt, 1992: 110.

Opuntia yanganucensis (Rauh & Backeberg) G. Rowley
Syn. *Tephrocactus yanganucensis* Rauh & Backeberg
Ref. Rowley, 1958a: 6; Ritter, 1981: 1248; Hunt, 1992: 110.
Endemic clump-forming cactus. Andean II-III: rocky slopes. 3000-4000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Rauh K99 [1954]* (ZSS)
Depts.: AN

Opuntia zehnderi (Rauh & Backeberg) G. Rowley
Syn. *Cumulopuntia alboareolata* (F. Ritter) F. Ritter, *Cumulopuntia zehnderii* (Rauh & Backeberg) F. Ritter, *Tephrocactus alboareolatus* F. Ritter, *Tephrocactus zehnderi* Rauh & Backeberg
Ref. Rowley, 1958a: 6; Ritter, 1981: 1249; Hunt, 1992: 110.
Endemic cushion cactus. Andean II: dry valleys, rocky slopes. 3000-3500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Rauh K121 [1956]* (ZSS)
Depts.: AY

Oreocereus celsianus (Lemaire ex Salm-Dyck) Riccobono
Syn. *Borzicactus celsianus* (Lemaire ex Salm-Dyck) Kimnach, *Cereus celsianus* (Lemaire ex Salm-Dyck) A. Berger, *Cleistocactus celesianus* (Lemaire ex Salm-Dyck) A. Weber, *Pilocereus celsianus* Lemaire ex Salm-Dyck
Ref. Riccobono, 1909: 259; Britton & Rose, 1920: 171; Ritter, 1980a: 696; Kimnach, 1960a: 59; Hunt, 1992: 110.
Erect, branched or columnar cactus.
Note: No Peru voucher seen although recorded for the country by Hunt (1992).

Oreocereus celsianus var. *ritteri* (Cullmann) Krainz =Oreocereus ritteri Cullmann
Ref. Ritter, 1981: 1361.

Oreocereus celsianus var. *variicolor* (Backeberg) Krainz =Oreocereus variicolor Backeberg
Ref. Ritter, 1980b: 1119.

Oreocereus doelzianus (Backeberg) Borg
Syn. *Borzicactus doelzianus* (Backeberg) Kimnach, *Morawetzia doelziana* Backeberg, *Morawetzia doelziana* fo. *calva* (Rauh & Backeberg) F. Ritter, *Morawetzia doelziana* var. *calva* Rauh & Backeberg, *Morawetzia doelziana* var. *fuscatispina* Backeberg, nom. illeg., *Morawetzia sericata* F. Ritter
Ref. Kimnach, 1960a: 59; Ritter, 1981: 1366; Hunt, 1992: 110.
Endemic sprawling cactus. Andean II: rocky slopes, shrublands. 2500-3000 m.
Note: Treated under *Borzicactus* by Kimnach (1960a) and under *Morawetzia* by Ritter (1981).
Voucher: Backeberg s.n.*, Ritter 150 (U)
Depts.: AY, HV

Oreocereus hempelianus (Guerke) D. Hunt
Syn. *Arequipa erectocylindrica* Rauh & Backeberg, *Arequipa hempeliana* (Guerke) Oehme, *Arequipa rettigii* (Quehl) Oehme, *Arequipa rettigii* var. *borealis* F. Ritter, *Arequipa rettigii* var. *erectocylindrica* (Rauh & Backeberg) Krainz, *Arequipa soehrensii* Backeberg, nom. illeg., *Arequipa spinosissima* F. Ritter, *Arequipiopsis hempeliana* (Guerke) Kreuzinger & Buining, *Arequipiopsis soehrensii* Kreuzinger, *Echinocactus rettigii* Quehl, *Echinopsis hempeliana* Guerke, *Oreocereus rettigii* (Quehl) F. Buxbaum
Ref. Hunt & Taylor, 1987: 93; Hunt, 1992: 110.
Clump-forming cactus. Andean III: rocky slopes, shrublands. 3500-4000 m.
Voucher: Rauh K53a [1954]* (ZSS)
Depts.: AR

Oreocereus hendriksenianus Backeberg =Oreocereus leucotrichus (Philippi) Wagenknecht
Ref. Backeberg & Knuth, 1935: 186, 411; Rauh, 1958: 330; Ritter, 1980: 1117; Hunt, 1992: 110.

Oreocereus hendriksenianus var. *densilanatus* Rauh & Backeberg =Oreocereus ritteri Cullmann
Ref. Backeberg, 1956a: 17; Rauh, 1958: 330; Ritter, 1981: 1361.

Oreocereus hendriksenianus var. *spinosissimus* Rauh & Backeberg =Oreocereus ritteri Cullmann
Ref. Backeberg, 1956a: 17; Rauh, 1958: 331; Ritter, 1981: 1361.

Oreocereus horridispinus F. Ritter & Krainz, nom. nud. =Oreocereus variicolor Backeberg
Ref. Ritter, 1980b: 1119.

Oreocereus knizei Hewitt & Donald =Oreocereus leucotrichus (Philippi) Wagenknecht
Ref. Eggli & Taylor, 1991: 165.
Note: Nom. nov. pro *Morawetzia varicolor* Knize (non *Oreocereus variicolor* Backeberg).

Oreocereus lanatus (H.B.K.) Britton & Rose =Espostoa lanata (H.B.K.) Britton & Rose
Ref. Britton & Rose, 1920: 61; Rauh, 1958: 521; Ritter, 1981: 1437; Madsen, 1989: 37.

Oreocereus leucotrichus (Philippi) Wagenknecht
Syn. *Arequipa leucotricha* (Philippi) Britton & Rose, *Borzicactus leucotrichus* (Philippi) Kimnach, *Echinocactus leucotrichus* Philippi, *Morawetzia varicolor* Knize, *Oreocereus hendriksenianus* Backeberg, *Oreocereus knizei* Hewitt & Donald
Ref. Ritter, 1980b: 1117; Hunt, 1992: 110.
Erect, branched or columnar cactus. Andean II: rocky slopes. 2000-3500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Rose & Rose 18789 (NY)
Depts.: AR, AY

Oreocereus piscoensis (Rauh & Backeberg) F. Ritter
Syn. *Borzicactus piscoensis* (Rauh & Backeberg) Rauh & Backeberg, *Loxanthocereus pachycladus* Rauh & Backeberg, *Loxanthocereus piscoensis* Rauh & Backeberg, *Loxanthocereus yauyosensis* F. Ritter
Ref. Ritter, 1981: 1365; Hunt, 1992: 110.
Endemic climbing or sprawling cactus. Andean I-II: dry valleys, rocky slopes. 1000-2500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Rauh K161 [1956]* (ZSS), Ritter 630 (U)
Depts.: HV, IC, LI

Oreocereus rettigii (Quehl) F. Buxbaum =Oreocereus hempelianus (Guerke) D. Hunt
Ref. Hunt, 1992: 110.

Oreocereus ritteri Cullmann
Syn. *Oreocereus celsianus* var. *ritteri* (Cullmann) Krainz, *Oreocereus hendriksenianus* var. *densilanatus* Rauh & Backeberg, *Oreocereus hendriksenianus* var. *spinosissimus* Rauh & Backeberg
Ref. Ritter, 1981: 1361; Hunt, 1992: 110.
Endemic climbing or sprawling cactus. Andean II-III: rocky slopes, shrublands. 3000-4000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 177a* (U)
Depts.: AY

Oreocereus tacnaensis F. Ritter
Syn. *Oreocereus variicolor* var. *tacnaensis* (F. Ritter) Backeberg
Ref. Ritter, 1981: 1363; Hunt, 1992: 110.
Endemic climbing or sprawling cactus.

Andean II: dry valleys, rocky slopes. 2500-3000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 124* (U)
Depts.: TA

Oreocereus variicolor Backeberg
Syn. *Arequipa variicolor* (Backeberg) Backeberg, *Oreocereus celsianus* var. *variicolor* (Backeberg) Krainz, *Oreocereus horridispinus* F. Ritter & Krainz, nom. nud.
Ref. Ritter, 1980b: 1119; Hunt, 1992: 110.
Scandent cactus.
Note: No Peru voucher seen, although recorded for the country by Hunt (1992).
Depts.: Without locality data.

Oreocereus variicolor var. *tacnaensis* (F. Ritter) Backeberg =Oreocereus tacnaensis F. Ritter
Ref. Ritter, 1981: 1363.

Oroya baumannii Knize var. **baumannii**
Syn. *Oroya peruviana* var. *baumannii* (Knize) Slaba
Ref. Knize, 1968a: 254; Ritter, 1981: 1514; Hunt, 1992: 110.
Endemic solitary, globular cactus. Andean III: grasslands, rocky slopes. 3500-4000 m.
Voucher: Knize 380* (ZSS)
Depts.: JU, LI

Oroya baumannii var. **rubrispina** Knize
Ref. Knize, 1968a: 255.
Endemic solitary, globular cactus. Andean III: grasslands, rocky slopes. 3500-4000 m.
Voucher: Knize 238a* (ZSS)
Depts.: JU, LI

Oroya borchersii (Boedecker) Backeberg
Syn. *Echinocactus borchersii* Boedecker, *Oroya borchersii* var. *fuscata* Rauh & Backeberg
Ref. Rauh, 1958: 487; Ritter, 1981: 1514; Hunt, 1992: 110.
Endemic solitary, globular cactus. Andean III: grasslands, rocky slopes. 3500-4000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 163* (U)
Depts.: AN

Oroya borchersii var. *fuscata* Rauh & Backeberg =Oroya borchersii (Boedecker) Backeberg
Ref. Backeberg, 1956a: 32; Rauh, 1958: 489.

Oroya gibbosa F. Ritter =Oroya peruviana (Schumann) Britton & Rose
Ref. Ritter, 1981: 1512; Hunt, 1992: 110.

Oroya gibbosa var. *citriflora* Knize =Oroya peruviana (Schumann) Britton & Rose
Ref. Knize, 1968a: 255; Ritter, 1981: 1514.

Oroya laxiareolata Rauh & Backeberg =Oroya peruviana (Schumann) Britton & Rose
Ref. Backeberg, 1956a: 32; Rauh, 1958: 480; Ritter, 1981: 1511; Hunt, 1992: 110.

Oroya laxiareolata var. *pluricentralis* Backeberg =Oroya peruviana (Schumann) Britton & Rose
Ref. Ritter, 1981: 1511.

Oroya neoperuviana Backeberg =Oroya peruviana (Schumann) Britton & Rose
Ref. Ritter, 1981: 1512; Rauh, 1958: 484; Hunt, 1992: 110.

Oroya neoperuviana var. *depressa* Rauh & Backeberg =Oroya peruviana (Schumann) Britton & Rose
Ref. Backeberg, 1956a: 32.

Oroya neoperuviana var. *ferruginea* Rauh & Bakeberg =Oroya peruviana (Schumann) Britton & Rose
Ref. Backeberg 1956a: 32; Rauh, 1958: 485.

Oroya neoperuviana var. *tenuispina* Rauh =Oroya peruviana (Schumann) Britton & Rose
Ref. Rauh 1958: 487.

Oroya peruviana (Schumann) Britton & Rose
Syn. *Echinocactus peruvianus* Schumann, *Oroya gibbosa* F. Ritter, *Oroya gibbosa* var. *citriflora* Knize, *Oroya laxiareolata* Rauh & Backeberg, *Oroya laxiareolata* var. *pluricentralis* Backeberg, *Oroya neoperuviana* Backeberg, *Oroya neoperuviana* var. *depressa* Rauh & Backeberg, *Oroya neoperuviana* var. *ferruginea* Rauh & Backeberg, *Oroya neoperuviana* var. *tenuispina* Rauh, *Oroya peruviana* var. *depressa* (Rauh & Backeberg) Rauh & Backeberg, *Oroya peruviana* var. *pluricentralis* (Backeberg) F. Ritter, *Oroya subocculta* Rauh & Backeberg, *Oroya subocculta* var. *albispina* Rauh & Bakeberg, *Oroya subocculta* var. *fusca* Rauh & Backeberg
Ref. Britton & Rose, 1922: 102; Backeberg, 1956a: 31; Ritter, 1981: 1511; Hunt, 1992: 110.
Endemic solitary, globular cactus. Andean II-III: grasslands, rocky slopes, shrublands. 2500-4000 m.
Note: Treated by Ritter (1981) with two varieties: *peruviana* and *pluricentralis*.
Voucher: Rauh K3 [1956] (ZSS)
Depts.: CU, HV, LI

Oroya peruviana var. *baumannii* (Knize) Slaba =Oroya baumannii var. baumannii
Ref. Eggli & Taylor, 1992: 166.

Oroya peruviana var. *depressa* (Rauh & Backeberg) Rauh & Backeberg =Oroya peruviana (Schumann) Britton & Rose
Ref. Backeberg, 1959b: 1691.

Oroya peruviana var. *pluricentralis* (Backeberg) F. Ritter =Oroya peruviana (Schumann) Britton & Rose
Ref. Ritter, 1981: 1511.

Oroya subocculta Rauh & Backeberg =Oroya peruviana (Schumann) Britton & Rose
Ref. Backeberg, 1956a: 32; Rauh, 1958: 482; Ritter, 1981: 1511; Hunt, 1992: 110.

Oroya subocculta var. *albispina* Rauh & Backeberg =Oroya peruviana (Schumann) Britton & Rose
Ref. Backeberg, 1956a: 32; Rauh, 1958: 483.

Oroya subocculta var. *fusca* Rauh & Backeberg =Oroya peruviana (Schumann) Britton & Rose
Ref. Backeberg, 1956a: 32; Rauh, 1958: 484.

Pereskia horrida DC.
Syn. *Cactus horridus* H.B.K., nom. illeg., *Pereskia humboldtii* Britton & Rose, nom. supf., *Pereskia humboldtii* var. *rauhii* (Backeberg) Leuenberger, *Pereskia vargasii* H. Johnson, *Pereskia vargasii* var. *longispina* Rauh & Backeberg, *Pereskia vargasii* var. *rauhii* Backeberg, *Rhodocactus horridus* (H.B.K.) F. Knuth
Ref. Britton & Rose, 1923: 25; Rauh, 1958: 189; Leuenberger, 1986: 67.
Endemic shrub or tree. Andean I-II: dry valleys, rocky slopes, shrublands. 500-2500 m.
Note: This is the oldest name available for Peruvian *Pereskia*, not *P. humboldtii* as listed by Leuenberger (1986) and Hunt (1992: 116). Treated by Leuenberger (1986) with two varieties: *humboldtii* and *rauhii*.
Voucher: Humboldt & Bonpland 3594* (P-H&B), Hutchison 1452 (GH)
Depts.: AM, CA, LL

Pereskia humboldtii Britton & Rose, nom. supf. =Pereskia horrida DC.
Ref. Britton & Rose, 1920: 21; Rauh, 1958: 189; Leuenberger, 1986: 67; Hunt, 1992: 116.
Note: A superfluous new name for *Cactus horridus* H.B.K., non Salisbury.

Pereskia humboldtii var. *rauhii* (Backeberg) Leuenberger =Pereskia horrida DC.
Ref. Leuenberger, 1986: 69.

Pereskia subulata Muhlenpfordt =Opuntia subulata (Muehlenpfordt) Engelmann
Ref. Britton & Rose, 1919: 75; Madsen, 1989: 60.

Pereskia vargasii H. Johnson =Pereskia horrida DC.
Ref. Rauh, 1958: 190; Johnson, 1982: 115; Leuenberger, 1986: 67; Hunt, 1992: 116.

Pereskia vargasii var. *longispina* Rauh & Backeberg =Pereskia horrida DC.

Ref. Backeberg, 1956a: 6; Rauh, 1958: 190; Leuenberger, 1986: 69.

Pereskia vargasii var. *rauhii* Backeberg =Pereskia horrida DC.
Ref. Backeberg, 1956a: 6; Leuenberger, 1986: 69.

Peruvocereus albicephalus Akers =xHaagespostoa climaxantha (Werdermann) G. Rowley
Ref. Akers, 1947f: 162; Rowley, 1982b: 76.

Peruvocereus albicephalus var. *armatus* Akers =xHaagespostoa climaxantha (Werdermann) G. Rowley
Ref. Akers, 1947f: 163.

Peruvocereus albisetatus Akers =xHaagespostoa albisetata (Akers) G. Rowley
Ref. Akers, 1948c: 184; Rowley, 1982b: 76.

Peruvocereus albisetatus var. *robustus* Akers =xHaagespostoa albisetata (Akers) G. Rowley
Ref. Akers, 1948c: 186.

Peruvocereus albispinus Akers =Haageocereus albispinus (Akers) Rauh & Backeberg
Ref. Akers, 1948b: 154; Rauh, 1958: 414; Ritter, 1981: 1388.

Peruvocereus chrysacanthus Akers =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Akers, 1949: 45; Rauh, 1958: 415; Ritter, 1981: 1406.
Note: Treated under var. *pseudomelanostele* by Ritter (1981).

Peruvocereus clavatus Akers =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Akers, 1948a: 55; Rauh, 1958: 429; Ritter, 1981: 1406.
Note: Treated under var. *pseudomelanostele* by Ritter (1981).

Peruvocereus multangularis (Willdenow) Akers =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Akers, 1950: 174.

Peruvocereus rubrispinus Akers =Haageocereus x rubrospinus (Akers) Cullmann (pro sp.)
Ref. Akers, 1947d: 121.

Peruvocereus salmonoideus Akers =Haageocereus x salmonoideus (Akers) Backeberg (pro sp.)
Ref. Rauh, 1958: 429.

Peruvocereus setosus Akers =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Akers, 1947a: 68; Rauh, 1958: 414; Ritter, 1981: 1406.
Note: Treated under var. *pseudomelanostele* by Ritter (1981).

Peruvocereus setosus var. longicoma Akers =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Akers, 1947b: 91; Rauh, 1958: 414.

Peruvocereus viridiflorus Akers =Haageocereus multangularis (Willdenow) F. Ritter
Ref. Akers, 1947e: 143; Rauh, 1958: 404; Ritter, 1981: 1400.
Note: Treated under *H. multangularis* var. *multangularis* by Ritter (1981).

Phyllocactus phyllanthus (L.) Link =Epiphyllum phyllanthus var. phyllanthus
Ref. Kimnach, 1964: 113; Madsen, 1989: 32; Hunt, 1992: 117.

Pilocereus celsianus Lemaire ex Salm-Dyck =Oreocereus celsianus (Lemaire ex Salm-Dyck) Riccobono
Ref. Riccobono, 1909: 259; Britton & Rose, 1920: 171; Ritter, 1980a: 696.

Pilocereus dautwitzii F. Haage =Espostoa lanata (H.B.K.) Britton & Rose
Ref. Britton & Rose, 1920: 61; Rauh, 1958: 521; Ritter, 1981: 1437; Madsen, 1989: 37.

Pilocereus gironensis Rauh & Backeberg =Pilosocereus tweedyanus (Britton & Rose) Byles & G. Rowley
Ref. Rauh, 1958: 509, Hunt, 1992: 118.

Pilocereus lanatus (H.B.K.) A. Weber =Espostoa lanata (H.B.K.) Britton & Rose
Ref. Britton & Rose, 1920: 61; Ritter, 1981: 1437; Madsen, 1989: 37.

Pilocereus macrostibas Schumann =Neoraimondia arequipensis (Meyen) Backeberg
Ref. Rauh, 1958: 256; Ritter, 1981: 1367.

Pilosocereus tuberculosus Rauh & Backeberg =Pilosocereus tuberculosus Rauh & Backeberg ex Byles & G. Rowley
Ref. Backeberg, 1956a: 34; Byles & Rowley, 1957: 69; Rauh, 1958: 511; Hunt, 1992: 119.
Note: Invalid name; the name appeared prior to valid publication of the genus.

Pilosocereus tuberculosus Rauh & Backeberg ex Byles & G. Rowley
Syn. *Pilosocereus tuberculosus* Rauh & Backeberg
Ref. Byles & Rowley, 1957: 69; Hunt, 1992: 119.
Endemic erect, branched cactus. Coastal: rocky slopes. 500-1000 m.
Note: Accepted provisionally by Hunt (1992). Not treated by Ritter (1981).
Voucher: Rauh K86 [1956]* (ZSS)
Depts.: LA

Pilosocereus tweedyanus (Britton & Rose) Byles & G. Rowley
Syn. *Cephalocereus tweedyanus* Britton & Rose, *Pilosocereus gironensis* Rauh & Backeberg
Ref. Byles & Rowley, 1957: 69; Rauh, 1958: 509; Hunt, 1992: 119.
Erect, branched cactus. Andean I, Coastal: shrublands. 500-1500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 280 (U)
Depts.: PI

[Platyopuntia (Engelmann) F. Ritter]
Note: This name is generally considered a synonym of *Opuntia* (Hunt, 1992: 28). The two following taxa should be assigned there, but are insufficiently known to warrant making the new combinations (N. Taylor, pers. comm.). Accepted taxa counted under *Opuntia*.

Platyopuntia apurimacensis F. Ritter
Ref. Ritter, 1981: 1257; Hunt, 1992: 119.
Endemic climbing or sprawling cactus. Andean II: rocky slopes, shrublands. 2000-2500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1323* (U)
Depts.: AP

Platyopuntia inaequilaterlis (A. Berger) F. Ritter =Opuntia inaequilaterlis A. Berger
Ref. Ritter, 1981: 1256; Hunt, 1992: 119.

Platyopuntia inaequilaterlis var. *angustior* F. Ritter =Opuntia inaequilaterlis A. Berger
Ref. Ritter, 1981: 1257.

Platyopuntia infesta F. Ritter
Ref. Ritter, 1981: 1258; Hunt, 1992: 119.
Endemic climbing or sprawling cactus. Andean II: rocky slopes, shrublands. 2500-3000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 309* (U)
Depts.: AN

Platyopuntia nana (H.B.K.) F. Ritter =Opuntia pubescens Wendland
Ref. Ritter, 1981: 1255; Madsen, 1989: 53.

Platyopuntia quitensis (A. Weber) F. Ritter =Opuntia quitensis A. Weber
Ref. Ritter, 1981: 1255; Madsen, 1989: 55; Hunt, 1992: 120.

Platyopuntia soehrensii (Britton & Rose) F. Ritter =Opuntia soehrensii Britton & Rose
Ref. Ritter, 1980a: 411; Navarro & Galán de Mera, 1991: 113; Hunt, 1992: 120.

Praecereus jaenensis (Rauh & Backeberg) F. Buxbaum =Monvillea jaenensis Rauh & Backeberg
Ref. Ritter, 1981: 1306; Hunt, 1992: 120.

Pseudoespostoa climaxantha (Werdermann) Backeberg =xHaagespostoa

climaxantha (Werdermann) G. Rowley
Ref. Rowley, 1982b: 76.

Pseudoespostoa melanostele (Vaupel) Backeberg =Espostoa melanostele (Vaupel) Borg
Ref. Hunt, 1992: 120.

Pseudoespostoa melanostele var. *inermis* Backeberg =Espostoa melanostele (Vaupel) Borg

Pseudoespostoa nana (F. Ritter) Backeberg =Espostoa nana F. Ritter
Ref. Hunt, 1992: 120.

Pseudorhipsalis ramulosa (Salm-Dyck) Barthlott
Syn. *Cereus ramulosus* Salm-Dyck, *Disocactus ramulosus* (Salm-Dyck) Kimnach, *Hariota ramulosa* (Salm-Dyck) Kuntze, *Rhipsalis ramulosa* (Salm-Dyck) Pfeiffer
Ref. Barthlott, 1991: 90; Hunt, 1992: 122.
Epiphytic, scandent cactus. Andean I: forests. 500-1000 m.
Voucher: Tafalla s.n. (photo US)
Depts.: PA

Pygmaeocereus akersii H. Johnson, nom. nud. =Pygmaeocereus bylesianus Andreae & Backeberg
Ref. Ritter, 1981: 1427.

Pygmaeocereus bylesianus Andreae & Backeberg
Syn. *Arthrocereus bylesianus* (Andreae & Backeberg) F. Buxbaum, *Arthrocereus rowleyanus* (Backeberg) F. Buxbaum, *Pygmaeocereus akersii* H. Johnson, nom. nud., *Pygmaeocereus rowleyanus* Backeberg, nom. illeg., *Pygmaeocereus vespertinus* H. Johnson, nom. nud.
Ref. Backeberg, 1957: 86; Rauh, 1958: 449; Ritter, 1981: 1427; Hunt, 1992: 122.
Endemic solitary or clustered, globular cactus. Coastal: rocky slopes. 0-1000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Andreae s.n.
Depts.: Without full locality data.

Pygmaeocereus densiaculeatus Backeberg =Haageocereus lanugispinus F. Ritter
Ref. Hunt, 1992: 122.

Pygmaeocereus familiaris F. Ritter
Ref. Ritter, 1981: 1428; Hunt, 1992: 122.
Endemic clustered, globular cactus. Coastal: desert, lomas. 0-500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 322* (U)
Depts.: AR

Pygmaeocereus rowleyanus Backeberg, nom. illeg. =Pygmaeocereus bylesianus Andreae & Backeberg
Ref. Ritter, 1981: 1427; Hunt, 1992: 122.
Note: Nom. inval. according to Eggli & Taylor (1992: 187).

Pygmaeocereus vespertinus H. Johnson, nom. nud. =Pygmaeocereus bylesianus Andreae & Backeberg
Ref. Ritter, 1981: 1427.

Rauhocereus riosaniensis Backeberg =Browningia riosaniensis (Backeberg) G. Rowley
Ref. Backeberg, 1956a: 20; Rauh, 1958: 367; Ritter, 1981: 1345; Rowley, 1982a: 48; Hunt, 1992: 124.

Rauhocereus riosaniensis var. *jaenensis* Backeberg =Browningia riosaniensis (Backeberg) G. Rowley
Ref. Rauh, 1958: 367.

Rebutia neocumingii (Backeberg) D. Hunt
Syn. *Echinocactus cumingii* Regel & Klein, nom. illeg., *Weingartia neocumingii* Backeberg
Ref. Hunt & Taylor, 1987: 94; Hunt, 1992: 125.
Note: No voucher seen, although recorded for the country by Hunt (1992).

Rhipsalis asperula Vaupel =Lepismium micranthum (Vaupel) Barthlott
Ref. Hunt, 1992: 126.

Rhipsalis baccifera (Solander ex J. S. Miller) Stearn
Syn. *Cassytha baccifera* Solander ex J. S. Miller (Lauraceae), *Rhipsalis cassytha* Gaertner, *Rhipsalis heptagona* Rauh & Backeberg
Ref. Stearn, 1939: 107; Hunt, 1992: 127.
Epiphytic, pendent cactus. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Smith 6056 (MO!)
Depts.: AM, CA, CU, HU, MO

Rhipsalis cassytha Gaertner =Rhipsalis baccifera (Solander ex J. S. Miller) Stearn
Ref. Rauh, 1958: 228; Hunt, 1992: 127.

Rhipsalis heptagona Rauh & Backeberg =Rhipsalis baccifera (Solander ex J. S. Miller) Stearn
Ref. Backeberg, 1956a: 10; Rauh, 1958: 228; Hunt, 1992: 127.

Rhipsalis hylaea F. Ritter
Ref. Ritter, 1981: 1261; Hunt, 1992: 127.
Endemic epiphytic cactus. Amazonian: forests. 0-500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 116* (U)
Depts.: CA

Rhipsalis micrantha (H.B.K.) DC.
Syn. *Cactus micrantha* H.B.K., *Hariota micrantha* (H.B.K.) Kuntze, *Rhipsalis rauhiorum* Barthlott
Ref. Rauh, 1958: 228; Ritter, 1981: 1261; Madsen, 1989: 68; Hunt, 1992: 128.
Epiphytic cactus. Andean I, Coastal: forests. 500-1500 m.
Voucher: Humboldt & Bonpland s.n.* (P-H&B), Ritter 310 (U)
Depts.: CA, PI

Rhipsalis occidentalis Barthlott & Rauh
Ref. Hunt, 1992: 128.
Epiphytic, pendent cactus.
Voucher: Rauh & Barthlott 35392* (HEID)
Depts.: SM

Rhipsalis ramulosa (Salm-Dyck) Pfeiffer =Pseudorhipsalis ramulosa (Salm-Dyck) Barthlott
Ref. Kimnach, 1961: 14; Hunt, 1992: 128.

Rhipsalis rauhiorum Barthlott =Rhipsalis micrantha (H.B.K.) DC.
Ref. Barthlott, 1974: 655; Hunt, 1992: 128.

Rhodocactus horridus (H.B.K.) F. Knuth =Pereskia horrida DC.
Ref. Leuenberger, 1986: 67.
Note: Name based on *Cactus horridus* H.B.K., non Salisbury.

Selenicereus megalanthus (Schumann ex Vaupel) Moran
Syn. *Cereus megalanthus* Schumann ex Vaupel, *Mediocactus megalanthus* (Schumann ex Vaupel) Britton & Rose
Ref. Moran, 1953: 325; Madsen, 1989: 71; Hunt, 1992: 130.
Epiphytic cactus. Andean I: forests. 500-1000 m.
Voucher: Ule s.n. [in 1902]* (B)
Depts.: SM

Selenicereus wittii (Schumann) G. Rowley
Syn. *Cereus wittii* Schumann, *Strophocactus wittii* (Schumann) Britton & Rose
Ref. Rowley, 1986: 36; Hunt, 1992: 130.
Epiphytic cactus. Amazonian: forests. 0-500 m.
Voucher: Croat 20404 (MO!)
Depts.: LO

Seticereus chlorocarpus (H.B.K.) Backeberg =Browningia chlorocarpa (H.B.K.) Marshall
Ref. Rauh, 1958: 326; Hunt, 1992: 131.

Seticereus humboldtii (H.B.K.) Backeberg =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Rauh, 1958: 324; Madsen, 1989: 16; Hunt, 1992: 131.

Seticereus icosagonus (H.B.K.) Backeberg =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Rauh, 1958: 324; Madsen, 1989: 16; Hunt, 1992: 131.

Seticereus icosagonus var. *aurantiaciflorus* Backeberg =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Madsen, 1989: 17.

Seticereus icosagonus var. *ferruginea* (Backeberg) Backeberg, nom. illeg.

=Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Madsen, 1989: 17.

Seticereus icosagonus var. *oehmeanus* (Backeberg) Backeberg =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Madsen, 1989: 17.

Seticereus oehmianus Backeberg =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Rauh, 1958: 324; Madsen, 1989: 17.

Seticereus oehmianus var. *ferrugineus* Backeberg =Cleistocactus icosagonus (H.B.K.) A. Weber
Ref. Rauh, 1958: 324; Madsen, 1989: 17.

Seticereus roezlii (F. Haage ex Schumann) Backeberg =Cleistocactus roezlii (F. Haage ex Schumann) Backeberg
Ref. Rauh, 1958: 326; Hunt, 1992: 131.

[*Stenocereus peruvianus* (Miller) Kiesling =Cereus repandus (L.) Miller]
Ref. Kiesling, 1982: 446; Hunt, 1992: 132.
Note: Hunt (1992) indicates that this taxon should actually be treated as a synonym of *Cereus repandus*, a species not known from Peru.

Strophocactus wittii (Schumann) Britton & Rose =Selenicereus wittii (Schumann) G. Rowley
Ref. Britton & Rose, 1913: 262; Castellanos, 1967: 84; Madsen, 1989: 72; Hunt, 1992: 132.

Submatucana aurantiaca (Vaupel) Backeberg =Matucana aurantiaca (Vaupel) F. Buxbaum
Ref. Ritter, 1981: 1489; Hunt, 1992: 132.

Submatucana aureiflora (F. Ritter) Backeberg =Matucana aureiflora F. Ritter
Ref. Ritter, 1981: 1509; Hunt, 1992: 132.

Submatucana calvescens (Kimnach & Hutchison) Backeberg =Matucana aurantiaca (Vaupel) F. Buxbaum
Ref. Ritter, 1981: 1489; Hunt, 1992: 132.

Submatucana formosa (F. Ritter) Backeberg =Matucana formosa F. Ritter
Ref. Hunt, 1992: 132.
Note: Although listed by Hunt (1992) as a synonym of *M. aurantiaca*, the basionym of this name, *M. formosa*, is listed as a provisionally accepted species by Hunt (1992: 89).

Submatucana intertexta (F. Ritter) Backeberg =Matucana intertexta F. Ritter
Ref. Hunt, 1992: 132.
Note: Although listed by Hunt (1992) as a synonym of *M. aurantiaca*, the basionym of this name, *M. intertexta*, is listed as a provisionally accepted species by Hunt (1992: 89).

Submatucana madisoniorum (Hutchison) Backeberg =Matucana madisoniorum (Hutchison) G. Rowley
Ref. Rowley, 1972: 10; Ritter, 1981: 1487; Hunt, 1992: 132.

Submatucana myriacantha (Vaupel) Backeberg =Matucana myriacantha (Vaupel) F. Buxbaum
Ref. Ritter, 1981: 1500; Hunt, 1992: 132.
Note: See note under *Matucana myriacantha*.

Submatucana ritteri (Buining) Backeberg =Matucana ritteri Buining
Ref. Hunt, 1992: 132.

Tephrocactus alboareolatus F. Ritter =Opuntia zehnderi (Rauh & Backeberg) G. Rowley
Ref. Ritter, 1981: 1249; Hunt, 1992: 134.

Tephrocactus atroviridis (Werdermann & Backeberg) Backeberg =Opuntia floccosa Salm-Dyck
Ref. Backeberg & Knuth, 1935: 105; Rauh, 1958: 212; Hunt, 1992: 135.

Tephrocactus atroviridis var. *longicylindricus* Rauh & Backeberg =Opuntia floccosa Salm-Dyck
Ref. Rauh, 1958: 212.

Tephrocactus atroviridis var. *parviflorus* Rauh & Backeberg =Opuntia floccosa Salm-Dyck
Ref. Rauh, 1958: 213.

Tephrocactus atroviridis var. *paucispinus* Rauh & Backeberg =Opuntia floccosa Salm-Dyck
Ref. Rauh, 1958: 214.

Tephrocactus bicolor (Rauh & Backeberg) Rauh =Opuntia fulvicoma (Rauh & Backeberg) G. Rowley
Ref. Rauh, 1958: 223; Ritter, 1981: 1253.
Note: Treated as a synonym of *T. kuehnrichiana* (=*O. sphaerica*) by Ritter (1981).

Tephrocactus blancii Backeberg =Opuntia blancii (Backeberg) G. Rowley
Ref. Backeberg, 1956a: 8; Rauh, 1958: 218; Rowley, 1958a: 5; Hunt, 1992: 134.

Tephrocactus campestris (Britton & Rose) Backeberg =Opuntia sphaerica Foerster
Ref. Backeberg & Knuth, 1935: 111.

Tephrocactus corotilla (Schumann ex Vaupel) Backeberg =Opuntia corotilla Schumann ex Vaupel
Ref. Backeberg & Knuth, 1935: 112; Hunt, 1992: 135.

Tephrocactus corotilla var. *aurantiaciflorus* Rauh & Backeberg =Opuntia corotilla Schumann ex Vaupel
Ref. Backeberg, 1956a: 8; Rauh, 1958: 225; Rowley, 1958a: 5.

Tephrocactus crassicylindricus Rauh & Backeberg =Opuntia crassicylindrica (Rauh & Backeberg) G. Rowley
Ref. Backeberg, 1956a: 8; Rauh, 1958: 200; Rowley, 1958a: 5; Ritter, 1981: 1254; Hunt, 1992: 135.

Tephrocactus crispicrinitus Rauh & Backeberg =Opuntia floccosa Salm-Dyck
Ref. Backeberg, 1956a: 7; Rauh, 1958: 209; Hunt, 1992: 135.

Tephrocactus crispicrinitus var. *cylindraceus* Rauh & Backeberg =Opuntia floccosa Salm-Dyck
Ref. Backeberg, 1956a: 7; Rauh, 1958: 211; Rowley, 1958a: 5.

Tephrocactus cylindrolanatus Rauh & Backeberg =Opuntia floccosa Salm-Dyck
Ref. Backeberg, 1956a: 7; Rauh, 1958: 208; Rowley, 1958a: 5; Hunt, 1992: 135.

Tephrocactus dactyliferus (Vaupel) Backeberg =Opuntia dactylifera Vaupel
Ref. Ritter, 1980a: 490; Hunt, 1992: 135.

Tephrocactus dimorphus (Foerster) Backeberg =Opuntia sphaerica Foerster
Ref. Rauh, 1958: 198; Hunt, 1992: 135.

Tephrocactus floccosus (Salm-Dyck) Backeberg =Opuntia floccosa Salm-Dyck
Ref. Backeberg & Knuth, 1935: 105; Rauh, 1958: 203; Ritter, 1981: 1244; Hunt, 1992: 135.

Tephrocactus floccosus subvar. *aurescens* Rauh & Backeberg =Opuntia floccosa Salm-Dyck
Ref. Backeberg, 1956a: 7.

Tephrocactus floccosus var. *aurescens* Rauh & Backeberg =Opuntia floccosa Salm-Dyck
Ref. Rauh, 1958: 203.

Tephrocactus floccosus var. *crassior* Backeberg =Opuntia floccosa Salm-Dyck
Ref. Backeberg, 1956a: 6; Rowley, 1958a: 5.

Tephrocactus floccosus var. *cylindraceus* Rauh & Backeberg =Opuntia floccosa Salm-Dyck
Ref. Backeberg, 1956a: 7.

Tephrocactus floccosus var. *flavicomus* Rauh & Backeberg =Opuntia floccosa Salm-Dyck
Ref. Backeberg, 1956a: 7.

Tephrocactus floccosus var. *lagopus* (Schumann) F. Ritter =Opuntia lagopus Schumann
Ref. Ritter, 1981: 1242.

Tephrocactus floccosus var. *ovoides* Rauh & Backeberg =Opuntia floccosa Salm-Dyck
Ref. Backeberg, 1956a: 7; Rowley, 1958a: 5.

Tephrocactus fulvicomus Rauh & Backeberg =Opuntia fulvicoma (Rauh & Backeberg) G. Rowley
Ref. Backeberg, 1956a: 9; Rauh, 1958: 220; Rowley, 1958a: 5; Hunt, 1992: 135.

Tephrocactus fulvicomus var. *bicolor* Rauh & Backeberg =Opuntia fulvicoma (Rauh & Backeberg) G. Rowley
Ref. Backeberg, 1956a: 9; Rauh, 1958: 223; Rowley, 1958a: 5.

Tephrocactus hirschii Backeberg =Opuntia hirschii (Backeberg) G. Rowley
Ref. Backeberg, 1956a: 8; Rauh, 1958: 217; Rowley, 1958a: 5; Hunt, 1992: 135.

Tephrocactus ignescens (Vaupel) Backeberg =Opuntia ignescens Vaupel
Ref. Backeberg & Knuth, 1935: 108; Rauh, 1958: 219; Hunt, 1992: 135.

Tephrocactus ignotus (Britton & Rose) Backeberg =Opuntia corotilla Schumann ex Vaupel
Ref. Backeberg & Knuth, 1935: 111; Rauh, 1958: 225; Ritter, 1981: 1250.

Tephrocactus kuehnirichianus (Werdermann & Backeberg) Backeberg =Opuntia sphaerica Foerster
Ref. Backeberg & Knuth, 1935: 110; Rauh, 1958: 197; Ritter, 1981: 1253; Hunt, 1992: 135.

Tephrocactus lagopus (Schumann) Backeberg =Opuntia lagopus Schumann
Ref. Backeberg & Knuth, 1935: 106; Rauh, 1958: 204; Ritter, 1981: 1242; Hunt, 1992: 135.

Tephrocactus lagopus var. *aureo-penicillatus* Rauh & Backeberg =Opuntia lagopus Schumann
Ref. Backeberg, 1956a: 7; Rauh, 1958: 206; Rowley, 1958a: 6.

Tephrocactus lagopus var. *aureus* Rauh & Backeberg =Opuntia lagopus Schumann
Ref. Backeberg, 1956a: 7; Rauh, 1958: 206; Rowley, 1958a: 5.

Tephrocactus lagopus var. *leucolagopus* Rauh & Backeberg =Opuntia lagopus Schumann
Ref. Backeberg, 1956a: 7; Rowley, 1958a: 6.

Tephrocactus lagopus var. *pachycladus* Rauh & Backeberg =Opuntia lagopus Schumann
Ref. Backeberg, 1956a: 7; Rauh, 1958: 204; Rowley, 1958a: 6.

Tephrocactus malyanus Rausch =Opuntia lagopus Schumann
Ref. Ritter, 1981: 1244; Hunt, 1992: 135.

Tephrocactus mirus Rauh & Backeberg =Opuntia sphaerica Foerster
Ref. Backeberg, 1956a: 8; Rauh, 1958: 199; Ritter, 1981: 1253; Hunt, 1992: 135.

Tephrocactus mistiensis Backeberg =Opuntia mistiensis (Backeberg) G. Rowley
Ref. Backeberg & Knuth, 1935: 410; Rauh, 1958: 225; Rowley, 1958a: 6; Hunt, 1992: 135.

Tephrocactus multiareolatus F. Ritter
Syn. *Cumulopuntia multiareolata* (F. Ritter) F. Ritter
Ref. Ritter, 1964b: 144; Hunt, 1992: 135.
Endemic sprawling cactus. Andean II: rocky slopes. 1500-2000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 275* (ZSS)
Depts.: AR

Tephrocactus noodtiae Backeberg & Jacobsen =Opuntia dactylifera Vaupel
Ref. Backeberg, 1956a: 8; Rauh, 1958: 225; Hunt, 1992: 135.

Tephrocactus pentlandii (Salm-Dyck) Backeberg =Opuntia pentlandii Salm-Dyck
Ref. Backeberg & Knuth, 1935: 108; Hunt, 1992: 135.

Tephrocactus pentlandii var. *rossiana* Heinrich & Backeberg =Cumulopuntia rossiana (Heinrich & Backeberg) F. Ritter

Tephrocactus pseudo-udonis Rauh & Backeberg =Opuntia floccosa Salm-Dyck
Ref. Backeberg, 1956a: 7; Rauh, 1958: 208; Hunt, 1992: 135.

Tephrocactus punta-caillan Rauh & Backeberg =Opuntia punta-caillan (Rauh & Backeberg) G. Rowley
Ref. Backeberg, 1956a: 8; Rauh, 1958: 217; Rowley, 1958a: 6; Hunt, 1992: 135.

Tephrocactus pyrrhacanthus (Schumann) Backeberg =Opuntia pyrrhacantha Schumann
Ref. Ritter, 1981: 1249; Hunt, 1992: 135.

Tephrocactus rauhii Backeberg =Opuntia floccosa Salm-Dyck
Ref. Backeberg, 1956a: 7; Rauh, 1958: 211; Hunt, 1992: 135.

Tephrocactus sphaericus (Foerster) Backeberg =Opuntia sphaerica Foerster
Ref. Backeberg & Knuth, 1935: 111; Rauh, 1958: 197; Ritter, 1980b: 885; Hunt, 1992: 136.

Tephrocactus sphaericus var. *rauppianus* (Schumann) Backeberg =Opuntia sphaerica Foerster
Ref. Rowley, 1958b: 25.

Tephrocactus sphaericus var. *unguispina* (Backeberg) Backeberg =Opuntia unguispina Backeberg
Ref. Rowley, 1958b: 25.

Tephrocactus staffordae (Bullock) Backeberg =Opuntia staffordae Bullock
Ref. Eggli & Taylor, 1991: 211.

Tephrocactus udonis (Weingart) Backeberg =Opuntia floccosa Salm-Dyck
Ref. Backeberg & Knuth, 1935: 106; Rauh, 1958: 208; Hunt, 1992: 136.

Tephrocactus verticosus (Weingart) Backeberg =Opuntia floccosa Salm-Dyck
Ref. Backeberg & Knuth, 1935: 106; Rauh, 1958: 209; Hunt, 1992: 136.

Tephrocactus yanganucensis Rauh & Backeberg =Opuntia yanganucensis (Rauh & Backeberg) G. Rowley
Ref. Backeberg, 1956a: 8; Rauh, 1958: 217; Rowley, 1958a: 6; Hunt, 1992: 136.

Tephrocactus zehnderi Rauh & Backeberg =Opuntia zehnderi (Rauh & Backeberg) G. Rowley
Ref. Backeberg, 1956a: 9; Rauh, 1958: 220; Rowley, 1958a: 6; Hunt, 1992: 136.

Thrixanthocereus blossfeldiorum (Werdermann) Backeberg =Espostoa blossfeldiorum (Werdermann) F. Buxbaum
Ref. Ritter, 1981: 1485; Hunt, 1992: 137.

Thrixanthocereus cullmannianus F. Ritter =Espostoa blossfeldiorum (Werdermann) F. Buxbaum
Ref. Ritter, 1981: 1483; Hunt, 1992: 137.

Thrixanthocereus longispinus F. Ritter
Ref. Ritter, 1981: 1484; Hunt, 1992: 137.
Endemic erect, branched or columnar cactus. Andean I: rocky slopes. 1000-1500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1069* (U)
Depts.: LL

Thrixanthocereus senilis F. Ritter =Espostoa senilis (F. Ritter) N. P. Taylor
Ref. Taylor, 1978: 54; Ritter, 1981: 1482; Hunt, 1992: 137.

Trichocereus cephalomacrostibas (Werdermann & Backeberg) Backeberg =Echinopsis cephalomacrostibas (Werdermann & Backeberg) Friedrich & G. Rowley
Ref. Backeberg & Knuth, 1935: 201, 412; Rauh, 1958: 359; Rowley, 1974: 94; Hunt, 1992: 137.

Trichocereus chalaensis Rauh & Backeberg =Echinopsis chalaensis (Rauh & Backeberg) Friedrich & G. Rowley
Ref. Backeberg, 1956a: 20; Rauh, 1958: 359; Rowley, 1974: 94; Hunt, 1992: 137.

Trichocereus crassiarborescens F. Ritter, nom. nud. =Weberbauerocereus cuzcoensis Knize
Ref. Ritter, 1981: 1357.
Note: Listed under var. *cuzcoensis* by Ritter (1981).

Trichocereus cuzcoensis Britton & Rose =Echinopsis cuzcoensis (Britton & Rose) Friedrich & G. Rowley
Ref. Britton & Rose, 1920: 136; Backeberg, 1931b: 101; Rauh, 1958: 358; Rowley, 1974: 95; Hunt, 1992: 137.

Trichocereus fascicularis Britton & Rose =Weberbauerocereus weberbaueri (Schumann ex Vaupel) Backeberg
Ref. Ritter, 1981: 1354; Hunt, 1992: 137.
Note: Treated under var. *weberbaueri* by Ritter (1981).

Trichocereus glaucus F. Ritter =Echinopsis glauca (F. Ritter) Friedrich & G. Rowley
Ref. Ritter, 1981: 1328; Rowley, 1974: 95; Hunt, 1992: 137.

Trichocereus glaucus fo. *pendens* F. Ritter =Echinopsis glauca (F. Ritter) Friedrich & G. Rowley
Ref. Rowley, 1974: 95.

Trichocereus glaucus var. *pendens* (F. Ritter) Backeberg =Echinopsis glauca (F. Ritter) Friedrich & G. Rowley

Trichocereus knuthianus Backeberg =Echinopsis knuthiana (Backeberg) Friedrich & G. Rowley
Ref. Ritter, 1981: 1326; Rowley, 1974: 96; Hunt, 1992: 138.

Trichocereus pachanoi Britton & Rose =Echinopsis pachanoi (Britton & Rose) Friedrich & G. Rowley
Ref. Britton & Rose, 1920: 134; Rowley, 1974: 96; Madsen, 1989: 27; Hunt, 1992: 138.

Trichocereus pachanoi fo. *peruvianus* (Britton & Rose) F. Ritter =Echinopsis pachanoi (Britton & Rose) Friedrich & G. Rowley
Ref. Ritter, 1981: 1324.

Trichocereus peruvianus Britton & Rose =Echinopsis pachanoi (Britton & Rose) Friedrich & G. Rowley
Ref. Britton & Rose, 1920: 136; Rauh, 1958: 358; Madsen, 1989: 28; Hunt, 1992: 138.

Trichocereus puquiensis Rauh & Backeberg =Echinopsis puquiensis (Rauh & Backeberg) Friedrich & G. Rowley
Ref. Backeberg, 1956a: 20; Rauh, 1958: 360; Rowley, 1974: 97; Ritter, 1981: 1325; Hunt, 1992: 138.

Trichocereus santaensis Rauh & Backeberg =Echinopsis santaensis (Rauh & Backeberg) Friedrich & G. Rowley
Ref. Backeberg, 1956a: 20; Rauh, 1958: 361; Rowley, 1974: 97; Hunt, 1992: 138.

Trichocereus schoenii Rauh & Backeberg =Echinopsis schoenii (Rauh & Backeberg) Friedrich & G. Rowley
Ref. Rauh, 1958: 362; Rowley, 1974: 97; Hunt, 1992: 138.

Trichocereus tacnaensis F. Ritter
Ref. Ritter, 1981: 1326; Hunt, 1992: 138.
Endemic erect, branched or columnar cactus. Andean II: rocky slopes. 3000-3500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 155a* (U), Ritter 994 (U)
Depts.: TA

Trichocereus tarmaensis Rauh & Backeberg =Echinopsis tarmaensis (Rauh & Backeberg) Friedrich & G. Rowley
Ref. Backeberg, 1956a: 20; Rauh, 1958: 364; Rowley, 1974: 98; Hunt, 1992: 138.
Note: Treated as a synonym of *T. knuthianus* by Ritter (1981: 1326).

Trichocereus tenuiarboreus F. Ritter, nom. nud. =Weberbauerocereus cuzcoensis Knize
Ref. Ritter, 1981: 1358.
Note: Listed under *W. cuzcoensis* var. *tenuiarboreus* by Ritter (1981).

Trichocereus torataensis F. Ritter
Ref. Ritter, 1981: 1325; Hunt, 1992: 138.
Endemic erect, branched or columnar cactus. Andean II: rocky slopes, shrublands. 2500-3000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 1467* (U)
Depts.: MO

Trichocereus tulhuayacensis Ochoa ex Backeberg =Echinopsis tulhuayacensis (Ochoa ex Backeberg) Friedrich & G. Rowley
Ref. Rowley, 1974: 98; Hunt, 1992: 138.

Trichocereus uyupampensis Backeberg =Echinopsis uyupampensis (Backeberg) Friedrich & G. Rowley
Ref. Backeberg & Knuth, 1935: 205, 412; Rauh, 1958: 359; Rowley, 1974: 99; Hunt, 1992: 138.

Weberbauerocereus albus F. Ritter =Weberbauerocereus longicomus F. Ritter
Ref. Ritter, 1981: 1349; Hunt, 1992: 139.
Note: Treated as an accepted species by Ritter (1981).

Weberbauerocereus cephalomacrostibas (Werdermann & Backeberg) F. Ritter =Echinopsis cephalomacrostibas (Werdermann & Backeberg) Friedrich & G. Rowley
Ref. Ritter, 1981: 1353; Hunt, 1992: 139.

Weberbauerocereus churinensis F. Ritter
Ref. Ritter, 1981: 1351; Hunt, 1992: 139.
Endemic clustered, globular cactus. Andean II: rocky slopes, shrublands. 2500-3000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 685* (U)
Depts.: LI

Weberbauerocereus crassiarborescens F. Ritter, nom. nud. =Weberbauerocereus cuzcoensis Knize
Ref. Ritter, 1981: 1357.
Note: Listed under var. *cuzcoensis* by Ritter (1981).

Weberbauerocereus cuzcoensis Knize
Syn. *Trichocereus crassiarborescens* F. Ritter, nom. nud., *Trichocereus tenuiarboreus* F. Ritter, nom. nud., *Weberbauerocereus crassiarborescens* F. Ritter, nom. nud., *Weberbauerocereus cuzcoensis* var. *tenuiarboreus* F. Ritter
Ref. Knize, 1968a: 256; Ritter, 1981: 1357; Hunt, 1992: 139.
Endemic erect, branched or columnar cactus. Andean I-II: dry valleys, rocky slopes. 500-2000 m.
Note: Treated by Ritter (1981) with two varieties: *cuzcoensis* and *tenuiarboreus*.
Voucher: Knize 918* (ZSS), Ritter 662 (U)
Depts.: AP

Weberbauerocereus cuzcoensis var. *tenuiarboreus* F. Ritter =Weberbauerocereus cuzcoensis Knize
Ref. Ritter, 1981: 1358.

Weberbauerocereus fascicularis (Britton & Rose) Backeberg =Weberbauerocereus weberbaueri (Schumann ex Vaupel) Backeberg
Ref. Rauh, 1958: 453; Ritter, 1981: 1354.
Note: Treated under var. *weberbaueri* by Ritter (1981).

Weberbauerocereus fascicularis var. *horridispinus* (Rauh & Backeberg) F. Ritter =Weberbauerocereus weberbaueri (Schumann ex Vaupel) Backeberg
Ref. Ritter, 1981: 1356.

Weberbauerocereus horridispinus Rauh & Backeberg =Weberbauerocereus weberbaueri (Schumann ex Vaupel) Backeberg
Ref. Backeberg, 1956a: 27; Rauh, 1958: 460; Ritter, 1981: 1356; Hunt, 1992: 139.
Note: Treated under var. *horridispinus* by Ritter (1981).

Weberbauerocereus johnsonii F. Ritter
Ref. Ritter, 1981: 1348; Hunt, 1992: 139.
Endemic clustered, globular cactus. Andean II: rocky slopes, shrublands. 3000-3500 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 570* (U)
Depts.: CA

Weberbauerocereus longicomus F. Ritter
Syn. *Weberbauerocereus albus* F. Ritter
Ref. Ritter, 1981: 1350; Hunt, 1992: 139.
Endemic erect, branched or columnar cactus. Andean II: rocky slopes. 2000-3000 m.
Voucher: Ritter 656* (U), Ritter 571 (U)
Depts.: AN, CA

Weberbauerocereus rauhii Backeberg
Syn. *Weberbauerocereus rauhii* var. *laticornua* Rauh
Ref. Backeberg, 1956a: 27; Rauh, 1958: 456; Ritter, 1981: 1352; Hunt, 1992: 139.
Endemic clustered, globular cactus. Andean I-II, Coastal: rocky slopes, shrublands. 500-2500 m.
Note: Accepted provisionally by Hunt (1992). Treated by Ritter (1981) with two varieties: *rauhii* and *laticornua*.
Voucher: Rauh K107 [1956]* (ZSS), Ritter 154 (U)
Depts.: AR, HV

Weberbauerocereus rauhii var. *laticornua* Rauh =Weberbauerocereus rauhii Backeberg
Ref. Rauh, 1958: 460; Ritter, 1981: 1353.
Note: Treated as an accepted taxon by Ritter (1981).

Weberbauerocereus seyboldianus Rauh & Backeberg =Weberbauerocereus weberbaueri (Schumann ex Vaupel) Backeberg
Ref. Backeberg, 1956a: 27; Rauh, 1958: 454; Ritter, 1981: 1354; Hunt, 1992: 139.
Note: Treated under var. *weberbaueri* by Ritter (1981).

Weberbauerocereus torataensis F. Ritter
Ref. Ritter, 1981: 1357; Hunt, 1992: 139.
Endemic erect, branched or columnar cactus. Andean II: rocky slopes, shrublands. 1500-2000 m.
Note: Accepted provisionally by Hunt (1992).
Voucher: Ritter 194* (U)
Depts.: MO

Weberbauerocereus weberbaueri (Schumann ex Vaupel) Backeberg
Syn. *Cereus weberbaueri* Schumann ex Vaupel, *Haageocereus weberbaueri* (Schumann ex Vaupel) D. Hunt, *Trichocereus fascicularis* Britton & Rose, *Weberbauerocereus fascicularis* (Britton & Rose) Backeberg, *Weberbauerocereus fascicularis* var. *horridispinus* (Rauh & Backeberg) F. Ritter, *Weberbauerocereus horridispinus* Rauh & Backeberg, *Weberbauerocereus seyboldianus* Rauh & Backeberg, *Weberbauerocereus weberbaueri* var. *aureifuscus* Rauh & Backeberg, *Weberbauerocereus weberbaueri* var. *horribilis* Rauh & Backeberg, *Weberbauerocereus weberbaueri* var. *horridispinus* (Rauh & Backeberg) F. Ritter, *Weberbauerocereus weberbaueri* var. *humilior* Rauh & Backeberg
Ref. Backeberg, 1956a: 27; Rauh, 1958: 461; Ritter, 1981: 1354; Hunt, 1992: 139.
Erect, branched cactus. Andean II: rocky slopes. 2000-3000 m.
Note: Treated by Ritter (1981) with two varieties: *weberbaueri* and *horridispinus*.
Voucher: Weberbauer 1413* (B), Ritter 129 (U)
Depts.: AR

Weberbauerocereus weberbaueri var. *aureifuscus* Rauh & Backeberg =Weberbauerocereus weberbaueri (Schumann ex Vaupel) Backeberg
Ref. Backeberg, 1956a: 27; Rauh, 1958: 462; Ritter, 1981: 1354.
Note: Treated under var. *weberbaueri* by Ritter (1981).

Weberbauerocereus weberbaueri var. *horribilis* Rauh & Backeberg =Weberbauerocereus weberbaueri (Schumann ex Vaupel) Backeberg
Ref. Backeberg, 1956a: 27; Rauh, 1958: 464; Ritter, 1981: 1354.
Note: Treated under var. *weberbaueri* by Ritter (1981).

Weberbauerocereus weberbaueri var. *horridispinus* (Rauh & Backeberg) F. Ritter =Weberbauerocereus weberbaueri (Schumann ex Vaupel) Backeberg
Ref. Ritter, 1981: 1356.
Note: Treated as an accepted taxon by Ritter (1981).

Weberbauerocereus weberbaueri var. *humilior* Rauh & Backeberg =Weberbauerocereus weberbaueri (Schumann ex Vaupel) Backeberg
Ref. Backeberg, 1956a: 27; Rauh, 1958: 465; Ritter, 1981: 1354.
Note: Treated under var. *weberbaueri* by Ritter (1981).

Weberbauerocereus winterianus F. Ritter
Syn. *Weberbauerocereus winterianus* var. *australis* F. Ritter
Ref. Ritter, 1981: 1347; Hunt, 1992: 139.
Endemic erect, branched or columnar cactus. Andean I-II: rocky slopes, shrublands. 1000-2000 m.
Note: Treated by Ritter (1981) with two varieties: *winterianus* and *australis*.
Voucher: Ritter 165* (U), Ritter 1066 (U)
Depts.: AN, LL

Weberbauerocereus winterianus var. *australis* F. Ritter =Weberbauerocereus winterianus F. Ritter
Ref. Ritter, 1981: 1348.
Note: Treated as an accepted taxon by Ritter (1981).

Weingartia chilensis (Backeberg) Backeberg =Neowerdermannia chilensis Backeberg
Ref. Hunt, 1992: 140.

Weingartia neocumingii Backeberg =Rebutia neocumingii (Backeberg) D. Hunt
Ref. Hunt & Taylor, 1987: 94; Hunt, 1992: 141.

Wittia amazonica Schumann =Disocactus amazonicus (Schumann) D. Hunt
Ref. Castellanos, 1967: 84; Hunt, 1982: 2; Hunt, 1992: 142.

Wittiocactus amazonicus (Schumann) Rauschert =Disocactus amazonicus (Schumann) D. Hunt
Ref. Rauschert, 1982: 559; Hunt, 1992: 142.

Callitrichaceae

1 genus and 3 species in Peru.

Prepared by J. L. Zarucchi; reviewed by C. T. Philbrick (RSA).

[Callitriche deflexa A. Braun ex Hegelmaier]
Syn. *Callitriche deflexa* var. *austinii* (Engelman) Hegelmaier, *Callitriche deflexa* var. *subsessilis* Fassett
Ref. FP 13(3A/1) 1951: 236; Fassett, 1951a: 148.
Note: Not known from Peru.

[*Callitriche deflexa* var. *austinii* (Engelmann) Hegelmaier =Callitriche deflexa A. Braun ex Hegelmaier]
Ref. FP 13(3A/1) 1951: 236.
Note: Not known from Peru.

[*Callitriche deflexa* var. *subsessilis* Fassett =Callitriche deflexa A. Braun ex Hegelmaier]
Ref. FP 13(3A/1) 1951: 236; Fassett, 1951a: 150.
Note: Not known from Peru.

Callitriche heteropoda Engelmann ex Hegelmaier
Ref. FP 13(3A/1) 1951: 236; Fassett, 1951b: 172.
Aquatic herb. Andean II-III: floating or submerged. 3000-4500 m.
Voucher: Gentry *et al.* 23490 (MO!)
Depts.: AN, CU, PU

Callitriche nubigena Fassett
Ref. Fassett, 1951c: 191.
Aquatic herb. Andean II: submerged. 3000-3500 m.

Voucher: Smith *et al.* 11741 (MO!)
Depts.: AN

Callitriche terrestris Raf. subsp. **turfosa** (Bertero ex Hegelmaier) Bacigalupo
Syn. *Callitriche turfosa* Bertero ex Hegelmaier, *Callitriche turfosa* Bertero, nom. nud.
Ref. Bacigalupo, 1979: 392; Philbrick, pers. comm.
Aquatic herb. Submerged.
Voucher: Guette 1664 (MO!)
Depts.: JU, LI

Callitriche turfosa Bertero ex Hegelmaier =Callitriche terrestris Raf. subsp. turfosa (Bertero ex Hegelmaier) Bacigalupo
Ref. FP 13 (3A/1) 1951: 237; Bacigalupo, 1979: 392; Fassett, 1951a: 147.

Callitriche turfosa Bertero, nom. nud. =Callitriche terrestris Raf. subsp. turfosa (Bertero ex Hegelmaier) Bacigalupo
Ref. FP 13 (3A/1) 1951: 237; Bacigalupo, 1979: 392; Fassett, 1951a: 147.

Calyceraceae

3 genera and 3 species in Peru.

Prepared by L. Brako; reviewed by M. DeVore (OS).

[Acicarpha procumbens Lessing]
Ref. FP 13(6/2) 1937: 490.
Note: Not known from Peru.

Acicarpha tribuloides Jussieu
Ref. FP 13(6/2) 1937: 490.
Herb. Andean II: grasslands. 3000-3500 m.
Voucher: Ferreyra 2646 (US)
Depts.: CU, PU

Anomocarpus pulvinatus (J. Rémy) Miers =Calycera pulvinata J. Rémy
Ref. FP 13(6/2) 1937: 490.

Boopis monocephala Philippi =Moschopsis monocephala (Philippi) Reiche
Ref. FP 13(6/2) 1937: 491.

Calycera pulvinata J. Rémy
Syn. *Anomocarpus pulvinatus* (J. Rémy) Miers
Ref. FP 13(6/2) 1937: 490.
Herb. Andean III: riversides. 3500-4000 m.
Voucher: Asplund 2605 (A)
Depts.: CU, PU

Moschopsis monocephala (Philippi) Reiche
Syn. *Boopis monocephala* Philippi
Ref. FP 13(6/2) 1937: 491.
Herb. Andean III: riversides. 4000-4500 m.
Voucher: Dillon & Matekaitis 3373 (F)
Depts.: TA

Campanulaceae

11 genera and 163 species in Peru.

Endemic species: 28.

Prepared by T. Lammers (F), assisted by D. L. Kama (MO) and N. R. Morin (MO); reviewed by B. A. Stein (The Nature Conservancy).

Burmeistera asteriscus E. Wimmer =Centropogon peruvianus (E. Wimmer) McVaugh
Ref. FP 13(6/2) 1937: 392; Stein, 1987b: 495.

Burmeistera macrocarpa (A. Zahlbruckner) E. Wimmer =Centropogon macrocarpus A. Zahlbruckner
Ref. FP 13(6/2) 1937: 393; Stein, 1987b: 495.

Burmeistera microphylla J. D. Smith
Ref. FP 13(6/2) 1937; Stein, 1987b: 495.
Vine. Andean II: rocky slopes. 1500-2000 m.
Voucher: Stein & Todzia 2198 (MO!)
Depts.: SM

Burmeistera pallida (Drake) E. Wimmer =Burmeistera ramosa E. Wimmer
Ref. Jeppesen, 1981b: 40.
Note: If Jeppesen's synonymy is correct, this name has priority.

Burmeistera peruviana E. Wimmer =Centropogon peruvianus (E. Wimmer) McVaugh
Ref. FP 13(6/2) 1937: 393; Stein, 1987b: 495.

Burmeistera ramosa E. Wimmer
Syn. *Burmeistera pallida* (Drake) E. Wimmer, *Burmeistera ramosa* var. *campii* E. Wimmer, *Centropogon pallidus* Drake
Ref. FP 13(6/2) 1937: 393; Jeppesen, 1981b: 41; Stein, 1987b: 495.
Herb or vine. Amazonian, Andean I-II: forests. 0-2500 m.
Voucher: Tessmann 2725* (NY), Smith & Vásquez 4608 (MO!)
Depts.: AM, SM

Burmeistera ramosa var. *campii* E. Wimmer =Burmeistera ramosa E. Wimmer
Ref. Jeppesen, 1981b: 40.

Burmeistera tricolorata E. Wimmer =Siphocampylus rusbyanus Britton
Ref. FP 13(6/2) 1937: 393; Stein, 1987b: 496.

Burmeistera weberbaueri A. Zahlbruckner =Siphocampylus oscitans B. A. Stein
Ref. FP 13(6/2) 1937: 394; Stein, 1987a: 492; Stein, 1987b: 496.

Campanula arida H.B.K. =Wahlenbergia arida (H.B.K.) Grisebach
Ref. FP 13(6/2) 1937: 386; Jeppesen, 1981a: 6.
Note: Jeppesen (1981a) treated this as a synonym of *Wahlenbergia linarioides*.

Campanula biflora R. & P. =Triodanis biflora (R. & P.) Greene
Ref. FP 13(6/2) 1937: 385; McVaugh, 1945: 31; Jeppesen, 1981a: 4.

Campanula chilensis Molina =Wahlenbergia linarioides (Lamarck) A. DC.
Ref. FP 13(6/2) 1937: 387; Jeppesen, 1981a: 6.

Campanula filiformis R. & P. =Wahlenbergia linarioides var. filiformis (R. & P.) A. DC.
Ref. FP 13(6/2) 1937: 387; Jeppesen, 1981a: 6.

Campanula linarioides Lamarck =Wahlenbergia linarioides (Lamarck) A. DC.
Ref. FP 13(6/2) 1937: 387; Jeppesen, 1981a: 6.

Campanula montevidensis Sprengel =Triodanis biflora (R. & P.) Greene
Ref. McVaugh, 1945: 31; Jeppesen, 1981a: 4.

Centropogon aggregatus (Rusby) Gleason =Centropogon granulosus C. Presl
Ref. FP 13(6/2) 1937: 401; Jeppesen, 1981b: 84; Stein, 1987c: 273.

Centropogon aggregatus var. *cardinalis* (A. Zahlbruckner & Rechinger) E. Wimmer =Centropogon granulosus C. Presl
Ref. FP 13(6/2) 1937: 402.

Centropogon alsophilus E. Wimmer
Ref. FP 13(6/2) 1937: 402; Stein, 1987c: 243; Stein, pers. comm.
Herb, shrub or subshrub. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Voucher: Klug 3432* (US), Stein & Todzia 2127 (MO!)
Depts.: LO, SM

Centropogon altus E. Wimmer
Ref. FP 13(6/2) 1937: 402; Wimmer, 1943: 255.
Endemic herb or shrub. Andean II: cloud forests. 1500-2500 m.
Voucher: Macbride 4470* (F), Stein & Todzia 2123 (MO!)
Depts.: AM, SM

Centropogon amplicorollinus (E. Wimmer) B. A. Stein
Syn. *Centropogon planchonis* var. *amplicorollinus* E. Wimmer
Ref. Wimmer, 1943: 184; Stein, 1987c: 379.
Herb. Amazonian: terra firme forests. 0-500 m.
Note: New combination made in Appendix 1.
Voucher: Williams 1904* (F), Díaz *et al.* 549 (MO!)
Depts.: LO

Centropogon amplifolius Vatke
=Centropogon macrophyllus (G. Don) E. Wimmer
Ref. FP 13(6/2) 1937: 419; Jeppesen, 1981b: 93; Stein, 1987c: 171.

Centropogon andropogon (Cavanilles) A. DC. =Centropogon cornutus (L.) Druce
Ref. Jeppesen, 1981b: 72; Stein, 1987c: 135.

Centropogon angustus Gleason
=Centropogon hirtus (Cavanilles) C. Presl
Ref. Jeppesen, 1981b: 88; Stein, 1987c: 182.

Centropogon argutus E. Wimmer
Ref. FP 13(6/2) 1937: 402; Jeppesen, 1981b: 58; Wimmer, 1943: 244.
Endemic shrub or liana. Andean II: cloud forests. 2000-3000 m.
Voucher: Lobb s.n.*, Woytkowski 7815 (MO!)
Depts.: AM

Centropogon asteriscus (E. Wimmer) McVaugh =Centropogon peruvianus (E. Wimmer) McVaugh
Ref. McVaugh, 1949: 462; Stein, 1987b: 495.

Centropogon astrotrichus E. Wimmer
Ref. FP 13(6/2) 1937: 403; Wimmer, 1943: 238.
Voucher: Raimondi 2897*
Depts.: HU

Centropogon aurantiacus Gleason
=Centropogon luteus E. Wimmer
Ref. FP 13(6/2) 1937: 418; Jeppesen, 1981b: 93; Wimmer, 1943: 246.

Centropogon auratus E. Wimmer
=Centropogon reflexus C. Presl
Ref. FP 13(6/2) 1937: 403; Stein, 1987c: 395.

[Centropogon bangii A. Zahlbruckner]
Ref. FP 13(6/2) 1937: 403; Stein, 1987c: 416.
Note: Not known from Peru.

Centropogon barbatus (Cavanilles) Planchon =Centropogon ferrugineus (L. f.) Gleason
Ref. FP 13(6/2) 1937: 410; Jeppesen, 1981b: 79.

[Centropogon brittonianus A. Zahlbruckner]
Syn. *Siphocampylus giganteus* var. *latifolius* Britton, nom. illeg.
Ref. FP 13(6/2) 1937: 404.
Note: Not known from Peru.

Centropogon bruneo-tomentosus E. Wimmer
Ref. FP 13(6/2) 1937: 404; Wimmer, 1943: 240.
Voucher: Raimondi 12036* (B)
Depts.: CA

Centropogon caninus E. Wimmer
=Centropogon umbrosus E. Wimmer
Ref. FP 13(6/2) 1937: 405; Stein, 1987c: 177.

Centropogon caoutchouc (H.B.K.) Gleason
Ref. FP 13(6/2) 1937: 418.
Shrub. Andean II: shrublands. 2000-2500 m.
Note: Listed in the Flora of Peru as a synonym of *C. luteus* "saltem p. p."; but Wimmer apparently meant that *C. luteus* had been misidentified by Gleason as *C. caoutchouc*, and he was not including the type.
Voucher: Woytkowski 7991 (MO!)
Depts.: HU

Centropogon capitatus Drake
Syn. *Centropogon capitatus* fo. *hirtus* A. Zahlbruckner, *Centropogon capitatus* var. *fieldii* E. Wimmer, *Centropogon capitatus* var. *trichandrus* E. Wimmer
Ref. FP 13(6/2) 1937: 405; Stein, 1987c: 162.
Herb, shrub or subshrub. Amazonian, Andean I-II: disturbed areas, forests, riversides, rocky slopes. 0-2500 m.
Note: Treated by Jeppesen (1981b: 93) as a synonym of *C. macrophyllus*.
Voucher: Hutchison & Wright 5062 (MO!)
Depts.: AM, AY, CU, HU, JU, PA, PU, SM

Centropogon capitatus fo. *hirtus* A. Zahlbruckner =Centropogon capitatus Drake
Ref. FP 13(6/2) 1937: 405; Stein, 1987c: 162.

Centropogon capitatus var. *fieldii* E. Wimmer =Centropogon capitatus Drake
Ref. FP 13(6/2) 1937: 406; Stein, 1987c: 162.

Centropogon capitatus var. *trichandrus* E. Wimmer =Centropogon capitatus Drake
Ref. FP 13(6/2) 1937: 406; Stein, 1987c: 162.

Centropogon cardinalis A. Zahlbruckner & Rechinger =Centropogon granulosus C. Presl
Ref. FP 13(6/2) 1937: 402; Jeppesen, 1981b: 84.

Centropogon casapiensis E. Wimmer
=Centropogon granulosus C. Presl
Ref. FP 13(6/2) 1937: 406; Stein, 1987c: 273.

Centropogon ciliatus Gleason
=Centropogon sciaphilus A. Zahlbruckner
Ref. FP 13(6/2) 1937: 424; Stein, 1987c: 386.

Centropogon cinereus fo. *odontosepalus* E. Wimmer =Centropogon verbascifolius (C. Presl) Gleason
Ref. FP 13(6/2) 1937: 427.

Centropogon cinereus Gleason
=Centropogon verbascifolius (C. Presl) Gleason
Ref. FP 13(6/2) 1937: 427.

[Centropogon comosus Gleason]
Ref. FP 13(6/2) 1937: 406.
Note: Not known from Peru.

[Centropogon congestus Gleason]
Syn. *Centropogon gesnerioides* Gleason
Ref. Stein, 1987c: 180, 196.
Note: Not known from Peru. *Isern 2566* cited by Wimmer (1943: 180) is redetermined as *C. umbrosus* by Stein (pers. comm.).

Centropogon cornutus (L.) Druce
Syn. *Centropogon andropogon* (Cavanilles) A. DC., *Centropogon cornutus* fo. *leucostomus* E. Wimmer, *Centropogon cornutus* var. *laevigatus* (L. f.) E. Wimmer, *Centropogon fastuosus* Scheidweiler, *Centropogon laevigatus* (L. f.) A. DC., *Centropogon puerilis* E. Wimmer, *Centropogon surinamensis* (L.) C. Presl, *Lobelia andropogon* Cavanilles, *Lobelia cornuta* L., *Lobelia laevigata* L. f., *Lobelia purpurea* Vellozo, nom. illeg., *Lobelia spectabilis* H.B.K., *Lobelia surinamensis* L., *Siphocampylus andropogon* G. Don, *Siphocampylus macranthus* Pohl, *Siphocampylus surinamensis* (L.) G. Don
Ref. FP 13(6/2) 1937: 407; Jeppesen, 1981b: 72; Stein, 1987c: 133.
Herb, liana, shrub, subshrub or vine. Amazonian, Andean I: disturbed areas, forests, riversides. 0-1500 m.
Voucher: Stein 2516 (MO!)
Depts.: AM, CU, HU, JU, LO, MD, PA, SM, TU, UC

Centropogon cornutus fo. *leucostomus* E. Wimmer =Centropogon cornutus (L.) Druce
Ref. FP 13(6/2) 1937: 407; Stein, 1987c: 136.

Centropogon cornutus var. *laevigatus* (L. f.) E. Wimmer =Centropogon cornutus (L.) Druce
Ref. FP 13(6/2) 1937: 407; Jeppesen, 1981b: 72; Stein, 1987c: 136.

Centropogon cuspidatus A. DC.
=Centropogon granulosus C. Presl
Ref. FP 13(6/2) 1937: 414; Jeppesen, 1981b: 84; Stein, 1987c: 273.

[Centropogon densiflorus Bentham]
Syn. *Centropogon gracilis* Drake
Ref. FP 13(6/2) 1937: 408; Wimmer, 1943: 169; Jeppesen, 1981b: 75; Stein, pers. comm.
Note: Not known from Peru. The type, *Hartweg 775*, was actually collected in Ecuador. Stein (1987c: 339) cites no Peruvian specimens.

Centropogon dombeyanus (C. Presl) E. Wimmer
Syn. *Lobelia dombeyana* C. Presl, *Siphocampylus dombeyanus* A. DC.
Ref. FP 13(6/2) 1937: 408; Wimmer, 1943: 258.
Shrub. Andean II. 3500-4000 m.
Voucher: Dombey s.n.*, Stein 3813 (MO!)
Depts.: JU

Centropogon erianthus (Bentham) Bentham & Hooker f. ex Drake
Syn. *Centropogon erianthus* var. *brachysepalus* E. Wimmer, *Centropogon erianthus* var. *diversipilis* E. Wimmer, *Siphocampylus erianthus* Bentham
Ref. FP 13(6/2) 1937: 408; Jeppesen, 1981b: 77.
Shrub. Andean III: grasslands. 4000-4500 m.
Voucher: Hartweg 778*
Depts.: HU

Centropogon erianthus var. *brachysepalus* E. Wimmer =Centropogon erianthus (Bentham) Bentham & Hooker f. ex Drake
Ref. FP 13(6/2) 1937: 409; Wimmer, 1943: 250.
Note: Cited in Wimmer (1943) as "*brachyanthus*", in error.

Centropogon erianthus var. *diversipilis* E. Wimmer =Centropogon erianthus (Bentham) Bentham & Hooker f. ex Drake
Ref. Wimmer, 1968: 842.

[Centropogon erythraeus Drake]
Ref. FP 13(6/2) 1937: 409; Jeppesen, 1981b: 79.
Note: Not known from Peru.

Centropogon estrellanus (E. Wimmer) E. Wimmer =Centropogon urubambae E. Wimmer
Ref. Stein, 1987c: 400.

[Centropogon eurystomus E. Wimmer]
Ref. FP 13(6/2) 1937: 409; Wimmer, 1943: 181; Stein, 1987c: 231.
Note: Not known from Peru. The type, *Spruce s.n.*, was collected in present-day Ecuador.

Centropogon exasperatus C. Presl =Centropogon hirtus (Cavanilles) C. Presl
Ref. FP 13(6/2) 1937: 410; Jeppesen, 1981b: 88; Stein, 1987c: 182.

Centropogon fastuosus Scheidweiler =Centropogon cornutus (L.) Druce
Ref. FP 13(6/2) 1937: 407; Jeppesen, 1981b: 72; Stein, 1987c: 136.

Centropogon featherstonei Gleason
Ref. FP 13(6/2) 1937: 410; Wimmer, 1943: 238.
Endemic shrub. Andean II: disturbed areas, forests, shrublands. 2000-3500 m.
Voucher: Macbride 1605* (F), Stein & Todzia 2059 (MO!)
Depts.: AM, CA, JU

Centropogon ferrugineus (L. f.) Gleason
Syn. *Centropogon barbatus* (Cavanilles) Planchon, *Lobelia barbata* Cavanilles, *Lobelia ferruginea* L. f., *Siphocampylus barbatus* (Cavanilles) G. Don, *Siphocampylus ferrugineus* (L. f.) G. Don
Ref. FP 13(6/2) 1937: 410; Wimmer, 1943: 225; Jeppesen, 1981b: 79.
Shrub. Andean II-III: forests. 3000-4000 m.
Voucher: Metcalf 30740 (MO!)
Depts.: CU

Centropogon ferrugineus var. *vulgatus* E. Wimmer =Centropogon intonsus Gleason
Ref. Jeppesen, 1981b: 88.

Centropogon flexuosus var. *ethnicus* E. Wimmer =Centropogon longipetiolatus E. Wimmer
Ref. Wimmer, 1943: 196.

Centropogon fuscus (G. Don) E. Wimmer
Syn. *Lobelia fusca* (G. Don) C. Presl, *Siphocampylus fuscus* G. Don
Ref. FP 13(6/2) 1937: 411; Wimmer, 1943: 243.
Shrub or vine.
Note: Not reconfirmed.
Depts.: HU

Centropogon fuscus var. *gleasonii* E. Wimmer =Centropogon gleasonii (E. Wimmer) E. Wimmer
Ref. FP 13(6/2) 1937: 411; Wimmer, 1943: 243.

Centropogon gamosepalus A. Zahlbruckner
Syn. *Centropogon grandicephalus* A. Zahlbruckner
Ref. FP 13(6/2) 1937: 411; Jeppesen, 1981b: 81; Stein, 1987c: 213.
Herb or subshrub. Amazonian, Andean I-II: forests. 0-2000 m.
Voucher: Spruce 4131* (W photo F!), Smith 4423 (MO!)
Depts.: AM, SM

Centropogon gesneriiformis Drake
Ref. FP 13(6/2) 1937: 412; Stein, 1987c: 204.
Herb or shrub. Andean I: cloud forests, forests. 1000-1500 m.
Voucher: Wasshausen & Encarnación 871 (US)
Depts.: CA

[*Centropogon gesnerioides* Gleason =Centropogon congestus Gleason]
Ref. FP 13(6/2) 1937: 412; Stein, 1987c: 187.
Note: Not known from Peru.

Centropogon gesnerioides var. *viperinus* E. Wimmer =Centropogon umbrosus E. Wimmer
Ref. FP 13(6/2) 1937: 412; Stein, 1987c: 177.

Centropogon gesnerioides var. *zelans* E. Wimmer =Centropogon umbrosus E. Wimmer
Ref. FP 13(6/2) 1937: 413; Wimmer, 1943: 181; Stein, 1987c: 177.

Centropogon gleasonii (E. Wimmer) E. Wimmer
Syn. *Centropogon fuscus* var. *gleasonii* E. Wimmer, *Centropogon rufus* Gleason
Ref. Wimmer, 1943: 243.
Shrub. Amazonian. 0-500 m.
Voucher: Macbride 4473* (F)
Depts.: HU

[Centropogon gloriosus (Britton) A. Zahlbruckner]
Syn. *Siphocampylus gloriosus* Britton
Ref. FP 13(6/2) 1937: 413.
Note: Not known from Peru.

Centropogon gracilis Drake =Centropogon densiflorus Bentham
Ref. FP 13(6/2) 1937: 408; Jeppesen, 1981b: 75; Stein, 1987c: 342.

Centropogon grandicephalus A. Zahlbruckner =Centropogon gamosepalus A. Zahlbruckner
Ref. FP 13(6/2) 1937: 413; Jeppesen, 1981b: 81; Stein, 1987c: 213.

Centropogon granulosus C. Presl
Syn. *Centropogon aggregatus* (Rusby) Gleason, *Centropogon aggregatus* var. *cardinalis* (A. Zahlbruckner & Rechinger) E. Wimmer, *Centropogon cardinalis* A. Zahlbruckner & Rechinger, *Centropogon casapiensis* E. Wimmer, *Centropogon cuspidatus* A. DC., *Centropogon granulosus* fo. *cardinalis* (A. Zahlbruckner & Rechinger) E. Wimmer, *Centropogon granulosus* var. *aggregatus* (Rusby) E. Wimmer, *Centropogon granulosus* var. *cuspidatus* (A. DC.) E. Wimmer, *Centropogon parvulus* Gleason, *Centropogon planchonis* var. *heteranthus* E. Wimmer, *Siphocampylus aggregatus* Rusby
Ref. FP 13(6/2) 1937: 414; Jeppesen, 1981b: 84; Stein, 1987c: 273.
Liana, shrub or vine. Amazonian, Andean I-II: disturbed areas, forests. 0-2500 m.
Voucher: Poeppig s.n.* (W), Wasshausen & Encarnación 721 (MO!)
Depts.: AM, AY, CA, CU, HU, JU, LO, PA, PU, SM, UC

Centropogon granulosus fo. *cardinalis* (A. Zahlbruckner & Rechinger) E. Wimmer =Centropogon granulosus C. Presl
Ref. Wimmer, 1943: 170; Jeppesen, 1981b: 84.

Centropogon granulosus var. *aggregatus* (Rusby) E. Wimmer =Centropogon granulosus C. Presl
Ref. Wimmer, 1943: 170; Jeppesen, 1981b: 84.

Centropogon granulosus var. *cuspidatus* (A. DC.) E. Wimmer =Centropogon granulosus C. Presl
Ref. Jeppesen, 1981b: 84.

[Centropogon hartwegii (Bentham) Bentham & Hooker f.]
Syn. *Siphocampylus hartwegi* Bentham
Ref. FP 13(6/2) 1937: 414.
Note: Not known from Peru.

Centropogon hirtus (Cavanilles) C. Presl
Syn. *Centropogon angustus* Gleason, *Centropogon exasperatus* C. Presl, *Lobelia hirta* Cavanilles, nom. illeg., *Siphocampylus hirtus* (Cavanilles) G. Don
Ref. FP 13(6/2) 1937: 415; Jeppesen, 1981b: 88; Stein, 1987c: 182.
Herb. Andean II: cloud forests, disturbed areas, riversides. 2000-3000 m.
Note: The type, *Nee s.n.*, is supposedly from Ecuador but was probably collected by Haenke in Peru. The species is otherwise known only from the Department of Huánuco.
Voucher: Davidson & Jones 9197 (MO!)
Depts.: HU

Centropogon hypotrichus E. Wimmer
Ref. FP 13(6/2) 1937: 415; Stein, 1987c: 454.
Endemic.
Voucher: Jelski 59* (W photo F!)
Depts.: HU

Centropogon incanus (Britton) A. Zahlbruckner
Syn. *Siphocampylus incanus* Britton
Ref. FP 13(6/2) 1937: 415.
Herb. Andean II: cloud forests, rocky slopes. 1500-2000 m.
Voucher: Metcalf 30675 (MO!)
Depts.: PU

Centropogon inflatus E. Wimmer =Centropogon roseus Rusby
Ref. FP 13(6/2) 1937: 416; Stein, 1987c: 219.

Centropogon intonsus Gleason
Syn. *Centropogon ferrugineus* var. *vulgatus* E. Wimmer
Ref. Jeppesen, 1981b: 89.
Note: Not reconfirmed.

Centropogon isabellinus E. Wimmer
Ref. FP 13(6/2) 1937: 416; Wimmer, 1943: 256.
Endemic herb or shrub. Andean III: shrublands. 3500-4500 m.
Voucher: Cook & Gilbert 1274*, Núñez & Arque 8278 (MO!)
Depts.: CU

Centropogon lateriflorus E. Wimmer
Ref. Stein, 1987c: 281.
Vine. Andean I-II: forests. 1000-3000 m.
Voucher: Barbour 2975 (MO!)
Depts.: AM, HU, SM

Centropogon latifolius E. Wimmer
Ref. FP 13(6/2) 1937: 416; Stein, 1987c: 383.
Herb, shrub or subshrub. Andean II: cloud forests, disturbed areas. 1500-2000 m.
Voucher: Killip & Smith 25918* (US), Gentry *et al.* 29562 (MO!)
Depts.: HU, LO, PA

Centropogon longifolius E. Wimmer
Ref. FP 13(6/2) 1937: 417; Wimmer, 1943: 223.
Endemic shrub or subshrub. Andean II: disturbed areas, rocky slopes, shrublands. 2500-3000 m.
Voucher: Mathews 1186*, Stein & Kallunki 3841 (MO!)
Depts.: JU, PU

Centropogon longipetiolatus E. Wimmer
Syn. *Centropogon flexuosus* var. *ethnicus* E. Wimmer
Ref. FP 13(6/2) 1937: 417; Stein, 1987c: 454.
Subshrub. Andean II. 2000-2500 m.
Voucher: Mathews s.n.* (B photo F!)
Depts.: Without full locality data.

Centropogon loretensis E. Wimmer
Ref. FP 13(6/2) 1937: 417; Stein, 1987c: 369.
Herb or shrub. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Tessmann 3906* (B photo F!), Ancuash 620 (MO!)
Depts.: AM, LO, SM

Centropogon luteus E. Wimmer
Syn. *Centropogon aurantiacus* Gleason
Ref. FP 13(6/2) 1937: 418; Wimmer, 1943: 246; Jeppesen, 1981b: 93.
Shrub. Andean II: cloud forests, rocky slopes. 2500-3000 m.
Voucher: Stein & Todzia 2267 (MO!)
Depts.: HU, SM

Centropogon macbridei Gleason
Ref. FP 13(6/2) 1937: 418; Wimmer, 1943: 237.
Shrub. Andean II. 2000 m.
Voucher: Macbride 4183* (F)
Depts.: HU

Centropogon macrocarpus A. Zahlbruckner
Syn. *Burmeistera macrocarpa* (A. Zahlbruckner) E. Wimmer
Ref. FP 13(6/2) 1937: 393; Stein, 1987b: 495.
Note: Not reconfirmed.
Depts.: HU

Centropogon macrophyllus (G. Don) E. Wimmer
Syn. *Centropogon amplifolius* Vatke, *Centropogon macrophyllus* fo. *minoratus* E. Wimmer, *Lobelia macrophylla* (G. Don) C. Presl, *Siphocampylus macrophyllus* G. Don
Ref. FP 13(6/2) 1937: 419; Jeppesen, 1981b: 93; Stein, 1987c: 171.
Herb, shrub or subshrub. Andean I-II: cloud forests, disturbed areas, forests, rocky slopes. 500-2500 m.
Voucher: Ruiz & Pavón s.n.* (LE), Gentry *et al.* 41454 (MO!)
Depts.: CU, HU, JU, PA, SM, UC

Centropogon macrophyllus fo. *minoratus* E. Wimmer =Centropogon macrophyllus (G. Don) E. Wimmer
Ref. FP 13(6/2) 1937: 419; Jeppesen, 1981b: 94; Stein, 1987c: 171.

Centropogon macrostemon A. Zahlbruckner =Siphocampylus macrostemon (C. Presl) A. DC.
Ref. FP 13(6/2) 1937: 458.

Centropogon mandonis A. Zahlbruckner
Ref. FP 13(6/2) 1937: 419; Wimmer, 1943: 258.
Shrub. Andean II. 2500-3000 m.
Voucher: Weberbauer 880 (MOL!)
Depts.: PU

Centropogon nervosus E. Wimmer ex Gleason
Ref. FP 13(6/2) 1937: 420; Wimmer, 1943: 228.
Shrub or vine. Andean II: disturbed areas, forests. 2500-3500 m.
Voucher: Cook & Gilbert 1374*, Stein & Todzia 2448 (MO!)
Depts.: CU

Centropogon ostrinus E. Wimmer =Centropogon yungasensis Britton
Ref. FP 13(6/2) 1937: 420; Wimmer, 1943: 172; Stein, 1987c: 390.

Centropogon pallidus Drake =Burmeistera ramosa E. Wimmer
Ref. Jeppesen, 1981b: 40.
Note: If Jeppesen's synonymy is correct, this name has priority.

Centropogon pamplonensis E. Wimmer var. *glabriflorus* E. Wimmer =Centropogon vernicosus A. Zahlbruckner
Ref. Wimmer, 1943: 185; Stein, 1987c: 456.

Centropogon pamplonensis var. *peruvianus* E. Wimmer =Centropogon vernicosus A. Zahlbruckner
Ref. FP 13(6/2) 1937: 421; Stein, 1987c: 456.

Centropogon parvulus Gleason =Centropogon granulosus C. Presl
Ref. FP 13(6/2) 1937: 420; Jeppesen, 1981b: 84; Stein, 1987c: 273.

[Centropogon pedicellaris Gleason var. gallerensis Gleason]
Ref. FP 13(6/2) 1937: 421; Stein, 1987c: 454.
Note: Not known from Peru. This is a Colombian taxon; Jeppesen (1981b: 103) confused this with *C. planchonis* (Stein, pers. comm.).

Centropogon perlongus Gleason
Ref. FP 13(6/2) 1937: 421; Wimmer, 1943: 245.
Endemic shrub. Andean II. 3000-3500 m.

Voucher: Cook & Gilbert 1355*, Stein & Todzia 2449 (MO!)
Depts.: CU

Centropogon peruvianus (E. Wimmer) McVaugh
Syn. *Burmeistera asteriscus* E. Wimmer, *Burmeistera peruviana* E. Wimmer, *Centropogon asteriscus* (E. Wimmer) McVaugh
Ref. Stein, 1987b: 495.
Shrub. Andean II: cloud forests, disturbed areas, forests. 2000-3500 m.
Voucher: Foster & Wachter 7499 (MO!)
Depts.: CU

Centropogon pilosulus E. Wimmer =Centropogon vernicosus A. Zahlbruckner
Ref. FP 13(6/2) 1937: 421; Wimmer, 1943: 187; Stein, 1987c: 456.

[*Centropogon planchonis* A. Zahlbruckner =Centropogon solanifolius Bentham]
Ref. FP 13(6/2) 1937: 421; Jeppesen, 1981b: 103; Stein, 1987c: 246.
Note: Not known from Peru. This name has been variously applied to *C. alsophilus* and *C. amplicorollinus*, but is a Colombian synonym of *C. solanifolius*.

Centropogon planchonis var. *amplicorollinus* E. Wimmer =Centropogon amplicorollinus (E. Wimmer) B. A. Stein
Ref. Wimmer, 1943: 184; Stein, 1987c: 379.
Note: Stein (1987c) treats this as a distinct species.

Centropogon planchonis var. *heteranthus* E. Wimmer =Centropogon granulosus C. Presl
Ref. Wimmer, 1943: 184.

Centropogon preslii E. Wimmer
Ref. FP 13(6/2) 1937: 422; Wimmer, 1943: 231; Jeppesen, 1981b: 104.
Shrub. Andean II. 3000-3500 m.
Voucher: Hutchison & Wright 4863 (MO!)
Depts.: AM

Centropogon puerilis E. Wimmer =Centropogon cornutus (L.) Druce
Ref. FP 13(6/2) 1937: 422; Wimmer, 1943: 201; Stein, 1987c: 136.

Centropogon pulcher A. Zahlbruckner
Ref. FP 13(6/2) 1937: 422; Jeppesen, 1981b: 105; Stein, 1987c: 331.
Endemic liana, subshrub or vine. Andean I-II: cloud forests. 500-2000 m.
Voucher: Weberbauer 2164* (B photo F!), Stein & Todzia 2386 (MO!)
Depts.: AM, JU

Centropogon reflexus C. Presl
Syn. *Centropogon auratus* E. Wimmer, *Centropogon rubrovenosus* Gleason
Ref. Wimmer, 1943: 192; Stein, 1987c: 395.
Endemic vine. Andean II: cloud forests, riversides. 1500-3000 m.
Voucher: Haenke 1919* (F), Croat 57838 (MO!)
Depts.: HU, JU

Centropogon reticulatus Drake
Ref. FP 13(6/2) 1937: 423; Jeppesen, 1981b: 106.
Subshrub. Andean II-III: disturbed areas, rocky slopes. 2000-4000 m.
Voucher: Sagástegui & Cabanilles 8597 (MO!)
Depts.: CA, PI

Centropogon roseus Rusby
Syn. *Centropogon inflatus* E. Wimmer
Ref. FP 13(6/2) 1937: 423; Stein, 1987c: 219.
Herb or shrub. Amazonian, Andean I: disturbed areas, forests. 0-2000 m.
Voucher: Dudley 1026 (MO!)
Depts.: AY, CU, JU, MD

Centropogon rubrovenosus Gleason =Centropogon reflexus C. Presl
Ref. FP 13(6/2) 1937: 403; Stein, 1987c: 395.

Centropogon rufus E. Wimmer
Ref. FP 13(6/2) 1937: 423; Wimmer, 1943: 243.
Shrub. Andean II. 2000-2500 m.
Voucher: Weberbauer 7044*
Depts.: Without full locality data.

Centropogon rufus Gleason =Centropogon gleasonii (E. Wimmer) E. Wimmer
Ref. FP 13(6/2) 1937: 411.

Centropogon scabiosus E. Wimmer
Ref. FP 13(6/2) 1937: 424; Wimmer, 1943: 226.
Subshrub. Andean III. 3500-4000 m.
Voucher: Mathews s.n.*, Vargas 2878 (MO!)
Depts.: CU

Centropogon sciaphilus A. Zahlbruckner
Syn. *Centropogon ciliatus* Gleason
Ref. FP 13(6/2) 1937: 424; Stein, 1987c: 386.
Endemic herb, shrub or subshrub. Amazonian, Andean I-II: cloud forests, disturbed areas, rocky slopes. 0-2500 m.
Voucher: Poeppig 1651* (W photo F!), Gentry *et al.* 18848 (MO!)
Depts.: HU, JU, LO, PA, SM

Centropogon silvaticus E. Wimmer
Ref. FP 13(6/2) 1937: 424; Stein, 1987c: 225.
Endemic herb or shrub. Amazonian: riversides. 0-500 m.
Voucher: Klug 3062* (US), Berlin 22 (MO!)
Depts.: AM, LO

[Centropogon solanifolius Bentham]
Syn. *Centropogon planchonis* A. Zahlbruckner
Ref. Jeppesen, 1981b: 112; Stein, 1987c: 246.
Note: Not known from Peru.

[Centropogon subandinus A. Zahlbruckner]
Ref. FP 13(6/2) 1937: 425; Jeppesen, 1981b: 116.
Note: Not known from Peru.

Centropogon subcordatus A. Zahlbruckner
Ref. FP 13(6/2) 1937: 425; Jeppesen, 1981b: 117.
Shrub.
Note: Not reconfirmed.

Centropogon surinamensis (L.) C. Presl =Centropogon cornutus (L.) Druce
Ref. FP 13(6/2) 1937: 407; Jeppesen, 1981b: 72.

Centropogon tessmannii E. Wimmer
Syn. *Centropogon tessmannii* var. *tenuiflorus* E. Wimmer
Ref. FP 13(6/2) 1937: 425; Wimmer, 1943: 215; Jeppesen, 1981b: 118.
Herb. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Wasshausen & Encarnación 1095 (MO!)
Depts.: JU, LO

Centropogon tessmannii var. *tenuiflorus* E. Wimmer =Centropogon tessmannii E. Wimmer
Ref. FP 13(6/2) 1937: 426; Jeppesen, 1981b: 118.

Centropogon umbrosus E. Wimmer
Syn. *Centropogon caninus* E. Wimmer, *Centropogon gesnerioides* var. *viperinus* E. Wimmer, *Centropogon gesnerioides* var. *zelans* E. Wimmer
Ref. FP 13(6/2) 1937: 426; Stein, 1987c: 177.
Endemic shrub. Andean I-II: cloud forests, disturbed areas. 1000-3000 m.
Voucher: Weberbauer 5616* (photo B), Foster & Wachter 7467 (MO!)
Depts.: AY, CU, HU, JU, LO, PA, PU, UC

Centropogon urubambae E. Wimmer
Syn. *Centropogon estrellanus* (E. Wimmer) E. Wimmer, *Centropogon urubambae* var. *estrellanus* E. Wimmer
Ref. FP 13(6/2) 1937: 426; Wimmer, 1943: 193; Stein, 1987c: 400.
Endemic herb or vine. Andean I-II: disturbed areas, forests. 500-2500 m.
Voucher: Cook & Gilbert 942* (US), Stein & Todzia 2387 (MO!)
Depts.: AY, CU, JU

Centropogon urubambae var. *estrellanus* E. Wimmer =Centropogon urubambae E. Wimmer
Ref. FP 13(6/2) 1937: 427; Stein, 1987c: 400.

Centropogon varicus McVaugh
Ref. McVaugh, 1965: 401.
Endemic shrub. Andean II: disturbed areas, forests. 1500-3000 m.
Voucher: Wurdack 916* (MICH), Stein & Todzia 2217 (MO!)
Depts.: AM

Centropogon verbascifolius (C. Presl) Gleason
Syn. *Centropogon cinereus* fo. *odontosepalus* E. Wimmer, *Centropogon cinereus* Gleason, *Lobelia verbascifolia* C. Presl, *Siphocampylus verbascifolius* A. DC.
Ref. FP 13(6/2) 1937: 427; Wimmer, 1943: 241.
Herb or shrub. Andean I-III: forests, riversides, rocky slopes. 500-4000 m.
Voucher: Presl s.n.*, Stein *et al.* 3843 (MO!)
Depts.: AM, HU, JU, SM

Centropogon vernicosus A. Zahlbruckner
Syn. *Centropogon pamplonensis* var. *glabriflorus* E. Wimmer, *Centropogon pamplonensis* var. *peruvianus* E. Wimmer, *Centropogon pilosulus* E. Wimmer
Ref. FP 13(6/2) 1937: 427; Stein, 1987c: 456.
Voucher: Jelski 78*, Woytkowski 6987 (MO)
Depts.: CA, LL, PI

Centropogon viriduliflorus E. Wimmer
Ref. FP 13(6/2) 1937: 428; Wimmer, 1943: 256.
Shrub. Andean II. 2500-3000 m.
Voucher: Weberbauer 7795*, Vargas 3771 (MO!)
Depts.: CU

Centropogon weberbaueri A. Zahlbruckner
Ref. FP 13(6/2) 1937: 428; Wimmer, 1943: 245.
Endemic shrub. Andean II. 3000-3500 m.
Voucher: Weberbauer 3247* (MOL!), Vargas 1925 (MO!)
Depts.: HU

Centropogon weddellii E. Wimmer
Ref. FP 13(6/2) 1937: 428; Wimmer, 1943: 214.
Shrub.
Note: Not reconfirmed; "perhaps a species of *Burmeistera*" according to the Flora of Peru.
Voucher: Weddell 4646*
Depts.: PU

Centropogon yungasensis Britton
Syn. *Centropogon ostrinus* E. Wimmer, *Centropogon yungasensis* var. *angustior* A. Zahlbruckner
Ref. FP 13(6/2) 1937: 429; Stein, 1987c: 390.
Shrub or vine. Andean II: cloud forests, disturbed areas. 1500-3000 m.
Voucher: Young 1519 (MO!)
Depts.: CU, HU, JU, PA, SM, UC

Centropogon yungasensis var. *angustior* A. Zahlbruckner =Centropogon yungasensis Britton
Ref. FP 13(6/2) 1937: 429; Stein, 1987c: 390.

Diastatea micrantha (H.B.K.) McVaugh
Syn. *Diastatea micrantha* var. *longibracteata* (E. Wimmer) E. Wimmer, *Diastatea micrantha* var. *ovatifolia* (B. L. Robinson) E. Wimmer, *Dortmannia micrantha* (H.B.K.) Kuntze, *Dortmannia minutiflora* (Kunze) Kuntze, *Dortmannia parviflora* (C. Martius & Galeotti) Kuntze, *Laurentia michoacana* B. L. Robinson, nom. illeg., *Laurentia micrantha* (H.B.K.) A. Zahlbruckner, nom. illeg., *Laurentia micrantha* var. *longibracteata* E. Wimmer, *Laurentia micrantha* var. *ovatifolia* (B. L. Robinson) E. Wimmer, *Laurentia ovatifolia* B. L. Robinson, *Laurentia pedunculata* Brandegee, *Lobelia draba* Willdenow ex Roemer & Schultes, *Lobelia micrantha* H.B.K., *Lobelia minutiflora* Kunze, *Lobelia parviflora* C. Martius & Galeotti, *Lobelia ruderalis* Willdenow ex Roemer & Schultes, *Lobelia subtilis* H.B.K., *Rapuntium affine* C. Presl, *Rapuntium micranthum* (H.B.K.) C. Presl, *Rapuntium subtile* (H.B.K.) C. Presl
Ref. McVaugh, 1940: 787; Jeppesen, 1981b: 123.
Herb. Andean I-II. 1000-3500 m.
Voucher: Sagástegui 10597 (MO!)
Depts.: AM, AP, CA, CU, HU, PA

Diastatea micrantha var. *longibracteata* (E. Wimmer) E. Wimmer =Diastatea micrantha (H.B.K.) McVaugh
Ref. Wimmer, 1953: 382; Jeppesen, 1981b: 123.

Diastatea micrantha var. *ovatifolia* (B. L. Robinson) E. Wimmer =Diastatea micrantha (H.B.K.) McVaugh
Ref. Wimmer, 1953: 382; Jeppesen, 1981b: 123.

Dominella crassomarginata E. Wimmer =Lysipomia crassomarginata (E. Wimmer) Jeppesen
Ref. Jeppesen, 1981b: 140.

Dortmannia aquatica (Chamisso) Kuntze =Lobelia aquatica Chamisso
Ref. Jeppesen, 1981b: 128.

Dortmannia cliffortiana var. *xalapensis* (H.B.K.) Kuntze =Lobelia xalapensis H.B.K.
Ref. Wimmer, 1953: 531; Jeppesen, 1981b: 135.

[*Dortmannia collina* (H.B.K.) Kuntze =Lobelia collina H.B.K.]
Ref. Wimmer, 1953: 458; Jeppesen, 1981b: 129.
Note: Not known from Peru.

Dortmannia cymbalaria (Grisebach) Kuntze =Lobelia nana H.B.K.
Ref. Wimmer, 1953: 495.

Dortmannia decurrens (Cavanilles) Kuntze =Lobelia decurrens Cavanilles
Ref. Wimmer, 1953: 678; Jeppesen, 1981b: 129.

Dortmannia doniana Kuntze =Siphocampylus pavonis E. Wimmer
Ref. Wimmer, 1953: 364.

Dortmannia micrantha (H.B.K.) Kuntze =Diastatea micrantha (H.B.K.) McVaugh
Ref. Jeppesen, 1981b: 123.

Dortmannia minutiflora (Kunze) Kuntze =Diastatea micrantha (H.B.K.) McVaugh
Ref. Jeppesen, 1981b: 123.

Dortmannia mollis (Graham) Kuntze =Lobelia xalapensis H.B.K.
Ref. Wimmer, 1953: 531; Jeppesen, 1981b: 135.

Dortmannia monticola (H.B.K.) Kuntze =Lobelia xalapensis H.B.K.
Ref. Wimmer, 1953: 531; Jeppesen, 1981b: 135.

Dortmannia nana (H.B.K.) Kuntze =Lobelia nana H.B.K.
Ref. Jeppesen, 1981b: 132.

Dortmannia obovata (G. Don) Kuntze =Siphocampylus obovatus (G. Don) E. Wimmer
Ref. Wimmer, 1953: 367.

Dortmannia ocimoides (Kunze) Kuntze =Lobelia xalapensis H.B.K.
Ref. Wimmer, 1953: 531; Jeppesen, 1981b: 135.

Dortmannia ovata (G. Don) Kuntze =Siphocampylus ovatus (G. Don) E. Wimmer
Ref. Wimmer, 1953: 363.

Dortmannia parviflora (C. Martius & Galeotti) Kuntze =Diastatea micrantha (H.B.K.) McVaugh
Ref. Jeppesen, 1981b: 123.

Dortmannia rupestris (H.B.K.) Kuntze =Lobelia tenera H.B.K.
Ref. Jeppesen, 1981b: 133.

[*Dortmannia subpubera* (Weddell) Kuntze =Lobelia subpubera Weddell]
Ref. Jeppesen, 1981b: 133.
Note: Not known from Peru.

Dortmannia tenera (H.B.K.) Kunth =Lobelia tenera H.B.K.
Ref. Jeppesen, 1981b: 133.

Dortmannia xalapensis (H.B.K.) Kuntze =Lobelia xalapensis H.B.K.
Ref. Jeppesen, 1981b: 135.

Gaertnera pongati Retzius =Sphenoclea zeylanica Gaertner
Ref. FP 13(6/2) 1937: 389.

Hippobroma longiflora (L.) G. Don
Syn. *Isotoma longiflora* (Linnaeus) C. Presl, *Laurentia longiflora* (Linnaeus) Petermann, *Lobelia longiflora* Linnaeus, *Rapuntium longiflorum* (Linnaeus) Miller
Ref. FP 13(6/2) 1937: 474; McVaugh, 1940: 782; Jeppesen, 1981b: 124.
Herb. Amazonian, Andean I: riversides,

seasonally inundated areas. 0-1000 m.
Voucher: Schunke 5630 (MO!)
Depts.: HU, LO, SM, TA

Hypsela atacamensis (Philippi) F. Philippi =Hypsela reniformis (H.B.K.) C. Presl
Ref. Jeppesen, 1981b: 126.

Hypsela glandulifera (Schlechtendal ex Weddell) Bentham & Hooker f. nom. illeg. =Lysipomia glandulifera (Schlechtendal ex Weddell) Schlechtendal ex E. Wimmer
Ref. FP 13(6/2) 1937: 485.

Hypsela oligophylla (Weddell) Bentham & Hooker f. ex A. Zahlbruckner =Hypsela reniformis (H.B.K.) C. Presl
Ref. FP 13(6/2) 1937: 391; Jeppesen, 1981b: 126.

Hypsela reniformis (H.B.K.) C. Presl
Syn. *Hypsela atacamensis* (Philippi) Philippi, *Hypsela oligophylla* (Weddell) Bentham & Hooker f. ex A. Zahlbruckner, *Hypsela subsessilis* (Weddell) A. Zahlbruckner, *Lysipomia reniforme* A. DC., *Lysipomia reniformis* H.B.K., *Pratia atacamensis* Philippi, *Pratia longiflora* Hooker f., *Pratia oligophylla* Weddell, *Pratia pencana* Philippi, *Pratia repens* Weddell, *Pratia subsessilis* Weddell
Ref. FP 13(6/2) 1937: 390; Jeppesen, 1981b: 126.
Herb. Andean III. 3500-4500 m.
Voucher: Barclay 9262 (MO!)
Depts.: AN, CA, HU, JU, PU

Hypsela subsessilis (Weddell) A. Zahlbruckner =Hypsela reniformis (H.B.K.) C. Presl
Ref. Jeppesen, 1981b: 126.

Isotoma longiflora (Linnaeus) C. Presl =Hippobroma longiflora (L.) G. Don
Ref. FP 13(6/2) 1937: 474; Jeppesen, 1981b: 124.

Laurentia longiflora (Linnaeus) Petermann =Hippobroma longiflora (L.) G. Don
Ref. FP 13(6/2) 1937: 474; Jeppesen, 1981b: 124.

Laurentia michoacana B. L. Robinson, nom. illeg. =Diastatea micrantha (H.B.K.) McVaugh
Ref. FP 13(6/2) 1937: 475.

Laurentia micrantha (H.B.K.) A. Zahlbruckner, nom. illeg. =Diastatea micrantha (H.B.K.) McVaugh
Ref. FP 13(6/2) 1937: 475; Jeppesen, 1981b: 123.

Laurentia micrantha var. *longibracteata* E. Wimmer =Diastatea micrantha (H.B.K.) McVaugh
Ref. FP 13(6/2) 1937: 476; Jeppesen, 1981b: 123.

Laurentia micrantha var. *ovatifolia* (B. L. Robinson) E. Wimmer =Diastatea micrantha (H.B.K.) McVaugh
Ref. FP 13(6/2) 1937: 476; Jeppesen, 1981b: 123.

Laurentia ovatifolia B. L. Robinson =Diastatea micrantha (H.B.K.) McVaugh
Ref. FP 13(6/2) 1937: 476; Jeppesen, 1981b: 123.

Laurentia pedunculata Brandegee =Diastatea micrantha (H.B.K.) McVaugh
Ref. FP 13(6/2) 1937: 476.

Legouzia biflora Britton =Triodanis biflora (R. & P.) Greene
Ref. FP 13(6/2) 1937: 385; McVaugh, 1945: 31; Jeppesen, 1981a: 4.

Lobelia adenophora Roemer & Schultes =Lysipomia aretioides H.B.K.
Ref. FP 13(6/2) 1937: 484.

Lobelia andropogon Cavanilles =Centropogon cornutus (L.) Druce
Ref. FP 13(6/2) 1937: 407; Jeppesen, 1981b: 72; Stein, 1987c: 134.

Lobelia androsacea Humboldt, nom. nud. =Lysipomia acaulis H.B.K.
Ref. FP 13(6/2) 1937: 483; Jeppesen, 1981b: 138.

Lobelia androsacea Willdenow ex Schultes =Lysipomia acaulis H.B.K.

Lobelia aphylla Nuttall =Apteria aphylla (Nuttall) Barnhardt (Burmanniaceae)
Ref. Maas *et al*, 1986: 133.

Lobelia aquatica Chamisso
Syn. *Dortmannia aquatica* (Chamisso) Kuntze, *Lobelia bracteolata* Vatke, nom. illeg., *Lobelia domingensis* A. DC., *Rapuntium aquaticum* (Chamisso) C. Presl
Ref. FP 13(6/2) 1937: 477; Wimmer, 1953: 569; Jeppesen, 1981b: 128.
Aquatic or terrestrial herb. Amazonian. 0-500 m.
Note: No Peruvian material cited by Jeppesen (1981b).
Depts.: SM

Lobelia attenuata C. Presl =Siphocampylus attenuatus (C. Presl) A. DC.
Ref. FP 13(6/2) 1937: 442.

Lobelia barbata Cavanilles =Centropogon ferrugineus (L. f.) Gleason
Ref. FP 13(6/2) 1937: 410; Jeppesen, 1981b: 79.

Lobelia biserrata Cavanilles =Siphocampylus biserratus (Cavanilles) A. DC.
Ref. FP 13(6/2) 1937: 444.

Lobelia bracteolata Vatke, nom. illeg. =Lobelia aquatica Chamisso
Ref. FP 13(6/2) 1937: 477; Jeppesen, 1981b: 128.

Lobelia cliffortiana var. *xalapensis* (H.B.K.) A. Gray =Lobelia xalapensis H.B.K.
Ref. FP 13(6/2) 1937: 481; Jeppesen, 1981b: 135.

[Lobelia collina H.B.K.]
Syn. *Dortmannia collina* (H.B.K.) Kuntze, *Lobelia linifolia* Willdenow ex Roemer & Schultes, *Lobelia phyteumoides* Willdenow ex Roemer & Schultes, *Rapuntium collinum* (H.B.K.) C. Presl
Ref. FP 13(6/2) 1937: 477; Jeppesen, 1981b: 129.
Note: Not known from Peru. According to Jeppesen (1981b), the type, *Humboldt s.n.*, was collected in present-day Ecuador.

Lobelia comosa Cavanilles, nom. illeg. =Siphocampylus comosus (Cavanilles) G. Don
Ref. FP 13(6/2) 1937: 448.

Lobelia cornuta L. =Centropogon cornutus (L.) Druce
Ref. FP 13(6/2) 1937: 407; Jeppesen, 1981b: 72; Stein, 1987c: 133.

Lobelia cymbalaria Grisebach =Lobelia nana H.B.K.
Ref. FP 13(6/2) 1937: 479; Wimmer, 1953: 495.

Lobelia cymbalarioides A. Zahlbruckner, nom. illeg. =Lobelia nana H.B.K.
Ref. FP 13(6/2) 1937: 479; Wimmer, 1953: 495.

Lobelia decurrens Cavanilles
Syn. *Dortmannia decurrens* (Cavanilles) Kuntze, *Lobelia decurrens* var. *jaensis* E. Wimmer, *Lobelia foliosa* H.B.K., *Rapuntium decurrens* C. Presl, *Rapuntium foliosum* C. Presl, *Tupa decurrens* (Cavanilles) G. Don
Ref. FP 13(6/2) 1937: 478; Jeppesen, 1981b: 129.
Herb. Andean I-II. 1000-2500 m.
Voucher: Weberbauer 3188
Depts.: AN, AP, LI

Lobelia decurrens var. *jaensis* E. Wimmer =Lobelia decurrens Cavanilles
Ref. FP 13(6/2) 1937: 478; Jeppesen, 1981b: 129.

Lobelia dependens R. & P. ex G. Don, nom. illeg. =Siphocampylus dependens (R. & P.) G. Don
Ref. FP 13(6/2) 1937: 450.

Lobelia dombeyana C. Presl =Centropogon dombeyanus (C. Presl) E. Wimmer
Ref. FP 13(6/2) 1937: 408.

Lobelia domingensis A. DC. =Lobelia aquatica Chamisso
Ref. FP 13(6/2) 1937: 477; Jeppesen, 1981b: 128.

Lobelia draba Willdenow ex Roemer & Schultes =Diastatea micrantha (H.B.K.) McVaugh
Ref. FP 13(6/2) 1937: 475; Jeppesen, 1981b: 123.

Lobelia ferruginea L. f. =Centropogon ferrugineus (L. f.) Gleason
Ref. FP 13(6/2) 1937: 410; Jeppesen, 1981b: 79.

Lobelia foliosa H.B.K. =Lobelia decurrens Cavanilles
Ref. FP 13(6/2) 1937: 478; Wimmer, 1953: 678; Jeppesen, 1981b: 129.

Lobelia fusca (G. Don) C. Presl =Centropogon fuscus (G. Don) E. Wimmer
Ref. FP 13(6/2) 1937: 411; Wimmer, 1943: 243.

Lobelia gigantea Cavanilles =Siphocampylus giganteus (Cavanilles) G. Don

Lobelia glandulosa Willdenow ex Roemer & Schultes, nom. illeg. =Lysipomia aretioides H.B.K.
Ref. FP 13(6/2) 1937: 484; Jeppesen, 1981b: 138.

Lobelia hirta Cavanilles, nom. illeg. =Centropogon hirtus (Cavanilles) C. Presl
Ref. FP 13(6/2) 1937: 415; Jeppesen, 1981b: 88; Stein, 1987c: 182.

Lobelia holotricha E. Wimmer
Ref. FP 13(6/2) 1937: 478; Wimmer, 1953: 556.
Herb. Andean II: grasslands. 3000-3500 m.
Voucher: Macbride 1906*
Depts.: HU

Lobelia humboldtiana C. Presl, nom. illeg. =Siphocampylus humboldtianus A. DC.
Ref. FP 13(6/2) 1937: 455.

Lobelia humboldtiana Willdenow ex Schultes =Triodanis biflora (R. & P.) Greene
Ref. Wimmer, 1953: 695.

Ref. FP 13(6/2) 1937: 465.

Lobelia ruderalis Willdenow ex Roemer & Schultes =Diastatea micrantha (H.B.K.) McVaugh
Ref. FP 13(6/2) 1937: 475; Jeppesen, 1981b: 123.

Lobelia rugosa C. Presl =Siphocampylus dependens (R. & P.) G. Don
Ref. FP 13(6/2) 1937: 450.

Lobelia rupestris H.B.K. =Lobelia tenera H.B.K.
Ref. Jeppesen, 1981b: 133.

[*Lobelia scandens* H.B.K. =Siphocampylus scandens (H.B.K.) G. Don]

Ref. FP 13(6/2) 1937: 467.
Note: Not known from Peru.

Lobelia secunda R. & P., nom. illeg.
=Siphocampylus pavonis E. Wimmer
Ref. FP 13(6/2) 1937: 463.

Lobelia spectabilis H.B.K. =Centropogon cornutus (L.) Druce
Ref. FP 13(6/2) 1937: 407; Jeppesen, 1981b: 72; Stein, 1987c: 134.

Lobelia subpubera var. *weberbaueri* (A. Zahlbruckner) E. Wimmer
=Lobelia weberbaueri A. Zahlbruckner
Ref. FP 13(6/2) 1937: 480; Wimmer, 1953: 457.
Note: Treated as a synonym of *L. tenera* by Jeppesen (1981b: 133).

[Lobelia subpubera Weddell]
Syn. *Dortmannia subpubera* (Weddell) Kuntze
Ref. FP 13(6/2) 1937: 480; Jeppesen, 1981b: 133.
Note: Not known from Peru.

Lobelia subtilis H.B.K. =Diastatea micrantha (H.B.K.) McVaugh
Ref. FP 13(6/2) 1937: 475; Jeppesen, 1981b: 123.

[*Lobelia subulata* Bentham =Lysipomia laricina E. Wimmer]
Ref. FP 13(6/2) 1937: 486.
Note: Not known from Peru.

Lobelia surinamensis L. =Centropogon cornutus (L.) Druce
Ref. FP 13(6/2) 1937: 407; Jeppesen, 1981b: 72; Stein, 1987c: 133.

Lobelia tenera fo. *fendleri* E. Wimmer =Lobelia tenera H.B.K.
Ref. Wimmer, 1968: 868.

Lobelia tenera H.B.K.
Syn. *Dortmannia rupestris* (H.B.K.) Kuntze, *Dortmannia tenera* (H.B.K.) Kunth, *Lobelia polygalaefolia* Willdenow ex Schultes, *Lobelia rupestris* H.B.K., *Lobelia tenera* fo. *fendleri* E. Wimmer, *Lobelia tenera* var. *belladonna* E. Wimmer, *Lobelia veronicaefolia* Willdenow ex Schultes, *Rapuntium rupestre* (H.B.K.) C. Presl, *Rapuntium tenerum* (H.B.K.) Kuntze
Ref. FP 13(6/2) 1937: 480; Jeppesen, 1981b: 133.
Herb. Andean II: grasslands, shrublands. 2500-3000 m.
Voucher: Weberbauer 2452 (MOL!)
Depts.: JU

Lobelia tenera var. *belladonna* E. Wimmer =Lobelia tenera H.B.K.
Ref. FP 13(6/2) 1937: 481; Wimmer, 1953: 548.

Lobelia verbascifolia C. Presl =Centropogon verbascifolius (C. Presl) Gleason
Ref. FP 13(6/2) 1937: 427.

Lobelia veronicaefolia Willdenow ex Schultes =Lobelia tenera H.B.K.
Ref. Jeppesen, 1981b: 133.

Lobelia weberbaueri A. Zahlbruckner
Syn. *Lobelia subpubera* var. *weberbaueri* (A. Zahlbruckner) E. Wimmer
Ref. FP 13(6/2) 1937: 480; Wimmer, 1953: 457.
Herb. Andean III: grasslands. 4000-4500 m.
Note: Treated by Jeppesen (1981b: 133) as a synonym of *L. tenera*.
Voucher: Weberbauer 3955 (MOL!)
Depts.: CA

Lobelia willdenowiana Roemer & Schultes =Lysipomia aretioides H.B.K.
Ref. FP 13(6/2) 1937: 484; Jeppesen, 1981b: 138.

Lobelia xalapensis H.B.K.
Syn. *Dortmannia cliffortiana* var. *xalapensis* (H.B.K.) Kuntze, *Dortmannia mollis* (Graham) Kuntze, *Dortmannia monticola* (H.B.K.) Kuntze, *Dortmannia ocimoides* (Kunze) Kuntze, *Dortmannia xalapensis* (H.B.K.) Kuntze, *Lobelia cliffortiana* var. *xalapensis* (H.B.K.) A. Gray, *Lobelia mollis* Graham, *Lobelia monticola* H.B.K., *Lobelia ocimoides* Kunze, *Lobelia palmaris* Willdenow ex Roemer & Schultes, *Rapuntium molle* (Graham) C. Presl, *Rapuntium monticolum* (H.B.K.) C. Presl, *Rapuntium xalapense* (H.B.K.) C. Presl
Ref. FP 13(6/2) 1937: 481; Jeppesen, 1981b: 135.
Herb. Andean II. 2500-3000 m.
Voucher: Macbride 1166 (F)
Depts.: HU, JU, LI, LO, SM

[*Lysipoma montioides* A. DC. =Lysipomia montioides H.B.K.]
Note: Not known from Peru.

Lysipomia acaulis A. DC. =Lysipomia acaulis H.B.K.
Ref. FP 13(6/2) 1937: 483.

Lysipomia acaulis H.B.K.
Syn. *Lobelia androsacea* Humboldt, nom. nud., *Lobelia androsacea* Willdenow ex Schultes, *Lysipomia acaulis* A. DC.
Ref. FP 13(6/2) 1937: 483; Jeppesen, 1981b: 138.
Herb. Andean III. 4000-4500 m.
Note: Not reconfirmed.

Lysipomia acuta E. Wimmer =Lysipomia sphagnophila subsp. acuta (E. Wimmer) McVaugh
Ref. FP 13(6/2) 1937: 483; Wimmer, 1953: 747.

Lysipomia aretioides H.B.K.
Syn. *Lobelia adenophora* Roemer & Schultes, *Lobelia glandulosa* Willdenow ex Roemer & Schultes, nom. illeg., *Lobelia willdenowiana* Roemer & Schultes
Ref. FP 13(6/2) 1937: 484; Jeppesen, 1981b: 138.
Note: Not reconfirmed.

Lysipomia brachysiphonia (A. Zahlbruckner) E. Wimmer
Syn. *Rhizocephalum brachysiphonium* A. Zahlbruckner
Ref. FP 13(6/2) 1937: 484; Wimmer, 1953: 752.
Herb. Andean II. 3000-3500 m.
Voucher: Weberbauer 3716*
Depts.: HU

Lysipomia brachysiphonia var. **brevifolia** (A. Zahlbruckner) E. Wimmer
Syn. *Lysipomia subulata* G. Don, *Rhizocephalum brachysiphonium* var. *brevifolium* A. Zahlbruckner
Ref. FP 13(6/2) 1937: 484; Wimmer, 1953: 751.
Herb. Andean II. 3000-3500 m.
Note: Not reconfirmed. Treated by Wimmer (1953) as a synonym of *L. subulata*.

Lysipomia crassomarginata (E. Wimmer) Jeppesen
Syn. *Dominella crassomarginata* E. Wimmer
Ref. Jeppesen, 1981b: 140.
Note: Probably not known from Peru. Known only from the holotype, labelled "Equateur et Perou."

Lysipomia glandulifera (Schlechtendal ex Weddell) Schlechtendal ex E. Wimmer
Syn. *Hypsela glandulifera* (Schlechtendal ex Weddell) Bentham & Hooker f., nom. illeg., *Pratia glandulifera* Schlechtendal ex Weddell
Ref. FP 13(6/2) 1937: 484; Wimmer, 1953: 749.
Herb. Andean II. 3500-4000 m.
Voucher: Lechler 2076*
Depts.: PU

Lysipomia glandulifera subsp. **globulifera** McVaugh
Ref. Wimmer, 1968: 897.
Voucher: Lechler 2076
Depts.: PU

Lysipomia globularis E. Wimmer
Ref. FP 13(6/2) 1937: 485; Wimmer, 1953: 747.
Herb.
Voucher: Raimondi 4694* (B)
Depts.: CA

Lysipomia gracilis (E. Wimmer) E. Wimmer
Syn. *Rhizocephalum gracilis* E. Wimmer
Ref. FP 13(6/2) 1937: 485; Wimmer, 1953: 753.
Herb. Andean II. 3000-3500 m.
Voucher: Stuebel 26A*
Depts.: LL

Lysipomia hirta E. Wimmer
Ref. FP 13(6/2) 1937: 486; Wimmer, 1953: 750.
Voucher: Raimondi 3161A*
Depts.: CA

Lysipomia laciniata A. DC. subsp. **laciniata**
Syn. *Lysipomia laciniata* var. *vulgaris* (Weddell) E. Wimmer, *Rhizocephalum candollii* var. *laciniatum* Weddell, *Rhizocephalum candollii* var. *vulgare* Weddell
Ref. FP 13(6/2) 1937: 486; Wimmer, 1968: 8.

Lysipomia laciniata subsp. **linearifolia** McVaugh
Ref. Wimmer, 1968: 900.

Lysipomia laciniata var. *vulgaris* (Weddell) E. Wimmer =Lysipomia laciniata subsp. laciniata
Ref. FP 13(6/2) 1937: 486; Wimmer, 1953: 753; Wimmer, 1968: 899.

[Lysipomia laricina E. Wimmer]
Syn. *Lobelia subulata* Bentham, *Rhizocephalum subulatum* Bentham & Hooker f., nom. illeg.
Ref. FP 13(6/2) 1937: 486.
Note: Not known from Peru.

[Lysipomia lehmannii Hieronymus ex A. Zahlbruckner]
Ref. FP 13(6/2) 1937: 487.
Note: Not known from Peru.

Lysipomia linearifolia E. Wimmer
Syn. *Rhizocephalum candollii* var. *ciliatum* Weddell
Ref. FP 13(6/2) 1937: 487; Wimmer, 1953: 752.
Herb. Andean III. 4000-4500 m.
Note: Not reconfirmed.

[*Lysipomia montioides* A. DC. =Lysipomia montioides H.B.K.]
Note: Not known from Peru.

[Lysipomia montioides H.B.K.]
Syn. *Lobelia limoselloides* Willdenow ex Roemer & Schultes, *Lysipoma montioides* A. DC., *Lysipomia obliqua* Wimmer
Ref. FP 13(6/2) 1937: 488; Jeppesen, 1981b: 143.
Note: Not known from Peru. Jeppesen suggests that this taxon does occur in Peru but cites no Peruvian material. Misspelled *Lysipoma* in the Flora of Peru.

Lysipomia multiflora McVaugh
Ref. Wimmer, 1968: 896.
Voucher: Stork & Horton 10845, Soukup 2731
Depts.: HU, JU

[*Lysipomia obliqua* Wimmer =Lysipomia montioides H.B.K.]
Ref. Jeppesen, 1981b: 142.
Note: Not known from Peru.

Lysipomia pumila (Weddell) E. Wimmer
Syn. *Rhizocephalum pumilum* Weddell
Ref. FP 13(6/2) 1937: 488; Wimmer, 1953: 749.
Herb. Andean III. > 4500 m.
Note: Not reconfirmed.

Lysipomia reniforme A. DC. =Hypsela reniformis (H.B.K.) C. Presl
Ref. FP 13(6/2) 1937: 391.

Lysipomia reniformis H.B.K. =Hypsela reniformis (H.B.K.) C. Presl
Ref. FP 13(6/2) 1937: 390; Jeppesen, 1981b: 126.

Lysipomia sphagnophila Grisebach
Ref. FP 13(6/2) 1937: 488; Wimmer, 1953: 750.
Endemic herb. Andean III. 3500-4000 m.
Voucher: Lechler 2641*
Depts.: PU

Lysipomia sphagnophila subsp. **acuta** (E. Wimmer) McVaugh
Syn. *Lysipomia acuta* E. Wimmer
Andean III: grasslands. 4000-4500 m.
Voucher: Weberbauer 6476 (MOL!)
Depts.: HV

Lysipomia subulata G. Don =Lysipomia brachysiphonia var. brevifolia (A. Zahlbruckner) E. Wimmer
Ref. FP 13(6/2) 1937: 484; Wimmer, 1953: 351.

Pentagonia biflora (R. & P.) Kuntze =Triodanis biflora (R. & P.) Greene
Ref. Jeppesen, 1981a: 4.

Pongatium indicum Lamarck =Sphenoclea zeylanica Gaertner
Ref. FP 13(6/2) 1937: 389.

Pongatium spongiosum Blanco =Sphenoclea zeylanica Gaertner
Ref. FP 13(6/2) 1937: 389.

Pongatium zeylanicum (Gaertner) Kuntze =Sphenoclea zeylanica Gaertner

Pratia atacamensis Philippi =Hypsela reniformis (H.B.K.) C. Presl
Ref. FP 13(6/2) 1937: 391; Jeppesen, 1981b: 126.

Pratia boliviensis A. DC. =Lobelia nana H.B.K.
Ref. FP 13(6/2) 1937: 479; Wimmer, 1953: 496.

Pratia glandulifera Schlechtendal ex Weddell =Lysipomia glandulifera (Schlechtendal ex Weddell) Schlechtendal ex E. Wimmer
Ref. FP 13(6/2) 1937: 484.

Pratia longiflora Hooker f. =Hypsela reniformis (H.B.K.) C. Presl
Ref. FP 13(6/2) 1937: 391; Jeppesen, 1981b: 126.

Pratia oligophylla Weddell =Hypsela reniformis (H.B.K.) C. Presl
Ref. FP 13(6/2) 1937: 391; Wimmer, 1943: 120; Jeppesen, 1981b: 126.

Pratia pencana Philippi =Hypsela reniformis (H.B.K.) C. Presl
Ref. FP 13(6/2) 1937: 391; Jeppesen, 1981b: 126.

Pratia repens Weddell =Hypsela reniformis (H.B.K.) C. Presl
Ref. FP 13(6/2) 1937: 391.

Pratia subsessilis Weddell =Hypsela reniformis (H.B.K.) C. Presl
Ref. FP 13(6/2) 1937: 391; Jeppesen, 1981b: 126.

Rapinia herbacea Loureiro =Sphenoclea zeylanica Gaertner
Ref. FP 13(6/2) 1937: 389.

Rapuntium affine C. Presl =Diastatea micrantha (H.B.K.) McVaugh
Ref. FP 13(6/2) 1937: 481.

Rapuntium aquaticum (Chamisso) C. Presl =Lobelia aquatica Chamisso
Ref. Jeppesen, 1981b: 128.

[*Rapuntium collinum* (H.B.K.) C. Presl =Lobelia collina H.B.K.]
Ref. Wimmer, 1953: 458; Jeppesen, 1981b: 129.
Note: Not known from Peru.

Rapuntium decurrens C. Presl =Lobelia decurrens Cavanilles
Ref. FP 13(6/2) 1937: 478; Wimmer, 1953: 678.

Rapuntium foliosum C. Presl =Lobelia decurrens Cavanilles
Ref. FP 13(6/2) 1937: 478; Wimmer, 1953: 678.

Rapuntium longiflorum (Linnaeus) Miller =Hippobroma longiflora (Linnaeus) G. Don
Ref. FP 13(6/2) 1937: 474; Jeppesen, 1981b: 124.

Rapuntium micranthum (H.B.K.) C. Presl =Diastatea micrantha (H.B.K.) McVaugh
Ref. FP 13(6/2) 1937: 475; Wimmer, 1953: 750.

Rapuntium molle (Graham) C. Presl =Lobelia xalapensis H.B.K.
Ref. Wimmer, 1953: 531 Jeppesen, 1981b: 135

Rapuntium monticolum (H.B.K.) C. Presl =Lobelia xalapensis H.B.K.
Ref. Wimmer, 1953: 531; Jeppesen, 1981b: 135.

Rapuntium nanum (H.B.K.) C. Presl =Lobelia nana H.B.K.
Ref. Jeppesen, 1981b: 132.

Rapuntium obovatum C. Presl =Siphocampylus obovatus (G. Don) E. Wimmer
Ref. FP 13(6/2) 1937: 460; Wimmer, 1953: 367.

Rapuntium ovatum (G. Don) C. Presl =Siphocampylus ovatus (G. Don) E. Wimmer
Ref. FP 13(6/2) 1937: 461.

Ref. FP 13(6/2) 1937: 488; Wimmer, 1953: 749.

[*Rhizocephalum subulatum* Bentham & Hooker f., nom. illeg. =Lysipomia laricina E. Wimmer]
Ref. FP 13(6/2) 1937: 486.
Note: Not known from Peru.

Siphocampylus actinothrix E. Wimmer
Syn. *Siphocampylus actinothrix* fo. *minor* E. Wimmer
Ref. FP 13(6/2) 1937: 439; Wimmer, 1953: 367.
Endemic shrub or subshrub. Andean II-III: rocky slopes. 2500- > 4500 m.
Voucher: Cook & Gilbert 1821*, Tupayachi 603 (MO!)
Depts.: CU

Siphocampylus actinothrix fo. *minor* E. Wimmer =Siphocampylus actinothrix E. Wimmer
Ref. Wimmer, 1953: 367.

Siphocampylus aggregatus Rusby =Centropogon granulosus C. Presl
Ref. FP 13(6/2) 1937: 401; Jeppesen, 1981b: 84; Stein, 1987c: 273.

Siphocampylus albus E. Wimmer
Ref. FP 13(6/2) 1937: 439; Wimmer, 1953: 377.
Shrub. Andean II. 2500-3000 m.
Voucher: Weberbauer 6383*
Depts.: PI

[*Siphocampylus altiscandens* Gleason =Siphocampylus flagelliformis A. Zahlbruckner]
Ref. FP 13(6/2) 1937: 452.
Note: Not known from Peru.

[Siphocampylus andinus Britton]
Ref. FP 13(6/2) 1937: 440.
Note: Not known from Peru.

[Siphocampylus andinus var. elegantissimus E. Wimmer]
Ref. FP 13(6/2) 1937: 440.
Note: Not known from Peru.

[Siphocampylus andinus var. solemnis E. Wimmer]
Ref. FP 13(6/2) 1937: 440.
Note: Not known from Peru.

Siphocampylus andropogon G. Don =Centropogon cornutus (L.) Druce
Ref. FP 13(6/2) 1937: 407; Jeppesen, 1981b: 72; Stein, 1987c: 135.

Siphocampylus angustiflorus Schlechtendal
Ref. FP 13(6/2) 1937: 441; Wimmer, 1953: 289.
Vine. Andean II: forests, disturbed areas. 1500-3500 m.
Voucher: Lechler 2649*, Smith & Pretel 1656 (MO!)
Depts.: HU

Siphocampylus apricus E. Wimmer
Ref. FP 13(6/2) 1937: 441; Wimmer, 1943: 320.
Herb. Andean III: rocky slopes. 3500-4000 m.
Voucher: Seler 135 p.p.*, Metcalf 3692 (MO!)
Depts.: PU

Siphocampylus arachnes E. Wimmer
Ref. FP 13(6/2) 1937: 441; Wimmer, 1953: 320.
Endemic shrub. Andean II: cloud forests, shrublands. 2500-3500 m.
Voucher: Raimondi 2667*, Stein & Todzia 2422 (MO!)
Depts.: JU

[Siphocampylus argutus A. Zahlbruckner]
Ref. FP 13(6/2) 1937: 442.
Note: Not known from Peru.

Siphocampylus attenuatus (C. Presl) A. DC.
Syn. *Lobelia attenuata* C. Presl
Ref. FP 13(6/2) 1937: 442; Wimmer, 1953: 338.
Voucher: Haenke s.n.* (W photo F!)
Depts.: Without full locality data.

Siphocampylus aurocinctus E. Wimmer
Ref. FP 13(6/2) 1937: 442; Wimmer, 1953: 349.
Shrub. Andean I-II. 500-2000 m.
Voucher: Weberbauer 5598* (B)
Depts.: AY

Siphocampylus barbatus (Cavanilles) G. Don =Centropogon ferrugineus (L. f.) Gleason
Ref. FP 13(6/2) 1937: 410; Jeppesen, 1981b: 79.

Siphocampylus bichromatus E. Wimmer
Ref. FP 13(6/2) 1937: 443; Wimmer, 1953: 356.
Shrub. Andean II. 3000-3500 m.
Voucher: Weberbauer 6504*
Depts.: HV

[Siphocampylus bilabiatus A. Zahlbruckner]
Ref. FP 13(6/2) 1937: 443.
Note: Not known from Peru.

Siphocampylus biserratus (Cavanilles) A. DC.
Syn. *Lobelia biserrata* Cavanilles, *Siphocampylus biserratus* var. *latifolius* A. DC., *Siphocampylus biserratus* var. *petiolaris* E. Wimmer, *Siphocampylus biserratus* var. *spicatus* Hooker, *Siphocampylus cavanillesianus* G. Don
Ref. FP 13(6/2) 1937: 444; Wimmer, 1953: 299.
Endemic herb. Andean I-II: disturbed areas, rocky slopes. 3000-3500 m.
Voucher: Nee s.n.* (MA), Dillon *et al.* 3184 (MO!)
Depts.: AN, HV, JU, LI

Siphocampylus biserratus var. *latifolius* A. DC. =Siphocampylus biserratus (Cavanilles) A. DC.
Ref. FP 13(6/2) 1937: 444; Wimmer, 1953: 299.

Siphocampylus biserratus var. *petiolaris* E. Wimmer =Siphocampylus biserratus (Cavanilles) A. DC.
Ref. FP 13(6/2) 1937: 444; Wimmer, 1953: 299.

Siphocampylus biserratus var. *spicatus* (Hooker) E. Wimmer =Siphocampylus

biserratus (Cavanilles) A. DC.
Ref. Wimmer, 1953: 299.

Siphocampylus boliviensis A. Zahlbruckner
Ref. FP 13(6/2) 1937: 444.
Shrub. Andean II. 2500-3000 m.
Voucher: Maas *et al.* 6119 (MO!)
Depts.: PU

Siphocampylus brevidens E. Wimmer =Siphocampylus parvilobus E. Wimmer
Ref. FP 13(6/2) 1937: 463.

Siphocampylus buesii E. Wimmer
Ref. FP 13(6/2) 1937: 445; Wimmer, 1953: 289.
Shrub or vine.
Voucher: Bues s.n.*
Depts.: CU

Siphocampylus calodontus E. Wimmer
Ref. FP 13(6/2) 1937: 445; Wimmer, 1953: 288.
Shrub. Andean II. 2000-2500 m.
Voucher: Pearce s.n.*
Depts.: CA

Siphocampylus candollei E. Wimmer
Syn. *Lobelia laciniata* (G. Don) C. Presl, *Siphocampylus candollei* var. *breviflorus* E. Wimmer, *Siphocampylus candollei* var. *illustris* E. Wimmer, *Siphocampylus laciniatus* A. DC.
Ref. FP 13(6/2) 1937: 445; Wimmer, 1953: 296.
Endemic herb or shrub. Andean II: disturbed areas, grasslands, rocky slopes. 2000-3500 m.
Voucher: Weberbauer 122*, Stein & Todzia 2437 (MO!)
Depts.: AN, LI

Siphocampylus candollei var. *breviflorus* E. Wimmer =Siphocampylus candollei E. Wimmer
Ref. FP 13(6/2) 1937: 446; Wimmer, 1953: 296.

Siphocampylus candollei var. *illustris* E. Wimmer =Siphocampylus candollei E. Wimmer
Ref. FP 13(6/2) 1937: 446; Wimmer, 1953: 296.

Siphocampylus cardiophyllus Pohl =Siphocampylus corymbiferus Pohl
Ref. FP 13(6/2) 1937: 456.

Siphocampylus cavanillesianus G. Don =Siphocampylus biserratus (Cavanilles) A. DC.
Ref. FP 13(6/2) 1937: 444; Wimmer, 1953: 299.

Siphocampylus chimapilophyllus Schlechtendal, nom. illeg. =Siphocampylus parvifolius E. Wimmer
Ref. FP 13(6/2) 1937: 463.

Siphocampylus chloroleucus E. Wimmer
Ref. FP 13(6/2) 1937: 446; Jeppesen, 1981b: 157.
Liana. Andean I: elfin forests. 1000-1500 m.
Voucher: Dudley 13297 (MO!)
Depts.: HU

Siphocampylus citrinus E. Wimmer
Ref. FP 13(6/2) 1937: 446; Wimmer, 1953: 319.
Shrub. Andean II. 1500-2000 m.
Voucher: Weberbauer 7829* (B), Vargas 3154 (MO!)
Depts.: CU

Siphocampylus clotho E. Wimmer
Syn. *Siphocampylus clotho* var. *calvescens* E. Wimmer
Ref. FP 13(6/2) 1937: 447; Wimmer, 1953: 306.
Liana or vine. Andean II-III. 2500- > 4500 m.
Voucher: Weberbauer 4972*, Wasshausen & Encarnación 791 (MO!)
Depts.: CU

Siphocampylus clotho var. *calvescens* E. Wimmer =Siphocampylus clotho E. Wimmer
Ref. FP 13(6/2) 1937: 447.

Siphocampylus coltinya E. Wimmer
Ref. FP 13(6/2) 1937: 447; Wimmer, 1953: 302.
Subshrub. Andean III. 3500-4000 m.
Voucher: Weberbauer 5462* (B)
Depts.: AY

Siphocampylus comosus (Cavanilles) G. Don
Syn. *Lobelia comosa* Cavanilles, nom. illeg., *Siphocampylus virgatus* A. DC.
Ref. FP 13(6/2) 1937: 448.
Endemic subshrub. Andean II. 2500-3000 m.
Voucher: Ferreyra 10984 (MO!)
Depts.: HU, JU

Siphocampylus comosus var. **atrichus** E. Wimmer
Ref. FP 13(6/2) 1937: 448; Wimmer, 1953: 355.
Subshrub. Andean II. 1500-2500 m.
Voucher: Macbride 3892* (F)
Depts.: Without full locality data.

Siphocampylus correoides A. Zahlbruckner
Ref. FP 13(6/2) 1937: 448.
Vine. Andean II. 3000-3500 m.
Voucher: Stein 2504 (MO!)
Depts.: CU

Siphocampylus corymbiferus Pohl
Syn. *Lobelia ignea* Vell. Conc., *Siphocampylus cardiophyllus* Pohl, *Siphocampylus corymbiferus* var. *gracilis* A. Zahlbruckner, *Siphocampylus gracilis* Britton, *Siphocampylus igneus* (Vellozo) E. Wimmer, *Siphocampylus igneus* var. *gracilis* (Britton) E. Wimmer
Ref. FP 13(6/2) 1937: 456.
Shrub or subshrub. Andean II: shrublands, rocky slopes. 1500-3000 m.
Voucher: Metcalf 30594 (US)
Depts.: CA, PU

Siphocampylus corymbiferus var. *gracilis* A. Zahlbruckner =Siphocampylus corymbiferus Pohl
Ref. FP 13(6/2) 1937: 456.

Siphocampylus corynellus Gleason
Syn. *Siphocampylus raimondii* E. Wimmer
Ref. FP 13(6/2) 1937: 449; Wimmer, 1953: 365.
Subshrub.
Voucher: Mathews 1185*, Raimondi 10264
Depts.: HV

Siphocampylus corynoides E. Wimmer
Syn. *Siphocampylus corynoides* fo. *fortunatus* E. Wimmer
Ref. FP 13(6/2) 1937: 449; Wimmer, 1953: 368.
Herb, shrub or subshrub. Andean II: cloud forests, rocky slopes. 2000-3500 m.
Voucher: Weberbauer 4966*, Núñez 8695 (MO!)
Depts.: AP, CU

Siphocampylus corynoides fo. *fortunatus* E. Wimmer =Siphocampylus corynoides E. Wimmer
Ref. FP 13(6/2) 1937: 449; Wimmer, 1953: 368.

Siphocampylus cutervensis A. Zahlbruckner
Syn. *Siphocampylus megalandrus* E. Wimmer
Ref. FP 13(6/2) 1937: 450; Wimmer, 1953: 379.
Endemic subshrub. Andean II: rocky slopes. 2500-3000 m.
Voucher: Jelski 75*, Sagástegui 8892 (MO!)
Depts.: CA, PI

Siphocampylus dependens (R. & P.) G. Don
Syn. *Lobelia dependens* R. & P. ex G. Don, nom. illeg., *Lobelia rugosa* C. Presl, *Siphocampylus rugosus* A. DC.
Ref. FP 13(6/2) 1937: 450; Wimmer, 1953: 345.
Herb, liana, shrub, subshrub or vine. Andean I-II: cloud forests, disturbed areas, grasslands, riversides, rocky slopes. 1000-3500 m.
Voucher: Ruiz & Pavón s.n.*, Duncan *et al.* 2696 (MO!)
Depts.: AM, HU, JU, PA, SM

Siphocampylus dependens var. *undulatus* E. Wimmer =Siphocampylus onagrius E. Wimmer
Ref. FP 13(6/2) 1937: 450; Wimmer, 1953: 342.

[Siphocampylus divaricatus Bentham]
Ref. FP 13(6/2) 1937: 451.
Note: Not known from Peru.

Siphocampylus dombeyanus A. DC.
=Centropogon dombeyanus (C. Presl) E. Wimmer
Ref. FP 13(6/2) 1937: 408.

Siphocampylus donianus (Kuntze) E. Wimmer =Siphocampylus pavonis E. Wimmer
Ref. Wimmer, 1953: 299.

Siphocampylus dossennus E. Wimmer
Ref. FP 13(6/2) 1937: 451; Wimmer, 1953: 317.
Herb.
Voucher: Raimondi 9692*
Depts.: AP

Siphocampylus elegans var. *boliviensis* A. Zahlbruckner =Siphocampylus soraticus E. Wimmer
Ref. FP 13(6/2) 1937: 468.

Siphocampylus elfriedi E. Wimmer
Ref. FP 13(6/2) 1937: 451; Wimmer, 1953: 354.
Shrub. Andean II: forests, grasslands, shrublands, rocky slopes. 2500-3500 m.
Voucher: Pennell 13841*, Gentry *et al.* 23469 (MO!)
Depts.: CU

Siphocampylus erianthus Bentham =Centropogon erianthus (Bentham) Bentham & Hooker f. ex Drake
Ref. FP 13(6/2) 1937: 408; Jeppesen, 1981b: 77.

Siphocampylus ferrugineus (L. f.) G. Don =Centropogon ferrugineus (L. f.) Gleason
Ref. FP 13(6/2) 1937: 410; Jeppesen, 1981b: 79.

Siphocampylus fissus Gleason
Ref. FP 13(6/2) 1937: 452; Wimmer, 1953: 363.
Shrub or vine. Andean II. 2500-3000 m.
Voucher: Macbride 4863* (F)
Depts.: HU

[Siphocampylus flagelliformis A. Zahlbruckner]
Syn. *Siphocampylus altiscandens* Gleason
Ref. FP 13(6/2) 1937: 452.
Note: Not known from Peru.

Siphocampylus floribundus A. Zahlbruckner
Ref. FP 13(6/2) 1937: 452; Wimmer, 1953: 362.
Endemic shrub. Andean II. 2000-2500 m.
Note: Known only from Peru from the type locality.
Voucher: Weberbauer 3421* (MOL!)
Depts.: HU

Siphocampylus foliosus Grisebach var. **subcanus** E. Wimmer
Ref. FP 13(6/2) 1937: 453; Wimmer, 1953: 298.
Herb.
Voucher: Lechler 1940* (GOET)
Depts.: PU

Siphocampylus fuscus G. Don =Centropogon fuscus (G. Don) E. Wimmer
Ref. FP 13(6/2) 1937: 411; Wimmer, 1943: 243.

Siphocampylus giganteus (Cavanilles) G. Don
Syn. *Lobelia gigantea* Cavanilles
Shrub. Andean II: forests, grasslands, shrublands. 3000-3500 m.
Note: Cited voucher questionably determined (Stein, pers. comm.).
Voucher: Luteyn & Cotton 11342 (MO!)
Depts.: AM

[*Siphocampylus giganteus* var. *latifolius* Britton, nom. illeg. =Centropogon brittonianus A. Zahlbruckner]
Ref. FP 13(6/2) 1937: 404.
Note: Not known from Peru.

[*Siphocampylus gloriosus* Britton =Centropogon gloriosus (Britton) A. Zahlbruckner]
Ref. FP 13(6/2) 1937: 413.
Note: Not known from Peru.

Siphocampylus goebelii E. Wimmer
Ref. FP 13(6/2) 1937: 453; Wimmer, 1953: 350.
Voucher: Haenke s.n.*
Depts.: Without full locality data.

Siphocampylus gracilis Britton =Siphocampylus corymbiferus Pohl
Ref. FP 13(6/2) 1937: 456.

Siphocampylus grandiflorus E. Wimmer
Ref. FP 13(6/2) 1937: 454; Wimmer, 1953: 342.
Shrub or vine. Andean II. 2500-3000 m.
Voucher: Weberbauer 5618*
Depts.: AY

[*Siphocampylus hartwegi* Bentham =Centropogon hartwegii (Bentham) Bentham & Hooker f.]
Ref. FP 13(6/2) 1937: 414.
Note: Not known from Peru.

Siphocampylus heliades E. Wimmer
Ref. FP 13(6/2) 1937: 454; Wimmer, 1953: 342.
Voucher: Raimondi 8763*
Depts.: JU

Siphocampylus helmuti E. Wimmer
Syn. *Siphocampylus helmuti* var. *pilosifolius* E. Wimmer
Ref. FP 13(6/2) 1937: 454; Wimmer, 1953: 333.
Voucher: Raimondi 8777*
Depts.: JU

Siphocampylus helmuti var. *pilosifolius* E. Wimmer =Siphocampylus helmuti E. Wimmer
Ref. Wimmer, 1953: 775.

Siphocampylus hirtus (Cavanilles) G. Don =Centropogon hirtus (Cavanilles) C. Presl
Ref. FP 13(6/2) 1937: 415; Jeppesen, 1981b: 88; Stein, 1987c: 182.

Siphocampylus humboldtianus A. DC.
Syn. *Lobelia humboldtiana* C. Presl, nom. illeg., *Siphocampylus humboldtianus* var. *ovatus* E. Wimmer, *Siphocampylus pubescens* Bentham
Ref. FP 13(6/2) 1937: 455.
Note: Wimmer (1953: 344) treats this as a synonym of *S. pubescens*.
Voucher: Humboldt s.n.*
Depts.: Without full locality data.

Siphocampylus humboldtianus var. *ovatus* E. Wimmer =Siphocampylus humboldtianus A. DC.
Ref. FP 13(6/2) 1937: 455.

[*Siphocampylus hypoleucus* E. Wimmer]
Ref. Wimmer, 1968: 849.
Note: This name is of uncertain application.

Siphocampylus igneus (Vellozo) E. Wimmer =Siphocampylus corymbiferus Pohl
Ref. FP 13(6/2) 1937: 456; Wimmer, 1953: 281.

Siphocampylus igneus var. *gracilis* (Britton) E. Wimmer =Siphocampylus corymbiferus Pohl
Ref. FP 13(6/2) 1937: 456; Wimmer, 1953: 281.

Siphocampylus incanus Britton =Centropogon incanus (Britton) A. Zahlbruckner
Ref. FP 13(6/2) 1937: 415.

Siphocampylus jelskii A. Zahlbruckner
Syn. *Siphocampylus jelskii* fo. *eugenius* E. Wimmer, *Siphocampylus superbus* A. Zahlbruckner
Ref. FP 13(6/2) 1937: 455; Jeppesen, 1981b: 162.
Herb, shrub or subshrub. Andean II-III: grasslands, rocky slopes, shrublands. 3000-4000 m.
Voucher: Jelski 210*, Smith & Vásquez 5028 (MO!)
Depts.: AM, CA

Siphocampylus jelskii fo. *eugenius* E. Wimmer =Siphocampylus jelskii A. Zahlbruckner
Ref. FP 13(6/2) 1937: 456; Wimmer, 1953: 373.

Siphocampylus keissleri E. Wimmer
Syn. *Siphocampylus laetus* E. Wimmer
Ref. Jeppesen, 1981b: 162.
Shrub. Andean II. 1000-2000 m.
Note: No voucher cited by Jeppesen (1981b).

Siphocampylus krauseanus E. Wimmer
Ref. FP 13(6/2) 1937: 457; Wimmer, 1953: 298.
Herb or shrub. Andean II: cloud forests, disturbed areas, dry valleys, rocky slopes, shrublands. 1500-3000 m.

Voucher: Gentry *et al.* 23354 (MO!)
Depts.: AP, CU

Siphocampylus laciniatus A. DC.
=Siphocampylus candollei E. Wimmer
Ref. FP 13(6/2) 1937: 445.

Siphocampylus laetus E. Wimmer
=Siphocampylus keissleri E. Wimmer
Ref. Wimmer, 1953: 286; Jeppesen, 1981b: 162.

Siphocampylus lobbii A. Zahlbruckner
Syn. *Siphocampylus lobbii* var. *megodontus* E. Wimmer
Ref. FP 13(6/2) 1937: 457; Wimmer, 1953: 329.
Voucher: Lobb s.n.*
Depts.: HU

Siphocampylus lobbii var. *megodontus* E. Wimmer =Siphocampylus lobbii A. Zahlbruckner
Ref. FP 13(6/2) 1937: 457; Wimmer, 1953: 329.

[Siphocampylus loxensis (Willdenow ex Roemer & Schultes) Vatke ex E. Wimmer]
Syn. *Lobelia loxensis* Willdenow ex Roemer & Schultes
Ref. FP 13(6/2) 1937: 457; Jeppesen, 1981b: 163.
Note: Not known from Peru.

Siphocampylus macranthus Pohl
=Centropogon cornutus (L.) Druce
Ref. FP 13(6/2) 1937: 407; Jeppesen, 1981b: 72; Stein, 1987c: 134.

Siphocampylus macrophyllus G. Don
=Centropogon macrophyllus (G. Don) E. Wimmer
Ref. FP 13(6/2) 1937: 419; Jeppesen, 1981b: 93; Stein, 1987c: 134.

Siphocampylus macropodoides A. Zahlbruckner
Ref. FP 13(6/2) 1937: 458; Wimmer, 1953: 303.
Herb or subshrub. Andean II: disturbed areas, elfin forests, rocky slopes, shrublands. 2000-3500 m.
Note: As *"macropodioides"* in the Flora of Peru.
Voucher: Weberbauer 3201* (MOL!), Smith & Buddensiek 10856 (MO!)
Depts.: AM, AN, CA, LL

Siphocampylus macrostemon (C. Presl) A. DC.
Syn. *Centropogon macrostemon* A. Zahlbruckner, *Lobelia macrostemon* C. Presl
Ref. FP 13(6/2) 1937: 458; Wimmer, 1953: 319.
Herb.
Note: Not reconfirmed.

Siphocampylus mathewsii E. Wimmer
=Siphocampylus matthiaei A. DC.
Ref. FP 13(6/2) 1937: 458; Wimmer, 1953: 379.

Siphocampylus matthiaei A. DC.
Syn. *Siphocampylus mathewsii* E. Wimmer
Ref. FP 13(6/2) 1937: 458; Wimmer, 1953: 379.
Shrub. Andean II-III: forests. 3000-4000 m.
Voucher: Mathews 1672*, Smith 6127 (MO!)
Depts.: AM, LL

Siphocampylus megalandrus E. Wimmer
=Siphocampylus cutervensis A. Zahlbruckner
Ref. FP 13(6/2) 1937: 450; Wimmer, 1953: 379.

Siphocampylus megastoma E. Wimmer
Ref. FP 13(6/2) 1937: 459; Wimmer, 1953: 377.
Voucher: Raimondi 2601*
Depts.: Without full locality data.

[Siphocampylus membranaceus Britton]
Ref. FP 13(6/2) 1937: 459.
Note: Not known from Peru.

Siphocampylus nobilis E. Wimmer
Ref. FP 13(6/2) 1937: 459; Wimmer, 1953: 351.
Vine. Forests.
Note: "Leimebamba-Lajasbamba trail"
Voucher: Weberbauer 6291*, Boeke 2039 (MO!)
Depts.: AM

[Siphocampylus oblongifolius Rusby]
Syn. *Siphocampylus oblongifolius* var. *crenatus* E. Wimmer
Ref. FP 13(6/2) 1937: 460.
Note: Not known from Peru.

[*Siphocampylus oblongifolius* var. *crenatus* E. Wimmer =Siphocampylus oblongifolius Rusby]
Ref. FP 13(6/2) 1937: 460.
Note: Not known from Peru.

Siphocampylus obovatus (G. Don) E. Wimmer
Syn. *Dortmannia obovata* (G. Don) Kuntze, *Rapuntium obovatum* C. Presl, *Tupa obovata* G. Don
Ref. FP 13(6/2) 1937: 460; Wimmer, 1953: 367.
Shrub. Andean II: cloud forests. 2000-2500 m.
Voucher: Ruiz & Pavón s.n.*, Stein & Todzia 2413 (MO!)
Depts.: JU

Siphocampylus onagrius E. Wimmer
Syn. *Siphocampylus dependens* var. *undulatus* E. Wimmer, *Siphocampylus onagrius* fo. *longisepalus* E. Wimmer, *Siphocampylus onagrius* var. *undulatus* (E. Wimmer) E. Wimmer
Ref. FP 13(6/2) 1937: 461; Wimmer, 1953: 342.
Vine. Andean II. 2500-3000 m.
Voucher: Mathews 1187*, Berry 3061 (MO!)
Depts.: AY

Siphocampylus onagrius fo. *longisepalus* E. Wimmer =Siphocampylus onagrius E. Wimmer
Ref. Wimmer, 1953: 343.

Siphocampylus onagrius var. *undulatus* (E. Wimmer) E. Wimmer
=Siphocampylus onagrius E. Wimmer
Ref. Wimmer, 1953: 342.

[Siphocampylus orbignyanus A. DC.]
Syn. *Siphocampylus volubilis* sensu Britton non (H.B.K.) G. Don
Ref. FP 13(6/2) 1937: 461.
Note: Not known from Peru.

Siphocampylus oscitans B. A. Stein
Syn. *Burmeistera weberbaueri* A. Zahlbruckner
Ref. Stein, 1987a: 492.
Endemic shrub. Andean II-III: shrublands. 2500-4000 m.
Voucher: Weberbauer 2203* (W), Stein *et al.* 3831 (MO!)
Depts.: JU

Siphocampylus ovatus (G. Don) E. Wimmer
Syn. *Dortmannia ovata* (G. Don) Kuntze, *Lobelia pendulifolia* C. Presl, *Rapuntium ovatum* (G. Don) C. Presl, *Siphocampylus pendulifolius* A. DC., *Tupa ovata* G. Don
Ref. FP 13(6/2) 1937: 461; Wimmer, 1953: 364.
Shrub or vine. Andean II-III: elfin forests, forests, shrublands. 1500-4000 m.
Voucher: Foster *et al.* 9002 (MO!)
Depts.: AM, HU, PA

Siphocampylus palilloanus E. Wimmer
Ref. FP 13(6/2) 1937: 462; Wimmer, 1953: 368.
Subshrub. Andean II. 2500-3000 m.
Voucher: Cook & Gilbert 1908*
Depts.: CU

Siphocampylus pallidus E. Wimmer
Ref. FP 13(6/2) 1937: 462; Wimmer, 1953: 355.
Herb. Andean II. 1500-2000 m.
Voucher: Macbride 4797* (F), Smith *et al.* 1784 (MO!)
Depts.: PA

Siphocampylus parvifolius E. Wimmer
Syn. *Siphocampylus chimapilophyllus* Schlechtendal, nom. illeg.
Ref. FP 13(6/2) 1937: 463.
Herb.
Voucher: Lechler 1999*
Depts.: PU

Siphocampylus parvilobus E. Wimmer
Syn. *Siphocampylus brevidens* E. Wimmer
Ref. FP 13(6/2) 1937: 463; Wimmer, 1953: 353.
Vine. Andean II. 2500-3000 m.
Voucher: Pearce s.n.*
Depts.: HU

Siphocampylus pavonis E. Wimmer
Syn. *Dortmannia doniana* Kuntze, *Lobelia secunda* R. & P., nom. illeg., *Rapuntium secundum* C. Presl, *Siphocampylus donianus* (Kuntze) E. Wimmer, *Tupa secunda* G. Don
Ref. FP 13(6/2) 1937: 463; Wimmer, 1953: 364.
Voucher: Ruiz & Pavón s.n.*
Depts.: Without full locality data.

Siphocampylus penduliflorus Decaisne var. **asperatulus** E. Wimmer
Ref. FP 13(6/2) 1937: 464.
Vine. Amazonian. 0-500 m.
Note: Not reconfirmed.

Siphocampylus pendulifolius A. DC. =Siphocampylus ovatus (G. Don) E. Wimmer
Ref. FP 13(6/2) 1937: 461; Wimmer, 1953: 363.

Siphocampylus phaeton E. Wimmer
Ref. FP 13(6/2) 1937: 464; Wimmer, 1953: 319.
Shrub. Andean II: shrublands. 3000-3500 m.
Voucher: Pearce s.n.*, Weberbauer 7531 (MO!)
Depts.: AY

Siphocampylus platysiphon Lammers
Ref. Lammers, 1993: 28.
Endemic shrub. Andean II-III: grasslands. 3000-4000 m.
Voucher: Dillon *et al.* 2792* (F), Sagástegui *et al.* 10026 (MO)
Depts.: CA, LL

Siphocampylus polycladus E. Wimmer
Syn. *Siphocampylus polycladus* var. *rubicundus* E. Wimmer
Ref. Wimmer, 1953: 293; Jeppesen, 1981b: 164.
Shrub.
Voucher: Raimondi 6907
Depts.: CA

Siphocampylus polycladus var. *rubicundus* E. Wimmer =Siphocampylus polycladus E. Wimmer
Ref. Jeppesen, 1981b: 165.

Siphocampylus pozuzensis E. Wimmer
Ref. FP 13(6/2) 1937: 465; Wimmer, 1953: 288.
Shrub or vine. Andean II. 1500-2000 m.
Voucher: Pearce 532*
Depts.: HU

[Siphocampylus puberulus E. Wimmer]
Ref. FP 13(6/2) 1937: 465.
Note: Not known from Peru.

Siphocampylus pubescens Bentham =Siphocampylus humboldtianus A. DC.

Siphocampylus raimondii E. Wimmer =Siphocampylus corynellus Gleason
Ref. FP 13(6/2) 1937: 449; Wimmer, 1953: 365.

Siphocampylus resinosus Schlechtendal, nom. illeg. =Siphocampylus tupaeformis var. tupaeformis
Ref. FP 13(6/2) 1937: 471.

Siphocampylus rosmarinifolius G. Don
Syn. *Lobelia purpurea* R. & P. ex G. Don, nom. illeg., *Lobelia rosmarinifolia* C. Presl
Ref. FP 13(6/2) 1937: 465; Wimmer, 1953: 352.
Endemic herb or shrub. Andean II: disturbed areas, shrublands. 2500-3500 m.
Voucher: Díaz 2917 (MO!)
Depts.: JU

Siphocampylus rugosus A. DC. =Siphocampylus dependens (R. & P.) G. Don
Ref. FP 13(6/2) 1937: 450.

Siphocampylus rusbyanus Britton
Syn. *Burmeistera tricolorata* E. Wimmer, *Siphocampylus rusbyanus* var. *subervestitus* A. Zahlbruckner
Ref. FP 13(6/2) 1937: 466; Stein, 1987a: 493.
Herb. Andean II: cloud forests, disturbed areas, rocky slopes. 2500-3500 m.
Voucher: Gentry *et al.* 23555 (MO!)
Depts.: CU, PU

Siphocampylus rusbyanus var. *subervestitus* A. Zahlbruckner =Siphocampylus rusbyanus Britton
Ref. FP 13(6/2) 1937: 466; Wimmer, 1953: 377.

Siphocampylus salviifolius E. Wimmer
Ref. FP 13(6/2) 1937: 466; Wimmer, 1953: 320.
Herb.
Voucher: Raimondi 10675*
Depts.: AY

Siphocampylus sanguineus A. Zahlbruckner
Ref. FP 13(6/2) 1937: 467; Jeppesen, 1981b: 168.
Shrub or vine. Andean II: disturbed areas, forests, shrublands. 2500-3500 m.
Voucher: Weberbauer 4285* (MOL!), Stein & Todzia 2068 (MO!)
Depts.: AM

Siphocampylus scabrifolius Schlechtendal, nom. illeg. =Siphocampylus veteranus E. Wimmer
Ref. FP 13(6/2) 1937: 473.

[Siphocampylus scandens (H.B.K.) G. Don]
Syn. *Lobelia obtusifolia* Willdenow ex Roemer & Schultes, *Lobelia scandens* H.B.K.
Ref. FP 13(6/2) 1937: 467.
Note: Not known from Peru.

Siphocampylus secundus E. Wimmer
Ref. FP 13(6/2) 1937: 467; Wimmer, 1953: 363.
Vine. Andean II: disturbed areas, elfin forests. 2500-3000 m.
Voucher: Mathews s.n.*, Smith 6198A (MO!)
Depts.: AM

Siphocampylus soraticus E. Wimmer
Syn. *Siphocampylus elegans* var. *boliviensis* A. Zahlbruckner
Ref. FP 13(6/2) 1937: 468.
Vine. Andean II: cloud forests. 2500-3000 m.
Voucher: Metcalf 30730 (MO!)
Depts.: CU

[Siphocampylus sparsipilus E. Wimmer]
Ref. FP 13(6/2) 1937: 468.
Note: Not known from Peru.

Siphocampylus spruceanus A. Zahlbruckner
Ref. FP 13(6/2) 1937: 468; Wimmer, 1953: 353.
Endemic shrub. Andean I: forests. 1000-1500 m.
Voucher: Spruce 4860*, Klug 3277 (MO!)
Depts.: SM

Siphocampylus stenolobus E. Wimmer
Ref. FP 13(6/2) 1937: 469; Wimmer, 1953: 307.
Herb, shrub or vine. Andean II: disturbed areas, forests, shrublands. 2000-3500 m.
Voucher: Pennell 13913*, Stein 2502 (MO!)
Depts.: CU

[Siphocampylus subcarnosus Bentham]
Ref. FP 13(6/2) 1937: 469; Wimmer, 1953: 292.
Note: Not known from Peru.

[Siphocampylus subcordatus Rusby]
Ref. FP 13(6/2) 1937: 469.
Note: Not known from Peru.

[Siphocampylus subcordatus var. dives E. Wimmer]
Ref. FP 13(6/2) 1937: 470.
Note: Not known from Peru.

Siphocampylus superbus A. Zahlbruckner =Siphocampylus jelskii A. Zahlbruckner
Ref. FP 13(6/2) 1937: 470; Wimmer, 1953: 374.

Siphocampylus surinamensis (L.) G. Don =Centropogon cornutus (L.) Druce
Ref. FP 13(6/2) 1937: 407; Jeppesen, 1981b: 72; Stein, 1987c: 135.

Siphocampylus tortuosus A. Zahlbruckner
Ref. FP 13(6/2) 1937: 470; Wimmer, 1953: 288.
Shrub or vine. Andean I. 1000-1500 m.
Voucher: Weberbauer 4646*
Depts.: LO

Siphocampylus tupaeformis A. Zahlbruckner var. *diversifolius* Hicken =Siphocampylus tupaeformis var. tupaeformis
Ref. Wimmer, 1953: 301.

Siphocampylus tupaeformis var. *dulcis* E. Wimmer =Siphocampylus tupaeformis var. tupaeformis
Ref. FP 13(6/2) 1937: 471; Wimmer, 1953: 301.

Siphocampylus tupaeformis var. *reduncus* E. Wimmer ex Gleason =Siphocampylus tupaeformis var. tupaeformis
Ref. FP 13(6/2) 1937: 471; Wimmer, 1953: 301.

Siphocampylus tupaeformis var. **stenophyllus** E. Wimmer
Ref. Wimmer, 1953: 302.
Herb. Andean II-III: disturbed areas, forests, grasslands, rocky slopes, shrublands. 3000-4000 m.
Voucher: Ferreyra 16844 (MO!)
Depts.: AN, LI

Siphocampylus tupaeformis var. **tupaeformis**
Syn. *Siphocampylus resinosus* Schlechtendal, nom. illeg., *Siphocampylus tupaeformis* var. *diversifolius* Hicken, *Siphocampylus tupaeformis* var. *dulcis* E. Wimmer, *Siphocampylus tupaeformis* var. *reduncus* E. Wimmer ex Gleason
Ref. FP 13(6/2) 1937: 471; Wimmer, 1953: 301.
Herb or subshrub. Andean II-III: disturbed areas, forests, rocky slopes, shrublands. 2500-4000 m.
Voucher: Stein 2463 (MO!)
Depts.: CU, HU, LI, PA, PU

Siphocampylus vatkeanus A. Zahlbruckner
Ref. FP 13(6/2) 1937: 472; Wimmer, 1953: 371.
Shrub. Andean III: cloud forests, rocky slopes. 3500-4000 m.
Voucher: Metcalf 30710 (MO!)
Depts.: CU, PU

Siphocampylus venustus E. Wimmer
Ref. FP 13(6/2) 1937: 472; Wimmer, 1953: 299.
Voucher: Kalenborn 189* (MO!)
Depts.: JU

Siphocampylus verbascifolius A. DC. =Centropogon verbascifolius (C. Presl) Gleason
Ref. FP 13(6/2) 1937: 427.

Siphocampylus versicolor E. Wimmer
Ref. FP 13(6/2) 1937: 472; Wimmer, 1953: 356.
Subshrub. Andean II. 3000-3500 m.
Voucher: Weberbauer 5561*
Depts.: AY

Siphocampylus veteranus E. Wimmer
Syn. *Siphocampylus scabrifolius* Schlechtendal, nom. illeg., *Siphocampylus veteranus* fo. *laevigatus* E. Wimmer
Ref. FP 13(6/2) 1937: 473; Wimmer, 1953: 371.
Shrub. Andean II: forests. 3000-3500 m.
Voucher: Weberbauer 5579*, Díaz 2906 (MO!)
Depts.: AY, CU, PU

Siphocampylus veteranus fo. *laevigatus* E. Wimmer =Siphocampylus veteranus E. Wimmer
Ref. Wimmer, 1953: 371.

Siphocampylus virgatus A. DC. =Siphocampylus comosus (Cavanilles) G. Don
Ref. FP 13(6/2) 1937: 448; Wimmer, 1953: 371.

[*Siphocampylus volubilis* sensu Britton non (H.B.K.) G. Don =Siphocampylus orbignyanus A. DC.]
Ref. FP 13(6/2) 1937: 461; Wimmer, 1953: 277; Stein, pers. comm.
Note: Not known from Peru.

Siphocampylus weberbaueri A. Zahlbruckner
Ref. FP 13(6/2) 1937: 473; Wimmer, 1953: 379.
Endemic shrub. Andean II. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 4019* (MOL!)
Depts.: CA

Siphocampylus williamsii Rusby
Ref. FP 13(6/2) 1937: 474.
Shrub. Andean III: rocky slopes. 3500-4000 m.
Voucher: Metcalf 30469 (MO!)
Depts.: PU

Specularia biflora (R. & P.) Fischer & Meyer =Triodanis biflora (R. & P.) Greene
Ref. FP 13(6/2) 1937: 385; McVaugh, 1945: 31; Jeppesen, 1981a: 4.

Specularia ovata (Nuttall) Vatke =Triodanis biflora (R. & P.) Greene
Ref. Jeppesen, 1981a: 4.

[Specularia perfoliata A. DC.]
Ref. McVaugh, 1945: 31; Jeppesen, 1981a: 5.
Note: Not known from Peru.

Specularia perfoliata fo. *ramosa* Arechavaleta =Triodanis biflora (R. & P.) Greene
Ref. McVaugh, 1945: 31; Jeppesen, 1981a: 4.

Specularia perfoliata fo. *rigida* Arechavaleta =Triodanis biflora (R. & P.) Greene
Ref. McVaugh, 1945: 31; Jeppesen, 1981a: 4.

Sphenoclea pongatium DC. =Sphenoclea zeylanica Gaertner
Ref. FP 13(6/2) 1937: 389.

Sphenoclea zeylanica Gaertner
Syn. *Gaertnera pongati* Retzius, *Pongatium indicum* Lamarck, *Pongatium spongiosum* Blanco, *Pongatium zeylanicum* (Gaertner) Kuntze, *Rapinia herbacea* Loureiro, *Sphenoclea pongatium* DC.
Ref. FP 13(6/2) 1937: 389.
Herb. Amazonian: seasonally inundated areas. 0-500 m.
Voucher: Gentry & Ayala 15574 (MO!)
Depts.: LO, MD

Triodanis biflora (R. & P.) Greene
Syn. *Campanula biflora* R. & P., *Campanula montevidensis* Sprengel, *Legouzia biflora* Britton, *Lobelia humboldtiana* Willdenow ex Schultes, *Pentagonia biflora* (R. & P.) Kuntze, *Specularia biflora* (R. & P.) Fischer & Meyer, *Specularia ovata* (Nuttall) Vatke, *Specularia perfoliata* fo. *ramosa* Arechavaleta, *Specularia perfoliata* fo. *rigida* Arechavaleta, *Triodanis perfoliata* var. *biflora* (R. & P.) Bradley
Ref. McVaugh, 1945: 31; Jeppesen, 1981a: 5.
Herb. Coastal. 0-500 m.
Voucher: Cerrate & Tovar 868 (MO!)
Depts.: LI

Triodanis perfoliata var. *biflora* (R. & P.) Bradley =Triodanis biflora (R. & P.) Greene

Tupa decurrens (Cavanilles) G. Don =Lobelia decurrens Cavanilles

Tupa obovata G. Don =Siphocampylus obovatus (G. Don) E. Wimmer
Ref. FP 13(6/2) 1937: 460; Wimmer, 1953: 367.

Tupa ovata G. Don =Siphocampylus ovatus (G. Don) E. Wimmer
Ref. FP 13(6/2) 1937: 461.

Tupa secunda G. Don =Siphocampylus pavonis E. Wimmer
Ref. FP 13(6/2) 1937: 463; Wimmer, 1953: 364.

Wahlenbergia arida (H.B.K.) Grisebach
Syn. *Campanula arida* H.B.K., *Wahlenbergia calycina* Schlechtendal, nom. illeg., *Wahlenbergia linarioides* var. *arida* A. DC.
Ref. FP 13(6/2) 1937: 386; Jeppesen, 1981a: 6.
Herb. Andean II: grasslands. 2500-3500 m.
Note: Jeppesen (1981a) treats this as a synonym of *W. linarioides*.
Voucher: Woytkowski 34179 (MO!)
Depts.: HU

Wahlenbergia calycina Schlechtendal, nom. illeg. =Wahlenbergia arida (H.B.K.) Grisebach
Ref. FP 13(6/2) 1937: 386.
Note: The Flora of Peru uses an incorrect author citation.

Wahlenbergia globularis E. Wimmer
Ref. FP 13(6/2) 1937: 386.
Herb. Andean II: rocky slopes. 2500-3000 m.
Voucher: López *et al.* 7869 (MO!)
Depts.: CA

Wahlenbergia linarioides (Lamarck) A. DC.
Syn. *Campanula chilensis* Molina, *Campanula linarioides* Lamarck
Note: Not reconfirmed.

Wahlenbergia linarioides var. *arida* A. DC. =Wahlenbergia arida (H.B.K.) Grisebach
Ref. FP 13(6/2) 1937: 386; Jeppesen, 1981a: 6.

Wahlenbergia linarioides var. **filiformis** (R. & P.) A. DC.
Syn. *Campanula filiformis* R. & P.
Ref. FP 13(6/2) 1937: 387.
Note: Not reconfirmed.

Wahlenbergia linarioides var. **linarioides**
Syn. *Breweria linifolia* Sprengel (Convolvulaceae)
Ref. FP 13(6/2) 1937: 387; Jeppesen, 1981a: 6.

Wahlenbergia peruviana A. Gray
Ref. FP 13(6/2) 1937: 387.
Herb. Andean II-III: grasslands, rocky slopes, shrublands. 3000-4500 m.
Voucher: Smith *et al.* 12313 (MO!)
Depts.: AN, CA, CU, LL

Wahlenbergia urcosensis E. Wimmer
Ref. FP 13(6/2) 1937: 388.
Note: Not reconfirmed.

Cannabaceae

1 genus and 1 species in Peru.

Prepared by J. L. Zarucchi.

Cannabis sativa L.
Ref. Terrell *et al.*, 1985: 35.
Cultivated and introduced herb or shrub. Andean I, Coastal: disturbed areas.
Note: Known from Peru; no voucher collection seen.

Cannaceae

1 genus and 8 species in Peru.

Endemic species: 1.

Prepared by L. Brako; reviewed by P. J. M. Maas (U).

Canna bangii Kraenzlin
Herb. Andean I-II: forests. 1500-2500 m.
Voucher: Solomon 3179 (MO!)
Depts.: CA, CU, HU, PU

Canna coccinea Miller =Canna indica L.
Ref. FP 13(1/3) 1936: 739; Maas & Maas, 1988: 6.

Canna concinna Bouché =Canna indica L.
Ref. FP 13(1/3) 1936: 739; Maas, pers. comm.

Canna edulis Ker-Gawler =Canna indica L.
Ref. FP 13(1/3) 1936: 739; Maas & Maas, 1988: 6.

Canna flaccida Salisbury
Ref. Segeren & Maas, 1971: 675.
Cultivated and introduced herb. Amazonian: disturbed areas, forests. 0-500 m.
Voucher: Williams 2738 (F!)
Depts.: LO, SM

Canna formosa Bouché =Canna indica L.
Ref. FP 13(1/3) 1936: 740; Maas & Maas, 1988: 6.

Canna glauca L.
Ref. FP 13(1/3) 1936: 740; Maas & Maas, 1988: 5.
Herb. Amazonian: disturbed areas, riversides. 0-500 m.
Voucher: Williams 5729 (F!)
Depts.: CU, SM

Canna indica L.
Syn. *Canna coccinea* Miller, *Canna concinna* Bouché, *Canna edulis* Ker-Gawler, *Canna formosa* Bouché, *Canna lambertii* Lindley, *Canna lanuginosa* Roscoe
Ref. FP 13(1/3) 1936: 740; Maas & Maas, 1988: 6.
Cultivated and introduced herb. Amazonian, Andean I-II: disturbed areas. 0-2000 m.
Voucher: Gentry 28912 (MO!)
Depts.: AM, CU, HU, JU, LA, LI, LL, LO, SM

Canna iridiflora R. & P.
Ref. FP 13(1/3) 1936: 740.
Endemic herb. Andean II: forest. 2000-3000 m.
Voucher: Peyton & Peyton 1359 (MO!)
Depts.: AY, CU, HU, JU, PU, SM

Canna jaegeriana Urban
Ref. Maas & Maas, 1988: 7.
Herb. Andean I-II: disturbed areas. 500-2000 m.
Voucher: Barbour 4140 (MO!)
Depts.: AM, CA, CU, HU, JU, LO, PA, PU, UC

Canna lambertii Lindley =Canna indica L.
Ref. FP 13(1/3) 1936: 740; Maas & Maas, 1988: 6.

Canna lanuginosa Roscoe =Canna indica L.
Ref. FP 13(1/3) 1936: 741; Maas & Maas, 1988: 6.

Canna paniculata R. & P.
Ref. FP 13(1/3) 1936: 741; Maas & Maas, 1988: 4.
Herb. Amazonian, Andean I-II: disturbed areas, grasslands. 0-2000 m.
Voucher: Schunke 7356 (MO!)
Depts.: AM, HU, PA, SM

Canna tuerckheimii Kraenzlin
Ref. Maas & Maas, 1988: 8.
Cultivated and introduced herb.
Note: No voucher cited by Maas & Maas (1988).

Capparaceae

6 genera and 45 species in Peru.

Endemic species: 6.

Prepared by A. Pool (MO).

Breynia indica L. =Capparis indica (L.) Druce
Ref. FP 13(2/3) 1937: 1000; Dugand, 1941: 35.

Capparis acutifolia J. F. Macbride, nom. illeg. =Capparis sola J. F. Macbride
Ref. FP 13(2/3) 1937: 1003.

Capparis angulata R. & P. ex DC. =Capparis scabrida H.B.K.
Ref. FP 13(2/3) 1937: 998.
Note: Treated in Flora of Peru under this name.

Capparis avicenniifolia H.B.K.
Syn. *Capparis ovalifolia* R. & P. ex DC., nom illeg., *Colicodendron avicenniifolium* (H.B.K.) Seemann
Ref. FP 13(2/3) 1937: 1002; Woodson & Schery, 1948: 97.
Shrub or treelet. Andean I, Coastal: beach, desert, disturbed areas, rocky slopes. 0-1000 m.
Voucher: Humboldt s.n.* (G photo F!), Stevens 21985 (MO!)
Depts.: CA, IC, LA, LL, PI

[Capparis baducca L.]
Ref. FP 13(2/3) 1937: 998; Jacobs, 1965: 435.
Note: Not known from Peru. Following lectotypification by Jacobs (1965), this is an Old World species.

Capparis breynia L. =Capparis indica (L.) Druce
Ref. FP 13(2/3) 1937: 1000; Dugand, 1941: 35.

Capparis cordata R. & P. ex DC. =Capparis crotonoides H.B.K.
Ref. FP 13(2/3) 1937: 999; Dugand, 1941: 36.

Capparis crotonoides H.B.K.
Syn. *Capparis cordata* R. & P. ex DC.
Ref. FP 13(2/3) 1937: 999; Dugand, 1941: 36.
Shrub. Andean I, Coastal: desert, riversides, rocky slopes, shrublands. 0-1000 m.
Voucher: Truxillo s.n.*, Stevens 21986 (MO!)
Depts.: AN, CA, LA, LL, PI

[Capparis cynophallophora L.]
Ref. FP 13(2/3) 1937: 1002; Woodson & Schery, 1948: 90.
Note: Not known from Peru.

Capparis cynophallophora L., nom. illeg. =Capparis flexuosa (L.) L.
Ref. FP 13(2/3) 1937: 999; Woodson & Schery, 1948: 94.
Note: Linnaeus used this name for two different species.

Capparis detonsa Triana & Planchon
Ref. Dugand, 1941: 37.
Shrub, tree or treelet. Amazonian: disturbed areas, forests, riversides. 0-500 m.
Voucher: Berlin 1787 (MO!)
Depts.: AM, HU, LO, SM

Capparis eucalyptifolia Haught
Ref. FP 13(2/3) 1937: 999.
Endemic treelet.
Voucher: Haught F96*, Weberbauer 4814
Depts.: LL, PI

Capparis flexuosa (L.) L.
Syn. *Capparis cynophallophora* L., nom. illeg., *Morisonia flexuosa* L.
Ref. FP 13(2/3) 1937: 999; Woodson & Schery, 1948: 94.
Shrub or tree. Andean I, Coastal: disturbed areas, forests. 0-1500 m.
Voucher: Díaz 3044 (MO!)
Depts.: AM, CU, LA, SM, TU

Capparis frondosa Jacquin
Ref. FP 13(2/3) 1937: 998; Woodson & Schery, 1948: 95.
Shrub or tree. Amazonian: disturbed areas, forests. 0-500 m.
Note: Treated in Flora of Peru as *Capparis baducca*.
Voucher: Schunke 6321 (MO!)
Depts.: LO, SM, TU

Capparis gaudichaudiana Eichler =Capparis scabrida H.B.K.
Ref. FP 13(2/3) 1937: 1000.

Capparis guaguaensis Steyermark
Ref. Steyermark, 1951a: 238.
Shrub or tree. Amazonian: seasonally inundated areas. 0-500 m.
Note: The name *Capparis macrophylla* has been widely and inappropriately used for this species.
Voucher: Rimachi 264 (MO!)
Depts.: LO

Capparis indica (L.) Druce
Syn. *Breynia indica* L., *Capparis breynia* L., *Capparis indica* (L.) Fawcett & Rendle, nom. illeg.
Ref. Druce, 1914: 415.
Note: Not reconfirmed.

Capparis indica (L.) Fawcett & Rendle, nom. illeg. =Capparis indica (L.) Druce
Ref. FP 13(2/3) 1937: 1000; Dugand, 1941: 35.

Capparis lanceolata R. & P. ex DC. =Capparis mollis H.B.K.
Ref. FP 13(2/3) 1937: 999.
Note: Treated by Iltis (ex Hb. MO) as an unpublished subspecies of *C. flexuosa*.

Capparis laurina H.B.K. =Capparis petiolaris H.B.K.
Ref. FP 13(2/3) 1937: 1000.

Capparis macrocarpa R. & P. ex DC. =Capparis petiolaris H.B.K.
Ref. FP 13(2/3) 1937: 1000; Dugand, 1941: 43.

Capparis macrophylla H.B.K.
Syn. *Capparis magnifica* Gilg
Ref. Dugand, 1941: 40.
Tree or treelet. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Tunqui 91 (MO!)
Depts.: AM, SM

Capparis magnifica Gilg =Capparis macrophylla H.B.K.
Ref. FP 13(2/3) 1937: 1001.

Capparis mollis H.B.K.
Syn. *Capparis lanceolata* R. & P. ex DC.
Ref. FP 13(2/3) 1937: 1001.
Shrub, tree or treelet. Amazonian, Andean I: disturbed areas. 0-1500 m.
Note: Treated by Iltis (ex Hb. MO) as an unpublished subspecies of *C. flexuosa*, using the name *lanceolata*.
Voucher: Humboldt & Bonpland s.n.* (B photo F!), Díaz 2061 (MO!)
Depts.: AM, CA, LA, LL, PI

Capparis nitida R. & P. ex DC.
Syn. *Capparis pendula* Triana & Planchon
Ref. FP 13(2/3) 1937: 10001; Dugand, 1941: 45.
Shrub or tree. Amazonian, Andean I: forests, riversides. 0-1000 m.
Note: Treated by Iltis (ex Hb. MO) as an unpublished subspecies of *C. amplissima*, using the name *pendula*.
Voucher: Ruiz & Pavón s.n.* (G photo F!), Klug 4369 (MO!)
Depts.: LO, SM

Capparis odoratissima Jacquin
Ref. FP 13(2/3) 1937: 1002; Woodson & Schery, 1948: 89.
Note: Not reconfirmed, and not expected in Peru (Iltis, pers. comm.). Included in the Flora of Peru on the basis of a Pavón specimen determined by Briquet (perhaps wrongly so).

Capparis ovalifolia R. & P. ex DC., nom illeg. =Capparis avicennifolia H.B.K.
Ref. FP 13(2/3) 1937: 1002; Woodson & Schery, 1948: 97.

Capparis pachaca H.B.K.
Ref. Iltis, 1965: 57.
Shrub, tree or treelet. Amazonian. 0-500 m.
Note: The Peruvian entity is a closely related but unpublished species.
Voucher: Ríos 5 (MO!)
Depts.: SM

Capparis pendula Triana & Planchon =Capparis nitida R. & P. ex DC.
Ref. Dugand, 1941: 45.

Capparis petiolaris H.B.K.
Syn. *Capparis laurina* H.B.K., *Capparis macrocarpa* R. & P. ex DC.
Ref. FP 13(2/3) 1937: 1000; Dugand, 1941: 43.
Tree or treelet. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Ferreyra 7802 (MO!)
Depts.: PI, SM

Capparis prisca J. F. Macbride
Ref. FP 13(2/3) 1937: 1002.
Shrub or tree. Andean I-II: disturbed areas, forests. 500-3000 m.
Voucher: Weberbauer 7167*, Hutchison 6317 (MO!)
Depts.: CA, LA, LL, PI

Capparis quina J. F. Macbride
Ref. FP 13(2/3) 1937: 1003.
Shrub or tree. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Note: Treated by Iltis (ex Hb. MO) as an unpublished subspecies of *C. pachaca*.
Voucher: Williams 6282*, Zegarra 12 (MO!)
Depts.: SM

Capparis scabrida H.B.K.
Syn. *Capparis angulata* R. & P. ex DC., *Capparis gaudichaudiana* Eichler
Ref. FP 13(2/3) 1937: 998.
Shrub, tree or treelet. Andean I-II, Coastal: beach, desert, dry valleys, shrublands. 0-2500 m.
Voucher: Smith 4221 (MO!)
Depts.: AN, CA, LA, LL, PI

Capparis schunkei J. F. Macbride
Ref. FP 13(2/3) 1937: 1003.
Shrub or tree. Amazonian, Andean I: disturbed areas, terra firme forests. 0-1500 m.
Note: Possibly conspecific with *C. pittieri* Standley (Iltis, pers. comm.
Voucher: Schunke 418*, Vásquez 2524 (MO!)
Depts.: AM, HU, JU, LO, PA, SM,

Capparis sola J. F. Macbride
Syn. *Capparis acutifolia* J. F. Macbride, nom. illeg.
Ref. FP 13(2/3) 1937: 1003.
Shrub, subshrub, tree or treelet. Amazonian, Andean I: disturbed areas, seasonally inundated areas, terra firme forests. 0-1000 m.
Voucher: Klug 961*, Berlin 3502 (MO!)
Depts.: AM, HU, JU, LO, MD, SM

Capparis sprucei Eichler
Ref. FP 13(2/3) 1937: 354.
Endemic shrub or treelet.
Note: Known from Peru only from the type locality.
Voucher: Spruce 3986*
Depts.: SM

Capparis tarapotensis Eichler
Ref. FP 13(2/3) 1937: 1004.
Shrub. Andean I: forests. 500-1500 m.
Note: Treated by Iltis (ex Hb. MO) as an unpublished subspecies of *C. flexuosa*.
Voucher: Spruce 4406* (G photo F!), Woytkowski 35107 (MO!)
Depts.: AP, SM

Cleome aculeata L. var. **aculeata**
Ref. FP 13(2/3) 1937: 990; Gómez, 1953: 325.
Herb. Amazonian, Andean I: disturbed areas. 0-1000 m.
Voucher: Schunke 10148 (MO!)
Depts.: CU, HU, LO, SM

Cleome aculeata var. **cordobensis** (Eichler ex Grisebach) O. Kuntze
Syn. *Cleome cordobensis* Eichler ex Grisebach
Ref. Iltis, 1952: 194.
Herb. Andean I: disturbed areas. 500-1000 m.
Voucher: Gentry *et al.* 63560 (MO!)
Depts.: JU

Cleome amazonica Heilborn =Cleome viridiflora Schreber
Ref. FP 13(2/3) 1937: 990; Iltis, 1952: 308.

Cleome brachycarpa M. Vahl ex DC. pro syn. =Podandrogyne brachycarpa (DC.) Woodson
Ref. FP 13(2/3) 1937: 985; Woodson, 1948a: 143.

Cleome brachycarpa M. Vahl ex Triana & Planchon =Podandrogyne brachycarpa (DC.) Woodson
Ref. FP 13(2/3) 1937: 985; Woodson, 1948a: 144.

Cleome brachypoda Briquet =Cleome parviflora H.B.K.
Ref. FP 13(2/3) 1937: 990; Iltis, 1952: 235.

Cleome chilensis DC.
Syn. *Cleome chilensis* var. *pubescens* DC.
Ref. FP 13(2/3) 1937: 990; Iltis, 1952: 55.
Herb. Amazonian, Andean I-II: disturbed areas, rocky slopes. 0-3000 m.
Voucher: Dombey s.n.* (P photo F!), Worth & Morrison 15612 (MO!)
Depts.: AN, AR, CU, LI

Cleome chilensis var. *pubescens* DC. =Cleome chilensis DC.
Ref. FP 13(2/3) 1937: 991; Iltis, 1952: 55.

Cleome cordobensis Eichler ex Grisebach =Cleome aculeata var. cordobensis (Eichler ex Grisebach) O. Kuntze
Ref. Iltis, 1952: 194.

Cleome decipiens Triana & Planchon =Podandrogyne decipiens (Triana & Planchon) Woodson
Ref. Woodson, 1948a: 142.

[*Cleome deflexa* DC. =Cleome violacea L.]
Ref. FP 13(2/3) 1937: 991; Iltis, 1952: 333.
Note: Not known from Peru.

Cleome densiflora (Bentham) Triana & Planchon =Podandrogyne brachycarpa (DC.) Woodson
Ref. FP 13(2/3) 1937: 985; Woodson, 1948a: 144.

Cleome figueroae J. F. Macbride =Cleome longifolia Presl
Ref. FP 13(2/3) 1937: 991; Iltis, 1952: 75.

Cleome gigantea L. =Cleome viridiflora Schreber
Ref. FP 13(2/3) 1937: 991; Iltis, 1952: 308.

Cleome glandulosa R. & P. ex DC.
Ref. FP 13(2/3) 1937: 992; Iltis, 1952: 85.
Shrub or treelet. Andean II-III: disturbed areas, dry valleys, grasslands, rocky slopes, shrublands. 2500-4000 m.
Voucher: Ruiz & Pavón s.n* (B photo F!), Smith *et al.* 11707 (MO!)
Depts.: AN, HU, JU, LL

Cleome gynandra L.
Syn. *Cleome triphylla* L., *Gynandropsis triphylla* (L.) DC.
Ref. Iltis, 1960: 284.
Introduced herb.
Note: Not reconfirmed. Presence in Peru is based upon cited Pavón collection of uncertain locality. No Peruvian specimens cited by Iltis (1952).
Voucher: Pavón s.n.

Cleome herrerae J. F. Macbride =Cleome lechleri Eichler
Ref. FP 13(2/3) 1937: 992; Iltis, 1952: 78.

Cleome hirsuta R. & P. ex DC. pro syn. =Podandrogyne brachycarpa (DC.) Woodson
Ref. FP 13(2/3) 1937: 986; Woodson, 1948a: 144.

Cleome hirsuticaulis J. F. Macbride =Cleome viridiflora Schreber
Ref. FP 13(2/3) 1937: 992; Iltis, 1952: 309.

Cleome lechleri Eichler
Syn. *Cleome herrerae* J. F. Macbride
Ref. FP 13(2/3) 1937: 993; Iltis, 1952: 78.
Shrub or treelet. Andean I-II: cloud forests, disturbed areas, riversides, rocky slopes. 1000-3500 m.
Voucher: Lechler 1859* (G photo F), Núñez 7772 (MO!)
Depts.: AP, AY, CU, HU, HV, JU, PU

Cleome limoneolens J. F. Macbride
Ref. FP 13(2/3) 1937: 993; Iltis, 1952: 58.
Endemic herb. Andean II: disturbed areas, grasslands, riversides, rocky slopes. 1500-3000 m.
Note: Iltis (1952) treats this as an unpublished subspecies of *C. chilensis*.
Voucher: Macbride 3145* (F), Croat 58408 (MO!)
Depts.: AP, CU, HU, JU, PI

Cleome longifolia Presl
Syn. *Cleome figueroae* J. F. Macbride, *Cleome potamophila* Gilg ex J. F. Macbride
Ref. FP 13(2/3) 1937: 993; Iltis, 1952: 75.
Herb, shrub or subshrub. Andean I-II: cloud forests, disturbed areas, riversides. 1000-3000 m.
Voucher: Haenke s.n.* (PR photo MO!), Stein & Todzia 2305 (MO!)
Depts.: AN, HU, PI

Cleome longipes DC.
Ref. FP 13(2/3) 1937: 993; Woodson & Schery, 1948: 78.
Herb, liana, shrub or subshrub. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Voucher: Huashikat 1818 (MO!)
Depts.: AM, HU, JU, LO, SM

Cleome mathewsii Briquet
Ref. FP 13(2/3) 1937: 994; Iltis, 1952: 59.
Endemic herb.
Note: Known from Peru only from the type locality. Iltis (1952) treats this as an unpublished subspecies of *C. chilensis*.
Voucher: Mathews 3044* (MO!)
Depts.: AM

Cleome monochroma J. F. Macbride =Cleome viridiflora Schreber
Ref. FP 13(2/3) 1937: 994; Iltis, 1952: 308.

Cleome moricandii Briquet
Ref. Iltis, 1952: 280.
Herb or shrub. Andean I-II: disturbed areas, riversides, rocky slopes. 1000-2000 m.
Note: The type locality is questionable, possibly in Brazil.
Voucher: Collector unknown, hb. Moricand* (G photo F!), Vargas 4562 (MO)
Depts.: CU, LL, LI, PU

Cleome pachystigma Briquet
Ref. FP 13(2/3) 1937: 994; Iltis, 1952: 174.
Endemic herb. Amazonian, Andean I: disturbed areas, forests. 0-1500 m.
Note: Iltis (1952) treats this as an unpublished subspecies of *C. speciosa*.
Voucher: Pavón s.n.* (G photo F!), Wasshausen & Encarnación 536 (MO!)
Depts.: CU, HU, LO, SM

Cleome parviflora H.B.K.
Syn. *Cleome brachypoda* Briquet
Ref. Iltis, 1952: 235.

Herb, shrub or subshrub. Amazonian: disturbed forests, seasonally inundated areas, swamps. 0-500 m.
Voucher: Ayala *et al.* 3138 (MO!)
Depts.: LO, UC

Cleome potamophila Gilg ex J. F. Macbride =Cleome longifolia Presl
Ref. FP 13(2/3) 1937: 994; Iltis, 1952: 75.

Cleome psoraleaefolia DC.
Ref. FP 13(2/3) 1937: 995; Gómez, 1953: 317.
Herb or shrub. Amazonian, Andean I: disturbed areas, forests, seasonally inundated areas. 0-2000 m.
Note: Iltis (1952) treats this as an unpublished subspecies of *C. parviflora*.
Voucher: Revilla 20 (MO!)
Depts.: CU, LO, SM

Cleome pubescens Sims =Cleome spinosa Jacquin
Ref. FP 13(2/3) 1937: 995; Woodson & Schery, 1948: 80.

Cleome purpurea DC.
Ref. FP 13(2/3) 1937: 995; Iltis, 1952: 174.
Endemic herb.
Note: Known from Peru only from the type locality. Possibly conspecific with *C. pachystigma* (Iltis, 1952).
Voucher: Collector unknown* (G drawing, fragment)

[Cleome rosea M. Vahl]
Ref. FP 13(2/3) 1937: 995; Gómez, 1953: 330.
Note: Not known from Peru. The specimen cited in the Flora of Peru (*Williams 3585*) is redetermined by Iltis (1952) as *C. pachystigma*, treated as an unpublished subspecies of *C. speciosa*.

[*Cleome speciosa* H.B.K. =Cleome speciosa Raf.]
Ref. FP 13(2/3) 1937: 986; Woodson & Schery, 1948: 82.
Note: Not known from Peru.

[Cleome speciosa Raf.]
Syn. *Cleome speciosa* H.B.K., *Gynandropsis speciosa* (H.B.K.) DC.
Ref. Iltis, 1952: 163.
Note: Not known from Peru. See Iltis (1952) for a complete explanation.

Cleome spinosa Jacquin
Syn. *Cleome pubescens* Sims
Ref. FP 13(2/3) 1937: 995; Woodson & Schery, 1948: 79.
Herb or shrub. Andean II. 1500-2000 m.
Note: No Peruvian specimens cited by Iltis (1952). Its inclusion in the Flora of Peru may be based on misidentifications.
Voucher: Isern 2186
Depts.: CU, JU, PI

Cleome triphylla L. =Cleome gynandra L.
Ref. FP 13(2/3) 1937: 987; Iltis, 1960: 284.

[Cleome violacea L.]
Syn. *Cleome deflexa* DC.
Ref. Iltis, 1952: 333.
Note: Not known from Peru.

Cleome virens J. F. Macbride
Ref. FP 13(2/3) 1937: 996; Iltis, 1952: 302.
Herb, shrub or subshrub. Amazonian: disturbed areas, riversides, seasonally inundated areas, terra firme forests. 0-500 m.
Voucher: Williams 2596* (F), Croat 19838 (MO!)
Depts.: AM, LO, MD, UC

Cleome viridiflora Schreber
Syn. *Cleome amazonica* Heilborn, *Cleome gigantea* L., *Cleome hirsuticaulis* J. F. Macbride, *Cleome monochroma* J. F. Macbride
Ref. Iltis, 1952: 308.
Herb or shrub. Amazonian, Andean I-II: disturbed areas, forests. 0-2500 m.
Voucher: Barbour 4392 (MO!)
Depts.: AM, CU, HU, JU, PA, SM

Colicodendron avicenniaefolium (H.B.K.) Seemann =Capparis avicennifolia H.B.K.
Ref. Woodson & Schery, 1948: 97.

Crateva
Note: Spelled "*Crataeva*" in the Flora of Peru.

Crateva benthamii Eichler =Crateva tapia L.
Ref. FP 13(2/3) 1937: 1005; Woodson & Schery, 1948: 86.

Crateva gorarema Vell. Conc. =Gallesia integrifolia (Sprengel) Harms (Phytolaccaceae)
Ref. FP 13(2/1) 1936: 557.

Crateva radiatiflora DC. =Crateva tapia L.
Ref. FP 13(2/3) 1937: 1006; Woodson & Schery, 1948: 86.

Crateva tapia L.
Syn. *Crateva benthamii* Eichler, *Crateva radiatiflora* DC.
Ref. Woodson & Schery, 1948: 86.
Shrub, tree or treelet. Amazonian: disturbed areas, forests, seasonally inundated areas, riversides. 0-500 m.
Voucher: Revilla 785 (MO!)
Depts.: LO, MD, UC

Gynandropsis brachycarpa DC. =Podandrogyne brachycarpa (DC.) Woodson
Ref. FP 13(2/3) 1937: 985; Woodson, 1948a: 143.

Gynandropsis decipiens (Triana & Planchon) Pax & Hoffman =Podandrogyne decipiens (Triana & Planchon) Woodson
Ref. Woodson, 1948a: 142.

Gynandropsis densiflora Bentham =Podandrogyne brachycarpa (DC.) Woodson
Ref. FP 13(2/3) 1937: 985; Woodson, 1948a: 144.

Gynandropsis herrerae J. F. Macbride =Podandrogyne chiriquensis (Standley) Woodson
Ref. FP 13(2/3) 1937: 985; Woodson, 1948a: 142; Cochrane, in hb. MO.

Gynandropsis hispidula DC. =Podandrogyne brachycarpa (DC.) Woodson
Ref. FP 13(2/3) 1937: 986; Woodson, 1948a: 143.

Gynandropsis mathewsii Briquet =Podandrogyne brachycarpa (DC.) Woodson
Ref. FP 13(2/3) 1937: 986; Woodson, 1948a: 144.

Gynandropsis orba J. F. Macbride =Podandrogyne glabra Ducke
Ref. FP 13(2/3) 1937: 988; Woodson, 1948a: 145.

[*Gynandropsis speciosa* (H.B.K.) DC. =Cleome speciosa Raf.]
Ref. FP 13(2/3) 1937: 986; Woodson & Schery, 1948: 82.
Note: Not known from Peru.

Gynandropsis triphylla (L.) DC. =Cleome gynandra L.
Ref. FP 13(2/3) 1937: 987; Iltis, 1960: 284.

Gynandropsis ulei Briquet =Podandrogyne brachycarpa (DC.) Woodson
Ref. FP 13(2/3) 1937: 987; Woodson, 1948a: 144.

Morisonia flexuosa L. =Capparis flexuosa (L.) L.
Ref. Woodson & Schery, 1948: 94.

Morisonia oblongifolia Britton
Ref. FP 13(2/3) 1937: 1004.
Shrub, tree or treelet. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Voucher: Young 135 (MO!)
Depts.: MD, SM, UC

Podandrogyne brachycarpa (DC.) Woodson
Syn. *Cleome brachycarpa* M. Vahl ex DC. pro syn., *Cleome brachycarpa* M. Vahl ex Triana & Planchon, *Cleome densiflora* (Bentham) Triana & Planchon, *Cleome hirsuta* R. & P. ex DC. pro syn., *Gynandropsis brachycarpa* DC., *Gynandropsis densiflora* Bentham, *Gynandropsis hispidula* DC., *Gynandropsis mathewsii* Briquet, *Gynandropsis ulei* Briquet
Ref. Woodson, 1948a: 143.
Herb, shrub or subshrub. Andean I-II: cloud forests, disturbed areas, riversides, rocky slopes. 500-2500 m.

Voucher: Gentry *et al.* 23043 (MO!)
Depts.: AM, CU, HU, JU, PA, SM, UC

Podandrogyne chiriquensis (Standley) Woodson
Syn. *Gynandropsis herrerae* J. F. Macbride
Ref. Cochrane, in hb. MO.
Herb or shrub. Andean II: disturbed areas, forests. 2000-2500 m.
Voucher: Schunke 7902 (MO!)
Depts.: CU, SM

Podandrogyne decipiens (Triana & Planchon) Woodson
Syn. *Cleome decipiens* Triana & Planchon, *Gynandropsis decipiens* (Triana & Planchon) Pax & Hoffman
Ref. Woodson, 1948a: 142.
Herb. Andean II: cloud forests, disturbed areas, rocky slopes. 1500-2500 m.
Voucher: Barbour 2953 (MO!)
Depts.: AM

Podandrogyne glabra Ducke
Syn. *Gynandropsis orba* J. F. Macbride, *Podandrogyne orba* (J. F. Macbride) J. F. Macbride
Ref. FP 13(2/3) 1937: 987; Woodson, 1948a: 145.
Herb or shrub. Amazonian, Andean I-II: disturbed areas, forests. 0-2000 m.
Voucher: Smith 4404 (MO!)
Depts.: JU, LO, SM

Podandrogyne orba (J. F. Macbride) J. F. Macbride =Podandrogyne glabra Ducke
Ref. FP 13(2/3) 1937: 988; Woodson, 1948a: 145.

Steriphoma cinnabarinum Gilg ex Briquet pro syn. =Steriphoma peruvianum Spruce ex Eichler
Ref. Briquet, 1913: 394.

Steriphoma peruvianum Spruce ex Eichler
Syn. *Steriphoma cinnabarinum* Gilg ex Briquet pro syn.
Ref. FP 13(2/3) 1937: 1005.
Shrub, tree or treelet. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Note: This taxon probably represents two distinct species (Iltis, ex Hb. MO).
Voucher: Spruce 4128* (B photo F!), Woytkowski 35113 (MO!)
Depts.: AM, SM

Caprifoliaceae

3 genera and 16 species in Peru.

Endemic species: 4.

Prepared by K. L. Tomlinson (MO).

Lonicera alba L. =Chiococca alba (L.) Hitchcock (Rubiaceae)
Ref. FP 13(6/1) 1936: 123; Steyermark, 1974: 882.

Lonicera japonica Thunberg
Introduced shrub. Andean II. 2500-3000 m.
Voucher: Brunel 466 (MO!)
Depts.: CU

Oreinotinus ayavacensis Oersted =Viburnum ayavacense H.B.K.
Ref. FP 13(6/2) 1937: 283.

Oreinotinus laurifolius Oersted =Viburnum triphyllum Bentham
Ref. FP 13(6/2) 1937: 286.

Oreinotinus mathewsii Oersted =Viburnum mathewsii (Oersted) Killip & Smith
Ref. FP 13(6/2) 1937: 284.

Oreinotinus obovatus Oersted =Viburnum tridentatum Killip & Smith
Ref. FP 13(6/2) 1937: 285.

Oreinotinus reticulatus Oersted =Viburnum reticulatum R. & P.
Ref. FP 13(6/2) 1937: 285.

Oreinotinus triphyllus Oersted =Viburnum triphyllum Bentham
Ref. FP 13(6/2) 1937: 286.

Sambucus bipinnata Schlechtendal & Chamisso =Sambucus mexicana var. bipinnata (Schlechtendal & Chamisso) Schwerin
Ref. FP 13(6/2) 1937: 282.

Sambucus canadensis L.
Ref. Nash, 1976: 279.
Cultivated tree. Andean I, Coastal: disturbed areas. 0-1500 m.
Voucher: Mexia 8132 (MO!)
Depts.: HU, LI

Sambucus mexicana C. Presl ex DC. var. **bipinnata** (Schlechtendal & Chamisso) Schwerin
Syn. *Sambucus bipinnata* Schlechtendal & Chamisso
Ref. FP 13(6/2) 1937: 282.
Shrub or tree. Andean I-II. 0-2000 m.
Voucher: Williams 5933 (F)
Depts.: HU, JU, LO, SM

Sambucus peruviana H.B.K.
Ref. FP 13(6/2) 1937: 282.
Cultivated tree. Andean II-III: disturbed areas, forests, rocky slopes, shrublands. 2000-4000 m.
Voucher: Woytkowski 7694 (MO!)
Depts.: AM, CA, CU, HU, LI, PA

Viburnum ayavacense H.B.K.
Syn. *Oreinotinus ayavacensis* Oersted
Ref. FP 13(6/2) 1937: 283.
Tree. Andean III. 4000-4500 m.
Voucher: Humboldt & Bonpland s.n.* (B), Núñez & Arque 8368 (MO!)
Depts.: CU

Viburnum bolivianum Gandoger =Viburnum seemenii fo. bolivianum (Gandoger) Killip & Smith
Ref. FP 13(6/2) 1937: 285.

Viburnum fur Graebner =Viburnum mathewsii (Oersted) Killip & Smith
Ref. FP 13(6/2) 1937: 284.

Viburnum incarum Graebner
Ref. FP 13(6/2) 1937: 284.
Shrub or tree. Andean I-II: disturbed areas, elfin forests, forests, rocky slopes. 1000-3500 m.
Voucher: Weberbauer 1986* (MOL!), Ferreyra 9443 (MO!)
Depts.: AM, CA, CU, HU, JU, LA, PI

Viburnum jelskii Zahlbruckner
Ref. FP 13(6/2) 1937: 284.
Tree. Andean I-II. 500-2000 m.
Voucher: Jelski 35* (W photo F!)
Depts.: AM, AY, CA, CU, SM

Viburnum macrophyllum Thunberg =Hydrangea macrophylla (Thunberg) DC. (Hydrangeaceae)
Ref. McClintock, 1957: 222.

Viburnum mathewsii (Oersted) Killip & Smith
Syn. *Oreinotinus mathewsii* Oersted, *Viburnum fur* Graebner
Ref. FP 13(6/2) 1937: 284.
Endemic tree. Andean II. 2500-3500 m.
Voucher: Mathews 1605* (K)
Depts.: AM, CA, HU

Viburnum meiothyrsum Diels
Ref. Diels, 1942: 785.
Endemic shrub. Andean II: shrublands. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6682* (B)
Depts.: JU

Viburnum obovatum R. & P. =Viburnum tridentatum Killip & Smith
Ref. FP 13(6/2) 1937: 285.

Viburnum peruvianum Poeppig
Liana, shrub or tree. Andean I-II: disturbed areas, forests. 1000-3000 m.
Voucher: Gentry & Smith 35926 (MO!)
Depts.: CU, PA

Viburnum reticulatum R. & P.
Syn. *Oreinotinus reticulatus* Oersted, *Viburnum weberbaueri* Graebner
Ref. FP 13(6/2) 1937: 285.
Liana, shrub or tree. Andean I-II: cloud forests. 1500-3000 m.
Voucher: Ruiz & Pavón s.n.* (MA photo F!), Knapp *et al.* 7501 (MO!)
Depts.: AM, CA, HU, SM

Viburnum seemenii Graebner fo. **bolivianum** (Gandoger) Killip & Smith
Syn. *Viburnum bolivianum* Gandoger
Ref. FP 13(6/2) 1937: 285.
Voucher: Cook & Gilbert 1388
Depts.: CU, HU

Viburnum tridentatum Killip & Smith
Syn. *Oreinotinus obovatus* Oersted, *Viburnum obovatum* R. & P.
Ref. FP 13(6/2) 1937: 285.
Endemic shrub or tree.

Note: Known from Peru only from the type locality.
Voucher: Ruiz & Pavón s.n.* (B)
Depts.: AR

Viburnum triphyllum Bentham
Syn. *Oreinotinus laurifolius* Oersted, *Oreinotinus triphyllus* Oersted
Ref. FP 13(6/2) 1937: 286.
Shrub or tree. Andean II: forests, grasslands, rocky slopes. 1500-3500 m.
Note: Material not determined to forma.
Voucher: López 9115 (MO!)
Depts.: AM, CA, CU, JU, PA, PI

Viburnum triphyllum fo. **lanceolatum** Killip & Smith
Ref. FP 13(6/2) 1937: 286.
Shrub or tree.
Voucher: Ruiz & Pavón s.n.* (B)
Depts.: HU

Viburnum triphyllum fo. **microphyllum** Killip & Smith
Ref. FP 13(6/2) 1937: 286.
Shrub or tree. Andean II: shrublands. 2000-2500 m.
Voucher: Mathews 2114* (K), Mathews 3099 (K)
Depts.: AM

Viburnum weberbaueri Graebner =Viburnum reticulatum R. & P.
Ref. FP 13(6/2) 1937: 285.

Viburnum witteanum Graebner
Ref. FP 13(6/2) 1937: 286.
Shrub. Andean II: forests. 2500-3500 m.
Voucher: Weberbauer 4960* (B), Peyton & Peyton 1147b (MO!)
Depts.: AY, CU

Viburnum wurdackii Dudley
Ref. Dudley, 1969: 555.
Endemic shrub or tree. Andean II: forests. 1500-3500 m.
Voucher: Wurdack 1648* (US), Woytkowski 8124
Depts.: AM

Caricaceae

2 genera and 14 species in Peru.

Endemic species: 4.

Prepared by L. Brako.

Carica acuta Heilborn =Carica quercifolia (A. St. Hilaire) Hieronymus
Ref. FP 13(4/1) 1941: 135; Badillo, 1971: 89.

Carica aprica V. Badillo
Ref. Badillo, 1971: 96.
Endemic tree. Andean I-II. 1000-3000 m.
Voucher: Hutchison & Wright 6688* (MO!), Cano 2169 (MO!)
Depts.: CA, LL, PI

Carica augusti Harms
Ref. FP 13(4/1) 1941: 135; Badillo, 1971: 81.
Endemic shrub. Andean II: forests. 2500-3000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 7563* (F!)
Depts.: AY

Carica candicans A. Gray
Syn. *Carica integrifolia* Raimondi, *Vasconcellea candicans* (A. Gray) A. DC.
Ref. FP 13(4/1) 1941: 136; Badillo, 1971: 98; Cuya Matos, 1992: 75.
Endemic shrub. Andean I-II, Coastal: forests, lomas, riversides. 0-3000 m.
Voucher: U.S. Expl. Exped. s.n.* (US), Sagástegui *et al.* 12455 (MO!)
Depts.: AR, AY, CA, IC, LI, LL, MO, PI

Carica digitata Poeppig & Endlicher =Jacaratia digitata (Poeppig & Endlicher) Solms-Laubach
Ref. FP 13(4/1) 1941: 142; Badillo, 1971: 40.

Carica erythrocarpa Linden & André =Carica monoica Desfontaines
Ref. FP 13(4/1) 1941: 137; Badillo, 1971: 116.

Carica glandulosa A. DC.
Syn. *Carica plantanifolia* Solms-Laubach
Ref. Badillo, 1971: 81.
Shrub or tree. Amazonian, Andean I-II: 0-3000 m.
Voucher: Macora s.n.* (G), Hutchison & Bismarck 6377 (MO!)
Depts.: AP, CA, CU, HU, JU, MD, SM

Carica heterophylla Poeppig & Endlicher =Carica microcarpa subsp. microcarpa
Ref. FP 13(4/1) 1941: 137; Badillo, 1983: 46.

Carica integrifolia Raimondi =Carica candicans A. Gray
Ref. FP 13(4/1) 1941: 136; Badillo, 1971: 98.

Carica lanceolata (A. DC.) Solms-Laubach =Carica quercifolia (A. St. Hilaire) Hieronymus
Ref. FP 13(4/1) 1941: 138; Badillo, 1971: 88.

Carica leptantha Harms =Carica parviflora (A. DC.) Solms-Laubach
Ref. FP 13(4/1) 1941: 139; Badillo, 1971: 77.

Carica microcarpa Jacquin subsp. *heterophylla* (Poeppig & Endlicher) V. Badillo =Carica microcarpa var. microcarpa
Ref. Badillo, 1983: 46.

Carica microcarpa subsp. **microcarpa**
Syn. *Carica heterophylla* Poeppig & Endlicher, *Carica microcarpa* subsp. *heterophylla* (Poeppig & Endlicher) V. Badillo, *Carica stylosa* Heilborn, *Vasconcellea heterophylla* (Poeppig & Endlicher) A. DC.
Ref. Badillo, 1983: 46.
Shrub. Amazonian. 0-500 m.
Voucher: Vásquez *et al.* 3395 (MO!)
Depts.: AM, HU, JU, LO, MD, SM, UC

Carica monoica Desfontaines
Syn. *Carica erythrocarpa* Linden & André, *Vasconcellea monoica* (Desfontaines) A. DC.
Ref. FP 13(4/1) 1941: 138; Badillo, 1971: 116.
Cultivated herb or shrub. Andean I. 500-1500 m.
Voucher: Ruiz & Pavón s.n.* (FI), Kayap 259 (MO!)
Depts.: AM, HU

Carica paniculata Spruce ex Solms-Laubach =Carica parviflora (A. DC.) Solms-Laubach
Ref. FP 13(4/1) 1941: 139; Badillo, 1971: 77.

Carica papaya L.
Ref. Badillo, 1971: 64.
Cultivated tree. Amazonian, Andean I-II: forests. 0-3000 m.
Voucher: Sullivan *et al.* 1075 (MO!)
Depts.: AM, AY, HU, JU, LO, SM

Carica parviflora (A. DC.) Solms-Laubach
Syn. *Carica leptantha* Harms, *Carica paniculata* Spruce ex Solms-Laubach, *Vasconcellea parviflora* A. DC.
Ref. FP 13(4/1) 1941: 140; Badillo, 1971: 77.
Shrub. Amazonian, Andean I-II. 0-2000 m.
Voucher: Ruiz & Pavón s.n.* (G), Ferreyra 12311 (MO!)
Depts.: CA, HU, LA, LL, PI, TU

Carica plantanifolia Solms-Laubach =Carica glandulosa A. DC.
Ref. FP 13(4/1) 1941: 140; Badillo, 1971: 81.

Carica pubescens (A. DC.) Solms-Laubach, nom. illeg. =Carica pubescens Lenné & Koch
Ref. FP 13(4/1) 1941: 140; Badillo, 1971: 105.

Carica pubescens Lenné & Koch
Syn. *Carica pubescens* (A. DC.) Solms-Laubach, nom. illeg., *Vasconcellea pubescens* A. DC.
Ref. Badillo, 1971: 105.
Cultivated tree. Andean I-II: forests. 1500-3000 m.
Voucher: Ruiz & Pavón s.n.*, Gentry *et al.* 23508 (MO!)
Depts.: CU, HU, JU

Carica quercifolia (A. St. Hilaire) Hieronymus
Syn. *Carica acuta* Heilborn, *Carica lanceolata* (A. DC.) Solms-Laubach, *Vasconcellea lanceolata* A. DC., *Vasconcellea quercifolia* A. St. Hilaire
Ref. Badillo, 1971: 87.
Tree. Andean II: forests. 2500-3000 m.

Voucher: Weberbauer 7170 (F)
Depts.: AP, CU

Carica spinosa Aublet =Jacaratia spinosa (Aublet) A. DC.
Ref. Badillo, 1971: 53.

Carica stipulata V. Badillo
Ref. Badillo, 1971: 102.
Shrub. Andean II: forests. 1500-2000 m.
Voucher: Sagástegui *et al.* 12385 (MO!)
Depts.: CA

Carica stylosa Heilborn =Carica microcarpa subsp. microcarpa
Ref. FP 13(4/1) 1941: 141; Badillo, 1983: 46.

Carica weberbaueri Harms
Ref. FP 13(4/1) 1941: 142; Badillo, 1971: 111.
Endemic shrub or tree. Andean II: forests. 1500-2000 m.
Voucher: Weberbauer 7072* (F, MOL!), Badillo 4705 (MY)
Depts.: AM, LL

Jacaratia digitata (Poeppig & Endlicher) Solms-Laubach
Syn. *Carica digitata* Poeppig & Endlicher, *Jacaratia spinosa* var. *digitata* (Poeppig & Endlicher) A. DC.
Ref. FP 13(4/1) 1941: 142; Badillo, 1971: 40.
Tree. Amazonian, Andean I-II: forests. 0-3000 m.
Voucher: Poeppig s.n.* (W), Vásquez & Jaramillo 8345 (MO!)
Depts.: AM, HU, LO, MD, PI, SM, UC

Jacaratia spinosa (Aublet) A. DC.
Syn. *Carica spinosa* Aublet
Ref. Badillo, 1971: 53.
Tree. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Badillo & Humberto 4696 (MOL)
Depts.: HU

Jacaratia spinosa var. *digitata* (Poeppig & Endlicher) A. DC. =Jacaratia digitata (Poeppig & Endlicher) Solms-Laubach
Ref. FP 13(4/1) 1941: 142; Badillo, 1971: 40.

Vasconcellea candicans (A. Gray) A. DC. =Carica candicans A. Gray
Ref. FP 13(4/1) 1941: 136; Badillo, 1971: 98; Cuya Matos, 1992: 75.

Vasconcellea heterophylla (Poeppig & Endlicher) A. DC. =Carica microcarpa subsp. microcarpa
Ref. FP 13(4/1) 1941: 137.

Vasconcellea lanceolata A. DC. =Carica quercifolia (A. St. Hilaire) Hieronymus
Ref. FP 13(4/1) 1941: 138; Badillo, 1971: 88.

Vasconcellea monoica (Desfontaines) A. DC. =Carica monoica Desfontaines
Ref. FP 13(4/1) 1941: 138; Badillo, 1971: 116.

Vasconcellea parviflora A. DC. =Carica parviflora (A. DC.) Solms-Laubach
Ref. FP 13(4/1) 1941: 140; Badillo, 1971: 77.

Vasconcellea pubescens A. DC. =Carica pubescens Lenné & Koch
Ref. FP 13(4/1) 1941: 140; Badillo, 1971: 105.

Vasconcellea quercifolia A. St. Hilaire =Carica quercifolia (A. St. Hilaire) Hieronymus
Ref. Badillo, 1971: 88.

Caryocaraceae

2 genera and 8 species in Peru.

Endemic species: 2.

Prepared by L. Brako; reviewed by G. T. Prance (K).

Anthodiscus amazonicus Gleason & A. C. Smith
Ref. Prance & Freitas da Silva, 1973: 64.
Tree. Amazonian: forests. 0-500 m.
Voucher: Pariona & Sebastián 77 (MO!)
Depts.: MD, PA

Anthodiscus glaucescens J. F. Macbride =Anthodiscus peruanus Baillon
Ref. FP 13(3A/2): 701; Prance & Freitas da Silva, 1973: 62.

Anthodiscus gutierrezii L. O. Williams =Anthodiscus peruanus Baillon
Ref. Prance & Freitas da Silva, 1973: 62.

Anthodiscus klugii Standley ex Prance
Ref. Prance & Freitas da Silva, 1973: 58, Encarnación & Spichiger, 1981: 341
Endemic tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Klug 2682* (NY), Gentry & Jaramillo 57613 (MO!)
Depts.: LO, MD, PA, SM

Anthodiscus peruanus Baillon
Syn. *Anthodiscus glaucescens* J. F. Macbride, *Anthodiscus gutierrezii* L. O. Williams, *Gilia calyptrata* Rivers (Polemoniaceae)
Ref. FP 13(3A/2): 702; Prance & Freitas da Silva, 1973: 62.
Tree. Amazonian: forests. 0-500 m.
Voucher: Rivero C13* (P photo MO), Gutiérrez 14 (MOL)
Depts.: AM, HU, LO, MD, PA, SM

Anthodiscus pilosus Ducke
Ref. FP 13(3A/2): 702; Prance & Freitas da Silva, 1973: 59, Encarnación & Spichiger, 1981: 343.
Tree. Amazonian: forests. 0-500 m.
Voucher: Ducke 1855* (F), Vásquez & Jaramillo 9635 (MO!)
Depts.: LO, MD

[Anthodiscus trifoliatus G. Meyer]
Ref. FP 13(3A/2): 703; Prance & Freitas da Silva, 1973: 59.
Note: Not known from Peru. The specimen listed in the Flora of Peru is redetermined by Prance & Freitas da Silva (1973) as *A. klugii*.

Caryocar amygdaliforme R. & P. ex G. Don
Ref. FP 13(3A/2): 700; Prance, 1987: 180.
Endemic tree. Amazonian, Andean I: forests. 0-1000 m.
Note: Also appears in some publications as "*amydaliforme*."
Voucher: Ruiz & Pavón s.n.* (MA), Klug 3907 (MO!)
Depts.: AM, HU, JU, LO, MD, PA, SM, UC

Caryocar coccineum Pilger =Caryocar glabrum subsp. glabrum
Ref. FP 13(3A/2): 698; Prance & Freitas da Silva, 1973: 40.

Caryocar glabrum (Aublet) Persoon subsp. **glabrum**
Syn. *Caryocar coccineum* Pilger, *Caryocar tessmannii* Pilger, *Saouari glabra* Aublet
Ref. FP 13(3A/2): 699; Prance & Freitas da Silva, 1973: 40, Encarnación & Spichiger, 1981: 339.
Tree. Amazonian, Andean I: forests, riversides, seasonally inundated areas. 0-1000 m.
Voucher: Gentry & Revilla 20682 (MO!)
Depts.: AM, LO, PA, SM

Caryocar harlingii Prance & Encarnación
Ref. Prance, 1987: 182.
Tree. Amazonian: forests. 0-500 m.
Voucher: Prance & Encarnación 29333* (MO!), Vásquez *et al.* 10003 (MO!)
Depts.: LO

Caryocar microcarpum Ducke
Ref. FP 13(3A/2): 700; Prance & Freitas da Silva, 1973: 51.
Tree. Amazonian: forests, seasonally inundated areas. 0-500 m.
Voucher: Gentry & Revilla 21156 (MO!, USM!)
Depts.: LO

Caryocar tessmannii Pilger =Caryocar glabrum subsp. glabrum
Ref. FP 13(3A/2): 700; Prance & Freitas da Silva, 1973: 40.

Saouari glabra Aublet =Caryocar glabrum subsp. glabrum
Ref. FP 13(3A/2): 699; Prance & Freitas da Silva, 1973: 39.

Caryophyllaceae

19 genera and 126 species in Peru.

Endemic species: 41.

Prepared by J. L. Zarucchi; reviewed by R. E. Gereau (MO).

Alsine media L. =Stellaria media (L.) Cirillo
Ref. FP 13(2/2) 1937: 593.

Alsine rupestris Muschler
Ref. FP 13(2/2) 1937: 604.
Endemic herb. Andean III. > 4500 m.
Note: Known from Peru only from the type locality. This taxon may be better placed in *Arenaria*.
Voucher: Weberbauer 1042* (B)
Depts.: PU

Alsine weberbaueri Muschler
Ref. FP 13(2/2) 1937: 605.
Endemic herb. Andean III. 4000-4500 m.
Note: Known from Peru only from the type locality. This taxon may be better placed in *Arenaria*.
Voucher: Weberbauer 5160* (B)
Depts.: LI

Arenaria alpamarcae A. Gray
Ref. FP 13(2/2) 1937: 596.
Herb. Andean II. 2000-2500 m.
Voucher: Wilkes Exped. s.n.* (US)
Depts.: JU, LI

[Arenaria andina Rohrbach]
Ref. FP 13(2/2) 1937: 597.
Note: Not known from Peru.

Arenaria aphanantha Weddell
Ref. FP 13(2/2) 1937: 597.
Endemic herb. Andean III: grasslands. 3500-4000 m.
Note: The modern voucher is questionably determined.
Voucher: Gay 1776* (P photo F!), Gentry *et al.* 61588A (MO!)
Depts.: CA

Arenaria bisulca (Bartling) Rohrbach
Syn. *Cherleria bisulca* Bartling
Ref. FP 13(2/2) 1937: 597.
Herb. Andean III: bogs, shrublands. 3500- > 4500 m.
Voucher: Smith *et al.* 11733 (MO!)
Depts.: AN, CA, HU

Arenaria boliviana F. Williams
Syn. *Arenaria conferta* Weddell, nom. illeg.
Ref. FP 13(2/2) 1937: 597.
Herb. Andean III. 4000-4500 m.
Voucher: Weddell s.n.
Depts.: PA

Arenaria caespitosa Muschler
Ref. FP 13(2/2) 1937: 598.
Endemic herb.
Voucher: Weberbauer 2796* (B)
Depts.: CA

Arenaria conferta Weddell, nom. illeg. =Arenaria boliviana F. Williams
Ref. FP 13(2/2) 1937: 597.

Arenaria crassipes Baehni & J. F. Macbride
Ref. FP 13(2/2) 1937: 598.
Endemic herb. Andean II-III: grasslands. 2500-4500 m.
Note: The modern voucher is questionably determined.
Voucher: Macbride 812* (F), Smith & Torres 11779 (MO!)
Depts.: AN, JU, LI

Arenaria dicranoides H.B.K.
Syn. *Pycnophyllum dicranoides* (H.B.K.) Muschler
Ref. FP 13(2/2) 1937: 599.
Herb. Andean III: rocky slopes. 4000-4500 m.
Voucher: Cook & Cook 007 (MO!)
Depts.: JU, LI, PA, PU

Arenaria diffusa Elliott =Arenaria lanuginosa (Michaux) Rohrbach
Ref. FP 13(2/2) 1937: 600; Duke, 1961a: 92.

Arenaria digyna Schlechtendal
Syn. *Arenaria scopulorum* H.B.K., *Arenaria serpens* H.B.K., *Arenaria serpylloides* Naudin
Ref. FP 13(2/2) 1937: 599.
Herb. Andean III. 3500- > 4500 m.
Voucher: Humboldt & Bonpland s.n.
Depts.: CA, CU, LI, PA, PU

Arenaria engleriana Muschler
Ref. FP 13(2/2) 1937: 600.
Endemic herb. Andean III. 3500-4000 m.
Voucher: Weberbauer 2542* (B)
Depts.: JU

Arenaria lanuginosa (Michaux) Rohrbach subsp. **lanuginosa**
Syn. *Arenaria diffusa* Elliott, *Arenaria nemorosa* H.B.K., *Spergulastrum lanuginosum* Michaux, *Stellaria lanuginosa* (Michaux) Torrey & A. Gray, *Stellaria laxa* Muschler
Ref. FP 13(2/2) 1937: 600; Duke, 1961a: 92; Cano & Valencia, 1991: 59.
Herb or subshrub. Andean I-III: grasslands, riversides, shrublands. 1000- > 4500 m.
Voucher: Smith *et al.* 9576 (MO!)
Depts.: AM, AN, AP, AY, CA, CU, HU, HV, JU, LI, PA, PU, SM

[*Arenaria macrotheca* Hornemann ex Chamisso & Schlechtendal =Spergularia macrotheca (Hornemann ex Chamisso & Schlechtendal) Heynhold]
Ref. FP 13(2/2) 1937: 631.
Note: Not known from Peru.

Arenaria mattfeldii Baehni
Ref. FP 13(2/2) 1937: 601.
Endemic herb. Andean III: grasslands. 4000-4500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 353* (W photo F!)
Depts.: JU

[*Arenaria media* L. =Spergularia media (L.) Grisebach]
Ref. FP 13(2/2) 1937: 632.
Note: Not known from Peru.

Arenaria nemorosa H.B.K. =Arenaria lanuginosa (Michaux) Rohrbach
Ref. FP 13(2/2) 1937: 600; Duke, 1961a: 92.

Arenaria nitida (Bartling) Rohrbach
Syn. *Cherleria nitida* Bartling
Ref. FP 13(2/2) 1937: 601.
Endemic herb. Andean III: disturbed areas, grasslands, shrublands. 2500- > 4500 m.
Voucher: Haenke s.n.*, Smith *et al.* 9202 (MO!)
Depts.: AN, JU, LI, LL

Arenaria orbignyana Weddell
Ref. FP 13(2/2) 1937: 602.
Herb. Andean III. 3500-4000 m.
Voucher: Pennell 13392
Depts.: CU

Arenaria pallens Muschler
Ref. FP 13(2/2) 1937: 602.
Endemic herb. Andean III. 4000-4500 m.
Voucher: Weberbauer 267* (B)
Depts.: JU

Arenaria palustris Naudin
Herb. Andean II: shrublands. 2500-3000 m.
Note: The voucher is questionably determined.
Voucher: Hudson 1107 (MO!)
Depts.: CA

Arenaria parvifolia Bentham
Ref. FP 13(2/2) 1937: 602.
Herb. Andean II-III: disturbed areas, grasslands, shrublands. 3000- > 4500 m.
Voucher: León & Young 1350 (MO!)
Depts.: AN, CU, SM

Arenaria poeppigiana Rohrbach
Ref. FP 13(2/2) 1937: 603.
Endemic herb. Andean II: cloud forests, disturbed areas. 1500-2000 m.
Voucher: Poeppig 1402a* (G photo F!), Smith 5979 (MO!)
Depts.: HU, LL, SM

Arenaria pycnophylloides Pax
Ref. FP 13(2/2) 1937: 604.
Herb.
Voucher: Ruiz & Pavón s.n.
Depts.: JU

Arenaria rubra var. *campestris* L. =Spergularia campestris (L.) Ascherson
Ref. FP 13(2/2) 1937: 630.

Arenaria scopulorum H.B.K. =Arenaria digyna Schlechtendal
Ref. FP 13(2/2) 1937: 599.

Arenaria serpens H.B.K. =Arenaria digyna Schlechtendal
Ref. FP 13(2/2) 1937: 599.

Arenaria serpylloides Naudin =Arenaria digyna Schlechtendal
Ref. FP 13(2/2) 1937: 599; Gereau, pers. comm.

Arenaria soratensis Rohrbach
Ref. FP 13(2/2) 1937: 604.

Herb. Andean II-III: disturbed areas, grasslands. 2500-4000 m.
Voucher: Sullivan *et al.* 895 (MO!)
Depts.: AN, CU

Arenaria standleyi Baehni & J. F. Macbride
Ref. FP 13(2/2) 1937: 604.
Endemic herb. Andean II-III: grasslands. 2500- > 4500 m.
Note: Modern voucher is questionably determined.
Voucher: Weberbauer 7489* (F), Tupayachi 942 (MO!)
Depts.: AN, AY, CU

[*Arenaria stenocarpa* Philippi =Spergularia stenocarpa (Philippi) I. M. Johnston]
Ref. FP 13(2/2) 1937: 632.
Note: Not known from Peru.

Arenaria stuebelii Hieronymus
Ref. FP 13(2/2) 1937: 605.
Note: Not reconfirmed.

Arenaria tetragyna Willdenow ex Schlechtendal
Ref. FP 13(2/2) 1937: 605.
Herb. Andean III: grasslands, shrublands. 3500- > 4500 m.
Voucher: Núñez & Urrunaga 7659 (MO!)
Depts.: CU, JU, LI

Cardionema ramosissima (Weinmann) Nelson & J. F. Macbride
Syn. *Loeflingia ramosissima* Weinmann, *Pentacaena polycnemoides* Bartling
Ref. FP 13(2/2) 1937: 616.
Herb or subshrub. Andean II-III: grasslands, rocky slopes. 2000-4500 m.
Voucher: Smith *et al.* 11934 (MO!)
Depts.: AN, AR, CU, HU, LI, LL, PU

Cerastium arvense L.
Syn. *Cerastium arvense* var. *arvensiforme* (Weddell) Rohrbach, *Cerastium arvense* var. *nervosum* (Naudin) Reiche, *Cerastium arvense* fo. *oblongifolium* (Torrey) Pennell, *Cerastium arvensiforme* Weddell
Ref. FP 13(2/2) 1937: 583.
Herb. Andean II-III: cloud forests, grasslands. 2500-4000 m.
Voucher: Solomon 2881 (MO!)
Depts.: LI, PU

Cerastium arvense var. *arvensiforme* (Weddell) Rohrbach =Cerastium arvense L.
Ref. FP 13(2/2) 1937: 584.

Cerastium arvense var. *nervosum* (Naudin) Reiche =Cerastium arvense L.
Ref. FP 13(2/2) 1937: 584.

Cerastium arvense fo. *oblongifolium* (Torrey) Pennell =Cerastium arvense L.
Ref. FP 13(2/2) 1937: 583.

Cerastium arvensiforme Weddell =Cerastium arvense L.
Ref. FP 13(2/2) 1937: 584.

Cerastium behmianum Muschler
Syn. *Cerastium imbricatum* var. *mandonianum* Rohrbach
Ref. FP 13(2/2) 1937: 584.
Herb. Andean III. 4000-4500 m.
Voucher: Weberbauer 338* (W photo F!)
Depts.: JU

Cerastium caespitosum Gilibert =Cerastium triviale Link
Ref. FP 13(2/2) 1937: 590; Gereau, pers. comm.

Cerastium caespitosum Triana & Planchon, nom. illeg. =Cerastium trianae Briquet
Ref. FP 13(2/2) 1937: 589.

Cerastium candicans Weddell
Ref. FP 13(2/2) 1937: 584.
Herb. Andean III: bogs, grasslands. 4000- > 4500 m.
Voucher: Smith *et al.* 9743 (MO!)
Depts.: AN, JU, PU

Cerastium consanguineum Weddell =Cerastium glomeratum Thuiller
Ref. FP 13(2/2) 1937: 590; Duke, 1961a: 95; Gereau, pers. comm.

Cerastium crassipes Bartling
Syn. *Cerastium orophilum* Weddell
Ref. FP 13(2/2) 1937: 584.
Herb. Andean III: grasslands. 4000- > 4500 m.
Voucher: Haenke s.n.*, Sullivan & Sullivan 798 (MO!)
Depts.: HU, JU

Cerastium danguyi J. F. Macbride
Syn. *Cerastium trianae* Danguy & Chermezon, nom. illeg.
Ref. FP 13(2/2) 1937: 585.
Herb. Andean III: grasslands, shrublands. 3000- > 4500 m.
Voucher: Leon & Young 1103 (MO!)
Depts.: AN, CA, CU, HU, JU, LL

Cerastium floccosum Bentham
Ref. FP 13(2/2) 1937: 585.
Herb. Andean III. 4000- > 4500 m.
Voucher: Killip & Smith 22059 (US)
Depts.: JU

Cerastium glomeratum Thuillier
Syn. *Cerastium consanguineum* Weddell, *Cerastium viscosum* var. *consanguineum* (Weddell) Rohrbach, *Cerastium viscosum* var. *viscosum*
Ref. Cano & Valencia, 1991: 59; Gereau, pers. comm.
Herb. Andean I-III, Coastal: disturbed areas, grasslands. 0-4000 m.
Voucher: Díaz & Osores 2558 (MO!)
Depts.: AN, CA, CU, JU, LI, LL, PU

Cerastium humifusum Cambessèdes
Ref. FP 13(2/2) 1937: 586.
Herb. Andean II. 2500-3000 m.
Voucher: Weberbauer 169
Depts.: LI

Cerastium imbricatum H.B.K.
Ref. FP 13(2/2) 1937: 586.
Herb. Andean III: grasslands, shrublands. 4000- > 4500 m.
Voucher: Smith *et al.* 8969 (MO!)
Depts.: AN, CA

Cerastium imbricatum var. *mandonianum* Rohrbach =Cerastium behmianum Muschler
Ref. FP 13(2/2) 1937: 584.

Cerastium longipedunculatum Muhl =Cerastium nutans Raf.
Ref. FP 13(2/2) 1937: 587.

Cerastium mollissimum Poiret
Syn. *Cerastium willdenowii* H.B.K.
Ref. FP 13(2/2) 1937: 586.
Herb. Andean III: grasslands, rocky slopes, shrublands. 3500-4500 m.
Voucher: Jussieu s.n.* (P), Sagástegui *et al.* 12275 (MO!)
Depts.: CA, CU, HU

Cerastium mucronatum Weddell
Ref. FP 13(2/2) 1937: 587.
Herb. Andean II. 3000-3500 m.
Voucher: Weddell 4416* (P photo F!)
Depts.: CU, LI, PU

Cerastium nanum Muschler
Ref. FP 13(2/2) 1937: 587.
Endemic herb. Andean III. 4000-4500 m.
Voucher: Weberbauer 2781* (MA photo F!)
Depts.: CA, MO

Cerastium nutans Raf.
Syn. *Cerastium longipedunculatum* Muhl
Ref. FP 13(2/2) 1937: 587.
Herb. Andean II-III: disturbed areas, grasslands, rocky slopes, submerged. 3000-4500 m.
Voucher: Smith *et al.* 12209 (MO!)
Depts.: AN, CA, CU, LL

Cerastium orophilum Weddell =Cerastium crassipes Bartling
Ref. FP 13(2/2) 1937: 584.

Cerastium peruvianum Muschler
Ref. FP 13(2/2) 1937: 588.
Herb. Andean III. 4000- > 4500 m.
Voucher: Syntypes Weberbauer 2598* & 2798* (B)
Depts.: AN, CU, JU

Cerastium soratense Rohrbach
Ref. FP 13(2/2) 1937: 588.
Herb. Andean III: rocky slopes, shrublands. > 4500 m.
Note: Cited voucher questionably determined.
Voucher: Meyen s.n.
Depts.: AN, PU

Cerastium subspicatum Weddell
Ref. FP 13(2/2) 1937: 588.
Herb. Andean II-III: grasslands, riversides, submerged. 2500- > 4500 m.
Voucher: Weddell 4653* (P photo F!), Smith *et al.* 11587 (MO!)
Depts.: AN, CU, HU, JU, LI, PA, PU

Cerastium trianae Briquet
Syn. *Cerastium caespitosum* Triana & Planchon
Ref. FP 13(2/2) 1937: 589.
Herb. Andean II-III: grasslands, shrublands. 3000-4000 m.
Voucher: Smith & Vásquez 3294 (MO!)
Depts.: AN, CU, HU, LL

Cerastium trianae Danguy & Chermezon, nom. illeg. =Cerastium danguyi J. F. Macbride
Ref. FP 13(2/2) 1937: 585.

Cerastium trichocalyx Muschler
Ref. FP 13(2/2) 1937: 589.
Andean III. 3000- > 4500 m.
Voucher: Weberbauer 2983*, Weberbauer 605
Depts.: AN, LI

Cerastium triviale Link
Syn. *Cerastium caespitosum* Gilbert, *Cerastium vulgatum* var. *andinum* A. Gray, *Cerastium vulgatum* var. *peruvianum* A. Gray, *Cerastium vulgatum* var. *vulgatum*
Ref. FP 13(2/2) 1937: 590; Gereau, pers. comm.
Herb. Andean II-III: grasslands. 2500-4000 m.
Voucher: West 8154 (MO!)
Depts.: AN, CU, JU, LI, LL, PU

Cerastium tucumanense Pax
Ref. FP 13(2/2) 1937: 589.
Herb. Andean III. 3500-4500 m.
Voucher: Weberbauer 7374
Depts.: PU, TA

Cerastium viscosum var. *consanguineum* (Weddell) Rohrbach =Cerastium glomeratum Thuiller
Ref. FP 13(2/2) 1937: 590; Duke, 1961a: 95; Gereau, pers. comm.

Cerastium viscosum var. *viscosum* =Cerastium glomeratum Thuiller
Ref. FP 13(2/2) 1937: 590; Duke, 1961a: 95; Gereau, pers. comm.

Cerastium vulgatum L. var. *andinum* A. Gray =Cerastium triviale Link
Ref. FP 13(2/2) 1937: 591; Gereau, pers. comm.

Cerastium vulgatum var. *peruvianum* A. Gray =Cerastium triviale Link
Ref. FP 13(2/2) 1937: 591; Gereau, pers. comm.

Cerastium vulgatum var. *vulgatum* =Cerastium triviale Link
Ref. FP 13(2/2) 1937: 590; Gereau, pers. comm.

Cerastium willdenowii H.B.K. =Cerastium mollissimum Poiret
Ref. FP 13(2/2) 1937: 586.

Cherleria bisulca Bartling =Arenaria bisulca (Bartling) Rohrbach
Ref. FP 13(2/2) 1937: 597.

Cherleria laevis Bartling =Stellaria laevis (Bartling) Rohrbach
Ref. FP 13(2/2) 1937: 609.

Cherleria nitida Bartling =Arenaria nitida (Bartling) Rohrbach
Ref. FP 13(2/2) 1937: 601.

Colobanthus crassifolius (D'Urville) Hooker f.
Syn. *Colobanthus quitensis* (H.B.K.) Bartling, *Sagina crassifolia* D'Urville, *Sagina quitensis* H.B.K.
Ref. FP 13(2/2) 1937: 581.
Herb. Andean III: grasslands. 3500-4000 m.
Voucher: Pennell 14671
Depts.: JU

Colobanthus quitensis (H.B.K.) Bartling =Colobanthus crassifolius (D'Urville) Hooker f.
Ref. FP 13(2/2) 1937: 581.

Corrigiola andina Triana & Planchon
Herb. Andean II: disturbed areas. 2000-2500 m.
Voucher: Sagástegui *et al.* 9822 (MO!)
Depts.: CA

Dianthus caryophyllus L.
Ref. FP 13(2/2) 1937: 578.
Cultivated herb. Andean II-III: disturbed areas. 2000-4000 m.
Voucher: Brunel 67 (MO!)
Depts.: AN, CU

Drymaria agapatensis Baehni & J. F. Macbride =Drymaria divaricata var. stricta (Rusby) Duke
Ref. FP 13(2/2) 1937: 619; Duke, 1961c: 242.

Drymaria apetala Bartling
Syn. *Drymaria macrantha* A. Gray
Ref. FP 13(2/2) 1937: 619; Duke, 1961c: 234.
Endemic subshrub. Andean II: rocky slopes. 2500-3500 m.
Note: This species has erroneously been attributed to Mexico and Chile (Duke, 1961c).
Voucher: Haenke s.n.* (W photo F!), Llatas 1119 (MO!)
Depts.: AN, AY, LA, LI

Drymaria auriculipetala Mattfeld
Ref. FP 13(2/2) 1937: 620; Duke, 1961c: 215.
Endemic herb or subshrub. Andean II: rocky slopes. 2000-2500 m.
Note: Known from Peru only from the type locality.
Voucher: Macbride & Featherstone 2264* (MO!)
Depts.: HU

Drymaria cordata (L.) Willdenow ex Roemer & Schultes subsp. **cordata**
Syn. *Holosteum cordatum* L.
Ref. FP 13(2/2) 1937: 620; Duke, 1961c: 251.
Aquatic herb or subshrub. Amazonian, Andean I-II: disturbed areas, riversides. 0-3000 m.
Voucher: Knapp & Staver 7808 (MO!)
Depts.: AP, AY, CA, CU, HU, JU, LA, LI, LO, MD, PA, UC

Drymaria devia Baehni & J. F. Macbride =Drymaria engleriana var. devia (Baehni & J. F. Macbride) Duke
Ref. FP 13(2/2) 1937: 620; Duke, 1961c: 219.

Drymaria divaricata H.B.K. var. **divaricata**
Ref. Duke, 1961c: 242; Cano & Valencia, 1991: 59.
Endemic herb. Andean II: lomas. 2500-3000 m.
Voucher: Humboldt & Bonpland s.n.* (P), Valencia & Cano 1674 (MO!)
Depts.: LI

Drymaria divaricata var. **divergens** Duke
Ref. Duke, 1961c: 243.
Endemic herb. Coastal: lomas, rocky slopes. 0-1000 m.
Voucher: Velarde-Núñez 2320* (US), Ferreyra 8724 (MO!)
Depts.: LI

Drymaria divaricata var. **reflexiflora** Duke
Ref. Duke, 1961c: 244; Cano & Valencia, 1991: 59.
Endemic herb. Coastal: lomas, rocky slopes. 0-1000 m.
Voucher: Ferreyra 11522* (MO!), Ferreyra 3958 (MO!)
Depts.: LI

Drymaria divaricata var. **stricta** (Rusby) Duke
Syn. *Drymaria agapatensis* Baehni & J. F. Macbride, *Drymaria stricta* Rusby
Ref. Duke, 1961c: 242; Cano & Valencia, 1991: 59.
Herb or subshrub. Andean I-II, Coastal: grasslands, rocky slopes. 500-3000 m.
Voucher: Sagástegui *et al.* 11882 (MO!)
Depts.: AN, AR, LI

Drymaria divaricata var. **viscidula** (A. Gray) Duke
Syn. *Drymaria viscidula* A. Gray
Ref. Duke, 1961c: 243; Cano & Valencia, 1991: 59.
Endemic herb. Andean I-II, Coastal: rocky slopes. 0-3000 m.
Voucher: Wilkes Exped. s.n.* (US), Valencia & Cano 1686 (MO!)
Depts.: LI

Drymaria engleriana (Muschler) Baehni & J. F. Macbride var. **devia** (Baehni & J. F. Macbride) Duke
Syn. *Drymaria devia* Baehni & J. F. Macbride
Ref. Duke, 1961c: 219.
Herb. Andean III: rocky slopes, shrublands. 3500-4500 m.
Voucher: Pennell 14655* (MO!), Smith *et al.* 10733 (MO!)
Depts.: AN, LI, PU

Drymaria engleriana var. **engleriana**
Syn. *Polycarpon englerianum* Muschler
Ref. FP 13(2/2) 1937: 621, 627; Duke, 1961c: 217.
Endemic herb. Andean II-III: grasslands, shrublands. 3000-4500 m.
Note: Although the species is transferred to *Drymaria* in the Flora of Peru, it was also retained under *Polycarpon*.
Voucher: Weberbauer 3101* (F), Sagástegui *et al.* 13086 (MO!)
Depts.: AN

Drymaria fasciculata A. Gray
Ref. FP 13(2/2) 1937: 622; Duke, 1961c: 217; Cano & Valencia, 1991: 59.
Endemic herb. Andean II-III: grasslands, rocky slopes, shrublands. 1500-4000 m.
Voucher: Wilkes Exped. s.n.* (US), Cerrate 621 (MO!)
Depts.: AN, LI

Drymaria frutescens Mattfeld
Ref. FP 13(2/2) 1937: 622; Duke, 1961c: 216.
Endemic herb or subshrub. Andean III: grasslands, shrublands. 3500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 7203* (MO!)
Depts.: LL

Drymaria glaberrima Bartling
Ref. FP 13(2/2) 1937: 622; Duke, 1961c: 234.
Endemic herb or subshrub. Andean II: rocky slopes, shrublands. 2000-2500 m.
Voucher: Haenke s.n.* (PR), Macbride 3506 (MO!)
Depts.: HU, LI

Drymaria glandulosa C. Presl var. **glandulosa**
Syn. *Drymaria leptoclados* var. *peruviana* Ball
Ref. Duke, 1961c: 247.
Herb. Andean II-III: disturbed areas, shrublands. 1500-4000 m.
Voucher: Ball s.n.* (K), Núñez 7581 (MO!)
Depts.: AM, CA, JU, LI

Drymaria grandiflora Bartling
Ref. FP 13(2/2) 1937: 623; Duke, 1961c: 236; Cano & Valencia, 1991: 59.
Endemic herb. Andean II: rocky slopes. 1500-3500 m.
Voucher: Haenke s.n.* (W photo F!), Mostacero *et al.* 1270 (MO!)
Depts.: CA, HU, LI

Drymaria hirsuta Bartling =Drymaria villosa var. villosa
Ref. FP 13(2/2) 1937: 623; Duke, 1961c: 226.

Drymaria ladewii Rusby
Herb. Andean II: disturbed areas, grasslands. 2000-2500 m.
Voucher: Núñez & Valencia 9129 (MO!)
Depts.: CU

Drymaria leptoclados var. *peruviana* Ball =Drymaria glandulosa var. glandulosa
Ref. FP 13(2/2) 1937: 621, 622; Duke, 1961c: 247.

Drymaria macrantha A. Gray =Drymaria apetala Bartling
Ref. FP 13(2/2) 1937: 623; Duke, 1961c: 234.

Drymaria nitida Ball =Drymaria rotundifolia var. nitida (Ball) Duke
Ref. FP 13(2/2) 1937: 624; Duke, 1961c: 239.

Drymaria ovata Humboldt & Bonpland ex Roemer & Schultes
Ref. FP 13(2/2) 1937: 624; Duke, 1961c: 233.
Herb or subshrub. Andean II. 3000 m.
Voucher: Weberbauer 6543
Depts.: HU, LI

Drymaria palustris Chamisso & Schlechtendal =Drymaria villosa subsp. palustris (Chamisso & Schlechtendal) Duke
Ref. Duke, 1961c: 227.

Drymaria paposana Philippi var. **serrulata** Duke
Ref. Duke, 1961c: 238.
Endemic herb. Coastal: lomas. 0-1000 m.
Voucher: Ferreyra 13490* (MO!), Ferreyra 11616 (MO!)
Depts.: AR, MO

Drymaria paposana var. **weberbaueri** (Muschler) Duke
Syn. *Drymaria weberbaueri* Muschler
Ref. Duke, 1961c: 238.
Endemic herb. Coastal: lomas, riversides. 0-500 m.
Voucher: Weberbauer 1657* (MA photo F!), Ferreyra 8695 (MO!)
Depts.: AR, IC, LI

Drymaria pauciflora Bartling =Drymaria villosa subsp. palustris (Chamisso & Schlechtendal) Duke
Ref. FP 13(2/2) 1937: 624; Duke, 1961c: 227.

Drymaria praecox Bachni & J. F. Macbride
Ref. FP 13(2/2) 1937: 625; Duke, 1961c: 219.
Endemic herb. Andean III: grasslands. 4000-4500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 6916* (MO!)
Depts.: CU

Drymaria rotundifolia A. Gray var. **nitida** (Ball) Duke
Syn. *Drymaria nitida* Ball
Ref. Duke, 1961c: 239.
Herb. Andean II-III: disturbed areas, rocky slopes, shrublands. 2000-4000 m.
Voucher: Ball s.n.* (K), Sagástegui *et al.* 11551 (MO!)
Depts.: JU, LI

Drymaria rotundifolia var. **rotundifolia**
Ref. FP 13(2/2) 1937: 625; Duke, 1961c: 239; Cano & Valencia, 1991: 60.
Endemic herb. Andean I-II, Coastal: disturbed areas, rocky slopes. 500-3500 m.
Voucher: Wilkes Exped. s.n.* (US), Sagástegui & López 10645 (MO!)
Depts.: LI, LL

Drymaria sphagnophila Baehni & J. F. Macbride =Drymaria villosa subsp. palustris (Chamisso & Schlechtendal) Duke
Ref. FP 13(2/2) 1937: 625; Duke, 1961c: 227.

Drymaria stereophylla Mattfeld
Syn. *Drymaria stereophylla* Mattfeld ex J. F. Macbride, *Drymaria stereophylla* var. *exstipulata* Mattfeld
Ref. FP 13(2/2) 1937: 626; Duke, 1961c: 214.
Endemic herb. Andean I-III, Coastal: grasslands, rocky slopes. 500-4500 m.
Voucher: Raimondi 2502* (B), Tovar 220 (MO!)
Depts.: AM, AN, CA, CU, HU, HV, JU, LI, LL

Drymaria stereophylla Mattfeld ex J. F. Macbride =Drymaria stereophylla Mattfeld
Ref. FP 13(2/2) 1937: 626; Duke, 1961c: 214.

Drymaria stereophylla var. *exstipulata* Mattfeld =Drymaria stereophylla Mattfeld
Ref. Duke, 1961c: 215.

Drymaria stricta Rusby =Drymaria divaricata var. stricta (Rusby) Duke
Ref. Duke, 1961c: 242.

Drymaria villosa Chamisso & Schlechtendal subsp. **palustris** (Chamisso & Schlechtendal) Duke
Syn. *Drymaria palustris* Chamisso & Schlechtendal, *Drymaria pauciflora* Bartling, *Drymaria sphagnophila* Baehni & J. F. Macbride
Ref. Duke, 1961c: 227.
Herb. Andean I-II: bogs, grasslands. 1000-3500 m.
Voucher: Mostacero *et al.* 1231 (MO!)
Depts.: CA, CU, HU, JU, LI, SM

Drymaria villosa var. **villosa**
Syn. *Drymaria hirsuta* Bartling
Ref. Duke, 1961c: 226; Cano & Valencia, 1991: 60.
Herb. Andean II. 2000-3500 m.
Depts.: AY, HU, JU, PU

Drymaria viscidula A. Gray =Drymaria divaricata var. viscidula (A. Gray) Duke
Ref. FP 13(2/2) 1937: 626; Duke, 1961c: 243.

Drymaria weberbaueri Muschler =Drymaria paposana var. weberbaueri (Muschler) Duke
Ref. FP 13(2/2) 1937: 626; Duke, 1961c: 238.

Holosteum cordatum L. =Drymaria cordata subsp. cordata
Ref. FP 13(2/2) 1937: 620; Duke, 1961c: 251.

Loeflingia ramosissima Weinmann =Cardionema ramosissima (Weinmann) Nelson & J. F. Macbride
Ref. FP 13(2/2) 1937: 616.

[*Lychnis andicola* (Gillies ex Hooker & Arnott) Britton =Silene andicola Gillies ex Hooker & Arnott]
Ref. FP 13(2/2) 1937: 635; Bocquet, 1969: 234.
Note: Not known from Peru.

[*Lychnis chilensis* C. Gay =Silene chilensis (Naudin) Bocquet]
Ref. FP 13(2/2) 1937: 635; Bocquet, 1969: 238.
Note: Not known from Peru.

Lychnis thysanodes (Fenzl) Hooker f. =Silene thysanodes Fenzl
Ref. FP 13(2/2) 1937: 637.

[*Melandrium andicolum* (Gillies ex Hooker & Arnott) Rohrbach =Silene andicola Gillies ex Hooker & Arnott]
Ref. FP 13(2/2) 1937: 635; Bocquet, 1969: 234.
Note: Not known from Peru.

[*Melandrium chilense* (C. Gay) Rohrbach =Silene chilensis (Naudin) Bocquet]
Ref. FP 13(2/2) 1937: 635; Bocquet, 1969: 238.
Note: Not known from Peru.

Melandrium macrocalyx Muschler =Silene muschleri Bocquet
Ref. FP 13(2/2) 1937: 636; Bocquet, 1969: 260.

Melandrium mandonii Rohrbach =Silene mandonii (Rohrbach) Bocquet
Ref. FP 13(2/2) 1937: 636; Bocquet, 1969: 208.

Melandrium rhizophorum Muschler =Silene rhizophora (Muschler) Bocquet
Ref. FP 13(2/2) 1937: 637; Bocquet, 1969: 261.

Melandrium thysanodes (Fenzl) A. Gray =Silene thysanodes Fenzl
Ref. FP 13(2/2) 1937: 637.

Melandrium weberbaueri Muschler =Silene weberbaueri (Muschler) Bocquet
Ref. FP 13(2/2) 1937: 637; Bocquet, 1969: 262.

Paronychia andina A. Gray subsp. **andina**
Syn. *Paronychia membranacea* Muschler
Ref. FP 13(2/2) 1937: 613; Chaudhri, 1968: 191.
Herb or subshrub. Andean II-III: grasslands, riversides, submerged. 2500-4500 m.
Voucher: Wilkes Exped. s.n.* (US), Tupayachi 1100 (MO!)
Depts.: AY, CU, HV, JU, LL

Paronychia andina subsp. **boliviana** Chaudhri
Herb. Andean III: grasslands, riversides, shrublands. 3500-4000 m.
Voucher: Smith *et al.* 9697 (MO!)
Depts.: AN

Paronychia andina subsp. **purpurea** Chaudhri
Ref. Chaudhri, 1968: 193.
Endemic herb or subshrub. Andean III: rocky slopes. > 4500 m.
Note: Known from Peru only from the type locality.
Voucher: Macbride & Featherstone s.n.* [2 Oct 1922] (G), Smith & Buddensiek 11023 (MO!)
Depts.: AN, HU

[Paronychia bonariensis DC.]
Ref. FP 13(2/2) 1937: 613.
Note: Not known from Peru. Record for Peru probably due to misdetermination.

Paronychia cabrerae Chaudhri
Herb or subshrub. Andean III: disturbed areas, rocky slopes. 3500-4000 m.
Note: Cited voucher questionably determined.
Voucher: Smith & Vásquez 3316 (MO!)
Depts.: LL

Paronychia chilensis DC.
Ref. FP 13(2/2) 1937: 614.
Note: Specimens cited under this name in the Flora of Peru are treated under four different species by Chaudhri (1968).

Paronychia communis Cambessèdes var. **communis**
Herb. Andean III: disturbed areas, grasslands, rocky slopes, shrublands. 3500-4500 m.
Voucher: Smith *et al.* 9647 (MO!)
Depts.: AN

Paronychia communis var. **pungentifolia** Chaudhri
Herb. Andean III: disturbed areas, rocky slopes. 3500-4000 m.
Note: Cited collection determined as intermediate between vars. *pungentifolia* and *chicligastence* Chaudhru.
Voucher: Dillon & Turner 1464 (MO!)
Depts.: JU

Paronychia ellenbergii Chaudhri
Ref. Chaudhri, 1968: 179.
Endemic herb. Andean II: shrublands. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Ellenberg 1033* (U)
Depts.: CU

Paronychia fusciflora Chaudhri
Ref. Chaudhri, 1968: 189.
Endemic herb. Andean III: grasslands. 3500-4000 m.
Note: Known from Peru only from the type locality.
Voucher: Ellenberg 1960* (U)
Depts.: CA

Paronychia libertadiana Chaudhri
Ref. Chaudhri, 1968: 182.
Endemic herb. Andean II-III: rocky slopes, shrublands. 3000-4500 m.
Voucher: Hutchison *et al.* 6269* (F), Smith *et al.* 9818 (MO!)
Depts.: AN, CA, LI

Paronychia limaei Chaudhri
Ref. Chaudhri, 1968: 188.
Endemic herb. Andean II: rocky slopes. 2500-3500 m.
Voucher: Goodspeed *et al.* 11510* (UC), Rauh & Hirsch P205 (F)
Depts.: LI

Paronychia macbridei Chaudhri
Ref. Chaudhri, 1968: 183.
Endemic herb. Andean II: disturbed areas, rocky slopes. 2000-3000 m.
Note: Known from Peru only from the type locality. The type collection was cited under *P. chilensis* in the Flora of Peru.
Voucher: Macbride 3243* (G), Sagástegui *et al.* 9976 (MO!)
Depts.: AN, CA, HU

Paronychia mandoniana Rohrbach
Ref. FP 13(2/2) 1937: 614; Chaudhri, 1968.
Herb or subshrub. Andean III: disturbed areas, rocky slopes, shrublands. 3500- > 4500 m.
Note: Neither of the two collections listed in the Flora of Peru were cited by Chaudhri (1968).
Voucher: Macbride 852 (F), Smith *et al.* 10473 (MO!)
Depts.: LI, PU

Paronychia membranacea Muschler =Paronychia andina subsp. andina
Ref. FP 13(2/2) 1937: 614; Chaudhri, 1968: 191.

Paronychia microphylla Philippi var. **arequepensis** Chaudhri
Ref. Chaudhri, 1968: 151.
Endemic shrub or subshrub. Andean II: rocky slopes, shrublands. 2000-3500 m.
Voucher: Eyerdam & Beetle 22161* (MO!), Solomon 2785 (MO!)
Depts.: AR

Paronychia microphylla var. **microphylla**
Ref. FP 13(2/2) 1937: 615.
Shrub or subshrub. Andean II: rocky slopes, shrublands. 2000-2500 m.
Voucher: Eyerdam & Beetle 22125 (MO!)
Depts.: AR

Paronychia muschleri Chaudhri
Syn. *Paronychia rigida* Muschler, nom. illeg.
Ref. Chaudhri, 1968: 168; Cano & Valencia, 1991: 60.

Herb. Andean II-III: cloud forests, disturbed areas, grasslands, shrublands. 2000-4500 m.
Voucher: Weberbauer 984* (B), Valencia & Cano 1750 (MO!)
Depts.: CU, JU, LI, PU

Paronychia peruviana Chaudhri
Ref. Chaudhri, 1968: 180.
Herb. Andean III: rocky slopes. 3500-4500 m.
Voucher: Ellenberg 262* (U), Hill 415 (K)
Depts.: PU

Paronychia polygonoides Muschler, nom. illeg. =Paronychia weberbaueri Chaudhri
Ref. FP 13(2/2) 1937: 615; Chaudhri, 1968: 190.

Paronychia rigida Muschler, nom. illeg. =Paronychia muschleri Chaudhri
Ref. FP 13(2/2) 1937: 615; Chaudhri, 1968: 168.

Paronychia weberbaueri Chaudhri
Syn. *Paronychia polygonoides* Muschler, nom. illeg.
Ref. Chaudhri, 1968: 190.
Endemic herb or subshrub. Andean III: disturbed areas, grasslands, rocky slopes, shrublands. 3500-4500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 2702* (G), Smith *et al.* 9363 (MO!)
Depts.: AN, CA, JU

Pentacaena polycnemoides Bartling =Cardionema ramosissima (Weinmann) Nelson & J. F. Macbride
Ref. FP 13(2/2) 1937: 616.

Plettkea cryptantha Mattfeld
Ref. FP 13(2/2) 1937: 608.
Herb.
Note: Known from Peru only from the type locality. This taxon may be better placed in the genus *Pycnophyllum*.
Voucher Raimondi s.n.* (B)
Depts.: JU

Plettkea macrophylla (Muschler) Mattfeld =Pycnophyllum macrophyllum Muschler
Ref. FP 13(2/2) 1937: 611.

Plettkea tetrasticha Mattfeld =Pycnophyllum mattfeldii J. F. Macbride
Ref. FP 13(2/2) 1937: 611.

Plettkea weberbaueri (Muschler) Mattfeld =Pycnophyllum weberbaueri Muschler
Ref. FP 13(2/2) 1937: 612.

Polycarpaea corymbosa (L.) Lamarck
Syn. *Achyranthes corymbosa* L. (Amaranthaceae), *Polycarpaea filifolia* Muschler
Ref. FP 13(2/2) 1937: 628; Duke, 1961a: 105.
Herb. Andean I. 500-1000 m.
Voucher: Weberbauer 4587
Depts.: SM

Polycarpaea filifolia Muschler =Polycarpaea corymbosa (L.) Lamarck
Ref. FP 13(2/2) 1937: 628; Duke, 1961a: 105.

[Polycarpon apurense H.B.K.]
Ref. FP 13(2/2) 1937: 627.
Note: Not knwon from Peru.

Polycarpon englerianum Muschler =Drymaria engleriana var. engleriana
Ref. FP 13(2/2) 1937: 621; Duke, 1961c: 217.

Polycarpon tetraphyllum L.
Ref. Cano & Valencia, 1991: 60.
Herb. Coastal: disturbed areas, riversides, shrublands. 2500-3000 m.
Voucher: Valencia & Cano 1718 (MO!)
Depts.: LI

Polycarpon urbanianum Muschler
Ref. FP 13(2/2) 1937: 627.
Endemic herb. Andean III. 4000-4500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 2985* (B)
Depts.: AN

Pycnophyllum aculeatum Muschler =Pycnophyllum molle Remy
Ref. FP 13(2/2) 1937: 611.

Pycnophyllum aristatum Mattfeld
Ref. FP 13(2/2) 1937: 607.
Herb. Andean III. > 4500 m.
Voucher: Weberbauer 7250 (B)
Depts.: AN

Pycnophyllum aschersonianum Muschler
Ref. FP 13(2/2) 1937: 608.
Endemic herb or subshrub. Andean III: grasslands, rocky slopes. 4000- > 4500 m.
Voucher: Weberbauer 3293* (B), Smith & Escalona 10216 (MO!)
Depts.: AN

Pycnophyllum bryoides (Philippi) Rohrbach
Syn. *Stichophyllum bryoides* Philippi
Ref. FP 13(2/2) 1937: 608.
Herb. Andean III. 4000-4500 m.
Voucher: Weberbauer 1420 (B)
Depts.: AR, PU

Pycnophyllum carinatum Muschler
Ref. FP 13(2/2) 1937: 598.
Herb.
Note: Without collector and locality data. This taxon may be better placed in *Arenaria*.

Pycnophyllum dicranoides (H.B.K.) Muschler =Arenaria dicranoides H.B.K.
Ref. FP 13(2/2) 1937: 599.

Pycnophyllum filiforme Mattfeld
Ref. FP 13(2/2) 1937: 609.
Herb. Andean III. > 4500 m.
Voucher: Weberbauer 6885 (B)
Depts.: AR

Pycnophyllum glomeratum Mattfeld
Ref. FP 13(2/2) 1937: 609.
Herb or subshrub. Andean III: grasslands, rocky slopes. 4000- > 4500 m.
Voucher: Weberbauer 501a* (B), Dillon & Turner 1301 (MO!)
Depts.: CU, LI, PU

Pycnophyllum holleanum Mattfeld
Ref. FP 13(2/2) 1937: 609.
Endemic herb or subshrub. Andean III: grasslands, rocky slopes. > 4500 m.
Voucher: Weberbauer 6522 (MO!)
Depts.: JU

Pycnophyllum horizontale Muschler
Ref. FP 13(2/2) 1937: 600.
Endemic herb.
Note: Known from Peru only from the type locality. This taxon may be better placed in *Arenaria*.
Voucher: Weberbauer s.n.* (B)
Depts.: LI

Pycnophyllum lechlerianum Rohrbach
Ref. FP 13(2/2) 1937: 610.
Herb. Andean III. 3500-4000 m.
Voucher: Lechler 1742*
Depts.: PU

Pycnophyllum leptothamnum Mattfeld
Ref. FP 13(2/2) 1937: 610.
Herb. Andean III. > 4500 m.
Voucher: Weberbauer 7772* (B)
Depts.: CU

Pycnophyllum macropetalum Mattfeld
Ref. FP 13(2/2) 1937: 610.
Herb. Andean III. 4000-4500 m.
Voucher: Stuebel 110* (B)
Depts.: PU

Pycnophyllum macrophyllum Muschler
Syn. *Plettkea macrophylla* (Muschler) Mattfeld
Ref. FP 13(2/2) 1937: 611.
Endemic herb. Andean III. 4000-4500 m.
Voucher: Weberbauer 2975* (B)
Depts.: AN

Pycnophyllum markgrafianum Mattfeld
Ref. FP 13(2/2) 1937: 611.
Herb. Andean III. 4000-4500 m.
Voucher: Weberbauer 2783* (B)
Depts.: AN, LI

Pycnophyllum mattfeldii J. F. Macbride
Syn. *Plettkea tetrasticha* Mattfeld
Ref. FP 13(2/2) 1937: 611.
Endemic. Andean III: grasslands, rocky slopes, shrublands. 3500- > 4500 m.
Voucher: Weberbauer 2804a* (B)
Depts.: AN, CA, JU

Pycnophyllum molle Remy
Syn. *Pycnophyllum aculeatum* Muschler
Ref. FP 13(2/2) 1937: 611.
Herb. Andean III: grasslands, rocky slopes, shrublands. 4000- > 4500 m.
Voucher: Smith *et al.* 9453 (MO!)
Depts.: AN, AR, AY, CA, JU, MO, PU

Pycnophyllum peruvianum Muschler
Ref. FP 13(2/2) 1937: 603.
Endemic herb. Andean III. 4000-4500 m.
Note: Known from Peru only from the type locality. This taxon may be better placed in *Arenaria*.
Voucher: Weberbauer 2597* (B)
Depts.: JU

Pycnophyllum tetrastichum Remy
Ref. FP 13(2/2) 1937: 612.
Herb. Andean III. 4000-4500 m.
Voucher: Meyen s.n.
Depts.: PU

Pycnophyllum weberbaueri Muschler
Syn. *Plettkea weberbaueri* (Muschler) Mattfeld
Ref. FP 13(2/2) 1937: 612.
Endemic herb. Andean III. 4000-4500 m.
Voucher: Weberbauer 1373* (B)
Depts.: AR

Sagina apetala Arduino
Ref. FP 13(2/2) 1937: 580.
Herb. Andean II: grasslands. 3000-3500 m.
Depts.: AY, CA

Sagina crassifolia D'Urville =Colobanthus crassifolius (D'Urville) Hooker f.
Ref. FP 13(2/2) 1937: 581.

Sagina quitensis H.B.K. =Colobanthus crassifolius (D'Urville) Hooker f.
Ref. FP 13(2/2) 1937: 581.

Scleranthus peruvianus Muschler
Ref. FP 13(2/2) 1937: 603.
Herb. Andean III. 4000 m.
Note: Known from Peru only from the type locality. This taxon may be better placed in *Arenaria*.
Voucher: Weberbauer 3985* (B)
Depts.: CA

[Silene andicola Gillies ex Hooker & Arnott]
Syn. *Lychnis andicola* (Gillies ex Hooker & Arnott) Britton, *Melandrium andicolum* (Gillies ex Hooker & Arnott) Rohrbach
Ref. FP 13(2/2) 1937: 635; Bocquet, 1969: 234.
Note: Not known from Peru. Bocquet (1969) considers this species as from Chile and Argentina only.

Silene antirrhina L.
Ref. FP 13(2/2) 1937: 635.
Note: Not reconfirmed.

[Silene chilensis (Naudin) Bocquet]
Syn. *Lychnis chilensis* C. Gay, *Melandrium chilense* (C. Gay) Rohrbach
Ref. Bocquet, 1969: 238.
Note: Not known from Peru. Bocquet (1969) gives its range as Argentina and Chile. Collections cited in the Flora of Peru are treated under *S. genovevae*.

Silene gallica L.
Ref. FP 13(2/2) 1937: 636; Cano & Valencia, 1991: 60.
Introduced herb. Andean I-III, Coastal: disturbed areas. 0-4000 m.
Voucher: Stork & Horton 10308 (MO!)
Depts.: AM, AN, CA, CU, HU, HV, JU, LI, LL

Silene genovevae Bocquet
Ref. Bocquet, 1969: 214.
Herb or subshrub. Andean II-III: grasslands, rocky slopes. 2500- > 4500 m.
Note: Peruvian collections of this species were cited under "*S. chilensis*" in the Flora of Peru.
Voucher: Smith 11511 (MO!)
Depts.: AN, CU, HU, JU, LI

Silene mandonii (Rohrbach) Bocquet
Syn. *Melandrium mandonii* Rohrbach
Ref. Bocquet, 1969: 208.
Subshrub. Andean III: grasslands, rocky slopes. > 4500 m.
Voucher: Macbride & Featherstone 834 (US)
Depts.: AN, JU

Silene muschleri Bocquet
Syn. *Melandrium macrocalyx* Muschler
Ref. Bocquet, 1969: 260.
Endemic subshrub. Andean II: rocky slopes, shrublands. 3000-3500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 4015* (B)
Depts.: CA

Silene rhizophora (Muschler) Bocquet
Syn. *Melandrium rhizophorum* Muschler
Ref. Bocquet, 1969: 261.
Endemic subshrub. Andean III: grasslands, rocky slopes. 4000-4500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 5098* (B)
Depts.: LI

Silene thysanodes Fenzl
Syn. *Lychnis thysanodes* (Fenzl) Hooker f., *Melandrium thysanodes* (Fenzl) A. Gray
Ref. FP 13(2/2) 1937: 637.
Herb or subshrub. Andean III: rocky slopes, shrublands. 3500-4500 m.
Voucher: Smith *et al.* 12265 (MO!)
Depts.: AN

Silene weberbaueri (Muschler) Bocquet
Syn. *Melandrium weberbaueri* Muschler
Ref. Bocquet, 1969: 262.
Endemic subshrub. Andean III: grasslands, rocky slopes. 4000-4500 m.
Note: Known from Peru only from the type locality.
Voucher: Weberbauer 337* (B)
Depts.: JU

Spergula arvensis L.
Ref. FP 13(2/2) 1937: 628.
Introduced herb or subshrub. Andean I-III, Coastal: disturbed areas, grasslands, shrublands. 0-4000 m.
Voucher: Mostacero *et al.* 1257 (MO!)
Depts.: AN, CA, LL

[*Spergula grandis* Persoon =Spergularia grandis (Persoon) Cambessèdes]
Ref. FP 13(2/2) 1937: 631; Rossbach, 1940d: 203.
Note: Not known from Peru.

Spergula villosa Persoon =Spergularia villosa (Persoon) Cambessèdes
Ref. FP 13(2/2) 1937: 633; Rossbach, 1940c: 173.

Spergularia andina Rohrbach
Ref. FP 13(2/2) 1937: 629; Rossbach, 1940c: 160.
Herb. Andean II-III: disturbed areas. 2500 >4500 m.
Voucher: Lechler 1772* (K), Núñez *et al.* 7831 (MO!)
Depts.: CU, PU

[Spergularia campestris (L.) Ascherson]
Syn. *Arenaria rubra* var. *campestris* L.
Ref. FP 13(2/2) 1937: 630; Rossbach, 1940b: 106.
Note: Not known from Peru.

Spergularia collina I. M. Johnston
Ref. FP 13(2/2) 1937: 630; Rossbach, 1940c: 179.
Endemic herb. Coastal: lomas. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Johnston 3568* (GH), Dillon & Dillon 3845 (MO!)
Depts.: AR

Spergularia congestifolia I. M. Johnston
Ref. FP 13(2/2) 1937: 630; Rossbach, 1940b: 140.
Endemic herb. Coastal: lomas. 0-1000 m.
Note: Known from Peru only from the type locality.
Voucher: Johnston 3567* (GH), Dillon *et al.* 4836 (MO!)
Depts.: AR

Spergularia fasiculata Philippi
Syn. *Spergularia laciniata* Baehni & J. F. Macbride, *Spergularia stuebelii* (Hieronymus) I. M. Johnston, *Tissa steubelii* Hieronymus
Ref. Rossbach, 1940c: 158
Herb. Andean I-II, Coastal: lomas. 0-3500 m.
Voucher: Dillon & Dillon 3655 (MO!)
Depts.: AN, AR, AY, IC, LI, LL, MO, TA

[Spergularia grandis (Persoon) Cambessèdes]
Syn. *Spergula grandis* Persoon, *Spergularia macrocarpa* C. Presl
Ref. FP 13(2/2) 1937: 631; Rossbach, 1940d: 203.
Note: Not known from Peru.

Spergularia laciniata Baehni & J. F. Macbride =Spergularia fasciculata Philippi
Ref. FP 13(2/2) 1937: 631; Rossbach, 1940c: 159.

[*Spergularia macrocarpa* C. Presl =Spergularia grandis (Persoon)

Cambessèdes]
Ref. FP 13(2/2) 1937: 631; Rossbach, 1940d: 203.
Note: Not known from Peru.

[*Spergularia macrotheca* (Hornemann ex Chamisso & Schlechtendal) Heynhold]
Syn. *Arenaria macrotheca* Hornemann ex Chamisso & Schlechtendal
Ref. FP 13(2/2) 1937: 631; Rossbach, 1940a: 70.
Note: Not known from Peru.

[Spergularia media (L.) Grisebach]
Syn. *Arenaria media* L.
Ref. FP 13(2/2) 1937: 632.
Note: Not known from Peru. The collection cited in the Flora of Peru (*Weberbauer 2751*) was redetermined by Rossbach (1940b: 118) as *S. fasciculata*.

Spergularia salina J. Presl & C. Presl =Spergularia villosa (Persoon) Cambessèdes
Ref. FP 13(2/2) 1937: 632; Rossbach, 1940c: 177.

Spergularia squarrosa Muschler
Ref. FP 13(2/2) 1937: 632; Rossbach, 1940d: 211.
Note: Rossbach (1940d) indicated that the type collection (*Weberbauer 57*) represented a species of *Drymaria*; Duke (1961) does not treat this name nor cite the collection.

[Spergularia stenocarpa (Philippi) I. M. Johnston]
Syn. *Arenaria stenocarpa* Philippi
Ref. FP 13(2/2) 1937: 632; Rossbach, 1940c: 166.
Note: Not known from Peru.

Spergularia stuebelii (Hieronymus) I. M. Johnston =Spergularia fasciculata Philippi
Ref. FP 13(2/2) 1937: 633; Rossbach, 1940c: 158.

Spergularia villosa (Persoon) Cambessèdes
Syn. *Spergula villosa* Persoon, *Spergularia salina* J. Presl & C. Presl
Ref. FP 13(2/2) 1937: 633; Rossbach, 1940c: 172; Cano & Valencia, 1991: 60.
Herb. Andean II. 2000-3000 m.
Depts.: LI

Spergulastrum lanuginosum Michaux =Arenaria lanuginosa (Michaux) Rohrbach
Ref. FP 13(2/2) 1937: 600; Duke, 1961a: 92.

Stellaria aphananthoidea Muschler
Ref. FP 13(2/2) 1937: 592.
Endemic herb. Andean II: disturbed areas. 2000-2500 m.
Voucher: Weberbauer 133* (B)
Depts.: LI

Stellaria ciliata M. Vahl ex Persoon =Stellaria nemorum L.
Ref. FP 13(2/2) 1937: 592.

Stellaria cuspidata Willdenow ex Schlechtendal
Ref. FP 13(2/2) 1937: 592; Cano & Valencia, 1991: 60.
Herb. Amazonian, Andean I-III, Coastal: disturbed areas, lomas, rocky slopes, shrublands. 0-4000 m.
Voucher: Smith *et al.* 11925 (MO!)
Depts.: AM, AN, AR, AY, CA, CU, HU, LI, LL, LO, PU, SM

Stellaria laevis (Bartling) Rohrbach
Syn. *Cherleria laevis* Bartling
Ref. FP 13(2/2) 1937: 609.
Herb.
Note: This taxon may be better placed in *Pycnophyllum*.
Voucher: Ruiz & Pavón s.n.
Depts.: LI

Stellaria lanuginosa (Michaux) Torrey & A. Gray =Arenaria lanuginosa (Michaux) Rohrbach
Ref. FP 13(2/2) 1937: 600; Duke, 1961a: 92.

Stellaria laxa Muschler =Arenaria lanuginosa (Michaux) Rohrbach
Ref. FP 13(2/2) 1937: 600; Duke, 1961a: 92.

Stellaria leptopetala Bentham =Stellaria nemorum L.
Ref. FP 13(2/2) 1937: 592.

Stellaria media (L.) Cirillo
Syn. *Alsine media* L.
Ref. FP 13(2/2) 1937: 593; Cano & Valencia, 1991: 60.
Aquatic or terrestrial herb. Andean I-III, Coastal: grasslands, submerged. 0-4500 m.
Note: Combining author given incorrectly as "Vill[ars]" in the Flora of Peru.
Voucher: Macbride & Featherstone 1909 (MO!)
Depts.: AN, CU, HU, LI

Stellaria nemorum L.
Syn. *Stellaria ciliata* M. Vahl ex Persoon, *Stellaria leptopetala* Bentham
Ref. Duke, 1961a: 97.
Herb. Amazonian, Andean I-III, Coastal: forests, lomas. 0-4000 m.
Depts.: AN, AY, CA, CU, HU, LI, LO, PU, SM

Stellaria ovata Willdenow ex Schlechtendal
Ref. FP 13(2/2) 1937: 593; Duke, 1961a: 98.
Herb. Amazonian, Andean I-III, Coastal: cloud forests, disturbed areas, riversides, rocky slopes, shrublands. 0-4500 m.
Voucher: Sánchez 4232 (MO!)
Depts.: AM, AN, AY, CA, LI, LL, SM

Stellaria poeppigiana Rohrbach
Herb. Andean II: shrublands. 2500-3000 m.
Voucher: Stork & Horton 10675 (MO!)
Depts.: AP

Stellaria prostrata Baldwin
Ref. FP 13(2/2) 1937: 592.
Herb. Andean II, Coastal: lomas, rocky slopes. 0-3500 m.
Voucher: Knapp *et al.* 8346 (MO!)
Depts.: AR, CA, LI

Stellaria serpyllifolia Willdenow ex Schlechtendal
Ref. FP 13(2/2) 1937: 594.
Herb. Andean II-III: grasslands, shrublands. 3000-4000 m.
Voucher: Sagástegui *et al.* 12834 (MO!)
Depts.: AN, HU, LA

Stellaria xanthospora Chodat & R. Wilczek
Ref. FP 13(2/2) 1937: 594.
Note: Not reconfirmed.

Stichophyllum bryoides Philippi =Pycnophyllum bryoides (Philippi) Rohrbach
Ref. FP 13(2/2) 1937: 608.

Tissa stuebelii Hieronymus =Spergularia fasciculata Philippi
Ref. FP 13(2/2) 1937: 633; Rossbach, 1940c: 158.

Cecropiaceae

3 genera and 49 species in Peru.

Endemic species: 10.

Treated under Moraceae in the Flora of Peru.

Prepared by J. L. Zarucchi; reviewed by C. C. Berg (BG).

Cecropia acutifolia Trécul
Ref. FP 13(2/2) 1937: 284.
Endemic tree.
Note: Accepted provisionally by Berg (pers. comm.).
Voucher: Pavón s.n.* (FI-WEBB)
Depts.: Without full locality data.

Cecropia albicans Trécul
Ref. FP 13(2/2) 1937: 284; Berg, pers. comm.
Tree.
Note: Accepted provisionally by Berg (pers. comm.).
Voucher: Pavón s.n.* (FI-WEBB)
Depts.: Without full locality data.

Cecropia alexandrina Cuatrecasas =Cecropia montana Warburg ex Snethlage
Ref. Cuatrecasas, 1956b 339; Berg, pers. comm.

Cecropia andina Cuatrecasas
Syn. *Cecropia rugosa* Cuatrecasas
Ref. Cuatrecasas, 1945: 286; Berg, pers. comm.
Tree. Andean II: disturbed areas, forests. 1500-2500 m.
Voucher: Young & Eisenberg 357 (MO!)
Depts.: AM, HU

Cecropia angustifolia Trécul
Syn. *Cecropia digitata* Klotzsch
Ref. FP 13(2/2) 1937: 285; Berg, pers. comm.
Tree. Amazonian, Andean I-II: disturbed areas, forests. 0-2500 m.
Voucher: Ruiz & Pavón s.n.* (B photo F!), Hartshorn *et al.* 2694 (MO!)
Depts.: CU, PA

Cecropia bicolor Klotzsch
Ref. FP 13(2/2) 1937: 285.
Endemic tree. Andean II. 2000-2500 m.
Note: Accepted provisionally by Berg (pers. comm.).
Voucher: Ruiz & Pavón s.n.* (B photo F!)
Depts.: HU

[Cecropia concolor Willdenow]
Syn. *Cecropia leucocoma* Miquel
Ref. Berg, 1978a 164.
Note: Not known from Peru.

Cecropia dentata Klotzsch
Ref. FP 13(2/2) 1937: 285.
Endemic tree. Andean II. 2000-2500 m.
Note: Accepted provisionally by Berg (pers. comm.).
Voucher: Ruiz & Pavón s.n.* (MA)
Depts.: HU

Cecropia digitata Klotzsch =Cecropia angustifolia Trécul
Ref. FP 13(2/2) 1937: 285.

Cecropia distachya Huber
Ref. Berg, 1978a: 173; Spichiger *et al.*, 1989: 30.
Tree. Amazonian: seasonally inundated areas, swamps, terra firme forests. 0-500 m.
Voucher: Gentry & Jaramillo 58001 (MO!)
Depts.: AM, LO, MD

Cecropia engleriana Snethlage
Ref. FP 13(2/2) 1937: 285; Berg, 1978a: 166.
Tree. Amazonian, Andean I: disturbed areas, terra firme forests. 0-1000 m.
Voucher: Kayap 1099 (MO!)
Depts.: AM, HU, LO, MD, UC

Cecropia ficifolia Warburg ex Snethlage
Syn. *Cecropia standleyi* J. F. Macbride
Ref. FP 13(2/2) 1937: 285; Berg, 1978a: 171; Spichiger *et al.*, 1989: 32.
Tree. Amazonian: disturbed areas, terra firme forests. 0-500 m.
Voucher: Huashikat 253 (MO!)
Depts.: AM, LO, MD, PA, SM, UC

Cecropia flagellifera Trécul =Cecropia polystachya Trécul
Ref. FP 13(2/2) 1937: 286; Berg, pers. comm.

Cecropia francisci Snethlage =Cecropia polystachya Trécul
Ref. FP 13(2/2) 1937: 286; Berg, 1978a: 167; Berg, pers. comm.

Cecropia klotzschiana Miquel =Cecropia polystachya Trécul
Ref. FP 13(2/2) 1937: 286, Berg, pers. comm.

Cecropia latiloba Miquel
Ref. FP 13(2/2) 1937: 286; Berg, 1978a: 175.
Tree. Amazonian: riversides, seasonally inundated areas, terra firme forests. 0-500 m.
Voucher: Maas *et al.* 6285 (MO!)
Depts.: LO, MD, UC

[*Cecropia leucocoma* Miquel =Cecropia concolor Willdenow]
Ref. FP 13(2/2) 1937: 287; Berg, 1978a: 164.
Note: Not known from Peru.

Cecropia leucophaea Poeppig ex Miquel
Ref. FP 13(2/2) 1937: 287.
Tree. Andean II: cloud forests. 2000-3000 m.
Note: Accepted provisionally by Berg (pers. comm.).
Voucher: Poeppig 1593* (W photo F!), Peyton & Peyton 374 (MO!)
Depts.: CU, PA

Cecropia marginalis Cuatrecasas
Ref. Cuatrecasas, 1945: 285; Berg, pers. comm.
Tree. Amazonian: riversides, terra firme forests. 0-500 m.
Voucher: Kayap 1052 (MO!)
Depts.: AM

Cecropia membranacea Trécul
Syn. *Cecropia setico* Snethlage ex J. F. Macbride, *Cecropia tessmannii* Mildbraed
Ref. Berg, 1978a: 174; Spichiger *et al.*, 1989: 32; Berg, pers. comm.
Tree. Amazonian, Andean I, Coastal: disturbed areas, forests, riversides. 0-1000 m.
Voucher: Gentry *et al.* 61909 (MO!)
Depts.: AM, HU, LI, LO, MD, UC

Cecropia montana Warburg ex Snethlage
Syn. *Cecropia alexandrina* Cuatrecasas
Ref. FP 13(2/2) 1937: 287; Berg, pers. comm.
Tree. Amazonian, Andean I-II: disturbed areas, forests. 0-2500 m.
Voucher: Ule 6845* (B photo F!), Schunke 10595 (MO!)
Depts.: HU, PA, SM, UC

Cecropia multiflora Snethlage
Ref. FP 13(2/2) 1937: 288; Berg, pers. comm.
Endemic tree. Amazonian, Andean I: forests. 0-1500 m.
Voucher: Weberbauer 1837* (B photo F!), Núñez & Arque 8230 (MO!)
Depts.: AM, CU, JU

Cecropia nivea Poeppig ex Klotzsch
Ref. FP 13(2/2) 1937: 288.
Endemic tree.
Note: Accepted provisionally by Berg (pers. comm.).
Voucher: Poeppig 1837* (B photo F!)
Depts.: Without full locality data.

[Cecropia obtusa Trécul]
Ref. FP 13(2/2) 1937: 288; Berg, 1978a: 169; Berg, pers. comm.
Note: Not known from Peru.

Cecropia palmata Willdenow
Ref. Berg, 1978a: 162.
Tree. Amazonian: disturbed areas, forests. 0-500 m.
Voucher: Vásquez & Jaramillo 776 (MO!)
Depts.: AM, LO

Cecropia pinnatiloba Klotzsch =Cecropia polystachya Trécul
Ref. FP 13(2/2) 1937: 289.
Note: Although treated as a synonym in the Flora of Peru, Berg (pers. comm.) indicates that this may prove to be a distinct species.

Cecropia polystachya Trécul
Syn. *Cecropia flagellifera* Trécul, *Cecropia francisci* Snethlage, *Cecropia klotzschiana* Miquel, *Cecropia pinnatiloba* Klotzsch, *Cecropia ruiziana* Klotzsch, *Cecropia scabra* Ruiz ex Klotzsch, nom. illeg. non C. Martius
Ref. FP 13(2/2) 1937: 289; Berg, pers. comm.
Tree. Amazonian, Andean I: disturbed areas, forests, riversides. 0-1500 m.
Note: Berg (pers. comm.) indicates that *C. pinnatiloba* may deserve recognition as a distinct species.
Voucher: Ruiz & Pavón s.n.* (G photo F!), Chávez 1721 (MO!)
Depts.: AM, CU, HU, JU, LI, LO, MD, PA, SM

Cecropia putumayonis Cuatrecasas
Ref. Cuatrecasas, 1945: 278; Berg, pers. comm.
Tree. Amazonian, Andean I: disturbed areas, terra firme forests. 0-1000 m.
Voucher: Kayap 368 (MO!)
Depts.: AM, SM

Cecropia rugosa Cuatrecasas =Cecropia andina Cuatrecasas
Ref. Cuatrecasas, 1956b: 335; Berg, pers. comm.

Cecropia ruiziana Klotzsch =Cecropia polystachya Trécul
Ref. FP 13(2/2) 1937: 286.

Cecropia scabra Ruiz ex Klotzsch, nom. illeg. non C. Martius =Cecropia polystachya Trécul
Ref. FP 13(2/2) 1937: 286.

Cecropia sciadophylla C. Martius
Ref. FP 13(2/2) 1937: 289; Berg, 1978a: 181; Spichiger *et al.*, 1989: 35.
Tree. Amazonian, Andean I: disturbed areas, forests. 0-1000 m.
Voucher: Vásquez & Jaramillo 6074 (MO!)
Depts.: AM, HU, LO, MD, PA, UC

[Cecropia scutata Cuatrecasas]
Ref. Cuatrecasas, 1956b: 334.
Note: Not known from Peru. This species is from Colombia, not "Peru" as indicated in Cuatrecasas (1956b) and in *Index Kewensis*.

Cecropia setico Snethlage ex J. F. Macbride =Cecropia membranaceae Trécul
Ref. FP 13(2/2) 1937: 289; Berg, pers. comm.

Cecropia standleyi J. F. Macbride =Cecropia ficifolia Warburg ex Snethlage
Ref. FP 13(2/2) 1937: 289; Berg, pers. comm.

Cecropia strigosa Trécul
Ref. FP 13(2/2) 1937: 290.
Endemic tree.
Note: Known from Peru only from the type locality. Accepted provisionally by Berg (pers. comm.).
Voucher: Ruiz & Pavón s.n.* (FI-WEBB)
Depts.: Without full locality data.

Cecropia tessmannii Mildbraed =Cecropia membranacea Trécul
Ref. FP 13(2/2) 1937: 290; Berg, pers. comm.

Cecropia tubulosa Ruiz ex Klotzsch
Ref. FP 13(2/2) 1937: 290.
Endemic tree. Andean I: forests. 500-1000 m.
Note: Known from Peru only from the type locality. Accepted provisionally by Berg (pers. comm.).
Voucher: Ruiz & Pavón s.n.* (B photo F!)
Depts.: HU

Cecropia utcubambana Cuatrecasas
Ref. Cuatrecasas, 1982a: 157; Berg, pers. comm.
Endemic tree. Andean I: forests. 1000-1500 m.
Note: Known from Peru only from the type locality.
Voucher: Hutchison & Wright 3844* (MO!)
Depts.: AM

Coussapoa acutifolia Klotzsch =Coussapoa ovalifolia Trécul
Ref. FP 13(2/2) 1937: 296; Berg *et al.*, 1990: 84.

Coussapoa asperifolia Trécul subsp. **magnifolia** (Trécul) Akkermans & C. C. Berg
Syn. *Coussapoa magnifolia* Trécul, *Coussapoa ruizii* Klotzsch
Ref. FP 13(2/2) 1937: 296; Berg *et al.*, 1990: 36.
Shrub or tree. Amazonian, Andean I-II: riversides. 0-2000 m.
Voucher: Gentry *et al.* 21319 (MO)
Depts.: JU, LO, SM

Coussapoa asperifolia subsp. **rhamnoides** (Standley) Akkermans & C. C. Berg
Syn. *Coussapoa rhamnoides* Standley
Ref. Berg *et al.*, 1990: 38.
Shrub or tree. Amazonian: riversides. 0-500 m.
Voucher: Croat 20370 (F)
Depts.: LO

Coussapoa emarginata Killip ex J. F. Macbride =Pourouma minor Benoist
Ref. FP 13(2/2) 1937: 296; Berg *et al.*, 1990: 186.

Coussapoa grandiceps Killip =Coussapoa villosa Poeppig & Endlicher
Ref. FP 13(2/2) 1937: 297; Berg *et al.*, 1990: 99.

Coussapoa hirsuta Trécul =Coussapoa ovalifolia Trécul
Ref. FP 13(2/2) 1937: 297; Berg *et al.*, 1990: 84.

Coussapoa longepedunculata Akkermans & C. C. Berg
Ref. Berg *et al.*, 1990: 63.
Hemiepiphyte or tree. Amazonian: riversides, seasonally inundated areas. 0-500 m.
Voucher: Gentry *et al.* 27566* (MO!), Vásquez *et al.* 8600 (BG)
Depts.: LO

Coussapoa magnifolia Trécul =Coussapoa asperifolia subsp. magnifolia (Trécul) Akkermans & C. C. Berg
Ref. FP 13(2/2) 1937: 297; Berg *et al.*, 1990: 36.

Coussapoa manuensis C. C. Berg
Ref. Berg *et al.*, 1990: 66.
Endemic hemiepiphyte, shrub or tree. Amazonian: terra firme forests. 0-500 m.
Note: Known from Peru only from the type locality.
Voucher: Foster 5641* (F)
Depts.: MD

Coussapoa nitida Miquel
Syn. *Coussapoa schunkei* Standley
Ref. Berg *et al.*, 1990: 75.
Hemiepiphyte or tree. Amazonian: forests, riversides. 0-500 m.
Voucher: Croat 18850 (MO!, USM!)
Depts.: LO

Coussapoa orthoneura Standley
Ref. Berg *et al.*, 1990: 80.
Hemiepiphyte or tree. Amazonian, Andean I: forests, riversides. 0-1000 m.
Voucher: Gentry *et al.* 18528 (MO!, USM!)
Depts.: AM, LO

Coussapoa ovalifolia Trécul
Syn. *Coussapoa acutifolia* Klotzsch, *Coussapoa hirsuta* Trécul, *Coussapoa puberula* Klotzsch, *Coussapoa setosa* Klotzsch
Ref. FP 13(2/2) 1937: 298; Berg *et al.*, 1990: 82.
Hemiepiphyte or tree. Amazonian, Andean I: forests, riversides. 0-1000 m.
Voucher: Ruiz & Pavón s.n.* (F), Berlin 1531 (MO!)
Depts.: AM, HU, JU, LO, MD, SM

Coussapoa parvifolia Standley
Ref. Berg *et al.*, 1990: 87.
Hemiepiphyte or tree. Amazonian: terra firme forests. 0-500 m.
Voucher: van der Werff *et al.* 10148 (MO!)
Depts.: LO

Coussapsapoa puberula Klotzsch =Coussapoa ovalifolia Trécul
Ref. FP 13(2/2) 1937: 298; Berg *et al.*, 1990: 84.

Coussapoa rhamnoides Standley =Coussapoa asperifolia subsp. rhamnoides (Standley) Akkermans & C. C. Berg
Ref. Berg *et al.*, 1990: 38.

Coussapoa ruizii Klotzsch =Coussapoa asperifolia subsp. magnifolia (Trécul) Akkermans & C. C. Berg
Ref. FP 13(2/2) 1937: 297; Berg *et al.*, 1990: 36.

Coussapoa schunkei Standley =Coussapoa nitida Miquel
Ref. Berg *et al.*, 1990: 75.

Coussapoa setosa Klotzsch =Coussapoa ovalifolia Trécul
Ref. FP 13(2/2) 1937: 297; Berg *et al.*, 1990: 84.

Coussapoa standleyi J. F. Macbride =Coussapoa villosa Poeppig & Endlicher
Ref. FP 13(2/2) 1937: 298; Berg *et al.*, 1990: 99.

Coussapoa tessmannii Mildbraed
Ref. FP 13(2/2) 1937: 298; Berg *et al.*, 1990: 93.
Hemiepiphyte, shrub or tree. Amazonian: forests, riversides. 0-500 m.
Voucher: Tessmann 4673* (B), Vásquez & Jaramillo 13033 (MO!)
Depts.: LO

Coussapoa trinervia Spruce ex Mildbraed
Ref. Berg *et al.*, 1990: 95.
Hemiepiphyte or tree. Amazonian: forests, seasonally inundated areas. 0-500 m.
Voucher: Croat 20411 (MO!, USM!)
Depts.: LO

Coussapoa vellerea Klotzsch =Coussapoa villosa Poeppig & Endlicher
Ref. FP 13(2/2) 1937: 299; Berg *et al.*, 1990: 99.

Coussapoa villosa Poeppig & Endlicher
Syn. *Coussapoa grandiceps* Killip, *Coussapoa standleyi* J. F. Macbride, *Coussapoa vellerea* Klotzsch
Ref. FP 13(2/2) 1937: 299; Berg *et al.*, 1990: 99.
Hemiepiphyte, shrub or tree. Amazonian,

Andean I-II: cloud forests, riversides, seasonally inundated areas. 0-2500 m.
Voucher: Poeppig s.n.* (B), Grández & Jaramillo 2059 (MO!)
Depts.: AM, HU, JU, LO, MD

Pourouma acuminata C. Martius ex Miquel
Ref. Berg *et al.*, 1990: 173.
Tree. Amazonian: seasonally inundated areas, terra firme forests. 0-500 m.
Voucher: Rimachi 3256 (MO!)
Depts.: LO

Pourouma apiculata Spruce ex Benoist =Pourouma tomentosa subsp. apiculata (Spruce ex Benoist) C. C. Berg & van Heusden
Ref. Berg *et al.*, 1990: 168.

Pourouma bicolor C. Martius subsp. **bicolor**
Ref. Berg *et al.*, 1990: 133.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 20356 (MO!)
Depts.: AM, LO

Pourouma bicolor subsp. **scobina** (Benoist) C. C. Berg & van Heusden
Syn. *Pourouma scobina* Benoist
Ref. Berg *et al.*, 1990: 139.
Tree. Amazonian, Andean I-II: terra firme forests. 0-2000 m.
Voucher: Gentry *et al.* 42168 (MO!)
Depts.: LO, SM

Pourouma bicolor subsp. **tessmannii** (Mildbraed) C. C. Berg & van Heusden
Syn. *Pourouma tessmannii* Mildbraed
Ref. Berg *et al.*, 1990: 137.
Endemic tree. Amazonian, Andean I. 0-1000 m.
Voucher: Tessmann 4236* (US), Gentry *et al.* 1604 (MO!)
Depts.: AM, HU, LO, PA

Pourouma cecropiifolia C. Martius
Syn. *Pourouma multifida* Trécul
Ref. FP 13(2/2) 1937: 291; Berg *et al.*, 1990: 144.
Tree. Amazonian, Andean I: disturbed areas, forests, seasonally inundated areas. 0-1000 m.
Note: Often cultivated for its fruit; the occurrence of this species often indicates previous human habitation at a site.
Voucher: Croat 20662 (MO!, USM!)
Depts.: AM, HU, JU, LO, MD, PA, SM, UC

Pourouma cucura Standley & Cuatrecasas
Ref. Berg *et al.*, 1990: 147.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Rimachi 2724 (MO!)
Depts.: LO, MD

Pourouma cuspidata Mildbraed
Ref. Berg *et al.*, 1990: 149.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 41890 (BG)
Depts.: PA

Pourouma folleata J. F. Macbride =Pourouma minor Benoist
Ref. FP 13(2/2) 1937: 292; Berg *et al.*, 1990: 186.

Pourouma guianensis Aublet subsp. **guianensis**
Syn. *Pourouma palmata* Poeppig & Endlicher, *Pourouma substrigosa* Mildbraed
Ref. Berg *et al.*, 1990: 123.
Tree. Amazonian, Andean I: forests. 0-1000 m.
Voucher: Mexia 8172 (MO!)
Depts.: AM, CU, HU, LO, MD, PA, SM

Pourouma herrerensis C. C. Berg
Ref. Berg *et al.*, 1990: 190.
Endemic tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Spichiger *et al.* 1995* (G), Vásquez *et al.* 7535 (BG)
Depts.: LO

Pourouma jussieuana Trécul =Pourouma mollis subsp. triloba (Trécul) C. C. Berg & van Heusden
Ref. FP 13(2/2) 1937: 292; Berg *et al.*, 1990: 156.

Pourouma melinonii Benoist subsp. **melinonii**
Ref. Berg *et al.*, 1990: 160.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Ancuash 290 (MO!)
Depts.: AM, LO

Pourouma minor Benoist
Syn. *Coussapoa emarginata* Killip ex J. F. Macbride, *Pourouma folleata* J. F. Macbride
Ref. Berg *et al.*, 1990: 186.
Tree. Amazonian, Andean I-II: terra firme forests. 0-2000 m.
Voucher: Gentry *et al.* 36309 (MO!)
Depts.: AM, HU, JU, LO, MD, UC

Pourouma mollis Trécul subsp. **triloba** (Trécul) C. C. Berg & van Heusden
Syn. *Pourouma jussieuana* Trécul, *Pourouma triloba* Klotzsch, *Pourouma triloba* Trécul
Ref. Berg *et al.*, 1990: 156.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Smith 6906 (MO!)
Depts.: AM, HU, JU, LO, MD, PA, SM, UC

Pourouma multifida Trécul =Pourouma cecropiifolia C. Martius
Ref. FP 13(2/2) 1937: 291; Berg *et al.*, 1990: 144.

Pourouma myrmecophila Ducke
Ref. Berg *et al.*, 1990: 150.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: McDaniel *et al.* 20436 (U)
Depts.: LO

Pourouma oraria Standley & Cuatrecasas
Ref. Berg *et al.*, 1990: 180.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Vásquez & Jaramillo 12773 (MO!)
Depts.: LO

Pourouma ovata Trécul
Ref. Berg *et al.*, 1990: 181.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: McDaniel & Rimachi 29726 (MO!)
Depts.: LO

Pourouma palmata Poeppig & Endlicher =Pourouma guianensis subsp. guianensis
Ref. FP 13(2/2) 1937: 293; Berg *et al.*, 1990: 123.

Pourouma phaeotricha Mildbraed
Ref. FP 13(2/2) 1937: 293; Berg *et al.*, 1990: 152.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Tessmann 5364* (US), Davidson 5203 (MO!)
Depts.: LO

Pourouma scobina Benoist =Pourouma bicolor subsp. scobina (Benoist) C. C. Berg & van Heusden
Ref. Berg *et al.*, 1990: 139.

Pourouma substrigosa Mildbraed =Pourouma guianensis subsp. guianensis
Ref. FP 13(2/2) 1937: 293; Berg *et al.*, 1990: 123.

Pourouma tessmannii Mildbraed =Pourouma bicolor subsp. tessmannii (Mildbraed) C. C. Berg & van Heusden
Ref. FP 13(2/2) 1937: 294; Berg *et al.*, 1990: 137.

Pourouma tomentosa C. Martius subsp. **apiculata** (Spruce ex Benoist) C. C. Berg & van Heusden
Syn. *Pourouma apiculata* Spruce ex Benoist
Ref. Berg *et al.*, 1990: 168.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: Gentry *et al.* 39264 (BG)
Depts.: LO

Pourouma tomentosa subsp. **persecta** Standley ex C. C. Berg & van Heusden
Ref. Berg *et al.*, 1990: 169.
Tree. Amazonian, Andean I-II. 0-2000 m.
Voucher: Vásquez *et al.* 809 (BG)
Depts.: LO, PA

Pourouma tomentosa subsp. **tomentosa**
Ref. Berg *et al.*, 1990: 166.
Tree. Amazonian, Andean I-II: terra firme forests. 0-2000 m.
Voucher: Ruiz 1189 (MO!)
Depts.: AM, LO, PA

Pourouma triloba Klotzsch =Pourouma mollis subsp. triloba (Trécul) C. C. Berg & van Heusden

Ref. FP 13(2/2) 1937: 294; Berg *et al.*, 1990: 156.

Pourouma triloba Trécul =Pourouma mollis subsp. triloba (Trécul) C. C. Berg & van Heusden
Ref. FP 13(2/2) 1937: 294; Berg *et al.*, 1990: 156.

[Pourouma ulei Warburg]
Ref. FP 13(2/2) 1937: 294; Berg *et al.*, 1990: 194.
Note: Not known from Peru. The specimen cited in the Flora of Peru was redetermined by Berg *et al.* (1990) as *P. cecropiifolia*.

Pourouma velutina C. Martius ex Miquel
Ref. Berg *et al.*, 1990: 129.
Tree. Amazonian: terra firme forests. 0-500 m.
Voucher: McDaniel *et al.* 20403 (NA)
Depts.: LO

Celastraceae

8 genera and 27 species in Peru.

Endemic species: 6.

Prepared by R. L. Liesner (MO); reviewed by B. A. Prigge (LA).

Celastrus columbianus Cuatrecasas
Syn. *Celastrus racemosus* (Reissek) Loesener, nom. illeg., *Ilex scandens* Cuatrecasas (Aquifoliaceae), *Maytenus racemosa* Reissek
Ref. Cuatrecasas, 1951b: 81.
Liana. Andean II: cloud forests. 2000-3000 m.
Voucher: Woytkowski 6919 (MO!)
Depts.: CA

Celastrus confertus R. & P. =Maytenus conferta (R. & P.) Reissek ex Loesener
Ref. FP 13(3A/1) 1951: 263.

Celastrus emarginatus R. & P. =Maytenus retusa (Poiret) Briquet
Ref. FP 13(3A/1) 1951: 267.

Celastrus macrocarpus R. & P. =Maytenus macrocarpa (R. & P.) Briquet
Ref. FP 13(3A/1) 1951: 265.

Celastrus octogonus L'Héritier =Maytenus octogona (L'Héritier) DC.
Ref. FP 13(3A/1) 1951: 266.

Celastrus orbicularis Willdenow ex Roemer & Schultes =Maytenus octogona (L'Héritier) DC.
Ref. FP 13(3A/1) 1951: 266.

Celastrus racemosus (Reissek) Loesener, nom. illeg. =Celastrus colombianus Cuatrecasas

Celastrus retusus Poiret =Maytenus retusa (Poiret) Briquet
Ref. FP 13(3A/1) 1951: 267.

Celastrus verticillatus R. & P. =Maytenus verticillata (R. & P.) DC.
Ref. FP 13(3A/1) 1951: 268.

Crossopetalum eucymosum (Loesener & Pittier) Lundell
Syn. *Myginda eucymosa* Loesener & Pittier
Ref. Lundell, 1961: 7.
Shrub. Amazonian. 0-500 m.
Note: Cited voucher tentatively determined.
Voucher: Ellenberg 3559 (MO!)
Depts.: AM

Goupia glabra Aublet
Tree. Amazonian: forests. 0-500 m.
Voucher: Vásquez 8731 (MO!)
Depts.: LO

Gymnosporia gentryi Lundell
Ref. Lundell, 1985b: 313.
Tree. Amazonian: forests. 0-500 m.
Note: May include an additional undescribed species (Lundell, 1985b).
Voucher: Gentry 29652 (MO!)
Depts.: LO

Gymnosporia magnifolia (Loesener) Lundell
Syn. *Maytenus magnifolia* Loesener
Ref. FP 13(3A/1) 1951: 269; Lundell, 1985b: 314.
Shrub or tree. Amazonian: forests. 0-500 m.
Voucher: Núñez 6940 (MO!)
Depts.: HU, LO, MD, PA, SM

Gymnosporia urbaniana (Loesener) Liesner
Syn. *Rhacoma urbaniana* Loesener
Endemic shrub or tree. Andean I: forests. 500-1000 m.
Note: New combination made in Appendix 1.
Voucher: Weberbauer 1875* (B photo F!)
Depts.: JU

Haenkea macrocarpa (R. & P.) Steudel =Maytenus macrocarpa (R. & P.) Briquet
Ref. FP 13(3A/1) 1951: 266.

Haenkea multiflora R. & P. =Maytenus macrocarpa (R. & P.) Briquet
Ref. FP 13(3A/1) 1951: 265.

Maytenus alaternoides Reissek
Syn. *Maytenus alaternoides* var. *peruana* Loesener
Ref. FP 13(3A/1) 1951: 260.
Shrub. Andean II. 2000-2500 m.
Voucher: Weberbauer 5066 (B)
Depts.: CU

Maytenus alaternoides var. *peruana* Loesener =Maytenus alaternoides Reissek
Ref. FP 13(3A/1) 1951: 261.

Maytenus andicola Loesener
Ref. FP 13(3A/1) 1951: 261.
Endemic shrub. Andean II-III: forests, rocky slopes. 2000-4000 m.
Voucher: Weberbauer 5507* (B), Dillon 1356 (MO!)
Depts.: AN, AY, CU, JU, LL

Maytenus apurimacensis Loesener
Syn. *Maytenus apurimacensis* var. *trollii* Loesener
Ref. FP 13(3A/1) 1951: 262.
Shrub. Andean II: forests. 2000-3000 m.
Voucher: Weberbauer 5873* (B photo F!), Cano 2360 (MO!)
Depts.: AN, AP, CU, LI, LL

Maytenus apurimacensis var. *trollii* Loesener =Maytenus apurimacensis Loesener
Ref. FP 13(3A/1) 1951: 262.

Maytenus boarioides Loesener
Ref. FP 13(3A/1) 1951: 262.
Voucher: Weberbauer 7600 (B)
Depts.: HU

[*Maytenus chuchuhuasha* Raymond-Hamet & Colas]
Ref. FP 13(3A/1) 1951: 265.
Note: This name is not validly published and is of uncertain application (Prigge, pers. comm.).

Maytenus conferta (R. & P.) Reissek ex Loesener
Syn. *Celastrus confertus* R. & P.
Ref. FP 13(3A/1) 1951: 263.
Shrub or tree. Andean II-III. 2000-4000 m.
Voucher: Ruiz & Pavón s.n.* (B photo F!), Núñez 7203 (MO!)
Depts.: AP, CA, CU, HU, SM

Maytenus cuzcoina Loesener
Ref. FP 13(3A/1) 1951: 263.
Endemic shrub. Andean II. 2500-3500 m.
Voucher: Weberbauer 2915* (G photo F!), Tupayachi 1004 (MO!)
Depts.: AN, AY, CU

Maytenus durifolia Briquet
Ref. FP 13(3A/1) 1951: 264.
Endemic tree. Andean I-II: forests. 500-2000 m.
Note: Probably conspecific with *Maytenus macrocarpa*.
Voucher: Ruiz & Pavón 564* (G photo F!), Sagástegui 9734 (MO!)
Depts.: CA, TU

Maytenus jelskii Zahlbruchner
Syn. *Maytenus mathewsii* Briquet
Ref. FP 13(3A/1) 1951: 264.
Shrub or tree. Andean II: forests. 2000-3500 m.
Voucher: Jelski 289* (B photo F!), Mostacero 1281 (MO!)
Depts.: AM, CA, CU, LA, LL

[Maytenus krukovii A. C. Smith]
Ref. FP 13(3A/1) 1951: 265.
Note: Not known from Peru.

Maytenus macrocarpa (R. & P.) Briquet
Syn. *Celastrus macrocarpus* R. & P., *Haenkea macrocarpa* (R. & P.) Steudel, *Haenkea multiflora* R. & P., *Maytenus*

multiflora (R. & P.) Loesener, *Maytenus tarapotensis* Briquet
Ref. FP 13(3A/1) 1951: 265.
Tree. Amazonian, Andean I-II: seasonally inundated areas, terra firme forests. 0-2500 m.
Note: May include an additional undescribed species.
Voucher: Ruiz & Pavón s.n.* (B-WILLD photo F!), Vásquez 6683 (MO!)
Depts.: AM, HU, LO, MD, PA, SM, TU, UC

Maytenus magnifolia Loesener =Gymnosporia magnifolia (Loesener) Lundell
Ref. Ule, 1907: 176.

Maytenus mathewsii Briquet =Maytenus jelskii Zahlbruchner
Ref. FP 13(3A/1) 1951: 264.

Maytenus multiflora (R. & P.) Loesener =Maytenus macrocarpa (R. & P.) Briquet
Ref. FP 13(3A/1) 1951: 265.

Maytenus obovata Hooker f. =Maytenus octogona (L'Héritier) DC.
Ref. FP 13(3A/1) 1951: 266.

Maytenus octogona (L'Héritier) DC.
Syn. *Celastrus octogonus* L'Héritier, *Celastrus orbicularis* Willdenow ex Roemer & Schultes, *Maytenus obovata* Hooker f., *Maytenus orbicularis* (Willdenow ex Roemer & Schultes) Loesener, *Maytenus uliginosa* H.B.K., *Ziziphus peruviana* Lamarck (Rhamnaceae).
Ref. FP 13(3A/1) 1951: 266.
Shrub. Andean II-III, Coastal: forests, shrublands. 0- > 4500 m.
Voucher: Ferreyra 16235 (MO!)
Depts.: AN, IC, LA, LI, LL, PI, TA, TU

Maytenus orbicularis (Willdenow ex Roemer & Schultes) Loesener =Maytenus octogona (L'Héritier) DC.
Ref. FP 13(3A/1) 1951: 266.

Maytenus pavonii Briquet
Ref. FP 13(3A/1) 1951: 266.
Endemic shrub. Andean II: forests. 2500-3500 m.
Voucher: Pavón s.n.* (G photo F), Valencia 2046 (MO!)
Depts.: AM, PI

Maytenus pseudoboaria Loesener
Syn. *Maytenus pseudoboaria* var. *monantha* Loesener, *Maytenus pseudoboaria* var. *triantha* Loesener
Ref. FP 13(3A/1) 1951: 266.
Shrub or tree. Andean II. 3000-3500 m.
Voucher: Ruiz & Pavón s.n.* (MA photo F!)
Depts.: CU, HU, JU

Maytenus pseudoboaria var. *monantha* Loesener =Maytenus pseudoboaria Loesener
Ref. FP 13(3A/1) 1951: 266.

Maytenus pseudoboaria var. *triantha* Loesener =Maytenus pseudoboaria Loesener
Ref. FP 13(3A/1) 1951: 266.

Maytenus racemosa Reissek =Celastrus colombianus Cuatrecasas

Maytenus retusa (Poiret) Briquet
Syn. *Celastrus emarginatus* R. & P., *Celastrus retusus* Poiret
Ref. FP 13(3A/1) 1951: 267.
Tree. Amazonian, Andean I-II: terra firme forests. 0-2500 m.
Note: Probably conspecific with *Maytenus macrocarpa*.
Voucher: Ruiz & Pavón s.n.* (B photo F!), Gentry 37828 (MO!)
Depts.: SM

Maytenus sprucei Briquet
Tree. Amazonian. 0-500 m.
Voucher: Spruce 3970* (C photo F!), Núñez 5934 (MO!)
Depts.: MD, SM

Maytenus tarapotensis Briquet =Maytenus macrocarpa (R. & P.) Briquet
Ref. FP 13(3A/1) 1951: 268.

Maytenus theoides (Bentham) Urban
Syn. *Myginda theoides* Bentham
Note: Loesener lists this species as being from the Andes but not specifically from Peru (Prigge, pers. comm.).
Voucher: Hartweg 726* (B photo F!)
Depts.: Without full locality data.

Maytenus uliginosa H.B.K. =Maytenus octogona (L'Héritier) DC.
Ref. FP 13(3A/1) 1951: 266.

Maytenus verticillata (R. & P.) DC.
Syn. *Celastrus verticillatus* R. & P.
Ref. FP 13(3A/1) 1951: 268.
Shrub or tree. Andean I-II: forests, rocky slopes. 1000-3500 m.
Voucher: Ruiz & Pavón s.n.* (B-WILLD photo F!), Núñez 8636 (MO!)
Depts.: AM, AP, AY, CU, HU, JU

Myginda eucymosa Loesener & Pittier =Crossopetalum eucymosum (Loesener & Pittier) Lundell
Ref. Lundell, 1961: 7.

Myginda theoides Bentham =Maytenus theoides (Bentham) Urban

Perrottetia gentryi Lundell
Ref. Lundell, 1985c: 453; Lundell, 1985a: 234.
Shrub or tree. Andean II: cloud forests. 1500-2500 m.
Voucher: Gentry 36156* (MO!), Gentry 39904 (MO!)
Depts.: HU, PA

Perrottetia sessiliflora Lundell
Ref. Lundell, 1985a: 237.
Tree. Amazonian, Andean II: forests, cloud forests. 0-2500 m.
Note: Lundell (1985a) lists this species as only from Panamá and Costa Rica. The Peruvian material should be rechecked (Prigge, pers. comm.).
Voucher: Chávez 1819 (MO!)
Depts.: SM

Rhacoma urbaniana Loesener =Gymnosporia urbaniana (Loesener) Liesner
Ref. FP 13(3A/1) 1951: 269.

Schaefferia dietheri Herter
Ref. Herter, 1940: 155.
Shrub. Andean II. 3000-3500 m.
Note: Cited voucher tentatively determined; possibly a new species.
Voucher: Núñez 8950 (MO!)
Depts.: CU

Schaefferia serrata Loesener
Ref. FP 13(3A/1) 1951: 270.
Endemic shrub. Andean I-II. 1000-2000 m.
Voucher: Weberbauer 4811* (B photo F!), Llatas 1647 (MO!)
Depts.: PA, PI

Zinowiewia australis Lundell
Ref. Lundell, 1938: 469.
Tree. Andean I: forests. 1000-1500 m.
Voucher: Smith 5178 (MO!)
Depts.: PA

Ceratophyllaceae

1 genus and 2 species in Peru.

Prepared by J. L. Zarucchi.

Ceratophyllum australe Grisebach =Ceratophyllum muricatum subsp. australe (Grisebach) Les
Ref. Les, 1988: 85.

Ceratophyllum demersum L.
Ref. Les, 1988: 231.
Aquatic herb. Amazonian: submerged. 0-500 m.
Voucher: McDaniel 24173 (IBE!)
Depts.: LO, SM

Ceratophyllum muricatum Chamisso subsp. **australe** (Grisebach) Les
Syn. *Ceratophyllum australe* Grisebach
Ref. Les, 1988: 85.
Aquatic herb. Amazonian: submerged. 0-500 m.
Voucher: Encarnación 26272 (US)
Depts.: LO

Chenopodiaceae

4 genera and 20 species in Peru.

Endemic species: 1.

Prepared by L. Brako.

Atriplex atacamensis Philippi
Shrub. Andean II: disturbed areas. 3000-3500 m.

Voucher: Hutchison & Wright 7181 (MO!)
Depts.: TA

Atriplex espostoi Spegazzini =Atriplex rotundifolia (Moquin) Dombey ex Moquin
Ref. FP 13(2/2) 1937: 477.

Atriplex herzogii Standley
Syn. *Atriplex serpyllifolia* Herzog
Ref. FP 13(2/2) 1937: 477.
Note: Not reconfirmed

Atriplex imbricata (Moquin) D. Dietrich
Syn. *Atriplex microphylla* Philippi, *Obione imbricata* Moquin
Ref. Gutte *et al.*, 1986: 190.
Herb. Amazonian, Andean I-II, Coastal: lomas. 0-3500 m.
Voucher: López 007 (MO!)
Depts.: AR, TA

Atriplex microphylla Philippi =Atriplex imbricata (Moquin) D. Dietrich
Ref. Gutte *et al.*, 1986: 190.

Atriplex peruviana Moquin
Syn. *Chenopodium cinereum* Moquin
Ref. FP 13(2/2) 1937: 476.
Shrub. Andean I-II, Coastal: lomas, riversides. 500-3000 m.
Voucher: Gaudichaud 68* (MO!), Weberbauer 7366 (B)
Depts.: AR, TA

Atriplex rotundifolia (Moquin) Dombey ex Moquin
Syn. *Atriplex espostoi* Spegazzini, *Obione rotundifolia* Moquin
Ref. FP 13(2/2) 1937: 477.
Endemic herb or subshrub. Coastal: lomas, rocky slopes. 0-500 m.
Voucher: Dombey s.n.*, Mostacero *et al.* 1423 (MO!)
Depts.: AR, CA, LL

Atriplex semibaccata R. Brown
Ref. Gutte *et al.*, 1986: 190.
Shrub. Coastal: lomas. 0-500 m.
Voucher: Mueller *et al.* 1980 (LZ, USM)
Depts.: AR, LI, TA

Atriplex serpyllifolia Herzog =Atriplex herzogii Standley
Ref. FP 13(2/2) 1937: 477.

Atriplex taltalensis Johnston
Herb. Coastal: lomas. 0-500 m.
Voucher: López 69 (MO!)
Depts.: AR

Chenopodium album L.
Ref. Gutte *et al.*, 1986: 190.
Herb. Andean I-III, Coastal. 0-4000 m.
Voucher: Aranjo s.n. (MO!)
Depts.: CU, LI, LL

Chenopodium ambrosioides L. var. **ambrosioides**
Syn. *Chenopodium anthelminticum* L.
Ref. FP 13(2/2) 1937: 471.
Herb. Amazonian, Andean I-III, Coastal: disturbed areas. 0-4000 m.
Voucher: Vargas 1228 (MO!)
Depts.: CA, CU, HU, LA, LI, LO, SM

Chenopodium ambrosioides subsp. **chilense** (Schrader) Aellen
Syn. *Chenopodium chilense* Schrader, *Chenopodium vagans* Standley
Ref. FP 13(2/2) 1937: 472.
Note: Not reconfirmed.

Chenopodium anthelminticum L. =Chenopodium ambrosioides var. ambrosioides
Ref. FP 13(2/2) 1937: 471.

Chenopodium canihua Cook =Chenopodium quinoa Willdenow
Ref. FP 13(2/2) 1937: 475.

Chenopodium caudatum Jacquin =Amaranthas virdis L. (Amaranthaceae)
Ref. FP 13(2/2) 1937: 486.

Chenopodium chilense Schrader =Chenopodium ambrosioides subsp. chilense (Schrader) Aellen
Ref. FP 13(2/2) 1937: 472.

Chenopodium cinereum Moquin =Atriplex peruviana Moquin
Ref. FP 13(2/2) 1937: 476.

Chenopodium hircinum Schrader
Syn. *Chenopodium hircinum* subsp. *eu-hircinum* var. *andinum* Aellen
Ref. FP 13(2/2) 1937: 472.
Herb. Coastal: disturbed areas. 0-500 m.
Voucher: Sagástegui 7832 (MO!)
Depts.: AN, LL

Chenopodium hircinum subsp. *eu-hircinum* Aellen var. *andinum* Aellen =Chenopodium hircinum Schrader
Ref. FP 13(2/2) 1937: 472.

Chenopodium incisum var. *bangii* Murr fo. *rotundifolium* Aellen =Chenopodium incisum Poiret
Ref. FP 13(2/2) 1937: 473.

Chenopodium incisum Poiret
Syn. *Chenopodium incisum* var. *bangii* Murr fo. *rotundifolium* Aellen
Ref. FP 13(2/2) 1937: 473.
Herb. Andean II: rocky slopes. 2000-3500 m.
Voucher: Pennell 13128
Depts.: AR, CA

Chenopodium macrospermum Hooker f.
Ref. Gutte *et al.*, 1986: 191.
Herb. Andean II. 3000-3500 m.
Voucher: Gutte & Müller 9470 (LZ, USM)
Depts.: CU, LI

Chenopodium multifidum L.
Syn. *Roubieva multifida* Moquin
Ref. FP 13(2/2) 1937: 473.
Herb. Coastal: disturbed areas. 0-500 m.
Voucher: Llatas 841 (MO!)
Depts.: LA

Chenopodium murale L.
Ref. FP 13(2/2) 1937: 474.
Herb. Andean I-II, Coastal: disturbed areas, rocky slopes. 0-2500 m.
Voucher: Vargas 668 (MO!)
Depts.: AR, CU, JU, LI

Chenopodium nuttalliae Safford =Chenopodium quinoa Willdenow
Ref. FP 13(2/2) 1937: 475.

Chenopodium pallidicaule Aellen
Ref. FP 13(2/2) 1937: 474; Hunziker, 1952: 40.
Herb. Amazonian, Andean I-III. 0-4000 m.
Voucher: Cook & Gilbert 161*, Vargas 228
Depts.: CU, JU, PU

Chenopodium paniculatum Hooker =Chenopodium petiolare H.B.K.
Ref. FP 13(2/2) 1937: 474.

Chenopodium paniculatum var. *incanum* Murr =Chenopodium petiolare H.B.K.
Ref. FP 13(2/2) 1937: 474.

Chenopodium paniculatum var. *reniforme* Murr =Chenopodium petiolare H.B.K.
Ref. FP 13(2/2) 1937: 474.

Chenopodium petiolare fo. *hastatum* (Philippi) Aellen =Chenopodium petiolare H.B.K.
Ref. FP 13(2/2) 1937: 474.

Chenopodium petiolare fo. *hookeri* Aellen =Chenopodium petiolare H.B.K.
Ref. FP 13(2/2) 1937: 474.

Chenopodium petiolare fo. *incanum* Aellen =Chenopodium petiolare H.B.K.
Ref. FP 13(2/2) 1937: 474.

Chenopodium petiolare fo. *reniforme* Aellen =Chenopodium petiolare H.B.K.
Ref. FP 13(2/2) 1937: 475.

Chenopodium petiolare fo. *scutatum* Aellen =Chenopodium petiolare H.B.K.
Ref. FP 13(2/2) 1937: 474.

Chenopodium petiolare fo. *trilobum* Aellen =Chenopodium petiolare H.B.K.
Ref. FP 13(2/2) 1937: 475.

Chenopodium petiolare H.B.K.
Syn. *Chenopodium paniculatum* Hooker, *Chenopodium paniculatum* var. *incanum* Murr, *Chenopodium paniculatum* var. *reniforme* Murr, *Chenopodium petiolare* fo. *hastatum* (Philippi) Aellen, *Chenopodium petiolare* fo. *hookeri* Aellen, *Chenopodium petiolare* fo. *incanum* Aellen, *Chenopodium petiolare* fo. *reniforme* Aellen, *Chenopodium petiolare* fo. *scutatum* Aellen, *Chenopodium petiolare* fo. *trilobum* Aellen
Ref. FP 13(2/2) 1937: 474.
Herb. Andean I-III, Coastal: deserts, disturbed areas, lomas, riversides, rocky slopes. 0-4000 m.

Voucher: Sagástegui & Mostacero 10450 (MO!)
Depts.: AR, AY, CU, HU, JU, LI, LL, MO, TA

Chenopodium purpurascens var. *punctulatum* Moquin =Chenopodium quinoa Willdenow
Ref. FP 13(2/2) 1937: 475.

Chenopodium quinoa fo. *purpureum* Aellen =Chenopodium quinoa Willdenow
Ref. FP 13(2/2) 1937: 475.

Chenopodium quinoa Willdenow
Syn. *Chenopodium canihua* Cook, *Chenopodium nuttalliae* Safford, *Chenopodium purpurascens* var. *punctulatum* Moquin, *Chenopodium quinoa* fo. *purpureum* Aellen
Ref. FP 13(2/2) 1937: 476.
Cultivated herb. Andean I-III, Coastal: disturbed areas. 0-4000 m.
Voucher: Brunel 942 (MO!)
Depts.: AY, CU, JU, LL, PU

Chenopodium vagans Standley =Chenopodium ambrosioides subsp. chilense (Schrader) Aellen
Ref. FP 13(2/2) 1937: 472.

Obione imbricata Moquin =Atriplex imbricata (Moquin) D. Dietrich

Obione rotundifolia Moquin =Atriplex rotundifolia (Moquin) Dombey ex Moquin
Ref. FP 13(2/2) 1937: 477.

Roubieva multifida Moquin =Chenopodium multifidum L.
Ref. FP 13(2/2) 1937: 473.

Salicornia biloba Kunze ex Fenzl =Salicornia fruticosa L.
Ref. FP 13(2/2) 1937: 470.

Salicornia equisetifolia Willdenow ex Moquin =Salicornia fruticosa L.
Ref. FP 13(2/2) 1937: 470.

Salicornia fruticosa L.
Syn. *Salicornia biloba* Kunze ex Fenzl, *Salicornia equisetifolia* Willdenow ex Moquin, *Salicornia gaudichaudiana* Moquin, *Salicornia neei* Lagasca, *Salicornia peruviana* H.B.K.
Ref. FP 13(2/2) 1937: 469.
Aquatic herb. Coastal. 0-500 m.
Voucher: Eyerdam 25371 (MO!)
Depts.: AR, LL

Salicornia gaudichaudiana Moquin =Salicornia fruticosa L.
Ref. FP 13(2/2) 1937: 469.

Salicornia neei Lagasca =Salicornia fruticosa L.
Ref. FP 13(2/2) 1937: 470.

Salicornia perennis (Miller) A. J. Scott
Herb. Coastal. 0-1000 m.
Voucher: Vargas 4681 (MO!)
Depts.: LI

Salicornia peruviana H.B.K. =Salicornia fruticosa L.
Ref. FP 13(2/2) 1937: 469.

Suaeda divaricata var. *tenuifolia* Reiche =Suaeda foliosa var. tenuifolia (Philippi) Standley
Ref. FP 13(2/2) 1937: 470.

Suaeda foliosa Moquin var. **foliosa**
Ref. FP 13(2/2) 1937: 470; Galán, 1989: 195.
Note: Not reconfirmed.

Suaeda foliosa var. **tenuifolia** (Philippi) Standley
Syn. *Suaeda divaricata* var. *tenuifolia* Reiche, *Suaeda tenuifolia* Philippi
Ref. FP 13(2/2) 1937: 470.
Note: Not reconfirmed.

Suaeda tenuifolia Philippi =Suaeda foliosa var. tenuifolia (Philippi) Standley
Ref. FP 13(2/2) 1937: 470.

Chloranthaceae

1 genus and 14 species in Peru.

Endemic species: 3.

Prepared by L. Brako; reviewed by C. A. Todzia (TEX).

Hedyosmum angustifolium (R. & P.) Solms-Laubach
Syn. *Hedyosmum laciniatum* (R. & P.) Solms-Laubach, *Hedyosmum scabrum* var. *pavonii* Solms-Laubach, *Tafalla angustifolia* R. & P., *Tafalla laciniata* R. & P.
Ref. FP 13(2/2) 1937: 260; Todzia, 1988: 111.
Shrub or tree. Andean I-II: disturbed areas, forest. 500-3500 m.
Voucher: Ruiz & Pavón s.n.* (MA), Rimachi 4950 (MO!, USM!)
